

Wayfinders at Fresno State Peer Mentor Program

Plan fun activities with your mentee and build strong lifetime connections.

Gain Volunteer Hours

Are you bored of the same old volunteer opportunities? Would you like to make a positive impression on someone else's life and have fun doing it?

Wayfinders Peer Mentor Program may be just the place for you. As a peer mentor, you would take on a social role where the mentor will initiate communication with the student to plan and participate in fun activities both on and off campus. Examples of this are attending Fresno State sporting events, going to the movies, concerts, out to eat or just hanging out.

The mentor relationship is beyond assistance and should reflect shared experiences that result in mutual benefit. Mentors create the opportunities to develop respectful, meaningful and reciprocal relationships.
