## JUNE 1991

3 SUMMER SESSION begins (June 3-Aug. 23); see Summer Session Catalog

3 DISCOVERY '91 - orientation sessions with academic advising for new undergraduates and their parents (June 3-July 5)
28 Last day for faculty to submit CHANGES AND CLEARANCES (incomplete grades, approved petitions, departmental
approvals, transfer transcripts) required for graduation with a bachelor's degree at the end of the Spring 1991 semester

## JULY 1991

5 Last day to pay fees for Early Registration for the Fall 1991 semester

## 1991 FALL SEMESTER

1 Final ADMISSION APPLICATION deadline to attend the Fall 1991 semester
ADMISSION APPLICATION cycle begins for Spring 1992
27 SEMESTER begins
ACADEMIC ASSEMBLY for faculty MINI-DISCOVERY '91 - orientation for new undergraduates
28 Priority ADD DAY for Early Registration
29 WALK-THROUGH
REGISTRATION
30 Regular ADD/DROP period begins
SEPTEMBER 1991

Key: Calendar dates in color denote classes in session.

The individual California State Colleges were brought together as a system by the Donahoe Higher Education Act of 1960. In 1972, the system became The California State University and Colleges. Ten years later, the system became The California State University. Today, all 20 campuses have the title "university."

The oldest campus - San Jose State University - was founded as a Normal School in 1857 and became the first institution of public higher education in California. The newest campus - California State University, San Marcos - began admitting students in fall 1990.

Responsibility for The California State University is vested in the board of trustees, whose members are appointed by the governor. The trustees appoint the chancellor, who is the chief executive officer of the system, and the presidents, who are the chief executive officers on the respective campuses.
The trustees, the chancellor, and the presidents develop systemwide policy, with actual implementation at the campus level taking place through broadly based consultative procedures. The Academic Senate of The California State University, made up of elected representatives of the faculty from each campus, recommends academic policy to the board of trustees through the chancellor.

Academic excellence has been achieved by The California State University through a distinguished faculty, whose primary responsibility is superior teaching. While each campus in the system has its own unique geographic and curricular character, all campuses, as multipurpose institutions, offer undergraduate and graduate instruction for profes-
sional and occupational goals as well as broad liberal education. All of the campuses require for graduation a basic program of General Education Breadth Requirements regardless of the type of bachelor's degree or major field selected by the student.

The CSU offers more than 1,500 bachelor's and master's degree programs in some 200 subject areas. Many of these programs are offered so students can complete all upper-division and graduate requirements by part-time late afternoon and evening study. In addition, a variety of teaching and school service credential programs are available. A limited number of doctoral degrees are offered jointly with the University of California and with private institutions in California.

System enrollments total more than 360,000 students, who are taught by some 20,500 faculty. Last year the system awarded more than 50 percent of the bachelor's degrees and 30 percent of the master's degrees granted in California. More than 1.2 million persons have been graduated from the 19 campuses since 1960.

Ihis year California State University, Fresno celebrates its 80th anniversary. Many fine minds and hardworking hands have built this institution into a dynamic and prestigious university.

This year the General Catalog reflects our heritage in various ways. You will find here the stories of a number of our founders - the giants in our past who built this school's future as they envisioned it. You will also find complete information on the university's current courses of study - course offerings for today that have taken shape on yesterday's foundations.

It has been my privilege and pleasure to serve as president of California State University, Fresno for more than a decade. During that time, we have continued to build: we have built facilities excellent ones; we have built new degree programs - ones we could barely imagine a few short years ago; but most importantly, we have helped tens of thousands of students build for their futures.

Students from every era have had hopes and questions, goals and challenges much like your own. Just as they once did, you now look to this university for the tools and materials with which to shape your personal and professional lives. I am confident you will find that CSU, Fresno is a university still building for the future - your future!

Harold H. Haak
President California State University, Fresno

## California State University, Fresno began as a two-year

state normal school with 150 students in 1911, largely preparing teachers for their profession.
Today, 80 years later, CSU, Fresno is a stimulating center of intellectual and cultural activity, dedicated to academic excellence, integrity, and freedom. With nearly 20,000 students registered, the university recognizes its commitment to develop qualified professionals who will become tomorrow's leaders in every walk of life.

CSU, Fresno offers challenging and innovative programs in the liberal arts and sciences, in the professions, in applied fields, and in special and interdisciplinary areas. Departmental programs provide unusual and interesting opportunities for a proficient and enriching university experience.

The excellence of the CSU, Fresno faculty is documented in a variety of ways, including recognition from national and international associations. Eighty-seven percent of the tenured faculty hold doctoral degrees in their areas of study. However, the most important characteristic of the CSU, Fresno faculty is their ability to care about students and their willingness to give of their time on an individual basis.

The edge of Fresno, against a backdrop of the beautiful Sierra Nevada. Designated as an 1978, the campus and its parklike setting creates a beautiful environment for making and pursuing a quality education.

The 327-acre main campus features more than 46 traditional and modern buildings.
An additional 34 structures are on the 1,083-acre University Farm, which is considered one of the most modern and best equipped agricultural facilities in the West.

Outstanding research facilities, including computer, engineering,
the northeast arboretum in new friends
 electronics, and industrial technology laboratories, are complemented by cultural and recreational facilities. The campus has two student unions, indoor and outdoor theaters for drama and music, and swimming facilities. Students can also make use of many individual and team sport facilities, a baseball stadium at Beiden Field that seats 4,575 spectators, and a 30,000-seat football/soccer stadium.

The CSU, Fresno campus is fully accessible and students with mobility impairments will find the naturally flat terrain easy to navigate.

Thhe Community. Fresno's metropolitan area has a population of more than 460,000 and yet it maintains a friendly "big town" feeling. Cultural events are numerous and feature such groups and facilities as the Fresno Philharmonic Orchestra, the Fresno Arts Center, the Fresno Metropolitan Museum, and several live theater organizations.

The community is proud of CSU, Fresno and enthusiastically supports many of the university's programs, whether they are sports, the arts, academic competitions, or other special events.

## Recreation. Fresno is the only place in the nation

 within an easy drive of three national parks - Yosemite, Sequoia, and Kings Canyon. Therefore, it isn't surprising that much of CSU, Fresno's recreational and social life centers on the outdoors.Boating, fishing, water skiing, and windsurfing at one of the six nearby lakes are popular activities during the spring and summer. Winter recreation includes downhill skiing and cross-country skiing at nearby Sierra Summit or Badger Pass in the beautiful Sierra Mountains.

All year round, nature lovers and outdoor sports enthusiasts can choose from a variety of parks to visit while in Fresno.
One favorite haven is Lost Lake Park. Only 24 miles northeast of Fresno, Lost Lake boasts of a 70-acre primitive nature study area and a 38-acre lake. Recently, a part of the park was filled with 70,000 tons of sand to create seven volleyball courts and play host to the Pro Beach Volleyball tournament.

In addition to an extensive intramural program, on-campus recreation includes a series of current films, drama productions, and concerts ranging from rock to jazz to classical. The annual Vintage Days celebration and a number of university receptions, winetastings, art festivals, and the University Lecture Series are among the many events open to the public. Informal meeting places such as the University Student Union and the Satellite Student Union are visited by students throughout the day and evening.

## University

Isabel Allende
A celebrated novelist, Isabel Allende is most known for her internationally acclaimed best-selling novel, The House of the Spirits. Born in Santiago, Chile, and the niece of the late President Salvador Allende, her novels keep alive the memory of her family and country.

Mary Cunningham Agee
Mary Cunningham Agee is president of Semper Enterprises Inc., a venture capital and strategy consulting firm. She is also executive director of The Nurturing Network Inc. which offers support and services to college and working women. Among her most recent achievements is her book, Powerplay, which was on the best-seller list of The New York Times.

## Lecture Series

Thhe University Lecture Series is an educational forum featuring distinguished speakers, performers, and public figures. The Lecture Series seeks to make available unique opportunities which benefit both campus and community.
The programs are open to all who wish to attend.

Featured speakers and performers have included President Gerald Ford, reporter Charlayne HunterGault, journalist Ellen Goodman, artist Judy Chicago, dancer Mikhail Baryshnikov, lawyer Elliot Richardson, Israeli U.N. Ambassador Abba Eban, activist Maki Mandela, historian Martin Marty, politician Geraldine Ferraro, Senator Edmund Muskie, singers Sweet Honey in the Rock, playwright Luis Valdez, Nobel Laureate Elie Wiesel, and Marian Wright Edelman, an advocate of disadvantaged children.

The Lecture Series is funded in part by the Office of the Vice President for Academic Affairs, the University Student Union Board, and the Associated Students Inc. In addition, special programs may be planned, supported, or jointly sponsored by off-campus groups or organizations.

## Carl Sagan

Carl Sagan is professor of astronomy and space sciences and director of the laboratory for planetary studies at Cornell University. He played a leading role in the Mariner, Viking, and Voyager expeditions to the planets.

## Gwendolyn Brooks

Gwendolyn Brooks is a Pulitzer Prize-winning poet and Poet Laureate from Illinois. In 1985, she was named Consultant-in-Poetry to the Library of Congress.

President Jimmy Carter
The 39th President of the United States, Jimmy Carter, receives a warm CSUF welcome. President Carter's most significant achievements were the signing of the Camp David Accords and his concern for human rights around the world.

## Accreditation

California State University, Fresno is fully accredited by the California Board of Education and the Western Association of Schools and Colleges.

CSU, Fresno is also a member of the Western Association of Graduate Schools, the Council of Graduate Schools in the United States, and the American Association of Colleges for Teacher Education.

School, department, or program accreditations, certificated memberships, and accrediting organizations include:

- American Assembly of Collegiate Schools of Business
- National Council for Accreditation of Teacher Education
- Commission on Teacher Credentialing
- Council on Education of the Deaf
- American Speech-Language-Hearing Association
- American Chemical Society
- Accreditation Board for Engineering and Technology
- State Board of Registration for Professional Engineers and Land Surveyors
- National Accreditation Council for Environmental Health Curricula
- State Department of Public Health
- American Dietetic Association
- National Association of Industrial Technology
- Foundation for Interior Design Education Research
- Accrediting Council on Education in Journalism and Mass Communications
- National Association of Schools of Music
- National Association of Schools of Theatre
- California Board of Registered Nursing
- National League for Nursing
- American Physical Therapy Association
- Council on Rehabilitation Education Inc.
- Council on Social Work Education
- National Athletic Trainers Association
- National Recreation and Park Association

## The University's Mission

The primary mission of California State University, Fresno is to provide comprehensive bachelor's and master's degree instruction for qualified students. The university, in partnership with the University of California, offers an interdisciplinary doctoral degree in educational leadership. As the major public university in the San Joaquin Valley, a large geographical area with a rapidly growing population, the university especially serves students from its particular service area: Fresno, Madera, Kings, and northern Tulare counties.

The university provides a General Education Program for the purpose of fostering lifelong learning and works in partnership with community colleges for the matriculation of transfer students. The university maintains strong programs in the arts and sciences as well as in many professional and applied fields. The university also emphasizes programs in agriculture and business, reflecting its location in the world's premier

## The University's History

CSU, Fresno is the sixth oldest in The California State University system. It began with the establishment of the first junior college in California in 1910 and a state normal school in 1911 which, under a single administration, offered two-year programs in general and vocational training and in teacher preparation.

Between 1911 and 1921 a campus was built on University Avenue, then the northern border of Fresno. In 1921 the combined schools became Fresno State Teachers College, authorized to offer a four-year program and grant the bachelor of arts degree in teaching.

In 1935, by act of the Legislature, the official designation became Fresno State College. A variety of degree programs, in addition to those related to the teaching credential, were authorized at that time. Following World War II, expansion accelerated, both academically and physically. In 1949, CSU, Fresno offered its first master's degree; today, it offers this degree in 43 fields of study.

Between 1953 and 1958 the college was moved from the old campus site, by then surrounded by the city of Fresno, to a 1,410-acre site six miles to the northeast. In 1961, under the newly created California State College system, the administration and control of the state colleges was transferred from the State Board of Education to an independent board, the Trustees of The California State Colleges. By legislative action in 1972, the state college system became The California State University and Colleges, and in 1982 the system was renamed The California State University.

In January 1991, the School of Education and Human Development received final approval of an interdisciplinary doctoral degree in educational leadership, offered in partnership with the University of California, to begin fall 1991.

The present official seal of the university was designed by artist and CSU, Fresno Professor Emeritus Darwin Musselman, who also created the new seal used by The California

Arun Gandhi, grandson of Mahatma Gandhi, praises the university and students for their interest in his grandfather's teachings about nonviolence. Arun Gandhi attended the on-campus unveiling of the bronze bust of the Indian leader on October 2, 1990.

State University system. It includes the "lamp of learning" and the "book of knowledge." The Latin inscription "Lvcem Accipe Vt Reddas" translates to "Receive the light that you may give it forth." The date 1911 refers to the founding year of the school.

Between 1965 and 1968 an approximation of university organization was accomplished on the Fresno campus and the transition to official university status in the state system became effective on June 1, 1972. The university now comprises the Schools of Agricultural Sciences and Technology, Arts and Humanities, Business and Administrative Sciences, Education and Human Development, Engineering, Health and Social Work, Natural Sciences, and Social Sciences,
the Division of Extended Education, and the Division of Graduate Studies and Research.

Fresno Normal School, in 1911, had an enrollment of 150 students, most of whom were women. By 1940 enrollment had increased to 2,000 students, by 1964, to 7,500. In the fall of 1990, more than 19,950 students registered at California State University, Fresno.

The presidents, in order of tenure are:
Charles L. McLane (1911-27)
Frank W. Thomas (1927-48)
Arnold E. Joyal (1948-64)
Frederic W. Ness (1964-69)
Karl L. Falk (Acting) (1969-70)
Norman A. Baxter (1970-80)
Harold H. Haak (1980-91)

## THIS IS CSU, FRESNO

## 80 years and always building for the future - your future

Fresno Normal School held its first day of classes here, in the original Fresno High School at Tuolumne and 0 streets.

It was 1911. The valley's first automobiles competed with horses and buggies and railway trolleys on Fresno's dusty thoroughfares. Five years earlier, Californians had been jolted by the San Francisco earthquake, and now, in 1911, C. P. Rodgers would fly from New York to Pasadena to make history: He would spend more than 82 hours in the air and complete the nation's first transcontinental airplane flight.
In Fresno, just six days before that flight, another event occurred which would make history in California education. Fresno Normal School opened its doors for the first time, and 150 students enrolled to prepare for careers as teachers.

The remarkable evolution of the school from its beginnings as a two-year normal school into a full university is our focus here.

## 1930-52

In 1936, as the nation was working

Bulldog float, 1932. its way out of the depression, the faculty members of Fresno State celebrated the school's 25th anniversary and the fact that it had become a full liberal arts college. One year before, the school had removed the requirements for College life, circa 1940. education classes from its four-year degree. "Teacher" had also been officially dropped from the name. The retitled Fresno State College had exceeded by four times the expected growth rate for the 25 -year time span.
...When the war ended in 1945, returning veterans flocked back to the college. The college grew so rapidly that a new, larger campus was needed. Eventually, the Shaw Avenue site was selected.

## MARY C. BAKER

Baker Hall "A head of her time," are words that could easily describe Mary "Molly" Baker, for whom Baker Hall is named.

Baker was responsible for establishing the first
 women's residence at Fresno State College in what originally was a Mormon church. From 1927 to 1948, she was the dean of women, counseling many women who were referred to as "Molly's girls."
In a 1962 interview Baker was quoted to say, "It distresses me to see so many of our bright women not using their brains and their abilities.... And, I wish our young women would realize that while marriage is a normal state of life, it inn't disastrous to be unmarried."

 growth patterns with a sharp increase in student population. By its 50th anniversary in 1961, 5,900 students were on campus.
...Across the nation, campus officials had their hands full as students became more actively involved in political and social issues. In 1970, student protests against the Vietnam War resulted in the killing of four by the National Guard at Kent State University in Ohio.
While our campus was coping with social problems, other important changes occurred. In 1972, Fresno State became California State University, Fresno, a full university recognizing its growth in graduate and professional programs as well as teacher education and the liberal arts.

The prime mover for the establishment of a normal school in the Fresno area was Charles L. McLane, the first president of California State University, Fresno - then the Fresno Normal School.

Having arrived in Fresno in the 1890s, McLane quickly discovered the need for a normal school to train teachers for the Fresno area. As superintendent of schools, he constantly struggled to fill his teaching positions with qualified personnel. He made a study of the qualifications of California teachers and found that sections of the state close to normal schools or universities were adequately supplied with well-trained teachers. After years of tedious work with the Chamber of Commerce and the Board of Education, McLane pushed through a bill authorizing establishment of a two-year

In 1961 this science building was named McLane Hall. It cost more than $\$ 2$ million when it was built in 1955. Today, its occupants include students interested in careers in the allied health professions.
normal school in Fresno.
McLane will also be remembered for other major accomplishments: the construction of the University Street Campus - now Fresno City College - and the extension of the curriculum to a full four-year course of study. Fresno's McLane High School also bears his name. 44 percent are illiterate

The finishing touches on this tall structure were completed in 1951, followed by additions in 1954 and 1974. In 1970, a year after the death of Marion A. Grosse, the building was dedicated in his honor.
Born in Milan, Italy, Grosse, whose distinguished career spanned more than a quarter century, became the first chair of the Industrial Arts Department in 1956.
Under his leadership, a credential program recognized throughout the state nized throughout the state
and nation was established as were a strong graduate curriculum and an industrial technology technology

## MARION A. GROSSE <br> Industrial Technology Building

The 1965-66 General Catalog reflects another reorganization: schools replace divisions with the exceptions of social work and engineering

Fresno State baseball and Pete Beiden have been one and the same for more than four decades. During his coaching career, Beiden guided the Bulldogs to 600 wins in 21 seasons ( 1948 -1969), placed third in the 1959 NCAA World Series, and brought home the California Collegiate Athletic Association championship nine times!
Beiden's association with Fresno State baseball is still prevalent. Just take a drive down Cedar Avenue between Barstow and Bulldog Lane and you'll see the sign, "Beiden Field." In 1972, the same year Beiden was inducted into the National Collegiate Baseball Coaches Hall of Fame, Varsity Park was renamed in Beiden's honor. Today, Beiden Field is one of the premier college ballparks in the nation.

In 1972, our name was officially changed to California State University, Fresno.

The 70s saw new groups of foreign students beginning to arrive on campus and enrich its texture. During that decade, the population of foreign students grew from less than 3 percent of the students to almost 10 percent. By 1979, the CSU, Fresno campus had the largest foreign student population in the CSU system.

# PHEBE CONLEY <br> Conley Art Building 

In 1975, a patron of the arts had her name placed on the $\$ 1.4$ million art building on the CSUF campus. Phebe Conley, who has maintained a keen interest in higher education for more than 60 years, spent 10 of those years as a member of the CSU Board of Trustees.

About her work as a trustee, she says, "I did all my homework and paid attention to the committee assignments. I happened to be chair of the health committee that was to deal with making a proper health program for students. We listened to the proposition, and one
doctor was afraid of socialized medicine. He would just have nothing to do with it. I argued with him and finally persuaded him to vote for it. So we got the student health program. I felt good about that." Phebe Conley also shares some good memories about her childhood and talks about her father's view of education. "My father was a doctor in Sacramento. He had ideas about education, and he thought it was foolish for children to spend so many hours sitting in a schoolroom on hard chairs. So we had a little school in our backyard. We learned everything we needed to learn very quickly and had the whole afternoon to be outdoors rambling around or doing something useful."

Upon receiving the Carnegie Medal for saving the lives of four classmates who were involved in a tobogganing accident, Phebe Briggs, then 24, was quoted in The Herald as saying, "I appreciate deeply the spirit that prompted my friends to do this for me, but ever since that night I have regretted that I could not have also helped Miss Elizabeth Mylod. Her body was under the ice and I could not get to her. Somehow I feel that I shall never overcome this regret."

Joyal Administration Building
Arnold E. Joyal, the university's third president, often found himself operating as the school's public relations person, politician, creator, and innovator. He created many campus advisory groups and was largely responsible for the establishment of agricultural education on campus through funds made available via pari-mutual horse racing.
The lack of air conditioning was also a major problem creatively solved by Joyal. He had made several requests for funds to air condition campus buildings, but the Legislative Committee turned him down every time. Joyal, a patient man, waited until the committee met at Fresno State and held the meeting in the hottest room on campus on a day when the temperature was well over 100 degrees - the request was approved at that meeting.
While most of his career was geared toward administration, Joyal's true avocation was teaching. In 1964 he retired as FSC president and began a teaching career in educational administration at Hayward State College until 1972.

JOHN W.
WRIGHT
John Wright Theatre
John Wright began teaching at the university in 1929. With him he brought his knowledge and enthusiasm for the theatre. He discovered his love for the theatre at age 7 , when he developed his first repertory company with his classmates called the Knights of the White Shield.
As the sole drama teacher, Wright directed several plays, including one production of "Berkeley Square," which went on the road and performed at the Community Playhouse in San Francisco in 1932.

Three years later he was instrumental in purchasing the old Trinity Methodist Church near the original campus site. He converted it into the University Street Playhouse, a theatre for the Drama Department. In 1976, in response to community interest, CSUF's Little Theatre was named in honor of John W. Wright.

The $\$ 2.1$ million John Wright Theatre renovation will allow everyone to have a full view of the stage.

Since 1980 there have been many more changes in the institution, its students, and its programs. On campus we have seen institutional growth through physical expansion with the opening of the Henry Madden Library addition, the Satellite Student Union, the Leon S. Peters Business Building, and the expansion of Beiden Field.

# HENRY M. <br> MADDEN <br> Henry Madden Library 

Students of the past, present, and the future are all indebted to Henry Madden for whom the library is named. Madden is regarded as the man who, in essence, built the

When Madden became the university's second librarian in August 1949, he found a "pitifully inadequate" collection of 67,000 books, managed by a staff of six librarians

When he retired in August 1979, there were 577,000 volumes, 29 librarians, 40 full-time clerical workers, and 137 student assistants whose part-time hours would have made 30 full-time positions.
Madden had high standards not only for himself, but for others as well. He was particularly interested in the usage of the English language and often wrote letters to various newspaper editors reminding them of right and wrong.

In his 1982 Fresno Bee editorial, Tom Kirwan confirms Madden's extensive correspondence with the newspaper, "... he was a newspaper junkie. He had a high regard for journalism even if its practitioners exasperated him oftener than not."
One such letter sent to The Bee was about the use of the word permanency: Educators, he complained, "are discarding competence for competency, and now you are rushing permanence to the dust bin. Excellency lurks around the corner."

Three days later there was a follow-up: "Out of the corner of my ear, during ... a IV commercial, I heard 'fragrancy.' God help us."

Yours despondently, Henry M. Madden

The four-minute mile, the seven-foot high jump, and the 15 -foot pole valt were all once thought of as impossible human feats of athleticism.
For those extraordinary athletes who broke those barriers, history will preserve their efforts for all time, and Cornelius "Dutch" Warmerdam can count himself amongst those rare individuals who achieved such greatness.
On April 13, 1940, "The Flying Dutchman," as he was often called, did what no other human was thought to be able to do. Before a stunned crowd at Edwards Stadium in Berkeley, Warmerdam cleared 15 feet on his second attempt in the pole vault using a bamboo pole - state-of:-the-art for the 1940s.
Dutch Warmerdam retired in 1980, the same year the track and field facility was named Warmerdam Field. Even though this marked the end of a 33 -year coaching career at CSUF, his legacy to the school and to the sport of track and field will live on.

## McKEE <br> FISK

McKee Fisk Building
The McKee Fisk building is not named after two people as many of you may have assumed. In 1981, it was named after one person, McKee Fisk, leader of the CSUF business programs for more than 20 years, from
 1948 to 1969.

By committing his time, energy, talents and in some cases, his money to improve business education at this university, Fisk is in large part responsible for the prominence the CSUF School of Business and Administrative Sciences enjoys today. He began his career at CSUF as a professor and head of the then Division of Business. Not satisfied with the current educational status quo, Fisk was a pioneer
and innovator of many university business programs. He was responsible for CSUF being the first California State University to be admilted to the prestigious accrediting body, the American Assembly of Collegiate Schools of Business. Known as the "Dean of Deans," McKee Fisk will be remembered for bringing national recognition and acclaim to the university.

| Bulldogs are NIT <br> basketball champions | Agnes Trent, 71, <br> graduates | The University Lecture Series brings <br> Mikhail Baryshnikov to Fresno; <br> CSUF's football team claims <br> the PCAA championship |
| :---: | :---: | :---: |
| 1983 | 1984 | 1985 |

Today, we are reaching out to tomorrow. We will see new expansions in this university, at our satellite locations around the valley, through televised courses for the region, and across international boundaries.

As we progress toward our next centennial celebration in the year 2011, there will be many changes in faculty, students, and the campus. One thing will remain constant, however. It is the continued commitment of California State University, Fresno to serve the area and its population with quality education.

## ROBERT E. DUNCAN <br> Duncan Athletic Building

The structure bearing Duncan's name was funded through a $\$ 1.3$ million community campaign which he chaired. It houses a weight training room, conference rooms, offices for the football and soccer coaching staffs, locker rooms, and the offices of the Bulldog Foundation, the community support group for intercollegiate athletics at CSU, Fresno.
"Reflection on" and then "total commitment for" CSU, Fresno has been a trademark of the Duncan family for more than 30 years.

Robert E. Duncan has chaired fundraising efforts that have raised in excess of $\$ 30$ million for university athletic and academic programs. Some of these projects include Bulldog Stadium, the University Business Center, and the Duncan Athletic Building.
 community in the San Joaquin Valley. through lean times in the agricultural community and watched the company he worked for flounder on the brink of failure. However, he had seen the floundering company's potential and, 10 years later, had taken his first big step as an entrepreneur by purchasing the company from its owner. He went on to lead the company through change and expansion until Valley Foundry and Machine Works became a worldrecognized supplier of equipment to the agricultural industry.
During those same years, the San Joaquin Valley grew into its potential as one of the world's richest agricultural areas. With the same commitment he had had toward his business, Leon S. Peters assumed leadership positions with a myriad of organizations in the community - its hospitals and health councils, its industrial boards, its youth clubs, its museums - and its university. -From Rich Traditions 10 Buandess Tomorows....

## Moving toward the 21st Century

## Education

A state-of-the-art Education Building is scheduled for occupancy in 1993. The five-story facility, with 115,806 square feet, is expected to cost more than $\$ 17$ million. Its location on the corner of Shaw and Maple avenues will provide relatively easy access to the facility by area school personnel and the educational community.
The blueprints and architectural drawings allow the viewer to see firsthand the clinical areas and computer and microteaching laboratories. One of the special features is a Learning Development area that will be organized for observation and teaching young children, from infants through age six.

## Engineering

Construction is under way on an $\$ 11.1$ million state funded addition to the Engineering East Building. The three-story building will have more than 52,000 square feet and will include a 123 -seat lecture hall, three additional lecture classrooms, 35 faculty offices, and a wide variety of laboratories including facilities for instruction in laser and microwave technology, electronics, and computer aided engineering. The structure will interconnect with the existing building on the first and second floors.

Music
For the next year or so, the usual sounds of music making will be competing with the rattle of concrete mixers, the whine of power saws, and the rap of hammers as the Music Building undergoes its first remodeling and expansion since its construction 40-odd years ago. The new structure, which will go up on the east side of the old building, is the start of a $\$ 9.5$ million project. The target date for moving into the new building is fall 1992. At that time the old one will be closed for extensive remodeling expected to take another year. -David Hale, Bee Arts Writer

CSU, Fresno shakes at 5:04 p.m. ... San Francisco earthquake claims as many as 270 lives and more than 3,000 are injured

CSUF enrolls 20,000 students in 60 bachelor's and 43 master's programs; a doctorate in educational leadership is offered; Faculty: 1,201; Budget: \$138,967,862

CSUF's seventh president, Harold H. Haak, announces that he will resign in July 1991

I
In an environment such as the university community, where highly trained specialists represent the norm, it is a distinct honor to be recognized as the Outstanding Male Employee of the Year for 1990-91.
For the past 20 years, it has been my pleasure to be part of the internationally recognized Enology Program at CSU, Fresno. This award is not only a tribute to me but also a recognition of the excellent teaching, research, and service atmosphere which exists at CSUF. It is this environment which allows us all to strive for improved performance that benefits everyone.
Every time our former students earn praise for their endeavors as winemakers, we in the program feel enormous pride in their accomplishments. It is this sense of accomplishment that drives us to continue in the proud tradition of providing the best trained enologists and winemakers.

Kenneth C. Fugelsang<br>Winemaster and Adjunct Assistant Professor for Enology and Food Science

# Staff Male and Female <br> EMPLOYEES OF THE YEAR 

ThIhe things important to me are my faith, my family, and my association with the Department of Anthropology here at California State University, Fresno. When I received the Outstanding Female Employee of the Year Award, I felt so proud being selected by my fellow staff members across campus who felt that I was deserving of this honor. I feel privileged to be working at a culturally diverse university and anthropology has taught me that even though we come from different cultures we can learn from one another. I have worked in an educational environment for many years and the joy and fulfillment I get by helping students stride toward their educational goals is extremely rewarding. I shall continue to work hard for this outstanding institution because I know that all of us here at this university strive for excellence and it is this excellence that will draw students, faculty, and staff members to our university. I shall never forget my association with CSUF, and I shall cherish each moment for the rest of my life.

Geraldine "Geri" R. Morales
Departmental Secretary, Department of Anthropology

## Sources/RESOURCES

# Activities and Student Development 

Office of Student Activities and University Student Union Student Affairs/CSUF Association University Student Union, Room 306 (209) 278-2741

Director, Steven S. Mortensen

Involvement in your university life means that you take part in shaping your learning experience. When you apply your academic training to areas outside the classroom, meet new friends, and explore campus life, you expand your personal skills.

## Student Activities and University

 Student Union Office. This office is in the University Student Union, situated in the center of the campus. It is responsible for the Union and Satellite Student Union, co-curricular student activities, recreation and intramurals, and provides information about student groups and major student programs. Office staff issue permits for use of the Activities Plaza (Free Speech Area) and reserve campus facilities for student use. They also recognize student organizations, assistingstudents and their groups in planning activities and developing programs.
Student Organizations. More than 200 student organizations provide CSUF students ways to make new friends, create programs of special interest, develop leadership skills, and work together toward common goals. Student organizations are responsible for their own financial management, operation, and development of activities. A faculty or staff adviser provides assistance and continuity as needed.

Approximately 70 student groups are directly related to academic majors and programs, while a wide range of religious, political, cultural, and special interest groups give you many additional avenues for participation. You can contact organizations through the Student Activities Office.

Vintage Days is a four-day celebration of spring, and it's wild! Planned by a student committee out of the Student Union, Vintage Days offers fun and entertainment for CSUF students and the Fresno community. There are crazy competitions, an outrageous Air Guitar Concert, a carnival, and a craftsfaire. You can't miss it!

Recreation Center. Bowling, billiards, video games, and table soccer are just a few entertainment options you have in the Recreation Center. For those long breaks, relax in the TV room that receives programming via satellite.

Coffee House. On a break between classes and famished? The Coffee House is the place to go. From fresh-
made sandwiches to hot meals to a full salad bar - the Coffee House has it all.

Campus Recreational Services. Associated Students fees and the university jointly fund the CRS program. It serves the recreational and physical fitness needs of students, faculty, staff, active alumni, and at limited times, the general public. Obtain information about team sports or recreational use of the physical education facilities from the North Gym, Room 109, 278-2526.

## University Student Union and

 Satellite Student Union. The Union is supported primarily by student body fees. Therefore, students play an active role in the governance of the Union by serving on the University Student Union Board and/or one of its committees: budget, program, or services and facilities including support for the University Lecture Series and the USU Student Grant Program.The Satellite Student Union, Whitfield Hall, is an all-purpose entertainment and cultural center able to accommodate about 830 people.

At the Information Center you may purchase concert tickets, money orders, bus tickets, discount movie tickets, Greyhound tickets, and University Lecture Series tickets. You can also pay for the UDWE and the TOEFL exams.

Reservation Center. This office reserves facilities for student clubs and organizations (reservations for USU rooms, the Satellite Student Union, Whitfield Hall, The Pit, USU Balcony, and the CSUF Amphitheatre). Student clubs and organizations may use these facilities for events such as lectures, dances, concerts, and special events.
The Programs Committee is a group of student volunteers whose charge is to schedule, promote, and produce co-curricular programs. Composing the Programs Committee are the: Fine Arts, Cultural, Lectures, Concerts, Recreation and Leisure, Film and Video, Social Concerns, Performing Arts, College Bowl, Special Events, Union Square and University Co-Sponsorships committees. The Programs Committee is open to everyone and offers involvement, excitement, and leadership opportunities.

[^2]TThe Office of Advising Services provides a variety of services designed to help you achieve your educational goals and effectively use the resources of the university.
Our office staff assist you in undergraduate academic advising, undeclared major advising, academic petitions procedures, change of major services, general academic problem solving, and appropriate referrals. You may also come to our office when seeking answers regarding university policies and procedures.
Major Advising. Advising in specific requirements for a major, minor, or teaching credential is done by the various departments. You should meet with your faculty adviser at least once each semester before you register for classes.
Depending on your major department's procedures, an adviser will be assigned to you or selected by you. A close working relationship with your major adviser and other department faculty can help you determine your program and choose appropriate experiences related to your academic and career goals. However, the ultimate responsibility for knowing and meeting all graduation requirements is yours. Therefore, you would be wise to check each semester's grade report and your evaluation for correctness. (See Baccalaureate Degree Requirements.)

## Undeclared Major Advising.

 Undeclared majors are advised in our office. Our advisers can suggest faculty contacts in the academic departments who will help you determine which resources on campus to pursue. Also,experienced vocational counselors are available in the Career Development and Employment Services Office where you will be assisted on an individual basis with the appropriate use of vocational testing when necessary.

Freshmen and undeclared majors are encouraged to enroll in the following course:

Univ 1. Introduction to the University (1-3). Helps the entering student make a smooth transition into the university culture and deals with the purposes of higher education and with strategies for achieving one's educational goals.
Special Major Advising. An undergraduate student interested in designing a special major initiates the process with an appointment to obtain an application form in our office. A graduate student interested in establishing a special major at the master's level should consult the graduate dean. (See Special Major for the Bachelor of Arts Degree and Special Graduate Programs - Special Major.)
Academic Petitions. Students must file academic petitions in our office. For further information, see Student Academic Petitions. Grade Correction Request forms are also submitted to our office for processing. Petition forms for repeating a class and substituting the new grade are obtained in the Joyal North Lobby. (See Repeating Courses.)
Change of Major. To change your major, initiate the procedure in our office. Graduate (including all postbaccalaureate students) and international students should process major changes in their respective offices.
Exit Interview. If you are considering leaving the university at the end of the semester for any reason other than graduation, check with our office to make sure of your options and to complete the necessary administrative procedures.

Office of Advising Services Student Affairs

Joyal Administration, Room 219
(209) 278-2924

Director, J. Richard Arndt

# Alumni Association 

CSU, Fresno Alumni Association Inc. Joyal Administration, Room 148 (209) 278-ALUM

Executive Director, Linda Van Kirk

The CSU, Fresno Alumni Association serves as a vital link between the university, its alumni, and the greater Fresno community. Its primary purpose is to develop and apply its funding and volunteered-time resources toward the advancement of higher education and enhanced communication among alumni, campus administration, students, and friends.
The Alumni Association's continuing goals are to provide scholarships to undergraduate and graduate students and to support campus improvement projects. A volunteer board of directors governs the association.
In addition to sponsoring student scholarships and the annual reception for alumni scholarship recipients, the association hosts a Golden Grad Re-
ception each year to honor graduates of 50 or more years. Alumni and friends also enjoy a special evening at the theater and celebrate at an annual homecoming tailgate party. In the fall, Alumni Loyalty Fund appeals are made to encourage support of association projects.
The CSUF Alumni Association has grown and matured along with the university. The Alumni Association network links together more than 2,800 members. CSU, Fresno alumni represent 56 academic areas of study and have migrated to every state in the nation.

In an ongoing effort to serve members, the Alumni Association offers many member-only discounts and privileges. These include group health and life insurance rates, travel programs, use of CSUF's recreational facilities at a discount price, discounted admission for various university events, and library privileges at all CSU campuses.

Membership is open to graduates and friends of the university. Annual dues are $\$ 15$ for new graduates, $\$ 25$ for single membership and $\$ 35$ for joint membership (husband and wife). Life memberships are $\$ 200$ and $\$ 300$ respectively. Business memberships are also available.

Publications. Contact is a news magazine mailed to all alumni and friends with whom the association is in touch. Each issue features an Alumnac section, which highlights the accomplishments of CSU, Fresno alumni. Contact/Alumnac also details events and activities.

Members of the Bulldog Alumni Band enjoy the homecoming tailgate festivities.

Dues-paying members also receive The Blue Wave, an informative bimonthly newsletter published by the alumni association. The Blue Wave features such articles as Alumni on the Move, Chapter Chatter, and a calendar of events.

## Academic and Regional Chapters.

 The association will keep you in touch with the CSUF school/department from which you graduated. The School of Business, the Department of Social Work Education, and the Department of Criminology are official academic chapters of the Alumni Association. Satellite extensions are now being formed throughout the state to further involve out-of-town alumni in all of the fun. Additional chapters also include the Chicano Alumni Association and the South Valley Chapter - a chapter formed of alumni residing in the southern Fresno, Kings, and Tulare Counties.Student Alumni. The Student Alumni Association offers full benefits of alumni membership. Additionally, the Student Alumni Association will host seminars, workshops, and social events throughout the year. Monies raised through this joint student/alumni venture benefit Student Alumni projects and scholarship programs. Telephone 278-ALUM for further information.

Senior Pictures. The Alumni Office coordinates the campus senior picture program. If you are a senior, be sure to watch your mail or the Daily Collegian for notices of when and where photographs will be taken. Photographs are taken once each semester, free of charge.
Scholarships. Students at CSU, Fresno may apply for Alumni Scholarships through the Financial Aid Office. Awards are made to undergraduate and graduate students based on need, scholarship, leadership, and involvement. The CSU, Fresno Alumni Trust Council manages funds for scholarships. The Trust Council oversees the investment of the Alumni Association's contributions and the distribution of its scholarship funds.

Your Alumni Association is a dynamic organization whose programs and services are designed to meet the variety of needs and interests of its alumni while providing support to the university. If you have an interest in and commitment to the growth and future of CSUF and the community it serves, call the Alumni Association.

The Associated Students Senate meets every Tuesday at 3 p.m. in the University Student Union, Rooms 312 314. These meetings are open to the public and every student is encouraged to attend and input their ideas and concerns.

Associated Students Inc. (ASI) of CSU, Fresno opened its doors in 1975. Today, ASI provides a means for responsible and effective participation in the governance of the campus. It serves as an official voice through which students may express their opinions and assists in the protection of the rights and interests of the individual student and the student body.
The current administration has ignited a strong interest in providing a more representative, diverse, and wellrounded campus and recognizes a special commitment to addressing students' concerns.

The Associated Students Senate consists of the three executive officers - student body president, legislative vice president, and administrative vice president - and 15 senators. There is one senator for each of the eight schools, one for undeclared majors, one for the Division of Graduate Studies, and five at-larges. ASI is a nonprofit corporation chartered by the trustees of The California State University.

As a student, you are automatically a member of ASI and are required to pay a membership fee of $\$ 16$ per semester. This fee supports many programs such as the campus newspapers, University Lecture Series, a child care center, CSUF Overview, recreation and intramural sports activities, and a variety of multicultural festivals and programs.

Campus Newspapers. The Daily Collegian, La Voz de Aztlan, Uhuru Na Umoja, and Hye Sharzhoom are perhaps the most important sources of campus news for the university. They publish a variety of information ranging from news to club announcements to cultural awareness. These campus newspapers can also give students the journalism experience needed to be competitive in the job market. Their offices are in the Keats Campus Building.

The Campus Children's Center is a vital service that makes the difference whether or not a college education can be a reality for students who are parents. The center's philosophy is to serve those students with the greatest need, i.e., students who must have this service to continue their education. Consequently, enrollments are established on the basis of priorities. The center accepts children from ages six months to six years. For information, call 278-2652.

## Faculty/Student Committees.

 Involvement in a faculty/student committee can give you practical experience and enhance your writing, speaking, reasoning, persuasion, and group interaction skills. Committees provide input into the university budget, academic policies, public affairs, bookstore or food services operations, and interaction with faculty members on an equal level when making these important decisions. Committees are a means of empowering students by giving them the direct responsibility
# Associated Students 

Associated Students Inc. of CSU, Fresno
Student Affairs
University Student Union, Room 316 (209) 278-2657
of making decisions and implementing ideas that affect the entire campus community. Pick up a committee application in the ASI Office.

Annual Budget Process. All recognized clubs and organizations are entitled to participate in the annual budget process held in the spring semester. ASI's budget of more than $\$ 900,000$ is distributed to clubs and organizations. The purpose of this distribution is to enhance club and organization visibility and to promote education and awareness around various social and political issues. If you are interested in participating in next year's process, come into the ASI Office late in the fall semester.
Instructionally Related Activities. Organizations sponsoring projects directly related to classroom activities or laboratory experiments can apply for funding from Instructionally Related Activities. These activities or experiments should be an essential element to a quality educational program or an important aspect of an instructional experiment for any student enrolled in the respective program. Funding applications are available in the ASI Office.
Educational Research Program. This program provides financial support to both graduate and undergraduate research projects and other scholarly endeavors - under faculty supervision - in all academic disciplines. Funding supports proposed and in-progress endeavors only. If eligible, you can apply for this funding during the fall or spring semester.

## Athletics

Athletic Department<br>School of Health and Social Work<br>North Gym, Room 146<br>(209) 278-2643

Director, Gary A. Cunningham
cademic excellence and athletic accomplishment go hand in hand at California State University, Fresno. The intercollegiate athletics program, with 11 men's teams and seven women's teams, provides student athletes with opportunities for high-level competition while pursuing a quality education.
To ensure academic development, CSU, Fresno - known in the athletic world as Fresno State - has instituted a counseling system designed specifically for student athletes. Services include academic advising, guidance and counseling, monitoring of progress, and daily study halls.
Facilities. Community support and donations have enabled Fresno State to establish one of the finest athletic complexes in the country. Bulldog Stadium features a 30,000 -seat capacity. Beiden Field, a 4,575-seat baseball stadium, is ranked as one of the largest collegiate facilities in the nation. FSU has softball and track and field facilities, two gymnasiums, an indoor/outdoor swimming complex, two weight training rooms, 12 tennis courts, six indoor handball/racquetball courts, and two putting greens and driving areas complete with sand traps for golf.

## Men's <br> Intercollegiate Athletics

Baseball. Fresno State has earned a national reputation for having one of the finest baseball programs in the country. Head coach Bob Bennett's Bulldogs, who advanced to the 1988 College World Series, are consistently ranked in the Top 20. They have qualified for the NCAA playoffs on 19 occasions.

Basketball. The Bulldogs' head coach, Gary Colson, ranks as the 11th winningest active collegiate head coach, with a record of 487-312. Fresno State has made five postseason tournament appearances in the past 10 years.

Cross Country/Track and Field. Coach Red Estes has guided FSU to eight straight Big West track titles and cross country titles in 1981, 1984, and 1988.

Bulldog quarterback Mark Barsotti
Football. The Bulldogs compete for the Big West Conference Championship and a trip to the California Raisin Bowl, hosted annually in Bulldog Stadium. They continually provide students and the community with action-packed football in a winning tradition, selling more than 27,000 season tickets in 1987, 1988, and 1989.

Under the direction of head coach Jim Sweeney, the Bulldogs captured the conference championship in 1977, 1982, 1985, 1988, and 1989. Fresno State has been ranked in The Associated Press Top 25 in three of the last five years - 1986, 1989, and 1990. The 1985 Bulldogs were the only undefeated team in major college football, finishing the season 11-0-1 and ranked 16th by UPI. Fresno State has produced many NFL prospects.

Golf. Coach Mike Watney guided the Bulldogs to a fifth-place finish at the NCAA Championships in 1990. Watney has produced 13 All-Americans
and a Top 20 team at the NCAA Championships in eight of the past 12 years.

Soccer. FSU boasts an outstanding soccer program. Highlights since 1982 include eight NCAA regional appearances, a 1986 Final Four showing, and a No. 1 ranking in 1987.
Swimming and Diving. Head coach Teri McKeever coaches both the men's and women's programs, a first for FSU.
Tennis. Current U.S. national team assistant coach and fifth-year head coach Brad Stine coaches a growing program that has produced 230 wins in the past 19 years.

Water Polo. Consistently ranked in the Top 20 nationally, the water polo team is coached by Tom Milich, an assistant coach for the 1992 U.S. Olympic team.
Wrestling. Head coach Dennis DeLiddo is the winningest wrestling coach in FSU history (125-79-2). DeLiddo has coached six All-Americans in his nine seasons.

## Women's

## Intercollegiate Athletics

Basketball. Tenth-year head coach Bob Spencer became the first coach in NCAA history to reach 500 career wins (539-226).

Cross Country/Track and Field. Head coach Tom Pagani, who coached the Olympic throwers in 1988, has built a powerful track and cross country program at Fresno State.
Softball. Fresno State softball is coached by sixth-year coach Margie Wright. In 13 years, the Bulldogs have grown into a national powerhouse, having appeared in 13 straight regional playoffs. The 1982, 1988, 1989, and 1990 seasons produced a second-place finish at the NCAA Softball College World Series.

Swimming and Diving. Dedication and hard work are characteristics of a solid swimming and diving program under fourth-year coach Teri McKeever, a two-time All-American swimmer at USC.

Tennis. The women's tennis program is coached by second-year boss Irene Harris.

Volleyball. The Bulldogs, who finished fifth at the 1984 NCAA Championships, perform in the Big West Conference, the nation's premier volleyball conference. 4

TThe Office of the Chancellor for The California State University system has authorized each campus to establish nonprofit organizations to assist the campus in administrating areas where funds are generated from nonstate sources. The following auxiliary organizations provide direct and indirect services for CSU, Fresno students.

The Agricultural Foundation of California State University, Fresno was organized in 1954 to operate the university farm and student project program for the School of Agricultural Sciences and Technology. The Agricultural Foundation leases the 1,083-acre farm from the university. In addition, it operates the San Joaquin Valley Experimental Range of more than 4,000 acres situated on Highway 41 south of the town of Coarsegold. It is governed by a board of governors consisting of the university president and 24 members of the community who are nominated by the university president and elected by the board of governors.
The Agricultural Foundation provides the funding, the land, animals, orchards, vineyards, etc. for students to receive practical experience in agriculture. Students in the student project program receive units of credit for their experience and also participate in any profit earned from their projects.
By maintaining herds of cattle, both dairy and beef, horses, sheep, swine, and by growing all types of crops on the university farm, the Agricultural Foundation provides the laboratory experiences needed by students in the School of Agricultural Sciences and Technology. This must be done on a self-supporting basis with the income from the farm meeting the costs of its operation.
The CSU, Fresno Association Inc. is a nonprofit corporation, organized in 1921, which functions to enhance the educational goals of the university. Through the operation of the Kennel Bookstore, the University Student Union, and the campus Food Services, as well as through the support of various university projects, the association is a major contributor to the university; and so are you when you patronize these campus facilities. The money you spend, after expenses are met, is directed right back into university projects.

The association is governed by a board of directors that includes the university president or his designee, vice president for administration and external relations, vice president and dean of student affairs, the chief financial officer, president and administrative vice president of the Associated Students, a faculty member, and a layperson. The board must meet at least once each quarter, and anyone is welcome to attend. The paid staff operate the facilities in accordance with the rules and regulations established by the board of directors.

In addition, there is a University Student Union board, a bookstore advisory committee, and a food service committee to assist those areas in their operations. Surplus funds generated in excess of required reserves for working capital, capital replacements, and future operations are used for the benefit of the entire campus. When you see the following facilities and services, think of the CSU, Fresno Association Inc.:

- The University Student Union and the Satellite Student Union buildings, the Kennel Bookstore, the Keats Campus Building
- Ramps, automatic doors, and elevators for use by the handicapped
- The Residence Hall swimming pool
- The all-weather track
- The campus amphitheatre
- Campus lighting and beautification projects
- Signs and landscaping on Maple Avenue

The California State University, Fresno Athletic Corporation was organized in 1982 as a nonprofit corporation to administer the men's and women's intercollegiate athletic

Director, Gaylord O. Graham
programs of this university. The board of directors, composed of faculty, administrators, laypersons, and students, exerts budgetary control and determines management policies.

The California State University, Fresno Foundation was organized in 1931 as a nonprofit corporation to promote and assist the educational interests and services of the university. It is governed by a board of governors consisting of the university president and 12 members of the community who are nominated by the university president and elected by the board of governors.
The foundation actively seeks additional funding for those activities necessary to maintain excellence within the university, but for which state monies are inadequate or nonexistent. Additional activities of the foundation include the administration of grants and contracts, endowments, scholarships, grants, and loan funds.

# Career Development and Employment Services 

Career Development<br>and Employment Services<br>Student Affairs<br>Joyal Administration, Room 256<br>(209) 278-2381<br>Director, Raymond I. Castillo

The Career Development and Employment Services Center assists you in formulating a career development plan that will permit you to put your education to work in a satisfying and rewarding career field.
The center provides services that help you initiate, develop, evaluate, and implement your career plan. Services include career counseling, part-time employment, cooperative education, job search training, campus career interviews, and career information provided through ongoing workshops, coursework, and other structured experiences. This service is free to enrolled students and is available to alumni for a nominal fee. To receive assistance, telephone 278-2381 for an appointment or see an intake counselor for consultation on a walk-in basis.

Career Exploration. Ideally, the career decision-making process should begin as soon as you enter the university. Consider talking with a career counselor, joining in selfexploration and career exploration classes and workshops, and using the career information resource facility. Career testing, the Career Information Network, and Career Day are other important resources available to help you evaluate and select career goals compatible with your academic choice and career interest.

The Career Resource Center provides information on career exploration and decision making, on requirements for careers, on specific employers, and on job search and employee selection through books, periodicals, and videotapes. Two computer-assisted guidance systems are also available to aid you in making career decisions. The System of Interactive Guidance and Information (SIGI-PLUS) helps you identify and prioritize work values and suggests occupations that meet those values. SIGI-PLUS also gives specific information about occupations of interest, provides an overview of entry-level requirements, and aids in weighing the risks of entering an occupation against the satisfactions it would provide.

The computerized California career information system, called EUREKA, can help you learn more about occupations that relate to your interests and abilities. EUREKA'S memory banks contain information

Career Day is for everyone - freshmen to seniors. It's a day when representatives from business, industry, government, and education are ready to discuss your career interests and opportunities. This October event attracts about 100 organizations.
describing more than 400 occupations - including job descriptions and employment outlook - training programs to prepare for specific occupations, and colleges and universities offering desired areas of study.
Cooperative Education. Beginning with your sophomore year, you should take advantage of the center's facilities to further reinforce your career decision through cooperative education classes and work environment experiences. In addition to giving you the opportunity to gain marketable work experience, you are able to test your career decision. To prepare you for the co-op experience - and for entry into the employment market - the center offers a continuous program of personal job search, career planning development, employment communication skills development, and interview skills and techniques education.
Career employment can be obtained from current employment listings, from national, regional, and local organizations that actively recruit graduates through campus interviews, and from job fairs. The center also maintains an active program designed to effectively assist teachers and other education professionals in obtaining positions throughout all levels of education.

If you are interested in part-time, temporary, summer, or cooperative education employment, the Student Employment section can assist you. You are encouraged to review the employment listings frequently because information on new positions is received daily. (See College/Work-Study Program and Graduate Assistantships.)

Alumni Assistance. The center offers a full range of services to alumni for an annual fee. Alumni are defined as persons who have completed requirements for a degree, a credential program, or a minimum of 24 units of credit at CSU, Fresno. -

The McKee Fisk computer room is "home" for a variety of instructional and administrative computing hardware. Nancy Evenson works with tapes for the instructional DEC VAX 11/785.

University Computer Services supports the computing needs of CSU, Fresno with a wide range of resources and services. In addition to providing support for instructional and administrative computing, office automation, data communications, and equipment maintenance and installation, University Computer Services offers individual consultation and a series of survey and in-depth workshops for faculty and staff on a variety of computing topics.
Administrative Computing. The campus administrative systems - such as student records, scheduling, business, and accounting - run on an IBM 3090 mainframe located in the McKee Fisk computer room. University Computer Services provides programming and operating support for all administrative computing at CSU, Fresno.

Networking. CSU, Fresno has recently installed a new data communications network which supports high-speed access to the major university computing resources from every office and laboratory on campus.
Instructional Computing Resources. University Computer Services provides centralized mainframe and superminicomputer resources for campus instructional use. Currently, on-campus, general-use resources consist of an IBM 4381 mainframe and two DEC VAX 11/785 superminicomputers. Access to off-campus social science and business databases is also available. Contact UCS for more information.
Computing Laboratories. For students, University Computer Services manages several general purpose computing laboratories and provides trained student consultants to staff the mostused laboratories for extended hours each week. Most of the IBM PC compatibles and Macintosh micro-

Director, James Morris
computers are networked to file servers and also provide access to other instructional computing resources (e.g., the CSU, Fresno VAX 11/785).

An IBM PC-compatible lab is available for general student use in Keats 102. Apple Macintosh labs are located in Keats 113 and New Science 232. A new graphics workstation lab is located in McLane Hall 239.

In addition, several academic departments support their own computing laboratories which house both general purpose and specialty computing resources. Contact the schools and departments for more information about these facilities.

In all, more than 600 workstations are available in student labs throughout the campus - and this number is growing all the time.

# Counseling Center 

Counseling Center
Student Affairs
Health Center Building, Area E
(209) 278-2732

Director, Esteban Steve Sena

counselors at the Student Counseling Center assist students in acquiring a wide range of skills in life management, career and life planning, and personal growth and development. Through individual and group counseling, the center provides opportunities for students to discover more about themselves, where they want to go, and better ways of getting there.
What is Counseling? The center offers assistance in managing academic responsibilities and successfully completing educational goals through the following specialized activities:
Personal counseling provides opportunities to explore anything that is experienced as a need or concern. For example, many students seek help with:

- Relationship concerns, such as developing friendships, communicating with others, being assertive, dealing with parents and children, dating, and handling the breakup of a relationship
- Stress management
- Dealing with feelings and emotions, including anger, grief, loneliness, anxiety, lack of self-confidence, depression, and suicidal feelings
- Fears and worries about such areas as sexuality, academic responsibility, independence, eating patterns, drug use, and cultural differences

Counseling sessions are usually scheduled for 50 minutes. Due to the high demand for our services, the number of individual counseling sessions is limited.

Taking advantage of this "staged" rap session, Counseling Center staff enjoy some light-hearted conversation. Groups are led by the professionally trained members of the CSUF Counseling Center staff.

Career counseling services are available. These include:

- Career life planning strategies
- Vocational testing
- Decision-making skills
- Self-concept and career choice

Counseling groups and workshops offer a variety of programs. Sessions typically cover stress management, assertiveness, reentry support, and eating disorders.
Additional services include:

- Assistance with crisis situations
- Consultation to student groups, faculty, and staff
- Referral to the Testing Office
- Referral to other campus and community resources
Who are the Counselors? Counselors are professionally trained in counseling, psychology, social work, and rehabilitation. The staff represent diverse theoretical styles and a variety of ethnicities. You may ask to talk with a particular type of counselor, such as a male, female, or ethnic minority. You can expect assistance in personal growth, to be listened to, to be helped to communicate, to develop goals and plans to deal with your concerns.
Is Counseling for You? Studying, going to classes, and completing degree requirements are only a part of what it means to be a university student. Life has many facets that must be balanced to give the time and energy needed to pursue educational goals. Physical and financial needs must be met, but there are also emotional, social, vocational, recreational, political, and spiritual
needs to attend to. As if these weren't enough, many people find that student life provides the kinds of stimulation that foster personal growth and development. In capitalizing on the opportunities and challenges, you may go through transition periods in which decisions are no longer automatic, and you find yourself questioning who you are, how to act, or what to do.

Although the diverse perspectives and multiple alternatives presented in a university environment can provide a fertile field for learning, change, and growth, they also can be overwhelming. If you feel the stress is getting to you, if you want to explore your options, learn decision-making skills and better ways to cope, or just want an objective person to listen, you may want to see a counselor. You don't have to have a serious problem; the normal concerns that accompany the student role are very appropriate to discuss in counseling.
Is Counseling Confidential? All information is confidential and can only be released with the student's written permission. Some legal and ethical exceptions to this policy will be explained during your first visit.
Come by the center any time between 8 a.m. and $4: 45$ p.m. Monday through Friday (7:30 a.m. to 3:45 p.m. during the summer) or call 278-2732. All services are free of charge.
t's a cooperative effort ... an opportunity for people in the communities of Tulare and Kings counties to receive a meaningful educational experience. It's the California State University, Fresno/College of the Sequoias Center in Visalia.
The center is managed by the divisions of Academic Affairs and Student Affairs at CSUF in collaboration with the College of the Sequoias. Located on the College of the Sequoias campus, the center has access to a variety of classrooms, laboratories, and other facilities. Approximately 600 students are currently enrolled at the center.

Academic Programs. A student can obtain a complete or partial, undergraduate or graduate degree, as well as credential and certificate programs through courses offered at the center. Courses are offered at times that are convenient to reentry and nontraditional students who work during the day, have family commitments, or have difficulty commuting to Fresno. A number of the courses are delivered via instructional television (ITFS).

Undergraduate programs offered:

- Bachelor of Arts in Liberal Studies
- Bachelor of Science in Business Administration
- Bachelor of Science in Nursing

Graduate programs offered:

- Master of Arts in Education with options in:
- Administration and Supervision
- Counseling and Student Services
- Master of Arts in Special Education

Credential programs offered:

- Multiple Subject
- Single Subject
- Pupil Personnel Services
- Administration and Supervision

Certificate program offered:

- Language Development Specialist

Student Services. South Valley students receive an extensive range of support services patterned after the services available on the main campus. These services are designed to meet the particular needs of the students attending the CSUF/COS Center and include:

- Admissions
- Registration assistance
- Financial aid
- Reentry counseling
- General academic counseling
- Program orientations
- Testing
- Health (immunizations)

## CSUF/COS Center

The student services component promotes Associated Students Inc. activities by supporting the Student Advisory Council, Vintage Days, and the annual graduation celebration.

The CSUF/COS Center serves the regional mission of California State University, Fresno by promoting access to higher education in the South Valley.

## Developmental Learning Resource Center

Developmental Learning<br>Resource Center<br>Academic Affairs<br>Keats Campus Building<br>(209) 278-3052<br>Director, David A. Bezayiff

TThe Developmental Learning Resource Center (DLRC) provides services to all university students who would like to become more independent and efficient learners. The DLRC houses the Tutorial Center and provides the following programs: Intensive Learning Experience (ILE), Refresher Workshops, and Retention Support Services.

The following courses are offered by various departments in coordination with the DLRC for institutional credit only (CR/NC).

Reading Skills: (LEE AR) Emphasis given to vocabulary development, comprehension, and reading rate. Particularly recommended for students who score 135 or below on the reading portion of the English Placement Test (EPT).

College Planning Skills: (CTET 1R/ S Wrk 1R) A seminar designed to address the educational needs of those students who may be experiencing difficulty in their academic and personal adjustment to university life.

Practicum in Tutoring: (LEE 101) Development of skills in tutoring individuals and small groups and methods on how to train tutors. LEE 101 counts toward a B.A. degree.
Noncredit Refresher Course: The DLRC offers noncredit workshops to help students prepare for various standardized examinations including the California Basic Educational Skills Test (CBEST), the Graduate Record Examination (GRE), and the Entry Level Math Examination (ELM).

Tutorial Services. Currently enrolled CSUF students are eligible for free tutorial assistance in the LRC Tutorial Center. Study groups are matched for $1 \frac{1}{2}$-hour weekly sessions with CSUF faculty-recommended student tutors. Additionally, drop-in labs in accountancy, chemistry, decision science, finance, management, math, physics, Spanish, and writing are available, as well as evenings in the residence halls.
The Intensive Learning Experience Program provides additional assistance to freshmen who scored at or below the lower quartile on the EPT and the ELM. This program features a teacherstudent ratio of 1-to-12 per class and special counseling and advisement.

In addition to enrolling in English A, freshmen who score at or below T141 or E7 on the EPT are encouraged to enroll in the English A Writing Lab (Engl ARL) and the 1-unit Reading Skills improvement course (LEE AR). Those who score 340 or below on the ELM should enroll in Math ILR, which covers the same material as Math AR, but at a slower pace.

The Retention Support Services Program is designed to assist students from nontraditional backgrounds in achieving their educational objectives. The staff provides direct services to students, including academic counseling, advising, and study skills assistance.

Disabled Student Services provides specialized assistance and resources that enable students with physical, perceptual, and learning disabilities to achieve maximum independence while they pursue their educational goals. Staff specialists constantly interact with all areas of the university to eliminate physical and attitudinal barriers.

Disabled Student Services takes a personal interest in meeting the special needs of our students. If you have a temporary or permanent disability that may affect your academic functioning, you may be eligible for a variety of unique services.
Accessibility Services. Fresno is one of the most accessible university communities in California. The climate is moderate and the flat terrain affords optimum mobility.
You can move freely throughout CSU, Fresno's instructional facilities and related areas. Elevators are provided to reach all instructional areas above the ground floor. Accessible restrooms, drinking fountains, and telephones are provided across the campus. Portable science laboratory stations and other specialized academic equipment are available for students who are in wheelchairs.
Swimming, wheelchair tennis, weight training, and other physical fitness
activities are available through the Individualized Adaptive Physical Education Program. Other services include special parking permits, access maps, and wheelchair loans for those with temporary needs.
Resource Center for Students with Disabilities. The resource center, situated in the Henry Madden Library, is the most efficient and extensive of its kind in California. It contains study rooms and a large main room with special tables.
The resource center offers academic support services to students with physical, perceptual, and learning disabilities. These support services may include readers, notetakers, scribes, taped textbooks, braille materials, and testing accommodations.
Adaptive equipment includes print enlargers, speech input and voice output computers, a braille printer, and other equipment appropriate to the disability and academic activity.
Deaf and Hearing Impaired Services. Our staff acts as a liaison between student and faculty and provides interpreter and notetaker services for academic activities.

Priority Registration and Assistance. Disabled Student Services can arrange priority status through early registration that will facilitate your requested class schedules.

## Disabled Student Services

## Disabled Student Services

Student Affairs
Main Cafeteria West, Room 125
(209) 278-2811

Coordinator, Weldon W. Percy

Student Responsibility. It is your responsibility to arrange for services that are outside the scope of our program. This includes attendant care and special sources of financial aid. However, we do provide referrals to appropriate university, state, and community agencies.
Independence for the disabled has become a reality on our campus. We are convinced that your creativity, coupled with our resources, will result in an extremely rewarding educational experience.

With a library of braille reference books in the background, Tom Randall listens as Rosslyn Holt reads aloud from a textbook. Holt's words are also being recorded. Textbooks-on-tape is just one of the many services offered to students at the Resource Center for Students with Disabilities.

## Educational

Opportunity Program

Educational Opportunity Program<br>Student Affairs

Joyal Administration, Room 238
(209) 278-3021

Director, Robert P. Hernandez

1he Educational Opportunity Program (EOP) is designed to make higher education a possibility for students who have the potential and motivation to achieve academic success with the assistance of comprehensive support services.
Eligibility. To qualify for EOP, you must be a California resident and an undergraduate student with a family
history of low income and educational attainment. In addition, you must demonstrate academic capabilities and be motivated to achieve your educational goals. If the combination of your grades, test scores, and high school courses does not meet criteria normally required for entrance to the university, special admission may be offered. EOP also admits regularly eligible students with specific economic and educational support needs.
Services for EOP Students. Special services designed to support and assist EOP students in developing their academic potential include the following:

- Preadmission counseling
- Orientation programs
- Special summer program - a fourweek, intensive session that focuses on the development of essential academic skills
- Diagnostic testing
- Financial aid follow-up
- Academic advising
- Tutorial services
- Learning assistance workshops
- Counseling
- Career planning
- Recreational activities

Happy to be at CSUF, John Wilson seeks assistance from Michelle Nunez. As an academic peer counselor, Nunez offers students a wide range of information - from assessment of class schedules to financial aid status to
housing arrangements.

EOP Grant. An EOP Grant may be offered to eligible students each academic year. You may apply for the grant by using the standard financial aid application forms and procedures required by the Financial Aid Office.
How to Apply for EOP. When you apply for admission through EOP, you are required to submit additional forms and materials. This process enables EOP to select the most qualified applicants to fill the limited number of enrollment openings available each year.

Pick up a copy of the CSU systemwide application booklet and the EOP application from the Admissions or EOP offices of any CSU campus or from your high school counselor.
Submit the following admissions materials to the Office of Admissions and Records:

- Part A - the Application for Admission/Readmission
- \$55 application fee or Fee Waiver Application form
- High school and/or college transcripts, or GED score
- SAT or ACT test score - the EOP Office recommends the ACT for applicants in high school
Submit the following application materials to the EOP Office:
- Applicant Information form
- Nomination form
- Autobiographical statement
- Recommendation form

TWhe Division of Extended Education is responsible for providing adult learners with educational opportunities designed to meet their needs for career advancement, professional growth, or life enrichment. CSU, Fresno is sensitive to the ever-changing demands of adult life and attempts to meet these diverse educational needs through its many offerings of credit courses, conferences, institutes, and seminars.

Extension Programs. Various academic departments offer conferences, institutes, workshops, seminars, and courses at several sites throughout the CSU, Fresno service area through the Division of Extended Education.

The financially self-supporting Extension Program includes a variety of courses in all disciplines to meet the growing demand for continuing education. To provide flexibility and
to better serve the needs of the entire community, regular university courses are offered for credit, as well as other programs for noncredit.

Open University provides an opportunity for those individuals who are not admitted to the university on a regular status to enroll in regular courses as an extension student. These courses are open to anyone in the community.

Weekend University Courses. Weekend offerings are short but intensive courses designed to meet the academic needs and interests of matriculated students. Because of their brevity and intensity, the courses provide ideal conditions for academic exploration, as well as an acceptable means for meeting academic requirements. Courses are open to anyone in the community through the Open University Program.
Travel Study Programs feature the most pleasant and rewarding methods to learn through travel and study. The instructors responsible for the program offerings design the courses to include a variety of learning activities that provide a series of enriched travel study experiences.

Extended Education
San Ramon 3, Room 141
(209) 278-2524

Dean, Audrey S. Anderson

Noncredit Programs. Offerings in this area include specially designed programs developed to satisfy the needs of the specific participants or organizations involved. Professional conferences, seminars, workshops, institutes, and test preparation classes are offered regularly throughout the year.
Summer and Winter Programs. The university offers short-term summer session and winter session programs. A wide variety of programs are made available to regular college students and other individuals who wish to expand their general, cultural, or avocational interests and knowledge.

Visalia Center. Through a cooperative effort by California State University, Fresno and the College of the Sequoias, the CSUF/COS Center expands access to public higher education in the South Valley region. Regular degree courses are offered at times designed to appeal to reentry and nontraditional students who work during the day or who have difficulty commuting to Fresno. More information about the CSUF/COS Center is on page 43.

For a catalog of current course offerings, call the Division of Extended Education, 278-2524. -

## Health §ervices

Student Health Services<br>Student Affairs<br>Barton and Shaw Avenues<br>(209) 278-2734<br>Director, Robert M. Paull, M.D., M.P.H.

Student Health Services provides outpatient clinical medical care to students enrolled in the university in accordance with policies set by the board of trustees of The California State University.
The Health Center is supported by a portion of the State University Fee paid by each student. These funds finance basic health care for students. In addition, each student may voluntarily pay an optional health fee that supports certain services and treatments not funded through the State University Fee.

A brochure, available at the Health Center, gives a detailed description of basic health care and additional services available through payment of the voluntary health fee or on a fee-for-service basis.

Facilities. The Health Center features well-equipped doctors' offices and examination rooms, laboratory and X-ray facilities, physical therapy, nurses' treatment rooms, a pharmacy, business office, and waiting rooms.

The staff is here to help you reach your educational objectives and to assist you in maintaining optimum

Working quickly and confidentially, chief pharmacist Jim Brummel and student assistant Susie Kalinian dispense medicine to students at the campus pharmacy.
health, both physically and mentally. The staff includes full-time physicians (including specialists in family practice, internal medicine, and gynecology), pharmacists, a physical therapist, nurse practitioners, nurses, a nutritionist, clinical laboratory technologists, and an X-ray technologist. Part-time physicians (consultants) in orthopedics, dermatology, radiology, and psychiatry are also available.

## Appointments and Consent to

 Treat. You may make appointments in person or by telephone. If you are under the age of 18 , we must have parental consent to treat you.Family Planning. The Health Center provides a comprehensive family planning service that includes a complete examination, laboratory testing, pap test, counseling, and consultation.

Pharmacy. Prescriptions and nonprescription medicines are available for a modest fee.

Physical Therapy. This service is available if you have paid the voluntary health fee or on a fee-for-service basis.

Immunizations. The Health Center provides immunizations when clinically indicated. This includes administering allergy shots to students who have their own medication. Some charges are necessary if the voluntary health fee is not paid. Be sure to bring your immunization record with you to the Health Center.

Summer Care. You are eligible for services in the specific summer session for which you are enrolled.

Health Insurance. You may purchase an insurance protection plan for emergency illness and accidental injury during hours that the Health Center is closed. Sponsored by the Associated Students, this program provides substantial coverage for hospital benefits, medical, surgical, and related services for any illness or accident. It is very important to have this type of coverage if you are no longer under your parents' insurance.

## Health Education Information.

 If you are concerned with a healthrelated problem, you are encouraged to consult with the Health Center staff. They will either answer your questions or direct you to someone who can. A full-time health educator develops and coordinates the health education programs offered by Student Health Services. Health education literature is available in the Health Center and in the University Student Union.Living on campus can be an important part of your educational experience. Whether you are a freshman or a transfer student, you should consider living on campus if you want to take the opportunity to develop friendships and participate in the academic atmosphere of the university.

Residence Hall Living. You will find that the convenience of being on campus makes going to and from class easy. It encourages the use of campus facilities, such as the library and computer/science laboratories, along with attendance at such activities as dances, plays, lectures, and concerts occurring during evenings and weekends.

The halls have a variety of interesting and enjoyable programs designed to add an exciting dimension to residence hall living. Social activities include dances, special hall and floor dinners, picnics, and movies. A swimming pool and computer lab are available for exclusive use by residence hall students.

Individual Halls. The housing complex consists of nine residence halls, an administration building, and the residence dining hall. Baker, Graves, and Homan Halls each house 212 students in a design that encourages building unity. The other halls are generally referred to as Commons although each building is named for easy identification. Birch, Cedar, and

Sequoia surround the south quad, while Aspen, Ponderosa, and Sycamore surround the north quad. Most of the halls are coed. Coed buildings are characterized by men living on one floor or wing and women living on another. A total of 1,200 students live on campus.

Almost all of the rooms are shared by two students, although approximately 100 single rooms are available if you want greater privacy.
Staff. Trained professionals are available to help make your stay in the residence halls enjoyable. Specialists in programming assist you in developing social, cultural, educational, and recreational programs and activities. Other professionals offer guidance in resolving personal problems.
Augmenting this staff are the senior resident adviser and resident adviser staffs. Students who have previous residence hall living experience are selected to serve as student leaders on each floor. Their understanding of life in the residence halls is valuable in helping new and returning students adjust to residence hall living.
Resident advisers receive training in such areas as counseling and first aid and understand the workings of the university so they can assist students with academic-related issues, emergencies, and personal concerns. Once you have lived here, you may want to consider becoming a resident adviser.

## Housing

## University Housing

The Lodge
(209) 278-2345

Director, John Wetzel

You'll find this an excellent opportunity to develop valuable leadership skills while receiving free room and board.

How to Apply. The housing application process is completely separate from the process of being admitted to the university.

Applications are available starting in March for the fall semester and in October for the spring semester. You are urged to apply early as on-campus space is limited. All students must agree to live in the halls for the entire academic year.
All individuals applying to the university for the first time automatically receive housing information. You need not wait until you are officially accepted by the university, and if you are denied admission, your deposit will be refunded to you once you notify us.
If you would like a housing application, contact the University Housing Office by calling (209) 278-2345.
Off-Campus Housing. An apartment brochure, published annually, identifies apartments within the vicinity of the campus. Our experience indicates that most students find this publication helpful in locating good, affordable housing. Listings of houses, rooms, and students looking for roommates are also available at the University Housing Office.

# Instructional Media Center (IMC) 

Instructional Media Center

Library North, First Floor
and Basement
(209) 278-2674

Acting Director, Gary H. Winegar

The Instructional Media Center (IMC) is an academic support unit of the university. Its primary mission is to support the programs of academic affairs by using its resources to improve the quality of instruction and research. Secondarily, audiovisual assistance is provided in support of administrative and student programs. IMC provides three types of services.

Media, Materials, and Equipment. More than 7,500 programs ( 16 mm films, slide sets, filmstrips, audio cassette tapes, etc.) are available from the university's collection housed in IMC. In addition, resource personnel assist in locating and gaining access to off-campus resources where additional materials are available via free loans, rentals, leases, and contracts. When specialized and difficult-to-obtain materials are required for instructional programs, IMC resources and personnel are available to assist academic departments with the acquisition of these new media for inclusion in the university's collection. Audiovisual equipment and materials can be booked for instructional, research, and administrative uses and will be delivered to on-campus locations if ordered at least 24 hours in advance. Equipment and materials for use in extended education and off-campus university programs are available at the IMC will-call counter. Facilities are available where faculty, staff, and students may preview materials and where media-support personnel will demonstrate the proper operation of audiovisual equipment.

Graphic artist Priscilla Helling and student assistant Durk Hubel use a Macintosh computer to design a brochure cover.

Maintenance and Repair. The servicing of university audiovisual equipment and facilities is the responsibility of IMC's technical staff. These technicians are also available to consult on the design, fabrication, and construction of media systems and facilities for instructional and special purpose uses.

Production. IMC provides four types of production services where materials are created and produced in support of the instructional, research, and administrative programs of the university. Commercially produced materials are duplicated or reproduced only in accordance with copyright laws and congressional guidelines.

Graphics. Whether a project requires a simple single-color layout or a complex multi-color design to communicate a message, the IMC graphic artists are capable of producing them. The graphic arts facility includes a Macintosh and the latest graphics software to provide design, illustration, and production services. These support services are the key to producing professional materials.

Typesetting. In the photoelectronic typesetting facility, specialists produce electronically created finished and camera-ready materials for brochures, forms, journals, newsletters, business cards, books, slides, tables, displays, and signs.

Photography. In the photography studio and dark-rooms, the photographers produce black-and-white and color slides and prints, passport photos, studio portraits, and still-life photos. In addition, they can duplicate slides, make black-and-white halftones, title slides, line-copy duplications, and copystand photos. Selected campus and off-campus assignments are accomplished.
Sound Recording. In the sound recording studio and duplication facility, the production specialist can produce audiotape programs for use independently or in conjunction with other media. High-speed cassette duplication equipment provides quality audiotapes in a fast and efficient manner.
For more information about the audiovisual resources and services available, visit IMC in the Library or phone (209) 278-2674. A professional staff of technicians, specialists, photographers, artists, and resource and administrative personnel are available to serve and support university programs.

$T$The Instructional Telecommunication Center (ITC) provides complete radio and television production and distribution facilities, including duplication capabilities, for the enhancement of the university academic program.

The center's goal focuses on the desire to create a complementary arrangement for the implementation of media-based curriculum materials, while providing support for the institution in the pursuit of its educational duties.
In conjunction with the Telecommunications Department, students develop practical production skills, thanks to the hands-on laboratory experiences offered within ITC's facilities. Under the supervision of faculty and professional staff, students produce a variety of materials for extra-departmental classroom instruction and the university's community service activities. Depending upon their interest and aptitude, students may participate in any of the following services typically provided by educational, corporate, and governmental telecommunication centers.

Program Acquisitions. Appropriate materials required for instructional support may be acquired from a variety of sources. Programs may be leased or purchased from educational producers, as well as recorded off the air from commercial or public television
stations and satellite operations, in accordance with copyright laws and congressional guidelines.

Program Production. Materials that cannot be acquired from existing sources are designed and developed utilizing studio and location resources. Programs produced internally are viewed in classes, on local cable channels, and on broadcast television. Several rooms are equipped with television camera-recorder units for faculty to record instructional experiences, such as student-teaching, student-nurse encounters with patients, faculty self-evaluations, role-modeling, interviewing skills, and speech presentations.

Distance Education. Selected classes originating on this campus are broadcast live on an Instructional Television Fixed Services (ITFS) channel to various sites throughout the San Joaquin Valley. Students at the receiving locations watch the ITFS broadcasts and interact with this campus class via telephone hookup.
Videotape Library. An ever-increasing videotape library of more than 2,000 titles, spanning many disciplines, is maintained by ITC for faculty, staff, and student use. Sources of these materials include the locally and commercially produced programming previously mentioned. Major topics include: agriculture, anthropology, art, business, child abuse, communication,

# Instructional Telecommunication Center (ITC) 

Instructional<br>Telecommunication Center<br>Speech Arts, Room 156<br>(209) 278-3066<br>Director, Russ A. Hart

computers, crime and criminals, economics, engineering and industrial arts, ethnology, history, land use planning, medical sciences, military science, nutrition, performing arts, philosophy, physical education, political science, psychology, natural and physical sciences, social service, sociology, and women's studies.

## Distribution. Color television

 monitors and videocassette recorders (VCRs) featuring a variety of standard formats - including $3 / 4$-inch U-matic, $1 / 2$-inch Beta and VHS - are available for delivery to classrooms throughout the university. A closed-circuit television system also provides for program delivery to selected campus facilities.Technical Support. ITC also provides an in-house repair service for most television equipment located on campus. In addition, the engineering staff offers consultation to academic departments on system design for special applications, video equipment purchasing, and satellite reception. Other support areas include microwave teleclasses, broadband and fiber-optic distribution, and satellite teleconferencing.

For more information regarding services offered by the Instructional Telecommunication Center, contact the professional staff, Speech Arts, Room 156, (209) 278-3066.

# International Student Services and Programs

Director, Carol B. Munshower

California State University, Fresno, welcomes you as an international student, permanent resident, or immigrant student and provides a comfortable environment that allows you to make the most of your educational experience.

CSU, Fresno attracts international students from more than 80 countries and has one of the largest international student populations in the CSU system, numbering nearly 1,000 . The university also enrolls more than 1,500 immigrant and permanent-resident students.

The university employs international and multiethnic faculty and staff. Many of these people work with you directly to assist you in attaining your
educational goals and making the critical personal and cultural adjustments necessary for success.
The International Student Services and Programs Office is primarily responsible for assisting you. Being an international staff ourselves, we understand your goals, ambitions, and home country and family expectations.

We process your application for admission and evaluate your courses for transfer credit. Upon admission, international students receive information regarding arrival in the United States, visa and immigration, housing in the Fresno area, and registration. After arrival, the staff guides you through several mandatory preregistration workshops, postadmission English testing, and registration. You may be enrolled in English as a Foreign Language courses your first semester. (See International Programs - Special Programs section.) Some of the other opportunities available to you include the following:

Help with housing is available. An American family or a student from your country can meet you at the airport when you first arrive and provide some short-stay emergency housing. The International staff is available to assist you in obtaining housing.
Learn about Americans by making friends with families through our International Friendship Program.

Where is your homeland? That was the question of the day for (from left) counselor John Fu and students Isha Edgley and Abeezar Poonawawa.

Enjoy recreational activities with fellow classmates by participation in trips and activities.
Take advantage of opportunities to share your country and culture with the Fresno community and the CSU, Fresno campus by speaking to small groups through our International Speaker's Program.

Keep in touch with all the happenings through the monthly international newsletter, Kaleidoscope, written by fellow international students, staff, and faculty.

Join the many international clubs or any of the 200 other organizations available on campus. Participate in and enjoy the varied cultural programs during the year, such as International Week, U.N. Celebration, International Night, Mooncake Festival, Malaysia Night, and other national day celebrations.

Learn about travel and study overseas by using our resource library and talking to the international programs campus coordinator. (See International Programs: Overseas - Special Programs section.)
The international counselors take a personal interest in helping you adjust to the university's academic requirements, as well as resolve your own personal concerns, such as financial problems, immigration matters, counseling, and personal problems. Agency and foreign government sponsored students participate in our Sponsored Student Program.
Southeast Asian students obtain services to meet their special needs as permanent residents in the United States. Southeast Asian Student Services provides academic advising, personal counseling, and support for academic success.

We offer you more than good weather, a reasonable cost of living, and excellent selections in undergraduate and graduate academic programs. We care about your development as a whole person; that your stay and learning in the United States be worthwhile. We believe your experience and involvement in the United States will enrich your life, as well as our university. We look forward to sharing this experience with you. -

The Henry Madden Library is a center for study, reading, and scholarship at CSU, Fresno. Its collections and services are basic resources supporting the undergraduate and graduate instructional programs.
Books and Bound Periodicals. More than 800,000 volumes on virtually every subject imaginable are available for use. This diverse and growing collection will meet your research needs throughout your university career.
Periodical Subscriptions. The library subscribes to more than 3,500 periodicals from all over the world. The Kardex, a complete and up-to-date listing, tells you which journals the library owns.
Government Documents. Publications of the federal government and the state of California provide a wealth of useful information. The Government Documents Department houses more than 233,000 documents, including selected publications of foreign governments and international organizations.

# Library Services 

Henry Madden Library
Hours of Opening: 278-2596
Circulation Dept.: 278-2551
Reference Questions: 278-2174
Dean, Michael Gorman
to work with a librarian to gain access to a wider range of databases. These services are available in the Reference Department.
Multicultural Center. The center provides a "gateway" to the resources and services of the library for minority students and others interested in minority studies. The center provides assistance in using the library's resources and referral to the various services offered by the library.
Interlibrary Loan. The library's Interlibrary Borrowing Service allows you to obtain research materials that are not available locally.
Resource Center for Students with Disabilities. Special services, including listening and recording booths, braille reference books, and reading machines for the visually impaired are available here.
Library Media Center. The center opened in the fall semester 1990. A collection of more than 200 videos and video sets of educational value is available for individual study and use in the center located in the Music Library on the third floor. The video materials are concentrated in the areas of arts, humanities, and ethnic studies.
Typing. Typewriters are available for rent in the library. -1

## Migrant Services

University Migrant Services<br>Student Affairs

Joyal Administration Building, Room 204
(209) 278-4768

Director, Raul Z. Diaz

The Office of University Migrant Services (UMS) at CSU, Fresno provides retention services to university students from migrant and seasonal farmworker families. UMS works with campus student services, faculty, and community-based agencies to improve educational opportunities for UMS students.

UMS is for you if you are entering CSUF or are a currently enrolled CSUF student and have a migrant or seasonal farmworker background. As a retention service, we are concerned with helping you stay in school. We will help you explore your academic and career choices and make sure that you have the information you need to make the decisions which will shape your future.
The UMS staff are trained professionals in various areas including academic advising, counseling, career development, and language skill development. They will take a personal interest in helping you with your adjustment to the university environment.

Special services designed to assist UMS students in developing their academic potential include the following:

## Academic Assistance

- Academic skills assessment
- Assistance with selection of classes
- Study skills training
- Peer tutoring
- English as a Second Language (ESL) assistance
- Oral Language Development Seminar

## Counseling

- Orientation to university life
- Personal counseling
- Peer counseling

## Career Planning

- Interest testing for major selection
- Career development workshops
- Referrals to part-time and summer employment
- Exposure to graduate and professional schools

## Cultural Enrichment

- Migrant Student Alliance
- Recreational field trips
- Social activities
- Student leadership development
- Student awards banquet

## Support Services

- Financial aid advisement
- Scholarship application assistance
- Referrals to university resources
- Referrals to community resources

College Assistance Migrant Program (CAMP) is a federal program designed for freshmen migrant and seasonal farmworker students. UMS students eligible for CAMP may be offered a CAMP stipend, vision and dental insurance, and other supplemental services.

To apply to UMS or CAMP, write, call, or better yet, come by in person to our office. Our staff will gladly provide you with the necessary applications and materials.

0rientation at CSU, Fresno offers you the keys to success. The excitement that comes with starting university life can be tempered by the fears that come with starting a new experience. After all, CSU, Fresno is a pretty big place.
Becoming familiar with the ins and outs of the university can be a major advantage to new students - freshmen and transfers alike.

CSU, Fresno's orientation programs offer you the opportunity to learn all you can about your new environment before you begin your life as a member of the university community. Orientation experiences are designed to provide new students with transition to the university from high school or another college. Special parent orientation programs are also offered.

Orientation and Transition Services sponsors orientation programs for new undergraduates: Discovery for students entering in the fall semester and Advising Days for students entering in the spring semester. Sessions include oneday, two-day overnight, and half-day programs that are primarily scheduled prior to early registration deadlines. There is a fee for participation. All sessions are led by specially trained orientation student staff, faculty, professional staff, and administrators
who assist new students in a comprehensive introduction to the academic and social life of the campus.
Discovery and Advising Day orientation program experiences include:

- Academic advising with faculty/staff
- Registration assistance
- Sessions on degree requirements including General Education
- Tours of the campus, library, and Health Center
- Information on financial aid and admission status, transfer courses, teaching credentials, and special academic programs
- Small group sessions on academic and social campus resources/services
- Presentation/discussion with administrators, faculty, staff, and student leaders
- Study skills workshop
- Visit to residence halls
- Lunch with staff and students
- Overnight residence hall stay
- Social "get acquainted" activities

Participating in orientation will help you feel more at home at CSU, Fresno.
For eligible new students, special orientation sessions are offered by the following program areas: EOP Summer Bridge, International Student Services and Programs, Reentry Programs, and Athletic Academic and Support Services.

# Orientation and Transition Services 

Orientation and Transition Services<br>Student Affairs<br>Ponderosa, Suite 12<br>(209) 278-7533<br>Acting Director, Peggy F. Hayward

University 1, Introduction to the University, is an orientation class offered at CSUF. Designed to help students make a smooth transition into the university culture, this academic course focuses on the purposes of higher education and strategies for achieving individual educational goals.

Here's what some students had to say about the new student orientation programs they attended:
"The overnight Discovery Program was great. It gave me time to get to know some other new students and orientation leaders before school started. I felt more comfortable and confident about attending CSUF."
-Anna Gonzales
"My orientation experience made me familiar with the campus. It was much less stressful when I began my first semester at CSUF."

> —Jenny Rodriguez
"Any questions I had were answered. I got to talk to department members so I had good information before I even went to school."
-Anne Frye
"The orientation people got me going on some classes to start thinking about a major and opened up some opportunities that I had no idea about."
-Todd Snedden
For more information, contact the Office of Orientation and Transition
Services at (209) 278-7533.

Outreach Services

Office of University Outreach Services Student Affairs
Joyal Administration, Room 251
(209) 278-2048

Director, Frances A. Peña

The Office of University Outreach Services (UOS) coordinates all of CSU, Fresno's ongoing outreach activities including Student Affirmative Action and Extended Outreach.

The primary focus of UOS is to assist students with preadmission procedures necessary to attend CSU, Fresno, to improve access for students from underrepresented populations, and to develop and maintain a viable relationship with all segments of the community for a better understanding of the university and its services.

As a regional university, CSU, Fresno concentrates its major outreach activities in high schools and community colleges in the CSUF service area which consists of a fourcounty region: Fresno, Madera, Tulare, and Kings. UOS also provides outreach services to extended areas adjacent to our service region. The following are some of the services provided by UOS:

## Community Colleges/Transfer

Services. Community colleges in our service area receive regular visits by outreach staff, and most students are seen by appointment. Students are assisted with admissions, financial aid, and advising. Information on campus support programs is also provided. Most colleges in the central valley and central coast receive regular visits. Consult with your Transfer Center or Counseling Center. University

Outreach Services also participates in the Fresno City College Transfer Center Project. The Transfer Center sponsors several activities to promote and increase the number of transfer students.

High School Outreach. Schools serviced by University Outreach are visited once during the fall semester with a follow-up visit in the spring. Information on admissions, financial aid, scholarships, housing, and academic majors is provided in small or large group settings.

Student Affirmative Action provides "placement" services to high schools with high minority enrollments. Schools selected as placement sites are visited weekly or biweekly by peer outreach representatives to assist prospective seniors with the CSU, Fresno application process.
Student Intern-Outreach to High School and Community College Underrepresented Students. University student interns encourage and motivate primarily ninth and tenth graders to enroll in college preparatory courses that will lead to CSU admission. Community college students studying in vocational and career-oriented programs are provided information on preparation for and benefits of a baccalaureate degree by interns. Two community colleges and 17 high schools are in the program.

The Early Outreach component encourages, motivates, and exposes underrepresented students to higher education as early as the seventh grade. Services provided to students include school site visits, enrichment workshops, university classroom experience, campus tours, advising, career days, and parent orientations.

Extended Outreach Services. This program provides central locations for residents of West Fresno and Madera to obtain information about the university regarding admissions, financial aid, and academic programs.

Elementary Outreach. Elementary age students are encouraged and motivated to attain academic achievement and to begin setting goals. Outreach programs are targeted at elementary schools in the Fresno Unified, Clovis Unified, and West Fresno School districts.
Campus tours are conducted by student tour guides for prospective students and their families. Group tours may also be accommodated with advance notice. Contact the office for the scheduled hours. -

Education is the key to a better life and a more secure future. The Reentry Program assists potential students, 25 years of age and older, who wish to begin or resume a college education. Transitions are difficult for people of all ages because they usually entail changes in routines and adjustments to new relationships and surroundings.

The reentry staff has a special interest in fulfilling the changing needs of adult learners. Though many who have been away from the formal learning process are apprehensive, we find that the success rate among returning students is high.
> "It is time that we had uncommon schools, that we did not leave off our education when we begin to be men and women."

Walden Thoreau
Adults possess certain assets that come only with age and experience. Older students tend to have strong motivations, coupled with a special eagerness to learn. Broader life experiences usually mean more effective coping skills. Staff and peer advisers help reentry students to make the best use of these advantages.

At the same time, returning individuals often face complicated circumstances which, while making further education desirable, also make it difficult to achieve. Our reentry staff can help when complex issues need attention. And, as for the services offered by the Reentry Program, check them out:

Pre-entry advising helps you with your initial questions about college. We can advise you regarding eligibility, courses, costs, deadlines, and other services.
Academic advising gives you the information you need to make informed decisions about your academic career.

The audiovisual lending library provides you with VCR tapes (both VHS and Beta) on a variety of helpful topics.

Crisis and personal counseling assist you with the transition to student life.
The Evening Program provides support services for reentry students with evening classes.
Peer support promotes a feeling of belonging to the campus community. A student lounge in the Reentry Center provides a place for you to meet friends or relax between classes.

Walking around campus is easy now for Bill Ellis and Paulette Murray (left). Here, they stroll the familiar walkway with reentry counselor Angie Cisneros. After a 26-year absence from the formal learning process, Ellis admits that the first step is the hardest but adds, "Thanks to the Reentry Program, it turned out fine."

# Reentry Program 

Reentry Program<br>Student Affairs<br>Main Cafeteria West<br>(209) 278-3046<br>Director, Arlene L. Bireline

Weekly support groups, including a brown-bag lunch meeting, provide emotional support and an opportunity for you to share concerns with other reentry students.
Coffee hours scheduled weekly provide you with informal information sessions. Excellent speakers from the campus and community address a variety of interesting topics, such as time management, stress control, and overcoming academic anxiety.
Career exploration and counseling referrals available to assist you in making well-informed, appropriate decisions when change is needed.

Workshops, offered in the evenings and on weekends, further assist you with self-awareness, personal growth, relationship and family enrichment, and academic success.

Referrals can be made on your behalf to campus services, such as Career Development and Employment Services, Counseling Center, Child Care Center, and Financial Aid.

If you would like more information about the many opportunities for reentry students, visit the Reentry Office or call (209) 278-3046.

# Student Affairs 

Vice President and<br>Dean of Student Affairs Office<br>Joyal Administration, Room 224<br>(209) 278-2541<br>William H. Corcoran, Vice President/Dean<br>Thomas P. Boyle, Associate Dean<br>Manuel Perez, Associate Dean<br>Robert E. Lundal, Assistant Dean

The Vice President and Dean of Student Affairs Office provides leadership, support, and resources to the many offices and programs in the Division of Student Affairs.

Division offices deal with outreach, reentry, admissions, housing, student activities, intramurals, veterans, disabled student services, international student matters, counseling, advising, orientation, testing, health services, financial aid, and career development and employment.

The Vice President and Dean of Student Affairs Office is also responsible for administering student grievance procedures, student discipline, and maintaining liaison with other administrative and academic areas of the university.

Student Conduct. The Student Code of Conduct (see full text in University Administration and Policies section) is designed to ensure that the normal processes of the university - both instructional and administrative can occur unhindered. In addition to the code, there are a number of local policies that apply to specific groups of students - such as those living in the residence halls.

University, trustee, and state regulations governing student conduct are described in the Handbook for Student Organizations and the Student Rights and Responsibilities Manual. Copies of these, as well as the policy statements relating to cheating and plagiarism, are available from the Vice President and Dean's Office.

Student Grievance Procedures. A grievance could arise out of a decision or action in the course of official duty by a member of the faculty, staff, or administration of CSU, Fresno that is alleged to be discriminatory, contrary to accepted academic relationships and procedures, or restrictive of the rights of any student of the university to fair treatment. The purpose of the grievance procedures is to provide a

mechanism for students to have a third party review of the situation.

The student must first make a good faith effort to resolve the matter informally by talking directly with the individual concerned, the individual's direct supervisor or department chair, and the director of the unit or school dean. If resolution is not effected through the informal procedures, students should contact the Vice President and Dean of Student Affairs Office for assistance and for a copy of the formal procedures for filing a grievance.

Cheating and Plagiarism. Also available from the Vice President and Dean of Student Affairs Office is the full text of the university Policy on Cheating and Plagiarism. Definitions of cheating and plagiarism are found in the University Administration and Policies section.

Student Absences. Students are expected to maintain regular attendance at classes. Extended absences (more than one week) due to illness, death in the immediate family, or other extraordinary emergencies may be reported to the Counseling Center, 278-2732, which will notify the faculty concerned. When any absence occurs, however, the student should contact the instructors involved concerning the possibility of making up the work missed.

Work in a museum. Experience the exciting world of public broadcasting. Help someone learn to read. If any of these situations appeal to you, make the connection with Students for Community Service and make a positive difference in someone's life.

In 1986, the California Legislature passed Assembly Bill 1820. Signed by the governor, the bill contains provisions for the establishment of a Human Corps (a.k.a. Students for Community Service) involving university students for the following purposes:

- Providing university students with real-world learning opportunities
- Fostering a sense of social responsibility and "community" among students
- Stimulating cooperation and coordination between institutions of higher learning and traditional agencies responsible for the delivery of volunteer efforts and community services
- Substantially increasing the community service participation of university students so that all fulltime university students will provide an average of 30 hours of community service each academic year

Who Volunteers? Hopefully, you will volunteer. If you enjoy the rewards of helping someone in need, if you are concerned with social issues, Students for Community Service can find a place for you to share your talents with others. In return, you will experience real-life situations that could help you decide what career path to pursue after college, and you will sharpen your people skills by working with others.
In addition to finding ongoing work for volunteers, Students for Community Service also refers students to work at one-time events, such as blood drives, Passport Fresno, or preparing and serving meals to the homeless.
Who Thinks Volunteer Work is Important? Here's what some of our nation's corporate chief executive officers say about individuals who volunteer to perform community service:
"To maintain the vitality of our nation and develop future leaders, we must complement higher education with a commitment to the welfare of others."

- Riley P. Bechtel President, Bechtel Group
"I have long believed that it is important to evaluate prospective associates against the criteria of whether their attitude was a focus on the person 'T' or the person 'you.' One of the finest demonstrations of some-

Students for
Community Service

Students for Community Service<br>Academic Affairs<br>San Ramon 3, Room 111<br>(209) 278-7128<br>Coordinator, Frank E. Padilla

one who is genuinely capable of putting others ahead of themselves is civic and social service."

- Robert W. Galvin

Chairman, Motorola
"A record of community service in an applicant's resume demonstrates conscientiousness, an ability to work well with others, and a sense of social responsibility. It is important to know that prospective employees have the interest of others in mind as well as their own."
— Russell R. Mack Jr.
Vice President, United Airlines
Who Benefits? Everyone! The staff and programs of nonprofit agencies have suffered budgetary cutbacks, yet client needs have continued to expand. As a volunteer you receive positive reinforcement and experience. Knowledge gained as a volunteer does not end upon graduation. Your employer will note that you are a doer. Your community will recognize a socially concerned citizen. In these ways, both you and the community gain.

Also, you can receive 1-3 units of credit if you successfully complete the following course: Community Service 101, Students for Community Service.

For more information about the many opportunities to volunteer with established local nonprofit organizations, contact us at 278-7128 or visit San Ramon 3, Room 111.

# Testing Services 

Office of Testing Services
Student Affairs
1700 E. Bullard, Suite 101
(Northwest corner of Cedar and Bullard, third building west of Cedar on Bullard) (209) 278-2457

Director, J. Richard Arndt

Taking a test may not be your favorite way to pass the time away, but test taking is very much a part of student life on a university campus. Many students take tests to "get in," and others take tests to "get out."

The overall goal of the Office of Testing Services is to effectively and accurately measure your academic aptitudes and personal attributes as required or deemed desirable by The California State University system regulations, faculty, and your own personal needs and interests.

Our professional staff includes a test officer who has an educational background and experience emphasizing measurement of student growth and development, program assessment and evaluation, educational research, and computer applications related to the aforementioned activities.

## Personal and Career Assessment.

We administer, on a referral basis, several tests designed to measure vocational career interests, aptitude and achievement, and personality characteristics. If you have personal concerns, your referral should come from a counselor in the Counseling Center. If you are interested in career assessment, your referral should come from a counselor in the Career Development and Employment Services Office.

Undergraduate Entrance Examinations. Your application for admission to CSU, Fresno may require scores from the SAT or ACT. While most students take the SAT or ACT on regular national testing dates, we will provide assistance to students who need to make alternative arrangements. For international students seeking university admittance, special dates for the Test of English as a Foreign Language (TOEFL) are offered.

Required Tests. Testing Services has information about tests you may be required to take, such as the CSU English Placement Test (EPT), the Entry Level Mathematics Test (ELM), and the Upper-Division Writing Examination (UDWE).

Graduate School Testing. This office also handles the administration of many tests given nationwide, such as the Graduate Record Examination (GRE), Law School Admission Test (LSAT), the Test of English as a Foreign Language (TOEFL), the Graduate Management Admission Test (GMAT), the National Teacher's Examination (NTE), and others. The California Basic Educational Skills Test (CBEST) is also administered on this campus.
Test Scoring. An instructional test scoring service aids faculty in the development, scoring, analysis, and electronic grade management for objective tests used in the classroom.

Consultative Services. Within the limits of available time, the staff provides assistance to students, faculty, or other university departments in the areas of test development and analysis, research design, statistical analysis, test evaluation, and computer applications related to the aforementioned activities.

For more information about tests and services, stop by the Office of Testing Services and ask the people who work with tests the most - William P. Stock, test officer; Cleo Bauer, coordinator of testing programs; Belinda Barker, testing assistant; and Ramiro U. Estalilla Jr., secretary.

The Office of Veterans Affairs (OVA) at CSU, Fresno is a federally funded program that provides a variety of services to veterans. The OVA is your liaison with the Veterans Administration and the State Department of Veterans Affairs, and other related agencies for the veteran population of the campus.
Veterans transferring to CSU, Fresno from other institutions are strongly urged to contact the OVA and file a request for a Change of Place Training (VA 22-1995) at least two months prior to the beginning of the semester. Students who have never used the G.I. Bill should also apply through the OVA at least eight weeks in advance.

All enrollments must be certified by the Veterans Administration before any benefit checks are issued.
Veterans are not the only students eligible for G.I. benefits. Dependents of deceased or disabled veterans, and certain dependents of California veterans may qualify for benefits. Eligibility is established on a case-by-case basis. Contact the OVA for detailed information and assistance in establishing your claims.
To apply for benefits contact the OVA by telephone, letter, or better yet, in person. The staff will give you all the necessary application forms. The educational assistance programs for which you may apply are:

## Contributory

 Educational Assistance Program for veterans and service persons entering active duty on or after January 1, 1977.Vocational Rehabilitation for disabled veterans of World War II, the Korean Conflict, the post-Korean Conflict, the Vietnam Era, and certain peacetime veterans.

## Survivors and Depen-

 dents Education for children, spouses, and survivors of veterans whose deaths or permanent total disabilities were service-connected, and for spouses and children of service persons missing in action or prisoners of war.Chapter 106. Educational Assistance for members of the Selected Reserve, effective July 1, 1985; Chapter 106, Educational

## Veterans Affairs

Office of Veterans Affairs
Student Affairs
Joyal Administration, Room 252
(209) 278-2562

Director, Ernest G. Shelton

Assistance for members of the Selected Reserve is also referred to as the Selected Reserve Educational Assistance Program.
Chapter 30. The Veteran's Educational Assistance Act of 1984 (Montgomery
G.I. Bill) is geared toward new recruits, who enlisted after June 30, 1985, and members of the military who enlisted prior to January 1, 1977, and who have continuous service. Additional information on either Chapters 106 or 30 is available in the Veterans Office.

Services provided by the Office of
Veterans Affairs include the following:

- Processing veterans application for educational benefits
- Processing and forwarding certification forms
- Processing application for advance pay
- Processing enrollment status, i.e., dropping of units, changing of majors, withdrawals, etc.
- Processing of fee waivers
- Inquiries
- Academic advising
- Personal counseling
- Work-Study Program -

## Admissions, FEES, AND FINANCIAL ASSISTANCE

## Admission

Requirements and
Registration
Process

Admissions Office<br>Joyal Administration Lobby<br>(209) 278-2261<br>Director, Richard L. Backer

Requirements for admission to California State University, Fresno are in accordance with Title 5, Chapter 1, Subchapter 3, of the California Code of Regulations. If you are not sure of these requirements you should consult a high school or community college counselor or the Admissions Office. Applications may be obtained from the Admissions Office at any of the campuses of The California State University or at any California high school or community college.

Importance of Filing Complete, Accurate, and Authentic Application

for Admission Documents. The CSU advises prospective students that they must supply complete and accurate information on the application for admission, residence questionnaire, and financial aid forms. Further, applicants must submit authentic and official transcripts of all previous academic work attempted. Failure to file complete, accurate, and authentic application documents may result in denial of admission, cancellation of academic credit, suspension, or expulsion (Section 41301, Article 1.1, Title 5, California Code of Regulations).

Applicants are required to include their Social Security number in designated places on applications for admission pursuant to the authority contained in Title 5, California Code of Regulations, Section 41201. The Social Security number is used as a means of identifying records pertaining to the student, identifying the student for purposes of financial aid eligibility and disbursement, and the repayment of financial aid and other debts payable to the institution.

## Undergraduate <br> Application Procedures

Prospective students applying for parttime or full-time programs of study, in day or evening classes, must file a

complete application as described in the admissions booklet. The $\$ 55$ nonrefundable application fee should be in the form of a check or money order payable to The California State University and may not be transferred or used to apply to another term.

Applicants need file only at their first choice campus. An alternative choice campus and major may be indicated on the application, but applicants should list as an alternative campus only that campus of The California State University that they can attend. Generally, an alternative major will be considered at the first choice campus before an application is redirected to an alternative choice campus. Applicants will be considered automatically at the alternative choice campus if the first choice campus cannot accommodate them.
For undergraduate admission to CSU, Fresno you must:

1. Submit a current application with a nonrefundable application fee to the Admissions Office.
2. Request institutions formerly attended to send directly to the Admissions Office transcripts of credits from high school and colleges. College transcripts are required in duplicate. Failure to include all colleges attended may

result in cancellation of your registration. All transcripts submitted by students are retained by CSU, Fresno.
3. Take the Scholastic Aptitude Test (SAT) or American College Test (ACT) and request official scores be sent to CSU, Fresno if you are a lower-division applicant. The Test of English as a Foreign Language (TOEFL) is required of all foreign applicants and applicants who do not have at least three years of schooling - at the secondary level or beyond - where English is the principal language of instruction.
4. Take any additional proficiency or placement tests required.

In addition to the other documents required, a veteran should file a copy of the Notice of Separation (DD 214) from the armed services with the application for admission. Academic credit will be awarded for service time and service schools completed as recommended by A Guide to the Evaluation of Educational Experiences in the Armed Services. Veterans who are California residents may be exempt from certain admission requirements. Special admission may be granted if the applicant is judged likely to succeed academically. Standard admission procedures should be followed.

Applications will not be accepted after admissions categories have closed. Eligibility for admission cannot be determined until all required documents have been received. Due to staff limitations, an evaluation of transfer credit will generally not be available until sometime during the first semester's enrollment.

Degree credit may be granted for work completed satisfactorily in another accredited collegiate institution, subject to the restrictions imposed on work taken at this institution. Questions concerning acceptability of a course from another institution should be addressed to the Evaluations Office.

A maximum of 70 semester units of credit is allowed toward the bachelor's degree for work completed in a community college. However, community college credit in excess of 70 units may be used to satisfy subject requirements. No upper-division credit will be given.

A maximum of 12 semester units will be allowed for agricultural projects, work experience, and/or internship courses. No more than 6 semester units taken prior to junior standing will be accepted toward the degree. Remedial course units are not accepted for degree credit. For limitations on extension and correspondence credit, see Extension Classes.

Students desiring university housing or financial aid should file special applications with the appropriate offices concerned as soon as possible.

## Impacted Programs

The CSU designates programs to be impacted when more applications are received in the first month of the filing period than can be accommodated. Some programs are impacted at every campus where they are offered; others are impacted at some campuses, but not all. You must meet supplementary admissions criteria if applying to an impacted program.
The CSU announces before the opening of the fall filing period which programs are impacted and the supplementary criteria campuses will use. That announcement is published in the CSU School and College Review, distributed to high school and college counselors. We also give information about the supplementary criteria to program applicants.
You must file your application for admission to an impacted program during the first month of the filing period. Further, if you wish to be considered in impacted programs at two or more campuses, you must file an application to each. Nonresident applicants are rarely admitted to impacted programs.

## Supplementary Admission Criteria.

 Each campus with impacted programs uses supplementary admission criteria in screening applicants. Supplementary criteria may include ranking on the freshman eligibility index, the overall transfer grade point average, and a combination of campus-developed criteria. If you are required to submit scores on either the SAT or the ACT, you should take the test no later than December if applying for fall admission.The supplementary admission criteria used by the individual campuses to screen applicants appear periodically in the CSU School and College Review and are sent by the campuses to all applicants seeking admission to an impacted program. Unlike unaccommodated applicants to locally impacted programs who may be redirected to another campus in the same major, unaccommodated applicants to systemwide impacted programs may not be redirected in the same major but may choose an alternative major either at the first choice campus or another campus.

## Graduate and

## Postlbaccalaureate

## Application Procedures

All graduate and postbaccalaureate applicants (e.g., master's degree applicants, those seeking credentials, and those interested in taking courses for personal or professional growth) must file a complete application as described in the admissions booklet. CSU students who completed undergraduate degree requirements and graduated the preceding term are also required to complete and submit an application and a nonrefundable application fee. Since applicants for postbaccalaureate programs may be limited to the choice of a single campus on each application, redirection to alternative campuses or later changes of campus choice will be minimal. To be assured of initial consideration by more than one campus, it will be necessary for any applicant to submit separate applications (including fees) to each. Applications may be obtained from the Graduate Studies Office of any California State University campus in addition to the sources noted for undergraduate applicants.
Graduate applicants are encouraged to submit applications during the initial filing period (November for fall admission; August for spring). For additional information, see the Division of Graduate Studies and Research.

## Application Filling Periods

Each campus accepts applications until capacities are reached. Many campuses accept applications up to a month prior to the opening day of the term.

| 2.67 | 16 | 670 | 2.32 | 23 | 950 |  | nission |  |

Some campuses will close individual programs earlier.

- Applications for the fall semester are accepted beginning November 1. Student notification begins in December.
- Applications for the spring semester are accepted beginning August 1. Student notification begins in September.

Applications postmarked or received during the initial filing period will be given equal consideration within established enrollment categories and quotas. There is no advantage in filing before the initial filing period. Applications received before the initial filing period may be returned, causing a delay in processing. With the excep-
tion of the impacted undergraduate program areas, applications will be accepted well into the extended filing periods until quotas are filled.

Application Acknowledgment. You may expect to receive an acknowledgment of your application from your first choice campus within two to four weeks of filing the application. A notice that space has been reserved for you will also include a request that you submit the records necessary for the campus to evaluate your qualifications. You may be assured of admission if the evaluation of your qualifications indicates that you meet admission requirements. Such a notice is not transferable to another term or to another campus.

Hardship Petitions. The campus has established procedures for considering qualified applicants who would be faced with extreme hardship if not admitted. Petitioners should write the Admissions Office regarding specific policies governing hardship admission.

## Undergraduate

Admission Requirements
Freshman Requirements. You qualify for regular admission as a first-time freshman if you are a high school graduate, have a qualifiable eligibility index (see table) and have completed with grades of $C$ or better the courses in the comprehensive pattern of college preparatory subject requirements. (See Subject Requirements and Phase-in of the Subject Requirements.) Courses must be completed prior to the first enrollment in The California State University.

Eligibility Index. The eligibility index is the combination of your high school grade point average and your score on either the Scholastic Aptitude Test (SAT) or the American College Test (ACT). For this purpose we compute your grade point average on your final three years of high school studies, excluding physical education and military science, and use bonus points for approved honors courses. (See Honors Courses.) CSU may offer you early, provisional admission based on work completed through the junior year of high school and planned for your senior year.

You can calculate the index by multiplying your grade point average by 800 and adding your total score on the SAT. Or, if you took the ACT, multiply your grade point average by 200 and add 10 times the composite score from the ACT. If you are a California high school graduate or a legal resident of California for tuition purposes, you need a minimum index of 2800 using the SAT or 694 using the ACT. The Eligibility Index Table illustrates several combinations of test scores and averages required. If you neither graduated from a California high school nor are a legal resident of California for tuition purposes, you need a minimum index of 3402 (SAT) or 842 (ACT).

Applicants with grade point averages of 3.0 or above ( 3.6 for nonresidents) are exempt from the test requirement.

You qualify for regular admission when the university verifies that you have a qualifiable eligibility index and will have completed the comprehensive pattern of college preparatory subjects and, if applying to an impacted program, meet supplementary criteria. You still qualify for regular admission, on condition, if you are otherwise eligible, but are missing a limited number of the required subjects. (See Phase-in of the Subject Requirements.) "Conditional admission" is an alternative means to establish eligibility for regular admission. Consult with a counselor if you have any questions.
Graduates of secondary schools in foreign countries must be judged to have academic preparation and abilities equivalent to applicants eligible under this section.
Subject Requirements. The California State University requires that first-time freshman applicants complete, with grades of $C$ or better, a comprehensive pattern of college preparatory study totaling 15 units. A "unit" is one year of study in high school.

- 4 years of English
- 3 years of mathematics (algebra, geometry, and intermediate algebra)
- 1 year of U.S. history or U.S. history and government
- 1 year of laboratory science (biology, chemistry, physics, or other acceptable laboratory science)
- 2 years of the same foreign language (subject to waiver for applicants demonstrating equivalent competence)
- 1 year in the visual and performing arts (art, dance, drama/theater, or music)
- 3 years of electives selected from English, advanced mathematics, social science, history, laboratory science, agriculture, foreign language, and the visual and performing arts
Phase-in of the Subject Requirements. CSU is phasing in the freshman subject requirements and during the phase-in period admits, on condition, applicants who meet all other admission requirements but are missing a limited number of the required subjects. Students admitted on condition must make up missing subjects after enrolling in the CSU.

The phase-in schedule is:
Fall 1991-Summer 1992. At least 13 of the required 15 units, including at least 3 of the units required in English and 2 of the units required in mathematics.
Fall 1992 and later. Full implementation of the 15 -unit requirement expected.
Waiver of Foreign Language Subject Requirement. The foreign language subject requirement may be waived for applicants who demonstrate competence in a language other than English equivalent to or higher than expected of students who complete two years of foreign language study. Consult with your school counselor or any CSU campus Admissions or Relations with Schools offices for further information.
Subject Requirement Substitution for Students with Disabilities. Disabled student applicants are strongly encouraged to complete college preparatory course requirements if at all possible. If applicants are judged unable to fulfill a specific course requirement because of their disability, alternative college preparatory courses may be substituted for specific subject requirements.
Students who are deaf and hearing impaired, have learning disabilities, or are blind and visually impaired may in certain circumstances qualify for substitutions for the foreign language, mathematics, and laboratory science subject requirements. Substitutions may be authorized on an individual basis after review and recommendation by the applicant's academic adviser or guidance counselor in consultation with the director of a CSU disabled student services program.
Although the distribution may be slightly different from the course pattern required of other students, students qualifying for substitutions will still be held for 15 units of college preparatory study. Students should be aware that course substitutions may limit later enrollment in certain majors, particularly those involving mathematics. For further information and substitution forms, contact the director of disabled student services at your nearest CSU campus.

High School Students. Students still enrolled in high school will be considered for enrollment in certain special
programs if recommended by the principal and the appropriate campus department chair and if preparation is equivalent to that required of eligible California high school graduates. Students should have at least a 3.0 GPA in college preparatory subjects or exhibit unusual academic abilities. Such admission is only for a given program and does not constitute the right to continued enrollment. Contact the CSU, Fresno Admissions Office.
Provisional Admission. California State University, Fresno may provisionally admit first-time freshman applicants based on their academic preparation through the junior year of high school. CSU, Fresno monitors the senior year of study of those provisionally admitted to ensure that they maintain a satisfactory grade point average - including the required college preparatory subjects - and graduate from high school.
Transfer Requirements. You qualify for admission as a transfer student if you have a grade point average of 2.0 (C) or better in all transferable units attempted, are in good standing at the last college or university attended, and meet any of the following standards:

1. You meet the freshman admission requirements in effect for the term to which you are applying. (See Freshman Requirements.)
2. You were eligible as a freshman at the time of high school graduation and have been in continuous attendance in an accredited college since high school graduation.
3. You were eligible as a freshman at the time of high school graduation except for the subject requirements, have made up the missing subjects, and have been in continuous attendance in an accredited college since high school graduation.
4. You have completed at least 56 transferable semester (84 quarter) units and have made up any missing subject requirements. (See Making Up Missing College Preparatory Subjects.) Nonresidents must have a 2.4 grade point average or better. A maximum of 70 transferable semester ( 105 quarter) units is allowed from two-year institutions (community/junior colleges).
"My undergraduate years at Fresno State made a real change in my life and profession. The friendly, professional, and informal interaction with the professors made learning a more pleasurable experience. This environment was instrumental in making me change my negative attitude about schools."

Aleardo Zaccheo
Alumnus from Switzerland, Teacher

For this requirement, transferable courses are those designated for that purpose by the college or university offering the courses.

Making Up Missing College Preparatory Subject Requirements. Undergraduate transfer applicants who did not complete the subject requirements while in high school may make up missing subjects in any of the following four ways:

1. Complete appropriate courses with a $C$ or better in adult school or high school summer sessions.
2. Complete appropriate college courses with a $C$ or better - one course of three semester (four quarter) units is considered equivalent to one year of high school study.
3. Earn acceptable scores on specified examinations.
4. Transfer applicants with 56 or more semester (84 quarter) units may complete, with a $C$ or better in each course, one of the following alternatives:
a. 1987 or earlier high school graduates: the CSU General Education requirement in communication in the English language (at least 9 semester units) and mathematics (usually 3 semester units).
b. 1988 and later high school graduates: complete a minimum of 30 semester ( 45 quarter) units to be chosen from courses in English, arts and humanities, social science, science, and mathematics of at least equivalent level to courses that meet General Education or transfer curriculum requirements.

All transfer applicants with 56 or more transferable semester units are expected to have completed the General Education requirements in communication in the English language (at least 9 semester units) and in mathematics (usually 3 semester units).

Consult with any CSU Admissions Office for further information about alternative ways to satisfy the subject requirements.

Honors Courses. Grades, in up to eight semester courses designated as honors in approved subjects and taken in the last two years of high school, receive additional points in grade point average calculations. Each unit of $A$ in approved courses receives a total of 5 points; $\boldsymbol{B}, 4$ points; $C, 3$ points; $D, 1$ point; and none for $\boldsymbol{F}$ grades.
Test Requirements. Freshman and transfer applicants who have fewer than 56 semester ( 84 quarter) units of transferable college credit must submit scores from either the Scholastic Aptitude Test (SAT) or the American College Test (ACT). Registration forms and the dates for either test may be obtained from high school or college counselors or from a campus testing office. Or, you may write to the following addresses:

The College Board (SAT)
Registration Unit
Box 592
Princeton, New Jersey 08541
American College Testing
Program (ACT)
Registration Unit
P.O. Box 168

Iowa City, Iowa 52240
TOEFL Requirement. All undergraduate applicants whose native language is not English, regardless of citizenship, must demonstrate English language proficiency through an official TOEFL report showing a minimum score of 500. All graduate applicants must submit a minimum TOEFL score of 550, unless they have a baccalaureate degree from an institution of higher education in which English is the language of instruction. Individual campuses may require higher scores for specific majors.

Systemwide Tests Required of Most New Students. The CSU requires new students to be tested in English and mathematics after they are admitted. These are not admission tests, but a way to determine if you are prepared for college work and, if not, to counsel you how to strengthen your preparation. You might be exempted from one or both of the tests if you have scored well on other specified tests or completed appropriate courses.

English Placement Test (EPT). The CSU English Placement Test must be completed by all new undergraduates unless exempt. (See Academic Placement.)
Entry Level Mathematics (ELM) Test. All new undergraduate students must take and pass the ELM test before enrolling in a course that satisfies the quantitative reasoning requirement of the General Education CORE program. Exemptions from the test are given to students only under certain circumstances. (See Academic Placement.)
Adult Students. As an alternative to regular admission criteria, applicants who are 25 years of age or older may be considered for admission as adult students if they meet the following conditions:

1. Possess a high school diploma (or have established equivalence through either the Tests of General Educational Development or the California High School Proficiency Examination).
2. Have not been enrolled in a California community college as a full-time student for more than one term during the past five years. (Part-time enrollment is permissible.)
3. Earned a $C$ average or better in college coursework during the last five years.

Consideration is based on the applicant's probability of academic success and includes an assessment of basic skills in the English language and mathematical computation. For information, call the CSU, Fresno Reentry Office, 278-3040.

Graduation Requirements in Writing Proficiency. All students must demonstrate competency in writing skills as a requirement for graduation. Information on currently available ways to
meet this graduation requirement may be obtained from the Admissions Office or the Testing Office.

## Graduate and Postlbaccalaureate Admission Requirements

See Division of Graduate Studies and Research.

## Returning Students

Applicants who seek readmission after an absence of one semester or more must file an application for admission. Applicants absent one semester only are exempt from the $\$ 55$ application fee providing no academic work was taken in the interim at any other institution. Students absent on an approved planned educational leave are not required to file an application for admission and are exempt from the application fee. (See Planned Educational Leave.)

## International

(Foreign) Students
The California State University must assess the academic preparation of foreign students. For this purpose, "foreign students" include those who hold U.S. visas as students, exchange visitors, or in other nonimmigrant classifications.

The CSU uses separate requirements and application filing dates in the admission of foreign students. Verification of English proficiency (see TOEFL Requirement), financial resources, and academic performance are all considered in an admission decision. All academic documents must be submitted in native language, accompanied by a certified English translation. No final admission decision will be made until required materials have been submitted to International Admissions.

Priority in admission is given to residents of California. There is little likelihood of nonresident applicants, including international students, being admitted to either impacted majors or to those programs with limited openings.
At CSU, Fresno admissions decisions are made on the basis of complete academic records from all secondary and college level schools, demonstrated English proficiency based on the results of the Test of English as a Foreign Language (TOEFL) and a certification of financial support.

Obtain information on TOEFL testing dates and centers by writing TOEFL, Educational Testing Service, Princeton, New Jersey 08540 or contacting the CSU, Fresno Testing Office.
Applicants should take TOEFL at least six months before the beginning of the semester to which they are seeking admission to allow time for receipt and evaluation of test scores.

To qualify for undergraduate admission, an international student must present a score of 500 or better on the TOEFL. A postbaccalaureate or graduate student must present a score of 550 or better. The TOEFL score required for admission to specific programs may be higher than the minimum of 500 for undergraduate and 550 for postbaccalaureate applicants indicated above. Students should check these TOEFL requirements in the departmental listings.
To assure that students are prepared to take advantage of the educational opportunities available at CSU, Fresno each international student who must submit TOEFL scores will be required to participate in a postadmission testing program. The tests will be administered during orientation, immediately before the student's first matriculated semester. The purpose of the testing program is to assess strengths and weaknesses in oral and written English. As a result of the postadmission testing, a student may be required to enroll in certain English as a Foreign Language (EFL) courses as a condition of admission.

An undergraduate student whose academic qualifications are acceptable, but who has not achieved an acceptable TOEFL score may be granted a conditional admission. Such a student must obtain an I-20 Form (Certificate of Eligibility) from an English language school and attend an English as a Second Language (ESL) Program. In order to transfer from a language school to CSU, Fresno a conditionally admitted student must present an acceptable score on the TOEFL.

## Determination of Residence for Nonresident Tuition Purposes

The campus Admissions Office determines the residence status of all new and returning students for nonresident
tuition purposes. Responses to the application for admission and, if necessary, other evidence furnished by the student are used in making this determination. A student who fails to submit adequate information to establish a right to classification as a California resident will be classified as a nonresident.
The following statement of the rules regarding residency determination for nonresident tuition purposes is not a complete discussion of the law but a summary of the principal rules and their exceptions. The law governing residence determination for tuition purposes by The California State University is found in Education Code Sections 68000-68090, 68121, 68123, 68124, 89705-89707.5, and 90408 and in Title 5 of the California Code of Regulations, Sections 41900-41912. A copy of the statutes and regulations is available for inspection at the campus Admissions Office.

Legal residence may be established by adults who are physically present in the state and who, at the same time, intend to make California their permanent home. Steps must be taken at least one year prior to the residence determination date to show an intent to make California the permanent home with concurrent relinquishment of the prior legal residence. The steps necessary to show California residency intent will vary from case to case. Included among the steps may be registering to vote and voting in elections in California; filing resident California state income tax forms on total income; ownership of residential property or continuous occupancy or renting of an apartment on a lease basis where one's permanent belongings are kept; maintaining active resident memberships in California professional or social organizations; maintaining California vehicle plates and operator's license; maintaining active savings and checking accounts in California banks; maintaining permanent military address and home of record in California if one is in the military service.
Students who are within the state for educational purposes only do not gain the status of resident regardless of the length of their stay in California.

In general, an unmarried minor (a person under 18 years of age) derives legal residence from the parent with whom the minor maintains or last maintained his or her place of abode. The residence of a minor cannot be changed by the minor or the minor's guardian, so long as the minor's parents are living.
A married person may establish his or her residence independent of his or her spouse.
An alien may establish his or her residence, unless precluded by the Immigration and Nationality Act from establishing domicile in the United States. An unmarried minor alien derives his or her residence from the parent with whom the minor maintains or last maintained his or her place of abode.
Nonresident students seeking reclassification are required by law to complete a supplemental questionnaire concerning financial independence.
The general rule is that a student must have been a California resident for at least one year immediately preceding the residence determination date in order to qualify as a resident student for tuition purposes. A residence determination date is set for each academic term and is the date from which residence is determined for that term. The residence determination dates are:

## Quarter Term Campuses

Fall September 20
Winter $\qquad$ January 5
Spring April 1
Summer .July 1

## Semester Term Campuses

Fall September 20
Winter (Stanislaus only). $\qquad$ .January 5 Spring January 25

Questions regarding residence determination dates should be directed to the campus Admissions Office which can give you the residence determination date for the term for which you are registering.

## There are exceptions from nonresident tuition, including:

1. Persons below the age of 19 whose parents were residents of California
but who left the state while the student, who remained, was still a minor. When the minor reaches age 18 , the exception continues for one year to enable the student to qualify as a resident student.
2. Minors who have been present in California with the intent of acquiring residence for more than a year before the residence determination date, and entirely self-supporting for that period of time.
3. Persons below the age of 19 who have lived with and been under the continuous direct care and control of an adult, not a parent, for the two years immediately preceding the residence determination date. Such adult must have been a California resident for the most recent year.
4. Dependent children and spouses of persons in active military service stationed in California on the residence determination date. This exception applies regardless of their length of physical presence in California. The exception, once attained, is not affected by retirement or transfer of the military person outside the state.
5. Military personnel in active service stationed in California on the residence determination date for purposes other than education at state-supported institutions of higher education. This exception applies regardless of their length of physical presence in California.
6. Dependent children of a California resident who has been a California resident for the most recent year. This exception continues until the student has resided in the state the minimum time necessary to become a resident, so long as continuous attendance is maintained at an institution.
7. Graduates of any school located in California that is operated by the United States Bureau of Indian Affairs, including, but not limited to, the Sherman Indian High School. The exception continues so long as continuous attendance is maintained by the student at an institution.
8. Certain credentialed, full-time employees of California school districts.
9. Full-time state university employees and their children and spouses; state employees assigned to work outside the state and their children and spouses. This exception applies only for the minimum time required for the student to obtain California residence and maintain that residence for one year.
10. Certain exchange students.
11. Children of deceased public law enforcement or fire suppression employees, who were California residents, and who were killed in the course of law enforcement or fire suppression duties.
Students, following a final campus decision on their residence classification, may make written appeal only to:

## The California State University Office of General Counsel

 400 Golden ShoreLong Beach, California 90802-4275
within 120 calendar days of notification of the final decision on campus of the classification. The Office of General Counsel may make a decision on the issue, or it may send the matter back to the campus for a further review. Students classified incorrectly as residents or incorrectly granted an exception from nonresident tuition are subject to reclassification as nonresidents and payment of nonresident tuition in arrears. If incorrect classification results from false or concealed facts, the student is subject to discipline pursuant to Section 41301 of Title 5 of the California Code of Regulations. Resident students who become nonresidents, and nonresident students qualifying for exceptions whose basis for so qualifying changes, must immediately notify the Admissions Office. Applications for a change in classification with respect to a previous term are not accepted.
The student is cautioned that this summation of rules regarding residency determination is by no means a complete explanation of their meaning. The student should also note that changes may have been made in the rate of nonresident tuition, in the statutes, and in the regulations between the time this catalog is published and the relevant residence determination date.

## Program Planning and Registration

Freshmen should plan their programs early, beginning, when practical, with the selection of a major. Degree requirements in each major are listed under the appropriate department. Major information sheets are available for most CSU, Fresno majors. If a student is undecided about a major, indicate Undeclared on the appropriate forms until a definite decision is reached. For general information, see Degrees and Credentials.
An academic adviser is assigned to each student or selected by the student depending on the major department's procedure. Undeclared majors are advised by the Office of Advising Services.
It is recommended that all students meet with a faculty adviser once each semester before registering for classes. A faculty adviser assists the student in planning an academic program, but the primary responsibility for meeting all graduation requirements is the student's.

## Recommended Preparation

Freshmen. Overall excellence of performance in high school subjects and evidence of academic potential provide the basis for admission at CSU, Fresno.
Since certain academic majors require high school preparation in definite subjects, the student should consult the requirements indicated in the field of his or her choice.
In university majors, such as engineering, natural science, mathematics, social science and humanities, a maximum number of high school credits should be obtained in appropriate preparatory subjects.
Transfer Students. Students intending to transfer to CSU, Fresno should plan their programs while attending other colleges to meet CSU, Fresno General Education and major degree requirements. Students transferring from a California community college should complete as many of the CSU General Education requirements of that college as possible while keeping in mind that a maximum of 70 transferable units is allowed from two-year institutions (community/junior colleges). A General Education Certification should be sent to CSU, Fresno along with the final transcripts. Earning an A.A. or
A.S. degree does not necessarily mean one has fulfilled CSU admission and/ or General Education requirements.
After admission to CSU, Fresno, transfer students with 40 or more units will receive a copy of their advanced standing evaluation indicating how previous college units have been applied toward degree requirements at CSU, Fresno. Questions about one's evaluation should be directed to the student's adviser or the Evaluations Office. It is recommended that transfer students bring with them an unofficial copy of all previous college transcripts and their CSU General Education Certification when attending New Student Orientation and Advising Day to ensure accurate advising.
The California Articulation Number (CAN) identifies some of the transferable, lower-division, introductory (preparatory) courses commonly taught on California college campuses.
The system assures students that CAN courses on one participating campus will be accepted "in lieu of" the comparable CAN course on another participating campus. For example: CAN ECON 2 on one campus will be
accepted for CAN ECON 2 on every other participating campus. Each campus retains its own numbering system, but adds the CAN designation parenthetically in its publications. In this catalog, the CAN is listed parenthetically at the end of the course description.
It is expected that most campuses throughout the state will qualify courses to use the California Articulation Numbers. Check with academic advising offices or articulation officers for current listings of CAN courses and campuses participating in the CAN system. A CAN Catalog listing campuses and courses is published biannually.

## Registration

Registration is open to new and returning students who have been admitted and to continuing students in good standing. Former CSU, Fresno students returning after an absence of one semester or more must apply for readmission, subject to university enrollment limitations and filing deadlines. Students who are returning after an absence of two semesters or more, and those who have been absent one semester and who have attended another institution since last registered at CSU, Fresno are required to pay the \$55 application fee when applying. The Academic Calendar lists dates of registration. Students who register during the Late Registration period (first 5 days of instruction) are assessed a $\$ 25$ late fee. No registrations are allowed after the end of late registration. Registration is complete only when all required forms are completed and filed and all fees are paid. See the Academic Calendar for all deadline dates.

Registration priority for all students is determined by the number of academic units completed with limited exceptions. After a priority group is processed, then first-time freshmen register, followed by students with the highest number of completed units.
Registration in courses offered by some schools or departments may be restricted to students officially enrolled in certain majors and/or class level. It is essential that each student's current major be correctly recorded in the university's records. Failure to do so may result in enrollment difficulties. It is the student's responsibility to be sure
his or her major is correct as it appears each semester on the Early Registration form, the Enrollment Verification card, and on the student's grade report. Undergraduate major changes can be made at the Office of Advising Services; postbaccalaureate and graduate changes at the Office of Graduate Studies; and international student changes at the International Student Services and Programs Office.
Schedule of Courses. An official Schedule of Courses is published each semester listing registration procedures, courses offered, class hours and locations, and other important deadlines and updated policy changes as applicable. The schedule is available prior to registration and may be purchased at the Kennel Bookstore for a nominal cost.

Concurrent Registration at Another College or University. While enrolled at CSU, Fresno, students may enroll for additional courses at another institution outside the CSU system without prior approval. Confirmation from the student's adviser that courses attempted elsewhere will be transferable and meet CSU, Fresno requirements is advisable. The courseload in the combined enrollment program may not exceed the maximum unit load restriction for CSU, Fresno.
Concurrent Registration at Another CSU Campus. A continuing undergraduate student who has completed a minimum of one semester of 12 units on the Fresno campus and is in good standing ( 2.0 grade point average), or a graduate student who has been and is in an authorized graduate program in good standing may enroll concurrently at another CSU campus without any additional fees. Complete information is available in the Office of the Registrar.

Visitor Registration at Another CSU Campus. A continuing undergraduate student who has completed a minimum of one semester of 12 units and is in good standing or a continuing graduate student who has completed one semester and is admitted to an authorized graduate program may register and pay fees at another CSU campus for one semester without applying for admission to that campus.

Complete information is available in the Office of the Registrar.
Full-time/Part-time Students. Students taking at least 75 percent of the normal academic load are considered full-time students. Since the normal academic load is 15 semester hours, students carrying 12 or more semester hours are full-time students. For purposes of financial aid, graduatelevel courses are weighted for graduate students. Each graduate unit attempted by a graduate student is considered as 1.5 units.

Full-time $\qquad$ 12 or more units Three-quarter time $\qquad$ 9 to $11 \frac{1}{2}$
Half-time. .6 to $8^{1 / 2}$

## Excess Unit/Enrollment Restrictions

 - Undergraduate. Undergraduate students are cautioned against registering for more than 18 units without consulting with an adviser, since more than 18 units is generally considered to be an academic overload. A limit of 16 units applies to graduate students. See the Schedule of Courses for details.To register for 19 units, an undergraduate student must have an overall grade point average of 2.5 ; for 20 to 22 units, a student must have an overall grade point average of 3.0. Exceptions to these limits must be approved by the chair of the student's major department. An absolute limit of 22 units (excluding credit by examination units) is enforced which may be waived only with the approval of the dean of the school of the student's major.

An academic department may restrict enrollment by requiring students to drop a class if the student has been disqualified from the major or the student has not achieved a $C$ average in the major. This is especially true in academic areas that are impacted or are in high demand.
Enrollment in upper-division courses is normally restricted to students with junior, senior, or graduate standing or who have the necessary prerequisites. Exceptions are subject to the approval of the instructor and department chair. Only students who have been fully approved for admission to credential programs may enroll in certain
education courses and qualify for a school service credential on the basis of the university's recommendation.

Credit in any course is also subject to all restrictions that may appear in the CSU, Fresno General Catalog.

Excess Units/Enrollment Restrictions - Postbaccalaureate/Graduate. To enroll in 17 or more units, master's degree students must demonstrate a GPA of 3.0 or better; credential students must demonstrate a minimum GPA equivalent to the admission standards of their individual credential program. However, if the credential program requires enrollment in grad-uate-level (200-series) coursework, the students must demonstrate a 3.0 GPA or better. Second baccalaureate/second undergraduate major/nonobjective students may enroll in 19 units if they possess a GPA of $2.5 ; 3.0$ for 20-22 units. Graduate-level (200-series) courses are unavailable to second baccalaureate/major and nonobjective students.
Change of Major. Each undergraduate student who wishes to change his or her major must report to the Office of Advising Services to initiate the procedure. International students report to the International Student Services and Programs Office. Graduate and postbaccalaureate students should report to the Graduate Office.

Adding and Dropping Courses. A student is held responsible for the program of courses in which he or she is officially registered. After registration no changes are made or recorded until appropriate add or drop forms have been completed and filed at the Admis-sions-Records Office by the student. A student is urged to consult an adviser before making a program change. If the class is dropped before the end of the fourth week of classes, the course is not recorded on the permanent record. The end of the fourth week is defined as the end of the 20th instructional day of the semester. Consult the current Schedule of Courses for specific add/drop instructions, procedures, and deadlines.

Adding Courses. Once registered, a student may add courses through the end of the fourth week of instruction. It is recommended, however, that a
course not be added after the second week if the student has not been attending that course from the start.
Dropping Courses. Through the fourth week of instruction, a student may drop courses without a serious and compelling reason. A notation of the courses will not appear on the permanent record (transcript).
After the fourth week of classes, a student may drop a course only for a serious and compelling reason that makes it impossible for the student to complete course requirements. A serious and compelling reason is defined as a medical, emotional, or other condition acceptable to and verified by the dean of the school in which the course is offered. The condition must be stated in writing on the drop form. Upon signing the form, the course instructor may add a written recommendation to the school dean in the space provided. The dean may require that the student provide written substantiation as deemed necessary. Failing or performing poorly in a class is not an acceptable serious and compelling reason within the university policy, nor is dissatisfaction with the subject matter, class, or instructor. When the drop form has been signed by the dean and processed according to instructions on the form, a $W$ is recorded on the student's transcript.

During the final three weeks of instruction, dropping one or more courses is not permitted. A student must completely withdraw unless special approval is given by the registrar in cases such as accident or illness where the cause of the drop is due to circumstances beyond the student's control. If the student has completed a significant portion of the required coursework, incomplete grades are often assigned.
Complete Withdrawal. A student may totally (completely) withdraw from all courses through the last day of instruction. Complete withdrawal is not permitted during the final examination period. If a student withdraws through the first four weeks of instruction, only the date of withdrawal is posted on the permanent record. If the student withdraws after the first four weeks, a $W$ is posted for each class as well as the official date of withdrawal. For
purposes of subsequent registration and catalog determination, students are considered as having been enrolled for that semester.

A student who withdraws from the university in good academic standing (not disqualified) is eligible to enroll the following semester without reapplying for admission. A student remaining unenrolled at the university for only one semester and not enrolling at another accredited institution during the interim must apply for readmission, may use the short application form available from the Admissions Office, and is not required to pay the application fee. However, a student attending another accredited institution or not enrolled for two or more consecutive semesters must reapply and pay the application fee. Consult the current Schedule of Courses for specific withdrawal instructions, procedures and deadlines.
Nonattendance. During the first week of classes, it is the responsibility of students to attend each class meeting of courses in which they are enrolled. Students absent from any class meeting during this period are responsible for personally contacting their instructor by the next class meeting to request being retained in the class.
In addition, as a courtesy to other students on class waiting lists and as a courtesy to the faculty, students who decide to drop classes should contact instructors immediately. However, students must not assume that instructors will exercise their option to submit the Administrative Withdrawal Form. In short, it still is the responsibility of students to withdraw properly from any classes they do not intend to complete. Failure to withdraw will result in the assignment of the appropriate failing grade, $U$ or $N C$.

Further, in order to permit students on waiting lists to enroll in a class, instructors may drop from their classes students who are absent from any class session during the first week of classes and do not personally notify the instructors by the next class meeting of their intent to remain in the course.

## Preprofessional Preparation

Preprofessional programs are available for students who plan to transfer to other institutions for the completion of professional curricula in such fields as law, medicine, veterinary medicine, pharmacy, dentistry, optometry, forestry, architecture, theology, librarianship, chiropractic, and osteopathic and podiatric medicine. Some of these programs are described below.

Students planning to complete a preprofessional program and degree at CSU, Fresno must complete a major offered at this university. They should include their preprofessional area plus their university major on all registration forms; for example, premedicalchemistry, premedical-biology, prelawhistory, prelaw-political science. There are no preprofessional majors per se.

Instead, preprofessional students work toward various university degrees and while doing so, incorporate into their college programs courses required for entry into professional school.
Careful program planning is important in order to select proper classes and complete requirements in a timely way. Regular advising is essential since professional schools change their requirements occasionally. Preprofessional students should contact their respective major and preprofessional advisers before enrolling in classes each semester to stay abreast of current developments.

A current list of CSU, Fresno preprofessional advisers is available in the Office of Advising Services.

Premedical. Students interested in preparing for medical school should declare their intent at the time they apply for admission to CSU, Fresno. To do this, it is necessary that students use a term such as premedical-sociology, premedical-zoology, premedical-chemistry or premedical-general on all application, admittance, and registration papers. In case premedical-general is chosen, a specific subject major should be selected
as soon as possible and not later than the sophomore year from the list of approved CSU, Fresno majors in the Degree Requirements section in this catalog.

Requirements for admission to medical school vary considerably from one medical school to another and change from time to time, but a well-balanced liberal education is usually specified.
Some aptitude and university training in science and English are essential in medicine. The minimum requirements in these subjects specified by most medical schools can be satisfied by specific courses in biology, chemistry, physics, and English. Also calculus is required by some medical schools. Because of competition for admission to medical schools, a grade point average above 3.5 is highly desirable. The Medical College Aptitude Test (MCAT) is required before students can be accepted into medical school. It is recommended that the MCAT be taken and application for medical school be made at the end of the junior year.

Freshmen, transfer, and all other students who are entering the program are advised to contact a premedical adviser prior to registration. (See Advising Services.) Each student is assigned to a member of the premedical advisory committee who assists him or her in planning a program of courses and advises him or her concerning
preparatory procedures for application to medical school.

The Premedical Advisory Committee will mail to any interested student a booklet that covers the operation of the CSU, Fresno premedical program, courses required and medical school admissions procedures. Write to:
Premedical Advisory Committee California State University, Fresno

## 2555 E. San Ramon

Fresno, CA 93740-0070.
Predental. The minimum training for dentistry is a six-year course - the first two years (predental training) in a liberal arts college and the remaining four years (dental training) at a school of dentistry.
The minimum predental program required by accredited dental schools is one year each of English, inorganic chemistry, physics, and zoology; one semester of organic chemistry; and additional courses (usually elective in general education, but specified by some dental schools) for a total of 60 units. Each science course must include laboratory.
The present trend among dental schools is to require more than two years of predental training including a broad liberal arts background. Since 1971, three years of predental training have been required by the University of California, San Francisco and some other dental schools. Additional organic chemistry, quantitative chemical analysis, elementary physical chemistry, other zoology courses, and in some cases a foreign language and psychology are recommended or required. Several schools require a bachelor's degree for entrance. The American Dental Association Aptitude Test and evidence of physical fitness and good moral character are usually required. Many dental schools also require a personal interview and some administer additional tests. For other information, see the predental adviser and dental school catalogs.
Prelegal. Most fully accredited law schools require a bachelor's degree for admission. Since a prelegal program providing a broad cultural background is recommended by the law schools,
any baccalaureate major, depending on the student's interest, may be chosen from the university offerings. (See Degree Programs, Majors and Minors.) Law schools suggest courses, but not necessarily a major, in the following: written and oral English, American and English constitutional history, world history, accounting, business administration, elementary logic, mathematics, statistics, economics, political science, philosophy, science and foreign language. For further information consult a prelaw adviser and law school catalogs.
Prelibrarianship. Accredited graduate schools of librarianship require a bachelor's degree for admission. A major in any subject is acceptable. A reading knowledge of at least one modern foreign language is a requirement for admission to most graduate schools of librarianship; this requirement is normally satisfied by the successful completion of two college years of the language. Also, many schools now require a course in mathematics or statistics. In addition, a course in computer concepts is advisable. Students considering librarianship as a career should consult the prelibrary program adviser in the Henry Madden Library.
Preoptometry. California State University, Fresno provides courses for the completion of preprofessional requirements of an optometry program. Most professional schools require junior standing and coursework which includes two years of biology, one year of chemistry, mathematics, physics and English, and one semester of psychology and statistics with above average scholarship. For further information, see optometry school catalogs and consult the preoptometry adviser in the Department of Physics.

## The Optometry Admission Testing

 Program (OAT) exam is required before application can be made to optometry school. Application should be made one year in advance of anticipated enrollment.Prepharmacy. The first two years (prepharmacy) of a six-year pharmacy program may be completed at CSU, Fresno. All new and transfer students should indicate on application, admittance, and registration papers
an interest in prepharmacy-biology. Most professional schools require a $C$ average or better for a minimum of 60 semester units, including one year each of inorganic chemistry, physics, calculus, zoology, English composition, and literature; one semester of organic chemistry or quantitative analysis; and additional elective courses that are specified in certain areas by some schools. Students may elect to complete more than 60 semester units before applying to pharmacy school. A personal interview may be required of applicants by some schools. For further information, see pharmacy school catalogs and consult the prepharmacy adviser in the Department of Biology.
Preveterinary. Students preparing for the veterinary profession can satisfy their preveterinary curriculum requirements at CSU, Fresno. Preveterinary students should plan to complete a B.S. degree in Animal Sciences or a B.A. degree in Biology prior to application to a school of veterinary medicine. Students should keep in mind, however, that adequate performance on the advanced biology portion of the Graduate Record Examination within five years prior to application is a major requirement for admission to veterinary school in California.
Courses recommended by the Department of Animal Sciences and Agricultural Education for its majors preparing for veterinary school include Animal Science 65A, 125, 135, 165, and 166; Chemistry 1A, 1B, 8 , and 109 ; Physics 2A; Zoology 1, 114, and 160. The School of Agricultural Sciences and Technology is equipped to provide valuable experience with large animals through the student project program. Admission to veterinary school in California requires about 4.5 weekequivalents ( 180 hours) of relevant animal experience in activities that specifically give the applicant an appreciation and understanding of the profession of veterinary medicine.

## Students desiring further information

 regarding the preveterinary curriculum should consult the chair of the animal sciences department, campus veterinarian and/or the adviser in the Biology Department.Business Office
Joyal Administration, Room 152

Accounting Officer, Robert P. Vega
Schedule of Fees. Legal residents of California are not charged tuition. The following reflects applicable fees and nonresident tuition per semester. (Fees are subject to change without advance notice.)

Credit Cards. VISA and MasterCard bank credit cards may be used for payment of Student Fees.*

## Application fee

Nonrefundable, payable by
check or money order at
time of applying
$\$ 55.00$
State university fee
0 to 6.0 units
270.00
6.1 and more units 468.00

Facilities fee
All students, per semester 3.00

## Nonresident** tuition fee

Foreign and domestic, per semester in addition to other fees:
The total amount of nonresident tuition charged shall
be based on the number of units taken, per unit or fraction thereof
246.00

Foreign visa student tuition fee - same as nonresident.
Programming fee (not a state fee) assessed to corporate and governmental sponsors of international students for required additional services
.250 .00

## Extension, per unit

Lecture or discussion course ...... 75.00
Summer session courses, per unit 99.00

## Other fees

Identification card fee .................. 2.00
Graduation fee ............................ 10.00
Diploma fee ................................ 20.00
Diploma replacement, duplicate/reissue 10.00

Health Service fee (not a state
fee), optional, per semester .. 12.00

Student Body Association fee,
all students*** (not a state fee),
per semester
16.00

Student Body Center fee,
all students (not a state fee),
per semester
38.00

## Alan Pattee Scholarships

Children of deceased public law enforcement or fire suppression employees, who were California residents and who were killed in the course of law enforcement or fire suppression duties, are not charged fees or tuition of any kind at any California State University campus, according to the Alan Pattee Scholarship Act, Education Code, Section 68121. Students qualifying for these benefits are known as Alan Pattee scholars. For further information, contact the Admissions/ Registrar's Office, which determines eligibility.

## Refund of Fees

Fees may be refunded only as authorized by Sections 41803 (parking fees), 41913 (nonresident tuition), 42019 (housing charges), and 41802 (all other fees) of Title 5, California Code of Regulations. Whether a fee may be refunded and the circumstances under which a fee or any part of a fee may be refunded, vary depending on the particular fee involved. Requirements governing a refund may include such matters as the reason for seeking a refund (for example, death, disability, compulsory military service), the number of days of instruction that have elapsed before application for refund is made and the degree to which the campus has provided the services for which the fee has been charged.
The student must file a written application for refund of fees stating the reason for the refund request with the Admissions and Records Office. The application should be filed at the earliest possible date since the refund will be denied if submitted beyond certain time limits. For example, requests for refund of state university fee, student body organization fees, and student body center fees must be made no later than 14 days following the commencement of instruction and requests for refund of extension course tuition fees must be made prior to the fourth meeting of the class.

Details concerning the fees that may be refunded, the circumstances under which fees may be refunded, and the appropriate procedure to be followed in seeking refunds may be obtained from the Accounting Office, Joyal 181, (209) 278-2772.

Registration Fees. After a student makes a formal withdrawal from the university through the Student Records Office, a refund of a portion of the state university fee may be made if a written application for refund is filed not later than 14 calendar days after the first day of instruction. A student shall make the application personally; if in the opinion of the administration, he or she is unable to do so, the parents or guardian of the student who is a minor, or the legal representative of the student may make the application. (See Title 5, California Code of Regulations, Section 41802.)
The amount of the refund will be determined by the Business Office by deducting $\$ 5$ for registration costs. A full refund may be made to a student who is unable to continue a course because of a university regulation, compulsory military service, death, or disability at any time prior to the date the student receives any academic credit for any course or courses for which he or she is registered less $\$ 5$. The student body and student activity cards must be turned in with the refund application. The late registration fee is not refundable.

There is a refund for a reduction in the student's unit load if the unit load is reduced to a lower fee category not later than 14 days following the day of the term when instruction begins.
The same withdrawal and application for refund procedure applies for the nonresident tuition fee except that the time limit is different. There may be a refund for reduction in unit load. Within the first week of the session, a full refund may be made for units dropped. For each additional week, the refund diminishes as follows: 90 percent of the fee the second week, 70 percent the third week, 50 percent the fourth week, 30 percent the fifth week, 20 percent the sixth week, and no refund after the sixth week.

Parking Fees. A student is entitled to a refund of parking fees in the amount shown in the following schedule if on any one calendar day within the applicable period the student files with the Business Office a written application for refund and returns all documents issued to him or her by the university which evidence their right to use the parking facility including any parking permit, stickers, and decal so issued. If the decal is attached to a vehicle and the vehicle is presented to the university for removal of the attached item by or under the direction of the state, such presentation and removal shall constitute return of the attached item.
Beginning with the first day of instruction, 75 percent of the parking space fee is refunded if application is made as indicated above within 1-30 calendar days, 50 percent within 31-60 calendar days, 25 percent within 61-90 calendar days, and no refund 91 days to the end of the semester.
Housing Facility Fees. The licensee of a residence hall facility in instances of cancellation, revocation, or vacating shall owe fees as provided in Section 42019 of Title 5, California Code of Regulations, regardless of whether the licensee ever assumed actual occupancy and regardless of whether a licensee who has assumed actual occupancy moves out prior to the designated period of obligation. The university shall refund all money collected in excess of such obligation as soon as reasonably possible. A copy of Title 5, Section 42019, is available in the Henry Madden Library, Student Affairs Office, and Housing Office.

## Estimate of Expenses

The basic expenses for attendance at CSU, Fresno for a year (two semesters) for full-time students who live away from home ranges from approximately $\$ 4,780$ to $\$ 5,380$. These figures are exclusive of the nonresident tuition fee, but include an estimate of such personal items as clothes, laundry, and incidental expenditures. Students

## SOURCE OF FUNDS AND AVERAGE COSTS FOR 1990-91 CSU BUDGET (Projected Enrollment: 274,500 FTE)

|  | Amount | $(\text { FTE })^{\mathrm{a}}$ | Percent |
| :--- | ---: | ---: | :---: |
| Total Cost of Education | $\$ 2,111,513,409^{\mathrm{b}}$ | $\$ 7,692$ | 100.0 |
| State Appropriation | $1,691,403,000^{\mathrm{c}}$ | 6,162 | 80.1 |
| Student Fee Support | $324,672,787$ | $1,183^{\mathrm{d}}$ | 15.4 |
| Support From Other Sources | $95,437,622$ | 348 | 4.5 |

> a Average Cost Per Student. For budgetary purposes, full-time equivalent (FTE) translates total head count into total academic student load equivalent to 15 units per term. Some students enroll for more than 15 units; some students enroll for fewer than 15 units.
> b The total cost of education does not include the amount related to lottery and the capital investment of the CSU. The estimated replacement cost of all the system's permanent facilities on the 20 campuses is currently valued at $\$ 6.5$ billion, excluding the cost of land.
> c This figure does not include the capital outlay appropriation of $\$ 212,626,000$.
> ${ }^{\text {d }}$ The average costs paid by a student include the State University Fee, Application Fee, and Nonresident Tuition. Individual students may pay less than $\$ 1,183$ depending on whether they are part-time, full-time, resident, or nonresident students.
who live at home or share apartments with other students and commute to the campus are able to reduce their expenses considerably below the estimated figure. The cost of room and board may also be reduced by cooperative living arrangements or part-time work in exchange for room and board.

Room and Board .......... $\$ 3,950-4,060$
Registration Fees ................. $\$ 588-918$
Books and Supplies ............ $\$ 250-400$
Average Annual Cost of Education and Sources of Funds per Full-Time Equivalent Student. The 20 campuses and the Chancellor's Office of The California State University are financed primarily through funding provided by the taxpayers of California.

The total state appropriation to the CSU for 1990-91, including capital outlay and employee compensation increases, is \$1,904,029,000. The total cost of education for CSU, however, is $\$ 2,111,513,409$ which provides support for a projected 274,500 fulltime equivalent (FTE) ${ }^{\text {a }}$ students.

The total cost of education in the CSU is defined as the expenditures for current operations, including payments made to the students in the form of financial aid, and all fully reimbursed programs contained in state appropriations, but excluding capital outlay appropriations. The average cost of education is determined by dividing the total cost by the total FTEs. The average cost is further differentiated into three categories: state support (the state appropriation, excluding capital outlay), student fee support, and support from other sources (including federal funds).

Thus, excluding costs that relate to capital outlay (i.e., building amortization), the average cost of education per FTE student is $\$ 7,692$. Of this amount, the average student fee support per FTE is $\$ 1,183$. The calculation for this latter amount includes the amount paid by nonresident students.

## Debts Owed <br> to the Institution

Should a student or former student fail to pay a debt owed to the institution, the institution may "withhold permission to register, to use facilities for which a fee is authorized to be charged, to receive services, materials, food or merchandise, or any combination of the above from any person owing a debt" until the debt is paid. (See Title 5, California Code of Regulations, Sections 42380 and 42381.) For example, the institution may withhold permission to receive official transcripts of grades from any person owing a debt. If a student believes that he or she does not owe all or part of an unpaid obligation, the student should contact the campus business office. The business office, or another office on campus to which the student may be referred by the business office, reviews the pertinent information, including information the student may wish to present, and advises the student of its conclusions with respect to the debt.

VIP Bike Registration. The Volunteer Identification Program is available free of charge on the CSU, Fresno campus. With this service your bike is engraved with your driver's license number or a serial number and is listed on a statewide computer system if stolen. Forms for VIP registration are available at the University Student Union information desk, the residence halls and the Commons \#4 Office, and the Campus Security Office.

Financial aid is any resource available to students to offset the costs associated with attending California State University, Fresno. Aside from student and family resources, there are four basic programs of financial aid: grants, loans, work-study, and scholarships. About 95 percent of these programs are administered by the Financial Aid Office.

The majority are funded by the federal and state governments and are needbased. Eligibility for financial aid from need-based programs is determined through a formula mandated by Congress. Several programs administered by the Financial Aid Office are not need-based. There are also additional administrative units on campus that offer financial aid.

The following information outlines the sources of financial aid at CSU, Fresno.

## Need-Based <br> Financial Aid Programs

The following programs are need-based and require that the Student Aid Application for California (SAAC) be submitted before March 2, 1991, for priority processing.
Perkins Loan (formerly National Direct Student Loan)
Supplemental Educational
Opportunity Grant

## College Work-Study

Nursing Student Loan
Bureau of Indian Affairs Grant
**California Graduate Equity Fellowship Program for Underrepresented Students
California State Educational Opportunity Grant (EOP)
California State University Grant
*Pell Grant
Cal Grants A and B
State Graduate Fellowship
*Stafford Student Loan
**Patricia Roberts Harris Fellowship
Students who wish to be considered for participation in any of the above programs for 1991-92 should submit a SAAC form in January or February 1991. Workshops on completing the SAAC are offered by the financial aid staff in January and February. For details, contact the Financial Aid Office.
Details about these programs are listed on pages 80-82 under the heading Program Specifications.

## Non-Need-Based Financial Aid Programs

The Financial Aid Office also administers non-need-based aid programs. These programs are available to students and families regardless of income and assets. Applications for these programs are available in Room 296,

Financial Aid Office
Joyal Administration, Room 296
(209) 278-2182

Director, Joseph W. Heuston

Joyal Administration Building. The non-need-based programs include:

1. California State University, Fresno Institutional Scholarships

- All students must file a scholarship application between November 1, 1990, and February 1, 1991.

2. Parent Loans for Undergraduate Students (PLUS)/Supplemental Loan for Students (SLS)

- No set deadline. However, applicants who submit their application after May 30, 1991, cannot be assured of receiving funds before the beginning of the fall semester.

Additional information about these programs can be found on page 82 .

[^3]
## Additional

## Financial Aid Sources

Alan Pattee Scholarships. Children of deceased public law enforcement or fire suppression employees, who were California residents and who were killed in the course of law enforcement or fire suppression duties, are not charged fees or tuition of any kind at any California State University campus, according to the Alan Pattee Scholarship Act, Education Code, Section 68121. Students qualifying for these benefits are known as Alan Pattee scholars. For further information, contact the Admissions/Registrar's Office, which determines eligibility.
Air Force Reserve Officer Corps Scholarships. Scholarships are available to cover the costs of fees and tuition, books, and lab fees. Applications should be submitted to the chair of the Aerospace Studies Department. For additional information, see Aerospace Studies.

## Army Reserve Officers Training

 Corps. The U.S. Army offers scholarships, which cover tuition, fees, books, and a monthly stipend of $\$ 100$. All students formally enrolled in the ROTC Program receive at least $\$ 1,000$ a year and can earn as much as $\$ 10,000$ during their college careers. For additional details, refer to Military Science.Graduate Assistantships. A number of graduate assistantships and teaching assistantships are available to students who are enrolled in a master's degree program. Stipends range from $\$ 1,850$ to $\$ 7,960$ for graduate assistantships and $\$ 1,560$ to $\$ 10,180$ for teaching assistantships. For additional details, see Graduate Studies and Research.

Resident Advisers. The university employs 25 students to work as Resident Advisers (RAs) in its residence halls. The role of an RA is to act as an effective role model, develop a cohesive community of students, organize and conduct programs, and serve as a resource person to the students. Compensation for the RA position for the academic year is a single room and full meal plan. Applications are available from the University Housing Office at the beginning of the spring semester.

University Association and Foundation Loan Funds. The university operates an Emergency Loan Fund to assist students who need up to $\$ 400$ for educationally related emergency expenses. These loans have to be repaid within 90 days or at the end of the semester, whichever comes first. Loans are granted on the basis of the students' need, educational program, and ability to repay. There are also limited funds available for loans up to $\$ 500$, repayable after graduation. These funds, however, are restricted to "worthy upper-division and graduate students majoring in education and working for a teacher's credential at CSU, Fresno." The funds for these programs have been provided by gifts to the university. Applications for loans are processed through Student Aid Accounting, Joyal Administration Building, Room 275.

Waivers of Nonresident Fees. Upon written waiver by the dean of student affairs or the director of admissions and records, children or spouses of California State University full-time employees, who are not yet legal residents of California, may be exempted from the nonresident fee. Also, with verification by the dean of the School of Education and Human Development, certificated California school district employees who are not yet legal residents of California may be exempted from the nonresident fee, if they are provisionally credentialed and working toward regular credentials, completing postponed requirements, or completing the fifth year required under the Teacher Preparation and Licensing Law of 1970 (Ryan Act).

Division of Graduate Studies Student Research Awards and Travel Grants. Awards of $\$ 500$ are available each semester on a competitive basis to students in the form of grants for research associated with a thesis or project. Travel grants are available to graduate students who have had a paper accepted to be read at a major, professional conference. For further information, contact the Division of Graduate Studies and Research, (209) 278-2448.

## Program Specifications

Need-based financial aid programs. Students in receipt of funding through the following federal and state programs must be making satisfactory progress as defined by statute. Failure to comply with these regulations may jeopardize receipt of student aid funds.
Perkins Loan (formerly National Direct Student Loan). Authorized by the Higher Education Act, this program provides a limited amount of low-interest loans to students who demonstrate an exceptional financial need. Currently students may borrow $\$ 9,000$ during the course of their undergraduate degree. Graduate students may borrow up to $\$ 18,000$ (including any amount borrowed as an undergraduate). New borrowers begin repayment nine months after they graduate, leave school, or cease attending at least half-time. (Students who received funding under the National Direct Student Loan Program have a six-month grace period.) A repayment period of up to 10 years has been established by the federal government. The Higher Education Act also authorized certain conditions under which part or all of the loan may be canceled. Details are available in the federal government publication, The Student Guide, which is available in the Financial Aid Office.

Supplemental Educational Opportunity Grant (SEOG). SEOG is a grant program and, thus, does not require repayment. Awards are restricted to those undergraduates who demonstrate the greatest need according to the formula mandated by the federal government. Funding for the program is limited to the allocation received from the federal government. At CSU, Fresno, a SEOG annual award seldom exceeds $\$ 200$. Priority is given to students who demonstrate eligibility for Pell.

College Work-Study (CWS). CWS is a federally funded, campus-based employment program. The same eligibility requirements that govern the Perkins Loan and the SEOG apply to College Work-Study. Both undergraduates and graduate students are eligible to participate. At CSU, Fresno,
students receiving CWS awards are placed in jobs on campus and with selected off-campus agencies. CWS recipients may work up to 20 hours per week on a job.
Nursing Student Loans. Under this program, a student who can show that a loan is needed to enter or continue in the nursing program may borrow up to $\$ 2,500$ an academic year for the first two years; $\$ 4,000$ for the final two academic years, up to a \$13,000 maximum. No interest is charged while the borrower pursues at least a half-time course of study, or for a period of nine months after leaving school. Interest then starts at 5 percent simple interest and the loan is repaid at not less than $\$ 15$ per month. Interest and payments are deferred for a period of time while the borrower is a member of the uniformed service or is a volunteer under the Peace Corps Act.

## Bureau of Indian Affairs (BIA)

Grants. If you are at least one-fourth American Indian, Eskimo or Aleut, as recognized by a tribal group served by the Bureau of Indian Affairs, you may apply for a BIA grant. The amount is based on financial need and availability of funds from your area agency. You must first submit an application for financial aid and supportive documents. Obtain an application from your area agency or the Financial Aid Office, then see the BIA adviser in the Financial Aid Office to complete the BIA application. Deadlines may vary, but in most cases, BIA applications need to be in the agency office prior to June 1.

California Graduate Equity Fellowship Program for Underrepresented Students. In an effort to overcome underrepresentation, some funds are available to students in a master's degree program providing these students satisfy all required criteria. Recipients are: 1) required to maintain a grade point average of 3.0 or better, 2) belong to one of the following underrepresented groups: African American, Chicano/Mexican American, other Hispanic, American Indian, Filipino, Pacific Islander, or women in a master's program in which men predominate; disabled students may also qualify, 3) qualify as a resident of the state of California for payment of fees at the university, 4) be prepared to
demonstrate financial need. Additional information may be obtained from the Graduate Office.
Minority Advancement and Graduate Incentive Program. The purpose of the Minority Advancement and Graduate Incentive (MAGIC) Program is to increase the number of minority African American, Hispanic, and American Indian students pursuing master's degrees in the fields of education, engineering, and natural sciences. Through this program, selected graduate students with financial need receive a Patricia Roberts Harris Fellowship, which may provide up to $\$ 10,000$ plus university fees and become participants in a program of professional enrichment and leadership development. Students in this program pursue graduate study on a full-time basis and are given opportunities to network with academic and practicing professionals in their field of study from throughout the nation. Successful fellows may receive additional support for a second year of study toward the completion of the master's degree.
Patricia Roberts Harris Fellowship. This is a need-based program for graduate students in specific master's programs. Additional information may be obtained from the Graduate Office.
California State Educational Opportunity Grant Program (State EOP). Educational Opportunity Program Grants are provided by the state of California for students admitted to any one of the 20 campuses of The California State University under the Educational Opportunity Program. Eligibility for this grant is determined by criteria similar to that which governs federal financial aid programs. Admission to the university through the EOP does not automatically mean that the student is awarded a State EOP Grant. Grants provide aid to undergraduate students who, for lack of such assistance, would be unable to enter or remain in an institution of higher education. Funds are limited and range from $\$ 200$ to $\$ 1,000$ for the academic year.
California State University Grant. This is a need-based program for California residents, providing financial support to students equal to the assessed State University Fee. Eligibility
for this grant is determined by criteria similar but not limited to that which governs federal financial aid programs.
Pell Grant. The Pell Grant Program is a program of student financial aid that was authorized by Title IV, Part A, of the Education Amendments of 1972. This program provides grants for all eligible undergraduate students to assist them in meeting educational costs. Program regulations change from year to year. Check with the Financial Aid Office for the regulations now in effect.

Cal Grants A and B. The California Student Aid Commission offers Cal Grants A and B to undergraduate students on the basis of demonstrated need and specific program requirements. To apply, complete the Student Aid Application for California (SAAC) - checking the appropriate box - and return it by March 2, 1991. Recipients who complete a baccalaureate degree on or after 1989 and who are accepted and enrolled in a teaching credential program at an institution approved by the California Commission on Teacher Credentialing will be eligible to apply for renewal of their Cal Grant award for an additional year of grant eligibility, provided financial need continues to exist. All students who are planning to enroll in an approved credential program and wish to continue receiving Cal Grant benefits will be required to submit a Request Form G44.1.

## Paul Douglas Teacher Scholarship.

 The Paul Douglas Teacher Scholarship is a federally funded program providing college scholarships to outstanding high school graduates and college students who demonstrate commitment to pursuing teaching careers at the preschool, elementary, or secondary levels. Participants must agree to teach two full-time years for each year of scholarship coverage. Failure to do so will require repayment of the scholarship, plus interest, and collection fees. Applications for 1991-92 will be available after January 1, 1991 for college students and after March 1, 1991 for high school students.
## Law Enforcement Personnel

Dependents Scholarship. The Law Enforcement Personnel Dependents Scholarship will pay for books and supplies and living expenses up to
\$1,500 per year for needy dependent children of law enforcement officers who have been killed or totally disabled in the line of duty. Applicants should write to the California Student Aid Commission for a special application.

State Graduate Fellowship. The Student Aid Commission also administers the State Graduate Fellowship Program for tuition assistance for masters and doctoral students. To apply, complete the Student Aid Application for California (SAAC) - checking the appropriate box - and return it by March 2, 1991.

Stafford Student Loan (formerly the California Guaranteed Student Loan Program). The Stafford Program enables students with financial need to secure loans for the payment of educational expenses. Available to undergraduates and graduates, the Stafford Loan is a federally subsidized (and insured) program, offered in conjunction with the California Student Aid Commission, through California banks and lending institutions (banks, credit unions, savings and loan associations, etc.). Undergraduates who qualify may borrow up to $\$ 2,625$ per year (as freshmen or sophomores) or $\$ 4,000$ per year (as juniors, seniors, or credential students), up to a $\$ 17,250$ maximum. Graduate students who qualify may borrow up to $\$ 7,500$ per year, to a \$54,750 maximum (includes indebted-
ness incurred as an undergraduate), Simple interest, at the rate of 7 to 9 percent per annum, is charged on loans for students who have previous outstanding loans at 7 to 9 percent per annum, and 8 percent is charged for all new loans. Repayment for 8 percent loans begins six to nine months after students graduate, leave school, or cease attending at least half-time. (Since interest rates, repayment periods, etc. change frequently, the student is advised to contact the Financial Aid Office for more precise information.) The federal government pays the interest until the student borrower enters the loan repayment period. Applications may be obtained from the Financial Aid Office.

Non-Need-Based Financial Aid Programs. The following non-need-based financial aid programs are administered by the CSU, Fresno Financial Aid Office.

California State University, Fresno Institutional Scholarships. Each year about 900 students are awarded Institutional Scholarships
totaling more than $\$ 597,645$. The majority of the scholarships, ranging from $\$ 100$ to $\$ 2,000$, are awarded on the basis of merit to both undergraduate and graduate students. Although requirements for specific scholarships vary, most scholarships require academic achievement or potential, plus a demonstration of the students' commitment to their school, community, or society. Financial need may be a factor but is seldom the exclusive factor. Applications must be submitted by February 1, 1991. The CSUF Scholarship Application is available in the Joyal Administration Building,

Room 298.
Room 298.
Parent Loans for Undergraduate Students (PLUS)/ Supplemental Loan for Students (SLS). The PLUS/ SLS Program was initiated to provide assistance to parents or students who are either ineligible for other aid programs or do not demonstrate financial need as determined by the government formula. Parents may borrow up to $\$ 4,000$ per year, to a total of \$20,000 for each dependent child enrolled at least half-time.
Graduate students and independent undergraduates may borrow up to $\$ 4,000$ per year, to a total of $\$ 20,000$. Applications and information are available at the Financial Aid Office.

CSU, Forgivable Loan/Doctoral Incentive Program for Minorities and Women. The objective of this program is to increase the number of minority and women faculty members within the CSU system's 20 campuses in academic fields where underrepresentation exists. High priority is given to areas severely underrepresented by minorities and women, such as the physical and life sciences, mathematics, computer science, and engineering. This program provides financial support of $\$ 10,000$ per year for up to three consecutive years of doctoral studies. The loan will be forgiven at the rate of 20 percent per year for each postdoctoral year of full-time teaching in the CSU (totally forgiven with five years of full-time teaching). Information and applications are available in the Affirmative Action Office, Upstairs Cafeteria, Room 201.
California Predoctoral Program for Undergraduate and Graduate Students. The objective of this program is to increase the number of California State University minority students, disabled students, and women students in academic fields where they are underrepresented and to encourage them to continue their studies through the earning of a doctorate. A special emphasis will be placed on increasing the enrollment of CSU minority, disabled, and women graduates in doctoral programs at one of the campuses of the University of California. The program provides travel funds for qualified students to visit institutions that grant the doctorate and/or to attend a professional meeting with a faculty sponsor. Students in the program will also participate in a summer research program at a UC or CSU campus. Additional information and application forms are available through department chairs and the dean of graduate studies and research, Thomas Administration Building, Room 132.

## Institutional and <br> Financial Assistance

The following information concerning student financial assistance may be obtained from Joseph W. Heuston, director of financial aid, Joyal
Administration Building, Room 298, (209) 278-2182:

1. Student financial assistance programs available to students who enroll at CSU, Fresno.
2. The methods by which such assistance is distributed among recipients who enroll at CSU, Fresno.
3. The means, including forms, by which application for student financial assistance is made and requirements for accurately preparing such application.
4. The rights and responsibilities of students receiving financial assistance.
5. The standards the student must maintain to be considered to be making satisfactory progress for the purpose of establishing and maintaining eligibility for financial assistance.
The following information concerning the cost of attending CSU, Fresno is available from Robert P. Vega, accounting officer, Joyal Administration Building, Room 152, (209) 278-2764:
6. Fees and tuition (where applicable).
7. Estimated costs of books and supplies.
8. Estimates of typical student room and board costs or typical commuting costs.
9. Any additional costs of the program in which the student is enrolled or expresses a specific interest.
10. The refund policy for the return of unearned tuition and fees or other refundable portions of costs.

Information concerning the academic programs of CSU, Fresno may be obtained from J. Leonard Salazar, associate vice president for academic affairs, Thomas Administration Building, Room 110,
(209) 278-4775 and may include:

1. The current degree programs and other educational and training programs.
2. The instructional, laboratory, and other physical plant facilities that relate to the academic program.
3. The faculty and other instructional personnel.
4. Data regarding student retention at CSU, Fresno and, if available, the number and percentage of students completing the program in which the student is enrolled or expressed interest.
5. The names of associations, agencies, or governmental bodies that accredit, approve, or license the institution and its programs, and the procedures under which any current or prospective student may obtain or review upon request a copy of the documents describing the institution's accreditation, approval, or licensing.

Information regarding special facilities and services available to handicapped students may be obtained from Weldon W. Percy, coordinator of disabled student services, Main Cafeteria West 125, (209) 278-2811.

## AcADEMIC REGULATIONS

## Academic Regulations

California State University, Fresno is authorized to grant the Bachelor of Arts, Bachelor of Science, Bachelor of Vocational Education, Master of Arts, Master of Science, Master of Business Administration, Master of City and Regional Planning, Master of Public Administration, and Master of Social Work degrees. See School of Education and Human Development for public school credentials for which the university is authorized to recommend candidates.

## Definition of Key Terms

Additional Requirements. Courses from one or more departments or programs that are required in support of the major. Such courses are not included in the minimum 2.0 grade point average required for graduation
in the major and may be waived or substituted at the discretion of the major department or program. Additional requirements normally may be applied toward a minor. Additional requirements may also be applied toward General Education unless specifically prohibited by the major department.
CORE. 1) One of the three main parts of the current General Education Program. 2) A common set of courses within a major or minor that all students are required to complete.

CAPSTONE. CAPSTONE is part of General Education. The courses used to satisfy the CAPSTONE requirement provide an interdisciplinary experience in which the skills and knowledge developed in CORE and BREADTH are integrated and their interrelationships are brought into focus. The CAPSTONE requirement may be met by completing a minimum of 6 units in specific upper-division, interdisciplinary courses or by completing a minimum of 6 units in a single cluster of interrelated upper-division courses from two different departments. Some clusters also have additional restrictions. One course must satisfy the upper-division Critical Thinking requirement indicated by (CT) in the listing of CAPSTONE courses. (See General Education CAPSTONE.)

Concurrent Enrollment. The term concurrent enrollment is used to describe several different types of enrollment:

1. Open University Enrollment. Nonmatriculated students may enroll in regular CSU, Fresno classes through the Division of Extended Education. (See Extended Education.)
2. Concurrent Enrollment at Other CSU Campuses. CSU students may attend two CSU campuses simultaneously. This type of enrollment is not often used by CSU, Fresno students because of the distance to other CSU campuses. (See the registrar for details.)
3. Concurrent Enrollment at a NonCSU College or University. While enrolled at CSU, Fresno, students may enroll for additional courses at another institution outside the CSU system without prior approval. Confirmation from the student's adviser that courses attempted elsewhere will be transferable and meet CSU, Fresno requirements is advisable. The courseload in the combined enrollment program may not exceed the maximum unit load restriction for CSU, Fresno.

Double-Counting. Allowing one course to fulfill two separate requirements concurrently; e.g., allowing one course to fulfill both a major require-

ment and the upper-division writing skills requirement, or allowing one course to fulfill both a major requirement and General Education CORE or BREADTH requirement.
The following double-counting policy pertains to General Education:

1. A CORE class also may be applied to a student's major requirement unless the department specifically prohibits it.
2. A maximum of two courses from one department or program also may be applied to satisfy BREADTH requirements. However, a department or program may prohibit any General Education BREADTH course from simultaneously satisfying its own departmental or programmatic requirements.
3. Courses used to satisfy CAPSTONE may not be used to satisfy requirements for the major.
Electives. Courses/units a student selects to complete the total unit requirement for the baccalaureate degree.
Grade Point Average (GPA). The grade point average is a measure of academic scholarship and performance which is computed by dividing units registered into grade points earned. Three separate GPAs are computed on the student's grade report each semester:
4. Cumulative GPA for all baccalaureate or postbaccalaureate units, as appropriate
5. Cumulative GPA for total CSU, Fresno units
6. GPA for that semester only

A minimum of a $\boldsymbol{C}$ average (2.0 GPA) for units in the major, all CSU, Fresno units, and total units is required for a baccalaureate degree. (See Grade Symbols and Grade Points, Degree Requirements.) Master's degree students have a higher minimum GPA requirement. (See Graduate Studies and Research - Advancement to Candidacy, Grade Requirements.)

Major. Set of required courses from one or more departments designed to provide students with the knowledge, skills, and experiences necessary to pursue a specific career and/or advanced study. A student must earn a 2.0 grade point average in all
courses required for the major, except "additional requirements," in order to graduate. (Minimum Title 5 requirements: B.A. degree - 24 units of which 12 must be upper division exclusive of General Education; B.S. degree - 36 units of which 18 must be upper division exclusive of General Education.)

Minor. Set of required courses from one or more departments or programs but less comprehensive than the major. Courses fulfilling requirements for a minor usually may be counted toward General Education. Refer to the description of the specific minor for exceptions. Courses in a major cannot be applied toward a minor unless designated as "additional requirements."

A minor may be earned only at the time a student earns the first baccalaureate degree.

Option. Set of required courses within a major in addition to the major core courses that emphasizes one important aspect of that school, department, or program.
Prerequisite Requirements. 1) Course or courses that must be completed before a higher level course may be taken, sometimes allowed by the instructor to be taken concurrently. 2) Courses outside the major department that must be completed before admission to the major.
Recommended Courses. Courses that the department faculty believe would be beneficial for a student to take but are not mandated or required as part of the major.
Units. A credit or semester unit represents one hour of class work per week for one semester. It is assumed that two hours of preparation are required for each hour in class. Three hours of laboratory per week are the equivalent of one unit. In a limited number of courses two hours of laboratory per week are the equivalent of one unit. Also, two hours of activity or studio (art, dance, music, physical education) are normally equivalent to one unit of credit. One quarter unit of credit is equivalent to two-thirds of a semester unit.
Units registered and units allowed are terms that appear on the student's grade report, transcript, and evaluation. Units registered is the column
used for GPA calculation. The units allowed column is used to determine units completed toward the total unit requirement for the degree.

## Choice of Catalog

Election of Regulations. An undergraduate student must fulfill degree requirements from one catalog, not the most favorable requirements from two or more catalogs. As long as a student maintains "continuous attendance,"* he or she may elect, for purposes of fulfilling graduation requirements, one of the following:

1. The catalog in effect at the time a student begins attending a California public community college or California State University campus.
2. The catalog in effect at the time a student begins attending CSU, Fresno.
3. The catalog in effect at the time the student graduates from CSU, Fresno.
Continuous attendance is defined as being officially enrolled at least one semester or two quarters during a calendar year regardless of the number of units completed. Also, a student is considered to have been in attendance even if he or she registered and totally withdrew from school during that semester/quarter as long as the official transcript so indicates. Any break in attendance of one calendar year or longer breaks a student's continuous attendance status. Once a student establishes catalog rights in the CSU or California Community College system, he or she may attend any accredited college or university for no more than two years and maintain catalog rights. A planned educational leave maintains a student's continuous attendance status. (See Planned Educational Leave of Absence.)
Graduate (master's) students fulfill requirements based on an approved advancement to candidacy petition. These requirements are based on departmental and university requirements as published in the current catalog at the time of advancement. Continuous enrollment is likewise defined differently for master's students. (See Division of Graduate Studies and Research.)
[^4]
## Transcript Evaluation

Undergraduate transfer students are generally evaluated under the degree requirements listed in the General Catalog at the time they enter CSU, Fresno unless eligible for the 1980-81 or earlier catalog. Transfer students entering with 40 or more semester units should receive an advanced standing evaluation during their first semester assuming all transcripts are on file.

Upon completion of approximately 90 semester units, students should request a senior evaluation from the Evaluations Office. This evaluation shows all requirements completed and any remaining baccalaureate degree requirements. Only one senior evaluation is made for each student. A degree evaluation is completed during the semester a student files for graduation. (See Graduation and Commencement.)
Students should keep their personal copy current. All transcripts submitted in support of an application for admission become the property of the Records Office and are not returnable. Students are strongly encouraged to obtain duplicate copies of their records from high school and prior college attendance for their personal file. Students also are strongly encouraged to request a General Education Certification (partial or full) from the California community college and/or California State University campus that they attended prior to enrolling in CSU, Fresno. The certification should be requested at the time final college transcripts are requested.

## Grade Symbols <br> and Grade Points

A - Excellent. Performance of the student has demonstrated the highest level of competence, showing sustained superiority in meeting all stated course objectives and responsibilities and exhibiting a very high degree of intellectual initiative. (4 grade points per unit.)
B - Very Good. ${ }^{1}$ Performance of the student has demonstrated a high level of competence, showing sustained superiority in meeting all stated course objectives and responsibilities and
exhibiting a high degree of intellectual initiative. (3 grade points per unit.)

C - Satisfactory. ${ }^{2}$ Performance of the student has demonstrated a satisfactory level of competence, showing an adequate level of understanding of course objectives, responsibilities, and comprehension of course intent. (2 grade points per unit.)

D - Unsatisfactory. ${ }^{2,3}$ Performance of the student has been unsatisfactory, showing inadequacy in meeting basic course objectives, responsibilities, and comprehension of course content. (1 grade point per unit.)

F - Failure. Fails to meet course objectives. Work at this level does not meet requirements for credit toward a degree. (O grade points per unit.)
U - Failure - Unauthorized Withdrawal. ${ }^{4}$ The symbol $U$ indicates that an enrolled student did not complete course requirements and did not properly withdraw from the course. It is assigned when, in the opinion of the instructor, completed assignments or course activities, or both were insufficient to make normal evaluation of academic performance possible.
(O grade points per unit.)
CR - Credit for units allowed, work of $\boldsymbol{A}, \boldsymbol{B}$, or $\boldsymbol{C}$ quality in undergraduate courses and $\boldsymbol{A}$ or $\boldsymbol{B}$ quality in 200-level courses. (O grade points per unit; units allowed for the degree.)
NC - No credit for units registered for, work of $\boldsymbol{D}$ or $\boldsymbol{F}$ quality in undergraduate courses and $C, D$, or $\boldsymbol{F}$ quality in 200-level courses. Replaces I grade in courses where CR/NC grading is used if required work is not completed within required time. (O grade points per unit; no units allowed.)

W - Withdrawall after the fourth week of instruction. (Not used in grade point calculation.)

I - Incomplete. Semester requirements at least two-thirds complete with work of passing grade. (Not used in grade point calculation.) See Incomplete Grade - Explanation, which follows.

RID - Report delayed. Grade must be cleared before a degree is awarded. (Not used in grade point calculation.)

SP — Satisfactory Progress. Continuing work in progress. (No units allowed and not included in grade point calculation until grade is assigned.)

AU - Audit. Grade indicates student's status as auditor and does not earn degree credit.

## Explanation of Grades

Audit Status (AU). Persons wishing to attend classes without matriculating or receiving college credit may register as auditors. Auditors must register during the late registration period. Students enrolled in audit status only may not transfer to credit status without completing admission procedures. This must be done within the first two weeks of instruction.

Matriculated students may audit courses in addition to those in which they are registered for credit.

Enrollment in a course as an auditor shall be permitted only after students otherwise eligible to enroll on a credit basis have had an opportunity to do so. Auditors are subject to the same fee structure as credit students. Regular class attendance is expected and the student may be required to participate in any or all classroom activities at the discretion of the instructor. An audited course is not listed on the student's permanent record if the requirements for auditing the class are not met. A student who is enrolled for credit may not change to audit after the fourth week of instruction.

[^5]Credit for courses audited will not subsequently be granted on the basis of the audit. (See current Schedule of Courses.)

Credit/No Credit Grading (CR/NC). The credit/no credit grading policy at CSU, Fresno is designed to encourage academic exploration outside the major field of study. The policy also recognizes that in certain types of courses, student performance is best evaluated in terms of credit/no credit grading rather than through the traditional letter grades.

Neither the $\boldsymbol{C R}$ nor $N C$ grade is included in the calculation of the grade point average. The grade of $C R$ is assigned if the student's work is judged to be equivalent to an $\boldsymbol{A}, \boldsymbol{B}$, or $\boldsymbol{C}$ grade as applicable to regular enrollment in an undergraduate course or equivalent to an $\boldsymbol{A}$ or $\boldsymbol{B}$ grade in a 200 -level course.

The $N C$ grade is assigned if the student's work is not equivalent to these standards:

1. General conditions and limitations. Some courses are not available for $C R / N C$ grading, (see individual course description), while others are designated as available for $C R / N C$ grading only. All other courses are available for $C R / N C$ grading; however, a student may not enroll in more than 6 units of $C R / N C$ graded coursework per semester. The decision to enroll for $C R / N C$ grading must be made prior to the end of the fourth week of instruction and the decision must be recorded by the student at the Student Records Office.
2. Undergraduate Students. A student may not elect $C R / N C$ graded coursework to satisfy requirements for the major unless the courses have been designated CR/NC only. A maximum of 24 semester units at CSU, Fresno of $C R / N C$ evaluated credit, including all coursework taken CR/NC only, may be applied toward the degree.
3. Graduate Students. Credit for coursework earned through $C R / N C$ in fall 1978 and in subsequent semesters may not be applied toward the master's degree unless the course has been designated as
available for $\mathbf{C R} / \mathbf{N C}$ only by the Graduate Council. A maximum of 6 units of CR/NC only credit may be applied to a 30 -unit master's degree program and a maximum of 12 units of $C R / N C$ only credit may be applied to a 60-unit program.
See the current Schedule of Courses for further information.

Incomplete (I). The symbol II (Incomplete Authorized) indicates that a portion of required coursework has not been completed and evaluated in the prescribed time period due to unforeseen, but fully justified, reasons and that there is still a possibility of earning credit. In order to be eligible for an I grade, the student must have completed at least two-thirds of the required coursework with a passing grade. It is the responsibility of the student to bring pertinent information to the attention of the instructor before the end of the semester and to determine from the instructor the remaining course requirements that must be satisfied to remove the incomplete. A final grade is assigned when the work agreed upon has been completed and evaluated. Reregistration in the course is not used to remove an I grade.

Normally it is expected that the student will make up an I grade during the next semester; however, it must be made up within one calendar year immediately following the last day of the semester/session during which it was assigned. This limitation prevails whether or not the student maintains continuous enrollment.

Failure to complete the assigned work will result in the $I$ being counted as a failing grade for grade point average computation. An I grade not made up within one calendar year after the grade has been recorded is changed to an $\boldsymbol{F}$ (or an $N C$ if $C R / N C$ grading was approved).
Incomplete grades must be cleared before a degree is awarded. In the absence of the instructor who has assigned the incomplete, a student seeking to make up this grade should consult the department chair. A student may not be required to repeat a course in which an I grade was received unless he or she wishes to receive credit and the time for making up the grade has passed.

A short-term extension of time may be granted with justification by contacting the Office of the Registrar prior to the last day of the second semester/ session.
Satisfactory Progress (SP). The SP symbol is used in connection with courses that extend beyond one academic term. It indicates that work in progress has been evaluated as satisfactory to date but that assignment of a final grade must await completion of additional work. The $\boldsymbol{S P}$ may be used only in courses designated on the approved $\mathbb{S P}$ grade course list published by the Office of the Vice President for Academic Affairs. Cumulative enrollment in units attempted may not exceed the total number applicable to the student's educational objective. As with an I, the student receiving an $\mathbb{S P}$ will have one year from the date of first enrollment to complete the work and to be awarded a final grade. Any extension of time limit for an undergraduate student's $\boldsymbol{S P}$ must receive prior authorization by the Office of the Registrar.

While completing work on an $\mathbb{S P}$, graduate students are required to maintain continuous enrollment at CSUF. This may be accomplished through enrollment in " 0 " unit GS Continuation. Exception: Graduate students enrolled in Project 298 or Thesis 299 receive an SP at the end of the first semester of enrollment and are advised to complete work on the culminating experience during four additional semesters, subject to the five-year overall time limit for completion of all master's degree requirements. In addition, if an $S P$ in 298/299 is not replaced by a final grade within two years as recommended, the student's major department may require him or her to reregister for the course. (See Graduate Studies and Research.)
Unauthorized Withdrawal (U). The symbol $\boldsymbol{U}$ indicates that an enrolled student did not complete course requirements and did not properly withdraw from the course. It is used when, in the opinion of the instructor, completed assignments or course activities, or both were insufficient to make normal evaluation of academic
performance possible. For purposes of grade point average computation this symbol is equivalent to an $\boldsymbol{F}$. The $\boldsymbol{U}$ will not revert to any other grade.
Withdrawal (W). The W grade indicates that the student was permitted to drop the course after the fourth week of instruction for serious and compelling reasons with the approval of the instructor and appropriate campus officials. It carries no connotation of quality of student performance and is not used in calculating grade point average.

## Grading Policies and Practices

Grading. Students are expected to complete all requirements for a class by the end of the semester unless an incomplete is permitted by the instructor in accordance with university policy. Students shall not be assigned additional work or be allowed to revise previous assignments in order to improve a final grade.

College Syllabus and Record Keeping. All faculty members shall provide students at the beginning of each semester a syllabus or outline stating course goals and objectives including grading methodology, types and number of projects, written assignments, tests, experiments, etc.
Repeating courses. Undergraduate students and postbaccalaureate students who are not enrolled in a master's degree program may repeat an undergraduate course at CSUF in which a grade of $\boldsymbol{D}, \boldsymbol{F}, \boldsymbol{U}$, or $\boldsymbol{I}$ was received. More specifically, only postbaccalaureate students pursuing: a) a second baccalaureate degree, b) a second undergraduate major, c) a teaching credential, or d) who have no specific objective, are eligible to repeat courses for grade substitution.
All units attempted will be used to determine the student's grade point average and graduation eligibility unless the student repeats the course and requests the new grade be substituted for the original grade. A grade substitution may be made only once for each course. Graduate-level (200series) courses may not be repeated for the purpose of grade substitution.

The petition is approved if the student receives the same or higher grade than received for the previous attempt. If the petition is approved, units attempted, units passed (if any), and grade points from the previous attempt are deleted and are not used to compute grade point averages or graduation eligibility.

The petition is not approved if the student receives a grade lower than the previous grade ( $\boldsymbol{U}$ or $\boldsymbol{F}$ ). In such cases, no deletions are made and both grades are used in calculating the grade point average. In all cases, all work remains legible on the record to ensure a true and complete academic history.

A course completed at another institution may be repeated by enrolling in a regular CSUF course determined by the Evaluations Office to be essentially equivalent. A course which has been repeated successfully at another institution may not be repeated again for grade substitution at CSUF. In the case of a course repeated at another college, the policy of the college where the course was repeated shall be followed. If it is not possible to determine that policy, the CSUF policy will be followed.

If a student repeats a course in which the original grade earned was a $C$ or $C R$ or higher, the repetition is recorded on the student's transcript but will not be substituted for the original grade. Further, the units and grade points are included in the student's total units/grade points until deleted from these totals at the Advanced Standing evaluation or at the time of final evaluation for graduation.

Undergraduate students (first baccalaureate only) who received $\boldsymbol{D}, \boldsymbol{F}$, or $\boldsymbol{U}$ grades at CSUF may repeat the same or equivalent classes at other accredited institutions with prior written approval of their academic adviser and the Evaluations Office. Classes repeated under this policy shall be limited to no more than five lower-division classes. Concurrent enrollment shall not be permitted.

For further information, see the Schedule of Courses or the Grade Substitution form which is available at the Admissions/Records Office service windows, Joyal Administration Building.

Academic Renewal. Under certain circumstances, the university may disregard up to two semesters (three quarters) of previous undergraduate coursework taken at CSU, Fresno or at any other college from all considerations associated with requirements for the baccalaureate degree. When such action is approved, the student's permanent academic record is marked to indicate that no work taken during the disregarded term(s), even if satisfactory, may apply toward baccalaureate requirements. However, all work must remain legible on the record ensuring a true and complete academic history.

In order to qualify for renewal, all of the following conditions must be met:

1. Five years must have elapsed since the most recent work to be disregarded was completed.
2. It must be evident that the poor level of work represented by the term(s) under consideration is not representative (see No. 3) of the student's usual academic performance and was due to extenuating circumstances.
3. The student must have completed the following in residence at CSU, Fresno since the most recent work to be disregarded was completed:
a. 15 semester units with at least a 3.0 GPA or
b. 30 semester units with at least a 2.5 GPA or
c. 45 semester units with a 2.0 GPA

Work completed at another institution cannot be used to satisfy this request.
4. It must be evident that it would be necessary for the student to complete one or more additional terms in order to qualify for the baccalaureate degree if the request were not approved, i.e., that the student would have less than a 2.0 grade point average in one or more of the following:
a. Cumulative collegiate coursework
b. All CSU, Fresno coursework
c. Coursework required for the major
5. This policy may not be used in concert with any other academic forgiveness policy impacting particular academic term(s).

For further information or to apply for academic renewal, contact the Admissions Office, (209) 278-2191.

Planned Educationall Leave of Absence. A planned educational leave of absence is defined as a planned interruption or pause in a student's regular education during which the student temporarily ceases formal studies at CSU, Fresno, while pursuing other activities that may assist in clarifying the student's educational goals. The intent of the policy is to make it possible for a student to suspend his or her academic work and later resume studies with a minimum of procedural difficulty. A student who is approved for a planned leave will be considered a continuing CSU, Fresno student. A student may, therefore, enroll for classes at the end of an approved leave without reapplying for admission and may continue at CSU, Fresno without changing graduation requirements.

Planned educational leaves may be granted for a variety of reasons or projects, but certain characteristics must be contained in any request for a leave:

1. The student must have a definite objective, which in the judgment of the appropriate admissions official, contributes to his or her educational goals and objectives.
2. The request must be for a specific period of time which shall not exceed four consecutive semesters.
3. The student must plan to return to CSU, Fresno at the conclusion of his or her leave.

The following regulations apply to the planned educational leave:

1. A student currently enrolled in a fully matriculated session may be considered for a planned educational leave.
2. A student may be granted only one leave as an undergraduate and one leave as a graduate student. Planned educational leaves are granted for up to four consecutive semesters.
3. Graduate students must be recommended by the dean of graduate studies; international students by the director of international student services and programs; educational opportunity program students by an EOP counselor.
4. Petitions for planned educational leaves must be filed (with the appropriate recommendation) at the Admissions Office before the
first day of classes for the semester during which the leave is to begin.
5. Leaves are not approved for students in disqualified status or on contract to remove academic deficiencies.
6. It is expected that a student will devote his or her leave primarily to nonclassroom activities. A leave is not approved if the student plans to attend another institution, unless the coursework the student seeks is not available at CSU, Fresno. Any academic credit earned while on a planned educational leave is accredited by CSU, Fresno only if permission is granted for that credit in advance by the admissions officer.
7. Students who do not return to the university at the conclusion of their planned educational leave and those who enroll elsewhere without permission of the admissions officer will be considered to have withdrawn from the university at the end of their last semester of regular enrollment at CSU, Fresno.

Students wishing to apply for a planned educational leave should obtain a request form from the admissions officer, Joyal 106, (209) 278-2191.
Student Academic Petitions. The Student Academic Petitions Committee has the authority to permit exceptions to university baccalaureate degree requirements when fulfilling the degree requirement would prove to be an undue hardship for the student and/or such an exception can be demonstrated to be educationally justifiable. The committee will take action only upon the submission of a formal petition by the student that sets forth the facts and circumstances that may warrant special consideration.
Petitions and procedural information are available in the Office of Advising Services. The Petitions Committee does not make decisions pertaining to substitutions for undergraduate and graduate major requirements. Such requests are initiated through the student's department. Requests to waive established university policy governing graduate study may be addressed to the dean, Division of Graduate Studies and Research. If a request cannot be accommodated, it is forwarded to the Graduate Council.

The Student Academic Petitions Committee also has the responsibility of handling grade protests for all students, undergraduate and postbaccalaureate. Students who believe they have been graded prejudicially, or capriciously by an instructor, should consult first with the faculty member concerned within the first 15 working days of the following semester and make every effort to resolve the issue. (On many occasions when students contact the instructor about a grade thought to be assigned unfairly, the students learn that the instructor actually made a recording error, which is remedied when the instructor obtains a Grade Correction Request form from the departmental secretary and submits the completed form to the Petitions Committee.)
If the issue is not resolved, students should then consult with the department chair. If a student still believes that the grade was assigned prejudicially or capriciously after completing this process, the student then may request that the Student Academic Petitions Committee review the issue. To request such a review, the student must submit no later than midsemester a written statement setting forth all pertinent details to the director of advising services, who chairs the Petitions Committee.

A full statement regarding "Protection Against Improper Academic Evaluation" and additional procedural instructions may be obtained from the Office of the Vice President and Dean of Student Affairs. An associate dean of student affairs is available for clarification of grade protest procedures.

## Scholarship Status

Satisfactory Scholarship. Satisfactory scholarship means at least a $C$ average ( 2.0 grade point average or twice as many grade points as units attempted) and satisfactory progress toward a degree for undergraduate and postbaccalaureate students without a master's degree objective. Graduate (master's degree) students must maintain at least a $\mathbb{B}$ average.

A student (undergraduate, postbaccalaureate or graduate) whose grade point average falls below the satisfactory scholarship level is placed on probation and is disqualified if the
grade point average falls below probation levels. (For details see below.) All probation and disqualification actions are recorded on the student's permanent record (transcript).
Probation. Undergraduate students are placed on academic probation, a type of academic warning, if their:

1. Grade point average (GPA) based on total units attempted at all colleges is below a 2.0 ( $C$ average) or
2. GPA based on all units attempted at CSU, Fresno is below a 2.0 average.

Students remain on academic probation until both overall and CSU, Fresno grade point averages are 2.0 or better, or until they are disqualified under one of the provisions of the disqualification regulations.

For example, first semester freshmen would be placed on probation if they carried 12 units (four 3-unit classes) and earned $1 \boldsymbol{B}, 2 \mathrm{Cs}$, and $1 \boldsymbol{F}$. Students would then have to earn 3 Cs and $1 \boldsymbol{B}$ or better (in four 3-unit classes) the following semester to regain satisfactory scholarship status.
These regulations also apply to all postbaccalaureate students except those enrolled in master's programs. The latter are expected to maintain a cumulative GPA of at least 3.0 in all units attempted subsequent to admission to the master's program. Master's students who fall below the required GPA are placed on probation.

A student may be placed on adminis-trative-academic probation for withdrawal from a substantial portion of a program in two successive terms or in any three terms; for repeated failure to progress toward a degree; or for failure to comply with an academic requirement or regulation that is routine for all students or for a defined group of students.

Disqualification. Students are disqualified if they are on probation and fail to meet the assigned scholarship contract or if they have a cumulative deficiency on either the overall or CSU, Fresno record equal to or greater than that indicated below.

- Freshmen, sophomores (0-59 units completed): 15 grade point deficiency
- Juniors (60-89 units completed): 9 grade point deficiency
- Seniors (90 or more units completed): 6 grade point deficiency
- Postbaccalaureate students: 6 grade point deficiency on postbaccalaureate units

For example, new transfer juniors are academically disqualified if they carried 12 units (four 3-unit classes) and earned $2 C s, 1 \boldsymbol{D}$, and $1 \boldsymbol{F}$. Upon readmission or continuation, students then would have to earn $1 \boldsymbol{B}$ and 3 Cs (in four 3-unit classes) the next semester to be removed from academic disqualification and be placed on probation, or 3 Bs and a $C$ or better (in four 3-unit classes) to regain satisfactory scholarship status. The best way to regain satisfactory scholarship status is to repeat classes at CSU, Fresno in which the student previously earned $\boldsymbol{D}, \boldsymbol{F}$, or $\boldsymbol{U}$ grades, and petition to have the new grade substituted for the prior grade. Disqualified students also are advised to take light unit loads in attempting to bring up their GPA.
Graduate (master's) students are disqualified if their grade point average on either the overall or the CSU, Fresno postbaccalaureate record is equal to or greater than six grade points below a $\boldsymbol{B}$ (3.0) GPA.

Students placed on administrativeacademic probation may be disqualified for the following reasons:

1. If they fail to meet the conditions for removal of probation,
2. Become subject to academic probation while on administrativeacademic probation, or
3. Again become subject to administrative-academic probation for the same or similar reasons.

Readmission of Disqualified Students (Undergraduate). Students placed on disqualified status at the end of a fall semester are automatically readmitted the following spring semester on probation contract. This probation contract is indicated on the student's grade slip.
Students disqualified from CSU, Fresno at the end of a spring semester may be readmitted for a subsequent fall semester only by special action of the appropriate undergraduate authority.

Readmission procedures are mailed to disqualified students at the time spring grades are mailed. A disqualified student, however, may enroll for summer session or extension classes without readmission approval.
Disqualified CSU, Fresno students who have been away one semester or longer must submit an application for readmission in addition to the appropriate petitions.

Contact the Admissions Office at (209) 278-2191 for more information.

Readmission of Disqualified Students (Postbaccalaureate/Graduate). Disqualified postbaccalaureate students who seek readmission must schedule an advisement interview in the Division of Graduate Studies, Thomas Administration Building, Room 132. Additionally, students who seek a master's, second baccalaureate, or credential are asked to obtain the recommendation of the department/ program to which they seek readmission. Students who are undeclared must have the approval of the dean of graduate studies in order to be readmitted to the university.

## Transcripts and Reports

Transcript of Record. Students may request transcripts of their academic records at CSU, Fresno with payment in advance. The fee is $\$ 4$ for the first copy and $\$ 2$ for each additional copy (2-10) ordered at the same time. CSU, Fresno Extension transcripts must be requested separately. Because of the large number of transcripts requested at the end of each semester and summer session, three weeks should be allowed for requests to be filled during those periods. Transcripts are not provided to students with admission holds, unpaid financial obligations, or other administrative holds as determined by university officials. Transcripts of records from other institutions submitted to CSU, Fresno are not returned to students.

Reports to Students. An enrollment report is made available to students by the Admissions/Records Office. At the end of the semester final grade reports are mailed to students at the address submitted to the Admissions/Records Office.

## Classification of Students

Student class levels are determined as follows:
Freshmen - Students who have earned a total of fewer than 30 semester units.
Sophomores - Students who have earned a total of 30 to 59 semester units inclusive.
Juniors - Students who have earned a total of 60 to 89 semester units inclusive.
Seniors - Students who have earned 90 semester units or more.
Postbaccalaureate/Graduates Students who have at least one bachelor's degree from an accredited institution.

Advanced Placement. The Advanced Placement Program of the College Entrance Examination Board permits able high school students to take college-equivalent courses while in high school and, based upon comprehensive qualifying examinations, receive advanced placement and credit at participating universities and colleges. CSU, Fresno grants credit toward its undergraduate degrees for successful completion of examinations of the Advanced Placement Program of the College Entrance Examination Board. Students who present scores of three or better are granted from three to six semester units of college credit for each examination. In order to receive credit for these examinations from CSU, Fresno, students must present an official copy of their test results from the College Entrance Examination Board.

Credits earned through advanced placement are not included among the maximum of 30 units of credit by examination that may be credited toward a bachelor's degree.

English Placement Test (EPT). The CSU English Placement Test must be completed by all new undergraduates. Undergraduates admitted with 56 or more transferable semester
units and who are subject to a catalog earlier than 1986-87 are not required to complete the EPT. A passing score on the EPT is defined as earning a minimum total score of 151 or a minimum essay score of 8 . Exemptions from the test are given only to those students who present proof of one of the following:

- A score of 3,4 , or 5 on either the language and composition or the composition and literature examination of the College Board Advanced Placement Program
- A score on the CSU English Equivalency Examination that qualifies a student for exemption from the English Placement Test
- A score of 470 or above on the verbal section of the College Board Scholastic Aptitude Test (SAT-Verbal)
- A score of 22 or above on the ACT English Usage Test
- A score of 25 or above on the ACTE (enhanced) English Usage Test
- A score of 600 or above on the College Board Achievement Test in English Composition with essay
- For transfer students, completion and transfer to the CSU of an acceptable college course in English composition of four quarter or three semester units with a grade of $C$ or better.
Entry Level Mathematics (ELM) Test. All new undergraduate students, except those eligible for a catalog prior to 1983-84, must take and pass the ELM test before enrolling in a course that satisfies the quantitative reasoning requirement of the General Education CORE program. A passing score on the ELM is achieved by earning a minimum total score of 480 . Exemptions from the test are given only to those students who can present proof of one of the following:
- A score of 3 or above on the College Board Advanced Placement mathematics examination ( $\boldsymbol{A B}$ or $\boldsymbol{B C}$ )
- A score of 530 or above on the mathematics section of the Scholastic Aptitude Test (SAT-Math)
- A score of 23 or above on the ACT Mathematics Test
- A score of 23 or above on the ACTE (enhanced) Mathematics Test
- A score of 520 or above on the College Board Mathematics Achievement Test, Level 1
- A score of 540 or above on the College Board Mathematics Achievement Test, Level 2
- For transfer students, completion and transfer to the CSU of a college course that satisfies the General Education CORE requirement in quantitative reasoning, provided such course was completed with a grade of $C$ or better.

Students who cannot demonstrate basic competence on either examination are required to take steps to overcome deficiencies early in their enrollment. Any coursework undertaken primarily to acquire the required competence shall not be applicable toward the baccalaureate degree.
Failure to take either of these tests, as required, at the earliest opportunity after admission may lead to administrative probation, which, according to Section 41300.1 of Title 5, California Code of Regulations, and CSU Executive Order 393, may lead to disqualification from future attendance. It is the students' responsibility to confirm exemption from either the EPT or ELM tests by completing the appropriate Request for Exemption Form available at the Admissions and Records Office service windows, Joyal Administration Building. Students who need assistance in preparing for the ELM test should consider enrolling in one or more of the following classes: Math AR or Math ILR, N Sci 37, Psych 180T (overcoming academic anxiety). In addition, students may contact the Developmental Learning Resource Center in the Keats Building for information regarding ELM workshops.
Information bulletins and registration materials for the EPT/ELM tests are mailed to all students subject to the requirements. The materials may also
be obtained from the Office of Admissions/Records or the Testing Office.
Credit by Examination. CSU, Fresno grants credit to those undergraduate students who pass examinations that have been approved for credit systemwide. These include the Advanced Placement Examinations, CSU English Equivalency Examination, and some CLEP examinations.

Students may challenge CSUF courses by taking examinations developed at the campus. Credit shall be awarded to those who pass them successfully. Credit by examination is designed to encourage regularly enrolled students to seek college credit in courses in which they have competence but for which credit has not been earned by the usual academic processes. This permits students to accelerate their progress and provides an opportunity for wider selection of coursework. The following procedures should be followed:

1. With the concurrence of the department, students may apply for credit by examination in any course in the current CSU, Fresno General Catalog for which they appear to be reasonably qualified by training or experience and for which college credit has not been previously allowed. Credit by examination is not awarded if credit has been granted for previous coursework more advanced than the level represented by the examination in question. Credit by examination is not allowed in courses in which students have been permitted to register as auditors during the same semester, in which students have received a failing or no credit grade, or in which they have unsuccessfully sought credit by examination.
2. Students enroll for credit by examination at any time during the first two weeks of classes. Students must be regularly enrolled in other courses before they are granted permission to earn credit by examination. Units of credit by examination are counted as part of the total units registered for a given semester or term. Applications for credit by examination must be completed by students and approved by the respective departments.
3. The examination must be administered by the end of the fourth week of instruction, and the instructor must report the grade prior to the close of the sixth week.
4. The course in which students request credit by examination is so designated on their record. If passed, students receive a credit (CR) grade. If they are unsuccessful, no grade is reported. Units earned count toward all appropriate requirements but are not used in computing their grade point average.
5. The number of units earned by credit by examination in any semester or term may not exceed the number of units completed in regular enrollment. A maximum of 30 units earned by examination may be counted toward a bachelor's degree.
Credit earned by examination does not meet the residence requirement of the university. For further information, consult the department concerned.
See also Advanced Placement on previous page.
Graduate Students. Credit by examination for coursework may be used to fulfill prerequisites only and may not be applied toward the total units required for a master's degree.
Independent Study. Independent study is offered to give students experience in planning and outlining a course of study on their own initiative under departmental supervision. Independent study should deal with a special interest not covered in a regular course or with the exploration in greater depth of a subject presented in a regular course. Each department has an independent study upper-division course (190), and some departments have a graduate level course (290). In some departments a 190 or 290 course may be desirable preparation for the thesis or other advanced study.
To be eligible for independent study, students should have an overall grade point average of 3.0 or higher. This requirement may be waived in exceptional cases, when approved by the department chair. Maximum credit of 6 units in independent study courses is allowed toward the bachelor's degree, and maximum credit of 6 units in independent study courses
is allowed toward the master's degree. Credit is limited to a maximum of 3 units per semester. Under extraordinary circumstances more than 3 units per semester may be allowed on petition to the department chair.

Eligible students desiring to register for a 190 or a 290 course must first obtain the consent of an instructor, who will guide the project, and the chair of the department in which the course is given. Students must register for 190 and 290 courses during the regular registration period in the same manner as they register for any other course at the time of registration.

An independent study course normally includes an oral examination by a committee set up by the supervising instructor, a formal report that is filed in the department office, and an abstract of the study that is filed with the department chair. Approval forms and copies of the current regulations may be obtained from department or school offices. The entry on the permanent record shows the discipline and course number only; the title does not appear.

Certain special regulations concerning enrollment in 190 and 290 courses during a summer session can be found in the Summer Session Catalog.

Credit or Noncollegiate Instruction. CSU, Fresno grants undergraduate degree credit for successful completion of noncollegiate instruction, either military or civilian, that has been recommended by the Commission on Educational Credit and Credentials of the American Council on Education. The number of units allowed are those recommended in the Guide to the Evaluation of Educational Experience in the Armed Services and the National Guide to Educational Credit for Training Programs.
Credit for Military Service Course/ Work. Lower-division elective credit is given for recruit training for initial entry into the service providing the student was on active duty for at least one year and one day. Credit given varies depending on the branch of service and date of entry. An applicant for credit must submit a copy of Notice of Separation (DD214) to the Evaluations Office.

DANTES (Defense Activity for NonTraditional Educational Support) maintains the educational records of the servicemen and women who have completed SST's (Subject Standardized Tests), CLEP (College Level Examination Program) examinations and GED tests. DANTES has also maintained USAFI (United States Armed Forces Institute) transcripts since that organization ceased to exist in 1974.

College credit is awarded for acceptable SST scores as recommended by DANTES. Equivalency for SST credit is determined by CSU, Fresno departments. Other credits recommended by DANTES (CLEP, etc.) must meet university guidelines for the awarding of credit for those examinations. DANTES/USAFI correspondence credit is combined with other extension or correspondence coursework to a maximum of 24 semester units.

Additional credit is granted for military courses as recommended in A Guide to the Evaluation of Educational Experiences in the Armed Services. The applicant for such credit must submit official documents giving all details such as location and length.
College Level Examination Program. The College Level Examination Program (CLEP) is designed to be a means through which recognition, academic credit, and placement may be given for less conventional forms of educational experience. Those who may have reached a college level of education through home or correspondence study, on-the-job training, television courses, or by other means may take the CLEP examinations, which are offered by the College Entrance Examination Board.

Within the restrictions of systemwide policy, CSU, Fresno awards credit for successfully completed CLEP examinations. Such credit is applied to the total units required for the baccalaureate degree, but it is not applied to the General Education requirement. Not all CLEP examinations are acceptable under system policy. Subject examinations may require the recommendation of the appropriate department before credit is awarded. Course equivalency is also determined by the department concerned.

Credits earned through CLEP are included among the maximum of 30 units of Credit by Examination that may be credited toward a bachelor's degree. For additional information, call the Testing Office, (209) 278-2457.

English Equivalency Examination. The English Equivalency Examination (EEE) is an examination offered by the CSU system. It is administered each spring on the various campuses to prospective freshmen and other interested students. Students passing both the objective and essay portions of the examination are granted 6 units of freshman English credit. For information, call the Evaluations Office (209) 278-4076.

Credits earned through the EEE are included among the student's Credit by Examination (CBE) units. A maximum of 30 CBE units may be counted toward a bachelor's degree.

Students who want to challenge English 1 CBE may do so only by taking the EEE or the Advanced Placement (AP)-Language and Composition or AP-Literature and Composition tests. Although both tests normally are taken by high school seniors, only the EEE may be taken by college students. Students who pass the EEE earn 6 units of CBE credit - 3 units in English 1 and 3 units in English 20. Students who pass AP-Language and Composition earn 3 units in English 1 and 3 units in English 2. Students who pass AP-Literature and Composition earn 3 units in English 1 and 3 units in English 20.

## Upper-Division Writing Examina-

 tion. The Upper-Division Writing Examination (UDWE) is administered by the university and may be used to satisfy the upper-division writing skills requirement. One unit of credit may be granted (English 100W) to registered undergraduate students upon request. This unit may be applied toward the 40 upper-division unit degree requirement and total units for the baccalaureate degree but cannot be applied toward the 30 residence unit degree requirement or for postbaccalaureate credit. University registration deadlines must be adhered to. English 1 is a prerequisite to taking the UDWE. For details, call the Testing Office, (209) 278-2457.
## Baccalaureate

## Degree Requirements

A student must complete the following requirements in order to earn a Bachelor of Arts or Science degree. Requirements are described in detail in the latter part of this section. Most students accumulate a combination of units in the major, General Education, and nondesignated electives in order to fulfill the requirements of a baccalaureate degree.

1. A minimum of 124 semester units (most B.S. degree programs require 128 or more units)
2. An academic major
3. General Education
4. Specific course/skill requirements:
a. English Composition (English 1 or equivalent)
b. United States History (History 11 or 12)
c. United States and California Constitution (Political Science 2 or 101)
d. Upper-division writing skills
5. A minimum of 30 residence units, of which 24 must be upper division and 12 in the major
6. A minimum of 40 upper-division units
7. Minimum of a $C$ average for units in the major, all CSU, Fresno units, and total units
8. File an application for graduation obtained from the Office of Evaluations and pay the graduation fee at the cashier's window in the Joyal Administration Building by one of the published deadlines

## Dual (Concurrent) <br> Major Requirements

Undergraduate students may desire to complete the requirements for more than one major at the time of completion of the baccalaureate degree (i.e., graduate with a dual major). When students apply for graduation, they must designate which is the primary degree major. Minimum requirements and exceptions for dual majors are as follows:

- Dual B.A. majors must include 24 units, 12 of which must be upperdivision and exclusive of the other major.
- Dual B.S. majors must include 36 units, 18 of which must be upper-

2. Develop a specific list of courses which would, in their opinions, lead to the academic and professional goals stated above
3. Secure the signed approval from the Office of Advising Services, as well as from the special major adviser and department chair in the areas from which the special major courses are drawn

Students must submit the foregoing material to the Office of the Vice President for Academic Affairs for final approval. Upon graduation, Bachelor of Arts, Special Major, and the title of the special major will be entered upon the students' transcripts and diplomas.

## Residence Requirements

The residence requirement for the baccalaureate degree specifies that 30 units shall be earned in residence at the campus granting the degree. Twenty-four of these units shall be earned in upper-division courses and 12 of the units shall be in the major. The residence requirement for graduate students is 21 units.

Extension credit and credit by evaluation, including credit by examination, may not be used to fulfill the above described requirements.

## Specific Course/

Skill Requirements
English Requirement. English 1, Composition, or its equivalent is a university graduation requirement that should be completed before the end of the fourth semester of university attendance. (A grade of $C$ is the minimum acceptable grade to satisfy this requirement.) Students who are exceptionally well-prepared in composition may elect to satisfy the requirement by successful performance in the English Equivalence Examination (EEE). The English Placement Test does not substitute for English 1. See English Placement Test for test scores prerequisite to enrollment in English 1.

## U.S. History and Government

 Requirements. Undergraduate and second baccalaureate degree candidates must demonstrate competence with respect to the Constitution of the United States, American history, and in the principles of state and local government of California in order tograduate. This may be done by passing examinations or by completing History 11 or 12 and Political Science 2 or 101. (In cases in which students have completed the federal government requirement, Political Science 102 [1 unit] will fulfill the state and local government requirement.) (See History Department - American History Requirement and Political Science Department United States Constitution Requirement and General Education - CORE.)

Senior Major Requirement (Senior Project). All students graduating from the university are required to complete a senior major requirement developed and approved by their major departments as a graduation requirement. Normally, senior major requirements would be a seminar, discussion, or laboratory course. However, departments may select a senior project, performance, internship, or independent study if it is linked with an oncampus seminar. Students should contact their academic advisers for specific information on senior project courses.

Upper-Division Writing Skills (UDWS) Requirement. All undergraduate and second baccalaureate degree candidates must demonstrate competency in writing skills at the upperdivision (junior-senior) level as a requirement for graduation. Students may meet this requirement in either of two ways after completion of 56 units:

1. Passing the Upper-Division Writing Examination (UDWE) composed of both an essay and an objective component. This examination is given several times each year, including once during the first two weeks of each semester. Students are permitted to take the examination a maximum of two times. Upon successful completion of the UDWE, undergraduate students may request 1 unit of credit (English 100W), which may be posted to their transcripts the same semester in which the UDWE was passed. For details, call the Office of Testing Services, (209) 278-2457.
2. Obtaining a $C, C R$, or higher grade in an approved upper-division course at CSU, Fresno. Approved courses can be identified in the catalog and Schedule of Courses by the letter W (e.g., Engl 160W,

IS 105W). English Composition (Engl 1) is a prerequisite to any W course.
It is imperative that the UDWS requirement be met within one semester after completing 56 units, or no later than the second semester at CSU, Fresno for students transferring with 56 or more units. The UDWS requirement cannot be fulfilled by a class or test taken outside of The California State University system.
The UDWS requirement is not part of the General Education requirement. Passing the UDWE does not exempt students from taking a $W$ course if it is required in their major, e.g., Hist 100W.

Graduate students should consult Graduate Studies and Research regarding the graduate-level writing proficiency requirement.
Remedial Courses. Students admitted to a CSU campus are expected to possess basic competence in the English language and mathematical computation. Students admitted who cannot demonstrate such basic competence are required to remedy this deficiency. Such remedial courses are designated by the letter $\boldsymbol{R}$ following the course number, except English A. Credits earned in remedial courses cannot be used to satisfy degree requirements. (See Developmental Learning Resource Center.)

## Unit Limitations

The following unit limitations apply to all bachelor's degrees:

1. A maximum of 70 transferable semester units ( 105 quarter) is allowed from two-year institutions (community/junior colleges).
2. A maximum of 8 semester units of P.E./Dance Techniques/Athletics activity is allowed (P.E. and Dance majors may have credit for 12 semester units).
3. A maximum of 12 semester units is allowed for work experience/ internship/agricultural projects. (A maximum of 6 semester units may transfer into the university. A maximum of 6 semester units of the 12 is allowed in agricultural projects.) All work experience and internships are graded on a credit/no
credit basis. Normally, a maximum of 6 semester units of work experience/internship is allowed for credit toward a Business Administration major unless the business option specifically allows more units.
4. A maximum of 24 semester units at CSU, Fresno is allowed for $C R / N C$ grading, excluding Credit by Examination. (See Credit/No Credit Grading for other limitations.)
5. A maximum of 30 semester units is allowed for Credit by Examination (excluding Credit for Advanced Placement Examination).
6. A maximum of 24 semester units is allowed for credit through Extension and/or correspondence coursework.
7. A maximum of 6 semester units is allowed for independent study coursework.
8. A maximum of 6 semester units is allowed for coursework in typing/ keyboarding.

## Second Baccalaureate Degree or Undergraduate Major Requirements

Postbaccalaureate students (i.e., those who already hold a bachelor's degree) may pursue a program leading to an additional baccalaureate degree or undergraduate major. Students are urged to consult with a departmental adviser and with the Division of Graduate Studies and Research to determine whether a second baccalaureate or graduate program better meets their needs.

1. Postbaccalaureate students seeking an additional undergraduate degree must complete the following requirements:
a. A minimum of 30 units in residence at CSU, Fresno since completion of the most recent degree, including 24 upperdivision units
b. At least 12 units in the major in residence at CSU, Fresno since the last baccalaureate degree. Departments may set higher requirements.
c. All state and university requirements for that degree, including English 1, General Education, United States Constitution and California state and local government, American history, and
the upper-division writing skills requirement. These requirements may be met by courses taken in the students' undergraduate programs.
d. All units required in the major. No credit may be applied from courses taken for an earlier degree. If required major courses were previously taken, the student must substitute, with the approval of the department, additional major courses. Graduate-level courses (200 series) may not be applied toward the requirements for a second baccalaureate degree or additional undergraduate major.
e. Completion of 40 upper-division units taken since the most recent degree was granted
f. Filing of an undergraduate degree application and payment of graduation fee. (See Graduation.)
2. Postbaccalaureate students seeking an additional undergraduate major must complete items $\mathbf{b}$ and $\mathbf{d}$ above. The transcript will indicate that all coursework for the additional major has been completed. Students pursuing a second baccalaureate degree or additional undergraduate major cannot select the catalog used for the initial undergraduate degree. If students do not remain in continuous attendance, the requirements will be those in effect at the time they reenter the university or complete their programs. (See Choice of Catalog.)
3. Postbaccalaureate students may not earn a minor or a second minor.
4. Second baccalaureate students are not considered for university honors.

## Postbaccalaureate Credit

Upper-division and/or graduate-level units earned at CSU, Fresno in the semester or summer session in which the bachelor's degree is granted are automatically listed on the student's permanent record as postbaccalaureate credit with the following exceptions:

1. Provided the courses are not needed for the bachelor's degree
2. Provided the student is neither on academic probation nor academic disqualification at the beginning of the final term
3. Provided the units are not in excess of stated maximum limitations (e.g., 6 units of independent study)
In addition, only credit for courses in which grades $\boldsymbol{A}, \boldsymbol{B}, \boldsymbol{C}$, or $\boldsymbol{C R}$ are earned may be counted; no course may have its credit divided between baccalaureate and postbaccalaureate programs, and use of such credit for graduate degrees at CSU, Fresno requires special approval and is limited to a maximum of 10 units. (See Graduate Studies and Research - Advancement to Candidacy.) The amount of postbaccalaureate credit allowed may not exceed one-third of the required units for the master's degree. Only students with graduate standing may enroll in the following courses: 290, 298, 299. Use of postbaccalaureate credit for other purposes is to be determined by the appropriate authority.

## Graduation

Students who anticipate meeting degree requirements by the end of a term should complete the following steps at the beginning of that term:

1. Obtain and file a completed application for a degree (with appropriate fees) with the Evaluations Office. See Academic Calendar for filing dates and deadlines. Failure to apply before the final deadline will delay the granting of the degree.
2. Request the Records Office public contact windows to transfer CSU, Fresno extension units to the permanent record.
The Evaluations Office checks students' applications for bachelor's degrees and reports to them regarding eligibility for the degrees. The Graduate Office processes graduate degree applications. Degrees are not awarded to students with $I$ or $\boldsymbol{R D}$ grades remaining on their records. Students receiving I grades during the final year that have not been completed (or changed to $F$ grades) by the appropriate clearance deadline will not be considered for graduation that semester and must reapply for the degree. (See Incomplete.)
In order to be eligible for graduation, students must:
3. Submit an application for the degree and pay the graduation fee
4. Have been approved for graduation by the faculty
5. Have completed with appropriate scholastic standing all courses required for the degree. Graduates receive their official diplomas by mail.

It is the responsibility of students to be sure that all requirements have been met and that documentation has been filed with the Evaluations Office by the appropriate deadlines. No additions, deletions, or changes to students' records are permitted after the degree has been recorded.

Honors at Graduation. Honors at the time of graduation from CSU, Fresno are awarded to undergraduate students based on the following criteria:

1. Students must have an overall minimum grade point average of 3.5 on all work attempted.
2. Students must have a minimum grade point average of 3.5 on all work taken at CSU, Fresno.
3. Students must have completed 45 units in residence at CSU, Fresno.

The grade point average earned at CSU, Fresno determines which honors the student receives:
Summna Cum Laude
(highest honors) ............ 3.90 to 4.00
Magna Cum Laude
(high honors)................. 3.70 to 3.89
Cum Laude (honors) ...... 3.50 to 3.69

Since the requirement for honors could change, students are requested to check the current General Catalog for the criteria in effect at the time of graduation.

## Commencement

Commencement is held annually at the end of spring semester. Students who have completed degree requirements in the summer or in the fall semester immediately preceding commencement are eligible to participate with those who complete their work in the spring semester. For additional information, see Kennel Bookstore and/or Vice President and Dean of Student Affairs Office.

## The Bachelor of Vocational Education Degree

The Bachelor of Vocational Education (B.V.E.) degree is limited to vocational teachers who qualify for a Swan Bill evaluation through the State Board of Vocational Examiners. Qualifications required for such an evaluation are outlined in the State Education Code. Among these qualifications is the stipulation that the candidate shall have had a minimum of 1,620 hours of teaching experience in an approved vocational class or 1,000 hours of teaching experience in an approved trade extension class. Additional information regarding this degree program may be obtained from the chair of the Department of Industrial Technology. B.V.E. students must complete all general requirements for the baccalaureate degree, except the 40 upper-division unit requirement.

## Certificates

Many students want to study areas not covered by traditional degree programs to increase professional competence, to acquire paraprofessional training, to change careers or to promote personal enrichment. A baccalaureate or master's degree, or second baccalaureate or second major may be inappropriate for them, yet they may still deserve recognition for their work. To meet the needs of these students the university has established three kinds of certificates:

1. The Certificate of Completion is awarded for successfully completing a planned educational experience (workshop, conference, short course, or seminar) designed for specific academic objectives.
2. The Certificate of Special Study is awarded for successfully completing a structured program of educational experiences, at least 12 semester units, determined in advance by a department or school, and consisting of upper-division (100-199) courses, professional (300-399) courses, and related activities.
3. The Certificate of Advanced Study is awarded for successfully completing a structured program of at least 12 semester units of graduate (200-299) courses, upper-division (100-199) courses, and professional (300-399) courses, determined in advance by a department or school.

## Public School Credentials

California State University, Fresno, is authorized by the Commission on Teacher Credentialing to recommend candidates for the following credentials. See School of Education and Human Development for program requirements.

Basic Teaching Credentials, Elementary
Multiple Subject

## Degree Requirements

## Degree Programs, Majors, and Minors

California State University, Fresno offers majors for the baccalaureate degrees, minors, and graduate degree programs as indicated below. Undergraduate options are indented under the programs. Requirements for approved undergraduate
majors and minors, as well as graduate degrees, are listed in the appropriate school and department sections of this catalog. Graduate degree options are listed in the Division of Graduate Studies and Research section.

|  | Baccalaureate Degrees |  |  | Minor | Graduate Degrees |  |  |
| :---: | :---: | :---: | :---: | :---: | :---: | :---: | :---: |

## General Education

Developed by both faculty and students, CSU, Fresno's General Education Program is an introduction to the breadth and depth of the dynamics of human experience. It provides students with a foundation in the liberal arts and sciences and prepares them for specialized study in a particular discipline or program.

The overall objective of General Education is to create a context wherein basic skills are developed and strengthened, scholarship and disciplined thinking emerge, awareness and reflection occur, and ultimately - the integration of knowledge begins.

## CORE, BREADTH, and CAPSTONE

The General Education Program is an integrated curriculum of courses organized into three phases:
CORE, the basic foundation of one's university education, consists of courses in fundamental skills and knowledge.
BREADTH exposes students to a variety of disciplines within a structured framework that develops knowledge and skills representative of all areas of human endeavor.
CAPSTONE concludes the General Education Program by providing an interdisciplinary experience at the upper-division level in which the skills and knowledge developed in CORE and BREADTH are integrated, bringing their interrelationships into focus.

## Requirements

The General Education Program requires students to complete a minimum of 51 semester units. This includes 18 units minimum in CORE, 27 units minimum in BREADTH, and 9 upper-division units minimum, of which 6 units are in CAPSTONE. The 9 upper-division units can be taken only after completing 56 units of coursework. Also, 9 units must be taken in residence at CSU, Fresno.

Because the goal of General Education is to provide a solid foundation with a broad scope and the goal of the major is to provide depth in a specific discipline or program, the following stipulations apply:

1. A CORE course also may be applied to a student's major requirement unless the department specifically prohibits it.
2. A maximum of two General Education courses from one department or program may be applied to satisfy BREADTH requirements. (However, a department or program may prohibit any General Education BREADTH course from simultaneously satisfying its own departmental or programmatic requirements.)

3. English 1
4. Speech 3,7 , or 8
5. Quantitative Reasoning

- Mathematics:

Decision Sciences 71
Mathematics 45, 70, 72, 75

- Computer Language:

Computer Science 20, 40
Electrical and Computer Engineering 70, 71

- Statistics:

Agricultural Economics 71
Health Science 92
Mathematics 11
Plant Science 99
Psychology 42
4. Critical Thinking: A course meeting the Critical Thinking requirement shall deal with the following topics: a) analysis, criticism, and advocacy of ideas; b) reaching factual or judgmental conclusions; c) learning elementary inductive and deductive processes; d) recognition of formal and informal fallacies of language and thought.
The following courses presently satisfy this requirement: Anthropology 30; Computer
Science 1; English 21, 30, 44; Foreign Language 10; Greek 10; Natural Science 4; Philosophy 25, 26, 27, 45; Sociology 3; Speech 5;
Surveying Engineering 5
5. History 11 or 12
6. Political Science 2 or 101

## BREADTH

The BREADTH component of the General Education Program exposes students to a variety of disciplines within the structured framework of Divisions 1-9.

Select one course each from Divisions 1-9 for a minimum of 27 units. Courses from Divisions 1 and 2 must have a laboratory component.

## Division 1 - Physical Processes

Purpose: To understand fundamental principles in the physical sciences and the methods of developing and testing hypotheses used in the analysis of the physical universe.

Chemistry 1, 1A, 1B, 3A, 3B
Geology 1, 2, 15 (MNE only)*
Physical Science 21
Physics 2A, 2B, 5A, 5B, 10
Note: Math $4 R$ or second-year high school algebra is a prerequisite for all courses in Division 1.

Division 2-Biological Processes
Purpose: To understand basic concepts of living things, the nature of scientific knowledge, and the relevance of biological knowledge to human affairs.

Biology 10, 15 (MNE only)*
Botany 1 or 10
Zoology 1 or 10
Division 3 - Behavioral/
Environmental Systems
Purpose: To understand scientific concepts of human development and the relationships between people and their physical environment.

Anthropology 1, 3
Geography 5, 7
Plant Science 105
Psychology 10, 36
Division 4 - Personal
Life and Growth
Purpose: To equip human beings for lifelong understanding of themselves as integrated physical and psychological entities and to enhance their appreciation of and participation in the social, cultural, and physical environment.

Art 13, 20, 30, 40, 50, 60, 70
Child and Family Studies 38
Dance 116
Drama 22, 34
English 41, 43
Food Science and Nutrition 53
Health Science 90, 124
Industrial Engineering 125
Music 2 and 102, 3 and 103,
18 and 118,21 and 121
Physical Education 31
Psychology 61, 132, 171
Recreation and Leisure Studies 80, 101
Speech 4
Division 5 - Fine Arts
Purpose: To understand the world of nonverbal expression by developing an appreciation for the integrity and harmony of works of art.

African American Studies 24
Art 1
Art History 10, 11
Chicano and Latin American Studies 7, 9
Dance 171
Drama 62, 163
Music 9, 74

## Division 6 - Humanities <br> and Literature

Purpose: To understand, appreciate, and analyze the meaning of our civilization, its cultural and historical background, and to study the realm of literature from a variety of historical perspectives and cultures by analyzing individual works.

Applied Ethics 100
Armenian 148
English 20, 101, 102, 103
French 109, 148
German 148
Greek 148
History 1, 2
Humanities 10, 11, 12, 14
Philosophy 1, 10, 120, 131
Russian 148
Spanish 140, 142, 146

## Division 7 - Languages

Purpose: To understand the nature and role of language by developing skills in speaking, reading, and writing a language other than English.
Students from non-English speaking countries cannot use their native language for General Education BREADTH, Division 7.

Armenian 1A, 1B, 2A, 2B
Chinese 1A, 1B, 2A, 2B
French 1A, 1B, 2A, 2B
German 1A, 1B, 2A, 2B
Greek 1A, 1B, 3A, 3B
Hebrew 1A, 1B
Italian $1 \mathrm{~A}, 1 \mathrm{~B}, 2 \mathrm{~A}, 2 \mathrm{~B}$
Japanese 1A, 1B, 2A, 2B
Latin 1A, 1B
Linguistics 10
Portuguese 1A, 1B
Russian 1A, 1B, 2A, 2B
Sanskrit 10A, 10B
Spanish 1A, 1B, 2A, 2B, 4A, 4B
Division 8 - Social, Economic, and Political Systems
Purpose: To understand and analyze the basic principles underlying human social behavior.
Agricultural Economics 1
Anthropology 2
Economics 25, 40, 50
Geography 2, 3, 4
Political Science 1, 8, 120
Social Science 15 (MNE only)*
Sociology 1, 2

[^6]
## Division 9 - Other Cultures

 and Women's StudiesPurpose: To understand the diversities and similarities of individuals and groups by studying the roles of specific ethnic cultures and women in contemporary America.
African American Studies 25, 27, 38, 144, 178
American Indian Studies 50, 103
Armenian Studies 10
Asian American Studies 15, 30, 56
Chicano and Latin American
Studies 3, 5, 160
Ethnic Studies 1
History 101, 178
Sociology 131
Women's Studies 10, 101, 131, 135

## CAPSTONE <br> Interdisciplinary Courses (IntD)

101Nex. Space and Time (3)
An interdisciplinary study of the changing concepts of space and time that underlie our vision of the world and the ways in which these concepts are expressed, especially in art, astronomy, literature, and physics. (Former Nexus 101)

## 102Nex. Understanding

of Men and Women (3)
A philosophical, psychological, and biological investigation of the main issues involved in understanding human behavior. Reading and discussion of literary and historical accounts of behavior, with emphasis on the development of scientific explanation. Ethical scientific consequences of the use of experimental methods. (CT) (Former Nexus 102)
103Nex. Ascent of Man (3)
Exploration of basic ideas found in Jacob Bronowski's Ascent of Man. Explores the implications, both scientific and humanistic, of Bronowski's interpretation of man's cultural history. Guest lecturers from various arts and science disciplines add their insights. (Former Nexus 103)
104. Humanities in the

Middle Ages and Renaissance (3)
An examination of art, literature, philosophy, and music and their interrelationships in European culture during the Middle Ages and Renaissance. (CT) (Former CapS 104)

## 104Nex. Psychological

Issues Through Literature (3)
Examination of fundamental and controversial issues in psychology as they

## CAPSTONE (Upper Division)

CAPSTONE provides an interdisciplinary experience at the upper-division level in which the skills and knowledge developed in CORE and BREADTH are integrated.

## Policies for CAPSTONE

The CAPSTONE requirement may be fulfilled in one of two ways - either by completing a minimum of 6 units (two courses) in specific interdisciplinary courses (IntD and/or IntD $\qquad$ Nex) or by completing a minimum of 6 units (two courses) in a single Cluster from two different departments or programs, after 56 units have been completed.

Students must take at least one upper-division Critical Thinking (CT) course not listed in CORE or BREADTH in order to graduate.
No CAPSTONE course may be used to fulfill a requirement toward an undergraduate major or a master's degree.

All CAPSTONE courses require a written paper, research project, or performance equivalent exploring the course or Cluster theme.

In the case of Cluster courses, students must select from at least two different participating departments.
appear in novels, plays, and short stories. (Former Nexus 104)

105Nex. Evolution Revolution (3)
An exploration of the significance of evolutionary theory and its impact on the sciences and on the broader cultural scene: Pre-Darwinian evolutionists; changing attitudes toward persons and their relation to the rest of nature; literary and artistic expressions of evolutionary ideas; philosophical and ethical responses; the controversies between evolutionary and other accounts of the origin and development of life. (Former Nexus 105)
108. Humanities in
the Classical Athens (3)
An examination of the unique cultural environment of the ancient city, its art, architecture, literature, social and political structures, and their interrelationships as manifest in fifth century Athens. (CT) (Former CapS 108)
110. Humanities in Republican and Imperial Rome (3)
An examination of the unique cultural environment of the ancient city, its art, architecture, literature, social and political structures, and their interrelationships as manifest during Republican and Imperial Rome. (CT)

## 112. Humanities During

the Baroque and Enlightenment (3) An examination of European and American art, literature, philosophy, and mu-
sic and their interrelationships during the period from the late 16th century through the 18th century. (Former Caps 112)
116. Humanities in the Modern World (3)
An examination of art, literature, philosophy, and music and their interrelationships in the Western world during the 19th and 20th centuries. (CT) (Former CapS 116)
118. Folklore in Modern Life (3)

An examination of the role of folklore in modern life, its power to communicate critical issues through expressive culture, e.g., jokes, legends, folksongs, graphic arts, and festival; focus on the intellectual currents influencing the study of folklore provide interdisciplinary perspective. (CT)

120A-B. Latin America:
A Search for Stability (3-3)
Prerequisite: completion of Division 8 of the General Education Program or permission of instructor. An examination of the geographic, social, and historical factors underlying government instability in Latin America followed by a discussion of right and left wing approaches to stability. Completion of both semesters is required to satisfy the CAPSTONE requirement for General Education. (Former CapS 120A-B)
123. The American Experience:

Beginnings to World War I (3) Survey of the principal experiences and intellectual movements that have formed the American character, as illustrated through American literature, music, and the arts, serious and popular, from the formation of the colonies to the outbreak of WWI. (Former CapS 123)

## 124. The American Experience:

World War I to the Present (3)
Survey of the principal experiences and intellectual movements that have formed the American character as illustrated through American literature, music, and the arts, serious and popular, from WWI to the present time. (CT) (Former CapS 124)

## 128. Mythology: An

Interdisciplinary Approach (4)
An interdisciplinary examination of mythology.Readingsin significantmyths from various parts of the world (including those influential on Western culture, such as Greek myth and the Bible, and equivalent Native American, Pre-Columbian, Oriental, and African myth). A survey of the current theories of myth (as a component in ritual and religion, a development of linguistics and oral tradition, a focus of cultural values, and the like); and an examination of the contemporary relevance of myth in art, literature, and culture. (Former CapS 128)

## 130. Latin American

## Cultures and Traditions (3)

A study of Hispanic cultural and aesthetic trends and practices as seen in the popular and formal arts and other styles of Hispanic thought, feeling, and expression. (Former CapS 130)
132. Aging as a Social Issue (3)

Prerequisite: English 1 and prior fulfillment of upper-division writing skills requirement. An examination of human aging from the viewpoints of gerontology, literature, and social work with particular emphasis on the problems of women. (CT) (Former CapS 132)

## 148. Voting and

Elections in the 1990s (3)
Exploration of the factors (e.g., socioeconomic, cultural, peer, and family influences) that affect voting. Focus of class is on the analysis of major election studies. (Former CapS 148)

## 152. Ethnic Minorities

in American Schools (3)
Exploration of the sociohistorical and cultural development of education in the United States, with special emphasis on the Asian American, American Indian, African American, and Chicano experience. (CT) (Former CapS 152)
156. Welfare and Military Expenditures: The Quest for Balance (3)
An examination of the size and effects of spending for social welfare and military purpose. (CT) (Former CapS 156)
160. Orientation to Gerontology (3)

Orientation to the professional and personal requirements for work with the aging, including an introduction to the problems and potentials of the aged. (CT) (Former CapS 160)
164. Technology and Health Care (3) The impact of technology on the health care industry: current applications, resulting ethical issues, political ramifications, and future directions. (Former CapS 164)
168. Cinema and the Humanities (3) Explores the relationships between the art and technology of the cinema and current humanist ideology. Topics include how film interacts with other arts and with cultural, aesthetic, and moral assumptions; whether cinema is a viable intellectual discipline; and where art, entertainment, and values meet. Weekly films, assigned reading, written reports. (CT) (Former CapS 168)

## 172A-B. Health

Promotion and Wellness (3-3)
Prerequisite: upper-division status. An interdisciplinary approach to encourage individual responsibility toward achieving high level wellness with integration of body, mind, and spirit. To assist students in seeking balance with their natural and psychosocial environments. IntD 172A is a prerequisite to IntD 172B and both A and B must be completed to receive CAPSTONE credit. ( 2 lecture, 2 lab hours) (Former CapS 172A-B)

## 180. Peace and Conflict (3)

Provides an overview of causes and types of conflict, issues related to war, peace and justice; historical and contemporary perspectives and responses to conflict resolution; uses an eclectic and interdisciplinary approach. (CT) (Former CapS 180)
184. Family Communication (3)

The analysis and exploration of personal experience, family systems theory, and the mass media to describe, evaluate, and improve family communication patterns. Special topics include family conflict, sex roles, family types, sexual communication, parenting, and intimacy.

## 188. Principles of

## Self-Esteem in Education,

Social Work, and Mental Health (3)
Involves an empirical exploration of the development, enhancement, and diminishment of self-esteem through social experience and the relationship of self-esteem to a variety of social problems and concerns. The course focuses on the personal development of selfesteem and on specific applications of this theory domain to policy and practice in the fields of education, social work, and mental health. (CT)

## CAPSTONE

## Cluster Courses

## The Spiritual Quest

Cluster Theme: To explore in crosscultural, theoretical, and philosophical perspectives the answers humans have discovered to ultimate questions.
Anth 150W:
Anthropology of Religion (3) (CT)
Phil 130:
Philosophy of Religion (3) (CT)

## Energy and Society

Cluster Theme: To understand the role of energy in modern society and to provide an awareness of environmental problems associated with energy utilization from an economic, spatial, practical, and theoretical standpoint.

## Econ 117: <br> Economics of Ecology (3) (CT) <br> Geog 134: <br> Geography of Energy (3) (CT) <br> I T 106: <br> Energy Conversion and Utilization (3) <br> P Sci 168: <br> Environmental Impact of Energy <br> Demands by Society (3) (CT)

## Ethnicity and Culture:

Theories and Applications
Cluster Theme: To sharpen the focus on ethnic behavior by applying theories of interethnic contact, boundary maintenance, and cultural change to the study of one major element, folklore, in the
culture of a significant ethnic minority group in the United States today.
Anth 172:
Ethnic Relations and Cultures (3) (CT)
CLS 103:
Chicano Folklore (3) (CT)
Christianity, History, and Politics
Cluster Theme: To offer students an opportunity to reflect upon and integrate their General Education experience in the light of the tradition of Christian humanism. To offer a framework and a method for tying together the disparate bodies of information and insight garnered from formal courses in the humanities, the arts, and the natural and social sciences.
Hist 103A:
History of Early Christianity (3)
Pl Si 112:
Politics and Christianity (3)
(Same as A Eth 104)

## The Church and the Court

Cluster Theme: To explore the interdependence of art forms developed during the Middle Ages and the Renaissance in Western Europe.

## Art H 122:

Northern Renaissance (3)
Engl 113:
World Literature: Medieval and Renaissance (4) (CT)

Mexico-U.S. Relations:
Conflict and Change
Cluster Theme: To explore the constant conflicts and changes in Mexican/U.S. relations from the past to the present and to analyze the sociocultural interaction among Mexicanos/Chicanos and Anglos.

## CLS 114:

Mexico and the Southwest
1810-1910 (3) or
CLS 115:
Mexico-U.S. Relations Since 1910 (3) and either
Hist 165:
Modern Mexico (3) or
Hist 183:
The Hispanic Southwest (3)

## The Greek World

Cluster Theme: To deal with the ancient, primarily Greek, world from its earliest beginnings to the classical period and beyond.

## Engl 112:

World Literature: Ancient (4) (CT) and either

## Hist 111:

Ancient Greece (3) or
Phil 101:
Ancient Philosophy (3) (CT)
Popular Culture and Society
Cluster Theme: To examine popular culture as an institution that is organized in distinctive ways; the relation between content and social structure; the importance of the content of popular culture in shaping society.
Engl 174:
Popular Fiction (3) or

Pre-Columbian Andes (3) (CT)
Geog 172:
Ancient Peru (3) (CT)

## Transfer Students

Earning an A.A. or A.S. degree does not necessarily mean one has fulfilled CSU admission and/or General Education requirements.

After admission to CSU, Fresno, transfer students with 40 or more units will receive a copy of their advanced standing evaluation indicating how previous college units have been applied toward requirements at CSU, Fresno. Questions about one's evaluation should be directed to the student's adviser or the Evaluations Office. It is recommended that transfer students bring with them an unofficial copy of all previous college transcripts and their CSU General Education Certification when attending New Student Orientation and Advising Day to ensure accurate advising.

Transfer admission eligibility is based on BACCALAUREATE TRANSFERABLE college units, rather than on all college units. California community college transfers should consult their counselors for information on transferability of courses for admission purposes. Applicants in good standing at the last institution attended may be admitted as undergraduate transfer if either of the following requirements are met:

1. Eligible for freshman admission (see Freshman Requirements) with a grade point average of $C$ (2.0 on a scale where $A=4.0$ ) or better in all transferable college units attempted.
2. Completed at least 56 transferable semester (84 transferable quarter) units with a grade point average of $C$ (2.0 on a scale where $A=4.0)$ or better if a California resident. Nonresidents must have a 2.4 grade
point average or better. A maximum of 70 transferable semester (105 quarter) units is allowed from twoyear institutions (community/junior colleges).

California State Code of Regulations provides that General Education BREADTH requirements completed at an accredited California public community/ junior college and/or a California State University campus by a student transferring to CSU, Fresno shall be accepted (up to 39 units) to the extent stated in the certification from the originating college or university. Each transfer student is required to complete additional units at CSU, Fresno to meet the General Education requirement. Transfer students who change their majors after being admitted to the university are advised that General Education course requirements may also change.

## A through E Format

To aid transfer students in planning their academic programs, the CSU, Fresno General Education Program is presented below in the $A$ through $E$ format in use at many other California colleges and universities.

Area $\mathrm{A}-9$ units minimum

## Written Communication

Required: English 1
Oral Communication

RITENOUR, Chair<br>Plant Science and Mechanized Agriculture<br>MAHENDRA S. BHANGOO, Director Graduate Programs

The university mission statement emphasizes programs in agriculture and business, reflecting CSU, Fresno's location in the world's premier agriculture and agribusiness center. The School of Agricultural Sciences and Technology is widely recognized to be "The Leader in Science, Technology, and Management" for many academic programs as well as for applied research and information services - meeting the needs of students and industry alike.

## Undergraduate Degrees Offered

 B.S.- Agricultural Business
- Agricultural Education
- Agricultural Science
(Agricultural Engineering Technology)
- Animal Sciences
- Food and Nutritional Sciences
- Industrial Technology (NAIT accredited)
- Plant Science
B.A.
- Home Economics
- Industrial Arts
- Interior Design (FIDER accredited)

Additional degrees are a B.S. in Child Development (see Child, Family, and Consumer Sciences) and a Bachelor of Vocational Education (see Industrial Technology). Teaching credential programs offer a secondary single subject credential in agriculture, home economics or industrial arts, plus a specialist teaching credential in agriculture.

## Graduate Degrees Offered

M.S.

- Agricultural Business
- Agriculture (Agricultural Chemistry, Animal Science)
- Home Economics
- Plant Science
M.A.
- Industrial Arts

## Minors Offered

- Agricultural Business
- Agriculture
- Animal Sciences
- Food and Nutritional Sciences
- Home Economics
- Industrial Arts
- Plant Science

## Professional Preparation

Student Activities. More than 30 professional associations, honor societies, judging teams, show teams, clubs and social fraternities associated with the school provide excellent opportunities for leadership development and industry contact. Numerous teams participate in regional and national intercollegiate competitions. The Student Executive Council, comprised of representatives from these student organizations, coordinates schoolwide functions and works with the Associated Student Senate to obtain activity funding.
Production Projects. Supervised student project programs in animal and crop production utilize a hands-on approach for practical application of theory learned in the classroom. To qualify, a student must have coursework in the corresponding major and be enrolled in an Enterprise Management course as well as demonstrate proficiency in equipment operation. Financial support for student enterprise projects is provided by CSU, Fresno's Agricultural Foundation.
Industry Internships and Cooperative Education. Paid and nonpaid work opportunities abound for qualified students to serve in an industry setting appropriate to their degree and programs of study. Integration of academic credit and work experience is attained by participating in these programs, while professional employment prospects after graduation are greatly enhanced.
Continuing Education. Seminars, workshops and field day demonstrations are offered to meet the in-service education needs of the agricultural community.

Similar programs provide home economists and industrial technologists opportunities for professional development.

## Instructional Facilities

A 1,083-acre University Farm Laboratory adjacent to the campus provides a unique opportunity for students to directly apply the knowledge and skills acquired in the classroom. Vineyard, orchard, vegetable, cotton, and field crop enterprise projects - supervised by plant science and mechanized agriculture faculty - develop production and management skills. Similar enterprise projects at the beef, sheep, and swine units are supervised by the animal sciences faculty. The modern on-campus dairy, veterinary hospital, quarter horse, and feed mill units plus more than 5,000 acres of Sierra foothill rangeland also support the instructional programs in animal sciences.
Specialized laboratories and facilities for the Agricultural Science programs include: agricultural computing, enology, raisin processing, dairy processing, meats, food preparation and product development, seed technology, soil science, ornamental horticulture, and mechanized agriculture.
Child, family, and consumer sciences students utilize the following laboratories: textiles, fashion/clothing, infant/ toddler, and child development.
Industrial technology facilities include: construction, industrial design, fluid power, energy and process control, machine tools, electrical, industrial and general electronics, materials science, transportation, drafting, graphic communications, and computer integrated manufacturing labs.

## Research and

## Technology Transfer

The agricultural technology development, training, and demonstration activities of the California Agricultural Technology Institute (CATI) offer students opportunities to interact with faculty and industry experts on state-of-the-art energy, water, production, management, and computer applications projects. CATI provides funding for faculty research, industry conferences, and special projects conducted through the following entities: Center for Agricultural Business, Center for Irrigation Technology, Viticulture and Enology Research Center, and the San Joaquin Experimental Range.

TThe arts and humanities are the eye of the pyramid, providing vision, depth, and discernment for all areas of knowledge. From the "Know thyself" of philosophy to the "Get it right" of journalism, the arts and humanities illuminate everything from self to society.
Art, music, telecommunications, and theatre offer opportunities to participate in and absorb the full range of creative and interpretive experience. English and speech communication, letters and language, sum up the best that has been thought and said. Foreign languages and linguistics do all of that and more. Besides providing culture, in the Germanic sense of the term, knowledge of foreign languages offers insights into whole new worlds of people. Linguistics offers the same opportunity through the English language, but from the opposite end of the telescope.
Journalism is best equipped to report on, comment on, and analyze the wisdom and folly of today. Philosophy deals with the wisdom of the ages - a heavy phrase for a discipline that teaches us how remarkable and timelessly "modern" the human mind has always been, from apple to Apple.
Given the broad spectrum of human concerns in the arts and humanities, it should come as no surprise that the classical studies and the humanities interdisciplinary minors are also housed in the school.

## Undergraduate Degrees Offered

## London Semester

California State University, Fresno's London Semester enables students to live and study in London each spring semester. Students earn full residence credit for all coursework taken in the program. The courses are regularly scheduled catalog courses taught by CSU, Fresno faculty.
All students currently enrolled at, or transferring into CSU, Fresno, are eligible to participate in the London Semester program. Participants are selected on the basis of their overall academic qualifications, including grade point average, units completed and personal interview. Priority is given to students who have completed a minimum of 40 semester units and who have a cumulative grade point average of 2.75 or higher.
Students are selected for London Semester during the early part of the fall semester. Students participating in the program pay the normal university fees for full-time status. All other personal expenses are the responsibility of the student, including round-trip airfare, textbooks, room charges for program-arranged housing, meals, and incidentals.
Program information and application forms are available from the London Semester Program Office, San Ramon 4, Room 222. 4

The mission of the School of Business and Administrative Sciences (SOBAS) is to provide responsible academic and business leadership and service to diverse populations and to industry and government in Central California, the state, the nation, and other countries.
This leadership and service is based on providing nationally accredited undergraduate and graduate degree programs, emphasizing high quality in applied research, professional and continuing education, consulting, and other activities.

The commitment to high quality is demonstrated by the emphasis on excellence in teaching, by the concern for the attainment of knowledge and student performance, and by meeting the needs of business people and organizations. Our objective is to be the leading school of business in the California State University system, and to be perceived as a major facilitator of economic growth in the San Joaquin Valley with respect to both the expansion of existing organizations and the attraction of more business and industry.

## Accreditation

SOBAS undergraduate and graduate programs are accredited by the American Assembly for Collegiate Schools of Business (AACSB) and the Western Association of Schools and Colleges (WASC). The school's programs have been continuously accredited by AACSB since 1959. Only a select number of business schools in the nation earn this distinction.

## Degrees Offered

B.S. in Business Administration
with options in:
Accountancy
Agribusiness
Computer Applications and Systems
Decision Systems
Finance
Financial Services
Human Resource Management
Information Management
International Business
Legal Environment of Business
Management
Marketing
Production and Logistics Management Real Estate and Urban Land Economics Risk Management and Insurance
Master of Business Administration
M.S. in Business
M.S. in Accountancy
with options in:
Financial Accounting
Taxation
SOBAS offers a single subject business credential for teaching grades K-12. Credential students must first complete the requirements for a Bachelor of Science in Business Administration.

## Instructional Resources

Faculty. Ninety percent of the school's full-time-equivalent faculty possess doctoral degrees in their teaching areas. A number are recognized scholars in their respective disciplines. Amid only
a handful of endowed professorial chairs in the CSU system, two have been established in SOBAS. These are the Edward Reighard Chair in Management and the Theodore Brix Chair in Business, given in 1985 and 1988, respectively.
Computing Facilities. The Leon S. Peters Business Building is equipped with 193
IBM microcomputers located in 11 computer labs dedicated to business students. With one computer work station for every 12 full-time-equivalent students, the school ranks in the top 3 percent for student-computer ratio among all business schools surveyed annually by UCLA.
Business Internships and Cooperative Education. Numerous opportunities exist for business students to work in a business or not-for-profit setting appropriate to their programs of study. Participation in the internship and cooperative education programs enables the integration of work experience and academic credit and improves employment prospects after graduation.
Business Support. The support of more than 150 Business Associates and Advisory Council members represents a high-water mark in terms of external assistance to the school. Members of the business community have contributed not only to the financial development of the school but also to the enhancement of students' learning through the Executive Speakers' Bureau and the Small Business Institute Program.
Student Activities. Business students at both undergraduate and graduate levels have won first place in a number of regional competitions involving other business schools. About 20 professional associations, student clubs, and honor societies provide excellent opportunities for the development of leadership and interpersonal skills. The Inter-Business Council, comprised of representatives from these student groups, coordinates schoolwide student functions and participates in the policy formulation processes of the school.

1he School of Education and Human Development (SOEHD) has established as its primary mission the maintenance of quality educational programs designed to prepare teachers and other educational leaders for service in public and private schools and other educational institutions.
Emphasis is directed toward preparing highly competent educators and human development specialists, providing professional support and leadership to the area community, promoting applied research, and providing experiences and opportunities that will enable employed professionals to remain current in their fields.
SOEHD directs its full attention to the enhancement of human potential so that those who work in the field of education and human development function more effectively and productively in an everchanging and increasingly diverse society.

## Accreditation and <br> Program Approval

The School of Education and Human Development credential and master's degree programs are currently accredited by the National Council for Accreditation of Teacher Education (NCATE) and the Western Association of Schools and Colleges (WASC). All credential programs are approved by the California Commission on Teacher Credentialing (CTC).

## Credential Programs

Basic credential programs are established on the assumption that an effective educator needs a liberal education, should be well versed in subject matter, should acquire knowledge of the psychological and cultural factors that influence learning and achievement, and should be highly trained in the principles and practices of teaching.
The school provides basic teaching credential programs in elementary (multiple subject) and secondary (single subject) teaching. Specialist teaching credential programs are offered in agriculture,
early childhood, reading and special education. Advanced services credential programs are offered in administration and supervision, clinical rehabilitation, health and pupil personnel (counseling). The professional preparation programs of the school are offered with the cooperation and support of central valley public school districts and other agencies. Further information is available in the SOEHD Admissions and Records Office (EdP 120) and the department offices.
Basic Teaching Programs

- Multiple Subject
- Multiple Subject, emphasis in Early Childhood Education
- Multiple Subject, emphasis in Bilingual/Cross-Cultural Education
- Single Subject

Specialist Teaching Programs

- Agriculture
- Early Childhood
- Language Development

Specialist Certificate

- Reading
- Special Education

Services Credential Programs

- Clinical-Rehabilitative
- Health (School Nurse)
- Preliminary Administrative
- Professional Administrative
- Pupil Personnel - School Counseling
- Pupil Personnel - School Psychology

## Certificate Program

- Victim Services

## Master's Degree Programs

The School of Education and Human
Development offers both the Master of Arts and the Master of Science degrees.

## M.A. in Education

- Administration and Supervision
- Curriculum and Instruction
- Early Childhood Education
- Reading
- School Counseling
M.A. in Special Education
M.S. in Counseling
- Career Development Counseling
- Marriage, Family and Child Counseling
M.S. in Rehabilitation Counseling

ELDEN K. SHAW, Dean<br>KAREN L. FRAIR, Associate Dean KARL E. LONGLEY, Chair Civil and Surveying Engineering JOSEPH C. PLUNKETT, Chair Electrical and Computer Engineering WALTER V. LOSCUTOFF, Chair Mechanical and Industrial Engineering

The School of Engineering provides quality engineering education to its students. Our program places emphasis on mathematics, physics, chemistry, engineering science, and the humanities and social sciences. Computer-aided engineering has been incorporated into all of our curricula.
Three departments in the school offer six undergraduate degree programs: civil, computer, electrical, industrial, mechanical, and surveying engineering. A graduate degree program in civil and graduate degree options in electrical and mechanical engineering (off-site) are also available.
Department of Civil and Surveying Engineering. Civil engineers plan, design, and supervise construction of highways, railways, water supply systems, sewage systems, subdivisions, buildings, aircraft and sea vessel ports, pipelines, dams, bridges, and tunnels. They also supervise the operation of public works such as water treatment plants and transportation systems.
Surveying engineering involves measuring pieces of property using optical instruments, mechanical devices, radar, lasers, or heat radiating equipment. Surveyors use overlapping photographs to make accurate maps of the earth, i.e., photogrammetry. Surveyors also lay out highways, buildings, and shopping centers and prepare maps and descriptions of property.

## Department of Electrical and

Computer Engineering. Electrical engineering is one of the broadest and largest fields of engineering. Electrical engineers work in electronics, terrestrial and space communication, computer systems, power generation, distribution, and control systems. CSU, Fresno has one of the few electric power programs available in the state.
Computer engineering is a new and rapidly growing field that encompasses the design of computers and computer systems, digital interface design, and microprocessor design and applications. Graduates of this program can expect to join computer firms, business organizations, defense industries, educational institutions, or government agencies.

## Department of Mechanical and

 Industrial Engineering. Mechanical engineers create mechanisms, machines, and processes associated with nearly all industries. This includes the manufacture of goods and the development of space and transportation systems. They also create devices for generation of power from energy sources such as geothermal, solar, and nuclear.Industrial engineering arose when specialists were needed to derive more effective production processes, quality control, human-machine interfaces, and material flow systems. This includes engineering analyses for the design of man-machine systems, optimization of industrial systems, and the scientific management of engineering activities.

Majors and Minors. Students must declare an engineering major in order to take upper-division engineering courses. The School of Engineering does not offer any minors.
Accreditation. The Civil, Electrical, Industrial, Mechanical, and Surveying Engineering programs are accredited by the Accreditation Board for Engineering and Technology (ABET), the accrediting agency of the engineering profession.
High School Preparation. The recommended preparation for engineering consists of: English (4 years), algebra (2 years), geometry (1 year), trigonometry ( $1 / 2$ year), physics or chemistry ( 1 year). Additional recommended courses are: advanced mathematics ( $1 / 2$ year), chemistry or physics (1 year), and mechanical drawing ( $1 / 2$ year). Since all engineering
curricula are computer intensive, exposure to computer programming is recommended.
Bachelor of Science Degree Requirements. The Bachelor of Science degree is granted upon completion of any of the school's six programs. Students are required to complete up to 138 units including a minimum of 48 units of General Education courses. Mathematics, physical science, or engineering courses taken $C R / N C$ are not counted toward fulfillment of degree requirements in the School of Engineering.
Scholarship Requirements. A minimum grade point average (GPA) of 2.0 must be maintained in all courses taken in the School of Engineering. Students who drop below a 2.0 GPA in engineering courses are placed on probation. Failure to eliminate the grade point deficiency results in disqualification from the School of Engineering.
Disqualified students may not enroll in engineering courses either during the regular academic year, summer sessions, or through the Division of Extended Education. Students in engineering who wish to drop any engineering course after the fourth week deadline may do so only for very serious reasons which normally would require withdrawal from all courses for the remainder of the semester.
Graduate Program. The School of Engineering offers the Master of Science in Civil Engineering on campus and options in electrical engineering and mechanical engineering at the Edwards Air Force Base.
The M.S. degree program is designed to provide additional benefits of salary and career opportunities to graduates of a baccalaureate degree program in engineering. It provides continuing development for practicing engineers, additional career entry preparation for continuing students, and excellent preparation for persons planning to teach in pre-engineering or engineering technology programs. -

The mission of the School of Health and Social Work is to provide careeroriented education in a liberal arts context at the baccalaureate level and graduate degree programs in specialized disciplines at the master's level. The school emphasizes the significance of health promotion and wellness in a society with increasing awareness of the importance of lifestyle in determining the quality of physical, mental, environmental, intellectual, and spiritual health.
The school was formed in 1981 when the university was reorganized. It is comprised of the School of Social Work, the former Division of Health Professions, and the departments of Athletics, Physical Education and Human Performance, and the Recreation Administration Program from the former School of Professional Studies. The new school was established to bring programs that affect the health and social welfare of the Valley residents into one organized unit.
The school's departments provide programs leading to the Bachelor of Arts, the Bachelor of Science, the Master of Arts, the Master of Social Work, and the Master of Science degrees.
Preparation is offered for professional careers in the following specialized areas: Communicative Disorders with options in audiology, speech and language pathology, and education of the deaf.
Health Science with undergraduate options in community health, environmental health science/industrial hygiene, health services, and occupational safety and health, and graduate program options in environmental health, health services administration, and health education-teaching.
Nursing with options in nursing administration, nursing education, clinical nurse specialist, and nurse practitioner.

Physical Education with options in adaptive physical education, alternate careers, athletic training, and teaching.

## Physical Therapy

Recreation Administration and Leisure
Studies with programs in public and nonprofit recreation, therapeutic recreation, commercial recreation, and recreation administration.
Social Work Education with emphasis in teaching, business, public, and government service.

> The school emphasizes the significance of health promotion and wellness in a society with increasing awareness of the importance of lifestyle ...

## Services and Programs

The Center for Continuing Education in the Health Professions serves trained health service professionals by supplementing professional education and in-service training to improve the level of effectiveness in practice and to provide current information and learning opportunities for those persons desirous of career programs. The center was initially developed to provide allied health and nursing continuing education in the rural areas.
The Human Performance Laboratory and the commitment of the school to fitness, exercise physiology, and wellness is a facility where students can obtain hands-on experience and practical application of human performance research.
The objectives of this laboratory benefit many related academic programs by:

- Enhancing the sports medicine facilities
- Providing an opportunity for faculty and student research in the sports sciences and sports medicine
- Providing a central focus for community service in the area of adult fitness, youth sports, and athletics
- Encouraging interdepartmental cooperation and further sharing of resources and ideas

The Interdisciplinary Minor in Gerontology is a program especially designed to serve undergraduate majors in communicative disorders, home economics, health sciences, nursing, physical therapy, psychology, recreation, social welfare, and sociology. It also provides training for those professionals currently working for service agencies for the aging and aging individuals who are interested in gaining greater insight into this period of their lives.
The Certificate in Gerontology is an interdisciplinary program of study awarded to students who complete 12 units of carefully selected courses in the field of gerontology. Normally, students admitted to the program will have had some college preparation (e.g., an A.A. or A.S. degree, two years of college) or two years of experience related to the field of aging.
For a listing of interdisciplinary courses, see Health and Social Work Interdisciplinary Courses.

KIN-PING WONG, Dean<br>STANLEY M. ZIEGLER, Associate Dean<br>RONALD L. EVANS, Chair Biology<br>DAVID L. ZELLMER, Chair Chemistry<br>HENDERSON YEUNG, Chair<br>Computer Science<br>JON C. AVENT, Chair Geology<br>LARRY W. CUSICK, Chair<br>Mathematics<br>BRANDT KEHOE, Chair<br>Physics<br>ROBERT V. LEVINE, Acting Chair Psychology

The School of Natural Sciences provides for study in the disciplines of biology, chemistry, computer science, geology, mathematics, physics, and psychology. Instruction in these disciplines is designed to accomplish either of two objectives.
The first is to provide enough professional training, at either the undergraduate or graduate level, to serve as a foundation for a career in the discipline, or for continued study at the graduate level in pursuit of advanced degrees. The second is to provide a means for all university students to gain an understanding of the world of science and to give students specific skills for use in related disciplines.

## Majors and Credentials

Biology: B.A. in Biology with options in biological science, botany, environmental biology, functional biology, microbiology, and zoology. B.S. in Microbiology. M.A. in Biology. M.S. in Marine Sciences. Minor in Biology. Single Subject Teaching Credential in Life Science.
Chemistry: B.A., B.S., M.S., and Minor in Chemistry. Single Subject Teaching Credential in Physical Science.
Computer Science: B.S., M.S., and Minor in Computer Science.
Geology: B.S., M.S., and Minor in Geology.
Mathematics: B.A. in Mathematics with concentrations in applied mathematics, precollege teaching, pure mathematics, and statistics and probability. M.A., M.S., and Minor in Mathematics. Credential Program Single Subject Waiver.
Physics and Physical Science: B.A., B.S., M.A., M.S., and Minor in Physics. Minor
in Physical Science. Single Subject Teaching Credential in Physical Science (Physics Option).
Psychology: B.A., M.A., M.S., and Minor in Psychology. Service Credential in Pupil Personnel with a specialization in school psychology.
School Programs: Certificate in Biotechnology, Man/Woman and the Natural Environment, and South Pacific Semester.

## Interdisciplinary Study

The school also offers the opportunity for interdisciplinary science study in courses designed to meet student interest in such areas as biotechnology, environmental studies and ecology, science for public school teachers, and science for health professions. Students interested in developing an interdisciplinary degree program through the special major should contact the dean.

## Biotechnology Certificate

The one-year postbaccalaureate Certification of Advanced Study in Biotechnology is an intensive program of study. It emphasizes molecular biology and a wide range of laboratory skills at the forefront of modern biotechnology. This program can lead to potential careers in expanding fields, such as drug and hormone production in the pharmaceutical industry, monoclonal antibody production of medical diagnostics, crop improvement, industrial bioprocessing, and medical research. The program also provides a strong background for advanced studies in biochemistry, molecular biology, and agricultural biotechnology.

## Man/Woman and the Natural Environment (MNE)

 (18-unit thematic cluster)This cluster of intensive field courses is presented at the introductory level. Concurrent registration in the four courses listed below is required. Fifteen of the 18 units of credit are applied to General Education requirements. Students spend approximately one month in the field. A special fee for transportation and food on field trips is required. For further information, contact the dean's office, 278-3936.
Biol 15 An Ecological Approach to Life Science (5)
Geol 15 The Earth and Its History (5)
N Sci 15 Environmental Science (3)
S Sci 15 Man/Woman's Place in the Natural Environment (5)

## South Pacific Semester

Relying on the uniqueness of New Zealand, the school offers an intensive program of study during alternate spring semesters in biology and geology, along with other disciplines such as business and anthropology. Students will be required to enroll in a minimum of 15 units, most of which will satisfy some General Education requirements. This program has special subsistence and travel expenses for students and will be limited in size and encompass dates not exactly coinciding with normal spring semester dates.

## Preparation, Clubs, and Research

 High School Preparation. Recommended preparation for study in the natural sciences includes English (4 years), algebra (2 years), geometry, trigonometry, and biology. For study in the physical sciences (chemistry, geology, and physics) or mathematics, additional science and mathematics courses are recommended.Preprofessional Preparation. Preprofessional advising is available for students preparing for careers in medicine, dentistry, veterinary medicine, and other professions. Students should contact their respective major and preprofessional advisers before enrolling in classes each semester to stay abreast of current developments. A current list of CSU, Fresno preprofessional advisers is available in the Office of Advising Services or in the dean's office.
The Cooperative Education Program provides the opportunity to combine closely related work experience with a student's classroom and laboratory studies.
Clubs and Organizations. Students are encouraged to participate in a variety of active clubs and organizations. These include Black Students in Science, Caduceus (premedical), Chicano Health Organization, Predental Club, Tri Beta Biological Honor Society, Chemistry Club, Association for Computing Machinery, Geology Club, Society of Physics Students, Psi Chi Honor Society, Psychology Student Union, and the Journal of the School of Natural Sciences.
Research. The school actively fosters individual as well as joint research among campus scientists and with investigators at other regional research centers. Both basic and applied research activities are encouraged and recognized.

TThe School of Social Sciences offers a variety of degree, credential, and certificate programs at both the undergraduate and graduate levels. The curriculum is planned to guarantee breadth of academic experience and to preserve a reasonable depth and rigor in a single academic discipline or study area.
The school participates in many interdisciplinary programs (see Special Programs) both in and beyond the social sciences. Attention is also invited to the Social Science Major for obtaining elementary and secondary teaching credentials and for acquiring a good background for a professional career in law, public service, and other areas.
Strongly committed to a traditional liberal arts education, yet maintaining a varied and strong participation in the university General Education Program, the School of Social Sciences offers a broad range of majors that prepare students for various professions or further study. The school is sensitive to the widely held view that studies in the liberal arts provide the best preparation for careers of leadership in business, public service, and other areas. The school stresses the broad character of its curriculum, assuring today's graduate a place in a society where the narrow specialist is often soon obsolete, but where the adaptable generalist is highly welcome.
The bachelor's degree in the various disciplines of the social sciences is designed to develop the essential skills of educated people to adapt to a rapidly changing world and to provide leadership as new needs arise. The various disciplines help students to acquire and use knowledge, to articulate positions effectively, and to solve problems. In addition, the development of a significant degree of mastery in one of the social sciences is in itself a rewarding and enriching experience.
Degrees in social sciences indicate that students, as they have acquired a greater body of knowledge, have also attained a sense of perspective, more effective communication skills, a heightened respect for quality and excellence, more appreciation of creativity, and a greater understanding in dealing with people from different backgrounds.
The School of Social Sciences is thus committed to providing its majors with a concern for human values and with
the ability to think clearly, critically, and analytically. These graduates, while understanding the value of practical and professional skills, realize that no career can be successfully pursued without the benefit of humanistic values and insights. The social sciences help students become full, rich human beings who are able to reach out beyond their professional careers.

## Social Science (S Sci)

15. Man/Woman's Place in
the Natural Environment (5)
Extended field trips, integrating cultural anthropology and archaeology to explain how past and present peoples have adapted to and altered biological and geological processes and features.
Offered fall semester only as part of "Man/Woman and the Natural Environment." General Education BREADTH, Division 8. (Field trip fees, \$150) (Former Anth 15)

## 150T. Topics in the

Social Sciences (1-3)
Discussion and analysis of current topics in the social sciences with an interdisciplinary focus and structure. Topics will be rotated.
185. Internship (1-6; max total 6) Prerequisites: upper-division or graduate standing; permission of instructor. Supervised work experience in the applied aspects of the social science disciplines. Hours to be arranged. $C R / N C$ grading only.

## Departments,

## Programs, and Majors

The School of Social Sciences offers instruction in the following departments and/or programs: Anthropology, Chicano and Latin American Studies, Criminology, Economics, Ethnic Studies, Geography, History, Political Science, City and Regional Planning, Sociology, and Women's Studies.
Majors: anthropology, criminology, economics, geography, history, political science, public administration, social science, and sociology.
Master's degrees: criminology, geography, history, political science, (international relations), public administration, and city and regional planning.
Minors: anthropology, Asian American studies, Chicano/Latino studies,

criminology, ethnic studies, African American studies, geography, history, Latin American studies, political science, public administration, sociology, urban studies, and women's studies.

## China Semester

CSU, Fresno, in cooperation with universities in China, offers a semester of study in the People's Republic of China. Students can earn credit for 12-18 semester units as the equivalent of one semester of academic work at CSUF. Upon successful completion of the program, the Chinese universities issue a certificate of participation. Courses, credits, and grades appear on CSUF transcripts.
This program combines academic immersion in Chinese culture and language with travel to more than 15 areas of cultural and historic interest throughout China. Two weeks of travel are scheduled to follow the program. Program information and application forms are available from the Office of the Dean, Social Science Building, Room 108.

## Centers in the School

Several departments have established ancillary units designed to facilitate research, community projects, and other activities intended to enhance the university's service to a broad constituency. The following centers are engaged in a variety of projects: Chicano Research Center, Justice Center, and Social Research Laboratory.

## Course Numbering System 1-99

Lower-division courses designed for first- and second-year students.

100-199
Upper-division courses designed for third-, fourth- and fifth-year students; counted as graduate work for students with graduate status; permitted for use on a master's degree program only with departmental approval.

190
Independent study, undergraduate.
100G-199G
For graduate students only; designed for use in the first year of two-year master's degree programs; intensive combination of material normally offered at the undergraduate level.

## 200-297

Graduate courses open to holders of baccalaureate degrees and, with prior approval of the Graduate Division, to last-semester seniors with superior preparation and ability; designed for use on graduate degree programs, including the master's and joint doctorate. When taught by Extension, 200 -series courses count as upper division in graduate degree programs. Graduate-level courses may not be applied toward either a second undergraduate major or second baccalaureate degree.

## 290

Independent study, graduate.

## 298

Graduate Degree Project. Open to graduate students having achieved advancement to candidacy.

Graduate Degree Thesis/Dissertation. Open to graduate students having achieved advancement to candidacy.

300-399
Designed to meet professional needs that cannot be served by regular established course offerings. These courses are offered only through Extension and summer sessions. They assume completion of the bachelor's degree and/or appropriate professional service and are focused upon the problems that enrolled students encounter in their professional service. Although these courses are designed primarily for purposes other than the partial fulfillment of degree and credential requirements, they may, with approval by the department, be applied toward the undergraduate major. They may be used as part of the 40 -unit, upper-division requirement for the B.A. degree and as electives in the fulfillment of the total requirements for a baccalaureate degree and/or credential. They may not be used to meet the requirements of a master's degree or a joint doctorate degree.

## Symbols

A-B Two-semester course normally taken in sequence
A, B Listed as separate courses, may be taken independently
F Field course
L Laboratory associated with another course
M Multiple subject designation for education courses/methods designation for speech communication courses
R Remedial course
S Single subject designation for education courses
T Topics course, varied area subject matter, repeatable for credit
W Writing skills course, meets upper-division requirement for graduation

Course Descriptions. Courses are listed by number, title, units, and maximum total credit. Each unit generally represents one hour per week in class and two hours of preparation. Courses involving laboratory, activity, or other application normally require additional hours of class attendance. Lecture-laboratory hours indicate deviation from the usual one class hour per week for one unit of credit. Prerequisites are listed at the beginning of the course description. Course offerings are listed each semester in the Schedule of Courses.
Prerequisites. Course prerequisites are designed to protect students by ensuring that they have the necessary background and preparation for success in the course. Transfer courses with equivalent content are accepted in lieu of stated prerequisites. Students should check the prerequisites carefully before registering in a course to be sure that they have been met. The instructor can deny admission to a course if a student has not met the prerequisites.
Permission of Instructor. The instructor has the authority to waive the stated prerequisites for a course if it is in the interest of the student to do so and if in the instructor's judgment, the student has a background sufficiently adequate to permit satisfactory performance in the course.
Students will not receive credit for courses in foreign language or mathematics if credit has been awarded previously for a higher numbered course for which the lower numbered course is a prerequisite.
CAN. The California Articulation Number identifies some of the transferable, lower-division, introductory (preparatory) courses commonly taught on California college campuses. The CAN (ex. CAN ECON 2) is listed parenthetically at the end of the course description.

## Aerospace Studies

School of Business and Administrative Sciences Department of Aerospace Studies LT. COLONEL ROBERT J. SEIGEL, Chair North Gym, Room 158
(209) 278-2593, (209) 278-7080

Air Force Reserve Officer Training Corps (AFROTC) Minor in Aerospace Studies

The Air Force Reserve Officer Training Corps Program is a college-based program open to men and women. Its primary goal is to provide students with a choice of well-paying, challenging, and relevant positions after graduation. The few years of service will provide young officers with leadership experience that will be invaluable for either an Air Force or civilian career.
Two routes for an Air Force commission are available to college students in Air Force ROTC. Entering students may enroll in the four-year program, while students with at least two academic years remaining in college may apply for the two-year program.
The Air Force ROTC education program provides preprofessional preparation for future Air Force officers. It is designed to develop men and women who can apply their education to their initial active duty assignments as Air Force commissioned officers. In order to receive a commission, an Air Force ROTC cadet must complete all requirements for a degree in accordance with university guidelines as well as completing certain courses specified by the Air Force.
Air Force ROTC courses are taken for academic credit as part of a student's electives. The two major phases of the curriculum are the General Military Course (GMC) and the Professional Officer Course (POC). In aerospace courses, all books, supplies, and uniforms are furnished at no cost to the student.
Air Force ROTC scholarships are available to qualified applicants in both the four- and two-year program. Each scho-

larship provides full tuition, laboratory and incidental fees, and a semester allowance for curriculum-required textbooks. In addition, scholarship cadets receive a nontaxable $\$ 100$ subsistence each month during the school year. All two-year program cadets regardless of scholarship status also receive this monthly allowance.

## Aerospace Studies Minor

A Minor in Aerospace Studies consists of satisfactory completion of the AFROTC program (16 upper-division units).

## Faculty and Facilities

The teaching staff in the Department of Aerospace Studies is composed of highly educated and experienced Air Force officers who are selected for their professional experience, academic background, and instructor qualifications. Most of these officers have attended at least two Air Force schools in their particular fields and have received professional officer education at an Air University school. Completion of Air University's Academic Instructor School, the "teacher's college of the Air Force," and at least a master's degree is required.

## Career Outlook

Although flying is the primary mission of the Air Force, it is not the only job that has to be done. Today, since science and technology are a large part of the national defense, the Air Force needs the best scientists and engineers the nation can produce. It also needs other professional men and women with a broad range of knowledge and skills.
Many young officers who enter the Air Force today do not expect to be pilots or astronauts. They want to be part of the large research and development program of the vast support organization that keeps our country strong and progressive. Exciting job opportunities exist in a broad range of Air Force specialties.
In addition to the recurring need for pilots, the Air Force also needs personnel to work in navigation, missile operations, engineering, mathematics, physics, computer science, and in the support fields of personnel, administration, logistics, finance, education, security police, health, and others. In the years ahead, Air Force ROTC will continue to concentrate on preparing men and women to assume important and responsible positions of leadership in the modern Air Force.

## Faculty

Lt. Colonel Robert J. Seigel, Chair
Captain John W. Weiser
Advisers:
TSgt Terry V. Logan
SSgt James A. Depass
General Military Course (GMC)
To be eligible for the GMC you must:

1. Be a full-time college student
2. Be age 14 or older
3. Be of good moral character
4. Meet the medical standards for admission to CSU, Fresno
5. Not have been disenrolled from an officer training program (a waiver of this requirement can often be obtained)

## Professional Officer Course (POC)

To be eligible for the POC you must:

1. Be a citizen of the United States and not less than 17 years of age
2. Be physically, mentally, and morally qualified in accordance with standards established by the Department of the Air Force
3. Have two academic years, either undergraduate or graduate, remaining at the time of POC entry
4. Take the Air Force Qualifying Test
5. (a) For pilot and navigator: be not more than $26 \frac{1}{2}$ years of age at date of commissioning
(b) For all other categories: be not more than 30 years of age ( 35 years for those with prior military service) at date of commissioning
6. Be a full-time student according to the rules of CSU, Fresno
7. Be approved for AFROTC training by the professor of aerospace studies

## COURSES

## Aerospace Studies (A Sp)

1A-B. The Air Force Today (1-1)
Corequisite: A Sp 3 Leadership Laboratory (one unit) if student desires an Air Force ROTC Commission. The Air Force in the contemporary world. The total force structure, strategic offensive and defensive forces, general purpose forces, and support forces.
2A-B. The Development
of Air Power (1-1)
Corequisite: A Sp 3 Leadership Laboratory (one unit) if student desires an Air Force ROTC Commission. The development of air power from balloons and dirigibles
through contingency warfare and the peaceful employment of U.S. air power in relief missions.

## 3. Leadership Laboratory

(1; max total 6)
Course must be taken each semester of the General Military Course (GMC). Cadets experiment with and develop their military and leadership skills and techniques. $C R / N C$ grading only.

## 5. Drill and Ceremony

Fundamentals (1)
The elements of military drill, individual and group precision movements, development of command voice; technical, stylistic and aesthetic aspects of creative drill maneuvers, and encompasses both rehearsal and public performance.
25. Air Force ROTC Field Training (3)

Taken during summer preceding entry into POC. Six-week field training to acquaint student with Air Force life, basic military skills, weapons and support systems, and discipline. The Air Force provides meals, housing, pay, and travel to and from base.
103C. Air Force ROTC Field Training (3) For those completed GMC and prior-service cadets. Four weeks of training during any summer at Air Force installations. Physical training, drill, weapon familiarization, flying, orientation. The Air Force provides meals, housing, pay, and travel to and from base.
104A-B. Air Force
Management and Leadership (3-3)
Corequisite: A Sp 113 Leadership Laboratory (one unit) if student desires an Air Force ROTC Commission. Systematic study of published research on leadership theories and group dynamics; review of the principles and functions of manage-

## AGRICULTURE Agricultural Economics

School of Agricultural Sciences and Technology
Department of Agricultural Economics DENNIS L. NEF, Chair
Leon S. Peters Building, Room 302
(209) 278-2949
B.S. in Agricultural Business
M.S. in Agricultural Business

Minor in Agricultural Business
Programs of Study:
Agribusiness Management
Agricultural Economics
Agricultural Finance
Agricultural Marketing
Farm Management
Food Industry Management International Agriculture

Join the leader in science, technology, and management. The award-winning Agricultural Business Program at CSU, Fresno is setting the pace - having been recognized in 1985 as a national model by the Agribusiness Education Project, comprised of agricultural industry leaders and higher education scholars from around the country.
The agricultural business curriculum is taught by the faculty of the Agricultural Economics Department, which was established in 1970. Especially notable is the comprehensive and integrative program of study, with its problem-solving orientation and practical experience emphasis.

## Degree Programs

The Bachelor of Science in Agricultural Business combines core undergraduate courses in agricultural economics (Ag Ec) with basic business management and agricultural science foundation courses. This undergraduate major allows you to emphasize a career specialty, such as concentrations in agricultural economics, farm management, agribusiness management, food industry management, agricultural marketing, agricultural finance, public policy and international agriculture, as well as agricultural communications, consumer science, animal sciences, plant science (plant, crop science, viticulture/tree fruit, ornamental horticulture, plant protection, soils/ irrigation), agricultural engineering technology, enology, dairy industry, food science, meat science, or nutrition. Certified minor programs are also possible in animal sciences, plant science,
food and nutritional sciences, and agricultural engineering technology within the school.

The Master of Science in Agricultural Business combines core graduate courses in agricultural business (Ag Bs) with elective courses from business, agricultural economics, and the agricultural sciences. This graduate program of study is designed for those seeking to advance their career by enhancing their business management and economic analysis skills.

## Instructional Facilities

Modern agricultural computing facilities are used to teach students computerized farm accounting systems, agricultural enterprise management, agribusiness simulations, statistical analysis programs,

and expose them to planning and decision-making aids as part of their professional expertise.
All agricultural business students have access to a commodity market news service in the Marketing News Center and to a computerized database system of 16 menu categories containing more than 500 files through the statewide Advanced Technology Information Network (ATI-NET) established by the school's California Agricultural Technology Institute (CATI).

## Career Opportunities

Graduates of the Agricultural Business Program can choose from more than 120 professional occupations in California's agricultural industry. Ask your faculty adviser for the agricultural business career opportunities list.

Professional Preparation
While a student at CSU, Fresno, you may establish credibility with prospective employers by participating in the following occupationally related activities:

- Career planning and preparation in the Agribusiness Career Seminar (Ag Ec 195);
- National Agri-Marketing Association (NAMA) student chapter, which serves as the Agricultural Business Club offering professional contacts with industry leaders and involvement in the yearly national marketing competition for academic credit (Ag Ec 168);
- Industry internship opportunities for many career positions through management training programs with agricultural business firms and support institutions - the department awards internships on a competitive basis each semester and summer, and grants academic credit for this supervised experience (Ag Ec 194);
- Farm laboratory experience under faculty supervision through participation in the student project program and concurrent enrollment in an Enterprise Management course (Plant, A Sci, Enol 196).

## Faculty

Dennis L. Nef, Chair
David K. Smith, Graduate Coordinator
Juan C. Batista Carl L. Pherson
James H. Cothern Claudia J. Sersland
Thomas I. Gunn John R. Shields John W. Hagen Douglas R. Williams Herbert O. Mason

Faculty members are broadly trained with advanced degrees from top ranked universities across the nation and are highly experienced as teachers, consultants, and researchers. They bring practical insight to the classroom by being professionally active in service to California farms and agribusinesses, industry organizations, government agencies, and professional associations. Forming a strong adviseeadviser relationship with any one of the faculty can help you match your career goals with appropriate coursework.

## Bachellor of Science Degree Requirements

Agricullturoul Busimess Major Units Generall Education 51
(including 9 upper-division
units, after completing 56
units of coursework)
CORE
Category 3: Ag Ec 71 (required)
BREADTH
Division 1: Chem 3A (required)
Division 2: Biol 10, Bot 10, or Zool 10 (required)
Division 3: Psych 10 (recommended)
Division 4: CFS 38 or FScN 53 (recommended)
Division 8: Ag Ec 1 (required)
CAPSTONE
Agriculture and Government
Policy Cluster (recommended):
Ag Ec 150 and Phil 125 or Pl Si 150
Major.
(including 20 upper-division units)
Agricultural Science
Foundation
(In addition to the Ag Ec requirement, select one course from three of the five remaining areas.)
Ag Ec: Ag Ec 2 (required)
A Sci: A Sci 1
FScN/Dairy/Enol: FScN 50, 54, D Ind 23, or Enol 15 AET: AET 1 or 2

Plant Sci: Cr Sc 1, VTF 1, OH 1 , or $\mathrm{Pl} \operatorname{Pr} 1$
SI: SI 1
Business Management
Base $\qquad$
B A 18 or Ag Ec 28
Acct 4 A or Ag Ec 31
Acct 4 B or Ag Ec 32
DS 73 or Ag Ec 71
IS 50 or Ag Ec 76
Agricultural Economics Core
Ag Ec 100, 110, 120, 130, 160, 170, 3 unit upper-division Ag Ec course
Career Specialty $\qquad$
A required concentration of approved courses (including a minimum of 6 upper-division units in agricultural economics) is selected to match the student's career goal in consultation with the student's assigned faculty adviser. (See major program of study check sheet for course listings by concentrations in various disciplines.)

## Addlitionall requuirement

 1-3Upper-division writing skills (by exam or Plant 110W)

## Electives

$\qquad$ 14-16
Courses supplementary to the major are strongly recommended.
Totall requirements 128
(including 40 upper-division units)

## Advising Notes

1. New students should request the program of study check sheet from the department.
2. All students should make an appointment with their assigned academic adviser prior to registration each semester.
3. Community college transfer students should consult their academic adviser to determine which CSU, Fresno Ag Ec courses are articulated for credit as equivalent to their community college courses.
4. Credits earned for articulated community college courses do not count toward the minimum requirements of 20 up-per-division units in the major and 40 upper-division units for the degree.
5. CR/NC grading is not permitted for courses in the major. Internship units for Ag Ec 194, which is graded on a $C R / N C$ basis, can be counted under the Electives category.
6. General Education courses designated as additional requirements by the department are prerequisite to many courses in the program of study but may not be double counted to simultaneously satisfy Major as well as General Education requirements.
7. The General Education CORE requirement in mathematics within Category 3 should be satisfied during the first year in residence at CSU, Fresno. If Ag Ec 71 is taken in Category 3, another 3-unit Ag Ec course must be taken in its place within the major.
8. The General Education BREADTH courses required of agricultural business students within Divisions 1, 2, and 8 should be completed by the end of the first semester of the sophomore year.
9. The General Education CAPSTONE cluster courses recommended for agricultural business students are Ag Ec 150 and Phil 125 or Pl Si 150, both of which can be taken only after 56 degree units are completed. The Agriculture and Government Policy CAPSTONE choice would appropriately be taken during the senior year.
10. The General Education requirement of 51 units may be exceeded depending upon the selection of courses; such excess units are counted under the Electives category toward the 128unit degree.
11. Upper-division units, i.e., 100 -level courses may not be applied toward the 40 upper-division unit degree requirement until 45 units have been completed.
12. All upper-division agricultural economics courses have prerequisites to which students must adhere; however, equivalent prerequisite courses may be substituted.
13. The Agricultural Science Foundation courses should be completed no later than the end of the first semester of the junior year.
14. The Business Management Base courses should be completed no later than the end of the first semester of the junior year.
15. The Agricultural Economics Core courses of Ag Ec 100, 110, 120, 130, and 160 should be completed no later than the end of the junior year. In particular Ag Ec 100 should be taken immediately upon completion of 45
units, including the prerequisite course Ag Ec 1, and preferably before the other Ag Ec core courses. Ag Ec 170 and the 3-unit upper-division Ag Ec course should be taken during the senior year.
16. The Program of Study Career Specialty within the major (identified by the major code number in the Schedule of Courses) consists of approved courses totaling 12 units (of which 6 must be upper-division units in agricultural economics) under a formally recognized concentration (see program of study check sheet) or an individually tailored flexible group of logically integrated courses to meet the student's particular career goal.
17. Required Ag Ec courses are normally offered fall and spring semesters; elective Ag Ec courses are usually offered either fall or spring semester.
18. Students planning to earn a Master of Science degree in Agricultural Business at CSU, Fresno should include approved courses in inferential statistics, linear regression, quantitative analysis, and organizational behavior in their bachelor's degree program.
19. Students intending to pursue graduate study in agricultural economics at another institution should include approved courses in intermediate macroeconomic theory, differential and integral calculus, inferential statistics, and linear regression in their bachelor's degree program.
20. The upper-division writing skills requirement can be met by passing the university Upper-Division Writing Examination (UDWE) or by taking an approved upper-division writing skills course only after 56 units are completed. One unit of credit in Engl 100W may be earned for passing the examination if requested by the student; by obtaining a letter grade of $C$ or higher in an approved course (e.g., Plant 110W), the student will meet the upper-division writing skills requirement.
21. A dual major of agricultural business with animal sciences, food and nutritional sciences, or plant science must have 36 mutually exclusive units (including a minimum of 18 upper division). A dual major requires the approval of the department chairs administering these programs of study. General Education and Elective units
may be applied (i.e., double counted) toward a second major or a minor. (See Dual Major or Minor in this catalog and consult with the appropriate department adviser.)
22. Complete the Certification of Major Requirements form in consultation with your assigned academic adviser; and submit it to the department chair for approval during the next-to-last semester in residence. File an application for graduation early in your last semester and pay the required application fee.

## Agricultural Business Minor

This minor field of study is principally designed for agricultural science and business majors. Those students majoring in animal, plant, and food sciences or agricultural engineering technology may seek to complement their technical knowledge with competencies in agricultural business for professional advancement. Students majoring in one of the business degree options may anticipate staying in the San Joaquin Valley where they will most likely become involved with and require an understanding of the agricultural sector as employees, clients, or customers of agribusiness firms. The minor also provides a foundation for graduate study in agricultural business or agricultural economics.
You should consult with your faculty adviser in the Agricultural Economics Department to plan your program. The adviser and the department chair must approve the minor program of study before it can be certified by the school dean, filed with the Office of Evaluations, and recorded on your transcript.
The minor consists of 24 units, of which equivalent courses are acceptable for 12 units.

## Advising Notes

1. University policy states that courses fulfilling requirements for a minor may be counted toward General Education (e.g., Ag Ec 1 or Econ 40 in BREADTH Division 8; Ag Ec 150 in CAPSTONE).
2. The department waives the CORE requirements of Ag Ec 1, 31, 130, and 120 for students who have already received credit for Econ 40, Acct 4A, Fin 120, and Mgt 104 or 110 respectively. Such course waivers correspondingly reduce the unit requirement for the minor from the maximum of 24 to a possible 12 the minimum allowable under the Title 5 code. This adjustment accommodates the university policy that "courses in a major cannot be applied toward a minor unless designated as 'additional requirements' to the major."
3. Concerning the course selections to satisfy the production operations core requirement and the focus elective, consult with the minor adviser about which choices match your career plans.
4. All courses in the minor must be taken for a letter grade; $C R / N C$ grading is not acceptable.
5. Successful completion of this minor requires a 2.0 GPA for all courses in the program and for all courses taken at CSU, Fresno.

## Master of Science Degree Requirrements

The Master of Science in Agricultural Business (MSAB) is a 30 -unit program designed to develop business management and economic analysis skills for individuals seeking career advancement in farm management, agribusiness management, agricultural finance, and agricultural marketing. Applicants are normally expected to have postbaccalaureate degree work experience in the agricultural sector in order to fully participate in and benefit from classroom seminars stressing the integration of theory and practice through the application of research knowledge to industry problems. Most graduate courses are offered in the evening to accommodate students who are employed full time.

## Admission Criteria

Full classified standing requires a baccalaureate degree in agricultural science, agricultural business, business, economics, or related undergraduate major from an accredited institution; a 3.0 GPA (last 60 semester units); and either a $450 \mathrm{~V} / 430 \mathrm{Q}$

Graduate Record Examination (GRE) score or a 500 Graduate Management Aptitude Test (GMAT) score.
Conditional classified standing may be granted by the department to petitioning applicants with a 2.5 to 2.99 undergraduate GPA (last 60 units), if they have obtained a passing score on either the GRE or GMAT and if two letters of recommendation from past or current employers attesting to the applicant's intellectual maturity and relevant experience have been received by the department. Such students will be fully classified only when all prerequisite foundation courses taken at the undergraduate level have been completed with a minimum 3.0 GPA. Prerequisite foundation courses are not included in the 30 -unit degree program.
Foreign students. Applicants whose preparatory education was principally in a language other than English must earn a minimum score of 550 on the Test of English as a Foreign Language (TOEFL).
Note: For complete information on admission requirements and application procedures see Division of Graduate Studies and Research.

## Prerequisite Courses

The following specific prerequisite foundation courses, or their equivalents, are expected to be completed prior to enrollment in graduate level agricultural business (Ag Bs prefix) or business (Bus prefix numbered 221 and higher) courses:

## Agricultural Sciences

Three courses from at least two of the agricultural programs:
Animal Science; Dairy Industry, Enology, Food Science, and Nutrition; Plant, Crop Science, Viticulture/Tree Fruit, Ornamental Horticulture, Plant Protection, Soils/Irrigation, and Agricultural Engineering Technology.
Economic Theory
Introductory Microeconomics:
(Ag Ec 1 or Econ 40 or Bus 202)
Introductory Macroeconomics:
(Ag Ec 2 or Econ 50 or Bus 202)
Intermediate Microeconomics:
(Ag Ec 100 or Econ 100A or B A 100)
Agricultural Economics
Farm Management: (Ag Ec 110)
Business Management: (Ag Ec 120 or PLM 124 or Bus 216)
Finance Principles: (Ag Ec 130 or Fin 120 or Bus 218)
Agricultural Marketing: (Ag Ec 160)

## Business Foundation

Accounting Principles:
(Bus 205 or Acct 4A and 4B)
Business Mathematics:
(Bus 207 or DS 71-72)
Statistical Methods: (Bus 208 or DS 73
and 173 or Ag Ec 71 and DS 173)
Computer Programming:
(Bus 209 or IS 50 or Ag Ec 76)
Business Law:
(Bus 211 or B A 18 or Ag Ec 28)
Organizational Behavior: (Bus 214 or
Mgt 110 or Mgt 104 and 106)
Note: Courses prefixed Ag Bs or Bus are open only to graduate students with full classified standing.

## Program Requirements

All students must complete an agricultural business base, three elective graduate courses from the School of Business and Administrative Sciences, an agricultural elective, and a culminating experience. The agricultural business base consists of five graduate courses (Ag Bs prefix). Research projects are required in each agricultural business base course to allow students to develop skills in critical analysis of agribusiness problems employing appropriate research methodology and methods.
Additionally, students may focus their program to meet career goals by selection of approved electives in consultation with an adviser. Among the electives from the School of Business and Administrative Sciences (Bus prefix), graduate courses in organizational principles and marketing management are recommended for most students. In addition to the above, there are two options for meeting the culminating experience requirement. The research plan requires a thesis or project. The comprehensive examination plan requires an additional approved elective and an examination. Specific program elements are:

## Research Plan <br> Units

Agricultural Business Base ................ 15
Ag Bs 210 or $225,220,230,250$, 260
Business Electives $\qquad$ .. 9

Three approved graduate courses (Bus 241 or higher); Bus 241 and Bus 242 (recommended)
Agricultural Elective $\qquad$ .. 3
One approved graduate course in Agricultural Business (Ag Bs), up-per-division undergraduate course in Agricultural Economics (Ag Ec), or a graduate/upper-division course in agriculture

Research Culminating Experience ...... 3
Ag Bs 298 or 299
(See Advising Note 9)
Total requirements

## Comprehensive

Examination Plan Units
Agricultural Business Base ................. 15
Ag Bs 210 or 225, 220, 230, 250, 260
Business Electives ................................ 9
Three approved graduate courses
(Bus 241 or higher); Bus 241 and Bus 242 (recommended)
Agricultural Electives
Two approved courses in Agricultural Business (Ag Bs), upperdivision undergraduate courses in Agricultural Economics (Ag Ec), or graduate/upper-division courses in agriculture
Culminating Experience
Comprehensive examination .. 0
Total requirements

## Advising Notes

1. Students should obtain specific information concerning the MSAB degree program and "MSAB Advisee Check Sheet" from the department office.
2. Before enrolling in courses, students should see the department graduate coordinator for aid in program planning and selecting a faculty adviser.
3. See Division of Graduate Studies and Research section in this catalog for university regulations governing the fulfillment of master's degree requirements.
4. In order to continue graduate enrollment the student must maintain a 3.0 GPA and demonstrate satisfactory progress through the degree program. (See Division of Graduate Studies and Research for time limitations.)
5. The sequence of steps necessary to complete the degree is:
a. Complete all prerequisite foundation coursework
b. Attain classified standing
c. Pass an oral diagnostic examination
d. Meet the graduate writing skills requirement
e. Consult with graduate coordinator regarding procedures and guidelines for the Research Plan and the Comprehensive Examination Plan, choose a plan, and petition for advancement to candidacy as soon as eligible
f. Complete the agricultural business base
g. Maintain a 3.0 GPA
h. If pursuing the Comprehensive Examination Plan, schedule the examination for the end of the semester in which courses are to be completed, and complete the culminating experience
i. If pursuing the Research Plan, formally present a project or thesis proposal and file a project or thesis committee assignment form before the semester in which you will enroll in 298 or 299; complete the research and defend the results
6. The oral diagnostic examination may be waived for students with superior academic preparation in the MSAB prerequisite course requirements. (See graduate coordinator for criteria and petitioning process.)
7. Advancement to candidacy requires full classified standing, successful completion of 9 program units in residence, maintenance of a 3.0 GPA, meeting the graduate writing skills requirement, fulfillment of departmental requirements, and filing a petition for advancement to candidacy a minimum of one semester prior to enrollment in the thesis or project within the deadline.
8. The graduate writing skills requirement will be met by earning a minimum of 450 verbal on the GRE. Students achieving a minimum of 500 on the GMAT may meet the graduate writing skills requirement by earning a score of 80 or higher on the university writing competency examination or by earning a $\boldsymbol{B}$ or better in a designated $W$ course to be specified by the graduate committee of the School of Agricultural Sciences and Technology.
9. Students undertaking the Research Plan may register for a maximum of 6 units of Ag Bs 298 or 299 project or thesis. Such students are required to complete a minimum of 33 units instead of the normal 30 units wherein only 3 units of Ag Bs 298 or 299 is taken.

## COURSES

Note: Active immunization against tetanus (available through Student Health Services) is a prerequisite for registration in any laboratory course in agriculture and for any student employment on the University Farm
Note: Cost to the student of extended field trips will vary each semester depending upon itinerary. The student should ask the course instructor.

## Economic Principles (Ag Ec)

## 1. Introductory

Agricultural Economics (3)
Microeconomic principles of resource allocation, production, cost analysis, and market price equilibrium with primary application to farms and agribusiness firms; supply and demand in commodity pricing under perfect and imperfect competition; survey of agricultural management and marketing problems and issues. General Education BREADTH, Division 8.

## 2. Agricultural Sector Analysis (3)

 Domestic and international forces affecting industry profitability of farm input suppliers, agricultural producers, commodity processors, food marketers; government fiscal, monetary, trade policies interaction with agricultural credit, price support, food subsidy programs; impact on agribusiness asset values, debt accumulation, income levels.
## 100. Intermediate

Agricultural Economics (3)
Prerequisite: Ag Ec 1 and intermediate algebra. Microeconomic theory of agricultural production in factor-product, factor-factor, product-product decisions; production costs and economies of size; consumer choice theory; price and output determination under imperfectly competitive markets; marginal productivity theory and the derived demand for agribusiness inputs.

## Farm Management (Ag Ec)

## 110N. Introductory

Farm Management (3)
Prerequisite: Ag Ec 1. Survey course for non-agricultural business majors. Introduction to applied economics and farm business management topics: farm accounting, financial statement analysis, management principles, computer assisted decision aids, animal and crop enterprise budgeting, farm business planning, tax management, investment analysis, agricultural finance. (2 lecture, 3 lab hours)

## 110. Farm Management (3)

Prerequisite: Ag Ec 100. Production economics and management techniques for analysis of efficient farm resource use, planning and organization; analysis of budgeting and optimization techniques, and computer applications for developing farm management plans. (2 lecture, 3 lab hours)
114. Advanced Farm Management (3) Prerequisite: Ag Ec 110. Design, computerization, and analysis of profit maximizing; cost minimizing and multiperiod linear programming models; risk and uncertainty; data and information requirements for decision making; optimizing the level and mix of crop livestock enterprises; development of farm management plans.

## 117. Agricultural

Labor-Management Relations (3)
Prerequisite: Ag Ec 1. Economic analysis of the farm labor market; labor productivity, agricultural mechanization and farm employment; farm labor laws and government regulations; agricultural labor relations, unionization, and collective bargaining; farm personnel administration practices and supervisory management principles.

## Agribusiness Management (Ag Ec)

28. Introductory Agricultural Law (3)

Fundamentals of agricultural business law including historical sources and development; legislative laws; administrative regulations, judicial decisions affecting agriculture; express and implied contracts with remedies for their breach in agricultural situations; real and personal property law plus secured transactions in agriculture. (Former Ag Ec 185 T section)
120. Agribusiness Management (3)

Prerequisite: Ag Ec 1. Organizational forms and management functions of agribusiness firms; human resource management systems; management science principles for optimizing plant location, equipment replacement, inventory control, and sales volume; operations research techniques, including probability-based network and decision models, for solving agribusiness problems.

## 122. Agricultural

Cooperative Management (3)
Prerequisite: Ag Ec 120. Philosophical, historical, and legislative evolution of U.S. agricultural cooperatives; uniqueness of cooperative organization, planning, direction and control functions vis-a-vis standard corporations; legal, financial, and tax considerations in managing input-supply

and marketing cooperatives; case studies and field trips to cooperatives.

## 124. Food and Fiber

Industry Management (3)
Prerequisite: Ag Ec 1. Production management of farm input manufactures, agricultural commodity processing, food/ fiber product distribution; functional approach to transformation/value-added operations including planning, organizing, directing, coordinating, controlling; case applications to materials handling, product development, food packaging, quality control, transportation logistics, inventory management.

## 128. Advanced Agricultural Law (3)

Prerequisite: Ag Ec 28 or B A 18. Case applications of agricultural business law; torts covering trespass, negligence, liability for farm livestock and chemicals; surface and mineral property rights; water law; farm labor law; agribusiness firm incorporation; agricultural cooperative regulation; state and federal marketing orders; farm estate taxation.

## Financial Planning (Ag Ec)

## 31. Farm Accounting (3)

Basic concepts and principles of financial accounting systems applied to farm operations; mechanics of recording single and double entry transactions under cash and accrual accounting methods; preparation and analysis of enterprise records and fi-
nancial statements to generate management information. (2 lecture, 3 lab hours) (Former Ag Ec 30)

## 32. Agribusiness

Managerial Accounting (3)
Prerequisite: Ag Ec 31 or Acct 4A. Application and analysis of accounting information for farm and agribusiness management; integration of economic, and financial principles in preparing business plans; equipment cost control and crop enterprise accounting methods; capital investment and profit performance; introduction to computerized farm accounting systems. (2 lecture, 3 lab hours) (Former Ag Ec 185 T section)

## 130. Agricultural Finance (3)

Prerequisite: Ag Ec 1 and Ag Ec 31 or Acct 4A. Analysis of farm financial statements; legal instruments of financial transactions; institutional sources of farm credit; time value of money and capital budgeting for agricultural investment; cost of debt and equity capital; risk management strategies; insurance, tax, and farm estate planning.
136. Farm and Ranch Appraisal (3)

Prerequisite: Ag Ec 1; Ag Ec 110 or 110 N (recommended). Principles of agricultural appraisal; physical and economic factors affecting land values; estimation of real estate value using income, cost, and market data approaches; case studies and field problems involving the valuation of local farm and ranch properties.

## Agricultural Development (Ag Ec)

140. International Agriculture (3)

Prerequisite: Ag Ec 1. Comparative agricultural development in low, middle, and high income countries; structural, institutional, policy, research, technological, investment, trade strategies for modernizing food production/processing/distribution into technically sustainable, culturally compatible, economically viable farming systems; programs addressing poverty, malnutrition, overpopulation, underemployment, environmental degradation.
147. Rural

Development Administration (3)
Prerequisite: Ag Ec 140. Application of public administration and business management principles to directing international agricultural technical assistance; infrastructure development, institution building, policy formulation, technology transfer, and rural entrepreneurship in market-oriented and state-planned economies; program planning, project supervision and contract management overseas.

## Public Policy (Ag Ec)

## 150. Agricultural Policy (3)

Prerequisite: Ag Ec 1. Analysis of public policies affecting the economic position of U.S. and California agriculture; government programs influencing agricultural production, commodity distribution, market prices and farm income; selected topics concerning American food and fiber system; comparative foreign agricultural policies and U.S. trade. General Education CAPSTONE Cluster, Critical Thinking.
153. Agricultural Trade (3)

Prerequisite: Ag Ec 150. Comparative advantage, trade models, protectionist barriers and balance of payments; world agricultural trade patterns and international commodity agreements; domestic farm programs and foreign trade policies; surplus food aid and concessionary sales overseas; trade liberalization versus preferences issue and economic development.
155. Natural Resource Economics (3)

Prerequisite: Ag Ec 1. Economic analysis of public policies governing land use, water management, energy generation, mineral exploitation and forest administration; review of population pressures and resource conservation; examination of externalities, property rights issues, resource use planning, agricultural zoning, environmental regulations, and reclamation law.

## Product Marketing (Ag Ec)

160. Agricultural Marketing (3)

Prerequisite: Ag Ec 1. Commodity transformation and product flow through processing and distribution channels; market structure, conduct and performance; marketing system efficiency and marketing bill components; over supply, marketing orders, grading and standards, and price stabilization; price forecasting, futures market trading, and risk management. (Former Ag Ec 161)

## 162. Commodity Futures Trading (3)

 Prerequisite: Ag Ec 160. Speculation and the price discovery process; fundamental analysis and long-run decisions to hedge; technical analysis and short-run timing of crop/livestock sales; trend line charts utilizing moving averages; trading mechanics, price projection and development of futures trading plans.163. Agricultural Export Marketing (3) Prerequisite: Ag Ec 160. Determination of potential overseas markets for U.S. agricultural products through export marketing studies; foreign business environment and distribution channels; product preparation and transportation abroad; cultur-al-specific promotional and advertising programs; international sales agreements, financial transactions, plus banking and shipping documentation.
164. Agribusiness Sales Management (3) Prerequisite: Ag Ec 1. Marketing management strategies for stimulating business and consumer demand for agricultural goods and services; food and fiber merchandising using institutional, functional, value approaches; sales program organization and staff development for effective communication of product information and timely completion of transactions.
165. Agricultural Communications (3) Prerequisite: Ag Ec 1. Agricultural news and information gathering and dissemination to food producers and consumers through print/broadcast media and computer networks; formulation of promotional programs, advertising campaigns, and public relations for agricultural industries and institutions; mass communications writing, editing; simulated videotape presentations.

## 168. Agricultural Marketing

Management Project (1-3; max total 3)
Prerequisite: Ag Ec 71, 164 (or equivalent) and permission of instructor. Marketing
management principles in preparing marketing plan for annual National Agri-Marketing Association intercollegiate competition; strategic planning for product development, sales projections, distribution channels, pricing tactics, promotion/advertising, market share analysis; focus group, survey research, oral/ audio-visual team presentation. (2 activity hours per unit)

## Decision Analysis (Ag Ec)

71. Agricultural Business Statistics (3) Prerequisite: intermediate algebra. Application of descriptive statistics to analyze agricultural sector conditions; measures of central tendencies and dispersion, time series analysis, index numbers, seasonal variation, data collection and presentation, introduction to probability theory, and discrete and continuous probability distribution. General Education CORE, Quantitative Reasoning.

## 76. Agribusiness

Microcomputer Applications (3)
Prerequisite: intermediate algebra. Applied microcomputing for agribusiness management. Evaluation of alternative microcomputing systems and software. Use of an electronic spreadsheet and database management programs; applications to farm accounting, crop and livestock enterprise management, and agricultural financial planning. (2 lecture, 3 lab hours)
78. Agricultural Systems Analysis (3)

Prerequisite: Ag Ec 71 and 76 or equivalents. Systems science principles for agribusiness planning and controlling decisions; logic and probability in diag. nosing problems, designing operations, and achieving objectives with general and subsystems models; identification of elements, relationships, and procedures for efficient input/output transformation; applications to computer programming. (Former Ag Ec 174; Ag Ec 178)
170. Agribusiness Research Methods (3) Prerequisite: Ag Ec 71 or DS 73, Ag Ec 76 or IS 50, and Ag Ec 100; upper-division writing skills requirement. Research methods applied to agricultural business; problem definition, hypothesis formulation, research design, data collection, and results analysis using descriptive and inferential statistics; mechanics of writing research proposals and technical reports and making oral presentations of findings.

## Special Topics (Ag Ec)

80. Undergraduate Research
(1-4; max total 4)
Prerequisite: Ag Ec 1 and permission of instructor. Directed study or research on particular problems in the field of agricultural economics and business. Consult department policies and procedures governing undergraduate research. Approved for $\boldsymbol{S P}$ grading.

## 85T. Topics in Agricultural

Business (1-3; max total 6)
Agricultural economics, farm management, agribusiness management, financial planning, agricultural development, public policy, product marketing, and decision analysis. Topics may require lab hours.
180. Undergraduate Research
(1-4; max total 4)
Prerequisite: Ag Ec 170 and permission of instructor. Directed study or research on particular problems in the field of agricultural economics and business. Consult department policies and procedures governing undergraduate research. Approved for $\boldsymbol{S P}$ grading.

## 185T. Topics in Agricultural

Business (1-3; max total 9)
Prerequisite: Ag Ec 1. Agricultural economics, farm management, agribusiness management, financial planning, agricultural development, public policy, product marketing, and decision analysis. Topics may require lab hours.

## Industry Relations (Ag Ec)

192. Agricultural

Business Field Studies (2)
Prerequisite: Ag Ec 1. Business and economic functions performed by specialized agricultural agencies with emphasis on physical operating patterns. Field trips to production, marketing, and finance firms. Workshops with agribusiness managers. (1 lecture, 2 lab hours) (Field trip fee, up to \$75)
194. Agribusiness Internship
(1-8; max total 8)
Prerequisite: junior or senior standing and approval of internship committee. Emphasis on development of decision-making ability through industrial experience integrated with basic principles acquired in the classroom. CR/NC grading only.
195. Agribusiness Career Seminar (2) Prerequisite: junior standing or permission of instructor. Career exploration and academic preparation in agribusiness; assessment of personal and professional skills matching agricultural occupational choices; career planning, self-marketing strategies, and job-hunting tactics; resume and letter writing, interview and job-offer negotiations; workshops with industry representatives.

## GRADUATE COURSES

(See Course Numbering System and Eligibility.)

## Agricultural Business (Ag Bs)

## 200. Seminar in Agricultural

Business (1; max total 4)
Prerequisite: permission of instructor. Written and oral reports concerning recent literature on current problems and issues related to agricultural business.

## 210. Farm Management Analysis (3)

Prerequisite: Ag Ec 100 and 110. Integration of production economics theory with management science techniques to develop farm management plans; analysis of farm management decisions under uncertainty using programming models, statistical analysis, and other operations research methods.

## 220. Agribusiness

## Management Analysis (3)

Prerequisite: Ag Ec 120. Diagnosis of management problems in terms of planning, controlling, directing, organizing, and staffing functions; management science techniques for decision making under certainty and uncertainty using deterministic and probabilistic models; case study assessment of organizational behavior theory and operations research methodology.

## 225. Food Processing and

Distribution Management (3)
Prerequisite: Ag Ec 124 or permission of instructor. Analysis of strategic management decisions involving pricing relationships, processing and packaging systems, transportation modes and distribution logistics for agricultural products in domestic and global markets; application of modern management tools to food industry case problems including operations of international food marketing firms.
230. Agricultural Finance Analysis (3) Prerequisite: Ag Ec 130 or Fin 120 or Bus 205. Application of advanced portfolio theory, capital asset pricing models, and capital budgeting procedures to decision making under uncertainty for farming operations and agricultural businesses; case studies illustrating database management, tax management, and optimal capital asset replacement scheduling.
analysis of agricultural price forecasting models; estimation of price, income, and cross elasticities and price flexibility coefficients; analysis of price trends and cyclical price variations; advanced hedging and speculation in commodity futures trading.

## 270. Research

Communications in Agribusiness (3)
Prerequisite: advancement to candidacy. Individually directed readings in a field of special concern to the student's graduate program; appropriate research proposal writing and evaluation required.

## 280T. Topics in

 Agricultural Business (3; max total 6) Prerequisite: upper-division agricultural economics courses appropriate to the topic. Fields of study include: farm management,240. Agricultural Sector Planning (3)

Prerequisite: Ag Ec 130 or Fin 120, Ag Bs 250. Economic policies, incentive structures, and resource constraints affecting agricultural development; rural development theories, growth models and sector strategies for increasing farm productivity; design, implementation, and evaluation of technical assistance programs; economic and financial appraisal of public and private investment projects.
250. Agricultural Policy Analysis (3)

Prerequisite: Ag Ec 100. Exploration of policy-making processes; evaluation of government farm and food programs; determination of industry responses and firm adjustments to changing market structures and public policies; investigation of agricultural sector problems, issues, and linkages with the national and international economies.

## 260. Agricultural

Marketing Analysis (3)
Prerequisite: Ag Ec 160. Examination of demand and supply functions underlying market price determination; review of farm-retail marketing margins; analysis of spatial and intertemporal price equilibrium models; application of econometric techniques to empirical cases; preparation of marketing studies; development of distribution/merchandising strategies.
265. Agricultural Price Forecasting (3) Prerequisite: Ag Bs 260 . Specification of demand and supply equations; regression
> "I want students to be constantly aware of life's unfolding opportunities and to always maintain the ability to choose the best possible path consistent with their values and goals. After all, that's what my field of economics is all about the science of making optimal choices."

John R. Shields
Professor, Agricultural Economics

## AGRICULTURE Animal Sciences and Agricultural Education

School of Agricultural Sciences and Technology
Department of Animal Sciences and Agricultural Education
SCOTT A. WILLIAMSON, Chair
Agriculture Building, Room 230
(209) 278-2971
B.S. in Animal Sciences

Options:
Basic Animal Science
Dairy Science
Meat Technology
Preveterinary Medicine
Production Management
B.S. in Agricultural Education Options:
Agricultural Communications
Teacher Preparation
M.S. in Agriculture

Option: Animal Science
Minor in Animal Sciences

Prepare for the future in agricultural sciences, technology, and management with a degree in animal sciences or agricultural education.
The Department of Animal Sciences and Agricultural Education offers options in agricultural communications, teacher preparation, basic animal science, dairy science, meat technology, preveterinary medicine, and production management. Courses integrate animal evaluation, behavior, disease, environmental man-
agement, genetics, health, marketing, muscle biology, nutrition, physiology, production, and reproduction.
The agricultural education major is designed to prepare students for positions as agricultural communication specialists and vocational agriculture teachers. Specializations may be developed in animal sciences, plant sciences, or agriculture.

## Instructional Facilities

Instruction in the animal science disciplines is enhanced through practical application at the various farm laboratory units. The Beef, Dairy, Horse, Meats, Sheep, and Swine units are maintained to support this educational purpose. In addition, veterinary and physiology laboratories are utilized to complement on-campus education. A 4,300-acre livestock and range management facility and another 800 acres of rangeland in the Sierra foothills are available.

## Career Opportunities

Students specializing in animal science prepare for careers in the livestock industry where they may be engaged in consultation, management, production, research, teaching, or other professional services as well as careers in business, government and foreign service. Students specializing in agricultural education may pursue a variety of challenging careers in the educational field.

The courses offered in the programs listed below provide the necessary background to prepare students for careers in the agricultural industry.

## Agricultural Communications.

Combines courses in agriculture with a journalism core and a specialty in advertising, news-editorial, photo communications, public relations, or radio-television designed to train students for employment opportunities in the field of communication.

Basic Animal Science. Provides a science oriented curriculum in the disciplines of animal science. Prepares students for postbaccalaureate study or careers related to science, research, and the technical aspects of animal science.
Dairy Science. Prepares students for commercial and registered dairy herd management, breed association representatives, artificial breeding services, dairy sanitation, milk quality control, and other dairy-related occupations.
Meat Technology. Prepares students for employment in the meat industry by offering courses in the areas of meat science, muscle biology, food science and nutrition, food chemistry, and marketing.
Preveterinary Medicine. Provides a structured program of courses in animal science and related biological/physical sciences which prepares students for admission to schools of veterinary medicine and for employment in the animal health industry.
Production Management. Provides a curriculum designed to support a strong core of animal science with specialized training in agricultural business. Students who select this option may wish to consider a minor in agricultural business.
Teacher Preparation. Prepares students for positions as vocational agriculture teachers. (See Agricultural Education Major.)

## AGRICULTURE - Animal Sciences and Agricultural Education

## Faculty

Scott A. Williamson, Chair
Darren M. Nelson, Graduate Coordinator
Richard A. Rogers, Agricultural Education
Credentialing Coordinator
David H. Bremel
John A. Jacobs
Arthur A. Parham
Anne V. Rodiek

Randy C. Perry Charles M. Smallwood

The faculty represent diverse specializations in the disciplines of animal science and teacher training. With doctoral degrees from many of the nation's outstanding agricultural universities, the faculty have combined philosophies of undergraduate education, research, curriculum development, industry relations, and career placement into a unique program. Their experience combines the practical and theoretical aspects of the animal sciences to provide an education second to none. Students are assigned an adviser who assists in both academic and career planning on an individual basis. The faculty place a high priority on strong ad-viser-advisee relationships.

## Bachelor of Science Degree Requirements

## Animall Sciences Major'

Options: Basic Animal Science, Dairy Science, Meat Technology, Preveterinary Medicine, Production Management.

Units
Generall $\mathbb{E d u c a t i o n}$ 51
(including 9 upper-division
units, after completing 56
units of coursework)
CORE
Category 3: Ag Ec 71 or Plant 99
(recommended)
BREADTH
Division 1: Chem 1A or 3A (required)
Division 2: Biol 10 or Zool 1 or 10 (required)
Division 3: Plant 105 (recommended)
Division 4: FScN 53 (required)
Division 8: Ag Ec 1 (required)
CAPSTONE
Agriculture and Government Policy Cluster (recommended):
Ag Ec 150 and Phil 125 or Pl Si 150

Major
.45
(including 20 upper-division units)
Animal Science Core
A Sci 1, 11, 35, 36, 65A,
101, 125, 135, 145A, 155,
156, 171A, 186
Options (select one)

## Basic Animal Science

A Sci 180
Select one course from the following: A Sci 21, 31, 41, 51, 61
Select one course from the following: A Sci 146, 165, 166, 172
Select one course from the following: A Sci 121A, 131A, 151, 161
Dairy Science
A Sci 61, 161, 163, 181
Meat Technology
A Sci 165 or $194,172,181$
Select one course from the following: A Sci 21, 31, 41
Preveterinary Medicine
A Sci 165, 166
Select two courses from the following: A Sci 21, 31, 41, 51, 61
Production Management A Sci 181, 194 or 196
Select two courses from the following: A Sci 21, 31, 41, 51, 61
Select one course from the following: A Sci 121A, 131A, 151, 161
Addlitionall requirements
Upper-division writing skills
Basic Animal Science Option
Micro 20; Chem 8, 109, 150;
Ag Ec 76 or Plant 12
Dairy Science Option
A Sci 146, 165, 194; D Ind 103 or 143, 153; Ag Ec 76 or Plant 12; Ag Ec 110N or 117 or 120

ProductionManagementOption
Select 15 units from:
Ag Ec 28, 31, 76, 110N or 117 or $120,130,160$

Electives
Courses supplementary to the major are strongly recommended.
Totall mimimuman requirements ... 128
(including 40 upper-division units)

## Advising Notes

1. New students should request an option check sheet from the department.
2. All students should make an appointment with their assigned faculty adviser prior to registration each semester.
3. $C R / N C$ grading is not permitted for courses included in the major unless the courses have been designated $C R / N C$ grading only.
4. The General Education units of 51 may be exceeded depending upon the selection of courses.
5. Upper-division units (i.e., 100 -level courses) may not be applied toward the 40 upper-division unit degree requirement until 45 units have been completed.
6. Some General Education courses in CORE and BREADTH may be double counted to simultaneously satisfy Major as well as General Education requirements.
7. The upper-division writing skills requirement can be met by passing the university examination (UDWE) or by taking an approved upper-division writing skills course only after 56 units are completed. One unit of credit in Engl 100W may be earned for passing the exam if requested by the student; three to four units of credit will be earned by obtaining a letter grade of $C$ or higher in an approved course.
8. One semester prior to graduation make an appointment with your faculty adviser to prepare an official Certification of Major Requirements form.
9. Preveterinary medicine students should consult their faculty adviser regarding entrance requirements and admissions procedures to the School of Veterinary Medicine, University of California, Davis. Total number of units will exceed 128 if a student chooses to meet all of the UC Davis School of Veterinary Medicine entrance requirements.

## Advising Notes

1. See advising notes $1-8$ following animal sciences major.
2. Teacher preparation majors seeking a Single Subject Teaching Credential are urged to take the Upper-Division Writing Examination (UDWE) at least once. Those who pass the examination may receive one unit of credit. (For details consult the Office of Testing Services.)
3. Contact the Admissions Office of the School of Education and Human Development for requirements related to the California Basic Educational Skills Test (CBEST).
4. Agriculture courses titled Tours or Lectures may be used to satisfy upper-division unit requirements but may not be
counted to satisfy agricultural education core or specialized field requirements in the major.
5. Candidates for the Agriculture Specialist Credential must possess 3,000 hours or two years of occupational experience in agriculture. (For details, consult the agricultural education credentialing coordinator.)
6. Agricultural communications students must take and pass the Language Qualification Examination. A screening examination administered by the Journalism Department must be passed before permission is given for enrollment in Jour 8 and in most of the other journalism writing and editing courses. (See prerequisites for each course before attempting to enroll.) Students who do not pass the Language Qualification Examination may retake it the following semester.

## Single Subject <br> Credential Waiver Program

Completion of the Bachelor of Science degree in Agricultural Education meets the requirements of the Single Subject Waiver Program. The Single Subject Credential authorizes the holder to teach general agriculture in grades 7-12. Students with a B.S. degree in another agricultural major may obtain a Single Subject Credential by completing the remaining coursework required for the B.S. degree in Agricultural Education.
Credential candidates must pass examinations in reading, writing, and mathematics in addition to other numerous state of California and CSU, Fresno requirements. Consult the agricultural education major adviser and the School of Education and Human Development for details; file an official program of study.

## Agricultural Specialist <br> Credential Program

The Agricultural Specialist Credential, which authorizes holders to teach secondary school vocational agriculture, is offered jointly by the School of Agricultural Sciences and Technology and the School of Education and Human Development. It requires completion of the Single Subject Waiver Program (see above), professional education courses (see Education - Single Subject Credential - Program Requirements, Professional Preparation), and an approved fifth-year program of 30 postgraduate units including Ag Ed 135, 150, 187, 189; EHD 155B; CTET 161; and Agri 280, 281.

## Animal Sciences Minor

This program is designed for agricultural business majors. Students in other majors who desire additional technical and animal management skills may also opt for this minor. Additional livestock knowledge and experience will help the manager or consultant relate to and communicate with employees or clients.
Students should consult with a faculty adviser in the Animal Sciences Department to plan the minor. The adviser and department chair must approve the minor program before it can be certified by the school dean. It is then filed with the Evaluations Office and recorded on the transcript.

A Minor in Animal Sciences consists of a minimum of 21 units. Nine of the units must be upper division.

## Units

## Core Requirements

Intro Animal Sciences: A Sci 1 .............. 3
Livestock Evaluation: A Sci 11 ............... 3
Animal Nutrition: A Sci 35 ................... 3
Farm Animal Environment: A Sci 101.. 3

## Focus Areas

Animal Science Principles ................. 3-6
Production and Management ...........3-6
Total21

## Advising Notes

1. Obtain Animal Sciences Minor advising sheet from a faculty adviser for selection of courses in each of the focus areas.
2. Courses in a major cannot be applied toward a minor unless designated as additional requirements.
3. All courses in the minor must be taken for a letter grade. $C R / N C$ grading is not acceptable.
4. A minor may be earned only at the time a student earns the first baccalaureate degree.

## Master of Science <br> Degree Progiram

The Master of Science in Agriculture with an option in animal science is a 30 -unit degree program designed to extend professional competence in agricultural research, agricultural production, and agricultural teaching, and to provide the first graduate degree for students anticipating advanced graduate work in the agricultural sciences. Coursework in animal science includes animal nutrition, meats, physiology, breeding and genetics, management, and health. Full-time graduate students may earn the degree
within two years when working closely with an adviser. To accommodate parttime students, graduate courses are offered in the late afternoon or evening.
Admission Requirements. The Master of Science in Agriculture with an option in animal science assumes preparation equivalent to a Bachelor of Science in Agriculture with an animal science major. Students who have not completed a Bachelor of Science degree in Agriculture (animal science major) are expected to have completed the following courses or their equivalents prior to enrollment in courses to be applied to the master's program: Chem 1A or 3A; Chem 8; Zool 10; A Sci 35, $125,135,145 \mathrm{~A}, 155,165$ or 166 , and two animal science production-type courses.
Admission by the university does not imply acceptance in the Master of Science in Agriculture program. Separate application must be made to the School of Agricultural Sciences and Technology.

Applicants whose preparatory education was principally in a language other than English must earn a minimum TOEFL score of 550 .
Applicants to the master's program are required to possess a Bachelor of Science in Agriculture (animal science major) from an accredited institution, achieve a 450V/ 430Q GRE score or 880 combined score, have a 2.75 GPA on the last 60 semester units, make separate application to the School of Agricultural Sciences and Technology, and submit a statement of 500 words or less, and three letters of reference.
Prerequisite Requirements. Plant 99 or Math 101 is required.

## Program Requirements

The student, under the direction of a graduate adviser, prepares and submits a coherent program individually designed within the following framework:

## Units

Core ...................................................... 9
Agri 200, 201, 220
Required Courses ................................... 14
Agri $260(1+1)$; and select 12 units from the following: Agri 240T, 241, 242, 243, 244, 245, 246, 247, 248
Electives .
.. 3
Chem 150 or approved 100-200 level course
Culminating Experience .. 4
Agri 299
Total minimum requirements .30

## Graduate Advising Notes

1. Several of the 200-level and approved elective courses have prerequisites other than courses listed as admission requirements.
2. Students must request specific information concerning the Master of Science program from the department office.
3. Upon admission, students should see the graduate coordinator for aid in program planning, selection of graduate adviser, and selection of a thesis committee.
4. To progress through the graduate program, the student must:
a. Maintain a minimum 3.0 GPA
b. Completeall prerequisite coursework
c. Attain classified standing
d. Meet university writing requirement
e. File for advancement to candidacy
f. Pass the departmental qualifying examination
g. Complete the program requirements
h. File a master thesis committee assignment form
i. Formally present and defend the thesis research results
5. Advancement to candidacy requires the completion of 9 program units in residence (minimum GPA of 3.0 ), meeting the university writing skills requirement, departmental requirements, and filing a petition for advancement to candidacy a minimum of one semester prior to enrollment in thesis and within the deadline.
6. The student shall meet the university writing requirement by earning a minimum of 450 verbal on the GRE. If a minimum of 450 verbal is not met by a student, the student shall meet the requirement by then earning a score of 80 or higher in the writing competency examination or by earning a $\boldsymbol{B}$ or better in a designated $W$ course to be specified by the graduate committee of the School of Agricultural Sciences and Technology.
7. The student may apply a maximum of 2 units of independent study to the master's program.
8. See Division of Graduate Studies and Research in this catalog for university requirements.

## COURSES

Note: Active immunization against tetanus (available through Student Health Services) is a prerequisite for registration in any laboratory course in agriculture and for any student employment on the University Farm.
Note: Cost to the student of extended field trips varies each semester depending upon itinerary. The student should ask the course instructor.

## Animal Science Principles (A Sci)

1. Introduction to Animal Science (3) Overview of the livestock and poultry industry; types and breeds, world distributions, foods and products from farm animals, reproduction, genetics, nutrition, and marketing. (Former A Sci 10 and 10L)

## 35. Feeds and Feeding (3)

Prerequisite: Chem 3A. Recommended concurrent enrollment in A Sci 36. Principles of nutrition; nutrients and their metabolism; comparison of qualitative nutrient requirements of non-ruminant and ruminant animals and formulating diets to meet these requirements.
36. Feeds and Feeding Lab (1)

Prerequisite: A Sci 35 (or concurrently). Laboratory principles involved with nutrition, digestion, and diet formulation. (3 lab hours)
65A. Introduction to Animal Health (3) The stockman's approach to animal health and disease control in domestic animals. Classification of animal diseases, their causes and appropriate treatments with emphasis on preventative medicine. (2 lecture, 3 lab hours)

## 101. Environmental

Management of Farm Animals (3)
Prerequisite: A Sci 1. Basic principles of environmental management as applied to domestic farm animals. Special emphasis given to animal behavior, animal welfare, and animal performance. The optimal animal environment will be studied in detail.
125. Principles of Animal Breeding (3) Prerequisite: A Sci 1. Genetic principles and application to livestock production; basic inheritance, qualitative genetics, variation in economic traits of livestock, quantitative inheritance, selection progress; current methods of genetic livestock improvement.
135. Animal Nutrition (3)

Prerequisite: A Sci 35 . Principles of nutrition and metabolism; digestive physiology of farm animals.

## 145A. Anatomy and

Physiology of Farm Animals (3)
Prerequisite: Biol 10 or Zool 1 or 10. General structures of farm animals and physiological functions of organs in the animal body.

## 146. Physiology of Lactation (3)

Fundamentals of anatomy, physiology, and endocrinology of milk synthesis and secretion; milking machine systems and management; pathological and environmental factors affecting lactation.
155. Animal Reproduction (3)

Prerequisite: A Sci 145A. Principles of reproductive physiology, associated endocrine hormones, and their application to domestic animals.
156. Artificial

Insemination - Embryo Transfer (1)
Prerequisite: A Sci 145A, 155 (or concurrently). Basic principles of artificial insemination and embryo transfer with emphasis on application to cattle. (3 lab hours)
163. Dairy Cattle Nutrition (3)

Prerequisite: A Sci 135. Principles of dairy cattle nutrition. Nutritional requirements of the dairy calf through the mature cow. Special emphasis on computerized diet formulation and feed inventory control. (Former A Sci 185 T section)

## 165. Infectious Diseases

of Domestic Animals (4)
Prerequisite: Biol 10 or Zool 1 or 10. Microbiological concepts related to bacterial, viral, and fungal diseases in domestic animals with emphasis on specific diseases of veterinary importance. (3 lecture, 3 lab hours)
166. Parasitology (4)

Prerequisite: college zoology. A study of the general biology of symbiotic organisms of animals and man; including life cycles, infection and disease processes, physiology, and treatment. Laboratory emphasis of biological processes, parasite identification, and diagnosis. (3 lecture, 3 lab hours)

## Production and Management (A Sci)

## 11. Livestock Selection

and Evaluation (3)
Prerequisite: A Sci 1 (or concurrently). Basic factors involved in selection and evaluation of livestock; relationships of
live market animal traits to carcass cutability and quality. (2 lecture, 3 lab hours)

## 21. Beef Cattle Production (3)

Prerequisite: A Sci 1 (or concurrently). Overview of world and United States beef production. Evaluation of the structure of the beef industry (consumer, packer, retailer, feedlot, seedstock, commercial cow-calf, stocker). Discussion of genetics, nutrition, reproduction, and meat science as applied to beef cattle. (2 lecture, 3 lab hours)
31. Swine Production (3)

Prerequisite: A Sci 1 (or concurrently). Management principles and practices of purebred and commercial pork production. Nutrition, reproduction, environmental management, health, marketing, selection, and records are studied. (2 lecture, 3 lab hours; field trips)
41. Sheep Production (3)

Prerequisite: A Sci 1 (or concurrently). Management of purebred, commercial, and small farm flocks; principles and practices in breeding, feeding, care of ewes and lambs, and marketing of lamb and wool. (2 lecture, 3 lab hours)

## 51. Horse Production (3)

Prerequisite: A Sci 1 (or concurrently). Not open to students with credit in A Sci 152A. Breeds selection, care, and feeding of light horses. (2 lecture, 3 lab hours)
52. Beginning English Equitation (2) Basic horsemanship skills including haltering, grooming, saddling, and bridling; beginning English riding skills including proper body position at the walk, trot, and canter and simple use of aids to cue the horse; basic care of horse. (Two 2-hour activities) (Course fee, $\$ 75-\$ 150$ ) (Former A Sci 185T section)
53. Intermediate English Equitation (2) Prerequisite: A Sci 52 or equivalent. Development of a functional position to control and balance the horse at all three gaits (hunt seat style); beginning jumping; care and use of tack and equipment. (Two 2hour activities) (Course fee, $\$ 75-\$ 150$ ) (Former A Sci 185T section)

## 54. Beginning

Western Horsemanship (2)
Basic horsemanship skills including haltering, grooming, saddling, and bridling; beginning Western riding skills at the walk, jog, and lope and simple use of aids to cue the horse. (Two 2-hour activities) (Course fee, \$75-\$150) (Former A Sci 185T section)

National coverage was just a "Red Wave" away when members of CSUF's Dairy Club gave a hearty "Good Morning" to America.

## 55. Intermediate <br> Western Horsemanship (2)

Prerequisite: A Sci 54 or equivalent. Western horsemanship skills to control and balance the horse at all three gaits and to perform other movements basic to the Western horse; care and use of tack and equipment. (Two 2-hour activities) (Course fee, $\$ 75-\$ 150$ ) (Former A Sci 185 T section)
61. Dairy Cattle Production (3)

Prerequisite: A Sci 1 (or concurrently). Principles and practices of milking, feeding, breeding, evaluating, housing, health, behavior, and management of dairy cattle. (2 lecture, 3 lab hours)

## 81. Introduction to Livestock and Dairy Evaluation (3)

Introductory course in evaluating livestock for breeding and market purposes. Utilizes visual and performance data in establishing the economic value of animals representing the beef, sheep, swine, dairy, and horse industries. (2lecture, 3 lab hours) (Former A Sci 185 T section)
121A. Advanced Beef Management (4) Prerequisite: A Sci 21 . Prevailing and alternative management systems and techniques of beef production in the United States and California including economic analysis. (3 lecture, 3 lab hours)

131A. Advanced Swine Management (4) Prerequisite: A Sci 31. A comprehensive study of the swine industry. Laboratory exercises designed to improve the management decision ability of students. (3 lecture, 3 lab hours; field trips)
151. Advanced Horse Management (3) Prerequisite: A Sci 51. Advanced principles of horse management, reproduction, breeding systems, nutrition, facilities, business aspects, exercise physiology, training colts. (2 lecture, 3 lab hours)
161. Advanced Dairy

Farm Management (4)
Prerequisite: A Sci 61. Planning the development and operation of a complete
modern dairy production unit, including all costs and managerial responsibilities required for a successful operation. (3 lecture, 2 lab hours; field trips)
171A. Meat Science (3)
Prerequisite: A Sci 1 (or concurrently). Basic meats course; inspection, factors that affect quality and quantity of meat; selection and preparation of meats and meat products. Two lab sections offered: Lab A includes slaughtering and processing; Lab B is consumer oriented processing without slaughtering. (2lecture, 3 lab hours)
172. Meat Technology (3) Prerequisite: A Sci 171A. Fabricating and pricing of wholesale and retail meats; technology of fresh and processed meat; sausage manufacturing; quality control. (2 lecture, 3 lab hours)

## Special Topics and Industry Relations (A Sci)

180. Undergraduate Research
(1-4; max total 4)
Open to juniors and seniors. Exploratory work on a suitable agricultural problem in animal science. Approved for $\boldsymbol{S P}$ grading.

## 181. Advanced Livestock and

Dairy Evaluation (3; max total 6)
Prerequisite: A Sci 11 or 81 or permission of instructor. Detailed analysis of animal form related to functional efficiency, economic value, and sound livestock production management. Written and oral defense of judgments (dairy, horse, livestock, meats). (2 lecture, 3 lab hours; field trips)
182. Fitting and Showing

Livestock (1-2; max total 4)
Development of skills in the fitting and showing of beef, sheep, swine, dairy, and horse animals; discussion, demonstration, and participation in the application of basic skills. Students may elect one or more species. (2 lab hours per unit)
183. Animal Science Tour

## (2; max total 4)

A field study tour of animal science enterprises including ranches, processing plants, and facilities at other universities. Approved for $\boldsymbol{S P}$ grading. (Field trip fee, \$70 to \$75)

185T. Topics in Animal Science (1-4; max total 4 per discipline if no topic repeated)
Prerequisite: junior standing, permission of instructor. Anatomy, physiology, pathology, nutrition, genetics, livestock management. Topics may require labs.
115. FFA Activities (2; max total 4)

Organization and administration of various FFA activities. Parliamentary procedure andmeeting organization; committee work and structure. (Former Ag Ed 160T section)

## 135. Introduction to

Agricultural Education (3)
Survey of agricultural education in California, including qualifications for teaching agriculture, structure and content of vocational agriculture programs. Supervision of vocational youth organizations.

## 150. Agricultural Resources

 and Computer Applications (3) Prerequisite: junior standing. Development and application of techniques for obtaining and using186. Animal Science Seminar (1)

Open to seniors majoring in animal science. Latest developments in research; assigned papers in animal science to be presented in both oral and written form.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
194. Agricultural Internship
(1-8; max total 8)
Prerequisite: junior or senior standing and approval of internship committee. Emphasis on development of decisionmaking ability through industrial experience integrated with basic principles acquired in the classroom. $C R / N C$ grading only.
196. Enterprise Management
(1; max total 6)
Prerequisite: AET 3; A Sci 21, 31, or 41; or permission of instructor; concurrent participation in project program required. Theory and field application of management principles in beef, sheep, swine, and other appropriate animal science enterprises.

## Agricultural Education (Ag Ed)

80. Undergraduate Research
(1-4; max total 4)
Open to freshmen and sophomores with permission of instructor. Exploratory work on a suitable agricultural problem in agricultural education. Approved for $\boldsymbol{S P}$ Prading.
resource materials including government documents, university and experiment station reports. Development of basic computer skills utilized in agricultural education. (2 lecture, 2 lab hours)
160T. Topics in Agriculture
(1-4; max total 6 per discipline
if no topic repeated)
Prerequisite: junior standing, permission of instructor. Agricultural education. Topics may require lab hours.

## 180. Undergraduate Research

(1-4; max total 4)
Open to juniors or seniors with permission of instructor. Exploratory work on a suitable agricultural problem in agricultural education. Approved for $\boldsymbol{S P}$ grading.

## 187. Organization,

Administration, and Supervision of Agricultural Education (3)
Prerequisite: senior standing. A study of the California and federal plans for vocational education as they pertain to agricultural education.

## 189. Education in

Agricultural Mechanics (3)
Prerequisite: junior standing. Strategies for organizing, teaching, and administering educational programs in agricultural mechanics for youth and adults.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading.

## GRADUATE COURSES

The following courses are open to students who have been accepted into the graduate program. Students who are not in graduate standing should contact the department graduate coordinator prior to enrolling.

## Agriculture (Agri)

200. Biometrics in Agriculture (3)

Prerequisite: Math 101 or Plant 99, permission of instructor. Advanced concepts in the design of agricultural experiments. Emphasis is placed on the selection of appropriate designs to meet the objectives of well-planned experiments. Relative merits of various designs and topics in analysis, interpretation, and regression are covered.

## 201. Agricultural

Laboratory Techniques (3)
Prerequisite: One of the following courses: Bot 104; Chem 105, 109, 151; Enol 115 or FScN 130. Agricultural problem solving through the application of advances in laboratory technology, crop management, foods, nutrition, soil and water quality. Theory and practice operation of scientific instruments and techniques are taught. Student-defined project and report required. (2 lecture, 3 lab hours) (Former Agri 250T section)

## 220. Research

Communications in Agriculture (3)
Prerequisite: completion of university writing skills requirement. Emphasis on critical literature review, scientific writing, and oral presentation of research results. Approved for $S P$ grading.

## 240T. Topics in Animal Science

(3; max total 12)
Prerequisite: upper-division animal science appropriate to study topic; permission of instructor. Investigation of topic in animal science; anatomy, physiology, pathology, nutrition, genetics, or economics. Topics may require lab hours.

## 241. Endocrine and

Reproductive Physiology (3)
Prerequisite: A Sci 155. Physiology which deals with neural and hormonal integration and control of the animal body,
including scientific aspects of the processes of reproduction and application of current knowledge in improving reproductive efficiency.

## 242. Environmental Physiology

 of Domestic Animals (3)Prerequisite: A Sci 145A; permission of instructor. A study of environmental factors affecting domestic animals under field and controlled conditions.

## 243. Metabolism and

Energy Physiology (3)
Prerequisite: Chem 8. Current aspects of the integral processes involved in metabolism and energy physiology of laboratory and farm animals. Application of the principles concerned in intermediary metabolism. Selected readings in the current literature within the field.
244. Vitamin and Mineral Nutrition (3) Prerequisite: A Sci 135. A survey of the biochemical and physiological importance of vitamins and minerals in the nutrition of man and his animals. Included is the diagnosis, prevention, and treatment of both vitamin and mineral deficiencies.
245. Advanced Animal Breeding (3)

Prerequisite: A Sci 125, 155; permission of instructor. The application of genetic principles to the breeding of livestock. The study of applied selection and measurements of the results.
246. Ruminant Nutrition (3)

Prerequisite: A Sci 135, Chem 150. Ruminant physiology of digestion, absorption, and metabolism and nutrients, and the relationship of enzymes and hormones.

## 247. Concepts in

## Non-Ruminant Nutrition (3)

Prerequisite: A Sci 135 or equivalent, graduate standing or consent of instructor. Digestion, absorption, nutrient utilization, and interrelationships in poultry, swine, and other non-ruminants. (Former Agri 240T section)

## 248. Meat Science

and Muscle Biology (3)
Prerequisite: A Sci 171 A , graduate standing or consent of instructor. Evaluation of muscle as meat; biological characteristics, growth and development of skeletal muscle, glycogen metabolism, and factors affecting quality of meat.

## 260. Seminar in

Animal Science (1; max total 2)
Prerequisite: permission of instructor. Written and oral reports on selected areas of research on problems in animal science.

## 280. Seminar in

## Agricultural Education

(1-3; max see below)
Maximum total credit 9 units in any given area or any combination of the three areas. Prerequisite: permission of instructor; admission to teacher preparation program; bachelor's degree in agriculture. Advanced problems in agriculture; research and experimentation in a selected area: animal science, plant science, or agricultural mechanics. Approved for $S P$ grading.

## 281. Problems in

Agricultural Education
(1-3; max total 3)
Prerequisite: graduate standing. Individual supervised research in agricultural education; appropriate reports and evaluation required. Individual conferences.

## 290. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading.
299. Thesis (2-4; max total 4)

Prerequisite: See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for $\boldsymbol{S P}$ grading.

## IN-SERVICE COURSE

(See Course Numbering System.)

## Agriculture (Agri)

300. Topics in Agriculture (1-3)

Topics may require lab hours. In-service professional training in selected areas of agriculture.

## AGRICULTURE Child, Family, and Consumer Sciences

School of Agricultural Sciences and Technology
Department of Child, Family, and Consumer Sciences
NINA J. DILBECK, Chair Art-Home Economics Building, Room 204
(209) 278-2283
B.A. in Home Economics
M.S. in Home Economics

Minor in Home Economics
Programs of study:
Child and Family Studies
Clothing and Textiles
Consumer Science and Housing
Fashion Merchandising
Foods in Business
General Home Economics
Home Economics Teacher Education

oin the leader in science, technology, and management. The Department of Child, Family, and Consumer Sciences is housed in the Art-Home Economics Building on the west side of the campus. Two well-equipped laboratory rooms as well as several showcases facilitate learning for students in the clothing and textiles, fashion merchandising area. The consumer science and housing students utilize laboratory facilities for demonstration of household equipment.
Day care facilities for the infant-toddler laboratory, preschool laboratory, and after school children are maintained for instructional purposes. Students plan, implement, and evaluate activities for the children. Computer facilities are also available in the building. The laboratories also service other departments on campus who use these facilities for observational purposes.

## Career Opportunities

Career opportunities for home economists are available in the concentrations of child and family studies, clothing and textiles, fashion merchandising, foods in business, consumer science and housing, general home economics, and home economics teacher education. Students may qualify for these career opportunities by selecting appropriate electives in their special area of interest. Students must consult with a departmental academic adviser in selecting appropriate courses for their special areas of interest.

Appropriate selection of courses offered in the concentrations listed below provide the necessary background to prepare students for careers as home economists.
Child and Family Studies. Courses focus on individual and family development through the life cycle with analysis of the forces affecting personal and family development and relationships. Career possibilities include: elementary teacher (this requires a credential), child care consultant, child advocate, administrator of family services, and child care program administrator.
Clothing and Textiles. Courses prepare students for careers such as textiles technician, product and research evaluator, product promoter, industry or trade association representative, museum costume curator, textile conservator, space program consultant, and cooperative extension agent.

## Consumer Science and Housing.

Courses focus on the family as a social and economic unit and prepare students for careers as consumer affairs professionals with banks and finance companies, home service advisers, consumer representatives in business and consumer relations specialists. Other opportunities include work in product testing and research, debt counseling, government
agencies, cooperative extension, communications, and equipment consultant services.
Fashion Merchandising. Courses focus on the many facets of the apparel industry, display techniques, social and psychological aspects of clothing, clothing construction, and fashion analysis, as well as practical application through working in the industry. Computer-aided design is utilized in teaching merchandising and design principles. Career opportunities are found in retail, wholesale, and private apparel industries.
Foods in Business. Courses prepare students for careers as sales representatives for manufacturers of cookware and kitchen appliances, menu consultants, managers of food services, food brokers, food stylists, food editors, spokespersons, or market researchers.
General Home Economics. Courses prepare students for such careers as Cooperative Extension Service agents or specialists, and 4 -H youth agents.
Home Economics Teacher Education. Courses under the credential program focus on the preparation of teachers, who will teach in public schools and professionals who will serve as consultants in business and government.

## Faculty

Nina J. Dilbeck, Chair
Coordinators:
Carolyn B. Jackson, Graduate
Dianne K. Dickerson, Clothing and
Textiles; Fashion Merchandising
William R. Fasse, Consumer Science and Housing
Richard D. Berrett, Child and Family Studies
Elena F. Kissick, Foods in Business
To be appointed, Home Economics
Education
Shirley J. Bowden Eugene Wm. Krebs N. Joanne Caid David E. Goldbloom
Frances H. Harkins Judith L. Kuipers Vivian Y.
Kunimitsu Michele M. Kilner William C. Rice

The faculty members are highly qualified professionals with advanced degrees from universities across the nation. They bring practical insights and experience to the classroom through local and national professional activities: owning and directing child development centers, operating counseling centers, consulting, serving on advisory boards, and participating in workshops. Students find departmental faculty vitally helpful in guiding them through their academic experience as well as helping them pursue career goals.

## Bachelor of Arts

Degree Requirements

(including 9 upper-division
units, after completing 56
units of coursework)

## CORE

Category 2: Spch 3 (recommended)
Category 3: Psych 42 or Math 11 (recommended for Child and Family Studies)

## BREADTH

Division 1: Chem 3A (required for Clothing and Textiles, Foods in Business, and Home Economics Teacher Education) Chem 3B (recommended for Child and Family Studies)
Division 2: Zool 10 (recommended for Child and Family Studies) Biol 10 (required for Home Economics Teacher Education, Foods in Business, Clothing and Textiles, and Child and Family Studies)
Division 3: Psych 10 (required for Home Economics Teacher Edu-
cation, Foods in Business, and Clothing and Textiles)
Division 4: FScN 53 or CFS 38 (recommended); H S 124, Psych 132 or Psych 171 (recommended for Child and Family Studies)
Division 8: Soc 2 (recommended for Child and Family Studies)
Ag Ec 1 (required for Clothing and Textiles, Consumer Science, Foods in Business, Fashion Merchandising, and Home Economics Teacher Education)

## CAPSTONE

Juveniles and Adolescence Cluster (recommended): Crim 120 and CFS
136 (recommended) or Psych 102
Major
(including 24 upper-division units)
Department Core $\qquad$
H Ec 1; and select one course from each area: CFS 108 or 131; F M 20 (required for Clothing and Textiles and Fashion Merchandizing) or 120; CSH 105 or 113; FScN 50, 53, or 54; GID 70, 107 or CSH 116 (Note: H Ec 1, F M 20, FScN 54, GID 70, CSH 113 or 115, and CFS 131 required for Home Economics Teacher Education)
Career Specialty
Select one:
Child and Family Studies CFS 32, 37, 39, 131, (if not taken in the core), 133, 134, 135 , and $9-12$ upper-division units in consultation with adviser
Clothing and Textiles CSH 105, GID 70 (if not taken in the core); F M 22, 24, 26, 120, 121, 123, 124, 126, and 2-8 upper-division units in consultation with adviser
Consumer Science
and Housing
CSH 105 (if not taken in the core), 110, 111, 113, 114, 115, $116,117,118$, and $3-6$ upperdivision units in consultation with adviser
Fashion Merchandising F M 22, 24 or $26,120,124$, 126, 127, 128, 129 (F M 20, CSH 113, GID 107, if not taken in core); and 2-8 up-per-division units in consultation with adviser

## Foods in Business

FScN48, FScN50 (if not taken in core), FScN 53 or FScN 54 (if not taken in core); FScN 131 or $132,150,151,133$ or CSH 114; FScN 160, 169, and 5-6 upper-division units in consultation with adviser
General Home Economics
Minimum 6 units from each discipline: CFS, CSH, F M, FScN, GID (selection of courses in consultation with adviser)
Home Economics
Teacher Education
(See Single Subject Credential
Waiver Program below)
Addlitionall requuirements .......... 1-21
Upper-division writing skills
(by examination or course) Clothing and Textiles Chem 3B
Consumer Science
and Housing
Econ 40 or Ag Ec 1, and Econ 50 or Ag Ec 2
Fashion Merchandising
Acct 3 or 4 A , Econ 40 or Ag Ec 1, and Econ 50, Mgt 104 or 106 or 110, Mktg 100, 130, 138
Foods in Business
Acct 4A, Chem 8, Mktg 100, 132 or 138; Mgt 104
Electives
Courses supplementary to the ma-
jor are strongly recommended.
Totall requirrements ......................
(including 40 upper-division units)

## Single Subject

## Credential Waiver Program

Students who successfully complete the Single Subject Credential Waiver Program are not required to take the NTE (see Education - Curriculum, Teaching, and Educational Technology, General Requirements for Initial Admission and Requirements for Admission to Student Teaching). The Agriculture - Child, Family, and Consumer Sciences Single Subject Credential Waiver Program in home economics consists of Core: F M 24 or 26, 121, FScN 50, GID 107; CSH 114; CFS 136; Breadth: CSH 116, 117; CFS 135, 139; FScN 169. Additional requirements by the Commission on Teacher Credentialing include: H Ec 148, 241; CTET 101, 159, 161; ERF 151, 152; EHD 155A, 155B; LEE 156S; H S 121; and SPED 160.

## Advising Notes

1. New students should request a program of study check sheet from the department.
2. All students should make an appointment with an assigned academic adviser prior to registration each semester. Check with department for academic adviser assignment.
3. $C R / N C$ grading is not permitted in courses used to fulfill major requirements.
4. Upper-division units (i.e., 100 level courses) may not be applied toward the 40 upper-division unit degree requirement until 45 units have been completed.
5. Career objectives should be selected on basis of individual interest.
6. The upper-division writing skills requirement can be met by passing the university examination or by taking an approved upper-division writing skills course only after completion of 56 units. One unit of credit (i.e., English 100W) may be earned upon request for passing the examination; by obtaining a letter grade of $C$ in an approved course the student meets the university writing skills requirement.
7. General Education courses designated as required by the department are prerequisites to many courses in the program of study.
8. One semester prior to graduation make an appointment with an assigned academic adviser to prepare and file an official certification of major requirements.

## Bachelor of Science <br> in Chilld Development

The university offers an interdisciplinary major leading to the Bachelor of Science in Child Development. Information about this major is in the Special Programs section in this catalog.

## Home Economics Minor

A Minor in Home Economics consists of 21 units of which 9 must be upper division. At least 12 units must be taken in a particular department and/or discipline. The minor program must be certified by the department chair and the school dean. The certified minor program is filed with the university Office of Evaluations.

## Master of Science Degree Progiram

The Master of Science in Home Economics with an option in education is a 30-unit program designed to increase the competencies of secondary school teachers and other home economics related teachers for positions in two- and four-year colleges, and to provide the foundation that will qualify some to pursue the doctoral degree. Through appropriate choice of courses students may concentrate their programs of study in any one of the areas of home economics: child development and family relations, clothing and textiles, fashion merchandising, and consumer science and housing. Graduate courses are offered in the late afternoon or evening to accommodate part-time students. Full-time graduate students may earn their degree within two years when working closely with an adviser.
Admission Requirements. The Master of Science degree in Home Economics assumes preparation equivalent to a Bachelor of Arts degree in Home Economics.
Students who have not completed a Bachelor of Arts degree in Home Economics are expected to have completed the following prerequisite courses or their equivalents prior to enrollment in courses to be applied to the master's program:
H Ec 1, Contemporary Home Economics Select one course from each area:
CFS 38, 39, 108, 131;
CSH 105 or 113;
F M 20 or 120;
FScN 50, 53, or 54;
GID 70, 107 or CSH 116.
Admission by the university does not imply acceptance in the Master of Science in Home Economics program.
Applicants whose preparatory education was principally in a language other than English must earn a minimum TOEFL score of 550 .

Full classified standing requires a baccalaureate degree in home economics from an accredited institution; a 3.0 GPA (last 60 semester units); either a 450V/430Q GRE score or 880 combined score; completion of all prerequisite coursework; separate school application; three letters of reference, and a statement of 500 words or less.
Conditional classified standing may be granted by the department to petitioning applicants with a 2.5 to 3.0 GPA (last 60 units); GRE scores on file with the university Testing Office; separate school
application; three letters of reference, a statement of 500 words or less, and a maximum of 21 units of prerequisites (consult with your graduate coordinator for specific prerequisite foundation courses). Prerequisite coursework is not included in the 30 -unit master's program. Students must request full classified standing in the program by the semester in which a maximum of 10 units to be used toward the degree are completed.
Prerequisite Requirements. An introductory statistics course, such as Math 11, Soc 25 , or Psych 42.

## Program Requirements for Home Economics Education Option

The student, under the direction of a graduate adviser, prepares and submits a program individually designed within the following framework:

Units

Core
.9

H Ec 201, 241 and 243
Electives $\qquad$ 15
(in consultation with an adviser)
H Ec 200-series courses in a specialized area (3 units), 100-200 level ( 12 units) courses in home economics or related areas, with a maximum of 6 units at 100 level.
Culminating Experience $\qquad$
Project or Thesis: H Ec 298 or 299
Total minimum requirements $\overline{30}$

## Graduate Advising Notes

1. Several of the 200 -level and approved elective courses have prerequisites other than courses listed as admission requirements.
2. Students must request specific information concerning the Master of Science degree or program advising sheet from the department office.
3. Upon admission, students should see the department graduate coordinator for aid in program planning, selection of graduate adviser, and selection of a thesis committee.
4. To progress through the graduate program, students must:
a. Maintain a minimum of 3.0 GPA
b. Completeall prerequisite coursework
c. Attain classified standing
d. Meet university writing requirement
e. File for advancement to candidacy
f. Complete the program requirements
g. File a master thesis or project committee assignment form
h. Formally present and defend the thesis/project research results
5. Advancement to candidacy requires the completion of 9 program units in residence, minimum 3.0 GPA, meeting the university writing skills requirement and filing a Petition for Advancement to Candidacy a minimum of one semester prior to enrollment in thesis/project and within the deadline.
6. The student shall meet the university writing requirement by earning a minimum of 450 verbal on the GRE. If a minimum of 450 verbal is not met by a student, the student shall meet the requirement by then earning a score of 80 or higher in the writing competency examination or by earning a $\boldsymbol{B}$ or better in a designated $\mathbf{W}$ course to be specified by the graduate committee of the School of Agricultural Sciences and Technology.
7. See Division of Graduate Studies and Research in this catalog for university requirements.

## Master of Science <br> in Agricullture

Food Science and Nutrition (Dietetics). Students interested in dietetics are referred to the Department of Enology, Food Science, and Nutrition for the M.S. in Agriculture, Food Science, and Nutrition Option.

## COURSES

## General (HEC)

1. Contemporary Home Economics (3)

Home economics in America; past and present professional needs, successes and weaknesses; future of the field. Academic preparation for a variety of occupations; participation in the worlds of work, marriage, family, and community.

## 190. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading.
192. Readings and Conference (1-3)

Prerequisite: permission of instructor. Individually directed readings; reports and evaluation. (Hours arranged)

## 193. Cooperative Education <br> (1-6; max total 6)

Prerequisite: completion of at least 45 units, good academic standing and permission of the department. Combines
study with paid work experience in a supervised career-related position. Reports and conferences required. $C R / N C$ grading only.

## Consumer Science and Housing(CSH)

10. Management for Effective Living (3) Human relationships, housing, family finance, consumer problems, meal management and nutrition as they relate to individual and family living. (Former C S 10)
11. Decision Making
and Problem Solving (3)
Management concepts related to individual careers and family living. Analysis of values, goals, and standards and their relationship to decision making in the allocation of human and nonhuman resources with case studies in problem solving. (Former C S 105)
12. Consumer Buying Strategies (3)

Emphasis on consumer buying strategies, sources of information relevant to consumer decision making and the activities and problems of buying goods and services in the marketplace. (Former C S 110)

## 111. Household

Equipment and Energy Use (3)
Selection, methods of operation, specifications of household appliances; utilization of energy; energy conservation strategies; kitchen and utility planning. (2 lecture, 2 lab hours) (Former C S 111)

## 112T. Topics in Consumer

 Science and Management (1-4; max total 12 if no topic repeated)Current topics relating to consumers and home management; consumers in action (lobbying), financial counseling, product standards and safety, home ownership. Some topics may have labs. (Former C S 112T)
113. Economics for Consumers (3)

Prerequisite: Econ 50 recommended. Consumer spending related to social and psychological factors influencing consumers. Legislation that protects and relates to the consumer on local, state, and federal levels. (Former C S 113)
114. Consumer Science
and Family Studies Practicum (3)
Prerequisite: permission of instructor. Integrated field experience in various phases of home economics as they apply to consumer science and family studies. (6 lab hours) (Former C S 114)
115. Family Finance (3)

Financial activities of the individual and family; planned spending, bank services, consumer credit, insurance savings, investments, taxes; financial aspects of home ownership and estate planning. (Former C S 115)
116. Consumer Aspects of Home Ownership (3)
Emphasis on benefits and obligations of home ownership. Analysis of the consumer processes of selecting, buying, and maintaining a home. (Former HIE 116)
117. Resource Management of Aging (3) (Same as Geron 117.) The individual during the later stages of the life cycle with emphasis on the special problems of the elderly in management of personal and community resources. (Former C S 117)
118. Consumer and Family Law (3)

A "law-for-the-layman" course. Broad coverage of individual and family rights in the areas of domestic relations, marriage, divorce, parenting, abortion, consumer protection, property rights, liability, and court proceedings. (Former C S 118)
171. Housing and Society (3)

An analysis of housing alternatives for individuals, families, and special groups. Social, legal, and economic factors affecting the housing market. Special shelter considerations for the elderly, disabled, single parent, and shared households are explored in lecture and field trips. (2 lecture, 2 lab hours) (Former IDH 171 and C S 171)

## Fashion Merchandising (F M)

## 20. Beginning Textiles (3)

Fiber classification, yarn construction, fabric construction and production. Selection, use and care of fabrics in relation to consumer needs. (CAN H EC 6)

## 22. Fashion Analysis (1)

Factors influencing trends in dress. Selection of color, line, and form related to individual needs. (CAN H EC 20)
24. Clothing Construction I (3)

Pattern and fabric selection; basic construction techniques, use of commercial patterns; application of these factors to consumer buying. (6 lab hours) (CAN H EC 10)
26. Clothing Construction II (3)

Prerequisite: F M 24 or experience in clothing construction. Individualization
of basic and designer patterns: alteration principles; techniques of handling new fabrics. (6 lab hours)

## 120. Social and Psychological

Aspects of Clothing (3)
Prerequisite: F M 22. The psychological, social, and economic aspects of clothing as related to the individual, family, and society. An understanding of fashion, its development, and distribution.
121. Tailoring (3)

Prerequisite: F M 22 and 26. Tailoring a suit or coat using various techniques. (6 lab hours)
122T. Topics in Clothing and Textiles (1-4; max total 12 if no topic repeated)
Topics relating to clothing, textiles, and fashion merchandising. Some topics may have labs.
123. Pattern Design (3)

Prerequisite: F M 22 and 24 or 26. Application of pattern making methods to apparel design. Computer-aided design (CAD) skills as applied to pattern making. (6 lab hours)
124. Textile Finishing (3)

Prerequisite: F M 20. Finishing, dyeing and printing techniques, material and equipment. Evaluation through standard laboratory tests. (2 lecture, 2 lab hours)
126. History of Costume (3)

Important periods of costume; their relationship to political, social, and economic conditions of the times and their importance in evolution and inspiration of modern dress.
127. Fashion Merchandising (3)

Prerequisite: F M 20, 22; GID 107. Aspects of fashion marketing and fashion related careers. Computer application as applied to store layout and merchandising. Resource personnel and field trips. (2 lecture, 2 lab hours)
128. Fashion Display Techniques (3)

Prerequisite: F M 127. Design fundamentals applied to the aesthetic arrangement of promotional and institutional displays in the retail store. Resource personnel and local field trips. (2 lecture, 2 lab hours)

## 129. Fashion Merchandising

Practicum (3; max total 6)
Prerequisite: F M 127, senior standing. Integrated field experience in various areas of fashion merchandising.

## 130. Fashion Study Tours (3)

An in-depth study of industrial, retail, and wholesale sites in California. Field experiences are included to ensure optimum
learning opportunities. (1 lecture, 4 lab hours) (Course fee, \$130)
131. Fashion Entrepreneurship (2) Prerequisite: F M 127. Investigation of start-up procedures, location, financing, supplies, legal implications, target customers, record keeping, promotion, and customer relations are covered. (Former F M 122T section)
132. Textile Care (3)

Prerequisite: F M 124. The technology of home laundry, laundry aids and equipment, dry cleaning, and commercial laundry. Care methods for apparel, furs, upholstery, and carpet are investigated. Industry resource personnel and field trips. (Former F M 122T section)

## 133. Textile/Apparel Economics (3)

Prerequisite: F M 20, Econ 40 (recommended). Organization and development of the textile and apparel industries. Aspects of production, consumption, and international trade. Analysis of current problems facing theindustry and industry's response. (Former F M 122T section)

## Child and Family Studies (CFS)

## 32. Intimate

Interpersonal Relationships (3)
Analysis of various motivations for intimate relationships, including those which lead to marriage; attitudes, values, and behaviors are examined using the interactional framework.

## 37. Introductory

Child Development Practicum (3)
Observation and interaction with the young child in a laboratory setting. Utilize a case study to focus on the child's growth and development to gain an understanding of his or her relationship to family, peers, and adults. (2 lecture, 3 lab hours)
38. Life Span Development (3)

A balanced study of basic theories, research, applications, and principles of physical, cognitive, and psychosocial development from conception to death, presented in an integrated manner; includes behavior, sexuality, nutrition, health, stress, environmental relationships and implications of death and dying. General Education BREADTH, Division 4.
39. Child Development (3)

Physical, intellectual, social, and emotional development of the child from conception through adolescence, in the cultural context of the family approached from an interdisciplinary perspective. (CAN H EC 14)

## 108. The Individual

and Family Interaction (3)
Individual and family development and interaction, diversity of family life styles and forces that influence family relationships and the quality of life are studied within the family context.

## 131. Family Relationships (3)

Marital and family dynamics are explored within the context of family theories. Topics include love, mate selection, sexuality, communication patterns, parenthood, and dissolution.
132T. Topics in Child Development and Family Relationships (1-4; max total 12 if no topic repeated)
Prerequisite: CFS 39 and/or 131. Topics relating to child development and family relationships. Some topics may have labs.
133. Children and Family Crises (3)

Prerequisite: CFS 39 and 131. Crises experienced by children and their families; child abuse, separation, dissolution, divorce, remarriage, and the consequent formation of step-relationships, death, alcoholism, drug abuse, and living with a child with special needs included.
134. Cultural Aspects
of Child Rearing (3)
Prerequisite: CFS 39 and 131 or CFS 39 and Soc 165. Cultural and subcultural aspects of child rearing; survey of research studies and findings on cultural child-rearing attitudes and practices.

## 135. Contemporary Parenting (3)

Prerequisite: CFS 38, 39 or Psych 101 or permission of instructor. Examination and critique of several contemporary theories of effective adult-child relationships.
136. Middle Childhood
and Adolescence (3)
Prerequisite: CFS 39 or consent of instructor. Family influences on the physical, intellectual, social, and emotional development of children in middle childhood and adolescence. Emphasis on the search for identity, heterosexual development, vocational choice and interpersonal relations. General Education CAPSTONE Cluster.
137. Infant in the Family (3)

Prerequisite: CFS 39. A functional and theoretical study of the infant's physical, emotional, social and intellectual development during the first two years of life within the family. (2 lecture, 2 lab hours)
138. Program Plans for Children (3)

A study of the various types of organizations and the administration of programs for young children. Principles of administration and policies related to school organization including administrator's responsibilities, staffing, personnel policies, parent programs, curriculum, budgeting, housing, and equipment.
139. Child Development Practicum (3) Prerequisite: CFS 37. Assume the responsibility of a nursery school head teacher; plan learning episodes for the young child based on his or her needs, abilities and interests; work with parents and do diagnostic assessments of children. (2 lecture, 3 lab hours)

## Food Science and Nutrition (FScN)

Students interested in Foods in Business refer to the Department of Enology, Food Science, and Nutrition for course listing.

## Home Economics Education (HEc)

148. Occupational Home

Economics Program Planning (3)
Required for credential candidates. Individualized modules concerning the design, development, implementation, and evaluation of home economics related occupational programs.
149T. Topics in Home Economics Education (1-3; max total 12 if no topic repeated; max 3 in one area)
Topics include consumer science resources; organization and management of food and nutrition; clothing and textiles and fashion merchandising; housing and interior environment; child development and family relations. Some topics may have labs.

## GRADUATE COURSES

The following graduate courses are open only to students who have been accepted into a graduate program. Students who are not in graduate standing, should contact the graduate coordinator prior to enrolling.
Home Economics Education (H Ec)

## 201. Survey Home

Economics Research (3)
Examination of research in each area of home economics. Consideration of major ideas, trends, and movements in the field. (Former H Ec 242)

## 210T. Seminar in Consumer

 Science and Family Management(3; max total 12 if no topic repeated)
Prerequisite: permission of instructor. Analytical study of problems pertaining to identifiable segments of the populace; intercultural, socioeconomic, age level and ethnic and community groups. Topics such as: aspects of aging, cultural aspects of management, home and community relationships, ergonomics - aspects of work simplification.

## 220T. Seminar in Clothing,

## Textiles, and Fashion Merchandising

(3; max total 6 if no topic repeated)
Prerequisite: permission of instructor. Research and analysis of historical material and contemporary developments in clothing, textiles, and fashion merchandising. Topics may include aspects of historical costume and textiles, technological developments in textiles, and trends in purveying fashion. Some topics may have labs.

## 230T. Seminar in Child <br> Development, Family Relations

(3; max total 12 if no topic repeated)
Prerequisite: permission of instructor. Research, methodology, and issues in family relationships and child development. Course considers seminars in the following: Fatherhood: The Parent Role; Family in Transition, Relational Patterns in Marriage and Family; The Family; Middle and Later Years. Some topics may have labs.

## 240T. Seminar in Home

## Economics Education

(3; max total 6 if no topic repeated) Prerequisite: permission of instructor. Applied research; current and future trends of the multilevel areas of home economics education. Topics include: curriculum development, administration, evaluation, and supervision in home economics; home economics in higher education; and incorporating business and industry in home economics. Some topics may have labs.
241. Seminar in Trends and Issues in Home Economics Education (3)
Prerequisite: permission of instructor. A study of the history and current status of home economics. An examination of trends and issues pertaining to child and family studies, clothing and textiles/fashion merchandising, consumer science and housing, food and nutrition, and interior design.
243. Research Methods
in Home Economics (3)
Prerequisite: H Ec 201 or equivalent; a statistics course, Math 11 or Soc 25 or equivalent; completion of the university writing skills requirement. Methods, techniques of research; locating and formulating problems; collection and interpretation of data; preparation of research paper; analysis of professional literature. (Former H Ec 200)
290. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $S P$ grading.
292. Readings in Home Economics (2-3; max total 6 if no topic repeated) Prerequisite: permission of instructor. Individually directed readings in a field of special concern to students in the graduate program; appropriate reports and evaluations required; individual conferences, no formal class meetings. Approved for $\boldsymbol{S P}$ grading.

## 298. Project (2-6; max total 6)

Prerequisite: prior advancement to candidacy. See Criteria for Thesis and Project. The project is a significant undertaking of an approved pursuit appropriate to the applied arts, e.g., extensive curriculum design, development of new consumer products, a survey of disappearing textile techniques or similar professional endeavors with written documentation. Abstract required. Approved for $S P$ grading.
299. Thesis (2-6; max total 6)

Prerequisite: prior advancement to candidacy; see Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for $\boldsymbol{S P}$ grading.

## IN-SERVICE COURSE

(See Course Numbering System.)

## Home Economics Education (H Ec)

380. Topics in Home Economics
(1-3; max total 9 if no area repeated)
Special problems in home management, foods and nutrition, child care, housing and home furnishings, textiles and clothing, household equipment, family finances, marriage, and the family.

## AGRICULTURE Enology, Food Science, and Nutrition

School of Agricultural Sciences and Technology<br>Department of Enology,<br>Food Science, and Nutrition<br>N. JOANNE CAID, Chair<br>Art-Home Economics Building,<br>Room 103<br>(209) 278-2164

## B.S. in Food and Nutritional Sciences

Options:
Dietetics and Food Administration
Enology
Food Science
Food Systems Management
Sports Nutrition
M.S. in Agriculture

Options:
Food Science and Nutrition
Agricultural Chemistry
Minor in Food and
Nutritional Sciences

$J$oin the leader in science, technology, and management. Students majoring within the Department of Enology, Food Science, and Nutrition are prepared for a wide range of professions in the food industry - the largest single industry in the United States. CSU, Fresno is centered in the greatest food production and processing area in the world.

Some of the largest and best wine, dairy, and food companies cooperate with CSU, Fresno to provide students with a view of commercial realities in this industry. There is strong demand for dietitians and nutritionists by the health care and foodservice industries. Courses in many other areas - such as chemistry, biochemistry, microbiology, business, and agricultural economics - may be used as electives to achieve individual professional goals.

## Instructional Facilities

The department facilities include the Enology Facility, Dairy Processing Plant, Food Preparation and Product Development Laboratories, and Computer Laboratory. These facilities are used by students and faculty to provide a practical education founded on science and technology.

## Career Opportunities

Graduates of the Department of Enology, Food Science, and Nutrition have enjoyed outstanding employment opportunities in the food industry. Historically, graduates have been placed in challenging positions with salary advancement and professional prestige envied by other industries throughout the free world. The following options are available:

## Dietetics and Food Administration.

Graduates are prepared for challenging and rewarding employment in dietetics, nutrition, and foodservice. Employment is always available in hospital dietetics, nutrition consulting, school and community nutrition, education, commercial and institutional foodservices. By completing the requirements for this option, students meet the American Dietetics Association Plan V requirements. Completion of an internship or approved program of study and registration exam is required to become a registered dietitian.
Enology. California is recognized, both nationally and internationally, as the foremost leader in enology. CSU, Fresno is one of only two universities in the United States that offers a full program of study in enology. Enology graduates have taken employment leading to top positions with prestigious wineries that are recognized as the finest in California and in the world.

Food Science. Graduates are prepared for an endless variety of employment opportunities in the food industry, including laboratory, food processing and production, and governmental roles. New product development, management, distribution, and field service opportunities are present in many scientific, technological, and business endeavors.

## Food Systems

Management. Graduates are employed by food preparation and foodservice industries. The intense public interest in all aspects of nutrition provides employment, challenge, and reward to food systems management graduates.
Sports Nutrition. Graduates are employed in fitness centers, wellness programs, and as consultants for sports programs. This innovative program reflects the increased awareness of the relation between nutrition and exercise.

## Faculty

N. Joanne Caid, Chair

Coordinators:
Barry H. Gump, Graduate; Agricultural
Chemistry; Food Science and Nutrition
Marie G. Dunford, Assistant Graduate;
Food Science and Nutrition
N. Joanne Caid, Nutrition and Dietetics Carlos J. Muller, Enology Program Director
Shirley J. Bowden Elena F. Kissick
David E. Goldbloom Fred S. Nury
The faculty continue to be recognized for quality hands-on education as well as scholarly contributions to their academic disciplines. Each student is assigned to a faculty adviser to maximize the educational experience at CSUF. The faculty are noted for cooperation and activity within each industry to prepare and place graduates in their chosen career.

## Bachelor of Science Degiree Requirements <br> Food and <br> Nutrititionall Sciences Major Units <br> Generall Education .51

## Advising Notes

1. New students should request an option check sheet from the department.
2. All students should make an appointment with an academic adviser prior to registration each semester.
3. $C R / N C$ grading is not permitted for courses included in the major. Work experience units for FScN 193, which is graded on a $C R / N C$ basis, is the only exception.
4. Upper-division units (i.e., $100-\mathrm{level}$ courses) may not apply toward the 40 upper-division unit degree requirement until 45 units have been completed.
5. The food and nutrition core should be completed no later than the end of the first semester of the junior year.
6. The career specialty in the major consists of 15 units of approved courses under either a formally recognized emphasis area (see department option check sheet) or an individually tailored emphasis area of logically integrated courses to meet the student's particular career objective.
7. General Education courses designated as required by the department are prerequisite to many courses in the program of study.
8. The upper-division writing skills requirement can be met by passing the university upper-division writing examination or by taking an approved upper-division writing skills course. One unit of credit (in Engl 100W) may be earned for passing the examination if requested by the student; by obtaining a letter grade of $C$ or higher in an approved course (e.g., Plant 110W) the student meets the university writing skills requirement.
9. One semester prior to graduation make an appointment with your academic adviser to prepare and file an official Certification of Major requirement form.
10. The General Education units of 51 may be exceeded depending upon the selection of courses.

## Food and Nutritional <br> Science Minor

A Minor in Food and Nutritional Sciences consists of 21 units of which 9 must be upper division. All students must take FSCN 1, 50, and 54. The additional 12 units will be selected in consultation with an adviser. The minor program must be certified by the appropriate department chair and the school dean. The certified minor program will be filed with the Office of Evaluations.

## Master of Science Program <br> Agriculture - Food Science and Nutrition Option

The Master of Science in Agriculture with an option in food science and nutrition is a 30 -unit degree program designed to provide the student with professional competence in the technology and science of food related disciplines.
This program provides a graduate level proficiency in food science, dietetics, and nutrition. The degree is applicable to specializations in food research, production, processing, chemistry, and microbiology; dairy industry; nutrition; dietetics and food administration. Full-time graduate students may earn the degree within two years when working closely with an adviser. To accommodate part-time students, graduate courses are offered in the late afternoon or evenings.

Admission Criteria. The Master of Science degree in Agriculture with an option in food science and nutrition assumes preparation equivalent to a baccalaureate degree in biochemistry, chemistry, dairy industry, dietetics or nutrition, food science, or related fields from an accredited institution; a 3.0 GPA (last 60 semester units); and a minimum GRE score of 450 verbal and 430 quantitative or a total score of 880. Admission by the university does not imply acceptance in the Master of Science in Agriculture degree program. Applicants whose preparatory education was in a language other than English must earn a minimum TOEFL score of 550 .
Full classified standing requires a baccalaureate degree in one of the areas listed above; a 3.0 GPA (last 60 semester units); and either a $450 \mathrm{~V} / 430 \mathrm{Q}$ GRE score or 880 combined score; completion of all prerequisite coursework; separate school application; three letters of reference from employers or faculty at the university attended most recently; and a statement of 500 words or less indicating reasons for pursuing a master's degree.
Conditional classified standing may be granted to petitioning applicants with a 2.75 to 2.99 GPA (last 60 semester units); GRE scores on file in the university Testing Office; separate school application; three letters of reference, and a statement of 500 words or less. Prerequisite coursework is not included in the 30 -unit master's program. Students must request full classified status in the program by the semester in which a minimum of 10 units to be used toward the degree are completed.
Prerequisite Courses. The Master of Science degree in Agriculture with an option in food science and nutrition assumes preparation equivalent to a CSU, Fresno undergraduate major in dairy industry, food science, dietetics or nutrition, or related fields.

Students having undergraduate degrees in other fields or from other institutions who need to make up course deficiencies should consult with the graduate coordinator. The following specific prerequisite foundation courses, or their equivalents, are to be completed in addition to the $30-$ unit master's degree coursework and prior to beginning the master's degree coursework:
Food Science: FScN 100, 125, 141 or D Ind 103, and Chem 150.
Dietetics or Nutrition: FScN 150, 153, Chem 150, and Phy 64-65.

## Program Requirements for Food Science and Nutrition Option

All students must complete a 9-unit common core. Under the direction of the graduate adviser, students may focus their program in a specialized area to meet their career goals. This is accomplished by the selection of required courses, electives, and thesis (Plan A only). A 3-unit thesis or a comprehensive exam completes the program of study.
Plan A ..... Units
Core: Agri 200, 201, 220 ..... 9

See graduate advising notes following the M.S. in Agriculture - Agricultural Chemistry Option.

## Master of Science Program <br> Agriculture - Agriculturall Chemistry Option

The Master of Science in Agriculture with an option in agricultural chemistry is designed to providethe student with advanced training and professional competence in the science of chemistry as it applies to agriculture. This degree permits the stu-
dent and adviser to design an individual program in various specializations in the application of chemical and biochemical systems in agricultural industries.
Enologists seeking the master's degree are required to do so under this option.
Admission Criteria. The Master of Science degree in Agriculture with an option in agricultural chemistry assumes preparation equivalent to a baccalaureate degree in agricultural science option II, or related fields from an accredited institution, a 3.0 GPA (last 60 semester units); and a minimum GRE score of 450 verbal and 430 quantitative or a total score of 880 . Admission by the university does not imply acceptance in the Master of Science in Agriculture degree program. Applicants whose preparatory education was principally in a language other than English must earn a minimum TOEFL score of 550.
Full classified standing requires a baccalaureate degree in the areas listed above; a 3.0 GPA (last 60 semester units); and either a $450 \mathrm{~V} / 430 \mathrm{Q}$ GRE score or 880 combined score; completion of all prerequisite coursework; separate school application; three letters of reference from employers or faculty at the university attended most recently; and a statement of 500 words or less indicating reasons for pursuing a master's degree.
Conditional classified standing may be granted to petitioning applicants with a 2.75 to 2.99 GPA (last 60 semester units); GRE scores on file with the university Testing Office; separateschool application; three letters of reference; and a statement of 500 words or less. Prerequisite coursework is not included in the 30 -unit master's program. Students must request full classified standing in the program by the semester in which a maximum of 10 units to be used toward the degree are completed.
Prerequisite Courses. The Master of Science degree in Agriculture with an option in agricultural chemistry is essentially a change of major for most students. Therefore, applicants to the agricultural chemistry option are expected to have completed the following prerequisite foundation courses prior to entering the graduate program.
Undergraduate Core Courses ..... 5

Micro 104: Microbiology
Bot 104: Plant Physiology ..... 4
Chem 105: Quant Analysis .....  4
Chem 128B: Organic Chemistry ..... 3
Chem 129B: Organic Chemistry Lab.. ..... 2
Chem 125: Lab Instrument ..... 3
Math 70: Calculus ..... 4
Phys 2A, 2B: General Physics ..... 4-4
Plant 99: App Agri Statistics ..... 3
I T 102 or a course in computer literacy ..... 3

## Program Requirements for <br> Agricultural Chemistry Option

All students must complete a 9 -unit common core. Under the direction of the graduate adviser, students may focus their program in a specialized area to meet their career goals. This is accomplished by the selection of 12 units of approved electives of which a maximum of 6 units can be 100 series (if not applied toward undergraduate degree requirements). A 4 -unit thesis completes the program of study.

Core .. 9

## Required Courses

Chem 260: Adv Research Tech3

Agri 229 or Chem 280 ..... 1+1

Approved Electives appropriate to
individually designed program
(200 or 100 level courses in agricultural science or related areas); minimum of 6 units of 200 series coursework12

## Culminating Experience

Agri 299 or Chem 299
(Thesis and defense)
Total minimum requirements 30

## Graduate Advising Notes

1. Several of the 200-level and approved elective courses have prerequisites other than courses listed as admission requirements.
2. Students should request specific information concerning the master of science degree and the program advising sheet from the department office.
3. Upon admission, students should see the department graduate coordinator for aid in program planning, selection
of graduate adviser, and selection of a thesis committee.
4. To progress through the graduate program, the student must:
a. Maintain a minimum of 3.0 GPA
b. Complete all prerequisite coursework
c. Attain classified standing
d. Meet the university writing skills requirement
e. Pass a written departmental qualifying examination during the first semester of enrollment
f. File for advancement to candidacy
g. Complete the program requirements
h. File a master thesis committee assignment form
i. Formally present and defend the thesis results
5. Advancement to candidacy requires the completion of 9 program units in residence, a minimum GPA of 3.0, meeting the university writing skills requirement, passing the departmental qualifying examination, and filing a petition for advancement to candidacy a minimum of one semester prior to enrollment in thesis and within the deadline.
6. The student shall meet the university writing requirement by earning a minimum of 450 verbal on the GRE. If a minimum of 450 verbal is not achieved, the student shall meet the requirement by then earning a score of 80 or higher on the university writing competency examination or by earning a $\boldsymbol{B}$ or better in a designated $\mathbf{W}$ course to be specified by the graduate committee of the School of Agricultural Sciences and Technology.
7. Students in the Agricultural Chemistry and Food Science and Nutrition thesis options may apply a maximum of 3 units of independent study to their program.
8. Students in the Food Science and Nutrition Plan C Option must successfully complete a final comprehensive examination consisting of two parts: a) a general written examination covering the broad areas of the student's program; b) an oral and/or written examination covering the results of the required student independent study project (Agri 290). See Department Policy Statement - Plan C, Comprehensive Examination.
9. See Division of Graduate Studies and Research in this catalog for university requirements.

## COURSES

Note: Active immunization against tetanus (available through Student Health Services) is a prerequisite for registration in any laboratory course in agriculture and for any student employment on the University Farm.

## Dairy Industry (D Ind)

## 23. Dairy Foods and Man (3)

The history and geography, processes and processing of dairy products; their description, composition, and nutritive values; current role of the dairy industry and dairy foods. (Field trips)

## 80. Undergraduate Research (1-4; max total 4)

Open to freshmen and sophomores with permission of instructor. Exploratory work on a suitable agricultural problem in dairy industry. Approved for $\boldsymbol{S P}$ grading.
103. Manufacturing Dairy Products (3) Prerequisite: D Ind 23; junior standing. Making common varieties of cheese, mix making and freezing desserts, churning butter, and culturing dairy products. (2 lecture, 3 lab hours; field trips)
113. Dairy and Food Plant Sanitation (3) Prerequisite: D Ind 23 ; Micro 20 or equivalent, or permission of instructor. Food plant sanitation as related to food safety. Public health issues. Requirements of regulatory agencies. Cleaning, sanitational procedures, housekeeping, and waste disposal. (Field trips)
143. Market Milk Products (3)

Prerequisite: D Ind 23. Market milk production, marketing, processing, and distribution; common laboratory practices and processing methods. (2 lecture, 3 lab hours; field trips)
153. Dairy Inspection (3)

Prerequisite: D Ind 23 or permission of instructor. Application of the California Agricultural and the United States Public Health Codes to the inspection of dairies, dairy plants and dairy products. (Field trips)
160T. Topics in Agriculture
(1-4; max total 6 per discipline
if no topic repeated)
Prerequisite: junior standing, permission of instructor. Dairy industry. Topics may require lab hours.
180. Undergraduate Research
(1-4; max total 4)
Open to juniors or seniors with permission of instructor. Exploratory work on a suit-
able agricultural problem in dairy industry. Approved for $\boldsymbol{S P}$ grading.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading.

## Enology (Enol)

15. Introduction to Enology (3)

History and development of the wine industry; mechanics of various processes and factors affecting wine quality and consumer acceptance.
25. Wine Evaluation Techniques I (2)

Parameters which determine sensory quality in wines. Principles of wine appreciation.

## 35. Wine Evaluation

Techniques II (2; max total 4)
Prerequisite: Enol 25 or equivalent. Critical sensory evaluation of various wine types and styles including premium varietals.

## 102T. Topics in <br> Sensory Evaluation of Wines

 (1-6; max total 6 if no topic repeated) Prerequisite: Enol 15 and 35; Enol 161 recommended. Critical evaluation of selected varietal wines with regard to appellation of origin, vintage, and winemaking practices. (15-hour weekend lecture-demonstration)
## 104. Review of Award Wines

 (1; max total 4)Prerequisite: Enol 35. Professional wine judging. Choice of panelists. Award process. Presentation of wines which have received awards at recent judgings. (Must be 21 years of age or older - State Law). (Former Enol 102T section)
105. Advanced Sensory

Evaluation of Wines (3)
Prerequisite: Enol 35, 115 (or concurrent). Factors affecting the quality of wines in terms of growing region, grape maturity, harvesting, vinification, cellaring, blending, and storage practices; attributes and defects in premium varietals. Statistical concepts. (2 lecture, 2 lab hours)
110. Enological Science (4)

Prerequisite: Chem 8, 150; Enol 15, 165; Micro 104; VTF 104. Critical study of chemical and biochemical interactions in winemaking.

## 115. Wine Analysis (4)

Prerequisite: Chem 105; Enol 161 or 165. Principles and practices of wine and fermented beverage analysis. (2 lecture, 6 lab hours)

## 125. Wine Microbiology (4)

Prerequisite: Enol 15; Micro 104; Chem 150 or FScN 110 recommended. Identification, physiology, and biochemistry of bacteria and yeasts involved in winemaking and spoilage of wines. Vinous and malo-lactic fermentations. Sherry organisms and other film yeasts. (2 lecture, 4 lab hours)
135. Field Studies (2; max total 4) Prerequisite: Enol 15 or permission of instructor. A six-day field trip during the spring recess visiting wineries to study the techniques and handling methods employed by the many vintners.
145. Brandy Production (3)

Prerequisite: Enol 161; Chem 101 or 109 or I T 112 recommended. Distillation principles and practices for the production of brandy and other distilled beverages. Raw materials, aging, and sensory evaluation. Students may be required to purchase supplementary materials for class use. (2 lecture, 3 lab hours)

## 155. Winery Equipment (2)

Prerequisite: Enol 161. Description and specifications of modern commercial winery equipment. Principles of operation. Layout and cost. (1 lecture, 3 lab hours)
160. Fruit Wine Production (3)

Prerequisite: permission of instructor. Theory and practice of fruit wine production. Harvesting, selection, grading, and fermentation techniques. Use of enzymes. (1 lecture, 6 lab hours)
161. Winery Practice (3)

Prerequisite: Enol 15; Chem 8 or concurrent. Pilot plant experience in winemaking operations, including harvest, scheduling, crushing, fermentation, safety, sanitation procedures, record keeping, analysis, and operation of enology facility equipment. (1 lecture, 6 lab hours) (Former Enol 100)
162T. Topics in Enology and Fermentation Science (1-4; max total 12 if no topic repeated)
Prerequisite: Enol 15. Topics in winemaking and fermentation science. Some topics may include labs.

## 163. Fermentation Laboratory (1; max total 4)

Prerequisite: Enol 15 or concurrent. Vinification/Fermentation Laboratory practice at the CSUF Enology Pilot Plants. Individual winemaking. Required every fall semester of all enology majors not enrolled in Enol 161, 165, 194, or 196. Students must supply their own grapes. (3 lab hours) (Former Enol 101)
165. Wine Technology (3)

Prerequisite: Enol 160 or 161. Technological study of winery equipment; evaluation, location and operation; sanitation procedures. (2 lecture, 3 lab hours; 3- or 4-day field trip)
166. Cellar Operations (3)

Prerequisite: Enol 165. Survey of cellaring operations and equipment blending, fining, ion exchange, finishing, and bottling. (2 lecture, 3 lab hours; local field trips) (Former Enol 185)
173. Wine Marketing (2)

Prerequisite: Enol 35, 161; Ag Ec 1. Marketing principles as applied to wine. Role of wholesalers, distributors, retailers, cooperatives. Advertising. Regulations. Interstate and international trade. (Former Enol 162T section)
175. Winery Management (3)

Prerequisite: Enol 15 and permission of instructor. Physical properties of a winery; administrative organizational set-up; personnel; purchasing, packaging and shipping; local, state, and federal regulatory statutes.
178. Regulations - Wine and Brandy (2) Prerequisite: Enol 161. BATF and other agencies. Rules and regulations concerning wine and brandy. Licensing. Record keeping, taxation, enological practices, rule making. Viticultural areas and appellations. Interstate and international commerce. Export requirements.
180. Undergraduate Research
(1-4; max total 4)
Prerequisite: Enol 161. Open to juniors or seniors with permission of instructor. Exploratory work on a suitable agricultural problem in enology. Approved for SP grading.

## 190. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## 193. Wine Marketing Internship (2-8; max total 8)

Prerequisite: Enol 173; Enol 105 and Ag Ec 164 recommended; approval of internship committee. Emphasis on development of decision-making ability through marketing organization experience integrated with principles acquired in the classroom. CR/NC grading only.

## 194. Enology Internship

(1-8; max total 8)
Prerequisite: junior or senior standing and approval of internship committee. Empha-
sis on development of decision-making ability through industrial experience integrated with basic principles acquired in the classroom. CR/NC grading only.
195. CSUF-UCD Cooperative

Wine Talks (1; max total 2)
Prerequisite: junior standing. Wine industry seminars conducted in cooperation with UC Davis Department of Viticulture and Enology, hosted alternately by CSUF and UC Davis during the spring semester. (16-hour weekend seminar)

## 196. Enterprise Management

(1-6; max total 6)
Prerequisite: Enol 115, 155, 161, 166, 175; VTF 104; AET 109; I T 102 and 112 recommended. Application of management principles in wine production. Operation of the CSUF commercial winery. Open only to enology majors or to viticulture majors with the appropriate background.

## 199. Undergraduate Seminar

(1; max total 2)
Prerequisite: senior standing. Oral presentations of topics of current interest in enology, wine grapes, and fermentation science.

## Food Science and Nutrition (FSCN)

## 1. Introduction to

Food Science and Technology (3)
Modern food processing; world food problems; basic characteristics of processed foods, and the technology of their production.

## 30. Microcomputers in

Food and Nutrition (2)
An introduction to the use of the microcomputer in food and nutrition. Management of data through dietary analysis, spreadsheet and word processing programs. (1 lecture, 2 lab hours)
48. Nutrition in the Life Cycle (3)

Nutritional requirements during prenatal period, infancy, childhood, adolescence, and young/middle/older adult with emphasis on social, psychological, cultural, and clinical factors. (Former FScN 148)
50. Basic Foods (3)

Introduction to high quality food. Emphasis on principles of food safety, nutrition, food preparation, and sensory evaluation. (2 lecture, 2 lab hours) (CAN H EC 8)
52. Diet Therapy (3)

Not open to dietetic and food administration majors. Introduction to normal nutrition and diet related to disease.
53. Nutrition and Health:

Realities and Controversies (3)
Optimal nutrition to reduce the risk of cancer, heart disease, allergies, obesity, and other diseases. Social, psychological, and cultural dictates that affect food selection and health. Personal strategies to develop a nutrition plan for better health. General Education BREADTH, Division 4. (CAN H EC 2)
54. Elementary Nutrition (3)

Elementary knowledge of high school chemistry and biology strongly recommended. Scientific principles underlying normal nutritional requirements.
56. Food for Health (3)

Planning a nutritious diet implementing the Dietary Goals for the United States and Dietary Guidelines for Americans. Cooking principles, recipe modification, and food selection at supermarkets and restaurants to increase dietary complex carbohydrates and decrease fat, sugar, and sodium. (2 lecture, 2 lab hours)
80. Undergraduate Research (1-4; max total 4)
Open to freshmen and sophomores with permission of instructor. Exploratory work on a suitable agricultural problem in food science. Approved for $\boldsymbol{S P}$ grading.
100. Food Appraisal and Evaluation (3) Prerequisite: intermediate algebra; FScN 1. Analysis, measurement, and methods used in sensory evaluation of foods. (2 lecture, 3 lab hours)

## 110. Food Chemistry

## and Biochemistry (4)

Prerequisite: Chem 150 (or concurrent); D Ind 23 or $\operatorname{FScN} 1$. Chemical and biochemical changes in foods during production, processing, and utilization. (3 lecture, 3 lab hours)

## 125. Food Laws and Regulations (3)

Prerequisite: junior or senior standing. Federal and state laws and regulations pertaining to the food industry, including product liability and recall systems. (Former FScN 162 T section)
130. Food Analysis (4)

Prerequisite: one year of general chemistry, Chem 105; D Ind 23 or FScN 1 (FScN 110 recommended). Principles of food analysis; sampling, separation, physical measurements, chemical and biochemical techniques. (2 lecture, two 3-hour labs)

## 131. Introduction to

Food Systems Management (3)
Prerequisite: FScN 50. Responsibilities in organization and administration of the quantity foodservice establishment. Emphasis upon menu planning, recipe standardization, supervision of personnel and computer applications. (Former FScN 155)

## 132. Food and

## Equipment Purchasing (3)

Prerequisite: FScN 50. Work simplification; plant layout; selection, procurement, and maintenance of equipment and furnishings for foodservice units. Quantity food selection, specifications, and purchasing. (Former FScN 156)

## 133. Quantity

Food Production (3)
Prerequisite: FScN 131, 132, and 150; health clearance and health and accident insurance required. Preparation and service of conventional and convenience foods in patient and nonpatient foodservice. Emphasis on human relations, food safety and sanitation, production controls, work simplification, quality assurance, and energy conservation. (2 lecture, 3 lab hours) (Former FScN 158)
134. Cost Analysis in Food Systems Management (3) Prerequisite: FScN 133; Acct 4A. Advanced concepts of planning, analyzing, decision making, and reporting procedures unique to food systems management. Emphasis on cost analysis and cost control in institutional and commercial operations. (Former FScN 162 T section)
135. Institutional Experience (3)

Prerequisite: FScN 134; health clearance and health and accident insurance required. Supervised work experience in food systems management. (1 lecture, 4 lab hours) (Former FScN 159)
141. Food Unit Operations I (3) Prerequisite: Chem 8 (or concurrent), D Ind 23 or FScN 1. Basic and applied processing systems for fruit, vegetables,
frozen and fermented foods; facilities and equipment; scheduling and control of operations; postharvestoperations; computer, instrumental and traditional methods of quality control for composition, costs, color, flavor, body, and texture; packaging. (2 lecture, 3 lab hours; field trips)
142. Food Unit Operations II (3)

Prerequisite: Chem 8 (or concurrent), D Ind 23 or FScN 1. Basic and applied processing systems for lipids, proteins and carbohydrates; formulated foods and food ingredients; equipment, facilities, science, technology and packaging required for the production and use of these foods. (2 lecture, 3 lab hours; field trips)
tions including the classroom, community, or clinic setting. Activities include writing lesson plans, developing instructional materials, and presenting lessons.
150. Advanced Foods (3)

Prerequisite: FScN 50; Chem 3A. Experimental approach to foods emphasizing sensory and objective tests, standards for high quality foods and scientific principles which affect food preparation and product development. (2 lecture, 3 lab-discussion hours)

## 151. Experimental

Food Study (3; max total 6)
Prerequisite: FScN 150. Principles, procedures, sensory, and objective evaluation methods necessary to organize professionally and carry through a food research project. Lectures, demonstrations, individual research, and field trips. (1 lecture, 4 lab-discussion hours)
153. Advanced Nutrition (3) Prerequisite: FScN 54 ; Chem 150. Present knowledge of the metabolism of carbohydrates, fats, proteins, vitamins, and minerals. Dietary evaluation. Identification and characterization of nutrients in foods; experiments on their digestion and metabolism.

157A. Diet in Disease (3) Prerequisite: FScN 54; Phy 64, 65; Chem 150 (or concurrently). Exploration of nutritional aspects and dietary treatment of disease.
157B. Diet in Disease (3) Prerequisite: FScN 157A. Advanced concepts of nutritional therapy in disease with emphasis on calculation of nutrients for modified diets.
147. Nutrition and the Athlete (3) Prerequisite: Phy 33 or 65. Physiological principles underlying normal nutritional requirements and the application of these principles to athletic performance. Role of diet in training.
149. Food and Nutrition Resources (3) Prerequisite: FScN 50 and 54. Counseling techniques for the dietitian. Selection of food and nutrition content and learning activities for a variety of teaching situa-
160. Meal Management (3)

Prerequisite: FScN 50. Principles of foods and nutrition applied to meal planning, preparation, and service for various cultural groups. Computerized diet analysis. Economic, aesthetic, nutritional, and managerial aspects of meal planning. (2 lecture, 2 lab hours)

## 162T. Topics in Food,

Nutrition, and Dietetics (1-4;
max total 12 if no topic repeated)
Prerequisite: FScN 50, 54. Topics relating to food, nutrition, and dietetics. Some topics may have labs.
163. Beverage and Juice Concentrate (3) Prerequisite: Enol 15 or FScN 1; VTF 1 recommended. Principles and practice of fruit juice and concentrate production. Vacuum pan operation, essence recovery. (2 lecture, 2 lab hours; field trips) (Former FScN 162 T section)
166. Community Nutrition (3)

Prerequisite: FScN 54. Survey of existing federal, state, and local food assistance programs. Proposal writing and subsequent steps in establishing a new program.
169. Nutrition and the Consumer (3) Prerequisite: FScN 53 or 54 . Consumer's view of nutrition; factors influencing food choices. Evaluation of dietary guides and popular nutritional issues.
170. Food Microbiology (3)

Prerequisite: D Ind 23 or FScN 1; Micro 20. Control of microorganisms, including pathogens, in production and handling of foods. Food spoilage organisms and microbiological methods of examining foods. (2 lecture, 3 lab hours)

## 180. Undergraduate Research <br> (1-4; max total 4)

Open to juniors or seniors with permission of instructor. Exploratory work on a suitable agricultural problem in food science. Approved for SP grading.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
192. Readings and Conference (1-3)

Prerequisite: permission of instructor. Individually directed readings; reports and evaluation. (Hours arranged)

## 193. Supervised Work <br> Experience (1-6; max total 6)

Prerequisite: second semester junior standing and permission of instructor. Supervised work experience in one of the following areas: dairy industry, dietetics, food science, and nutrition. $C R / N C$ grading only.

## GRADUATE COURSES

(See Course Numbering System.)
The following graduate courses are open to students who have been accepted into the graduate program. Students who are not in graduate standing should contact the department graduate coordinator prior to enrolling.

## Agriculture (Agri)

200. Biometrics in Agriculture (3)

Prerequisite: Math 101 or Plant 99; permission of instructor. Advanced concepts in the design of agricultural experiments. Emphasis is placed on the selection of appropriate designs to meet the objectives of well-planned experiments. Relative merits of various designs and topics in analysis, interpretation, and regression are covered.

## 201. Agricultural

Laboratory Techniques (3)
Prerequisite: One of the following courses: Bot 104; Chem 105, 109, 151; Enol 115 or FScN 130. Agricultural problem solving through the application of advances in laboratory technology, crop management, foods, nutrition, soil, and water quality. Theory and practice operation of scientific instruments and techniques are taught. Student-defined project and report required. (2 lecture, 3 lab hours) (Former Agri 250T section)
203. Advances in Food Processing (3)

Prerequisite: FScN 141, AET 109 or Enol 165. Advanced studies in food processing: canning, freezing, dehydration, fermentation, and food preservation.

## 204. Food Carbohydrates

and Sweeteners (3)
Prerequisite: Chem 150; FScN 110 or 150. Advanced studies in the chemical and biochemical changes of food carbohydrates during processing and storage; quality control; nutritional aspects.
205. Food Lipids (3)

Prerequisite: Chem 150; and FScN 110 or 150. Advanced studies in the chemical and biochemical changes of food lipids during processing and storage. Mechanisms of formation and degradation. Importance in flavor and texture; quality control; and nutritional aspects.
209. Vitamins and Biocatalysts (3)

Prerequisite: Chem 150; FScN 110 or 150. Mechanisms of action of vitamins, coenzymes, and cofactors in biological transformations involving food processing and human nutrition. (Former Agri 221T section)

## 220. Research

Communications in Agriculture (3)
Prerequisite: completion of university writing skills requirement. Emphasis on critical literature review, scientific writing, and oral presentation of research results. Approved for $\boldsymbol{S P}$ grading.
221T. Topics in Food Science
and Nutrition (3; max total 9)
Prerequisite: upper-division food science and nutrition course appropriate to study topic; permission of instructor. Advanced studies in a given area of food science and nutrition. Some topics may require lab hours.
222. Advanced Food Fermentations (3) Prerequisite: Chem 150, Micro 104, 130, FScN 170; D Ind 113 recommended. Chemical, biochemical, and physiologic processes of micro-organisms important in food production. Lectures and lab demonstrations.
223. Human Nutrition (3)

Prerequisite: Chem 150, FScN 153. Review and discussion of the recent scientific literature in nutrition, physiological chemistry and medicine.

## 226. Special Issues in

Food Science and Nutrition (3)
Prerequisite: graduate standing. Current issues in food science and nutrition from a nutritional, consumer, agricultural, and business perspective.

## 229. Seminar in Food

Science and Nutrition (1; max total 4)
Prerequisite: permission of instructor. Investigation of current research and problems related to food science and nutrition. Oral and written reports.

## 290. Independent Study

(1-3; max total 3)
See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading.
299. Thesis (2-6; max total 6)

Prerequisite: prior advancement to candidacy. See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for SP grading.

## IN-SERVICE COURSE

(See Course Numbering System.)

## Agriculture (Agri)

300. Topics in Agriculture (1-3)

Topics may require lab hours. In-service professional training in selected areas of agriculture.

## AGRICULTURE Industrial Technology

School of Agricultural Sciences and Technology<br>Department of Industrial Technology GARY E. GRANNIS, Chair<br>M. Grosse Industrial Technology<br>Building, Room 212<br>(209) 278-2145<br>B.A. in Industrial Arts<br>B.A. in Interior Design<br>B.S. in Industrial Technology<br>Bachelor of Vocational<br>Education (B.V.E.)<br>M.A. in Industrial Arts<br>Minor in Industrial Arts<br>Programs of Study:<br>Architecture<br>Computer-Aided Design<br>Construction Management<br>Electronic Communication<br>Graphic Communications Graphic Design<br>Industrial Control Electronics Interior Design<br>Manufacturing Automation<br>Manufacturing Processes<br>Transportation Systems

Programs of study prepare leaders in science, technology, and management. Individual programs are planned to provide for professional careers in teaching, business, and industry. In addition, programs of study are available for interior design and graphic design. The industrial arts degree program prepares candidates for careers in teaching and design graphics.
The Industrial Technology Program is accredited by the National Association for Industrial Technology and recognized as one of the premier programs in the nation. Emphasis is placed on training men and women for industrial management positions.

## Instructional Facilities

Modern department facilities are equipped with robots, numerical control machines, programmable logic controllers, flexible manufacturing cells, and computer graphic workstations. IBM's selection of CSUF to join the National Computer-Integrated Manufacturing (CIM) Alliance has significantly enhanced the department's ability to deliver instruction using state-of-the-art technology.

## Career Opportunities

Manufacturing. It is projected that industrial technology graduates will be in high demand for many years. The reason for this demand is that manufacturingand service-oriented industries are reorganizing facilities and personnel to facilitate contemporary management systems and technologies. Industry needs qualified technical managers who can contribute to better product reliability, efficiency, and improved productivity. Examples of positions held by manufacturing graduates are assistant plant engineer, fleet service representative, manufacturing engineer, operations supervisor, production planning analyst, production scheduling coordinator, and quality control supervisor.
Industrial Arts Teachers. Teachers are in short supply. The need will become even greater as new curriculum programs emerge in industrial and technological education. This demand is attributed to emerging technologies and expanded applications for industrial and technological education.
Construction. Construction is the single largest industry in the United States. California is projected to be an $\$ 80$ billion market within the next decade. Construction management students receive a diversified and well-balanced education. Major emphasis is placed on the planning and managing of construction projects within the social, financial,
legal, and ecological environment. The constructor is an important member of the construction team who requires a professional knowledge of design techniques, contract documents, materials, equipment, scheduling, and cost control to effectively manage complex construction projects. Graduates of this program will help to fill the urgent need for qualified professionals in the construction industry.
Interior Design. The interior design major has the distinction of being one of only five programs in California accredited by the Foundation for Interior Design Education Research (FIDER). Interior design combines an excellent foundation of color, drafting, design - including computer-aided design (CAD) - professional practice, space planning, and presentation skills with unique strengths in architecture, construction, and materials. Graduates have been placed in interior design firms, architectural firms, construction companies, art galleries, product supply companies, and contract and residential showrooms.
Graphic Design. The graphic design program trains individuals as graphic artists for such industries as television, printing, newspaper, magazine, film, and advertising. Demand for such candidates has been excellent in both small and large businesses.

## Faculty

Gary E. Grannis, Chair
Coordinators:
Frank H. Goishi, Construction
Kenneth D. Moshier, Manufacturing
Patricia Hennings-Smith, Graphic and
Interior Design

2. Student work may be retained for a limited period for display and accreditation visits.
3. The upper-division writing skills requirement can be met by passing the university examination or by completing a W course with a letter grade of $C$ or higher, after 56 units are completed.
4. The General Education requirement of 51 units may be exceeded depending upon the selection of courses.

Addlitionall requilrement ................. 3
Upper-division writing skills:
I T 198W (required)
Totall requirements ...................... 128
(including 40 upper-division units)

## Advising Notes

1. All courses (except I T 192 and 194) required for the major must receive a letter grade, including additional major requirements in General Education.
2. Students must complete I T 198 W with a grade of $C$ or higher (after the comple-
tion of 56 units) to fulfill the upperdivision writing requirement since this course is a prerequisite to IT 199, Senior Problem in Industrial Technology.
3. IT 41 and 52 , which are prerequisites to some core and technical specialties in industrial technology, may be waived if equivalent work experience and/or training is demonstrated.
4. The General Education requirement of 51 units may be exceeded depending upon the selection of courses.
5. Students must take two science courses in Division 1 to meet NAIT accreditation.

Const 31, 32, 131, 132, 134
Totall requirements
128
(including 40 upper-division units)

## Advising Notes

1. All courses required for the major must receive a letter grade, including additional major requirements in General Education.
2. The upper-division writing skills requirement can be met by passing the university examination or by completing I T 198 W with a letter grade of $C$ or higher only after 56 units are completed.
3. The General Education requirement of 51 units may be exceeded depending upon the selection of courses.
Other construction specialties may be developed under department advisement.

## Industrial Arts Minor

A Minor in Industrial Arts consists of 20 units of which 9 must be upper division. At least 12 units must be taken in one of the following specific areas of concentration: architecture, computer-aided design, construction management, electronic communication, graphic communications, industrial control electronics, manufacturing automation, manufacturing processes, transportation systems.

## Teacher Credential Program

The following breadth courses are required for the Single Subject Waiver Program in Industrial Arts: IT 12, 41, 52, 60, 74, 80, 92, and 102. Additionally, a minimum of 12 units is required from two areas of concentration. Choose from:
Automotive: I T 120, 121, 122, 129
Drafting: Const 42; I T 44, 115, 141, 147 Electricity/Electronics: I T 53, 131, 132, 153, 157, 159
Graphic Arts: GID 165; I T 160, 161, 162
Metals: I T 70, 71, 114, 170, 173, 177
Woodworking: I T 82, 182, 184, 185
For additional requirements, see Curriculum, Teaching, and Educational Technology - Single Subject Credential Program requirements section in this catalog.

## Master off Arts

## Degree Requirrements

The Master of Arts in Industrial Arts is a 30unit program which offers graduate study in both industrial and educational related professional and technical fields. Emphasis is directed toward the attainment of advanced competency in the areas of industrial arts and technology education, manufacturing technology, and construction. Through selected courses, within the department and other disciplines, knowledge and experience may be acquired in research and development, management and administration, technological studies, and educational studies that are related to all areas of the field.

Admission Requirements. The Master of Arts degree program in Industrial Arts assumes preparation equivalent to a CSU undergraduate major in technology education [industrial arts], industrial technology, or a related field. Students who have not completed a degree in technology education, industrial arts, or industrial technology are expected to have completed the following courses or their equivalents prior to enrollment in courses to be applied to the master's program: I T 41, 52, $60,74,102,114,115$; Math 75 ; Phys 2A; ERF 153 or DS 173.
Applicants whose preparatory education was principally in a language other than English must earn a minimum TOEFL score of 550 .
Classified Standing. A baccalaureate degree is required and an undergraduatemajor in technology education, industrial arts (I.A.), industrial technology (I.T.), or a related field; 3.0 GPA (last 60 semester units); a $450 \mathrm{~V} / 430 \mathrm{Q}$ GRE score or a 400 V minimum with an 880 combined score; separate school application; three letters of reference from employers or faculty at the university attended most recently; a personal statement of 500 words or less indicating reasons for pursuing a master's degree; a preadmission consultation session with the department graduate program coordinator.
Conditional classified standing may be granted to petitioning applicants with a 2.5 to 2.99 GPA (last 60 semester units); GRE scores on file with the university; separate school application; three letters of reference; and a personal statement of 500 words or less. Students must request classified standing in the program by the semester in which a maximum of 10 units to be used toward the degree are completed.
Program Requirements. Under the direction of a graduate adviser, each student prepares and submits a coherent program individually designed within the following framework:

| Specific Requirements | Units |
| :--- | ---: |
| Required courses .............................. 15 |  |
| I T 223, 280, 282, 283, 285 |  |
| Electives in industrial |  |
| technology or related field .............. 12 |  |
| (approved electives appropriate to |  |
| individually-designed program) |  |
| Culminating Experience ..................... 3 |  |
| I T 298 or 299 |  |
| Total minimum requirements .......... $\overline{30}$ |  |

## Graduate Advising Notes

1. Several of the 200 -level and approved elective courses have prerequisites other than courses listed as admission requirements.
2. Students should request specific information concerning the Master of Arts degree and the program advising sheet from the department office.
3. Upon admission, students should see the department graduate program coordinator for aid in program planning.
4. To progress through the graduate program, students must:
a. Maintain a minimum 3.0 GPA
b. Complete all prerequisite coursework
c. Attain classified standing
d. Meet the graduate writing skills requirement
e. File for advancement to candidacy
f. Complete the program requirements
g. File a master's thesis or project committee assignment form
$h$. Formally present and defend the thesis or project results
5. Classified standing must be achieved by the semester in which students take the 10th program unit. All admission requirements must be met. Students must maintain a 3.0 GPA .
6. Advancement to candidacy requires the completion of 9 program units at CSUF, a minimum GPA of 3.0, meeting the graduate writing skills requirement, and filing a Petition for Advancement to Candidacy a minimum of one semester prior to enrollment in thesis or project and by established deadline.
7. Students may meet the graduate writing skills requirement by earning a minimum of 450 verbal on the GRE. If a minimum of 450 verbal is not achieved, students shall meet the graduate writing skills requirement by earning a score of 80 or higher on the Upper-Division Writing Examination (UDWE) or by earning a $\boldsymbol{B}$ or better in a designated $\mathbf{W}$ course to be specified by the graduate committee of the School of Agricultural Sciences and Technology.
8. See Division of Graduate Studies and Research section in this catalog for university requirements.

## COURSES

Note: Expense to students in courses with variable fees depends upon the specific projects selected by the students. Students should consult with course instructors.

## Industrial Technology (I T)

12. Basic Automotive Systems (3)

Design, construction, and mechanical functions of automotive engines, fuel systems, electrical systems, power transmission, brakes, and wheel suspension; proper use and safety of tools and equipment. (2 lecture, 3 lab hours) (Former I Ed 12)
30. Plastics Technology (3)

Technical information on composition, characteristics, and uses of plastics; equipment design principles and manufacturing processes. (6 lab hours; field trips) (Course fee variable; not less than $\$ 3.50$ ) (Former I Ed 30)

## 41. Industrial Design Graphics (3)

Application of the fundamentals of industrial design graphics. Sketching, lettering, orthographic projection, working drawings, auxiliary views, dimensioning, developments, pictorial drawings, duplication; interrelationship to the design process. Introduction to CAD. (6 lab hours) (Former I Ed 41)

## 44. Descriptive Geometry (3)

Prerequisite: I T 41 or permission of instructor. Descriptive geometry as related to design processes. A nonmathematical approach to geometric magnitudes and the relationship between points, lines, and planes in space. Application of these principles in solving a variety of technological design problems. (6 lab hours) (Former Const 44)
52. Basic Electricity (3)

Introduction to electricity including fundamentals of electrostatics, alternating and direct current electrical circuits, electrical calculations, magnetics, circuit applications, electrical measuring, and test equipment. (2 lecture, 3 lab hours) (Course fee variable; not less than \$3) (Former I Ed 52)
53. Electronic Devices and Circuits (3) Prerequisite: IT 52. Characteristics and applications of electronic devices in analog and digital circuits including power supplies, amplifiers, oscillators, and switching
circuits; introduction to linear integrated circuits. (6 lab hours) (Course fee variable; not less than \$3.50)

## 60. Basic Graphic Arts (3)

Introduction to the graphic arts; letterpress, photo offset lithography, screen printing; layout, composition, imposition, presswork, bindery. (6lab hours; field trips) (Course fee, \$6) (Former I Ed 60)

## 70. Basic Metalworking (3)

Introduction to and exploration in various areas including sheet metal, bench metal, art metal, wrought iron, foundry, and forging. (6 lab hours) (Course fee, \$6.50) (Former I Ed 70)
71. Metallurgical Processes (3)

Fundamentals of metallurgy; properties and characteristics of metals; survey of metal welding processes, equipment, and procedures; theory-discussion and laboratory experience in oxygen-fuel welding, cutting, brazing, and shielded metallic arc welding. (6 lab hours) (Course fee variable) (Former I Ed 71)

## 74. Manufacturing Processes (3)

Material removal by turning and milling operations on aluminum, brass, steel, plastic and wood. Material fusing and severing operations on metals and plastics. Nonferrous metal casting and thin gauge metal and plastic forming operations. (6 lab hours) (Minimum course fee, \$7) (Former I Ed 74)

## 80. Basic Woodworking (3)

Basic woodworking and finishing process and materials; use and care of hand tools, portable electric tools, light woodworking machinery, basic units in wood technology. (6 lab hours) (Course fee variable; not less than \$10) (Former I Ed 80)

## 82. Wood Machining (3)

Prerequisite: IT 80. Development of proficiency in the operation and maintenance of modern woodworking machinery and spray finishing equipment; safety education, cutting principles and techniques, machine design and capabilities. (6 lab hours) (Course fee variable; not less than \$10)
92. Industrial Safety Management (2)

Principles of safety management in an industrial environment; safety legislation and programs; management/supervisory and employee responsibilities and attitudes; physical hazards associated with chemicals, equipment, fire, compressed gases; other topics include eye, stress, drugs, lifting, office, and noise safety. (Former I Ed 92)

## 102. Industrial Data

Processing Concepts (3)
Computer fundamentals; flowcharting and programming techniques; industrial and technical programming systems and support components; database organization and systems management; and industrial and technical management. (Field trips)

## 104. Materials of

Product Design (3)
Prerequisite: I T 41, 74, or equivalent. Elements, principles, methods, and materials of product design. Structure, properties, and manufacturing processes of materials as related to models, prototypes, and production planning. Exploration of the design process from concept to manufacturing, including packaging. (6 lab hours) (Course fee variable; not less than \$4.50)

## 106. Energy Conversion

and Utilization (3)
Fundamental sources of energy, including the following energy conversion systems: direct mechanical, external combustion, internal combustion, solar power, wind power, electrical and atomic systems. Experiments and demonstrations. General Education CAPSTONE Cluster. (2 lecture, 2 lab hours; field trips)

## 107. Facilities Planning (3)

Facility planning techniques as applied to facility location, zoning, building codes, line balancing, shipping-receiving, offices, material handling, storage, project scheduling, and computerized layout.

## 110. Fluid Power (3)

Prerequisite: I T 52. Selective study of fluid power principles and applications; hydraulics, pneumatics, and vacuum; includes pumps, controls, transmission systems, actuators, and fluidics. In-depth study of air conditioning-heating theory and applications. (6 lab hours; field trips) (Course fee variable; not less than \$5)

## 112. Industrial Process

Control and Instrumentation (3)
Prerequisite: I T 52. Industrial process control system principles and components; computers, controllers, transducers, and actuators; mechanical and electrical instrumentation. (6 lab hours)
114. Industrial Materials (3)

Chemical and physical properties of metals, polymers, ceramics, composites. Atomic structure and phases of matter emphasizing crystalline and amorphous solids. Mechanical properties, strength and testing of materials including impact, hardness, and tensile. Metallographic, micro-
scopic inspection of electronic, and metallic specimens. (6 lab hours)
115. CAD Principles and Methods (3)

Prerequisite: I T 41 or Const 42; I T 102. Computer-aided design applications. Special emphasis in manufacturing, construction, and interior design applications. Exposure to CAD software packages.

## 117. Quality Assurance (3)

Prerequisite: I T 102; Mgt 104 and 106 or Mgt 110. Quality assurance principles and practices in industry: quality assurance systems, acceptance sampling, testing, source surveillance; probability and statistical concepts, process control techniques and measurement procedures as applied to quality.

## 118. Production Operations (3)

Prerequisite: I T 102, 104; Mgt 104 and 106 or Mgt 110. A survey of production manufacturing operations: quality assurance, work sampling, testing, time and motion study; routing, scheduling, and
inventory control; flow processes, material handling, and automation. (Field trips)

## 119. Computer-Integrated

Manufacturing Concepts (3)
Prerequisite: a computer programming language; I T 118 or equivalent. Strategies on how to implement Computer-Integrated Manufacturing (CIM) for a complete manufacturing enterprise. Focuses on CIM systems, opportunities, concerns and solutions; design, development, implementation, and operations; and employees' educational programs. Team efforts and management are emphasized.

## 120. Automotive Engine Systems (3)

Prerequisite: I T 12, 53 or concurrent enrollment. Advanced study of automotive engines and support systems. Includes engine theory, fuel and electrical systems, turbochargers, LPG, diesel, computerized emission and engine controls, and dy-
namometer testing analysis. (6 lab hours; field trips)
121. Automotive Engine Machining (3) Prerequisite: IT 12, 74. Advanced study of automotive engine machining including precision measurements, principles of engine operation, machining of engine components, crack detection, assembly procedures, lubricating and cooling systems. (6 lab hours; field trips) (Course fee, \$6)
122. Automotive Chassis Analysis (3) Prerequisite: I T 12. Advanced study of automotive chassis components including power transmission, brake systems, wheel suspension, air conditioning, body repair and refinishing, computer controls and diagnostics. (6 lab hours; field trips)

## 125. Multifuel Engine

## Power Analysis (3)

Prerequisite: I T 12. Laboratory and computerized dynamometer study in the testing of new fuels or combinations of fuels, alternative engine design, emissions analysis and dissemination of research data. (2 lecture, 3 lab hours; field trips)
127. Vehicle Design and Development (3) Design and mechanical development of vehicles for intercollegiate competition events. Students will select one or more vehicle research projects: innovative future fuels, supermileage, mini baja, formula, aero design, walking robot. (6 lab hours) (Former I T 191T section)

## 129. Automotive

Diagnostic Procedures (3)
Prerequisite: I T 12, 53 or concurrent enrollment. Laboratory study and analysis of mechanical, electrical, and computer control problems. Technical reports. (6 lab hours) (Course fee, \$5)

## 131. Digital Circuits and Systems (3)

 Prerequisite: IT 52 . Number systems, Boolean logic, and fundamentals of digital devices; basic applications of logic devices in computers and control systems. (2 lecture, 3 lab hours; field trips)132. Microprocessor Applications (3)

Prerequisite: I T 131. Microprocessor characteristics and programming; application
and interface to digital and analog control and communication circuits; introduction to microcomputer hardware. (2 lecture, 3 lab hours)

## 133. Programmable <br> Logic Controllers (2)

Prerequisite: I T 131; I T 112 recommended. Programmable logic controller principles and equipment; programming languages, procedures, and documentation; equipment and software selection and application.
134. Programmable Automation (3) Prerequisite: I T 177 or a high level programming language. Study, analysis, and evaluation of programmable industrial systems. APT programming language for numerical control and application languages for robots, programmable logic controllers, process controllers, and microcomputers. Applications of these systems in flexible manufacturing cells. (2 lecture, 2 lab hours)

## 135. Computer-Aided

Process Planning (3)
Prerequisite: I T 115, 177. Applications of computers to process planning, group technology; tool and fixture design; and route sheet preparation.

## 140. Principles of

Applied Technology (3)
Prerequisite: Math 72 or 75 ; Phys 2A, 2B. Problem solving and analysis using physical science principles of mechanics, thermodynamics, and hydraulics.

## 141. Machine Design Graphics (3)

Prerequisite: I T 41. Advanced technical drawing and design. Use of dimensioning/ tolerancing, fabrication and materials standards, handbooks and industrial catalogs. Application of various machining and forming operations, including com-puter-aided design, in the investigation and completion of design problems. (6 lab hours; field trips)
144. Tool Design Graphics (3)

Prerequisite: I T 41, 44, 115. Application of graphics to industrial work holding devices; their application, drawing, and design. Construction of working drawings aided by standards, company catalogs, and handbooks. Final designs subjected to student presentation and evaluation. (6 lab hours; field trips)
147. Advanced CAD Applications (3) Prerequisite: I T 115, 140, 144. CAD as a tool to facilitate design activities. An overview of design processes and methods.

Solid modeling techniques are introduced. A team approach in system design is emphasized.
148. CIM Systems Analysis and Development (3)
Prerequisite: I T 115, 119, 147. ComputerIntegrated Manufacturing (CIM) systems utilized in manufacturing industries, systems development cycle, systems analysis, justification, benchmarking, personnel, and facilities planning.
149. CIM Systems Management (3)

Prerequisite: IT 148. Computer-Integrated Manufacturing (CIM) system database philosophies. System administration, facility organization and administration, personnel development and organization, training, system maintenance, and evaluation.
153. Fundamentals of Electronic Communication Systems (3)
Prerequisite: IT 53. Electronic systems and applications including basic transmitters, amplitude and frequency modulation transmitters and receivers; transistor applications; antennas; television. (6 lab hours; field trips)
154. Electric Power Systems (3)

Prerequisite: I T 52. Electrical power generation and distribution systems. Power and control circuits in commercial and industrial facilities. Building codes and analysis of electrical demands are emphasized. (6 lab hours; field trips)
156. Electric Motors and Controls (3) Prerequisite: I T 52. Study and analysis of the characteristics and industrial applications of electric motors. Major emphasis is placed on programmable, solid state, and electromechanical motor controllers. (6 lab hours; field trips) (Course fee variable; not less than $\$ 4$ )

## 157. Fundamentals

of Telecommunications (3)
Prerequisite: I T 153. Introduction to telecommunications. Electromagnetic wave theory, propagation, and spectrum. Transmission, switching, and imperfections. Telecommunication systems. (6 lab hours; field trips)

## 158. Local Area

Network Fundamentals (3)
Data communication problems, concepts, protocols, specifications; Local Area Network (LAN), Manufacturing Automation Protocols (MAP). Technical and Office Protocol (TOP), computer integration; MAP specification, implementation, and testing.
159. Industrial Electronics (3)

Prerequisite: IT 53, 112 and 153 or 119 and 132; I T 154, 156 recommended. Industrial electronics systems analysis; applications of analog and digital electronic circuits, devices and systems to industrial process and machine control. (6 lab hours) (Course fee variable)

## 160. Graphic

Communication Developments (3)
Prerequisite: I T 60. An investigation of the graphic reproduction processes including laboratory experiences, practical application, and frequent industrial trade tours. In-depth study of individually selected topics resulting in written and oral research reports. (6 lab hours; field trips) (Maximum course fee, \$10)
161. Photo Offset Lithography (3)

Prerequisite: I T 60. Photo offset lithography techniques and processes: design, layout, cold type composition, and pasteup, line, and half-tone copy, imposition, multicolor printing. (6 lab hours; field trips) (Course fee, \$15) (Former Ind A 161)
162. Graphic Arts Crafts (3)

Various processes and media used in graphic arts; creative and recreational aspects for the student; silk screen, linoleum block, intaglio, papermaking, thermographs, marbling, bookbinding, student projects. (6 lab hours; field trips) (Course fee, \$6.35) (Former I Ed 162)

## 170. Advanced Principles

of Metalworking (3; max total 6)
Prerequisite: I T 70. Study and experience in the technological, scientific, and historical aspects of nonferrous metal casting, core-making; forging, principles of metal spinning. (6 lab hours) (Course fee, $\$ 6.50$ )
173. Metal Fabrication Processes (3)

Sheet metal pattern drafting and layout applicable to parallel, radial, and triangulation methods using light gauge metals; individual problems in planning, using, and maintaining hand and machine tools. (6 lab hours) (Course fee, \$6.50)
174. Advanced Machine

Tool Metalworking (3)
Prerequisite: I T 74. Advanced machining and tooling, special machine tools, and precision measuring instruments; laboratory experiences in use of ferrous and nonferrous metals, cast iron and semisteel castings; coolants related to modern manufacturing process. (6 lab hours) (Course fee variable; not less than $\$ 2.50$ )
177. Computer Numerical Control (3) Prerequisite: I T 74, 102. Introduction to computer numerically controlled hardware including milling and turning centers and flexible manufacturing systems. Programming in languages common to computer numerically controlled machine tools. Computer-controlled machining of industrial materials including aluminum, brass, steel, plastic, expanded foam, and wax. (6 lab hours) (Minimum course fee, \$5)

## 182. Woodworking Specialties <br> (3; max total 6)

Prerequisite: I T 82 . Specialized activities related to the field of wood-working: upholstering, inlaying and veneering, advanced wood turning, plastic laminate fabrication, bending and laminating, molded plastic parts, paneling, caning, glass and mirrors, picture framing, furniture restoration, wood finishing. (6 lab hours) (Course fee variable; not less than \$10)
184. Wood Technology (3)

Prerequisite: I T 74. Wood structure, identification, physical testing; study of wood products and processing industries. (6 lab hours; field trips) (Course fee variable; not less than \$2)
185. Advanced Wood Machining (3) Prerequisite: I T 82. Design, construction, and finishing of furniture, cabinet work, millwork. Production methods, analysis of cutting processes. (6 lab hours) (Course fee variable; not less than $\$ 10$ )

## 190. Independent Study

## (1-3; max see reference)

See Academic Placement - Independent Study. Approved for SP grading. (Course fee variable)

## 191T. Technical Topics in

Industrial Technology (1-3; max total 6) Prerequisite: permission of instructor. Investigation and analysis of selected subjects in industrial technology. (2-6 lab hours)

## 192. Manufacturing

Technologist Certification Review (1)
Prerequisite: junior standing. Preparation for Engineer-in-Training Examination in Manufacturing by the Society of Manufacturing Engineers. Basic mathematics, physics statics, and strength of materials. Materials science and metallurgy. Engineering drawings and blueprint reading; metrics and the SI system. CR/NC grading only. (Former I T 191T section)
194. Cooperative Education in Industrial Technology (1-4; max total 12) Prerequisite: courses appropriate to the work experience; permission of department cooperative education coordinator; junior standing. Integration of work experience with academic program, individually planned through program adviser. CR/NC grading only.

## 195. Modern Industrial

Facilities (1-2; max total 4)
Observation, analysis, and critique of production methods and facilities of selected industries of interest to industrial technology and/or industrial arts majors within options, emphases, or unit areas of study. (Course fee variable)

## 198W. Technical Writing (3)

Prerequisite: Engl 1; completion of 56 units. Preparation of technical reports, research proposals, specifications, resumes, and correspondence using effective writing techniques, formats, and styles. Meets upper-division writing skill requirement for graduation. (Former I T 198)

## 199. Senior Problem in

Industrial Technology (2)
Prerequisite: I T 198 W and permission of instructor. Approved problem or research project in the area of the student's option and emphasis. Approved for $S P$ grading.

## Construction Management (Const)

## 5. Construction Materials (3)

Introduction to basic construction materials: concrete, masonry, metals, woods, thermal materials, finishes, equipment, and specialties. (2 lecture, 2 lab hours; field trips)
10. Estimating and Bidding (3)

Prerequisite: Const 5, 42. Basic methods used to evaluate, fix cost, calculate worth, make accurate quantity take-offs and labor time estimates; preparing bids for prospective buyers. (6 lab hours)
31. Architectural Graphics (3)

Introduction to basic techniques and media used in architectural graphic communication including: perspective techniques, sciagraphy, models, and photography; emphasis on various ways of making drawn representations of architectural design proposals. (6 lab hours)

## 32. Architectural Design (3)

Introduction to architectural design theory; analysis of architectural design problems, assessment of human needs, establishment of architectural design criteria and
development of architectural design concept. (6 lab hours)
42. Architectural Drawing (3)

Architectural drafting techniques and standards; progress from fundamentals to completion of light construction working drawings, floor plans, elevations, details, application of building codes. (6 lab hours) (Course fee, \$5)
50. Basic Building Systems (3)

Exploration of theoretic principles relating to the various building systems. (2 lecture, 2 lab hours; field trips)
105. Construction Structures (3)

Prerequisite: Const 5; Phys 2A; Math 5 (recommended). Properties, strength, and functional applications of basic construction materials: woods, metals, and concrete. Recent developments in new materials and applications. (2 lecture, 2 lab hours; field trips)

## 107. Advanced

Construction Structures (3)
Prerequisite: Const 105. Analysis of construction materials in its application to different structural systems. (Former Const 191T section)
114. Construction Management (3)

Prerequisite: senior standing in construction. The construction manager's relation to internal organization, owner, architect, engineer, public, press, legal aid, unions, trades, equipment, utilities, insurance, finances, government, and others.
116. Scheduling and Control (3)

Prerequisite: IT 102 recommended; senior standing. Critical path method; planning, scheduling, and control of construction projects including logic, time assignment and computation, analysis, replanning, diagramming practices, monitoring and updating, computer utilization; role of management. (6 lab hours)
120. Construction Contracts and Specifications (3)
Prerequisite: Const 42. Principles and methods for developing and applying construction contracts and specifications.
122. Construction Laws (3)

Laws, acts, orders, bulletins, rules, and regulations affecting the construction industry.
124. Construction Labor Law (3)

Prerequisite: Const 122. Study of federal and state labor-oriented regulations as applied to construction industry practices. Interaction between technical and legal
aspects of collective bargaining, pre-hire agreements, hiring hall referrals, open shop construction, work force management, labor standards, employment discrimination, strikes, and picketing.

## 131. Advanced

Architectural Graphics (3)
Prerequisite: Const 31 . Architectural graphic techniques as tools of three dimensional analysis and representation in the design process. (6 lab hours)
132. Advanced Architectural Design (3) Prerequisite: Const 32. Development of understanding of the forces affecting the man-made environment through function identification, systems analysis, and development of architectural design solutions to problems at an intermediate level of complexity. (6 lab hours)
134. Architectural Design Problems (3) Prerequisite: Const 132 or permission of instructor. Conceptual planning and design of a large scale architectural project responding to the social and cultural context of the environment. Employing team research and analysis leading to the design and presentation on individual solutions with graphic and three-dimensional techniques. (6 lab hours)

## 142. Computer-Aided

Construction Detailing (3)
Prerequisite: Const 42. Application of computers to planning and details for wood, concrete, masonry, and steel structures. (6 lab hours; field trips)
144. Construction Site

## Planning and Development (3)

Prerequisite: Const 142. Analysis of land development; site investigation, grading, street piping systems, and landscaping. (6 lab hours)

## 150. Heavy Construction (3)

Prerequisite: Const 105, 116, 120, senior standing. Problems and methods of solution in heavy construction from earth moving, paving, compacting to tunneling; administrative procedures, quantity surveying, estimating, scheduling, and bidding. (2 lecture, 2 lab hours; field trips)
151. Heavy Building Construction (3)

Prerequisite: Const 150. Problems and methods of solutions in the construction of heavy buildings; site, excavations, foundations, framework, heavy timber, reinforced concrete, structural steel, masonry construction and related elements. (2 lecture, 2 lab hours; field trips)

## 162. Mechanical

Systems in Construction (3)
Heating, ventilating, and air conditioning systems in buildings and plants; plumbing systems, California Energy Code, heat loss and gain, system sizing and life cycle cost analysis. Lectures, demonstrations, guest speakers from industry. (Field trips)
164. Building Electrical Systems (3)

Prerequisite: I T 52. Electrical systems for power, light, heat, signals, and communications in commercial, industrial, and residential buildings. (6 lab hours; field trips) (Course fee, \$7)
166. Solar Energy in Building (3)

Prerequisite: Const 162. The practical application of solar energy for hot water and passive heating of buildings. Coverage will include performance calculations, manually and by computer, life cycle cost calculations, systems sizing, determination of available solar energy, and solar materials and components. (Former Const 160)

## 190. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Course fee variable)

## 191T. Technical Topics in

 Construction (1-3; max total 6)Prerequisite: permission of instructor. Investigation and analysis of selected subjects in construction. (2-6 lab hours)

## 193. Supervised Work Experience

 (3-6; max total 6)Open only to industrial arts and industrial technology majors. Prerequisite: junior standing and permission of instructor. Supervised work experience in all technological fields relating to the various industries. Periodic consultations with instructor. CR/NC grading only.

## Graphic and Interior Design (GID)

43. Visualization and Illustration (3) Not open to students with credit in IEd 141 or GID 141. Rapid visualization as a means of quick visual communication for the illustrator or designer. Illustration techniques include projects in pencil, pen, markers, shading, and opaque water color. (6 lab hours)
44. Computer Imaging
and Publishing (3)
Publication imaging using the computer. Typography: typeface selection, spacing, positioning, readability, legibility; page layout for various style publications. Illustrations: computer drawing, tints, clip art; integration of illustrations and type. PageMaker and other programs on the Macintosh computer. (6 lab hours) (Former GID 172T section)
45. Interior Design Foundations (3) Prerequisite: recommend GID 71 concurrently. Social, psychological, economic, and aesthetic aspects of interior design.

Integration of design principles; space planning, furniture selection, creative expression, and consumer information pertaining to living space. (Former IDH 70)
71. Residential Interior Design (3)

Prerequisite: GID 70 (or concurrently); Const 42. Introductory residential experience in interior design. Studio work, creative aesthetics, floor plans, elevations, electrical plans, spatial arrangements, graphics, two dimensional design, introduction to ink, lettering, set of working drawings. (6 lab hours) (Course fee, \$5) (Former IDH 71)
107. Applied Color and Design (3)

Introduction to the application of color and design; properties of color, simple graphic methods, and three dimensional design. Studio work and critiques. (6 lab hours) (Former IDH 107)

## 110. Basic Building

and Mechanical Systems (2)
Not open to students with credit in Const 50 or 162 . Fundamentals of building systems as related to interiors, including construction products and techniques, acoustics, electrical, plumbing, heating, ventilating, and cooling. (Field trips) (Former GID 172T section)
111. Design Presentation Techniques (3) Prerequisite: GID 70. Introductory experiences in creative design presentation and technique, architectural graphics, product presentation boards, three dimensional model design problems, and use of color media. (6labhours) (Course fee, \$5) (Former IDH 72; GID 72)
112. Space Planning (3)

Prerequisite: GID 71, Const 42. Introduction to interior space planning for typical residential and commercial projects. Design considerations, human dimensions, anthropometrics. Elderly, physically disabled and basic design reference standards. Design for special populations. (6 lab hours) (Course fee, \$5) (Former IDH 172T section; GID 117)

## 113. Interior Design Tours (3)

A sampling of architecture and interior space. Tours include northern, central, and southern California architecture. Residential and contract showrooms visited. Expenses for required off-campus visits incurred by the student. (6 lecture-lab hours) (Course fee, \$150) (Former IDH 173; GID 173)
114. History of Architecture and Interiors: Ancient World to Baroque Period (3)
Prerequisite: course in art history recommended. A stylistic survey of characteristics common to each historical period of architectural and furniture design. (Former IDH 175A; GID 175A)

## 115. History of Architecture

and Interiors: Baroque to Modern (3)
Prerequisite: course in art history recommended. A stylistic survey of characteristics common to each historical and modern period of architectural and furniture design. (Former IDH 175B; GID 175B)
130. Interior Lighting (3)

Prerequisite: GID 70, 110. Introduction to lighting of residential and commercial interiors. Laboratory testing and lighting calculations. (2 lecture, 2 lab hours) (Former IDH 182; GID 182)

## 131. Interior Design

Materials and Specifications (3)
Prerequisite: GID 70; F M 20. Selection, specifications, and computations of interior design materials available for the residential and commercial market. Consumer and specifier considerations; application, distribution, installation, and evaluation. Lecture, small group research, and field trips. (2 lecture, 2 lab hours) (Course fee, \$10) (Former IDH 176; GID 176)

## 132T. Topics in Graphic

 and Interior Design (1-4; max total 12 if no topic repeated)Prerequisite: GID 70, 111. Topics related to graphic and interior design. Some topics may have labs. (Former IDH 172T; GID 172T)

## 133. Professional

Interior Design Practices (3)
Prerequisite: GID 70, 131; Acct 3. Basic principles, procedures, and office systems necessary to professionally organize and carry through a creative interior design project from the original client contact to final billing and collecting. ( 1 lecture, 4 lab hours) (Former IDH 177; GID 177)
134. Restoration and Preservation (3).

Prerequisite: GID 114, 115, 131, 174, and permission of instructor. Principles and methods of restoration, case studies of the restoration and preservation of historically significant structures in the United States. Working drawings, details, and specifications. (2 lecture, 2 lab hours) (Former IDH 180; GID 180)
135. Commercial Interior Design (3)

Prerequisite: GID 70, 71, 111, 112, 144;
Const 42. Introduction to the application of contemporary designs and office systems as related to the field of light commercial interiors. (6 lab hours) (Former IDH 170; GID 170)
142. Advertising Design (3)

Prerequisite: I T 60. Advertising and illustration problems from rough sketches to finished artwork. Emphasis on good design and professional techniques. Preparation of artwork for reproduction including overlays, art type, photo mechanical procedures, and advertising production methods. (6 lab hours) (Course fee, \$2) (Former I Ed 142)
143. Rendering (3)

Prerequisite: GID 43. Exploration of a variety of illustration techniques as they apply to interior design, commercial art, and advertising. Emphasis on professional application and quality. Black and white and full color techniques. (6 lab hours) (Course fee, \$5) (Former I Ed 143)

## 144. Perspective Drawing (3)

Prerequisite: GID 43 recommended. Theory of one-, two-, and three-point perspective, followed by extensive application. Laws of perspective and light and shade as applied to increasingly complex subject matter. (6 lab hours) (Former I Ed 144)

## 146. Advanced Rendering

(3; max total 6)
Prerequisite: GID 143. Advanced rendering for industrial design, architecture, interior design, commercial art, and illustration. Includes limited and full color problems with emphasis on professional presentation. Individual exploration encouraged. (6 lab hours) (Former I Ed 146)

## 147. Advertising Illustration (3)

Prerequisite: GID 43. Illustration as it applies to advertising situations. Composition and techniques designed for quick reading and ease of execution. Black and white and limited color. (6 lab hours) (Course fee, \$5) (Former I Ed 147)

## 148. Advanced Advertising Design (3; max total 6)

Prerequisite: GID 142. Advanced advertising/graphic design from conceptual to finished art. Includes problems and more advanced approaches relating to various media such as logo design, billboards, TV, etc. Emphasis on production procedures, professionalism, and building a strong portfolio, including critiques. (6 lab hours) (Former I Ed 148)

## 150. Design Exhibits and

Competitions (3; max total 6)
Prerequisite: GID 135; permission of instructor. Provides a structure for students to participate in creative design shows or manufacturer design competitions and exhibits. (6 lab hours) (Former IDH 179; GID 179)

## 151. Advanced

Residential Interior Design (3)
Prerequisite: GID 114, 115, 131, 135, 144; I T 115. A series of advanced creative design solutions for residential environments. Design for new construction, remodeling, and restoration for a variety of lifestyles, budgets, and physical conditions. Working drawings, presentation techniques, and specifications. (6 lab hours) (Course fee, \$5) (Former IDH 178A; GID 178A)
152. Interior Design

Practicum (1; max total 6)
Prerequisite: senior standing; GID 131,151, or 155; permission of instructor. Supervised professional practice in interior design related business or industry. (Former IDH 181; GID 181)
155. Advanced

Commercial Interior Design (3)
Prerequisite: GID $114,115,131,135,144$; I T 115. A series of design solutions for a diversity of commercial spaces: public buildings, health care, food service, professional offices and merchandising facilities. Space planning, equipment lighting, systems, codes, layout, presentation, and specifications. (6 lab hours) (Former IDH 178B; GID 178B)

## 165. Typography (3)

Prerequisite: I T 60. Typographic principles, elements, and techniques: type classification and selection, copyfitting, design and layout. Modern composition; computerized phototypesetting systems. Paste-up techniques. (6 lab hours; field trips) (Course fee, \$4) (Former I T 165)
174. Contemporary

Architecture and Interiors (3)
Emergence of contemporary architecture and interiors, forces, architects and designers responsible for 20th century designs. Emphasis on change in form, style, materials, and client demand. (Former IDH 174)

## 190. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Course fee variable) (Former IDH 190)

## GRADUATE COURSES

(See Course Numbering System.)
The following graduate courses are open only to students who have been accepted into a graduate program. Students who are not in graduate standing should contact the department graduate coordinator prior to enrolling.

## Industrial Technology (I T)

223. Technology and Society (3)

Study of the developmental history of technology and its impact on people and their institutions. Topics focus on the consequences of rapid technological change as it relates to education and training, energy demands, and environmental concerns. (Former I Ed 223)
270. Technical Problems (2-3; max total 9 if no area repeated; max combined total with IT 290 is 12) Technical work in selected areas; research under supervision of instructor. Approved for SP grading. (Former I Ed 270)
280. Research Methodology (3)

Prerequisite: ERF 153 and advancement to candidacy. Seminar in research procedures in industrial education and technology; basic bibliography, research form and methods. (Former I Ed 280)

## 282. Advanced Communication

Concepts and Visual Presentations (3)
Prerequisite: I T 115. Preparation and use of agendas, memoranda, business letters, electronic mail, fax communications. Video development and slide and transparency preparation and the incorporation of these media into presentations. Interview techniques, resume evaluations, dictation skills, professional relations with personnel, business etiquette. (Former I Ed 284T section)

## 283. Advanced

Materials and Processes (3)
Prerequisite: IT 114. Chemical and physical properties of metals, polymers, ceramics and composites. The atomic structure and phases of matter emphasizing crystalline and amorphous solids. Materials technology of metallic, polymeric, ceramic, and advanced composites are stressed. (Former I Ed 284T section)

284T. Topics in Industrial
Technology (2-3; max total 9 toward master's degree if no area repeated) Advanced study in technical areas; current industrial practices, developments and trends related to design, materials, and processes. (Former I Ed 284T)

## 285. Advanced

Manufacturing Systems (3)
Prerequisite: I T 74, 115. A comprehensive study of modern manufacturing systems. Topics include plant layout, material control and transfer, operations measurement, transfer lines, CNC and DNC, machine tool network, computer-integrated manufacturing, flexible manufacturing systems, group technology, robotics, and manual assembly systems. (Former I Ed 284T section)
290. Independent Study
(1-3; max total 6 if no area repeated; max combined total with I T 270 is 12) See Academic Placement - Independent Study. Approved for SP grading. (Former I Ed 290)

## 298. Project (2-4; max total 4)

Prerequisite: I T 280; prior advancement to candidacy. See Criteria for Thesis and Project. Completion of an approved project appropriate to the candidate's area of specialization involving the development of a physical prototype or other similar professional problem-solving activity with extensive written documentation. Abstract required. Approved for $\boldsymbol{S P}$ grading. (Former I Ed 298)

## 299. Thesis (2-4; max total 4)

Prerequisite: I T 280; prior advancement to candidacy. See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for SP grading. (Former I Ed 299)

## IN-SERVICE COURSE

(See Course Numbering System.)

## Industrial Technology (I T)

341. Problems in Industrial Arts
(2-3; max total 6 if no area repeated) Prerequisite: permission of instructor. Intensive analysis of a selected area in industrial arts or industrial technology. Research paper, project, or reports. (Former I Ed 341)

# AGRICULTURE Plant Science and Mechanized Agriculture 

Join the leader in science, technology, and management. The Department of Plant Science and Mechanized Agriculture offers programs in production with classes in business management and in science and technology. Within the production or science emphases, students select an option in crop science (agronomy and vegetable crops), ornamental horticulture, plant protection, soils/ irrigation, or viticulture/tree fruit.
Additionally, the department offers an agricultural science degree with a concentration in agricultural engineering technology that includes classes in business management or science and technology.
Courses offered by the department integrate physiology, soils and nutrition, cultural practice, protection against plant pests, marketing, storage and handling practices, and mechanization to provide students with a well-balanced background for positions in plant/soil sciences, crop production, and agricultural engineering technology. In addition, courses in areas such as micropropagation, plant improvement,
and seed technology provide students with a background for further studies in plant biotechnology.
Each degree option integrates departmental curricula with the basic sciences (e.g., biology, chemistry, mathematics, physics) and management skills to build a well-balanced foundation.
The irrigation and viticulture programs have received the Western Region and National Awards for Excellence in Agricultural Technology Instruction respectively. These prestigious awards are sponsored by the National Association of State Departments of Agriculture and R. J. Reynolds Industries Inc.

For information about laboratory units and supervised projects, see School of Agricultural Sciences and Technology.

## Career Opportunities

The courses offered within each of the disciplinary areas in the department provide the required background and experience to qualify graduates of these programs for many exciting, well-paying careers. For a list of career opportunities, contact the department office.

School of Agricultural
Sciences and Technology
Department of Plant Science and Mechanized Agriculture
GARY L. RITENOUR, Chair
Agriculture Building, Room 220
(209) 278-2861
B.S. in Plant Science

Options: Crop Science (Agronomy and Vegetable Crops), Ornamental Horticulture, Plant Protection, Soils/ Irrigation, Viticulture/Tree Fruit
Emphases: Production Management, Science and Technology
B.S. in Agricultural Science

Option 1: Production
Concentration: Agricultural Engineering Technology
Programs of Study: Automation, Food
Technology, Power and Machinery, Soil and Water

## M.S. in Plant Science

Options: Crop Science, Plant Protection, Soil Science/lrrigation

Minor in Plant Science
Minor in Agriculture
(Agricultural Engineering Technology)

## Faculty

Gary L. Ritenour, Chair
Arthur J. Olney, Graduate Coordinator

Sayed A. Badr
Mahendra S.
Bhangoo
Earl H. Bowerman
James R. Brownell
Bendt A. From
Allan A. Hewitt
Mahlon M. S. Hile

Harry P. Karle
Joo I. Kim
Gary M. Koch
Charles F. Krauter
Howard J. Martin
Mark A. Mayse
Vincent E. Petrucci
Julian W. Whaley
The faculty hold advanced degrees in their fields of specialization from leading agricultural institutions and universities in the United States. They are well-qualified teachers who, through extensive research and interaction with major agricultural industries, bring a wealth of basic and practical information into the classroom.
A faculty academic adviser is assigned to work with each student to plan and design an individualized program of study to meet the student's educational and career objectives.

Most of the faculty are involved in one or more of the California Agricultural Technology Institute Centers - the San Joaquin Experimental Range, the Center for Irrigation Technology, and the Viticulture and Enology Research Center. The centers offer excellent opportunities to undergraduate and graduate students who gain experience by participating in applied research projects that address and help solve problems faced by California's agricultural industry.

## Bachellor of Science Degree Requirements

## Plamt Science Major

Production Management Emphasis
Options: Crop Science, Ornamental Horticulture, Plant Protection, Soils/Irrigation, Viticulture/Tree Fruit
Recommended curriculum for students interested in crop science (agronomy, vegetable crops), ornamental horticulture, plant protection, soils/irrigation, or viticulture/tree fruit, with emphasis on production, business management, and marketing.

Units
Generall Education 51
(including 9 upper-division
units, after completing 56
units of coursework)
CORE
Category 3: Plant 99
(recommended)

## BREADTH

Division 1: Chem 3A (required)
Division 2: Bot 10 (required)
Division 3: Plant 105
(recommended)
Division 4: CFS 38 or FScN 53
(recommended)
Division 8: Ag Ec 1
(recommended)

## CAPSTONE

Either cluster recommended:
Agriculture and Government
Policy: Ag Ec 150 and Pl Si 150 or Phil 125
Energy and Society: I T 106
and P Sci 168 or Geog 134 or
Econ 117
Major
(including 20 upper-division units)
Plant Science Core.
Pl Pr 103, 105, 106; SI 2, 100, 100L
Option
Plant 150 (required)
Select 3 units from Plant 180, 190 and/or 196 (required) Select 23 units of departmental courses in consultation with adviser ( 15 units must be from one of the following option categories and 12 of those units must be upper division)
Crop Science - Agronomy
and Vegetable Crops
Ornamental Horticulture
Plant Protection
Soils/Irrigation
Viticulture/Tree Fruit
Additionall requirements.
Upper-division writing skills requirement by examination or Plant 110W
Chem 3B
Management courses
AgEc 31, 110N, 117, 120 or 130, 164
Electives .11-13
Courses supplementary to the major are selected in consultation with your adviser.
Totall requirements. .$\overline{128}$
(including 40 upper-division units)

## Advising Notes

1. New students should request a program of study check sheet from the department.
2. Meet with your academic adviser prior to registration each semester.
3. General Education courses designated as required by the department are prerequisites to many courses in the program of study. The General Education requirement of 51 units may be exceeded depending upon your selection of courses.
4. $C R / N C$ grading is not permitted for courses included in the major.
5. Upper-division courses (i.e., 100 -level courses) may not be applied toward the 40 upper-division unit degree requirement until 45 lower-division units toward the degree have been completed.
6. The upper-division writing skills requirement can be met by passing the university Upper-Division Writing Examination (UDWE) or by taking an approved upper-division writing skills course. One unit of credit (i.e., English 100W) may be earned for passing the exam; 3 units of credit is earned by obtaining a letter grade of $C$ or higher in an approved course (i.e., Plant $110 \mathrm{~W})$. In either case, the requirement will have been met.
7. One semester prior to graduation, contact your academic adviser to prepare and file an official Certification of Major Requirements form. Your Application for Graduation cannot be processed by the Evaluations Office until this form has been submitted.
8. Students interested in becoming Certified Professional Agronomists, Crop Scientists/Specialists or Soil Scientists/ Specialists should consult with their department faculty adviser for additional requirements for certification.

## Pllant Science Major

Science and Technology Emphasis
Options: Crop Science, Ornamental Horticulture, Plant Protection, Soils/Irrigation, Viticulture/Tree Fruit
Recommended curriculum for students interested in pursuing a high technology career in crop science (agronomy, vegetable crops), ornamental horticulture, plant protection, soils/irrigation, or viticulture/tree fruit. Also recommended for students planning to pursue graduate study in plant science and for those who wish to become certified professional agronomists, crop scientists/specialists, or soil scientists/specialists.

## BREADTH

Division 1: Chem 3A (required)
Division 2: Bot 10 (required)
Division 3: Plant 105 (recommended)
Division 4: CFS 38 or FScN 53 (recommended)
Division 8: Ag Ec 1
(recommended)

## CAPSTONE

Either cluster recommended:
Agriculture and Government Policy: Ag Ec 150 and Pl Si 150 or Phil 125
Energy and Society: I T 106 and P Sci 168 or Geog 134 or Econ 117
Major. .45
(including 20 upper-division units)
Plant Science Core
Pl Pr 103, 105, 106; SI 2, 100, 100L
Career Option
Plant 99 (required)
Select 3 units from Plant 180, 190, 196 (required)
Select 23 units of departmental courses in consultation with adviser ( 12 units must be from one of the following option categories and 9 of those units must be upper division)
Crop Science - Agronomy and Vegetable Crops
Ornamental Horticulture
Plant Protection
Soils/Irrigation
Viticulture/Tree Fruit
Additionall requirements.
Upper-division writing skills requirement by UDWE or Plant 110W
Science courses
Biol 120; Bot 104; Chem 8 and either Chem 4 and 105, or 150; Micro 20
Electives.
Courses supplementary to the major, selected in consultation with department faculty adviser, are strongly recommended. Zool 10 recommended for Plant Protection Emphasis.
Totall requirements .128 (including 40 upper-division units)

## Advising Notes

See Advising Notes, Plant Science Major, Production Management Emphasis.

## Plant Science Minor

Options: Crop Science, Ornamental Horticulture, Plant Protection, Soils/Irrigation, Viticulture/Tree Fruit

The 21 units of courses will constitute a basic background in plant science. The program is similar to the major core and provides students with an introduction to the broad spectrum of plant science. Other majors in the School of Agricultural Sciences and Technology, particularly the Agricultural Business and Education majors, require students to be knowledgeable of plant science in order to pursue their careers or teach the subjects of agricultural production. This minor would be a way in which students could acquire those courses they need and get credit for completing a program of study rather than only a series of courses.

Units
Select from the following .3
Plant 2: Plant Propagation
Plant 96/196: Crop Project* (AET 3 and instructor's permission)
Plant 150: Crop Improvement* (Bot 10 or Biol 10)
Select from the following. $\qquad$ .6
Pl Pr 103: Economic Entomology* (Bot 10 or Biol 10 or Zool 10)
Pl Pr 105: Weeds* (Bot 10 or Biol 10 and Chem 3A)
Pl Pr 106: Plant Pathology* (Bot 10 or Biol 10)
Select from the following. .. 3
SI 2: Agricultural Water
SI 100: Soils* (Chem 3A)
Select from one of the option areas
in Plant Science (at least 6 units
must be upper division)
Total 21
*Course requires a prerequisite.

## Bachellor of Science

 Degree Requirements
## Agricullturall Science Major

Option 1: Production (Agricultural Engineering Technology)
The flexible agricultural science degree enables students interested in agricultural engineering technology related careers to choose appropriate programs of study in power and machinery, automation, food technology, and soil and water.
The power and machinery program of study is the recommended curriculum for students interested in designing, testing, installing, selling, servicing, or recommending agricultural equipment. An
alternative curriculum is available in this program of study for students wishing to gain necessary business management background while increasing their knowledge of mechanized agriculture.
The automation program of study is the recommended curriculum for students wishing to obtain a strong background in science and industrial technology devoted primarily to agricultural electrification, construction, automation, waste management, and the development and management of farm equipment.
The food technology program of study is the recommended curriculum for students wishing to obtain a strong background in science and technology devoted primarily to food production operations, processing and handling, food industry management, and waste management.
The soil and water program of study is recommended for students interested in designing, fabricating, testing, installing, selling, servicing, or recommending irrigation facilities and systems.

Upper-division writing skills requirement by examination or Plant 110W
Power and Machinery
Ag Ec 31; SI 2, 100, 100L; Phys 2A
Students desiring business management courses take: Ag Ec 28, 110N, 120, 160
Students not desiring business management courses take: Const 105; I T 74
Automation
Phys 2A
Select 25-27 units in consultation with adviser from the following courses: I T 102, 104, 118, 119, 131, 132, 177, 178; Mgt 104, 106

## Food Technology

Chem 3B, 8, 150; Micro 20; FScN 1, 110, 125; Ag Ec 120, and 124
Soil and Water Phys 2A; Ag Ec 28, 110N; IT 41; Plant 12; and SI 113
Electives $.0-17$
It is strongly recommended that courses supplementary to the program of study be selected in consultation with the faculty adviser.
Totall requirements .128 (including 40 upper-division units)

## Advising Notes

See Advising Notes, Plant Science Major, Production Management Emphasis

## Agriculture Minor

A Minor in Agriculture (agricultural engineering technology) consists of 21 units of which 9 must be upper-division. At least 12 units must be taken in the AET prefix. The minor program is planned with an adviser and must be certified by the department chair and the school dean. The certified minor program is filed with the Office of Evaluations.

## Master of Science Degree Requirements

The Master of Science degree in Plant Science with authorized options in crop science, soils and irrigation, and plant protection is a 30 -unit program designed to provide advanced studies and in-depth knowledge in the fundamentals of plant physiology and experimental design, as well as technical writing and formal presentation of research reports.
This degree is for individuals seeking career advancement in agronomy, agricultural research and development, plant physiology, pest management, plant pathology, and soils and irrigation. Graduate courses are offered in the late afternoon or evening permitting students to earn their degree within two years when working closely with an adviser.
Admission Requirements. The Master of Science degree in Plant Science assumes preparation equivalent to a Bachelor of Science in Plant Science. The following courses or equivalents are expected to be completed prior to enrollment in courses to be applied to the master's program: Chem 3A, 3B (or 2A and 2B) and 8; Bot 10, 104; Biol 135 or equivalent; Plant 99 or

Math 101; SI 2, 100, 100L; Pl Pr 103, 105, 106.

Admission by the university does not imply acceptance in the master's program in plant science. Applicants whose preparatory education was principally in a language other than English must earn a minimum TOEFL score of 550 .
Full classified standing requires a baccalaureate degree equivalent to a Bachelor of Science in Plant Science; a minimum 2.75 GPA (last 60 semester units); completion of prerequisite coursework; separate school application, three letters of reference, and a statement of 500 words or less indicating reasons for pursuing a master's degree.
The student shall achieve a minimum total score of 880 on the Graduate Records Examination (GRE) Verbal and Quantitative sections. The student shall achieve a minimum score of 450 on the Verbal section of the GRE. At the discretion of the department chair, a lesser score on the Verbal section of the GRE may be accepted by the department as long as the combined score of Verbal and Quantitative sections is 880. Conditional classified standing may be granted by the department to applicants who have a minimum GPA of 2.5 (last 60 semester units), and who have 9 or fewer units of prerequisite courses to complete. Students must achieve a 3.0 GPA on prerequisite coursework.
Students must achieve full classified standing in the program by the semester in which a maximum of 10 units to be used toward the master's degree are completed.
Students are not normally accepted into the Master of Science in Plant Science degree program if they have more than 10 units of prerequisite courses to complete. Prerequisite coursework cannot be used to fulfill the 30 unit master's program requirements. Potential graduate students who have 10 or more units of prerequisite courses to complete are encouraged to enroll as unclassified postbaccalaureate students in plant science at CSUF and apply to the master's program when they have 9 or fewer units of prerequisite courses to complete. Students must achieve a 3.0 GPA on prerequisite coursework.

## Program Requirements <br> Thesis Pllam

All students must complete a 9-unit common core. Students focus their program on an authorized option to meet educational/ professional goals by taking the 9 units of
coursework within the selected option and by the appropriate selection of 5 units of approved electives, of which a maximum of 5 units can be 100 series. A 3-unit thesis completes the program of study.

Units
Core .9
Agri 200, 220; Plant 257
Additional requirements
Agri 201; Plant 270.
Option
Crop Science: Plant 252, 254, 255
Soils/Irrigation: Plant 253, 256, 259
Plant Protection: Plant 251, 258, 261
Electives ...............................................
In consultation with the adviser, students select from the approved elective list. A maximum of 5 units may be 100 level.
Culminating experience $\qquad$
Plant 299
Total minimum requirements $\qquad$ 30

## Comprehensive Examnination Plam

All students must complete a 9-unit common core. Students focus their program on an authorized option to meet educational/ professional goals by taking the 9 units of coursework within the selected option and by the appropriate selection of 8 units of approved electives, of which a maximum of 6 units can be 100 series. A comprehensive examination completes the program of study.

## Units

Core ...................................................... 9
Agri 200, 220; Plant 257
Additional requirements13

Agri 201; Plant 270 ........................ (4)
Option
Crop Science: Plant 252, 254, 255
Soils/Irrigation: Plant 253,256,259
Plant Protection: Plant 251, 258, 261
Electives .8

In consultation with the adviser, students choose from the approved elective list. A maximum of 6 units may be 100 level.
Culminating experience $\qquad$
Comprehensive examination
Total minimum requirements 30

## Graduate Advising Notes

1. Several of the approved elective courses have prerequisites other than courses listed as admission requirements.
2. To obtain the required school application form and more specific information concerning the Master of Science in

Plant Science degree, interested students should call or write the department office. Upon acceptance in the Master of Science in Plant Science program, students should obtain the Graduate Student Handbook from the department office.
3. Upon acceptance into the M.S. in Plant Science program, students will be assigned an initial faculty adviser by the department chair. Students may subsequently select a faculty adviser upon obtaining his/her approval and notifying the department office of that selection.
4. Electives should be selected from the approved list of 100 and 200 series courses listed in the Graduate Student Handbook. Under special circumstances and with prior written approval from the adviser and department chair, a student may select an elective course other than those on the approved list of 100 and 200 series courses listed in the Graduate Student Handbook.
5. To progress through the graduate program, the student must:
a. Maintain a minimum GPA of 3.0
b. Complete all prerequisite coursework
c. Attain classified standing
d. Meet the university graduate writing requirement
e. File for advancement to candidacy
f. Pass the department qualifying examination
g. Complete the program requirements
h. File a master's thesis committee assignment form
i. Formally present and defend the thesis research results
6. Advancement to candidacy requires the completion of 9 program units in residence, meeting the university graduate writing requirement, and filing a Petition for Advancement to Candidacy a minimum of one semester prior to enrollment in thesis and within the deadline.
7. The student may meet the university graduate writing requirement by earning a minimum of 450 verbal on the GRE. If a minimum of 450 verbal is not met by a student, the student shall meet the requirement by earning a score of 80 or higher on the UpperDivision Writing Examination (UDWE) or by earning a $\boldsymbol{B}$ or better in a designated W course to be specified by the graduate committee of the School of Agricultural Sciences and Technology.
8. All students must successfully complete the department qualifying ex-
amination, which is taken as soon as possible after completing the required plant science core courses - Agri 200, 201, 220 and Plant 257. Information on the department qualifying examination is included in the Graduate Student Handbook.
9. See Division of Graduate Studies and Research section in this catalog for university requirements.

## COURSES

Note: Active immunization against tetanus (available through Student Health Services) is a prerequisite for registration in any laboratory course in agriculture and for any student employment on the University Farm.
Note: Cost to the student of extended field trips varies each semester depending upon itinerary. The student should ask the course instructor.

## Plant Science (Plant)

1. Introduction to Plant Science (3)

Principles of plant structure, heredity, physiology and climate in relation to growth, adaptation and management of crops. Emphasis is placed on food and fiber crops. (Former Plant 10)

## 2. Plant Propagation (3)

Principles and practices of propagating plants, sexual and asexual. Seeds, cuttings, layering, grafting and budding. Propagation media and rooting aids. (2 lecture, 3 lab hours) (Former Plant 20)
12. Microcomputers in Plant Science (3) Prerequisite: intermediate algebra. An introduction to plant science problems and exercises involving the microcomputer. Crop production, soils, irrigation, and pest management data will be handled with spreadsheet and word processing programs. (2 lecture, 3 lab hours) (Former Plant 112)

## 80. Undergraduate

Research (1-4; max total 4)
Open to freshmen and sophomores with permission of instructor. Exploratory work on a suitable agricultural problem in plant science. Approved for $S P$ grading.
96. Crop Projects (1; max total 4) Prerequisite: AET 3 or equivalent; Cr Sc 1, VTF 1 , or OH 1 ; and permission of instructor. Grow a crop on the campus farm with faculty guidance - from budget decisions through cultural practices to marketing and sale. Cotton, vegetables, agronomic crops, grapes, fruit, ornamental plants, etc. Earn up to $\$ 600$ per project.
99. Applied Agricultural Statistics (3) Introduction to experimentalmethods and statistical procedures used in agricultural research. Self-paced laboratories utilizing microcomputers in the use of spreadsheet computations, design recognition, statistical analysis, and inference. General Education CORE, Quantitative Reasoning. (1 lecture, 6 lab hours) (Former Plant 100)
134. Microclimatology (3)
(See Geog 114.)
137. Apiculture (3)

Prerequisite: Bot 10 or Biol 10 or Zool 10 . Biology and behavior of honeybees; hive manipulation; diseases and enemies; foraging activities in pollination; production and marketing of honey and beeswax; laws and regulations. (2 lecture, 3 lab hours)

In 1986, a USDA Report stated, "During the next five years, U.S. colleges and universities are expected to produce insufficient numbers of graduates with food and agricultural expertise to fill important scientific and professional roles."

They were right. We have jobs!
150. Crop

Improvement (3)
Prerequisite: Bot 10 or Biol 10. Application of genetic, cytological and environmental principles to improvement of plants; heredity and variation in plants, effects

## 101. Postharvest Handling

of Perishable Plant Crops (3)
Prerequisite: Bot 10 or Biol 10. Principles of handling fresh produce, floral and nursery stocks. Harvesting, packaging, storage, and transportation. (2 lecture, 3 lab hours) (2-day field trip fee, \$50-75)
102. Micropropagation (3)

Prerequisite: Bot 10 or Biol 10; and Bot 104 or Chem 150 or permission of instructor. Principles of plant propagation by aseptic cell and organ culture as a means of rapid cloning, elimination of systemic plant diseases, production of somatic hybrids, ploidy change, and other genetic variants for use in plant breeding. (2 lecture, 3 lab hours)

## 105. Food, Society, and Environment (3)

 Prerequisite: General Education BREADTH, Divisions 1, 2, and 8 completed (or concurrent enrollment). Linkages among food production systems, human social behavior, and environmental quality. Basic principles of environmental and agricultural sciences as applied to interrelationships among social value systems, agricultural activities and environmental resources. General Education BREADTH, Division 3.
## 110W. Dimensions in Agriculture (3)

Prerequisite: Engl 1; completion of 56 units. Current agricultural problems and developments; nature of agricultural industries in a changing world. Interrelationships among agriculture, government, labor, and the public. Meets the upper-division writing skills requirement for graduation.
of environmental factors, biotechnology, self- and cross-fertilization, principles and results of selection and hybridization in plant improvement.

## 170T. Topics in Plant Science

(1-4; max total 6 per discipline
if no topic repeated)
Prerequisite: junior standing. Selected topics in plant science, agronomy, horticulture, and other associated areas. Topics may require lab hours.

## 180. Undergraduate

Research (1-4; max total 4)
Open to juniors and seniors. Exploratory work on a suitable agricultural problem in plant science. Approved for $\boldsymbol{S P}$ grading.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
194. Agricultural

## Internship (1-8; max total 8)

Prerequisite: junior standing; approval of faculty adviser and department chair. Field experience in your career specialty that integrates with classroom instruction. Written reports of knowledge and experience gained are required. $C R / N C$ grading only.
196. Crop Projects (1; max total 4)

Prerequisite: AET 3 or equivalent; Cr Sc 1 , VTF 1, or OH 1 ; junior or senior standing; and permission of instructor. Grow a crop on the campus farm with minimal faculty supervision, from budget decisions through cultural practices to marketing and sale. Cotton, agronomic crops, grapes, fruit, ornamental plants, etc. Earn up to $\$ 600$ per project.

## Crop Science - Agronomy and Vegetable Crops (Cr Sc)

1. Introduction to Crop Science (3)

Cr Sc 1L required for majors. Principles of production for cereal, row, forage and vegetable crops. Culture, insect and disease control, harvesting, storage, and marketing.

1L. Introduction to Crop Science Lab (1) Prerequisite: Cr Sc 1 or concurrently. Systematic examination of structure, classification, crop culture, handling, storage and marketing of selected agronomic crops grown in the San Joaquin Valley. (3 lab hours) (2-day field trip fee, \$35-65) (Former Cr Sc 1A, 1B)
101. Row Crops (3)

Prerequisite: Bot 10 or Biol 10, Cr Sc 1. The culture of beans, cotton, sugar beets, and other fiber and oil crops; varieties, nutrition, insect, disease, and weed control; harvest, storage, uses, and marketing. (2 lecture, 3 lab hours)
102. Cereal Crops (3)

Prerequisite: Bot 10 or Biol 10, Cr Sc 1. The culture of barley, corn, grain sorghum, oats, rice, rye and wheat; varieties, nutrition, insect disease, and weed control; harvest, storage, uses, and marketing. (2 lecture, 3 lab hours) (Two 1-day field trips)

## 103. Forage Crops (3)

Prerequisite: Bot 10 or Biol 10, Cr Sc 1. The culture of alfalfa, silage, irrigated pasture and range related to livestock feed enterprises; varieties, nutrition, insect, disease and weed control; harvesting, uses, and marketing. (2 lecture, 3 lab hours)
104. Seed Production
and Technology (3)
Prerequisite: Bot 10 or Biol 10, Cr Sc 1 . The principles of specialized agronomic seed production; harvesting, mechanical conditioning, storage, treatment and viability testing. (2 lecture, 3 lab hours) (2-3 day field trip fee, \$35-65)
105. Range Management (3)

Prerequisite: Bot 10 or Biol 10, Cr Sc 1 . Identification of range plants; carrying capacity; methods of range improvement, grazing management, water development, rodents, fertilization, reseeding, brush removal; mountain range resources. (2 lecture, 3 lab hours)
111. Warm Season Vegetables (3)

Prerequisite: Bot 10 or Biol 10, Cr Sc 1, 1L. Cultural practices, harvesting, processing, and marketing of warm season vegetables of economic importance to California and
the San Joaquin Valley. (2 lecture, 3 lab hours) (2-3 day field trip fee, \$35-65)
112. Cool Season Vegetables (3)

Prerequisite: Bot 10 or Biol 10, Cr Sc 1, 1L. Cultural practices, harvesting, processing, and marketing of cool season vegetables of economic importance to California and the San Joaquin Valley. (2 lecture, 3 lab hours) (2-3 day field trip fee, \$35-65)
113. Small Farms and Gardens (3)

Prerequisite: Bot 10 or Biol $10, \mathrm{Cr} \mathrm{Sc} 1$. Intensive production of vegetables and small fruits for the small-scale grower and home gardener. Application of organic and synthetic methods of growing food. Principles of composting, mulching, crop rotation, interplanting, natural and synthetic fertilizers, biological and chemical control of insects and diseases. (2 lecture, 3 lab hours)
120. Advanced Crop Science (3)

Prerequisite: Bot 104, six units crop science. Interrelationships between varietal development, pest resistance, modification of crop physiology in agronomic and vegetable crops; the resultant changes in production techniques and productivity; their impact on industry, management, and the environment.

## Ornamental Horticulture (OH)

## 1. Introduction to

Ornamental Horticulture (3)
Planting and maintenance of the home landscape; selection, planting, fertilization, and pruning of plants; lawn planting and care. (2 lecture, 3 lab hours)
2. Introduction to Landscape Design (3) History and development of landscape design. A study of the need for landscaping in modern man'senvironment. Consideration of landscaping practices for the modern home and their effect on the home microenvironment.

## 3. Plant Identification (3)

Identification, growth habits, culture and landscape use of shrubs, vines, ground covers, herbaceous perennials and annual bedding plants. Use of identification keys. (2 lecture, 3 lab hours)

## 4. Floral Design (3)

Principles and rules of design and color using plants as a media; European and Japanese influences; emphasis on American line-mass and contemporary designs. An assortment of arrangements are made in lab. (2 lecture, 3 lab hours) (Course fee, \$25) (Former OH 103)

## 5. Nursery Management I (3)

Prerequisite: Bot 10 or Biol 10, Plant 2, OH 1. Design, construction and utilization of nursery structures; production of annual and perennial nursery stock with emphasis on wholesale nursery practices. (2 lecture, 3 lab hours) (Former OH 104)

## 101. Floriculture I (3)

Prerequisite: Bot 10 or Biol 10, OH 1. The construction, operation and management of greenhouses; cultural and environmental techniques used in the production of summer and fall florist crops. (2 lecture, 3 lab hours; field trip)
102. Floriculture II (3)

Prerequisite: Bot 10 or Biol 10, OH 1. Cultural and environmental techniques used in the production of winter and spring floral crops. (2 lecture, 3 lab hours; field trip)
105. Nursery Management II (3)

Prerequisite: OH 5 and/or permission of instructor. Practices and principles in planning and managing a retail nursery, flower shop, or garden center; includes special occasion floral designs. (2 lecture, 3 lab hours; field trips)
106. Landscape Graphics (3)

Prerequisite: OH 2 . Lettering and graphic techniques used in developing landscape plans, including symbols and rendering techniques. Site plan, elevation, and section drawing. (1 lecture, 6 lab hours)
107. Advanced Landscape Design (4)

Prerequisite: OH 3, 106; OH 108 recommended. The analysis and solution of design problems as they relate to the site development of residential and commercial structures. (2 lecture, 6 lab hours)
108. Ornamental Trees (3)

Prerequisite: Bot 10 or Biol $10, \mathrm{OH} 1$. Trees grown in California for landscaping, shade and ornamentation; identification, habits of growth, cultural requirements, landscape use. (2 lecture, 3 lab hours; field trip)

## 109. Arboretum and

Botanical Gardens (2)
Prerequisite: Bot 10 or Biol 10, OH 1. Origin and development of botanical gardens. Emphasis on U.S. and California gardens, their design and influence on city and regional park systems. (1 lecture, 3 lab hours; 3 Saturday field trips)
110. Turfgrass Production
and Management (3)
Prerequisite: Bot 10 or Biol 10, OH 1. Production and maintenance of grass for lawns, public parks, public institutions,
playgrounds, playing fields, golf courses, bowling greens; identification of turfgrasses and turfgrass seed. (2 lecture, 3 lab hours; field trip)

## Plant Protection (Pl Pr)

1. Introduction to Plant Protection (3) Origin, history, and evaluation of protective measures (chemical, biological, and cultural) for control of insects, diseases, weeds, and rodents in the field and around the home.

## 101. Agricultural

## Chemical Applications (3)

Prerequisite: intermediate algebra. Application techniques of agricultural chemicals: fertilizers, insecticides, herbicides, fungicides, nematocides, fumigants. Emphasis on effective and safe use of chemicals and on equipment calibration to ensure proper rate of application. (2 lecture, 3 lab hours)
102. Properties of Pesticides (3)

Prerequisite: Chem 3B or 8. Typical uses, modes of action, mechanisms of selectivity, environmental interactions, and user safety of insecticides, herbicides, fungicides, nematocides, rodenticides, and plant growth regulators. (2 lecture, 3 lab hours)
103. Economic Entomology (3) (See Ent 106.)

## 104. Plant Nematology (3)

Prerequisite: Zool 10 or Biol 10, Pl Pr 1. Morphology, life history, host plant relationships, and population management of economically important nematodes with emphasis on plant-parasitic forms.

## 105. Weeds (3)

Prerequisite: Bot 10 or Biol 10, Chem 3A. Weed control in California. Identification of common weeds. Fundamentals of preventive, cultural, biological, physical, and chemical weed control methods. (2 lecture, 3 lab hours)

## 106. Plant Pathology (3)

Prerequisite: Bot 10 or Biol 10. Study of the causal agents, disease cycles, and control of plant diseases. (2 lecture, 3 lab hours)
107. Biological Control (3)

Prerequisite: Pl Pr 103. A study of the action of parasites, predators, and pathogens on the population dynamics of their host/ prey organisms, with special emphasis on insects and mites. (2 lecture, 3 lab hours)
108. Integrated Pest Management (3) Prerequisite: Pl Pr 103. Concepts and principles of integrated pest management. Insect and mite pest problems; sampling techniques; biology and ecology of major
agricultural crop pests; integration of control measures for management of economic pests. (2 lecture, 3 lab hours)
109. Diagnosis of Plant Diseases (3)

Prerequisite: Pl Pr 106 or concurrently. Techniques for the diagnosis of specific diseases in field, greenhouse, and laboratory settings. Students will practice diagnostic techniques for the major plant diseases occurring in California. (2 lecture, 3 lab hours) (Former Pl Pr 106A, 106B, 106C)

## Soils/Irrigation (SI)

1. Introduction to Irrigated Soils (3) An introduction to soil science with emphasis on irrigated agriculture. General topics include basic soil properties, soilwater, plant nutrition and water management. (2 lecture, 2 lab hours)

## 2. Agricultural Water (3)

Prerequisite: intermediate algebra. Water resources and problems in California; water requirements for agricultural and ornamental crops; irrigation scheduling and application methods. (2 lecture, 3 lab hours) (Former SI 110)

## 100. Soils (3)

Prerequisite: Chem 3A, intermediate algebra. Physical, chemical, and biologic properties of soils as a medium for plant growth and as a natural body, factors that influence soil formation; food and fiber production; fertilizer and soil amendment use and environmental impact; soil's role in the biosphere. (Saturday field trip)
100L. Soils Lab (1)
Prerequisite: SI 100 (or concurrently). Physical, chemical, and biological analysis. Interpretation of field and laboratory data. (3 lab hours)
101. Soil Fertility and Fertilizers (4)

Prerequisite: SI 100. Evaluation of nutrient elements in soils; application of fertilizers and organic waste to meet nutrient requirements; soil and plant tissue analysis and interpretation; fertilizer recommendations for different crops. (3 lecture, 3 lab hours)
102. Soil Classification and Survey (3)

Prerequisite: SI 100. Influence of environmental factors on soil development; description and identification of soil profiles; mapping, and interpretation of soil maps. (2 lecture, 3 lab hours)
103. Soil Conservation (3)

Prerequisite: SI 100. Fundamental considerations of soil conservation; prediction and controlling of soil erosion; universal
soil loss equation and its applications; conservation practices; irrigation and drainage; farm and watershed planning.
104. Soill Management (3)

Prerequisite: SI 100. Factors affecting soil fertility, management of soils, attaining continuous optimum productivity. Physical, chemical, and field tests for soil productivity; implications for crop management. (2 lecture, 3 lab hours)
105. Soil Chemistry (3)

Prerequisite: Chem 3B, 8; SI 100. The chemistry of soils, agricultural chemical use, and waste disposal impacts. Student research project and report required. (2 lecture, 3 lab hours)

## 111. Irrigation Design I (3)

Prerequisite: SI 2. Design, installation, and operation of irrigation systems for field, vine, and tree crops. (2 lecture, 3 lab hours)

## 112. Irrigation Design III (3)

Prerequisite: SI 2. Design, installation, and operation of irrigation systems used for ornamental plants, turf areas, nurseries, and greenhouse operations. (2 lecture, 3 lab hours)
113. Water Management (3)

Prerequisite: SI 2. Management and planning of irrigation systems with regard to crop water requirements, scheduling, evaluation of irrigation efficiency, and salinity problems.
114. Pumps and Motors (3)
(See AET 115.)

## Viticulture/Tree Fruit (VTF)

## 1. Introduction to

Grape and Tree Crops (3)
Origin and history of the grape and the tree fruit industries, as well as their culture in California; current trends in fresh, dried and processed segments of the industry. (Former FS 1)
101. Grape Production I (3)

Prerequisite: Bot 10 or Biol 10, VTF 1. Current status and future of the grape industry; commercial classes of grapes; climatic and soil requirements for grape growing. Principles and practices of vineyard fertilization, cultivation, and pruning. (2 lecture, 3 lab hours) (Former FS 101)

## 102. Grape Production II (3)

Prerequisite: Bot 10 or Biol 10, VTF 1. Planning of new vineyards. Principles and practices of propagation, planting, and training grapes. Morphology and physiology of the grapevine and response of the vine to growth regulators and other means
of improving grape quality. (2 lecture, 3 lab hours) (Former FS 102)
103. Raisin Production
and Processing (3)
Prerequisite: Bot 10 or Biol 10 or VTF 1. Principles and practices of raisin production; sun drying, mechanical dehydration, on-the-vine drying; new raisin processes to produce new products. (2 lecture, 3 lab hours) (Former FS 103)
104. Grape Varieties (3)

Prerequisite: Bot 10 or Biol 10 or VTF 1 . Grape varieties common to California; rootstocks and species; identification, adaptability, use and acreage; taste testing fresh grapes. (2 lecture, 3 lab hours) (Former FS 104)
110. Fruit Species of California (3) Prerequisite: Bot 10 or Biol 10 or VTF 1. Fruit and nut species common to California, their adaptation and uses. (Former FS 110)
111. Fruit Production I (3)

Prerequisite: Bot 10 or Biol 10 or VTF 1 . Adaptation of fruits to their environment; training, pruning; propagation; varieties and rootstocks; fundamentals of fall cultural practices. (2 lecture, 3 lab hours) (Former FS 111)
112. Fruit Production II (3)

Prerequisite: Bot 10 or Biol 10 or VTF 1 . Fruit and vegetative development; pollination; nutrition; product utilization; fundamentals of spring cultural practices. (2 lecture, 3 lab hours) (Former FS 112)

## 113. Tropical Fruit Production (3)

Prerequisite: Bot 10 or Biol 10 or VTF 1. The production of fruits in tropical climates. Emphasis on citrus, pineapple, papaya, mango, and banana. (Former FS 113)
120. Orchard-Vineyard Management (3) Prerequisite: 6 units viticulture/tree fruit courses. Relating the various cultural techniques to the physiology of trees and vines, survey of scientific literature, new development analysis, and management of orchards and vineyards. (2 lecture, 3 lab hours) (Former FS 120)

## Agricultural <br> Engineering Technology (AET)

Note: Suitable eye protection is required in many AET laboratory classes.

## 1. Introduction to

Agricultural Mechanics (3)
Selection, care, and use of common farm tools, projects of wood and metal; mechanical skills in the field of agriculture.
(2 lecture, 3 lab hours) (Course fee variable, not less than \$7.50) (Former Me Ag 1)
2. Introduction to Farm Machinery (3) The study of basic functions and applications of farm machinery and equipment. Farm machines common to the San Joaquin Valley will be observed and evaluated for effective performance in their intended purpose. (Former Me Ag 2)
3. Farm Tractors and Equipment (3) Operation and maintenance of farm tractors; operation of farm tractors and equipment under field conditions; service, maintenance and minor repair of engines of wheel and crawler type. (2 lecture, 3 lab hours; 5 hours field operation) (Former Me Ag 3)

## 50. Agricultural Welding (3)

Prerequisite: AET 1 or permission of instructor. Basic metallurgy, arc and gas welding processes in the construction and repair of farm machinery, and the design of welded structures. (2 lecture, 3 lab hours) (Former Me Ag 50; Me Ag 100)
52. Farm and Landscape Structures (3)

Prerequisite: AET 1 or permission of instructor. Site development, construction and repair of farm and landscape structures. Properties and uses of masonry, wood, concrete, and metal. (2 lecture, 3 lab hours) (Former Me Ag 52; Me Ag 102)
53. Agricultural Electrification (3)

Fundamentals of circuits, direct and alternating current, accepted wiring methods, lighting methods, selection, application and control of motors and other induction devices. (2 lecture, 3 lab hours) (Former Me Ag 53; Me Ag 111)

## 80. Undergraduate Research

## (1-4; max total 4)

Open to freshmen and sophomores with permission of instructor. Exploratory work on a suitable agricultural problem in agricultural engineering technology. Approved for $\boldsymbol{S P}$ grading. (Former Me Ag 80)
91. Farm Surveying (3)

Use of level, transit, compass, and laser; land leveling, laying out fields, irrigation ditches, pipelines, and drains. (2 lecture, 3 lab hours) (Former Me Ag 91; Me Ag 101)
103. Hydraulic Systems (3)

Prerequisite: AET 1, 3 . Theory and practice in the operation, service, adjustment, and function of the component parts of fluid power systems. Design application of systems to farm machines. (2 lecture, 3 lab hours) (Former Me Ag 103)
104. Farm Machinery I (3)

Prerequisite: AET 1, 3. Theory, operation and economics of tillage tools, interaction of the soil and tool; cotton, grain, and specialized harvesting machinery and equipment. (2 lecture, 3 lab hours) (Former Me Ag 104)
105. Farm Machinery II (3)

Prerequisite: AET 1, 3. Theory, operation, and economics of orchard and field spraying equipment, field and row crop planters, cultivating tools, and haying machinery. (2 lecture, 3 lab hours) (Former $\mathrm{Me} \mathrm{Ag} \mathrm{105)}$

## 106. Agricultural

Machinery Management (3)
Prerequisite: AET 104. Optimization of the equipment phases of agricultural production. Theoretical and practical considerations in efficient selection, operation, cost factors, and replacement of machinery. (2 lecture, 3 lab hours) (Former Me Ag 106)
107. Agricultural Engineering Technology (3)
Prerequisite: AET 3. Elements of engineering in agriculture. Power application, equipment efficiency, cost analysis, geometry of land use, and heat transfer. Applications of modern technology in agriculture. (Former Me Ag 107)

## 108. Agricultural

Waste Management (3)
Prerequisite: AET 53. Study of properties of waste material, collection, transportation and mechanical handling, mechanical processing, thermal processing, composting, energy recovery, and economics. (2 lecture, 3 lab hours) (Former Me Ag 108)

## 109. Agricultural

Processing Technology I (3)
Prerequisite: AET 53. Principles of plant operations in the food and fiber industries. Basic theory of heat transfer, fluid mechanics, refrigeration, dehydration, cleaning and sorting, cost analysis, and plant layout. (2 lecture, 3 lab hours) (Former Me Ag 109)

## 110. Agricultural

## Processing Technology II (3)

Prerequisite: AET 53. Processing techniques including heat exchange equipment, distillation, process condition, pumps in food industry, and fluid flow measurement. (2 lecture, 3 lab hours) (Former Me Ag 110)
112. Farm Power (3)

Prerequisite: AET 3. Principles of the internal combustion engine; overhauling, repairing, and adjusting of gasoline, diesel,
and LPG farm engines. (2 lecture, 3 lab hours) (Former Me Ag 112)
113. Diesel Engines
and Power Transmissions (3)
Prerequisite: AET 3. Theory and operation of diesel injection systems and turbochargers; clutches; transmissions; brakes; and tractive devices. (2 lecture, 3 lab hours) (Former Me Ag 113)
114. Small Engines (3)

Prerequisite: AET 1. Not open to students with credit in AET 112. Theory of operation, maintenance, and repair of small gasoline internal combustion engines, both 2-cycle and 4-cycle. (2 lecture, 3 lab hours) (Former Me Ag 114)

## 115. Pumps and Motors (3)

(Same as SI 114.) Prerequisite: AET 53. Operation and study of centrifugal and deep well turbines; testing of pumps and motors under operating conditions to determine efficiency; installation, protective devices, maintenance, and proper selection of single and three-phase motors used on the farm. (2lecture, 3 lab hours) (Former Me Ag 115)

## 116. Agricultural

Sensors and Control (3)
Prerequisite: AET 53, and Plant 12 or IS 50. Agricultural application of measurement sensors, techniques, and systems. Use of the microcomputer to evaluate input signals and regulate processes. (2 lecture, 3 lab hours)
160T. Topics in Agricultural
Engineering Technology (1-4; max total 6 per discipline if no topic repeated)
Prerequisite: junior standing; permission of instructor. Selected topics in agricultural engineering technology. Topics may require lab hours. (Former Me Ag 160T)

## 180. Undergraduate

Research (1-4; max total 4)
Open to juniors or seniors with permission of instructor. Exploratory work on a suitable agricultural problem in agricultural engineering technology. Approved for $\boldsymbol{S P}$ grading. (Former Me Ag 180)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Former Me Ag 190)
194. Agricultural

Internship (1-8; max total 8)
Prerequisite: junior standing; approval of faculty adviser and department chair. Field experience in your career specialty that
integrates with classroom instruction. Written reports of knowledge and experience gained are required. $C R / N C$ grading only. (Former Me Ag 194)

## GRADUATE COURSES

The following graduate courses are open to students who have been accepted into the graduate program. Students who are not in graduate standing should contact the department graduate coordinator prior to enrolling.

## Agriculture (Agri)

200. Biometrics in Agriculture (3)

Prerequisite: Math 101 or Plant 99; permission of instructor. Advanced concepts in the design of agricultural experiments. Emphasis is placed on the selection of appropriate designs to meet the objectives of well-planned experiments. Relative merits of various designs and topics in analysis, interpretation, and regression are covered.

## 201. Agricultural

## Laboratory Techniques (3)

Prerequisite: One of the following courses: Bot 104; Chem 105, 109, 151; Enol 115 or FScN 130. Agricultural problem solving through the application of advances in laboratory technology, crop management, foods, nutrition, soil and water quality. Theory and practice operation of scientific instruments and techniques are taught. Student defined project and report required. (2 lecture, 3 lab hours) (Former Agri 250T section)

## 220. Research

Communications in Agriculture (3)
Prerequisite: completion of university writing requirement. Emphasis on critical literature review, scientific writing and oral presentation of research results. Approved for $\boldsymbol{S P}$ grading.

## Plant Science (Plant)

250T. Topics in Plant Science
(3; max total 12)
Prerequisite: upper-division plant science appropriate to study topic; permission of instructor. Advanced studies in a given area: crop physiology, plant breeding, plant pathology, plant nutrition, or economics. Topics may require lab hours. (Former Agri 250T section)

## 251. Pesticides (3)

Prerequisite: Bot 10, Chem 8. Modes of action of pesticides. Absorption and translocation of pesticides. Mechanisms of pesticide specificity. Interaction with soil and soil microbes. Biotechnology developments, pesticide use in integrated pest management systems. (Former Agri 251)

## 252. Plant Nutrition (3)

Prerequisite: Bot 104. Mineral requirements of plants; the acquisition and translocation of nutrients by higher plants and the role of nutrient elements in plant development. (2 lecture, 3 lab hours) (Former Agri 252)
253. Irrigation Water Quality (3)

Prerequisite: SI 2. Effect of irrigation water quality on soil properties and plant growth. Management alternatives for salinity and toxicity problems. Suitability of using waste waters for irrigation. (2 lecture, 3 lab hours) (Former Agri 250T section; Agri 253)

## 254. Plant Hormones

and Regulators (3)
Prerequisite: Bot 104, Chem 8. History of discovery, chemical nature, extraction, and identification of naturally occurring hormones. Physiological and biochemical effects of plant growth substances and hormones. Mechanism of action of auxins, gibberellins, cytokinins, inhibitors (A.B.A.), ethylene, and other hormones. Agricultural impacts of growth regulators. (2 lecture, 3 lab hours) (Former Agri 254)

## 255. Advanced Plant Breeding (3)

Prerequisite: Biol 120 or 135. Principles and techniques of plant improvement, breeding methods, combining ability, sterility systems, quantitative genetic analysis, heritability estimates, experimental designs for plant breeding. (Former Agri 255)
256. Plant-Water Relationships (3)

Prerequisite: Bot 104. Physicochemical properties of water and solutions; movement of water, solutes, and growth regulators in plants; study of moisturesensitive periods of various crops; factors affecting water absorption and retention. (Former Agri 256)

## 257. Physiology of

Cultivated Plants (3)
Prerequisite: Bot 104. Plant cell structure and function. Response of cultivated plants to the environment. Physiology and hormonal control of flower induction, fruit set, and development. Review of pertinent current publications. (Former Agri 257)

## 258. Plant Disease Control (3)

Prerequisite: Pl Pr 106. Principles of plant disease control. Methods and theory used in application of chemicals, biological control and breeding for resistance. Insight into industrial research and development of control measures. (2 lecture, 3 lab hours) (Former Agri 258)
259. Physical Properties of Soil (3)

Prerequisite: SI 100; Math 70 recommended. Study of physical properties of soil and water as they relate to plant growth - nature and behavior of clays. Energy relationships of soil-water and its movement in soil. Soil structure, air, soil temperature and soil color as they relate to soil productivity. ( 2 lecture, 3 lab hours) (Former Agri 250T section; Agri 259)
261. Advanced Pest Management (3) Prerequisite: Pl Pr 108 or permission of instructor. Comprehensive study of insect, disease, and weed pest problems in important California cropping systems. Examination of complex relationships among pests, crops, and other components of these agroecosystems leads to design of economically viable and ecologically sound management programs. (2 lecture, 3 lab hours) (Former Agri 250T section; Agri 261)

## 270. Seminar in

Plant Science (1; max total 4)
Prerequisite: permission of instructor. Reviews of published and/or original research in the areas of crop development, soils and irrigation, and crop protection. (Former Agri 270)
290. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Former Agri 290)
299. Thesis (3)

Prerequisite: prior advancement to candidacy. See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Oral defense of thesis required. Approved for SP grading. (Former Agri 299)

## IN-SERVICE COURSE

(See Course Numbering System.)

## Agriculture (Agri)

300. Topics in Agriculture (1-3)

Topics may require lab hours. In-service professional training in selected areas of agriculture.

Anthropology is concerned with everything that is human, in all parts of the world, both present and past. It is unique among the social sciences in the breadth of its scope. Most disciplines focus only on modern civilization or concentrate on single aspects of life, such as government or the economy. Anthropology is interested in all human societies and views life as a complexly integrated whole that is more than the sum of its parts. It is the human experience as a whole that anthropology seeks to understand.
The breadth of anthropology is reflected in its four subfields. Physical anthropology studies biological evolution and how heredity conditions the ways we conduct life. Cultural anthropology, by studying the enormous diversity of lifeways in contemporary cultures throughout the world, attempts to explain both differences and similarities in the way different peoples carry out the process of living. Archaeology explores the human past far beyond the range of written records, using specialized techniques to probe human prehistory. Linguistic anthropology investigates the nature of language and the critical role it has played in developing our unique intellectual capabilities and behavior. The central concept in anthropology is "culture," and it is this vital idea which binds the subfields into an integrated discipline.
The Anthropology program has three goals:

- To provide students with a clear conception of human variability and its implications, enabling them to
understand and deal with lifestyles other than those of Mainstream America
- To provide students with the broad intellectual skills that are essential to the widest range of professional careers
- To provide students who wish to pursue a professional career in anthropology with a thorough preparation for graduate work in major doctoral programs
Both the anthropology major and minor offer a varied but well-structured exposure to all four subfields of the discipline. The major consists of two parts. The core curriculum introduces both data and theory in a logical sequence of courses from basic to advanced and includes an introduction to anthropological fieldwork. The elective curriculum offers a wide selection of courses ranging from traditional topics to current issues in anthropology and the contemporary world. The minor is a briefer but balanced survey of the discipline, designed to complement any major whose graduates need to understand and deal with people from differing cultural backgrounds.
The faculty is committed to working closely with students to encourage their intellectual growth and development of skills that are both personally satisfying and in demand by employers in many career settings. Anthropology courses, especially at the advanced level, teach students to read critically, write fluently, organize information cogently, and interrelate ideas logically and creatively. For those who may consider becoming professional anthropologists, we point with considerable pride to the fact that

School of Social Sciences
Department of Anthropology
MARY A. LUDWIG, Chair
Peters Business Building, Room 389
(209) 278-3002
B.A. in Anthropology Minor in Anthropology
virtually all of our graduates who have chosen this path have been accepted into a graduate program of their choice.

## Career Opportunities

Career opportunities for anthropology graduates are increasingly numerous and varied because cultural pluralism and international communication are on the increase. There is a growing need for people with cross-cultural sophistication and an ability to mediate between value systems. Graduates of our department have established successful careers in such fields as personnel work, mental health, social research, education, law enforcement, business, and government.
Students who contemplate graduate study, whether in anthropology or another field, find that our program is both rigorous and thorough. In fact, anthropological training at the undergraduate level is widely recognized as excellent preparation for advanced degrees in many professional fields. Graduates of this department have completed graduate programs in medicine, law, social work, international business, and international relations, to name a few.
Professional careers in anthropology itself usually require the Ph.D. At present, traditional academic posts are scarce. However, enterprising anthropologists throughout the nation have been remarkably successful in securing high-level positions in both government and business, usually under titles other than "anthropologist." These successes indicate that employers at the highest levels appreciate the unique training and capabilities of professional anthropologists. While such positions are not yet common, imaginative anthropologists who can communicate their special abilities should be able to establish rewarding careers in a variety of settings.

$\overline{18-20}$

## Advising Notes

1. $C R / N C$ grading is not permitted in the anthropology major or minor.
2. S Sci 15, a special 5 -unit course, is part of the Cluster "Man/Woman and the Natural Environment," an 18 -unit program integrating anthropology, biology, and geology and involving
extended field trips in the Western states. It requires concurrent enrollment in Biol 15, Geol 15, and N Sci 15. For more information about Man/ Woman and the Natural Environment, see School of Natural Sciences, page 118. For a course description of S Sci 15 , see School of Social Sciences, page 119.
3. Units in this category as well as in General Education may also be applied toward a dual major or minor as appropriate (see Dual Major or departmental minor).

## Asian American Studies

Asian American courses familiarize students with the historical, socioeconomic, and cultural adaptions that peoples from Asia made to live in the United States. The curriculum is designed to enable professional men and women to understand and to interact with people from ethnic subcultures in our pluralistic society. The Asian American Studies minor therefore complements any major concerned with human behavior. For more information, see Asian American Studies.

## COURSES <br> Anthropology (Anth)

## A. THE CORE CURRICULUM

## I. Basics

Anth 1, 2, and 3 are taught each semester. Anth 101, 105, and S Sci 15 are taught once each year.

## 1. Introduction to

 Physical Anthropology (3)This course examines the biological basis of being human. It compares us with our primate relatives, traces the evolution of our species from 4 million-year-old australopithecines, and accounts for the great anatomical and biochemical diversity among modern human populations. General Education BREADTH, Division 3. (CAN ANTH 2)

## 2. Introduction to

Cultural Anthropology (3)
Not open to students with credit in Anth 15 or S Sci 15. Examines the nature of culture, humanity's unique mechanism for adapting to the changing environment. It explores the varieties of human life and explains how culture has made possible the range of different and successful societies, from hunters and gatherers to industrial civilization. General Education BREADTH, Division 8. (CAN ANTH 4)
3. Introduction to Prehistory (3)

An exploration of human prehistory as revealed by the archaeological record. This course traces the evolution of culture, from its earliest expression in crude stone tools more than 2 million years old, through the emergence of agriculture and the first civilizations. General Education BREADTH, Division 3. (CAN ANTH 6)

## 30. Critical Thinking

in Anthropology (3)
Introduction to the basic concepts and skills of critical thinking illustrated with anthropological topics such as race and intelligence, religion and values, and social policy. General Education CORE, Critical Thinking.

## B. THE ELECTIVE CURRICULUM

## II. Method and Theory

These courses are offered once each year.
101. Fieldwork in Anthropology (3-6)

Prerequisite: Anth 106 or 108. An introduction to the role, the theory, and the rudimentary techniques of fieldwork in archaeology, and ethnology. Requires some field trips, including weekends.

## 102. Introduction to

 Linguistic Anthropology (3)Prerequisite: Anth 1 or 2 . A compendium of current thinking on language from a variety of interdisciplinary perspectives. Discusses brain functions and language process in human and nonhuman communication systems, and the roles of language in human evolution, behavior, and thought.
104. History and

Theory of Anthropology (3)
Prerequisite: Anth 2 or 105. A history of the growth of anthropological thought through an analysis of the informational and explanatory powers of five major theoretical schools: Nineteenth-century Evolutionists, British Functionalists, Boasian Historical Particularists, Neo-Evolutionists/Marxists, and Cognitivists.
105. Anthropology,

Science, and Society (3)
Not open to students with credit in Anth 50. Prerequisite: Anth 1,2 , and 3 , or permission. Science, like all human endeavors, exists within a cultural framework. This course analyzes the scientific community as a distinctive subculture, compares scientific worldview with those of traditional societies, and explores the cultural factors that influence how scientific inquiry is conducted. (Former Anth 50)
106. Contemporary Archaeology (3)

Prerequisite: Anth 2, 3, or permission. An overview of the nature of archaeological data and its use in reconstructing the lifeways of prehistoric peoples. Special emphasis is given to the development of modern archaeological theory, the current state of the profession, and its present trends and limits.
108. Urban Anthropology (3)

Prerequisite: Anth 2, 3, or permission. The uneven distribution and explosive growth of humanity during this century evolved a lifestyle whose implications are poorly understood: urban existence. Reviews crosscultural and interdisciplinary evidence and explanations for urbanization, with a focus on American life. General Education CAPSTONE Cluster, Critical Thinking.

## III. Area Surveys

## 121. Peoples and

Cultures of South America (3)
Prerequisite: Anth 2. A survey of South American Indian tribes and civilizations since prehistoric times, based on archaeological and ethnographic data. Explores the interplay between environment and local cultural adaptations, and examines the effect of historical contact with European peoples.

## 123. Peoples and

## Cultures of Southeast Asia (3)

Prerequisite: Anth 2. An introductory survey of the cultural and historical adaptations of societies in Burma, Thailand, Laos, Cambodia, and Vietnam; and of Insular societies in Indonesia, Malaysia, and the Philippines. Examines the major effects of culture contact between East and West. General Education CAPSTONE Cluster.

## 124. Peoples and

## Cultures of East Asia (3)

Prerequisite: Anth 2. Examines cultural pluralism. Considers cultural adaptations and change among minorities such as Moslems, Tibetans, and Mongolians in China, and ethnic groups of Japan and Korea. Outlines kinship, religion, organization, and technological factors in the Asiatic culture complex.

## 127. Peoples and

Cultures of the Southwest (3)
Prerequisite: Anth 2. A survey of Native American cultures of the Southwestern United States and Northwestern Mexico from their prehistoric origins to the present. Emphasis is placed on cultural continuity and change during the past 400 years of contact with western culture.

## 129T. Topics in

Area Surveys (1-3)
Prerequisite: Anth 2. Special surveys of peoples and cultures in regions not covered in the regular curriculum, such as Africa, the Caribbean, or the Middle East.

## IV. Archaeology

## 131. Prehistory

of North America (3)
Prerequisite: Anth 3. Traces the development of Native American cultures from the Arctic to Mesoamerica, from the peopling of the continent to early historic times. Examines the archaeological evidence for the antiquity, spread, and variation of cultural adaptations to changing ecological conditions.

## 132. Prehistoric Europe (3)

Prerequisite: Anth 3. Outlines the peopling of the European continent, and the origin and spread of its cultures from Neanderthal times through the Middle Ages.

The contributions of the Etruscans, Scythians, Slavs, Germanics, Celts, Vikings, Brits, and others to the birth of history.

## 139T. Topics in Archaeology

(1-6; max total 12 if no topic repeated)
Prerequisite: varies with title. Special studies in archaeological methods, techniques, history and theory, or of prehistoric culture areas not covered in the regular curriculum.

## V. Social Organization

140. Organization and Inequality (3)

Prerequisite: Anth 2. Examines cooperation, competition, dominance and predation in the division of labor and its rewards. Achievement and ascription of roles and statuses on the basis of sex, age, and perceived value in bands, tribes, feudal states, caste, and class systems.
142. Anthropology of War (3)

Prerequisite: Anth 2. An interdisciplinary analysis of the evolution of violence and aggression. Examines theoretical explanations for warfare from biological determinism to elite predation, and indicates its costs and benefits to individual and group welfare at different stages of cultural complexity.
144W. Cultural Scenarios (3)
Prerequisite: Engl 1, Anth 2 or 3, and at least 56 completed units. Using ethnological data, students reconstruct an extinct society's basic challenges, adaptations and collapse; derive the implications for the world today; and show what alternatives would have prolonged the viability of its culture. Designed for writers, planners, and applied anthropologists.
(Former Anth 144)
146. Law and Culture (3)

A comparative, holistic perspective on the evolution of law. Examines its natures and origins, the basic assumptions behind legal systems, their cross-cultural expression and effects, and the directionality of legal evolution. General Education CAPSTONE Cluster, Critical Thinking.

## 149T. Topics in

Social Organization (1-3)
Prerequisite: varies with title. Special studies in the theory and practice of organized cooperation and conflict in nature and culture.

## VI. World View

150W. Anthropology of Religion (3) Prerequisite: Engl 1, Anth 2. Examines the patterned belief systems of the world's tribal, peasant, and sectarian societies. Stresses the role of religion in individual and group perception, cognition, ritual, and social organization. Topics include myth, magic, shamanism, mysticism, witchcraft, trance, hallucinogens, and cultism. Meets upper-division writing skills requirement for graduation. General Education CAPSTONE Cluster, Critical Thinking.

## 155. Folk Medicine (3)

Prerequisite: Anth 2. A cross-cultural examination of health practices and of the cultural assumptions and attitudes on which they are based. Reviews ethnomedicine, ethnopsychiatry, and epidemiology in the health care systems of nonWesterners and of ethnic communities in pluralistic America.
159T. Topics in Ideology (1-3)
Prerequisite: varies with title. Special studies on the form and function of ideology or of specific ideological systems, constructs, or practices.

## VII. Physical Anthropology

161. Fossil Man (3)

Prerequisite: Anth 1. A critical examination of the fossil evidence for hominid forms and behaviors in the Pliocene and Pleistocene epochs. Focuses on the specific evolutionary factors which led to the emergence of modern humanity.

## 162. Primates (3)

Prerequisite: Anth 1. An introduction to the study of primate biological and behavioral evolution. Explores sociobiological theory in order to explain the unity and diversity of social behavior in prosimians, monkeys, and apes.

## 163. Human Variation (3)

Prerequisite: Anth 1. A cross-cultural examination of variations in human morphology, physiology, and biochemistry. Establishes the correlation between variations in human biology and variations in climate, culture, nutrition, and disease.

## 164. Human Osteology (3)

Prerequisite: Anth 1. Introduces a range of analytic techniques for extracting information from human skeletal remains: sexing and aging, osteometry, odontometry, the examination and diagnosis of epigenetic traits and pathological lesion, and the statistical interpretation of skeletal data.

169T. Topics in
Physical Anthropology (1-3)
Prerequisite: Anth 1. Special studies of the discovery and interpretation of information in physical anthropology, and of the application of this subdiscipline in legal, medical, and scientific research.

## VIII. Subcultural Variation

170. Women: Culture and Biology (3)
(Same as W S 170.) Prerequisite: Anth 1 or 2. A cross-cultural and interdisciplinary analysis of the determinants of female statuses and circumstances. Examines theories, including biological and cultural determinism, which explain variations in the expression of sexuality, maturation, reproduction, and the life cycle. General Education CAPSTONE Cluster, Critical Thinking.
171. Ethnic Relations and Cultures (3) Prerequisite: Anth 2 or permission. The cultural and social origins of ethnicity, and its opportunities and problems for contemporary mass societies. Offers a critical review of major theories on ethnic politics, economics, and ideology in the light of cross-cultural evidence. General Education CAPSTONE Cluster, Critical Thinking.

## 179T. Topics in

Subcultural Variation (1-3)
Prerequisite: varies with title. Special studies on the origin, evolution, manifestation and implication of subcultural differences in the modern world. Selected topics may include criminal, sexual, physically impaired, or institutional subcultures.

## C. THE SPECIAL CURRICULUM

Courses in this division cover topics outside of the standard curriculum, including student research projects. Credit earned in these courses applies to the 124 -unit university graduation requirement, but ordinarily may not be applied to the requirements for the anthropology major or minor.

## IX. Popular Anthropology

181. Cultures and Foods of East Asia (3) (Same as AsAm 151.) Treats cuisine as a systematic product of the interaction between culture and ecology. Focuses on sociocultural rather than bio-nutritional factors in the preparation and ritual implications of food in Mainland and Insular Asia. (Students learn to prepare and serve a variety of Oriental dishes.)

## 186. Tradition and

## Change in China and Japan (3)

(Same as Hum 140.) Examines the current aspirations and problems of the Chinese and Japanese in terms of their traditional cultures, and explains how their histories, values, worldviews, and intellectual traditions affect their lifestyles and their international relations today. General Education CAPSTONE Cluster.

## 189T. Topics in

Popular Anthropology (1-3)
Anthropological approaches to topics of public interest, presented in a fashion which does not require the student to have previous experience in anthropology.

## X. Advanced Study in Anthropology

The following courses are normally open only to students who have completed the core curriculum.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
192. Directed Readings (1-3)

Prerequisite: normally open only to students who have completed the core curriculum. Supervised reading on a stu-dent-selected topic outside the regular curriculum, conducted under regular consultation with a faculty sponsor.
199. Honors Thesis (1-3)

Prerequisite: normally open only to those who have completed the core curriculum and who maintain a GPA in anthropology of at least 3.5. Development of a student report or paper into a manuscript of professional and publishable quality. Requires approval by an Honors Committee of three faculty members.

Ihe Armenian Studies Program offers a wide variety of courses, including Armenian language, literature, history, art, film, the life and writings of William Saroyan, architecture, folk traditions, the Genocide, and contemporary issues affecting the Armenian diaspora. It provides the only regularly taught program in Armenian art with specialized courses in painting, architecture and the minor arts. Armenian course content is also available in the departments of foreign languages and history.

Although CSU, Fresno does not offer a bachelor's degree program in this field, by a careful selection of electives and requirements in various majors, students can secure a useful background for the understanding of the language, history, art, and culture of one of the world's oldest peoples. A "special major" in Armenian Studies may be obtained with approval.
The minor offered in Armenian Studies, not only affords an excellent opportunity to gain an academic background on one of the important Middle Eastern minority groups in America but prepares students for teaching in Armenian schools in the United States, for administrative positions in an ever-increasing number of Armenian cultural, social and benevolent organizations, or for graduate work in Armenian doctoral programs at Harvard, Michigan, Columbia, and UCLA.

## Haig and Isabel Berberian Endowed

 Chair in Armenian Studies. In the fall of 1988, the Haig and Isabel Berberian Endowed Chair of Armenian Studies was established at CSUF. It is one of several Armenian chairs in the United States and provides financial support for a distinguished Armenologist. The endowmenthonors Haig and Isabel Berberian and was established by their son-in-law and daughter, Dr. and Mrs. Arnold H. Gazarian. Other friends of the Armenian Studies Program have made significant contributions to the endowment.

The Armenian Studies Program also supervises the Index of Armenian Art, a systematic computerized catalog of individual works of Armenian art which is accessible to students. The program, housed in the Center for Armenian Studies in the Leon S. Peters Building, sponsors and supports the Armenian Students Organization on campus and its newspaper Hye Sharzhoom/Armenian Action. The Sahatdjian Armenian Library and the Avedian Armenian Archives in the Center for Armenian Studies along with the Special Collections of the university library have a vast Saroyan archive and important collections of documents relating to the early history of Armenians in Fresno.
For students who need financial aid, the program provides a number of workstudy jobs and administers the granting of more than 20 university scholarships for students with an interest in Armenian Studies, including the Charles K. Pategian Scholarships, the Knights of Vartan Scholarship, and the Levonian Educational Grant.

Minor in Armenian Studies

## COURSES

## Armenian Studies (Arm S)

10. Introduction to Armenian Studies (3) The history, geography, literature, language and art of Armenia from ancient times to the present. General Education BREADTH, Division 9.
11. William Saroyan (3)

The ethnic experience in America, especially the San Joaquin Valley, is examined through the writing of William Saroyan, who is among the most sensitive ethnic writers in American literature. No prerequisites; writing assignments of at least 2,500 words. (Former Arm S 50T section)
50T. Studies in Armenian Literature (3) Various themes and aspects of Armenian literature: David of Sassoun, the Armenian Folk Epic; William Saroyan; Armenian Historical Literature; Modern Armenian Literature; Armenian World of Richard Hagopian; Armenian American Authors.

## 120T. Topics in Armenian

Studies (1-3; max total 6)
Specialized topics in Armenian history, art and culture, not normally covered in other Armenian Studies courses. Topics include Armenian church, Armenian minor arts, Armenian film, the Armenian Diaspora, Armenian genocide and oral history.
121. Armenian Painting (3)

History and development of Armenian painting with special concentration on the art of manuscript illumination; rudiments of early Christian iconography.
123. Armenian Architecture (3) History and development of church building in Armenian architecture, the first national architecture in the history of Christianity. There will be a survey of monuments from the fourth to the 17th century.
190. Independent Study (1-3)

See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading.

## Art

School of Arts and Humanities
Department of Art
FRANK B. LAURY, Chair
Conley Art Building, Room 105
(209) 278-2516
B.A. in Art
M.A. in Art

Minor in Art
Single Subject Credential

$\xrightarrow{ }$he Department of Art courses lead to a bachelor's degree with a major in art, a minor in art, a secondary single-subject waiver credential in art, and a master's degree with an emphasis in studio or art history.
The Art Department offers a program of study derived from an educational conviction that a foundation in the craft of art is an essential prerequisite to the production of works exhibiting sophistication both conceptually and visually.
Courses offered in history of art examine, identify, and appreciate the visual arts from prehistory to the present. This is implemented in a manner that reflects the department's commitment to a humanities perspective based on a belief in the fundamental unity of the arts and the ideas that give them form.
The studio classes offer a variety of contemporary and traditional areas of exploration. These areas of concentrated study lead toward skilled applications and projects that demonstrate proficiency in graphic experimentation and expression.

The variety of offerings in studio art, art education, and the history of art encourage individualized strategies for formulating coherent programs. This results in a unique opportunity for occupational preparation in a variety of careers in the visual arts.

## Faculty and Facilities

The faculty of the department offers a diverse, skilled and professional approach to art education. The methods of teaching reflect distinctive yet complementary ways and means of introducing their disciplines while guiding the students through the program with a sense of dedication and commitment to the education of artists and scholars.

The facilities of the department not only include the requisite studios, labs, and support facilities, but include an art gallery, two new photography labs, a new printmaking studio, and a 78 -seat lecture hall in a contemporary art building complex.

## Career Opportunities

Completion of the art major enables graduates to pursue careers in fields such as:

- Fine Arts
- Studio Production
- Education in Art History and Studio
- Craft Design and Fabrication
- Applied Photography
- Ceramics and Sculpture
- Applied Design and Graphics

Prospective students should contact advisers in their area of interest to further explore specific career opportunities.

Generall Education ......................... 51
Electives and remaining dlegree requirements .............31-37* (See Degree Requirements); may be used toward a dual major or minor.
Totall

[^9]
## Advising Notes

1. Upper-division requirements for students emphasizing art history include: Art 101, Art H 136, and at least 3 units from each of the following areas:

- Primitive, Pre-Columbian
- Renaissance, Baroque
- Modern, Contemporary

2. No course used to satisfy General Education CAPSTONE requirements may be used to satisfy art major requirements.
3. $C R / N C$ grading is only permitted in Art 198, Internship.
4. General Education and elective units may be used toward a dual major or minor (see Dual Major or departmental minor). Consult the appropriate department chair, program coordinator, or faculty adviser for further information.

## Credential Program

The Single Subject Waiver Program in art consists of the Core: Select 6 units from Art H 10,11 , or 12 ; Art $13,21,40,50$, $60,70,120,140$, and 150 or 160 ; Breadth: Art H 136, select 3 units from Art 24, 25, $26,27,30$, or 80 ; select 3 units from Art 125, 127, 130, or 180; select 3 units from Art 113, 170, 171, or 175; select 3 units from Art H 134 or 170. Consult single subject coordinator in the School of Education.

## Art Minor

The Art Minor consists of a minimum of 21 units of which 9 must be upper division. Six units of $C R / N C$ grading will be accepted.

## Graduate Program

The graduate program for the Master of Arts degree in Art is based upon the equivalent of the undergraduate major in art at CSU, Fresno. The program provides specifically for certain nonvocational areas of interest: photography, crafts, design, drawing, painting, ceramics, sculpture, art history, and theory. With prior approval, programs with multiple concentrations may be arranged. For specific requirements, consult the departmental graduate program director. For general requirements, see Division of Graduate Studies and Research.
The Master of Arts degree program in Art assumes preparation equivalent to the undergraduate major in art at CSU, Fresno. Applicants must first complete university requirements for admission to the Divi-
sion of Graduate Studies and Research, including the Graduate Record Examination Aptitude Test. Applicants must also pass the Department of Art Classified Standing Screening Review.
(See also Admission to Graduate Standing, Advancement to Candidacy, Program Requirements, and Criteria for Thesis and Project.)
Graduate courses in art are open to holders of the B.A. degree in Art who have been conditionally classified by the Department of Art.
Second-semester seniors in the undergraduate art program may also enroll in 200-series coursework in art subject to the approval of the instructor.

## Master of Arts <br> Degree Requirements

Under the direction of a graduate adviser, each student prepares and submits a coherent program individually designed within the following framework:

Units
Approved courses in art in the
200-series (see Specific
Requirements)
$.18-30$
Approved courses in art or related
fields in the 100- or 200-series ........0-12
Totall
.30
Specific Requirements. Art 230 or 260 (3 units) and Art 298 or 299 (2-6 units). Before being allowed to exhibit, candidates expecting to participate in Art 298 are required to have completed Art 112 or the equivalent approved by the gallery director.
For studio areas, additional units (3-9) in Art 240 or 220 T are specifically recommended.
For art history areas, Art 230 and additional units (3-9) in Art 260 are specifically recommended.
Classified Standing. Concurrent with the departmental review and evaluation for classified standing, the student will submit a tentative program outline for approval by the screening committee.
Advancement to Candidacy. Prior to the completion of 20 units of the proposed program, the student will review the program of courses with an adviser from the selected area of concentration.

## COURSES

Art History (Art H)

## ART HISTORY SURVEYS

10. The Ancient and Primitive World (3) An introductory survey to the arts of the prehistoric and primitive realms, including Western traditions (Egyptian, Greek, Roman, Medieval) through the mid-14th century. General Education BREADTH, Division 5. (CAN ART 2)
11. The Renaissance World (3)

An introductory survey of Western art of the Renaissance including Mannerism, Baroque, and Rococo, from the mid-14th century to the end of the 18th century. General Education BREADTH, Division 5. (Former Art H 20) (CAN ART 4)
12. The Modern Era (3)

A survey of art from the end of the 18th century to the present day.

## 109T. Topics in Art

History (1-3; max 3 per area)
Specific areas in art history not normally covered in the regular course offering. Possible topical areas include African, PreColumbian, Primitive, Early Migrations, American Indians, Buddhism, Chinese Painting, Happenings, History of Modern Art through Film, Museums and Monuments of Europe, Fountains of Baroque Rome, Popes and Patrons of Renaissance Europe, 17th Century Holland, and the Rise of the Secular in Art.

## WESTERN ART SURVEYS

120. Italian Renaissance (3)

Artistic revival of classical antiquity in Italy between 1300-1550. General Education CAPSTONE Cluster, Critical Thinking.
122. Northern Renaissance (3)

Painting and sculpture from the Netherlands, France, and Germany between 1300-1550. General Education CAPSTONE Cluster.
124. Italian Baroque (3)

Baroque art from its conception in Rome to its dispersal throughout Italy from 1600-1750.

## 126. Northern Baroque (3)

Diffusion of Italian Baroque art to the Netherlands, France, Spain, Germany, and Austria between 1600-1750.
131. Nineteenth Century Modern Art (3) A more developed critical look at modern art in its relationship to the needs of the social political context of the 19th century.
132. Twentieth Century Modern Art (3) A more developed critical look at modern art in its relationship to the needs of the social political context of the 20th century, up to the mid-1950s.
134. America (3)

Art from colonial times to 1945.
136. Contemporary Art (3)

A comprehensive survey of contemporary art focusing on the issue of postmodernism from the mid-1950s onward.

## PRIMITTIVE ART SURVEYS

160. Africa (3)

Sculpture, painting, architecture, festivals, and personal adornment of sub-Saharan Africa. Field trips may be required.

## ART OF THE AMERICAS SURVEYS

## 170. North American

Indian and Eskimo (3)
Arts of the indigenous North American cultures from the Arctic to the American Southwest. Field trips may be required.
173. Pre-Columbian Mexico (3)

Art of the Olmec through the Aztec cultures. Field trips may be required.
175. Pre-Columbian Andes (3)

Art of the Chavin through the Inca cultures. Field trips may be required. General Education CAPSTONE Cluster, Critical Thinking.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading.

## Studio (Art)

1. Art Forms (3)

Slide lecture-discussion. An introduction to art/seeing and appreciating the visual world around us. General Education BREADTH, Division 5.
13. Design (3)

Exploration of basic art concepts through two- and three-dimensional design problems. Field trips may be required. General Education BREADTH, Division 4. (6 lec-ture-lab hours)

## 20. Drawing (3)

Introductory course in drawing concepts, materials, and techniques. General Education BREADTH, Division 4. (6 lecture-lab hours) (CAN ART 8)
21. Figure Drawing (3)

Introductory course in the basic concepts of figure drawing problems and techniques. (6 lecture-lab hours)
24. Printmaking (3)

Introduction to the printmaking processes of intaglio, lithography, and woodblock printing. (6 lecture-lab hours) (Course fee, \$15)
25. Lithography (3)

Studio class offering in printing of drawings created on stone and metal plates in the planographic process. Printing in black ink as well as color will be covered. (6 lecture-lab hours) (Course fee, \$15)

## 26. Intaglio Processes (3)

Studio class offering in printing in the intaglio process using such techniques as etching, drypoint, aquatint, and softground on metal plates. Printing in black ink as well as color will be covered. (6 lecture-lab hours) (Course fee, \$15)

## 27. Screenprinting (3)

Investigation into techniques of printing with a screen. Paper, film, tusche, and glue techniques for creating printing stencils will be covered. (6lecture-lab hours) (Course fee, \$15)
30. Photography (3)

Introductory course in black and white photography. Basic theoretical and practical aspects of the photographic process relevant to the medium as an art form. General Education BREADTH, Division 4. (2 lecture, 3 lab hours)

## 40. Painting (3)

Introduction to painting processes through studio problems and critiques. General Education BREADTH, Division 4. (6 lec-ture-lab hours)
45. Watercolor (3)

Introduction to techniques in watercolor painting with emphasis on transparencies. (6 lecture-lab hours)
50. Sculpture (3)

Introductory course in materials and concepts. General Education BREADTH, Division 4. (6 lecture-lab hours) (CAN ART 12)

## 60. Beginning Ceramics (3)

A survey of ceramic materials and their functions in the arts. Basic studio practices in the handbuilding processes, glazing, and throwing on the potter's wheel. General Education BREADTH, Division 4. (6 lecture-lab hours) (Course fee, \$15)
70. Crafts (3)

Fundamental exploration of several media (fiber, wood, leather) with emphasis on understanding the potential of the various materials. Field trips may be required. General Education BREADTH, Division 4. (6 lecture-lab hours)

## 80. Introduction to <br> 35 mm Photography (3)

Introductory course in the creative and practical aspects of small format black and white photography. Emphasis on individual assistance and guidance in the craft and technique of interpreting, photographing, and printing a range of assignments that form the term portfolio. (2 lecture, 3 lab hours) (Course fee, \$20)
100T. Topics in Art
(1-3; max total 3 per area)
Specific lecture area not normally covered in regular course offerings or in art history. Topics may include but are not limited to: African American art, Chicano art, cinema art, urban aesthetics, formalism in art, economics of art, careers in art, portfolio preparation.
101. Content and Form (3)

The concept of form in art and its effects upon content, style, materials, and techniques through studio problems and critiques. (6 lecture-lab hours)
102. Philosophies of the Visual Arts (3) Visual representation of past and present art movements.
103. Guest Artists (3; max total 9)

Seminar with experienced guest artists.
104. Feminist Art (3; max total 6)
(Same as W S 124.) Prerequisite: permission of instructor. Multimedia art in varied forms. Creation of images based on women's unique experiences and feelings leading to the exhibition of work made in class. Exposure to art and lives of women artists; development of awareness of female heritage in arts. (6 lecture-lab hours).
106. Art Tours (3; max total see below) Prerequisite: permission of instructor. May be repeated for credit; no more than 6 units may be applied on the art major. Directed trips to galleries, museums and other places of interest to the student of art; half of the semester devoted to studio projects, half to out-of-town tours; assigned papers, studio projects, discussion. (6 lecture-lab hours) (Course fee for chartered travel costs, \$140)
107. 2-D Computer Art (3; max total 9) Prerequisite: Art 20 or equivalency. Art 13 and Art 40 recommended. Introductory 2 dimensional computer art integrating painting, drawing, and design graphics. (6 lecture-labhours) (Course fee, \$20) (Former Art 109T section)

## 109T. Topics in Studio Art

## (1-3; max total 3 per area)

Prerequisite: permission of instructor. Specific advanced studio processes not
normally covered in regular course offerings. Areas offered may be drawing, painting, ceramics, sculpture, photography, printmaking, design, crafts, motion-picture, art education, computer graphics. (6 lecture-lab hours) (Course fee variable)
112. Gallery Techniques (3; max total 9) Introduction to museum practices related to exhibition selection, design, and installation techniques. Field trips, lectures, projects, and critiques. (6lecture-lab hours)

## 113. Design (3; max total 9)

Prerequisite: Art 13, Continuation of the exploration of two- and three-dimensional design problems. (6 lecture-lab hours)
115. Calligraphy (3; max total 9)

The art of written forms with emphasis upon the cursive and calligraphic modes of formal italic handwriting associated with contemporary Western cultures. Introduction to the use, care, and construction of calligraphic tools. Development of composition, color, and aesthetic interpretation. (6 lecture-lab hours)
116. Interaction of Color (3) Interaction of color as developed by Joseph Albers; basic design principles in connection with color work. ( 6 lecture-lab hours)
117. 3-D Computer Art (3; max total 9) Prerequisite: Art 107. Introductory 3-dimensional computer art integrating video-animation, sculpture, and design. Selected emphasis will be determined by instructor. (6 lecture-lab hours) (Course fee, \$20) (Former Art 109T section)
120. Drawing (3; max total 9) Prerequisite: Art 20. Investigation of advanced concepts through the techniques of the drawing medium. (6 lecture-lab hours)
121. Figure Drawing (3; max total 9) Prerequisite: Art 21. The human figure and its relevancy to advanced drawing concepts and techniques, emphasis on individual exploration in studio problems. (6 lecture-lab hours)

## 125. Lithography (3; max total 9)

Prerequisite: Art 24 or 25 . Studio class designed for advanced work in stone and metal plate printing in both black as well as color inks. Emphasis placed on imagery development. (6lecture-labhours) (Course fee, \$15)
126. Intaglio Processes (3; max total 9) Prerequisite: Art 24 or 26. Studio class designed to offer advanced work in intaglio printing processes such as etching, drypoint, and aquatint in black ink as well as
color. Multiple plate printing will also be covered. Emphasis placed on imagery development. (6 lecture-lab hours) (Course fee, \$15)
127. Screenprinting (3; max total 9) Prerequisite: Art 27. Investigation into techniques of screenprinting. Paper, film, tusche, glue, and photo techniques for creating printing stencils will be covered. Emphasis placed on imagery development. (6 lecture-lab hours) (Course fee, \$15)
130. Photography (3; max total 9)

Prerequisite: Art 30. Advanced photography. Possible emphasis: black and white, color, history and appreciation, and individual production. (6 lecture-lab hours)

## 133. Alternative Imagery in

Photography (3; max total 9)
Prerequisite: Art 30. Approaches to nontraditional photography. Emphasis on producing personal imagery. (6 lecture-lab hours)
140. Intermediate Painting (3)

Prerequisite: Art 40. Individual investigation of advanced aesthetic concepts; continued search into personal direction. (6 lecture-lab hours)
141. Advanced Painting (3; max total 9) Prerequisite: Art 140. Designed primarily for students with two or more semesters of experience in painting. Emphasis on individual involvement in the painting process aiming toward advanced formal and technical expression. (6 lecture-lab hours)
142. Mixed Media (3; max total 9)

Prerequisite: permission of instructor. Collage, transfer, assemblage, experimental techniques. (6 lecture-lab hours)
145. Watercolor (3; max total 9) Prerequisite: Art 45. Painting with emphasis on transparencies. (6 lecture-lab hours)

## 150. Sculpture (3; max total 9)

Prerequisite: Art 50. Individual investigation in use of materials (such as clay, plaster, metal and wood) and techniques as applied to aesthetic concepts. (6 lecture-lab hours)

## 151. Sculpture: Metal

Casting (3; max total 9)
Prerequisite: Art 50. Continued investigation of concepts in sculpture with an emphasis on casting. (6 lecture-lab hours) (Course fee, \$50)
160. Intermediate

Ceramics (3; max total 9)
Prerequisite: Art 60 . Emphasis will be on promoting a greater awareness of form as developed on the potter's wheel. A concentrated study of surface treatments and their
integration with clay forms. (6 lecture-lab hours) (Course fee, \$15)
161. Advanced Ceramics (3; max total 9) Prerequisite: Art 160. Advanced study in ceramic art. Individual projects in selected ceramic areas with emphasis on showing and portfolio presentation of work. (6 lec-ture-lab hours) (Course fee, \$15)
165. Ceramic Glazes (3; max total 9) Prerequisite: Art 160, permission of instructor. Concentrated study in glazes through the empirical methods with some discussion on historical and technical integration of glazes with clay forms. (6 lec-ture-lab hours) (Course fee, \$25)
166. Glass Blowing

Studio (3; max total 9)
A basic course in studio glass blowing techniques with technical information on glass compositions, furnace design, and construction. (6 lecture-lab hours) (Course fee, \$50) (Former Art 109T section)
170. Crafts (3; max total 9)

Prerequisite: Art 70. Advanced design in a variety of materials. Study of contemporary designer craftsmen. (6 lecture-lab hours)
171. Textile Design: Dyeing
and Printing (3; max total 9)
Design relating to fabrics, tie dye, batik, and silk screen. Field trips may be required. (6 lecture-lab hours) (Course fee, \$15)
175. Metal Design (3; max total 12)

Exploration of basic techniques (forging and fabrication) of working with copper and brass (silver optional) to create small objects and/or articles of adornment. Design and craftsmanship will be emphasized. Tool kits and most materials are provided. (6 lecture-lab hours) (Course fee, \$20)

## 179. Development of Artistic

Expression (3; max total 9)
Art materials and techniques, as they apply to the elementary school curriculum; introduction to current philosophies in art education, theories of the development phases of artistic expression in children. (6 lecture-lab hours) (Course fee, \$15)
180. Advanced 35 mm

Photography (3; max total 6)
Prerequisite: permission of instructor. Emphasis on the formulation and execution of individual thematic photographic projects. Supplemental assignments that explore optical and chemical methods of image modification. Continuation and elaboration of applied compositional design. Introduction to interactive critique
and evaluation of photographic prints and projects. ( 2 lecture, 3 lab hours) (Course fee, \$20) (Former Art 180A)
182. Introduction to Large Format Photography (3; max total 12)
Prerequisite: permission of instructor. Introduction to the unique aspects of the large format camera and its creative application in field assignments. Emphasis on individual assistance in both field and laboratory work. Introduction to selective exposure and development control, optical effects, and applied compositional design. (2 lecture, 3 lab hours) (Course fee, \$20)

## 183. Field Studies in

## Photography (3; max total 12)

Prerequisite: permission of instructor. Individual guidance in the formulation of exploratory multi-image photographic essays produced on location. Emphasis on forming individual conceptual goals and acquiring communicative skills appropriate to the medium. Introduction to photographic theory and its practical application to individual creative objectives. (2 lecture, 3 lab hours) (Course fee, \$20)

## 185. Color Photography

## (3; max total 12)

Prerequisite: permission of instructor. Introduction to the unique attributes of color in the design and production of photographic prints. Multiformat color printing. Emphasis on directed exploration of color both conventional and experimental. Monochromatic and multichrome printing utilizing the camera and other printmaking sources. (2 lecture, 3 lab hours) (Course fee, \$20)

## 190. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Course fee variable)
198. Internship in Art (1-6; max total 6) Prerequisite: permission of instructor and sponsoring agency. Experience in art related professions with agency under art department supervision. Maximum credit toward an art major, 6 units. CR/NC grading only. (Minimum of 3 field hours per unit.)

## GRADUATE COURSES

(See Course Numbering System.)

## Art (Art)

## 220T. Topics in Studio

Processes (3; max total 9)
Prerequisite: permission of instructor. Investigation of advanced studio topics
selected by the department. Coursework includes studio productions, their critiques and evaluations.

## 230. Seminar in Art

Theory (3; max total 9)
Prerequisite: permission of instructor. Theories of the visual arts as developed by artists, critics, and philosophers, and their application to art criticism in our time. Oral presentation and defense of critical papers required. Meets graduate writing skills requirement.

## 240. Seminar in Art Studio

(3; max total 15, max 9 in one area)
Prerequisite: permission of instructor. Work individually with selected staff in chosen area of concentration. Concurrent obligation to meet regularly scheduled seminars for group progress reports and critiques.

## 260. Seminar in Art

## History (3; max total 9)

Prerequisite: 6 units of upper-division art history and permission of instructor. Research problems applicable to art history students or studio artists. Meets graduate writing skills requirement.
290. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
298. Project (2-6; max total 6)

Prerequisite: permission of art department graduate coordinator. (See Criteria for Thesis and Project.) Preparation, production, design, and installation of original works produced while engaged in the graduate program. Exhibit committee must approve of the work, location, and quality of installation. Abstract required. Approved for $S P$ grading.
299. Thesis (2-6; max total 6)

Prerequisite: permission of art department graduate coordinator; see Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for $\boldsymbol{S P}$ grading.

## IN-SERVICE COURSE

(See Course Numbering Systems.)

## Art (Art)

343. Contemporary Approaches in Art (1-3; repeatable for credit) Advanced processes not normally offered in regular courses. Areas may include art education, drawing, painting, ceramics, sculpture, photography, printmaking, design, crafts, and motion picture.

Asian Americans constitute one of the fastest growing minority populations in California and the United States. A diverse group, Asian Americans trace cultural heritages from nations as varied as China, Japan, Korea, the Philippines, India, and, most recently, Vietnam, Laos, and Cambodia. The Asian American Studies Program provides students with an opportunity to learn about the cultural richness of the American past and the variety in its ethnic mosaic. The oldest theme in American history has been immigration, and knowledge of Asian Americans promotes an awareness and appreciation for cultural pluralism and multiculturalism within the United States.

## The Program

The Asian American Studies Program offers classes that focus upon the history and contemporary experience of Asians in the United States. These courses explore themes in local and ethnic history, trans-Pacific contact, cultural change and adaptation, and interethnic relations. Those who major in business, social science, international relations, and the human service professions recognize their relevance.
The Asian American Studies Program does not offer a major, but a minor is available for those who wish to develop a special expertise in this subject.

## Asian American Organizations

The Asian American clubs on campus welcome new members. These organizations include the Filipino Club, the Vietnamese Club, the Hmong Student Association, and the Amerasia Club which presents an annual campus program highlighting Asian American communities and cultures in California.

For further information about the Asian American Studies Program, contact the coordinator at (209) 278-3002, or write to: Asian American Studies Program, c/o Department of Anthropology, California State University, Fresno; Fresno, CA 93740.

## Asian Studies Minor

The following minor requirements must include at least 9 upper-division units.

Units
Elect from Anth 2,
AsAm 110, Eth S 1 .. 6
Elect from AsAm 15, 30, 56 ................... 6
Elect from AsAm 150, 180T,
Anth 123, 124 .. 9

Totall 21

## COURSES

Asian American Studies (AsAm)
15. Introduction to Asian American Status and Identity (3) Historical, social, and psychological factors in the changing status and identity of Americans from Asia. Examines variables such as cultural heritage, family organization, intergenerational conflict, and the experience of racism in the changing world of Asian Americans. General Education BREADTH, Division 9.
30. Japanese Americans
in the United States (3)
A survey of social adaptations and cultural changes among Japanese Americans in different communities such as California and Hawaii. Considers identity, marginality, acculturation, and cultural traditions

## Asian American Studies

School of Social Sciences
Department of Anthropology FRANKLIN C. L. NG, Coordinator
Peters Business Building, Room 389
(209) 278-3002

Minor in Asian Studies
in Japan and in American communities. General Education BREADTH, Division 9.
56. Chinese Americans
in the United States (3)
A survey of social adaptations and cultural changes among Chinese Americans in such places as California, Hawaii, and New York. Considers identity, marginality, acculturation, and cultural traditions in China and in American communities. General Education BREADTH, Division 9.
110. Asian American Communities (3) A multidisciplinary study of Asian American communities and their relations with the larger society. Analyzes values, lifestyles, processes of group identity and boundary maintenance, social organization, and cultural change. Examination of Chinese, Japanese, Filipino, and other Asian American subcultures. General Education CAPSTONE Cluster.

## 150. Asian American Expression (3)

The study of Asian and Asian American literature, art, music, and drama. Examines the role of creative expression as a way of understanding changing views of ethnicity and community identity.
151. Cultures and Foods of East Asia (3) (See Anth 181.)

## 180T. Topics in Asian

American Studies (3; max total 6)
Prerequisite: AsAm 15, permission of instructor. Detailed consideration of a single topic concerning the past or present position of Asian Americans in U.S. society.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
195. Race, Class, and Gender (3)
(See CLS 195.)

## Athletics

School of Health and Social Work Department of Athletics GARY A. CUNNINGHAM, Chair North Gym, Room 146 (209) 278-2643

alifornia State University, Fresno is a Division 1-A member of the National Collegiate Athletic Association and the Big West Conference. Participation in intercollegiate athletics in the sports of baseball, basketball, cross country, football, golf, soccer, swimming, tennis, track, water polo, and wrestling is offered for men, while basketball, cross country, softball, swimming/diving, tennis, track and field, and volleyball are offered for women. Participation offers opportunities for student athletes to pursue and improve their athletic talent under a professional coaching staff, experience disciplined team membership, travel with their team to away contests, and excel to the height of their ability.

## Activities

Students majoring in physical education may count a maximum of 12 units of dance technique, physical education, and athletic activity courses toward the total units required for the bachelor's degree; other students may apply a maximum of 8 units to the total degree requirement.

## Faculty

Gary A. Cunningham, Chair

## COURSES

Athletics (ATHL)
10. Strategies for Academic Success (3) Restricted to intercollegiate athletes. Designed to help entering students make a smooth transition into the university, as well as increase knowledge of policies, procedures, resources, and graduation requirements especially pertaining to student athletes. Introduces techniques to improve learning strategies and provides students with awareness about relevant drug and health issues. CR/NC grading only. (Former ATHL 1R)
INTERCOLLEGIATE
(Courses may be repeated)
*100. Conditioning of Athletes (1)
176. Baseball (2) Men only.
177. Basketball (2) Men only.
178. Basketball (2) Women only.
180. Cross Country (2)
182. Football (2)
183. Golf (2)
186. Soccer (2)
187. Softball (2)

Women only.
188. Swimming (2)

Men only.
189. Swimming (2)

Women only.
191. Tennis (2)

Men only.
192. Tennis (2)

Women only.
193. Track and Field (2)
196. Volleyball (2)
197. Water Polo (2)
199. Wrestling (2)

[^10]

TThe Department of Biology offers a diversified program of courses with two baccalaureate degree programs: a Bachelor of Arts in Biology with six options and a Bachelor of Science in Microbiology. The biology options in the B.A. degree provide for careers in teaching, agriculture-related disciplines, and research, as well as preparation for advanced degrees.
Biology students may also obtain preprofessional preparation for study in medicine, nursing, dentistry, veterinary medicine, and other health science fields. The B.S. in Microbiology, while especially appropriate for students wishing to enter the field of clinical laboratory technology, can also lead to careers in other areas of microbiology. In addition to courses offered at CSU, Fresno, courses and research experiences obtained at the Moss Landing Marine Laboratories on Monterey Bay may be applicable to Department of Biology degree programs.
Faculty advising plays a major role in helping students plan their academic programs. Consult with the department chair for adviser assignment. See your adviser at least once a semester for assistance in selecting a degree program
and courses. Students intending to transfer from community colleges may also wish to consult an adviser. These students should complete most of their lower-division General Education, major, and additional requirements prior to transferring to CSU, Fresno.

## Faculty and Facilities

The faculty of the Department of Biology obtained their doctorates in a wide range of biological disciplines. The laboratories accompanying most upper-division courses in the department are taught by faculty, allowing students to work closely with their professors. Student participation in faculty research is encouraged.

The department is housed in a wellequipped, modern, facility. Scientific equipment routinely used in undergraduate instruction includes two electron microscopes, ultracentrifuges, scintillation counters, spectrophotometers, and computers. Greenhouse and animal-care facilities provide additional support to the instructional programs. Field courses take full advantage of Fresno's central location with trips to the Sierra Nevada and the Pacific coast.

School of Natural Sciences Department of Biology

## Bachellor of Arts

Degree Requirements
Biology Major
The biology major consists of 40-41 units, depending upon which of the six options is selected. A minimum of 24 units of major coursework must be upper division. To satisfy this major, students must complete the biology core, one of the options described below, and additional requirements in related fields as specified in each of the options.

BIOLOGY CORE (see Note 1 at end of Bachelor of Arts description).

Units
Bot 1, Zool 1, Biol 130,* 135, 140 ... 15-17

* Biol 130 is not required in the microbiology option.

## Options

Biological Science. This degree program is intended for students who wish to explore the breadth of biology. Within this option, students take courses in microbiology, botany, physiology, entomology, and zoology, as well as courses in biology which do not emphasize any particular taxonomic group. This option is recommended for students planning entry into secondary school teaching and other careers requir-
ing a broad coverage of biology. With the selection of appropriate elective courses, students may prepare themselves for entry into graduate and professional schools.
Students must include a minimum of 6 upper-division Bot and 6 upper-division Zool-Ent-Phy units.
Units
Option requirements ..... 40
Biology Core (see Note 1 atend of Bachelor of Artsdescription)(17)
Micro 20 or 104 ..... (4-5)
Select a minimum of onecourse from each of the
following categories:
Biol 125, 133; Bot 107;
Zool 138,175; M Sci
103
Biol 160, 175; Bot 104, 137; Ent 110; Phy 140; Micro 161, 189; M Sci 123
Bot 106, 134, 135, 136; Ent 101; Zool 103, 108, 113,$114 ;$ M Sci 112 , 113, 124, 131
Biological Science electives $\qquad$
Addlitionall requirements

*Nine units of General Education requirements are satisfied to the following extent by major and additional requirements: CORE, Category 3 by Math 70, 72, or 75; Psych 42; BREADTH, Division 1 by Chem 3A, Division 2 by Bot 1 or Zool 1. Consult your major academic adviser for details.

Botany. This program is designed to serve students who are interested in pursuing career or graduate education opportunities in the area of plant biology. Morphological, ecological, taxonomic, and physiological aspects of plants are emphasized in this degree program. This preparation is consistent with the requisites of careers in environmental fields, both governmental and private, and in agriculture-related
areas. The central location of Fresno, between the coast and the mountains, affords a unique opportunity for students to explore the diverse flora of California. The department has excellent facilities for both field and laboratory study in botany. The department greenhouse facility houses a unique collection of plants, both native and foreign to California.
Units
Option requirements ..... 40
Biology Core (see Note 1 atend of Bachelor of Artsdescription(17)
Bot 104 ..... (4)
Select a minimum of one
course from each category:
Bot 106, 107(3-4)
Bot 134, 136, 137 ..... (3-4)
Bot 135, 142; M Sci 131 ..... (3-4)

* Nine units of General Education requirements are satisfied to the following extent by major and additional requirements: CORE, Category 3 by Math 70, 72, or 75; Psych 42; BREADTH, Division 1 by Chem 3A, Division 2 by Bot 1 or Zool 1. Consult your major academic adviser
for details.

Environmental Biology. This major is intended for those students who are interested in a field program in the biological sciences. The integration of the courses in this program provide students in-depth instruction in theoretical and applied ecology, both plant and animal, in fisheries, wildlife management, aquatic and terrestrial ecology, and in conjunction with the Moss Landing Marine Laboratories, marine ecology. Sufficient morphologic and taxonomic background is provided in the areas of entomology, invertebrate zool-
ogy, vertebrate zoology, and botany. Students completing this option are well prepared for entry into careers in governmental field research (local, state, and federal agencies), in agriculture-related areas, environmental law, and into advanced study programs leading to graduate degrees. With selection of appropriate optional courses, students may secure an emphasis in marine sciences.

Total 124

[^11]Functional Biology. This degree option focuses on the areas of biology which interface closely with chemistry, including cell and molecular biology, genetics, and physiology. Students interested in preprofessional training in medicine often select this option. Students completing this degree program typically continue their education in professional or graduate schools in pursuit of advanced degrees.

Totall
126-129
*Nine units of General Education requirements are satisfied to the following extent by major and additional requirements: CORE, Category 3 by Math 70,72 , or 75 ; Psych 42 ; BREADTH, Division 1 by Chem 1A or 1B, Division 2 by Bot 1 or Zool 1. Consult your major academic adviser for details.

Microbiology. This option is intended as an alternative for students who have interests in areas of microbiology other than those included in the microbiology B.S. degree program. In particular, medical microbiology is not emphasized as in the B.S. degree program, although students may elect courses in this area as elective choices. Core courses in biology, microbiology, and chemistry provide a firm basis for advanced study in microbiology and molecular biology. Students may specialize in applied aspects of the field, including environmental and industrial microbiology and medical
technology with selection of appropriate option elective courses. Students completing this option are prepared for careers in a variety of fields and for entry into graduate study in microbiology and molecular biology. Graduates in this option are eligible for certification by examination as registered microbiologists through the American Society for Microbiology.

Zoology. This degree program is intended to serve students who are interested in pursuing career or graduate education opportunities in the area of animal biology. Morphological, ecological, taxonomic, and physiological aspects of animals (vertebrates and invertebrates) are emphasized in the various courses comprising this option. The department has excellent teaching collections of preserved animals which are used effectively in the teaching program. Students interested in field studies have excellent opportunities within this
program. With selection of appropriate optional courses, the student may obtain an emphasis in entomology in this degree option.

* Nine units of General Education requirements are satisfied to the following extent by major and additional requirements: CORE, Category 3 by Math 70, 72, or 75; Psych 42; BREADTH, Division 1 by Chem 3A, Division 2 by Bot 1 or Zool 1. Consult your major academic adviser for details.

## Advising Notes for all Options

 within the Bachelor of Arts in Biology1. B.A. biology majors who have taken introductory sequences other than Bot 1 or Zool 1 must consult with the department chair or faculty adviser for equivalency evaluation prior to beginning their upper-division coursework. Biol 130 is not required in the Microbiology option.
2. Chem 1 A and 1 B may be taken as a substitute for Chem 3A and 4 and Chem 128A and 128B may substitute for Chem 8 . The reverse substitutions are not permissible. Premedical students should take Chem 1A and 1B and 128A and 128B instead of Chem 3A and 8.
3. B.A. biology majors selecting the Functional Biology and Microbiology options will complete a Minor in Chemistry and should request the minor on their application for graduation. Consult the chemistry department chair for details (see Chemistry Minor).
4. No course used to satisfy General Education CAPSTONE requirements may be used to satisfy biology major requirements.
5. $C R / N C$ grading is not permitted in the biology major.
6. General Education, additional, and elective requirements may be used toward a dual major or minor (see Dual Major, or departmental minor). Consult the appropriate department chair, program coordinator, or faculty adviser for additional information.

## Suggested Sequence of

## Courses for B.A. Degree Major

In addition to courses required for the major, General Education requirements and electives should be included to bring total to 15-17 units per semester. A total of 124 units must be included for the Bachelor of Arts degree. Electives may include minor and credential requirements. (See Degrees and Credentials.)
During the first two years, students should attempt to complete most General Education requirements; the constitution and government requirements; Zool 1 and Bot 1 ; and all additional lower-division requirements in the option they have selected. Biol 130, 135, 140, and Math 101 or Psych 42 should be completed as early as possible after becoming eligible to receive upper-division credit, preferably no later than the end of the third year. The remainder of the third and fourth years should be spent completing requirements for the selected option, and electives in biology and other fields.

## Bachelor of Science Degree Requirrements <br> Microbiology Major

The Bachelor of Science degree in Microbiology is offered for students preparing for careers in microbiology and laboratory technology, especially clinical laboratory technology. This degree requires 127 units. With judicious selection of electives, this major may also serve as preparation for graduate study and public health or industrial microbiology careers. Such careers
would include the fermentation industries, pollution control, food technology, biologics production, and others.

## Units

Major requirements ....................... 38
Micro 104, 117, 118, 150, 185

be used toward a minor
Totall 127
*Six units of General Education requirements are satisfied to the following extent by major and additional requirements: BREADTH, Division 1 by Chem 3A, Division 2 by Bot 10 or Zool 1. Consult your major academic adviser for details.

## Advising notes for the

## Bachelor of Science in Microbiology

1. No course used to satisfy General Education CAPSTONE requirements may be used to satisfy microbiology major requirements.
2. $C R / N C$ grading is not permitted in the B.S. microbiology major.
3. General Education, additional, and elective requirements may be used toward a dual major or minor (see Dual Major or departmental minor). Consult the appropriate department chair, program coordinator, or faculty adviser for further information.
4. B.S. microbiology majors will complete a Minor in Chemistry and should request the minor on their application for graduation. Consult the chemistry department chair for details (see Chemistry Minor).

## Suggested Sequence of

 Courses for B.S. Degree Major1st year: Bot 10; Zool 1; Chem 3A, 4
2nd year: Chem 8, 105, 109; Micro 104; Phy 65
3rd year: Micro 117; Phys 125; Zool 107, 158
4th year: Micro 118, 150, 185; Chem 150, 151, 153, 154

## Biology Minor

The biology minor consists of a minimum of 20 units of which 12 must be upper division.

Units
Bot 10 and Zool 10 or equivalents .... 6-10 An approved field course (see below)..3-4 Biol 130 or Micro 104;
Biol 135, 140 ...................................7-10
Biology electives (upper division) .......0-4
Totall ................................................. 20
Approved Field Courses: Biol 133; Bot 106, 107; Ent 101; Zool 113, 114, 134, 135, 137, 138, 140, 165.

## Credential Program

The single subject waiver program for Life Science (Biology) consists of Bot 1; Zool 1; Biol 125, 130, 135, 140; Micro 20 or 104; Chem 3A, 8, 150; Geol 1 or 2; Phys 2A, 2B; C Sci 101 and one course from each of the following: (1) Bot 106, 107; (2) Biol 133; Ent 101; Zool 113, 114; (3) Bot 104; Phy 65, 140.

For program planning in science, consult the biology department coordinator for teacher education each semester.

## Graduate Programs

The Biology Department offers the Master of Arts degree in Biology with the opportunity for specialization in several areas of study. Among these areas are: ecologically oriented field studies; molecular and cellular biology; physiology at both invertebrate and vertebrate levels; entomology; microbiology; parasitology; botany; systematics; animal behavior. The program also prepares candidates for teaching various biological disciplines at the primary and secondary education levels. A further objective of the master's program is to provide a foundation for those seeking advanced education at universities offering the doctorate or other professional degree. The Biology Department has further informational materials available upon request.
The Biology Department and the university are located in a region uniquely suited to the pursuit of projects that are environmentally oriented. High Sierra, foothill, coastal, and forest environments are all within three hours drive of CSUF. Facilities are available at the campus for studies involving genetic recombination, electron microscopy, use of radioactive materials, and metabolic studies on all living forms. Cooperation with local physicians and
hospital facilities provides additional opportunities to pursue medically oriented research.

The Biology Department is a member of a consortium that manages and operates the Moss Landing Marine Laboratory (MLML). MLML is located on the California coastline between Santa Cruz and Monterey. A master's candidate interested in pursuing marine science studies must meet CSUF Biology Department master's candidate requirements as well as those of MLML. Such candidates are encouraged to consult the Biology Department's MLML coordinator for information and to read the MLML section presented below.

## Master of Arts <br> Degree Requirements

The Master of Arts degree program in Bi ology assumes preparation equivalent to a CSU, Fresno undergraduate major in biology. Students having undergraduate majors in fields other than the biological sciences may enter the program, but may reasonably expect additional requirements to produce equivalent preparation.
After obtaining a list of specific departmental requirements from the graduate adviser of the Biology Department, the student, under the direction of a graduate adviser, prepares and submits a coherent program individually designed within the following framework:

Units
Courses in 200-series ......................... 15
Electives ............................................... 15
(May be 100- or 200-series)
Totall .............................................. $\overline{30}$
(At least 18 units in biological sciences)
There are five steps that must be completed for the Master of Arts degree in Biology:

1. Admission to Graduate Standing (constitutes admission to the university)
2. Admission to Classified Graduate Standing (constitutes admission to the department program)
3. Advancement to Candidacy (formalizes thesis committee and project)
4. Completion of a thesis and associated requirements
5. Completion of all additional requirements for award of master's degree
Normal progress toward the Master of Arts degree in Biology requires that classified graduate standing be achieved in the first semester of graduate study and that advancement to candidacy be granted the
following semester. Completion of the thesis and all other program requirements will normally require two additional semesters of study. Procedures for completing these steps are outlined in the following sections. Students are personally responsible for ensuring that all graduate degree requirements have been met in sequence; therefore, each student should read the procedures thoroughly to be sure all requirements are understood. Students should also meet with the departmental graduate adviser at the earliest possible date.
Admission to Graduate Standing. Admission to the university is handled through the Admissions Office of California State University, Fresno. For admission to postbaccalaureate/graduate standing, a student must have completed a four-year college program and hold an acceptable baccalaureate degree from an accredited institution with a grade point average of 2.5 in the last 60 units.

To be considered for classified standing in biology, the following additional steps are required of students planning to enter the biology graduate program.

1. Arrange to take the Aptitude and Advanced Biology sections of the Graduate Record Examination prior to application. Information about dates, fees, and application procedures may be obtained through the Division of Graduate Studies and Research. The Biology Department requires that GRE advanced scores be current. Scores dating from five years previous to application are not considered valid.
2. Contact the graduate adviser in the $\mathrm{Bi}-$ ology Department prior to registration for assignment of a temporary faculty adviser who will assist in the planning of initial courses. Students may request the assignment of any biology faculty member to serve in this capacity.
3. Meet with the temporary adviser prior to registration and develop an approved initial program of at least 9 units that is mutually agreeable to the student and the adviser. These courses are to be entered on the "Approved Preliminary Program" form (available from the graduate adviser) and signed by the student, temporary adviser, and departmental graduate adviser. This will constitute the Approved Initial Graduate Program. All students are required to have the "Approved Preliminary Program" form approved and on file prior
to registration. When this form is submitted, the Graduate Committee will consider your request for classified standing.
The temporary adviser and graduate adviser will evaluate each student's transcripts and Graduate Record Examination Advanced Biology subscores to ascertain that minimal coursework and performance standards have been achieved in the following six areas:
a. Physiology
b. Genetics
c. Morphology and Development
d. Systematics and Evolution
e. Ecology
f. Cellular and Molecular Biology

Students lacking minimal preparation in these areas will be assigned coursework by the temporary adviser and graduate adviser to correct diagnosed deficiencies. Coursework assigned in this manner will not prevent a student from achieving classified standing if all other requirements are satisfied but the courses may not apply to the total units for the master's degree.

## Admission to Classified Graduate Standing

Admission to classified graduate standing constitutes official admission into the graduate program in the Department of Biology and requires the approval of the Biology Department. Classified standing must be attained no later than the semester in which a student completes 10 units, including transfer and postbaccalaureate credit, to be used toward the master's degree, so students should attempt to obtain classified graduate standing as early as possible in their graduate careers to avoid possible loss of units. Normal progress toward the degree requires that this be accomplished in the first semester of graduate work.
Students applying for classified standing should be sure they have submitted an "Approved Preliminary Program" form to the departmental graduate adviser.
Admission to classified graduate standing must be recommended by the Graduate Committee of the Biology Department. The recommendation will be based upon a classification score which combines GRE
scores and undergraduate GPA (last 60units) and is computed in the following manner:
Classification

$$
\begin{aligned}
\text { Score } & =\text { (GPA x 40) } \\
& + \text { (GRE Biology \%ile x } 2) \\
& + \text { GRE Verbal \%ile } \\
& + \text { GRE Quantitative \%ile }
\end{aligned}
$$

All percentiles will be based upon norms established by the Educational Testing Service and in effect at the time the test was taken. Prior to the 8th week of the semester, students should meet with the graduate adviser to discuss the Graduate Committee's decision. Students will be assigned to one of the following three categories:

1. Classified Graduate Standing. Students having a classification score of 340 or better will be recommended for classified graduate standing.
2. Conditional Classified Standing. Students having a classification score between 260 and 339 will be recommended for conditional classified standing. This does not constitute classification, but indicates that additional specificrequirements must be completed to achieve classified standing. These requirements are described below.
3. Students scoring below 260 will be denied admission to the biology program but will be maintained in postbaccalaureate unclassified standing in the Graduate Division. Normally, students denied admission because of low classification scores will have deficiencies that are serious enough to indicate that they should realistically reassess their educational goals. However, procedures are available to permit students in this category to work for classified standing and are described below. No more than 10 units of coursework taken while in this status may eventually be applied to the degree.
Students recommended for classified graduate standing may proceed with the completion of requirements for advancement to candidacy, the next step in the graduate program. Students granted conditional classified status or denied admission (remaining in postbaccalaureate unclassified standing) will not have been admitted to the graduate program in biology and must attempt to increase their classification score to gain classified standing. The graduate adviser will provide further information on how this may be accomplished.

When any requirements for a change in graduate standing have been completed, the student must see the graduate adviser and file appropriate forms with the graduate division.

## Advancement to Candidacy

Acceptance to classified graduate standing indicates that the student's academic background and ability are sufficiently high to merit admission into the biology graduate program. Advancement to candidacy signifies that the student has developed a coherent program of study for the Master of Arts degree that meets with the approval of the Biology Department. This includes approval of all coursework, approval of the Thesis Committee, and of the thesis topic. Nine units of approved coursework must be completed prior to advancement to candidacy. The Biology Department also requires that at least 10 units of approved coursework must be completed after advancement to candidacy. Units completed during the semester that advancement is achieved will be considered to have been completed after advancement to candidacy.Students must also show competence in writing skills through an appropriate examination or course. Normal degree progress requires that advancement to candidacy be achieved in the semester following admission to classified standing. A student must be advanced to candidacy, possess a GPA of 3.0 or better, and file a Thesis Committee Assignment Form before enrolling in thesis (Biol 299).
A complete list of the steps required for advancement to candidacy is available from the departmental graduate adviser.

## Completion of a Thesis

The Master of Arts in Biology requires completion of a research thesis (Biol 299). The thesis must show originality, appropriate organization, clarity of purpose, critical analysis, and accuracy and completeness of documentation where needed. Critical and independent thinking are required. The finished thesis must meet standards appropriate for publication in the scholarly journals of the field. A colloquium is required of all students before graduation. Additional information on the completion of the thesis is available from the department graduate adviser.

## Completion of All <br> Requirements for Award of Master of Arts Degree in Biology

In addition to the above requirements, in order to receive the Master of Arts degree in Biology the student must:

1. Maintain a GPA of 3.0 or better in all graduate coursework undertaken from the date of embarking on the first course of the approved program. Students wishing to explore other academic areas without jeopardizing this grade point average should attempt to use the CR/ $N C$ grade option for this purpose.
2. File an application for the granting of the Master of Arts degree and pay the diploma fee. Applications should be submitted during the first two weeks of the semester (or the first week of a summer session) in which the degree is to be completed, and are available from the Evaluations Office in Joyal Administration, Room 115.

## Master of Science Degree Requirrements <br> Marime Sciences Major

This degree program, to be offered as an interdepartmental degree in cooperation with Moss Landing Marine Laboratories (MLML) provides the opportunity for students to acquire a practical and theoretical education in the marine sciences to prepare them for careers as marine specialists, scientists, and teachers. The program at Moss Landing provides extensive field and laboratory work for advanced study in the marine sciences, which is not duplicated on individual California State University campuses.
The Master of Science in Marine Sciences degree program is administered through MLML and a consortium campus with emphasis on biology, geology, or other department, depending on the choice of the student. The prospective student must meet the entrance requirements for the home campus department and will be accepted into classified or conditionally classified status by normal procedures at that campus (see above for CSUF biology procedures summary). Conditionally classified students must become classified by home campus procedures. MLML may impose additional requirements for classification.

The Thesis Committee will be composed of at least three members, including one faculty member from MLML (who is ordi-
narily the thesis adviser) and, at the discretion of the home campus, a representative of that campus. The other member or members of the Thesis Committee may be from MLML, the home campus, or elsewhere with the approval of the thesis adviser. The final colloquium must begiven at the home campus.
Additional MLML Degree Requirements Including Coursework. A student becomes eligible for the master's degree in marine science after the following requirements have been satisfied:

Units
Courses in 100-series (requires any
three of the following five courses:
M Sci 103, M Sci 141, M Sci 142,
M Sci 143, M Sci 144) 12
Courses in 200-series (including 2 units of M Sci 285T, 286T or 287T, and 4 units of M Sci 299) $\qquad$ Electives (course(s) in the 100-and/or 200-series) approved by Thesis Committee .. 3
Total 30

Note: Quantitative Marine Science, M Sci 104, does not count toward the degree.

## Biotechnology <br> Certificate Program

California State University, Fresno offers a Certificate of Advanced Study Program in Biotechnology. This intensive oneyear postbaccalaureate program emphasizes molecular biology and a wide range of laboratory skills at the forefront of
modern biotechnology. The biotechnology field is growing rapidly and, as new products and applications are commercialized, there is increased need for highly skilled personnel capable of working in both research and production areas. Enrollment is limited to 12 to 15 students per year who work closely with faculty in a variety of lecture and laboratory courses. Among the techniques studied are purification of biological macromolecules, gene splicing, DNA sequencing, culturing of mammalian cells, hybridoma production, and plant cell culturing and cloning.
The certificate program can lead to potential careers in expanding fields, such as drug and hormone production in the pharmaceutical industry, monoclonal antibody production for medical diagnostics, crop improvement, industrial bioprocessing, and medical research. The program also provides a background for further postgraduate studies in fields such as biochemistry, molecular biology, and agricultural biotechnology. Some of the courses may also be used at CSUF as components of master's degree programs in biology, chemistry, plant science, and related departments.

Courses include: Molecular Biology (Biol/ Chem 241A-B), Techniques in Protein Purification (Biol/Chem 242), Nucleic Acid Technology Lab (Biol/Chem 243), Cell Culture/Hybridoma Laboratory ( $\mathrm{Biol} /$ Chem 244), Micropropagation (Plant Science 102), and Seminar in Molecular Biology/Biotechnology (Biol/Chem 248).

## COURSES <br> Biology (Biol)

10. Life Science (3)

Not open to students with credit in Bot 1 or Zool 1. Principles of biology related to the cell, maintenance, and relation of living organisms, heredity and elementary processes of evolution, and basic principles of ecology. General Education BREADTH, Division 2. (2 lecture, 2 lab hours)

## 15. An Ecological

Approach to Life Science (5)
Concurrent enrollment in Geol 15, N Sci 15 , S Sci 15 required. Portion of Man/ Woman and the Natural Environment Cluster. An introduction to biological concepts and investigational methods in the natural environment. Lecture, lab, and fieldwork. General Education BREADTH, Division 2. (Field trip fee required) (See Man/Woman and the Natural Environment, School of Natural Sciences.)
101. Nature Study (3)

Not allowable for credit for biological or physical science majors or minors. Prerequisite: lower-division biology, botany, or zoology. Evaluation of natural science programs at the elementary level; optional opportunities in developing K-9 environmental study material or designing environmental awareness topics for adult groups; emphasis on life science programs dealing with the interaction of man and the biosphere. (2 lecture, 3 lab hours)
102W. The Scientific Paper (3)
No credit toward biological or physical science majors or minors permitted. Prerequisite: Engl 1. An introduction to the preparation, structure, use, and writing of the scientific research article; the meaning, logic, and structure of the abstract, introduction (historical review), methods, results, discussion, conclusion, and bibliographic citation. Meets the upper-division writing skills requirement for graduation.

## 105. Human Ecology (3)

Not open to students with credit in Biol 20. The study of the relationships between humans and their environment, both natural and man-made; emphasis on scientific understanding of root causes of current environmental problems. General Education CAPSTONE Cluster.
107. Heredity and Society (3)

Prerequisite: college biology, zoology, or botany. Principles of genetics and evolution as they apply to human society, thought, experience, and affairs. Ethical, social, political, and medical problems in
relation to genetic engineering and other techniques.
120. Introduction to Genetics (3)

Not open to biology majors and students with credit in Biol 135. Prerequisite: college zoology or botany. Principles of biological inheritance, including gene structure, gene function, statistical methods, problem solving, and human genetics.

## 122. Fundamentals of

Human Genetics (3)
Prerequisite: college biology, zoology, or botany. Intended primarily for students in the health fields or biology. Meiosis, mitosis, chromosomes, and genes. Mutations and familial diseases. Pedigrees, inbreeding, multiple genes, sex determination, blood group alleles, linkage and mapping, twins, cytogenetic and other diseases, genetic counseling.
125. Evolution (3)

Biol 120 or 135 recommended. Evolution processes and patterns. (2 lecture, 1 discussion hour)
130. Introduction to Cell Biology (2) Prerequisite: Bot 1, Zool 1, and organic chemistry. Principles of cell biology at the molecular, cell organelle, and whole cell level. Includes material related to both procaryotic and eucaryotic cells.
133. Aquatic Ecology (4)

Prerequisite: Biol 140. Physical-chemical features of inland waters as related to their biology; community structure and function, ecological interactions, adaptations, and identification of aquatic organisms. (2 lecture, 6 lab or field hours, including weekend field trips)*

## 135. Genetics (3)

Not open to students with credit in Biol 120. Required of all biology majors. Prerequisite: Biol 130 or Micro 104. The mechanisms of inheritance. Modes of transmission of genetic material, linkage and recombination, sex determination, chromosome aberrations, immunogenetics, developmental genetics, and population genetics.
140. Introduction to Ecology (2)

Prerequisite: Bot 1 and Zool 1. Major concepts related to structure, function, organization, and regulation at the population, community, and ecosystem levels.

## 150. Electron Microscopy (4)

Prerequisite: permission of instructor. Preparation and examination of biological specimens. Basics of electron microscopy and interpretation of electron micrographs. (1 lecture, 9 lab hours)
155. Marine Biology (3)

Prerequisite: college biology, botany, or zoology. Introduction to the marine environment with emphasis on the biological aspects; systematics, ecology, and morphological and physiological adaptations of marine organisms, especially intertidal and shallow water forms; pollution; utilization of marine resources. (Onefield trip required)

## 157. Conservation of <br> Natural Resources (3)

(Same as CTET 157.) Prerequisite: biological and physical science. Problems in conservation of natural resources in the United States; water supply, soils, minerals, metals, petroleum, natural gas, grasslands, forests, fisheries, wildlife, and recreational areas; local, state, and national plans and organizations for conservation; educational implications and techniques.
160. Developmental Biology (3)

Prerequisite: Biol 130, 135. Investigations concerning the variety of mechanisms acting during the several stages of development of the living organism, from gamete formation to morphological and biochemical differentiation of organ systems; emphasis on differential genetic control.

## 162. Biological

Methods and Techniques (3)
Open to credential candidates in the life science or physical science waiver program; course meets the professional education requirement of 30 units for the clear credential. Collection and preparation of biological materials and specimens for instruction. Designing and conducting laboratory investigations. Planning and directing field trips. (1 lecture, 6 lab hours)

## 175. Advanced Cell Biology (4)

Prerequisite: Biol 130, 135, and organic chemistry. Advanced topics in cell biology, including cellular and molecular aspects of the following: muscle and non-muscle motility, membranes and cell surfaces, excitablecells, and abnormal cells. Laboratory emphasizes molecular biological techniques. (3 lecture, 3 lab hours)
185T. Topics in Biology (1-4; max total 6) Prerequisite: permission of instructor. Investigation of selected areas in the field of biology. (Lecture and/or laboratory)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading.

[^12]
## GRADUATE COURSES

(See Course Numbering System.)

## Biology (Biol)

200. Principles and Great

Experiments in Biology (2)
Development and influence of current biological thought.
204. Biology of Speciation (2)

Prerequisite: Biol 135 and an evolution course. Evolution of the species as a unit of biological organization.
206. Biological Systematics (2)

Prerequisite: at least one upper-division or graduate course having a phylogenetic component. Classification, nomenclature, and taxonomic theory as applied to living organisms, their evolution, and phylogeny.

## 207. Radiotracer Methodology

## in the Natural Sciences (3)

(Same as Chem 207 and Phys 207.) Prerequisite: graduate standing; two semesters undergraduate physics recommended. For students in biology, chemistry, physics, or other areas using radioisotopes. Covers radiation detection, radiation safety, gamma ray spectroscopy, liquid scintillation, radioimmunoassay, and biological applications in living systems. Team taught. (2 lecture, 3 lab hours) (Former N Sci 207)

## 208. Biological Field

## Studies (1-6; max total 6)

Prerequisite: permission of instructor. Integrated studies or specialized topics, including botanical, environmental, microbiological, or zoological field studies.* Approved for $\boldsymbol{S P}$ grading.
210. Parasitic Protozoa (3)

Prerequisite: Zool 108. A systematic survey of parasitic protozoa. (2 lecture, 3 lab hours)

## 212. Helminthology (3)

Prerequisite: Zool 108. A systematic survey of parasitic helminths. (2 lecture, 3 lab hours)
225. Insect Taxonomy (2; max total 4) Prerequisite: Ent 101, 115. Identification and classification of major and specific groups of family and generic status. (6 lab hours)

## 238. Biological Membranes:

Structure and Function (3)
Prerequisite: a cellular biology course or biochemistry course. A study of the myriad of functions membranes perform with an emphasis on membrane transport. General structural properties of membranes, in-
cluding fluidity and asymmetry, and modification of structural building blocks which lead to membrane diversity. (Former Biol 265T section)
240. Systems Ecology (3)

Prerequisite: Biol 140, Math 70. Quantitative approach to the analysis of whole ecosystems including data acquisition and statistical treatment, conceptual and mathematical ecosystem modeling, and computer simulations in FORTRAN or BASIC. No programming experience needed. (2 lecture, 3 lab hours)
241A-B. Molecular Biology I-II (3-3)
(Same as Chem 241A-B.) Prerequisite: Biol 135 , Chem 150 or 155 , and permission of instructor. Biol/Chem 241A is prerequisite for Biol/Chem 241B. Seminar covering current topics in molecular biology. Topics include: protein and nucleic acid structure, DNA replication, transcription, translation, bacterial and animal viruses, prokaryotic and eukaryotic regulation, mechanisms of exchange of genetic material, and recombinant DNA technology.

## 242. Techniques in Protein

Purification and Analysis (3)
(Same as Chem 242.) Corequisite: Biol/ Chem 241A. Deals with the technologies relevant to protein isolation, purification, analysis, immobilization, and modification in micro and macro quantities. (1 lecture, 6 lab hours)
243. Nucleic Acid Technology Lab (3)
(Same as Chem 243.) Prerequisite: Biol/ Chem 241A and 242. Corequisite: Biol/ Chem 241B. A lecture/laboratory course focusing on thetechnologies used in nucleic acid chemistry, specifically synthesis, translation, mutagenesis, and genetic engineering. (1 lecture, 6 lab hours)
244. Cell Culture and Hybridoma (2)
(Same as Chem 244.) Prerequisite: Micro 117 or 185. The theory and practice of in vitro propagation of eukaryotic cells, including growth characteristics, metabolic requirements, and genetic analysis. Cloning, fusion, and generation of monoclonal antibody (hybridoma) are presented relative to cultured cell biology and application to biotechnology. (1 lecture, 3 lab hours)
248. Seminar in Molecular Biology and Biotechnology (1-2, max total 4) (Same as Chem 248.) Prerequisite: admission into the Biotechnology Certificate Program. Reviews and reports on current literature in various aspects of biotechnology and molecular biology.
250. Scientific Research Reporting (2) Prerequisite: permission of instructor. Techniques of scientific drawing and writing, illustrating emphasized. (1 lecture, 3 lab hours)
255T. Topics in Botany (1-3; max total 8) Prerequisite: permission of instructor. Investigation of new fields, areas not in current courses, or advanced studies in a given area. (Lecture and/or laboratory)
260T. Topics in Biology (1-3; max total 8) Prerequisite: permission of instructor. Investigation of new fields, areas not in current courses, or advanced studies in a given area. (Lecture and/or laboratory)
265T. Topics in Physiology
(1-3; max total 8)
Prerequisite: permission of instructor. Investigation of new fields, areas not in current courses, or advanced studies in a given area. (Lecture and/or laboratory)

## 270T. Topics in Zoology

(1-3; max total 8)
Prerequisite: permission of instructor. Investigation of new fields, areas not in current courses, or advanced studies in a given area. (Lecture and/or laboratory)

## 272. Physiological

Ecology of Vertebrates (2)
Prerequisite: Biol 140, Phy 140. An analysis of problems in and adaptations to arctic, alpine, marine, desert, tropical, and disturbed ecosystems; matters of energy and water economy, respiratory, circulatory, and sensory neuromuscular adaptations, and such topics as biological timing, migration, and navigation. (Lecture/seminar; paper(s) required)
274. Biometry (3)

Prerequisite: one statistics class, preferably Math 101. Application of statistical techniques to biological problems with emphasis on sampling, analysis of variance, experimental design, and regression techniques. Emphasis on analysis of real biological data and interpretation of results.
275. Biogeography (3)

Prerequisite: permission of instructor. Seminar in descriptive and ecological geography of animal and plant groups.

[^13]280. Practicum in Life Science

Education (2; max total 4)
Concurrent enrollment in CTET 155B required. Application of life science teaching methodology, principles, and practices in middle and secondary school teaching; classroom/lab/field organization and management; measurement and evaluation instruments; inventory/requisition systems. Course meets the professional education requirement of 30 units for the clear credential.

## 281T. Seminar in

Biological Science (1-2)
Prerequisite: permission of instructor. Reviews and reports on current literature in the various phases of biology.
282. Biology Colloquium (1; max total 2) Experience in evaluation and critique of research presentations of students, faculty, and other scientists. Student must attend a minimum of 10 approved research-oriented colloquia and participate in discussions and/or submit written reports.

## 290. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
295. Research (2-6; max total 6)

Prerequisite: permission of the instructor. Independent research by the advanced graduate student.

## 299. Thesis (2-4; max total 4)

Prerequisite: See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for SP grading.

## IN-SERVICE COURSE

(See Course Numbering System.)

## Biology (Biol)

302T. Topics in Biology (3; max total 6) Prerequisite: graduate standing or permission of instructor. Relation of man to his surroundings; review of concepts, cell, physics and chemistry of life, energetics, inheritance, evolution.

## COURSES

## Botany (Bot)

1. General Botany (5)

No credit if taken after a course that has college botany as a prerequisite. Students with credit in Bot 10 receive only 2 units of credit. Prerequisite to most upper-division
botany courses. Fundamentals of structure and function in seed plants; survey of plant kingdom. General Education BREADTH, Division 2. (3 lecture, 6 lab hours)
10. Plant Biology (3)

Not open to students with credit in Bot 1. Structure, function, and development of plants. General Education BREADTH, Division 2. (2 lecture, 2 lab hours)
104. Plant Physiology (4)

Prerequisite: college botany, Chem 1A or 3A; organic chemistry recommended. General metabolism and related processes. (2 lecture, 6 lab hours)
106. Plant Taxonomy (4)

Prerequisite: college botany. Principles of plant classification; local flora. (1 lecture, 9 lab or field hours)*
107. Plant Ecology (3)

Prerequisite: college botany. Interrelations of plants and environment. (2 lecture, 3 lab or field hours)*
134. Plant Anatomy (3)

Prerequisite: college botany. Structure and development of flowering plants at the cellular and tissue levels. (2 lecture, 3 lab hours)
135. Nonvascular Plants (3)

Prerequisite: college botany. Comparative structure and phylogeny of the fungi, algae, mosses, and liverworts. (2 lecture, 3 lab hours)
136. Vascular Plants (4)

Prerequisite: college botany. Morphology, reproduction, and evolution of the major groups of vascular plants (both living and extinct). Emphasis placed upon the seed plants. (2 lecture, 6 lab hours)
137. Plant Growth and Development (3) Prerequisite: college botany. Processes involved in plant growth with emphasis on the development of form in higher plants and the experimental approach. (2 lecture, 3 lab hours)
142. Algology (4)

Prerequisite: college botany. Morphology, cytology, ecology, physiology, economic importance, and cultivation of the algae. (2 lecture, 6 lab or field hours)*
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
200 Series
Graduate courses are listed under Biology.

## Entomology (Ent)

101. General Entomology (3)

Prerequisite: college zoology or one year of biology. Anatomy, physiology, life history, and classification of insects and other arthropods. (2 lecture, 3 lab or field hours)*
106. Economic Entomology (3)
(Same as Pl Pr 103). Prerequisite: Bot 10 or Zool 10. General and economic entomology; taxonomy of the principal orders of insects; life histories, habits, recognition, and control of the principal agriculture insect pests of the San Joaquin Valley. (2 lecture, 3 lab hours)

## 107. Medical Entomology (4)

Arthropod-borne diseases of man and animals and arthropod vectors of the diseases. (3 lecture, 3 lab hours)
110. Insect Physiology (3)

Prerequisite: Ent 101. Principles of physiology as applied to insects; functions of insect body, tissues, and organs. (2 lecture, 3 lab or demonstration hours)
115. Insect Morphology (4)

Prerequisite: Ent 101. Comparative study of the form and structure of insects; external and internal anatomy. (2 lecture, 6 lab hours)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## 200 Series

Graduate courses are listed under Biology.

## Microbiology (Micro)

20. Introductory Microbiology (4)

Not open to students with credit in Micro 104. Prerequisite: Chem 3A, 3B, plus a college course in the biological sciences. Introduction to microbiology; principles and selected applications. (3 lecture, 3 lab hours)
104. Microbiology (5)

Prerequisite: organic chemistry; Bot 1 or 10. Emphasis on prokaryotes (bacteria); microbial physiology, genetics, ecology, classification, and identification; applications of microbiology. Prerequisite to other upper-division microbiology courses. (3 lecture, 6 lab hours)
117. Immunology (4)

Prerequisite: Micro 104. Biol 135 recommended. Innate and specific immunity,

[^14]including both cell-mediated and humoral phenomena; illustration of principles and technique development in the laboratory. (2 lecture, 6 lab hours)
118. Bacteriology of Human Disease (5) Prerequisite: Micro 104; Micro 117 recommended. Bacterial, etiological agents of human disease. (3 lecture, 6 lab hours)
125. Microbial Ecology (4)

Prerequisite: Biol 140 and Micro 104. Physiological ecology of microorganisms; interactions of microorganisms with abiotic and biotic factors in the environment; microbial habitats including soil, water, and organisms; techniques of microbial ecology (field and laboratory). (3 lecture, 3 lab hours)*

## 130. Industrial Microbiology (3)

Prerequisite: Micro 20. A study of the useful activities of microorganisms with special emphasis on fermentative processes, production of biologics, waste disposal, food processing, and single cell food sources. (2 lecture, 3 lab hours)*
150. Medical Mycology (4)

Prerequisite: Micro 104; Micro 117 recommended. Morphology, physiology, and principles of pathogenicity of selected fungal agents of human and animal disease. (2 lecture, 6 lab hours)

## 160T. Topics in

Microbiology (1-4; max total 4)
Prerequisite: permission of instructor. Investigation of selected areas in microbiology. (Lecture and/or laboratory)
161. Microbial Physiology (4)

Prerequisite: Micro 104. Structure, function, energy metabolism, growth, and regulatory mechanisms of microorganisms. (2 lecture, 6 lab hours)
185. Virology (4)

Prerequisite: Micro 104; Micro 117 recommended. Inquiries into the unique nature of viruses; methods of analysis, structure, and replication. Virus-host interactions are described from bacterial, plant, and animal virus groups. Considerable emphasis is placed on diagnosis of viruses infecting humans including epidemiology and viropathology. (2 lecture, 6 lab hours)
189. Microbial Genetics (4)

Prerequisite: an introductory microbiology laboratory course, and Biol 135. The nature of genetic information, its mutation, transfer, and recombination in microbial cells. (2 lecture, 6 lab hours)

## 190. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## GRADUATE COURSES

(See Course Numbering System.)

## Microbiology (Micro)

256. Bacterial Diversity (3)

Prerequisite: Micro 161. Physiology, ecology, isolation, and culture of metabolically and morphologically diverse bacteria. Term paper and research project required. (2 lecture, 3 lab hours)

## 260T. Topics in

Microbiology (1-3; max total 8)
Prerequisite: permission of instructor. Investigation of new fields, areas not in current courses, or advanced studies in a given area. (Lecture and/or laboratory)
281T. Seminar in Microbiology (1-2)
Prerequisite: permission of instructor. Reviews and reports on current literature in the various phases of microbiology.
290. Independent Study
(1-3; max total see reference)
See Academic Placement - Independent Study. Approved for $S P$ grading.

## 295. Research (2-6; max total 6)

Prerequisite: permission of the instructor. Independent research by the advanced graduate student.

## Physiology (Phy)

33. Human Anatomy and Physiology (5)
Three units allowed for students with prior credit in human anatomy; 2 units allowed for students with prior credit in human physiology. An integrated study of the structure and function of the human body. (4 lecture, 3 lab hours)

## 64. Functional Human Anatomy (3)

Not open to students with credit in Phy 33. Primarily for students in the health related and biological professions. The life continuum from conception to death. A systems approach to the gross and microscopic structures of the human body. (2 lecture, 3 lab hours)

## 65. Human Physiology (5)

Not open to students with credit in Phy 33. College chemistry and human anatomy recommended. Homeostasis in the human body; how organ systems function to maintain life; dynamic and adaptive systems at the molecular, cellular, and organ level. (4 lecture, 3 lab hours)
140. Comparative Animal Physiology (4) Prerequisite: Biol 130 and organic chemistry. Evolution of physiological systems; functional adaptations to different environments; physiological principles as applied to animals. (3 lecture, 3 lab hours)
155. Neuroanatomy (4)

Prerequisite: Anatomy and Physiology. Macroscopic and microscopic study of the structure and functional relationships of the mammalian nervous system. (3lecture, 3 lab hours)
160. Neurophysiology (3)

Prerequisite: Phy 155 . Function of the nervous and muscular systems with emphasis on molecular mechanisms.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading.
200 Series
Graduate courses are listed under Biology.

## Zoology (Zool)

1. General Zoology (5)

No credit if taken after a course that has college zoology as a prerequisite. Students with credit in Zool 10 receive only 2 units of credit. Prerequisite to most upperdivision courses in zoology. Systematics, general ecology, and phylogeny of major animal groups, including comparative studies of vertebrates and a general integration of biological principles. General Education BREADTH, Division 2. (3 lecture, 6 lab hours)
10. Animal Biology (3)

Not open to students with credit in Zool 1. Structural and functional comparison of animals; principles and human implications of inheritance, evolution, and ecology; physiology as applied to man. General Education BREADTH, Division 2. (2 lecture, 2 lab hours)

## 103. Comparative

Vertebrate Anatomy (4)
Prerequisite: college zoology. Comparative structure of vertebrate organ systems; laboratory study of representative vertebrates. (2 lecture, 6 lab hours)

## 107. Medical Parasitology (3)

Prerequisite: college zoology. Epidemiology, pathogenesis, and identification of the parasites of man. (2 lecture, 3 lab hours)

[^15]
## 108. Parasitology (4)

Prerequisite: college zoology; general chemistry. A study of the general biology of symbiotic organisms of animal hosts including man. Lecture topics include life histories, epidemiology, infection and disease processes, physiology, and treatment. Laboratory exercises include a study of biological processes as well as parasite identification and diagnosis. (3 lecture, 3 lab hours)
113. Natural History of Vertebrates (4) Prerequisite: Biol 140. Systematics, distribution, morphology, behavior, and ecology of fish, amphibians, reptiles, birds, and mammals. Fieldwork includes capture and sampling techniques, species identification and habitat analysis, and may require weekend field trips to coastal, desert, and mountain environments. (3 lecture, 3 lab or hours)*

## 114. Invertebrate Zoology (3)

Prerequisite: college zoology. Systematics, general ecology, and phylogeny of free living invertebrates (excluding insects), and including field studies of marine intertidal habitats. (2 lecture, 3 lab or field hours)*

## 115. Protozoology (3)

Prerequisite: Biol 130, 140. The biology of protozoan organisms. (2lecture, 3 lab hours)
130. Animal Behavior (3)

Prerequisite: Biol 140; recommended, one course in ecology or natural history. Principles of ethology with emphasis on mechanisms of behavior. (2 lecture, 3 lab hours)*
134. Wildlife Management (4)

Prerequisite: Biol 140. Ecological theory and its use in the management of wildlife resources. Field and laboratory exercises designed for the application of techniques used in research and in making management decisions. (2 lecture, 6 lab or field hours)*
135. Mammalogy (3)

Prerequisite: Biol 140. Ecology, evolution, and diversity of the mammals of the world. (2 lecture, 3 lab or field hours)*
136. Fisheries Biology
and Management (3)
Prerequisite: Biol 140; statistics strongly recommended. Ecology and management of fishes; techniques for studying fish populations; quantitative methods for as-
sessing fish stocks; environmental requirements and habitat improvement methods; acquisition and application of information to obtain maximum benefit from fishery resources. Inland fisheries emphasized. (2 lecture, 3 lab or field hours)*
137. Herpetology (3)

Prerequisite: Biol 140. Ecology, evolution, and diversity of the reptiles and amphibians of the world. (2 lecture, 3 lab or field hours)*
138. Animal Ecology (3)

Prerequisite: Biol 140. Studies of environmental, behavioral, and evolutionary factors influencing the distribution and population dynamics of animals. Field and laboratory exercises designed for the quantitative and qualitative description of ecological communities. (2 lecture, 3 lab or field hours)*
140. Ichthyology (3)

Prerequisite: Biol 140. Ecology, evolution, and diversity of the fishes of the world with emphasis on California fishes, freshwater and marine. (2 lecture, 3 lab or field hours)*
157. Histology (4)

Prerequisite: college zoology. Identification and study of vertebrate cells, tissues, and organs. (2 lecture, 6 lab hours)
158. Hematology (3)

Prerequisite: Phy 65; Micro 117 recommended. Development, structure, identification, and quantification of cellular blood elements; qualitative and quantitative considerations of hemoglobin, coagulation, and immuno-hematology. Procedural proficiency emphasized in the laboratory. (2 lecture, 3 lab hours)
160. Vertebrate Embryology (4)

Prerequisite: college zoology. Morphogenesis of vertebrates from gamete formation through organogenesis, including physiological and experimental aspects of development. Laboratory emphasis on frog, chick, and pig. (2 lecture, 6 lab hours)
165. Ornithology (3)

Prerequisite: Biol 140. Ecology, ethology, evolution, and diversity of the birds of the world. (2 lecture, 3 lab or field hours)*
175. Vertebrate Evolution (3)

Prerequisite: Biol 135; Zool 103 or 113. The course of evolution of the higher vertebrates including present concepts of speciation.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## 200 Series

Graduate courses are listed under Biology.

## Moss Landing <br> Marine Laboratories

The California State University began operation of the Moss Landing Marine Laboratories, Moss Landing, California, in the fall semester 1966. This facility functions as a seaside extension of the campuses of six cooperating state universities (Fresno, Hayward, Sacramento, San Francisco, San Jose, and Stanislaus.) It offers full-time coursework in marine biology, oceanography, and other marine sciences for majors in either the biological (botany, biology, zoology) or physical sciences whose objectives include further graduate study, teaching the sciences, or research in the marine sciences. Properly qualified upper-division and graduate students may enroll at the CSU, Fresno campus for a term of instruction at Moss Landing and earn resident credit for such coursework. See Geology Department for on-campus coursework in general oceanography and geology courses related to marine science.
Space reservation is required for attending Moss Landing Marine Laboratories. Forms for this purpose are available from the Biology Department or Moss Landing Marine Laboratories, P.O. Box 223, Moss Landing, CA 95039. Priority is determined based upon the date the space reservation form is received at Moss Landing Marine Laboratories. Since enrollment is limited, interested students should make early application.

## COURSES

Note: The following courses are offered at the Moss Landing Marine Laboratories. See M Sci 103 and 104 usually recommended for first semesters of full-time students.
The Biology Department will accept only the following Moss Landing Marine Laboratories courses for major credit as indicated. Botany: M Sci 131, 144. Zoology: MSci 112, 113, 122, 123, 124, 125. Biology elective: M Sci 103, 104.

[^16]
## Marine Sciences (M Sci)

103. Marine Ecology (4)

Prerequisite: ecology and statistics (or concurrent registration in M Sci 104) or permission of instructor. A field-oriented introduction to the interrelationships between marine and estuarine organisms and their environment with emphasis on quantitative data collection and analysis. (2 lecture, 6 lab or field hours)
104. Quantitative Marine Science (4) Prerequisite: college mathematics. The mathematical methods for analysis of biological, chemical, and physical data from the marine environment; experimental design, parametric and nonparametric statistics. (3 lecture, 3 lab or field hours)
105. Marine Science Diving (3)

Prerequisite: upper-division science major; thorough physical examination; ability to pass swimming test. Skin and SCUBA diving course; pool-training culminates in 10 ocean dives. Topics include diving physics, physiology, diving environments, night diving, and research diving. Successful completion gives NAUI and MLML certification. (1 lecture, 6 lab or field hours)
110. Introduction to Marine Behavior (4) Prerequisite: M Sci 103 or consent of instructor. Basic theoretical concepts of animal behavior, stressing the causation, development, and evolution of behavior. Emphasis is on the marine environment. (3 lecture and 3 lab hours)
112. Marine Birds and Mammals (4) Prerequisite: upper-division vertebrate zoology; M Sci 103 recommended. Systematics, morphology, ecology, and general biology of marine birds and mammals. (2 lecture, 6 lab or field hours)

## 113. Marine Ichthyology (4)

Prerequisite: college zoology or equivalent. Taxonomy, morphology, and ecology of marine fishes. Both field and laboratory work concentrate on the structure, function, and habits of marine fishes and the ecological interactions of these fishes with their biotic and abiotic surroundings. (2 lecture, 6 lab or field hours)

## 122. Marine

## Invertebrate Embryology (4)

Prerequisite: M Sci 124, cell biology or biochemistry strongly recommended or permission of instructor. Survey of principles of developmental biology, concentrating on experimental evidence obtained using invertebrate material.

Laboratory observations cover the embryology of lower invertebrates, molluscs, crustacea, enchinoderms, and protochordates. (2 lecture, 6 lab or field hours)

## 123. Physiology of

Marine Organisms (4)
Prerequisite: general physiology or permission of instructor. Comparative physiology of marine organisms; laboratory problems on nutrition, respiration, osmotic regulation, coordination, and other physiological functions. General principles of physiology discussed using examples from the major taxa. (2 lecture, 6 lab hours)
124. Marine Invertebrate Zoology I (4) Prerequisite: college zoology or permission of instructor; M Sci 103 recommended. A field-oriented introduction to the structure, systematics, evolution, and life histories of the major phyla. (2 lecture, 6 lab or field hours)
125. Marine Invertebrate Zoology II (3) Prerequisite: college zoology or permission of instructor; M Sci 103 and M Sci 124 recommended. A field-oriented introduction to the structure, systematics, evolution, and life histories of the minor phyla. (1 lecture, 6 lab or field hours)

## 131. Marine Botany (4)

Prerequisite: M Sci 103 recommended. Introduction to the plants of the sea, marshes, and dunes, with emphasis on the morphology, taxonomy, and natural history of seaweeds and vascular plants. (2 lecture, 6 lab or field hours)

## 141. Geological Oceanography (4)

Prerequisite: M Sci 142 or 143 (concurrent enrollment satisfactory). Structures, physiography, and sediments of the sea bottom and shoreline. (2 lecture, 6 lab or field hours)
142. Physical Oceanography (4)

Prerequisite: college algebra; college physics recommended. An introduction to the nature and causes of various oceanic motions including currents, waves, tides and mixing, and the physical properties of seawater including transmission of sound and light; does not require calculus. (3 lecture, 3 lab or field hours)
143. Chemical Oceanography (4) Prerequisite: one year of college chemistry. An introduction to the theoretical and practical aspects of the chemistry of the oceans, including major salts, dissolved gases, nutrient ions, carbonate system, transient tracers, and shipboard sampling techniques. (2 lecture, 6lab and field hours)
144. Biological Oceanography (4)

Prerequisite: general biology and general chemistry. The ocean as an ecological system. Emphasis is on the complexity of organismal-environmental interaction of the plankton, the transfer of organic matter between trophic levels and nutrient cycles. Laboratory includes methods in sampling, shipboard techniques, identification of plankton, and current analytical techniques. (2 lecture, 6 lab or field hours)

## 161. Marine Fisheries (4)

Prerequisite: college mathematics, M Sci 104, or permission of instructor; M Sci 103 recommended. An introduction to fishery biology, including the concepts of stock, recruitment, and yield; emphasizing the parameters abundance, age, growth, and mortality; discussion of hydrography and fishery ecology, management problems, world fisheries and mariculture; and collection and analysis of fishery data. (2 lecture, 6 lab or field hours)
173T. Topics in Marine Biology (1-4)
Prerequisite: permission of instructor. The study of a selected area in marine biology (morphology, physiology, ecology, etc.). Subjects will vary depending on student demand and availability of instructors. (Lecture and/or laboratory)
174T. Topics in Oceanography (1-4)
Prerequisite: permission of instructor. The study of selected areas in oceanography; subject varies depending on student demand and availability of instructors. (Lecture and/or laboratory)

## 175T. Topics in Marine Science (1-4)

The study of a selected area in the marine sciences. The subjects vary depending on student demand and availability of instructors. (Lecture and/or laboratory)
177. Microscopic Techniques (3) Prerequisite: one semester college physics and permission of instructor. Principles and techniques of light and electron microscopy; consideration of brightfield, darkfield, phase contrast, and interference contrast light microscopy; episcopic and diascopic illumination systems; photomicrography; preparation of materials for and operation of the scanning electron microscope. (2 lecture, 3 lab hours)
180. Independent Study (1-4)

Prerequisite: permission of instructor. Faculty directed study of selected problems; open to undergraduate students with adequate preparation. Approved for $S P$ grading.

## Biology

## GRADUATE COURSES

(See Course Numbering System.)

## Marine Sciences (M Sci)

202. Marine Instrumental Analysis (4) Prerequisite: M Sci 142 and 143. Theory and use of advanced instrumentation; advanced field and laboratory techniques for the interpretation of data collected in marine science research. (2 lecture, 6 lab or field hours)
203. Behavior of Marine Animals (4) Prerequisite: M Sci 103 and 110, or permission of instructor. Advanced topics in the development and expression of social behavior and organization of societies. Stresses contributions of environment, kin selection, parent-offspring interactions, and reciprocity to behavior. Offered alternate spring semesters. (3 lecture, 3 lab or field hours)

## 212T. Advanced Topics

in Marine Vertebrates (1-4)
Prerequisite: M Sci 112 or 113, and also permission of instructor. Advanced considerations of the ecology, physiology, and phylogeny of fishes, birds, or mammals; emphasizing current literature and research. (Lecture and/or laboratory)

## 221T. Advanced Topics

in Marine Invertebrates (1-4)
Prerequisite: M Sci 124 and permission of instructor. Advanced considerations of the ecology, physiology, and phylogeny of the various invertebrate phyla emphasizing current literature and research. (Lecture and/or laboratory)
222. Biology of the Mollusca (4)

Prerequisite: M Sci 124 and permission of instructor. Systematics, functional morphology, ecology, and physiology of mollusca with emphasis on marine forms. (2 lecture, 6 lab or field hours)
231. Biology of Seaweeds (4)

Prerequisite: M Sci 131 or permission of instructor. Lectures-discussions on marine macroalgal biology with extensive reading of original literature. Ecologically oriented individual research projects involving laboratory culture and field experimentation. (2 lecture, 6 lab or field hours)

## 233T. Advanced Topics

in Marine Ecology (1-4)
Prerequisite: M Sci 103 and permission of instructor. Selected topics and current issues in marine ecology; subjects vary depending on student demand and availability of instructors. (Lecture and/or laboratory)

## 234. Advanced

 Biological Oceanography (4)Prerequisite: M Sci 144 or permission of instructor. A continuation of biological oceanographic studies; includes lectures and discussion of special topics such as human impact on the marine environment and critical analyses of current literature; an individual research project involving the use of one or more available analytical tools required. (2 lecture, 6 lab or field hours)

## 242. Plate Tectonics (3)

Prerequisite: M Sci 141 or permission of instructor. Historical background, modern theory, and geophysical evidence of continental drift; sea-floor spreading and plate tectonics; examinations of the impact of the recent revolution in historical geology.
244. Paleoceanography (4)

Prerequisite: M Sci 141 or permission of instructor. Interdisciplinary studies of the provenance, biologic, and geologic composition of marine sediments and of the organisms contributing to their formation; sedimentary processes affecting these sediments. (2 lecture, 6 lab or field hours)

## 245. Deep Sea Sedimentation (4)

Prerequisite: M Sci 141 or permission of instructor. Study of the types of marine sediment found in the deepest parts of all oceans; the sedimentary processes responsible for the deposition, preservation, and re-deposition of these sediments. (2 lecture, 6 lab or field hours)

## 251. Marine Geochemistry (4)

Prerequisite: quantitative analysis, year of calculus, or permission of instructor. Geochemical processes in the oceans; thermodynamics of low temperature aqueous reactions, weathering, oxidation-reduction and biologically mediated reactions, processes occurring at the sea floor and air-sea interface. (2 lecture, 6 lab or field hours)
261. Ocean Circulation and Mixing (4) Prerequisite: M Sci 142; college physics strongly recommended. Mathematical description of the distribution of properties (e.g., density, dissolved oxygen) in the oceans relating to physical and biochemical processes; theory of distribution of variables, geostrophic method. (3 lecture, 3 lab hours)
271. Population Biology (3)

Prerequisite: M Sci 103 and 104 or permission of instructor. Principles of the interaction among marine organisms which result in the alternation of population
structures, techniques for assessment, and management of animal populations. (2 lecture, 3 lab or field hours)
272. Subtidal Ecology (4)

Prerequisite: MLML diver certification and marine ecology; knowledge of marine algae, invertebrates, and statistics recommended. The ecology of nearshore rocky subtidal populations and communities with emphasis on kelp forests; lectures and discussions of original literature; fieldwork with SCUBA including group projects on underwater research techniques and community analysis, and individual research on ecological questions chosen by student. (2 lecture, 6 lab or field hours)
274T. Advanced Topics
in Oceanography (1-4)
Prerequisite: permission of instructor. The study of a selected area in oceanography. Subjects vary depending on student demand and availability of instructors. (Lecture and/or laboratory)

## 285T. Seminar in Marine

Biology (2; max total 4)
Prerequisite: permission of instructor. Seminar will be held on topics changing each semester; each student will be required to give at least one seminar.
286T. Seminar in Marine
Geology (2; max total 4)
Prerequisite: permission of instructor. Seminar will be held on topics changing each semester; each student will be required to give at least one seminar.

## 287T. Seminar in

Oceanography (2; max total 4)
Prerequisite: permission of instructor. Seminar will be held on topics changing each semester; each student will be required to give at least one seminar.

## 295. Research in the

## Marine Sciences (1-4)

Prerequisite: permission of instructor. Independent investigations of an advanced character for the graduate student with adequate preparation. (3 conference, lab, and field hours per unit)
299. Thesis (1-4; max total 4)

Prerequisite: See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for $\boldsymbol{S P}$ grading.

TThe Department of Accountancy offers an option in accounting within the Bachelor of Science in the Business Administration degree program. This option is designed to be broad enough to provide preparation for a career in public, industrial, or governmental accounting. A lecture/lab format has been incorporated into several courses where hands-on experience with microcomputers is provided. The accounting topics of tax, information systems, managerial, and financial accounting are also covered in sufficient depth to prepare the student for the exams for Certified Public Accountant (CPA), Certificate in Management Accounting, or Certificate in Internal Auditing.

## Faculty and Facilities

The faculty of the Department of Accountancy is comprised of approximately 20 individuals of varied academic and business experience backgrounds. They are specialists in the areas of financial accounting, taxation, cost accounting, auditing, and accounting
information systems. Their accumulation of academic preparation and business experience qualifies them to teach both the theoretical and practical applications of accounting.

## Career Opportunities

A wide variety of professional business opportunities are available to graduates of the Department of Accountancy. The accountancy option prepares students for challenging and rewarding careers in all areas of accounting. Alumni of the Department of Accountancy are found in leadership positions locally, in other areas of California, and throughout the United States. Many of our graduates are currently partners in public accounting firms, officers in corporations, and executives in governmental agencies.
Joy Catalano, a 1982 graduate of the department, received the second highest grade in the nation on the CPA exam, and David Kalemkarian, a 1984 graduate of the department, received the second highest score in California on the CPA exam. Many of our students pass the entire CPA exam on the first sitting. In conjunction with the department, the University Business Center (located

within the school) offers a CPA Review Course twice a year. This course is designed to meet the needs of the serious CPA candidate and covers thoroughly all exam areas: practice, theory, auditing, and business law.
To find out more about career opportunities, students should consult with the faculty in the department. In addition, students with career-related questions are encouraged to contact the Office of Career Development and Employment Services. Services include career counseling by career information specialists and professional assistance to students and graduates seeking full-time or parttime positions.

## Internships

Many of our students also participate in internship programs, both in Fresno and other parts of California, in which they receive academic credit while being paid for their services. Students interested in internships in accounting should inquire in the department office or the office of the dean.

## Bachelor of Science

Degree Requirements

## Busimess Admimistrotion Major

A 40-43 unit business core provides students with a general background commonly acknowledged as furnishing the basis for effective management of business enterprises. The following courses are required of all business majors.

Units
Core requirements
40-43
(see Advising Note 1)
Acct 4A, 4B; B A 18; DS 73,
173; Fin 120; IS 50 (or
demonstration of com-
puter literacy); IS 160; PLM
124; Mgt 110 or 104-106, 187; Mktg 100
Generall Education ......................... 54
(see Advising Notes 2 and 3) -
Accountancy Option ............... 34-35
Required courses .................... (19)
Acct 120A, 120B, 132, 146; IS 105W
Electives. $\qquad$
Select four courses from the following: Acct 144, 145, 147, 148, 162, 165, 167, 189T; B A 150
Electives $\qquad$ . .0
(see Advising Note 4)
Totall. 128-132

## Advising Notes

1. Every upper-division business course has writing requirements, and the quality of the writing is used in determining grades in the course. Completion of the upper-division writing skills requirement (successful completion of IS 105W, another authorized W course, or passing the Upper-Division Writing Examination) is a prerequisite to enrollment in Mgt 187.
2. Business students must take Econ 40 (or Ag Ec 1) and Econ 50 in BREADTH, Division 8. Business students must also complete DS 71 or one semester of approved equivalent college mathematics beyond intermediate algebra.
3. Successful completion (grade of $C$ or better) of Engl 1 or its equivalent is a prerequisite to enrollment in upperdivision business courses. Failure to successfully complete Engl 1 by the time a student has completed 30 units at CSUF shall subject the student to administrative/academic probation and possible subsequent disqualification.
4. Business students must complete a minimum of 51 units outside of the School of Business and Administrative Sciences (courses selected for General Education may be included in these units) and a minimum of 40 upperdivision business units.

## COURSES

Accountancy (Acct)
3. Essentials of Accounting (3)

Not open to students majoring in accounting or business administration. Basic concepts in preparation of business financial statements; introduction to understanding, analyzing, and interpreting accounting data by investors, managers, and creditors for decision making, planning, and control. Only minor attention given to recordkeeping procedures.
4A. Financial Accounting
Principles and Systems (3)
Not open to freshmen; meets requirements for Acct 1A. Financial accounting; accounting statements, transaction analysis, and data accumulation; partnership and corporation accounting. (CAN BUS 2)
4B. Managerial Accounting
Principles and Systems (3)
Not open to freshmen; meets requirements for Acct 1B. Prerequisite: Acct 4A. Balance sheet analysis and interpretation: managerial control and information systems; organization, planning, budgeting; cost accumulation and capital budgeting; measuring and reporting performance. (CAN BUS 4)
120A. Intermediate Accounting I (4)
Prerequisite: Acct 1 A or 4 A ; DS 71 or equivalent recommended. Acct 4 B and 120A may be taken concurrently. Preparation and analysis of balance sheet and income statements; basic accounting the-
ory and conceptual framework underlying financial accounting; theory of current and fixed assets; theory of current and noncurrent liabilities; and a review of applicable authoritative pronouncements.
120B. Intermediate Accounting III (4) Prerequisite: Acct 120A; DS 71 or equivalent recommended. An in-depth study of principles, procedures, and reporting requirements in financial accounting as applied to corporate entities; investments; revenue recognition; income tax allocation; pensions; leases; inflation accounting; error correction and principle changes; and cash flow. Special attention is given to authoritative pronouncements.

## 129. Accounting for

Management and Taxation (3)
Not open to students with credit in Acct 120A, 132, and 144; not open for credit toward major in accounting. Prerequisite: Acct 1 A and 1 B or Acct 4 A and 4B. Analysis and interpretation of financial statements. Use of accounting data by management for planning and control. Basic concepts of federal income taxes. Tax planning.
132. Cost Accounting (4)

Prerequisite: Acct 1 A and 1 B or 4 A and 4 B . DS 71 or equivalent and IS 50 recommended. Industrial cost accounting; general principles of product costing, standard costing, differential costing; master budgeting, flexible budgeting, and capital budgeting; emphasis on the three functions of management - decision making, planning, and control. (3 lecture, 2 lab hours)
144. Tax Accounting and Planning (4) Prerequisite: Acct 4A. Federal income taxation, research, and planning affecting individuals.
145. Tax Research and Tax Accounting for Corporations and Partnerships (4)
Prerequisite: Acct 144. Methods of tax research using the sources of tax law. Applications of research to tax planning, litigation, administration of a tax practice, and professional responsibilities. Effect of income tax laws on partnerships, corporations, estates, and trusts; estate and gift taxes.
146. Accounting Information Systems and Controls (4)
Prerequisite: Acct 120A, 132, IS 50. Design of systems for the collection, organization,
and reporting of accounting information. Theory and practice of flowcharting, evaluation of internal accounting controls in computer systems environments, and interrelationships of people, procedures, and equipment. (3 lecture, 2 lab hours)

## 147. Advanced Accounting Information Systems (4)

Prerequisite: Acct 146. Analysis and design of expert systems in accounting and auditing; applications of database and telecommunications developments to accounting systems; control and audit implications of advances in computer technology. (3 lecture, 2 lab hours)

## 148. Accounting for Governmental

 and Nonprofit Organizations (4)Prerequisite: Acct 120A, 132. Concepts, principles, and problems of accounting for governmental and nonprofitorganizations. Budgeting, fund accounting, cost/benefit analysis, cash planning and control, and independent auditing are introduced in the context of making decisions in governmental and nonprofit organizations.

## 162. Auditing (4)

Prerequisite: Acct 120A, 120B, 146. Objectives and techniques in verification of business financial statements; duties, responsibilities, and professional ethics of the auditor; auditor's reports; analysis of internal controls; audits of computerized systems. (3 lecture, 2 lab hours)
165. International Accounting (4)

Prerequisite: Acct 120A, 120B, 132. Accounting concepts, principles, and methods for multinational corporations. Currency for translation of financial statements, financial reporting, international accounting and auditing standards, and the managerial aspects of multinational transactions.
167. Advanced Accounting Problems (4) Prerequisite: Acct 120B. Partnership, corporation, governmental, and institutional accounting.

## 189T. Topics in <br> Accounting and Auditing (1-4)

Prerequisite: 18 units of accounting. Specialized study in a particular area of professional accountancy: accounting theory, auditing, accounting information systems, contemporary developments in financial and managerial accounting, and the practice of accountancy.

190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
193. Supervised Work Experience (1) Open only to business majors. Prerequisite: permission of instructor. Work-study: learning through on-the-job experience in a business. Written reports. CR/NC grading only.
195. Internship (2-6; max total 6)

Open only to business majors. Prerequisite: permission of instructor. Work-study: student holds responsible position in business or government agency and reports on firm's operations and suggested improvements. CR/NC grading only.

## 200 Series

Graduate courses are listed under Business - Graduate Program.

## BUSINESS Finance and Business Law

School of Business and<br>Administrative Sciences<br>Department of Finance and Business Law<br>JAMES M. HIGHSMITH, Chair<br>Peters Business Building, Room 285<br>(209) 278-2341<br>B.S. in Business Administration Options:<br>Agribusiness<br>Finance<br>Financial Services International Business<br>Legal Environment of Business Real Estate and Urban Land Economics Risk Management and Insurance

1he Department of Finance and Business Law offers seven options (areas of emphasis) within the Bachelor of Science in the Business Administration degree program. These options are:

The Agribusiness Option offers students an opportunity to blend courses in business with courses in agriculture in order to gain a knowledge of agribusiness.
Students who specialize in agribusiness find career opportunities in banking, finance, real estate, marketing, selling, wholesaling, transportation, manufacturing, processing, insurance, and many other industries of the San Joaquin Valley and other predominantly agricultural regions of the world.
The Finance Option is designed to provide students the basic skills required to plan, supervise, and control the financial activities of business organizations. These include understanding the trade-off between risk and return, the time value of money, and the magnifying effect of leverage. Students specializing in finance gain the skills related to evaluating the financial needs of a business, obtaining the funds required by the firm, and using these funds in such a way that the company's goals are met.
The Financial Services Option offers students the opportunity to broaden their knowledge and understanding of the financial sciences so as to improve their ability to make effective decisions in financial planning and to facilitate career development in the general area of financial services. Since financial planning typically involves responsibility for coordinating work in more than one financial area, this option enables stu-

dents to take the broad range of courses necessary to be knowledgeable in this rapidly expanding field.
The International Business Option recognizes the importance of the multinational corporation in today's world economy and prepares students for a wide range of careers in international business. The international aspects in each of the functional areas of finance, management, and marketing, as well as the complexities of international banking, the foreign exchange markets, and the Eurocurrency markets are stressed.

The Legal Environment of Business Option provides an excellent background for business people who will spend a considerable amount of their time resolving business-related, legal problems. Many nonlawyers find a broad knowledge of law extremely helpful in their business careers. As a result, this option can be recommended for all business majors.
The Real Estate and Urban Land Economics Option provides the background for a wide range of career opportunities in addition to real estate brokerage. These areas include government, industry, education, consulting, banking, insurance, appraisal, construction, and investment. In addition, students who complete the real estate option have taken all courses necessary to qualify for taking the California Brokers License Examination.

The Risk Management and Insurance Option prepares students for careers not only within the insurance industry but in business and government as well. More than half of all insurance employees hold professional, managerial, or technical jobs. Businesses seek insurance trained employees to manage employee benefit plans and oversee risk management programs. Government, likewise, offers positions in the areas of insurance regulation and administration of social insurance programs.

## Faculty and Facilities

The faculty of the Department of Finance and Business Law is comprised of more than 30 full-time and part-time individuals who have outstanding reputations in both business and education. All fulltime members of the department have earned an appropriate doctorate degree and many of them have gained national reputations for their scholarship. The faculty is extremely active in research and textbook writing as well as active in working with the business community. A wide range of approaches are used in teaching the many different courses offered by the department. These include computer simulations, team projects, community projects, laboratory research, group discussions, case studies, internships, and foreign studies programs. The broad background of the faculty and their strong commitment to business education assures students of a challenging and rewarding course of study.

Elect from approved upper-division courses in accounting, business administration, finance, human resource management, management, marketing, decision science, information systems, information management, health sciences

## COURSES

## Business Administration (BA)

18. Business and the

Legal Environment (4)
Prerequisite: sophomore standing. Introduction to legal system; sources of law; administrative, criminal, tort, and labor law; economic regulation and legal aspects of international trade. More extensive study of the law of contracts and agency. Case studies; discussion and analysis.
50. Business Lectures (1; max total 2)

Various viewpoints on current business problems and developments presented by a different guest business executive each class meeting.

## 88. Critical Thinking in

the Legal Environment of Society (3) Not open to students having completed B A 18 or equivalent. Influence of law on politics, ethics, social action, and the economy. Differentiation of legal and scientific fact-finding. Comparison of processes of negotiation, mediation, arbitration, and litigation. Analysis of the decision-making process. Application of flowcharting to legal process.

## 100. Business and Real

Estate Economics (3)
Prerequisite: Econ 40, 50. Applications of economic principles in business and real estate management; measure of profit, analysis of demand, cost analysis; price, wage, and public policies; case studies, analysis.

## 101. Business Ethics (3)

(A Eth 102A may be substituted for B A 101.) Ethical practices and their relevance to the realm of business. Managerial treatment of contemporary business problems from an ethical perspective. Problem areas include: employee rights, discrimination in the workplace, environmental protection, multinational business transactions, and conflicts of interest.
108. Law and Society (3)

An introduction to the American legal system. Examines the development, structure, premises, functions, operation, and limits of the legal system of the United States. Includes an overview of American substantive law - its sources, varieties, purposes, methods of growth, and relationships to morality and to nonlaw disciplines. General Education CAPSTONE Cluster, Critical Thinking. (Former B A 8)

## 120. Business and Society (3)

Contemporary American business from the business perspective. Examination of current governmental, public, and labor pressures affecting business. Consideration of philosophical critiques of business. The nature of business and management of firms in a changing environment. General Education CAPSTONE Cluster.
150. Law and Business Activities (3) Prerequisite: BA18. Nature of property and the relation of the legal environment to the ambiguities of economic capability through examination of the law of bailments, shipments, sales, commercial paper, and secured transactions; case studies; analysis.
151. Law of Business Organizations (3) Prerequisite: BA 18; Acct 4A recommended. Partnerships, corporations, and trusts with reference to their advantages and limitations. Effect of form of operations on taxation, freedom from liability, and on social responsibilities. Includes bankruptcy and security transactions, such as mortgages and installment sales.

## 154. Real Estate Law (3)

Meets California statutory course requirement for real estate broker's license. Prerequisite: B A 18. Legal aspects of acquisition and ownership of real estate; conveyances, mortgages, evidences of title; planning and zoning.
155. Government Regulation and Control of Business (3)
Prerequisite: B A 18; not recommended for those with B A 157. Government and social control of private enterprise, including examination of capitalism, private property, administrative law and process, antitrust law, and development of public policy through regulation and deregulation.
156. Labor Law (3)

Prerequisite: Econ 40, 50; B A 18, Mgt 104, 106 recommended. Proseminar in the law of industrial relations; historical and current principles for legal settlement of labor-management disputes; statutes, court decisions, administrative rulings; case studies; individual presentations.
157. Administrative

Law and Business (3)
Prerequisite: B A 18; not recommended for those with B A 155. The administrative process and its effects on business. Examination of the interaction among regulatory agencies, legislature, judiciary, and business.

## 158. Environmental

## Legislation and Controls (3)

Review of environmental problems, search for root causes and objectives; identification and evaluation of past and present controls; examination of alternative legislative remedies for present and anticipated problems.

## 160. Estate Planning (3)

The federal and state systems for regulating and taxing property transfers during lifetime and upon death including the policy and theory underlying the system and practical problems involved in applying estate and gift tax laws.
174. Introduction to International Business (3)
Prerequisite: for business majors, Fin 120; for others, permission of instructor. Competing in world marketplace. Impact of differing cultural, political, legal systems. Multinational corporations, importing, exporting, international contracts, investment across national borders. Forecasting government policies and changing market forces on world business conditions.
175. Management of
Multinational Enterprises (3)

Prerequisite: B A 174 or permission of instructor. The rise of the multinational corporation. Global corporatemanagement perspective. Managing legal, social, political, financial, and taxation interfaces. Personnel, production, and logistical tactics in a global strategy. Corporate negotiations with national government and private national interests.

## 176. World Commerce

and Development (3)
Prerequisite: B A 174 or permission of instructor. World commerce, international investment, economic growth. Tools and techniques of international investment. Discovering and selecting international projects. Taxation, legal systems, government regulations; effect on foreign investment. International accounting practices.

## 178. International Finance (3)

Prerequisite: Fin 120. Evolution of international monetary system; balance of payment accounting; foreign exchange; forecasting exchange rates; management of foreign exchange risk; political risk analysis; foreign direct investment; international money and capital markets; Eurocurrency markets; international banking; international monetary and banking organizations.

## 189T. Topics in

## Business Administration

(1-3; max total 9 if no topic repeated) Studies in business administration.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
193. Supervised Work Experience (1) Open only to business majors. Prerequisite: permission of instructor. Work-study: learning through on-the-job experience in a business. Written reports. CR/NC grading only.

## 195. Internship (3; max total 6)

Open only to business majors. Prerequisite: permission of instructor. Work-study: student holds responsible position in business or government agency and reports on firm's operations and suggested improvements. CR/NC grading only.

## 200 Series

Graduate courses are listed under Business - Graduate Program.

## Finance (Fin)

30. Introduction to Investments (3) Alternative uses of savings; stocks, bonds, mortgages and other securities, mutual
funds, credit unions, banks, savings and loans, real estate investment trusts, insurance; financial security; mathematics of finance. Not recommended for business administration majors.

## 120. Principles of Finance (4)

Prerequisite: Acct 4A. Introduction to corporate financial management, investments, and financial institutions. Focus on financial policy, analysis, and valuation in the rapidly changing economic, regulatory, and global environments. Topics include capital budgeting, dividend policy, financial planning, working capital management, and cost of capital. (3 lecture, 2 lab hours) (Former Fin 130)

## 121. Intermediate

## Financial Management (3)

Prerequisite: Fin 120. Modern theories of corporate finance; financial decision making under uncertainty; efficient allocation of financial resources; advanced financial planning and control strategies.

## 122. Monetary Policy and the Banking System (3)

Not open to students with credit in Econ 135. Prerequisite: Fin 120. Evolution of monetary economies; role of central banks in domestic and international financial markets; monetary theory; development and implementation of monetary policy; interaction of fiscal and monetary policies; regulatory issues in financial markets. (Former Fin 135)
123. Business Forecasting (4)

Prerequisite: Fin 120; DS 173. Business activity analysis; methods of forecasting; general and specific forecasts; analysis of trends in product groups, sectors, regions, and other areas of the world economy; mathematical models and statistical decisions; analysis of case problems, computer lab. (3 lecture, 2 lab hours) (Former Fin 136)
128. Security Analysis (3)

Prerequisite: Fin 120. Analysis of security markets; financial mathematics; debt and equity instruments; fundamental analysis; technical analysis; public and private regulation of security markets. (Former Fin 134)
131. Entrepreneurial Finance (3)

Prerequisite: Fin 120. Using financial and entrepreneurial perspectives to make better decisions at each stage of the entrepreneurial process, from identification of opportunity to harvest. Issues: venture capital markets, deal structuring, valuations, later stage financing, going public and other harvesting methods. (Former Fin 189T section)
132. Financial Institutions (3)

Prerequisite: Fin 120, 122. Analysis of depository and nondepository financial institutions; structure of consumer and commercial credit markets; credit management strategies; risk management for interest and exchange rate variability; financial asset and liability management policies; public policy toward financial institutions.

## 137. Credit Management (3)

Prerequisite: Fin 120. Mercantile and consumer credit; derivation of credit information from business data; credit agencies and credit bureaus; valuation;
analysis of financial statements; technical and legal problems; collections.

## 138. Portfolio

Management and Theory (3)
Prerequisite: Fin 120, 128. Methods of determining the most desirable group of securities to build in an investment portfolio; investment techniques of portfolio risk using; portfolio trading rules; CAPM; APT; and portfolio betas.
139. Financial Management (3)

Prerequisite: senior level standing. Finance majors must have completed (or taking concurrently) all other required courses in Finance Option. Non-Finance majors need permission of the instructor. Integration of analysis and policy for financial organizations; decisions under uncertainty; mathematical models and simulation.

## 143. Risk and Insurance (3)

Fundamentals of insurance and risk management. Covers the basic areas of property, liability, auto, life, health, and social insurance. Other areas including marketing, underwriting, claims, investments, and loss control.
144. Life Insurance (3)

Nature and use, types and forms of life and health insurance, and annuities. Covers organization, management, and regulation; employee benefit plans, social security.
145. Property and Liability Insurance (3) Standard forms of property insurance including fire and allied lines, business interruption, and transportation insurance. Identification and treatment of personal, business, and professional liability situations. Analysis of major property and liability insurance contracts. Case studies.

## 146. Risk Management in <br> the Business Enterprise (3)

Identification, measurements, and treatment of property, liability, and personnel pure-loss exposures in the business environment. Strategies for developing and
implementing risk management programs to effectively treat the costs of pure risk, including loss control and loss financing techniques.
150. Financial Counseling (3)

Prerequisite: permission of instructor. The concept of a total coordinated system of personal financial planning; evaluate existing programs, design improved plans and coordinate execution to achieve stated objectives. Includes data gathering, the psychology of financial counseling, and the counselor's fiduciary responsibilities. Case studies.
180. Real Estate Principles (3)

Meets California statutory course requirement for real estate salesperson's and broker's license. Theory and practice of urban land use. Location and legal dimensions, planning, and market processes; financial and investment decisions in real estate; computer analysis and case studies.

## 181. Real Estate Appraisal (3)

Prerequisite: Fin 120; Fin 180 or permission of instructor. Theory and determinants of real property value. Methods used in urban and rural property appraisals. Statistical techniques and the appraisal process; special purpose appraisals. Fieldwork required.

## 182. Real Estate Practices (3)

Meets California statutory course requirement for real estate broker's license. Relationship between public and private organizations active in real estate; company formation; selling and marketing techniques; financing; advertising; aspects of taxation; escrow procedure; property insurance; computer analysis and case studies.

## 183. Real Estate Finance (3)

Prerequisite: Fin 120; Fin 180 or permission of instructor. Characteristics and underwriting standards of institutions furnishing funds for real estate investment and development. Alternative financial instruments and their effect on property economics and value.
185. Housing Market Analysis (3)

Prerequisite: junior standing. Analysis of local and regional housing markets and submarkets; availability of market data; primary versus secondary data; design of data collecting instruments; interviewing techniques and interviewer bias; data analysis and presentation of findings; field studies required.
186. Issues in Urban Land Economics (3) Prerequisite: Fin 180. Impact of public and private institutions upon land use, periodic productivity, and value; zoning, subdivision regulations, building codes, private deed restrictions, rent control, regional authorities and growth management; pertinent case law, U.S. and California.

## 189T. Topics in Finance

(1-3; max total 9 if no topic repeated)
Studies in business including agricultural economics, business economics, legal environment of business, international business, finance, financial services, risk and insurance, and real estate.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading.
193. Supervised Work Experience (1)

Open only to business majors. Prerequisite: permission of instructor. Work-study: learning through on-the-job experience in a business. Written reports. CR/NC grading only.
195. Internship (3; max total 6)

Open only to business majors. Prerequisite: permission of instructor. Work-study: Student holds responsible position in business or government agency and reports on firm's operations and suggested improvements. CR/NC grading only.
200 Series
Graduate courses are listed under Business - Graduate Program.

# BUSINESS Information Systems and Decision Sciences 

The Department of Information Systems and Decision Sciences is interested in the study of computer applications and systems, the quantitative analysis of business data, and the newly developed and growing area of management of information. Three options (areas of concentration) within the Bachelor of Science in the Business Administration degree program, plus a certificate program are offered.
The Computer Applications and Systems Option offers the student an introduction into the vast area of computer technology and provides the knowledge and the skill for students to identify, analyze, and understand managerial problems and design solutions to these problems utilizing the computer. Upon graduation, students possess the necessary skills for entry level positions as programmers and systems analysts. The total program in this option is 24 semester units and includes courses in advanced programming in BASIC and COBOL, as well as systems analysis and design and database systems. Students entering this program should have a good base in mathematics including calculus.
The Decision Systems Option offers interested students the opportunity to study methods of quantitatively analyzing business data to support the decision-making role of management. In this option, areas studied include applied statistics, operations research, systems analysis, and generally applied mathematics. With the availability of extremely effective computer systems, the drudgery of computation of complex mathematical functions has been drastically minimized, making the analysis of data a substantial and necessary tool at the upper level of management. A good background in applied mathematics is necessary for students to successfully complete this program, which consists of 20 semester units.

The Information Management Option prepares the student for a career as an information manager who serves as a consultant throughout business, securing and analyzing the computer users' information needs, and assisting them to utilize information for decision making. The ubiquity of computer systems at various forms (maxi, mini, micro) makes the information derived from analyzing business data abundantly available at all levels of management and necessitates a systematic management of such information. In addition, students choosing this option study new office automation systems, as well as sophisticated word processing methods currently affecting the business world.

The Certificate in Business Data Processing is directed toward enhancing the knowledge of candidates for entry level data processing related positions. After candidates have demonstrated that they have met prerequisites for the certificate program, the approval of the program coordinator or of the department chair must be obtained before students may enter the program. Each student's individually designed program consists of a five course sequence chosen with the approval of the certificate program coordinator.

Computer Applications and Systems Decision Systems
Information Management

## Statistical and <br> Computer Laboratories

In addition to the classroom instruction, guest speakers, and field trips, students who study the above three options are exposed to the department's computer laboratories for the quantitative, computer, and business communication classes throughout the semester. The computer laboratories provide the student with the valuable opportunity of hands-on computer experience for such classes as computer programming and statistical analysis. Ten laboratory rooms with 220 microcomputers, plus a Quantitative Reasoning Lab, are the busiest rooms in the Leon S. Peters Business Building.

## Faculty and Facilities

The Department of Information Systems and Decision Sciences employs more than 30 full-time faculty with extensive expertise in systems analysis, systems design, computer language programming, statistics, operations research, quality control, word processing systems, office automation, business communication, and database systems. These faculty come from all over the world and have Ph.D. degrees from major American and foreign universities. The modern computer and word processing laboratories offer students a unique opportunity to become acquainted with the developments in the field of computer technology and applications.

## Bachelor of Science Degree Requirements

## Busimess Administration Major

A 40-43 unit business core provides students with a general background commonly acknowledged as furnishing the basis for effective management of business enterprises. The following courses are required of all business majors.
Core requiuirements ...................40-43
(see Advising Note 1)
Act 4A, 4B; B A 18; DS 73, 173;
Fin 120; IS 50 (or demonstration
of computer literacy); IS 160; PLM
124; Mgt 110 or 104-106, 187;
Mktg 100
Generall Education ........................ 54
(see Advising Notes 2 and 3)
Option requuirements ............... 20-24
Business students all have one
common major - business ad-
ministration. Within the major,
there are 15 option areas from
which students can choose; each
student is required to complete
an option. The Department of In-
formation Systems and Decision
Sciences offers three of these op-
tions.
Ellectives ....................................... 3-10
(see Advising Note 4)
Totall ................................................ 124

## Advising Notes

1. Every upper-division business course has writing requirements, and the quality of the writing is used in determin-
ing grades in the course. Completion of the upper-division writing skills requirement (successful completion of IS 105W, another authorized W course, or passing the Upper-Division Writing Examination) is a prerequisite to enrollment in Mgt 187.
2. Business students must take Econ 40 (or Ag Ec 1) and Econ 50 in BREADTH, Division 8. Business students must also complete DS 71 or one semester of approved equivalent college mathematics beyond intermediate algebra.
3. Successful completion (grade of $C$ or better) of Engl 1 or its equivalent is a prerequisite to enrollment in upperdivision business courses. Failure to successfully complete Engl 1 by the time a student has completed 30 units at CSUF shall subject the student to administrative/academic probation and possible subsequent disqualification.
4. Business students must complete a minimum of 51 units outside of the School of Business and Administrative Sciences (courses selected for General Education may be included in these units) and a minimum of 40 upperdivision business units.

## Options

The three options available to students are outlined below. The completion of the 2024 units as required by the option, the General Education requirements, special course requirements and the electives, which may include a minor, total the 124 units required for the Bachelor of Science in Business Administration.

Computer Applications
and Systems Option

Units

IS 54 Programming Languages -

IS 161 Systems Analysis ......................... 3
DS 72 (or one semester of approved college calculus) 3
IS 151 or 152 ..... 3
IS 165 and 166 ..... 6
Elect from: Acct 132; DS 180, 181;IS 108, 109, 115, 116, 163, 164, 168,189T, 190; Mgt 126 or any otherapproved upper-division IS elective ..... 6

Totall 24

It is recommended that students take IS 105 W to satisfy the upper-division writing skills requirement.
Decision Systems Option ..... Units
DS 180 ..... 4
DS 181 .....  .4
DS 183 .....  4
DS 187 .....
DS 188 .....  .4
Totall ..... 20

It is recommended that students take IS 105W to satisfy the upper-division writing skills requirement.
Students who plan to continue with graduate work in this area should take DS 72.
Information Management Option ..... Units
COBOL ..... 3
IS 161 Systems Analysis ..... 3
IS $103,105 \mathrm{~W}, 115$ ..... 9
120, 121, 122 .....  9
Totall ..... 24

## IS 105W satisfies the upper-division writing skills

 requirement.
## Certificate in Business Data Processing Requirements

Before entering the program, students will need to demonstrate that they have completed at least 6 units of elementary accounting and are conversant in two computer languages (preferably BASIC and COBOL). Approval of the certificate program coordinator or the department chair is necessary. Students also need to meet either one of the following criteria:

1. Bachelor's degree in any field from an accredited institution.
2. Associate of Arts degree from a two-year accredited college and minimum of two years of business experience.
Units
Required Courses ................................. 9
IS 161, 165, 166
Elective Courses .................................... 6
Select minimum of 6 units: IS 108,
109, 151, 152, 164, 168, 190, 195

Both IS 190 and 195 cannot be counted for credit toward certificate.

## COURSES

Decision Sciences (IDS)
71. Quantitative Analysis II (3)

Prerequisite: ELM Exam, intermediate algebra, one year high school geometry. Applications of finite mathematics in the quantitative formulation and solution of problems of modern management. General Education CORE, Quantitative Reasoning.
72. Quantitative Analysis III (3)

Prerequisite: DS 71. Applications of selected tools of mathematical analysis in the quantitative formulation and solution of problems of modern management.

## 73. Statistical Analysis I (3)

Prerequisite: ELM Exam, DS 71 or equivalent; Econ 40, 50 recommended. Introduction to descriptive statistical tools as applied to management decision making. Central tendency and dispersion measures; index numbers (CPI, deflators); time series analysis (trends, seasonal variations); probability theory; probability and sampling distributions (normal, exponential, binomial, Poisson); central limit theorem. (2 lecture, 2 lab hours)
129. Technology Assessment (3)

Prerequisite: Core math, Engl 1. Assessment of impacts of emerging technologies, dynamics of technological change, commercialization issues, technology forecasting, risk assessment, environmental impacts, regulatory issues, technology planning and management, examination of key technologies. (Former DS 189T section)

## 173. Statistical Analysis II (3)

Prerequisite: DS 73, IS 50. Statistical inference as applied to managerial problems and decision making. Emphasizes the inferential process; interval estimation, hypothesis testing, one- and two-way analysis of variance, regression, and correlation and related inferential analysis, nonparametric methods, Bayesian decision theory. (2 lecture, 2 lab hours)

## 175. Sampling Methods

and Applications (3)
Prerequisite: DS 173. Sample designs, estimation using samples, including simple random, stratified, cluster, systematic, area and multistage samples. Replicated sampling, acceptance sampling, industrial uses of sampling, and nonprobability designs.

## 176. Bayesian Inference

and Decision Theory (3)
Prerequisite: DS 173. Revision of probability and subjective interpretation. Bayes' theorem, statistical estimation of various parameters and decision theory, prior analysis and prior probability distributions; posterior analysis and posterior probability distributions; utility problems, expected value of perfect information.
178. Regression Analysis (3)

Prerequisite: DS 173. Linear and nonlinear regression models including analysis of variance/covariance and time series analysis. Examination of least squares assumption. Classical versus Bayesian inference in regression. Application of BMD/SPSS statistical packages. (2 lecture, 2 lab hours)

## 180. Microcomputer Tools

for Information Analysis (4)
Prerequisite: DS 173, IS 160. Extensive use of microcomputer packages. Spreadsheet, database, statistical, graphic, and communication software for business modeling and management support. Database files creation and transferring data and statistical analysis results to spreadsheet. (3 lecture, 2 lab hours)
181. Business Modeling Using Micros (4) Prerequisite: DS 173. Building business models using microcomputers. Applications in accounting, finance, marketing, production. Linear programming, sensitivity analysis, simulation, queuing methods, PERT/CPM. (3 lecture, 2 lab hours)

## 183. Time Series and

Business Forecasting (4)
Prerequisite: DS 173. Computer and software tools for forecasting, classical time series models. Linear regression as a forecasting tool. Serial correlation and generalized least sequences. The Box-Jenkins Model; case studies. (3 lecture, 2 lab hours)
187. Advanced Information Analysis (4) Prerequisite: DS 183. Regression and other multivariable statistical methods. Applications in accounting, finance, marketing, and production. Analysis of variance, covariance, factor analysis, discriminant analysis, log linear models, cluster analysis, and multidimensional scaling. (3 lecture, 2 lab hours)

## 188. Decision Support

and Expert Systems (4)
Prerequisite: DS 180, 181. Overview of the basic topics in decision support and expert systems. Methodological foundation for integration of quantitative and expert knowledge with the computer for improv-
ing the decision-making process. Integrating databases, DSS models, and business analysis. Introduction to artificial intelligence and expert systems. (3 lecture, 2 lab hours)
189T. Topics in Decision Sciences (1-3; max total 6 if no topic repeated)
Prerequisite: 12 units in decision sciences. Theory or application of statistics or operations research applied to current developments.
190. Independent Study
(1-3; max total see reference)
See Academic Placement - Independent Study. Approved for SP grading.
193. Supervised Work Experience (1) Open only to business majors. Prerequisite: permission of instructor. Work-study: learning through on-the-job experience in a business. Written reports. CR/NC grading only.
195. Internship (3; max total 6)

Open only to business majors. Prerequisite: permission of instructor. Work-study: student holds responsible position in business or a government agency and reports on firm's operations and suggested improvements. CR/NC grading only.

## 200 Series

Graduate courses are listed under Business - Graduate Program.

## Information Systems (IS)

## 1L. Keyboarding (1)*

Recommended for students with less than one semester of keyboarding or typewriting instruction. Development of keyboarding techniques on microcomputers for personal and business usage. (4 lab hours, course lasts $7 y_{2}$ weeks)
2. Word Processing Applications (2)*

Prerequisite: IS 1 or equivalent. Introduction to word processing applications on microcomputers. Refinement of keyboarding techniques for personal and business applications. (4 lab hours)

## 20. Shorthand I (4)

Prerequisite: IS 1 or equivalent. Mastery of theory; proficiency in reading, writing, and transcribing shorthand. ( 2 lecture, 4 lab hours)

[^17]
## 50. Computer Concepts (3)

Introduction to computer hardware and software systems, impact of computers on society, ethical issues, application of computer technology in many career fields, hands-on laboratory experience with personal productivity software and programming. (2 lecture, 2 lab hours)

## 53. Programming

Languages - FORTRAN (3)
Prerequisite: ELM Exam, IS 50. Programming in FORTRAN, using batch and online systems. (2 lecture, 2 lab hours)

## 54. Programming

Languages - COBOL (3)
Prerequisite: ELM Exam, IS 50. Programming in COBOL, using batch and on-line systems. (2 lecture, 2 lab hours)

## 103. Principles of

Office Management (3)
Office management in business and industry; organization and control of office services; selection, training, and supervision of personnel; utilization of the computer and peripheral equipment in the office; improvement of office efficiency; office planning and layout; equipment and supplies.
104. Advanced Word/Information Processing Applications (3)
Prerequisite: IS 2 or equivalent. Advanced word/information processing applications, including additional desktop publishing applications. Also meets the needs of students working toward a standard secondary teaching credential in business subjects. (2 lecture, 2 lab hours)

## 105W. Business Communication (3)

Prerequisite: Engl 1, 3 units of English composition and junior standing. Business communication theory; analysis of communication alternatives; effective business writing and speaking; case studies. Meets the upper-division writing skills requirement for graduation.

## 108. Implementation

of Information Systems (3)
Prerequisite: a program language. Information flows as applied to all areas of management functions. Creation, modifi-
cation, and implementation of information systems, and the problemsencountered during implementation of an information system. Database concepts as applicable to information flows.

## 109. Data Communications (3)

Prerequisite: a program language. Resource sharing; computer traffic characterizations; multiplexing; network structure; packet switching and other switching techniques; computer network examples; routing and flow control; satellite and ground radio packet switching; transmission media and methods; line control procedures; line capacity assignment; communication processors.
115. Office Automation (3)

Prerequisite: IS 1 or equivalent. Study of how automated office equipment, highly trained personnel, and specified procedures affect information management. Emphasis on the phases of the informa-tion-processing cycle. Acquisition of a vocabulary and awareness of careers in office automation. Information processing applications on microcomputers. ( 2 lecture, 2 lab hours)
116. Word/Information

Processing Management (3)
Prerequisite: background in word/information processing concepts and automated office equipment operation. Application of word/information processing concepts and skills and management and supervision principles to effective management and supervision of word/information processing systems.

## 117. Records Management (3)

Systematic analysis and scientific control in the creation, use, maintenance, and disposition of business records. Emphasis on the importance of records management and the role of the records manager in introducing, implementing, and maintaining a program.

## 120. Shorthand II (3)

Prerequisite: IS 20 or one year high school shorthand. Review of theory and development of proficiency in writing and transcribing shorthand notes; speed and endurance in writing and transcribing shorthand notes. (2 lecture, 2 lab hours)
121. Transcription (3)

Prerequisite: IS 120 (may be taken concurrently). Transcription from shorthand and machine dictation; development of production standards for office transcription. (2 lecture, 2 lab hours)
122. Office Services and Procedures (3) Prerequisite: IS 121. Duties and responsibilities of executive secretarial positions. (2 lecture, 2 lab hours)
151. Advanced Applications

Software - BASIC (3)
Prerequisite: IS 50 ; IS 53 or 54 , or other programming language; Acct $4 \mathrm{~A}, 4 \mathrm{~B}$; IS 161 recommended. Advanced software development using the QuickBASIC language and libraries of standard procedures on microcomputers. Emphasis on structure and style, using interactive screens, input validation, and graphics. Program planning, logic structures, sorts and searches, variable passing, and sequential, random, and indexed file access. (2 lecture, 2 lab hours)

## 152. Advanced Applications

Software - COBOL (3)
Prerequisite: IS 54, Acct 4A, 4B, DS 71; IS 161 recommended. Advanced software development with an emphasis on structured programming, program debugging and efficiency, file handling, and logic structures. Documentation, software engineering, programming teams, and elements of systems design. Applications using the COBOL language on large and medium size computers. (2 lecture, 2 lab hours)
160. Management

Information Systems (3)
Prerequisite: IS 50 or demonstration of computer literacy, and upper-division standing. Management concepts in the role/administration of information/information system functions in organizations; enhancement of management with computers; management of systems development: planning and budgeting, analy-
sis, design, implementation and operation of computer-based systems; measurement of operating performance.
161. Information Systems Analysis (3)

Prerequisite: IS 50,53 or 54, Acct $4 \mathrm{~A}, 4 \mathrm{~B}$, and upper-division standing. To develop a basic understanding of the systems approach to problem solving, systems development life cycle and system analysis. This course furnishes students with classical and structured documentation tools and techniques, logical systems specification and methods for analyzing systems.
163. Business Models and Simulation (3) Prerequisite: IS 53 or 54 , DS 72 , DS 173. Computer modeling of inventory, queuing, network, financial, and planning problems. (2 lecture, 2 lab hours)
164. Computer Configurations (3)

Prerequisite: IS 53 or 54 (a basic electronics course - I T 131 - desirable). In-depth study of selection and installation of hardware and software of various computers; feasibility studies, comparisons of self-managed versus service bureau operations; comparison of competitive sys-
tems; costs of reprogramming; distributed systems and microcomputers.

## 165. File Organization

and Database Systems (3)
Prerequisite: IS 53 or 54 ; IS 161; IS 151 or 152 recommended. Data and storage structure; file design; approaches to database management system design; use of generalized database management systems. (2 lecture, 2 lab hours)
166. Information Systems Design (3)

Prerequisite: IS 54,161 and 165. Logical design of information systems, including the design of system-user interfaces, database, program structure, program logic, and controls. Requires students to integrate these elements in designing a realworld system as a term project. (2 lecture, 2 lab hours) (Former IS 162)
168. Data Processing Management (3)

Prerequisite: Acct 4A, 4B, 129, or 132; IS 53 or 54; PLM 124 desirable. Theories, cost, and problems of operation of a computer center; standards; flow of work, scheduling, batching, spooling, multiprogramming and multiprocessing techniques as methods of control and operation.

189T. Topics in Information Systems
(1-3; max total 6 if no topic repeated)
Prerequisite: permission of instructor. Theory or application of information systems or information management as applied to current developments in the field.
190. Independent Study
(1-3; max total see reference)
See Academic Placement - Independent
Study. Approved for SP grading.
193. Supervised Work Experience (1)

Open only to business majors. Prerequisite: permission of instructor. Work-study: learning through on-the-job experience in a business. Written reports. CR/NC grading only.
195. Internship (3; max total 6)

Open only to business majors. Prerequisite: permission of instructor. Work-study: student holds responsible position in business or a government agency and reports on firm's operations and suggested improvements. CR/NC grading only.

## 200 Series

Graduate courses are listed under Business

- Graduate Program.

School of Business and Administrative Sciences Department of Management GERALD L. JONES, Chair Peters Business Building, Room 289 (209) 278-2851
B.S. in Business Administration Options:
Human Resource Management Management
Production and Logistics Management

The Department of Management offers three options (areas of emphasis) within the Bachelor of Science in the Business Administration degree program. These options are:
The Human Resource Management Option focuses upon the people who work in organizations. Consideration is given to personnel administration, labor relations and collective bargaining, employee compensation, and government legislation dealing with employees. The courses offered in this area will be of interest to those who wish to specialize in personnel work and to other students who wish to strengthen their understanding of people in organizations.
The Management Option provides students with an opportunity to acquire skills and knowledge necessary for managing groups and organizations. Emphasis is given to development of skills in planning, organizing, leading and controlling, as well as the conceptual and analytical abilities which underlie the key managerial activities. Students may take electives in human relations, social issues, corporate/international issues, decision techniques, and special management applications.
The Production and Logistics Management Option is designed to provide students with integrated knowledge of production and operations management, transportation and physical distribution management, and purchasing and materials management. This option prepares individuals to become professionals in a rapidly expanding field that has exciting career opportunities.

## Faculty and Facilities

The faculty of the Department of Management is comprised of individuals who have studied and pursued business careers throughout the world. Well over a dozen specializations within the field of business administration are taught, researched, and shared with the business community by these professors. Case studies, experiential exercises, computer simulations, laboratory research, business community projects, guest speakers, and seminar discussions are just a few of the ways in which instructors provide the students with a "real-world" exposure to business. The combination of faculty expertise, teaching skills, research activities, and business experiences assures the student of receiving the best education possible in management.

## Bachelor of Science Degiree Requirements

## Business Admministration Major

A 40-43 unit business core provides students with a general background commonly acknowledged as furnishing the basis for effective management of business enterprises. The following courses are required of all business majors.
Core requirrements ................... 40-43
(see Advising Note 1)
Acct 4A, 4B; B A 18; DS 73, 173;
Fin 120; IS 50 (or demonstration
of computer literacy); IS 160; PLM
124; Mgt 110 or 104-106, 187;
Mktg 100
Gemerall Education ........................ 54
(see Advising Notes 2 and 3)
Option requuirememits .............. $24-30$
Business students all have one
common major - business ad-
ministration. Within the major,
there are 15 option areas from
which students can choose; each
student is required to complete
an option. The Department of
Management offers three of these
options.
Electives ............................................0.9
(see Advising Note 4)
Totall 124-127

## Advising Notes

1. Every upper-division business course has writing requirements, and the quality of the writing is used in determining grades in the course. Completion of the upper-division writing skills requirement (successful completion of IS 105 W , another authorized W course, or passing the Upper-Division Writing Examination) is a prerequisite to enrollment in Mgt 187.
2. Business students must take Econ 40 (or Ag Ec 1) and Econ 50 in BREADTH, Division 8. Business students must also complete DS 71 or one semester of approved equivalent college mathematics beyond intermediate algebra.
3. Successful completion (grade of $C$ or better) of Engl 1 or its equivalent is a prerequisite to enrollment in upperdivision business courses. Failure to successfully complete Engl 1 by the time a student has completed 30 units at CSUF shall subject the student to administrative/academic probation and possible subsequent disqualification.
4. Business students must complete a minimum of 51 units outside of the

School of Business and Administrative Sciences (courses selected for General Education may be included in these units) and a minimum of 40 upperdivision business units.

## Options

The three options available to students are outlined below. The completion of the 2430 units as required by the option, the General Education requirements, special course requirements, and the electives, which may include a minor, total the 124127 units required for the Bachelor of Science in Business Administration.

## Human Resource <br> Management Option Units <br> HRM 150, 152, 153, 154, 157, 159 ....... 18 <br> Elect from: B A 156; Econ 150, 152; <br> HRM 189T; Mgt 127, 189T; Spch <br> 167 (by permission of HRM faculty); approved Independent Study or Internship (3 units maximum) ........ 6 <br> Totall ............................................... 24 <br> Management Option Units <br> Mgt 180, 182 ........................................... 8 <br> HRM 150 .3 <br> Mgt 131 or an international HRM 189T, Mgt 189T or PLM 189T, as approved by the Department of Management <br> $\qquad$ <br> 3

Select four courses from one of the following tracks (or the 12-unit Advanced Management Block Program, Mgt 102A-B-C-D)12-16

1. Decision Making: PLM 114, 136, 160; Mktg 120 or 125; DS 178 or 181; Fin 123
2. Organizational Behavior: Mgt 126, 127; HRM 152, 153, 154, 157; Soc 149 or Psych 149 or Spch 167
3. Entrepreneurship: Mgt 126, 128, 129; Fin 131
4. Management of Nonprofit Organizations: Mgt 130, 133; Acct
148; Plant 182; B A 101 or 120
Totall
.26-30

## Management Option Advising Notes

1. The following courses may be applied to any category above with prior Department of Management approval ( 6 units maximum): HRM 189T; PLM 189T; Mgt 189T, 190, 193, 195.
2. B A 120 and Soc 149 cannot be double counted as fulfilling both the General Education requirement and an elective within the option.
Production and LogisticsManagement OptionUnits
PLM 114, 136, 160, 177 ..... 16
Elect three courses from the follow-ing areas, but no more than twocourses per area9-12
3. Logistics/Management:PLM119;Mktg 115; I E 114; HRM 150
4. System/Control: Acct 132; I E 111; I T 117, 119
5. Analytical: DS 181; Fin 123; Mgt 130
Totall .$\overline{25-28}$

## PLM Option Advising Note

1. With the approval of a production and logistics management adviser, one of the following courses may be substituted under any of the above three areas: PLM 189T, 190, 193, 195.

## COURSES

## Human Resource <br> Management (HRM)

150. Administration of Personnel (3)

Prerequisite: Mgt 104 and 106 or 110. Composition of labor force; acquisition and utilization of human resources in organizations; recruitment; selection; performance appraisal; motivation; compensation; communications; social issues and government influence. Individual and group projects; written and oral reports. (Former Ind R 150)

## 152. Labor Relations and

Collective Bargaining (3)
Prerequisite: HRM 150 or instructor's permission. Relations between employers and organized employee groups; organization, election, and certification procedures; techniques of collective bargaining; labor agreements; grievance handling; settlement of industrial disputes. Class discussion, student presentations. (Former Ind R 152)
153. The Staffing of Organizations (3) Prerequisite: HRM 150 or instructor's permission. In-depth study of major staffing issues such as recruitment, selection, performance appraisal, career development, and discipline. Emphasis on practical application of issues for future managers and HRM professionals. Group projects, class discussion, guest lecturers, and experimental exercises. (Former Ind R 153)
154. Compensation Administration (3) Prerequisite: HRM 150. Analysis of compensation programs for business, not-for-profit, and government organizations.

Special attention given to job evaluation programs, motivation-to-work theory, micro and macro forces influencing compensation decisions. Case analysis; individual and group reports. (Former Ind R 154)
157. Legal Aspects of

Human Resource Management (3)
Prerequisite: HRM 150 or instructor's permission. Survey of law related to employment and personnel, including discrimination, wrongful discharge, safety and health requirements, and other government regulations. Attention given to prevention and resolution of legal complaints and to emerging and developing public policy issues. Oral presentations, discussion. (Former Ind R 157)

## 159. Seminar in Human

Resource Management (3)
Prerequisite: last-semester senior, HRM 152, 153, 154 (may be taken concurrently), 157 and completion of upper-division writing skills requirement. Integration of various aspects of human resource management knowledge through utilization of previously acquired academic and practical experience; emphasis upon advanced problems in human resource management. Case analysis and discussion; individual and group report. (Former Ind R 159)
189T. Topics in Human
Resource Management (1-3;
max total 9 if no topic repeated)
Prerequisite: senior standing. Studies in personnel and labor relations, recruitment, selection, retention, compensation, employment law, and business ethics. (Former Ind R 189T)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Former Ind R 190)
193. Supervised Work Experience (1) Open only to business majors. Prerequisite: permission of instructor. Work-study: learning through on-the-job experience in a business. Written reports. CR/NC grading only. (Former Ind R 193)
195. Internship (3; max total 6)

Open only to business majors. Prerequisite: permission of instructor. Work-study: student holds responsible position in business or government agency and reports on firm's operations and suggested improvements. CR/NC grading only. (Former Ind R 195)

## 200 Series

Graduate courses are listed under Business - Graduate Program.

## Management (Mgt)

101. Basic Management Block (14)

Meets School of Business and Administrative Sciences requirements for PLM 124; Mgt 104 and 106 or 110; Mktg 100. Not open to students with credit in Mgt 104 and 106, 110; PLM 124; Mktg 100. Prerequisite: first-semester junior, Econ 40, 50; Acct 4A; DS 73, application, and permission of instructor. Special integrative undergraduate seminar: 14 hours weekly; marketing, production, administration, organizational behavior. Small group projects; field trips and research; computer simulation; student planned and presented programs; business, government, academic guest presentations. Consult school or departmental office.

## 102A-B-C-D. Advanced

Management Block (3-3-3-3)
Can be substituted for some option requirements. Concurrent enrollment in A-B-C-D. Prerequisite: permission of instructor. Undergraduate seminar integrating business disciplines, decision applications, models of local businesses, business simulation by computer, case analysis, student planned programs, individual and group presentations with executives and academicians, field trips, negotiations, group projects.
104. Administrative

Principles of Management (3)
Not open to students with credit in Mgt 110. Focus on planning techniques, organization theory, and ethical control processes in domestic and international business. Case analysis, management simulations, and written projects.

## 106. Behavioral

Principles of Management (3)
Not open to students with credit in Mgt 110. Focus upon the human dimensions and interpersonal behavioral skills of management, including motivation, job design, leadership, conflict handling, communication networks, and organizational change. Lecture: case analysis and written projects. Lab: small group exercises, behavioral lab studies, development of communication and interpersonal skills. (2 lecture, 2 lab hours)

## 110. Administration and

 Organizational Behavior (6)Not open to students with credit in Mgt 104 or Mgt 106. Development of administrative, interpersonal, and organizational skills of management; with emphasis on planning, organizing, controlling, human
learning, perception, communication networks, job design, leadership, group dynamics reward systems, and the management of conflict, change, ethics, and stress. Lecture: case analysis and written projects. Lab: small group exercises, behavioral lab studies, development of communication and interpersonal skills. (5 lecture, 2 lab hours)
126. Organization Development (3) Prerequisite: Mgt 104 and 106 or 110, or permission of instructor. Examination and analysis of the process and content issues involved in adapting organization cultures to increasingly dynamic environments. Techniques for developing intuition, creativity, and humor in adapting to uncertainty are explored as are change agent diagnosis and intervention roles.
127. First-Line Supervision (3)

Prerequisite: Mgt 104 and 106 or 110. Emphasis on motivating, communicating, counseling, training, managing time, evaluating performance, and understanding the worker. Guest speakers, role-playing and incident reports.

## 128. Problems in Small

Business Management (3)
Prerequisite: senior standing. Special problems of small businesses: initiation, financing, operations. Class projects: studying local business operations; preparing business plans and financial requests.
129. The Entrepreneurial Manager (3) Prerequisite: Mgt 104 and 106 or 110. Aspects of business evolution and product development (entrepreneurship) from inception through interdisciplinary (technological, marketing, financial, etc.) feasibility analysis to implementation and reward techniques are studied through cases and applied techniques. Course includes historical as well as current international approaches.

## 130. Managerial Economics (4)

Prerequisite: Fin 120; PLM 124; Mktg 100. Economic analysis of management problems, applying an integrated model of the firm to: setting goals and standards for coordination, evaluation and control; allocating the firm's resources; organizing for competition and cooperation; analyzing market structure; and creating a management information system. (3 lecture, 2 lab hours)
131. International Management (3) Prerequisite: Mgt 104 and 106 or 110; or permission of instructor. A review of the unique issues, problems and challenges of
managing enterprises in an international environment. Comparative analysis of management styles and cultures, managerial processes and strategy formulation. Focuses on American, European, and Japanese enterprises. Seminar discussion and cases.

## 133. Managing

Nonprofit Organizations (3)
Prerequisite: Mgt 104 and 106 or 110, or permission of instructor. Examination and analysis of the critical features of nonprofit organizations. Topics include board selection, needs assessment, grant writing, issues analysis, managing volunteers, leadership, service delivery systems, liaison functions, fund raising, and strategic planning. Lecture, case studies, field experience, and research studies utilized.
180. Seminar in Management Theory and Organization Design (4) Prerequisite: Mgt 104 and 106 or 110. Organizations as open systems functioning in the external environment; organization development as a planned intervention emphasizing effective implementation of system changes, integrating mechanisms in response to perceived contingencies; and strategic issues of organizational life cycles.

## 182. Seminar in Applied

Management Techniques (4)
Prerequisite: Mgt 104 and 106 or 110. Implementation of management strategy in the human context of organizations; the organizational context which shapes behavior; climate and culture as an organization-wide process; and change, power and conflict in the organization as a systematic entity.
187. Seminar in Business Strategy (3) Prerequisite: last-semester senior, completion of School of Business and Administrative Sciences core requirements, and completion of upper-division writing skills requirement. Integration of various fields of knowledge through utilization of previously acquired academic and practical experience; emphasis upon decision making under conditions of uncertainty, and experience with international policy formulation and implementation.

## 189T. Topics in Management

(1-3; max total 9 if no topic repeated)
Prerequisite: senior standing. Studies in management, organizational theory, organizational behavior, production, transportation, business administration, special management and organizational problems.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
193. Supervised Work Experience (1) Open only to business majors. Prerequisite: permission of instructor. Work-study: learning through on-the-job experience in a business. Written reports. CR/NC grading only.

## 195. Internship (3; max total 6)

Open only to business majors. Prerequisite: permission of instructor. Work-study: student holds responsible position in business or a government agency and reports on firm's operations and suggested improvements. CR/NC grading only.
200 Series
Graduate courses are listed under Business - Graduate Program.

## Production and Logistics Management (PLM)

114. Logistics Management (4) Prerequisite: Mktg 100. Systems approach to supply and distribution activities aimed at minimizing cost and maximizing customer service. Emphasis on role of transportation, warehousing, inventory control, order processing, materials handling, packaging, procurement, and information in logistics management. (Former Mgt 146; Mgt 147; LOM 114; LOG 114)
115. Transportation Management (3)

Prerequisite: PLM 114. Current tools and techniques in transportation and physical distribution management including car-rier-shipper cooperation, intracarrier and intercarrier competition, computer usage, carrier costing and pricing, and customer service. (Former Mgt 148; LOM 119; LOG 119)
124. Production/

Operations Management (4)
Prerequisite: DS 173 (may be taken concurrently), Mgt 104 or 110. Production/operations systems and problems in manufacturing and serviceorganizations; product development and process selection; facility location and design; method analysis and job design; work measurement; operations planning and control; materials handling; inventory control; quality control; project management; just-in-time philosophy. Lecture discussion; application of quantitative methods in solution of national and multinational operations problems; computer simulation. (Former Mgt 124; LOM 124; POM 124)

## 136. Purchasing and

Materials Management (4)
Prerequisite: PLM 124. Purchasing planning, policies, and procedures; purchasing organization; sources of supply, pricing; contract negotiation; value analysis; traffic management; quality assurance; inventory management; public purchasing; and legal and ethical aspects of purchasing. (Former LOM 136; LOG 136)

## 160. Manufacturing

Planning and Control (4)
Prerequisite: PLM 124. Material requirements planning; capacity management; production activity control; just-in-time philosophy; master planning; inventory management; distribution requirements planning; computer applications of manufacturing planning and control; database development and maintenance. (Former LOM 160; POM 160)

## 177. Problems in Production

and Logistics Management (4)
Prerequisite: PLM 114, 136, 160. Integration of various elements of production and logistics management with each other and with other functional areas of a business system. Emphasis upon American and worldwide productivity and competitiveness, integrated production and logistics management goals and strategies, multiplan and international production and logistics management. (Former LOM 177; POM 177)
189T. Topics in Production
and Logistics Management (1-3;
max total 3 if no topic repeated)
Prerequisite: senior standing or permission of instructor. Topics in production and logistics management. (Former LOM 189T; POM 189T; LOG 189T)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Former LOM 190; POM 190; LOG 190)
193. Supervised Work Experience (1) Open only to business majors. Prerequisite: permission of instructor. Work-study: learning through on-the-job experience in a business. Written reports. CR/NC grading only. (Former LOM 193; POM 193; LOG 193)
195. Internship (3; max total 6)

Open only to business majors. Prerequisite: permission of instructor. Work-study: student holds responsible position in business or a government agency, and reports on firm's operations and suggested improvements. CR/NC grading only. (Former LOM 195; POM 195; LOG 195)

## BUSINESS Marketing and Logistics

School of Business and Administrative Sciences
Department of Marketing and Logistics RICHARD D. NORDSTROM, Chair
Peters Business Building, Room 388
(209) 278-7830
B.S. in Business Administration Marketing Option

都he Department of Marketing and Logistics offers an option (area of emphasis) in marketing and assists in offering the Production and Logistics Management (PLM) Option. PLM is listed under the Department of Management.
The Marketing Option is designed to explore the primary areas of buyer behavior, market segmentation, marketing research, channel management, physical distribution, pricing, and strategic marketing planning. It also gives the student the choice of examining promotion, sales and sales administration, marketing management, retailing, and psychology of personal persuasion.

## Faculty and Facilitities

The faculty of the Department of Marketing and Logistics is comprised of individuals who have studied and pursued business careers throughout the world. Case studies, experiential exercises, computer simulations, laboratory research, business community projects, guest speakers, and seminar discussions are just a few of the ways in which instructors provide the students with a "real-world" exposure to business. The combination of faculty expertise, teaching skills, research activities, and business experiences assures the student of receiving the best education possible in marketing.

## Bachelor of Science Degree Requirements Busimess Admimistration Major

A 40-43 unit business core provides students with a general background commonly acknowledged as furnishing the basis for effective management of business enterprises. The following courses are required of all business majors.

Units
Core requirements
40-43
(see Advising Note 1)
Acct 4A, 4B; B A 18; DS 73, 173;
Fin 120; IS 50 (or demonstration of computer literacy); IS 160; PLM 124; Mgt 110 or 104-106, 187; Mktg 100
Generall Education ......................... 54
(see Advising Notes 2 and 3)
Marketing Option
Mktg 102; PLM 114 or Mktg 115;
Mktg 120 or 125; Mktg 188.
Elect two of the following: Mktg
130, 132, 134; 136 or 138; 176
or 195
Electives
(see Advising Note 4)
Totall 124

## Advising Notes

1. Every upper-division business course has writing requirements, and the quality of the writing is used in determining grades in the course. Completion of the upper-division writing skills requirement (successful completion of IS 105 W , another authorized W course, or passing the Upper-Division Writing Examination) is a prerequisite to enrollment in Mgt 187.
2. Business students must take Econ 40 (or Ag Ec 1 ) and Econ 50 in BREADTH, Division 8. Business students must also complete DS 71 or one semester of approved equivalent college mathematics beyond intermediate algebra.
3. Successful completion (grade of $C$ or better) of Engl 1 or its equivalent is a prerequisite to enrollment in upperdivision business courses. Failure to successfully complete Engl 1 by the time a student has completed 30 units at CSUF shall subject the student to administrative/academic probation and possible subsequent disqualification.
4. Business students must complete a minimum of 51 units outside of the School of Business and Administrative Sciences (courses selected for General Education may be included in these
units) and a minimum of 40 upperdivision business units.
5. Credit for both Mktg 136 and 138 is permitted, but one of the two must be a free elective outside the requirements of the Marketing Option.
6. Students desiring more depth may also take Mktg 189T, 190, or 193. This would count as free electives outside the requirements of the Marketing Option.
7. For PLM (Production and Logistics Management) courses and degree requirements, see listing under Department of Management.

## COURSES

Logistics courses are listed under Production and Logistics Management (PLM) in the Department of Management.

## Marketing (Mktg)

100. Marketing Concepts (4)

Prerequisite: Econ 40, 50. Study/analysis of the challenges and problems faced by individuals, organizations (profit and nonprofit) who attempt to expedite and facilitate exchange in a dynamic environment. Emphasis on strategic marketing planning and the decision-making process in the marketplace. (3 lecture, 2 lab hours)
102. Buyer Behavior (4)

Prerequisite: DS 73; Mktg 100. This course leads to the understanding of consumers and industrial buyers as a guide for more effective marketing. A survey of appropriate research findings and methods from marketing, economics, sociology, psychology, and anthropology are applied to aspects of marketing decision making. (3 lecture, 2 lab hours)

## 115. Marketing Channels (4)

Prerequisite: Mktg 100. Analysis of the coalition of merchants, agents, and other institutions which together constitute the channel of distribution for consumer and industrial goods; emphasis on designing, operating, controlling, and evaluating channel structures in a competitive environment. Casestudies and problem solving.
120. Marketing Research (4)

Prerequisite: DS 173; Mktg 102. Fundamentals of market and marketing analysis, research procedure, methods of analysis; individual and group problem analysis and presentation of results; computer simulation. (3 lecture, 2 lab hours) (Former Mktg 104)
125. Analysis of Marketing Operations (4)
Prerequisite: DS 173; PLM 124; Mktg 102. Marketing control systems and reporting systems, and use of external secondary data for creating analytic and simulation models to identify key marketing problems and opportunities, and for developing solutions. Computer spreadsheets and statistical software tools are applied to model building. (3 lecture, 2 lab hours)
130. Retail Management and Merchandising (4)
Prerequisite: Mktg 102. Location, price, and promotion topics are enhanced with the buying and merchandising process, including buying planned stocks, style merchandising, and accounting and controlling systems.

## 132. Promotion

Practices and Principles (4)
Prerequisite: Mktg 102. The focus is on promotion as a communications process and the integration of promotional elements into the total strategy of the firm, keeping in mind competitive strategies and the constraints imposed by the major social and ethical issues surrounding promotional practices. (Former Mktg 140; Mktg 142)

## 134. Product Marketing

and Management (4)
Prerequisite: DS 173; Mktg 102. This course investigates the various processes organizations employ in order to develop new products/services. Students will complete a term project which simulates the new product development process that would ideally be pursued in an actual situation. (Former Mktg 112; Mktg 117)
136. Sales Administration
and Personal Selling (4)
Prerequisite: Mktg 102. Techniques of personal persuasion, behavioral sciences methods, selection training, and supervision of sales staff are integrated into the strategic marketing concepts. Role playing and case analysis. (Former Mktg 155)

## 138. Psychology of

## Personal Persuasion (4)

Prerequisite: Mktg 100. Behavioral science approach to personal selling. Emphasis on analysis of psychological aspects of consumer decision-making and consumer attitudes toward the salesperson that affect success. Case analysis, individual and group presentations. (3 lecture, 2 lab hours) (Former Mktg 150)
176. International Marketing (3)

Prerequisites: Mktg 100; B A 174. Examina-
tion and evaluation of business policies and practices of firms engaged in world trade; the marketing area; organization, product, channels of distribution, marketing research, demand creation and other management problems. General Education CAPSTONE Cluster.
188. Marketing Strategy (4)

Prerequisites: PLM 114 or Mktg 115; PLM $124 ;$ Mktg 120 or 125 . Last semester senior standing recommended. Primary emphasis upon analysis of situations/opportunities, development of problem-solving scenarios, and resultant marketing plans. Computer simulations, in-depth problemsolving research study, case analyses, and discussions. (3 lecture, 2 lab hours) (Former Mktg 109)

## 189T. Topics in Marketing

(1-3; max totall 6 if no topic repeated)
Prerequisite: senior standing or permission of instructor. Topics in advertising, consumer behavior, distribution, industrial procurement, marketing research, retailing, wholesaling.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
193. Supervised Work Experience (1)

Open only to business majors. Prerequisite: permission of instructor. Work-study: learning through on-the-job experience in a business. Written reports. CR/NC grading only.
195. Internship (3; max total 6)

Open only to business majors. Prerequisite: permission of instructor. Work-study: student holds responsible position in business or a government agency and reports on firm's operations and suggested improvements. $C R / N C$ grading only.

## 200 Series

Graduate courses are listed under Business - Graduate Program.

## BUSINESS Graduate Program

## School of Business and

 Administrative Sciences (SOBAS) Graduate Business Program MANUCHEHR SHAHROKHI, Director Peters Business Building, Room 183 (209) 278-2107
## Master of Business

Administration (M.B.A.)
M.S. in Accountaricy (M.S.A.)
M.S. in Business (M.S.B.)

The M.B.A. degree prepares students for careers in the middle and upper levels of the management of business organizations, educational systems, government and nonprofit institutions, and agricultural enterprises. The Master of Science in Accountancy is designed for students who wish to advance their careers in accounting. The M.S. in Business enables students to specialize in certain approved areas of study at the graduate level. The graduate business degrees may be used to increase the subject-matter competency of teachers in secondary schools and community colleges.
Admission. The master's degree programs are open to college graduates with at least a bachelor's degree who show intellectual promise and ability to per-
form at a satisfactory level during their graduate studies. To enter the School of Business and Administrative Sciences (SOBAS) Graduate Business Program, applicants must show strengths in the following areas: (1) prior academic performance/achievement (GPA), (2) score on the Graduate Management Admission Test (GMAT), (3) recommendation letters, and (4) professional experience. Applicants with outstanding achievement in three areas but marginally deficient in one area may be admitted to the program on a conditional basis.
Two application forms (CSUF and SOBAS) are required. Acceptance by CSUF for graduate study does not imply acceptance by SOBAS. Only students who meet all of the SOBAS admission criteria/ requirements are eligible for admission to the SOBAS Graduate Business Program.
Outstanding undergraduate seniors can take 200-series courses if they have permission of the instructor and have authorization of the director of the SOBAS Graduate Business Program and the CSUF dean of graduate studies.
Teaching credential candidates may take Bus 280 and 282 in unclassified standing when approved by the business credential adviser. Students who are classified in other master's degree programs at CSUF

and who have met the prerequisites may enroll in graduate business courses. Proof of classified standing is required.
(See also Admission to Graduate Standing, Advancement to Candidacy, Program Requirements, and Criteria for Thesis and Project.)

## Master of Busimess <br> Administration <br> Degree Requirrements

The M.B.A. degree is awarded upon satisfactory completion of a 33 -unit program of study. Students are required to have completed foundation courses in business administration.

Program prerequisites .....................0-33
(Foundation requirements - to be determined based on student's academic preparation): Bus 202, 205, 207, 208, 209, 211, 214, 216, 217, 218 (or equivalents)
M.B.A. course requirements .............. 27 Core courses*: Bus 241, 242, 243, $244,245,246,247,248$, and 249
Approved elective(s)
and
Culminating experience:
Bus 298, 299 or comprehensive ex-
amination 0-6
Totall ................................................ 33
*Students with an undergraduate degree in busi-
ness may be able to waive one core course
corresponding to their major.

## Master of Science <br> in Accoumtancy <br> Degree Requilrements

The M.S.A. degree is intended for students desiring advanced theoretical and practical study in the field. The program is based upon a strong foundation in business and accounting subjects. The program is designed for those persons who wish to advance their careers in public accounting, in controllership, and accounting executive positions in business, government, and other nonprofit organizations, and in consulting firms.

Students are required to have the equivalent of an undergraduate degree in business with a major in accountancy or to remove any deficiencies in these areas. The program calls for 30 additional units when these requirements have been met. A comprehensive examination is required of all students prior to the completion of the program.
M.S.A. requires the following specific prerequisite courses or their equivalents:
Bus 202, 205, 207, 208, 209, 211,
214, 216, 217, 218 ..................0-33
Acct 120A, 120B, 132, 144, 146,
162, 167 .................................0-28
M.S.A. Core and Elective requirements Financial Accounting Option
Core: Bus 260, 263, 264, 265 ..... 12
Other required courses:
Bus 244, 261, 276 .....  .9
Electives from:
Bus 235, 241, 243 ..... 3
One approved course in taxation* .....  3
One approved elective* ..... 3
Totall ..... 30
Taxation Option
Core: Bus 260, 263, 264, 265 ..... 12
Other required courses: Bus 270, 277, 278 .....  9
Electives from:
Bus 269T, 279, Acct 145, or anotherapproved graduate business coursenumbered between 220 and 299* 9
Totall ..... 30

* Lists of approved electives are available in theGraduate Business Program Office.

## Master of Science <br> iin Business

## Degree Requirrements

The M.S.B. degree is offered for students who wish to specialize in one particular area of business at the graduate level. The M.S.B. requires a minimum of 30 units. Application for approval of individual programs must be made through the graduate business director or the SOBAS departments.

Foundation requirements .............
$214,216,217,218$ (or equivalents)
M.S. Business Core requirements ...... 12

An approved research course:
Bus 241, 299
Approved electives* ............................ 18
Totall ............................................... 30

[^18]GRADUATE COURSES - Busimess and Administrative Sciences
(See Course Numbering System.)

## Business (Bus)

Note: Teaching credential candidates may take Bus 280 and 282 in unclassified standing when approved by the graduate business director. Business graduate courses are available for a letter grade only.
202. Economics for

Business Decisions (3)
Not required of students with credit in Econ 40 and 50. Microeconomic decisions; product, service, and factor markets; risk, uncertainty, and profits; macroeconomic framework of business decisions.
205. Financial and Managerial Accounting (3)
Not required of students with credit in Acct 1 A and 1 B or 4 A and 4 B . Financial accounting; statement analysis and interpretation; transaction analysis; partnerships and corporations; taxation; financial reporting; managerial controls, information systems, budgeting; costs, capital budgets.

## 207. Quantitative Foundations

for Business Decisions (3)
Not required of students with credit in DS 71. Functional representations of business relationships; variable rates of change, marginal analysis and optimization of business functions; analysis of business data arrays.

## 208. Quantitative

Methods in Business (3)
Not required of students with credit in DS 73 and 173. Statistical analysis in business, tests of hypotheses, time series, correlation analyses, index numbers, estimation models, and Bayesian statistics in business decision making. (2 lecture, 2 lab hours)

## 209. Computers and Programming (3)

Not required of students with credit in IS 50. Computing algorithms, statistical and other software packages, data processing, programming languages. (2 lecture, 2 lab hours)
211. Legal Environment of Business (3) Not required of students with credit in B A 18. Basic legal concepts, nature of the legal system, administrative law, law of contracts and of agency, antitrust law, and legal research.

## 214. Organization and

 Management Theory (3)Not required of students with credit in Mgt 110 or Mgt 104 and 106. Organizational theory, structure, and forms of
organization, authority, leadership, group dynamics, policy formulation; conflict resolution, organizational control.
216. Operations Analysis (3)

Not required of students with credit in PLM 124. Prerequisite: Bus 202, 207, 208 and 214 recommended. Operations theory and methods; operations planning and control; methods analysis, work measurements; materials handling and control, facilities location and layout; application of statistical techniques and electronic data processing; relationships with other functional areas of management.

## 217. Marketing

Organization and Policies (3)
Not required of students with credit in Mktg 100. Prerequisite: Bus 202, 205, 207; Bus 208 (or concurrently). Environmental factors for marketing, elements of marketing and marketing systems, marketing activities and strategies of the firm; evaluating marketing programs and systems.
218. Principles of Finance (3)

Not required of students with credit in Fin 120. Prerequisite: Bus 202, 205; Bus 207 recommended. Impact of uncertainty and environmental considerations upon the finance function. Financial problems and policies; working capital management, capital budgeting, cost of capital, and dividend policy. Problems and cases.
221. Seminar in Business Research (3) Prerequisite: completion of all foundation courses (or concurrently). Methods of research; applications to business problems.
232. Seminar in Money
and Capital Markets (3)
Prerequisite: Bus 218. Analysis of money and capital markets, their organization and role in economic activity.

## 235. Seminar in

Managerial Economics (3)
Prerequisite: Bus 202, 205, 207, 208, 217. Economic analysis of managerial problems; theory of the firm.

## 236. Seminar in Risk

Management and Insurance (3)
Prerequisite: Bus 202, 211, 218. Use of insurance as a risk management tool; covers major aspects of the insurance mechanism, including analysis of basic life and nonlife insurance contracts. Considers various noninsurance methods of handling nonspeculative financial risks as well as the traditional insurance methods.

## 240. Seminar in Marketing (3)

Prerequisite: Bus 217. Critical review of the literature of marketing, special reports, and research dealing with marketing institutions and organization, and marketing functions.

## 241. Seminar in Leadership

and Organizational Behavior (3)
Prerequisite: Bus 214. This seminar investigates the significance of leadership and successful management in modern organizations. The influence of leadership is examined as central to managing the behavioral dynamics of individuals, work groups, and organizations. (Former Bus 223)

## 242. Seminar in

Marketing Management (3)
Prerequisite: completion of all foundation courses of the M.B.A. program. Analysis of communications, distribution, pricing, and product policy of the strategic business unit. Planning, budgeting, and implementing marketing programs based on analysis and research on the market, the competitive structure, and the marketing process.

## 243. Seminar in

Quantitative Decision Making (3)
Prerequisite: Bus 207, 208, 209, and 216. Addresses the quantitative decision-making process as well as the research methods that allow the prospective manager to understand the various techniques for data collection, analysis, and interpretation that are needed in the decision-making process. (Former Bus 228)

## 244. Seminar in <br> Financial Management (3)

A practical and applications approach to the theories, concepts, and techniques of financial management with emphasis on financial analysis and planning, working capital, capital budgeting, capital structure, mergers and acquisitions, LBOs, and international financial management. Computer applications stressed. (Former Bus 224)

## 245. Seminar in Accounting

Control and Reporting (3)
Prerequisite: Bus 205, 208, 218. In-depth consideration of several topical areas in accounting analysis as related to both profit and not-for-profit organizations, with emphasis on currently controversial issues including international implications. Analysis includes budgetary planning, cost analysis, internal control and case studies. (Former Bus 226)

## 246. Seminar in Management

Information Systems (3)
Prerequisite: Bus 209. Develops an overall framework for analyzing and modeling information needs by organizations. Provides the theoretical and practical aspects of design and implementation of com-puter-based planning, control, and decision support and expert systems. (Former Bus 259)

## 247. Seminar in

International Business (3)
A seminar on the theories, concepts, and techniques required for effective management of international business. The topics include business in the global setting, international trade and investment issues, cross-cultural analysis, international management, accounting, marketing, finance, and multinational corporations (MNCs). (Former Bus 275)

## 248. Seminar in Regulatory and

Ethical Environment of Business (3)
Prerequisite: Bus 211. Analytical basis for evaluating state, national, and international business regulation. Study of policy formulation processes. Emphasis on ethical considerations and the goals of major economic and social regulation; e.g., ratemaking, antitrust law, securities regulation, bankruptcy, consumer/environmental protection, employment law. (Former Bus 237)

## 249. Seminar in Business

Policy and Strategic Management (3)
Prerequisite: completion or concurrent completion of M.B.A. core. Integration of strategic concepts, techniques, and applications in both profit and nonprofit organizations. Strategy analysis, formulation, execution, administration, and control. Case and/or field studies. (Former Bus 229)

## 250. Seminar in Personnel and Labor Management (3)

Activities and techniques that comprise the functions of human resource management - recruitment, selection, training, evaluation, compensation, and state and federal legislation. Development and practice of labor-management relations. International comparisons in all segments of the course.

## 252. Seminar in Labor Relations (3)

Prerequisite: Bus 214. Current trends in labor relations theory and practice; labor relations systems; contract negotiations; dispute prevention and settlement; role of government; applications of behavioral sciences; individual research.

## 255. Seminar in

Operations Management (3)
Prerequisite: Bus 216. Current operations management theories and problems; critical analysis and review of present practices and theories.

## 257. Seminar in

Business Communication (3)
Investigation and analysis of the communication process as it relates to managerial effectiveness.
260. Seminar in Accounting Theory (3) Prerequisite: Acct 120A and 120B. A historical perspective of the development of accounting theory. An evaluation of the objectives and standards of financial reporting as they are applied in contemporary income determination and asset valuation.

## 261. Accounting for

Nonprofit Organizations (3)
Prerequisite: Bus 205. Accounting for various types of funds as applied to governmental and other not-for-profit organizations. Budgets and accounting controls; revenues and appropriations, expenditures and encumbrances; accounting statements and reports.

## 262. Seminar in Programming (3)

Prerequisite: Bus 209. Advanced techniques of sorting, file maintenance and information systems, controls and teleprocessing directed toward business applications.
263. Seminar in Cost Accounting (3)

Prerequisite: Acct 132 or Bus 245. The development, interpretation, and uses of accounting reports and supplementary information for management planning, control, and decision making. Topics include cost-volume-profit analysis; linear programming, capital budgeting; inventory models; the use of standards, budgets, and variance analysis for planning and control purposes; divisional performance; and transfer pricing issues.

## 264. Seminar in Auditing (3)

Prerequisite: Acct 162. An advanced study of the philosophy, theory, and practice of auditing with special emphasis in recent developments, and cases involving ethical and legal responsibilities, statistical sampling methods, using the computer, and reliance on internal control; operational auditing.

## 265. Seminar in

Information Systems (3)
Prerequisite: IS 161, Acct 146, or Bus 246. Theory of systems and information as they relate to design, management, and control
of business systems. Study of information and systems as resources to be managed.

## 266. Seminar in Information

Systems Management (3)
Prerequisite: IS 161, Acct 146, or Bus 246. Study of the hardware, software, and behavioral issues relating to the design, acquisition, implementation, and management of information systems technology.

## 268. Regression,

Correlation, Factor Analysis (3)
Prerequisite: Bus 208. Conditional, marginal, and joint probability distributions; statistical dependence; simple, multiple, linear, and nonlinear regression models; correlation analysis; analysis of variance and regression; introduction to Bayesian decision theory.
269T. Topics in Tax Planning (3)
Prerequisite: Acct 144; Acct 145 (or concurrently). An in-depth examination of tax planning and decision making with respect to income, estate, and gift taxes; tax research and review of current cases involving application of tax laws to individuals, partnerships, corporations, and fiduciaries. Opportunities in special industries such as agriculture, real estate, insurance, and natural resources.
270. Estate Planning (3)

Prerequisite: Acct 144 and 145. Estate planning techniques to maximize wealth and minimize taxes. In-depth discussion of federal and state systems for taxing transfers. Theory, practice, and legal requirements for reporting by fiduciaries of estates and trusts.

## 272. Seminar in International

Finance and Investment (3)
Prerequisite: Bus 244. An advanced study of theories and techniques in global finance and investment. The topics include theinternational financial system, currency markets, risks and exposure management, balance of payments, political risks, international banking, international capital markets, Eurocurrencies, portfolio, and foreign direct investments.

## 276. Seminar in Current

Accounting and Reporting Issues (3) Prerequisite: Acct 120A and 120B. A comprehensive examination of currently effective authoritative pronouncements that govern financial accounting. Included are pronouncements and proposals of the AICPA, the FASB, the AAA, the SEC, and related accounting literature.

## 277. Taxation of

Corporations and Shareholders (3)
Prerequisite: Acct 144; Acct 145 (or concurrently). A detailed study of tax problems of corporations and their shareholders. Areas covered include organization, capital structure, and taxation of corporations; dividends, nonliquidating distributions, stock redemptions, and partial and complete liquidations; and corporate reorganizations.
278. Taxation of Partnerships and Subchapter $\$$ Corporations (3)
Prerequisite: Acct 144; Acct 145 (or concurrently). An examination of fundamental legal concepts, technical rules, and computational procedures relating to federal taxation of partnerships and partners and Subchapter S Corporations. Areas of emphasis include partnership formation, operations, and termination.
279. Taxation of Property Transactions and Accounting Methods (3) Prerequisite: Acct 144; Acct 145 (or concurrently). A comprehensive coverage of property transactions and tax accounting methods including definition, realization, recognition, and computation of capital gains and losses, various tax accounting methods and planning opportunities relative to individuals and corporations.
280. Seminar in Business Education (3) Study of advanced problems in business education.
282. Seminar in Business Curricula (3) Objectives, principles, and curricula of business in secondary schools, colleges, and universities; evaluation and trends of current programs.

## 289T. Seminar in Business Topics

(3; max total 9 if no topic repeated)
Prerequisite: 9 units of 200 courses. Theory and developments in accounting, administration and organization, business education, communications, consumer economics, finance, industrial and regional studies, international business, law, management, marketing, personnel and industrial relations, quantitative studies, real estate and urban economics, records management, resource economics, risk and insurance, or transportation.
290. Independent Study
(1-3; max total 6)
See Academic Placement - Independent Study. Prerequisite: completion of 9 units of Core and Electives; permission of director and instructor. Approved for SP grading.
292. Readings in Business
(2-3; max total 6)
Prerequisite: completion of 9 units of Core and Electives; permission of director and instructor. Approved for $S P$ grading.
298. Management Project (3)

Prerequisite: completion of M.B.A. core; Bus 241, 242, 243, 244, 245; and last semester standing, or concurrently completing M.B.A. core. See Criteria for Thesis and Project. Examination of the work and problems general managers of business units face as chief strategists and organization builders. Independent analysis of an operating industry, business, or a not-for-profit organization or a principal functional area of an organization. Case studies and field research project. Approved for $\boldsymbol{S P}$ grading.
299. Thesis (3 or 6)

Prerequisite: completion of master's core or concurrently completing master's core. See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Elective for Master of Business Administration. Approved for $S P$ grading.

## IN-SERVICE COURSES

(See Course Numbering System.)

## Business (Bus)

367. CPA Review (2-4)

## 380T. Topics in Business

(1-3; mayberepeated if no topic repeated)

## 381. Instructional Procedures in

 Vocational Business Education (2-3)
## 385. Bridging the Gap (2-4)

## 389. Workshop in Business

## Education (1-6; max total 6)

Credit may not exceed 1 unit per week of workshop activity. Open only to experienced teachers. Study and critical analysis of problems in content and teaching in secondary school business education.
398. Business Internship
(1-6; max total 6)
Designed for graduate students who need or desire supervised work experience. $C R /$ NC grading only.

## Chemistry

## School of Natural Sciences

Department of Chemistry
DAVID L. ZELLMER, Chair
Science Building, Room 380
(209) 278-2103
B.A. in Chemistry B.S. in Chemistry
M.S. in Chemistry Minor in Chemistry
Single Subject Teaching Credential in Physical Science

TThe Chemistry Department provides (1) undergraduate training in chemistry for students planning professional careers in chemistry, biochemistry and allied professions, and for those contemplating graduate work for advanced degrees; (2) undergraduate training in chemistry for those planning careers in professions such as medicine, chiropractic, dentistry, pharmacy, etc.; (3) participation in the preparation of teachers of chemistry and the other physical sciences in the teaching credential programs; (4) teaching of the basic chemical sciences required by students majoring in related fields such as physics, biology, nursing, engineering, geology, agriculture, home economics, and criminology; (5) stimulation of interest in and understanding of the achievements and contributions of chemistry to our civilization for nonscience students, as a part of General Education; and (6) graduate instruction in chemistry for the Master of Science degree for students who intend to enter the chemical industry, pursue further advanced study, or who wish to improve their qualifications as teachers in secondary schools and community colleges.
The Bachelor of Science degree program in Chemistry is accredited by the American Chemical Society. Students who satisfactorily complete the program are recommended by the department for certification as graduate chemists by the American Chemical Society. Students completing the Bachelor of Arts degree may be recommended for certification by completing additional requirements of the American Chemical Society.

## Faculty

Twenty-two full-time Ph.D. members are in the Department of Chemistry. Our faculty provide excellent research opportunities in analytical, biochemistry, inorganic, organic, and physical chemistry. The broad interests within the faculty have resulted in interdisciplinary research projects in collaboration with scientists and professors in other science areas: agricultural chemistry, biotechnology, clinical chemistry, forensics chemistry, chemical physics, enology, nutritional science, and molecular biology. Research projects have involved local facilities such as the California State Crime Laboratory, Fresno Community Hospital, USDA Research Station, U.S. Veteran's Administration Hospital, U.S. Forest Laboratory, and Valley Children's Hospital.

## Facilities

All upper-division and graduate chemistry laboratories and support areas are housed in our science building completed in 1976. Eight four-station graduate laboratories are well equipped, with access to modern instrumentation. Instrumentation in the department includes: Varian EM 360 and EM 390 NMR spectrometers, GC-MS, atomic absorption spectrometers, Fourier Transform IR (FTIR), liquid scintillation counter, PyeUnicam, Lambda 6 and Cary 17D UV-VIS spectrophotometers, spectrofluorometer, radiation equipment, liquid chromatographs, high speed refrigerated centrifuges, and several gas chromatographs.

Facilities include several Macintosh and IBM computers in the department. The university library includes more than 100 journal subscriptions in chemistry plus numerous texts and related books.

## Career Opportunities

Because of the increasing technological nature of our society, chemistry graduates will find an impressive array of options and exciting opportunities in a wide range of fields. A chemistry degree can provide preparation for a career as a professional chemist in areas such as basic research, environmental protection, instrumentation, new product and process development, and education. There is an increasing need for technical expertise in expanding fields such as agricultural chemistry, biotechnology forensic science, clinical chemistry, food science, occupational safety, and environmental monitoring. Careers for chemists in the academics include university teaching and science teaching in the secondary school - an area that will expand greatly in the future. In addition there is a need for technically trained people in nontraditional areas such as marketing and sales, scientific information, patent law, and health and safety. The baccalaureate degree can also provide a strong foundation for studies at medical, dental, veterinary, and pharmacy schools. Students with chemistry degrees have been notably successful in these areas.

## Undergraduate Programs

Chemistry Majors: The Bachelor of Arts degree with a major in chemistry consists of a total of 124 units including 36-39 units of chemistry. The Bachelor of Science degree with a major in chemistry consists of a total of 124 units including a minimum of 45 units in chemistry.
High School Preparation: The high school preparation for majors in the Department of Chemistry should include: algebra (2 years), plane and solid geometry, trigonometry; chemistry or physics.
Prospective students may elect to take the general chemistry placement test at college entrance. A satisfactory score in this test will permit the student to start the chemistry course sequence with Chem 1B.

## Bachelor of Arts <br> Degree Requirrements

The Bachelor of Arts degree in Chemistry is intended primarily for those students who plan to take extensive coursework in other areas in addition to chemistry. This degree is suitable for prehealth professional students (premedical, predental, etc.), secondary school teaching credential students, and biochemistry students oriented toward biotechnology and the health professions. This degree is NOT intended for students who anticipate a career in chemistry, or who expect to continue their education in pursuit of graduate degrees.
Note: Chemistry majors may not take courses listed in category A or B below for CR/NC grades.

The Bachelor of Arts degree in Chemistry requires the student to complete the courses listed under either:
I. Biochemistry/Prehealth Professional Emphasis, or
II. Teaching Credential Emphasis.
I. Biochemistry/Prehealth Professionall Emphasis

Units
A. The B.A. Chemistry Major .... 37-39 Core Program
Chem 1A, 1B, 102, 108, 128A, 128B, 129A, 155 .. (30)
Emphasis
Chem 156
Elect two courses from Chem 129B, 142, 153, 241A, 241B, 250T
B. Additional requirements ...... 21-26 Elect two courses from Biol 120 or 135, Biol 130, Micro 104 or other approved courses
Math 75, 76 (Math 77 strongly recommended) .. (8)
Phys 2A, 2B (or Phys 5A, 5B strongly recommended)
C. Remaining General Education requirements ........45*
D. Electives ..................................14-21

Totall .124

* Of the 51 required General Education units, 6 are satisfied by Phys 2A, 2B (or 5A, 5B) (Division 1 ) and Math 75 (CORE).

The following is an example of a program for the B.A. in Chemistry, Biochemistry/ Prehealth Professional Emphasis:

4th Semester - Spring
Chem 128B ......................................... 3
Chem 102............................................ 5
Electives or General Education ............. 8 16
5th Semester - Fall
Chem 108............................................ 4
*Chem 155 ........................................... 3
Electives or General Education .............9 $\frac{.9}{16}$
6th Semester - Spring
${ }^{* *}$ Chem 156 ......................................... 3

7th Semester - Fall
Electives or General Education........... 15
8th Semester - Spring
Electives or General Education ........... 15
Totall
.124

* Offered fall semester only.
** Offered spring semester only.

## III. Teaching Credential Emphasis

The Single Subject Waiver Program for Physical Science leading to the B.A. in Chemistry enables one to teach chemistry, physics, and earth science at the secondary school level. The waiver program includes the following:

Units
A. The B.A. Chemistry Major

## Core Program

Chem 1A, 1B, 102, 108, 128A, 128B, 129A, 155
Emphasis
Chem 111, 139
B. Additional requirements ............... 29

Phys 2A, 2B (or Phys 5A, 5B
strongly recommended), 102
P Sci 168
Math 75, 76 (Math 77 strongly recommended)
C Sci 20 or 40
Geol 1
C. Remaining General Education requirements 45*
D. Electives (you may choose to satisfy some education require-
ments here, see next page) .. 14

## Totall

 124* Of the 51 required General Education units, 6 are satisfied by the B.A. core and additional requirements.

To receive the Clear Teaching Credential, students must complete a 5th year program of 30 units beyond the baccalaureate degree. Normally, most credential candidates complete the Single Subject Waiver Program in Physical Science for the B.A. degree, and satisfy the education requirements as their 5th year program. Education courses can be taken during baccalaureate studies, but only those taken during the second semester of the senior year can be used to satisfy the 5thyear, 30 -unit requirement for the Clear Teaching Credential (as long as those units are not being used to satisfy unit requirements for the B.A. degree).
The following is an example of a program leading to a B.A. in Chemistry and a teaching credential in physical science at the secondary level. This sample program emphasizes the need to take course sequences in mathematics and physics prior to Chem 108. In addition, it specifies certain semesters for some courses offered only once a year.
$\begin{array}{cr}\text { 1st Semester - Fall } & \text { Units } \\ \text { Chem 1A ............................................. } 5\end{array}$
Math 75 ................................................ 4
Engl 1 .................................................... 3
PI Si 2 or Hist 11 or 12 .......................... $\frac{3}{\mathbf{1 5}}$
2nd Semester — Spring
Chem 1B ............................................. 5
Math 76................................................ 4
Phys 2A or 5A....................................4-5
Hist 11 or 12, or Pl Si 2 .......................... 3
16-17
3rd Semester - Fall
Chem 128A .3
Chem 129A ........................................... 2
Phys 2B or 5B ....................................4-5
General Education ................................. 7
16-17
4th Semester - Spring
Chem 128B ......................................... 3
Chem 102.............................................. 5
**Phys 102 ............................................ 3

5th Semester - Fall
Chem 108 .. 4
*Chem 155 ........................................... 3
C Sci 20 or 40 ........................................ 4
Electives or General Education ............. 5

8th Semester - Spring
Electives or General Education........... 15
Trotall............................................... 124

* Offered fall semester only.
** Offered spring semester only.

## Bachellor of Science

Degree Requirements
The Bachelor of Science degree in Chemistry is intended for students who plan a career in chemistry. The B.S. degree is accredited by the American Chemical Society. Students who satisfactorily complete this program are recommended by the department for certification as graduate chemists by the American Chemical Society. The B.S. degree prepares students to enter the job market or for graduate study leading to an advanced degree, such as a Master of Science or Doctor of Philosophy.
Note: Chemistry majors may not take courses listed in category A or B below for CR/NC grades.

Units
A. The B.S. Chemistry Major ............. 46 Chem 1A, 1B, 102, 106, 110A, 110B, 111, 123, 124, 128A, 128B, 129A, 129B, 155
B. Additional requirements .............. 22

Math 75, 76, 77, Phys 5A, 5B
C. Remaining General Education requirements ............45*
D. Electives .......................................... 11

Recommended: Chem 130, 140T, 142, 153, 154, 156, 160, 190
Totall
124

* Of the 51 required General Education units, 6 are satisfied by Phys 5A, 5B (Division 1) and Math 75 (CORE).

Transfer students are strongly urged to consult their adviser.
Many of the courses listed above have chemistry or other prerequisites. For that reason, the following sample program leading to a B.S. in Chemistry is provided. This sample program emphasizes the need to take course sequences in
mathematics and physics prior to Chem 110A. In addition, it specifies certain semesters for some courses that are offered only once a year (Chem 123 and Chem 155 in the fall; Chem 124 in the spring). Finally, this program is constructed in such a way as to leave adequate time for independent study experience (Chem 190) in the senior year.

If a student wishes to deviate significantly from this sample program, particularly in regard to chemistry, physics, and mathematics requirements, it is very important that an alternate program be developed in consultation with a departmental adviser. Any course substitutions or other changes to degree requirements can only be initiated by submitting a written request to the chair of the Chemistry Department.
1st Semester - Fall Units
Chem 1A ............................................. 5
Math 75 ................................................ 4
Engl 1 ................................................... 3
Hist 11 or 12, or Pl Si 2 ......................... 3
2nd Semester - Spring
Chem 1B ............................................. 5
Math 76 ................................................ 4
Phys 5A ................................................ 5
Hist 11 or 12, or Pl Si 2 ......................... 3
17
3rd Semester - Fall
Chem 128A .......................................... 3
Chem 129A .......................................... 2
Math 77 ................................................ 4
Phys 5B ................................................. 5
General Education ................................ 3
17
4th Semester - Spring
Chem 128B .......................................... 3
Chem 129B ........................................... 2
Chem 102............................................. 5
General Education ................................ 6 $\frac{. .}{16}$

5th Semester - Fall

Chem 110A .. 3

*Chem 155 ..... 3
*Chem 123 .....  .3
Chem or other elective ..... 2
General Education .....  4

## 6th Semester - Spring

Chem 110B .....  3
Chem 111 .....  3
**Chem 124 .....  2
General Education .....  7

8th Semester - Spring elective .....  3
Chemistry or other elective .....  3
General Education .....  9

Totall. 124

* Offered fall semester only.
** Offered spring semester only.

## Chemistry Minor

A Minor in Chemistry for a bachelor's degree requires at least 21 units, of which at least 7 are upper division. Specific course requirements are General Chemistry ( 1 A and 1 B or 3 A and 4 ), Organic Chemistry ( 8 and 109), Quantitative Analysis (105), and one or more upper-division chemistry courses, such as $125,150,151,153,154$, 156.

## Physical Science Minor

The Physical Science Minor offers an opportunity for both nonscience and science majors to diversify into important and interesting fields. It consists of 21 units of courses selected according to one of the patterns below:

The upper-division electives may be any upper-division courses for which the student is qualified, from the three departments. Courses with very few prerequisites are Chem 139; Geol 105, 114, 151, 168, 169; Phys 145; P Sci 106, 168.

For chemistry, geology or physics majors, all courses must be outside the major department. The revised program must be approved by the chair of the major department.

## Graduate Program

The Master of Science degree program in Chemistry is designed to provide the first graduate degree for students who expect to continue on to advanced graduate study in chemistry or biochemistry. It can also be used to extend the competence of students who anticipate employment in chemical industries, in government laboratories, or as secondary school or junior college teachers.

## Master of Science Degree Requirrements

The Master of Science degree program in Chemistry assumes undergraduate preparation equivalent to a CSU, Fresno major in chemistry. Each new student is required to take the Diagnostic Placement Examinations in four fields of chemistry (physical, organic, analytical, and inorganic or biochemistry) to provide a basis for program planning. These are taken at the beginning of the first semester of residence.
Twenty-one of the 30 units required for the degree must be in chemistry. An option in agricultural chemistry is available in the School of Agricultural Sciences and Technology. For specific requirements, consult the departmental graduate adviser; for general requirements, see Division of Graduate Studies and Research.
(See also Admission to Graduate Standing, Advancement to Candidacy, Program Requirements, and Criteria for Thesis and Project.)
Under the direction of a graduate adviser, each student prepares and submits a coherent program individually designed according to Plan $\boldsymbol{A}$ or Plan $\boldsymbol{B}$ listed below. Other courses may be specified after examination of the student's record and performance on the departmental diagnostic examinations.

> Plan A - M.S. degree with thesis

Units
Courses in chemistry, including at least 21 units in 200 series (see specific requirements) 21
Approved electives in chemistry or related fields .....  9
Totall ..... 30

Specific requirements: Chem 201 (1 unit); 280 (at least 2 units); 295 ( 2 units); 299 ( 4 units); and 3 units each from 4 of the 5 following groupings: (i) 211 or 215 ; (ii) 220; (iii) 225,226 , or 227 ; (iv) 230 or 235 ; (v) 250T. Chem 260 recommended.
Other courses may be specified after examination of the student's record and his or her performance on the departmental diagnostic examinations.

## Plan B - M.S. degree without thesis

## Units

Courses in chemistry, including at
least 19 units in 200 series (see specific requirements)
Approved courses in chemistry or related fields may include biology, engineering, geology, mathematics, physics, etc.) according to the student's objective
Totall ............................................... 30
Specific requirements: Chem 201 (1 unit); 280 (at least 2 units); 295 (at least 4 units); and 3 units each from 4 of the 5 following groupings: (i) 211 or 215 ; (ii) 220 ; (iii) 225, 226, or 227; (iv) 230 or 235; (v) 250T.
Other courses may be specified after examination of the student's record and his or her performance on the departmental diagnostic examinations.
Instead of a thesis, a student must successfully complete a final comprehensive examination consisting of two parts: a) a general written examination in chemistry; b) an examination dealing with a specific area of chemistry. See department for Policy Statement - Plan B Comprehensive Examination.

## Biotechnology

## Certificate Program

California State University, Fresno offers a Certificate of Advanced Study Program in Biotechnology. This intensive oneyear postbaccalaureate program emphasizes molecular biology and a wide range of laboratory skills at the forefront of modern biotechnology. The biotechnology field is growing rapidly, and as new products and applications are commercialized, there is increased need for highly skilled personnel capable of working in both research and production areas. Enrollment is limited to 12 to 15 students per year, who work closely with faculty in a
variety of lecture and laboratory courses. Among the techniques studied are purification of biological macromolecules, gene splicing, DNA sequencing, culturing of mammalian cells, hybridoma production, and plant cell culturing and cloning.
The Certificate Program can lead to potential careers in expanding fields, such as drug and hormone production in the pharmaceutical industry, monoclonal antibody production for medical diagnostics, crop improvement, industrial bioprocessing and medical research. The program also provides a background for further postgraduate studies in fields such as biochemistry, molecular biology and agricultural biotechnology. Some of the courses may also be used at CSUF as components of master's degree programs in biology, chemistry, plant science, and related departments.
Courses include: Molecular Biology (Biol/ Chem 241A-B), Techniques in Protein Purification (Biol/Chem 242), Nucleic Acid Technology Lab (Biol/Chem 243), Cell Culture/Hybridoma Laboratory (Biol/Chem 244), Micropropagation (Plant Science 102), and Seminar in Molecular Biology/ Biotechnology (Biol/Chem 248).

## COURSES

## Chemistry (Chem)

AR. Elementary Chemistry (2)
For students without high school chemistry or those requiring a slower paced introduction to basic chemistry concepts. Emphasis on beginning concepts of chemistry and problem-solving skills. Dimensional analysis, atoms, atomic structure, bonding, formula writing, equation writing, moles, stoichiometry, chemical calculations, etc. $C R / N C$ grading only; not applicable toward baccalaureate degree requirements.

1. Chemistry: Its Impact on Society (3) Not open to students with credit in college chemistry; for nonscience majors. Prerequisite: high school algebra. The significance of chemical principles in contemporary society; benefits and hazards relative to areas such as energy, health, diet, environment, and agriculture. General Education BREADTH, Division 1. (2 lecture, 3 lab hours)*
1A. General Chemistry (5)
Chem 1A not open to students with credit in Chem 1B. Students with credit in Chem 3A receive only 1 unit of credit. Prerequisite: high school chemistry or physics, two
years of high school algebra or Math 4 R . Fundamental principles of chemistry, including the wave mechanical model of the atom, chemical bonding and structure, valence bond, VSEPR and molecular orbital theory; stoichiometry, thermochemistry, oxidation-reductions, and states of matter. General Education BREADTH, Division 1. (3 lecture, 6 lab hours)* (CAN CHEM 2)

## 1B. General Chemistry

and Qualitative Analysis (5)
Prerequisite: Chem 1A or Chem 4 with a grade of $C$ or better. Acid-base theory; chemical kinetics; equilibrium (acid-base, hydrolysis, and solubility); thermodynamics, electrochemistry; selected topics in nuclear chemistry, coordination chemistry, and/or chemistry of selected groups. General Education BREADTH, Division 1. (3 lecture, 6 lab hours)* (CAN CHEM 4)

## 3A. Introductory

General Chemistry (4)
No credit for Chem 3A after 1A. Prerequisite: Math 4R. For nonscience majors. Composition of matter and physical and chemical changes; fundamental laws and principles; atomic and molecular structure; acid-base theory, redox and equilibria; qualitative and quantitative theory and techniques. General Education BREADTH, Division 1. (3 lecture, 3 lab hours) (Former Chem 2A)
3B. Introductory Organic and Biochemistry (3)
Not open to students with credit in 2A. No credit for Chem 3B to students with credit in 1B. Primarily for students in healthoriented professions; not a substitute for Chem 8. Prerequisite: Chem 3A, Math 4R. Introduction to the basic concepts of organic and biochemistry. Structure and behavior of organic and biological compounds, metabolism, and regulation. General Education BREADTH, Division 1. (2 lecture, 3 lab hours) (Former Chem 2C)
4. Introduction to Chemical Theory (2) One unit of credit after Chem 1A. Not recommended for the health-oriented professions. Prerequisite: Chem 3A or Chem 1A. Chem 3A and Chem 4 are equivalent to Chem 1A. Intermediate development of the concepts of chemistry; fundamental laws and principles of atomic and molecular structure, stoichiometry, ionic equilibria, and energy relationships.
8. Elementary Organic Chemistry (3)

Not open to chemistry majors. Recommended for students requiring a onesemester course in the field. Prerequisite:

Chem 1A or 3A. Lectures, discussions, and demonstrations of fundamental principles; structure and chemical behavior of organic compounds.

## 102. Analytical Chemistry (5)

For chemistry majors; recommended for other science majors. Prerequisite: Chem 1 B (with a grade of $C$ or better), 128A, and Math 76. Students with credit in a similar lower-division quantitative analysis course will receive only one additional unit of credit. Introduction to principles and methods of analytical chemistry. (3 lecture, 6 lab hours)*

## 105. Quantitative

## Analysis Laboratory (4)

Not open to chemistry majors. Prerequisite: Chem 4 (Chem 1B recommended), Chem 8 (or concurrently). Laboratory study of principles and methods of quantitative analysis. (2 lecture, 6 lab hours)*

## 106. Analytical

Measurements Laboratory (4)
Prerequisite: Chem 102 (with a grade of $C$ or better), Chem 110A and Phys 5A, or permission of instructor. Principles and methods of analytical measurements of organic and inorganic substances by instrumental and non-instrumental techniques. (2 lecture, 6 lab hours)*

## 108. Introductory

Physical Chemistry (4)
Prerequisite: Math 76 (Math 77 strongly recommended), Chem 8 or 128A and Physics 2A, 2B (Physics 5A, 5B strongly recommended). Basic treatment of gas laws, thermodynamics, phase equilibria, properties of solutions, kinetics, and spectroscopy. Meets the physical chemistry requirement for the B.A. degree in Chemistry.
109. Elementary Organic

Chemistry Laboratory (3)
Not open to chemistry majors. Prerequisite or concurrently: Chem 8 or 128B. Laboratory study of the carbon compounds with coordinating lectures. (1 lecture, 6 lab hours)*

110A-B. Physical Chemistry (3-3) Prerequisite: Math 77, Chem 1B, 8 or 128A; Phys 5A, 5B (or permission of instructor). Mathematical treatment of the laws of thermodynamics, reaction kinetics, el-

[^19]ementary statistical and quantum mechanics, properties of solutions, kinetic theory of gases, crystal structure, molecular structure, and nuclear chemistry.

## 111. Physical

Chemistry Laboratory (3)
Prerequisite: Chem 110B (or concurrently), Chem 102. May not be taken concurrently with 106. Techniques of physical measurements, error analysis and statistics; ultraviolet, infrared, and nuclear magnetic resonance spectroscopy; dipole moments, viscosity, calorimetry, kinetics, phase diagrams, thermodynamicmeasurements, and report writing. ( 1 lecture, 6 lab hours)*

## 123. Advanced

## Inorganic Chemistry (3)

Prerequisite: Chem 1B, 102 and 110A (or concurrently). Treatment of ionic and covalent bonding, atomic structure, molecular structure, and reaction mechanisms. Introduction to visible and infrared spectroscopy of transition metal complexes, special topics.

## 124. Synthesis

and Characterization (2)
Prerequisite: Chem 123 (or concurrently). Techniques of preparation to include high temperature reactions, vacuum line and glove box preps, nonaqueous syntheses, solid state reactions. Emphasis on structural characterizations using instrumental methods. (6 lab hours)*
125. Laboratory Instrumentation (3) (Same as Phys 125.) Not open to Chemistry majors. Prerequisite: Chem 8 or 128A and Chem 105. Basic electricity/electronics, light and optical systems as they apply to the design, use and limitations of instrumentation typical to the analytical and bioscience laboratory. (1 lecture, 6 lab hours)*
127. Organic Problems (1)

Prerequisite: Chem 8 or 128A; 128B concurrently. Designed to review organic chemistry, in particular for those students who have taken only a brief course in organic chemistry. CR/NC grading only; not applicable to the requirements of a major in chemistry.
128A-B. Organic Chemistry (3-3)
For chemistry majors; recommended for premedical students and other science majors. Chem 128A not open for credit to students with credit in Chem 8. Prerequisite: Chem 1B or Chem 4 with a grade of $C$ or better; for Chem 128B: Chem 128A with a grade of $C$ or better. Introduction to structure and reactivity of principal
classes of organic compounds with emphasis on theory and mechanism.
129A-B. Organic
Chemistry Laboratory (2-2)
Prerequisite or concurrently: Chem 128A (for 129A); 128B (for 129B). Laboratory study of the methods, techniques, syntheses, and instrumentation or representative classes of organic compounds; introduction to research techniques by way of independent projects; introduction to qualitative organic analysis. (6 lab hours)
130. Organic Analysis (3)

Prerequisite: Chem 102, 128B, 129B. Characterization of organic compounds through study of chemical and physical properties; application of spectroscopy, chromatography and functional group analysis to elucidation of structure. (1 lecture, 6 lab hours)*
139. Chemistry and the Consumer (3)

Prerequisite: Chem 3B, 8 , or 128 A . The impact of chemistry on society and individual lives. Topics selected from: foods as chemicals, food additives, drugs and medication, petrochemistry and the source of chemicals, pesticides and agricultural chemicals, chemical ethics, and current topics of interest.

## 140T. Topics in Chemistry

(1-4; max total 6 if no area repeated)
Prerequisite: permission of instructor. Seminar covering special topics in one of the areas of chemistry: analytical, biochemistry, inorganic, organic, physical. Some topics may have a laboratory.
142. Introduction to Biotechnology (3) Prerequisite: Chem 150 or permission of instructor. This course emphasizes the principles and industrial utilization of recombinant DNA, monoclonal antibodies, enzyme and cell immobilization, fermentation technology, and downstream processing.
150. General Biochemistry (3)

Prerequisite: Chem 8. (Chem 150 and 153 together constitute a year sequence.) Chemistry and metabolism of basic cellular constituents including carbohydrates, lipids, proteins, and nucleic acids.

## 151. General

Biochemistry Laboratory (2)
Prerequisite: Chem 8, 105, 109, 150 (or concurrently). Chemical and physical properties of naturally occurring compounds; introduction to techniques of chromatography, polarimetry, electrophoresis, photometry, and enzymology. (6 lab hours)*

## 153. Physiological

Chemistry and Metabolism (2)
Prerequisite: Chem 150 or 155. Continuation of Chem 150 or 155 . Intensive discussion of the degradation and biosynthesis of major cellular constituents; energy metabolism; control of metabolic processes and pathological implications in mammalian systems.

## 154. Clinical

Biochemistry Laboratory (3)
Prerequisite: Phys 125 or Chem 125 (or concurrently), Chem 151, 153 (or concurrently). Clinical laboratory methods of analysis of tissues and body fluids and their diagnostic value; emphasis on instrumental methods. (1 lecture, 6 lab hours)*
155. Fundamentals of Biochemistry (3) Primarily for chemistry majors; recommended for premedical students and graduate students in the sciences. Prerequisite: Chem 102 or 105,109 or $129 \mathrm{~A}, 128 \mathrm{~B}$. (Chem 155 and 153 together constitute a year sequence.) Structure, function, and metabolism of chemical entities in living systems.

## 156. Biochemical

Laboratory Techniques (3)
Prerequisite: Chem 150 or 155 (or concurrently). This course is designed to introduce the student to a range of techniques and methodology appropriate to the study or phenomena at the biochemical, cellular, and organismic levels. (1 lecture, 6 lab hours)*

## 160. Introduction to

## Research Techniques (3)

Prerequisite: permission of instructor. Concepts in the design of experiments. Development of practical research skills through the planning and undertaking of a short laboratory project. (1 lecture, 6 lab hours)

## 180. Seminar in Chemistry (1)

Prerequisite: Chem 102, 129B. Oral presentation of topics based on the chemical literature.

## 190. Independent Study

## (1-3; max see reference)

Prerequisite: Chem 160 or permission of instructor. See Academic Placement - Independent Study. Approved for SP grading.

[^20]
## GRADUATE COURSES

(See Course Numbering System.)

## Chemistry (Chem)

201. Chemistry Laboratory

Teaching Techniques (1)
Laboratory safety, lab lecture techniques, equipment setups, grading, etc. Primarily for teaching assistants in chemistry.
207. Radiotracer Methodology
in the Natural Sciences (3)
(Same as Biol 207 and Phys 207.) See Biol 207 for course description. (2 lecture, 3 lab hours) (Former N Sci 207).
211. Chemical Thermodynamics (3) Prerequisite: Chem 110A, 110B, 111. Principles of thermodynamics; application to chemical problems; introduction to statistical methods, calculation of thermodynamic functions from spectroscopic data.

## 212. Chemical Applications

 of Group Theory (1-2)Prerequisite: Chem 110A, 110B. Introduction to symmetry operations, point groups and their properties. Application of group theory to chemical problems such as; selection rules for electronic, IR, Raman and microwave activity, molecular orbital theory, transition metal complexes, hybridization, and other chemical topics.

## 215. Quantum Chemistry (3)

Prerequisite: graduate standing. Seminar on recent advances in quantum mechanics; chemical bonding, and atomic and molecular spectroscopy.

## 220. Theoretical

Inorganic Chemistry (3)
Prerequisite: Chem 110A, 110B. Seminar on theoretical inorganic chemistry emphasizing structure and bonding of inorganic and coordination compounds, valence bond, molecular orbital and ligand field theories; correlation of structure and reactivity.

## 222. Advances in

Inorganic Chemistry (3)
Prerequisite: Chem 110A, 110B, 128B. Seminar on recent advances in inorganic chemistry. Special emphasis in organometallic chemistry, solid-state chemistry, nonmetallic complexes, and the chemistry of rare-earth compounds. The basic structural and bonding properties of each class of compounds will be reviewed.

## 225. Separation

Methods in Chemistry (1-3)
Prerequisite: Chem 106 and 129B. Seminar on the theory, application, and literature
of various separation methods for organic and inorganic analysis. May include laboratory.
226. Electrochemistry (1-3)

Prerequisite: Chem 106. Seminar on the theory, application, recent developments, and literature of electrochemistry and electrochemical methods of organic and inorganic analysis. May include laboratory.
227. Analytical Spectroscopy (1-3)

Prerequisite: Chem 106, 110A, 110B, or permission of instructor. Theory, instrumentation, and application. Recent developments and literature of spectroscopictechniques. May include laboratory.
230. Advanced Organic Chemistry (3)

Prerequisite: Chem 128B, 129B. Seminar on recent advances in organic chemistry including reaction mechanisms and synthetic applications with references to current literature.
235. Physical Organic Chemistry (3) Prerequisite: Chem 110A, 110B, 128B. Seminar in application of modern theoretical concepts to the chemical and physical properties of organic compounds.

## 240T. Topics in

Advanced Chemistry (1-3)
Seminar covering special topics in one of the areas of chemistry: analytical, biochemistry, inorganic, organic, physical. Some topics may have a laboratory.
241A-B. Molecular Biology I-II (3-3)
(Same as Bio 241A-B.) Prerequisite: Biol 135 , Chem 150 or 155 , and permission of instructor. Biol/Chem 241A is prerequisite for Biol/Chem 241B. Seminar covering current topics in molecular biology. Topics include: protein and nucleic acid structure, DNA replication, transcription, translation, bacterial and animal viruses, prokaryotic and eukaryotic regulation, mechanisms of exchange of genetic material, and recombinant DNA technology.

## 242. Techniques in Protein

Purification and Analysis (3)
(Same as Biol 242.) Corequisite: Biol/ Chem 241A. This course will deal with the technologies relevant to protein isolation, purification, analysis, immobilization, and modification in micro and macro quantities. (1 lecture, 6 lab hours)
243. Nucleic Acid Technology Lab (3) (Same as Biol 243.) Prerequisite: Biol/ Chem 241A and 242. Corequisite: Biol/ Chem 241B. A lecture/laboratory course focusing on the technologies used in nucleic acid chemistry; specifically, synthe-
sis, translation, mutagenesis, and genetic engineering. (1 lecture, 6 lab hours)
244. Cell Culture and Hybridoma (2)
(Same as Biol 244.) Prerequisite: Micro 117 or 185. The theory and practice of in vitro propagation of eukaryotic cells, including growth characteristics, metabolic requirements and genetic analysis. Cloning, fusion and generation of monoclonal antibody (hybridoma) are presented relative to cultured cell biology and application to biotechnology. (1 lecture, 3 lab hours)
248. Seminar in Molecular Biology and Biotechnology (1-2, max 4)
(Same as Biol 248.) Prerequisite: admission into the Biotechnology Certificate Program. Reviews and reports on current literature in various aspects of biotechnology and molecular biology.

## 250T. Topics in

Advanced Biochemistry (1-4)
Prerequisite: Chem 150 or 155. Seminar covering special advanced topics in biochemistry such as the structure and function of enzymes, metabolic regulation, nucleic acid, biochemistry, and analytical biochemistry.
260. Advanced Research Techniques (3) Prerequisite: classified standing, permission of instructor. Advanced concepts in the design of experiments. Development of practical research skills through the planning and undertaking of a short laboratory project. (1 lecture, 6 lab hours)

## 280. Seminar in

Chemistry ( 1 ; max total 3 )
Approved for $\boldsymbol{S P}$ grading.
290. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\$ P$ grading.
295. Research (2)

Prerequisite: permission of instructor. Independent investigations of an advanced character for the graduate student with adequate preparation. Approved for SP grading. (May include conferences, laboratory, library.)
299. Thesis (4)

Prerequisite: See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for SP grading.

Chicano and Latin American Studies (CLS) is an interdisciplinary department that has been successful in presenting a highly informed, active, and challenging view of the Chicano/ Latino experience in the United States and in U.S./Latin American relations. Chicano and Latin American Studies provides an opportunity for a pluralistic exchange of ideas in an interdisciplinary academic setting, where faculty, students, and visiting Chicano and Latin American scholars can share experiences and create a dynamic, intellectual environment.
The Chicano and Latin American Studies Department is designed to meet the following objectives:

1. To promote an awareness of the historical and cultural roots of Chicanos/Latinos in the United States
2. To enhance an understanding of Latin America
3. To cultivate an appreciation of ethnic and national differences among all people
4. To critically analyze the Chicano and the Latin American experience in terms of significant issues, theories, current problems, and solutions
5. To provide students with a set of important professional skills to be utilized as they interact creatively and constructively with Chicano/Latino communities
The department emphasizes an interdisciplinary approach to the study of family life, history, politics, culture, and the arts of Chicano and Latin American communities. The courses reflect an integrated approach in providing students with a greater knowledge and understanding of the essence and diversity of Chicanos and Latin Americans.

## Faculty and Facilities

The Chicano and Latin American Studies Department consists of faculty whose teaching and research expertise cover a broad spectrum, including anthropology, education, history, sociology, political science, and the arts. The department administers a Chicano Research Center that is engaged in research and community development and serves as a training center for students. The offices of the department also serve as a resource center for many of the Chicano/Latino student organizations and as an information center for the community.

## Career Opportunities

Chicanos and other Latinos are the largest ethnic group in California. Demographers estimate that in California 40 percent of the population will be of Mexican or Latino ancestry by the year 2030. This segment of our population will have a major impact on our society, as its presence translates into an increasing economic and political influence. Crucial social, economic, and political decisions will be made that affect this group and the nation at large. The growth of Latino-owned businesses, Spanish language media networks, and political organizations are all indicators of the importance of the Spanishspeaking people in the U.S. economy.
Business corporations and government agencies are looking for individuals who have a basic awareness of the Chicano/ Latino population. Educators, lawyers, civil service employees, and other professionals in various careers will enhance their marketability by having a basic knowledge of this population.

Minor in Chicano/Latino Studies Minor in Latin American Studies

Students of non-Mexican origin find that Chicano and Latin American Studies courses are personally rewarding because they enable them to understand and relate to persons of different social and cultural backgrounds. Chicano and other Latino students find these courses highly conducive to strengthening their sense of identity and pride in their heritage.
For academic advising and assistance, students are encouraged to visit the CLS office located in the Social Science Building, Room 211.

## Minors

The Chicano and Latin American Studies Department offers two minors - one in Chicano/Latino Studies and one in Latin American Studies. Students intending to pursue a minor in either area must see a CLS adviser who will assist students in planning their course of study.

## Credential Program for <br> Liberal Studies Students

CLS requirements for liberal studies students who wish to complete a credential program are listed below:
Bilingual/Cross-Cultural Emphasis in Liberal Studies. Students wishing to prepare to teach in bilingual/cross-cultural education settings should include the following courses in their Liberal Studies Major Program: CLS 3, 5, 116, 143, and 145. These upper-division courses have prerequisites which must be taken: CLS 3 for CLS 145; CLS 5 for CLS 116; CLS 116 for CLS 143.

## COURSES

Chicano and Latin American Studies (CLS)

## 3. Introduction to

Chicano/Latino Studies (3)
Introduction to the historical and contemporary experiences of Chicanos and other Latinos in American society. Their contributions to the United States and their current economic, political, and social status are discussed. General Education BREADTH, Division 9.
5. Chicano Culture (3)

A historical examination of Chicano culture from the pre-Columbian period to the present. The customs, values, beliefsystems, and their symbols are analyzed;
important events and changes occurring through time are emphasized. General Education BREADTH, Division 9.

## 7. Music of Mexico

and the Southwest (3)
A study of Mexico's musical culture starting from its pre-Columbian origins to the present and its impact on contemporary Chicano music. General Education BREADTH, Division 5.
9. Chicano Artistic Expression (3) Introduction to Chicano artistic expression, with special attention to cultural continuity and change; the interrelationships between popular music, dance, drama, literature, and the graphic arts are analyzed. General Education BREADTH, Division 5.
20. Freshman Seminar
for Minority Students (3)
Open to freshmen and transfer students. Designed to further student development in such areas as study skills, writing, oral presentations, and interaction with other students and faculty. Students are assigned a faculty mentor. (Former CLS 180T section)
70. Introduction to Latin American Studies (3)
A basic overview of Latin America; its nations, history, problems, and realities. Theoretical paradigms utilized to analyze Latin American issues are discussed.

## 72. Latin American

Creative Expression (3)
Provides students with an understanding of the cultural history and contributions of Latin American nations. The art and writings of individuals such as Diego Rivera, Pablo Neruda, Gabriel Garcia Marquez, and Isabel Allende are explored.
100. Chicano Literature (3)

An interpretive analysis of written Chicano literature: poetry, drama, short story, novel, and essay. The relationship between literature and a changing Chicano sociocultural environment is explored.

## 101. Chicano Art (3; max total 6)

Chicano Studio Arts, including various media such as oil, ceramics, weaving, sand painting, and murals that relate to the heritage of the Chicano. Special emphasis on individual development of artistic and technical expression.
103. Chicano Folklore (3)

An analysis of Chicano folklore and its relationship to earlier Indo-Hispanic antecedents. Emphasis is placed on the folk
arts: verbal, material, and musical as well as folk beliefs and practices, as these have been modified by intercultural contact. General Education CAPSTONE Cluster, Critical Thinking.
106. Folkloric Dance
(3; repeatable up to 12 units)
History and performance of Mexican folk music and dance; Indian, African, Spanish, and European influences; contemporary relationships to Chicano culture. (Former CLS 106A-B)
107. Latino Dance (2; max total 4)

Examination of origins, composition, and performance of various types of Chicano/ Latino music and dance: boleros, huapangos, cumbias, chachas, salsa; emphasis on contemporary and cross-cultural influences in Chicano/Latino music-anddance. $C R / N C$ grading only.

## 108. Chicano Theatre

(1-3; repeatable up to 12 units)
Production of Chicano Theatre for major performances. Comedia del Arte, Passion Plays, Theatre of the Absurd, Socially Popular Theatre: Teatro Compesino.

## 112. Pre-Hispanic Civilizations (3)

Historical examination of the origins of the Maya-Aztec civilizations in Meso America until 1521. The values, social organization, religion and their daily lives, technological and scientific achievements will be examined.

## 114. Mexico and the

Southwest 1810-1910 (3)
Nineteenth century origins of Mexican nationality from the period of Mexico's independence from Spain to the Mexican Revolution of 1910. The experiences of La Raza in the United States after the Treaty of Guadalupe Hidalgo. General Education CAPSTONE Cluster.

## 115. Mexico-U.S.

Relations Since 1910 (3)
Historical perspective of the changing relationship between Mexico and the United States during the 20th century. Analysis of the Mexican Revolution, the Great Depression, WWII, immigration, and their impact on Mexico-U.S. relations. Special emphasis on status of Mexicanos/ Chicanos in the United States. General Education CAPSTONE Cluster.
116. Cultural Change
and the Chicano (3)
Prerequisite: CLS 5; for Bilingual/CrossCultural Emphasis students only. An analysis of the continuities and the changes in the culture and daily life of
the urban and rural Chicano in the 20th century created by immigration, acculturation, urbanization, and technological and scientific changes. General Education CAPSTONE Cluster.

## 123. Business Development

in Minority Communities (3)
Business and economic development in minority communities and their relationship to the wider economic and social systems.
126. Chicanos in the U.S. Economy (3) Historical analysis of the Mexicano's relationship to American economy. The transformation of the Chicano/Mexicano from rural, agricultural laborer to urban, industrial worker; special emphasis on immigration, the development of dual labor markets, and their effects on Chicanos.
128. Contemporary Political Issues (3) Political philosophies, goals, and strategies of Chicanos and Latinos as reflected in their attempts to gain political power.

## 141. The Chicano and

the Educational System (3)
Exploration of the sociohistorical development of public education in the southwest, with special emphasis on the Chicano experience. Topics include segregation/ desegregation, institutional racism, and equality of opportunity.

## 142. Chicano Research: <br> Issues and Analysis (3)

An interdisciplinary approach to research techniques with special emphasis upon issues, problems, and research designs appropriate to the study of Chicano communities. Field application of research
plans, techniques including methods of observation, gathering, and analyzing data.
143. Bilingual/Bicultural Education (3) Prerequisite: CLS 116; for Bilingual/Cross Cultural Emphasis students only. Investigation into what it means to be bilingual and bicultural; review of programs scaled toward a more meaningful education for the Chicano child. (Bilingual Education majors see department chair for further prerequisites.)
145. Fieldwork in Community Settings (3; max total 6)
Prerequisite: CLS 3; for Bilingual/Cross Cultural Emphasis students only. Supervised placement in community and educational settings. Provides a variety of learning experiences in community agencies, organizations, or educational institutions. (Bilingual Education majors, see department chair.)
152. The Chicano Family (3)
(Same as W S 152.) Traditional and changing relationships in the family structure of the Chicano; interaction with wider institutional social system. General Education CAPSTONE Cluster.
154. The Chicano Child (3)

General psychological principles and theories of growth and development and their applicability to the Chicano child.
156. The Chicano Adolescent (3)

The adjustment of Chicano adolescents to American society and its impact on self, peer group relations, and family life; with emphasis on sources of conflict and tension.
158. Health and Social Services in the Chicano Community (3)
An analysis of health and social service programs, their policies and effects on the Chicano community. Explores alternatives to dependent social services programs.
160. Sex, Race, and Class
in American Society (3)
Focuses on ethnic identity and gender and their interrelationship with socioeconomic class structure in American society. Sexism, racism, and class inequities, particularly as they impact Chicanos and other minorities, are analyzed. General Education BREADTH, Division 9. (Former CLS 1)
180T. Topics of Chicano Society (1-3; repeatable with different topics)
Culture, art forms, economy, and societal organization. Certain CLS 180T classes are $\boldsymbol{C R} / \mathrm{NC}$ grading only. See department for further information.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## 195. Race, Class, and Gender (3)

(Same as AsAm 195, Eth S 195, W S 195.)
This interdisciplinary course introduces students to theoretical perspectives concerning the historical development of class, race, and gender within the United States and the impact of these issues on contemporary U.S. society. Participation in a special class project is required.

"I think the interaction between the minority and majority students is crucial to the success of Chicano and Latin American classes. I try to teach them that you have to respect differences and not allow them to become a source of division."

Lea Ybarra
Professor, Chicano and Latin American Studies

## Classical Studies Interdisciplinary Minor

School of Arts and Humanities
Department of Foreign Languages and Literatures
PAMELA L. VAUGHN, Coordinator San Ramon 4, Room 131
(209) 278-2386

Minor in Classical Studies
lthough the university does not offer a bachelor's degree program in classical studies, the School of Arts and Humanities has coordinated a variety of courses in several disciplines that allow comprehensive study of the Greek and Roman world. For students interested in classical studies, two alternatives are available.

First, a student may petition for a special major based on the program approved by the campuswide Committee on Classical Studies, available from the coordinator of classical studies. Students are strongly urged to read carefully the policy for the special major for the Bachelor of Arts degree. (See Degree Requirements - Special Major for the Bachelor of Arts Degree.) Second, the university offers a classical studies minor with three areas of interest.

## Classical Studies Minor

The Classical Studies Minor is designed for students interested in classical civilization and for those who wish to have a chance to teach classical languages and culture or who wish to enter a graduate school where such a minor would give a sound foundation for further work in any of the areas mentioned above.

The minor allows for three areas of interest: Latin, Greek, and Classics (Greek and Latin).
Latim ..... Units
History 112 or IntD 110 ..... 3
Latin 1A, 1B ..... 6
Latin 131T (2) ..... 6
Electives ..... 9
Totall ..... 24
Greek ..... Units
History 111 or IntD 108 ..... 3
Greek 1A, 1B ..... 6
Greek 131T (2) .....  .6
Electives ..... 9
Totall ..... 24

## Cloussics

History 111 or IntD 108,

History 112 or IntD 110 .. 6

Latin 1A, 1B 6
Greek 1A, 1B .....  .6
Latin 131T or Greek 131T ..... 3
Electives .....  3
Totall ..... 24

## Course Electives

The following list includes the courses most directly concerned. For further information, consult the classical studies coordinator, Dr. Pamela L. Vaughn, San Ramon 4, Room 143.
Art History 10 The Ancient and Primitive World (3)
109 T Topics in Art History (1-3; max 3 per area)

Drama 185 History of the Theatre and Drama (3)
Humanities:
IntD 108 Humanities in Classical Athens (3)
IntD 110 Humanities in Republican and Imperial Rome (3)
English 112 World Literature: Ancient (4)
169 T Forms of Literature: Mythology (4)
191T Supervised Independent Readings (1-4): Ancient Literature
Foreign Language:
Greek 1A, 1B Elementary Greek $(3,3)$
10 Fifth Century Athens (3)
131T Greek Literature (3; max total 12 if no topic repeated)

148 Masterpieces of Classical Greek Literature (3)
190 Independent Study (1-3)
Latin $\quad 1 \mathrm{~A}, 1 \mathrm{~B}$ Elementary Latin $(3,3)$
31 Latin and Greek for English Vocabulary (3)
131T Latin Literature (3; repeatable with different topic)
132 Classical Mythology (3)

148 Masterpieces of Latin Literature (3)
190 Independent Study (1-3)
History 1 Western Civilization I (3)

103A History of Early Christianity (3)
110 Ancient Near East (3)
111 Ancient Greece (3)
112 Ancient Rome (3)
116 Greek and Roman Religion (3)
119T Studies in Ancient History (1-3; max total 6 if no topic repeated)
190 Independent Study (1-3)
Philosophy 101 Ancient Philosophy (3)
108 Roman Philosophy (3)
Physical 106 History and
Science
Philosophy of Physical Science (3)
Physical Education

Political
Science

111 The Olympic Games (3)

110 Seminar in History of Political Thought to Macchiavelli (3)

# Communicative Disorders 

Audiology, education of the deaf, and speech-language pathology are concerned with the development, problems, and disorders found with people's speech, hearing, and language. These professions are devoted to providing diagnostic, rehabilitative, and educational services to children and adults with communicative problems.

## Bachelor of Arts

The Bachelor of Arts degree in Communicative Disorders provides the student with a liberal arts foundation integrated with courses designed to provide a basic understanding of speech, language, and hearing development and communicative problems. This degree also leads to graduate specialization in audiology, education of the deaf or speech-language pathology.

## Master of Arts

Education beyond the bachelor's degree is necessary for completion of the academic, credential, and licensure requirements leading to professional employment. Three professional option areas are available to the student:
Audiology. Our audiology program provides you with a balanced program of study including basic speech and hearing science, diagnostic testing procedures, aural rehabilitation, and the clinical treatment of hard-of-hearing individuals. The program is nationally accredited by the Educational Standards Board (ESB) of the American Speech-Language-Hearing Association.
Education of the Deaf. Our education of the deaf program gives you a broad background in speech, language, auditory training, sign language, and psychology of the deaf. We present a "total communication" approach that includes all of the essential elements of a good education for the deaf child. The program is nationally accredited by the Council on Education of the Deaf (CED).
Speech-Language Pathology. Our speech and language pathology program provides you with a broad professional background in normal speech and language development, language disorders, voice disorders, articulation disorders, and fluency disorders. The program is nationally accredited by the Educational Standards Board (ESB) of the American Speech-Language-Hearing Association.

The undergraduate curriculum plus a master's degree in communicative disorders prepares you for one or more of the following: state licensure as a speechlanguage pathologist or audiologist, national certification in speech-language pathology or audiology by the American Speech-Language-Hearing Association, provisional certification in education of the deaf by the Council on Education of the Deaf, public school special education specialist or clinical rehabilitation credentials, and/or school multiple subjects credentials.

## Communicative Disorders Minor

A Minor in Communicative Disorders is also available for students in various education and health professions (nursing, health science, physical therapy, counseling, elementary and secondary education, special education, child development, linguistics, criminology, etc.) who are interested in expanding their understanding of children and adults with communicative disorders.

## Facilities

As a student at CSU, Fresno you are given the opportunity to work in a wellequipped speech and hearing clinic. You can also gain practical experience in a variety of school, private practice, and hospital situations. Library facilities contain specialized collections including student access to local medical libraries. In the Anna Michelson Memorial

School of Health and Social Work
Department of Communicative Disorders
KENNETH G. SHIPLEY, Chair
Laboratory School, Room 125
(209) 278-2423
(209) 278-2856 TDD
B.A. in Communicative Disorders M.A. in Communicative Disorders Minor in Communicative Disorders

Instructional Media Center, students have access to a wide range of therapy production materials such as films, video, clinical equipment, and professional journals.
Language, Speech, and Hearing Clinic. The Department of Communicative Disorders operates an ongoing clinic that provides diagnostic, therapeutic, and counseling services to clients of all ages with a variety of different communication problems or disorders.
The clinic provides supervised clinical practice for students who are preparing to be professional speech-language pathologists, audiologists, and educators of the deaf. Functioning as a valuable community resource, the clinic serves thousands of clients each year from the Fresno metropolitan area. The clinic is accredited by the Professional Services Board (PSB) of the American Speech-Language-Hearing Association.

## Career Opportunities

The Department of Communicative Disorders prepares you to work in various diagnostic and rehabilitation settings in preschool programs, elementary and secondary schools, colleges, hospitals, rehabilitation centers, private or community clinics, or private practice. Employment opportunities have been and are expected to remain very good.

## Faculty

Kenneth G. Shipley, Chair
$\begin{array}{ll}\text { Bette J. Baldis } & \text { Paul W. Ogden } \\ \text { M. N. Hegde } & \text { Ron M. Parker }\end{array}$
Karen M. Jensen Susan J. Shanks
Ben R. Kelly Steven D. Wadsworth

be courses used to satisfy
credential requirements or a
minor in another field
Total 124

## Advising Notes

1. Contact the communicative disorders department chair or faculty advisers for a list of approved elective courses.
2. $C R / N C$ grading is not permitted for majors in the communicative disorders department.
3. General Education and elective units may be used toward a dual major or minor (see Dual Major or departmental minor). Consult the appropriate department chair, program coordinator, or faculty adviser for further information.

## Communicative Disorders Minor

A Minor in Communicative Disorders is designed to provide students in psychology, education, and the health professions with an appreciation and understanding of the problems and procedures related to people who suffer from speech, language, and hearing disorders.

> Units
> CD $80,90,95,102,114,128,131,133 \ldots 22$

## Graduate Progrram

The master's degree is considered essential for the professional training needed for effective clinical practice in audiology, education of the deaf, or speech-language pathology. The degree also provides the first graduate degree for students who may pursue advanced training toward a doctoral degree. The master's degree generally involves about two years of full-time study.
Admission Requirements. Admission as a classified graduate student in communicative disorders requires:

- A baccalaureate degree
- An undergraduate major (or its equivalent) in communicative disorders
- A 3.0 grade point average for the last 60 units of coursework taken
- Graduate Record Examination (GRE), completing the Verbal and Quantitative Sections
- Three letters of recommendation

Students with a bachelor's degree in a field other than communicative disorders need to complete the undergraduate requirements of the major before beginning their graduate study. These students are eligible for unclassified graduate status at the university while completing their prerequisite coursework.

Applicants who have specific deficiencies or need coursework may be accepted with conditionally classified status. Students must apply to the department for fully classified graduate standing as soon as any conditions of acceptance have been met. No more than 10 units of graduate work taken under conditional classification can be used to meet the requirements of the master's degree.
Admission Procedures. Applications for the graduate program in communicative disorders are accepted until November 1 for the spring semester and March 1 for the fall semester. Applications received after
these dates are considered the following semester. Application is a two-step process that involves submitting the following:

## 1. To the University

- An Application of Admission and the Supplemental Application for Graduate Admission (forms $\boldsymbol{A}$ and $\boldsymbol{B}$ in the CSU application booklet)
- Official transcripts from all universities and colleges other than CSU, Fresno
- Official GRE scores

## 2. To the Department

- Departmental application
- Official transcripts from all universities attended. (CSU, Fresno students may supply the unofficial transcripts issued by Admissions and Records.)
- Official GRE scores. (Educational Testing Services lists the departments of Audiology and Speech Pathology. Your scores are forwarded to us automatically if you indicate either of these options.)
- Three letters of recommendation. These letters should be written by instructors or other persons familiar with communicative disorders.
The departmental application and letter of recommendation forms are available from the department. Please be aware that students cannot be accepted into the graduate program until all materials are received by the university and the department. Students are encouraged to take their GRE early during their senior year to avoid delays in acceptance for graduate work.
Advancement to Candidacy. Each student in a master's degree program must file for advancement to candidacy. See Admissions and Master's Degree Programs, Division of Graduate Studies and Research.
Graduate-Level Writing Competence. CSU, Fresno requires that students have graduate-level writing abilities before being advanced to candidacy for the master's degree. Students can demonstrate these abilities by taking C D 200 and obtaining written clearance from the instructor. Written clearance can be obtained from the department for students who have demonstrated graduate-level writing abilities in coursework equivalent to C D 200.
Program of Study
Audiology Units
Common core courses: C D 200,
202, 2319
235, 240 ..... 15
Thesis or project; or non-thesis alternative .....  6
Total ..... 30
Education of the Deaf
Common core courses: C D 200, 202, 231 ..... 9
Specialization: CD 232, 262, 263, 264 ..... 12
Approved electives .....  3
Thesis or project; or non-thesis
alternative .....  .6
Totall ..... 30
Speech-Language Pathology
Common core courses: C D 200,202, 231 9
Specialization: C D 204, 206, 207, 210, 214 ..... 15
Thesis or project; or non-thesis alternative .....  .6
Totall ..... 30

Other coursework is developed with the adviser to reflect such factors as students' desires regarding thesis or project, individual needs and desires for training, meeting certain state or national requirements, etc.
Thesis, Project, and Non-Thesis or Project Alternatives. The department offers students an opportunity to write a thesis or project. (See Criteria for Thesis and Project.) Six units of credit are earned for a thesis or project. These units may be applied toward the unit requirements of the degree. An adviser's permission is required before enrolling in a thesis or project. Selecting a thesis or project option is highly recommended for students who may at some point consider working toward a doctoral degree.
Clinical Training. All students are involved in supervised clinical practicum experience during their graduate training. At least 400 clinical hours are required prior to receiving the M.A. degree. A minimum of 150 of these hours must be at the graduate level. These hours are gained at the CSU, Fresno clinic and in at least one other setting (internship, student teaching, residency program, etc.).

Culminating Experience. A culminating experience is required of all CSU, Fresno master's degrees. Students in communicative disorders are involved with written examinations and an oral culminating experience.
Students choosing a non-thesis or project alternative take a written examination on six areas of the field, then take an oral examination on their written examination and subject matter within the field. For thesis and project students, their thesis or project is considered as the written examination. These students are orally examined on the subject matter of their work and within the field. Additional information about these options is available from an adviser.
Certificate of Clinical Competence in Speech-Language Pathology and Audiology. Completion of the master's degree fulfills all the academic and clinical practicum requirements for the Certificate of Clinical Competence (CCC) in Speech Pathology or Audiology. A Clinical Fellowship Year (CFY) of paid, professional supervised experience is required along with passing the National Examination in Speech Pathology or Audiology (NESPA) before the certificate is granted by the American Speech-Language-Hearing Association. A Certificate of Clinical Competence is required for employment in nearly all work settings except the public schools. All students are encouraged to acquire national certification regardless of the work setting they may choose.
California License as a Speech Pathologist or Audiologist. The master's degree fulfills all academic and clinical practicum requirements for the State License. A year of Required Professional Experience (RPE) is necessary along with passing the NESPA before the license is issued by the Board of Medical Quality Assurance. The license is required for employment in almost all settings except the public schools.
The CFY and RPE can be completed concurrently when graduates accept their first professional position.
Certification by Council on Education of the Deaf. For students specializing in education of the deaf, completion of the master's degree fulfills all the academic and clinical practicum requirements for Provisional Certification by the Council on Education of the Deaf, the national organization responsible for certifying teachers of the deaf. Professional level certification is available following three
years of successful teaching under the supervision of a professionally certified educator of hearing impaired children. All students are encouraged to acquire national certification.

## Credentials

There are two major school credentials available through the Department of Communicative Disorders; one of which has two option areas and the other has three option areas. By completing one (or more) of the credential options, students are eligible to receive the credential(s) they desire upon completion of all coursework for the master's degree. Information regarding these credentials and options is available from departmental credential advisers and the School of Education and Human Development.

## Special Educution Speciollist: Commumaicotion Homndicapped Credentiols Deaf and Severely Hard of Hearing Option Units

Note: Students must provide their own transportation in those courses requiring off-campus clinical instruction or observation and defray any resulting personal expense. Students involved with clinical practice must carry professional liability insurance and meet departmental health requirements.

## Communicative Disorders (C D)

80. Introduction to Human

Communication and Disorders (3)
The bases of normal communication; assessment and remediation of speech, language, and hearing disorders; interrelationships among the fields of audiology, education of the deaf, and speech-language pathology
90. Phonetics of American English (3) Perceptual and physiological characteristics of American English speech sounds; application of phonetics to the study of normal and abnormal speech patterns and regional dialects. (2 lecture, 2 lab hours)
95. Introduction to

Verbal Development (3)
Study of normal verbal development; compilation of developmental milestones in speech and language acquisition.
102. Speech Science I:

Anatomy and Physiology (3)
Physical, physiological, and neurological bases of the speech and hearing mechanisms.
103. Speech Science II: Acoustics and Perception of Sound (3)
Anatomy and physiology of the ear; acoustics of speech and hearing, and perception of sound. (2 lecture, 2 lab hours)
105. Disorders of Articulation (3)

Prerequisite: C D 80, 90, 95, 102. Seminar in the process of articulation; assessment, prognostic and therapeutic procedures related to articulation disorders. (2 lecture, 2 lab hours)
106. Written Language

Skills for Teaching the
Communicatively Handicapped (3)
Prerequisite: Engl 1. Analysis of the structural written language of normally developing children for comparison with language handicapped children. (Former C D 106W)
107. Observation in Communicative

Disorders: Speech-Language
Pathology (1-3; max total 3)
Observation of diagnostic evaluations, parent counseling and clinical services in the Language, Hearing, and Speech Clinic, in the public/private schools, and related clinical settings.
109. Disorders of Language (3)

Prerequisite: C D 80, 90, 95, 102. Seminar in the description and analysis of language disorders in children; assessment, prognostic, and therapeutic procedures related to language disorders in both children and adults. (2 lecture, 2 lab hours)
110. Diagnostic Procedures (3)

Prerequisite: C D 80, 90, 95, 102, 103, 105
must be taken concurrently with C D 107 (1 unit). Seminar in the selection and use of various speech, language, voice, and prosody tests and procedures used in the diagnostic process. (2 lecture, 2 lab hours)
112. Voice Disorders (3)

Prerequisite: C D 80, 90, 95, 102. Seminar in normal and deviant vocal productions; assessment, prognostic, and therapeutic procedures related to voice disorders. (2 lecture, 2 lab hours)
113. Introduction to Birth Defects (3) Etiology, physical characteristics, diagnosis, treatment, and prognosis of genetic and nongenetic syndromes. Implications of various diagnoses for the health professional. Discussion of newborn and carrier screening, prenatal diagnosis, local services, genetic counseling, and ethical considerations.
114. Education of Exceptional Children (3)
Identification of common and differentiating characteristics of exceptional children. Diagnostic and instructional programs, legal provisions, and certification requirements. Observation in clinical sites on and off campus, public and/or parochial schools. (2 lecture, 2 lab hours)
115. Disorders of Fluency (3)

Prerequisite: C D 80, 90, 95, 102. Seminar in the description and analysis of disorders of fluency.

## 116. Prescriptive and

Individualized Instruction (3)
Prerequisite: C D 80, 90, 95. Development and examination of methods and materials relative to individual learning problems; study of models and individual programs. (2 seminar, 2 lab hours)
128. Observation in Communicative Disorders: Audiology (1-3; max total 6) Observation of audiologic testing; practice in audiological testing; practice in interpreting test results.
130. Clinical Practice in Speech and Hearing Therapy (1-3; max total 12) Prerequisite: C D 80, 90, 95, 102, 103, 105, 107, 110. Supervised clinical practice in speech and hearing therapy; diagnosis of speech deficiencies, referral procedures, parent counseling, case records. Clinical sites on campus, satellite centers, public and/or private schools. (Lab fee, \$10)
131. Principles of Audiology (3)

Prerequisite: concurrent enrollment in CD 128. Definition of hearing loss and the medical aspects of hearing loss; an introduction to hearing conservation; testing procedures utilized in detection and evaluation of hearing loss; basic interpretation of diagnostic test results.
133. American Sign Language (3)

Introduction to a language developed in a visual/gestural mode and used by the general deaf population. Emphasis on principles of American Sign Language, especially grammatical structure and basic lexicon. Basic conversational skills for communicating with deaf children and adults. (Former C D 138)

## 135. Sign Language

## for Classroom Use (3)

Prerequisite: C D 133. Development of signing skills necessary to teach and communicate with the deaf in a classroom or other professional settings. (Former C D 136)

## 139. Deaf Culture (3)

Experiences faced by deaf people, and their varying degrees of participation in deaf culture/deaf community; social, emotional, vocational, intellectual, and linguistic aspects of deaf culture; historical and current struggles to overcome problems experienced by deaf people. (Former C D 108; C D 137)

## 141. Education of Deaf

Children and Their Parents (3)
Study of deaf children in general, parent education, and various educational programs and services for deaf children and their parents. Emphasis on methods of instruction, education of deaf children, and families. (Former C D 108; C D 137)

## 150. Clinical Practice in

 Audiology (1-3; max total 12)Prerequisite: C D 80, 90, 95, 102, 103, 128, 131. Supervised clinical practice in the diagnosis and treatment of hearing problems, parent counseling, therapeutic planning, etc. (Lab fee, \$10)
160. Clinical Practice in Education of the Deaf (2; max total 6)
Prerequisite: CD 135, 162, 163, 164. Supervised clinical participation and practice in clinical/classroom teaching of persons who are deaf and severely hard of hearing; parent counseling. Therapy planning and implementation; clinical sites on campus and public and/or private schools. (Lab fee, \$10)
162. Speech for the Deaf (3)

Prerequisite: C D 80, 90, 95, 106. Seminar in techniques employed in the development of speech with deaf children. Yale charts and diacritical marking systems. Devices for developing all English sounds. Includes observation, demonstration, and practice with deaf children.
163. Language for the Deaf (3)

Prerequisite: C D 80, 95, 106. Seminar in techniques employed in the development of language with deaf children; construction of English sentences and grammar; methods of correcting language mistakes of the deaf child; comparative studies of various language curricula.
164. Elementary School

Subjects for the Deaf (3)
Prerequisite: C D 80, 95, 106, and permission of instructor. Seminar in detailed study of the process of teaching reading to deaf children. Investigation of classroom procedure and presentation of content areas (math, science, social studies); integration with visual instructional materials. Includes observation and demonstration. (2 lecture, 2 lab hours)
164A. Student Teaching: Speech and Hearing Handicapped (4-9; max total 9) Prerequisite: 4-6 units of C D 130 or 230, including 150 hours of therapy; admission to the credential program. To be taken concurrently with CD 209. Directed observation, participation, and clinical practice ( 120 hours minimum) under supervision. Weekly conference with university supervisor. (Lab fee, \$10)
164B. Student Teaching: Deaf and Hard of Hearing (4-9; max total 9) Prerequisite: 4 units of C D 160 or 260; approval by a departmental review committee; admission to the credential
program. Teaching under supervision in a class for the deaf or hard of hearing. Directed observation, participation, and weekly conference with university supervisor. (Lab fee, \$10)

164C. Student Teaching:
Audiology (4-9; max total 9)
Prerequisite: permission of instructor and admission to the Credential Program. Directed observation, participation, and supervised clinical practice ( 100 hours minimum) in the school setting. Conferences with university supervisor as arranged. (Lab fee, \$10)

## 188T. Topics in Communicative

Disorders (1-3; max total 6)
Speech pathology, audiology, education of the deaf, speech and hearing science, language disorders.
190. Independent Study
(1-3; max total 6)
See Academic Placement - Independent Study. Approved for SP grading.

## GRADUATE COURSES

(See Course Numbering System.)
Communicative Disorders (C D)
200. Graduate Studies and Research in Communicative Disorders (3)
An introduction to graduate studies and methods of research in communicative disorders. A review of the concepts and methods of science and clinical research designs; and professional and scientific writing skills.
202. Aural Rehabilitation (3)

Prerequisite: C D 128, 131, 133. A review of current habilitative/rehabilitative procedures employed in assisting the hearing impaired, including amplification, communication rehabilitation (speechreading, auditory training, speech and language), and psychosocial issues. (2 lecture, 2 lab hours)

## 204. Seminar in Stuttering (3)

Prerequisite: permission of instructor. Indepth study of specific characteristics, causes, and therapeutic approaches to remediating stuttering.

## 206. Seminar in

Phonological Disorders (3)
Prerequisite: C D 90, 95, 105, 107, 110. Seminar in the phonological and articulatory processes and disorders in both the first and second language production; review of assessment and treatment procedures and research trends.

207. Aphasia in Adults (3)

Prerequisite: permission of instructor. Seminar in the history of aphasia; neurological concepts needed for understanding this disorder; application of linguistic theory to testing and therapy; formulation of programs for aphasics.

## 209. Speech-Hearing in

Public School Environment (1)
Prerequisite: concurrent enrollment in C D 164A. Seminar in selection, application, and interpretation of diagnostic tests for public school children; demonstration and application of therapy for children with a variety of language, hearing, or speech disorders; organization and administration of school speech and hearing program.

## 210. Seminar in

Structural Speech Disorders (3)
Prerequisite: permission of instructor. Theories, etiologies, and habilitative processes. Emphasis given to orofacial growth and cleft palate.

## 212. Management of

Severe Language Disorders (3)
Prerequisite: C D 109 and permission of instructor. Seminar in assessment and remediative approaches to severe language delayed and disordered children. Causation, assessment and remedial approaches for semantic, syntactic, and morphologic disorders.

## 213. Seminar in

Neurological Speech Disorders (3)
Prerequisite: C D 102. Symptomatology, etiology, habilitative, and rehabilitative processes related to neurological speech disorders of children and adults.

## 214. Seminar in Language

Disorders of Children (3)
Prerequisite: C D 95, 109. Etiology, symptomatology, assessment, and habilitation of language disorders in children. Practical experience includes diagnosis and management of a child's language disorder. Clinic sites on campus and in public and/ or private schools.

## 230. Advanced Clinical

 Practice in Speech and Hearing Therapy (1-3; max total 12)Prerequisite: C D 80, 90, 95, 102, 103, 105, 107, 110. Supervised clinical practice in diagnosis/treatment of complex speech and hearing problems; causative factors; outlining therapy; parent counseling; referrals. Clinic sites on campus, in satellite centers and public and/or private schools. (Lab fee, \$10)

## 231. Audiology II (3)

Prerequisite: permission of instructor. Advanced differential diagnosis procedures; special problems in audiology related to nonorganic hearing loss, central auditory loss, the "dizzy" patient, and the difficult to test patient. (2 lecture, 2 lab hours)

## 232. Seminar in <br> Pediatric Audiology (3)

Prerequisite: C D 231 and permission of instructor. An in-depth study of auditory disorders in children, their clinical manifestations, and audiologic management. Normal and abnormal development, identification and evaluation procedures, differential diagnosis and management procedures are included.

## 233. Seminar in

Analysis of Hearing Aids (3)
Prerequisite: C D 131, 231 (or concurrent) and permission of instructor. An in-depth study of various amplification devices in the rehabilitation of the hearing impaired. Electroacoustic analysis, psychoacoustic measurements, various coupling devices and methods of selection, fitting, dispensing, and follow-up are included.

## 234. Seminar in

Industrial Audiology (3)
Prerequisite: permission of instructor. Principles of industrial hearing conservation and the design of a comprehensive plan for a specific industry. (2 lecture, 2 lab hours)
235. Seminar: Instrumentation
in Communicative Disorders (3)
An in-depth study of information relating to basic electroacoustic principles, test calibration equipment and procedures, signal generation, recording, storage and analysis, as well as information relating to specific instrumentation for clinical and research uses related specifically to communicative disorders. (2 lecture, 2 lab hours)

## 240. Advanced

Seminar in Audiology (3)
Prerequisite: permission of instructor. An in-depth study of selected professional topics and issues, including advanced auditory brainstem response testing, electronystagmography, professional practice, and counseling with the hearing impaired.
250. Advanced Clinical Practice, Audiology (1-3; max total 12)
Prerequisite: C D 80, 90, 95, 102, 103, 128, 131. Supervised clinical practice in diag-
nosis and treatment of complex hearing problems; causative factors, counseling parents, therapy planning, etc. (Lab fee, \$10)
260. Advanced Clinical Practice, Education of the Deaf (2; max total 6) Prerequisite: C D 135, 162, 163, 164, 202. Supervised clinical participation and practice in clinical/classroom teaching of persons who are deaf and severely hard of hearing; parent counseling. Therapy planning and implementation. Clinical sites on campus and in public and/or private schools. (Lab fee, \$10)
262. Seminar in Speech for the Deaf (3) Prerequisite: C D 162, 202, permission of instructor; and successful completion of the NTE (General Knowledge - Core Battery) or a Single or Multiple Subject Credential. Development of oral communication for deaf children. Detailed study of essentials of good speech and methods to build or correct speech of the deaf. Projects in library research or experimentation. Includes demonstration and off-campus practicum. (2 lecture, 2 lab hours)
263. Seminar in

Language for the Deaf (3)
Prerequisite: C D 163, permission of instructor; and successful completion of the NTE (General Knowledge - Core Battery) or a Single or Multiple Subject Credential. Investigation of language errors of the deaf. Techniques with deaf students. Specialized equipment and production of materials used in the classroom for the deaf. (2 lecture, 2 lab hours)
264. Seminar in Elementary

School Subjects for the Deaf (3)
Prerequisite: C D 164 and successful completion of the NTE (General Knowledge - Core Battery) or a Single or Multiple Subject Credential. Special problems and techniques of adjusting the elementary school curriculum to the needs of deaf children; innovations and research in curriculum development. Project required. Includes demonstration and practice.
267. Internship in SpeechLanguage Pathology (1-6; max 12)
Prerequisite: 2-6 units of C D 130 or 230 and permission of instructor. Supervised internship in speech-language pathology. Diagnosis and management of speech and language conditions. CR/NC grading only. (Lab fee, \$10)
268. Internship with the Deaf (6)

Prerequisite: CD $135,164 \mathrm{~B}, 262,263,264$, and successful completion of the NTE (General Knowledge - Core Battery) or a Single or Multiple Subject Credential. Supervised internship in a residential school for the deaf. Full time in residence for 8 weeks. $C R /$ NC grading only. (Lab fee, $\$ 10$ )
269. Internship in Audiology (1-6)

Prerequisite: C D 202, 231, 232, 233 and permission of instructor. Supervised internship involving the diagnosis and management of various audiologic conditions. $C R / N C$ grading only. (Lab fee, $\$ 10$ )

## 270. Seminar in Organization

and Management of Speech,
Language, and Hearing Clinics (1-3)
Prerequisite: permission of instructor. Elements of leadership in communicative disorders program. Establishing, organizing, and maintaining speech, language, and hearing clinics in colleges and universities, public schools, hospitals, and private organizational settings.

## 290. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
298. Individual or Group Research Project (1-6; max total 6)
Prerequisite: consent of advisory committee. See Criteria for Thesis and Project. Utilization of communication research principles and techniques to select study design, determine data collection techniques, collect and process data, interpret findings, and prepare final written report. Same standards as for thesis. Approved for SP grading.

## 299. Thesis (2-6; max total 6)

Prerequisite: See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis or project for the master's degree. Approved for SP grading.

## IN-SERVICE COURSE

(See Course Numbering System.)
Communicative Disorders (CD)
300T. Selected Topics in
Communicative Disorders for
Continuing Education (1-3)

## Computer Science

School of Natural Sciences Department of Computer Science HENDERSON C. YEUNG, Chair McKee Fisk Building, Room 207 (209) 278-4373

## B.S. in Computer Science M.S. in Computer Science Minor in Computer Science

aomputer science is applied reasoning using both art and science: It requires the ability to communicate ideas through a combination of language and powerful technology. It is concerned with the interaction of man and machine, and man's conquest of the future through continuing developments in the application of computers to a myriad of common and specialized problems.

The goal of the Department of Computer Science is to offer programs to a diverse audience: (1) students interested primarily in computing, (2) students interested primarily in applying computing to some other field of study, and (3) students who
wish to include computing as part of their general education.

## Faculty and Facilities

The faculty come from a variety of areas including computer systems and architecture, theoretical computer science, programming languages, software engineering, computer graphics, distributed systems and parallel processing, and neural networks. They have in common a desire to provide a program that will give the student a broad range of experience in computer science as well as the depth of education that will be needed in the student's later career, whether professional or academic.
The department houses a networked environment of UNIX-based machines consisting of a DEC VAX 11/785 and a Macintosh IIci microcomputer laboratory for lower-division courses; Sun Microsystems and NeXT workstations in an AI/Graphics laboratory and an INMOS Corporation Transputer system (a reconfigurable parallel processing machine) for upper-division courses and research projects. These systems are connected

with campus and international networks, allowing access to other machines and communication with people on campus and around the world.

## Career Opportunities

Computer use is pervading all aspects of our society, and the industry supporting that use has been growing rapidly for several decades. Graduates from this program find job opportunities in such diverse fields as computer design, software development, systems analysis, database design, computer graphics, and technical programming. Because of the strong theoretical orientation of our program, graduates are attractive to companies involved in computer manufacturing and to those industries using computers in high technology applications.

Our proximity to two of the largest computer use areas in the nation, Silicon Valley and Los Angeles, provides our graduates with a flourishing and broadbased collection of potential employers. Graduates have also obtained exciting and challenging positions at Air Force and Naval bases in California. A high proportion of our graduates have pursued graduate studies. Students who obtain the master of science degree will be in an excellent position to pursue a Ph.D. degree.

## Organizations

Student chapters of the Association for Computing Machinery (ACM) and the IEEE Computer Society are very active in the department. The ACM chapter organizes field trips to major computer manufacturers and users in California. It also sponsors the fall CSUF Programming Contest and the annual International Computer Problem Solving Contest for precollege students.

Computer Science majors who have a distinguished academic record in computer science are invited to join Upsilon Pi Epsilon, the national computer science honor society.

## Co-op Program

Through the Cooperative Education program, the department encourages full-time employment for students for one semester in computer-related positions. This is an excellent opportunity for a student to obtain experience, a reasonable salary, and college credit in this field.

Select three of the follow-
ing sequences
C Sci 124-126;
C Sci 134-136;
C Sci 144-146 or 144-148;
C Sci 150-152 or 172-173;
C Sci 156-ECE 146;
C Sci 164-166;
C Sci 176-177;
C Sci 186-188
C Sci 198 $\qquad$
Addlitionall requirrements ......... 26-29
C Sci 1 or Phil 25 or Phil 45 ...(3-4)
Math 75, 76 (Math 77
recommended)
Math 14 or 114
Phys 2A and 2B or
Phys 5A and 5B
ECE 85 and ECE 85L or
C Sci 113A.

## Remaiimimg Generall

Education requirrements ........... 42*
Electives ..........................................0-4
Totall 124-127
*Of the 51 required General Education units, 9 are satisfied by C Sci 1 or Phil 25 or Phil 45 (CORE), C Sci 40 or Math 75 (CORE), and Phys 2A or 5A (Division 1).

## Computer Science Minor

The Computer Science Minor requires 20 units of computer science courses consisting of C Sci 40, C Sci 41 , and 12 units of upper-division computer science courses.
Suggested minor sequences (after completion of C Sci 40, 41):

| Artificial Intelligence: | C Sci 112, 117, <br> 164,166 |
| :--- | :--- |
| Computer Architecture: |  | | C Sci 112, 113A, |
| :--- |
| $(176$ or 177) |,

[^23]
## Graduate Program

The Master of Science degree program in Computer Science is designed to offer the advanced principles, applications, and current topics in computer science. Students who obtain the M.S. degree will be ready to do significant developmental work in the computer industry or in an important application area and will also be well qualified to pursue a Ph.D. degree.
To be a fully classified student, an applicant must:

1. Meet the university requirements
2. Hold a baccalaureate in any field of study with a 2.75 grade point average in the last 60 units
3. Have completed the following undergraduate course or equivalent with a 3.0 grade point average: C Sci $40,41,112$, $115,117,119,144,154$, Math 75 , Math 76 and (Math 14 or 114)
(See also the Graduate Studies and Research section in this catalog.)

## Master of Science <br> Degree Requirements

The Master of Science degree requires a minimum of 30 units after the completion of the baccalaureate degree. At least 19 units of the total must be taken in 200-level courses in computer science according to the criteria below. The undergraduate courses used toward the bachelor's degree or toward fully classified status may not be used toward the master's degree.

## Units

Required courses .................................... 10
C Sci 174, 200, 213, 217
Electives ............................................... 9
Two of the following: C Sci 226, 244, 250, 264, 272, 282
One of the following: C Sci 246, 252, 274, 284
Approved electives ............................5-8
Culminating experience ...................3-6 C Sci 298 or 299

## Totall

 .$\overline{30}$A student must pass the Departmental Qualifying Examination prior to advancement to candidacy. One component of the exam will be used to satisfy the graduate writing skills requirement.

## COURSES

## Computer Science (C Sci)

## 1. Critical Thinking

and Computer Science (3)
Prerequisite: intermediate algebra. Overview of the field of computer science for nonmajors with an emphasis on critical thinking skills. Problem-solving strategies, algorithm design, and data abstraction. Introduction to hardware, theoretical limitations of computers, and issues arising from the growing role of computers in society. General Education CORE, Critical Thinking.

## 5. Macintosh Computer

and Applications (3)
An introduction to the computer: tools, applications, and graphics. Overview of the components of computer systems; discussion on software systems, electronic mail, influence of computers on society and the future of computing; extensive hands-on experience with application tools and programming in the Macintosh environment. (2 lecture, 2 lab hours)
7. Computer Literacy (2)

An introduction to the computer for interdisciplinary students. Overview of the history of computing, a presentation of the components of computer hardware and software systems, a study of applications, programming, societal impact, and the future of computing. (1 lecture, 2 lab hours)

## 10. Introduction to

BASIC Programming (1)
Prerequisite: elementary algebra. Introduction to structured programming techniques using the programming language BASIC. Topics include input/output, branching, looping, subroutines, and computer graphics. No prior experience required.

## 15. C Programming (2)

Prerequisite: programming experience in a major high-level language (e.g., BASIC, COBOL, FORTRAN, Pascal). An introduction to the C programming language. Types, operators, expressions, flow of control, functions, pointers, and arrays. Standard libraries and programming tools. Emphasis on programming projects.
20. FORTRAN Programming (4)

Prerequisite: ELM Exam, intermediate algebra, and trigonometry. Introduction to programming in FORTRAN with emphasis on program design, debugging, and documentation. Elementary applications and structured programming for algorithm de-
velopment. General Education CORE, Quantitative Reasoning. (3 lecture, 2 lab hours) (CAN CSCI 4)

## 40. Introduction to Programming

 and Problem Solving (4)Prerequisite: ELM Exam, intermediate algebra, and trigonometry. Introduction to problem solving, algorithm development, procedural and data abstraction; program design, coding, debugging, testing, and documentation; programming language Pascal. General Education CORE, Quantitative Reasoning. (3 lecture, 2 lab hours)
41. Introduction to Data Structures (4) Prerequisite: C Sci 40. Programming methodology, program correctness. Review of data types. Data structures: linear and nonlinear structures, files. Implementation of data structures. Recursion. Searching and sorting. (3 lecture, 2 lab hours)

## 72. Introduction to Computer Graphics (3)

Comprehensive overview of computer graphics. Geometry, color, hardware devices, surfaces and materials, lighting and shading, polygonal models, textures, fractals, rendering, animation, and production techniques. Casestudies, examples, films, and video displays from actual systems.

## 101. Computer Appli-

cations in the Sciences (3)
Prerequisite: intermediate algebra; calculus recommended. Introduction to computers with emphasis on microcomputers. Preparation, storage, and processing scientific data, documents, and illustrations; graphing, manipulating, and simple statistical analysis of data; computer-tocomputer communications and file transfers; use of CSU network resources; introduction to computer languages. (2 lecture, 2 lab hours)

## 105T. Workshop on

Computer Languages (1-3)
Prerequisite: C Sci 40 or permission of instructor. Workshops in the use of various high-level programming languages or other selected languages in areas of database, statistical computation, or operating systems.
112. Introduction to Computer Systems (4)
Prerequisite: C Sci 41. Boolean algebra, combinational logic, elementary digital circuits. A comparison of several assembly languages with an in-depth study of the organization of a particular computer. (3 lecture, 2 lab hours)

113A. Introduction to
Computer Organization (4)
Prerequisite: C Sci 41. The organization and structuring of the major components of a modern computer: combinational circuits, sequential circuits, simulation of circuits, coding, computer organization, and architecture. A detailed study of a microcomputer or minicomputer. (3 lecture, 2 lab hours)

## 115. Algorithms

and Data Structures (3)
Prerequisite: C Sci 41. Review of basic data structures. Graph, search paths, and spanning trees. Algorithm design and analysis of sorting, merging, and searching. Memory management, hashing, dynamic storage allocation. Integration of data structures into system design.

## 117. Structures of

## Programming Languages (4)

Prerequisite: C Sci 41 and (C Sci 112 or ECE 116). General concepts and paradigms of programming languages; scope and binding rules, applications and implementations of language concepts. Languages selected from: ADA, ICON, Miranda, ML, MODULA 2, OCCAM 2, PROLOG, LISP, Scheme, smallTalk. (3 lecture, 2 lab hours)

## 119. Introduction

to Finite Automata (3)
Prerequisite: C Sci 41 and (Math 14 or 114). Strings, languages, and fundamental proof techniques. Regular expression, regular grammar, regular languages, finite automata, their interrelationship, and their properties. Introduction to contextfree languages.

## 124. Introduction

to File Processing (3)
Prerequisite: C Sci 115. Definition of file components, access methods, and file operations. Algorithms for efficient implementation of data structures; characteristics of bulk storage media for mainframe and microcomputers. Introduction to database management systems. (Spring semester)
126. Database Systems (3)

Prerequisite: C Sci 124. Database concepts; hierarchical, relational, and network models. Data normalization, data description languages, data manipulation languages, and query design. (Fall semester)
134. Compiler Design (3)

Prerequisite: C Sci 115, 117, 119. Syntax and semantics of programming languages. Lexical analysis, parsing techniques, parser
generator, SLR and LALR parsing. Introduction to symbol table organization and semantic routines. Compiler generators. (Fall semester)
136. Compiler Construction (3)

Prerequisite: C Sci 134. Advanced topics in compiler design. Type checking. Run-time storage management. Intermediate code generation. Interpreters. Error recovery techniques. Code generation and optimization. (Spring semester)

## 144. Introduction to

Operating Systems (3)
Prerequisite: C Sci 41 and (C Sci 112 or ECE 116). Operating system history and services. File systems. Memory management. Process management - concurrent processes, communication, semaphores, monitors, deadlocks. Resource management - processor and disk scheduling. Security and protection mechanisms.
146. Systems Architecture (3)

Prerequisite: C Sci 113A, 144. An in-depth analysis of one or more operating systems - system data structures, hardware architecture, shell and kernel functions, I/O routines, interrupt handling. Other topics may include parallel hardware architectures, performance analysis. (Spring semester)
148. Systems Programming (3)

Prerequisite: C Sci 113A, 144. Topics include implementation of operating system components and modification of existing systems. Device drivers, memory management, communication networks, and file systems will be examined. Projects will be emphasized.

## 150. Introduction to

## Software Engineering (3)

Prerequisite: C Sci 41. History, goals, and motivation of software engineering. Study and use of software engineering methodologies. Requirements, specification, design, implementation, testing, verification, and maintenance of large software systems. Team programming.
152. Software Engineering (3)

Prerequisite: C Sci 150. In-depth examination of techniques for specification, design, implementation, testing, and verification of software. Human-computer interfaces. Formal methods of software development. Use of software engineering tools for the development of substantial software projects. (2 lecture, 3 lab hours)

## 154. Simulation (3)

Prerequisite: (Math 14 or Math 114), Math 75, C Sci 41. Simulation as a tool for the study of complex systems in computer science, statistics and operations research. Generating random variables. Review of principles behind and examples of simulation languages.

## 156. Internetworking

Systems and Protocols (3)
Prerequisite: C Sci 144 or permission of instructor. Review of underlying network technologies. Application-level interconnections, network architectures, addressing, mapping abstract addresses to physical addresses, routing datagrams, error and control messages, protocol layering, gateways, subnets. Client-server interactions. Upper layers of the OSI model. (2 lecture, 3 lab hours)
164. Artificial Intelligence

Programming (3)
Prerequisite: C Sci 117. Introduction to functional programming and applicative languages via LISP. Production systems. Knowledge-based systems. Examples from: game playing, theorem proving, language processing. Introduction to logic programming and declarative languages via PROLOG. Introduction to expert systems. (Fall semester)

## 166. Principles of

Artificial Intelligence (3)
Prerequisite: C Sci 164. Automated reasoning including nonmonotonic logic. Topics from: robot planning, natural language processing, perception (computer vision, speech), learning. (Spring semester)

## 172. Computer Graphics (4)

Prerequisite: Math 76, C Sci 41. Hardware devices, raster graphics, device independence, graphic data structure and representations, interactive techniques, and algorithms for the display of two- and three-dimensional objects, graphic transformations, graphics standards, modeling, animation, and scientific visualization. (3 lecture, 2 lab hours)
173. Advanced Computer Graphics (4) Prerequisite: C Sci 172. Visible surface algorithms, lighting and shading, textures, curves and surfaces, computer-aided design, advanced modeling techniques, solid modeling, advanced raster graphics architecture, advanced geometric and raster algorithms, user interface, ray tracing, animation techniques, and fractals. (3 lecture, 3 lab hours)

## 174. Design and

Analysis of Algorithms (3)
Prerequisite: C Sci 115, 119. Models of computation and measures of complexity, algorithms for sorting and searching, set representation and manipulation, branch and bound, integer and polynomial arithmetic, pattern-matching algorithms, parsing algorithms, graph algorithms, NPcomplete problems. (Spring semester)
176. Parallel Processing (4)

Prerequisite: C Sci 113A, 144. Notion, characteristics, and classification of computer systems. Compiler and operating system interfaces with underlying computer architecture. Notion and realization of parallelism. Pipeline design techniques. Vector processing. Array processing. Multiprocessing. Architectural trends. (3 lecture, 2 lab hours)
177. Distributed Computer Systems (4) Prerequisite: C Sci 113A, 144 (C Sci 176 recommended). The taxonomy of parallel/ distributed systems. Shared memory vs. message-passing programming paradigms. Message-based multicomputer systems. Message-passing computer programming. Multicomputer operating systems. Case studies. (3 lecture, 2 lab hours)

## 186. Formal Languages <br> and Automata (3)

Prerequisite: C Sci 119. Introduction to formal language theory. Regular grammars, context-free grammars, contextsensitive grammars, unrestricted grammars; properties of context-free languages, push-down automata. (Spring semester)
188. Introduction to Computability (3) Prerequisite: C Sci 119. Introduction to computability, effective procedures, algorithms; Turing machines, recursive functions, capabilities and limitations of effective procedures, the halting problem, computable functions and decidability. (Fall semester)
190. Independent Study (1-3)

See Academic Placement - Independent Study. Approved for $S P$ grading.
191T. Proseminar (1-3; max 15)
Prerequisite: permission of instructor. Presentation of selected topics in computer science.
194. Cooperative Education (1-4; max 8) Prerequisite: courses appropriate to the work experience; approval by major department cooperative education coor-
dinator. Integration of work experience with academic program, individually planned through coordinator. $C R / N C$ grading only.
198. Project (3)

Prerequisite: senior standing in computer science and approved subject. See Criteria for Thesis and Project. Study of a problem under the supervision of a faculty member. A final report is required. Approved for $S P$ grading.

## GRADUATE COURSES

(See Course Numbering System.)
Computer Science (C Sci)
200. Introduction to Research
in Computer Science (1)
Prerequisite: permission of instructor. Orientation to the graduate program, introduction to research methodology, and discussion of possible project and thesis topics.

## 213. Computer Organization (3)

Prerequisite: C Sci 112 and 144 or permission of instructor. Organization of memory, I/O, and processors. Computer busses. Microprogramming and instruction execution. Interrupts. Data communications.

## 217. Programming

Language Principles (3)
Prerequisite: C Sci 117 or permission of instructor. Advanced topics in programming languages: concurrency, exceptions, types, procedures, execution models. Introduction to the formal specification of programming languages: syntax specification, semantic specification.
226. Advanced Database Systems (3)

Prerequisite: C Sci 126 and 144. Implementation of database systems on modern hardware systems. Operating system design issues, including buffering, page size, prefetching, etc. Query processing algorithms, design of crash recovery and concurrency control systems. Implementation of distributed databases and database machines.
244. Operating Systems (3)

Prerequisite: C Sci 144. Review of operating system functions. Performance monitoring and fine-tuning. Network operating system design. Concurrency representational schemata, Petri nets, dataflow and control flow graphs, analysis of deadlock. Selected topics from current research.
246. Computer Architecture (3)

Prerequisite: C Sci 144. Examination and comparison of RISC and CISC architectures. Parallel processors, multiprocessors, dataflow machines. Database machines. Selected topics from current research.

## 250. Advanced

Software Engineering (3)
Prerequisite: C Sci 150 or permission of instructor. Theoretical and practical aspects of software engineering emphasizing requirements analysis, specification, design, coding, testing, correctness, maintenance, and management. Examination of reliability, performance, and software metrics.

## 252. Software

Development Environments (3)
Prerequisite: C Sci 250 . Overview of modern software engineering environments including structured editors, programmer's assistants, and tools for software cost estimation, testing, scheduling, specification, and verification. Relationship between artificial intelligence and software engineering.
264. Artificial Intelligence (3)

Prerequisite: C Sci 164 or ability to program in Lisp and Prolog. Software technology for artificial intelligence systems, including expert systems. Knowledgebased and rule-based systems. Explanation and learning. User-oriented interfaces.
272. Computer Graphics (3)

Prerequisite: C Sci 172 or permission of instructor. 3-D transformations, visible surface algorithms, shading, textures, curves and surfaces, computer-aided design, advanced modeling techniques, solid modeling, advanced raster graphics architecture, advanced geometric and raster algorithms, user interface, ray tracing, animation techniques, and fractals.
274: Combinatorial Algorithms (3) Prerequisite: C Sci 174. Design and analysis of efficient algorithms for combinatorial problems, Network flow theory,
matching theory, augmenting-path algorithms, branch-and-bound algorithms, data structure techniques for efficient implementation of combinatorial algorithms, analysis of data structures, application of data structural techniques to sorting, searching, and geometric problems.
282 Theory of Computation (3)
Prerequisite: C Sci 188 or permission of instructor. General models of computation, recursive functions, undecidable problems, propositional calculus, predicate calculus, complexity classes, NP-complete problems.
284. Automata Theory (3)

Prerequisite: C Sci 188 or 282 . Formal languages, abstract machines, algebraic approach to automata, term rewriting systems, formal power series, cryptography, parallel computation.

## 290. Independent Study

(1-3; max total 6)
Prerequisite: approval of department. See Academic Placement - Independent Study. Approved for $S P$ grading.

## 291T. Seminar (1-3; max total 9)

Prerequisite: approval of instructor. Special topics in computer science of current interest and importance.

## 298. Research Project (3)

Prerequisite: advancement to candidacy. See Criteria for Thesis and Project. Independent investigation of an advanced topic as the culminating requirement for the master's degree. Approved for $\boldsymbol{S P}$ grading.
299. Master's Thesis (3-6)

Prerequisite: advancement to candidacy. See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for $\boldsymbol{S P}$ grading.

## IN-SERVICE COURSE

(See Course Numbering System.)
Computer Science (C Sci)
391T. Topics in Computer Science (1-6; repeatable with different topics) May be repeated for credit provided different topics are covered.

The Department of Criminology provides undergraduate and graduate education in criminology for students planning professional careers in the criminal justice field. The program is diversified and integrated, reflecting the wide range of job opportunities in the field, including direct service and administration in law enforcement, corrections, and juvenile justice. The department offers the Bachelor of Science degree, Master of Science degree, and a minor.

## Undergraduate Program

Criminology courses at the undergraduate level include integration of theoretical and applied materials of an interdisciplinary nature. The undergraduate curriculum is designed to prepare students for beginning professional work in criminal justice and to provide preparation for graduate work.
The corrections program is designed for students interested in careers in probation, parole, correctional institutions, and other affiliated forms of work. The law enforcement program is designed for students interested in careers with federal, state, and local law enforcement
agencies, or law enforcement careers within the private sector. An internship course is required in both corrections and law enforcement options.

## Graduate Program

The Master of Science degree in Criminology is a 30 -unit, flexible program which provides a solid core in the field of criminology while permitting students to pursue specialized areas of interest. The master's program is designed to prepare students for service and responsible administrative and professional positions in agencies in the criminal justice system. The master's program also prepares students for a wide variety of occupations including in-service education, administrative education and management, community college teaching, marriage, family, and child counseling, predoctoral studies, and research.

## Justice Center

The department also administers a Justice Center that provides education, training, assistance, and consultation to criminal justice agencies throughout the Valley. The Justice Center offers intensive seminars in areas of interest to working professionals. Some of these areas may include: victimology, drug abuse,

Victim Services Certificate
alternative sentencing, juvenile justice, exclusionary rule, crime prevention, and industrial security.

## Faculty and Facilities

The criminology department consists of 14 full-time faculty members whose expertise includes numerous specialties in the criminal justice system, including corrections, counseling, victimology, juvenile delinquency, theory, legal studies, supervision and management, criminal justice administration, and forensics. Various part-time faculty members from major criminal justice agencies also instruct in the department.

## Career Opportunities

Many diversified local, state, federal, and private agencies employ our graduates in criminal justice. On the local level, career opportunities exist at municipal police departments, county sheriffs' offices, probation departments, halfway and prerelease houses, group homes, crisis centers, juvenile halls, welfare fraud units, retail, industrial security agencies, and victim services organizations. At the state level are the State Police, Department of Corrections, Alcohol and Beverage Control, prisons, Department of Motor Vehicles, Departments of Justice, Fish and Game, and Forestry. At the federal level there are the Border Patrol, FBI, Secret Service, Alcohol, Tobacco and Firearms, Internal Revenue Service, Park Service, Customs, Immigration, and federal prisons.

## Bachelor of Science

 Degree RequirementsCrimminology Major
Crimimology -
Corrections Option Major53
Lower-division requirements (see Note 1): Crim 2, 20, 31, 50, 73 $\qquad$
Upper-division core (must be taken before or concurrent with other upper-division requirements): Crim 100, 102, 109, 112, 170 (See Note 6)
Upper-division requirements: Crim 118, 133, 134, 135, 181 ..(16)
Crim electives (two of the following courses): Crim 117, 120, 127, 136T, 140, 141, 153, 160T, 175, 176, 190
Crimminology - Law
Enforcement Option Major
Lower-division requirements
(See Note 1): Crim 2, 4, 20, 31, 50, 73 $\qquad$
Upper-division core (must be taken before or concurrent with other upper-division requirements): Crim 100, 102, 109, 112, 170 (See Note 6) ...
Upper-division requirements: Crim 113, 117, 127, 108 or 180
Crim electives (two of the following courses): Crim 118, $120,133,134,135,136 \mathrm{~T}, 140$, 141, 153, 160T, 175, 176, 190 ..(6)

## Generall Education

51Electives and remainimg degree requirements. 24-25
(see Degree Requirements); may be used toward a dual major or minor
Total 128

## Advising Notes

1. Lower-division courses should be taken before upper-division courses.
2. Upper-division core should be taken prior to upper-division electives.
3. Department policy requires that students should see their advisers prior to registration each semester.
4. No course used to satisfy General Education CAPSTONE requirements may be used to satisfy criminology major requirements.
5. $C R / N C$ grading is not permitted in the major with the exception of Crim 108, 180, 181, and 281.
6. Crim 170 must be taken no later than the first semester of the student's junior year.
7. Any course that meets the upper-division writing skills requirement cannot be applied to the major requirements.
8. General Education and elective units may be used toward a dual major or minor (see Dual Major or departmental minor). Consult the appropriate department chair, program coordinator, or faculty adviser for further information.

## Criminology Minor

## Units

Lower division: Crim 2, 20 .................... 6
Upper division: Crim 100 ..................... 3
Select from upper-division
criminology courses ......................... 12
Totall ............................................................. 21
Note: Crim 100, 120, and 153 may still be used to meet requirements for both General Education and the minor, for those catalogs to which they apply.

## Master of Science <br> Degree Requirements

Under the direction of a graduate adviser, each student prepares and submits a coherent program individually designed within the framework below. Each student must see the graduate coordinator each semester prior to registering for courses.
All students must complete required core courses, and successfully complete a qualifying examination as a condition of advancement to candidacy.

## Plan Plan <br> A $\underline{B}$

Required courses in criminology 200-series (see specific requirements)

15
12
Electives in criminology or
related areas 200 -series (under special circumstances a maximum of 6 upper-division units may be allowed) .. 15 18
At least 21 units must be CSU, Fresno resident credit excluding credit by examination and 300-level coursework.
Totall umits $30 \quad 30$

## Specific Requirements

Plan A: Thesis or Project Program: Crim 200, 201, 202, 203, and 298 or 299.
Plan B: Non-Thesis Program: Crim 200, 201, 202, 203.
All Plan $\boldsymbol{B}$ degree candidates must pass a comprehensive examination.
(See also Admission to Graduate Standing, Advancement to Candidacy, Program Requirements, Foreign Language Requirements, and Criteria for Thesis and Project.)

## Victim Services Certificate

The Department of Criminology and the School of Education and Human Development jointly offer the Victim Services Certificate. The purpose of this program is to provide appropriate educational experiences for matriculating students and practitioners. The certificate provides the opportunity for developing knowledge and skills necessary for individuals working with crime victims.
Program Prerequisites. (1) completion of 60 units of undergraduate coursework, and (2) completion of one general course in psychology, sociology, anthropology, health science, or child and family studies.
Program Requirements. A minimum of 12 units is required; three units must be taken in each of the four areas:

1. Theory
Units
Victimology (Crim 175) .................... 3
2. Victim Issues
Family Violence (Crim 140) .............. 3

Child Abuse (EHD 107) ..................... 3
Domestic Violence (W S 116) ............ 1
Rape (W S 108) .................................. 1
Incest (W S 109) ................................ 1
3. Service Delivery

Victim Intervention and Counsel-
ing (EHD 108) .................................. 3
Victim Services (Crim 176) ................. 3
Child Welfare (S Wrk 128) ................ 3
4. Legal/Social Policy

Education for Community Change
(EHD 109)
.3
Social Movements (Soc 122) .............. 3
In addition, three units field experience (Crim 181) is available. For additional information or advising, contact the Department of Criminology.

## Certificate in <br> Alcohol/Drug Studies

The Department of Criminology is participating in a certificate of special study awarded to those students who successfully complete a minimum of 12 units of interdisciplinary academic coursework in the area of alcohol and drug abuse. (For complete details, see Health and Social Work, Interdisciplinary Courses, in this catalog.)

## COURSES

## Criminology (Crim)

2. Administration of Justice (3)

Purpose, function, and history of agencies dealing with administration of justice; survey of criminal procedures; organization of law enforcement agencies at federal, state, and local levels; organization and functions of courts; probation, parole, and pardons; penology and prison administration; purpose and function of victim services. (CAN AJ 2)
4. Police Operations (3)

Open only to criminology majors. Basic theories, objectives, and activities of police patrol and field operations.

## 10. Problems of Crime,

Victims, and Justice (3)
An integrated approach to the study of contemporary criminal justice problems that affect society and the individual throughout his or her life. Volunteer or field assignments are required.
20. Criminal Law (3)

Introduction to the case method of studying criminal law, theory, concept, and philosophy of substantive law and criminal offenses; analysis of court decisions and opinions through case method. (CAN AJ 4)
21. Criminal Evidence (3)

Fundamental questions of evidence and theory of proof through analysis of court decisions and opinions by case method, code sections, judicial notice, burdens of proof, presumptions and inferences, competency, hearsay, privilege, relevance, documentary evidence, and the exclusionary rule. (CAN AJ 6)

## 31. Interpersonal and

## Community Relations (3)

The relationship of the criminal justice system and the community; nature and causes of complex problems in people to people relations in criminal justice.

## 50. Statistical and Computer

Applications in Criminal Justice (4)
Statistical and computer applications as they relate to criminological research and policy. Emphasis on descriptive and inferential statistical methods for the analysis of data and the application of appropriate computer statistical packages and other specialized computer programs for criminal justice. (3 lecture, 2 lab hours)

## 73. Criminal Justice

Communications (3)
The fundamentals of gathering and organizing data, and writing reports in the criminal justice system, including victim services.
100. Criminology (3)

Theories of criminal behavior; sociological factors; organized crime; professional criminals; selected types of social deviants and criminal offenders. General Education CAPSTONE Cluster, Critical Thinking.

## 102. Criminal Justice

Organization and Management (3)
Fundamentals of organization/management theory, principles, and processes relating to the operation and functioning of the criminal justice system, including victim services agencies.

## 108. Directed Policing

(3; max total 12)
Open only to criminology majors. Prerequisite or concurrently: Crim 4, permission of instructor and sponsoring agency. Supervised field experience in police work for interpreting theories developed in parallel criminology courses. Purchase of uniform required. Approved for $\boldsymbol{S P}$ grading. (Minimum of 6 field hours per unit.)
109. Comparative Systems
of Criminal Justice (3)
Study of selected criminal justice systems in other jurisdictions; examination of the organization; administration and operations of criminal justice agencies in the United States, Europe, the United Kingdom, and Asia.

## 112. Professionalism

## in Criminal Justice (3)

Professionalism in criminal justice including formal and informal control, political activity, use of discretion, conflict of interest, rights of clients, and other current topics.
113. Forensic Science (3)

Open only to criminology majors. Advanced study of scientific crime investigation, identification, and detection methods.

## 117. Criminal Legal Process (3)

Prerequisite: Crim 20. Specific emphasis on the laws of arrest, search and seizure, interrogation and confession, procedure prior to and during trial, postconviction procedures, limitations on criminal prosecutions and juvenile proceedings.

## 118. Individual Rights in

 the Criminal Justice System (3) Prerequisite: Crim 20. Examines specific issues relative to the rights of individuals in substantive design of our criminal justice system. Deals with the development and protection of rights; surveys common abuses in the criminal justice system and their causes.120. Juvenile Delinquency (3) The problem of juvenile delinquency; portrait of delinquency; causal factors; agencies of justice; treatment process; programs for control and prevention. General Education CAPSTONE Cluster, Critical Thinking.
121. Women and Violence: Public Policy and the Law (3) (See W S 126.)

## 127. Advanced

## Criminal Legal Process (3)

Prerequisite: Crim 117 or 118. Advanced problems in arrest, search, seizure, interrogation, and prosecution. The law of evidence, including problems of relevancy, hearsay, opinion, privilege, and scientific evidence. Juvenile law and procedure from detention to disposition.

## 133. Correctional Institutions (3)

Examination of institutional philosophy, theory, function, and practice; historical and systems approach to incarceration; contemporary prison facilities; sociopsychological effects of incarceration; inmates and staff; institutional programs; parole; rights of the confined; institutional issues; future of corrections.

## 134. Criminal

Justice Counseling (4)
An overview of counseling modalities and counseling techniques in criminal justice, including practical experience in problem identification, listening, empathy, goal-setting, confrontation, scenario-building, and action strategies. (3 lecture, 3 lab hours)
135. Issues and Trends in Community Corrections (3)
Examination of community-based corrections issues and trends; alternatives to

141. Alcohol, Drugs, and Criminality (3) Drug and alcohol related criminal behavior and the response of the criminal justice system.
153. Psychology of Crime (3)

Psychological bases of crime; motivation,
institutional treatment, corrections; administration and management; law enforcement; criminalistics.
140. Family Violence (3)

Typology and history of family abuse, including: legal guidelines; treatment approaches; emotional abuse; sexual abuse; spousal abuse; elderly abuse; and child abuse as a criminogenic factor.
incarceration; offender diversion; restitution; community treatment facilities; probation; parole.
136T. Topics in Criminology
(1-3; max total 12 if no topic repeated) Analysis of selected areas of criminology; deviant behavior; institutional and non-
alcoholism, economic and cultural pressures; forms of crime; criminal careers; psychology and the criminal justice system. General Education CAPSTONE Cluster, Critical Thinking.
160T. Topics in Crimes
(1-3; max total 12 if no topic repeated) Intensive focus on particular crime categories, e.g., political, corruption, terrorism; corporate, computer, white collar, fraud, embezzlement; homicide, assassination, mass murder, sex crimes, violence, assault, rape, mayhem; property, burglary, robbery, piracy, professional pickpocketing, swindling, safecracking; organized; arson; environmental; other.
170. Research Methods in Criminal Justice (3)
Prerequisite or concurrently: Crim 50. Must be taken no later than the first semester of the student's junior year. Research methodology; use of library resources; preparation and handling of materials in criminology; written report required.
175. Victimology (3) Introduction to victimology, with special emphasis on family violence, sexual assault, restitution, compensation, culpability, victim services, victim rights, vulnerability, victim surveys, and the international victimology movement.
176. Victim Services (3)

Overview of community services dealing with victims, including social welfare services, crisis centers, medical services, criminal justice, and others. This course focuses on the role of a victim service agency as a new subsystem, with special emphasis on services.

## 180. Internship in Law

Enforcement (1-12; max total 12)
Open only to criminology majors. Prerequisite: Crim 4, permission of instructor and sponsoring agency. Relates students classroom studies with occupational and professional experiences. Weekly conference with field supervisor. Transfer students should be aware that 12 unit total must include units previously earned; check with departmental adviser. Approved for SP grading. CR/NC grading only. (Minimum of 3 field hours per unit.)

## 181. Internship in

Corrections (1-12; max total 12)
Open only to criminology majors. Prerequisite: Crim 133 and 135, permission of instructor and sponsoring agency. Relates the student's classroom studies with occupational and professional experiences. Weekly conference with field supervisor. Transfer students should be aware that 12 unit total must include units previously earned; check with departmental adviser Approved for $S P$ grading. $C R / N C$ grading only. (Minimum of 3 field hours per unit.)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
199. Senior Seminar (3)

Prerequisite: last-semester senior, completion of Department of Criminology lowerand upper-division core requirements and completion of upper-division writing skills requirement. Integration of scholarly knowledge relating to criminology with emphasis upon critical thinking and decision-making.

## GRADUATE COURSES

(See Course Numbering System.)

## Criminology (Crim)

## 200. Research

Methods in Criminology (3)
Prerequisite: Crim 170. Methods and techniques of research in criminology; research designs and models; statistical techniques; preparation and critique of a research paper.

## 201. History of Western

Criminological Thought (3)
Prerequisite: Crim 100. An historical approach to criminological theory in Western civilization. Special treatment of the theoretical underpinnings of contemporary United States criminological thought. Detailed analysis of major 18th, 19th, and early 20th century Occidental thought.

## 202. Law and Society (3)

Prerequisite: Crim 117 or 118. Development of law and legal systems; social organization of law in society; roles; functions of law, including social control, change, and conflict resolution.
203. Criminal Justice Administration (3) Prerequisite: Crim 102. A comprehensive assessment of the historical evolution of the criminal justice system, including currentstatus and future growth organization/ management theory and practice relating to criminal justice; individual research.

## 220. Seminar in Group Therapy

in Criminal Justice Agencies (3)
Prerequisite: Crim 200, 201, 202, and 203.
The theory and practice of group therapy in criminal justice agencies. Use of transactional analysis concepts in describing group interactions.
221. Seminar in Family Counseling in Criminal Justice Agencies (3)
Prerequisite: Crim 200, 201, 202, and 203. The theory and practice of family counseling in criminal justice agencies.

## 227. Seminar in Crime and

Delinquency Prevention Programs (3)
Prerequisite: Crim 200, 201, 202, and 203. Policies and programs for prevention and control of delinquency and crime; evaluation of specific programs; principles of prevention and control.
252. Seminar in Criminal Justice Personnel Administration (3)
Prerequisite: Crim 200, 201, 202, and 203. The historical development of modern personnel theory and practice in criminal justice agencies; manpower, merit concepts, concepts of man and work, classification, training and compensation, collective bargaining, and organizational communication.

## 255. Seminar in Criminal

Justice Labor Relations (3)
Prerequisite: Crim 200, 201, 202, and 203. The historical development of labor relations theory and practice in criminal justice agencies; legislation, court decisions, collective bargaining agreements, arbitration awards and fact-finding, and administrative law decisions.

## 270T. Problems in Criminology

(1-6; max total 12 if no topic repeated) Prerequisite: Crim 200, 201, 202, and 203. Special problems in law enforcement or corrections; individual research in laboratory, library, or fieldwork; formal written reports. Weekly conference with instructor.
281. Supervised Professional

Experience (1-6; max total 6)
Open only to criminology majors. Prerequisite: permission of instructor and selected agency. Supervised professional experience in law enforcement or correctional work. Approved for SP grading. $C R / N C$ grading only.
290. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
292. Readings in

Criminology (1-3; max total 3)
Prerequisite: permission of instructor and chair, Criminology Graduate Committee. Individually directed readings in an area of special concern to the student's graduate program; appropriate written reports and evaluation required, individual student conferences. Approved for $\boldsymbol{S P}$ grading.
298. Project (2-4; max total 4)

Prerequisite: Crim 200, 201, 202, and 203. See Criteria for Thesis and Project. Preparation and completion of a project demonstrating a significant undertaking such as implementing a program, evaluating an ongoing program, developing pilot studies of innovative ideas or implementing organizational change in the field of criminology, and submission of a written abstract. Approved for $\boldsymbol{S P}$ grading.
299. Thesis (2-4; max total 4)

Prerequisite: Crim 200, 201, 202, and 203. See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for $\boldsymbol{S P}$ grading.

## IN-SERVICE COURSE

(See Course Numbering System.)

## Criminology (Crim)

302. Topics in Criminology (1-3)

May be repeated for credit provided different fields are covered. Prerequisite: permission of instructor. Selected areas in the organization, administration, and management of agencies engaged in the administration of justice; the police function; prosecution of criminal offenses; the correctional process, deviant behavior.

## Economics

School of Social Sciences
Department of Economics LINDA J. SHAFFER, Chair
Peters Business Building, Room 393 (209) 278-3916
B.A. in Economics Minor in Economics

,conomics is the social science that studies the way in which societies are organized to produce the goods and services that sustain and enhance the life processes of the community. As a fundamental scientific discipline, economics employs systematic analysis in the study of the production and distribution of income within and among nations. Since all social policy issues in modern societies have an economic dimension, the study of economics offers the student an opportunity to investigate the most important and exciting problems of political economy facing the world today.
Such topics as inflation, unemployment, collective bargaining, banking, international trade, and development have long been within the province of economics. More recently, the economic way of thinking has been extended to other areas. Economic theories have been used to explain crime rates, birth rates, class conflict, pollution, marriage decisions, migration, and many other topics involving human behavior. Not all economists would agree with these theories, but ongoing debate helps to make economics a lively and challenging discipline.

Economics majors acquire skills in critical and analytical thinking that contribute to an individual's intellectual independence and self-confidence in the problem-solving processes. In addition, economics majors confront the necessity of developing a broad view of the options facing mankind in organizing the production and distribution of income. The literature of economics presents widely diverse systems of political economic philosophy. The CSU, Fresno Department of Economics offers a welldeveloped and balanced curriculum encompassing the major schools of modern economic thought, including the neoclassical, Marxian, and American institutionalist schools.

The program in economics at CSU, Fresno is designed to give the student maximum flexibility in the choice of courses offered for the economics major. A typical economics major might take courses in intermediate macroeconomic theory and statistics while also learning about global corporations in the third world, or Marxist economics, or pursue an independent study project on the foundations of supply-side economics. The economics major is designed to permit the student to pursue a broad liberal arts undergraduate degree, integrating the study of economics with other social sciences, humanities, natural sciences, and business administration.

## Faculty

The faculty of the department is staffed by professors whose primary professional commitment is to undergraduate education. Every member participates in the full range of teaching assignments from moderate sized sections of economics principles to small, upper-division classes (averaging 16 students). They offer a wide variety of courses ranging from the traditional core of intermediate micro and macroeconomic theory to problemoriented courses, such as the economics of ecology, population, and government regulation. The background of the faculty, like its program offerings, represents a broad spectrum of intellectual tastes and professional specialties.

## Career Outlook

Graduates of the department pursue a variety of challenging careers in industry, finance, education, and government. The economics B.A. degree is an excellent foundation for graduate study in public
administration and business. The undergraduate major in economics has also proved to be an ideal prelaw major. The faculty provides counseling on legal careers to students interested in this career option. A number of distinguished attorneys are graduates of the department.

Careers for professional economists fall into the following patterns:

1. Business - roughly one-third of all economists are employed by private firms both large and small, although big corporations, banks, and insurance companies tend to employ larger staffs of economists.
2. Government - approximately one out of five professional economists works for a local, state, or federal government agency. The federal government recognizes the importance of an economics degree at the undergraduate level by allowing members of the economics honor society (Omicron Delta Epsilon) to enter government service at the GS-7 level rather than at the GS-5 level for general college graduates.
3. Education - about 45 percent of all economists are involved in teaching the discipline, but employment at this level has become more difficult as overall university enrollments have declined. However, there is a reawakening of interest in teaching economics in the secondary and even primary grades as more states across the nation are beginning to mandate economics in the public schools curriculum.

## Bachelor of Arts <br> Degree Requirrements

## Economics Major

Econ 40 and 50 are prerequisite to all up-per-division courses in economics except those offered in extension. Any student planning graduate work is advised to take additional mathematics and some foreign lansuage.

Units
Major requuirements. 36
Core: Econ 40, 50, 100A, 100B, 101, 123, 131, 135
Economics electives (at least 12 units upper division)......... (12)
Generall Edlucation $\qquad$ 51
Electives and remaining dlegree requirements .37
(see Degree Requirements);
may be used toward a dual
major or minor
Totall

## Advising Notes

1. No course used to satisfy General Education CAPSTONE requirements may be used to satisfy economics major requirements.
2. $C R / N C$ grading is not permitted in the economics major or minor.
3. General Education and elective units may be used toward a dual major or minor (see Dual Major or departmental minor). Consult the appropriate department chair, program coordinator, or faculty adviser for further information.
4. Economics majors may not use Econ 40 or 50 for General Education BREADTH, Division 8.

## Economics Minor

The Minor in Economics requires 18 units as listed below; 20 units are required for use in a credential program.

Units
Econ 40, 50 . .6
Select one: Econ 100A, 100B, 101 ......... 3
Economics electives .9-11
(11 units required for credential program)
Total.
$.18-20$

## Advising Note

Econ 25,40 , and 50 may also count for General Education BREADTH, Division 8.

## COURSES

Economics (Econ)
25. Introduction to Economics (3)

Recommended for first semester freshmen. Elementary survey of the development of economic ideas and theories in the context of economic history. Topics may vary as circumstances warrant. Does not count toward the major in economics. General Education BREADTH, Division 8.
40. Principles of Microeconomics (3)

Prerequisite: Not open to first semester freshmen. Introduction to microeconomic theories of consumption, production, and income distribution; price determination and resource allocation under alternative forms of market organization; government regulation of economic activity; applied economic analysis and policy formation in selected topic areas. General Education BREADTH, Division 8. (Former Econ 1B) (CAN ECON 4)
50. Principles of Macroeconomics (3)

Prerequisite: Economics 40. Introduction to macroeconomic theories of the determination of income, output, employment, and prices in the economy as a whole; the monetary system; governmental countercyclical fiscal, monetary, and income policies; economic growth; international economics; economic development; and comparative economic systems. General Education BREADTH, Division 8. (Former Econ 1A) (CAN ECON 2)
100A. Economic Theory:
Microeconomic Analysis (3)
Prerequisite: Econ 40, 50. Price mechanism and resource allocation under conditions of pure competition, monopolistic competition, oligopoly; theories of consumer's choice, cost, production, income distribution; nature of economic generalizations.
100B. Economic Theory:
Macroeconomic Analysis (3)
Prerequisite: Econ 40,50. An examination of classical, Keynesian and post-Keynesian theories of the determination of the levels of income, output, and employment; the scientific and ideological implications of Keynesian thought; and the theoretical foundations of contemporary monetary and fiscal policies.
101. History of Economic Thought (3)

Prerequisite: Econ 40, 50. Evolution of economics as a science; doctrines of different
schools of thought - Mercantilists, Physiocrats, Historical School, Classical Economists; contributions of outstanding economists.

## 102W. Explorations in

Economic Literature (3)
Prerequisite: Econ 40, 50; Engl 1; upperdivision standing. An investigation into important economic ideas and issues through selected readings of either contemporary literature or classics in the history of economic thought or both. The class is conducted as a seminar with emphasis on student contributions. This course meets the upper-division writing skills requirement for graduation.

## 103. Economics of Inflation,

Unemployment, and Growth (3)
Prerequisite: Econ 50. A theoretical and empirical analysis of the various types of inflation and unemployment in the United States economy.
104T. Contemporary
Economic Problems (3)
Prerequisite: upper-division standing or permission of instructor. Analysis of current economic issues which are of public interest and importance at the time the course is given.

## 105. Marxian Economic Theory (3)

Prerequisite: Econ 40, 50. Marxian economic theory and its relevance for modern economic theory and analysis; Marx's value, production, and distribution theory; modern developments of Marxian models.
107. Institutional Economics (3)

Prerequisite: Econ 40, 50. Study of the literature of American institutionalism, e.g., Veblen, Commons. Systematic study of the process of institutional adjustments; interplay of ceremonial and technological aspects of economic activity; application of institutionalist theory to specific fields in economics.

## 108. Radical Traditions

in Economics (3)
Prerequisite: Econ 40, 50. Economic philosophies of the Utopian, Anarchist, Anti-Materialist, Marxist, and Fabian Socialist schools. Intensive examination of contemporary radical economic ideas and the radical critique of modern neoclassical economics.

## 109. Principles of

Political Economy (3)
Prerequisite: Econ 40, 50 or permission of instructor. A critique of political economy; political nature of applications of economic theory.

## 110. Economic History

of the United States (3)
Prerequisite: Econ 40,50. Exploration and colonization to the present; economic factors in development of the United States; relationships of economic forces to historical, political, and social change.

## 111. Economic

Development of Europe (3)
Prerequisite: Econ 40, 50 or permission of instructor. European expansion from the Middle Ages to present. Emphasis is placed on the causes of the Industrial Revolution and its spread throughout Europe; present economic conditions and trends in Europe; the interest of the United States in the European Economy.

## 114. Economic Develop-

ment of Poor Nations (3)
Prerequisite: Econ 40, 50. Intensive study of the causes and consequences of underdevelopment which affect two-thirds of the world's people. Topics include theories of development, historical roots of underdevelopment, evaluation of aid programs,

New International Economic Order, Asian export economies, managing external debt.

## 115T. Topics in U.S.

Economic History (1-3; max total 6)
Detailed investigation of developments in the United States economy. Topics vary with the needs and interests of students and faculty.

## 117. Economics of Ecology (3)

Prerequisite: Econ 40,50. Investigationinto the economics of resource use. Development and creation of resources through the application of technology and the destruction of resources through misuse and pollution of the environment. General Education CAPSTONE Cluster, Critical Thinking.
123. Introduction to Econometrics (3) Prerequisite: Econ 40, 50; Math 11 or permission of instructor. Statistical data analysis in economics. Use of multiple regression analysis, time series analysis, index numbers. Basic theory; computer applications using major economic data sources; interpretation of results. (2 lecture, 2 lab hours)

## 125. Introduction to

Mathematical Economics (3)
Prerequisite: Econ 40, 50; Math 75. Introduction to uses of mathematics (primarily calculus and matrix algebra) in theoretical economic analysis. Knowledge of basic economics assumed; math is taught. Strongly recommended for students considering graduate work in economics or business.

## 131. Public Finance (3)

Prerequisite: Econ 40, 50. Governmental revenues and expenditures at federal, state, and local levels of jurisdiction. Tax limitation measures, efficiency in government, subsidies, and fiscal relationships between different levels of government.
135. Money and Banking (3)

Not open to students with credit in Fin 122. Prerequisite: Econ 40, 50. Survey of the monetary and banking system of the United States and analysis of its role in economic growth and stabilization.

## 140. The Political Economy of

 the Military-Industrial Complex (3) Prerequisite: Econ 50. Economic effects of military expenditures in historical perspective. Economic effects of World War II, Korea, and Vietnam. The MilitaryIndustrial Complex, war profiteering, and the economic effects of disarmament.150. Labor Economics (3)

Prerequisite: Econ 40, 50. Alternative theories of wages, employment, and structure of labor market; impact of collective bargaining on level of wages, employment, and labor's share of national income; history and philosophies of labor movement; structure and functioning of labor unions.

## 151. History of Labor

in the United States (3)
Prerequisite: Econ 40, 50. Analytical topics from historical viewpoint; evolution of unions and labor legislation interpreted in terms of economic theory.

## 152. Economics of

Human Resources (3)
Prerequisite: Econ 40,50 or permission of instructor. Economic theory of investment in education and training; economic theories of discrimination; analysis of earnings differentials for women and ethnic minorities. Issues discussed include returns to class members' educational choices, affirmative action, comparable worth, and "manpower" planning policies.
161. Population Economics (3)

Prerequisite: Econ 40, 50. Development of an economic framework for studying components of population growth: fertility, mortality, and migration. Analysis of relationship between population change and modern economic growth in both developed and lesser developed nations.
162. Medical Economics (3)

Prerequisite: Econ 40, 50. Examination of several aspects of the health care situation in the United States from the viewpoint of economic analysis.

## 165. The Modern

American Economy (3)
Not open to economics majors. Provides an overview of the major economic forces that shape our everyday experiences by introducing fundamental economic principles and applying them to the American economy. Audio-visual materials and computer simulations are presented.
170. Transportation (3)

Prerequisite: Econ 40, 50. Economics of rail, water, motor, air, and pipeline transportation.

## 174. Government Regulation

 of Economic Activity (3)Prerequisite: Econ 40, 50. Justification for regulation, constitutional limitations, public utility regulation, regulation of monopoly; competitive practices; government policy in other areas of economic activity.
176. Economics Through Films (3)

Prerequisite: Econ 40, 50 or permission of instructor.Emphasizes economic concepts, issues, and institutions through an integrated series of classic films, lectures, and discussions. Students will apply economic theory to contemporary problems.
178. International Economics (3)

Prerequisite: Econ 40, 50. International economic relations; problems and policies in the light of fundamental economic theory.
179. Global Corporations and the Third World: The World Economy (3) Problems of economic underdevelopment in the Third World within the context of the world economy, nature, and function of multinational corporations, theories of economic imperialism.

## 180. Comparative

Economic Systems (3)
Prerequisite: Econ 40, 50. Comparative study of economic systems of the modern world; capitalism, socialism, communism, fascism, and the probiems which arise within each.

## 181. Latin American

## Economic Development (3)

Latin America's principal economic problems examined within a historical context. Topics may include Colonialism, Neo-Colonialism, foreign corporations, debt crises, problems of industrialization, agricultural backwardness. Intensive examination of major nations. Theories of development (structuralism, dependency, dualism, modernization) are integrated into case studies.

## 182. The Political

## Economy of China (3)

Prerequisite: upper-division standing and/ or permission of instructor. A survey and analysis of economic development in China and its linkages with politics, history, society, and foreign policy.
185. Directed Readings (1-3)

Prerequisite: Econ 40, 50, and permission of instructor. Directed readings in the literature of economics. Intensive reading of economic literature on special topics under faculty supervision.
188T. Special Topics (1-3; max total 6) Prerequisite: Econ 40, 50. Consideration of in-depth, special topics in political economy; systematic, detailed study into issues not possible in survey courses. Topics vary with the needs and interest of students and faculty.

## 189T. Topics in

Public Policy (1-3; max total 6)
Prerequisite: Econ 40, 50. Detailed analysis of questions of economic policy. Areas of investigation include social welfare policy, farm policy, environmental quality policy, and others. Topics to be varied with the interests and needs of students and faculty.

## 190. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## IN-SERVICE COURSE

(See Course Numbering System.)
Economics (Econ)
365T. Economics for Teachers (1-6)

M.A. in Education

Curriculum and Instruction Option Victim Services Certificate

The interdepartmental section provides information about the Master of Arts degree program in Education - Curriculum and Instruction, and the Victim Services Certificate of Special Study Program. These programs are sought by students with varied professional interests and career goals.

Information is also provided about special School of Education and Human Development (SOEHD) programs and services that are available for administrators, faculty, and students. Brief summaries of additional programs expected to receive approval during the 1990-91 academic year are also provided.

For faculty listings, refer to the following departments within the SOEHD:
${ }^{\circ}$ Counseling and Special Education
${ }^{\circ}$ Curriculum, Teaching, and Educational Technology

- Educational Research, Administration, and Foundations
- Literacy and Early Education

## Master's Degree Program

The Master of Arts degree in Education with an option in curriculum and instruction is designed to provide professional and specialized preparation for candidates interested in acquiring knowledge and skills essential for the design and development of curriculum and related instructional practices. This 30semester unit program provides candidates with an opportunity to obtain indepth study in a variety of specialty areas

associated with the field of education, such as microcomputer applications, subject area applications, philosophical/ psychological foundation applications, etc. For more information about this program, refer to the Education-Curriculum, Teaching, and Educational Technology section in this catalog.

## Victim Services Certificate Program

The SOEHD and the Department of Criminology jointly sponsor the Victim Services Certificate of Special Study Program.
The primary goal of the Victim Services Program is to provide experiences, knowledge, and skills for working with victims within a criminological/human development framework. This program is also very useful for individuals interested in pursuing a career in the area of behavioral sciences.

Students working toward a Victim Services Certificate have an opportunity to receive an interdisciplinary/interagency examination of victim services as they relate to: theoretical concepts, legal aspects, victim rights, causes of victimization, and services available to assist the victim. Furthermore, emphasis is directed toward assisting the students in acquiring new
perspectives and skills needed for working effectively with different types of victims.
Program Processes and Procedures. To attain a Victim Services Certificate, the candidate must progress through three distinct program phases: admission, completion of program courses, and certificate authorization. Each of these program phases is described below.

Admission. The following admission requirements (items 1-3) must be met and the documentation returned to the SOEHD admissions/records office (EdP 120) in one complete packet:

1. Verification of enrollment at CSUF(letter of acceptance, grade slip from previous semester, preregistration letter or extension students identification card)
2. Completion of the Victim Services Certificate Program Application including required signatures
3. A set of transcripts verifying completion of prior college/university coursework. These transcripts are needed to verify:
a. Attainment of upper-division status (completion of 60 or more undergraduate units)
b. Completion of at least one general course in psychology, sociology, anthropology, health science, or child and family studies

## Completion of Program Courses:

1. Complete all approved courses that are identified on the Victim Services Program Application form.
2. Complete the Application for the Victim Services Certificate form obtained in EdP 120.

## Certificate Authorization:

1. The SOEHD credential analyst verifies that all coursework has been completed.
2. The certificate is signed and awarded.

Course Requirements. A minimum of 12 units are required with 3 units selected from each of the four emphasis areas: 1) theory, 2) victim issues, 3 ) service delivery, and 4) legal/social policy.

Units

1. Theory ............................................. 3

Victimology (Crim 175)
2. Victim Issues .3
Select a minimum of 3 units:
Family Violence (Crim 140) ..... (3)
Child Abuse (EHD 107).
Domestic Violence (W S 116) .. (1)
Rape (W S 108)
Incest (W S 109) ....................... (1)
3. Service Delivery ............................... 3

Select a minimum of 3 units:
Victim Intervention and
Counseling (EHD 108) ........... (3)
Victim Services (Crim 176) ...... (3)
Child Welfare (S Wrk 128) ....... (3)
4. Legal/Social Policy ... 3
Select a minimum of 3 units:
Education for Community
Change (EHD 109) . $\qquad$
Social Movements (Soc 122) .... (3)
Totall
Field Experience. An additional 3-unit field experience (Crim 181: Internship in Corrections) is available to interested students. Enrollment can be arranged by contacting the Department of Criminology.
Advising. For information and advisement, contact the School of Education and Human Development certificate program adviser or the chair of the Department of Criminology.

## Special Programs and Services

The Center for Educational Research and Services assists faculty, students, school districts, and the community in improving practice in education through research. Emphasis is on applied and collaborative research which will impact educational quality for learners of all ages. Assistance is available in grant proposal
writing and submission; in administering state, federal, and private grants; and for consultation for specific needs such as organizational change, publication, and program planning. Other technical support includes evaluation, survey design, and statistical programming, analysis, and interpretation. Coordination of the SOEHD Center for Educational Research and Services is provided by Susan Tracz in EdP 130.
Development and Outreach. In its effort to provide the highest quality undergraduate, graduate, and postgraduate education to the Valley, the SOEHD has begun a comprehensive plan in the areas of development and outreach. In terms of development, the school intends to involve faculty, emeriti faculty, alumni, and friends of education in providing "state-of-the-art" instruction and facilities. For outreach, the school will continue to plan and develop programs that meet the needs of a changing educational community. Coordination of the Development and Outreach Program is provided by Ric Brown in EdP 141.
The Instructional Technology and Resource Center, INTERESC, is designed to provide support to faculty for the utilization and integration of technology in the curriculum. INTERESC staff provide assistance in instructional design for the preparation and production of videotapes, slidetape programs, and other media formats. Center personnel also consult with faculty and staff in selecting specific computer hardware and software, reserving audiovisual equipment, microcomputers, and other instructional resources, and providing audio and videotaping support. INTERESC staff are responsible for management and operation of computerized classrooms in the SOEHD. Coordination of the SOEHD Instructional Technology and Resource Center is provided by Otto Benavides in EdP 117D.
International Education and Special Programs. SOEHD is involved in international program development and study so that faculty and students can enhance their understanding of other cultures and nations and contribute constructively toward a better future throughout the world. Special support is provided for international, multicultural, and cross-cultural educational experiences for faculty, staff, and students. Additionally, the SOEHD is committed to the development and offering of special courses and programs to
meet the educational needs of students and the community. Coordination of the SOEHD International Education and Special Programs is provided by Berta Gonzalez in San Ramon 2-47.
Mini Corps. The SOEHD provides facilities for the Mini Corps Program. This program is developed to prepare migrant students to work in bilingual classrooms and to obtain teaching credentials. Mini Corps staff provide counseling, advising, and financial support annually for 40 migrant students who are interested in becoming teachers. For more information contact Directors Elizabeth Gamez or Jose Lomeli in the Mini Corps office located in San Ramon 5-116.

## Proposed Programs

The School of Education and Human Development administration and faculty are involved in the development of several new programs. These programs are expected to be implemented during the 1991-92 academic year.
Internship Programs. An internship option is being developed within selected basic and advanced credential programs. Admission to an internship option will enable well-qualified candidates to assume teaching or specialty responsibilities in $\mathrm{K}-12$ schools of the surrounding communities while enrolled in their professional preparation courses. For internship status, applicants must be admitted to the School of Education and Human Development, have a promise of employment from a public school district, and meet other standards concerning readiness for teaching or other support services. Academic expectations and credit-hour requirements for interns will be consistent with existing standards in the corresponding credential programs. Internship options are under consideration for the following credentials: Multiple Subject, Multiple Subject with Early Childhood Education Emphasis, Multiple Subject with Bilingual Emphasis, Single Subject, and Special Education Specialist.
Middle School Emphasis Programs for both Multiple Subject and Single Subject Credentials are being developed. These programs will provide special preparation for candidates who wish to teach in middle school settings (grades 7-9). These programs are expected to be available in the Fall 1991 semester. Coordination for both programs will be provided in the SOEHD Admissions and Records Office in EdP 111.

## COURSES

## Education and Human <br> Development (EHID)

50. Introduction to Teaching (2)

Orientation to role of teacher in public schools; observation of teacher-pupil interaction, instructional approaches, classroom management in elementary, secondary, and/or middle schools; two-hour lecture weekly, plus two-hour school site observation weekly, not including travel. CR/NC grading only. (Former T Ed 50)
101. Peace Education (1-3)

An introduction to peaceful conflict resolution strategies for use in the home, school, community, and international relations including educational models and programs for the prevention of nuclear war. A multidisciplinary approach with invited speakers and audiovisual presentations.

## 107. Child Abuse (3)

Develops perspectives on child abuse and child victimization. Assessment, treatment, and prevention of child abuse/neglect are covered. Other areas include: effects of divorce, media, and war on the lives of children and children's rights. Course meets licensure and licensure renewal requirements for many professional groups.
108. Victim Intervention
and Counseling (3)
Focuses on the coping process and on both the immediate and residual effects of victimization. It also looks at ways of counseling direct and indirect victims (families and friends of victims): hot lines, warm lines, stress reduction, support groups, short- and long-term counseling.

## 109. Education for <br> Community Change (3)

The capacity of a society to ensure individuals a safe environment and a high quality of life is dependent on its ability to respond to needs and make appropriate changes. Examples of specific mechanisms for effecting public policy is explored. The course includes such activities as advocacy, planning strategies, legislative proposals, grant writing, grass roots organizing, and public education efforts at the city, county, and state levels.

## 110. Initial Student Teaching

(1-3; max total 3)
Prerequisites: admission to Multiple Subject Program; ERF 130, 140, or concurrent enrollment; CTET 150 and LEE 156M must be taken concurrently, except in Options II and IV. Supervised activities and teaching in public school classrooms. Minimum of 40 minutes per day per unit, with additional conference periods. CR/NC grading only. (Instructional materials fee, $\$ 10$; less than 3 units, $\$ 3.50$ per unit) (Former T Ed 110)
> "When I was a student at CSUF, I had no idea I would someday be a college professor myself. Without that exposure to higher education, I would obviously not have been competitive for the position I hold today."

Margo R. Zink, R.N., Ed.D. Alumna from Connecticut Nursing Educator

## 115. Liberal Studies Project (2)

Prerequisite: senior standing. A tutorial in a public school. Students will utilize previous liberal studies coursework to enhance the academic progress of public school students identified as "at risk" of school failure. One hour lecture weekly, plus two hours weekly tutorial in the public schools.

## 155A. Student Teaching

in Secondary School (5)
Prerequisites: admission to the Single Subject Credential Program; ERF 151, 152, and CTET 159 must be taken prior to or concurrently with EHD 155A. Student teaching in middle school under clinical supervision; assignment requires 3 hours per day, Monday through Friday. $C R / N C$ grading only. (Instructional materials fee, \$15) (Former T Ed 155A)
155B. Student Teaching in
Secondary School (5 or 10; max total 10) Prerequisites: admission to student teaching; EHD 155A, CTET 161 (or concurrent); senior standing; approval of major department; completion of waiver program or passing of appropriate National Teachers Examination. Student teaching in a sec-
ondary school under clinical supervision; minimum 150 hours for each 5 units. CR/ NC grading only. (Former T Ed 155B)
155C. Student Teaching
in Secondary School (12)
Not open to students with credit in EHD 155B. Prerequisites: admission to student teaching; EHD 155A, CTET 161 (or concurrent); senior standing; approval of major department; completion of waiver program or passing of appropriate National Teachers Examination. Student teaching in a secondary school under clinical supervision; minimum 360 hours. CR/NC grading only. (Former T Ed 155C)

## 160A. Student Teaching

in Elementary School (6)
Prerequisites: admission to the Multiple Subject Credential Program; completion of all requirements for admission to student teaching. Supervised teaching in public school classrooms; assignment requires a minimum of one-half day, five days per week. CR/NC grading only. (Instructional materials fee, \$5) (Former T Ed 160A)
160B. Student Teaching
in Elementary School (6)
Prerequisites: admission to the Multiple Subject Credential Program; completion of all requirements for admission to student teaching. Supervised teaching in public school classrooms; assignment requires a minimum of one-half day, five days per week. Assignment also requires two weeks of full-time teaching. $C R / N C$ grading only. (Instructional materials fee, \$5) (Former T Ed 160B)
160C. Student Teaching
in Elementary School (12)
Prerequisites: admission to the Multiple Subject Credential Program; completion of all requirements for admission to student teaching. Supervised teaching in public school classrooms; assignment is daily for a full school day. Assignment also requires two weeks of full-time teaching. CR/NC grading only. (Instructional materials fee, \$10) (Former T Ed 160C)

## 180T. Topics in Education and

 Human Development (1; max total 9) Issues and topics in education and human development. (Former T Ed 180T)
## IN-SERVICE COURSES

(See Course Numbering System.)

## Education and Human Development (EHD)

Note: EHD 306, 316, and 326 are equivalent to the CSU consortium courses Designated Subjects 306, 316, and 326. They satisfy specified requirements for the Designated Subjects Credential for Adult and Vocational Education.

## 306. Foundations of

Adult/Vocational Education (3)
Scope and function of adult education, curriculum principles and practices, instructional techniques and media, student and instructional evaluation; applicable on a B.S. degree in Vocational Education. (Former T Ed 306)

## 316. Seminar in

Adult/Vocational Education (3)
Prerequisite: EHD 306. Community and occupational relationships, work experience, counseling and guidance, leadership development, community and cultural differences; applicable on a B.S. degree in Vocational Education. (Former T Ed 316)

## 326. Independent Study in

Adult/Vocational Education (3)
Prerequisite: EHD 316. Individually prescribed assignments in terms of candidate's educational and occupational background and teaching field; applicable on a B.S. degree in Vocational Education. (Former T Ed 326)
328. Techniques of Teaching (4)

For the part-time Ryan Designated Subject credential candidate. Learning processes, curriculum and media, instructional techniques and practices, and evaluation of student achievement. This course will not be accepted for degree credit. (Former T Ed 328)

353. Curriculum Problems and Practices (1-3; max total 12 if no topic repeated) Prerequisite: teaching credential. Individual or group projects in curriculum analysis, implementation, and evaluation; implications of individual differences and environmental factors. Written report required. May not be applied to a master's program. (Former T Ed 353)
361. General Methods of Teaching (3) Basic principles of teaching and application to the classroom; implications of methods for classroom management, motivation, pupil behavior, and reporting to parents; preparation of instructional plans and evaluation instruments. (Former T Ed 361)

## 363F. Fieldwork in Curriculum

(1-3; max total 6 if no project repeated) Prerequisite: regular credential or recommendation of the principal. Special projects in curriculum implementation and evaluation. Individual or group projects. Written report submitted to instructor and school district (individual or group conference; hours arranged). (Former T Ed 363F)

## 381. Planning and

Organizing Outdoor Education (3)
Prerequisite: teaching experience. Role of the public school in promoting learning opportunities outside the classroom; outdoor science, conservation, education, health and safety, group living, camp work experience, and nature study; responsibilities of classroom teachers for outdoor leadership. (Seminar, lab, field trips) (Former T Ed 381)

## 395. Supervision of Student

Teachers (2; max total 4)
Prerequisites: postbaccalaureate standing, teaching experience. Supervision and evaluation of student teachers; role of the supervising classroom teacher, college supervisor, and other personnel. CR/NC grading only. (Former T Ed 395)

## EDUCATION Counseling and Special Education

School of Education and
Human Development
Department of Counseling and Special Education
H. DAN SMITH, Chair

Education Annex, Room 105
(209) 278-2271
M.A. in Education

Counseling and Student Services Option
Pupil Personnel Services Credential
M.S. in Counseling Options:
Career Development Counseling Marriage, Family and Child Counseling
M.S. in Rehabilitation Counseling
M.A. in Special Education

Specialist Credentials:
Learning Handicapped Severely Handicapped

TThe Department of Counseling and Special Education offers programs and master's degrees in the areas of counseling, rehabilitation counseling, and special education. The programs utilize the services and facilities of community agencies and school districts within the university service area.
Counseling. Three master's degrees are available in the field of counseling: the Master of Arts in Education with an option in counseling and student services; the Master of Science in Counseling with options in: 1) career development counseling and 2) marriage, family and child counseling; and the Master of Science in Rehabilitation Counseling.
The M.A. degree in Education is a 30 -unit program for individuals seeking advanced preparation for careers in school counseling (grades K-12) or student services in higher education.
The M.S. in Counseling degree is a $60-$ unit program designed for persons who desire professional preparation for the practice of: 1) career development counseling or 2) marriage, family and child counseling in agency or private settings.
The M.S. in Rehabilitation Counseling is a 60 -unit program designed for persons who desire professional preparation to work in agency or private settings assisting those who are physically, mentally, or emotionally disabled to reach optimal occupational, personal, and social adjustment.

The Pupil Personnel Services Credential Program is a 36 -unit program that provides preparation for individuals who desire to function as school counselors in grades K-12.

Special Education. The Master of Arts in Special Education is awarded after completion of a minimum of 30 units. This degree provides opportunities for the development of special skills needed for the teaching of special populations including the learning handicapped and the severely handicapped.
The Special Education Program provides preparation for two Special Education Specialist Credentials including Learning Handicapped and Severely Handicapped. Persons desiring to work with these unique populations in a school setting (grades K-12) must possess the appropriate Special Education Specialist Credential.

## Career Opportunities

Completion of the Pupil Personnel Services Credential and the M.A. in Education with an option in counseling and student services qualifies graduates to work in a public school setting, or at the community college or university level in the areas of counseling and student services. Persons completing the M.S. in Counseling with an option in career development counseling may obtain employment with private, agency, or government career counseling/employment development centers, and in community college or university settings.

Completion of the M.S. in Counseling with an option in marriage, family and child counseling may qualify for employment in private or agency counseling practices, county mental health programs, employee assistance programs, drug and alcohol abuse centers, and hospital mental health settings. The M.S. in Counseling with an option in marriage, family and child counseling may fulfill the educational requirements for the state of California Marriage, Family and Child Counselor License.
Persons completing the M.S. in Rehabilitation Counseling may become employed in a variety of work settings including state and federal vocational rehabilitation programs, sheltered workshops, medical rehabilitation centers, private practice, drug and alcohol abuse rehabilitation programs, county and private mental health programs, community college and university disabled student programs, industry alcohol/ industrial accident/employee assistance programs, and insurance company rehabilitation programs. Students in the M.S. in Rehabilitation Counseling program may, during their final semester of study, qualify to take the exam to become a Certified Rehabilitation Counselor (CRC).
Persons completing the M.A. in Special Education and a Special Education Specialist Credential may seek employment in public school programs, clinics, resource classrooms, educational programs, hospitals, and other agencies serving persons with special needs.

## Credential

## Program Requirements

The Department of Counseling and Special Education offers programs leading to credentials in the fields of counseling and special education. Credential programs include: Counseling: Pupil Personnel Services Credential; Special Education: Special Education Specialist Credential with an emphasis in Learning Handicapped or Severely Handicapped.

## Counseling

Pupil Personnel Services Credential School Counseling. The Pupil Personnel Services Credential is required to function as a counselor in a public school setting, grades K-12.
Admission Deadlines. Students seeking summer or fall enrollment must complete all admission requirements by March 1. Students seeking spring enrollment must complete all admission requirements by October 1.
Admission Requirements. Applicants for the Pupil Personnel Services Credential must complete the admissions packet as specified in the General Admission Requirements in the Education - Graduate Program section. In addition to these requirements, applicants must:

1. Include the following with the admissions packet:
a. Verification of attendance at a counselor education program orientation
b. Verification of having completed the Sixteen Personality Factor Questionnaire ( 16 PF ) with provision to forward scores to the School of Education and Human Development
c. Evidence of having passed the California Basic Educational Skills Test (CBEST)
d. A current medical clearance
e. A valid Certificate of Clearance to participate in public school field placement activities
2. Complete prerequisite coursework: COUN 174 (Introduction to Counseling) and ERF 153 (Educational Statistics) or equivalent.
3. Receive approval through a review by a program faculty committee. Following receipt of the completed packet and the review by program faculty, applicants will receive written notification regarding admission status.
Program Requirements. Candidates for the Pupil Personnel Services Credential who have been approved by the Program Faculty Review Committee for admission to the program and who want to be recommended for the credential must meet the following program requirements:
4. Completion of COUN 200, 201, 202, 203, 220, 240, 241, 249A, 249B, 280T; Psych 153
5. Completion of practicum and field practice with a grade of $\boldsymbol{B}$ or better
6. Pass the competency exit review

Note: Students may not enroll in 200-level courses until their application has been approved by the Program Faculty Review Committee and they have been admitted to the credential program.
Pupil Personnel Services Credential School Psychology. See Psychology Department.

## Special Education

Special Education Specialist Credential. The Special Education Credential Program offers preparation for teaching in areas of learning handicapped and severely handicapped.
An emphasis in Career/Vocational Education is available to all special education credential candidates; see the coordinator of special education for details.
All individuals making application for a Special Education Specialist Credential are also required to concurrently make application for the Master of Arts degree in Special Education.
Admission Requirements. Applicants for a Special Education Specialist Credential must meet the following requirements for admission to the program:

1. Complete application for postbaccalaureate standing at CSU, Fresno.
2. Complete application for admission to a School of Education and Human Development graduate program.
3. Possess an undergraduate GPA that falls within the upper 50 percent of undergraduate students in the candidate's discipline on the campus. Students who have completed postbaccalaureate work must possess a minimum GPA of 3.0 on these units.
4. Complete a statement of purpose.
5. Obtain three letters of recommendation.
6. Complete prerequisites including: SPED 160, 160F (1 unit), 170 for Learning Handicapped program applicants only or 175 for Severely Handicapped program applicants only, and ERF 153.
7. Arrange for an interview with the program coordinator to: a) develop an approved program and b) be assigned an adviser.
8. Provide evidence of having passed the California Basic Educational Skills Test (CBEST).
9. Receive approval through a review by a program faculty committee.
Program Requirements. Candidates for the Special Education Specialist Credential who have been admitted to the program and who want to be recommended for authorization must meet the following requirements:
10. Completion of a basic teaching credential
11. Permission of the special education faculty prior to enrollment in 200-level courses
12. Completion of required courses for the desired area of specialization:
a. Learning Handicapped (learning disabled, behaviorally disturbed, and educable mentally retarded): SPED 201, 202, 210, 211, 213, 215, 218, COUN 240.
b. Severely Handicapped (severely mentally retarded, severely emotionally disturbed or autistic, and multiple handicapped): SPED 201, 202, 220A, 220B, 221A, 221B, 222, 228, COUN 240.
13. Completion of practicum and fieldwork with a grade of $\boldsymbol{B}$ or better
14. Pass the competency exit review

## Notes

1. Individuals must possess a minimum graduate GPA of 3.0 prior to enrollment in SPED 218 or 228.
2. Individuals wishing to enroll in fieldwork or supervision courses - SPED 160F (when not taken the same semester as SPED 160), 190, 208, 218, 220B,

221B, 228, 290, 298-must contact and receive permission from the coordinator of special education the semester prior to enrolling in the course.

## Graduate Programms

The Department of Counseling and Special Education offers programs leading to a Master of Arts degree in Education with an option in counseling and student services; a Master of Science degree in Counseling with options in career development counseling and marriage, family and child counseling; a Master of Science degree in Rehabilitation Counseling; and a Master of Arts degree in Special Education.
Candidates who qualify for a preliminary teaching credential with completion of a bachelor's degree program may, with prior approval, use a master's degree program to satisfy the fifth-year requirements for a clear teaching credential.

## Master of Arts <br> Degree in Education <br> Counnseling and Student Services

The Master of Arts degree in Education with an option in counseling and student services is designed for individuals seeking advanced preparation for careers within educational settings.
Admission Requirements for Classified Standing. See General Admission Requirements in the Education - Graduate Program section in this catalog.
Admission Deadlines. Students seeking classified standing (full admission) for summer or fall enrollment must complete all admission requirements by March 1. Students seeking classified standing for spring must complete all admission requirements by October 1.
Admission Requirements. Applicants for admission to the Master of Arts degree in Education with an option in counseling and student services must complete the admissions packet as specified in the General Admission Requirements in the Education - Graduate Program section. In addition to these requirements, applicants must:

1. Include the following with the admissions packet:
a. Verification of attendance at a counselor education program orientation
b. Verification of having completed the Sixteen Personality Factor Questionnaire ( 16 PF ) with provision to forward scores to the School of Education and Human Development
2. Complete prerequisite coursework: COUN 174 (Introduction to Counseling) and ERF 153 (Educational Statistics) or equivalent.
3. Receive approval through a review by program faculty committee. Following receipt of the completed packet and the review by program faculty, applicants will receive written notification regarding admission status.
Note: Students may not enroll in 200-level courses until their application has been approved by the review committee and they are admitted to classified standing (fully admitted to the program).

## Master of Science Degree in Rehabillitation Coumseling

The Master of Science Degree in Rehabilitation Counseling assumes undergraduate preparation in psychology or counseling or a closely related area. A baccalaureate degree in an unrelated area is acceptable provided the student has a working knowledge of the behavioral sciences. The degree requires 60 units of credit and is designed to cover two years of full-time coursework, including a full semester of internship. The program provides a combination of classroom and practical field experiences, which integrates theory and practice of rehabilitation counseling in a rehabilitation setting. The curriculum has flexibility to meet varying student needs.
The graduate program in rehabilitation counseling is accredited by the Council on Rehabilitation Education (CORE). Students are eligible to take the exam to become a Certified Rehabilitation Counselor (CRC) during the last semester of study.
Admission Requirements for Classified Standing. See General Admission Requirements in the Education - Graduate Program section of this catalog.

Admission Deadlines. Students seeking classified standing (full admission) for summer or fall enrollment must complete all admission requirements by March 1 . Students seeking classified standing for spring must complete all admission requirements by October 1.
Admission Requirements. Applicants for admission to the Master of Science degree in Rehabilitation Counseling must complete the admission packet as specified in the General Admission Requirements in the Education - Graduate Program section. In addition to these requirements, applicants must:

1. Include the following with the admissions packet:
a. Verification of attendance at a counselor education program orientation
b. Verification of having completed the Sixteen Personality Factor Questionnaire (16PF) with provision to forward scores to the School of Education and Human Development
2. Complete COUN 250 and 251 with a grade of $\boldsymbol{B}$ or better in each class.
3. Receive approval through a review by a program faculty committee. Following receipt of the completed packet and review by program faculty, applicants will receive written notification regarding admission status.
Note: Students may not complete more than 10 units of 200 -level coursework before obtaining classified standing (full admission to the program).
Program Prerequisites. ERF 153 (Educational Statistics), Psych 154 (Personality) or 250 T (Seminar in Personality), and Psych 166 (Abnormal Psychology) or their equivalents. Program prerequisites may not be counted toward the Master of Science degree in Rehabilitation Counseling.
Course Requirements. Under the direction of the graduate adviser, each student prepares and submits an individually designed program within the following framework:

## COURSES

Note: Students must provide their own transportation to off-campus sites for student teaching, field work, and observation and defray any resulting personal expense.

## Counselor Education (COUN)

100. Career/Life Planning (3)

An examination of the career development process with an emphasis on assisting students to explore their interests through self-assessment, career exploration, and development of techniques for placement readiness. $C R / N C$ grading only.
(Course fee for assessment materials, approximately $\$ 5-\$ 10$ ) (Former A S 100)
150. Laws Relating to Children (3)

Current and proposed legislation in par-ent-child relationships, adoption, and guardianship, education of the minor, marriage contract, child labor, juvenile delinquency, and child welfare programs. (Former A S 172)
174. Introduction to Counseling (3) (Same as Psych 174.) An overview of basic counseling models, including psychoanalytic, behavioral, cognitive, and humanistic approaches. Includes a personal counseling experience. (Former A S 174)
176. Counseling and Mental Health (3) Examination of the relationship between counseling and mental health with emphasis on current issues of adjustment in society. Explores psychopathology within the framework of the DSM-III-R. (Former A S 118)

## 180T. Topics in Counseling

(1-3; 12 if no area repeated)
Prerequisite: permission of instructor. Seminar covering special topics relating to counseling: new developments in counseling techniques, special populations, and current research. (Former A S 185T)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Former A S 190)

## GRADUATE COURSES

(See Course Numbering System.)

## Counselor Education (COUN)

200. Seminar in

Counseling Techniques (3)
Prerequisite: COUN 174 or 250. Emphasis given to interviewing skills, philosophy, theory, and methodology as applied to counseling. (2 seminar, 2lab hours) (Former A S 224)
201 Seminar in Multicultural
Aspects of Counseling (3)
Prerequisite: COUN 174 or 250 . Cognitive and experiential study of social and psychological variables which influence the cross-cultural counseling relationship. Culturally relevant models of counseling theory and practice are explored. Current research methods and findings are presented. ( 2 seminar, 2 lab hours) (Former A S 221)

## EDUCATION - Counseling and Special Education

202. Seminar in Group Counseling (3) Prerequisite: COUN 174 or 250 . Theories and methods of interpersonal communication within groups, transferal of information, group leadership and membership, role perceptions, verbal and nonverbal interaction, and group counseling. (2 seminar, 2 lab hours) (Former A S 228)
203. Seminar in

Assessment in Counseling (3)
Prerequisite: ERF 153. Selection, administration, and evaluation of psychological tests and psychometric data for use in counseling settings. (2 seminar, 2 lab hours) (Course fee for assessment materials, approximately $\$ 5-\$ 10$ ) (Former A S 227)

## 204. Seminar in

Counseling the Older Adult (3)
Prerequisite: COUN 200. Study of counseling philosophy, theory, methodology, and skills applicable to problems of the older adult. (2 seminar, 2 lab hours) (Former AS 229)
205. Seminar in Advanced Theories and Techniques in Counseling (3) Prerequisite: COUN 200. Emphasis on philosophy, theory, and methodology as applied to Gestalt and behavioral approaches to counseling. (2 seminar, 2 lab hours) (Former A S 225)

## 208. Practicum in

Counseling (4; max total 8)
Prerequisites: 12 units in counseling program, including COUN 200. Supervised on-campus counseling experiences with

selected clients. Experience in individual counseling, critiquing of tapes and typescripts, observations, and case report writing. Students must carry professional liability insurance. (2 seminar, 4 lab hours) (Former A S 231)

## 218. Practicum in Group

Counseling (4; max total 8)
Prerequisites: COUN 202, 208, and permission of instructor. Supervised on-campus group counseling experience with selected small groups. Experience in group leadership and group counseling. (2 seminar, 4 lab hours) (Former A S 234)

## 220. Seminar in Career

Development Theory (3)
Prerequisite: COUN 174. Examination of career development theories and research for their implications in understanding career development generally and career counseling specifically. (2 seminar, 2 lab hours) (Course fee for assessment materials, approximately $\$ 5-\$ 10$ ) (Former A S 222)

## 221. Seminar in Career

Counseling: Methods and Materials (3)
Prerequisites: COUN 174, 220. Develop knowledge and skills necessary to facilitate career assessment, decision-making, and job-seeking activities of students and other clientele. (2 seminar, 2 lab hours) (Course fee for assessment materials, approximately $\$ 5-\$ 10$ ) (Former A S 232)
228. Practicum in Career Development Counseling (4; max total 8) Prerequisites: COUN 208, 220, and permission of instructor. Supervised counseling

experiences in vocational career development. (Former A S 235)
230. Seminar in Theories of Marriage, Family and Child Counseling (3) Prerequisite: COUN 174. Study of theories, techniques, and methodology of counseling with families. Current research and methods are presented. ( 2 seminar, 2 lab hours) (Former A S 223)

## 231. Seminar in Professional Practices of Marriage, Family and Child Counseling (3)

Prerequisites: COUN 200, 230, and permission of instructor. Analysis of separation, divorce, and relation dissolution, family law and legal issues in counseling practice; diagnosis of client and family disorders; family practice and third party payments. (2 seminar, 2 lab hours) (Former A S 236)
238. Practicum in Marriage, Family and Child Counseling (4; max total 8) Prerequisites: COUN 208, 230, 231, and permission of instructor. Supervised MFCC counseling experiences involving selected families, couples, and/or children. Students must carry professional liability insurance. (Former A S 233)
239. Field Practice in

Professional Services
Counseling (3-12; max total 12)
Prerequisites: 40 units in counseling program, including COUN 200 and 208. Designed for students wishing to do field practice in professional counseling services, including, but not limited to, agencies,

colleges, and universities. Supervised placement. Typically requires a one-year commitment. Students must carry professional liability insurance. Approved for $S P$ grading. ( 150 hours of field practice required for 3 units of credit) (Former AS 238)

## 240. Seminar in

Counseling of Exceptional
Children and Their Parents (3)
Theories and techniques in working with parents of exceptional children; emphasis placed on individual and group counseling skills with parents; direct contact with families, case study, and current legislation. (2 seminar, 2 lab hours) (Former A S 230)

241, Seminar in Organization
of Counseling Services (4)
Prerequisite: COUN 200. Organization, administration, and evaluation of counseling programs. (2 seminar, 4 lab hours) (Former A S 226)

## 249A. Field Practice in Elementary

School Counseling (4-8; max total 12)
Prerequisites: COUN 200 and permission of instructor. Supervised practice in an elementary school. Students must carry professional liability insurance. Approved for $\boldsymbol{S P}$ grading. ( 160 hours of field practice required for 4 units of credit) (Former A S 237A)

## 249B. Field Practice

## in Middle or High School

Counseling (4-8; max total 12)
Prerequisites: COUN 200 and permission of instructor. Supervised practice in middle or high schools. Students must carry professional liability insurance. Approved for $S P$ grading. ( 160 hours of field practice required for 4 units of credit) (Former A S 237B)

## 249C. Field Practice in

Student Services (4-8; max total 12)
Prerequisites: COUN 200 and permission of instructor. Supervised practice in a community college, college, or university. Students must carry professional liability insurance. Approved for SP grading. (160 hours of field practice required for 4 units of credit)

## 250. Seminar in

Rehabilitation Counseling (3)
Seminar in the fundamental concepts of rehabilitation counseling and vocational rehabilitation including examination and analysis of historical, philosophical, orga-
nizational, and functional principles. Community rehabilitation agency or orientation visits. (Former R C 201)
251. Medical Aspects of Disability (3)

Seminar in the treatment of disabling conditions including etiology, functional limitations, and vocational implications. Student presentation of case studies. (Former R C 211)
252. Job Placement in the

Rehabilitation Process (3)
An experiential seminar concerning the attitudes, skills, and abilities necessary to provide effective vocational and job placement services to the disabled, including vocational diagnosis, job development, placement techniques, job analysis, affirmative action, and appropriate legislation. (2 seminar, 3 lab hours) (Former R C 203)

## 253. Psychological and

Social Aspects of Disability (3)
Seminar in psychological and sociological effects of physical and mental disability and the dynamics of adjusting to disabling conditions. Student presentation of case studies. (Former R C 212)
257. Case Practices in

Rehabilitation Counseling (4)
Prerequisites: COUN 250, 251. Seminar in methods for facilitating client rehabilitation including interviewing, caserecording, plan development, ethical practices; field placement in a community rehabilitation agency; and student case presentations. (2 seminar, 6 lab hours) (Former R C 221)

## 258. Rehabilitation Counseling

Practicum (4; max total 8)
Prerequisites: COUN 200, 250, 251, 252, 253,257 . Laboratory rehabilitation counseling experiences with clients who are disabled, supervised individual counseling sessions, analysis of the effects of disability on personal and vocational development, methods of facilitating vocational rehabilitation, observations, critiques, report writing. Students must carry professional liability insurance. (2 seminar, 4 lab hours) (Former R C 241)
260. Current Professional Issues in Rehabilitation Counseling (3)
Prerequisites: COUN 250, 251. Seminar on current professional issues in the field of rehabilitation counseling and vocational rehabilitation programs in the public and private sectors with emphasis on ethical standards, legal concepts, and professional development responsibilities.

## 261. Rehabilitation of

the Severely Disabled (3)
Prerequisites: COUN 250, 251. Seminar on strategies to facilitate the vocational rehabilitation of persons with severe disabilities with emphasis on the principles of independent living, supported employment, client assistance programs, and rehabilitation engineering/technology.

## 269. Internship in <br> Rehabilitation Counseling (12)

Prerequisites: COUN 200, 202, 203, 250, $251,252,253,257,258,260,261$, permission of instructor. Full-time, supervised field placement in one of a variety of settings including case responsibilities. CR/ NC grading only. (Former R C 296)
280T. Advanced Topics in Counseling (1-3; max 12 if no topic is repeated) Prerequisites: postbaccalaureate standing and permission of instructor. Topics may include new developments in counseling techniques, rehabilitation counseling practices, special populations, and current research. (Former A S 281T; R C 251T)
290. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Former A S 290; R C 290)
298. Project (4)

Prerequisites: advancement to candidacy for the master's degree; $\boldsymbol{B}$ average on 24 units of the master's program including ERF 220. See Criteria for Thesis and Project. A project consists of a significant undertaking appropriate to counseling such as the development of a program for counseling service delivery, development of audiovisual materials or computer software for counselor education or service delivery. An approved proposal is required for enrollment. Approved for SP grading. (Former A S 298A)
299. Thesis (4)

Prerequisites: advancement to candidacy for the master's degree; $\boldsymbol{B}$ average on 24 units of the master's program including ERF 220 and completion of an acceptable thesis proposal. See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. See School of Education and Human Development's graduate programs coordinator for school thesis guidelines. Approved for $\boldsymbol{S P}$ grading. (Former A S 299; R C 299)

## IN-SERVICE COURSES

(See Course Numbering System.)

## Counselor Education (COUN)

303. Human Interaction in Counseling (1-3; max total 12 if no topic repeated) An exploration of human interaction skills. The course is designed to improve the ability to interact with others. Not applicable toward degree requirements. (Former R C 303)

## 380T. Topics in Counseling

(1-3; max total 12 if no topic repeated) Selected areas in counseling; placement skills, vocational evaluation, research, medical history, case management, mental health, counseling strategies, and theoretical orientation. Not applicable toward degree requirements. (Former R C 333T)

## COURSES

Special Education (SPED)
160. Mainstreaming

Exceptional Students (2)
Prerequisites: ERF 130 or 152 and EHD 110 or 155 A ; or permission of instructor. Introduction to identification of differentiating characteristics in exceptional students. Comprehensive review and analysis of contemporary practices in mainstreaming exceptional pupils. Introduction to federal and state legislative mandates pertinent to nondiscriminatory assessments, parental involvement, and individualized education plans (IEPs). (Former A S 111)
160F. Fieldwork in Special
Education (1-3; max total 12)
Prerequisite: permission of instructor. Supervised observation and participation in selected programs for exceptional children; educational planning, guidance and counseling. (Former A S 115F)

## 170. Introduction to Teaching

Learning Handicapped Students (4)
Prerequisite: SPED 160 or equivalent. Introduction to theories, programs, and methods of educating students with learning handicaps. (2 seminar, 4 lab hours) (Former A S 170)
175. Introduction to Teaching Severely Handicapped Students (4)
Prerequisite: SPED 160. Introduction to individual characteristics, curriculum issues, and strategies applicable to the education of children with severe handicaps. (2 seminar, 4 lab hours) (Former A S 171)

## 190. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Former A S 190)

## GRADUATE COURSES

(See Course Numbering System.)

## Special Education (SPED)

## 201. Seminar in

Behavior Management (4)
Prerequisite: SPED 160 or equivalent. Behavior management principles, effective discipline, programs, and techniques employed in special education and clinical prescriptive teaching. Emphasis on school and home applications. (2 seminar, 4 lab hours) (Former A S 242)
202. Career Education for

Handicapped Students (4)
Prerequisite: SPED 160 or permission of instructor. Seminar in the examination of career education; models, curriculum scope and sequence, transitional approaches to independent living, and the utilization of local, state, and federal resources. (2 seminar, 4 lab hours) (Test materials fee, approximately \$5-\$10) (Former A S 253)

## 208. Practicum/Clinic:

Career Education for the
Handicapped (3-9; max total 9)
Prerequisites: SPED 202 and permission of instructor. Clinical experience in private and public agencies involved with vocational/career training for the handicapped workevaluation and job training programs supervised by university personnel. (Former A S 249)
210. Motor, Sensory, and Perceptual Abilities (4)
Prerequisite: SPED 160 or equivalent. Seminar in the special education of persons who are learning handicapped with psychomotor disabilities such as hyperkinesis, visual or auditory deficits, and dyslexia. Diagnostic-prescriptive programming and critiques required. (2 seminar, 2 lab hours) (Former A S 243)

## 211. Assessment of Learning

Handicapped Students (4)
Prerequisites: ERF 153; SPED 160, 170. Review of testing techniques and instruments, and development of psychoeducational reports. Extensive independent child study and evaluation with appropriate diagnostic instruments. (2 seminar, 4 lab hours) (Course fee for assessment materials, approximately \$5-\$10) (Former A S 245)
213. Social and Affective Education (3) Prerequisite: SPED 160 or equivalent. Seminar. Development and remediation of social skills and affective abilities. Model programs for normal children and prescriptive interventions for those with social and personal behavior disorders. ( 2 seminar, 2 lab hours) (Former A S 248)

## 215. Seminar in Curriculum for

Learning Handicapped Students (4)
Prerequisites: SPED 160, 170, 210, 211. Current and effective instructional practices in the curricular areas of language arts, mathematics, social studies, and science for learning handicapped students; emphasis on the integration of cognitive strategies and advanced technology. (2 seminar, 2 lab hours) (Former A S 246)

## 216. Organization and

Supervision of Special Education (3)
Prerequisite: SPED 160 or permission of instructor. Seminar in the organization, financing, housing, equipping, staffing, and supervision of the special education program; desirable educational provisions for each type of exceptionality; legal provisions for special education including curriculum development, in-service education, and teacher-pupil relationships. (Former A S 244)

## 218. Practicum in Special

Education: Learning Handicapped (5) Prerequisites: ERF 153; SPED 160, 160F, 170, 210, 211; prior and/or simultaneous enrollment in a maximum of 12 units in the following courses: SPED 201, 202, 213, 215; COUN 240. Clinical experience in diagnosis and evaluation of the learning handicapped, prescriptive program development, prescriptive instruction, and program management. Experience to include data gathering, program planning and execution, evaluation, and consultation. (Former A S 256)
220A. Assessment of Severely Handicapped Students (3)
Prerequisites: SPED 160, 175. Concurrent enrollment in SPED 220B required. Presentation of assessment strategies and methods used to identify severely handicapped students' current levels of educational performance across school and community-based curriculum domains. Emphasis is upon assessment practices which contribute data to the design of appropriate individualized education plans. (2 seminar, 2 lab hours) (Former A S 250A)
"Good teaching is a talent, like fine painting and beautiful music. Some people can learn to do it well and some can't."
Charlotte Hiatt
Professor, Information Systems
and Decision Sciences and Decision Sciences

220B. Practicum in Assessment of Severely Handicapped Students (3) Prerequisites: SPED 160, 175. Concurrent enrollment in SPED 220A required. Supervised, field-based experience in educational assessment strategies used to plan individualized instructional programs and services. (Former A S 250B)
221 A . Instructional Methods for Severely Handicapped Students (3)
Prerequisites: SPED 160, 175, 220A, 220B. Concurrent enrollment in SPED 221B required. Presentation of instructional approaches, methods and techniques for teaching school and community-based curriculum content. Emphasis is upon educational practices which contribute to the design, implementation, and evaluation of appropriate individualized education programs and services. ( 2 seminar, 2 lab hours) (Former A S 251A)

## 221B. Practicum in Instruction of

 Severely Handicapped Students (3)Prerequisites: SPED 160, 175, 220A, 220B. Concurrent enrollment in SPED 221A required. Supervised, field-based experience ininstructional methods andstrategies used to implement and evaluate individualized educational programs. (Former A S 251B)

222. Seminar in Special Education for Severely Handicapped Students (3) Prerequisites: SPED 160, 175; prior or concurrent enrollment in 220A and 220B or 221A and 221B. Analysis of contemporary educational practices, policies, and issues effecting the organization and provision of appropriate programs and related services for severely handicapped students from preschool through young adulthood. Review of selected research literature. (Former A S 254)
228. Advanced Practicum in Special Education for Severely
Handicapped Students (4)
Prerequisites: ERF 153; SPED 160, 175, $220 \mathrm{~A}, 220 \mathrm{~B}, 221 \mathrm{~A}, 221 \mathrm{~B}$; prior or concurrent enrollment in SPED 201, 202, COUN 240. Supervised, field-based experience in advanced teaching methods and procedures for integrating required competencies in the areas of program organization, management of teaching environments, skill assessment and instructional planning, behavior management, IEP implementation, program evaluation, teacher and parent consultation, microtechnology, and continuing professional development. (Former AS 255)

280T. Advanced Topics in Special
Education (1-3; 12 if no area is repeated)
Prerequisites: postbaccalaureate standing and permission of instructor. Topics may include special education legislation, parenting, transitional programming, parents as teachers, adolescents and adults with disabilities, current research, child abuse, gifted and talented. (Former A S 280T)
290. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
298. Project (4)

Prerequisites: advancement to candidacy for the master's degree; $\boldsymbol{B}$ average on 24 units of the master's program including ERF 220. See Criteria for Thesis and Project. A project consists of a significant undertaking appropriate to special education such as the development of courses of study, instructional manuals, teachers' guides, intervention programs, and computer software. An approved proposal is required for enrollment. Approved for $S P$ grading. (Former A S 298C)

## 299. Thesis (4)

Prerequisites: advancement to candidacy for the master's degree; $\boldsymbol{B}$ average on 24 units of the master's program including ERF 220 and completion of an acceptable thesis proposal. See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. See School of Education and Human Development's graduate programs coordinator for school thesis guidelines. Approved for $\boldsymbol{S P}$ grading. (Former A S 299)

## IN-SERVICE COURSE

(See Course Numbering System.)

## Special Education (SPED)

380T. Topics in Special
Education (1-3; max total
12 if no topic repeated)
Selected areas in special education; identification of exceptional students, assessment of learning disabilities, focus on specific disabling conditions, instructional methods, parent involvement with handicapped students, federal and state legislation. Not applicable toward degree requirements.

## EDUCATION Curriculum, Teaching, and Educational Technology

Curriculum and Instruction Option

The primary mission of the Department of Curriculum, Teaching, and Educational Technology is the preparation and continuing education of K -12 educators, particularly teachers. Coursework and field experiences are designed to prepare teachers who are reflective thinkers, problem solvers, and decision makers to meet the challenges of teaching in a rapidly changing world characterized by social, economic, and cultural/linguistic diversity.
The coursework offers students opportunities to develop and refine their understanding of the teaching/learning process while experiencing the best of the world of practice. Additionally, educational technology coursework enhances their instructional effectiveness. Supervised field experiences along with instructional planning and evaluation techniques provide the foundation for productive and responsive teaching. In this context, all faculty promote teaching as a science and an art. Programs offered through the Department of Curriculum, Teaching, and Educational Technology are identified within two major categories: teaching credential programs and master's degree programs.

## Career Opportunities

CSU, Fresno is the focal point of the San Joaquin Valley. The city of Fresno is a large and growing urban/industrial and agricultural regional service area. This unique geographical position allows for ready access to a variety of school systems - large urban schools as well as many less populated school districts in predominantly rural settings. Recent statistical reports provide evidence that the area population is continuing to increase along with the number of school-aged children. This pattern of growth along with anticipated attrition from the teaching profession provides considerable evidence of a growing demand for classroom teachers, curriculum specialists, and other positions directly or indirectly related to the field of education.

[^24]
## Faculty

Bernice Bass de Martinez, Chair
Jolyne Daughtry, Coordinator of Single Sub-
ject Credential Program, (209) 278-6839
Joan Henderson, Coordinator of Multiple
Subject Field Placement, (209) 278-6839
David Lopez, Coordinator of Multiple Subject
Credential Program, (209) 278-6839
Susana Mata, Coordinator of Multiple
Subject Postbaccalaureate Block Program, (209) 278-5252

Mario L. M. Baca

Bernice A. Stone

The faculty represents a wide range of experience and specializations. Students are encouraged to meet frequently with their professors and advisers to discuss their progress and concerns. Individual attention is the concern of the faculty and support staff of the department.

## Credential Programs

A basic teaching credential may be earned in conjunction with a baccalaureate degree (preliminary credential) or following completion of a fifth-year course of study (clear credential). The two basic teaching credentials are the Multiple Subject Credential and the Single Subject Credential.
The Multiple Subject Credential holder is authorized to teach in self-contained classrooms from K-12. Most holders of the Multiple Subject Credential teach in elementary school settings. Programs include: - Multiple Subject - General
(See this section.)

- Multiple Subject - Early Childhood

Education (See this section and the Department of Literacy and Early Education.)

- Multiple Subject — Bilingual/CrossCultural Education (See this section and the Department of Literacy and Early Education.)
The Single Subject Credential holder is authorized to teach in the subject area of the credential in departmentalized classrooms typically found in middle school and senior high school settings. This credential is offered in: agriculture, art, business, English, English - speech, English-
drama, English-ESL, foreign languages (French, German, Russian* and Spanish), health science, home economics, industrial arts, life science, mathematics, music, physical education, physical science, and social science.
For information about the professional preparation component of the Multiple and Single Subject Credential programs, see this section. For information about the academic components of the Multiple Subject Credential, see the liberal studies major; for information about the academic component of the Single Subject Credential, see the appropriate department.

## State Admission Requirements

California Code of Regulations, Section 41100, mandates that for admission to a teaching credential program, the student must be assessed in terms of the following criteria:
Scholarship. The candidate shall have earned at the college level a grade point average that falls within the upper 50 percent of undergraduate students in the candidate's discipline division on the campus.
Prerequisite Courses and Field Experiences. The candidate shall havesuccessfully completed a supervised early field experience and other prerequisite courses and experiences prescribed by the campus.
Professional Aptitude. The candidate shall demonstrate suitable aptitude for teaching in the public schools. Aptitude is assessed through interviews, letters of recommendation, and a written statement of professional goals or philosophy.
Physical Fitness. The candidate shall satisfy the standards of physical fitness required by the StateCredentialing Agency.
Fundamental Skills. The candidate shall demonstrate proficiency in fundamental skills in written and spoken English, reading, and mathematics.
Personality and Character. The candidate shall demonstrate personality and character traits that satisfy the standards of the teaching profession.
Admission Exceptions. If a candidate has not met one or more admission requirements but possesses compensating strengths in other required areas, he or she may be granted conditional admission which must be cleared prior to admission to student teaching. The number of exceptions granted each year shall not exceed 15 percent of the total number of candidates admitted during the previous year.

## Multiple Subject

Credential Programs
Holders of Multiple Subject Credentials are authorized to teach in self-contained classrooms commonly found in elementary schools. The School of Education and Human Development offers the Multiple Subject Credential in cooperation with 45 otheruniversity academic departments. The cooperating departments are primarily responsible for developing subject matter competency which leads to the completion of the Liberal Studies Waiver Program and baccalaureate degree in liberal studies. The School of Education and Human Development offers required coursework in professional education.
Multiple Subject Academic Advisers. Jacques Benninga serves as coordinator of the liberal studies major. Academic advising for the liberal studies major is conducted by Carolyn Botta in the School of Education and Human Development Advising Office in EdP 111.
Multiple Subject Professional Preparation Adviser. David Lopez, coordinator of the Multiple Subject Credential Program, is located in the School of Education and Human Development's Advising Office in EdP 111 and serves as the adviser for the professional preparation component of the program.
Types of Multiple Subject Credentials. There are two types of multiple subject credentials - the Preliminary Multiple Subject Credential and the clear Multiple Subject Credential (fifth year).
A Preliminary Multiple Subject Credential provides authorization to teach in a self-contained classroom for a maximum time period of five years.
A Clear Multiple Subject Credential is required for full authorization in a selfcontained classroom. All requirements for a clear Multiple Subject Credential must be completed within five years of the date of issuance of the preliminary credential.

## Requirements for a Preliminary

## Multiple Subject Credential

1. Complete a 30 -unit core of professional education courses.
2. Demonstrate subject matter competence by:
a. Completing an approved Liberal Studies Waiver Program or passing the National Teacher Examination (NTE)

[^25]b. Receiving clearance from the academic adviser that subject matter competence has been met
3. Complete a bachelor's degree.

Preliminary Multiple Subject
Credential - General Requirements
for Initial Admission

1. Attend a Multiple Subject Credential Program orientation meeting.
2. Provide evidence of successful completion of an appropriate pre-program field experience or EHD 50, Introduction to Teaching.
3. Provide evidence of passing the California Basic Educational Skills Test (CBEST) by presenting a CBEST Permanent Verification card.
4. Complete an application to the credential program.
5. Verify admission to CSU, Fresno, with a student I.D. card or a Notice of Admission.
6. Provide a complete set of transcripts of all prior college/university coursework. Transcripts are used to verify a GPA that is in the top 50 percent of the applicant's major field of study or discipline.
7. Complete an Admission Interview Form and obtain interviews from two multiple subject credential faculty members.
8. Obtain a medical clearance at the University Health Center.
9. Obtain two completed Recommendation for Admission to Teacher Educa-
tion forms written by instructors, supervisors, or other individuals in a position to recommend for admission into a teacher education program.
10. Obtain appropriate clearance to teach in a public school by presenting a valid California Teaching Credential or applying for a Certificate of Clearance.
Required application materials and forms are available in the School of Education and Human Development's Admissions and Records Office in EdP 120. All admission requirements (forms, documents, prerequisites) must be completed prior to enrollment in professional program courses.

Timelines for initial admission to the Multiple Subject Credential Program are listed below. Application forms are available in the School of Education and Human Development's Admissions and Records Office in EdP 120.

|  | Application |  |

## Preliminary Multiple Subject <br> Credential - Requirements for

Admission to Student Teaching
Multiple Subject Credential candidates must qualify for admission to two distinct levels of student teaching: (1) Initial Student Teaching (EHD 110) and (2) Final Student Teaching (EHD 160A, B, and C).

Requirements for Admission to Initial Student Teaching (EHD 110)

1. Submit an EHD 110 application form by the specified deadline.
2. Complete all admissions requirements and receive notification of initial admission to the program.
3. Students must take ERF 130, Psychological Foundations of Education (3 units), ERF 140, Cultural Foundations of Education (3 units), CTET 150, Curriculum and Instruction in Elementary School (3 units), and LEE 156M, Reading in the Elementary School (3 units) concurrently with Initial Student Teaching (EHD 110). This is provided as a means to maximize the bridging of theory and practice. In certain circumstances because of work schedules and other obligations, students may take ERF 130 and 140 prior to Initial Student Teaching. However, CTET 150 and LEE 156M must be taken concurrently with Initial Student Teaching (except in Option II).

Timelines for admission to Initial Student Teaching (EHD 110) are listed below. Application forms are available in the School of Education and Human Development's Admissions and Records Office in EdP 120.

|  | Application |
| :---: | :---: |
| Semester Enrolled | Requirements Completed |
| Fall | April 1 |
| Spring | November 1 |

Requirements for Admission to Final Student Teaching (EHD 160A, B, and C*)

1. Submit an EHD 160 application form by deadline.
2. Successfully complete Initial Student Teaching (EHD 110).
3. Demonstrate subject matter competency by:
a. completing an approved Liberal Studies Waiver Program or passing the National Teacher Examination (NTE) Test of General Knowledge of the Core Battery
b. receiving clearance from the program faculty that subject matter competency has been met
4. Complete an approved program of professional preparation in a specific program option (see Program Option section) and maintain a GPA of 3.0.
5. Develop a fifth-year program and have it approved by the School of Education and Human Development fifth-year adviser.
6. If admitted as an exception with conditions, satisfy all conditions specified.
7. *Clarification: Students who elect to complete EHD 160 in two semesters must sign up for EHD 160A (6 units) and EHD 160B ( 6 units). Successful completion of EHD 160B must include two weeks of full-time student teaching. Successful completion of EHD 160C requires one full semester, all day, every day of student teaching.
Timelines for Admission to Final Student Teaching (EHD 160A, B, and C) are listed below. Application forms are available in the School of Education and Human Development's Admissions and Records Office in EdP 120.

## Application <br> Semester Enrolled Requirements Completed Fall <br> February 28 <br> Spring $\quad$ September 30

## Basic Teaching Credentials

Preliminary Multiple Subject Credential programs include:

- Option I, General and Bilingual/CrossCultural Emphasis
- Option II, Early Childhood Education Emphasis
-Option III, Communicative Disorders
- Option IV, Postbaccalaureate Block Program
Multiple Subject, General (Option I). The Option I, General Multiple Subject Credential Program is directed toward providing professional preparation required for teaching in self-contained educational settings (typically found in the elementary school).

## Program Requirements

1. Subject Matter Competency. Demonstrate subject matter competence through completion of the Liberal Studies Waiver Program or pass the NTE Test of General Knowledge and receive faculty certification of competence.
2. Professional Preparation Units
EHD 110 .......................................... 3

CTET 121 ............................................ 3

ERF 140 .............................................. 3
CTET 150 ........................................... 3
LEE 156M .......................................... 3
EHD 160 .......................................... 12
Totall ................................................ 30
3. Completion of a bachelor's degree. California law requires a bachelor's degree in a subject area other than professional education.
For more information, see the multiple subject coordinator in EdP 111.
Multiple Subject, emphasis in Bilingual/ Cross-Cultural Education (Option I). The Bilingual/Cross-Cultural Emphasis program is designed to prepare students to teach in bilingual/cross-cultural settings.

## Program Requirements

1. Subject Matter Competency. Demonstrate subject matter competence by completing the Liberal Studies Waiver Program, including the following courses: Area I (Ling 132 and 141); Area II (Span 104, 118, and 122); Area IV (CLS 116, 143, and 145) or pass the NTE Test of General Knowledge, the Bilingual Certificate of Competence Test and receive faculty certification of competence.

Totall .39
3. Completion of a bachelor's degree. California law requires a bachelor's degree in a subject other than professional education.
For more information, see the bilin-gual/cross-cultural coordinator in San Ramon 2-45C.
Multiple Subject, emphasis in Early Childhood Education-(Option II). The Early Childhood Education Emphasis program prepares students to teach in the elementary grades, with special strengths in early childhood education. This block program with fieldwork and student teaching in early childhood classrooms, preschool, kindergarten, primary, and intermediate grades enables the student to obtain a Multiple Subject Credential in a specific emphasis area. Students who elect to complete EHD 160 in two semesters must sign up for EHD 160A ( 6 units) and EHD 160B (6 units). Successful completion of EHD 160B must include two weeks of full-time student teaching.

## Program Requirements

3. Completion of a bachelor's degree. California law requires a bachelor's degree in a subject area other than professional education.
For more information about Option III, see Department of Communicative Disorders.
Multiple Subject, Postbaccalaureate Block Program (Option IV). The Option IV program is designed to meet the needs of the reentry student who has earned a bachelor's degree, has extensive work ex-
perience, and wishes to return to the university to obtain a Multiple Subject Credential to teach in an elementary school. Students selecting this option register in a block of courses taught by a team of instructors. Candidates participate in classes or field assignments throughout a two-semester course of study and teach in various school settings.
Program Requirements

1. Subject Matter Competency. Completion of a bachelor's degree with a major in a subject area other than professional education, pass the NTE Test of General Knowledge, and receive faculty certification of competence.
2. Professional Preparation: Units

EHD 110 ............................................. 3

3. Completion of a bachelor's degree. California law requires a bachelor's degree in a subject area other than professional education.
For more information see the Option IV coordinator in San Ramon 2-31.

## Clear Multiple Subject

## Credential Programs (Fifth Year)

The clear Multiple Subject Credential is required for full authorization to teach in a self-contained classroom in the state of California. To obtain this credential, the candidate must meet the following requirements:

General Requirements. (See Preliminary Multiple Subject Credential - General Requirements for Initial Admission.)
Requirements for Admission to Student Teaching. (See Preliminary Multiple Subject Credential - Requirements for Admission to Student Teaching.)

In addition to these requirements, the clear credential (fifth year) candidate must:

1. Complete an approved fifth-year program containing 30 units of upperdivision/graduate credit taken after completion of all bachelor's degree requirements.
2. Include at least 30 units of professional education in the total five-year credential program.
3. Complete a mainstreaming requirement (SPED 160 or equivalent).
4. Complete a health education requirement (H S 120 or equivalent).
5. Complete a classroom computer application course (CTET 100).
Program Advisement. Program advisement for a clear Multiple Subject Credential is obtained from the multiple subject fifth-year adviser located in the School of Education and Human Development's Advising Office in EdP 111.
Time Restrictions. All requirements for a clear Multiple Subject Credential must be completed within five years of the date of issuance of the preliminary credential.

## Single Subject <br> Credential Program

The Single Subject Credential authorizes the holder to teach in the subject area specified on the credential in departmentalized classrooms commonly found at middle schools, high schools, and adult educational settings. The School of Education and Human Development offers the Single Subject Credential in cooperation with 18 other university academic departments. The cooperating departments are responsible for developing subject matter competency; the School of Education and Human Development is primarily responsible for developing professional education competency.
The single subject coordinator in the School of Education and Human Development provides general advisement for single subject credential candidates. Area advisers (see below) provide academic advisement for credential candidates majoring in their respective departments, teach methods courses in their subject fields, assign and supervise student teachers, and act as official liaisons between the subject matter departments and the single subject coordinator in the Educational Research, Administration, and Foundations Department.

## Preparation Adviser

Jolyne Daughtry, coordinator of the Single Subject Program, is located in the School of Education and Human Development Advising Office in EdP 111 and serves as the adviser for the professional preparation component.
Types of Single Subject Credentials. There are two types of Single Subject Credentials: the Preliminary Single Subject Credential and the clear Single Subject Credential (fifth year).
Preliminary Single Subject Credential. A Preliminary Single Subject Credential provides authorization to teach a specified subject in a departmentalized classroom for a maximum period of five years.
Clear Single Subject Credential. A clear Single Subject Credential is required for full authorization in a departmentalized classroom. All requirements for a clear Single Subject Credential must be completed within five years of the date of issuance of the preliminary credential.

## Requirements for a Preliminary

Multiple Subject Credential

1. Complete a 30 -unit core of professional education courses.
2. Demonstrate subject matter competence by:
a. completing an approved subject matter waiver or passing the National Teacher Examination (NTE) Subject Matter Examination
b. receiving clearance from the academic adviser that subject matter competency has been met
3. Complete a bachelor's degree.

Preliminary Single Subject
Credential - General Requirements
for Initial Admission

1. Attend a Single Subject Credential program orientation meeting.
2. Provide evidence of successful completion of an appropriate pre-program field experience or EHD 50, Introduction to Teaching.
3. Show evidence of passing the California Basic Educational Skills Test (CBEST) by presenting a CBEST Permanent Verification card.
4. Complete an application to the credential program.
5. Verifyadmission to CSU, Fresno, with a student I.D. card or a Notice of Admission.
6. Provide a complete set of transcripts of all prior college/university coursework. Transcripts are used to verify a GPA that is in the top 50 percent of the applicant's major field of study or discipline.
7. Completean Admission Interview Form and obtain an interview from a single subject credential faculty member and from the subject area academic adviser.
8. Obtain a medical clearance at the University Health Center.
9. Obtain two completed Recommendation for Admission to Teacher Education forms written by instructors, supervisors, or other individuals in a position to recommend for admission into a teacher education program.
10. Obtain appropriate clearance to teach in a public school by presenting a valid California Teaching Credential or applying for a Certificate of Clearance.
Required application materials and forms are available in the School of Education and Human Development's Admissions and Records Office in EdP 120. All admission requirements (forms, documents, prerequisites) must be completed prior to enrollment in professional program courses.
Timelines for initial admission to the Single Subject Credential program are listed below. Application forms are available in the School of Education and Human Development's Admissions and Records Office in EdP 120.

Preliminary Single Subject
Credential - Requirements for
Admission to Student Teaching
Admission to Initial Student Teaching (EHD 155A). Authorization to begin student teaching requires that the candidate:

1. Submit a EHD 155A application form by the specified deadline.
2. Receive notification of initial admission to the Single Subject Credential program.
3. Successfully complete or be enrolled concurrently in ERF 151, 152, and CTET 159. LEE 156S must be taken concurrently with EHD 155A and EHD 155B.
4. Maintain a 3.0 GPA on all professional education courses.
Timelines for Admission to Initial Student Teaching (EHD 155A) are listed below. Application forms are available in the School of Education and Human Development's Admissions and Records Office in EdP 120.

| Application |  |

Admission to Final Student Teaching (EHD 155B). Requirements for admission to final student teaching (EHD 155B) include the following:

1. Submit an EHD 155B application form by deadline.
2. Successfully complete ERF 151, 152, CTET 159, and EHD 155A. LEE 156S must be taken concurrently with EHD 155B if it was not taken with EHD 155A.
3. Successfully complete or be enrolled concurrently in CTET 161 (depending on academic department policy).
4. Demonstrate subject matter competence by:
a. completing an approved subject matter waiver program (See single subject majors and advisers) or pass the National Teachers Examination Subject Matter Examination
b. receive authorization from the academic area adviser that subject matter competence has been met
5. Develop a fifth-year program and have it approved by the School of Education and Human Development fifth-year adviser.
6. Maintain a 3.0 GPA on professional education coursework.
7. If granted an "Exception" admission, satisfy all requirements specified when the exception was granted.
Timelines for Admission to Final Student Teaching (EHD 155B) are listed below. Application forms are available in the School of Education and Human Development's Admissions and Records Office in EdP 120.

Totall ............................................ 30
3. Completion of a bachelor's degree. California law requires a bachelor's degree in a subject area other than professional education.
Clear Single Subject
Credential Program (Fifth Year)
The clear Single Subject Credential is required for full authorization to teach in departmentalized classrooms commonly found at the middle school, high school, and adult educational levels. To obtain this credential the candidate must meet the following admission requirements.
General Requirements. (See Preliminary Single Subject Credential - General Requirements for Initial Admission.)
Requirements for Admission to Student Teaching. (See Preliminary Single Subject Credential - Requirements for Admission to Student Teaching.)
In addition to these requirements, the clear credential (fifth year) candidate must:

1. Complete an approved fifth year program containing 30 units of upperdivision/graduate credit taken after completion of all bachelor's degree requirements
2. Include at least 30 units of professional education in the total five-year credential program
3. Complete a mainstreaming requirement (EHD 160 or equivalent)
4. Complete a health education requirement (H S 121 or equivalent)
5. Complete the classroom computer application course (CTET 101)
Program Advisement. Program advisement for a clear Single Subject Credential is obtained from the single subject fifthyear adviser located in the School of Education and Human Development's Advising Office in EdP 111 and from the subject area academic adviser.

Time Restrictions. All requirements for a clear Single Subject Credential must be completed within five years of the date of issuance of the Preliminary Credential.

## Master of Arts <br> Degree in Edlucation

## Cunrricullumm and Instruction

The Master of Arts degree in Education with a concentration in ctrriculum and instruction is designed to provide professional and specialized preparation for the candidate interested in acquiring knowledge and skills essential for the design and development of curriculum and related instructional practices. Beyond the course requirements, the program enables the student to elect and pursue in-depth study in areas of curriculum and instruction such as bilingual education, computer education, multicultural education, math education, science education, social science education, or other specializations related to elementary, middle school, and secondary education. The program allows the student to take a varied representation of courses within the context of curriculum and instruction, which may also be used to meet fifth-year requirements for the clear Teaching Credential.
Admission Requirements for Classified Standing. See General Requirements in the Education-Graduate Program section of this catalog.

## Program Requirements

1. Prerequisites: 15 units in professional education coursework including ERF 153; completion of prerequisites required for enrollment in advanced coursework in the area of specialization.
2. Course Requirements Units

ERF 220; ERF 285 or 288 .................... 6
CTET or EAD 298 or 299 .................... 4
CTET 250; 275 ................................5-6
3. Electives: Electives are selected from the School of Education and Human Development and include special subject areas to constitute a broad-based program in curriculum and instruction or to represent an in-depth study in a specialty area within the context of curriculum and instruction.* ........... 14-15
Totall .............................................. 30

[^26]
## COURSES

Note: Students must provide their own transportation to off-campus sites for classes, student teaching, practice and field activities, and defray any resulting personal expense.

## Curriculum, Teaching, and Educational Technology (CTET)

## 1R. College Planning Skills (2)

Seminar in skills, techniques, and strategies designed to address the educational needs of those students who may be experiencing difficulty in their academic and personal adjustment to college life. CR/NC grading only; not applicable toward baccalaureate degree requirements. (Former T Ed 1R)

## 100. Educational Applications of

Microcomputers - Multiple Subject (3) Prerequisite: EHD 50 or permission of instructor. Not open to single subject students. Methods for using the microcomputer as a teacher and student productivity tool, an instructional tutor, and a means of developing critical thinking skills to achieve curriculum objectives. (2 lecture, 2 lab hours) (Instructional materials fee, \$5) (Former T Ed 180T section; T Ed 134M)
101. Educational Applications of Microcomputers - Single Subject (3) Prerequisite: EHD 50 or permission of instructor. Not open to multiple subject students. Methods for using the microcomputer as a teacher and student productivity tool, an instructional tutor, and a means of developing critical thinking skills to achieve curriculum objectives. (2 lecture, 2 lab hours) (Instructional materials fee, \$5) (Former T Ed 180T section; T Ed 134S)
102. Introduction to Educational Technology (2)
Evaluation, selection, and utilization of various types of contemporary instructional materials, systems, and equipment. Laboratory experiences in the operation of equipment and materials design. (Former T Ed 135)

## 121. Mathematics in

## the Elementary School (3)

Prerequisite: admission to the Multiple Subject Program and satisfy General Education quantitative analysis requirements (see requirements in General Education section). Methods and materials for developing the mathematics concepts and skills taught in the elementary school. A variety of manipulative materials are applied in a lab setting. (2 lecture, 2 lab hours) (Former T Ed 120MA; T Ed 121)

## 122. Fieldwork in Outdoor

## Education (1-2; max total 2)

Prerequisite: ERF 130 or 152; permission of instructor. Practice at camp with responsibilities of counseling, camp leadership, curriculum planning, and evaluation; utilization of resource people from several disciplines. (Former T Ed 122F)
123. Classroom Management (3)

Classroom organization, management, and mainstreaming including focus on the culturally, linguistically diverse student. (Former T Ed 120CM)
124. Issues in Education (3)

In-depth study of various curriculum issues impacting education. (Former T Ed 120CU)

## 125. Sciencing for

Elementary Teachers (3)
In-depth study of science as activity for the elementary school. (2 lecture, 2 lab hours) (Former T Ed 120SC)
126. Social Studies in the Elementary School (3)
In-depth study of the strategies and techniques of social studies instruction. (Former T Ed 120SS)
136. Multicultural Education (3)

Helps teachers cope effectively with diverse student needs in a plural society. Considers ethnic, socioeconomic, sex, religious, other subcultural differences, and problems of curriculum and instruction in multigroup classrooms. (Former T Ed 136)
137. Creative Dramatics (3)
(See Drama 137.) (Former T Ed 137)
150. Curriculum and Instruction in the Elementary School (3)
Prerequisite: admission to the Multiple Subject Credential Program, ERF 130 and 140 (or concurrent enrollment) and EHD 110 and LEE 156M taken concurrently. Current conceptions of curriculum and instructional resources in the elementary school; methods of teaching. (Former T Ed 150)
157. Conservation of Resources (3)
(See Biol 157.) (Former T Ed 157)
158. Communication and Learning (3) (See Spch 114.) No credit will be given if the student has taken Spch 114. (Former T Ed 158)
159. Curriculum and Instruction in Secondary Schools (3)
Prerequisite: admission to the Single Subject Credential Program; ERF 151 and 152 or concurrent enrollment. Instructional planning, methodologies of teaching and learning, evaluation techniques, motivation, classroom management and discipline, preparation and evaluation of materials. Microteaching practice and analysis. (2 lecture, 2 lab hours) (Instructional materials fee, \$5) (Former T Ed 159)

## 161. Methods and Materials

in Secondary Teaching (3)
Prerequisite: ERF 152, admission to credential program or teaching experience. A methods course in secondary school subjects. Instructional procedures, techniques, and resources for teaching; appraisal of instructional innovations; classroom organization and management; measurement and evaluative techniques. Some areas have labs. (Former T Ed 161)
180T. Topics in Curriculum, Teaching, and/or Educational Technology (1-3; max total 9) Issues and topics in curriculum and instruction; elementary, middle school, and secondary education; technology, and computer literacy. (Former T Ed 180T)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading. (Former T Ed 190)

## GRADUATE COURSES

(See Course Numbering System.)
Curriculum, Teaching, and Educational Technology (CTET)
225. Integration of Technology Across the Curriculum (3)
Identification, evaluation, and use of advanced technologies such as microcomputers, instructional video, laserdisc, television, and telecommunications for developing teaching materials appropriate for state curriculum framework.
250. Curriculum/Instructional Development and Evaluation (3)
Prerequisite: CTET 150 or 159 or permission of program adviser. Theory and practice of curriculum development, evaluation, and revision. Study of contemporary problems and curriculum approaches to meet societal needs. (2 lecture, 2 lab hours) (Instructional materials fee, \$5) (Former T Ed 250)
273. Secondary School Curriculum (3)

Prerequisite: EHD 155B (may be taken concurrently). Seminar on concepts and principles of curriculum planning, evaluation of curriculum programs and processes, assessment and utilization of curriculum resources, and innovations and research in curriculum development. (Former T Ed 273)

## 275. Practicum in Curriculum

Development (1-6; max total 6)
Prerequisite: teaching credential. Study and application of contemporary research in curriculum development. (Former T Ed 275)

280T. Advanced Topics (1-3)
Prerequisite: permission of instructor. Advanced, in-depth analysis of issues and problems in curriculum and instruction; elementary, middle school, and secondary education; technology and computers in education. Emphasis placed on advanced research. (Former T Ed 280T)
290. Independent Study (1-3)

See Academic Placement - Independent Study. Approved for SP grading. (Former T Ed 290)
298. Project (4)

Prerequisite: advancement to candidacy for the master's degree; $\boldsymbol{B}$ average on 24 units of the master's program including ERF 220. See Criteria for Thesis and Project. A project consists of a significant undertaking appropriate to education such as the development of curricula and instructional materials, educational policy, educational theory, and educational technology. An approved proposal is required for enrollment. Approved for $\boldsymbol{S P}$ grading. (Former A S 298B)
299. Thesis (4)

Prerequisite: advancement to candidacy for the master's degree; $\boldsymbol{B}$ average on 24 units of the master's program including ERF 220 and completion of an acceptable thesis proposal. See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. See School of Education and Human Development's graduate programs coordinator for school thesis guidelines. Approved for SP grading. (Former A S 299)

## IN-SERVICE COURSE

(See Course Numbering System.)

## Curriculum, Teaching, and Educational Technology (CTET)

380T. Topics in Education (1-6; max total 12)
Studies in theory, procedures, and application in such areas as social forces, professional activities, technology, and instructional innovations.

## EDUCATION Educational Research, Administration, and Foundations

School of Education and Human Development Department of Educational Research, Administration, and Foundations DAVID E. TANNER, Chair Education Annex, Room 105 (209) 278-4485

## M.A. in Education

Option: Administration and Supervision Credentials
Preliminary Administrative Services Professional Administrative Services

The Department of Educational Research, Administration, and Foundations sponsors one graduate degree and offers coursework in support of all the education graduate and credential programs. Consequently, departmental faculty are involved in some fashion in nearly all formal school programs.

## Program

Educational Administration. The Master of Arts in Education with an option in administration and supervision is a 30 unit degree program. The Administrative Services Credential Program is a two-tier program that provides authorization to function in an administrative position in a K-12 school setting.

The Preliminary Administrative Services Credential Program is a 24 semester unit program that provides basic preparation for employment in a K-12 public school administrative position. The Professional Administrative Services Credential Program is also a 24 semester unit program that provides advanced preparation and is taken following completion of the preliminary credential. One half of this program must be taken while employed as a school administrator.

Research. The research program component is an integral part of all graduate degrees and offers coursework in research methodology theory and practices, measurement, program evaluation, and qualitative and quantitative analyses. The faculty also play an important role in providing consultation and support to graduate students' research.

Foundations. Courses in the cultural and social foundations of education are fundamental to understanding contemporary education, and with educational

ERAF faculty spend a moment or two among current periodicals.
psychology, are found in all teacher education programs. The foundations faculty have developed coursework tailored to a variety of teaching credential options, ranging from early childhood through high school.

## Credential Programs

Administrative Services Credentials. Holders of the Preliminary Administrative Services Credential and the Professional Administrative Services Credential are authorized to servein such positions as district superintendent, principal, program director and any related administrative assignments at all school levels.

Individuals who wish to serve as educational administrators must complete preliminary and advanced levels of preparation. The preliminary level qualifies the candidate for the Preliminary Administrative Services Credential. The advanced level of preparation qualifies the candidate for the Professional Administrative Services Credential. Both the Preliminary and the Professional Administrative Services Credential carry the same employment authorization

## Preliminary Administrative <br> Services Credential

Admission Requirements. Applicants for the Preliminary Administrative Services Credential must meet the following requirements for admission to the program:

1. Complete the Application for Postbaccalaureate Admission at CSU, Fresno.
2. Complete the Application for Admission to School of Education and Human Development graduate programs.
3. Possess a GPA of $2.75+$ over the last 60 semester units.
4. Obtain three letters of recommendation.
5. Provide evidence of having taken the California Basic Educational Skills Test (CBEST).
6. Be classified in a School of Education and Human Development graduate program.

Program Requirements. Candidates for the Preliminary Administrative Services Credential who have been admitted to the program and who want to be recommended for this authorization must meet the following requirements:

1. Possess a valid California teaching credential based on a bachelor's degree or a Pupil Personnel Services Credential.
2. Verify threeyears of successful, full-time teaching experience or three years of pupil personnel experience in public schools, or in private schools of equivalent status.
3. Complete EAD 261, 262, 263, 264, 265, 266, 267, 268.
4. Verify training in the needs of and methods of providing educational opportunities to individuals with exceptional needs through completion of SPED 160, one year of full-time experience in special education, or 6 units of approved special education coursework.
5. Receive a passing score on the California Basic Educational Skills Test (CBEST).
6. Pass the competency exit review.
7. Completed a master's degree.

## Professional Administrative

## Services Credential

Admission Requirements. In addition to meeting all admission requirements for the Preliminary Administrative Services Credential, persons desiring admission to the Professional Administrative Services Credential Program must meet the following requirements:

1. Possess a GPA of 3.0 or better over the last 60 semester units.
2. Hold a valid Preliminary Administrative Services Credential.
Program Requirements. Candidates for the Professional Administrative Services Credential who have been admitted to the program must meet the following requirements:
3. Verify a minimum of two years of fulltime experience in public or private schools in a position requiring an administrative credential.
4. Complete 16 units from EAD 271, 272, 273, 274, 275, 277, 278T, or SPED 216 and 8 units of EAD 279.
5. Complete at least one-half of the required coursework while employed full-time in a position requiring an administrative credential.
6. Receive a passing score on the California Basic Educational Skills Test (CBEST).
7. Pass the competency exit review.

## Master off Arts <br> Degree in Education

## Admimistration and Supervision

The Department of Educational Research, Administration, and Foundations offers a program leading to a Master of Arts degree in Education with an option in administration and supervision. Candidates who qualify for a preliminary teaching credential, with prior approval, may use part or all of a master's degree program to satisfy the fifth-year requirements for a clear teaching credential.
The administration and supervision option is designed to provide professional preparation for the positions of principal, consultant, supervisor, program director, assistant superintendent, and superintendent.

## COURSES

## Educational Research,

 Foundations (ERF)130. Psychological Foundations of Education - Multiple Subject (3)
Not open to students with credit in ERF 152. Prerequisite: admission to the Multiple Subject Credential Program; Psych 10. Facts, ideas, and principles fundamental to an understanding of educational procedures in teaching and learning and to the growth and development of children. (Former T Ed 130)

## 140. Cultural

Foundations of Education (3)
Not open to students with credit in ERF 151. Prerequisite: admission to the Multiple Subject Credential Program. Functions of education in America's multicultural society; role of school and teacher; impact of social conflict and interaction on the school's function; relationship between school and community. (Former T Ed 140)

## 151. Social

Foundations of Education (3)
Not open to students with credit in ERF 140. Prerequisite: admission to the Single Subject Credential Program. Scope and function of secondary schools; social, historical, and philosophical influences; curriculum, recent trends, and issues. (Former T Ed 151)
152. Psychological Foundations of Education - Single Subject (3)
Not open to students with credit in ERF 130. Prerequisite: admission to Single Subject Credential Program; Psych 10. Educational psychology; growth and development, learning, personality and selfconcepts of adolescents; implications for learning and teaching. (Former T Ed 152)
153. Educational Statistics (3)

Prerequisite: ELM exam. Methods of describing, analyzing, and interpreting data; statistical inference, including " t " test, correlation and prediction, chi square, and simple research design. Computer applications during lab activities. (2 seminar, 2 lab hours) (Former A S 153)
180T. Topics in Education
(1-3; max total 9)
Issues and topics in educational foundations; curriculum and instruction; early childhood, elementary, middle school, and secondary education; pupil personnel services; supervision and administration; child abuse, and computer literacy. (Former T Ed 180T)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Former T Ed 190)

## GRADUATE COURSES

(See Course Numbering System.)

## Educational Research, Foundations (ERF)

220. Research in Education (3)

Prerequisite: 12 units of education courses or equivalent and ERF 153. Seminar in research methodology; identification of educational research problems; use of library resources, data gathering and processing, writing a research report; applies to elementary and secondary teaching, early childhood, reading administration, counseling, special education, and related fields. (2 seminar, 2 lab hours) (Former A S 220)

## 272. Instructional

Planning and Evaluation (3)
Principles and practices of instructional planning, assessment and testing of learning outcomes, performance appraisal and evaluation of teaching; test construction analysis, and grading. (Former T Ed 272)
274. Social Interaction in Teaching (3)

In-depth study of the dynamics of effective interpersonal relations in the classroom with students; and beyond, with administrators, parents, and colleagues. Strategic interaction for creative, low-stress teaching and learning based upon related theory and research. (2 seminar, 2 lab hours) (Former T Ed 274)
280T. Advanced Topics
in Education (1-3)
Prerequisite: permission of instructor. Advanced, in-depth analysis of issues and problems in educational foundations; curriculum and instruction; reading; early childhood, elementary, middle school, and secondary education; and computers in education. Emphasis placed on advanced research. (Former T Ed 280T)
282. Philosophy of Education (3)

Seminar on philosophical issues in educational theory and practice and their historical backgrounds. Educational implications of current and historical systematic philosophical outlooks and ideological trends.

## 284. Seminar in

International Education (3)
Analysis of historical, social, and political forces which shape national education endeavor. Emerging international education efforts and organizations. (Former T Ed 284)
285. Seminar in Advanced

Educational Psychology (3)
Prerequisite: minimum 3 units from the following: ERF 130, 152; COUN 174, or Psych 101. Seminar on the psychological foundations of education; nature and characteristics of development, learning processes, and forces which affect educational growth. (Former A S 285)
286. Social Issues in Education (3)

Prerequisite: ERF 140 or 151, or course in sociology or anthropology and permission of instructor. Seminar for analysis of effect on institutional and ideological trends and problems on the role and operation of the school in American society. (Former T Ed 286)
287. Seminar in History
of Educational Thought (3)
Prerequisite: ERF 282, or philosophy course and permission of instructor. Seminar on historical foundations of educational theory; growth of thought regarding teaching and learning; relationship of educational theory and practice in the United States. (Former T Ed 287)
288. Educational Measurement and Program Evaluation (3)
Prerequisite: ERF 153. Procedures and issues involved in the measurement and evaluation of educational programs; planning, etc. Applications in educational settings are emphasized. (2 seminar, 2 lab hours) (Former A S 288)

## 289. Seminar in Advanced

Educational Research (3)
Prerequisite: ERF 153 and 220; or permission of instructor. Emphasis on conceptualizing advanced educational research problems, analyzing data and interpreting data, computer lab activities using such techniques as ANOVA, multiple regression, and multivariate statistics and developing the methodology for thesis proposals. (2 seminar, 2 lab hours) (Former A S 289)

## 290. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading. (Former T Ed 290)
298. Project (4)

Prerequisite: advancement to candidacy for the master's degree; $\boldsymbol{B}$ average on 24 units of the master's program including ERF 220. See Criteria for Thesis and Project. A project consists of a significant undertaking appropriate to graduate study in education. An approved proposal is required for enrollment. Approved for SP grading. (Former A S 298B)

## 299. Thesis (4)

Prerequisite: advancement to candidacy for the master's degree; $\boldsymbol{B}$ average on at least 24 units of the master's program, including ERF 220 and completion of an acceptable thesis proposal. See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. See School of Education and Human Development's graduate programs coordinator for school thesis guidelines. Approved for SP grading.

## IN-SERVICE COURSE

(See Course Numbering System.)

## Educational Research, Foundations (ERF)

## 380T. Topics in Education

(1-6; max total 12)
Studies in theory, procedures, and application in such areas as social forces, professional activities, technology, and instructional innovations. (Former T Ed 380T)

## GRADUATE COURSES

## (See Course Numbering System.)

## Educational Administration (EAD)

261. Organization for Administra-
tion and Support of Education (3)
Prerequisite: teaching experience. Interrelationships of federal, state, county, city, and district units in the administration and promotion of programs of education. (Former A S 261)

## 262. Seminar in

Educational Leadership (3)
Prerequisite: teaching experience; EAD 261. Seminar on problems, procedures, and organizational relationships of elementary and secondary schools; the administrator's responsibilities in areas of organization and control; teacher personnel, pupil personnel, noncertificated personnel; special and auxiliary agencies; guidance; supervision; community relationships. (Former A S 262)
263. Seminar in Supervision for

Improvement of Instruction (3)
Prerequisite: teaching experience; CTET250 or 273; EAD 261. Seminar for clarification and application of modern concepts and techniques of supervision; practice in leadership roles, promoting productive human relationships, developing communication skills, and evaluation of teaching; ways of helping teachers in their credential fields. (Former A S 263)

## 264. Seminar in the

Legal Aspects of Education (3)
Prerequisite: teaching experience; EAD 261. A case study approach in reviewing important court decisions, both state and federal, that have directly affected the public schools. Legal relationships in public education applied to federal, state, and local levels. (Former A S 264)

## 265. Seminar in

School-Community Relations (3) Prerequisite: EAD 261. Seminar on interaction with community forces, news media, political agencies, and minority groups in policydevelopment; decision-makingbased on factual data. (Former A S 265)
266. Seminar in School Finance
and Business Administration (3)
Prerequisite: EAD 261. Economic perspectives and practices of school finance and business administration; local, state, and federal responsibility for financial support of education. ( 2 seminar, 2 lab hours) (Former A S 266)
267. Fieldwork in Administrative

Services - Elementary School (3)
Prerequisite: 9 units selected from EAD 261, 262, 263, 264, 266, 272, 275. Supervised administrative practice in an elementary school. Includes seminar discussions of field experiences and required research. ( 120 hours required for 3 units of credit) (Former A S 267)
268. Fieldwork in Administrative Services - Secondary School (3)
Prerequisite: 9 units selected from EAD 261, 262, 263, 264, 266, 272, 275. Supervised administrative practice in a secondary school. Includes seminar discussions of field experiences and required research. ( 120 hours required for 3 units of credit) (Former A S 268)
271. Seminar in School Facilities (3)

Prerequisite: preliminary credential or permission of instructor. Emphasis on planning, design, and function of educational facilities so they are consistent with the educational goals of the school and school district. (2 seminar, 2 lab hours) (Former A S 271)

## 272. Seminar in

## Advanced Curriculum

Evaluation and Development (3)
Prerequisite: preliminary credential or permission of instructor. Nature and scope of curriculum development; administrative determiners of curriculum; influence of governmental agencies and organizations, foundations, business and industry, and power structures as curriculum determiners; international influence on curriculum development and curriculum evaluation at various levels of governmental operation. (Former A S 272)

## 273. Ethical and Professional

 Issues in Education Administration (3) Prerequisite: Preliminary Administrative Services Credential or permission of instructor. Seminar on the ethical and professional issues of administrative professionalism, examined in the context of the various roles the administrator is expected to perform as a practitioner. (Former A S 273)274. Advanced School

Finance and Business Services (3)
Prerequisite: preliminary credential or permission of instructor. Primary emphasis is directed toward the acquisition of expertise in advanced planning and management of business and finance elements of public schools. (2 seminar, 2 lab hours) (Former A S 274)

## 275. Seminar in Advanced

Techniques of Personnel
Administration in Education (3)
Prerequisite: preliminary credential or permission of instructor. Advanced techniques of staff improvement in-service, staff participation in policy making, improvement of communication channels and methods of communication, economic and contractual relationships, and improvement of working conditions; work and responsibility of nonteaching staff members. (Former A S 275)

## 277. Computer Applications

 in Educational Administration (3)Prerequisite: preliminary credential or permission of instructor. Factors relating to assessment and implementation of computer applications to support educational programs and administrative operations in school districts, including computer assisted instruction, student personnel, fiscal and property controls, personnel, and related educational and business functions characteristic of school districts. (2 seminar, 2 lab hours) (Former A S 277)

## 278T. Topics in Advanced

Educational Administration (1-3)
Prerequisite: preliminary credential or permission of instructor. Seminar covering special topics relating to educational administration: new developments in educational administration, special populations, and current research. (Former A S 278T)
279. Advanced Administration

Fieldwork (2-8; max total 8)
Prerequisite: employment in a position requiring an Administrative Services Credential and permission of instructor. Supervision of Professional Administrative Services Credential candidates in their place of employment. The type of assignment will depend on requirements of the university and will be individually developed in cooperation with candidate's employer. Includes seminar discussions of field experience and required research. (80 hours required for 2 units) (Former AS 279)
290. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading. (Former A S 290)
298. Project (4)

Prerequisite: advancement to candidacy for the master's degree; $\boldsymbol{B}$ average on 24 units of the master's program including ERF 220. See Criteria for Thesis and Project. A project consists of a significant undertaking appropriate to graduate study in education. An approved proposal is required for enrollment. Approved for $S P$ grading. (Former A S 298B)
299. Thesis (4)

Prerequisite: advancement to candidacy for the master's degree; $\boldsymbol{B}$ average on 24 units of the master's program including, ERF 220 and completion of an acceptable thesis proposal. See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. See School of Education and Human Development's graduate programs coordinator for school thesis guidelines. Approved for $S P$ grading. (Former A S 298B)

## IN-SERVICE COURSE

(See Course Numbering System.)

## Educational Administration (EAD)

380T. Topics in Educational
Administration (1-6; max total 12)
Studies in theory, procedures, and application in such areas as social forces, professional activities, technology, and instructional innovations.

## EDUCATION Literacy and Early Education

School of Education and Human Development Department of Literacy and Early Education JACQUES S. BENNINGA, Chair Ed/Psych Building, Room 123 (209) 278-5762<br>\section*{Credentials}<br>Option II - Early Childhood Education (Multiple Subject)<br>Bilingual/Cross-Cultural<br>(Multiple Subject)<br>Early Childhood Specialist<br>Language Development Specialist Certificate<br>Reading Specialist<br>M.A. in Education<br>Options:<br>Early Childhood Education Reading

1he primary mission of the Department of Literacy and Early Education is to prepare knowledgeable and professionally competent teachers and curriculum leaders in the areas of early childhood education ( $\mathrm{N}-3$ ), bilin-gual/cross-cultural education (K-6), and reading ( $\mathrm{K}-12$ ) in both public and private educational settings.
The department offers the Preliminary Multiple Subject Credential in both Early Childhood Education (Option II) and Bilingual/Cross-Cultural Education. At the graduate level, the department offers programs in Early Childhood Education and Reading. In addition, the department offers a certificate program, the Language Development Specialist Certificate.

## Credential Programs

Basic Teaching Credentials. The basic Multiple Subject Teaching Credential may be earned in conjunction with a baccalaureate degree (preliminary credential) or following completion of a fifth year of professional preparation in the following areas:

1. Multiple Subject Credential - Early Childhood Education Emphasis
2. Multiple Subject Credential -Bilingual/Cross-Cultural Emphasis
Specialist Teaching Credential. The specialist teaching credential represents a year of postbaccalaureate study in an area of teaching specialization. The specialist credential may be earned by a holder of a Multiple Subject or Single Subject Credential. The Department of Literacy and Early Education offers specialist credentials in Early Childhood Education and Reading, as well as the Language Development Specialist Certificate.

## Master's Degree Programs

The Department of Literacy and Early Education offers advanced and specialized study for the Master of Arts degree in Education with options in early childhood education and in reading. Completion of a master's degree signifies
that the holder is prepared to provide professional leadership in an area of specialization offered by the department. Most candidates for the master's degree have three or more years of successful teaching experience.

## Credential Programs

Preliminary Multiple Subject Credential programs in the Department of Literacy and Early Education include: Option II Early Childhood Education Emphasis and Bilingual/Cross-Cultural Emphasis.

## Option II - Early

## Childhood Education Emphasis

The Early Childhood Education Emphasis Program prepares students to teach in the elementary grades, with special strengths in early childhood education. This block program with fieldwork and student teaching in early childhood classrooms, preschool, kindergarten, primary, and intermediate grades enables the student to obtain a Multiple Subject Credential in a specific emphasis area. Students who elect to complete EHD 160 in two semesters enroll in EHD 160A ( 6 units) and EHD 160B ( 6 units). It is important to note that EHD 160B must include two weeks of full-time student teaching.

## Program Requirements

1. Subject Matter Competency. Demonstrate subject matter competence through completion of the Liberal Studies Waiver Program or pass the National Teachers Examination Test of General Knowledge and receive faculty certification of competence.
2. Professional Preparation Units

EHD 110 ............................................ 3
LEE 128 .............................................. 2
ERF 130 (ECE Section) ....................... 3
ERF 140 (ECE Section) ....................... 3
LEE 148 .............................................. 4
LEE 156M .......................................... 3
EHD 160 .......................................... 12
Total .30
3. Completion of a Bachelor's Degree. California law requires a bachelor's degree in a subject area other than professional education.

## Bilingual/Cross-Cultural Emphasis

The Bilingual/Cross-Cultural Emphasis Program is designed to prepare students to teach in bilingual cross-cultural settings. This program combines the Option I Credential Program with special liberal studies coursework in linguistics, cultural studies, and teaching methodology. The Bilingual/Cross-Cultural Credential prepares students to work with children from non-English speaking backgrounds, and a holder of this credential is in great demand.

## Program Requirements

1. Subject Matter Competency. Demonstrate subject matter competence by completing the Liberal Studies Waiver Program, including the following courses: Ling 132 and 141; Span 118, 122 and 104; CLS 116, 143 and 145 or pass the NTE Test of General Knowledge, the Bilingual Certificate of Competence Test, and receive faculty certification of competence.
2. Professional Preparation Units

EHD 110 ............................................ 3
CTET 121 ............................................ 3
ERF 130 .............................................. 3
ERF 140 .............................................. 3
LEE 138 ............................................... 3
LEE 139 .............................................. 3
LEE 141 ............................................... 3
CTET 150 ........................................... 3
LEE 156M .......................................... 3
EHD 160 .......................................... 12
Total .............................................. 39
3. Completion of Bachelor's Degree. California law requires a bachelor's degree in a subject area other than professional education.

## Specialist Credentials/Certificate

Specialist credentials may be earned by holders of Multiple Subject and Single Subject credentials. The specialist credential represents a year of postbaccalaureate study in an area of teaching specialization. Specialist credential programs offered through the Department of Literacy and Early Education include: 1) Early Childhood Education and 2) Reading. A third program, the Language DevelopmentSpecialist Certificate, provides the skills useful to those teaching non-English speaking as well as limited English speaking students.

## Early Childhood Education

## Specialist Credential

Admission Requirements. 1) Prerequisite: completion of a Multiple Subject Credential or Single Subject Credential, 2) Completion of an Application for Admission to the Specialist Credential Program that must be approved by the program coordinator, 3) Attainment of Postbaccalaureate Standing (Credential only) or Graduate Standing (Credential and Master's Degree).
Program

1. Course Requirements Units LEE 171, 231, 232, 241, 252, 271 .... 15 Select 15 units with approval of ECE coordinator)
2. Electives are selected from fields including special educa-
tion, educational administration, bilingual education, and other fields as determined in consultation with the ECE faculty adviser 15
Total .............................................. 30
3. Experience. Two years of successful teaching experience in Early Childhood Education.
Courses taken in the Early Childhood Specialist Credential Program may be used to satisfy part or all of the clear credential (fifth year) requirements provided prior approval is obtained from the early childhood education coordinator. Specialist credential courses may also be used to meet part or all of the requirements for a master's degree. It is strongly advised that application for the master's degree be completed at the same time the application for the specialist credential occurs. See the SOEHD Admissions and Records Office in EdP 120 for admission information. For information about all early childhood programs, contact the early childhood education program coordinator at (209) 278-2185.

## Reading Specialist Credential

Admission Requirements. 1) Complete application for postbaccalaureate standing at CSU, Fresno; 2) Complete application for Admission to SOEHD graduate programs; 3) Possess a GPA of 2.75 overall; 4) Provide three letters of recommendation; 5) Complete a Statement of Purpose; 6) Score a minimum of 450 on the Verbal section of the Graduate Record Examination; 7) Successfully complete 15 semester units of education coursework, including ERF 153 (Educational Statistics) or its equivalent; 8) Possess a basic teaching credential.

## Program

1. Course Requirements Units ERF 220; ERF 285 or 288; LEE 298A or 299 ............................................. 10
LEE 213 or 214; LEE 215, 224, 234A, 234B, 244, 254, 278 ............. 24
2. Approved Electives.......................... 5

Total .39
3. Experience: 1) Completion of a one semester supervised field experience (LEE 254) after completion of the master's degree, and 2) three years of successful teaching experience at any grade level (K-12).
Courses taken in the Reading Specialist Credential Program may be used to satisfy part or all of the clear credential (fifth year) requirements for either Multiple Subject or

Single Subject credential, provided prior approval is obtained from the fifth-year adviser. Specialist credential courses may also be used to meet part or all of the requirements for a master's degree. See the SOEHD Admissions and Records Office in EdP 120 for admission information. For information about the Reading Specialist Credential, contact the reading program coordinator at (209) 278-7007.

## Language Development

## Specialist Certificate

The Language Development Specialist (LDS) Certificate is designed for elementary and secondary teachers planning to work with limited English proficient (LEP) students in regular classrooms or in English as a second language programs. The LDS Program is an approved means of preparation for the LDS Certificate Examination administered by the California Commission on Teacher Credentialing.
Admission Requirements

1. Provide verification of admission to CSU, Fresno.
2. Provide verification of a basic teaching credential.
3. Provide complete set of transcripts of all prior college/university work.
4. Possess undergraduate GPA of 2.75 .
5. Complete Ling 134.
6. Complete the application to the SOEHD graduate program.
7. Complete a Statement of Purpose.
8. Providethreeletters of recommendation.
9. Complete an entrance interview.

Program
Course Requirements Units CTET 136; LEE 122L,* 138,
$\qquad$
Ling 132, 141, 147, 171* .................9-12
Total ..................................................... 24
*Students take either LEE 122L or Ling 171.
For information about the Language Development Specialist Credential, contact the LDS program coordinator at (209) 2786662.

## Master off Arts Degree in Education Eourly Chilldhood Education

The Master of Arts degree in Education with an option in early childhood education offers specialized preparation for a wide variety of positions in educational settings with children from birth through the primary grades. The program is designed to meet individual needs of candidates with different experiential and educational backgrounds and varied career objectives. Students may use the program to meet fifth-year credential requirements for the Basic Teaching Credential.
Admission Requirements for Classified Standing. See General Admission Requirements in the Education - Graduate Program section in this catalog.
Program. Prerequisites: ERF 153 and 12 additional units in education or child development and an adequate background for advanced work in the field.
Course Requirements Units
ERF 220; ERF 285 or 288; LEE 298B
or 299 .10
LEE 171, 231, 232, 241, 252, 271 ......... 15
(Select 15 units with approval of ECE coordinator)
Approved Electives ............................... 5
Total ................................................... 30
For information on the M.A. in Education, early childhood education option, contact the early childhood education coordinator at (209) 278-2185.

## Master of Arts Degree in Education Reading

The Master of Arts degree program in Education with an option in reading is designed to provide professional and specialized preparation for classroom and resource teachers and consultants; diagnosticians and supervisors in reading clinics, schools, and community colleges. It enables graduates to do consulting and editing for publishing companies and to pursue advanced graduate study in universities offering the doctoral degree. Students may use the program to meet fifthyear credential requirements for the Basic Teaching Credential.
Admission Requirements for Classified Standing. See General Admission Requirements in the Education - Graduate Program section in this catalog.

Program. Prerequisites: 15 units of professional education coursework including ERF 153.

Course Requirements Units

ERF 220; ERF 285 or 288 and
LEE 298A or 299
LEE 213, 215, 244, 278 ......................... 12
Approved Electives ............................... 8
(See adviser for suggested courses or groupings. The program offers special elective groupings in Integrated Language Arts, Teaching LEP Students, and Diagnostic/ Clinic Experiences.)
Total $\overline{30}$
For information on the M.A. in Reading, contact the reading coordinator at (209) 278-7007.

## COURSES

Note: Students must provide their own transportation to off-campus sites for classes, student teaching, practica and field activities, and defray any resulting expense.

## Literacy and Early Education (LEE)

AR. Reading Skills (1-2)
Designed to improve reading abilities. Emphasis on improving vocabulary, comprehension, and flexibility in reading rate. Lecture-discussion approach with directed reading. CR/NC grading only; not applicable toward baccalaureate degree requirements. (Former T Ed AR)
101. Practicum in Tutoring (1-3)

Skills in tutoring individuals and small groups. Study habits, problem solving, writing, and test-taking skills. Fieldwork in tutoring. Not applicable for public school credentials. (Former T Ed 101)
120. Problems in Education (2-3; repeatable with different topics) In-depth study of various areas in education including children's literature (CL), kindergarten (KG), language arts (LA), nursery school (NS), and storytelling (ST). Selected topics may require activities. (Former T Ed 120)

## 122L. Fieldwork in

Language Development (3)
Prerequisite: admission to the Language Development Specialist Program and CTET 136; LEE 138, 175, 215; Ling 132, 141, 147. Field experience in classrooms with 10 or more non-English proficient (NEP) or limited English proficient (LEP) students. Supervised teaching activities having language development emphasis.

Conferences, observations, and visitations by arrangement. (Former T Ed 122L)

## 128. Early Childhood

Education Seminar (2)
Taken concurrently with Option II Student Teaching (EHD 160). Focus on transition from student teacher to professional teacher. Discussion of current issues; development of personal philosophy; exchange of teaching experiences, strategies, and activities; participation in professional support network.

## 138. Teaching the <br> Linguistically Different (3)

In-depth study of principles and problems of new bilingual and bicultural modes in the education of the culturally and linguistically different child of Hispanic descent in the U.S.A. Contrasting linguistic, cultural, learning styles, including classroom implications. (Former T Ed 138)
139. English/Spanish Literacy (3)

Prerequisite: Spanish fluency and permission of instructor. Methods and materials for bilingual/cross-cultural classrooms. A practical look at language arts methodologies for English and Spanish; the teaching of reading in Spanish for native speakers; ESL methods for bilingual and non-English proficient (NEP) students in public schools. (Former T Ed 139)

## 141. Spanish Storytelling (3)

Prerequisite: Spanish fluency and permission of the instructor. Collecting and reading of Spanish genres of children's literature from elementary schools. Riddles, myths, games, stories, etc. are collected and adapted for use with Spanish speakers. (Former T Ed 141)

## 147. Early Childhood

Education: Classroom Ecology
and the Child with Special Needs (3)
A study of classroom environment with a focus on the relationship, attitudes and actions of teachers, children, parents, and staff who interact in a regular classroom with a mainstreamed child. (2 lecture, 2 lab hours) (Former T Ed 147)
148. Integrated Curriculum (4)

Prerequisite: admission to the Multiple Subject Credential Program, Option II; completion of or concurrent enrollment in EHD 110; ERF 130, 140. Taken in place of CTET 150 by students in Option II program. Integration of curriculum and use of instructional resources in early childhood programs and the elementary school (K-6);
methods of teaching. Lecture supported by curriculum development activities. (3 lecture, 2 activity hours) (Former T Ed 148)

## 156M. Reading in the

Elementary School (3)
Prerequisite: admission to the Multiple Subject Credential Program; ERF 130 and 140 (or concurrent enrollment); EHD 110; CTET 150 (Option II: LEE 148) to be taken concurrently. Theories of reading; methods and materials for teaching the skills and process of reading; provision for individual differences (ethnic, socioeconomic, dialectal); reading motivation activities; and reading evaluation procedures for the elementary program. (Former T Ed 156M)
156S. Content Area Reading
in the Secondary School (3)
Prerequisite: admission to the Single Subject Credential Program; concurrent enrollment in EHD 155A or 155B. Reading instructional techniques appropriate for use in content area subjects including theories, methods, and materials for the development of vocabulary comprehension, writing, and study skills (grades 7-12). (Former T Ed 156S)

## 164A. Practicum: Diagnosis and

Tutorial Reading for Grades K-6 (3)
Supervised diagnosis and tutoring experience with an elementary school remedial reader. Six hours of additional testing is required throughout the semester. (2 lecture, 2 lab hours) (Instructional materials fee, \$15) (Former T Ed 164A)
164B. Practicum: Diagnosis and Tutorial Reading for Grades 7-12 (3)
Supervised diagnosis and tutoring experience with a middle school or secondary school remedial reader. Six hours of additional testing time is required throughout the semester. (2 lecture, 2 lab hours) (Instructional materials fee, \$15) (Former T Ed 164B)
166. Reading Improvement (2)

A course to improve reading abilities. Emphasis placed on improving vocabulary, comprehension, and flexibility in reading skills. (Former T Ed 166)
171. Principles of Early

Childhood Education (3)
A comprehensive study of the field of early childhood education, including principles of early childhood education, parent relations, use of community resources, and organization of programs in early childhood education. (Former T Ed 171)
175. Strategies for Teaching and

Evaluating LEP/NEP Students (3)
Prerequisite: CTET 136; LEE 138; Ling 132, 134; or permission of instructor. Methods and materials for teaching and evaluating K-12 limited and non-English proficient students, including strategies for interrelating language instruction with content area subject matter. Special emphasis on techniques for developing and assessing listening, speaking, reading, and writing. (Former T Ed 175)
180T. Topics in Literacy and
Early Education (1-3; max total 9)
Issues and topics in reading, bilingual/crosscultural education, reading, and language development. (Former T Ed 180T)

## 190. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Former T Ed 190)

## GRADUATE COURSES

(See Course Numbering System.)
Literacy and Early Education (LEE)

## 213. Teaching the

Language Arts K-12 (3)
Seminar in the study of the English language arts. Objectives, curriculum materials, and research in oral and written communication; project required. (Former T Ed 213)

## 214. Literature for

## Children and Youth (3)

Prerequisite: admission to program or permission of instructor. Seminar in literature for children and youth; critical interpretation of juvenile literature; emphasis on impact of changing social and cultural patterns in books for children and youth; project required. (Former T Ed 214)
215. Language Issues in Reading (3)

Prerequisite: LEE 156M or 156S or permission of the instructor. Seminar exploring cognitive development and language acquisition as related to oral and written communications from both social and historical perspectives. Study of the relationship between reading and writing processes. Examination of the special language needs relative to bilingual and bidialectal learners. (Former T Ed 215)
221. Early Childhood Curriculum
for Children with Special Needs (3)
Modifications in mainstreamed or special settings to adapt early education curriculum for young children with special needs. Study of theoretical models, research, teaching techniques, criteria for selection
of appropriate materials and provisions for adapting physical classroom environments. (Former T Ed 221)

## 224. Assessment and

Development of Reading Abilities (3) Prerequisite: LEE 278. Analysis of reading performance utilizing observation, interview procedures and diagnostic instruments. Consideration of methods and materials for instruction and the leadership role of the reading specialist. ( 2 lecture, 2 lab hours) (Former T Ed 224)

## 231. Curriculum in Early

Childhood Education (3)
Prerequisite: LEE 171; admission to Early Childhood Emphasis or Specialist program. Concepts underlying curriculum and development for children eight years and younger. Teacher's role in planning, implementing, and assessing curriculum and development of teaching strategies. (2 lecture, 2 lab hours) (Former T Ed 231)

## 232. Reading and Language Arts

in Early Childhood Education (3)
Prerequisite: admission to program or permission of instructor. Examines development of oral and written language skills in young children. Explores theories, curricula, and strategies for teaching language arts and beginning reading. (Former T Ed 232)
234A. Clinical Experiences in the Assessment and Development of Reading Abilities for Grades K-6 (3) Prerequisite: LEE 224. Clinical experiences in the supervised application of principles learned in LEE 224. Emphasis on individual and small group evaluation and instructional procedures for grades K-6. (2 lecture, 2 lab hours) (Instructional materials fee, \$10) (Former T Ed 234A)
234B. Clinical Experiences in the Assessment and Development of Reading Abilities for Grades 7-12 (3)
Prerequisite: LEE 224. Clinical experiences in the supervised application of principles learned in LEE 224. Emphasis on individual and small group evaluation and instructional procedures for grades 7-12. (2 lecture, 2 lab hours) (Instructional materials fee, \$10) (Former T Ed 234B)

## 241. Fieldwork in Early <br> Childhood Education (3)

Prerequisite: admission to Early Childhood Emphasis or Specialist program. Supervised experiences in work with young children and their families in at least two different levels including preschool, kindergarten, and primary. (Minimum of 135 hours) (Former T Ed 241)

## 244. Research in

Reading Curriculum (3)
Prerequisite: LEE 224 and permission of instructor. Study of selected curricula; planning curriculum in reading; effective ways of dealing with the functions and duties of reading specialists and consultants. (Former T Ed 244)

## 252. Mathematics and Science

in Early Childhood Education (3)
Prerequisite: admission to Early Childhood Education Emphasis or Specialist program or permission of instructor. Theoretical study of mathematics and science knowledge acquisition for young children. Development of appropriate science and mathematics curriculum materials. Review of literature and related research. (2 lecture, 2 lab hours) (Former T Ed 252)

## 254. Supervised Field

Experiences in Reading (3)
Prerequisite: LEE 224, 244, and permission of instructor. Intensive varied supervised field experiences involving diagnosis and treatment of reading difficulties; development or refinement of reading programs; evaluation of reading instruction; application of interpersonal communications and group process skills. (Former T Ed 254)
271. Comparative Cultures
in Early Childhood (3)
Ways in which culture affects personality, language, and cognitive development. Similarities and differences in education and socialization in a variety of cultural settings are studied. Curricula for multicultural education in ECE are included. (2 lecture, 2 lab hours) (Former T Ed 271)
278. Seminar in Reading Theories (3)

Prerequisite: LEE 156M or 156S or permission of instructor. Identification and investigation of current reading theories and application of theory to classrooms. Independent research review on a selected reading topic and reporting of findings. (Former T Ed 278)

## 280T. Advanced Topics in

Literacy and Early Education (1-3)
Prerequisite: permission of instructor. Advanced, in-depth analysis of issues and problems related to literacy, bilingualism, and early childhood education. Emphasis placed on advanced research. (Former T Ed 280T)
290. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Former T Ed 290)

298A. Project — Literacy (4)
Prerequisite: advancement to candidacy for the master's degree; $\boldsymbol{B}$ average on 24 units of the master's program including ERF 220. See Criteria for Thesis and Project. A project consists of a significant undertaking appropriate to education such as the development of curricula and instructional materials, intervention programs, studies of policy related to reading and literacy, and educational theory. An approved proposal is required for enrollment. Approved for $\boldsymbol{S P}$ grading. (Former A S 298B)
298B. Project - Early
Childhood Education (4)
Prerequisite: advancement to candidacy for the master's degree; $\boldsymbol{B}$ average on 24 units of the master's program including ERF 220. See Criteria for Thesis and Project. A project consists of a significant undertaking appropriate to education such as the development of curricula and instructional materials, intervention programs, studies of policy related to early childhood education, and educational theory. An approved proposal is required for enrollment. Approved for SP grading. (Former A S 298B)
299. Thesis (4)

Prerequisite: advancement to candidacy for the master's degree; $\boldsymbol{B}$ average on 24 units of the master's program including ERF 220 and completion of an acceptable thesis proposal. See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. See School of Education and Human Development's graduate programs coordinator for thesis guidelines. Approved for SP grading. (Former A S 299)

## IN-SERVICE COURSES

(See Course Numbering System.)

## Literacy and Early Education (LEE)

380T. Topics in Literacy and Early Education (1-6; max total 12) Studies in theory, procedures, and application in such areas as pertain to departmental focus. (Former T Ed 380T)

## 383. Problems in Child Study

 (2; max total 12 if topic not repeated) Methods of studying children; relationship of child study groups, reviews of research findings in child development, and adolescent behavior. (Former T Ed 383)
## EDUCATION Graduate Programs

,he School of Education and Human Development offers advanced and specialized preparation required for awarding a doctoral degree, master's degrees, and advanced specialist and services credentials. Information about interdisciplinary programs is provided in this section. General information is also provided about all advanced programs while more specific program information is obtained by referring to appropriate departmental sections in this catalog.

## Doctoral Program

Doctorate in Educational Leadership. The School of Education and Human Development received final approval of an interdisciplinary doctoral degree in Educational Leadership, offered in partnership with the University of California (Division of Education, Davis), to begin fall 1991. The program will be conducted jointly by CSU, Fresno and a consortium of UC faculty with the program based on the CSU, Fresno campus.
The program provides options in four areas of emphasis:

1. Organizational Studies
2. Curriculum, Instruction,
and Supervision
3. Assessment and Evaluation
4. Sociocultural Studies

The program will be headed by co-directors from CSU, Fresno and UC Davis. For further information, contact Dr. Rosemary Papalewis, co-director, CSU, Fresno.

## Master's Degree Programs

The SOEHD offers four master's degree programs in separate areas of professional emphasis. These degree programs include:

1. Master of Arts degree in Education with the following options: administration and supervision, curriculum and instruction, early childhood education, reading, and school counseling and student services
2. Master of Arts degree in Special Education
3. Master of Science degree in Counseling with the following two options: career development counseling and marriage, family and child counseling
4. Master of Science degree in Rehabilitation Counseling
Master's degree programs can be pursued concurrently with fifth-year (postbaccalaureate) teaching credential, specialist credential, or services credential programs. For information regarding the fifth-year clear teaching credential program, contact the fifth-year adviser in the SOEHD, EdP 111. Obtain information pertaining to specialist and services credentials by contacting individual program coordinators located in each department.
For additional information and advisement pertaining to SOEHD master's degree programs, consult the appropriate department and program coordinator.

## Master's Degrees

General Admission Requirements. In addition to making application for admission to the university through the CSU, Fresno Admissions Office, consult the SOEHD graduate degrees program coordinator for:

1. Program information
2. SOEHD graduate programs admission forms
3. Any specific program application forms
4. Assignment to an appropriate adviser

All students applying for admission to a master's degree program in the SOEHD must meet the minimum admission requirements listed below and be approved for admission by the Faculty Review Committee. Evidence of completion of these requirements is to be submitted along with required forms in one complete packet to the SOEHD Graduate Programs Office, EdP 120, by the application closing date. A completed admissions packet will include:

1. Verification of admission to CSU, Fresno
2. An application to the SOEHD graduate programs
3. A complete set of transcripts of all prior college or university work
4. Evidence of a minimum undergraduate GPA of 2.75 overall or on the last 60 undergraduate units. (For exception, see Special Education Programs.)
5. A statement of purpose
6. Three letters of recommendation from persons in a position to make an evaluation in support of program entry
7. Evidence of successful completion of ERF 153 (Educational Statistics) or equivalent
8. Evidence of receipt of a passing score required on the Graduate Record Examination - General Test
9. Evidence of receipt of a passing score on the Test of English as a Foreign Language (TOEFL) if an international student. The SOEHD also retains the option to require international students to obtain additional preparation if English usage skills are judged to be inadequate.
10. Evidence of writing proficiency by one of the following:
a. obtaining a passing score on the Upper-Division Writing Exam
b. completing English 160 W with a grade of $\boldsymbol{B}$ or better
c. obtaining a passing score on the CBEST
11. Evidence of any additional requirements unique to each degree and program within the degree (refer to M.A. programs in education and the M.S. programs in counseling and rehabilitation counseling). See graduate programs offered through the departments of Counseling and Special Education; Curriculum, Teaching, and Educational Technology; Educational Research, Administration, and Foundations; and Literacy and Early Education.

Required application packets are available in the SOEHD Graduate Programs Office, EdP 120.

Individual Program Requirements. Complete any additional requirements unique to each degree and program within the degree (refer to M.A. programs in education and special education and the M.S. program in counseling and rehabilitation counseling). See graduate programs offered through the education departments.
Application Deadlines. Deadlines for submitting SOEHD master's degree programs admission materials are:

\section*{Application <br> Semester Enrolled Requirements Completed <br> | Summer | March 1 |
| :---: | :---: |
| Fall | March 1 |
| Spring | October 1 |}

Applicants are required to attain classified standing (be fully admitted) in a master's degree program no later than the semester in which they complete 10 units of coursework that they expect to be applied toward their degree program.
Applicants are encouraged to complete all program application requirements prior to or during the first semester of enrollment in the degree program. Early completion of application materials assures timely review and written notification of admission status.
Program Faculty Review. Following submission of all application requirements, the program faculty representing each master's degree program reviews the application. Written notification is then sent regarding whether or not admission has been granted.

Appeal of Admissions Decision. Applicants who have received written notification of denial of admission have an opportunity to submit a formal appeal for special consideration to the program faculty. An appeal for special consideration must be submitted within two weeks of the date of the letter of denial in order to be considered by the program faculty during the same semester.
Advancement to Candidacy/Completion of Degree. For information regarding advancement to candidacy and procedures needed to complete the master's degree, contact the SOEHD graduate degrees program coordinator, EdP 120.
The SOEHD Graduate Office maintains a record center for all students who are working toward a SOEHD master's degree. It also maintains liaison between the Division of Graduate Studies and Research and departments in the School of Education and Human Development offering master's degree programs.
In order to ensure selection of courses that will be acceptable on a master's degree program, candidates should consult with the appropriate program coordinator.

## Advanced Credential Programs

Advanced Credential Programs are categorized as 1) specialist credentials and 2) services credentials. These credentials require professional preparation at the postbaccalaureate level. All specialist and services credentials (except for Pupil Personnel) require successful completion of a basic Multiple Subject or Single Subject credential.
Specialist Credential Programs offered at CSU, Fresno include:

1. Adaptive Physical Education. (See $D e$ partment of Physical Education and Human Performance/adviser for the adaptive physical education program.)
2. Agriculture. (See Department of Animal Sciences and Agricultural Education/adviser for the agriculture specialist credential.)
3. Early Childhood Education. (See Department of Literacy and Early Education/ coordinator of early childhood education.)
4. Reading. (See Department of Literacy and Early Education/coordinator of reading.)
5. Special Education:

- Communication Handicapped. (See

Department of Communicative Disorders/coordinator of communication handicapped.)

- Learning Handicapped
- Severely Handicapped
(See Department of Counseling and Special Education/coordinator of special education.)

6. Language Development Specialist Certificate. (See Department of Literacy and Early Education/coordinator of the language development specialist.)
Services Credential Programs
offered at CSU, Fresno include:
7. Administrative:

- Preliminary Administrative
- Professional Administrative
(See Department of Educational Research, Administration, and Foundations/coordinator of educational administration.)

2. Clinical - Rehabilitative. (See Department of Communicative Disorders/coordinator of clinical - rehabilitative program.)
3. Health (School Nurse). (See Department of Nursing/coordinator of health services.)
4. Pupil Personnel. (See Department of Counseling and Special Education/ coordinator of counselor education.)
5. School Psychology (See Department of Psychology.)
Specialist and services credential programs can be pursued concurrently with a fifthyear (postbaccalaureate) teaching credential (Multiple Subject or Single Subject) and/or a master's degree. For information regarding the fifth-year clear teaching credential program, contact a fifth-year adviser in the SOEHD, EdP 111.
For information pertaining to the SOEHD master's degree programs, consult with the appropriate program coordinator or the SOEHD Graduate Programs Office, EdP 120.
Admission Requirements for Advanced Credential Programs. For admission requirements for advanced specialist and services credential programs, refer to the specific program information found in catalog sections for the departments of Counseling and Special Education; Curriculum, Teaching, and Educational Technology; Educational Research, Administration, and Foundations; and Literacy and Early Education. Application materials and forms are available in the SOEHD Graduate Programs Office, EdP 120. Admission requirements for ad-
vanced credential programs are to be completed along with required forms and submitted in one complete packet to the SOEHD Graduate Programs Office, EdP 120.
Admission Deadlines. Applicants are required to be fully admitted to a specific advanced credential program no later than the semester in which they complete 10 units of coursework that they expect to be applied toward their credential program.
Applicants are encouraged to complete all program application requirements prior to or during the first semester of enrollment in a specific credential program. Early completion of application materials assures timely review and notification of admission status.
Program Faculty Review. Following submission of all application materials, the program faculty representing each advanced credential program reviews the application. Written notification is then sent regarding whether or not admission has been granted.
Appeal of Admission Decision. Applicants who have received written notification of denial of admission have an opportunity to make a formal appeal for special consideration to the program faculty. An appeal for special consideration must be submitted within two weeks of the date of the letter of denial in order to be considered by the program faculty during the same semester.

## ENGINEERING Civil and Surveying Engineering

School of Engineering
Department of Civil and
Surveying Engineering
KARL E. LONGLEY, Chair
Engineering East Building, Room 126
(209) 278-2889

## B.S. in Civil Engineering <br> B.S. in Surveying Engineering <br> M.S. in Civil Engineering

,he Department of Civil and Surveying Engineering offers programs of study leading to the Bachelor of Science degrees in civil engineering and surveying engineering. Both programs are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology which represents the major professional engineering groups in the United States, including the American Society of Civil Engineers, American Congress on Surveying \& Mapping, and American Society for Engineering Education.
Civil engineering includes the research, development, planning, design, construction, and maintenance associated with urban development, water supply, structures, energy generation and transmission, water treatment and disposal, and transportation systems. The civil engineer deals with the function and safety of such public facilities as buildings,
bridges, dams, pipelines, powerplants, highways and harbors, and is concerned with the protection of the public against natural hazards of earthquakes, floods, landslides, and fires.
The graduate curriculum leading to an M.S. degree in Civil Engineering provides specialized training in the fields of structural engineering and applied mechanics, soil mechanics and foundation engineering, environmental engineering, hydrology and hydraulic engineering, highway engineering, and surveying engineering to meet the challenges of advances of recent years in technology and the escalation of urban problems.
Surveying engineering includes the science of making measurements to determine the relative positions of points on or near the earth's surface (surveying) and the science of making accurate measurements from photographs or other types of imagery (photogrammetry). Surveying engineers apply their knowledge to locating land and water property boundaries, collecting terrain data for engineering planning, making measurements for guiding construction operations, and accurately establishing horizontal and vertical control points for scientific and engineering works. Besides map making, photogrammetry is used for a wide variety of unusual measurements such as: topology of the human
body, nondestructive testing of engineering materials, monitoring structural deformations, and for architectural and anthropometric measurements.

## Faculty and Facilities

The department has 12 full-time faculty whose teaching and research specialties cover every area of civil engineering and surveying engineering. Most faculty members are licensed as civil engineers or land surveyors and have a wide range of professional experience in engineering design, analysis, research and development, and project planning and management.

Excellent laboratory facilities exist for testing of soils and construction materials, hydraulics testing, and water quality analysis.

## Career Opportunities

Employment opportunities for civil engineers in industry, state, and federal government agencies remain at a high level as a result of increasing urban growth and land development, and the recent emphasis on the maintenance and repair of the nationwide highway system. Civil engineers are also in demand to meet the growing challenge of cleaning the environment.
Opportunities for specialists in surveying engineering continue to grow with rapid advancements in analytical photogrammetry, geographic information systems, and inertial and satellite positioning methods. Most graduates of this program have been employed by the federal and state government agencies, oil and gas, and other private industry.

Many graduates have earned professional license as civil engineers or land surveyors within a few years of leaving school and are in private practice.

## Advising Notes

1. Courses in mathematics, the physical sciences, or engineering taken $C R / N C$ are not counted toward fulfillment of degree requirements in civil engineering.
2. Since the civil engineering major curriculum is very demanding, many students, especially those not fully prepared in mathematics, chemistry, and/ or physics take $41 / 2$ or more years to graduate rather than the traditional 4 years. Students not fully prepared in mathematics and/or chemistry should consider taking Math 71 and 72 in lieu of Math 75, and Chem 3A in lieu of Chem 1A. If needed, students also may go to the Learning Assistance Center in the Keats Building and request free tutorial assistance.

## Master of Science <br> in Civill Engineeering

(See also Admission to Graduate Standing, Advancement to Candidacy, Program Requirements, and Criteria for Thesis and Project.)
Admission. The requirements for graduate admission to California State University, Fresno must be met. To be admitted to the program, applicants should possess a bachelor's degree in civil engineering, surveying engineering, or a related field from an institution accredited by the Accreditation Board for Engineering and Technology. To be admitted, students must have a 2.7 grade point average in the last 60 semester-units of engineering courses attempted, on the basis of 4.0 being $A$, or
the approval of the Graduate Committee of the Department of Civil and Surveying Engineering. If an applicant's preparation is deemed insufficient by the Graduate Committee of the Department of Civil and Surveying Engineering, the applicant is required to take additional courses which are specified in writing to remove the deficiency. Such courses, taken as an unclassified student, are in addition to the minimum of 30 semester hours credit for the master's degree in engineering. The department graduate program coordinator shall appoint an interim graduate adviser for each student when that student is accepted into the graduate program. The coordinator will take into account student interests and correlated faculty interests when making this appointment.

Continuation in the Program. Prior to being admitted to classified standing, a student is required to take the Graduate Record Examination. The minimum grade considered passing is quantitative 450 . The advanced portion of the examination for engineering is not required.
The student then should select a graduate adviser before completing 12 units of graduate study and advancing to candidacy. Other members of his or her graduate committee shall be selected in consultation with the graduate adviser if the student has selected Plan A. This committee shall consist of at least three tenure/tenure track faculty. One or more external committee members, as identified by the graduate adviser and the graduate student, may also be included on this committee as long as the majority of the committee is composed of tenure/tenure track faculty members. The graduate student shall notify the department's Graduate Committee with a letter signed by both the student and the graduate adviser of the membership of the students' Graduate Committee. This letter shall be placed in the student's academic folder.
A graduate student may change graduate advisers when he or she justifies the reasons for such change in writing to the department graduate program coordinator and when such change is approved by the department's Graduate Committee. The student, together with his or her graduate adviser, completes a contract program within his or her first semester of coursework taken for graduatecredit. This program
must be approved by the department's Graduate Committee. Satisfactory progress toward completion of the contract program is a requirement for continuation in the program. Students must maintain a 3.0 average on all coursework attempted while enrolled as a graduate student. A minimum of 12 semester hours must be earned before the average is determined.
Campus graduate disqualification procedures shall be enforced by the department graduate program coordinator. Graduate students in the Department of Civil and Surveying Engineering shall maintain a 3.0 grade point average ( 4.0 scale) each semester and cumulatively throughout all graduate program coursework. Any semester for which the grade point average falls below 3.0 shall result in placing the affected graduate student on probation. Normally, a second consecutive offense shall lead to disqualification. Such probation shall be for at least one semester or shall continue until the cumulative grade point average has again been raised above 3.0.

Program. Each master's degree student selects, as early as possible during the first semester of attendance, and upon consulting with and securing the approval of the graduate adviser, a program best suited to the student's interests and objectives.
The M.S. degree in Civil Engineering requires the completion of one of the following three programs of study containing the following requirements:

## Plam A

Units
a. 200-series engineering courses ... 12-24
b. 100 -series civil engineering or surveying engineering undergraduate elective courses $\qquad$ 0-6
c. Outside of the Department of Civil and Surveying Engineering - 100-series upper-division and 200 -series graduate courses in engineering, mathematics, statistics, management, business, geology, physics, chemistry, health sciences, biology, or other disciplines best suited to the student's graduate program as approved by the program adviser 0-12
d. Thesis 299 ......................................................... 6

Totall ................................................... 30
Under this plan the total units from (b) and (c) may not exceed 12 units with not more than 6 units being 100 -series upper-division courses.

## Plann B

Units
a. 200-series engineering courses ...15-27
b. 100-series civil engineering or surveying engineering undergraduate elective courses
c. Outside of the Department of Civil and Surveying Engineering - 100-series upper-division and 200-series graduate courses in engineering, mathematics, statistics, management, business, geology, physics, chemistry, health sciences, biology, or other disciplines best suited to the student's graduate program as approved by the program adviser
d. Project 298......................................... 3

Total 30

Under this plan the total units from (b) and (c) may not exceed 12 units with not more than 6 units being 100 -series upper-division courses.

## Ploun C <br> Units

a. 200-series engineering courses ... 18-30
b. 100-series civil engineering or surveying engineering undergraduate elective courses $\qquad$
c. Outside of the Department of Civil and Surveying Engineering - 100-series upper-division and 200 -series graduate courses in engineering, mathematics, statistics, management, business, geology, physics, chemistry, health sciences, biology, or other disciplines best suited to the student's graduate program as approved by the program adviser 0-12
d. Comprehensive Final Examination ... 0

Totall ................................................... 30
Under this plan the total units from (b) and (c) may not exceed 12 units with not more than 6 units being 100 -series upper-division courses.

## Undergraduate courses

that may be used as electives:
M E 144 Advanced Mechanics of Materials (3)
I E 161 Legal Aspects of Engineering (2)
C E 110 Computer Application in Civil Engineering (3)
C E 125 Geotechnical Engineering Design (3)
C E 131 Intermediate Theory of Structures (3)
C E 134 Foundation Design (3)

C E 135 Reinforced and Prestressed
Concrete Design (3)
C E 136 Design of Timber Structures (3)
C E 137 Seismic Analysis of
Structures (3)
C E 138 Structural Mechanics (3)
C E 141 Water Resources Engineering (3)
C E 143 Engineering Hydraulics (3)
C E 144 Design of Water Quality
Control Processes (3)
C E 151 Pavement Design (3)
C E 153 Traffic Operations and Control (3)
C E 191 T Topics in Civil Engineering (3)
S E 109 Surveying Astronomy (3)
S E 125 Analytical Photogrammetry (3)
S E 135 Advanced Survey Computations (3)
S E 140 Earth Resources Surveying (3)
S E 145 Geopositioning (3)
S E 147 Surveying Instrumentation (3)
S E 151 Boundary Control and Legal Principles (3)
S E 152 Surveying Systems (3)
S E 161 Data Collector Interfacing (3)
S E $191 T$ Topics in Surveying Engineering (1-3; max total 3)
Graduate Courses (C E)
204 Engineering Planning and Operations (3)

247 Solid and Hazardous Wastes Engineering (3)
251 Advanced Boundary Law (3)
261 Geoprocessing (3)
271 Geodetic Systems Optimization (3)
275 Satellite Surveying (3)
280 Surveying Engineering Seminar (1; max total 3)
281 Civil Engineering Seminar (1; max total 3)

283 Digital Remote Sensing (3)
285 Advanced Analytical Photogrammetry (3)
286 Geographic Information Systems Design (3)
290 Independent Study (1-3)
291T Topics in Civil Engineering (1-3; max total 15)
298 Project (3)
299 Thesis (2-6; max total 6)

## COURSES <br> Civil Engineering ( $C \mathbb{E}$ )

10. Engineering Skills (2)

Provides engineering students with experience in solving problems and presenting solutions in a logical manner, introduces students to subject areas common to most engineering disciplines and develops basic skills for solving problems through an engineering approach. $C R / N C$ grading only; not applicable toward baccalaureate degree requirements.
20. Engineering Mechanics: Statics (3) Prerequisite: Math 77 (or concurrently), Phys 5A. Analysis of force systems, equilibrium problems, section properties; graphic, algebraic, and vector methods of problem solution. (2 lecture, 2 lab hours) (CAN ENGR 8)
21. Statics for Electrical Engineers (2) Prerequisite: Math 77 (or concurrently), Phys 5A. Not open to majors outside of the Electrical and Computer Engineering Department. Analysis of static force systems by scalar and vector methods. Determination of section properties.

## 85. Introduction to <br> Civil Engineering (1)

The civil engineering profession and its career opportunities; creative thinking and critical thinking as integral parts of the engineering decision process; engineering methods of analysis.

## 110. Computer Applications

in Civil Engineering (3)
Prerequisite: ECE 70, C E 130. Use and modification of existing programs. Creation of new programs. Use of structured language, spreadsheets, and database management software. Interactive design and graphic displays. Design orientation. Term projects. (Former C E 191T section)
121. Mechanics of Materials (3)

Prerequisite: C E 20. Application of principles of mechanics to find stresses and deformations in machine and structural members.

## 121L. Mechanics of

Materials Laboratory (1)
Prerequisite: C E 121 (or concurrently). Application of principles and methods of testing to verify theory and determine limitations of principles of mechanics of materials. (3 lab hours)

## 123. Soil Engineering (3)

Prerequisite: CE121. Physical and mechanical properties of soil as an engineering material; studies and design applications in permeability, one and two dimensional flows, seepage through earth dams and coffer dams, porewater pressure and excess porewater pressure; compressibility, stressstrain relationships and strength characteristics; case histories.
123L. Soil Engineering Laboratory (1) Prerequisite: C E 121L, 123 (or concurrently). Experiments to illustrate and amplify the principles of soil mechanics. (3 lab hours; field trips required)

## 124. Concrete Laboratory (1)

Prerequisite: C E 121L. Proportioning of concrete mixes; admixtures; workability tests; compressive, flexural, and tensile strength tests; reinforced concrete. (3 lab hours; field trips required)

## 125. Geotechnical

## Engineering Design (3)

Prerequisite: CE 123. Theory and design of embankment and cut slopes, surcharging and sand drains, dewatering systems and ground control, excavation and support systems, field compaction and grouting systems; construction considerations and case histories.

## 127. Construction Soils

and Foundation (3)
Not open to civil engineering majors. Prerequisite: upper-level standing. Physical and mechanical properties of soil, construction applications of soils engineering design, field control during construction, field problems and remedial measures, and case histories. (Former C E 191T section)
127L. Construction Soil Lab (1) Not open to civil engineering majors. Prerequisite: CE 127 (concurrently). Laboratory experiments and sessions to reinforce principles of soil mechanics as well as foundation design and illustrate the use of soil as a construction material. (3 lab hours and field trips required)
128. Civil Engineering Hydraulics (3) Prerequisite: ME 112 or concurrently. Fundamentals of civil engineering hydraulics with application to hydraulic structures.
129. Engineering Hydraulics Lab (1) Prerequisite: C E 128 or concurrently. Experiments and demonstrations in fluid properties, flow management, pipe flow, open channel flow, pumps, and hydraulic scour. (3 lab hours)
130. Theory of Structures (3)

Prerequisite: C E 121. Trusses and frames analyzed by algebraic and graphic procedures; influence lines and live loading analysis; rigid frames analyzed by slope deflection and moment distribution. Introduction to matrix methods.

## 131. Intermediate

Theory of Structures (3)
Prerequisite: C E 130. Analysis of statically indeterminate beams, trusses, and frames; column analogy; advanced topics in slope deflection and moment distribution; matrix methods.
132. Reinforced Concrete Design (3) Prerequisite: C E 130. Analysis and design of reinforced concrete structural elements using the UltimateStrength DesignMethod. Computer applications. Introduction to the Alternate Method. Introduction to prestressed concrete. (2 lecture, 3 lab hours; field trips required)

## 133. Design of Steel Structures (3)

Prerequisite: C E 130. Design of steel members and systems for buildings. Design areas include: tension members, compression members, beams, beam-columns, connections and plate girders. (2 lecture, 3 lab hours)
134. Foundation Design (3)

Prerequisite: CE 123, 132 (or concurrently). Theory and design of spread and continuous wall, rectangular, cantilever and trapezoidal footings; earth pressures and cantilever as well as gravity retaining walls; pile foundations; pile driving; construction considerations; load tests; subsurface investigations; casehistories; and computeraided design of foundations. (2 lecture, 3 lab hours)

## 135. Reinforced and

Prestressed Concrete Design (3)
Prerequisite: C E 132. Design of typical reinforced concrete and prestressed concrete structures. (2 lecture, 3 lab hours; field trip(s) required)
136. Design of Timber Structures (3)

Prerequisite: C E 130. Design of timber members and systems for buildings. Design areas include:loads, properties of wood, tension members, beams, columns, beamcolumns, connections, diaphragms, shear walls, and glued laminated arches.
137. Seismic Analysis of Structures (3) Prerequisite: C E 130, M E 112. Analysis of response of structures to dynamic loads with emphasis on response to earthquake ground motion. Basic concepts in design of earthquake-resistantbuildings. (Field trip(s) required)
138. Structural Mechanics (3)

Prerequisite: CE 130. Energy theorems and applications. Analysis of arches, beams on elastic foundations, cable stayed structures, and unsymmetrical bending of beams. Introduction to plastic theory of structures. (Former C E 191T section)
140. Hydrology (3)

Prerequisite: C E 128. The Hydrologic cycle, atmospheric conditions, precipitation, infiltration, ground water, soil moisture, evaporation, runoff, streamflow, hydrographs, flood routing, hydrologic frequency analyses, and their effects in water resource planning and management.
141. Water Resources Engineering (3) Prerequisite: C E 140. Analysis and design of water distribution and sewerage systems, facilities for pavement drainage, and other selected water resource projects. (Field trips required)
142. Environmental Engineering (3)

Prerequisite: C E 128 and C E 140 (or concurrently). Introduction to the planning and design of water and wastewater treatment facilities, hazardous and solid waste treatment and disposal facilities, air pollution control facilities, and noise pollution control.
142L. Environmental
Quality Laboratory (1)
Prerequisite: C E 142 (or concurrently). Study and analysis of physical, chemical, and biological characteristics of air, water, and solid wastes.
143. Engineering Hydraulics (3)

Prerequisite: C E 128. Theory and analysis of pressure-conduit and open-channel flow systems. Applications to hydraulic structures and control works, hydraulic power conversion, sediment transport, and channel stabilization.

## 144. Design of Water

Quality Control Processes (3)
Prerequisite: CE 142 or senior-level chemical or biological science. The process and hydraulic design of physical, chemical, and biological water purification and wastewater treatment facilities for water quality control. (Field trips required)
145. Unit Operations and Processes (3) Prerequisite: C E 142L. Analysis of the unit operations and unit processes used in the physical, chemical, and biological control of raw and waste waters quality. (2 lecture, 3 lab hours)

## 150. Transportation

Planning and Design (3)
Prerequisite: S E 15. Transportation as a multimode system: functions, development, elements, and characteristics. Transportation planning; design of geometric elements of route and terminal. (2 lecture, 3 lab hours)
151. Pavement Design (3)

Prerequisite: C E 123 (or concurrently). Factors affecting pavement performance. Structural design of flexible and rigid highway and airfield pavements. Pavement overlays, recycling, rehabilitation, and management system.

## 152. Transportation

Engineering Materials (2)
Prerequisite: CE123. Soil stabilization with bitumen, lime, and portland cement for pavement construction; properties of bituminous roadmaterials; properties, design, and testing of bituminous paving mixtures for pavement construction. (1 lecture, 3 lab hours; field trips required)
153. Traffic Operations and Control (3) Prerequisite: C E 150 (or concurrently). Highway traffic characteristics and studies; comprehensive transportation planning; traffic regulation and control; environmental considerations; traffic engineering administration.
161. Construction Engineering I (3)

Prerequisite: C E 123. Basics of civil engineering contracting, organization of construction firms, legal structures, project funding, cash flow, equipment costs, labor relations, and safety.

## 170. Pollution and Society (3)

Not open to civil engineering majors. A description of the natural environment. Identification of both man-made and natural environmental impacts. The incorporation of a rational process into environmental decision making. Case histories of specific environmental problems. General Education CAPSTONE Cluster. (Field trips required)
180. Senior Project (2)

Prerequisite: senior standing in civil engineering; approved subject; I E 182W (or concurrently). Study of a problem under supervision of a faculty member; final
typewritten report required. (Individual project except by special permission.)
185. Civil Engineering Practice (1) Prerequisite: senior standing in Civil Engineering. Practice of Civil Engineering; opportunities in Civil Engineering; transition from student to professional engineer; engineering ethics. (Field trips required)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## 191T. Topics in Civil

Engineering (1-3; max total 6)
Prerequisite: permission of instructor. Investigation of selected civil engineering subjects not in current courses.

## 193. Internship in Civil

Engineering (2-4; max total 4)
Prerequisite: permission of adviser. Engineering practice in a consulting, industrial, or government work setting. Each cooperative internship period usually spans a summer-fall or spring-summer interval. This course cannot be used to meet graduation requirements. CR/NC grading only.

## GRADUATE COURSES

(See Course Numbering System.)

## Civil Engineering (C E)

## 204. Engineering Planning

and Operations (3)
Planning, scheduling, and allocation of resources for engineering processes, including long-range planning, work breakdown structures, network analysis, computer modeling, and engineering communications. (Former Engr 204)

## 205. Computing in

Engineering Analysis (3)
Prerequisite: graduate status in engineering. Solution of engineering problems using digital computation. Modeling of engineering systems for numerical analysis. (Former Engr 205)

## 206. Engineering

## Environmental Impact (3)

Identification of environmental impacts due to engineering projects. The incorporation of environmental considerations into engineering design. Alternative solutions to engineering problems. Case histories of selected engineering projects. Special design problems are assigned relating to the student's field of interest. (Former Engr 206)
220. Advanced

Foundation Engineering (3)
Prerequisite: graduate standing. Design of cantilevered and anchored sheet-pile walls; axial- and lateral-loaded pile groups; drilled piers; pile driving stresses and wave equation analysis; beams on elastic foundations; footings on expansive and non-uniform soils and on rock; and case histories. (Former Engr 291T section, Engr 220)
230. Advanced Theory of Structures (3) Prerequisite: graduate standing in engineering or permission of instructor. Analysis of indeterminate structures by force (flexibility) methods and by displacement (stiffness) methods; Matrix methods suitable for digital computer solutions. Virtual work, real and complementary energy. Classical structural theorems. Introduction to the finite element method. (Former Engr 230)
232. Prestressed Concrete (3)

Prerequisite: graduate standing in engineering or permission of instructor. Properties of hardened concrete. Failure mechanisms, influence of load, and environment history. Structural behavior and design of prestressed concrete elements and systems: continuous beams, frames, slabs. Partial prestress. (Field trips required) (Former Engr 232)

## 233. Advanced Steel

and Timber Design (3)
Prerequisite: graduate standing. Material behavior and design of basic structural units. Topics in steel: inelastic buckling, lateral-torsion buckling, plate girders, composite design, plastic design. Topics in wood: glulam structural units, pole-type structures, structural diaphragms. (Former Engr 233)
234. Theory of Plates and Shells (3) Prerequisite: graduate standing in engineering or permission of instructor. Methods of calculating stresses and deformations in plates and shells used in engineering structures. Bending of circular and rectangular plates under various conditions. Membrane and flexural analysis of shells of revolution. (Former Engr 234)
235. Finite Element Analysis (3)

Prerequisite: graduate standing in engineering or permission of instructor. Theoretical and conceptual bases for formulation of finite element representations in solid mechanics. Development of element stiffness matrices for plane stress and plane strain problems, bending of plates and deformation of shells. (Former Engr 235)
237. Dynamics of Structures (3)

Analysis of structural members and systems subject to dynamicloads. Basic theory for single-degree-of-freedom and multi-de-gree-of-freedom analytical models; free vibration, harmonic and transient excitation, response spectrum, Lagrange's equations, earthquake analysis. (Former Engr 291T Section)

## 240. Engineering Hydrology (3)

Prerequisite: ME 116. Analysis of the physical and stochastic processes governing the occurrence and movement of water in its natural environment. Applications to hydraulic engineering practice. (Former Engr 240)

## 242. Water Resources

Planning and Management (3)
Prerequisite: graduate standing in engineering or permission of instructor. A study of the interrelations of engineering, economic, legal, political, administrative, ecological, and social factors involved in the planning and management of water resources. (Former Engr 242)
244. Unit Operations and Processes (3) Prerequisite: C E 246A and 246B (or concurrently). Laboratory investigation employing the use of pilot plants as part of the design process; analysis of the unit operations and unit processes used in the physical, chemical, and biological treatment of water and waste-water. (1 lecture, 6 lab hours)
245. Industrial and

Hazardous Waste Treatment (3)
Prerequisite: graduate standing in engineering or permission of instructor. The application of engineering process to treatment and disposal of liquid industrial and hazardous wastes. Evaluation of treatment and disposal alternatives with emphasis on recovery processes. (Former Engr 245)
246A. Advanced Water Quality (3)
Prerequisite: C E 142 or permission of instructor. Theory and practice of physical/ chemical processes for controlling water quality, including chemical equilibrium and kinetics; mass transfer mechanisms; physical separation processes; adsorption, exchange, and membrane-based processes; disinfection.
246B. Advanced Water Quality (3)
Prerequisite: C E 142 or permission of instructor; C E 246A recommended. Theory and practice of biological processes for controlling water quality, including suspended
growth systems; attached growth systems; ponds; land treatment. Also sludge treatment processes, including biological stabilization, thickening, and dewatering; sludge disposal.
247. Solid Wastes Engineering (3)

Planning and design of waste collection and disposal systems. Waste segregation and energy impact related to recovery and recycling practices. Environmental impact and institutional issues related to solid and hazardous waste systems. (Former Engr 247)
251. Advanced Boundary Law (3)

Prerequisite: S E 151 or equivalent. Land and water boundary legal issues and McDean Boundary Law Developments. Specialized group and individual boundary case law investigations. (Former Engr 291T section)
261. Geoprocessing (3)

Prerequisite: S E 173 or equivalent. Integration of computer technologies for gathering, analyzing, and displaying data associated with the earth's spatial features. Engineering design problems dependent on competing factors. (Former Engr 291T section)

## 271. Geodetic

Systems Optimization (3)
Prerequisite: S E 108 or equivalent. National geodetic networks; planimetric and vertical control systems; geodetic control densification; network optimization criteria and methodology.
275. Satellite Surveying (3)

Prerequisite: graduate standing. Discussion of GPS orbital theory, data collection and processing algorithms, network adjustments, project design and optimization techniques. Review of current research trends and applications. (Field trips required) (Former Engr 275)

## 280. Surveying Engineering

Seminar (1; max total 3)
Prerequisite: graduate standing. Current CSUF surveying engineering research presented and discussed by faculty and graduate students. Oral presentation and written report documenting ongoing research activities required. (Former Engr 280)

## 281. Civil Engineering

Seminar (1; max total 3)
Prerequisite: graduate standing. Current CSUF civil engineering research presented and discussed by faculty and graduate stu-

dents. Oral presentation and written report documenting ongoing research activities required. (Former Engr 281)
283. Digital Remote Sensing (3)

Prerequisite: S E 140 or equivalent. Quantitative approach in remote sensing; digital image characteristics, error correction, registration; geometric and radiometric image enhancement;image classification; system design; remote sensing and G.I.S. (Former Engr 291T section)
285. Advanced

Analytical Photogrammetry (3)
Prerequisite: S E 125 or equivalent. Mathematical models in photogrammetry; bundle block adjustment, self-calibration; close-range photogrammetry; real time photogrammetry and data snooping. System design; hardware and software considerations in photogrammetry.
286. Geographic

Information Systems Design (3)
Prerequisite: S E 173 or equivalent. Data structures and algorithms, databases for G.I.S., error modeling and data uncertainty, visualization, data exchange and standards, the multipurpose cadaster, advanced analysis techniques.
290. Independent Study
(1-3; max total 3)
Prerequisite: graduate status in engineering. See Academic Placement - Independent Study. Approved for SP grading. (Former Engr 290)

## 291T. Topics in Engineering

(1-3; max total 6)
Prerequisite: permission of instructor. Investigation of selected engineering topics. May be offered with a lab. (Former Engr 291T)
298. Project (3; max total 3)

Prerequisite: graduate status in engineer-
ing. See Criteria For Thesis and Project. Independent investigation of advanced character such as analysis and/or design of special engineering systems or projects; critical review of state of the art of special topics, as the culminating requirement for the master's degree. Abstract required. Approved for SP grading. (Former Engr 298)
299. Thesis (2-6; max total 6)

Prerequisite: See Criteria For Thesis and Project. Preparation, completion, and submission of an acceptable thesis for master's degree. Approved for SP grading. (Former Engr 299)

## IN-SERVICE COURSES

(See Course Numbering System.)

## Civil Engineering (C E)

311. Professional Examination Review (2; may be repeated in different fields) Prerequisite: bachelor's degree in engineering or eligibility to take state registration examinations. Review of engineering fundamentals for those qualified to take the state examination for certification as engi-neer-in-training; or review in a specific field (civil, electrical, mechanical, or other) for those preparing to take the examination for registration as professional engineer.
312. Professional Engineering Seminar (1-3; may be repeated in different fields) Prerequisite: bachelor's degree in engineering or related field, or experience as a professional engineer. Latest developments in various specialized areas of professional engineering practice; new materials, designand construction methods, equipment, devices, and procedures.

## Advising Notes

1. Courses in mathematics, the physical sciences, or engineering taken $\mathbf{C R} / \mathbf{N C}$ are not counted toward fulfillment of degree requirements in Surveying Engineering.
2. Since the Surveying Engineering major curriculum is very demanding, many students, especially those not fully prepared in mathematics, chemistry, and/ or physics, take $4 \frac{1}{2}$ or more years to graduate rather than the traditional 4 years. If needed, students may go to the Learning Assistance Center in the Keats Building and request free tutorial assistance.

## COURSES

Surveying Engineering (S E)
5. Critical Reasoning (3)

Fundamentals of analysis and evaluation in the context of technology. Evaluating the viewpoints of experts. Patterns of deductive andinductive arguments. Common fallacies of reasoning. General Education CORE, Critical Thinking.

## 10. Engineering Skills (2)

Provides engineering students with experience in solving problems and presenting solutions in a logical manner, introduces students to subject areas common to most engineering disciplines and develops basic skills for solving problems through an engineering approach. CR/NC grading only; not applicable toward baccalaureate degree requirements.

## 11. Plane Surveying (2)

Prerequisite: Math 5. Principles of surveying measurements; distances, directions, elevations, reduction of surveying data; planimetric mapping.
11L. Plane Surveying Laboratory (1)
Prerequisite: SE 11 (or concurrently). Field practice in measurements of distance and use of level, transit, and tape in solution of practical problems. (3 lab hours; field trips required)

## 15. Engineering Surveying (3)

Prerequisite: Math 5. Principles of surveying measurements for distance, direction, and elevation. Applications to basic construction stakeout, planimetric and topographic mapping, horizontal and vertical curves, and earthwork problems.

## 15L. Engineering

Surveying Laboratory (1)
Prerequisite: S E 15 or concurrently. Field practice in surveying measurement, mapping, construction stakeout, and curve alignment problems. ( 3 lab hours; field trips required)
16. Municipal Surveying (2)

Prerequisite: S E 15. Electronic distance measurement principles; calibration and use of EDM instruments; total station and data collectors for urban control surveys and digital map data collection. Introduction to the Land Surveyors Act. Retracement surveys, certified surveys, A.L.T.A., and mortgage surveys. (Former S E 12)

## 16L. Municipal

Surveying Laboratory (1)
Prerequisite: S E 16 or concurrently. EDM and total station calibration, adjustment and use for control surveys and digital data
collection. Field practice in retracement as built, lot split, certified, A.L.T.A., and mortgage surveys. (Former S E 12L)

## 23. Photogrammetry (2)

Prerequisite: S E 11, L or 15, L; S E 23L concurrently. Theory of photographic processes, optics, lenses, emulsions, and developers. Image quality control. Characteristics of metrical photography; extraction of metrical data from single and overlapping photographs. Flight planning.
23L. Photogrammetry Laboratory (1) Prerequisite: SE 23 concurrently. Planning photography for extraction of metric data. Photographic measurements. Orientation and use of stereoplotters. (3 lab hours; field trips required)
34. Survey Computations (3)

Prerequisite: S E 16, L; S E 61; Math 76. Probability, error theory, adjustment of simple survey nets, and matrix methods; digital computer solutions of surveying computation and adjustment problems.

## 41. Route Surveying (2)

Prerequisite: S E 16, L. Computations and theory covering surveys for highway, irrigation, construction, and other kinds of engineering projects. Includes computer solutions. (Field trips required)
41L. Route Surveying Laboratory (1) Prerequisite: S E 41 (or concurrently). Survey for highway location, stakeout of roads and intersections from plans. Collection of digital survey data for computer processing. (3 lab hours)

## 50. Land Surveying (3)

Prerequisite: S E 15. Detailed study of the United States Public Land Survey System instructions with special emphasis on California. Sectionalized land subdivision, corner restoration, resurveys, evidence, descriptions. (Field trips required)
61. Microcomputers in

Surveying Engineering (3)
Prerequisite: Math 75 (or concurrently). Microcomputer operating systems; introduction to high level computer languages, file processing, program documentation, testing, and debugging.
66. Computer-Aided Mapping (3)

Prerequisite: S E 61. Principles of map design and projections. Interactive editing of digital map and graphic data. Graphic input to geographic information systems.
86. Surveying Engineering Practice (1) The surveying engineering profession and its career opportunities; creative and criti-
cal thinking applied to the surveying engineering decision-making process. (Former S E 186)
100. Technology and Society (3)

Prerequisite: CORE math, Engl 1, junior standing. Technological developments and their effects on society; evaluation of technology writings; ecology and environment; future projections; selected examples.
101. Creative Thinking (3)

Prerequisite: CORE math, Engl 1. Development of a process for creative thinking. Styles of thinking. Obstacles to overcome. Divergent versus convergent thinking. Idea stimulation. Gaining acceptance for new ideas.
102. Geodetic Surveying (2)

Prerequisite: S E 34, 108 (or concurrently). Triangulation, trilateration, and traverse; adjustment of geodetic figures, precise leveling; astronomy for azimuth; map projections and state plane coordinates. (2 lecture hours)
102L. Geodetic Surveying Laboratory (1) Prerequisite:SE 102 (or concurrently). Field applications and practice with triangulation, trilateration, traverse, precise leveling, and astronomy for azimuth. (3 lab hours; field trips required)

## 105. Futuristics (3)

Prerequisite: CORE math, Engl 1. Study of the future with emphasis on technology; growth curves, trend extrapolation, analytical models; breakthroughs; Delphi techniques; cross-impact matrix; flow diagrams and relevance trees; decision making.
108. Geodesy (3)

Prerequisite: Math 77, Phys 5A, permission of instructor. Size and shape of the earth; three-dimensional coordinate systems; computations on the spheroid; introduction to gravity measurements; reduction to plane coordinates.
109. Surveying Astronomy (3)

Prerequisite: S E 108. Celestial sphere, star, and earth coordinates; altitude and hourangle methods of Solar observation; astronomical and instrumental corrections to observations; time systems; determination of latitude, longitude, and azimuth. (2 lecture, 3 lab hours)

## 121. Photographic

Processes in Engineering (3)
Prerequisite: S E 23, L. Theory of photographic processes, optics, lenses, emulsions, and developers; photographic/electronic interfacing; close-up photography; digital
image processing. (2 lecture, 3 lab hours) (Former S E 21)

## 123. Stereo-Photogrammetry (3)

Prerequisite: S E 23, 34 (or concurrently). Theory of stereo-photogrammetry; orientation of stereo-model. Design and operating principles of stereoplotters. Photogrammetric mapping; orthophoto mapping. Project planning. (2 lecture, 3 lab hours; field trips required)
125. Analytical Photogrammetry (3) Prerequisite: S E 123, 135. Introduction to analytical photogrammetry; strip andblock aerial triangulation. Design and operating principles of analytical plotters. (2 lecture, 3 lab hours; field trips required)
126. Digital Mapping (3)

Prerequisite: S E 66, 123. Digital map database; structure and design; photogrammetric and land surveying data input; data processing, editing, displaying and updating. System design; hardware and software considerations. Digital terrain modeling. (2 lecture, 3 lab hours; field trips required)

## 135. Advanced

Survey Computations (3)
Prerequisite: S E 34, 102. Statistics, propagation of errors, advanced theory of least squares optimization algorithms. Computer programming for complex surveying and photogrammetry adjustment applications. Project design.
140. Earth Resources Surveying (3)

Prerequisite: S E 125 (or concurrently). Extraction of quantitative data from aerial and space imagery for monitoring environment and management of earth resources. Data input for geographic information systems.
145. Geopositioning (3)

Prerequisite: Phys 5B, S E 108, 135. Theory and applications of inertial surveying, satellite surveying, photogeodesy, VLBI and laser ranging, navigational aids. Processing, adjustments, project planning, and costs. (3 lecture hours; field trips required)

## 147. Surveying Instrumentation (3)

 Prerequisite: Phys 5B, SE 102, 123. Applications of theory of optics and electronics to surveying and photogrammetric instruments. Testing, calibration, and adjustment of EDMI and other surveying instruments. (2 lecture, 3 lab hours; field trips required)
## 151. Boundary Control

and Legal Principles (3)
Prerequisite: S E 50. Legal principles that control the boundary location of real property.

## 152. Surveying Systems (3)

Prerequisite: SE 151. Concepts of property, land tenure, land ethics; property description and recording systems; water boundary systems, tidelands, the California Coastal Act, hydrographic surveys.
153. Advanced Boundary Control (3) Prerequisite: S E 151 or permission of instructor. Complex Public Lands Surveys, analysis of fraudulent surveys; evidence collection; water boundary problems; boundary agreements; complex descriptions; casestudies. (Former SE 191T section)
159. Subdivision Design (3)

Prerequisite: S E 126, 151. Subdivision map act, local subdivision regulations, title search, zoning study. Tentative and final subdivision layout, map drafting, computerized subdivision design, and drafting; environmental impact study. (2 lecture, 3 hour lab; field trips required)
161. Data Collector Interfacing (3) Prerequisite: S E 61. Introduction to programming for data collectors, file system generation, manipulation, and transfer, microcomputer interface to data collector,
digital theodolite, mono stereo comparator, analytical plotter and digitizer/plotter.
171. Project Design (3)

Prerequisite: senior standing. Design of control, boundary location and photogrammetric systems. Evaluation of design requirements, economic, and social considerations. Case Studies. (Field trips required)

## 173. Geographic

## Information Systems (3)

Prerequisite: S E 66 or permission of instructor. Introduction to G.I.S. Spatial database models; raster and vector data models. G.I.S. capabilities; spatial data analysis, hardware and software considerations; generating G.I.S. products. Existing geographic and land information systems. (Field trips required)

## 180. Senior Project (2)

Prerequisite: senior standing in surveying engineering; approved subject; I E 182W (or concurrently). Study of a problem under supervision of a faculty member; final typewritten report required. Individual project except by special permission.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
191T. Topics in Surveying

## Engineering (1-3; max total 6)

Prerequisite: permission of instructor. Investigation of selected surveying engineering subjects not in current courses.
193. Internship in Surveying

Engineering (2-4; max total 4)
Prerequisite: permission of adviser. Engineering practice in a consulting, industrial, or government work setting. Each cooperative internship period usually spans a summer-fall or spring-summer interval. This course cannot be used to meet graduation requirements. Report will be required of the student at the termination of each implemented experience. $C R / \mathbf{N C}$ grading only.

## ENGINEERING Edwards Air Force Base Program

School of Engineering Edwards Air Force Base Program ELDEN K. SHAW, Dean<br>Engineering East Building, Room 122 (209) 278-2603<br>Edwards Air Force Base James W. Smolka, Coordinator Building 2453, Edwards A.F.B. (805) 258-5936

alifornia State University, Fresno in cooperation with the Air Force Flight Test Center's Education Services Branch, operates a master's degree program with options in electrical and mechanical engineering at Edwards A.F.B., CA. All coursework, examinations, and degree requirements may be completed on the Base. Course credit is on-campus degree credit and may be transferred where regular degree credit is accepted, or to another CSU campus. Although sponsored by the Air Force, the program and courses are open to all qualified personnel in the area, without regard to employment affiliation. Courses are offered during off-duty hours at Desert High School, Edwards A.F.B.

## Program Requirements

The program consists of a common core ( 12 units), a set of required courses within the option ( 6 units), and approved elective courses ( 12 units), for a total of 30 units (semester hours) of coursework. There is no requirement for a thesis. Up to nine semester hours of satisfactory graduate credit may be transferred into the program from other institutions.

The Graduate Record Examination (GRE) Aptitude Test is required of all students prior to advancement to candidate status. The Advanced Test in Engineering is not required. The GRE is administered several times per year at Edwards A.F.B. A GRE information booklet and application forms are available in the resident coordinator's office.

All students must complete an oral or written comprehensive examination before graduation. This examination stresses the material in the required major courses.
Faculty. All faculty are selected from the Fresno campus, from other CSU campuses, and from among qualified engineers on the base.

Admission to the Program/University. Requirements for admission to California State University, Fresno are in accordance with Title 5, Chapter 1, Subchapter 3 of the California Code of Regulations.
Admission to Graduate Standing. Students who apply for the program are placed in one of the following categories:

1. Graduate Standing, Classified. Students with (a) an undergraduate degree in an appropriate engineering discipline from an ABET accredited program, (b) an undergraduate grade point average of 3.0 , and (c) a minimum GRE quantitative score of 450 are eligible for classified (degree status) graduate standing. This constitutes full admission to the graduate program.
2. Graduate Standing, Conditionally Classified. Students from non-ABET accredited engineering programs, or with degrees in physical science or mathematics or a different engineering discipline, and who have not met the requirements of category 1 , will be classed as conditionally classified graduate standing. Upon satisfactory completion of any noted deficiency they will then be advanced to classified standing.
Degree Candidacy. The following requirements must be met prior to advancement to candidacy:
3. Classified graduate standing.
4. Completion at CSU, Fresno of at least 9 units of the proposed program with a
3.0 average on all completed work appearing on the program.
5. A minimum grade point average of 3.0 on all upper-division and graduate coursework from the date of embarking on the first course of the proposed masters degree program.
6. Departmental recommendation for advancement to candidacy.
7. Satisfactory completion of the Graduate Writing Skills Requirement.
Nondegree students: Students with a bachelor's degree may takegraduate courses through extension (concurrent with regular students) for extension credit or audit. Prior approval of the resident coordinator is required.

## Curricula

## Core Courses (common

to both programs):
Engr 101 Applied Engr Analysis I (3)
Engr 102 Applied Engr Analysis II (3)
Engr 205 Applications of Numerical Analysis (3)
Engr 210 Linear Control Systems (3)
Mechanical Engineering
Required Courses:
M E 220 Compressible Fluids (3)
M E 230 Aircraft Stability and Control (3)
Mechanical Engineering Electives:
Engr 212 Advanced Control Systems (3)
M E 221 Incompressible Fluids (3)
M E 223 Propulsion (3)
M E 225 Heat Transfer (3)
M E 227 Advanced Thermodynamics (3)
M E 229 Advanced Gas Dynamics (3)
M E 231 Structural Dynamics (3)
M E 232 Advanced Aircraft Stability and Control (3)
M E 290 Independent Study (1-3)
ME291T Topics in Mechanical Engineering (1-3)
Electrical Engineering Required Courses:
E E 241 Applied Electromagnetics (3)
E E 245 Communications Engineering (3)
Electrical Engineering Electives:
Engr 212 Advanced Control Systems (3)
E E 243 Logic Design and Switching Theory (3)
E E 247 Modern Semiconductor Devices (3)
E E 249 Adv Communications Engineering (3)

E E 251 Antennas and Propagation (3)
E E 253 Adv Logic Design and
Switching Theory (3)
E E 255 Digital Signal Processing (3)
E E 257 Introduction to Lasers (3)
E E 259 Radar System Design (3)
E E 290 Independent Study (1-3)
E E 291T Topics in Electrical
Engineering (1-3)

## Financial Information

Tuition and Fees. Tuition is $\$ 125^{*}$ per semester hour, or $\$ 375^{*}$ per three unit course. Payment is due at the time of registration and prior to the first class session. There is no provision for deferred tuition payment in state institutions. There is a one-time fee of $\$ 45^{*}$ for admission to the program and a $\$ 20$ graduation fee.* Tuition and fees should be paid by check or money order made out to "CSU, Fresno."
Refund Policy. Withdrawals prior to:
First Class Meeting ........................ $100 \%$
No Refunds Thereafter . $0 \%$

Tuition Assistance. Eligible military personnel may apply for tuition assistance (T.A.) which pays 75 percent of tuition cost. The student pays the remaining 25 percent at the time of registration. Officers (but not enlisted personnel) incur a two year non-cumulative service commitment following use of T.A.
Civilian Personnel. Government civilian employees may be eligible to have tuition paid by their government agency, if it can be shown that the course content is work related. Also, many industrial firms have programs to reimburse employees for tuition paid for courses successfully completed. Contact your education development officer or training office for details.
G.I. Benefits. Eligible veterans and active duty people with more than 180 days in service may apply for educational benefits. Those with service prior to Jan. 1, 1977, receive benefits under the old G.I. Bill, which reimburses thefull tuition cost. Those entering service after Jan. 1, 1977, may be eligible under the new G.I. Bill, which is a contributory plan. Application for V.A. educational benefits may be made in the office of the resident coordinator at the time of registration. V.A. forms are processed through the Fresno campus Veterans Office.

[^27]Textbooks. Textbooks normally are available from the instructor at the first class meeting. In most cases, the cost of textbooks is not reimbursed by the government. Students should be prepared to pay by check.

## Enrollment and Registration

Enrollment in the Program may be accomplished in the office of the CSU, Fresno Edwards coordinator. It is not necessary to visit the Fresno campus. Students desiring to enroll should contact the Edwards coordinator for a counseling appointment. Registration for individual courses generally is accomplished during the week prior to the start of classes. Dates and times for registration are announced by flyers and in the various Base media.
For further details, contact:

Telephone: (805) 258-5936
Autovon: 527-2713

## COURSES

Engineering (Engr)

## 101. Applied

Engineering Analysis I (3)
A course covering selected topics in mathematical analysis, with emphasis on applications to engineering problems. Ordinary differential equations, the LaPlace transformation, matrices and determinants, Fourier series and integrals, partial differential equations.

## 102. Applied

Engineering Analysis II (3)
A course covering selected topics in mathematical analysis with emphasis on applications to engineering problems. Vector Analysis, line and surface integrals, complex variables and integrals, conformal mapping, series, residues, potential theory, special functions, probability and statistics.

## 205. Computing in

Engineering Analysis (3)
Prerequisite: graduate status in engineering. Solution of engineering problems using digital computation. Modeling of
engineering systems for numerical analysis.
210. Linear Control Systems (3)

A first-year graduate course covering the analysis, synthesis, and performance of linear control systems. Partial fraction expansion, Routh's criterion, the impulse function. Basic servo characteristics and types, block diagrams, transfer functions. A detailed treatment of the root locus method for analysis and synthesis. Frequency response, logarithmic and polar plots, Nyquist's criterion, stability characteristics, phase margin and gain margin.
212. Advanced Control Systems (3)

Describing function analysis of nonlinear control systems; phase-plane analysis; Liapunov stability analysis; discrete-time systems; z-transform-method; linear stochastic systems; application of statistical design principles; optimal and adaptive control systems; digital control systems.

## Electrical Engineering (E $\mathbb{E}$ )

## 241. Applied Electromagnetics (3)

Electrostatic field boundary conditions, energy relations, and forces; multidimensional potential problems; magnetic field boundary conditions, scalar and vector potentials, and magnetization; Maxwell's equations for stationary and moving media; energy, force, and momentum in an
electromagnetic field; plane waves; waves near metallic boundaries; inhomogeneous wave equation.

## 243. Logic Design and

## Switching Theory (3)

Minimum complexity combinational networks; multiple-level networks; threshold gate networks; multivalued gate networks; combinatorial network failures; minimum complexity sequential networks; asynchronous sequential networks; sequential network failures; linear and iterative networks.
245. Communications Engineering (3) Basic modulation concepts; statistical properties of signals; transmission systems optimization against noise; digital transmission and modulation methods; attenuation and phase distortion in analog and digital systems; intermodulation distortion; random multipath channels; intersystem interference.
247. Modern Semiconductor Devices (3) Crystal structures and elastic constants; lattice energy and vibrations; thermal and dielectric properties of solids; ferroelectric and magnetic properties of crystals; free electron model of metals; quantum statistics distributions; band theory; semiconductor crystals; superconductivity; photoconductivity and luminescence; dislocations.

## 249. Advanced

## Communication Engineering (3)

The measure of information; noiseless coding; models of communication channels; channel capacity; discrete memoryless channels; error correcting codes; information sources; discrete channels with memory; continuous channels.
251. Antennas and Propagation (3)

Wave equation, plane waves, metallic boundary conditions; wave equation for the potentials Lorentz transformation; covariant formulation of electrodynamics; radiation from a moving charge; scattering and dispersion; Hamiltonian formulation of Maxwell's equations.

## 253. Advanced Logic

Design and Switching Theory (3)
Faultdetection and elimination of static and dynamic hazards in logic circuits; threshold logic systems; universal logic modules; cellular logic; multirail cascades; harmonic analysis techniques applied tologic design, programmed logic; statistics in digital design; computer-aided programming for logic design.
255. Digital Signal Processing (3) Discrete-time signals; Fourier transforms; random discrete-time signals; filtered random signals; correlation functions; power-spectral-density estimation; crossspectral estimates; detection of signals in

noise; estimation of signals in noise; recursive estimation of time-varying signals.
257. Introduction to Lasers (3)

Resonant interaction of radiation and matter; anisotropic properties of media; transmission media; stimulated emission, population-inversion techniques; papa-magnetic-material, gaseous-phase, and semiconductor lasers; external modulation and control; spatial and temporal coherence; fundamental measurements and measurement techniques for materials.
259. Radar System Design (3)

The nature and history of radar, the radar equation, PRF and range considerations, CW and FM radars. MTI and pulse-Doppler radars, tracking radars. Radar power generation, antenna types and design considerations, receivers, detection of signals in noise, extraction of information from radar signals, propagation of radar wave, the effects of clutter, weather and interference. Examples of radar system engineering and design.

## 290. Independent Study

## (1-3; max total 6)

Prerequisite: graduate status in engineering or permission of instructor. Approved for SP grading.

## 291T. Topics in Electrical

## Engineering (1-3; max total 6)

Prerequisite: graduate status in engineering or permission of instructor. Selected electrical engineering subjects not in current courses.

## Mechanical Engineering (ME)

220. Compressible Fluids (3)

Review of the foundations of fluid mechanics and thermodynamics. The velocity of sound, mach number and angle, differences between incompressible, subsonic, and supersonic flow. Isentropic flow, working charts and tables, choking, operation of nozzles. Normal shock waves, ducts, shock tube analysis. Fanno and Rayleigh analysis, oblique shock waves, the Prandtl-Meyer equation. Lift and drag on bodies in supersonic flow. Method of characteristics.
221. Incompressible Fluids (3)

The kinematics of liquids and gases, the La Grangian and Eulerian methods, streak lines, stream tubes. Geometry of the vector field, stokes, and Gauss's theorems, acceleration of a fluid particle, homogeneous fluids and the equation of continuity. Integration of Eutor's equation, Bernoulli's equation. Potential motion and potential functions, source and sink potentials, the stream function. Vortex theory, surfaces of discontinuity.
223. Propulsion (3)

A first year graduate course covering the mechanics and thermodynamics of propulsion. Thermodynamics of fluid flow and engines, boundary layer theory, subsonic and supersonic inlets, combustors, compressors, turbines, inlet distortion, fuel controls, noise reduction, rocket propulsion. Selected topics in advanced engine technology will also be covered.
225. Heat Transfer (3)

Conduction, convection, and radiation. One and two dimensional steady-state conduction, La-Place's equation, numerical techniques. Transient heat transfer. Heisler charts, multiple-dimensional systems, boundary layers, Reynold's analogy. Forced and natural convection radiation heat transfer, Kirchoff's and Wien's laws, radiation shields.
227. Advanced Thermodynamics (3)

Review of classical thermodynamics, Maxwell relations, equations of state, nonideal gases, experimental methods. The molecular theory of gases, Clausius and Van der Waals equations of state, velocity distribution. LaGrange's method, the principle of equipartition. Maxwell-Boltzmann statistics, micro and macro-states. Quantum statistics based on the Bose-Einstein, Max-well-Boltzmann, and Fermi-Dirac statistics.
229. Advanced Gas Dynamics (3)

Review of supersonic flow. Vibrational and chemical rate processes, nonequilibrium chemical rate equations, rate equations for dissociation and recombination. Flow with vibrational or chemical nonequilibrium. Nonequilibrium kinetic theory; evaluation of collision cross-sections. Flow with trans-
lational nonequilibrium. Radiative transfer in gases, and approximate solutions of the equation of radiative transfer.
230. Aircraft Stability and Control (3)

A first-year graduate course covering analytical tools, system theory, reference frames, and transformations, equations of unsteady motion, longitudinal aerodynamics, lateral aerodynamics, stability of steady flight, and response to control actuation. All stability derivatives will be discussed in detail, and examples and problems based on actual airplanes will be used.
231. Structural Dynamics (3)

Review of the principles of mechanics, virtual work, generalized force, potential energy, conservative systems, stability. Elastic beams and frames, plates, and shells. Von Karman theory, shear deformation, geometry and equilibrium of shells. The theory of vibrations, undamped and damped systems, orthogonality properties. Vibrations of aircraft structures, coupling with the aerodynamic equations, flutter.

## 232. Advanced Aircraft

Stability and Control (3)
Validity of small disturbance theory, nonlinear equations of motion, steady state and dynamic stability and control of elastic airplanes. Frequency response methods, response to turbulence. Automatic flight control analysis and design, the human pilot in the control loop, stability augmentation, digital flight control systems, state vector methods.

## 290. Independent Study

(1-3; max total 6)
Prerequisite: graduate status in engineering or permission of instructor. Approved for $S P$ grading.

## 291T. Topics in Mechanical

## Engineering (1-3; max total 6)

Prerequisite: graduate status in engineering or permission of instructor. Selected mechanical engineering subjects not in current courses.

## ENGINEERING Electrical and Computer Engineering

School of Engineering
Department of Electrical and Computer Engineering JOSEPH C. PLUNKETT, Chair Engineering East Building, Room 218 (209) 278-2726
B.S. in Electrical Engineering B.S. in Computer Engineering

The Department of Electrical and Computer Engineering offers a Bachelor of Science degree in Electrical Engineering and a Bachelor of Science degree in Computer Engineering. The Electrical Engineering Program is accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology (ABET). As a new program, the Computer Engineering Program has not yet been submitted to ABET for accreditation; plans are in place for such a submission at the appropriate time.

## Electrical Engineering

The Electrical Engineering Program prepares the graduate for professional practice or graduate studies in several areas of concentration. By the appropriate choice of electives, the student may emphasize the following areas of specialization:
a. Electronics and communications
b. Computers and digital systems
c. Power systems and energy conversion

Electrical engineers design and develop electronic circuits, equipment and systems in the areas of electromagnetics (antennas; radar, radio, and television systems), communications and control (telephone systems, satellite communications; laser and optical fiber communications; aircraft and missile guidance systems), computers and digital systems (computers, microprocessors, and microcomputers; automated manufacturing; robots; artificial intelligence), physical electronics and optics (transistors; integrated circuits; optical display devices; lasers; optical fibers), power systems and energy conversion (hydro, thermal, nuclear, solar electric power generation; analysis and synthesis of power transmission and distribution systems; on-line power control and dispatch centers), and bioelectronics (sensory aids for the physically handicapped; biomedical instruments for clinical applications).

## Computer Engineering

Computer engineering is a discipline which allows the student to obtain expertise in the design, programming and applications of computers. It prepares the graduate for professional practice or graduate studies. The program combines:
a. A strong emphasis on electrical engineering (primarily electronic circuits and systems)
b. A broad basis in mathematics, physical science, and general engineering
c. Fundamentals of computer science including programming methodology, software engineering, and operating systems
d. Introductory and advanced concepts in the design of computers and computer systems

A rich set of elective courses is available to allow students to broaden their knowledge within any of several computer engineering areas.

## Career Opportunities

According to a recent report by the American Electronics Association, a severe shortage of electrical and computer engineers is projected for the next
several years. The explosive pace with which new developments in optical communications, microelectronics, computers, radar, microwave communications, and innovative alternative energy sources are evolving should assure a solid growth pattern for electrical and computer engineers into the foreseeable future.

## Organizations

Student chapters of the Institute of Electrical and Electronic Engineers and Eta Kappa Nu (the national honor society for electrical engineers) are active in the department. The Engineering School, in addition, has chapters of Tau Beta Pi, the Society of Women Engineers, the Society of Hispanic Engineers, and the Society of Black Engineers.

## Co-op Program

The department participates in the Cooperative Educational Program which allows students to integrate planned industrial experiences into their academic programs. Students interested in this program should contact the department chair of electrical and computer engineering and the campus co-op coordinator.

## Faculty

Joseph C. Plunkett, Chair
Daniel C. Bukofzer K. R. Gopinath Albert A. Heaney Robert W. Hecht Medhat Ibrahim

Chung K. Liu
Larry D. Owens
Robert D. Regier
Elden K. Shaw

## Faculty and Facilities

The faculty, comprised of academically well-qualified engineers, have a wide range of teaching and industrial experience. Their backgrounds include significant research accomplishments, engineering teaching experience, consulting work, and related engineering experience.
Excellent facilities are housed in the Engineering East Building. Modern laboratories include a microcomputer laboratory, a new CAD/CAM Laboratory, a microprocessor and digital systems laboratory, electronics laboratories, and an excellent power systems laboratory. In addition, students have access to several minicomputers, the campus mainframe computer, and recently installed engineering graphics workstations. A new solid state device and integrated circuits laboratory is near completion. The department has an excellent microwave and communications laboratory complete with shielded measurement rooms and r-f filters built into the walls.

## Bachelor of Science Degree Requirements <br> Ellectricall Engimeering Major Units <br> Major requirements .75

ECE 1, 71, 85, 85L, 90, 90L, 101, 114, 116, 119, 119L, 121, $121 \mathrm{~L}, 124,126,128,128 \mathrm{~L}$, 136, 136L, 138, 138L, 155, 180
C E 21
I E 160
M E 26, 111, 136, and 31 or 116 .. (11)
Approved Electives
Select from the following courses and include at least one laboratory course from ECE 183A, B, C, D:
Electronics and Communications: ECE 134, 140, 144, 162, $166,168,171,176,183 A, 183 C$
Computers and Digital Systems: ECE 106, 107, 132, 146, 148, 172, 173, 174, 183B
Power Systems and Energy Conversion: ECE 151, 152, 153, 183D

Addlitionall requirements 15
Math 76, 77, 81, Math Elective (select from Math 107, $121,124,128,181$, or 182 )

BREADTH: Chem 1A; Biol 10; Phys 5A and 5B, 3 units Division 4 (select from Psych 61, 132, 171; H S 90, 124); Phil 10 and 120; Pl Si 120
CAPSTONE: Satisfied by Phil 120 and Pl Si 120 in BREADTH (0) 139
Totall

## Advising Notes

1. Courses in mathematics, the physical sciences, or engineering taken $C R / N C$ are not counted toward fulfillment of degree requirements in electrical engineering.
2. Electrical engineering majors might consider a math minor (see faculty adviser for details).
3. Since the electrical engineering major curriculum is very demanding, some students not fully prepared in mathematics and the physical sciences may take $4 \frac{1}{2}$ or more years to graduate rather than the traditional 4 years. Students not fully prepared in mathematics and/or chemistry should consider taking Math 71 and 72 in lieu of Math 75, and Chem 3A and Chem 4 in lieu of Chem 1A. If needed, students may go to the Developmental Learning Resource Center in the Keats Building and request free tutorial assistance.

## Recommended Program

First Semnester Units
Math 75 Mathematical Analysis I ...... 4
Chem 1A General Chem and Qualitative Analysis ............. 5
ECE 1 Engr Profession, Ethics, and Public Policy ................. 1
ECE 71 Engineering Computations .. 3
Engl 1 Composition ........................ 3 $\overline{16}$

## Second Semester

## COURSES

## Electrical and

Computer Engineering (ECE)
Students may be expected to purchase supplementarymaterials for senior projects and special .

1. Engineering Profession,

The electrical engineering profession and its career opportunities; engineering professionansm andethics, ethics case studies, to enginering problem solving. (Former E E 1)
70. FORTRAN 77 Programming (2)

Prerequisite: algebra, trigonometry. Flowprogram stucture, computation transfe variables, subprograms, file processing, printer plotting techniques, terminal and batch processing procedures. General Education CORE, Quantitative Reasoning. (Former E E 70)
71. Engineering Computations (3) Prerequisite: algebra, trigonometry. Use of Pascal and Fortran 77 in engineering analyis mentation testing and debugging. Cannot be taken for credit if ECE 70 has been taken previously. General Education CORE, Quantitative Reasoning. (Former E E 71)
85. Digital Logic Design (3)

Prerequisite: Phys 5B (or concurrently). Boolean algebra. Logic gates, number systems, combinatorial logic, minimization techniques. Design of combinatorial circuits using SSI and MSI. Flipflops, multivibrators, and counters. Introduction to sequential circuits and state machines. Synchronous state machine design. Mealey and Moore models. (Former E E 85)

## 85L. Digital Logic

Design Laboratory (1)
Corequisite: ECE 85. Usage, design, and implementation techniques for SSI, MSI realization of combinatorial and sequential circuits. Experiments utilizing logic gates, Karnaugh maps, multiplexers, demultiplexers, latches, flipflops, counters and shift registers. Sequential state machine design. (Former E E 85L)
90. Principles of Electrical Circuits (3)

Prerequisite: ECE 70, 71, or C Sci 40; Phys 5B; Math 81 (or concurrently). Directcurrent circuit analysis; circuit theorems; transient phenomena in RLC circuits, phasor concept; sinusoidal steady-state response; power and RMS calculations in single-phase and polyphase alternat-ing-current circuits; principles of electrical instruments; computer solutions. (Former E E 90)

## 90L. Principles of Electrical

 Circuits Laboratory (1)Prerequisite: ECE 90 (or concurrently). Experiments on direct- and alternating-current circuits, including single-phase and polyphase systems. Use of electrical instruments, development of laboratory techniques, and verification of basic principles. (3 lab hours) (Former E E 90L)

## 101. Network Analysis (3)

Prerequisite: ECE 90. Topology in circuit analysis; mutual inductance; tuned and resonant circuits; Laplace transforms in circuit analysis; the transfer function; poles and zeros in the s-plane; Bode diagrams; two-port networks.
106. Switching Theory
and Logical Design (3)
Prerequisite: ECE 85 or equivalent. QuineMcCluskey minimization; switching functions; finite and nonfinite state machines; state assignments; synchronous and asynchronous machines; incompletely specified sequential circuits; pulsemode circuits. (Former E E 106)
107. Digital Signal Processing (3)

Prerequisite: ECE 71 or C Sci 40; ECE 85, 124. Data acquisition by computers, numerical evaluation of Fourier transforms, A/D and D/A conversion, digital filter design, programming, and emulation of a popular digital signal processor. (Former E E 107)
114. Physical Electronics (3)

Prerequisite: Phys 5B. Electronic structure of metals, semiconductors and insulators; energy band structure, modern semiconductor devices such as p-n junction semiconductors, bipolar and field-effect transistors, integrated and optoelectronic devices. (Former E E 114)

## 116. Microprocessor

Architecture and Programming (2)
Prerequisite: ECE 71 or C Sci 40; ECE 85. Architecture and programming models of a microprocessor. Assembly Language program specification, development, testing and documentation. (Former E E 116)

## 119. Principles of <br> Computer Architecture (2)

Prerequisite: ECE 85, 116. Structural organization, hardware architecture and design of digital computer systems; number systems and binary representation of data and binary arithmetic; hardware/software design trade-offs; comparisons of computer architectures. Introduction to microcomputers. (Former E E 119)

## 119L. Principles of Computer

Architecture Design Laboratory (1)
Corequisite: ECE 119. Experiments on computer architecture and peripheral equipment; laboratory synthesis of combination and sequential logic circuits for interfacing. (Former E E 119L)
121. Electromechanical Systems and Energy Conversion (3)
Prerequisite: ECE 90, 90L. Principles of direct- and alternating-current machinery and other energy-conversion devices and associated apparatus. (Former E E 121)
121L. Electromechanical Systems and Energy Conversion Laboratory (1) Corequisite: ECE 121. Experiments and computations on direct- and alternatingcurrent machinery and on other energyconversion devices and associated apparatus. (3 lab hours) (Former E E 121L)
124. Linear Electric Circuit and Systems Analysis (3)
Prerequisite: ECE 90, 90L. Operational analysis of discrete and continuous linear circuits and systems: Z-transforms, Laplace
and Fourier transforms; Fourier series; state-space representations, computeraided solutions. (Former E E 124)
126. Electromagnetic

Theory and Applications I (3)
Prerequisite: ECE 90 (or concurrently). Electrostatics; boundary value problems; magnetostatics; time-varying fields; Maxwell's equations. (Former E E 126)
128. Electronics I (3)

Prerequisite: ECE 90 (or concurrently). Characteristics and properties of solid state devices; theory and analysis of electronic circuits; power supply design; device and circuit models; single and multi-stage amplifier anallysis and design; feedback amplifiers; computer solutions as appropriate. (Former E E 128)
128L. Electronics II Laboratory (1)
Prerequisite: ECE 128 (or concurrently). Experiments on static and dynamic characteristics of solid state devices and electronic circuits; computer solutions as appropriate. (3 lab hours) (Former EE 128L)
132. Design of Digital Systems (3)

Prerequisite: ECE 116, 119. Design of Digital Systems utilizing microprocessors; application of assembly programming language to input/output programming, interrupts and traps, DMA and memory management. (Former E E 132)
134. Communication Engineering (3)

Prerequisite: ECE 124. Mathematical modeling of signals and noise; information theory; analog and digital communication theory; radar and satellite system and link design; system noise temperature modeling; project design to pre-established specifications. (Former E E 134)
136. Electromagnetic Theory and Applications III (3)
Prerequisite: ECE 126. Plane wave propagation and reflection; transmission of electromagnetic energy over wires at power and communication frequencies; waveguide; antenna analysis and design; methods for computer solution. (Former E E 136)
136L. Electromagnetic Theory and Applications Laboratory (1) Corequisite: ECE 136. Experiments on the transmission of electromagnetic energy through wires, wave guides, and space; filters and antennas; impedance matching; cross-over networks; location of faults on lines. (3 lab hours) (Former E E 136L)
138. Electronics III (3)

Prerequisite: ECE 124, 128, 128L. Analysis and design of high frequency and power amplifiers; dc and operational amplifiers; LC and crystal oscillators, modulators and demodulators for communications; active filters. Emphasis on modern design methods including applications of active integrated circuits. (Former E E 138)
138L. Electronics III Laboratory (1)
Corequisite: ECE 138. Design oriented experiments to study the characteristics, limitations, and design trade-offs of circuits from ECE 138. Emphasis on circuit and system design to meet pre-established specifications. Design project included; computer solutions as appropriate. (3 lab hours) (Former E E 138L)

## 140. VLSI Circuit

and System Design (3)
Prerequisite: ECE 85, 114, 124 (or concurrently), 128, 128L. Design and analysis of LSI/VLSI chips, circuits, and systems; logic and mask designs for bipolar, MOS, and CMOS logic families; ROM and RAM memories: CAD/CAM, full-custom, and semi-custom design approaches; IC layout rules. (Former E E 140)

## 144. Integrated Circuit

Design and Fabrication (3)
Prerequisite: ECE 114. Diffusion and ion implantation processes in silicon device fabrication; the planar process; CVD methodology in GaAs devices; design layout rules; impurity profile shaping, measurement, and its relationship to device performance; laboratory measurement and characterization techniques for IC's; laboratory demonstrations. (Former E E 144)
146. Computer Networking and Distributed Processing (3) Prerequisite: ECE 116, 119. Analysis and design of modern computer networks. Topics to be introduced include routing, flow and congestion control, packet, message and circuit switching, and recovery. Examples of current implemented networks and network architectures. (Former E E 146)
148. Analysis and Design of Digital Circuits (3)
Prerequisite: ECE 85, 128. Analysis and design of solid state digital circuits utilizing various logic families suitable for integration (TTL, ECL, NMOS,

CMOS, etc.): logic gates; multivibrators; ROM, PROM, and EPROM; SRAM and DRAM; PLDs, Gate Arrays, and other ASICs. (Former E E 148)
151. Electrical Power Systems (3)

Prerequisite: ECE 121, 121L (or concurrently). Power system networks and equipment, steady-state operation, shortcircuit analysis, power system stability analysis by digital computation, synchronous generator excitation and governor systems, system load representation, numerical analysis techniques. (Former E E 151)

## 152. Symmetrical Components

 and Short Circuit Analysis (3)Prerequisite: ECE 121, 121L (or concurrently). Theory of symmetrical components and their use in power systems analysis; sequence impedances of system components; applications in fault calculations. (Former E E 152)

## 153. Power Electronics (3)

Prerequisite: ECE 121, 128. Characteristics, limitations, and circuit applications of power semiconductor devices; diode and phase controlled rectifier; DC-to-DC converters: DC-to-AC inverters; switching DC power supplies; power conditioners; uninterruptible power supplies; practical aspects of converter design. (Former E E 153)
155. Control Systems (3)

Prerequisite: ECE 124. Analysis, design, and synthesis of linear control systems; modeling, performance evaluation, frequency response, and stability. (Former E E 155)
162. Analog Integrated

## Circuits and Applications (3)

Prerequisite: ECE 138. Analysis of monolithic operational amplifiers; case studies; Widlar and Wilson current sources; linear and nonlinear applications; multipliers, phase-lock loops, phase detectors; higher order active filters; all-pass equalizers; D/A and A/D converters; oscillators, function generators; mixers, modulators, regulators; system design. (Former E E 162)

## 166. Microwave Devices and Circuits Design (3)

 Prerequisite: ECE 136. Microwave theory and techniques: slow-wave structures, S parameters, and microwave devices, including solidstate devices such as Gunn, IMPATT, TRAPATT, and BARITT diodes, and vacuum tubes such as klystrons, reflex klystrons, traveling-wave tubes, magnetrons and gyrotrons. (Former E E 166)168. Microwave Amplifier and Oscillator Design (3)

Prerequisite: ECE 136. Smallsignal and large-signal amplifier designs such as high-gain, high-power, low-noise, narrow-band and broadband amplifiers; microwave oscillator designs such as high-power, broadband, Gunn-diode and IMPATT oscillator designs; power combining and dividing techniques; reDiscussing robotics research in anticipation of the intercollegiate Micromouse competitions are electrical and computer engineering professor Chung Liu and Micromouse Design Team member Wane Wier.

## 171. Quantum Electronics (3)

Prerequisite: ECE 126. Review of wave properties; cavity mode theory; radiation laws; theory and morphology of lasers; laser and fiber-optic communications; designs of optical communication systems and components. (Former E E 171)

## 172. Sequential Machine

and Automata Theory (3)
Prerequisite: ECE 106. Structure of sequential machines; covers; partitions; decompositions and synthesis of multiple machines. State identification and fault detection experiments; memory characteristics of finite automata. (Former E E 172)
173. Digital Controls and Robotics (3)

Prerequisite: ECE 85, 121, 124. Introduction to digital controls; development and classification of robots; components and operation of robots, types of sensors; vision sensors; artificial intelligence; classroom demonstrations and practice with a robot. (Former E E 173)

## 174. Advanced

Computer Architecture (3)
Prerequisite: ECE 119. Advanced computing architecture concepts: pipelining, coprocessing, and multiprocessing; analysis and design of cache and virtual memory systems; direct memory access, local and system bus architectures; instruction set design and coding; EDAC. (Former E E 174)
176. Computer-Aided Circuit Design (3) Prerequisite: ECE 124, 128, 128L. Computer simulation of analog circuits. Computer-aided engineering of digital cir-
cuits including schematic capture and logic simulation. Computer-aided design of application specific integrated circuits including programmable logic devices, gate arrays, and standard cell devices. (Former E E 176)
180. Senior Project (2)

Prerequisite: senior standing in electrical and computer engineering, I E 182W (or concurrently), approved subject. Study of a problem under supervision of faculty member; final typewritten report required. (Individual project except by special permission) (Former E E 180)
183A. Electronic Circuits and
Electrical Networks Laboratory (1)
Prerequisite ECE 124, 138, 138L. Signal measurement and analysis techniques for communication networks; discrete, hybrid, and integrated electronic circuit design and testing; analog and digital filter realization; computer-aided analysis and design of circuits and networks. (3 lab hours) (Former E E 183A)

## 183B. Digital Devices

and Systems Laboratory (1)
Prerequisite: ECE 85, 128. Familiarization with a real-time microcomputer board, assembly language programming techniques, I/O interfacing, documentation, debugging, and testing. (3 lab hours) (Former E E 183B)
183C. Physical Electronics and Electromagnetics Laboratory (1)
Prerequisite: ECE 114, 128, 128L, 136, 136L. Solid state device and characterization; rf component design with stripline and microstrip techniques; electromagnetic signal analysis; noise reduction techniques;
antenna pattern measurements; laser system design. (3 lab hours) (Former EE 183C)
183D. Electrical Power and
Control Systems Laboratory (1)
Prerequisite: ECE 121, 121L, 155 (or concurrently). Measurement of characteristics and testing of power systems, computeraided design and simulation of power and control systems; design and testing of feedback control systems; parametric study of control system implementation. (3 lab hours) (Former E E 183D)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Former E E 190)

## 191T. Topics in Electrical

 and Computer Engineering (1-3; max total 6)Prerequisite: permission of instructor. Investigation of selected electrical engineering subjects not in current courses. (Former E E 191T)

## 193. Electrical and <br> Computer Engineering <br> Cooperative Internship (3-4)

Prerequisite: permission of adviser. Engineering practice in an industrial or governmental installation over a period of about seven months duration. Each period must span a summer-fall or springsummer interval. This course cannot be used to meet graduation requirements. CR/NC grading only. (Former E E 193)

## ENGINEERING Mechanical and Industrial Engineering

## School of Engineering

Department of Mechanical and Industrial Engineering WALTER V. LOSCUTOFF, Chair Engineering West Building, Room 108 (209) 278-2368

## B.S. in Mechanical Engineering

 B.S. in Industrial EngineeringIhe Department of Mechanical and Industrial Engineering offers Bachelor of Science degrees in Mechanical Engineering and Industrial Engineering. Both programs are accredited by the Engineering Accreditation Commission of the Accreditation Board for Engineering and Technology.

The objectives of the Mechanical and Industrial Engineering programs are to:

1. Provide students quality education in either the mechanical or industrial engineering disciplines
2. Prepare students to enter professions in industry as qualified engineers or enter a program of graduate studies leading to higher degrees
3. Provide opportunities for practicing engineers to enroll in refresher courses and for non-engineering graduates to earn a second degree
4. Provide graduates with the knowledge, self-assurance, and motivation to continue developing in the engineering profession

## Faculty and Facilities

The department's faculty members have outstanding academic credentials which cover most major areas in mechanical and industrial engineering. In addition, most of the faculty have had distinguished careers in industry and are able, through their experiences, to help students develop the professional skills needed to solve engineering problems.
Excellent laboratory facilities emphasize computer interaction, the operation and use of instruments, and the experimental approach. The mechanical engineering laboratories are equipped with laser measurement systems, electronic data acquisition systems and test apparatus which enable engineering students to study the effects of different parameters

on the operation and performance of energy, fluid, aerospace, and other mechanical systems. The laboratory program also includes strong emphasis on computer-aided design.
Industrial engineering students gain valuable practical experience through state-of-the-art computer systems in conjunction with advanced robotics equipment used in the human factors, robotics, and manufacturing laboratories. Laboratory courses focus on computer-aided design, computer-aided manufacturing, computer-integrated manufacturing, materials handling, plant layout, and human factors engineering.

## Career Opportunities

Rapid technological advanced in computers, robotics, and automation, combined with declining enrollments in engineering, have created a substantial demand for mechanical and industrial engineers. High-technology industries want mechanical and industrial engineers because of their technical versatility and adaptability to a broad range of engineering activities. Excellent opportunities exist in aerospace, energy, manufacturing and fabrication, machine and tool design, public transportation, electronics, and a host of other industries.

## Co-op Program

The department participates in the Cooperative Education Program which allows the student to gain industrial experience - and recognize financial benefits - through projects with local companies.

## Mechanical Engineering Program

 Mechanical engineering is the use of basic science in the design and manufacture of both simple and complex systems. This requires the application of physical and mechanical principles in the development of machines, energy conversion systems, materials, and equipment for measurement and control. Knowledge of mathematics, physics, and chemistry lies at the core of this field, but application of this knowledge uses engineering technology a disciplined way of thinking, modeling, and testing that enables development of new systems to proceed despite incomplete information and uncertainty.The program in mechanical engineering is the traditional curriculum, providing basics in design and in fluid and thermal mechanics, with a developing focus on aerospace engineering. All areas include statics, dynamics, materials, fluid mechanics, thermodynamics, and experimental methods. Application areas in design include mechanics of materials, applied mechanics, structural and manufacturing aspects of producing equipment, and vibrations. Application areas in fluid and thermal mechanics focus on energy conversion and include combustion, heat engines, refrigeration, and fluid flow. Application areas in aerospace engineering include propulsion, aerodynamics, turbomachinery, and materials.
Students are encouraged to select elective courses to emphasize their areas of interest.

## Bachelor of Science Degree Requirements

## Mechamicall Engineering Major Units

Major requirements 76
M E 26, 31, 112, 116, 117, 118,
131, 131L, 134, 136, 140, 144,
$154,155,156,157,164,166 \ldots$.. (46)
C E 20, 121
ECE 70, 90, 90L, 121, 121L
I E 160, 161(4)

Approved Electives
Select at least 5 units from Group A and 5 units from Group B.
Group A (Engineering Science): IE 110; M E 137, 142, 145, 146, 147
Group B (Design):ME143, 162, 180
Additionall requirrements
Math 76, 77, 81
General Education 50
CORE: Engl 1; Spch 3, 7, or 8;

CAPSTONE: Satisfied by Phil 120
and Pl Si 120 in BREADTH .......(0)
Totall 138

## Advising Notes

1. Courses in mathematics, the physical sciences, or engineering taken $C R / N C$ are not counted toward fulfillment of degree requirements in mechanical engineering.
2. Mechanical engineering majors might consider a math, physics, or business minor.
3. Since the mechanical engineering major curriculum is very demanding, many students, especially those not fully prepared in mathematics, chemistry, and/or physics, take $41_{2}$ or more years to graduate rather than the traditional 4 years. Students not fully prepared in mathematics and/or chemistry should consider taking Math 71 and 72 in lieu of Math 75, and Chem 3A and 4 in lieu of Chem 1A. If needed, students also may go to the Developmental Learning Resource Center in the Keats Building and request free tutorial assistance.

## COURSES

Mechanical Engineering (ME)

## 10. Engineering Skills (2)

Provides engineering students with experience in solving problems and presenting solutions in a logical manner, introduces students to subject areas common to most engineering disciplines and develops basic skills for solving problems through an engineering approach. CR/NC grading only; not applicable toward baccalaureate degree requirements.

## 26. Engineering Graphics (3)

Prerequisite: ECE 70, Math 75 (or concurrently). Principles of orthographic projection, dimensioning, and descriptive geometry. Applications to the solution of engineering problems including the use of interactive computer graphics. (Two 3hour lecture labs) (CAN ENGR 2)
31. Engineering Materials (3)

Prerequisite: Chem 1A, Phys 5A. Fundamental nature and properties of engineering materials; structure of matter and its effect on mechanical, electrical, magnetic, and thermal properties. (CAN ENGR 4)

## 111. Dynamics for

Electrical Engineers (2)
Open to electrical engineering majors only. Prerequisite: C E 20 or 21 . Kinematics and kinetics of a particle and rigid body in general plane motion. Introduction to mechanical vibration and linear system analysis.

## 112. Engineering

Mechanics: Dynamics (3)
Prerequisite: C E 20. Development of principles of kinematics and kinetics in engineering.
116. Fluid Mechanics (3)

Prerequisite: Chem 1A, ME 112 (or concurrently). Fundamentals of fluid mechanics as applied to engineering problems.
117. Instrumentation Laboratory (1) Prerequisite: ECE 70, I E 182W, M E 116 (or concurrently). Study of instrumentation and experimental methods; applications; fluid mechanics laboratory; computer-aided data acquisition. (One 3-hour lab)
118. Fluid Mechanics Laboratory (1) Prerequisite: IE 182 W , ME 116 (or concurrently). Applications of experimental methods used in engineering practice to fluid systems. (One 3-hour lab) (Former M E 116L)
131. Advanced Engineering Materials (2) Prerequisite: M E 31, C E 121. Applications of the principles of materials science to the study of the mechanical behavior of metallic, polymeric, ceramic, and composite materials. Effects of stress and environmental variables.

## 131L. Advanced Engineering

Materials Laboratory (1)
Prerequisite: IE $182 \mathrm{~W}, \mathrm{ME} 131$ (or concurrently). Application of experimental methods related to mechanical metallurgy; study of strengthening mechanisms in metals; fatigue; creep; recrystallization. (3 lab hours)
134. Dynamics in Machine Design (3) Prerequisite: M E 26, 112, C E 121 (or concurrently); Math 81. Analytical, graphical, and computer solutions applied to design problems of machinery, mechanisms, and gears. Both closed- and open-ended homework problems plus a design project and report are required. (2 lecture, 3 lab hours)
136. Thermodynamics (3)

Prerequisite: Chem 1A, ME 112 (or concurrently). Fundamentals of thermodynamics and heat transfer as applied to engineering problems.
137. Turbomachinery (3)

Prerequisite: ME 117, 118, and 136. Applications of fluid mechanics and thermodynamics and rotor-fluid energy interchange. Steady flow problems of pumps, compressors, and turbines with incompressible and compressible fluids. Both closedand open-ended homework problems.

## 140. Mechanical

Engineering Analysis (3)
Prerequisite: Math 81, ECE 70, M E 112 (or concurrently), and M E 136 (or concurrently). Development of the finite element method of engineering analysis; specific applications to heat flow, fluid flow, vibrations in mechanical systems, and stresses in mechanical component design using appropriate numerical techniques, closedform solutions of partial differential equations and the digital computer.
142. Mechanical Vibration (3)

Prerequisite: ME 112, CE 121. Mathematical and physical basis of vibration theory with applications to engineering; design; transient and steady state phenomena; distributed and lumped parameters; coupled systems; computer solutions.
143. Mechanical Design Laboratory (2) Prerequisite: C E 121, I E 182W, M E 134. Application of theory and techniques of experimental stress analysis to the design of machine components, mechanical structures, and dynamic transducers. Group-design teams design and test a mechanical device or structure to simulate real-life client-engineer relationships. A final project report and an oral presentation are required. (1 lecture, 3 lab hours)

## 144. Advanced

Mechanics of Materials (3)
Prerequisite: C E 121, ECE 70, Math 81. Advanced topics in mechanics of materials.
145. Heat and Mass Transfer (3)

Prerequisite: ECE 70, Math 81, M E 116, 136. Analytical, numerical, and electrical analogy methods are used to solve a variety of heat transfer and mass transfer problems. Advanced topics in radiation, boundary layer flow, and heat exchanger design.

## 146. Air Conditioning (3)

Prerequisite: M E 116, 136. Theory and practice in air conditioning including psychrometrics, load estimating, heating and cooling systems, fluid design and controls.
147. Air Conditioning Laboratory (1) Prerequisite: IE 182W, ME 146 (or concurrently). Practical laboratory work with commercial type units; test of components of air conditioning systems. (3 lab hours)
154. Design of Machine Elements (3) Prerequisite: M E 134, 144. Design of machine elements and components using theory learned in prerequisite courses. Both
individual and team-type open-ended design projects are required. Use of computers for design is required. (2 lecture, 3 lab hours)
155. Elements of Systems Design (3) Prerequisite: ME 134, senior standing. Introduction to the concepts and practice of the design of engineering systems. Students are required to complete preliminary designs of specified engineering systems. Experience in design is gained through setting specifications, innovation, design optimization, and social and economic aspects.

## 156. Advanced Thermo-

dynamics - Fluid Mechanics (3)
Prerequisite: M E 116, 136. Advanced topics in thermodynamics and fluid mechanics including analysis of solar and nuclear systems as applied to engineering problems.
157. Advanced Thermodynamics - Fluid Mechanics Laboratory (2) Prerequisite: ME $117,118,156$ (or concurrently). Applications of advanced experimental methods used in engineering practice to thermo-fluid systems. (One 1-hour lecture, one 3-hour lab)

## 162. Computer-Aided Design

Prerequisite: M E 140. Design of mechanical components and systems through the use of computers. Design packages such as AUTOCAD and I-DEAS. Emphasis is on simulation, system interaction, product manufacturability, and appearance. Individual and group design projects with written and oral presentations required.
164. Machine Design (3)

Prerequisite: M E 116, 136, 154; I E 182W, 160 (or concurrently). Open-ended design problems of complete machine systems. Integration of prerequisite course material into final design project. (Two 3-hour lec-ture-labs)
166. Energy Systems Design (3)

Prerequisite: ME 145, 155, 156; I E 182W. Design of conventional and alternative energy conversion systems; selection and integration of components of the system; use of codes and standards. Group project report required.

## 180. Senior Project (2)

Prerequisite: senior standing in mechanical engineering, approved subject, IE 182 W . Study of a problem under supervision of a faculty member; final typewritten report
required. (Individual project except by special permission)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
191T. Topics in Mechanical Engineering (1-3; max total 6) Prerequisite: permission of instructor. Investigation of selected mechanical engineering subjects not in current courses.
193. Mechanical Engineering Cooperative Internship (2-4)
Prerequisite: permission of adviser. Engineering practice in an industrial or government installation. Each cooperative internship period usually spans a summerfall or spring-summer interval. This course cannot be used to meet graduation requirements. CR/NC grading only.

## Industrial Engineering Program

Industrial engineering deals with the design, improvement, and installation of integrated systems of people, materials, equipment, and energy. It draws upon specialized knowledge and skill in the mathematical, physical, and social sciences together with the principles and methods of engineering analysis and design to specify, predict, and evaluate the results to be obtained from such systems.
The industrial engineering faculty are committed to providing all students the advanced technology background necessary for success and growth in their selected professions. A program of study is offered to all students through a carefully designed curriculum which includes engineering analyses for the design of man-machine systems, optimization of industrial systems, and the scientific management of engineering activities. Specialized training is available in the use of modern engineering tools and techniques such as computer assisted design (CAD), computer assisted manufacturing (CAM), and ergonomic (human factors) engineering.

## COURSES

## Industrial Engineering (II E)

10. Engineering Skills (2)

Provides engineering students with experience in solving problems and presenting solutions in a logical manner, introduces students to subject areas common to most engineering disciplines and develops basic skills for solving problems through an engineering approach. CR/NC grading only; not applicable toward baccalaureate degree requirements.

## 75. Introduction to

Industrial Engineering (1)
An overview of the field of Industrial Engineering. Brief discussion of plant layout, workmeasurement, engineering economy, quality control, production control, human factors, and operations research. A brief survey of the current status of Industrial Engineering. (Field trips required)
85. Computer Methods
in Industrial Engineering (3)
Prerequisite: Math 76 (or concurrently). Application of existing microcomputer software and the development of new programs to solve frequently encountered problems in engineering practice. Includes programming in BASIC and " $C$ " languages. (2 lecture, 3 lab hours)
90. Manufacturing Processes (3) Prerequisite: M E 26, 31. Processing techniques, including casting, welding, forming, andmachining; capabilities and limitations of these techniques. (2 lecture, 3 lab hours; field trips required) (Former M E 11)
110. Statistical

Analysis in Engineering (3)
Prerequisite: Math 76. Fundamentals of probability and statistics. Applications of statistical methods to engineering problems.
111. Work Measurement (3)

Prerequisite: I E 110 (or concurrently). General approach to the design process; application of design process to problem solving. Methods evaluation techniques; motion and time study, work sampling, and simulation. (2 lecture, 3 lab hours; field trips required)
112. Statistical Design
of Experiments (3)
Prerequisite: I E 85, 110. Analysis of variance; regression and correlation; analysis of covariance; randomized blocks and Latin squares; design of experiments; response surface analysis and determination of optimum conditions.
113. Operations Analysis (3)

Prerequisite: IE 85, 110, Math 81. Application of quantitative and numerical techniques for analysis of complex operational problems.

## 114. Facilities Engineering (3)

Value analysis, materials handling, packaging, layout of facilities, safety, location of facilities. (2 lecture, 3 lab hours)

## 115. Quality Control and

Reliability Engineering (3)
Prerequisite: I E 110. Fundamentals of statistical quality control and reliability engineering. Sampling plans. Control charts. Reliability techniques.

## 118. Principles of <br> Safety Engineering (3)

Prerequisite: junior standing. Principles of Safety Engineering with emphasis directed to industrial situations. Selected topics include: materials handling, machine guarding, lighting, noise, ventilation, personal protective equipment, instrumentation, plant inspection, accident investigation.
120. Systems Safety Engineering (3)

Prerequisite: I E 110. Principles of system safety engineering. Selected topics include: human factors engineering, key system interfaces, logic trees, fault and risk tree analyses, hazard identification and analysis, safety review system trees, statistical analysis, product safety.

## 125. Human Factors in

Engineering and Design (3)
Fundamental issues in human performance, perceptual-motor processes, information processing. Anthropometry, workplace design and layout, arrangement of system components. Controls and displays. Work physiology, effects of noise, vibration, heat and illumination on human performance. General Education BREADTH, Division 4.

## 127. Human Factors

Engineering Design Laboratory (1)
Prerequisite: IE 182 W, I E 125 (or concurrently). Expands principles developed in the introductory human factors course for use in engineering design. (3 lab hours)

## 130. Production and

Inventory Control (3)
Prerequisite: IE 85, 110. Fundamental concepts of production and inventory planning, analysis and control; inventory and production costs; analysis of variations in demands, availability of supplies and optimum production schedules; use of computer simulation techniques; case studies.
145. Design of Automated Systems (3) Prerequisite: IE 85 or permission of instructor. Study of fundamentals of manufacturing automated systems. Techniques and applications of computer to monitor and control industrial processes. Included topics are characteristics and applications of sensors and actuators, programming considerations, integration of CNC, CAD, CAM, etc. (2 lecture, 3 lab hours; field trips required)

## 148. Simulation of

 Industrial Systems (3)Prerequisite: I E 110. Application of dis-crete-event simulation techniques for the solution of complex industrial problems; use of various computer simulation languages; review of Monte Carlo processes and digital simulation of continuous processes.
155. Design and

Applications of Robotic Systems (3)
Prerequisite: I E 85, 90, senior standing. Introduction to the use of robotics for industrial automation. Components and operation of robot systems; programming of robots; robot implementation and industrial applications of robots. (2 lecture, 3 lab hours) (Former I E 191T section)
160. Engineering Economy (2)

Prerequisite: upper-division standing in engineering. Importance of economic analyses of problems in engineering and in management decision making; interest, depreciation, income tax, classification of costs, break-even and minimum cost points, economic comparisons of alternatives, economy of replacement.
161. Legal Aspects of Engineering (2) Prerequisite: senior standing in engineering. Development of law, canons of ethics, torts, principles of contracts, contracting procedure and specifications, property, negotiable instruments, sales, agency and patents; preparation of reports.

## 165. Computer-Integrated

Manufacturing (3)
Review the role of computers in manufacturing automation. Evolution and implementation techniques. CIM perspective and integrating technology. Includes CAD/ CAM, FMS, robotics, MRPII, MIS, etc. Economic and social impact of CIM. (Former I E 191T section)
170. Engineering Management (3)

Prerequisite: junior standing. Study of modern management techniques in engineering. A systems approach to planning and controlling of product/production costing. The computational techniques and the behavioral aspects of management/ engineering decision-making are considered.

## 180. Senior Project (2)

Prerequisite: senior standing in industrial engineering, approved subject, I E 182W. Study of a problem under supervision of a faculty member; final typewritten report required. (Individual project except by special permission.)
182W. Engineering Writing (3)
Prerequisite: Engl 1; junior standing. The use of critical thinking in the engineering problem-solving process and documentation of the process through letters, reports, and engineering specifications. Meets the upper-division writing skills requirement for graduation.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## 191T. Topics in Industrial

Engineering (1-3; max total 6)
Prerequisite: permission of instructor. Investigation of selected industrial engineering subjects not in current courses.

## 193. Industrial Engineering

Cooperative Internship (2-4)
Prerequisite: permission of adviser. Engineering practice in an industrial or government installation. Each cooperative internship period usually spans a summerfall or spring-summer interval. This course cannot be used to meet graduation requirements. CR/NC grading only.

## English

School of Arts and Humanities
Department of English
To be appointed, Chair
Peters Business Building
(209) 278-2553
B.A. in English
M.A. in English

Options:
Composition
Creative Writing
Literature
Minor in English
Credential Program

English is a general major or minor designed to give proficiency in skills that traditionally have been among the most highly prized by society: an ability to read with comprehension and critical judgment; to communicate accurately and clearly both orally and in writing; to grasp difficult ideas and think logically; to do research and organize materials; to make ethical and moral judgments from a historical and humanistic framework; and to appreciate literature and the arts.
The core of the English major consists of four basic kinds of courses in the upper division: literary history courses, literary genre courses, literary seminars, and writing courses. The masterpiece courses apply to the minor and meet General Education BREADTH, Division 4 requirements. The department also offers courses in folklore and folksong, methods of research, film, and women's studies.
The Single Subject Waiver Program for teaching credential candidates contains a number of specific prerequisites and special required courses, some of which are outside the Department of English. For specific program requirements, consult each semester with the credential coordinator.

## Faculty and Facilities

The English Department consists of 40 full-time faculty whose teaching fields cover every area of literary studies and the humanities, including film and folklore. Most of the faculty have published books, textbooks, and articles in their disciplines, five have received outstanding teaching awards at the university, and one has received an outstanding teaching award for the entire CSU system. In addition, the faculty includes a number of lecturers, part-time instructors and teaching assistants, and the department operates an English writing lab staffed by tutors trained to work with students on an individual basis.

## Career Opportunities

English has a broad application to a variety of vocations: teaching, law, journalism, editing and publishing, business management, data processing, public office, professional careers in writing, and many others. English majors and minors are being looked upon today
with special favor by employers in professional and industrial fields because of their skills in writing and thinking, their ability to communicate clearly to others, and their general knowledge of people and experiences gained from the study of literature.

The English Department maintains an Internship Program whereby our majors and minors, while working toward a degree, are placed in vocational positions requiring English skills. Job opportunities through this program have included positions with such organizations as the American Cancer Society and Older Americans Organization, businesses such as computer software firms and publishers of national trade newsletters, and such various employers as local congressmen, assemblymen, charitable organizations, and arts centers.

## Bachelor of Arts Degree Requirements <br> English Major <br> ..... Units

Major requirrements ..... 40
Lower-division requirement:Engl 20(4)
Upper-division requirements:Engl 189, 193T, or 194T (ifno topic repeated)(8)
Approved upper-division
English electives (see adviser) .. (28)
Generall Education

$\qquad$Electives and remaimingdegree requirements ............. 33-36*(see Degree Requirements); maybe used toward a dual majoror minor
Totall124
*This figure takes into consideration the fact that 3 units of Engl 20 may also be applied toward General Education BREADTH, Division 6.

## Advising Notes

1. No course used to satisfy General Education CAPSTONE requirements or upper-division General Education requirements may be used to satisfy English major requirements.
2. $C R / N C$ grading is not permitted in the English major with the exception of 4 units total of Engl 175T and 186.
3. General Education and elective units may be used toward a dual major or minor (see Dual Major or departmental minor). Consult the appropriate department chair, program coordinator, or faculty adviser for further information.
4. Not more than 6 units by extension and correspondence courses may be applied toward the English major: correspondence courses may be applied only if they are acceptable for the major at the college where the course is offered.
5. English majors are advised to select a course in English history as one of their upper-division electives.
6. English majors considering eventual graduate degrees should consult the graduate adviser.

## English Minor

Students in many vocational fields often realize that special skill in writing may be of great use in their future work - and such skill can best be obtained through an English minor. The English Minor requires 20 units above English 1, at least 12 of which must be upper division, and 4 of these units must be from 189 or 193T/ 194T. English 160W does not apply to the English Minor. Courses taken as CR/NC may not apply to the minor with the exception of 4 units total of 175 T and 186.

Units
English 189, 193T, or 194T .................... 4
Other upper-division English ................. 8
Other English courses (not including English 1) ... 8
Totall 20

## Credentiall Program

Singlle Subject Waiver

## Program: English

(Literature/Composition option)

## Prerequisites

Engl 20 or equivalent (4)
Engl 41, 43, 44 or equivalent (4)
Core Courses (Choose the
required number of units
from each group)
Engl 182 (taken concurrently
with EHD 155A)
Engl 182 (taken concurrently
with EHD 155B).

Engl 193 T or 194T ...................... (4)
Ling 100
Ling 146
Engl 161 or 163 or 164 ............... (4)
Engl 154 or 155

Engl112, 113, 114,115W, 116, 146, 147, 150, 151, 152, 153, $154,155,156,167,168 \mathrm{~T}$, 169T, 183T, 193T, 194T .
Ling 132 or 138 or Spch 140
or Drama 131
Breadth Courses (Choose the
required number of units
from each group):
Engl112, 113, 114, 115W, 116,
146, 147, 150, 151, 152, 153, $154,155,156,161,163,164$, 167, 168T, 169T, 183T, 193T, 194T, 250T, 261, 263, 265 ..... (6-8)
Drama 22, 33, 34, 134A-B, 139, 185, 186; Hist 150, 151; Jour 124W; Ling 148; Phil 120; Spch 105, 108, 114, 140, 142, 162.
(9)

Totall .46-48

Note: 28 upper-division units in English including Engl 189 and 193T or 194T are required for the B.A.
Credential candidates should take one unit of Engl 182 concurrently with student teaching (EHD 155B and 1 unit before beginning student teaching or concurrently with EHD 155A). CTET 161 must be completed before beginning student teaching (EHD 155B). It is normally offered only in the fall semester. For program planning consult the English Department's credential coordinator each semester.
Students fulfilling the competency requirement by taking the National Teachers Examination should obtain a description of additional requirements from the credential coordinator.
For credential programs with emphasis in speech, drama, and English as a second language, see the listings under Speech Communication, Theatre Arts, and Linguistics.

## Graduate Progiram

The Master of Arts program in English language and literature serves several categories of students: those teaching high school and community college; those anticipating doctoral studies; those studying creative or expository writing; and those simply interested in extending and intensifying the knowledge acquired in their undergraduate studies.
Admission to the Master of Arts program in English language and literature assumes preparation equivalent to an undergraduate major in English or a related field in the liberal arts. Courses which do not count
toward the English major may not be used for the M.A. degree. To reach classified standing, both English and non-English majors must achieve a GPA of 3.0 or better in their major and pass the verbal section of the GRE with a score of 500 or better. (Foreign students must also score 600 or better on the TOEFL.) In the Literature and Composition options, the advanced GRE is required for diagnostic purposes only. In addition, all candidates must submit a writing sample to the graduate committee, whose approval is necessary for admission to the program.
Consult the graduate adviser every semester for program planning.
(See also Admission to Graduate Standing, Advancement to Candidacy, Program Requirements, Foreign Language Requirements, and Criteria for Thesis and Project)

## Master of Arts <br> Degree Requirements <br> Literafture Option

Under the direction of a graduate adviser, each student prepares and submits a coherent program individually designed within the following framework:

| Thesis Plown | Units |
| :---: | :---: |
| English 250T or 280T .......................... 8 |  |
| Other courses in English (see specific requirements) $\qquad$ 4-8 |  |
| English 299 .................................... 2-6 |  |
| Approved electives in English or other fields $\qquad$ 12 |  |
| tall |  |
| Thesis Altermative Plane <br> English 250T or 280T ........................... 12 |  |
|  |  |
| Other courses in English (see specific requirements) $\qquad$ |  |
| English 298 ....................................... 2 |  |
|  | 20 |
| Approved electives in English or other fields $\qquad$ |  |
| Totall |  |

Specific Requirements. The following areas must be covered by graduate or undergraduate courses (may be satisfied in undergraduate preparation): English literature (2 courses), American literature, world literature, Shakespeare, and Chaucer (1 course each).
In addition to the general Graduate Division requirements, advancement to candidacy requires a reading knowledge of
one foreign language, to be demonstrated by examination; the completion of at least one graduate seminar (250T) with a grade of $\boldsymbol{B}$ or above; and a review by the graduate committee of the work already completed.
An interdisciplinary major may be constructed in consultation with the graduate adviser in which up to 12 units may be taken in departments other than English when such a program demonstrates a coherent program of study.

## Creative Writing Option

Under the direction of a graduate adviser, each student prepares and submits a coherent program individually designed with the following framework:

In addition to the general Graduate Division requirements, advancement to candidacy requires a reading knowledge of one foreign language, which may be demonstrated either by passing an examination or by submitting to the creative writing staff acceptable translations of foreign poetry and/or prose, and a review by the graduate committee of the work already completed.

## Composition Option

Under the direction of a graduate adviser, each student prepares and submits a coherent program individually designed within the following framework:

## Units

English 164, 166 or 265 .......................... 4
English 265 ............................................ 8
English 250T or 280T ............................. 8
Linguistics ...........................................3-4
English 299 ............................................ 3 26-27
Approved electives in English
or other fields ....................................3-4
In addition to the general Graduate Division requirements, advancement to candidacy requires a reading knowledge of one foreign language, to be demonstrated by passing an examination, and a review by the graduate committee of the work already completed.

## COURSES

## English (Engl)

## A. Fundamental

Writing Skills (1-3; max total 3)
All students enrolling in English A must have taken the CSU English Placement Test. Concurrent enrollment in English ARL may be required. Instruction and supervised practice in fundamental problems of writing. Intended primarily for students who need more elementary composition work before attempting English 1 or more advanced courses. Approved for SPgrading. CR/NC grading only; not applicable toward baccalaureate degree requirements.

## ARL. Fundamental Writing

Skills Lab (1-2; max total 2)
Laboratory for students who need individualized writing assignments and exercises. May be taken concurrently with English A. CR/NC grading only; not applicable toward baccalaureate degree requirements. (2-4 hours)

1. Composition (3-4)

Prerequisite: Any one of the following test scores or successful performance in English A; CSU English Placement Test, T151 or E8 or above; SAT-Verbal, 470 or above; CSU English Equivalency Examination, satisfactory score; English Composition Examination of College Board Advanced Placement Program, 3, 4, or 5; ACT English Usage Test, 22 or above; College Board Achievement Test in English Composition with essay, 600 or above. Concurrent enrollment in Engl 1L may be required.
Theory and practice of composition for students with college-level competence in written English. Themes, chiefly expositoryor analytical, includingonepaper based on an investigation of a selected topic. General Education CORE. (CAN ENGL 2)
(See Credit by Examination section for information on challenge to English 1.)
1L. Writing Skills Lab (1)
May be taken concurrently with Engl 1. Laboratory for students who need individualized writing assignments. CR/NC grading only. (2 hours)
2. Writing Workshop (1-4; max total 4) Practical assignments and individual coaching on specific writing problems. For selected students this workshop may be required to be taken concurrently with, or as prerequisite to, other courses.

## 3CR. Sentence Structure

and Punctuation (2)
An elementary study of the rules for constructing and punctuating written English sentences. Emphasis on sentence combining. CR/NC grading only; not applicable toward baccalaureate degree requirements.
20. Introduction to Literature (4)

Prerequisite: Engl 1. Reading and close written analyses of short stories, novels, drama, and poetry. General Education BREADTH, Division 6. (CAN ENGL 4)
21. Critical Reading and Thinking (4) Critical reading and written analyses of various kinds of writing. Practice in close analysis with attention to the adequacy and accuracy of evidence, the logical structure of argument and definition, common fallacies, persuasive and expressive language, and language as culture. General Education CORE, Critical Thinking.
30. Masterpieces (4)

Prerequisite: Engl 1. Discussion and written analyses of widely influential poetic, dramatic, and fictional works by British, American, and world authors, with special attention to the use, adequacy, and accuracy of evidence, logical structure of argument, common fallacies, and persuasive and expressive language. General Education CORE, Critical Thinking.

## 41. Poetry Writing (4)

Prerequisite: Engl 20. Beginning workshop in the writing of poetry; appropriate reading and analyses. General Education BREADTH, Division 4.

## 43. Fiction Writing (4)

Prerequisite: Engl 20. Beginning workshop in the writing of fiction; appropriate reading and analyses. General Education BREADTH, Division 4.

## 44. Prose Writing (4)

Prerequisite: Engl 1. Beginning workshop in forms of nonfiction prose writing: appropriate readings and analysis. Special attention to the use, adequacy, and accuracy of evidence, logical structure of argument, common fallacies, and persuasive and expressive language. General Education CORE, Critical Thinking.

## 50T. Studies in Literature

(1-4; max total 8 if no topic repeated)
(Same as W S 50T.) Prerequisite: Engl 1. Sections designated as emphasizing certain writers, types, or themes (for example, Shakespeare, The Poem, Literature of Protest, Women in Novels). Appropriate readings and analyses.

100W. Writing Skills (1)
Credit obtained only by passing UpperDivision Writing Skills Examination and upon request. CR/NC grading only.

## 101. Masterpieces

of World Literature (4)
Discussion and written analyses of widely influential poetic, dramatic, and fictional works studied in translation. Not applicable to the English major. General Education BREADTH, Division 6.

## 102. Masterpieces

## of English Literature (4)

Discussion and written analyses of widely influential poetic, dramatic, and fictional works by British authors. Not applicable to the English major. General Education BREADTH, Division 6.

## 103. Masterpieces

of American Literature (4)
Discussion and written analyses of widely influential poetic, dramatic, and fictional works by American authors. Not applicable to the English major. General Education BREADTH, Division 6.
105. The Study of Literature (4)

The theory and practice of literary analysis. Examination of the concept of literary tradition; consideration of research methods; application of critical theory to textual analysis and the writing of literary criticism. Recommended for English majors.
112. World Literature: Ancient (4)

Greek and Latin literature in translation. Discussion of major works of Greek and Latin literature such as Homer, Sophocles, Euripides, Aeschylus, Aristophanes, Alcaeus, Theocritus, Virgil, Ovid, Catullus, Lucretius, Juvenal. Course includes written analyses of various themes expressed in the individual work. General Education CAPSTONE Cluster, Critical Thinking.

## 113. World Literature:

Medieval and Renaissance (4)
Discussion and written analyses of authors and works (in translation). Selections may include Dante, Rabelais, Cervantes, Murasaki, Boccaccio, the Petrarchan tradition, TuFu , Basho, troubadour poetry, epic, romance, fabliau. No morality plays, Lope de Vega, Erasmus, Montaigne, Castiglione. General Education CAPSTONE Cluster, Critical Thinking.
114. World Literature: Modern (4)

Major movements in world literature from the Renaissance to the present. Discussion and written analyses of works by such authors as Voltaire, Goethe, Dostoyevsky, Ibsen, Mann, Kafka, Dinesen, Mishima,

Borges, Garcia Marquez, and Achebe. General Education CAPSTONE Cluster, Critical Thinking.
115W. Literature of the New Testament (3)
(See Phil 133W.) Prerequisite: Engl 1. Meets upper-division writing skills requirement for graduation.
116. Literature of the Old Testament (4) (See Phil 134.) General Education CAPSTONE Cluster.
146. Beowulf to Malory (4)

The literature of Medieval England, including the works of Malory and Chaucer; narrative poetry (Beowulf, Piers Plowman,
Sir Gawain and the Green Knight); drama; and lyric poetry. Discussion, lectures, and written analyses (papers, tests).
147. Renaissance (4)

Discussion and written analyses of works by selected playwrights (Webster, Dekker, Jonson) and poets (Spenser, Donne, Herbert, Marvell, Milton) from the 16th and 17th centuries. General Education CAPSTONE Cluster, Critical Thinking.
150. The Age of Wit (4)

Discussion and written analyses of British literature from 1660 to 1800. Major writers and topics include Dryden, Swift, Pope, Johnson, Restoration comedy, and the rise of the novel. The literature will be read in the context of political and intellectual history and the arts.
151. 19th Century Romantics (4)

A study of the Romantic movement in England during the early decades of the 19th century. Authors to be read include Blake, Wordsworth, Coleridge, Byron, Shelley, and Keats. Written analyses on selected topics will be required.
152. Dickens to Hardy (4)

Discussion and written analyses of 19th century English literature including poetry (Tennyson to Hopkins), the novel (Dickens to Hardy), the essay (Carlyle to Pater). Possible topics: Utilitarianism, Evangelicalism, Darwinism, the Pre-Raphaelites, the Decadents, the New Woman.

## 153. American

Literature to Whitman (4)
Discussion and close written analyses of major works and their backgrounds in American literature to the Civil War. Includes Puritanism, Emerson, Thoreau, Hawthorne, Melville, Poe, and Whitman.

## 154. American

## Literature 1865 to WWI (4)

Discussion and written analyses of major works and their cultural backgrounds within this period of change. Topics include the rise of realism and naturalism. Writers discussed include Whitman, Twain, Howells, James, Crane, Dickinson, and others.

## 155. 20th Century

## American Literature (4)

Discussion and written analyses of selected poems, plays, and fiction from WWI to the present by such authors as Frost, Eliot, Anderson, Hemingway, O'Neill, Faulkner, Fitzgerald, Steinbeck, Stevens, Williams, and post-WWII writers.
156. 20th Century

British Literature (4)
Discussion and written analyses of selected poems, plays, and fiction from 1900 to the present by such authors as Forster, Yeats, Woolf, Lawrence, Joyce, Greene, Auden, Thomas, and post-WWII writers.

## 160W. Writing Workshop

(4; max total 8)
Prerequisite: Engl 1. Practical assignments in writing, directed according to each student's individual needs. May be elected as preparation for special composition requirements. Does not apply to the English major or minor. Meets the upper division writing skills requirement for graduation.

## 161. Advanced Writing

of Poetry (4; max total 8)
Prerequisite: Engl 41. Intensive workshop in the writing of poetry; appropriate readings and analyses.

## 163. Advanced Writing

 of Fiction (4; max total 8)Prerequisite: Engl 43. Intensive workshop in the writing of fiction; appropriate readings and analyses.

## 164. Advanced Prose

Writing (4; max total 8)
Prerequisite: Engl 1. Workshop in all forms of nonfiction prose writing; appropriate readings and analyses. Designed for majors in all fields who want to develop their writing.
166. Technical Writing (4; max total 8) Prerequisite: Engl 1. Workshop in writing of specialized information. Designed for students interested in career-related writing skills.

167. Studies in Folklore
and Folk Song (4)
Discussion and written analyses of the oral and historical sources of folk tradition, including regional and ethnic styles gathered from primary and secondary materials.
168T. Women and Literature
(4; 12 units max of Engl 168T
plus 169T toward English major)
(Same as W S 168T.) Prerequisite: Engl 20. Discussion and written analysis of literature by and about women. Special emphasis on 19th and 20th Century authors including the Brontes, George Eliot, Emily Dickinson, Edith Wharton, Virginia Woolf, and contemporary writers.
169T. Forms of Literature
(4; 12 units max of Engl 168T plus 169T toward English major; repeatable with different topics)
Sections designated as emphasizing poetry, drama, novel, short story, perhaps limited to a specific period or subclass; for example, 18th Century English Novel, 20th Century British and American Poetry, ModernShortStories, 20th Century Drama, Tragedy, Folklore, Mythology. Discussion and written analyses are required.

## 174. Popular Fiction (3)

A survey of the major types of commercial fiction(detective/adventure, sciencefiction, horror, spy, Western, best sellers, etc.) covering the conventions and subtypes of these forms. Discussion; lectures on social background and literary technique; writing. General Education CAPSTONE Cluster.

## 175T. Lectures in Literature

(1-4; max total 8 if no topic repeated)
Lectures in a selected topic in literature or related fields by the regular faculty and/or visiting lecturers.
176T. Genre Film: Form and Function (1-4; max total 8 if no topic repeated) (Same as W S 176T.) Discussion and close written analyses of selected topics, including such types as comedies, musicals, horror films, westerns, etc.
181. Research Methods (4)

Prerequisite: English major. Introduction to research methods, documentation, biographical research, questions of authorship, problems of establishing accurate texts, historical bibliography, editing of texts, and the academic profession of English. Research assignments, reports, written examination.

## 182. English Workshop

(1-4; max total 8)
Seminar in composition and learning. Discussion and practical exercises concerning theory, evaluation, and improvement of languagelearning and composition.CR/NC grading only.
183T. Seminar in Literature
(1-4; max total 8)
Prerequisite: appropriate upper-division literature course. Designed for students interested in in-depth study of a literary topic; recommended for liberal studies majors. Seminar in an aspect of literary
history, type, period, movement, individual author. Reports and written analyses required.
185. English Internship Seminar (2)

Prerequisite: permission of instructor. Seminar to be taken concurrently with Engl 186 during the first semester of enrollment in program. Group and individual analyses of writing done in internship assignments. Discussion of the rhetorical problems of writing for public agencies, magazines and journals, and private industry.
186. Internship in English
(2-6; max total 6)
Prerequisite: permission of instructor. No more than 2 units of 186 may apply to the English major. See also 185. Supervised work experience in public agencies and private industry to provide an opportunity to develop professional writing skills. Approved for SPgrading. CR/NC grading only.
189. Shakespeare (4)
(Same as Drama 194.) Reading and written analyses of the major works of Shakespeare.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## 191T. Supervised

Independent Reading (1-4;
max total 4 if no topic repeated)
Reading works from a literary period (for example, Beowulf to Marlowe, American Literature to Whitman, World Literature: Ancient and Medieval) and discussion in individual conferences.
192. Projects in English
(14; max total 8)
Notapplicable to English major. Individual projects in problems related to teaching English composition and literature; for example, tutoring minority students, investigating the effectiveness of programs in English composition and literature, devising new approaches to teaching English.

193T. Seminar in Literary Studies
(4; repeatable with different topics)
No more than 12 units of 193T-194T may be applied to the English major. Sections designated by topic. Individual projects; reading, discussion, and writing of papers on individual writers (for example, Milton, D.H. Lawrence), short periods of literary history (for example, Romantic Poets, Modern Novel), literary themes and traditions (for example, Transcendental Vein in American Literature, Arthurian Tradition) literary criticism (for example, Problems in Modern Criticism, Archetype and Myth), and other special topics. English 193T should ordinarily not be taken until 3 up-per-division courses in English have been completed.
194T. Seminar in
Women and Literature (4;
repeatable with different topics)
(Same as W S 194T.) May be substituted for Engl 193 T in the English major; no more than 12 units of Engl 193T-194T applicable to the major. Sections designated by topic. Individual projects; reading, discussion, and writing papers on individual women writers or some aspect of women in literature; for example, Doris Lessing, Myth and Archetypes of Women. English 194T should ordinarily not be taken until 3 upper-division courses in English have been completed.

## GRADUATE COURSES

## (See Course Numbering System.)

## English (Engl)

250T. Seminar in Literature
(4; repeatable with different topics)
Prerequisite: major or minor in English; permission of instructor. Seminar in an aspect of literary history, type, period, movement, or an individual author (for example, Fiction, Seventeenth Century Lyric Poetry, The Irish, Dickens).

## 261. Seminar: Writing

Poetry (4; max total 12)
Prerequisite: permission of instructor. Advanced individual projects in the writing of poetry.

## 263. Seminar: Writing

Fiction (4; max total 12)
Prerequisite: permission of instructor. Advanced individual projects in the writing of fiction.
265. Seminar: Expository

Writing (4; max total 12)
Prerequisite: permission of instructor. Advanced individual projects in expository writing.
280T. Seminar in Critical Theory
(4; max total 12 if no topic repeated)
Prerequisite: major or minor in English; permission of instructor. Seminar in literary criticism (for example, Literary Critics).
290. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
291T. Supervised Independent Reading (1-4; max total 4 if no topic repeated) Reading works from a literary period (for example, More to Milton, 20th Century American Literature, World Literature, Re-naissance-Modern) and discussion in individual conferences. Approved for SP grading.
298. Project (2)

Prerequisite: See Criteria for Thesis and Project. Revising, amending, and editing of three original scholarly papers produced while enrolled in graduate seminars, with the goal of creating publishable journal articles. The student's committee must approve of the scope and quality of the papers. Abstract required. Approved for $S P$ grading.
299. Thesis (2-6; max total 6)

Prerequisite: See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for SP grading.

## IN-SERVICE COURSE

(See Course Numbering System.)

## English (Engl)

## 300. English Colloquium

(2; max total 6)
Credit is not applicable to degrees or major requirements in credentials. Prerequisite: teaching experience. Problems in composition, literature, or linguistics in relation to teaching.

## Ethnic Studies

School of Social Sciences<br>Ethnic Studies Program (African American Studies,

American Indian Studies)
LILY B. SMALL, Coordinator
McKee Fisk Building, Room 243
(209) 278-2832

Minor in African American Studies Minor in Ethnic Studies

Ihe Ethnic Studies Program is an interdisciplinary curriculum that offers a broad course of study of the different ethnic groups in American society, with classes in African American Studies and American Indian Studies. Students will find that some classes make use of various ethnic guest lecturers so that they may benefit from the multiethnic perspective imparted by a group of specialists. Whether for academic interest, personal knowledge, or professional training, students should find courses in the Ethnic Studies Program of special cultural enlightenment.

Many ethnic studies classes can be applied to the social science major and to General Education requirements. Students in the helping professions such as criminology, social work, education, health sciences, nursing, recreation, and communicative disorders should find ethnic studies courses of benefit to their future careers. For those students who wish to earn a bachelor's degree in one of the ethnic studies areas, a "Special Major" may be declared by combining one of these areas with a traditional discipline (e.g., African American Studies and Sociology).

The minor in Ethnic Studies or African American Studies offers students an excellent opportunity to gain an academic background of the major minority groups in America. In the marketplace, students should find their academic credentials much more salable when one of these minors is combined with their chosen major.

## African American Studies

African American Studies represents a relatively new field of study and research based on vigorously innovative educational processes. The courses offered are interdisciplinary in nature and address themselves to issues that pertain to minorities in the American society. The

program is structured to provide better service to the student population at CSU, Fresno. This includes the historical contributions and the sociological, psychological, and economic problems that confront African Americans in the American society.
This program establishes concepts and tools for the survival of African American people and presents to all university students the understanding of the uniqueness of minority heritage, culture, and lifestyles. The philosophy and academic curriculum of the African American Studies Program were developed through a special relationship (mutual understanding and cohesiveness) established between the communities, students, and its faculty.
The African American Studies Program includes career counseling, cluster advising, experimentation and computer technology, curriculum development, increased use of mathematics offerings and science courses, professional education orientation, and extended day, evening, and Saturday courses. The African American Studies Program sponsors and supports various student organizations, e.g., Black Students' Business Association, Pan-African Student Union, and the student campus newspaper, Uhuru Na Umoja. It also works in conjunction with the CSU, Fresno Black Alumni and Friends Association to sponsor various student activities.
The African American Research Center is an ancillary unit housed within the African American Studies Program. The major objective of the research compo-
nent is to provide a forum for a wide range of research on the African/African American experience. In doing so, it creates an open dialogue in which academics can interact to sustain and support a creative atmosphere for scholarly inquiry.

## American Indian Studies

American Indian Studies is a discipline within ethnic studies, focusing on the indigenous cultures of ancient, historical, and contemporary America. American Indian cultures include American Indians and Arctic-Native people, as well as natives of Northern Mexico. This program recognizes the artificiality of both the Canadian and the Mexican border but is primarily concerned with people of the United States.

The courses offer a distinctively American perspective that is crucial to an understanding of the historical and social processes that have led to the development of contemporary American society. Issues of colonization, Native rights, sovereignty, cultural integrity, civil rights, and current struggles are discussed within an interdisciplinary framework.

This program is intended to strengthen the position of American Indian individuals and communities in this region, as well as provide help to American Indian students and scholars. A second focus introduces native cultures and issues to all students. Courses include both the social sciences and the humanities, as well as specialized offerings in such fields as law and education.

## Ethnic Studies Minor

The Minor in Ethnic Studies consists of 21 units, of which 9 must be upper division.

Units
Eth S 1, 2, or 4 .6
Approved electives in one of the areas listed below .. 9
(Asian American Studies, African American Studies, Chicano and Latin American Studies, and American Indian Studies)
Approved Asian American Studies, African American Studies, Chicano and Latin American Studies, and American Indian Studies electives from one of the areas not used above

## Totall

 21A student intending to pursue a Minor in Ethnic Studies should see the coordinator for assignment to a faculty adviser who assists the student in planning his or her program.

## African American Studies Minor

 Units
## Eth S 1 or 2

 .3-6Approved African American Studies career-oriented courses (upper division) .. 9
Approved African American
Studies electives ...............................6-9
Totall ................................................ 21
Note: For students interested in the general dimensions of the African American experience, the following courses are recommended:
Af Am 27, 36, 38, 130T, 135, 137, 140
For students interested in the following careers, the following courses are recommended:
Education: Af Am 38, 42, 110, 124, 130T, 135
Performing Arts: Af Am 21, 24, 27, 35, 121, 130T, 144, 189
Business: Af Am 38, 130T, 135, 136, 189, 190
Preprofessional (nursing, criminology, prelaw, etc.): Af Am 56, 130T, 135, 142, 144, 146, 189, 190
Writing: Af Am 15, 25, 127, 190
Social Sciences: Af Am 27, 38, 135, 140, 178, 189

## Asian American Studies Minor

(See Asian American Studies in Courses and Programs section.)

## COURSES

## Ethnic Studies (Eth S)

1. Ethnic Experience (3)

Comparative study of ethnic minorities in the United States, combining the perspectives of history, sociology, and psychology. General Education BREADTH, Division 9.
2. Ethnic Expression (3)

Comparative study of the characteristic ways in which ethnic minorities in the United States think and feel about themselves and the world, as reflected in literature, art, and music.
104. American Poverty (3)

Multiethnic and interdisciplinary perspective on poverty as a worldwide phenomenon, with emphasis on America; geographic analysis of poverty areas such as urban ghettos and other minority areas; homelessness; examination of policies dealing with poverty. (Former Eth S 4)

## 130T. Topics in Ethnic

Studies (1-3; max total 6)
In-depth research and writing on the past and contemporary situation of America's major ethnic minorities.
195. Race, Class, and Gender (3)
(See CLS 195.)

## African American (Af Am)

## 15. Basic Composition

and Communication (3)
Designed to help students express themselves concisely and clearly both in speech and writing; assist students to overcome difficulties in spelling, grammar, punctuation, sentence construction; investigate techniques and methods to develop term papers. (Former Bl S 15)

## 21 and 121. Black Gospel

Choir (1; max total 8)
Performance of a variety of inspirational songs reflecting the African American cultural experience. Participation through rehearsals, activities, programs, and field trips. (Former Bl S 21 and 121)
24. African American Music (3)

The origin and evolution of African American music from the perspective of social and cultural history. Emphasis on slave songs, gospel, jazz, rhythm and blues, and soul music. General Education BREADTH, Division 5. (Former Bl S 24)
25. African American Literature (3)

Major authors, their works, themes, and movements in African American literature in America from colonial times to the present. General Education BREADTH, Division 9. (Former Bl S 25)

## 27. Introduction to African

American Culture and Image (3)
Introduction to the social experience of African Americans in American life and to various images of that experience which have developed historically. General Education BREADTH, Division 9. (Former Bl S 27)
35. Art and Music of Africa (3)

Comprehensive study of African artistry and music. (Former Bl S 35)
36. Contemporary African Societies (3) Analysis of the cultural and political structure of some Black African nations; understanding the impact of colonialism in Africa; realizing the relationship of African Americans to Africa. (Former Bl S 36)
38. African American Sociology (3)

Basic principles sociology from the perspective of the African American experience. General Education BREADTH, Division 9. (Former Bl S 38)

## 42. Ethnic Psychology (3)

Introduction to psychology as an empirical science; biological and social basis of behavior; evaluation of concepts or general psychology and personality theories; emphasis on perception, learning, motivation, and intelligence; applicability to behavioral patterns of African Americans. (Former Bl S 42)

## 50T. Topics in African American

Studies (1-3; max total 9)
Selected topics at the introductory level in African American Studies.
56. The African American Family (3)

This course deals with the origin, development, and adaptations the African American family has created to sustain itself as a viable institution. Emphasis is on problems encountered and created by the American society and how the African American family handles these adversities. (Former BI S 56)

## 60. Introduction to

African American Theatre (3)
Study and practice in performance of African American drama and oral interpretation projects. Class will include poetry reading; dance performances; dramatic interpretations; comedic sketches. Previous experience not required. (Former Bl S 60)

## Ethnic Studies

100A. African Dance (3)
Focuses on the history of African dance in the United States, uses of dance among Africans/African Americans. Activities include dance techniques; imagery/visualization, dance exercises; simple constructive rest techniques; African dance step techniques preparatory for advance class. (2 lecture, 2 activity hours) (Former Af Am 130T section)

100B. African Dance (3)
Prerequisite: 100A or permission of instructor. Teaches advance space orientation, advance imagery/visualization techniques; advance constructive rest; centeral/alignment; dance philosophy of Laban; choreography; specific African dances and dance performances. (6 lab hours)
110. The Educational System and the African American Community (3)
The effects of the educational system on African Americans. Analysis of the economical, sociological, and political foundations of education as they are related to African Americans. (Former Bl S 110)
124. The African American

Experience in Children's Literature (3)
A survey of selected material: Children's books, tapes, cassettes; dealing with the African American experience in children's literature. (Former Bl S 124)

## 127. African American

Creative Writers Workshop (3)
An intensive reading and writing workshop in the African American experience. Selections and discussions from major literary artists, including: Hughes, Baldwin, Giovanni, Brooks, Ellison, Angelou, Gaines, and others. Students are required to write expository essays analyzing literature, poems, and short stories. (Former Bl S 127)

## 129. African American

Literary Classics (3)
An intensive analysis of selected classical narratives in African American literature and culture. (Former Bl S 129)

## 130T. Topics in African

## American Studies (1-3; max total 9)

Major social problems confronting African Americans in America today; emphasis on welfare, education, legal systems, religious institutions, and economic institutions; effect on the African American segment of the population. (Former Bl S 130T)

## 135. The African

American Community (3)
Analysis of the various lifestyles and cultural patterns of the African American community and spatial ghetto areas. Emphasis on unique cultural features of the family, religion, foods, music, art, and folkways. General Education CAPSTONE Cluster. (Former Bl S 135)

## 136. African American

Business Economic Develop-
ment in the United States (3)
Introduction to African American business enterprises with special emphasis on the analysis and developments of African American business from early slave trade to present day. Relationship of economic forces to historical, political, and social change pertaining to African Americans. (Former Bl S 136)

## 137. African American Women (3)

(Same as W S 137.) An overview of the accomplishments of African American women in the United States; their contributions to American culture; African influence; African American women as defined by a dominant society vs. legitimate definition designed to encourage a positive self-concept. General Education CAPSTONE Cluster. (Former Bl S 137)
140. The African American Church (3) History of the formation and development of African American religious institutions (Christianity, Islam, Judaism) in the African American community; their effect on the African American personality. (Former Bl S 140)
141. African American Health Care (3) Investigation and analysis of major health problems and delivery services in the African American Community. (Former Bl S 141)

142. African American

Child Rearing (3)
Specific and unique issues facing African American parents as their children journey through the development process. (Former Bl S 142)
144. Race Relations (3)

An examination of race in American society as it affects major social issues such as stratification, income distribution, and political power, with concern for theoretical orientations toward the study of African American/white race relations. General Education BREADTH, Division 9. (Former Bl S 144)

## 145. Life and Times of

 Martin Luther King Jr. (3)This course explores Dr. King's leadership in the nonviolent movement for racial equality and human dignity, from Montgomery Bus Boycott to King's assassination (1955-68). Emphasis on philosophy, ideology. Format: lectures, films, slides, recorded speeches, and discussion. (Former Bl S 145)

## 146. Law and the

Minority Community (3)
Critical analysis of the foundation and changing structure of law and legal institutions as perceived by minority communities, with emphasis on consumer protection, equal employment and education, criminal justice, and political power. (Former Bl S 146)
150. South Africa (3)

An introductory analysis of the social, racial, political, and economic problems of people of South Africa, both past and present. (Former Bl S 130T section)

## 165. Advanced African

## American Theatre (3)

For students previously enrolled in Af Am 60. Advanced production and performance in the African American Theatre. (Former Bl S 165)
178. History of African Americans (3)
(Same as Hist 178.) Evolution of African American society from 1619 to the present; emphasis on the social, political, and economic aspects as they relate to
"I have a new perspective of my life, the United States and the world."

Karen Wrigley<br>after participating in the<br>university's China Semester

cultural values, theories in the development and environment that contribute to the African American way of life. General Education BREADTH, Division 9 (Former Bl S 178)
189. Fieldwork in Community

Relations (3; max total 6)
Supervised field observation, participation, and documentation in the operation of minority communities. (Former Bl S 189)
190. Independent Studly
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Former Bl S 190)
191. History of Allensworth (1)

An examination of the historical development of the African American town of Allensworth from its status as a town to its existence as a state historic park. Students will be exposed to various academic disciplines through lectures and a field trip to the park. (Former Af AM 130T section)

## American Indian Studies (A I S)

5. American Indian History (3)

An interpretive survey of American Indian history from the native point of view including accounts of American Indian origin and the arrival of immigrants from Asia, Africa, and Europe. (Former N A S 5)
9T. Topics in American Indian Studies (1-3; max total 9 if no area repeated) Selected topics at an introductory level in American Indian Studies. (Former NAS 9T)

## 50. Contemporary Life

of the American Indian (3)
Current problems of American Indians and Arctic Natives resulting from culture conflict, acculturation, minority status, and governmental policy. General Education BREADTH, Division 9. (Former NAS50)

## 60T. Topics in Indian

Education (3; max total 9)
Foundations and history of Indian education, methods of teaching Indian children, curriculum and practices for Indian education, guidance for the Indian student, problems of teachers of Indian children, education of Indian adults. (Former N A S 60T)
100. American Indian Religion (3)

American Indian religious systems, including basic concepts of religion and the sacred, ceremonial life, medicine, functions of religious institutions and practices, and contrast/conflict with nonNative religious systems. General Education CAPSTONE Cluster. (Former N A S 100)
101. American Indian Law (3)

Concepts of laws on Indian reservations, termination, litigation and complaints, strengthening tribal governments. Law related to Indian land and resources. (Former N A S 101)

## 103. Indians of California (3)

Survey course on the ancient cultures of California, historical development of California Indian cultures according to regional resources, conflict between the California Indian people and various colonial forces, arts and culture of California Indian people, and contemporary issues of California Indians. General Education BREADTH, Division 9. (Former N A S 103)

## 160. The Politics of

Indian Education (3)
This seminar examines the interaction of politics, culture, and education, using case studies of federal financing of Indian education in the mission, Bureau of Indian Affairs, tribal, and public school systems. (Former N A S 60T section)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Former N A S 190)

## Foreign Languages and Literatures

School of Arts and Humanities

B.A. in Spanish
M.A. in Spanish

Minor in Armenian Studies
Minor in Classical Studies
Minor in French
Minor in German
Minor in Russian
Minor in Spanish
Single Subject Teaching Credential in French, German, Russian, and Spanish

Because of increasing mobility in our modern world, it takes no time at all to travel to places where people speak a language other than English. Even in California scarcely a day goes by that you do not hear people conversing in a foreign language. If you visit or go to work in another country you will quickly learn the fallacy of the phrase, "Everyone speaks English there; don't worry!" You can never fully appreciate the differences between your own way of life and the life of others unless you get out and communicate with them in their own language. When you know a foreign language you
can learn even more about other cultures by reading newspapers, magazines, and books.

The goal of the Department of Foreign Languages and Literatures is to prepare you for communication with other peoples, so that you may move about with greater ease in an ever changing world. We offer the study of the humanities through foreign languages. We provide training for teaching in secondary schools and junior colleges. We offer courses specifically to prepare individuals for bilingual/cross-cultural teaching in public schools. We provide basic foreign language training for professions such as health and agriculture. We offer courses to train translators. We prepare students who wish to pursue graduate studies.

The department offers a major and a minor in the following modern foreign languages: French, German, Russian, and Spanish. Secondary Teaching Credentials are available in French, German, Russian, and Spanish. The Master of Arts degree may be earned in Spanish. We also offer basic courses in Italian and Portuguese.
For those interested in the study of the Classics, we have a Minor in Classical Studies with areas of interest in Latin, Greek, or Classics.

The Department of Foreign Languages and Literatures has a foreign language laboratory to provide students with additional listening and oral practice.

## International Programs

Juniors and seniors have the opportunity for the invaluable experience of studying in a foreign country through the California State University International Programs. This one-year program is especially recommended for foreign language majors and minors. See International Programs (Overseas).

## Career Opportunities

Since a foreign language degree increases your ability to communicate with people, it provides a wide variety of career opportunities. In today's world of international markets and international professional exchange, the knowledge of another language and culture can be a great asset for success in any field. Many possibilities exist for employment with the U.S. government and with international organizations, airlines, shipping companies, agricultural enterprises, and multinational corporations, even though there may be strong competition for some types of positions both at home and abroad.

In California, fluency in Spanish can be a very useful adjunct to your education in the fields of social work, health, elementary or secondary school teaching, teaching English as a second language, or other public service work where ethnic understanding is important.
When your primary major is in another career area, a second major or a minor in a foreign language is a very good way to acquire and document language skills important for a job or profession.
A great number of foreign language majors aim for a teaching career. Teaching at the college level requires at least a master's degree, while teaching in the public schools requires a teaching credential. There is currently a strong demand for high school language teachers due to the establishment of a foreign language admissions requirement in the University of California and California State University systems. There are many opportunities for teaching in elementary schools having bilingual/cross-cultural programs in Spanish.

Do not hesitate to visit the department office to seek advice that can help you plan the course of study that will best meet your career goals. Faculty advisers can provide you with up-to-date information on career perspectives in foreign languages.

## Credit Allowance in Foreign Language

Students who have taken one year of a foreign language in high school may not receive credit for a 1 A course in that language. Students who have had two years of a foreign language in high school may not receive credit for a 1B course in that language (Classical Greek and Latin excluded).
Credit by Examination. Students who have taken one or more years of a language in high school may not challenge a 1A course in that language. Students who have taken two or more years of a language in high school may not challenge a 1B course in that language. Students who have taken three years of a language in high school may not challenge 2A in that language.
Students from non-English speaking countries who have received their education in the language of that country may not enroll in or receive Credit by Examination for lower-division courses in that language. Such students are not exempted from meeting the General Education requirements of Divisions 4 through 7.
Credit may not be awarded for a lowerdivision foreign language course if the student has received credit for an upperdivision course in that language.

## General Education

## Foreign Language Credit

The following courses in Divisions 6 and 7 are applicable to the General Education requirement: Division 6, Armenian 148; French 109, 148; Greek 148; German 148; Italian 148; Latin 148; Russian 148; Spanish 140, 142, 146. Division 7: Armenian 1A, 1B, 2A, 2B; French 1A, 1B, 2A, 2B; Ger$\operatorname{man} 1 \mathrm{~A}, 1 \mathrm{~B}, 2 \mathrm{~A}, 2 \mathrm{~B}$; Greek 1A, 1B, 3A, 3B; Italian 1A, 1B, 2A, 2B; Latin 1A, 1B; Portuguese $1 \mathrm{~A}, 1 \mathrm{~B}$; Russian $1 \mathrm{~A}, 1 \mathrm{~B}, 2 \mathrm{~A}, 2 \mathrm{~B}$; Spanish 1A, 1B, 2A, 2B, 4A, 4B. (See also Department of Linguistics.)

## Bachellor of Arts <br> Degree Requirements <br> Fremch Major <br> Units <br> Major requirrements ................. 30-44

(see Notes 1, 2, and 3 below)
Lower division: Fren 1A, 1B;
select two: Fren 2A, 2B, 4, 5
(see Notes 3 and 4)
Upper division
Fren 101, 102, 109 $\qquad$
Select three: Fren 110, 111, 112, 113
Select four: Fren 120T, 132, 148, 149, 150, 160T (see Notes 4 and 5)
Generall Education ......................... 51
(see Notes 2 and 5)

## Electives

29-49*
including other lower- and upperdivision French courses, and remaining degree requirements (see Degree Requirements) may be used toward a dual major or a minor
Totall
*This figure takes into consideration the fact that a maximum of two General Education BREADTH courses ( 6 units) from one department may be applied to satisfy French major requirements (see General Education). These courses may be selected from French 1A, 1B, $2 \mathrm{~A}, 2 \mathrm{~B}$, and 109 in General Education BREADTH Divisions 6 and 7. Consult a French major faculty adviser for details.

## Advising Notes

1. No course used to satisfy General Education CAPSTONE requirements may be used to satisfy French major requirements.
2. $C R / N C$ grading is not permitted for courses in the French major.
3. A maximum of two courses from one departmentmay be used simultaneously to satisfy both the General Education BREADTH requirement and the major requirements. If the French major is the
secondary major in a dual major (see Dual Major), this limitation does not apply. Consult a faculty adviser for additional details.
4. French majors who have studied French in high school or who by culture or experience can speak French at a certain level of proficiency must consult with a French adviser to determine which required lower-division courses, if any, may be waived. (Also see Credit Allowance in Foreign Lansuage.) French majors who are able to enroll immediately in Fren 1B, 2A, 2B, 4, 5, or in an upperdivision French course are not required to make up the lower-division units waived.
5. Only 3 units of courses taught in English may be applied to the French major.

## Germam Major Units

Major requirements .................. 30-44
(see Notes 1, 2, and 3)
Lower division: Germ 1A, 1B,
2A, 2B (see Note 2)..
Upper division
Language and Culture
Germ 101 (twice), 103T, 150
Literature
Select four: Germ 112,114, 116, 118A, 118B
German electives
Select two: Germ 103T, 137, 148, 150, 160T, 190 (see Note 3)
Generall Education ......................... 51
Electives ..................................... 29-49*
including other lower- and upper-
division German courses, and remaining degree requirements (see Degree Requirements) may be used toward a dual major or a minor (See your German adviser for suggestions and details.)
Totall
*This figure takes into consideration the fact that a maximum of two General Education BREADTH courses ( 6 units) from one department may be applied to satisfy German major requirements (see General Education). These courses may be selected from German 1A, 1B, $2 \mathrm{~A}, 2 \mathrm{~B}$, and 148 in General Education bREADTH Divisions 6 and 7. Consult a German major faculty adviser for details.

## Advising Notes

1. $C R / N C$ grading is not permitted for courses in the German major.
2. German majors who have studied Germann in high school or who by culture or
experience can speak German at a certain level of proficiency must consult with a German adviser to determine which required lower-division courses, if any, may be waived. (Also see Credit Allowance in Foreign Language.) German majors who are able to enroll immediately in German 1B, 2A, 2B, or in an upper-division German course are not required to make up the lower-division units waived.
3. Only 3 units of literature courses in English translation may be applied to the German major. German 103T may only be repeated for credit toward the major if the topic has been changed; it may only count once toward the Single Subject Waiver Program in German. German 150 may be taken twice for credit toward the German major and the Single Subject Waiver Program in German.

## Russiann Major <br> Units

Major requirrements ..................24-37
(see Notes 1 and 2)
Lower division: Russ 1A, 1B, 2A, 2B (see Note 2)
Upper division
Russ 101 (9 units), 118A, 118B
Russ 110, 148
Generall Education ..... 51
Electives ...................................... 36-52*
including other lower- and upperdivision Russian courses, and remaining degree requirements (see
Degree Requirements) may be used toward a dual major or a minor
Totall 124
*This figure takes into consideration the fact that 3 units of Russian 1A, 1B, or 2A, 2B may also be applied to General Education BREADTH Division 7 (see General Education). Consult a Russian major faculty adviser for details.

## Advising Notes

1. $C R / N C$ grading is not permitted for courses in the Russian major.
2. Russian majors who have studied Russian in high school or who by culture or experience can speak Russian at a certain level of proficiency must consult with a Russian adviser to determine which required lower-division courses, if any, may be waived. (Also see Credit Allowance in Foreign Language.) Russian majors who are able to enroll immediately in a Russ 1B or a 2A course are not
required to make up units waived. Russian majors who are able to enroll immediately in Russ 2B or in an upperdivision coursemustsee a Russian adviser to determine the need to take an additional upper-division elective in the major.

*This figure takes into consideration the fact that a maximum of two General Education BREADTH courses ( 6 units) from one department may be applied to satisfy Spanish major requirements (see General Education). These courses may be selected from Spanish 1A, 1B, $2 \mathrm{~A}, 2 \mathrm{~B}, 4 \mathrm{~A}, 4 \mathrm{~B}, 140$, and 142 in General Education BREADTH Divisions 6 and 7. Consult a Spanish major faculty adviser for details.

## Advising Notes

1. CR/NC grading is not permitted for courses in the Spanish major except for those taken Credit By Examination.
2. A maximum of two courses from one department maybeused simultaneously to satisfy both the General Education BREADTH requirement and the major requirements.
3. Spanish majors who have studied Spanish in high school or who by culture or experience can speak Spanish at a certain level of proficiency must consult with a Spanish adviser to determine which lower-division courses, if any, may be waived. (Also see Credit Allowance inForeignLanguage.) Spanish majors who are able to enroll immediately in Spanish 1B, 2A, 2B, 3, 4A, 4B, 5 or an upper-division Spanish course are not required to make up the lower-division units waived.

## Minors

Depending on the specific minor, the student is responsible for 21-24 units. Consult a departmental adviser for planning your program.

## Armemiam Studlies

A minor with strong language concentration is offered under Armenian Studies.

## Classicall Studies

The 24 -unit Classical Studies Minor allows for three areas of interest: Classics (Greek and Latin), Greek, and Latin. (See Classical Studies.)

Students interested in careers in translation are advised to take the following courses: Spanish 115 and 116. Those interested in interpreting should contact the department.

## Credential Program

For Bilingual/Cross-Cultural Credentials, see Education - Literacy and Early Education Department, and Bilingual/Cross-Cultural Specialist Credential.
The Single Subject Waiver Program in French consists of Fren 101, 102, 109, 120T, 132, 150, 160T; and 9 units selected from Fren 110, 111, 112, 113.
The Single Subject Waiver Program in German consists of Germ 101 (twice), 103T, 137, 150; four courses selected from Germ $112,114,116,118 \mathrm{~A}, 118 \mathrm{~B}$; plus 6 additional upper-division units selected from Germ 150 (a second time), 160T, 190.

The Single Subject Waiver Program in Russian consists of Russ 101 (9 units), 102, 103T (9 units), 110, 118A, 118B. Total required: 30 units.
The Single Subject Waiver Program in Spanish consists of Span 113, 118 or 120, $122,123,125,137,140,170$; and 6 units selected from Span 115, 116, 139, 142, 143, 145, 147, 150.

## Graduate Program

The Master of Arts degree is granted in Spanish. Students interested in graduate study in French and German see the options under the Master of Arts degree in Linguistics. The Master of Arts degree program in Spanish language and literature is designed to intensify and extend the knowledge of students desiring further study beyond the baccalaureate degree, students desiring their first graduate degree in anticipation of advanced graduate study, and teachers in secondary schools and colleges. For specific requirements consult the departmental graduate committee chair; for general requirements, see Division of Graduate Studies and Research.

## Master of Arts in Spanish

The Master of Arts degree program in Spanish assumes preparation equivalent to a CSU, Fresno undergraduate major in Spanish. (See also Admission to Graduate Standing, Advancement to Candidacy, Program Requirements, and Criteria for Thesis and Project.)
Under the direction of a graduate adviser, each student prepares and submits a coherent program individually designed within the following framework:

Span 202 .3
Span 220T, 230T, 240T .......................9-27
Span 298 or 299 (see Program Options below) $\qquad$ 0 or 6
Elect from Span 139, 145, 147, 148T, 149, 150, 290 $\qquad$ 0-12
Approved electives in related fields ....0-3
Totall
30
Program Options: Plan $A$ (Thesis Program), Span 299 (6 units). Plan B (Project Program), Span 298 (6 units). Plan C, successful completion of a comprehensive examination.
Students who intend to go on to a Ph.D. program at another institution are strongly advised to study at least one other foreign language.

## COURSES

For Chinese, Hebrew, Hmong, Japanese, and Sanskrit course listings, see Linguistics Department.

## Armenian (Arm)

1A. Elementary Armenian (4)
Beginning course in conversational and written Armenian. Not open to students with one or more years of high school Armenian credit. General Education BREADTH, Division 7.
1B. Elementary Armenian (4)
Prerequisite: Arm 1A or permission of instructor. Second semester course in conversational and written Armenian. Not open to those with two or more years of high school Armenian credit. General Education BREADTH, Division 7.
2A. Intermediate Armenian (4)
Prerequisite: Arm 1A and 1B or permission of instructor. Review of grammar and emphasis on conversation and reading. General Education BREADTH, Division 7.
2B. Intermediate Armenian (4)
Prerequisite: Arm 2A or permission of instructor. Advanced conversation, composition, and reading. General Education BREADTH, Division 7.
111. Composition and Conversation (3) Prerequisite: Arm 2B. Idioms, written translations in Armenian, compositions on assigned topics, oral exercises. Emphasis on grammar and syntax.

## 112. Advanced Composition

and Conversation (3)
Prerequisite: Arm 111. Style in composition; written and oral reports on assigned topics.
148. Masterpieces of

## Armenian Literature (3)

Literary masterpieces of Armenian Literature read and studied in English translation. May include works by Naregatsi, Toumanian, Charentz, Zarian, Siamanto, Varoujean, and other important literary figures. General Education BREADTH, Division 6. (Former Arm S 50T section)

## 190. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\mathbb{S P}$ grading.

## Foreign Language ( $\mathcal{F} \mathbf{L}$ )

## 10. Critical Thinking:

A Literary Approach (3)
Introduction to critical thinking concepts (structuring an argument, avoiding com-
mon fallacies, distinguishing fact from belief, etc.) as manifested in European literature since the Renaissance. Also application of tools of critical analysis to talking and writing about literature. Taught in English. General Education CORE, Critical Thinking.

## 131. Trends in Foreign

Language Teaching (3)
Current trends and issues in foreign language teaching. Evaluation of recent teaching materials. May include oncampus practice in teaching beginning languages.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## French (Fren)

1A. Elementary French (4)
Beginning course in conversational and written French. Not open to students with one year or more of high school French credit. General Education BREADTH, Division 7.

## 1B. Elementary French (4)

Prerequisite: Fren 1A or permission of instructor. Second semester course in conversational and written French. Not open to those with two years or more of high school French credit. General Education BREADTH, Division 7.
2A. French for Communication (3)
Intended for those with two years of high school French. Second year course that emphasizes speaking, reading, and writing skills. General Education BREADTH, Division 7. (Former Fren 2)
2B. French for Communication (3)
Intended for those with three years of high school French. Second year course that emphasizes speaking and reading skills. General Education BREADTH, Division 7. (Former Fren 3)
4. Reading and Writing (3)

Prerequisite: Fren 1B, 2A, or 2B. Opportunity to increase reading and writing skills in preparation for upper-division coursework in French.
5. Conversation (3; max total 6)

Prerequisite: Fren 1B. May be taken concurrently with Fren 2A, 2B, or 4 . Development of listening and speaking skills. Exclusive use of French in an informal class atmosphere. Conversations on assigned topics, extemporaneous discussions.

## AREA I. Language and Culture

101. Advanced Composition (3)

Prerequisite: two semesters of Intermediate French. Written assignments in French on varied topics with emphasis on composition. Written exercises in French on specific points of grammar. (Fall semester)
102. Translation (3)

Prerequisite: Fren 101. Problems and techniques of translation from English into French and French into English. Materials to be translated taken from the fields of science, literature, economics, and politics. (Spring semester)
120T. Topics in French Civilization (3; max total 6 if no topic repeated)
Prerequisite: Fren 101 or permission of instructor. Possible topics: French contributions to Western Civilization (art, music, architecture, history, science). Special emphasis on contemporary France. The history of Anglo-French and Franco-American relations. Linguistic, cultural, intellectual, political, commercial, and diplomatic similarities and differences explored. Taught in French.

## 132. French Phonology

and Structural Analysis (3)
Prerequisite: Fren 101 or 102. As a progression toward mastery, an investigation of the French language as a functioning code of verbal communication. Relationships of oral/written aspects and contrasts with American English. Intensive drill on individual pronunciation problems.
150. Advanced Conversation (3)

Prerequisite: two semesters of Intermediate French. Intensive practice in oral expression in French. Emphasis on current affairs in France.

## AREA II. Literature

109. Introduction to

French Literature (3)
Prerequisite: Fren 4 or permission of instructor. Intellectual background of major literary movements and representative authors from the earliest period to the present. Selected readings. Taught in Frehch. General Education BREADTH, Division 6. (Fall semester)
110. French Theater (3)

Prerequisite: Fren 109. Drama in France from the Renaissance to the present, with emphasis on the 17th and 20th centuries. Reading and discussion of representative works.
111. The French Novel (3)

Prerequisite: Fren 109. The novel as a reflec-
tion of French society. Analysis of major works from various periods.
112. French Prose:

Essay and Short Story (3)
Prerequisite: Fren 109. Analysis of prose works by such authors as Montaigne, Voltaire, Maupassant, Camus, Sartre.
113. French Poetry (3)

Prerequisite: Fren 109. Introductory course in poetry as a genre; principles of French versification. Students will be exposed to major contributions of the French in poetry. Thematic and/or chronological presentations (movements, "isms").

## 148. Masterpieces of

French Literature (3)
Literary masterpieces of French literature read and studied in English translation. May include works by Moliere, Voltaire, Balzac, Hugo, Camus, and other important literary figures. General Education BREADTH, Division 6. (Former Fren 147)
149. Voices of Africa (3)

Study of representative works by such writers as Achebe, Senghor, and Mphahlele which reveal the attitudes of modern Africans towards their land, their traditions, and their encounter with the 20th century world. Course taught in English. General Education CAPSTONE Cluster, Critical Thinking.
160T. Selected Topics in French Studies (1-3; max total 6 if no topic repeated) Prerequisite: Fren 101 or permission of instructor. Topics chosen from French literature (genre, themes, movements), from French linguistics (History of the Language; Contrastive Analysis: English/French), or French Culture and Civilization.

## 190. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## GRADUATE COURSES

(See Course Numbering System.)

## French (Fren)

220T. Seminar in French Literature (3; max total 9 if no topic repeated)
Prerequisite: 24 upper-division units in French.
250. Directed Reading (3; max total 6) Prerequisite: 24 upper-division units in French. Approved for SP grading.
290. Independent Study (3; max total 6) See Academic Placement - Independent Study. Approved for $\$ P$ grading.

## 299. Thesis (2-6; max total 6)

Prerequisite:SeeCriteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for $\boldsymbol{S P}$ grading.

## COURSES

## German (Germ)

1A. Elementary German (4)
Beginning course in conversational and written German. Not open to students with one year or more of high school German credit. General Education BREADTH, Division 7.
1B. Elementary German (4)
Prerequisite: Germ 1A or permission of instructor. Second semester course in conversational and written German. Not open to those with two years or more of high school German credit. General Education BREADTH, Division 7.
2A. Intermediate German (3) Prerequisite: Germ 1B or permission of instructor. Third semester course emphasizing reading, conversation, writing, and the linguistic mastering of varied situations. General review of grammar and syntax. General Education BREADTH, Division 7.

## 2B. Intermediate German (3)

Prerequisite: Germ 2A or permission of instructor. Fourth semester course emphasizing reading, conversation, writing, and general linguistic competence. General review of grammar and syntax. May be taken concurrently with Germ 50 or 150 . General Education BREADTH, Division 7.

## 8T. Selected Topics in

German (1; max total 2)
Prerequisite: Germ 1A or permission of instructor. Language experience outside classroom stressed in oral topics. Problem vocabulary and grammar topics. CR/NC grading only.
50. Conversation (3; max total 6)

Prerequisite: Germ 2B (may be taken concurrently) or permission of instructor. Conversation on prepared topics, brief talks by students, short scenes from plays, sharpening of listening skills and oral expression. Preparation for "survival" in German speaking countries. (Spring semester)

## AREA I: Language and Culture

101. Composition (3; max total 6)

Prerequisite: Germ 2B or permission of instructor. Development of written expression through intensive practice, vocabulary building, grammar and syntax review, co-
operative work on improving composition, analysis of varying styles. To be taken twice for the major. (Fall semester)
103T. German Culture and Civilization (3; max total 6 if no topic repeated) Studies in principal aspects of German (also Austrian and Swiss) history, thought, customs, institutions, film, arts, music, folklore, contemporary life; influence on Western civilization. Taught in English.

## 137. History of German

and Applied Linguistics (3)
Prerequisite: Germ 2B or permission of instructor. Historical outline of the development of the German language. Introduction to the linguistics of present day German, its phonology, morphology, syntax, and lexis. Contrasts and comparisons with English. Lecture, discussion, student reports.

## 150. Advanced

Conversation (3; max total 6)
Prerequisite or corequisite: Germ 2B or permission of instructor. Intensive practice in advanced oral German to cultivate ease within a number of speech situations. Emphasis on current affairs in Germany, Austria, and Switzerland. (Spring semester)

## AREA II: Literature

112. German Literature to 1750 (3)

Prerequisite: Germ 2B or permission of instructor. In-depth studies of German literature prior to 1750: Medieval, Renaissance, Reformation, Baroque, Enlightenment; including such authors as Wolfram, Walther von der Vogelweide, Luther, Grimmelshausen. Critical analysis of texts, lecture, discussion, student reports.

## 114. German Literature

through the Classical Age (3)
Prerequisite: Germ 2B or permission of instructor. From the beginnings to Goethe's death in 1832, concentrating on the Classical Age (Lessing, Schiller, Goethe). Critical analysis of texts, lecture, discussion, student reports.
116. Nineteenth Century Literature (3) Prerequisite: Germ 2B or permission of instructor. Investigates major 19th century authors such as Brentano, Tieck, Hoffmann, Büchner, Stifter, Keller, Raabe, Fontane. Critical analysis of texts, lecture, discussion, student reports.
118A. Modern Literature: 1890-1945 (3) Prerequisite: Germ 2B or permission of instructor. Investigates Classical Modernity (1890-World War II), including such authors as Kafka, Rilke, Mann, Brecht, Musil.

Critical analysis of texts, lecture, discussion, student reports.
118B. Contemporary
Literature: 1945-present (3)
Prerequisite: Germ 2B or permission of instructor. Investigates the Postmodern Age (World War II to the present), including such author as Grass, Böll, Frisch, Handke, Bernhard, Wolf. Critical analysis of texts, lecture, discussion, student reports.
148. Masterpieces of Germanic Literature (3)
Masterpieces of German, Austrian, Swiss, and Scandinavian literature read and studied in English translation. May include works by Goethe, Kafka, Mann, Brecht, Strindberg and other important literary figures. General Education BREADTH, Division 6. (Former Germ 146T section)

## 160T. Topics in German Studies

(1-3; max total 12 if no topic repeated)
Prerequisite: Germ 2B or permission of instructor. Intensive analysis, discussion, and evaluation of significant facets of German life through the study of specific movements, literary problems, themes, films, cultural artifacts, music, institutions, epochs, folklore, and regions.

## 190. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## GRADUATE COURSES

(See Course Numbering System.)

## German (Germ)

## 220T. Seminar in Literature

(3; max total 12 if no topic repeated)
Prerequisite: completion of an undergraduate major in German. Study of an aspect of literary history: genre, period, movement, or individual author.
240T. Seminar in Germanic Languages (3; max total 12 if no topic repeated) Study of older Germanic languages and special linguistic problems.
290. Independent Study (1-3)

See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading.

## COURSES

Greek (Grk)
1A. Elementary Greek (3)
An introduction to the fundamentals of Classical and New Testament Greek, with practice in reading and writing the Greek language. Background study: Greek culture
and its relevancy to the modern world. General Education BREADTH, Division 7.

1B. Elementary Greek (3)
Prerequisite: Grk 1A or permission of instructor.Second semester course in Classical and New Testament Greek; completion of the fundamentals of Greek grammar, emphasis on translation practice and composition skills. General Education BREADTH, Division 7.
3A. Introduction to Modern Greek (3) Beginning course in conversational and written modern Greek. Not open to students with one year or more of high school Modern Greek credit. General Education BREADTH, Division 7.
3B. Introduction to Modern Greek (3) Prerequisite: Grk 3A or permission of instructor. Second semester course in conversational and written Modern Greek. Not open to those with two years or more of high school Modern Greek credit. General Education BREADTH, Division 7.

## 10. The Rise of

Rationalism: 5th C. Athens (3)
The origins of argumentation, logic, rhetoric, inductive thinking, and the role of literature in 5th C. Athens, as reflected in selections from Plato, Thucydides, Euripides, and the orators. Discussions and lectures. Conducted in English. General Education CORE, Critical Thinking.

## 131T. Greek Literature

(3; max total 12 if no topic repeated)
Prerequisite: Grk 1B. Concentration on a major Classical Greek poet or prose author. Translation and discussion. Research reports onliterary, historical, and textual problems.

## 148. Masterpieces of

Classical Greek Literature (3)
Analysis of selected works of major Greek poets, writers, and thinkers from Homer to Lucian. Lectures, discussions, reports on readings. Conducted in English. General Education BREADTH, Division 6.
190. Independent Study (1-3)

See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading.

## Italian (Ital)

1A. Elementary Italian (4)
Beginning course in conversational and written Italian. Not open to students with one year or more of high school Italian credit. General Education BREADTH, Division 7.

## 1B. Elementary Italian (4)

Prerequisite: Ital 1A or permission of instructor. Second semester course in conversational and written Italian. Not open to those with two years or more of high school Italian credit. General Education BREADTH, Division 7.
2A. Intermediate Italian (3)
Prerequisite: Ital 1B or permission of instructor. Review of grammar and syntax; composition; oral practice, reading of short stories and plays. General Education BREADTH, Division 7.
2B. Intermediate Italian (3)
Prerequisite: Ital 2 A or permission of instructor. Oral and written composition; reading of short stories, novels, biographies. General Education BREADTH, Division 7.

## 5. Conversation (3; max total 6)

Prerequisite: Ital 1B. May be taken concurrently with Italian 2A or 2B. Development of listening skills and oral fluency through discussion, vocabulary exercises, and conversations on assigned topics.

## 148. Masterpieces of

Italian Literature (3)
Literary masterpieces of Italian literature read and studied in English translation. May include works by Dante, Boccaccio, Petrarch, Boiardo, Tasso, Ariosto, Manzoni, and other important literary figures.
160T. Selected Topics in Italian Studies (3; max total 9 if no topic repeated)
Topics chosen from Italian literature (genre, themes, movements, particular authors), from Italian culture or civilization, or from Italian cinema.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## Latin (Latin)

1A. Elementary Latin (3)
An introduction to the fundamentals of the Latin language, grammar, and its practical relation to Romance languages and English. Background study: Roman culture and its relevance to the modern world. General Education BREADTH, Division 7.
1B. Elementary Latin (3)
Prerequisite: Latin 1A or permission of instructor. Second semester course in Latin; completion of the fundamentals of Latin grammar, emphasis on translation practice and composition skills. General Education BREADTH, Division 7.

## 31. Latin and Greek

for English Vocabulary (3)
Examination and analysis of the Latin and Greek roots which form over 60 percent of our English vocabulary. Development of skills which will enable students to dissect unfamiliar words and better understand familiar ones.

## 131T. Latin Literature

(3; max total 12 if no topic repeated)
Prerequisite: Latin 1B. Concentration on a major Latin poet or prose author. Translation and discussion. Research reports on literary, historical, and textual problems.
132. Classical Mythology (3)

Greco-Roman myths, emphasis on their impact on the fine arts and literatures of the Western World. Illustrated lectures. Taught in English. General Education CAPSTONE Cluster, Critical Thinking.
148. Masterpieces of Latin Literature (3) Analysis of selected works of major Roman authors from Plautus to St. Augustine. Lectures, discussions, readings. Conducted in English. General Education CAPSTONE Cluster, Critical Thinking.

## 190. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## Portuguese (Port)

1A. Elementary Portuguese (4)
Beginning course in conversational and written Portuguese. Not open to students with one year or more of high school Portuguese credit. General Education BREADTH, Division 7.

## 1B. Elementary Portuguese (4)

Prerequisite: Port 1A or permission of instructor. Second semester course in conversational and written Portuguese. Not open to those with two years or more of high school Portuguese credit. General Education BREADTH, Division 7.

## Russian (Russ)

1A. Elementary Russian (4)
Beginning course in conversational and written Russian. Not open to students with one year or more of high school Russian credit. General Education BREADTH, Division 7.
1B. Elementary Russian (4)
Prerequisite: Russ 1A or permission of instructor. Second semester course in conversational and written Russian. Not open to those with two years or more of
high school Russian credit. General Education BREADTH, Division 7.

## 2A. Intermediate Russian (4)

Prerequisite: Russ 1B as determined by examination. Review of grammar and syntax; composition; oral practice; reading of short stories. Conducted in Russian. General Education BREADTH, Division 7.
2B. Intermediate Russian (4)
Prerequisite: Russ 2A as determined by examination. Oral and written composition. Conducted in Russian. General Education BREADTH, Division 7.
101. Composition, Translation, and

Applied Linguistics (3; max total 9)
Prerequisite: Russ 2B. Prose composition and practice of the finer points in grammar and syntax; problems and techniques of translation from English to Russian and Russian to English; relationships of oral/ written aspects and contrasts with American English for teaching strategies.
102. Advanced Conversation (3)

Prerequisite: Russ 2B. Oral conversational practice on assigned topics relevant to Russian life and culture. To include brief talks, discussions, and presentations.
103T. Topics in Russian Culture
(3; max total 9 if no topic repeated)
(A) Russian folklore and folk arts. (B) Russian fine arts. (C) The evolution of Russian culture from 1917 to the present.
110. Landmarks in Russian Literature (3) Chronicles, Byliny, Tales, Kievan Literature, Moscovite Literature, the Petrine Epoch, the Epoch of Catherine II and the rise of the 19th century literary giants.

## 118A. Twentieth Century Literature (3)

 Prerequisite: Russ 2B. Study and analysis of Russian literature until 1917 including works by authors such as Annenski, Merezhkovsky, Bryusov, and Block. Outside readings.118B. Twentieth Century Literature (3) Prerequisite: Russ 118A. Study and analysis of Soviet Russian literature from the Revolution through Socialist Realism including works by authors such as Bely, Gumilev, Akhmatova, Kuzmin, Evgeny, Zamyatin, and Zochenko. Outside readings.

## 127T. Soviet Russian Topics

(3; max total 9 if no topic repeated)
Sections designated as emphasizing landmarks in Russian literature. Russian underground, protest, and emigre works. Lectures illustrated with films and other audio-visual media. Taught in English.

## 148. Masterpieces of

Russian Literature (3)
Literary masterpieces of Russian literature read and studied in English translation. May include works by Pushkin, Tolstoy, Dostoyevski, Solzhenitzyn, Pasternak, Sholokhov, and other important literary figures. General Education BREADTH, Division 6. (Former Russ 148A-B)

## 190. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## Spanish (Span)

1A. Elementary Spanish (4)
Beginning course in conversational and written Spanish. Not open to students with one year or more of high school Spanish credit. General Education BREADTH, Division 7.
1B. Elementary Spanish (4) Prerequisite: Span 1A or permission of instructor. Second semester course in conversational and written Spanish. Not open to those with two years or more of high school Spanish credit. General Education BREADTH, Division 7.
2A. Spanish for Communication (3)
Intended for those with two years of high school Spanish. Second year course that emphasizes speaking and reading skills. General Education BREADTH, Division 7.

## 2B. Spanish for Communication (3)

Intended for those with three years of high school Spanish. Second year course that emphasizes speaking, reading, and writing skills. General Education BREADTH, Division 7.

## 3. Reading and Writing (3)

Prerequisite: Span 1B, 2A or 2B. Opportunity to increase reading and writing skills in preparation for upper-division coursework in Spanish.
4A. Spanish for the Bilingual Student (3) For the native speaker of Spanish who has intensive life experience using the Spanish language. Grammar is stressed, but speaking, reading, and writing skills are also further developed. General Education BREADTH, Division 7.
4B. Spanish for the Bilingual Student (3) Prerequisite: Span 3 or permission of instructor. For students from a bilingual background who have previous formal study of Spanish. Emphasis on productive writing skills, advanced reading comprehension and grammar. General Education BREADTH, Division 7.

## 5. Spanish for Conversation (3)

Prerequisite: Span 1B. Emphasis on spoken Spanish; development of oral fluency through class discussion, conversation games, and vocabulary exercises.

## 8T. Fundamental Skills in Spanish

(1-2; max total 4 if no topic repeated)
Instruction in fundamental problems in writing and word usage, such as accentuation, spelling, and vocabulary. Intended primarily for students who need more work in specific areas of writing and speaking. CR/NC grading only.
10. Spanish in Context (3 or 6)

Prerequisite: two years of high school Spanish, Span 1B or permission of instructor. Intended for those who are enrolled in our summer study abroad program. Emphasizes speaking, reading, and cultural interaction with members of the community. (Summer only)

## AREA I. Bilingual Studies

104. Spanish in Bilingual Schools (3)

Prerequisite: Span 118 or 120, and 122. Emphasis on Spanish language development for bilingual teachers at the elementary level. Presentation of specialized vocabulary in teaching elementary courses. Development and evaluation of bilingual teaching materials in Spanish.
106T. Children's
Literature in Spanish (3)
Prerequisite: Span 2A, 2B or 4A, 4B. Examination of children's stories, poems, rhymes, and songs written, composed, or available in Spanish. Practice in the techniques of story-telling. Dramatizations of children's stories in Spanish. Presentation of puppet plays.

## AREA II. Language and Translation

110T. Practical Spanish for Professions (3; max total 12 if no topic repeated)
Applicable for minor. Preparation of professionals and paraprofessionals in California Spanish to work with the Spanish speaking in the following fields: health, education, social work, business, law, agriculture, and psychology.
112. Reader's Theater in Spanish (3) Prerequisite: Span 3 or 4 B . Dramatic readings of prose and poetry selections performed by students in front of the class. Discussion focuses on a critical reading of the text and preparation of the performance. Public presentations and recordings optional.
113. Patterns of Spanish (3)

Prerequisite: Span 3 or 4 B . Recommended
as the first upper-division course. Verb synonyms. Quantitative and qualitative usage of verbs. Acquisition of the following skills: narration, description, argumentation, and expression of feelings through syntactical variations and substitution of verbs. Attention is focused on the formation of a sentence, not on the composition of a paragraph.
115. Basic Principles of Translation (3) Prerequisite:Span3or 4B. Specific problems of Spanish to English and English toSpanish translation, with emphasis on idiomatic expressions. Some attention to specialized vocabulary. Use of bilingual dictionaries.
118. Spanish Compo-
sition for Bilinguals (3)
Prerequisite: Span 3 or 4 B. Not open to students with credit in Span 120. Refinement of writing skills through vocabulary development, spelling exercises, and composition. Special emphasis on problems created by differences between the spoken and written language.
120. Composition and Reading (3)

Prerequisite: Span 3 or $4 B$. Not open to students with credit in Span 118. Development and refinement of writing skills. Intensive practice in expository and imaginative composition. Analysis of original compositions with attention to common problems of accentuation, spelling, and grammar.
122. Advanced Grammar (3)

Prerequisite: Span 3 or 4B. Special emphasis on grammar review and development of writing skills. Analysis of grammatical constructions.
123. Advanced Conversation and Reading (3)
Prerequisite: Span 3 or 4B. Reading and discussion of current periodicals, newspapers, and magazines that reflect the cultural patterns of the Spanish-speaking countries.
124. Oral and Written Expression (3)

Prerequisite: Span $2 \mathrm{~B}, 3,4 \mathrm{~B}$, or 10 . Systematic analysis of students' ability to express themselves, both orally and in writing. Development of vocabulary, pronunciation, and grammatical structures. (Summer only)

## AREA III. Hispanic Culture

125. Hispanic Culture (3)

Prerequisite: Span 3 or 4B. Examination of the cultural patterns of Spain and Spanish America through readings, lectures, films, and other media. Frequent written and oral reports by students.

## 129. Mexican Culture (3)

Prerequisite: Span 2B, 3, 4B, or 10 . Examination of Mexican cultural patterns. May include use of data-gathering questionnaires, reading, and oral interview. (Summer only)

## AREA IV. Spanish Linguistics

137. Applied Spanish Linguistics (3)

Prerequisite: Span 3 or 4B. Analysis of Spanish with emphasis on areas of phonetics, pronunciation, and grammar which cause the greatest problems in learning and teaching the language. Readings and practice in the development of instructional strategies and materials.
139. Spanish of the Southwest (3) Prerequisite: Span 3 or 4B. Research on dialect differences in California and the Southwest, including the linguistic, social, and cultural determinants. Emphasis on the Spanish of the San Joaquin Valley.

## AREA V. Hispanic Literature

140. Hispanic Fiction and Poetry (3)

Prerequisite: Span 3 or 4 B . Readings and appreciation of Hispanic literature to familiarize the student with fiction and poetry as art forms. General Education BREADTH, Division 6.

## 142. Introduction to

Spanish Literature (3)
Prerequisite: Span 3 or 4B. Selected readings from those literary works which have fundamentally affected the development of Spanish civilization, from ElCid to Lorca. Provides a historical framework for the study of Spanish literature. General Education BREADTH, Division 6.

## 143. Introduction to

Spanish-American Literature (3)
Prerequisite: Span 3 or 4B. Selected readings from those literary works which have fundamentally affected the development of Spanish American civilization, from Hernán Cortés to Octavio Paz. Provides a historical framework for the study of Spanish American literature.

## 145. Mexican Literature (3)

Prerequisite: Span 3 or 4 B. Study of the works of such major Mexican literary figures as Sor Juana, Gutiérrez Nájera, Azuela, and Fuentes.

## 146. Masterpieces

of Spanish Literature (3)
Major literary masterpieces of Spanish and Latin American literature read and studied in English translation. May include Cervantes, Lorca, Neruda, Fuentes, Borges, and
other important literary figures. General Education BREADTH, Division 6.
147. Twentieth Century Spanish-American Literature (3)
Prerequisite: Span 3 or 4B. Intensive study of selected Spanish-American works including writings of Azuela, Fuentes, Carpenter, Vargas Llosa; outstanding poets such as Neruda, Vallejo, and Paz.

## 148T. Major Figures

in Hispanic Literature (3;
max total 6 if no topic repeated)
Prerequisite: Span 3 or 4 B . Reading and analysis of the works of one major Hispanic author such as Cervantes, Unamuno, Neruda.
149. The Golden Age (3)

Prerequisite: Span 3 or 4B. A study of Spanish Renaissance Man and his environment. His sociopolitical, esthetic, and literary ideas are studied through readings in Garcilaso, San Juan de la Cruz, and other authors. (Former Span 149T)
150. Twentieth Century

Spanish Literature (3)
Prerequisite: Span 3 or 4B. A study of Spanish Existential Man. His sociopolitical, esthetic, and literary ideas are studied through readings in Unamuno, Ortega y Gassett, Lorca, José Hierro, and other authors. (Former Span 150T)

## 170. Senior Seminar

in Spanish Studies (3)
Prerequisite: 20 upper-division units of Spanish coursework or graduate standing. Designed to meet the individual needs of students about to graduate. Diagnostic testing in language, linguistic, cultural, and literary proficiency. Readings, research projects, and assignments.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## GRADUATE COURSES

(See Course Numbering System.)

## Spanish (Span)

202. Literary Criticism (3)

Discussion and application of methods and techniques in research. Analysis and application of the methods of literary criticism with consideration given to critical approaches in Spain and Spanish America.

## 220T. Hispanic Linguistics

(3; max total 9 if no topic repeated)
In-depth analysis of the Spanish language through the study of the following areas:
diachronic linguistics, synchronic linguistics, and dialectology.
230T. Spanish Literature
(3; max total 9 if no topic repeated)
Seminar in critique and analytical study of selected topics, genres, or specific literary figures in each of the following areas: Medieval Period, Renaissance Period, Golden Age, 18th-19th century, and 20th century.
240T. Spanish-American Literature
(3; max total 9 if no topic repeated)
Seminar in critique and analytical study of selected topics, genres, or specific literary figures in each of the following areas: Colonial Period to 1810 , 19th century to 1910, 20th century.
290. Independent Study
(2-3; max see reference)
See Academic Placement - Independent Study. Approved for $S P$ grading.
298. Project (3-6; max total 6)

See Criteria for Thesis and Project. Writing and/or editing materials suitable for school programs from elementary through high school level, such as children's literature, original poetry, testing devices, and translations. Approved for $\boldsymbol{\Omega} \boldsymbol{P}$ grading.
299. Thesis (3-6; max total 6)

Prerequisite: See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the completion of the master's degree. Approved for $S P$ grading.

## IN-SERVICE COURSES

(See Course Numbering System.)

## Spanish (Span)

## 301. Conversation and

Composition Review (2; max
total 8 if no language repeated)
For elementary and secondary school teachers or those planning to travel abroad. Prerequisite: bachelor's degree or teaching credential; permission of instructor. Conversation and composition to improve audio-lingual and writing skills in the foreign language.
304. Theory and Practice (2; max total 8) Prerequisite: permission of instructor. Not open to students with credit in two or more years of college Spanish. Basic elements of the language; modern methods of foreign language instruction in the elementary school; repeatable in sequence - pronunciation, methods, phonetics, advanced methods.

Geography is an integrative discipline that bridges the natural and social sciences. Its distinctiveness is as much a product of its unique approach to the study of the earth and its human inhabitants as it is the subject matter itself. Thus, geography employs a spatial framework for organizational purposes analogous to the chronological framework employed in history.
Central to geographic inquiry is a concern with the human occupance of the earth, the character of the human environment, and the interrelationships that link humans and the physical world. In sum, geography seeks to provide a broad understanding of the world, its people, and its problems.
Not surprisingly, the subject matter of geography is diverse. Geographers examine and analyze patterns of rural and urban settlement, resource exploitation, land use, social and cultural phenomena. They are concerned with the natural features and processes of the earth's surface, the ways in which nature has conditioned the human occupance of the earth, and the ways in which people have modified natural landscapes.

The department's instructional programs are designed to address several objectives. First, for the larger number of our students, we provide a greater understanding of the world as an element of a liberal education. Second, we conduct programs for majors and minors in geography that assure a breadth of knowledge in subject matter and technique. Third, we serve those students in related disciplines who wish to strengthen programs of study through a selection of courses in geography.

## Faculty and Facilities

Instruction at introductory, advanced, and graduate levels is conducted by a faculty whose teaching and research interests are diverse. All major facets of the discipline are represented as are a number of specializations.
A variety of facilities is available for student use. Well-equipped laboratories are maintained for the conduct of research and instruction in physical geography and the technique fields - cartography, air photo interpretation and remote sensing, meteorological instrumentation, and quantitative analysis. The depart-

School of Social Sciences
Department of Geography
DON R. LEET, Acting Chair
Science Building, Room 182
(209) 278-2797
B.A. in Geography
M.A. in Geography

Minor in Geography
ment also operates a fully-equipped weather and pollution monitoring station.
Computers are available for mapping and a variety of other applications. The department is well-equipped for field work.

## Career Opportunities

Geographers are employed in government and the private sector. Their knowledge and skills have applications in a variety of fields including teaching, planning, cartography, locational analysis, intelligence and security, land and resource management, policy research, transportation, and industrial development.

Agencies of federal, state, and local governments are major employers of geographers. At the federal level many agencies employ geographers. At state and local levels most geographers are involved in planning, land and resource management, and community development. Because many businesses and industries have important geographical dimensions to their operations, there is demand for geographers in the private sector. Geographers are employed in banking, transportation, international trade, utilities, wholesaling and retailing, and a number of other fields. Finally, teaching is a major occupation for individuals with training in geography. The department welcomes inquiries about career opportunities.

## Bacthellor off Arts <br> Degiree Requirements <br> Geography Major

The Bachelor of Arts degree with a major in geography requires the completion of 124 units, at least 42 of which shall be in geography. The major is so designed that students can emphasize that area in geography in which their interest lies; or which conforms to their career objectives.

Units
Major requirrements 42
Lower-division courses:
Geog 5, 7, and two of the following: Geog 2, 3, 4 .
Upper-division breadth require-
ments (see Advising Notes) ....... (30)
Gemerall Education 51
Electives and remaining degree requirements. .31-37*
(See Degree Requirements); may
be used toward a dual major or minor
Totall. 124
*This figure takes into consideration the fact that the Department of Geography will allow a maximum of 6 units of General Education BREADTH courses to be applied to the geography major requirements (see General Education). The applicable courses include Geog $2,3,4,5$, and 7. Consult the department chair or faculty adviser for additional details.

## Advising Notes

1. Geography majors can select either a Professional or a General emphasis for their major.
For the Professional emphasis, select:
a. 9 units from Geographic Techniques
b. Either 9 units from Physical-Environmental Studies and 3 units from Human Systematic or 9 units from Human Systematic and 3 units from Physical-Environmental Studies
c. 3 units from the Regional Geography courses
d. 6 units of electives from the upperdivision Geography courses, including Geog 188T, 190, 192, 194W, and 195

For the General emphasis, select:
a. 3 units from Geographic Techniques
b. 12 units from one of the categories: Physical-Environmental, HumanSystematic, or Regional Geography
c. 6 units from each of the two remaining categories: Physical-Environmental, Human Systematic, and Regional Geography
d. 3 units of electives from the upperdivision Geography courses, including Geog 188T, 190, 192, 194W, and 195
2. All Geography majors should take Geog 194W. This course will satisfy the writing skills requirement for graduation.
3. No more than 3 units of Geog 195 may be applied to the geography major.
4. No course used to satisfy General Education CAPSTONE requirements may be used to satisfy geography major requirements.
5. CR/NC grading is not permitted in the geography major with the exception of Geog 192 and 195.
6. General Education and elective units may be applied to a second major or a minor (see Dual Major or departmental minor). Consult the appropriate department chair, program coordinator, or faculty adviser for further information.
7. It is strongly recommended that students interested in professional careers complete coursework in quantitative methods and computer concepts (e.g., Geog 102, 103; IS 50, 53, 54; ECE 70) and, if applicable, city and regional planning. Coursework in introductory geology is also recommended. Consideration should be given to the development of foreign language competency and/or the completion of a second major or a minor in a related discipline.
8. Students must regularly consult with their academic adviser. Such consultation will facilitate course selection and enable the student to develop a program consistent with individual interests and needs.
9. The selection of an emphasis will be strongly influenced by career goals, interests in graduate study, and related matters. Whether one's interest focuses onenvironmental protection, planning, cartography, locational analysis, or any one of a wide array of geographic competencies, the department can provide current applicable information. Inquiries are welcomed.

## Geography Minor Units <br> Elect from Geog 2, 3, 4, 5, or 7 .............. 9

Elect from upper-division geography* .. $\underline{12}$
Totall
21
*No more than 3 units earned in Geog 195 may be applied to the minor. Students completing a Minor in Geography are encouraged to seek faculty advice relative to course selection and program planning.

## Credential Program

See Social Science Major for the Single Subject Waiver Program in Social Science.

## Graduate Program

No new admissions will be accepted for Academic Year 1991-92.
The Department of Geography offers two programs leading to the Master of Arts degree in Geography: Plan A-Thesis Program and Plan $\boldsymbol{B}$ - Non-Thesis Program. $\operatorname{Plan} A$ is a research-oriented program and is intended to give extended preparation for a person going into research-oriented geographic professions and serves as a preparation for additional graduate work leading to the doctorate. Plan $\boldsymbol{B}$ is designed to give a person a broad background in advanced geographic topics as preparation for nonresearch-oriented geographic professions.

## Master of Arts

## Degree Requirements

The Master of Arts degree program in Geography assumes a B.A. degree in Geography or a closely allied field. It is recommended that cartography, field geography, and quantitative techniques (statistics) - Geog 100, 109, and 110-be taken as technique courses at the undergraduate level.
(See also Admission to Graduate Standing, Advancement to Candidacy, Program Requirements, and Criteria for Thesis and Project.)
For specific requirements consult the departmental graduate adviser; for general requirements see Division of Graduate Studies and Research.
Under the supervision of the departmental graduate adviser, each student submits an approved program within one of the following frameworks:

| Plam A: Thesis Program | Units |
| :---: | :---: |
| 200-series courses in geography | ... 18 |
| Outside the field .................... | ..3-6 |
| Electives in geography .......... | .6-9 |
| Totall | 30 |

Specific requirements: Geog 200; 206T; 270T; 203 T or $260 \mathrm{~T} ; 299$ (6 units).

Plom B: Nonn-Thesis Programm Units
200-series courses in geography ........... 18
Outside the field .................................3-6
Electives in geography .........................6-9
Totall ................................................... 30
Specific requirements: Geog 200; 206T; 270T; 203T or 260T. Terminal oral examinations.

## COURSES

Introductory Geography (Geog)

## 2. Introduction to

Cultural Geography (3)
General background to cultural geography, including origins of cultural landscapes, man's modification of the natural environment, and problems of population and settlement geography. General Education BREADTH, Division 8. (CAN GEOG 4)

## 3. Economic Geography (3)

Evolution and change in the location of major economic (agricultural, commercial, transportation, mineral, and industrial) activities. An examination of the diverse phenomena that influence the location of economic activities. General Education BREADTH, Division 8.

## 4. World Geography (3)

Cultural and physical features; economic development; resources; man-land relationships. The approach is by continents and/or cultural regions. General Education BREADTH, Division 8.

## 5. Physical Geography: Global

Concepts, Weather and Climate (3)
The earth as a planet, map projections, location on the earth's surface, time, oceans, weather, and climate. General Education BREADTH, Division 3.

## 7. Physical Geography:

The Earth's Surface (3)
A survey of those elements of the physical environment at the earth-atmosphere contact. Fundamentals of landform features, soils, natural vegetation, and water bodies. General Education BREADTH, Division 3.

## Techniques in <br> Geographic Study (Geog)

100. Cartography (3)

Introduction to the field. History of mapmaking, map projections, theory of map communication. Practical experience in compilation, generalization, symbolization, and design to produce original pen-andink drafted maps. Teaches the skill of presenting tabular data in map form. (Two 3-hour labs)
102. Computer Assisted Cartography (3) Prerequisite: Geog 100 or permission of instructor. Practical course in map making using computers. Fundamental concepts and introduction to various software packages for map design and production. Digitizing, file structure, thematic maps, 3-D. No computer experience required. (6 lab hours) (Former Geog 188T section)
103. Computers in Geography (3)

Introduction to computer applications in geography. Fundamental concepts of computers, word processing, programming, database, statistical analysis, computer mapping, remote sensing, and GIS applications. No computer and statistical experiences required. (Two 3-hour labs) (Former Geog 188T section)
104. Map Interpretation (3)

Prerequisite: Geol 1 or Geog 7. Interpretation of foreign and domestic maps; symbols, scale, method of showing topography, vegetation, culture, land use, soils, water levels; characteristics of projections. (Two 3-hour labs)

## 105. Aerial Photograph

 Interpretation (3)Prerequisite: Geol 1 or Geog 7. Aerial photographs as a means of determining culture, topography, and vegetation; scale, use of index, vertical and oblique photographs, and stereoscopes. (Two 3-hour labs)

## 106. Advanced Aerial

Photo Interpretation and
Remote Sensing of Environment (3)
Prerequisite: Geog 105. Interpretation of air-borne and orbital imagery; panchromatic, color, infrared, color infrared, radar, multispectral. (Two 3-hour labs)

## 107. Introduction to

Geographic Information Systems (3)
Prerequisite: Geog 103 or equivalent. Fundamental concepts of acquisition, structure, manipulation, and analysis of data in a GIS environment. Practice in the design, management, and implementation of GIS. (Two 3-hour labs) (Former Geog 188T section)
109. Technical Field Geography (3)

Gathering and analysis of rural land use data - crop distribution related to topography, climate, soils, water, markets; urban land use - delineation of central business district (CBD), foot and automobile traffic flows, housing quality, retail and wholesale trade territories, population concentrations and ethnic groupings. (4-8 field hours)
110. Basic Quantitative Techniques (4) Quantitative techniques applied to problems in geography. Small hand calculator required. A mini-computer will be used in some laboratory exercises. No prior knowledge of statistics is assumed. (3 lecture, 3 lab hours)

## Physical-Environmental Studies (Geog)

## 111. Meteorology (4)

Prerequisite: Geog 5 or equivalent. Study of the earth's atmosphere; energy exchanges and temperature; pressure and air circulation; fog, clouds, precipitation and the hydrologic cycle; cyclonic storms and orographic processes; stability and thunderstorms; weather modification and predictions with application to agriculture, aviation, and other activities. (3 lecture, 3 lab hours)
112. World Climates (3)

Prerequisite: Geog 5 or 111. Study of various systems of climate classification. Climates as they exist throughout the world and the reasons for their occurrence.
114. Microclimatology (3)
(Same as Plant 134.) Prerequisite: Geog 5 or equivalent. Micrometeorological influences on local climates including natural ecosystems and varying agricultural canopies. Local climate influences on wildlife, domestic animals, and humans. Manipulation of local climate including frost protection, irrigation and wind sheltering. Microclimates of non-uniform terrain and urban environment.
117. Plant Geography (3)

Study of earth's plant cover; world floras; dispersal and migration; environmental effects on distributions; plant communities; major vegetation regions.
118. Soils Geography (3)

Properties of soil, factors of soil genesis, soil types of the world and their distribution, man's use of the soil.
120. World Landform Regions (3)

A systematic analysis of types of world landform regions with emphasis on glaciated regions, arid lands, and volcanic lands.

## 121. United States

Landform Regions (3)
Prerequisite: Geog 120 or Geol 105. Natural regions of the United States based on study of types of landforms. Analysis of unity and diversity in such landform regions as the Colorado Plateau, Sierra Nevada Province, Basin and Range, et. al.
128. Environmental Pollution (3) A discussion of current environmental pollution problems involving the atmosphere, land, and water. The adverse effects of transportation, surface mining, sewage and waste disposal, noise, the use of pesticides, energy production and consumption, and related topics are examined. General Education CAPSTONE Cluster.

## 132. Geography of

Natural Resources (3)
Study of the spatial distributions and relationships of natural resources, including land, water, minerals, plants, and animals; form, inherent characteristics, and external relations with the regions in which they are found; use and misuse.

## 135. The Protection of Nature (3)

An examination of the plight of nature; the values of nature preserved; man's attempt to preserve nature. Attention focuses on the national park movement, wilderness, endangered species, the management of lands for the purpose of preservation, and related topics.

## Human Systematic Geography (Geog)

127. Man's Modification of the Natural Environment (3)
Ways in which man's activities have altered climate, landforms, soil and water conditions, and natural vegetation.
128. Geography of Energy (3)

The world's energy resources emphasizing fossil fuels. The energy crisis. Alternative sources of energy: solar, nuclear, hydroelectric, geothermal, wind, and tidal. General Education CAPSTONE Cluster, Critical Thinking.
146. Land Use (3)

Principles and trends relating to the causes and effects of existing land use patterns throughout the world. Topics include cli-
mate and soils, trade, transport, and manufacturing systems; national and local policies, and human abuse.
147. Population Geography (3)

Geographical analysis of the causes and consequences of global population growth, migrations, distributions, and relationships to natural resources.
150. Agricultural Geography (3)

Analysis of areal distribution of agricultural (crops and livestock) patterns of the world. Interactions with the environment, role in economies.
"I try to educate my students to appreciate the splendor of the High Sierra, as well as teach them to leave nothing behind but their footprints and take nothing away but pictures and memories."

Donald L. Morgan Professor, Geography
152. Transportation Geography (3)

Analysis of areal distribution of transport networks of the world (road, rail, water, and air) and the interaction of these networks with other phenomena.
160. Urban Geography (3)

The city environment. An understanding of the changing urban environments from ancient through medieval to modern times; the relationship of the urban center to its surrounding hinterland; the interdependence of its functional parts; its problems and future. General Education CAPSTONE Cluster.

## 161. Historical Geography

of the United States (3)
Regional settlement of the United States; peopling of physiographic regions, creation of economic (cultural) regions, and geographic factors related to broad trends in American history.

## 162. Political Geography (3)

Systematic treatment of the nature and structure of states, boundary problems, political policy for the oceans, international power, air space.
163. World Crises (3)

Current major political, economic, and environmental crises occurring on either a global or a regional level.
164. Minority Peoples (3)

Spatial analysis of minority groups in the world, in the United States, and in Central California. Historical and modern distribu-
tion of minority peoples, based on racial, ethnic, cultural, and economic characteristics.
165. Cultural Landscapes (3)

Spatial aspects of the development of cultural landscapes, particularly the evolution of agriculture and urbanization. Emphasis on the cultural landscapes of Central California.

## Regional Geography (Geog)

145T. Environmental Regions
(1-3; max total 9 if no area repeated) Systematic and regional investigation of the physical and cultural complexes of various environmental regions. Regions to be discussed include the Humid Tropics, Arid Lands, Polar Lands, Coastal Lands, Mountain Environments, Island Environments.

## 166T. Anglo-American Regions

(1-3; max total 9 if no area repeated) Examination of the physical, economic, and cultural geographic foundations of major Anglo-American regions. Regions to be discussed include Canada, the United States, the American West, the South, the Middle West, and the North East.
168. Geography of California (3)

Natural and cultural patterns of California; historical and regional geography of the state. General Education CAPSTONE Cluster, Critical Thinking.
170T. Latin American Regions
(1-3; max total 9 if no area repeated)
Geography of Latin America. Relationship of cultural and natural features; social and economic development; man-land relationships. Regions to be discussed include Mexico, Central America, Caribbean Islands, and South America.
172. Ancient Peru (3)

Thegeographyof Ancient Peru. Thephysical landscape and human modification of that landscape over time. Emphasis on the origin of agriculture and the rise of urbanism in the Andean Region. General Education CAPSTONE Cluster, Critical Thinking. (Former Geog 170T section)

## 174T. European Regions

(1-3; max total 9 if no area repeated)
Geographic regions of Europe emphasizing the relation of human activities to physical factors areal in their distribution and influence. Regions to be discussed include Mediterranean lands, Western Europe, Eastern Europe, Central Europe, Northern Europe, the British isles.
176. Geography of the USSR (3)

Comprehensive study of the economic, cultural, physical, and political geographic foundations of the Soviet state, followed by intensive study of selected regions within the country. General Education CAPSTONE Cluster.

## 177T. Asian Regions

(1-3; max total 9 if no area repeated)
Geographic regions of Asia emphasizing physical and cultural features. Regions to be discussed include Southeast Asia, South Asia, China, and the Far East.
179. Geography of the Middlle East (3) Comprehensive study of the physical features of the Middle East and the cultural traits of its people. The area under consideration extends from the Turkish Straits to the Pamir Knot, and from the Caucasus to the Sudan.
180. Biblical Lands (3)

The focus of this course is the area that spawned three of the world's great religions - Christianity, Judaism, and Islam. A geographical approach is employed in describing and analyzing this cultural hearth. General Education CAPSTONE Cluster.

## 181T. African Regions

(1-3; max total 9 if no region repeated) Study of major African regions relating to basic physical, cultural, economic, and political geographic conditions and problems. Regions to be discussed include Developing Black Africa, North Africa, West Africa, East Africa, Central Africa, and Southern Africa.

## 182. Subsaharan Africa (3)

Comprehensive study of the economic, cultural, physical, and political geographic foundations of Subsaharan Africa. General Education CAPSTONE Cluster.
183T. Australia, New Zealand,
and Pacific Islands (3)
Geographic relationships of natural and cultural features to social and economic development. (Former Geog 183)

## Geographic Topics,

## Research and Field Trips (Geog)

188T. Topics in Geography
(1-3; max total 9)
Selected topics in cultural, physical, and economic geography.
190. Independent Study
(1-3; max total 6)
See Academic Placement - Independent Study. Approved for SP grading.

## 192. Directed Readings

(1-3; max total 6)
Prerequisite: permission of instructor. Supervised readings in a selected field of geography. Combined units of Geog 190 and 192 may not exceed 6 units. CR/NC grading only.

## 194W. History and Theory

of Human Geography (3)
Prerequisite: Engl 1. A survey of the development of human geography, with emphasis on 20th century geographic thought. Discussion of the major themes and approaches that have been dominant in this field at various times. Satisfies the upper-division writing requirement for graduation.
195. Field Geography (1-6; max total 6) Prerequisite: permission of instructor. Weekend, semester break, or summer field trips. $C R / N C$ grading only.

## GRADUATE COURSES

(See Course Numbering System.)

## Geography (Geog)

200. Methods in Geographic Research and Writing (3)
Prerequisite: permission of instructor. Bibliographic technique with emphasis on statistical, map, aerial photograph sources; research writing; preparation of manuscripts including illustrative material.
203T. Seminar in Economic Geography (3; max total 6 if no topic repeated)
Prerequisite: permission of instructor. Theory, concepts, and methods in economic geography. Each offering will be chosen from the fields of transportation, industrial, agricultural, or resource geog. raphy.

206T. Seminar in Physical
Geography (3; max total 9)
Prerequisite: permission of instructor.
Principles, concepts, and theories in the systematic study of physical geography and its methodology. Each offering chosen from the fields of geomorphology, climatology, biogeography, water, or soils.

## 230. Seminar in Contemporary

Geographic Thought (3)
Prerequisite: permission of instructor. Current theories of geography and their evolution.
260T. Seminar in Human
Geography (3; max total 9)
Prerequisite: permission of instructor. Principles, concepts, and theories in the systematic study of a field of human geography and its methodology: political, cultural, urban, historical, or population and settlement geography.

## 270T. Seminar in Selected Regions

(3; max total 12 if no region is repeated)
Prerequisite: undergraduate course dealing with the region under study. Study of geographic conditions in relation to economic, social, and political problems in a selected region of the world.

## 290. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading.

## 292. Directed Readings in

Geography (1-3; max total 6)
Prerequisite: graduatestanding. Supervised reading in a selected geographic topic. $C R /$ NC grading only.

## 299. Thesis

(2-6; max total 6)
Prerequisite:See CriteriaforThesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for $\$ P$ grading.

## Geology

School of Natural Sciences
Department of Geology
Robert D. Merrill, Chair
McLane Hall, Room 284
(209) 278-3086
B.S. in Geology M.S. in Geology Option: Applied Geology Minor in Geology

Why geology? What is it? Continents adrift and colliding Energy resources and waste disposal Fossils and evolution Volcanoes and earthquakes Mountain building and erosion 4.6 billion years of earth history

1he Department of Geology at California State University, Fresno offers courses leading to Bachelor of Science and Master of Science degrees, as well as a Minor in Geology.
Coursework and research emphasize field and laboratory investigations of a wide variety of geologic problems. Our field orientation takes advantage of the university's close proximity to the Sierra Nevada, the California Coast Ranges, coastal California, and the Basin and Range province. This unique location gives faculty and students access to an unparalleled geologic laboratory all within one to five hours driving time from the university.

The Bachelor of Science degree is designed for students who wish to study geology in preparation for employment in petroleum geology, mineral exploration, land-use planning, hydrology, and engineering geology, or for students who want to teach earth science or physical science at the secondary level. The Master of Science program is designed to provide a graduate degree for students who want to work in industry or government on the professional level, for students who want to teach earth science in junior college, or for students who wish to pursue further graduate study.

Six of the California State University and Colleges, including CSU, Fresno, cooperate in the management of the Moss Landing Marine Laboratories on Monterey Bay, an establishment which offers regular course work and opportunities for research which are applicable to graduate and undergraduate programs,

including courses in geological oceanography. Consult the chairs of the Geology and Biology departments. See Moss Landing Marine Laboratories, Biology Department.

## Facilities and Support

The Department of Geology is situated in a wing of McLane Hall. Department equipment includes:

- X-ray fluorescence spectrometer
- X-ray diffractometer
- Polarizing microscopes for transmitted and reflected light petrography
- Point-counting and universal stages
${ }^{\bullet}$ Cathode luminoscope for microscopic study of textures
${ }^{\bullet}$ Heating-freezing stage for microscopic study of fluid inclusions
- Rock preparation laboratory, which includes crushing and mineral separation facilities, as well as diamond saws and lapping machines for preparation of thin and polished sections
- Microcomputers and peripherals
- Field and laboratory equipment for water chemistry studies
-Teaching and reference collection of rocks, fossils, minerals, and maps
- Two four-wheel drive vehicles and three other field vehicles

Equipment available elsewhere on campus includes:
${ }^{\circ}$ CYBER, VAX, AND PRIME computers and microcomputer laboratories
-Atomic absorption-flame emission spectrometers

- Ion and gas chromatographs
- Electron microscopes
- Mass and magnetic resonance spectrometers

## Faculty

Robert D. Merrill, Chair
Undergraduate Advisers: All full-time faculty Graduate Adviser: Robert D. Merrill
Jon C. Avent
Arthur H. Barabas
Bruce A. Blackerby
Frederika J. M. Harmsen
Seymour Mack
Roland H. Brady
C. John Suen

Eugene G. Cserna

## Undergraduate Program

Geology Major. The bachelor's degree with a major in geology consists of a total of 130 units including 4-6 units of geology. For general degree requirements see Degree Requirements. A student planning graduate study is advised to meet the foreign language requirements of the institution he plans to attend.

High School Preparation. Adequate high school preparation for a major in geology will facilitate the progress of the student through our program. This preparation should include: algebra (2 years), plane and solid geometry, trigonometry, chemistry, and physics or biology. Also recommended is English (4 years).

| Geology Major | Units |
| :--- | ---: |
| Major requirrements .................45-46 |  |

Lower-division requirements
Geol 1 or 15,12 and 13 concurrently, 30 $\qquad$
Upper-division requirements Geol 100, 101, 102, 104, 106, $107,108 \mathrm{~A}, 108 \mathrm{~B}$; two of the following: Geol 105, 110, 122
Upper-division geology electives (See Note 2)
Addilitionall requirrements ......... 29-32 Chem 1A, 1B; Math 75, 76, or $71,72,76$; Math 77 or 101 or C Sci 20 or 40; Phys 2A, 2B
Generall Education. .45*
Electives andl remaiming degree requirements. 7-11 (see Degree Requirements); may be used toward a minor

## Total

* Of the 51 required General Education units, 6 are satisfied by Chem 1A, 1B (Division 1) and Math 75 (CORE) if intermediate algebra was completed in high school (see General Education). Consult the Geology Department or your faculty adviser for details.

## Advising Notes

1. "Additional requirements" courses may be applied to satisfy requirements of General Education, or a minor, as appropriate. They also may be taken CR/ NC (see Credit/No Credit Grading).
2. No more than 1 unit of Geol 160 may be used to fulfill the upper-division elective requirement. Geol 151 and 168 are not applicable toward geology major requirements.
3. No course used to satisfy General Education CAPSTONE requirements may be used to satisfy geology major requirements.
4. $C R / N C$ is not permitted in the geology major with the exception of Geol 30, 160, and 189L.
5. General Education and elective units may be used toward a dual major or minor (see Dual Major or departmental minor). Consult the appropriate department chair, program coordinator, or faculty adviser for further information.

## Geology Minor

A Minor in Geology consists of 20 units of approved coursework and must include 6 upper-division units.

## Credential Program

For the Single Subject Waiver Program see Physical Science section.

## Graduate Program

The Department of Geology offers graduate courses of instruction and research leading to the Master of Science degree. The graduate courses at CSU, Fresno are designed to meet the needs of individuals with several different career objectives: (1) to provide the first postbaccalaureate degree for students preparing for eventual enrollment in doctoral programs in geology and related sciences, (2) to prepare students for industrial or government employment, or (3) to extend the competence of secondary school and junior college teachers in the earth sciences.
Graduate Studies in Applied and Environmental Geology. In addition to classical geology, the graduate program also offers a course of study in applied and environmental geology. The curriculum is usually interdisciplinary, involving coursework in the departments of Geology, Civil Engineering, Chemistry, Soil Sciences, and others. Three emphases of studies in applied geology are offered: (1) engineering and geotechnical geology, (2) hydrogeology (having physical or chemical options), and (3) ore deposits. Students are considered to be in the applied geology field if their chosen thesis topics or interests are best described as being within one of the above emphases. Many students of applied geology undertake theses involving support and supervision from the private sector or regulatory agencies.
University requirements are satisfied through satisfactory completion of core courses and specialty courses in the curriculum emphasis. The following core courses are required of all students studying applied geology:
Geol 114 Engineering Geology (3 units)
Geol 117 Hydrogeology (3 units)
Geol 124 Geochemistry (3 units)
Geol 299 Thesis Research (3-6 units)
Each of the three emphases has a flexible, suggested curriculum which is available upon request.

## Master of Science <br> Deguree Requilrements

The graduate program for the Master of Science degree in Geology is based on the equivalent of the undergraduate major at CSU, Fresno. Twenty of the 30 units required for the degree must be in geology.

By the end of the first semester each new student should have taken the Graduate Record Examination Advanced Test in Geology. For specific requirements consult the chair of the department; for general requirements see Division of Graduate Studies and Research. (See also Admission to Graduate Standing, Advancement to Candidacy, Program Requirements, Foreign Language Requirements, and Criteria for Thesis and Project.)
Under the direction of a graduate adviser each student prepares and submits a program individually designed within the following framework:
Courses in geology, including at least 15 units in 200-series.

Units
Specific Requirements (see below) ..... 20
Approved upper-division or gradu-
ate course electives in geology or
related fields such as biology, chemistry, physics, engineering, and mathematics. Electives determined in consultation with graduate adviser .10
Approved electives in geology or
related fields $\qquad$
Totall ................................................. 30
Specific Requirements. Geol 299 (3-6 units). Oral presentation of thesis. Other courses may be specified after examination of the student's record and the performance on the Graduate Record Examination Advanced Test. Any graduate student of geology doing a thesis on a foreign area must have knowledge of the area's language or the language in which source materials are published.

## COURSES

## Geology (Geol)

## 1. Physical Geology (4)

Processes and materials which together produce the different topographic and geologic features of the earth. Plate tectonic theory (including continental drift) as the unifying model to explain geologic phenomena. Effects of geology on man. General Education BREADTH, Division 1. (3 lecture, 2 lab hours)
1E. Physical Geology
for Civil Engineers (4)
Geologic processes and materials that affect design, construction, and operation of engineering developments. Includes origin of rock, soil, and geologic structures. Causes and effects of earthquakes, floods, volcanic eruptions, coastal processes, landslides, and subsidence. (3 lecture, 2 lab hours)
2. Evolution of Life and Continents (4) Origin and evolution of the earth as revealed by the rock record and by fossil remains. Special emphasis on the evolution of life and on the physical development of North America. General Education BREADTH, Division 1. (3 lecture, 2 lab hours)
3. Geology Field Trip (1)

Extended weekend field trip to areas of geologic interest including Yosemite National Park, Death Valley, or coastal California. May be repeated. Nonmajors encouraged. CR/NC grading only. (Field trip fee may be required.)

## 12. Mineralogy (3)

Geol 13 concurrent in the geology major. Prerequisite: high school chemistry. Properties, relationships, origin of minerals; determination of common minerals by chemical and other tests. May include field trips. (2 lecture, 3 lab hours)

## 13. Crystallography (2)

Prerequisite: high school chemistry, trigonometry. Form and structure of crystals. (1 lecture, 3 lab hours)
15. The Earth and its History (5)

Portion of Man/Woman and the Natural Environment Cluster. Physical and historical geology, including man's use of the earth and the impact of that use on the earth. Lecture, lab, and fieldwork. General Education BREADTH, Division 1. (Field trip fee is required.)
30. Introductory Field Methods (2)

Prerequisite: Geol 1 or 15, Math 5. Introduction to methods and instruments used in geologic fieldwork. CR/NC grading only. ( 6 lab/field hours per week. May include weekend field trips.)
100. Optical Mineralogy (3)

Prerequisite: Geol 13. Optical properties of minerals; identification of selected minerals by optical methods. Manipulation and use of petrographic microscope. (2 lecture, 3 lab hours)

## 101. Igneous and

Metamorphic Petrology (4)
Prerequisite: Geol 100. Origin classification, textures, and structures of igneous and metamorphic rocks; examination of samples in hand specimen and thin section. Some weekend field trips. (3 lecture, 3 lab hours)
102. Sedimentary Petrology (3)

Prerequisite: Geol 30, Geol 100, 101 (or concurrently). Origin, classifications, textures, and structures of sedimentary rocks; examination of samples in hand specimen
and thin section. Some weekend field trips. (2 lecture, 3 lab hours)
104. Scientific Writing (1)

Prerequisite: satisfactory completion of Engl 1. Organization of the scientific paper, involving concise and logical presentation of data. Topics include analyses of abstract writing, bibliographical format, and scientific styles regarding punctuation and footnotes, preparation of illustrations. (3 lab hours) (Former Geol 104W)

## 105. Geomorphology (3)

Prerequisite: Geol 1 or 15. Land forms, climates, geologic processes, and their interrelation in shaping the earth's surface today and in the geologic past. Interpretation of topographic maps and aerial photographs. May include field trips. (2 lecture, 3 lab hours)
106. Structural Geology (3)

Prerequisite: upper-division writing skills requirement must be satisfied; Geol 30, Phys 2A. Phys 2A may be taken concurrently. Recognition, representation, and interpretation of structural features of the earth's crust. Includes consideration of theoretical and mechanical principles involved in deformation of solid bodies. Study of regional tectonics and major structural provinces. Includes field trips. (2 lecture, 3 lab hours)
107. Advanced Field Methods (3)

Prerequisite: Geol 30, 101, 102, 104, 106.
Field trips to areas of diverse geology; observation, description, and mapping of geologic phenomena. Includes written reports of areas selected for study. Students should contact the department for details. (9 lab hours usually including fieldwork on weekends or during January intercession and spring vacation) (Field trip fee may be required.)
108A. Field Geology (4)
Prerequisite: concurrent enrollment in Geol 108B, Geol 107. Geologic reconnaissance and mapping in field groups. Usually conducted in early summer. Approved for SP grading. (Field trip fee may be required.)
108B. Field Geology — Reports (1)
Prerequisite: concurrent enrollment in Geol 108A. Written presentation of fieldwork conducted in Geol 108A. Approved for SP grading. (1 lecture hour)
110. Invertebrate Paleontology (3)

Prerequisite: Geol 2 and either Zool 1 or 10. Invertebrate structures and development of prehistoric animals; introduction to stratigraphic importance of fossils. May include field trips. (2 lecture, 3 lab hours)
114. Engineering Geology (3)

Prerequisite: Geol 1 or 15 and trigonometry. Introduction to techniques and theory of geotechnical investigations. Includes field and lab techniques in soil and rock mechanics, rock logging, geophysics, slope stability, engineering hydrogeology, stereo analysis, seismic engineering. Recommended for students in geology or civil engineering. Field trips required. (2 lecture, 3 lab hours)

## 115. Ore Deposits (3)

Prerequisite: Geol 101, 106, college chemistry. Geology, mineralogy, distribution, and occurrence of common ore minerals essential in industry; genesis and localization of metallic minerals. May include field trips. (2 lecture, 3 lab hours)
116. Petroleum Geology (3)

Prerequisite: Geol 106. Theories of origin of petroleum, petroleum structures, prospecting, extraction methods, techniques used in exploration and development; selected petroleum fields. May include field trips. (2 lecture, 3 lab hours)

## 117. Hydrogeology (3)

Prerequisite: Geol 1 or 15 ; Math 72 or 76, and Geol 124 recommended. The hydrologic cycle; surface water processes; stream flow and hydrograph; properties of porous geologic materials; principles of groundwater flow; water wells; geology of groundwater occurrence; water quality and pollution. Required field trip. (2 lecture, 3 lab hours)
122. Stratigraphy (3)

Prerequisite: Geol 30, 102. Stratigraphic principles and recognition of stratigraphic units. Emphasis on tectonostratigraphic concepts. (2 lecture, 3 lab/field hours)
124. Geochemistry (3)

Prerequisite: one year of college chemistry and Geol 1 or 15; Geol 12 and 101 recommended. Chemistry applied to earth processes and evolution. Reactions involved in origin and transformations of natural waters, rocks, and minerals. Crystal chemistry and behavior of elements and isotopes. Required field trip, laboratory project. (2 lecture, 3 lab hours)
130T. Advanced Problems in Geology (1-3; max total 6 if no topic repeated) Prerequisite: senior standing in geology. Topics or problems in the following fields: geology of North America, field geology, micropaleontology, advanced ground water geology, sedimentation and sedimentary rocks, geochemistry, geophysics, vol-
canic geology and marine geology. Some topics may have labs.
140. Interpretation of Geologic and Topographic Maps (3)
Prerequisite: Geol 105 or 106. Interpretation of geologic and topographic maps with respect to structure, stratigraphy, and processes. Some aerial photographs included. (2 lecture, 3 lab hours)

## 150T. Studies in Earth Science

(1-3; repeatable with different topics)
Applicable to the geology major only with prior departmental approval. Prerequisite: Geol 1. Earth science topics designed for students minoring in geology, with an interest in earth science, in teacher training, and for elementary and secondary teachers.
151. Minerals, Rocks, and Fossils (3)

Not applicable to the geology major. Primarily for students who are not majoring in geology. Recognition, origin, importance, and uses of common and significant minerals, rocks, and fossils. (2 lecture, 3 lab hours)

## 160. Field Studies

(1-4; repeatable in different studies)
Prerequisite may be specified by instructor. Weekend or vacation field trips to geologically important and significant areas such as the Grand Canyon, Baja California, the Sierra Nevadas, Death Valley. (Field trip fee may be required.)

## 168. Geology of California (3)

Prerequisite: Geol 1 or 15. Emphasis on the evolution of California's diverse geologic provinces and the geologic processes that influence human development of one of the most geologically varied regions of the United States. Not applicable to the geology major. General Education CAPSTONE Cluster.

## 169. Environmental Geology (3)

Prerequisite: Geol 1. Examination of the interaction between man and earth, with emphasis on earth features and processes that are hazardous to man. Includes field trips. (2 lecture, 3 lab hours)

## 171. Igneous Petrography (3)

Prerequisite: Geol 100, 101. Identification, classification, and interpretation of igneous rocks, using the petrographic microscope and other techniques. May include field trips. (2 lecture, 3 lab hours)
189. Cordilleran Geologic Evolution (2) Prerequisite: Geol 106, 122. Concurrent enrollment in Geol 189L recommended. Emphasis on the Mesozoic geology of the central Cordilleran region of the western

United States in terms of plate tectonic evolution.

## 189L. Cordilleran

Geologic Evolution Lab (1)
Prerequisite: Geol 189 (or concurrently). Weekend and/or vacation field trips to geologic localities in California studied in Geol 189. CR/NC grading only.
190. Independent Study

## (1-3; max see reference)

See Academic Placement - Independent Study. Approved for SP grading.

## GRADUATE COURSES

(See Course Numbering System.)
206. Depositional Systems (3)

Prerequisite: Geol 101 and 105. Investigation of modern and ancient depositional systems. (2 lecture, 3 lab hours)
210. Analysis of Faults
and Earthquakes (3)
Prerequisite: Geol 106 and 107. Includes plate tectonic theory; kinematics and dynamics of fracturing and faulting; formation and propagation of seismic waves; recognizing and quantifying seismic potential; remote sensing and geophysics in applied fault studies. Field projects and oral presentations required. (2 lecture, 3 lab hours)
212. Mineral and Rock Analysis (3)

Prerequisite: Geol 100, Chem 1A, 1B. Principles and techniques of mineral and rock analysis using universal stage, X-ray diffractometer, X-ray fluorescence analyzer, atomic absorption and flame emission spectrometers, and other techniques. (1 lecture, 6 lab hours)

## 215. Hydrothermal Deposits (3)

Prerequisite: Geol 115. Geologic setting and genesis of hydrothermal mineral deposits of western Cordillera, especially in California, Nevada, and Arizona. Emphasis on relationships between convective geothermal systems and igneous activity, prospecting models, and geologic, geochemical, and geophysical exploration techniques. Required field trip and laboratory project. (2 lecture, 3 lab hours)
217. Hydrogeology and

Environmental Geology Seminar (2-3)
Prerequisite: Geol 117 or 124 or 169. Topics may include: local water problems, groundwater contamination, water law, environmental regulations and policies, hazardous and nuclear waste disposal and management. Readings from technical books, journals, and government publications. Independent study and oral presentation required.
220. Groundwater Hydrology (3)

Prerequisite: Geol 117. Math 77 recommended. Principles of flow through porous and fractured media; groundwater hydraulics in the saturated and unsaturated zones; contaminant transport; introduction to groundwater models. (2 lecture, 3 lab hours)
222. Carbonate Petrology (3)

Prerequisite: Geol 101. Chemistry and content of carbonate rocks; introduction to organic and inorganic constituents with emphasis on diagenetic alteration. May include field trips. (2 lecture, 3 lab hours)
224. Geochemistry of Natural Waters (3) Prerequisite: Geol 124. Chemical evolution of natural waters through water-rock interactions, mixing, evaporation, and contamination. Modeling using solution chemistry, equilibrium thermodynamics, and kinetics. Field methods, laboratory analysis, and computer manipulation of data. Required field trip, library and laboratory projects. (2 lecture, 3 lab hours) (Former Geol 250T section)

## 251T. Topics in

Engineering Geology (1-3)
Prerequisite: major or minor in geology; permission of instructor. Advanced studies in areas such as slope stability, ground water monitoring, drilling and core logging, water sampling, hazardous waste site investigations, and geophysical instrumentation.
271. Volcanology (3)

Prerequisite: Geol 101. A study of volcanic activity, including classification, characteristics, products of eruptions, man's interactions with volcanoes and related phenomena. Field trips required. (1 lecture, 6 lab hours)
272. Metamorphic Petrology (3)

Prerequisite: Geol 101, Chem 1A, 1B. Identification, classification, and interpretation of metamorphic and metasomatic rocks using the petrographic microscope and other techniques. May include field trips. (2 lecture, 3 lab hours)

## 290. Independent Study

(1-3; max total 6)
See Academic Placement - Independent Study. Approved for SP grading.
299. Thesis (2-6)

Prerequisite: See Criteria For Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for SP grading.

## Gerontology

School of Health and Social Work Interdisciplinary Gerontology Program GLEN C. DOYLE, Director
San Ramon 2, Room 24
(209) 278-5216

Minor in Gerontology Certificate in Gerontology

erontology is the study of aging. The Interdisciplinary Gerontology Program is designed to offer a Minor in Gerontology, a Certificate in Gerontology, individual courses on aging, and the Summer Institute on Aging. Various aspects of aging are presented through courses offered by many different departments.

## Advisory Council and Program Faculty

The following individuals are involved in gerontology and serve either as faculty or Advisory Council members: Sanford Brown (Health and Social Work), Carl Carmichael (Speech Communication), Benjamin Cuellar (Social Work Education), William Fasse (Child, Family, and Consumer Sciences), John Franz (Employee Assistance Program), Gwen Hanson (Recreation Administration and Leisure Studies), Ben Kelly (Communicative Disorders), Mark Keppler (Management), Judith Keough (Nursing), Philip Kimble (Psychology), Victoria Krenz (Health Science), Joanne Laslovich (Physical Therapy), Rose Lyon (Physical Education and Human Performance), David Natharius (Speech Communication), Elizabeth Nelson (Sociology), Patricia Pickford (Social Work Education), Matthew Sharps
(Psychology), James Snider (Counseling and Special Education), and Barbara Woods (Social Work Education).

## Career Opportunities

The emergence of employment opportunities in the field of gerontology has developed in response to the needs of a steadily increasing older population. Many occupational roles are available in different sites. These include but are not limited to: federal, state, county, and city agencies, senior citizen centers, adult day care centers, skilled nursing facilities, intermediate care facilities, acute care hospitals, medical centers, senior housing sites, retirement communities, home health agencies, hospices, legislative bodies, and community planning agencies. New programs are developing in Eldercare, case management, and consultation in business.

There is an increased recognition of the importance of designing and providing specialized programs in the private sector. Knowledgeable people work as consultants in: banks, travel agencies, large corporations, insurance companies, educational agencies, publishing and broadcasting agencies, and department stores. The field is wide open for creative and innovative individuals.

## Gerontology Minor

The Interdisciplinary Minor in Gerontology (study of aging) is open to students in any major. It is especially designed to serve undergraduate majors in business, communicative disorders, home economics, health sciences, nursing, physical therapy, psychology, recreation, social welfare, and sociology; graduate majors in various social science and health professions areas; those currently working for service agencies for the aging; and aging individuals who are interested in gaining greater insight into this period of their lives.
The minor consists of from 21 to 24 semester units of credit. The total is to be determined by the student's major adviser and the director of the Interdisciplinary Gerontology Program. The following list indicates the course requirements of the minor:

## Units

## Basic course

 3IntD 160, Orientation to Gerontology
Core courses $\qquad$ 12
Select four of the following courses:
IntD 132, Aging as a Social Issue;
Geron 103, 115, 117, 125, 148, 166

## Elective course

$\qquad$ .3
Select from any of the following courses or a course not completed in Core:
Anth 155, Folk Medicine; C D 80, Principles of Communicative Disorders; RLS 159, Developing and Utilizing Voluntary Resources; W S 10, Introduction to Changing Women; FScN 48, Nutrition in the Life Cycle; Geron 180T, Topics in Gerontology; Nurs 180T, Intervention Strategies for Care of Older Adults; COUN 280T, Counseling the Older Adult*; COUN 251, Medical Aspects of Disability*; COUN 253, Psychological and Social Aspects of Disability*; Geron 190, Independent Study (1-3)
In addition, classes on aging offered through the Division of Extended Education and the Saturday classes may be accepted for meeting elective credit requirements.

Intermship (Gerom 185) or Imdependent Study (Gerom 190) ... 3-6 Required fieldwork, research or project relating to aging; usually arranged through the director of gerontology. The number of units required is determined by the department concerned. Consideration is given to previous work experience with the aging
Totall
Basic and core courses offered in the minor may be beneficial to a student's understanding of the aging process and correcting misconceptions about characteristics of aged individuals.

## Certificate in Gerontology

The Certificate in Gerontology is an interdisciplinary program of study awarded to students who complete 12 units of carefully selected courses in the field of gerontology. Normally the students admitted to the program havehad some college preparation (e.g., an A.A. or A.S. degree, two years of college) or two years of experience related to the field of aging. Certificate work must be completed with a $C$ average or better in the required 3 units and the 9 units of electives. The following list includes the course requirements of the certificate:

Units

* Permission of instructor.

For further information, call or write: Glen C. Doyle, Director Interdisciplinary Gerontology Program School of Health and Social Work (209) 278-5216

## COURSES

Gerontology (Geron)
103. Maturity and Old Age (3)
(See Psych 103.)
115. Health Issues of Aging (3) (See H S 115.)
117. Resource Management of Aging (3) (See CSH 117.)
125. Social Services for the Aging (3) (See S Wrk 125.)
148. Biophysical Aspects of Aging (3) (See P E 148.)
166. Social Gerontology (3)
(See Soc 166.)

## 180T. Topics in

Gerontology (1-3; max total 9)
Various topics in the field of aging. Content varies from semester to semester.

## 185. Internship in

Gerontology (1-6; max total 6)
Prerequisite: upper division or graduate standing and permission of instructor. Supervised work experience in gerontology. May be coordinated with student's major (example: business and gerontology). CR/NC grading only.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## HEALTH AND SOCIAL WORK Interdisciplinary Courses

School of Health and Social Work RICHARD D. FORD, Dean
McLane Hall, Room 191 (209) 278-4004

Certificate in Alcohol/Drug Studies

TThe School of Health and Social Work offers the following interdisciplinary courses as general electives open to all students. These courses provide students with an opportunity to interact with various university disciplines that have a common purpose and with professionals who are working cooperatively in an interdisciplinary setting.

## Certificate in Alcohol/Drug Studies

A certificate of special study will be awarded to those students who successfully complete a minimum of 12 units of interdisciplinary academic coursework in the area of alcohol and drug abuse. Students seeking the certificate must: (1) have completed two years of college or two years of experience related to the field of alcohol/drug abuse, and (2) be regularly enrolled in the university. All coursework must be completed with a grade of $C$ or better in each of the 9 required units and the 3 units of electives. The following list includes the course requirements for the certificate:

## Units

Requirrements $\qquad$ .9
H S 110: Habit Forming Substances H S 111: Alcohol and Alcoholism S Wrk 129: Treatment of Chemical Dependency
Elective(s)3

Crim 141: Alcohol, Drugs, and Criminality (3)
S Wrk 122T: Counseling the Family of the Alcohol/Drug Abuser (3)
W S 150T: Women, Children, and Alcohol (1)
W S 150T: Women and Alcohol (1) Crim 190, H S 190, S Wrk 190, or W S 190: Independent Study on selected aspects of alcohol/drug abuse (1)
Totall 12

For further information you may contact the Department of Social Work Education at (209) 278-3992.

## COURSES

Interdisciplinary Health and Social Work (HSW)

## 100T. Selected Topics in

the Health Professions (1-3)
Interdisciplinary topics of current interest covering subject matter that is appropriate for all health professional disciplines. Topics are rotated each semester. Field assignments may be required.

Ihe Bachelor of Science and Master of Science degrees are designed to prepare students for careers with official and voluntary health agencies at the federal, state, or local levels of government as well as the private sector.

## Bachelor of Science Degree

The Department of Health Science offers curricula leading to a Bachelor of Science degree, including a major and minor in health science with options in community health, environmental health science/ industrial hygiene, health services, and occupational safety and health.
Today there is an increasing emphasis upon health, health problems, and the resolution of these problems by all levels of government and by the industrial and military segments of our society. People are concerned about their health, and a concerned nation is in need of educated, trained, and sensitive individuals to provide assistance and action - actions that cater to the physical, psychological, and social needs of our country and developing nations throughout the world.

## Career Opportunities

The options are designed to provide basic education for careers in environmental health, industrial hygiene, community health, occupational safety, public health, occupational health, and the allied health professions. Individuals may be employed by voluntary health agencies, hospitals, public health agencies, and in the private sector including industry and insurance companies. Career titles and specializations include: environmental control officer, risk control specialist, health industry sales, hazardous materials management, loss control specialist, health educator, safety and health specialist, health care administration, safety officer/manager, registered environmental health specialist, secondary teaching, university teaching, safety products sales, substance abuse, industrial hygienist, health promotion, environmental analyst, and disease control officer.

## Master of Science Degree

The primary goal of the health science master's program is to provide graduate education to students and the working professionals who want advanced knowledge and skills beyond that of the baccalaureate degree. Coursework for the health science master's degree is varied and designed to provide the maximum opportunity for problem-solving approaches to the complex issues in the operation, environment, and human factors confronting the health care systems.

## Single Subject <br> Teaching Credential

The Single Subject Teaching Credential in Health Science prepares students to teach health in the secondary schools.

School of Health and Social Work
Department of Health Science
RONALD C. SCHULTZ, Chair
McLane Hall, Room 196
(209) 278-4014

## B.S. in Health Science

Options:
Community Health
Environmental Health Science/
Industrial Hygiene
Health Services
Occupational Safety and Health
M.S. in Health Science

Options:
Environmental Health Science
Health Education
Health Services Administration
Minor in Health Science
Single Subject Teaching Credential

Krenz } & \text { Tennant } \\ \text { Nathan E. Liskey } & \text { David F. Utterback }\end{array}$
Community Health Advisers: Catherine Freeman, Terri A. Hamilton, Vickie D. Krenz, Nathan E. Liskey, Sherman K. Sowby Environmental Health Science/Industrial Hygiene Advisers: Sanford M. Brown, Wayne N. Clark, Ronald C. Schultz, Christopher J. Tennant, David F. Utterback Health Services Adviser: Lucky O. Ehigiator Occupational Safety and Health Adviser: Michael J. Waite
Credential Adviser: Sherman K. Sowby

## Bachelor of Science Degree Requiremnents <br> Health Science Major

The Health Science Bachelor of Science curriculum consists of a core of five courses providing a foundation of knowledge and skills critical to the theory and practice of the health professional. In addition, students complete a specialized cluster of courses in an option that provides the depth and breadth for the area. A variety of combinations between and within options is possible to meet professional goals. Some students choose to specialize in two or more areas of community health whereas others may meet the requirements for environmental health science/industrial hygiene and supplement this with occupational safety and health coursework. Still others may complete all requirements for two options such as environmental health science/industrial hygiene and occupational safety and health.
A major in health science consists of a minimum of 39 units. To complete the major for the B.S. degree, students must complete the health science core (15), one of the options outlined below (24-27), and any additional requirements in related fields as specified. Students are encouraged to complete the additional requirements prior to the major courses as they may meet General Education requirements, and they provide a foundation for the courses in health science.
The General Education requirement, special course requirements, and electives,
which may include a minor, complete the 82-85 units, totaling at least 124 units required for the B.S. degree. Consult the department adviser for recommended sequence of major and General Education courses.

Health sciencemajors may not apply credit/ no credit grading toward major requirements for a baccalaureate degree. All substitutions must be approved by the department chair.
Classes offered in the Health Science Department may require field assignments.

## Degree Requirements

Health Science Core (15 units)
H S 92, 100, 109, 161, 163
Elect one option below (24-27 units):

## Community Health

Due to the increasing number of opportunities in the area of health, we have structured courses in personal, community, environmental, and international health to complement basic courses in safety, first aid, disease, drugs, and human sexuality. The curriculum is designed to prepare individuals not only to be competent instructors in the health areas, but to be health educators in many segments of our society.
Industry, business, labor, and the military all seek knowledgeable individuals to plan and direct health delivery and information services. Advanced study in health systems and evaluation techniques of health systems is available to qualified undergraduate and graduate students.

## Commumity Health Option

Requirements (24 units)*
H S 104, 110, 124, 131, 133, 135
Elect 6 units from: H S $48,105,111,112$, $115,126,129,130,152 \mathrm{~T}, 182$; FScN 53, 54
Additional requirements ( 18 units) HS 90; Biol 10 or 105; Chem 3A, 3B; Phy 33

## Environmental Health Science/ Industrial Hygiene Option

The environmental health science/industrial hygiene option prepares an individual for registration as an Environmental Health Specialist (REHS) and provides a balanced theoretical and applied understanding of the concepts and principles of industrial hygiene. The graduates of the program are employed by environmental health programs, industry, government, and research organizations.

The curriculum includes basic science courses, core courses in health science, and foundation courses in chemistry, biology, and health science, including epidemiology, toxicology, environmental health, and industrial hygiene. Graduates of this option will be academically prepared to contribute significantly to the improvement and maintenance of environmental health and the healthful working environments.
The curriculum is designed to permit admission to master's and doctoral degree programs in environmental health and industrial hygiene at major universities throughout the country. The program is accredited by the National Environmental Health Association and approved by the State Department of Health Services.

## Envirommentall Health Science/ <br> Industrial Hygiene Option

Requirements ( 27 units)*
H S 105, 147, 160, 162, 165, 167, 168; 6 units approved electives
Additional requirements ( 23 units)
H S 90; Biol 10, 105; Chem 3A, 4, 105; Micro 20

Those students who desire to become registered as an Environmental Health Specialist (REHS) and students wanting to meet minimum standards of many industries for employment as an industrial hygienist must complete H S 175 and must include among their electives and General Education selections the following courses: Chem 8, Math 70, and Phys 2A, 2B. Consult the departmental adviser concerning substitutions, electives, and additions. (Approved by the State of California Department of Health Services and accredited by the National Environmental Health Association.)

## Health Services

The health services option provides a broad based program to prepare the student for generalist administrative positions within the health care system. The curriculum is designed with an emphasis on exposing the student to the principles of health services administration and the application of these principles. For additional information, see the departmental adviser.

[^28]
## Health Services Option

Requirements (24 units)*
H S 151; Mktg 100; H S 154 or Pl Si 181 or Mgt 104; Econ 131

Elect 12 units from: Econ 162; Mktg 132, 138; HRM 150; HS 104, 115, 129, 143, 168, 185F; Soc 147; IS 103
Additional requirements ( 15 units)
Econ 40 and 50; Acct 3; H S 90, 182

## Occupational Safety and Health

The basic goals of the occupational safety and health option are to provide the specialized knowledge in the physical and social sciences that allow the individual to perform the functions within the scope of the professional safety position, and to successfully provide leadership to conserve life, health, and property. This option is designed to give students a thorough understanding of the great variety of problems met in the occupational safety and health field.

## Occupational Safety and Fleallth Option

Requirements (24 units)*
HS 48, 105, 143, 145, 147, 160, 168; 3-unit approved elective
Additional requirements ( 17 units)
H S 90, 185F (3 units); Phys 10; Chem 3A, 3B
Students who desire to meet the recommendations for the Safety Professional should consult with the department adviser for the selection of General Education and elective courses.

## Health Science Minor

The Minor in Health Science consists of 20 units composed of the health science core requirement and 5 units from the courses required in any one option. Consult the department adviser for assistance in program planning.

## Credential Program

The Single Subject Waiver Program in Health Science consists of the Bachelor of Science major and additional requirements. For assistance in program planning, consult the credential adviser.

## Singlle Sulbject Waiver Programm im Health Science Requirememts

 Health Science Core ( 15 units) H S 92, 100, 109, 161, 163Elect one option: Community Health, Environmental Health Science/Industrial Hygiene, or Occupational Safety and Health (24 units)

In addition the following courses must be included in the program: H S 48, 104, 110, 124; CFS 39 or Psych 155; FScN 54; Phy 33; Spch 8 or Spch 114
Recommended courses for credential candidates: H S 112, 152T, 182; COUN 174; Biol 122; P E 156B; Psych 136
The professional education program as outlined by the School of Education and Human Development (30 units) must also be completed.

## Certificate in <br> Alcohol/Drug Studies

The Department of Health Science is participating in a certificate of special study awarded to those students who successfully complete a minimum of 12 units of interdisciplinary academic coursework in the area of alcohol and drug abuse. (For complete details, see Health andSocial Work, Interdisciplinary Courses, in this catalog.)

## Master of Science Degree

Options have been designed to provide in-depth study in environmental health (approved by the State of California Department of Health Services), health services administration, and health education.

## Requirements

Admission. The M.S. program is open to students with health science or related undergraduate degrees who have demonstrated the ability to perform at an advanced level. Evidence of such ability is required by: (l) a satisfactory undergraduate grade point average ( 2.5 overall and 3.0 in the major or on the last 60 units); (2) a minimum Graduate Record Examination Score (Q-430 or V-450); (3) passing successfully the department examination; (4) completion of all prerequisites.
(See also Admission to Graduate Standing, Advancementto Candidacy, Program Requirements, and Criteria for Thesis and Project.)
Under direction of a graduate adviser, each student prepares and submits a coherent program individually designed within the following framework:

## Units

Core courses in health science .......... 18
(see specific requirements)
Courses in health
science option ...............................6-12
Approved electives ...........................0-6
Totall ................................................... 30 (including 18 units in 200 series)

Specific Requirements: H S 210, 213, 222T, 280, 285F, 298 or 299.

## Environmental Health Science

The curriculum is designed to prepare the individual for a lifetime career in the area of environmental health in industry and governmental agencies. This has been accomplished by providing a foundation of core courses emphasizing the administration and professional aspects of public health. The option curricula encompasses several aspects of environmental health and are designed to provide the student with in-depth and specific concepts of environmental health. Individuals have flexibility within the program and may develop a particular interest in a specific area by taking courses as electives in their area of concern. The program is approved by the State of California Department of Health Services.

## Health Services Administration

The format of the program is such that an individual may continuefull-time employment while pursuing the degree program. Subjects range from health planning and data analysis to organizational behavior and manpower management. The Health Services Administration Program provides:

- Preparation for administrative roles within various settings in the health services field
-Training in technical and analytical skills required of administrators in health care systems
- Preparation for dealing with the philosophical and ethical issues faced by administrators
- Opportunities to interact with other health professionals
- Experiential approaches to management problems

## Health Education

The Master of Science degree in Health Education provides an opportunity to diverse groups of individuals to improve competencies as public health educators and teachers of health.
The major goals of the program are to provide advanced knowledge in the area of education and to provide a leadership and communication foundation for the professional health educator.
*H S 92 may also be applied to satisfy the General Education CORE mathematics requirement if intermediate algebra was completed in high school.

## COURSES

Health Science (HI S)
48. Advanced First Aid
and Emergency Care (3)
American Red Cross Advanced First Aid and Emergency Care course. Safety factors, disaster preparedness, and emergency treatment, including cardiopulmonary resuscitation (CPR), control of bleeding and artificial respiration. Also, emergency childbirth; water and auto extrication. Certification for meeting requirements. (2 lecture, 2 lab hours) (Former H S 113)
90. Contemporary Health Issues (3)

Significance of basic health problems applicable to the young adult and to society. General Education BREADTH, Division 4.

## 92. Public Health Statistics (3)

Prerequisite: ELM Exam; intermediate algebra. Introduction to descriptive and inferential statistics as applied to evaluation and research in allied health. Central tendency and dispersion; central limit theorem; hypothesis testing; ANOVA; correlation, nonparametric methods. Interpretations of public health statistics. General Education CORE, Quantitative Reasoning. (2 lecture, 2 lab hours) (Former H S 102)
100. Community Health (3)

Prerequisite: H S 90. Public health services as they affect the community; investigation and analysis of community health problems.

## 104. International Health (3)

Prerequisite: HS 90. History and evaluation of programs of international health organizations; health problems on a world scale.
105. Environmental Safety (3)

The physical environment as it relates to accidents and safety; investigation and analysis of factors involved in the areas of home, school, industry, recreation and traffic; human factors; accidents by type, age groups, and occupations.

## 109. Epidemiology of Disease (3)

Modern concepts and principles of epidemiology; interaction of all agents, host, and environmental factors of communicable and noncommunicable diseases; problems of the aged.
110. Habit Forming Substances (3)

The misuse and abuse of chemical substances by humans; includes the psychological, social, and physiological effects.
111. Alcohol and Alcoholism (3)

Physical, mental, and social factors related to the consumption of alcoholic beverages; the development of alcohol dependence.

## 112. Consumer Health (3)

Consumer health as it relates to selection of health care products and services; how to differentiate fact from fiction in health matters.
115. Health Issues of Aging (3)
(Same as Geron 115.) Basic principles and concepts of the aging process; includes the physical, social, emotional, and mental components of health. Benefits of health promotion and preventive action for the aging are also explored.
120. Elementary School Health Science Education (3)
Designed for the multiple subject teacher credential candidate (nonhealth science major) to meet current California legislative requirements. Focus upon the methods, processes, and content used in the elementary schools for the teaching of health science. Student evaluation based on expected competencies.

## 121. Secondary School

Health Science Education (2)
Designed for the single subject teacher credential candidate (nonhealth science major) to meet current California legislative requirements. Focus upon the methods, processes, and content used in the secondary schools for the teaching of health science. Student evaluations based on expected competencies.
124. Human Sexuality (3)

A multi-faceted approach to the study of sexuality as a natural human function. Involves the biological, psychological, cultural, and sociological components of the human experience. General Education BREADTH, Division 4.
126. Female Sexuality (3)
(Same as W S 127.) Studies on female sexuality which include past and present sexual roles, female sexual response patterns, and discussion of common problems encountered by women functioning as sexual beings.

## 129. Rural Health (3)

Health problems of rural areas including community medical services, medical facilities, federal, state, and local legislation and administrative problems.

## 130. Women's Health (3)

(Same as W S 130.) Examines current crises/controversies in women's health care. Includes conventional/alternative approaches to treatment, management, and prevention with emphasis on self-care and promotion of optimum health. (Former H S 152T section)
131. Principles of Health Education (3) Study of the foundations, theories, systems, and principles of health education. Includes an analysis of social, medical, and environmental factors on health-related behaviors.
133. Health Education Methods (3)

Theory and practice of health education. Study of concepts and practices relating to the skills and methods in community health education. (Former H S 152T section)
135. Introduction
to Human Disease (3)
Prerequisite: H S 90; Phys 33. Concepts and principles of disease and dysfunction of the human body. Detection, diagnosis, treatment, etiology, pathogenesis, and prevention.

## 143. Occupational

and Industrial Safety (3)
Application of safety and accident prevention measures that provide a basis for insight into the hazards of occupational and industrial situations.

## 145. Occupational

Safety Management (3)
Concepts and principles dealing with the problems, methods, and solutions in the management and development of an effective safety program in the occupational environment.

## 147. Evaluation of the

Occupational Environment I (3)
General principles of investigation for chemical and physical hazards commonly encountered in the occupational environment. Sampling strategies, quantitative analysis, combustible gases, organic vapors, and non-ionizing radiation. (2 lecture, 2 lab hours)

## 148. Evaluation of the

Occupational Environment II (3) Prerequisite: H S 147. Concepts and principles of investigative analytical methods for hazards commonly encountered in the occupational environment. Ionizing radiation, noise, metals, and particulates including asbestos. (2 lecture, 2 lab hours)

## 149. Control of the

Industrial Environment (3)
Prerequisite: H S 147, 168. Concepts and principles of controlling physical and chemical compounds in the industrial environment. (2 lecture, 2 lab hours)
151. Health Law and Legislation (3)

The theory and practice of managing in-spection-based enforcement programs in health care and environmental health areas, with emphasis on legislation, procedure, and cases relating to public health. (Former H S 152 T section)

## 152T. Topics in Health

(1-3; max totall 12)
Analysis and investigation of selected areas in school and community health, public health, and health and safety with some topics including laboratory experiences.
154. Health Care Administration (3)

Organizational design and managerial principles as they apply to the private sector of health care
160. Principles of Toxicology (3)

Basic principles and concepts of toxicology with a particular emphasis on the regulation of environmental and industrial toxicants for man/woman.
161. Environment and Man (3)

General principles of environmental health with a particular emphasis on the interaction between man/woman and the
environment. Environmental epidemiology, water, wastewater, air, solid waste, ionizing radiation, and noise.

## 162. Environmental Health (3)

Basic principles and concepts of environmental health with a particular emphasis on health hazards, communicable disease control, contamination control, food protection, rodent control, managing special environments, planned environments, and environmental health organizations.
163. Public Health Administration (3) Principles of public health administration, fundamentals of organization, and administration in public health.
165. Directed Group Study in Environmental Health (3)
Prerequisite: H S 161, 162. Problems of environmental health studied through field trips, observations, demonstrations, and seminars. (2 lecture, 2 lab hours)
166T. Topics in Environmental Health (1-3; max total 12)
Analysis and investigation of selected areas in environmental health with some topics including laboratory experiences.
167. Public Health

Laboratory Techniques (3)
Designed to provide training in the use of laboratory procedures and techniques of adjusting and operating monitoring equipment used in water quality, air pollu-
tion, noise pollution, food sanitation, radiological health, and toxic substances. (2 lecture, 2 lab hours)

## 168. Occupational

and Industrial Health (3)
Prerequisite: H S 161 or 162 . Concepts of occupational health as they pertain to appraising and controlling environmental health hazards; occupational diseases, chemical, biological, and physical agents that produce organic or systemic damage. Problems in toxicology, measurement instruments, and evaluating health hazards.

## 170. Health Effects <br> of Indoor Pollution (3)

A descriptive analysis of environments encountered at home and in the workplace with an emphasis on assessment of risk, health effects, and a review of federal regulations that apply to these environments. General Education CAPSTONE Cluster, Critical Thinking.

## 175. Environmental

 Internship (3-6; max total 6)Prerequisite: completion of 21 units of the environmental health science/industrial hygiene option in the health science major. Provides practical experience in environmental health. The internship may be with a governmental agency or industrial situation or a combination, depending upon the student's need. $C R / N C$ grading only.

## 182. Computers for

the Health Professions (3)
Introduction to the basic use and practical application of personal and mainframe computers in health-related professions. Laboratory use of computers covers word processing, SPSS, data entry, data management, principles of programming, and use of on-line databases. (2 lecture, 2 lab hours) (Former H S 152 T section)
185F. Fieldwork in Health
(1-3; max see below)
Repeatable to 3 units in any one area, maximum total 6. Prerequisite: completion of 24 units of the health science major. Provides practical experience in a community work setting. CR/NC grading only.
188. Health Education

Internship (3-6; max total 6)
Prerequisite: completion of 24 units with a minimum of a 3.0 GPA in the major or demonstration of competency in area of assignment. Provide formal practical experience in health education. The internship may be with the CSUF Student Health Service Peer Education Program, a governmental agency, a voluntary agency, private institution, or a combination, depending upon the student's need. $C R / N C$ grading only.

## 190. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading.

## GRADUATE COURSES

(See Course Numbering System.)

## Health Science (H S)

## 203. Seminar in Community <br> Health Organization (3)

Prerequisite: H S 100. Individual research, analysis, and evaluation in relation to educational aspects of community health programs; group procedures; community organizations; selection, development, and use of media. Field assignments are required.
205. Seminar in Safety

Problems and Programs (3)
Prerequisite: H S 105. Development, organization, and administration of safety programs; individual research, analysis, and evaluation of pertinent problems. Field assignments are required.

## 210. Seminar in Health

Services Administration (3)
Prerequisite: H S 163. Individual research, analysis, and evaluation of the organization, administration, and legal aspects of health programs. Field assignments are required.

## 213. Health Planning

and Program Evaluation (3)
In-depth analysis of the principles and practices in comprehensive health planning and program evaluation. Field assignments are required.
222T. Seminar in School and Community Health (1-3; max total 15) Individual research, analysis, and evaluation of current topics in school health education and community health education programs such as family life education, consumer health problems, substance abuse, and chronic disease. Field assignments may be required.
223. Seminar in Health

Science Education (3)
Prerequisite: teaching experience. Individual research, critical analysis, and evaluation of the health science program; curriculum materials, and special techniques relating to instruction, services, and environment. Field assignments are required.

## 242T. Seminar in Occupational

Safety and Health (1-3; max total 15)
Prerequisite: H S 105 and 143. Individual research, analysis, and evaluation of current topics such as loss control, product safety laws, and governmental occupational standards. Field assignments may be required.

## 262T. Seminar in Environmental

 Health (1-3; max total 15)Individual research, analysis, and evaluation of current topics: air, water, housing, vector control, and other selected environmental health problems. Field assignments may be required.

## 280. Seminar in

Techniques of Health Research (3) Research methodology, identification of health research problems, use of library resources, data gathering, and processing; writing a research report.

## 285F. Fieldwork in Health

(1-4; max total 10)
Planning, implementation, participation, evaluation in selected areas: safety, school health, community health, physical handicaps, occupational health, and environmental health. Approved for $\$ P$ grading. $C R / N C$ grading only.

## 290. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
298. Project (2-4; max total 4)

Prerequisite: advancement to candidacy for M.S. degree in Health Science. See Criteria for Thesis and Project. A significant endeavor in health science that may include an educational booklet, audio-visual presentation, evaluation of a health agency, or the development of an experimental device or piece of equipment. A narrative component is required which will follow a formal format and shall include a written abstract. Approved for $\boldsymbol{S P}$ grading.
299. Thesis (2-4; max total 4)

Prerequisite: See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for SP grading.

## IN-SERVICE COURSE

(See Course Numbering System.)

## Health Science (H S)

302. Selected Topics in Health
(1-3; repeatable with different topics)
Topics in community health, environmental health, health services, and occupational safety and health for teachers, health professionals, and others.

History is the study of man's recorded past. It encompasses all aspects of human behavior, social organization, and cultural development. The arts and the sciences, the development of technology, and changing economic forces are as much a part of history as is politics or social conflict.
Students of history are engaged in a journey through time in which they can witness and compare the development of a variety of cultures and the interrelations between people in many different circumstances. Through the study of past events, history provides a great storehouse of experience by which the theories of the other social sciences can be tested. And through its analysis of the development of institutions and cultures, it provides one of our best tools for understanding social phenomena.
History is also one of the broadest and most universal of the humanities. Just as the personalities of individuals are shaped through the totality of their past experiences, so cultures and institutions also develop in time. The study of history can help students understand themselves and their culture better and develop a more tolerant and humane spirit toward others. In this way, as in so many others, a knowledge of the past can help all of us meet the problems of today with greater understanding and compassion.

## Faculty and Program

The Department of History at CSU, Fresno has 19 faculty members offering a wide variety of courses in the history of Europe, the United States, Latin America, the British Empire, Africa, the Middle East, and the Far

East, as well as courses in intellectual and cultural history, social history, military history, and the history of women.
The history department offers a major and minor in history for the Bachelor of Arts degree, a graduate program leading to the Master of Arts, and courses for use in the teaching credential program. It participates in the nondepartmental social science major and in the interdisciplinary programs and minors in Armenian studies, Asian studies, classical studies, Latin American studies, Russian area studies, and women's studies. History courses may also be used as electives toward graduation in most other majors, and the History Department encourages students to take minors and second majors in other fields as well.

JOHN C. KENDALL, Chair
Social Science Building, Room 101
(209) 278-2153
B.A. in History
M.A. in History

Minor in History
Single Subject Teaching
Credential in Social Science

## Career Opportunities

History majors are trained to read with comprehension and to compare and analyze both written and oral material. In addition they must know how to evaluate evidence and sources, how to critique the writing of others, and how to do research and writing on their own. These are highly valued skills in many occupations and professions today, and the History Department offers preparation for careers in teaching, law, government service, librarianship, journalism, publishing, and business. Career opportunities may also be found in such diverse fields as marketing, advertising, insurance, public relations, social services, urban planning, and the foreign service.
Students with questions related to their future careers are encouraged to consult with the faculty advisers of the History Department, as well as with the Office of Advising Services and the Office of Career Planning and Placement Services, which can provide much useful information with regard to career planning and current job market trends.

## Advising Notes

1. No more than two General Education BREADTH courses may be counted toward the history major.
2. No course used to satisfy General Education CAPSTONE requirements may be used to satisfy history major requirements.
3. History majors are not permitted to take history courses by $C R / N C$ grading.
4. General Education and elective units may be used toward a dual major or minor (see Dual Major or departmental
minor). Consult the appropriate department chair, program coordinator, or faculty adviser for further information.
5. Students who are planning to do graduate work in history are advised to take a foreign language as an undergraduate in consultation with the History Department.
6. The 27 units of upper-division history electives must be selected from the three fields listed below. At least one course must be selected in each field, but no more than 18 units in one field. At least one course must deal primarily with history prior to 1700 .

## Fields

Western Hemisphere: Hist 101, 137, 153, $160,161,162,165,166,169 \mathrm{~T}, 171 \mathrm{~A}, 171 \mathrm{~B}$, 172A, 172B, 173, 174, 175A, 175B, 177, $178,179 \mathrm{~T}, 180,181 \mathrm{~A}, 181 \mathrm{~B}, 183,184 \mathrm{~A}$, 184B, 186, 188, 189, 190, 198.

European: Hist 103A, 103B, 111, 112, 116, $119 \mathrm{~T}, 120,121 \mathrm{~A}, 121 \mathrm{~B}, 122,124 \mathrm{~T}, 125$, 126, 129T, 130, 131, 132A, 132B, 133, 134, $135,136,138,140,141,142,143 \mathrm{~A}, 143 \mathrm{~B}$, $145,147,148,149 \mathrm{~T}, 150,151,190,198$.

Asian, African, and Middle Eastern: Hist 107, 108A, 108B, 109T, 110, 114, 115, 157, 190, 191A, 191B, 198, 199 T.

## History Minor

The History Minor consists of 18 units of upper-division history courses, which should be chosen in conjunction with an adviser in the History Department. History minors are not permitted to take history courses by $\mathbf{C R} / \mathbf{N C}$ grading.

## Credential Program

See Social Science Major for the Single Subject Waiver Program in social science.

## American History Requirement

The American history requirement for graduation may be fulfilled by passing (a) the Advanced Placement Examination (see Advanced Placement) or (b) Hist 11 or 12.

## Graduate Program

The Master of Arts degree program in History is designed to extend the competence of persons engaged in a wide variety of fields requiring a broad grasp of historical knowledge, techniques, and interpretation, for those in public service, for teachers at various levels, and for those anticipating advanced graduate study in history.
Prerequisites. Admission to the Master of Arts degree program in History assumes undergraduate preparation equivalent to a

CSU, Fresno major in history. Majors from other disciplines may qualify for admission depending on grade point average and other factors deemed pertinent for success in historical studies. The department determines in each case whether the applicant needs additional preparation before receiving classified standing.

## Master of Arts

## Degree Requirements

(See Graduate Studies and Research.)
The History Department offers a 30-unit Master of Arts program with two options: Thesis and Examination. The basic requirements for both are:
A. Core: 12 units, consisting of Hist 200 (3 units), Hist 210 or 220 (3 units), Hist 230 or 240 (3 units), Hist 280T (3 units).
B. Six units from among 100 -level history courses and/or Hist 210, 220, 230, and 240 (except Hist 100W, 190, 198). With the approval of the departmental adviser, up to 6 units of related courses in other departments may be substituted.
C. Six units from among Hist 280T (if repeated), Hist 290, Hist 292.
Thesis Option: 6 units of Hist 299A-B.
Examination Option: 6 additional units from Category B, plus a written comprehensive examination in three fields chosen from among the following. No more than two may be taken from any one group.
Group I: a) Ancient History
b) Medieval History
c) Early Modern Europe to 1815
d) Modern Europe since 1815

Group III: a) The United States to 1865
b) The United States since 1865
Group III: a) Latin America
b) Asia and Africa

Comprehensive examinations are given during the first week in November and the first week in April of each year. In addition students must write formal comprehensive bibliographic essays on each of the three fields on which they are being examined. For other specifics, consult the department graduate adviser; for general requirements see the Division of Graduate Studies and Research.

Foreign Language Requirement. This is an optional requirement determined at the discretion of the Department of History
and is contingent upon the research needs of the individual. Candidates writing a thesis based on foreign language sources will be expected to pass a language competency examination to be administered by the Department of History. Language examinations will be given during the first week in November and the first week in April of each year. For details, see the departmental graduate adviser.

## COURSES

## History (Hist)

## 1. Western Civilization I (3)

The Mediterranean and European world from prehistoric to early modern times. Social, political, intellectual, and artistic movements in the ancient Fertile Crescent, classical Greece and Rome, and in Medieval, Renaissance, and Reformation Europe. General Education BREADTH, Division 6. (CAN HIST 2)

## 2. Western Civilization II (3)

Survey of modern European culture since the 17th century. Impact of industrialization and urbanization; political revolutions and ideologies; intellectual, artistic, and religious movements; European imperialism; the two world wars and changing patterns in contemporary European life. General Education BREADTH, Division 6. (CAN HIST 4)

## 3. Colonial America (3)

Western Hemisphere history from discovery to independence.

## 5. The World Today (3)

A consideration of selected current affairs in their historical perspectives. Topics change with each offering of the course.
6. East Asian Civilization (3)

Introduction to the history and cultures of the East Asian countries, particularly China, Japan, and Korea. Examination of the East Asian mind as reflected in Confucianism, Taoism, Buddhism, and in resistance to the challenges of the West.

## 7. African Civilization (3)

Not open to students with credit in Hist 157 prior to fall 1983. Survey of African history from ancient times to the present. Emphasis is on political, economic, and religious movements which have contributed to the rich diversity and the distinctive unity of African civilization.

## 8. Republics of Latin America (3)

Rise of the modern Hispanic American states since 1800: political, social, economic development.

## 11. American History to 1865 (3)

Meets the American history requirement. The formation of the Union and the development of American society to 1865. General Education CORE.

## 12. American History from 1865 (3)

Meets the American history requirement.
The development of American society since 1865. General Education CORE.

## 100W. Introduction

to Historical Method (3)
Prerequisite: Engl 1, upper-division standing. (Consult department for more specific requirements of individual instructors.) Introduction to the theory and practice of historical inquiry. Students receive careful guidance and criticism in preparing papers on historical subjects. Emphasis is placed on research techniques, evaluation of evidence, documentation, bibliography, organization, style, and mechanics of writing. Meets the upper-division writing skills requirement for graduation.
101. Women in History (3)
(Same as W S 101.) Historical survey of women's roles in history, with an emphasis on the emergence of the feminist movement. General Education BREADTH, Division 9.
102T. Topics in Women's History (3; max total 6 if no topic repeated) (See W S 102T.)
103A. History of Early Christianity (3)
Early Christianity from the first century to Constantine the Great and the legalization of Christianity (313 A.D.); origin of Christian movement from Judaic roots and its spread in the Graeco-Roman world; development during the early patristic period. General Education CAPSTONE Cluster.

## 103B. History of <br> Medieval Christianity (3)

Medieval Christianity from its legalization to eve of Reformation. Christian institutions and ideas, their impact upon society; reform movements and decline of Christian influence; gradual secularization of society.
107. Modern Middle East (3)

Analysis of Middle Eastern history since Muhammad, with emphasis upon the 19th and 20th centuries. The Middle East under European imperial domination; nationalist movements and revolutions; the ArabIsraeli conflict; the Middle East in contemporary world politics. (Former Hist 109T section)

108A. Armenian History I:
Ancient and Medieval (3)
History of Armenia and Armenians from prehistoric times to the 13th century. Mongol invasions will be considered from Armenia's point of view as well as from that of its neighbors: Assyria, Iran, Rome, Byzantium, the Arabs, and the Seljuk Turks.

## 108B. Armenian History II:

Modern and Contemporary (3)
Discussion of the Armenian Kingdom of Cilicia, the rise of the Ottoman Empire, Armenia's subjugation to Turkish, Persian, and Russian Empires, the "Armenian Question," the massacres and Genocide, Soviet Armenia, and diasporic communities in America, Europe, and the Near East.

## 109T. Studies in

## Middle East and Africa (1-3;

max total 6 if no topic repeated)
Intensive study of special topics.

## 110. Ancient Near East (3)

Ancient civilizations of the Middle East. History and culture of the Sumerians, Assyrians, Babylonians, and Persians from the dawn of history to Alexander the Great and the ascendance of Greece.
111. Ancient Greece (3)

The history and culture of ancient Greece from the Minoan-Mycenaean periods through the Golden Age of Athens to the dissolution of the empire of Alexander the Great. General Education CAPSTONE Cluster.
112. Ancient Rome (3)

The early history of Rome and the evolution of Roman society, politics, and culture through the republican and imperial periods. General Education CAPSTONE Cluster.
114. Ancient Egypt (3)

The history and culture of Egypt from prehistoric times to the death of Cleopatra. In addition, Phoenicia and Carthage are briefly discussed.
115. Ancient Israel (3)

Ancient Israel from Abraham to the destruction of Jerusalem in 70 A.D. Jewish religious thought is discussed by placing the books of the Old Testament in their historical context. General Education CAPSTONE Cluster.
116. Greek and Roman Religion (3)

Analysis of the religious ideas, customs, and practices of ancient Greeks and Romans from the time of Homer to the establishment of Christianity. General Education CAPSTONE Cluster.

119T. Studies in Ancient History (1-3; max total 6 if no topic repeated) Intensive study of special topics.

## 120. Later Eastern Roman

 or Byzantine Civilization (3)The Roman Empire in the East from the anarchy of the third century to the fall of Constantinople; political, military, and economic causes of its survival, the Church's role, and the Empire's relations with the Islamic, Latin, and Slavic world.

## 121A. The Middle Ages (3)

Not open to students with credit in Hist 121. Prerequisite: Hist 1 or permission of instructor. Medieval Europe from the fall of the Roman Empire in the West to the Renaissance. " $A$ " section may be taken without taking " $B$ " section.

## 121B. The Middle Ages (3)

Prerequisite: Hist 100W and 121A and senior standing. Discussion and analysis of central themes and issues in the field; senior seminar.

## 122. Medieval Culture (3)

Selected aspects of medieval life and culture such as warfare, commerce, art and architecture, learning and the university presented as manifestations of the medieval mind. Extensive use of visual materials.

## 124T. Studies in Medieval History

(1-3; max total 6 if no topic repeated) Intensive study of special topics.

## 125. Renaissance (3)

Social, intellectual, political, and economic factors that shaped Europe in the 14th and 15th centuries; humanism, foundations of the state; secularization and dissent within the church. General Education CAPSTONE Cluster.

## 126. Reformation (3)

Analysis of the political, social, and intellectual movements associated with the 16th century religious upheaval.

## 129T. Studies in

Intellectual and Social History
(1-3; max total 6 if no topic repeated)
Topics concerned with ideas and movements that have significantly shaped the course of history.
130. Europe in the 17th Century (3) European culture, society, and politics from 1600 to the death of Louis XIV.
131. Europe in the 18th Century (3) Intellectual, social, and political development of Europe from 1715 to the French Revolution and Napoleon Bonaparte.

132A. Europe in the 19th Century (3)
Not open to students with credit in Hist 132. Prerequisite: Hist 2 or permission of instructor. History of Europe (mainly Great Britain, France, Germany, and Austria) from Napoleon to the outbreak of World War I. Social and cultural consequences of the Industrial Revolution; rise of modern national states; European imperialism and dominance in world affairs. " $A$ " section may be taken without taking " $B$ " section.
132B. Europe in the 19th Century (3)
Prerequisite: Hist 100W and 132A and senior standing. Discussion and analysis of central themes and issues in the field; senior seminar.
133. Europe in the 20th Century (3)

Narrative and interpretive account of 20th century Europe. Stress on the impact of World War I, the Communist and Fascist Revolutions, the economic recovery of Europe, and the loss of European significance in the world after World War II.
134. Europe Today (3)

An examination of recent European history, emphasizing the trauma of decolonization, adjustment to the reality of a divided Europe, the twisting path to European unification, and the revolution in European lifestyles caused by economic prosperity.

## 135. European Cultural History (3)

Analysis of European thought from the Enlightenment to the present. Major movements in philosophy, religion, literature, art, and architecture; ideologies such as conservatism, liberalism, social-
ism, communism, nationalism, racism, and fascism. Emphasis on ideas of lasting and worldwide influence. General Education CAPSTONECluster, Critical Thinking.
136. European Military History

From Napoleon to Hitler (3)
Examination of strategic planning, tactical innovation, military systems, and campaigns from the time of Napoleon to Hitler. World wars of the 20th century with particular attention to their causes and consequences.
137. Historic Preservation (3)

History of historic preservation in the United States from 1816 to the present, and an introduction to the methodology involved in identifying, researching, and protecting sites, buildings, and neighborhoods of architectural and historical significance. Includes tours of local historical sites.

## 138. History of the

Second World War in Europe (3)
A detailed examination of the military, diplomatic, political, economic, social, and cultural impact of the Second World War in Europe. The causes, conduct, and consequences of the war are analyzed.

## 140. Modern France (3)

The culture, politics, and society of France from the Old Regime to the Fifth Republic.
141. Modern Germany (3)

Political and social developments from Bismarck to the present. Rise of Germany as a world power; failure of German democracy; Hitler and the Third Reich; politics of a divided Germany since 1945.
142. Tsarist Russia (3)

The political, economic, and social history of Tsarist Russia from 862 to 1917.

## 143A. The Soviet Union (3)

Not open to students with credit in Hist 143. Prerequisite: Hist 2 or permission of instructor. The political, economic, and social history of the Soviet Union since 1917. "A" section may be taken without taking "B" section. General Education CAPSTONE Cluster, Critical Thinking.
143B. The Soviet Union (3)
Prerequisite: Hist 100W and 143A and senior standing. Discussion and analysis of central themes and issues in the field; senior seminar. This course does not fulfill a General Education requirement.
145. Spain and Portugal (3)

Development of the Iberian Peninsula from prehistoric to modern times.

## 147. Eastern Europe (3)

An analysis of the history of East Central Europe and the Balkans.
148. Scandinavia (3)

An analysis of the history of Scandinavia from the age of the Vikings to the present.

## 149T. Studies in <br> Modern European History

(1-3; max total 6 if no topic repeated)
Intensive study of special topics.
150. England to 1485 (3)

Structure of the British government, society, and economic life from Roman times to The War of the Roses.
151. England and the Empire (3)

Rise of England and the British nation; spread of the English-speaking peoples and the transfer of British institutions; from 1485 to the modern era.
153. Canada (3)

Analysis of the Canadian historical experience; from discovery, through French regime and British Empire, to modern transcontinental nation.
157. Modern Africa (3)

The history of Africa since 1800. Topics given special attention include the slave trade and its abolition, European exploration, the imposition of European colonial rule, African nationalism, the struggle for independence and Africa's rise to prominence in world affairs. General Education CAPSTONE Cluster.
160. The Great American

Civillizations: Maya, Aztec, Inca (3)
Historical examination of the rise and fall of the Maya, Aztec, and Inca empires. So-
cial organization, religion, technology, art, and scientific achievements of the preColumbian great American civilizations.
161. Caribbean Basin (3)

Emphasis on origins and evolution of the Greater Antilles and Central America. The role of the U.S. in these areas are examined.
162. South America (3)

The history of South American republics, with an emphasis on such themes as instability, economic development, political parties, and revolution.
165. Modern Mexico (3)

Nineteenth century origins of Mexican nationality. Development of modern Mexican culture from the Mexican Revolution to the present as compared to that of the Mexican American. Literature and art as an expression of the new Mexican culture. General Education CAPSTONE Cluster.
166. United States - Latin

American Diplomacy (3)
History of the relations between the United States and Latin America, ranging from the Monroe Doctrine through the Good Neighbor Policy, Alliance for Progress, and the Caribbean Basin Initiative.

## 169T. Studies in

Latin American History
(1-3; max total 6 if no topic repeated) Intensive study of special topics.

## 171A. Early American

History, 1607-1789 (3)
Not open to students with credit in Hist 171. Prerequisite: Hist 11 or permission of instructor. First of a sequence of five courses covering the full period of history of the United States; colonial foundations; political and economic factors; social and cultural development through the founding of the new republic. " $A$ " section may be taken without taking " B " section.

## 171B. Early American

History, 1607-1789 (3)
Prerequisite: Hist 100W and 171A and senior standing. Discussion and analysis of central themes and issues in the field; senior seminar.

## 172A. United States

History, 1789-1865 (3)
Not open to students with credit in Hist 172. Prerequisite: Hist 11 or permission of instructor. Political, economic, social, and cultural developments from the beginning of the Republic through the Civil

War. " $A$ " section may be taken without taking " $B$ " section.
172B. United States
History, 1789-1865 (3)
Prerequisite: Hist 100W and 172A and senior standing. Discussion and analysis of central themes and issues in the field; senior seminar.

## 173. United States

## History, 1865-1914 (3)

The development of an increasingly urban and industrialized society from Reconstruction to the eve of WW I.

## 174. United States

History, 1914-1945 (3)
Not open to students with credit in Hist 174A. The United States in world affairs; political, economic, social, and cultural developments and problems from 1914 to 1945.
175A. United States
History, 1945-Present (3)
Not open to students with credit in Hist 174B. Prerequisite: Hist 12 or permission of instructor. The United States in world affairs; political, economic, social, and cultural developments, and problems from 1945 to present. "A" section may be taken without taking " B " section.

## 175B. United States

## History, 1945-Present (3)

Prerequisite: Hist 100W and 175A and senior standing. Discussion and analysis of central themes and issues in the field; senior seminar.
177. American History in Film (3)

Analysis of significant films and documentaries on controversial aspects of American history. Emphasis given to placing film content in an historiographical framework. Offered especially, but not exclusively, for prospective teachers.
178. History of African Americans (3) (See Af Am 178.) General Education BREADTH, Division 9.
179T. Studies in United States History (1-3; max total 6 if no topic repeated) Intensive study of special topics.
180. United States Military History (3) An overview of American military history, with emphasis on the 20th century. Tactical and strategical analysis of American participation in armed conflicts. Study of the impact of technology and the evolution of tactics.

181A. Westward
Movement to 1848 (3)
The challenge of free land; development of British and United States western policies; problems of American migration to the interior, effects of the frontier environment upon the culture of the West.

## 181B. Westward

Movement Since 1848 (3)
Patterns of exploitation; role of the federal government in the West: land policy, Indian policy; problems of communication; economic growth.

## 183. The Hispanic Southwest (3)

Exploration, conquest, and settlement of the Spanish Borderlands from 1513 to the Mexican War; contributions of Hispanic culture to the Southwest. General Education CAPSTONE Cluster.

## 184A. American

Diplomatic History to 1898 (3)
Principles, ideals, and policies of the United States in diplomatic relations from 1775 to 1898.

184B. American Diplomatic
History, 1898-Present (3)
Principles, ideals, and policies of the United States in diplomatic relations as a great world power in the 20th century.
186. American Ethnic History (3)

The immigration of peoples from Europe, Asia, Africa, and Latin America to the United States and the life they created here. General Education CAPSTONE Cluster.
188. Early California (3)

Not open to students with credit in Hist 189A prior to fall 1986. Discovery, exploration, and early settlement of Alta California, founding of the missions; the Spanish, Mexican, and American periods; government, customs, habits, and influences of the various peoples who occupied California.

## 189. Modern California (3)

Not open to students with credit in Hist 189B prior to fall 1986. Social, cultural, economic, and political development of California from the 1860 s to the present.

## 190. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
191A. Modern
Far East, 1843-1949 (3)
History of the Far East from the conclusion of the Opium War to the eve of Chinese Communist Revolution. Particular emphasis on China, Japan, and Korea.

## 191B. Modern

Far East, 1949-Present (3)
History of the Far East from the success of the Chinese Communist Revolution in 1949 to the present. Particular emphasis on China, Japan, Korea, and Vietnam.

## 198. Directed Reading

(1-3; max total 3 if no area repeated)
Prerequisite: upper-division standing. Readings on selected themes, problems, and topics in consultation with a faculty adviser.

199T. Studies in Far Eastern History (1-3; max total 6 if no topic repeated) Intensive study in special topics.

## GRADUATE COURSES

(See Course Numbering System.)

## History (Hist)

200. Historiography (3)

The development of historical consciousness and historical methodology as manifested in the writings of great historians and philosophers of history from Herodotus to the present.
210. Seminar: Interpretations in

United States History to 1865 (3)
Intensive reading and discussion/analysis of significant historical literature and problems in United States history to 1865.
220. Seminar: Interpretations in United States History since 1865 (3) Intensive reading and discussion/analysis of significant historical literature and problems in United States history since 1865.
230. Seminar: Interpretations in Ancient, Medieval, and Early Modern European History (3) Intensive reading and discussion/analysis of significant historical literature and problems in European history prior to 1650.

## 240. Seminar: Interpretations

in Modern European History (3)
Intensive reading and discussion/analysis of significant historical literature and problems in European history since 1650.
280T. Research Seminar (3)
Prerequisite: 6 units from among Hist 200, $210,220,230,240$, or approval of graduate adviser. The writing of a major research paper in a seminar setting, based on intensive research. Topics studied will vary with the instructor. May be repeated for graduate credit if topics do not overlap.
*290. Independent Study (1-3; max total 6 if no topic repeated)
See Academic Placement - Independent Study. Approved for $S P$ grading.
*292. Directed Readings
(1-3; max total 6 if no area repeated)
Prerequisite: See instructor. Readings on selected themes and topics in consultation with a faculty adviser. $C R / N C$ grading only.
299A-B. Thesis (3-3)
Prerequisite: See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. (A) Thesis design.(B) Thesis writing. $\boldsymbol{A}$ and $\boldsymbol{B}$ may be taken concurrently. Approved for SP grading.

## IN-SERVICE COURSE

(See Course Numbering System.)

## History (Hist)

## 300. Topics in History

(2; max total 8 if no topic repeated)
Selected topics in various fields of history, e.g., European, The Americas, UnitedStates, non-Western.

[^30]
# HUMANITIES Interdisciplinary Minor 

The Humanities Interdisciplinary Minor surveys relationships among philosophy, literature, music, architecture, sculpture, and painting. It also makes some use of science, popular culture, contemporary events, and whatever else relevant that may come to hand in order to explore as richly as possible the interrelationships among arts and ideas. And it does so for entire cultures, subdivided, of course, into their major periods.

## COURSES

## Humanities (Hum)

1 T and 101T. Topics in Humanities (1-4) Selected topics in the humanities not normally covered by regular course offerings.
10. Introduction to the Humanities (3) Interrelationships among art, literature, music, and philosophy, from Greece and Rome through the Renaissance. General Education BREADTH, Division 6.
11. Introduction to the Humanities (3) Interrelationships among art, literature, music, and philosophy, from the 17 th century Age of Reason to the present. General Education BREADTH, Division 6.
12. Introduction to Asian Humanities (3) Interrelationships among the verbal and nonverbal arts, the wisdom literature, and the religions of India, China, and Japan. General Education BREADTH, Division 6.
14. Introduction to the Humanities: Pre-Columbian America (3)
Interrelationships among the visual arts, literature, myth, and philosophy in the

Pre-Columbian civilizations of the Americas. General Education BREADTH, Division 6.

## 140. Tradition and

Change in China and Japan (3)
(Same as Anth 186.) Examines the current aspirations and problems of the Chinese and Japanese in terms of their traditional cultures, and explains how their histories, values, world views, and intellectual traditions affect their lifestyles and their international relations today. General Education CAPSTONE Cluster.
150. Indic Cultures and Traditions (3) (Same as Ling 110.) Study of the cultures and traditions of the Indian Subcontinent as part of the common human heritage, and for informed perspectives on international issues. Understanding of peoples of South Asia: their lifestyles, world views, and experiences; the development of their intellectual, aesthetic, and spiritual traditions; and their current aspirations and problems. General Education CAPSTONE Cluster.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## CAPSTONE: Interdisciplinary (IntD)

104. Humanities in the

## Middle Ages and Renaissance (3)

An examination of art, literature, philosophy, and music and their interrelationships in European culture during the Middle Ages and Renaissance. Critical Thinking course.
108. Humanities in Classical Athens (3) An examination of the unique cultural environment of the ancient city, its art, architecture, literature, social and political structures, and their interrelationships as manifested in fifth century Athens. Critical Thinking course.

## 110. Humanities in Republican

 and Imperial Rome (3)An examination of the unique cultural environment of the ancient city, its art, architecture, literature, social and political structures, and their interrelationships as manifested during Republican and Imperial Rome. Critical Thinking course.

## 112. Humanities During

the Baroque and Enlightenment (3)
An examination of European and American art, literature, philosophy, and music and their interrelationships during

School of Arts and Humanities
Department of Foreign
Languages and Literatures
San Ramon 4, Room 131
(209) 278-2386

Humanities Interdisciplinary Minor
the period from the late 16th century through the 18th century.
116. Humanities in
the Modern World (3)
An examination of art, literature, philosophy, and music and their interrelationships in the Western world during the 19th and 20th centuries. Critical Thinking course.
118. Folklore in Modern Life (3)

An examination of the role of folklore in modern life, its power to communicate critical issues through expressive culture, e.g., jokes, legends, folksongs, graphic arts, and festival; focus on the intellectual currents influencing the study of folklore provides interdisciplinary perspective. Critical Thinking course.
123. The American Experience:

Beginnings to World War I (3)
Survey of the principal experiences and intellectual movements that have formed the American character, as illustrated through American literature, music, and the arts, serious and popular, from the formation of the colonies to the outbreak of WW I.

## 124. The American Experience:

World War I to the Present (3)
Survey of the principal experiences and intellectual movements that have formed the American character, as illustrated through American literature, music, and the arts, serious and popular, from WW I to the present time. Critical Thinking course.

## 130. Latin American

## Cultures and Traditions (3)

A study of Hispanic cultural and aesthetic trends and practices as seen in the popular and formal arts and other styles of Hispanic thought, feeling, and expression.

## Journalism

School of Arts and Humanities Department of Journalism PAUL D. ADAMS, Chair McKee Fisk Building, Room 238
(209) 278-2087
B.A. in Journalism

Sequences in:
Advertising
News-Editorial
Photocommunication
Public Relations
Radio-Television News Communication Minor in Journalism

都ournalism is essential to democracy. The principle that only a free press can provide the diversity of ideas necessary to discover truth is fundamental to Western civilization. The Department of Journalism bases its courses of study on that principle.

The department has two main goals: (1) to teach its students how to express themselves with the clarity and precision needed to convey the information vital to the survival of a democratic society, and (2) to instill in students the sense that journalism is a craft whose members continually question not only the decisions of society's leaders, but also the professional standards of journalists themselves.

## Program

The department offers courses that emphasize intensive skills training as well as courses that raise serious questions about topics such as concentration of media ownership, ethical and philosophical issues, changes in communications law, the effects of broadcast media, and the impact of the computer on society.
The department offers five sequences of study: (1) news-editorial and (2) radiotelevision news communication, both of which stress effective news-gathering techniques and the development of a clear writing style; (3) public relations, which focuses on developing communication skills that will create better understanding between institutions and the general public; (4) advertising, which

involves communication skills in the marketing of consumer goods and services and in the disseminating of other information; and (5) photocommunication, which emphasizes photography and the visual elements of mass media.
As part of its program, the department publishes a weekly laboratory newspaper, Insight. Students in several journalism classes produce stories, photographs, and advertising for Insight and also handle the production processes.

## Graduate Program

An interdisciplinary graduate program for the Master of Arts degree in Mass Communication is jointly offered by the departments of Journalism and Telecommunications. See Special Programs - Graduate Studies.

## Accreditation and Affiliations

The department is accredited by the Accrediting Council on Education in Journalism and Mass Communications. The department is a member of the Association of Schools of Journalism and Mass Communication. Student organizations include chapters affiliated with the Society of Professional Journalists (Sigma Delta Chi), the American Advertising Federation, and the National Press Photographers Association.

## Career Placement

The department assists graduating seniors in job placement through individual counseling and job referrals. Faculty members work actively with media employers to help students find positions in journalism and related fields. Students are encouraged to extend their classroom instruction by seeking internships in their selected fields of interest. More information on internships may be obtained from the department.

## Facilities

The department has computerized typesetting equipment that is used in classes and in the production of Insight, the department's weekly laboratory newspaper. Other facilities include an Associated Press teletype machine and wellequipped laboratories for photography, news writing, and layout and design. The department also maintains a student reading room stocked with an extensive selection of major American newspapers, magazines, trade publications, and scholarly journals. Journalism students have the opportunity to work independently in paid positions on The Daily Collegian, the university's student newspaper, and on KFSR-FM, the university's radio station.

## Faculty

Paul D. Adams, Chair
Roberta R. Asahina
George A. Flynn
D. Gregory Lewis
B. Schyler Rehart Jr.

All full-time faculty members have had professional experience in their respective areas of specialization, and all hold advanced degrees in journalism or a related field. The department supplements its fulltime staff with several part-time faculty members, many of whom are practicing local journalists.

## Bachelor of Arts

Degree Requirrements

## Jourmallism Major

Units
Major requirrements ....................... 33
Courses in journalism (24 units must be upper division)
Addlitionall requuirements ............. 15
Department of Journalism's Liberal Arts and Sciences requirement
Generall Education ..... 51
Electives. ..... 25

Electives may not be in journalism or telecommunications or in any course in which the main emphasis of content is mass communications.
Totall .124

Three core courses (Jour 1, 8, and 114) are required of all journalism majors. (See Advising Note 1 on next page.) In addition, each journalism major eventually must select a sequence, which is an area of specialization within the major. Each sequence is designed to allow for extensive exploration in other subject areas beyond the requirements of General Education and the major. The journalism major also requires 9 units of journalism electives.
Regular contact with a journalism faculty adviser is essential if a journalism major wants to ensure normal progress toward a degree. Students are encouraged to get acquainted with their advisers as soon as possible after beginning their studies at CSU, Fresno. The department recommends that all journalism majors meet with their advisers every semester before each new registration period begins. Students may obtain the names of their advisers by checking with the department.

## Summary of

## Degree Requirements

All journalism majors should be aware of the following requirements for completion of the Bachelor of Arts degree in Journalism:

1. The university requires 124 total units for graduation, 51 of which must be in General Education as specified in the university's General Education requirements and 40 of which must be upper division.
2. The Department of Journalism requires 33 units of approved journalism courses for completion of the journalism major. The 33 units are broken down into 9 units of core courses, 15 units of required journalism courses in a chosen sequence of study, and 9 units of approved journalism electives. (Approval of journalism electives is obtained by seeing a journalism faculty adviser.) Journalism majors who wish to take more than 33 units of journalism must understand that journalism units in excess of 33 will not apply to the 124 units required for graduation.
3. The General Education requirement (51 units) plus the journalism major requirement ( 33 units) totals 84 units, whichleaves 40 additional units required for completion of the 124 -unit degree requirement. Of these 40 remaining units, 15 must be taken to satisfy the Department of Journalism's "Liberal Arts and Sciences" requirement. Courses used to satisfy the Liberal Arts and Sciences requirement are subject to the following restrictions:
a. Courses taken to satisfy the department's Liberal Arts and Sciences requirement shall be selected from academic disciplines in the schools of Arts and Humanities, Social Sciences, and Natural Sciences.
b. All courses used to satisfy the department's Liberal Arts and Sciences requirement must be approved by a journalism faculty adviser. Students should seek this approval in advance to be sure they are taking acceptable courses. Transfer students should seek an advising session in the Department of Journalism as soon as possible after transferring to determine their Liberal Arts and Sciences requirement status.
c. The department's Liberal Arts and Sciences requirement cannot be met by courses that involve skills or production.
4. Completion of General Education (51 units), the journalism major (33 units), and the Department of Journalism's Liberal Arts and Sciences requirement ( 15 units) totals 99 units, which leaves 25 additional units required to meet the university's 124-unit graduation requirement.
Students are encouraged to use these 25 units for additional study in liberal arts and sciences. Students in the advertising and public relations sequences may want to use some of the 25 units to take certain courses in business.
These 25 units shall not be in journalism or telecommunications and shall not be in any course, regardless of departmental classification, in which the emphasis of study is mass communications or the preparation of mass media messages. For example, a political science course on "politics and mass media" would not qualify; nor would an advertising course in a Marketing Department.

Students in the radio-television news communication sequence are encouraged to concentrate their outside electives in arts and humanities, social sciences, and natural sciences. Outside electives in which mass communications is the main content will not be accepted toward the 124 -unit degree requirement. Additional direction on outside electives may be obtained from a journalism faculty adviser.

## Advising Notes

1. Core Courses. Jour 1 may be taken at any time, but majors are encouraged to take it during the freshman or sophomore year. Jour 8 may be taken as early as the second semester of the freshman year, but taking it as a sophomore or even as a first-semester junior will keep a full-time journalism major on schedule for graduation in four years. Jour 114 is usually taken by journalism majors during the junior or senior year.
2. Transfer Units. Up to 9 units of community college journalism courses may be accepted as being equivalent to lower-division requirements in the department. Community college transfer students are encouraged to meet with an adviser in the department to obtain further information.
3. Language Qualification Examination. A screening examination administered by the department must be passed before permission will be given for enrollment in Jour 8 and in most of the department's other writing and editing courses. (Seeprerequisites for each course before attempting to enroll.) The department allows a student to take the exam a maximum of three times.
4. Permission Courses. Many of the department's courses require permission of the instructor before enrollment. The department opens its permission lists on the first day of the early registration period during the semester preceding actual enrollment.
5. $C R / N C$ grading is not permitted in the journalism major.
6. General Education and elective units may be used toward a dual major or minor (see Dual Major or departmental minor). Consult the appropriate department chair, program coordinator, or faculty adviser for further information.
7. Students enrolled in the department's writing and reporting classes must be able to type.
8. Advising. Students are urged to see their adviser at least once each semester to make sure they are meeting the department's graduation requirements. Students may obtain the name of their adviser by checking with the department during their first semester of enrollment.
9. Graduation Approval. As journalism students approach the senior year, they must see their journalism adviser to set up a contract for graduation approval. Failure to establish a contract may result in delay of graduation.

## Journalism Minor

A Minor in Journalism consists of 18 units including a required core of 6 units and 12 units in one of the sequences.

## Master of Arts Degree in Mass Communnication

The graduate program leading to the Master of Arts degree in Mass Communication with emphasis in the print media is based upon undergraduate work in journalism. For requirements, consult the department chair; for courses see Special Programs. Detailed information about the graduate program may be obtained from the Office of the Division of Graduate Studies and Research.

## COURSES

## Journalism (Jour)

1. Mass Communications (3)

Survey of the mass media of communication, including newspapers, magazines, radio and television; related agencies and fields of communicative enterprise, such as press associations, feature syndicates, advertising, and public relations. (CAN JOUR 4)
2. Interpreting Current Events (3)

Analysis and discussion of major world news events as they occur with readings from periodicals reflecting various shades of opinion; analysis of various media for objectivity, emphasis, and political or nationalistic coloration.

## 5. Basic Editing (3)

Open only to journalism majors. Recommended for all journalism majors who do not pass the language qualification test. Application of basic language skills to journalistic writing and editing.

## 8. Journalistic Writing (3)

Prerequisite: pass language qualification test, at least second-semester freshman standing. Preparation of varied news stories with speed and accuracy; introduction to basic news sources; techniques of interviewing; problems encountered by reporters; ethical and legal considerations. (2 lecture, 2 lab hours) (CAN JOUR 2)

## 17. Beginning Photojournalism (3)

Survey and instruction in beginning photojournalism. Characteristics of the journalistic photograph and its role in publications. Instruction in use of cameras and laboratory technique for black-and-white photographs. (2 lecture, 3 lab hours)
100W. Reporting (3)
Prerequisite: pass language qualification test, Jour 8, Engl 1. Analysis of news sources; techniques of interviewing applied to specific reporting situations; coverage of campus and community functions in the preparation of articles for publication. Meets the upper-division writing skills requirement for graduation. (2 lecture, 2 lab hours)

## 106. Desktop Publishing (3)

Survey, design, and editing of specialized publications such as newsletters, brochures, and other materials for editorial, advertising, and public relations purposes. Emphasis on computerized production techniques. (2 lecture, 2 lab hours)

## 110. Advanced Reporting

(3; max total 6)
Prerequisite: pass language qualification test, Jour 8, 100W. Practice in handling advanced news writing and reporting assignments in a newsroom environment; preparation of interpretative and investigative articles for publication. Department newspaper used for laboratory purposes. (8 lab hours, 4 hours arranged)
113. Public Relations (3)

Development of public relations practice; principles and methods; application in business, education, and other fields.
114. Editing of Publications (3)

Prerequisite: pass language qualification test, Jour 8. Editing copy; writing headlines; using type effectively; handling wire service copy; laying out newspaper pages. (2 lecture, 2 lab hours)
115. Media Stereotypes (3)
(See TCOM 115.)
116. Photo Editing (3)

Study of photographs and other visual elements in publications; principles of graphic design. Practical experience in the selecting of photographs and of design elements for content, aesthetic values, and technical quality.
117. Intermediate Photojournalism (3) Prerequisite: Jour 17. Study and practice of photojournalism; evaluation of photographs for publication; field and laboratory experience; emphasis on lighting, lenses, and special processing methods. (2 lecture, 3 lab hours)

## 120. Newspaper Workshop

(3; max total 6)
Prerequisite: permission of instructor. Practice in editorial leadership and newspaper production techniques. Department newspaper used for laboratory purposes. (1 lab hour, 10 hours arranged)
124W. Magazine Feature Writing (3) Prerequisite: pass language qualification test, Engl 1. Writing and marketing feature material for magazines, newspaper supplements, and syndicates. Meets the upper-division writing skills requirement for graduation.

## 126. Critical Writing (3)

Prerequisite: pass language qualification test, Jour 8, 100W. Critical analysis of structure and content of editorials, other opinion pieces, and interpretative articles. Practice in writing editorials and critical essays. (2 lecture, 2 lab hours)
127. Multimedia Journalism (3)

Prerequisite: permission of instructor. Survey and practice in multimedia communications especially as a public relations or advertising tool. Emphasis placed on slidetape and its production.

## 128. Radio and

Television News Writing (3)
Prerequisite: pass language qualification test, Jour 8. Gathering, writing, and editing news for radio and television. (2 lecture, 2 lab hours)
129. Fieldwork in Broadcast News (3) Prerequisite: pass language qualification test, Jour 8, 128, and permission of instructor. Gathering, writing, and editing broadcast news in live studio situations.

## 130. Problems of

Broadcast Journalism (3)
Prerequisite: upper-division standing. Sociological and journalistic study, including evaluation of historical development, legal problems, and traditional and contemporary criticism of broadcast journalism.

## 139T. Topics in Journalism

## (1-3; max total 6)

Analysis and investigation of selected areas in mass communications including current developments in advertising, public relations, broadcast news, print media, photocommunications, and journalism education.
145. Advertising Procedures (3)

Overview of all aspects of the field of advertising. Study of history, agent-client relationships, media, relationship to the behavioral sciences, production of copy and layouts, and advertising legislation and responsibility.

## 146. Newspaper

Advertising Staff (3; max total 6)
Prerequisite: Jour 145, permission of instructor. Selling and servicing accounts and creating and producing advertisements for Insight, a laboratory newspaper.
153. News/Public Affairs Production (3) (See TCOM 153.) (Former R-TV 153)

## 155. Print Advertising

Copy Writing (3)
Prerequisite: Jour 145, permission of instructor. Print advertising copy writing for variety of print media. The role of the copy writer; development of creative strategy; laws regulating print advertising.

## Journalism

160. Advertising Media (3)

Prerequisite: Jour 145. Media planning and buying for advertising media. Evaluating and selecting media to meet specific marketing and communication goals; designing specific media plans and making buys in various media.

## 165. Broadcast

Advertising Copy Writing (3)
Prerequisite: Jour 145, permission of instructor. Radio and television advertising copy writing. Technical and format considerations; the role of the broadcast copy writer; development of creative strategy; laws regulating broadcast advertising.

## 173. Public Relations:

Programs and Problems (3)
Prerequisite: Jour 8, 100W, 113. Development, assessment, and evaluation of public relations in business, education, philanthropy, and other field practice.

## 175. Advertising Campaigns (3)

Prerequisite: Jour 145, 155. Background, planning, and preparation of advertising campaigns. Team campaign, in advertising agency groups, with client-agency setup; analysis of campaigns and their effectiveness.
180. Journalism Ethics (3)

Study of ethical choices made by journalists in the context of the political, social, and economic structure of U.S. communications systems. Also emphasizes applying traditional ethical theories to current media issues and problems. (Former Jour 139T section)
181. Laws of Communication (3)

Study of federal and state laws as applied to the media, including such topics as freedom of information acts, libel, right of privacy, fair trial-free press, copyright, obscenity, advertising regulation, and broadcast regulation.
182. The Press and World Affairs (3)

The role of the world press, radio, and television in national and international affairs.
183. Public Opinion
and Propaganda (3)
Examination of theories of persuasion, traditional views of propaganda, and more recent formulations of propaganda as part of the process of social integration. Discussion of research methods, the role of advertising in forming opinions, and the ethical dilemmas of persuasion.
184. History of Journalism (3)

Historical background of the American press from colonial to modern times.
186. Mass Media and Society (3) Impact of mass media on society. Includes problems, contributions, criticisms, and contemporary issues of the mass media.

## 187. Advanced Photo-

journalism (3; max total 6)
Prerequisite: Jour 17, 117, and permission of instructor. Individualized study and practice in advanced skills including lighting, color, laboratory techniques, and electronic imagery.
188. Reporting of Public Affairs (3) Prerequisite: pass language qualification test, Jour 8, 100W. Methods and fieldwork in reporting courts and municipal, county, state, and federal governments. (2 lecture, 2 lab hours)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\$ P$ grading.
193. Fieldwork in Public Relations (3) Prerequisite: Jour 8, 100W, 113, and permission of instructor. Supervised work experience in public relations. Reports made regularly to instructor.

## 196. Public Relations

Practice (1-3; max total 3)
Prerequisite: permission of instructor. Internship in public relations with agencies, institutional offices, organizations, or other media. Reports made regularly to instructor. Approved for $\boldsymbol{S P}$ grading.

## 197. Photocommunication

Practice (1-3; max total 3)
Prerequisite: permission of instructor. Internship on regional newspapers, television stations, advertising agencies, or other media which use photocommunication. Reports made regularly to instructor. Approved for SP grading.
198. Newspaper Practice
(1-3; max total 3)
Prerequisite: permission of instructor. Internship on regional newspapers and radio and television stations. Reports made regularly to instructor. Approved for $\boldsymbol{S P}$ grading.
199. Advertising Practice
(1-3; max total 3)
Prerequisite: permission of instructor. Internship in advertising departments of regional mass media and with advertising and public relations agencies. Reports made regularly to instructor. Approved for SP grading.

## GRADUATE COURSES

(See Special Programs.)

## IN-SERVICE COURSE

(See Course Numbering System.)

## Journalism (Jour)

353. Topics in Journalism
(1-3; max total 9 if no topic repeated)
Selected topics of study in various aspects of mass communication including advertising, public relations, broadcast news, magazines, print media, photo communication, and journalism education.

1Whe aim of a liberal education is to produce humanized citizens. Such an education seeks to develop in students an appreciation and understanding of the arts, the sciences, the humanities, and the various cultures that compose the area serviced by California State University, Fresno. A study of the liberal arts teaches ways of thinking, exploring, understanding, and seeing the world from the perspective of others.
The primary mission of the Liberal Studies Program is to provide a strong knowledge-based education in the liberal arts that will provide subject matter preparation for elementary teaching or foundation preparation for other professions such as law, medicine, journalism, and various fields of public service. A special 12-unit noncredential Liberal Arts Option is available in the program for students not pursuing a career in elementary school teaching (see Liberal Studies. Major Core on the next page).

## Faculty

Because of the nature of the degree program, faculty represent a broad cross-section of academic disciplines. At present, 45 different departments offer courses that can be applied toward this major. The initial point of contact is the Liberal Studies Office, located in the Ed/ Psych Building, Room 111, 278-6839.

## Credential Programs

Liberal studies students who wish to complete a credential program that will lead to authorization to teach in an elementary school must follow a specific course of study. Students may wish to use their electives to begin work on one of the following credentials:
Preliminary Multiple Subject Credential. This program is called Option I and is taken by most liberal studies students. It requires the completion of the liberal studies major and 30 units of additional units of Professional Education Core courses.

Preliminary Multiple Subject Credential-Bilingual/Cross-Cultural Emphasis. This program requires completion of the liberal studies major, completion of 9 units of additional courses (including 6 in Chicano and Latin American studies and 3 in linguistics in the major Breadth area), and completion of 30 units of Professional Education Core courses.

## Preliminary Multiple Subject

Credential-Early Childhood Education
Emphasis. This program is called Option II and requires that students complete a liberal studies major and 30 units of Professional Education Core courses designed specifically for early childhood education teachers.
Preprofessional Program. Liberal studies students who are interested in obtaining a strong academic foundation that will serve as entry to other people-oriented (nonteaching) professions, such as journalism, law, medicine, etc., can follow the specially designed Non-Credential Liberal Arts Option within the Liberal Studies Major Core (see next page). This program should be planned in consultation with the liberal studies adviser.

## Career Opportunities

Liberal studies majors preparing for careers in elementary teaching should expect to find a favorable job market. Recent statistical reports for the Central Valley provide evidence that the area population is continuing to grow along with the number of school-aged children. This pattern of growth, along with anticipated attrition from the teaching profession, provides ample support of a continuing need for well-prepared, credentialed elementary teachers.

School of Education and
Human Development
JACQUES S. BENNINGA, Coordinator CAROLYN BOTTA, Adviser
WILLIAM MEYER, Adviser
Ed/Psych Building, Room 111
(209) 278-6839

## B.A. in Liberal Studies

Multiple Subject Credential (Option I) Bilingual Education Emphasis Early Childhood Education (Option II)

Liberal studies majors not planning careers in teaching will find that a number of area employers are seeking prospective employees with a broader vision of the world, not normally provided by a narrow specialization. Opportunities are available in peopleoriented jobs such as public relations, personnel, medicine, etc.
Liberal studies candidates are provided expert assistance from the campus Career Development and Employment Services as they prepare for entrance into the teaching profession or other peopleoriented careers. Assistance in preparing placement files, preparing for job interviews, and searching for suitable employment is readily available for each candidate.

## Program Advisement

Liberal studies majors are expected to attend a group orientation during their first semester on campus. Students may sign up for orientation at the Liberal Studies Office in EdP 111 or call the office at 278-6839. These orientations, which are scheduled regularly each term, enable students to understand major requirements and ensure effective planning of their coursework. Students seeking individual advisement (customarily following the group orientation) should visit or call the Liberal Studies Office. It is helpful to bring the official evaluation form and grade reports when meeting with an adviser. All students should request a senior evaluation from the Evaluations Office upon completion of 90 units (cumulative) of coursework.
Freshmen. Follow the catalog description for General Education and select from appropriate categories.
Transfer Students. Select courses from the Liberal Studies Major Core and Content Requirements. The official university evaluation of coursework from the Evaluations Office will be mailed and will arrive near the end of the first term of enrollment. Attend a group orientation as soon as possible to ensure a smooth transition into the Liberal Studies Program.
Credit/No Credit. Ordinarily students may not elect CR/NC graded coursework to satisfy requirements for the major unless the courses have been designated CR/NC only. A maximum of 24 semester units at CSU, Fresno of $C R / N C$ evaluated credit, including all coursework taken $C R / N C$ only, may be applied to the degree. Liberal studies majors may take up to 6 semester units CR/ $N C$ within the major. It is important to note that students intending to use elective units for work toward the Preliminary Multiple Subject Credential (elementary teaching) must take the following courses as CR/NC: EHD 50 (2 units); EHD 110 (3 units).
The Liberal Studies degree program consists of eight main program components:

## General Education

1. University General Education CORE
2. General Education BREADTH
3. General Education CAPSTONE (upper division)
Liberal Studies Major
4. Liberal Studies Major Core
5. Content Requirements
6. Upper-Division Concentration
7. Liberal Studies Project
8. Electives

## Advising Notes

1. Engl 101, 102, or 103 will count toward the requirement of 9 units in upperdivision General Education.
2. Courses used to satisfy CAPSTONE may not be used to satisfy requirements for the major.
3. The upper-division writing skills requirement must be met after completing 56 units. See Degree Requirements.
4. Students in the Non-Credential Liberal Arts Option who decide later to pursue the Multiple Subject Credential must complete the Teaching Credential Option.
5. Liberal studies majors who plan to obtain a Multiple Subject Credential (elementary teaching) normally take Multiple Subject Credential core courses as their electives. To enroll in these courses it is essential that the candidate be officially admitted to the program one semester prior to enrolling in the Multiple Subject Credential core courses (April 1 for fall enrollment and November 1 for spring enrollment). See the Curriculum, Teaching, and Educational Technology section in this catalog for specific details.

## Scholarship Requirement

Liberal studies majors who plan to obtain a Multiple Subject Credential (elementary teaching) must obtain a high GPA as a condition for admission to a teacher education program. The GPA for the multiple subject applicant is calculated as a cumulative average of all college coursework taken. This cumulative average may be calculated based on prior degrees earned, transfer units from other CSU or non-CSU campuses, or dates of prior degrees earned.
Currently, a GPA of 2.89 is required for admission to the Multiple Subject Credential Program. This figure is subject to periodic change. For additional information regarding admission to the Multiple Subject Credential Program, contact the School of Education and Human Development Admission and Records Office in EdP 120.

TThe Department of Linguistics offers an undergraduate minor, a Bachelor of Arts degree with options in English as a Second Language (ESL) and Spanish-English Bilingualism, and a Master of Arts degree with options in General Linguistics and ESL. In addition, Master of Arts degrees with emphasis in French or German are available.

Linguistics is the study of human language - its structure, its history, and its function in human society. Linguists analyze the sounds of speech, they write grammars and dictionaries, they investigate the ways in which languages change across space and through time, and they study what it means to know a language, how languages are learned, and how an individual's language is related to the operation of his or her mind and to the values and expectations of the society to which he or she belongs.

An undergraduate major in linguistics qualifies a student to teach ESL in some foreign countries. It may also be used in conjunction with certain credential programs for elementary and secondary teaching careers in this country. Most students with undergraduate majors enter graduate programs either at CSU, Fresno or another university. A graduate degree qualifies a student to teach in a community college or university or in an adult school as well as institutions in most foreign countries. A linguistics minor is a valuable supplement to a liberal studies major or to majors in psychology, anthropology, communicative disorders, and other areas with a language component.

## Facilities

The Department of Linguistics has equipment for the analysis of speech sounds and for displaying the operation of the organs of speech. Computers are used for simulating speech and for mapping the geographical extent of language features,

B.A. in Linguistics
M.A. in Linguistics Minor in Linguistics
as well as for storing the data needed for the making of grammars and dictionaries. To provide practical classroom experience for future teachers of ESL, the Linguistics Department is affiliated with the American English Institute, a school operated through the Extended Education Office to provide preuniversity instruction in English for foreign students. Interested students who meet the established criteria are selected to teach in the Institute. A description of the American English Institute is included in the Special Programs section of this catalog. The department's goal is to balance theory and practical application. Our graduates are not only well acquainted with linguistic theory but are also prepared to begin work as teachers or consultants and to continue advanced study of linguistic theory.

## Career Opportunities

Most linguistics graduates become teachers. There is a constant and increasing worldwide demand for teachers of ESL and for consultants and resource teachers in elementary and secondary schools, as well as for authors and editors of ESL instructional material. Linguists also work as teachers of other languages, as translators, as consultants to government and business, as bibliographers, as speech clinicians, and as specialists in any area where the ability to analyze human language is required.

## Bachellor of Arts

Degree Requirements

## Linguistics Majaor

To complete the major for the B.A. degree, students must complete 30 units in one of the patterns outlined below, the General Education requirement, special course requirements, and electives, totaling at least 124 units required for the B.A. degree.
The B.A. program in Linguistics is diversified but integrated. It prepares students for a variety of careers in bilingual-bicultural education and the teaching of ESL.
At present, two options are available to linguistics majors: 1) English as a Second Language, and 2) Spanish-English Bilingualism. In each of these options, students receive a basic grounding in the nature and structure of human language.

Units
Major requirrements 30
Select one option:
English as a Second Language ... (30)
Ling 10 or 100,134 or 146, 141, 171

Totall

[^31]
## Advising Notes

1. Contact Linguistics Department chair or adviser for list of approved electives.
2. No course used to satisfy General Education CAPSTONE requirements may be used to satisfy linguistics major requirements.
3. $C R / N C$ grading is not permitted in the linguistics major.
4. General Education and elective units can be used toward a dual major or minor (see Dual Major or departmental minor). Consult the appropriate department chair, program coordinator, or faculty adviser for further information.

## Linguistics Minor

A Minor in Linguistics consists of at least 21 units.

General Education Linguistic Credit
The following courses are applicable to Division 7 of the General Education requirements: Chinese 1A, 1B, 2A, 2B; Hebrew 1A, 1B; Japanese 1A, 1B, 2A, 2B; Linguistics 10; Sanskrit 10A, 10B. See also the Department of Foreign Languages and Literatures.

## Language Development

Specialist Certificate
See Literacy and Early Education, Specialist Credentials.

## Bilingual/

## Cross-Cultural Credentials

See Literacy and Early Education, Bilingual/ Cross-Cultural Specialist Credential and Bi-lingual/Cross-Cultural emphasis in Liberal Studies.

## Graduate Programm

Two options are available: one in General Linguistics and one in English as a Second Language. For specific requirements, see below; for general requirements see Division of Graduate Studies and Research. Students who are interested in the linguistic aspects of the French or German languages may select one of the formal emphases which are offered in cooperation with the Department of Foreign Languages and Literatures.
The Master of Arts degree program in Linguistics assumes a baccalaureate degree major in an appropriate field and at least three upper-division courses in linguistics as prerequisites. Graduate students are required to take a minimum of 15 units of graduate level courses (excluding Ling 290), and to pass a comprehensive examination.
(See also Admission to Graduate Standing, Advancement to Candidacy, and Program Requirements.)

## Master of Arts <br> Degree Requirements

## Units <br> Core courses ...................................... 9

Ling 145, 242, 243
Options
Select one option:
General Linguistics
Ling 148, 238 and 15 units of approved upper-division and graduate level coursework
ESL
Ling 237, 241, 244, and 12 units of approved upper-division or graduate level coursework of which a minimum of 3 units are in ESL-related areas
Totall ............................................... $\overline{30}$
Upon examination of the student's record other courses will be specified to produce a coherent program.

## French and German Emphases

Students wishing master's degree with concentrations in French or German may select the French or German emphases in the master's degree in linguistics (see linguistics adviser). Graduate courses in French and German are available for use in these options. All have prerequisites of 24 up-per-division units in the language or permission of the instructor.
Emphasis in French. Two courses from Fren 220T. Thesis topic should be in French linguistics. The GRE Advanced Test in French should be taken prior to advancement to candidacy.
Emphasis in German. Germ 220T, 240T. Thesis topic should be in German linguistics. The GRE Advanced Test in German should be taken prior to advancement to candidacy.

## COURSES <br> Linguistics (Ling)

10. Introduction to Language (3)

The nature and study of language. Human
and animal language, languages of the world, sound and writing systems, grammatical concepts, language change, child language acquisition, role of language in society. General Education BREADTH, Division 7.

40T. Topics in Linguistics (1-4;
max total 12 if no topics repeated)
Topics to be offered at the discretion of the department.
100. General Linguistics (3)

Linguistics methodology: phonology, morphology, syntax, and semantic analysis. Language history: variation and change. (Former Ling 135)
110. Indic Cultures and Traditions (3)
(Same as Hum 150.) Study of the cultures and traditions of the Indian Subcontinent as part of the common human heritage, and for informed perspectives on international issues. Understanding of peoples of South Asia: their lifestyles, world views and experiences; the development of their intellectual, aesthetic and spiritual traditions; and their current aspirations and problems. General Education CAPSTONE Cluster.
132. Linguistics and Reading (3) Prerequisite: Ling 10 or 134 . The linguistics background necessary for teaching reading in English. The English spelling system; the grammar and vocabulary of written English; preparation and evaluation of materials for teaching reading.
134. Structure of English (3)

An introductory survey of the structure of English: sounds, spelling, word formation, and grammar.
136. Varieties of English (3)

The regional, social, and stylistic varieties of modern English. Emphasis on African American dialect and on the English of Mexican Americans.

## 138. History of the

English Language (3)
Prerequisite: Ling 10,100 or 134 . Study of the development of the sound system, grammar, vocabulary, and writing system of English.
139. General Phonetics (3)

Introduction to the phonetic properties of human languages; descriptive analysis of the speech sounds in a wide variety of languages; articulatory and acoustic aspects of speech; practice in production, perception, and transcription of speech sounds. Introduction to experimental techniques. (2 lecture, 2 lab hours)

## 140T. Topics in Linguistics

(1-4; max total 12 if no topic repeated)
Topics to be offered at the discretion of the department.
141. Teaching English to Speakers of Other Languages (TESOL) (3)
Prerequisite: Ling 134 or 146. Theories and methods of teaching English to speakers of other languages.

## 142. Phonology (3)

Prerequisite: Ling 100. The sound patterns of human language. Phonemic theory and analytical techniques. Distinctive feature theory and analysis. Major phonological processes and their description.
143. Syntax (3)

Prerequisite: Ling 100. Theory and practice in the description of grammatical systems. Comparison of approaches. Practical experience with data.
145. Historical Linguistics (3)

Prerequisite: Ling 100. Explanation of similarities among languages; methods of reconstructing past languages and investigating relationship and grouping among languages. Comparison of approaches to language change.

## 146. Practical English Grammar

 for Language Teachers (3)English grammar from the perspective of the language teacher. Format designed to be compatible with actual classroom needs of language arts and ESL teachers.
147. Bilingualism (3)

An examination of psychological and sociological factors affecting individuals who attempt to function simultaneously in two different cultural environments, employing two separate linguistic codes. Review and comparison of past experience as well as current experimental programs in bilingual education.
148. Sociolinguistics (3)

Methods of investigation and major findings in the study of the relationship between languages of the world and social class, race, age, sex and other social subcategories. Political and educational implications. Interaction between linguistic and social factors in linguistic variations.
150. Child Language Acquisition (3)

An examination of the psycholinguistic nature of first and second language acquisition and the biological foundations of language. Overview of current research in the field and implications for the language arts program. (Former Ling 140T section)

## 155. Computer Applications

in Linguistics and ESL (3)
Introduction to the applications of computers in both theoretical and applied linguistics. Some minimal experience in using computers is assumed. (2 lecture, 2 lab hours) (Former Ling 140T section)
171. Practicum in TESL (3)

Prerequisite: Ling 141 or concurrently. Provides practice in teaching English as a Second Language; includes class visitations and classroom demonstrations; working with non-native speakers, lesson planning, material preparation, and evaluation of current ESL texts.

## 190. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## FOREIGN LANGUAGE COURSES Chinese (Chin)

1A-B. Elementary Chinese (3-3)
Not open to students with previous training. Beginning course in spoken and written Mandarin Chinese. General Education BREADTH, Division 7.
2A-B. Intermediate Chinese (3-3)
Prerequisite: Chin 1B. Review grammar and syntax; techniques of brush use; speaking and reading. General Education BREADTH, Division 7.

## Hebrew (Hebr)

1A-B. Basic Hebrew (3-3)
Basic structure and pronunciation of He brew; practice in reading, writing, speaking, and grammar; suitable introduction to both Biblical and modern Hebrew. General Education BREADTH, Division 7.

## Himong (Himong)

1A-B. Basic Hmong (3-3)
Beginning course in spoken Hmong. Covers learning comprehension and oral practice, basic grammar, vocabulary, and traditions and lifestyle of the speakers of the language. (Former Ling 140T section)

## Japanese (Japn)

1A-B. Elementary Japanese (3-3)
Beginning course in modern Japanese. Development of communicative skills through practice of basic sentence and conversational patterns. Introduction to reading and writing in Hiragana, Katakana, and 50 Kanji characters. General Education BREADTH, Division 7.
2A-B. Intermediate Japanese (3-3)
Prerequisite: Japn 1B. Further development of communicative skills in conversational Japanese. Also covers reading and writing in Kana and 200 Kanji characters. General Education BREADTH, Division 7.
100. Advanced Japanese (3)

Prerequisite: Japn 2B or its equivalent. Enhancement of oral communicative fluency as well as grammatical accuracy. Includes practice in reading some expository writing. Covers 150 Kanji characters. (Former Ling 140T section)

## Sanskrit (Skt)

10A-B. Sanskrit (3-3)
Introduction to the Sanskrit language and the Devanagari script. Core grammatical structure and vocabulary. Reading of Sanskrit texts. Literary tradition and lifestyle of the speakers of the language, and relationship with Greek, Latin, and Germanic languages. General Education BREADTH, Division 7.

## English as a Foreign Language (EFL)

(See Special Programs section for English courses for speakers of other languages offered through the Linguistics Department.)

## GRADUATE COURSES

(See Course Numbering System.)

## Linguistics (Ling)

231T. Seminar in Linguistics
(3; max total 12 if no topic repeated)
Prerequisite: Ling 100 and permission of instructor. Topics to be offered at the discretion of the department: philosophy of language, psycholinguistics, dialectology, and other subjects in general linguistics.

## 232T. Seminar in English Linguistics

(3; max total 12 if no topic repeated)
Prerequisite: Ling 100 and permission of instructor. Topics to be offered at the discretion of the department: structure of Old, Middle, or Early Modern English; topics in English phonology, grammar, and lexicon.
237. Teaching Basic Written English (3) A description of the features of word formation, sentence structure, punctuation, vocabulary, and paragraph and essay structure basic to written English, with techniques for teaching.
238. History of Linguistics (3)

Historical survey of scientific ideas, terms, techniques, and theoretical positions in the study of language from ancient time to the present day, including traditional grammar, comparative philology, and modern linguistics. Overview of general scholarly concern and climate during each period.

## 241. Seminar in Teaching English

 as a Second/Foreign Language (3)Prerequisite: Ling 141. Overview of research in the field of ESL/EFL teaching as reflected in current journal articles. Discussion and feedback dealing with points raised in assigned articles. Written reports summarizing ideas propounded in articles and expanded in class discussion.

## 242. Phonological Analysis (3)

Prerequisite: Ling 142. The nature of phonological analysis, trends and issues in phonological theories, and phonological analysis of data from a variety of languages.
243. Syntactic Analysis (3)

Prerequisite: Ling 143. The nature of syntactic analysis, trends and issues of syntactic theories, and syntactic analysis of data from a variety of languages.

## 244. ESL Classroom

Evaluation Techniques (3)
Covers classroom evaluation techniques from three perspectives: error analysis, contrastive analysis, and testing. Current thinking on these topics will first be analyzed and discussed, and then applied to the actual classroom experience.

## 245. Seminar in

Historical Linguistics (3)
Prerequisite: Ling 145. Contribution of recent work on general linguistics, sociolinguistics, and language acquisition studies to our understanding of diachronic grammar and its reconstruction. Other topics include the insights provided by language variation, language universals and typology, and discourse analysis.
249. Field Methods in Linguistics (3)

Prerequisite: Ling 142 or equivalent. Firsthand experience in eliciting linguistic data from informants; practice in analyzing and describing a language. (6 lab hours)
290. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

Vathematics and related subjects play important dual roles in our culture. On the one hand, mathematics is a study in its own right; on the other hand, it is an indispensable tool for expressing and understanding ideas in the sciences, engineering, and an increasing number of other fields. As a consequence, employment opportunities for mathematicians have been expanding in recent years. The courses offered by the department are designed to develop skills in and an appreciation and understanding of both roles.
Because there are so many different areas in which a trained mathematician can find employment or continue studies, the department has created four concentrations within the mathematics major. Within each concentration, there is flexibility in choices to accommodate individual interests.
The concentration in Applied Mathematics prepares students to assume positions in technical industries or government employment, or to continue advanced studies in the applied area.
The concentration in Pre-College Teaching in mathematics provides students with the necessary background for obtaining a California Secondary Teaching Credential in mathematics. In order to complete the credential requirements, a fifth year of education courses, classroom observa-
tion, and practice teaching is needed. At the present time, there is an increasing demand for well-trained people in this area.
The concentration in Pure Mathematics prepares students for the pursuit of graduate studies leading to advanced degrees and employment at the college or university level, or research in industries.
The concentration in Statistics and Probability provides a good foundation for students planning to work as statisticians for industry or government agencies involving statistical analysis of scientific, technical, or economic data. It also offers preparation for the first two examinations in the mathematics of insurance that are offered annually by the Society of Actuaries (this preparation includes Math $75,76,77,107,108)$. The offerings in applied topics as well as statistical computing are currently being expanded.

## Bachellor of Arts

## Degree Requirements

## Mathematics Major

The requirement for entrance to the major and minor programs is completion of two years of algebra and courses in geometry and trigonometry, or a sequence of courses containing their equivalents, such as Math 4 R and 5.
It is strongly recommended that such study be completed before entrance to the university.
Total Course Requirements for the Bachelor's Degree: 124 units. See Baccalaureate Degree Requirements for complete details on general degree requirements. A minimum of 40 units, including those required for themajor, mustbe upper division.

| Math 76 | Math 76 |
| Math 77 | Math 77 |
|  | Math 81 |

## Graduate Program

The requirement for entrance to the graduate program is completion of undergraduate preparation equivalent to a CSU, Fresno major in mathematics.
(See also Admission to Graduate Standing, Advancement to Candidacy, Program Requirements, and Criteria for Thesis and Project.)

## Master of Arts and Master of Science Degree Requirements

The Master of Arts and the Master of Science degree programs in Mathematics are designed to provide preparation for work in industry, for high school and community college teaching, and for advanced graduatestudy in mathematics. Those who plan to work in industry or teach at a high school or community college will ordinarily take the Master of Science. Those planning on pursuing a Ph.D. in Mathematics, or a related field, will take the Master of Arts.
Language Requirement. There is no foreign language requirement for the master's degree. However, any student preparing for graduate work in mathematics is advised to meet the foreign language requirements of the university in which the graduate work will be taken, since most graduate programs do not leave time for language study. Such preparation normally involves at least two of the languages: French, German, Russian.

Under the direction of an advisory committee, each candidate prepares and submits for approval a coherent program individually designed within the following framework:

## Units

At least 15 units of mathematics in
the 200 series, including Math $298 \ldots 15$
Electives from upper-division or graduate level, including at least 9 units of mathematics 15
Totall 30

Master of Science degree candidates must complete Math 152, 172, and 181 or their equivalents in their graduate program if they have not completed them in their undergraduate program. Master of Arts degree candidates must complete Math 251, 271, either Math 252 or 272, and either Math 263 or 265.

The Math 298 research project culminates in a written and oral report to the Department of Mathematics.

## COURSES

## Mathematics (Math)

## ILR. ELM Basic

Mathematics Skills (3-6)
Prepares students for the ELM exam and for Math 4. The course takes two semesters and reviews arithmetic, elementary algebra, and geometry. Note: Enrollment is limited to freshmen who score lower than 350 on the ELM exam. CR/NC grading only; not applicable toward baccalaureate degree requirements.
AR. ELM Basic Mathematics Skills (3) Develops problem solving skills in arithmetic (integers and rational numbers), elementary algebra (exponents, roots, polynomials and rational expressions, linear and quadraticequations, and graphing), and geometry (perimeters, areas, volumes, triangle properties, parallelism, and perpendicularity). CR/NC grading only; not applicable toward baccalaureate degree requirements.
ARL. Elementary Algebra Laboratory (1) Prerequisite: concurrently enrolled in Math AR and assigned to laboratory after taking placement examination. Laboratory does not count toward baccalaureate degree. Extra review and practice with skills essential to success in elementary algebra. CR/NC grading only; not applicable toward baccalaureate degree requirements. (Former Math 1AR)

## 4R. Intermediate Algebra (3)

Prerequisite: elementary algebra and geometry. Radicals, rational exponents, quadratic equations, simultaneous linear equations, graphing inequalities, complex numbers in rectangular form, introduction to exponential and logarithmic functions, applications. $C R / N C$ grading only; not applicable toward baccalaureate degree requirements. (See Duplication of Courses.)

## 4RL. Intermediate

## Algebra Laboratory (1)

Prerequisite: concurrently enrolled in Math 4 R and assigned to laboratory after taking placement examination. Laboratory does not count toward baccalaureate degree. Extra review and practice with skills essential to success in intermediate algebra. CR/ NC grading only; not applicable toward baccalaureate degree requirements. (Former Math 4AR)

## 5. Trigonometry (3)

Prerequisite: passing score on the Entry Level Mathematics (ELM) Exam and intermediate algebra. Concept of a function, sine and cosine functions, tables and graphs, other trigonometric functions, identities and equations. Trigonometric functions of angles, solution of triangles.
(See Duplication of Courses.) (CAN MATH 8)

## 6. Precalculus (4)

Prerequisite: passing score on the Entry Level Mathematics (ELM) Exam and two years high school algebra, or Math 4 R , or permission of instructor. Basic algebraic properties of real numbers; linear and quadratic equations and inequalities; functions and graphs; polynomials; exponential and logarithmic functions; analytic trigonometry and functions; conics; sequences, and series.

## 11. Elementary Statistics (3)

Prerequisite: passing score on the Entry Level Mathematics (ELM) Exam and intermediate algebra. Illustration of statistical concepts: elementary probability models, sampling, descriptive measures, confidence intervals, testing hypotheses, chi-square, nonparametric methods, regression. It is recommended that students with credit in Math 72 or 75 take Math 101. General Education CORE, Quantitative Reasoning. (CAN STAT 2)

## 14. Introduction to

Discrete Mathematics (3)
Prerequisite: passing score on the Elementary Level Mathematics (ELM) Exam and
intermediate algebra. Set theory, relations and functions, logic, proof techniques, number systems.
41. Number Systems (3)

Not open to mathematics majors. Prerequisite: passing score on the Entry Level Mathematics (ELM) Exam, intermediate algebra and geometry; designed for elementary credential candidates. Development of rational number system and its subsystems from the informal point of view; sets, relations and operations, equivalence classes; definitions of number systems and operations; algorithms for operations; prime numbers, divisibility tests; ratios.

## 43. Elementary Problem Solving (3)

Prerequisite: passing score on the Entry Level Mathematics (ELM) Exam and intermediate algebra. The purpose of this course is to develop problem solving skills using elementary mathematics.

## 45. What is Mathematics? (3)

Prerequisite: passingscore on the ELMExam and intermediate algebra. Intended primarily for liberal arts students. Topics: mathematics and social science, mathematics of shape and growth, statistics, mathematics of management science and mathematics of computers. General Education CORE, Quantitative Reasoning.

## 52. Elementary Linear Algebra (3)

Prerequisite: passing score on the Entry Level Mathematics (ELM) Exam and intermediate algebra. Elementary properties of matrices, determinants; systems of linear equations; linear transformations.
70. Mathematics For Life Sciences (4) No credit if taken after Math 72 or 75 ; one unit of credit if taken after Math 71. Prerequisite: passing score on the Entry Level Mathematics (ELM) Exam and intermediate algebra. Functions and graphs, limits, derivatives, antiderivatives, differential equations, and partial derivatives with applications in the Life Sciences. General Education CORE, Quantitative Reasoning.

## 71. Elementary

## Mathematical Analysis I (3)

No credit if taken after Math 70,72 , or 75. Prerequisite: passing score on the Entry Level Mathematics (ELM) Exam, elementary geometry, and intermediate algebra. Review of algebra, real numbers, inequalities, function, graph, finite induction, limit, differentiation of algebraic functions and applications to extrema, mean value theorem, I'Hôpital's rule.

## 72. Elementary

## Mathematical Analysis II (3)

No credit if taken after Math 75; 2 units of credit if taken after Math 70. Prerequisite: Math 71 and trigonometry. Analytic geometry and calculus of polynomials, rational functions, transcendental functions; polar coordinates, conic sections, integration and applications. General Education CORE, Quantitative Reasoning.
75. Mathematical Analysis I (4)

No credit if taken after Math 72; 2 units of credit if taken after Math 71; 3 units of credit if taken after Math 70. Prerequisite: passing score on the Entry Level Mathematics (ELM) Exam, elementary geometry, intermediate algebra, trigonometry, or Math 6. Inequalities, functions, graphs, limits, continuity, derivatives, antiderivatives, the definite integral and applications. General Education CORE, Quantitative Reasoning. (CAN MATH 18)
76. Mathematical Analysis II (4)

Prerequisite: Math 72 or 75 . Transcendental functions, techniques of integration, improper integrals, conic sections, polar coordinates, infinite series. (CAN MATH 20)
77. Mathematical Analysis III (4)

Prerequisite: Math 76. Vectors, three dimensional calculus, partial derivatives, multiple integrals, Green's Theorem, Stokes' Theorem. Beginning spring semester: use of microcomputers as an exploratory tool in the calculus. (Fall 1991: 4 lecture hours; Spring 1992 and thereafter: 3 lecture hours, 2 lab hours) (CAN MATH 22)
81. Applied Analysis (4)

Prerequisite: Math 77. Introduction to ordinary linear differential equations; solutions by power series and Laplace transforms. Vector analysis; line, surface, and volume integrals. Solution of systems of linear equations by matrix methods. Introduction to Fourier series. Beginning spring semester: use of microcomputers as an exploratory tool. (Fall 1991: 4 lecture hours; Spring 1992 and thereafter: 3 lecture hours, 2 lab hours)
90. Directed Study (1-3; max total 3) Independently arranged course of study in some limited area of mathematics either to remove a deficiency or to investigate a topic in more depth. (1-3 hours, to be arranged)
101. Statistical Methods (4)

Prerequisite: Math 70, 71, or equivalent. Application of statistical procedures to examples from biology, engineering, and social science; one- and two-sample normal theory methods; chi-square, analysis of variance, and regression; nonparametric methods. Computerized statistical packages are used.

## 107. Introduction to

Probability and Statistics (3)
Prerequisite: Math 77 (or concurrently). Basic concepts required for applications of probability theory; standard discrete and continuous models; random variables; conditional distributions; limit theorems.
108. Statistics (3)

Prerequisite: Math 107. Criteria used for selecting particular procedures of data analysis; derivation of commonly used procedures; topics from sampling, normal theory, nonparametrics, elementary decision theory.
109. Applied Probability (3)

Prerequisite: Math 107. Introduction to stochastic processes and their applications in science and industry. Markov chains, queues, stationary time series.
110. Symbolic Logic (3)
(Similar to Phil 145; consult department.) Prerequisite: Math 71 or 75 . An informal treatment of the theory of logical inference, statement calculus, truth-tables, predicate calculus, interpretations applications.

## 111. Theory of Sets (3)

Prerequisite: Math 71 or 75 . Set theory from an informal axiomatic foundation, relations and functions, cardinal numbers, ordinal numbers, applications.
114. Discrete Structures (3)

Prerequisite: Math 76. Counting techniques, matrix algebra, graphs, trees and networks, recurrence relations and generating functions, applied modern algebra.
116. Theory of Numbers (4)

Prerequisite: Math 72 or 75 . Divisibility theory in the integers, primes and their distribution, congruence theory, Diophantine equations, number theoretic functions, primitive roots, indices, the quadratic reciprocity law.

## 118. Graph Theory (3)

Prerequisite: Math 77. Trees, connectivity, Euler and Hamilton paths, matchings, chromatic problems, planar graphs, independence, directed graphs, networks.

## 121. Numerical Analysis I (3)

Prerequisite: Math 77 and working knowledge of C, Fortran, or Pascal. Zeros of nonlinear equations, interpolation, quadrature, systems of equations, numerical ordinary differential equations, and eigenvalues. Use of numerical software libraries.

## 121L. Numerical

## Analysis Laboratory (1)

Prerequisite: concurrently enrolled in Math 121. Optional computer laboratory for Numerical Analysis I. Use of microcomputers to implement numerical algorithms. (2 lab hours)

## 122. Numerical Analysis II (4)

Prerequisite: Math 121. Advanced topics from numerical linear algebra, function approximation, fast Fourier transforms, and numerical partial differential equations. Use of numerical software libraries. (Fall 1991: 4 lecture hours; Spring 1992 and thereafter: 3 lecture, 2 lab hours)

## 123. Topics in

Applied Mathematics (3)
Prerequisite: Math 77. Vector spaces and linear transformations, eigenvalues and eigen functions. Special types of linear and nonlinear differential equations; solution by series. Fourier transforms. Special functions, including gamma, hypergeometric, Legendre, Bessel, Laguerre, and Hermite functions. Introduction to partial differential equations.

## 124. Applied Matrix Analysis (3)

Prerequisite: Math 77. Matrix algebra, systems of equations, eigenvalues, eigenvectors, diagonalizations, functions of matrices with applications to differential equations, optimization, and Markov chains.
128. Complex Analysis (3)

Prerequisite: Math 77. Analytic functions of a complex variable, contour integration, series, singularities of analytic functions, the residue theorems, conformal mappings; applications to engineering and physics.
131. Game Theory and

Linear Programming (3)
Prerequisite: Math 72 and permission of instructor; or Math 76. Introduction to linear programming, problem formulation, adaptation of the Dantzig simplex algorithm to linear programming problems, duality theory, transportation problems. Games of chance, strategy, minimax theorem for two-person zero-sum games, relationship to linear programming.

## 132. Mathematical Methods

of Operations Research (3)
Prerequisite: Math 131 or permission of instructor. Simplex method, parametric programming, goal programming, dynamic programming, integer programming, nonlinear programming, and network models, with applications.
136. Coding Theory (3)

Prerequisite: Math 114. Mathematical properties of error correcting codes; information rate, error detecting and error correcting capacities, encoding and decoding algorithms. Linear, cyclic, Hamming, BCH , and Golay codes.

## 140. Applications of Calculus (4)

Prerequisite: intermediate algebra. Designed to give liberal arts students the crucial ideas of calculus in an informal way. Applications in biology, medicine, business, economics, psychology, engineering, and athletics will be stressed. Open to all credential candidates except math majors.
142. General Mathematics (4)

Prerequisite: intermediate algebra, Math 140. The role of arithmetic, algebra, and geometry in the development of modern mathematics will be studied, as well as an informal treatment of rational number system. Introduction to the nature of mathematics for students in arts, humanities, and social sciences. Open to all credential candidates except math majors.
143. History of Mathematics (4)

Prerequisite: Math 72 or 75 . History of the development of mathematical concepts in algebra, geometry, number theory, analytical geometry, and calculus from ancient times through modern times. Theorems with historical significance will be studied as they relate to the development of modern mathematics.

## 145. Problem Solving (3)

Prerequisite: at least one mathematics course in the 100-200 series. A study of formulation of problems into mathematical form; analysis of methods of attack such as specialization, generalization, analogy, induction, recursion, etc. applied to a variety of non-routine problems. Topics will be handled through student presentation.
151. Principles of Algebra (4)

Prerequisite: Math 76. Equivalence relations; groups, cyclic groups, normal subgroups, and factor groups; rings, ideals, and factor rings; integral domains and polynomial rings; fields and field extensions.
152. Linear Algebra (4)

Prerequisite: Math 151 . Vector spaces, linear transformations, matrices, determinants, eigenvalues and eigenvectors, linear functions, inner-product spaces, bilinear forms, quadratic forms, orthogonal and unitary transformations, selected applications.
161. Principles of Geometry (3) Prerequisite: Math 72 or 75 . The classical elliptic, parabolic, and hyperbolic geometries developed on a framework of incidence, order and separation, congruence; coordinatization. Theory of parallels for parabolic and hyperbolic geometries. Selected topics of modern Euclidean geometry.
165. Differential Geometry (3)

Prerequisite: Math 77. Study of geometry in Euclidean space by means of calculus, including theory of curves and surfaces, curvature, theory of surfaces, and intrinsic geometry on a surface.

## 168. Geometric Topology (3)

Prerequisite: Math 77.Topology of surfaces, the Euler characteristic, homeomorphism, the fundamental group, vector fields on surfaces, knot theory and introduction to differentiable manifolds.

## 171. Intermediate <br> Mathematical Analysis I (4)

Prerequisite: Math 77. Sets, real numbers as a complete ordered field, its usual topology, functions of a real variable, limits, continuity, uniform continuity, differentiability, generalized mean value theorem, Riemann integrals, series of functions, uniform convergence, and Fourier series of integrable functions.

## 172. Intermediate

Mathematical Analysis II (4)
Prerequisite: Math 171. Differentiation of functions of several variables, applications of partial differentiation, functions of bounded variation, rectifiable curves, theory of Riemann-Stieltjes integration, multiple integrals and line integrals, improper Reimann-Stieltjes integrals. Inverse and implicit function theorems.

## 181. Differential Equations (3)

Prerequisite or concurrently: Math 81 or 123. Definition and classification of differential equations; general, particular, and singular solutions; existence theorems; theory and technique of solving certain differential equations: phase plane analysis, elementary stability theory; applications.
182. Partial Differential Equations (3)

Prerequisite: Math 81 or 123 , and 171. Classical methods for solving partial differential equations including separation of variables, Green's functions, the RiemannVolterra method and Cauchy's problem for elliptic, parabolic, and hyperbolic equations; applications to theoretical physics.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading.
191T. Proseminar (1-3; max total 9)
Prerequisite: permission of instructor. Presentation of advanced topics in mathematics in the field of the student's interest.

## GRADUATE COURSES

(See Course Numbering System.)

## Mathematics (Math)

## 202. Fundamental

Concepts of Mathematics (3)
Prerequisite: Math 151, 161 and 171. Fundamental notions regarding number theory, number systems, algebra of number fields; functions.
210. Foundations of Mathematics (3)

Prerequisite: Math 110 or 151 . Formal introduction to theories of inference, first order theories, completeness metatheorems, consistency metatheorems, decision problems.

## 216. Topics in Number

Theory (3; max total 6)
Prerequisite: Math 116. An investigation of topics having either historical or current research interest in the field of number theory.
221. Advanced Numerical Analysis (3)

Prerequisite: Math 121. Linear equations and matrices; parabolic, hyperbolic, and elliptic differential equations; constructive function theory.

## 223. Principles and Techniques

of Applied Mathematics (3)
Prerequisite: Math 123. Linear spaces and spectral theory of operators.
224. Optimization Methods (3)

Prerequisite: Math 123. Techniques for optimizing static and dynamic systems, calculus of variations, Hamiltonian canonical form, maximum principle, with applications.
228. Functions of a Complex Variable (3) Prerequisite: Math 128, 171. Representation theorems of Weierstrass and Mittag-Leffler, normal families, conformal
mapping and Riemann mapping theorem, analytic continuation, Dirichlet problem.

## 251. Abstract Algebra I (3)

Prerequisite: undergraduate abstract algebra. Groups, rings, integral domains, and fields.
252. Abstract Algebra III (3)

Prerequisite: Math 251. Rings and ideals, modules, linear and multilinear algebras, representations.
263. Point Set Topology (3)

Prerequisite: Math 172. Basic concepts of point set topology, set theory, topological spaces, continuous functions; connectivity, compactness and separation properties of spaces. Topics selected from function spaces, metrization, dimension theory.

## 265. Differential Geometry (3)

Prerequisite: Math 165, 172. Study of geometry of curves and surfaces in Euclidean space; including an introduction to Riemannian geometry and theory of manifolds.
271. Real Variables (3)

Prerequisite or concurrently: Math 172. Theory of sets; cardinals; ordinals; function spaces, linear spaces; measure theory; modern theory of integration and differentiation.

## 272. Functional Analysis (3)

Prerequisite: Math 271. The LebesgueStieltjes integral and its generalizations, integral equations, Hilbert and Banach spaces, linear transformations (bounded and unbounded).
290. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading.
291. Seminar (3)

Prerequisite: graduate standing. Presentation of current mathematical research in field of student's interest.
298. Research Project in Mathematics (3) Prerequisite: graduate standing. Independent investigation of advanced character as the culminating requirement for the master's degree. Approved for $\boldsymbol{S P}$ grading.

## IN-SERVICE COURSE

(See Course Numbering System.)

## Mathematics (Math)

302. Topics in Mathematics for Teachers (3; max total 6 if topic not repeated)
Prerequisite: permission of instructor. Topics in modern mathematics with special emphasis for teachers.

## Military Science

School of Business and
Administrative Sciences
Department of Military Science
LTC WILLIAM F. HAUSMAN Jr., Chair
North Gym, Room 211
(209) 278-2887, 278-4810

In California, 1 (800) 255-ROTC
Army Reserve Officer's Training Corps Program (ROTC)

Minor in Military Science

We are a program that develops the mental and physical qualifications of students in preparation for positions of leadership within the military and civilian communities. Our instruction is challenging, professional, and enjoyable, and it complements all major areas of study. The course of study offered in Military Science is designed not only to prepare the student for service as a commissioned officer in the United States Army but also to provide him/her with knowledge and practical experience in leadership and management that will be useful in any facet of society.
Students who are uncertain about what the Army is all about and what it can offer may enroll in introductory courses for either one or two units. These courses acquaint the student with how the Army fits into society and some of the exciting things officers do. They also show how the Army can fit into a student's long and short range individual goals.

Those students who desire to pursue an opportunity for a military career can enroll in a structured curriculum from 12-21 units over a period of two years (see class listings, next page). One of the significant and exciting aspects of this curriculum is the requirement for a student to attend a six-week summer camp - with pay - following the first year of the structured curriculum. This camp enhances the student's ability to lead by providing him/her with actual experience in leading other students who represent some 69 colleges and universities in 18 states.

Additionally, the student's curriculum must include acquired knowledge in written communication skills, understanding of human behavior, military history, computer literacy, and math reasoning.

## Career Opportunities

Upon completion of the ROTC requirement, you are commissioned a second lieutenant in the United States Army. You may be selected to go on active duty if you desire. It should be noted that the recruiters for major corporations actively seek out former military officers to fill management positions because of the great personal motivation, discipline, and maturity which are hallmarks of the military officer. If you desire, you may request a Guaranteed Reserve Forces Duty contract. This contract specifically states that you will receive a Reserve or National Guard assignment after completion of your ROTC requirements. Thus, you may pursue your civilian career and still be an officer in the U.S. Army.

## Enrollment Requirements

Those students who are simply interested in finding out about our program should enroll in one of our introductory courses (see class listings, next page). Those who are considering pursuing the full ROTC course must meet certain requirements. Information on these requirements can be obtained by telephoning or visiting the Army ROTC office on campus (278-2887/4810) or in California, 1 (800) 255-ROTC.

## Financial Assistance

All students formally enrolled in the ROTC program receive at least $\$ 1,000$ a year and can earn as much as $\$ 10,000$
during their college careers. Each student receives $\$ 100$ (tax free) each month of the school year and about $\$ 750$ for summer camp. Students may also join a United States Army Reserve or California Army National Guard Unit as an officer trainee and be paid a minimum of $\$ 128$ per month. The Army also has made available two, three, and four year scholarships - on a competitive basis - which pay all tuition, books, and fees in addition to the $\$ 100$ (tax free) each month.

## Extracurricular Activities

Several formal and informal activities are available. For example, weekly leadership laboratories - one hour each week - are conducted along with one weekend field trip each semester. These field trips include such activities as helicopter insertions, map reading, rappelling, and work on various army individual confidence building devices. Apart from formal military activities, Army ROTC provides an atmosphere where friends pursuing a common career can get together for things such as parties, a formal ball, intramural sports, and participation in special clubs such as a rifle/pistol shooting club, a military tactics organization, and a rappelling club.

## Faculty

LTC William F. Hausman Jr., Chair
Advisers: Ross A. Campbell,
Paul K. Gonzales, Mark R. Pires
Glenn C. DeMent
Joseph M. Picanco
The faculty of the Department of Military Science are highly qualified and experienced professional army officers, who are selected for their instructor qualifications and academic background. Each officer is a graduate of at least two required Army schools in their respective fields in addition to an advanced course program. Students find departmental faculty helpful in guiding them through their academic experience as well as helping them pursue career goals.

## Military Science Minor

Each student enrolled in the ROTC Advanced Course and who completes the 18 units (16 upper-division) necessary for commissioning will be eligible for the award of a minor in military science. Coordination with the department faculty adviser is required.

Units
Required courses are
M S 131, 132, 134; PE AC 42 .............. 12
Elect 2 of 3 courses from
M S 141, 192, or Hist 180 ........................ 6
Totall ................................................... 18

## COURSES

## Military Science (M S)

1. Introduction to Military Science (1)

Organization and functions of the U.S. Defense Establishment; roles of the military departments; role of ROTC in providing the military with officer leadership.
2. Survival Training (1)

Survival techniques in a field environment; major emphasis on plant and animal foods, first aid procedures, mountaineering, field crafts, and survival swimming. (Five 3-hour field trips)
3. U.S. Army in Recent Conflicts (1)

Overview of U.S. Army involvement in Vietnam, Granada, Panama, and the Middle East. Highlights of Army organization, command and control, and technical advancements. Emphasis on media coverage and lessons learned.

## 11. General Adventure Skills (2)

Basic rope work to include knots and rappelling, basics of orienteering and land navigation, basic marksmanship and military briefings.
12. Basic Leadership
and Management (2)
Principles of leadership; principles of resourcemanagement; group goal attainment focusing on leader, group, and situational needs.
13. ROTC Basic Camp (3)

Prerequisite: permission of instructor. A 6-week summer camp conducted at Fort Knox, Kentucky, designed for students interested in earning a commission, but who were unable to complete the ROTC Basic Course at CSUF. Topics include basic military skills and leadership principles.
131. Advanced Leadership and Management (3)
Prerequisite: permission of instructor. Personnel management problems and techniques of motivation as applied to a military environment; techniques and methods of instruction; application of basic military skills; military law.

## 132. Small Unit Leadership (3)

Prerequisite: M S 131 or permission of instructor.Principles of tactics and operations; organization of small units and their employment; field orders and instructions; small unit leadership techniques.

## 133. ROTC Advanced Camp (3)

Prerequisite: permission of instructor. A 6week summer camp conducted at Fort Lewis, Washington. Topics include familiarization with U.S. Army weapons systems, military skills, confidence training, light infantry tactics, and leadership and management techniques.

## 134. Leadership Laboratory <br> (1; max total 8)

Practical work to augment classroom instruction. Weekly morning laboratories plus one field trip each semester. Attendance at all functions is voluntary, but lack of participation will adversely affect grades. Must be taken each semester a student is enrolled in Advanced Course.

## 141. Ethics and Military

## Professionalism (3)

Prerequisite: permission of instructor. Military Professional Ethics, Military Justice, Command and Staff Functions, Mission and Organization of the U.S. Army and Military Correspondence.

## 192. Directed Reading in

## Selected Military Topics (3)

Prerequisite: M S 131, 132, 141 and Hist 180. Directed reading in military history and/or the role of the army in the formulation of national policy in consultation with a faculty adviser. The course requires a substantial writing requirement.

## Music

School of Arts and Humanities
Department of Music
JACK R. FORTNER, Chair
Music Building, Room 102
(209) 278-2654
B.A. in Music
M.A. in Music

Minor in Music
Single Subject Teaching Credential

,major in music very often prepares students to enter careers in teaching and performance. It always enhances their knowledge of the musical art and increases their sensitivity to the musical world around them.

The Department of Music provides:

- Undergraduate instruction in music for those planning professional careers as performers, composers, and studio teachers, as well as those preparing for advanced degrees in performance, composition, and musicology
- Preparation for the teaching credential programs in or involving music
- Graduate training for students planning professional and academic careers or seeking professional growth as teachers in junior colleges or other school systems
- Broad acquaintance with musical art for the layman and nonmusic major
Two degree programs accredited by the National Association of Schools of Music are offered: the Bachelor of Arts and the Master of Arts, each with concentrations in performance, composition, music history, or music education.

## Faculty and Facilities

The Department of Music faculty is composed of individuals whose backgrounds reflect varied areas of specialization: performance, composition, scholarly research, and music education. Many members of the faculty have national and international reputations as performing artists and teachers. Others are well known for their articles and books. They are all dedicated to the task of providing the best music education possible for students in their classes and studios.

The Music Building consists of faculty studios, offices, classrooms, practice rooms, rehearsal halls, and a recital hall. Special facilities include an electronic studio and a computer assisted instruction laboratory.

## Career Opportunities

While many graduates have made successful performing careers in opera, orchestras, and popular music ensembles, the majority have established careers as private or public school teachers. Those who complete graduate studies have either advanced in public school careers or have made careers as teachers in higher education.
There are also other types of careers open for music majors and minors in musicrelated areas. The music industry draws persons with musical backgrounds for their sales representatives and instrument technicians. Churches employ organists and choir directors, many on a full-time basis. The field of recreation also offers employment to persons with some expertise in music.

## Faculty

## Bachelor of Arts <br> Degree Requirements

## Music Major

Each student seeking a Bachelor of Arts degree with a major or minor in music must fulfill Other Departmental Requirements (see next page) and all requirements listed under Degree Requirements and General Education.

## Options - select one:

Option I (47-63 units): Preparation for performance, composition, music history, and careers in music other than public school teaching. Consult departmental advisers for specific assistance in your area(s) of interest.

Under Option I, the student is responsible for fulfilling the Music Core requirements (33-43 units); Option I requirements (concentration a, b, c, or d-14-20 units); Other Departmental Requirements (see next page); General Education (51 units); and electives, including remaining degree requirements (10-26 units), to complete the B.A. degree (124 units). Note: units accumulated while fulfilling Other Departmental Requirements are included among elective units used to complete the B.A. degree.

Units

## Core requirements

Music 1A, 1B, 40, 41, 42, 43, 58, 61, 141, 144, 161A, 161B, 161C
Music 36S and 136S until Piano
Proficiency Exam is passed ............0-10
33-43

## Empphases - select one:

a. Instrumental Performance

4 semesters with advanced
standing in Music 31S and
131 S through 38 S and 138 S
Music 140T, 142, 148, 150A, 150B, 150C, 150D, 160T, 171 ........... 5
Music 198 ........................................1-2
For keyboard majors:
Music 119P .. 2
Music 176T ....................................... 3
14-20

## b. Vocal Performance

4 semesters with advanced standing in Music 39S and 139S ....... 8
Music 119Q (Vocal Pedagogy) ............ 2
Music 158B (Advanced Choral Conducting) 2
Music 172 (Vocal Literature) ..... 2
Music 185A (Vocal Diction I) ..... 2
Music 185B (Vocal Diction II) .....  2
Music 198 (Senior Recital) .....  2

Option II (74-86 units): Waiver program for the Single Subject Teaching Credential preparing students to teach music in grades K-12.
Under Option II, the student is responsible for fulfilling core requirements (54-64 units); ensemble requirements (20-22 units); and General Education (51 units); and electives to complete the B.A. degree (124-137 units). Additional Credential Requirements ( 10 units) may be completed before or after completion of the B.A. degree.
Consult the departmental credential adviser and the School of Education and Human Development for information regarding the 30 units of professional education necessary for completion of the Single Subject Teaching Credential and 5 th year requirements.

Units

## Core requirements

Music 1A, 1B, 40, 41, 42, 43, 58, 61, 119I, J, K, L, M, N, O, Q, 144, 158A or $158 \mathrm{~B}, 161 \mathrm{~A}, 161 \mathrm{~B}, 161 \mathrm{C}$ .42
Music 36S and 136S until Piano
Proficiency Exam is passed. . 0-10

## Other Departmentall Requirements

1. Students majoring in music must declare an area of concentration (e.g., an instrument, voice, composition, music history, or music education).
2. At the close of their first semester, students must pass the preliminary jury examination in their area of concentration before being permitted to continue their major. A further examination must be passed for advanced standing.
3. Students majoring in music must enroll in a piano class until the departmental piano proficiency examination is passed.
4. Every semester, music majors must participate in a major performing organization appropriate to their applied music concentration. Violin, viola, cello, and double bass majors will participate in Orchestra. Wind and percussion majors will participate in Wind Ensemble. Voice majors will participate in Concert Choir. Guitar and piano majors will substitute Guitar Ensemble, Keyboard Ensemble, Chamber Music Ensemble, or Music 130 T (Accompanying) for 50 percent of the major performing ensemble requirement. (Option II majors in these areas must consult their credential adviser.) IN ADDITION: Applicants for the public school credential, before qualifying for the credential, must participate in at least one semester of any major instrumental ensemble and one of any major choral ensemble. Applicants who are wind and percussion
specialists must participate in at least two semesters of marching band and one of any major choral ensemble.
5. Participation in all rehearsals and performances of the performing organizations for which the student registers must take precedence over any conflicting activity.
6. Students in Music 31S and 131S through 39S and 139S will appear in student recitals when assigned.
7. Students majoring in music must attend a designated number of recitals or concerts.
8. A senior project is required of all student during their final year. For those whose area of concentration is voice or an instrument, the project will be a public recital; for details, consult the Music Department Office.
9. No course used to satisfy General Education CAPSTONE requirements may be used to satisfy music major requirements.
10. Option II music majors, whose major instrument is piano or guitar or whose concentration is music history or composition/theory, must pass the Level II Jury Exam in one of these areas: voice; violin; viola; cello; contra bass; clarinet; flute; saxophone; oboe; bassoon; trumpet; trombone; horn; tuba; or percussion.
11. Option II students must pass a conducting proficiency examination after completion of Music 158.
12. All undergraduate students must fulfill the upper-division writing skills requirement in order to graduate. Students are expected to meet this requirement the semester after they complete 56 units.

## Minor

The Minor in Music requires completion of at least 20 units of music courses, 6 units of which must be upper division. The program must be approved by the department adviser and the department chair. Required units usually include: Music 9 (or 40 and 41); 6 units of Music 31S and 131S through 39S and 139S; 6 to 9 units in music literature. In addition, students minoring in music must enroll in a major performing organization (see Note 4 on this page) each semester of the junior and senior years.

## Graduate Program

The Master of Arts degree program in music is designed to increase the candidate's professional competence, toincrease the ability for continued self-directed study, and to provide opportunity for greater depth in the chosen area of concentration within the field of music.

Foreign students must have achieved a minimum TOEFL score of 550 to gain entrance to the program. A score of 440 or higher on the Graduate Record Examination (GRE) Advanced Test in Music is required for advancement to candidacy. This test should be taken as early as possible, at least once prior to classification.

## Master of Arts <br> Degree Requirements

(See also Admission to Graduate Standing, Advancementto Candidacy, Program Requirements, and Criteria for Thesis and Project.)
The Master of Arts degree program in music requires a bachelors degree in music or the equivalent. Students must have achieved a minimum score of 450 on the verbal portion or 430 on the quantitative portion of the GRE.
All entering M.A. students must take diagnostic entrance examinations in music history and music theory. Where needed, remedial work may be required prior to graduate study. An audition and/or entrance interview is also required.
Under the direction of graduate advisers, each student prepares and submits a coherent program individually designed within the following framework:
Courses in music, including at least 15 units in 200-series

## Specific requirements

Units
Music 204, 220, 1 music history seminar (Music 260, 267, 277, 287), and Music 211 or another performance class by advisement

## Concentration

Music education, performance, music theory/composition, music history ..9-12 Electives
Courses in music or related fields, including at least 3 units in a subject other than music 4-7
Project or thesis ...................................... 3
Totall .30
Students with concentrations in vocal performance, choral conducting, and music history must satisfy foreign language
requirements (see area adviser). Courses in addition to those above may be specified after examination of the student's record and the student's performance on the diagnostic entrance examination. A maximum of 4 units in Music 102 and 121 taken after completion of the B.A. may be applied to the M.A. degree. A written qualifying examination is required for admission to project or thesis.

## COURSES

## Music (Music)

## Performing Organizations

All performing organization courses may be repeated for credit and are open to both lowerand upper-division students.
The courses below include the technical, stylistic, and aesthetic elements of musical literature; rehearsal and public performance.

2 and 102. Choral Ensembles
(1; repeatable for credit)
Study and performance of choral literature appropriate for groups such as community chorus (CC), chamber singers (CS), jazz singers (JS), men's chorus (MC) and women's chorus (WC). General Education BREADTH, Division 4.

## 3 and 103. Major Performing

Ensembles (2; repeatable for credit)
Study and performance of choral and instrumental literature appropriate for groups such as concert choir (CC), orchestra (O), wind ensemble (WE), marching band (MB), and symphonic band (SB). General Education BREADTH, Division 4.

## 17 and 117. Special Instrumental

Ensembles (2; repeatable for credit)
Study and performance of instrumental literature in certain ensembles whose rehearsals and performances demand awarding of 2 units. These are President's Quintet, Viotti String Quartet, and Zalud Brass Quintet. Admission is by audition only and is accompanied by a scholarship award. (Former Music 130T section)
18 and 118. Instrumental Ensembles (1; repeatable for credit)
Study and performance of instrumental literature appropriate for chamber groups such as brass ensemble (BE), cello ensemble (CE), chamber music ensemble (CM), flute ensemble (FE), guitar ensemble (GE), string ensemble (SE), woodwind ensemble (WWE), keyboard ensemble (KE), and percussion ensemble (PE). General Education BREADTH, Division 4.

21 and 121. Performance Workshops (2; repeatable for credit)
Study and performance of music literature appropriate for groups such as jazz workshop "A" (JWA), jazz workshop "B" (JWB), basketball band (BB), band workshop (BW), opera workshop (OW), percussion workshop (PW), and vocal performance workshop (VPW). General Education BREADTH, Division 4.

## Instrumental and Vocal Lessons

Music 31S and 131S through 39S and 139S include studies in technical, stylistic, and aesthetic elements of artistically performing repertory from the standard literature of etudes, solo, chamber, and large ensemble music. For music majors and minors, concurrent enrollment in an appropriate major ensemble is required. All courses are repeatable for credit. (All courses require a \$20 course fee.)
31S and 131S. Brass (2)
32S and 132S. Percussion (2)
33S and 133S. Strings (2)
35S and 135S. Woodwinds (2)
36S and 136S. Piano (2)
37S and 137S. Harp (2)
38S and 138S. Organ (2)
39S and 139S. Voice (2)
1A. Ear Training and Sight Singing I
(1; max total 2, repeatable for credit)
Basic drill in the singing and recognition of intervals, scales, and diatonic melodies, in treble, bass, alto, and tenor clefs. Dictation of diatonic melodies and counterpoint in first and second species. CR/ $N C$ grading only.
1B. Ear Training and Sight Singing II (1; max total 2, repeatable for credit) Prerequisite: Music 1A. Continuation of Music 1A. Extension of melodic sight singing and dictation to include chromatic passing tones and more complex rhythms. Drill in the singing and recognition of the basic varieties of triads and seventh chords. Harmonic dictation; recognition of basic chord patterns and cadences. CR/NC grading only.

## 9. Introduction to Music (3)

Not recommended for music majors. Theory necessary for the reading, playing, and understanding of music by the layman and the elementary credential candidate. General Education BREADTH, Division 5.

## 40. Theory of Music I (3)

Prerequisite: Music 9 or the ability to read music. Fundamentals of music. Tonal species counterpoint in two and three voices.

## 41. Theory of Music II (3)

Prerequisite: knowledge of music fundamentals (scales, intervals, keys, triads); Music 40 preferred. Harmonic and contrapuntal practice of the 17th and 18th centuries. Development of written skills, concentrating on four-voice choral settings.

## 42. Theory of Music IIII (3)

Prerequisite: Music 41. Continuation of Music 41, with emphasis on 19th century harmonic and contrapuntal practice. Introduction to analytic-reductive techniques.

## 43. Theory of Music IV (3)

Prerequisite: Music 42. Survey of the compositional practice of the 20th century, with analysis of selected works.
48. Composition (3; max total 9)

Prerequisite: permission of instructor. Au-ral-analytic introduction to and study of origins and developments of major compositional concepts and genres in Western music; assigned exercises and creative writing in a variety of styles and idioms; the problems of concepts in notation.

## 58. Basic Conducting (2)

Prerequisite: Music 41. Fundamentals of conducting and score-reading; standard patterns and stick technique. Required of all Single Subject Teaching Credential candidates.
61. Music Literature (2)

Introductory course in music literature, primarily for music majors and minors. Masterpieces of Western music from the Middle Ages through the 20th century.

## 74. Listener's Guide to Music (3)

Exploration of Western classical, jazz, folk, and non-Western musical styles through recordings and live lecture-performances presented by CSUF music ensembles, faculty, and guest artists, emphasizing the roles music and musicians play in various world cultures. General Education BREADTH, Division 5.
119I. Upper Brass Pedagogy (1)
Prerequisite: Music 40, 41. Principles, playing and teaching procedures, and materials for teaching trumpet and horn in the elementary school, high school, and community college. (Course fee, \$20)
119J. Lower Brass Pedagogy (1) Prerequisite: Music 40, 41. Principles, playing and teaching procedures, and materials for teaching trombone, baritone, and tuba in the elementary school, high school, and community college. (Course fee, $\$ 20$ )

119K. Upper String Pedagogy (1) Prerequisite: Music 40, 41. Principles, playing and teaching procedures, and materials for teaching violin and viola in the elementary school, high school, and community college. (Course fee, \$20)
119L. Lower String Pedagogy (1)
Prerequisite: Music 40, 41. Principles, playing and teaching procedures, and materials for teaching cello and string bass in the elementary school, high school, and community college. (Course fee, \$20)
119M. Single Reed Pedagogy (1) Prerequisite: Music 40, 41. Principles, playing and teaching procedures, and materials for teaching clarinet, saxophone, and flute in the elementary school, high school, and community college. (Course fee, \$20)
119N. Double Reed Pedagogy (1)
Prerequisite: Music 40, 41. Principles, playing and teaching procedures, and materials for teaching oboe and bassoon in the elementary school, high school, and community college. (Course fee, $\$ 20$ )
1190. Percussion Pedagogy (2)

Prerequisite: Music 40, 41. Principles, playing and teaching procedures, and materials for teaching percussion instruments in the elementary school, high school, and community college. (Course fee, \$20)
119P. Keyboard Pedagogy (2)
Prerequisite: Music 40, 41. Principles, playing and teaching procedures, and materials for teaching keyboard instruments in the elementary school, high school, and community college.
119Q. Voice Pedagogy (2)
Prerequisite: Music 40, 41. Principles, playing and teaching procedures, and materials for teaching voicein the elementary school, high school, and community college.

## 130T. Topics in Performance

(1-2; repeatable for credit)
Special studies in vocal or instrumental music, including topics such as accompanying, electronic instruments, mixed chamber music.

## 140T. Topics in Theory and

Composition (3; max total 9)
Prerequisite: Music 40, 41, 42, 43. Technical, stylistic, and aesthetic elements of theory and composition.
141. Seminar in Modal Counterpoint (3) Prerequisite: Music 42, 43. Polyphony of the 15th and 16th centuries; analysis and composition of melodic lines, simple counterpoint, types of imitation; writing motets with text in two or more parts.
142. Seminar in Canon and Fugue (3)

Prerequisite: Music 42, 43. Polyphony of the 17th and 18th centuries; analysis and composition of melodic lines, imitative, strict and invertible counterpoint, canon, and fugue.
144. Form and Analysis (3)

Prerequisite: Music 42. Principles of musical form and analysis as applied to standard works of the 18th and 19th centuries. Includes an introduction to the Schenker method of music analysis and review of chromatic harmony as necessary.

## 148. Seminar in Advanced

Composition (3; max total 9)
Prerequisite: Music 42, 43. Seminar in original composition of a thoroughly contemporaneous nature in media, forms, and styles of student's choice.
150A. Seminar in Electronic Music I (3) Prerequisite: Music 40, 41 and permission of instructor. A survey of the history and literature of electronic music. A systematic introduction to basic analog synthesis, and instruction in the techniques of studio recording and editing.
150B. Seminar in Electronic Music II (3) Prerequisite: Music 150A and permission of instructor. Advanced applications of analog synthesis and recording engineering. Emphasis on the individual creative process.
150C. Seminar in Electronic Music IIII (3) Prerequisite: Music 150B and permission of instructor. An introduction to computer applications in digital/analog synthesis. Introduction in multitrack mixing and recording.
150D. Seminar in Electronic Music IV (3) Prerequisite: Music 150C and permission of instructor. Advanced computer controlled digital/analog synthesis. Emphasis on the individual creative process.
153. Children's Music (3)

Open to nonmajors. Introduction to song literature and singing games suitable for children. Development of in-tune singing, ear training, and sightsinging skills.
155. Sound, Rhythm, and Song (3)

Prerequisite: Music 40, 41 for students majoring in music; Music 9 for others. Individual research on the place and functions of music in the preschool and elementary school curriculum; selection, discussion, and analysis of musical materials including state texts; planning activities that enable children to develop aesthetic sensitivity, musical skills, and understanding.

## 158A. Advanced Instrumental

Conducting (2; max total 4)
Prerequisite: Music 58A. Advanced instrumental conducting and score reading; rehearsal techniques; problems in tempo, balance, style, and phrasing; mixed meters and other contemporary problems. Assigned projects in conducting. Required of all Single Subject Teaching Credential candidates in music.

## 158B. Advanced Choral

Conducting (2; max total 4)
Prerequisite: Music 58B. Advanced choral conducting and score reading; rehearsal techniques; problems in tempo, balance, style, and phrasing; mixed meters and other contemporary problems. Assigned projects in conducting. Required of all Single Subject Teaching Credential candidates in music.
159. Marching Band Techniques (2)

Prerequisite: Music 41. Offered first semester only. Practical and creative aspects of producing musical shows and marching formations for athletic events, parades, and public ceremonies. Required of all Single Subject Teaching Credential candidates in music.
160T. Topics in Music History, Literature, and Appreciation (1-3; max total 9) Prerequisite: Music 161A. Study of selected musical genres, composers, and other specialized topics.
160TW. Writing About Music (3)
Prerequisite: Engl 1. Meets upper-division writing skills requirement for graduation.
161A. Survey of Music History I (3)
Prerequisite: Music 61, permission of instructor. Lectures, discussion, and reports on music from the early Middle Ages to approximately 1680. General Education CAPSTONE Cluster.

161B. Survey of Music History III (3)
Prerequisite: Music 61, permission of instructor. Lectures, discussion, and reports on music from approximately 1680 to 1880. General Education CAPSTONE Cluster.

## 161C. Survey of Music History III (3)

 Prerequisite: Music 61, permission of instructor. Lectures, discussion, and reports on music from approximately 1880 to the present.
## 169. Instrumental

## Techniques and Materials (2)

Prerequisite: Music 41. Instrumental music programs in the public schools; principles, procedures, literature, and materials. Expenses for off-campus visits will be incurred
by student. Required of all Single Subject Teaching Credential candidates in music.

## 171. Introduction

to the World's Music (3)
Introduction to the study of music in culture, with examples drawn from the music of various societies, including some combination of art music and folk music of Latin America, North America, Asia, Africa, Western Europe, and the Middle East.
172. Vocal Literature (2)

Prerequisite: Music $40,41,61$, or permission of instructor. For students who major or minor in vocal music. A historical survey of the standard repertoire for the voice. (Former Music 130T section)
176T. Topics in Music Appreciation (3; repeatable for credit)
Listeners' guide to music appreciation; structure and expression, formal designs, stylistic tendencies; musical literature, analysis of representative works. Topics include: choral, wind, brass, percussion, string, chamber, keyboard, orchestral, vocal recital, opera, avant-garde, folk and ethnic, jazz and rock, and musical theatre.

## 179. Choral

Techniques and Materials (2)
Prerequisite: Music 41, 58. Vocal music programs in the public schools; principles, choral techniques, literature, and materials. Expenses for off-campus visits will be incurred by student. Required of all Single Subject Teaching Credential candidates in music.

## 182. Band Arranging (3)

Scoring and arranging for the Band and Wind Ensemble; problems in idiomatic writing for individual instrument and sonorities of instruments in combination. Ranges, transposition, technical capabilities of band and orchestra instruments and the voice.

## 183. Choral Arranging and Lit (3)

Scoring and arranging for various sizes and types of choral ensembles; compositions for most choral idioms are examined and surveyed.
184. Orchestral Arranging (3)

Scoring and arranging for orchestral ensembles; problems in idiomatic writing for the instruments and sonorities of instruments in combination. Ranges, transposition, technical capabilities of band and orchestra instruments and the voice.
185A. Vocal Diction I (2)
Prerequisite: Music 40, 41. For students who major or minor in vocal music. The study of the International Phonetic Alpha-
bet and its application to singers' pronunciation of English, Italian, and Latin. (Former Music 130T section)
185B. Vocal Diction II (2)
Prerequisite: Music 185A. For students who major or minor in vocal music. Singers' diction studies of French and German. (Former Music 130T section)
187. Pop Music: Jazz and Rock (3)

Styles of Pop Music with special emphasis on Jazz and Rock and their influence on life styles. General Education CAPSTONE Cluster.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
191. Readings in Music (1-3)

Prerequisite: permission of instructor. In-depth readings and discussions in individual conferences; subjects to be selected by students and their advisers. May be preliminary research in connection with thesis topic. Approved for $\boldsymbol{S P}$ grading.

## 198. Senior Recital (1-2)

Prerequisite: senior standing, approval of major applied music instructor. Preparation and presentation of a satisfactory senior recital. Required of all graduating performance majors; see Other Departmental Requirements. Approved for SP grading.
199. Senior Project (1-2)

Prerequisite: senior standing, approval of major adviser. Preparation, completion, and submission of a suitable research paper, study, or composition. Required of all graduating seniors in Options Ib, Ic, II. Approved for $\boldsymbol{S P}$ grading.

## GRADUATE COURSES

(See Course Numbering System.)

## Music (Music)

204. Graduate Music Theory Survey (3) Prerequisite: graduate standing. Required of all M.A. candidates in music. A comprehensive survey of the disciplines of harmony, counterpoint, and analysis, with respect to the music of the 18th through 20th centuries, with an emphasis on review and reinforcement. Topics include species counterpoint, figured bass, voice leading, principles of Schenkerian analysis, and basic atonal and twelve-tone theory.
205. Seminar in

Analysis I: Tonal Music (3)
Principles of musical form and analysis as applied to representative works of the 18th and 19th centuries.

## 206. Seminar in

Analysis II: Nontonal Music (3)
Development of a descriptive vocabulary suitable for the music of the 20th century, with special reference to works by Schoenberg, Berg, Webern, and selected American composers.

## 210. Studies in

Performance (2; max total 6)
Open only to master's degree students majoring in performance or to other master's students by permission of instructor. Prerequisite: Music 220 and permission of department chair. Individually directed studies in performing or conducting instrumental or vocal music; historical and theoretical interpretation applied in preparation for public recitals and concerts of works from the standard literature of all periods in the student's major performance area. Approved for $\boldsymbol{S P}$ grading.

## 211. Graduate Performance

Ensemble (2; max total 6)
Prerequisite: graduate standing or permission of instructor. Ensemble performance of instrumental or choral music with emphasis on historical and theoretical interpretation of advanced level literature This course includes technical, stylistic, and aesthetic elements of musical literature, rehearsal, and public performance.
219T. Seminar in Music Education (3; max total 9 if no course repeated) Prerequisite: Music 155, CTET 161 and permission of the instructor. Topics of special concern to the teacher or administrator. Individual research projects and discussion of problems in the area of literature, philosophy, and practices of teaching, administration, and curriculum planning.

## 220. Seminar in Research <br> Methods and Bibliography (3)

Prerequisite: Music 161A, 161B. Bibliography, sources, and research techniques necessary for graduate study in music. Individual projects and research. Required of all students working for the master's degree in music.
221. Foundations of Music Education (3) Historical, curricular, and philosophical foundations of music education. Research in learning theories, teaching strategies, and concept development. Evaluation of contemporary trends and techniques in methodology.
234. Studies in Composition
(3; max totall 9)
Open only to master's degree students majoring in composition. Prerequisite: Music 220. Individually directed studies in composition with contemporary techniques of an extended work equivalent in substance to a sonata, cantata, or other composition of major proportions. Approved for $\$ \mathbf{P}$ grading.

## 258T. Topical Seminars in

Conducting (1-3; max 6)
Prerequisite: Music 158A or 158B. Advanced studies in selected topics related to conducting. Projects with particular attention to rehearsal techniques, score preparation, and interpretation.

## 259T. Topical Seminars in

Vocal Music (1-3; max 6)
Prerequisite: Music 119Q. The study of advanced level song literature, song interpretation, and performance practice as applied to standard and special vocal repertoire.

## 260T. Topic Seminar in

Music History (3; max 9)
Current methods, resources, and issues in music history, with application to specific topics focusing on major Western composers, major genres, landmark works or repertories, issues in musical aesthetics and criticism.
267. Seminar in Contemporary Music (3) Prerequisite: Music 220. Critical and analytical study of the sources, selected works, and composers of the 20th century, with particular emphasis on avant-garde movements and schools. A term paper will be a central requirement for successful completion of this course.
269T. Topical Seminars in
Instrumental Music (1-3; max 6)
Prerequisite: Music 169. The study of advanced level instrumental literature, score interpretation, and performance practices as they apply to standard and special instrumental literature.
277. Seminar in American Music (3)

Prerequisite: Music 220. Critical and analytical study of the historical sources, selected works, and composers in the United States from 1620 A.D. to the present. A term paper will be a central requirement for successful completion of this course.

## 279T. Topical Seminars in

Choral Music (1-3; max 6)
Prerequisite: Music 179. The study of advanced level choral literature, perfor-
mance practices, interpretation, and rehearsal techniques pertinent to various choral ensembles.

## 287. Seminar in

Interpretation of Earlier Music (3)
Prerequisite: Music 220. Historical study of performance practices from the Middle Ages to the early classic era. Individual research projects and class discussions centered on primary theoretical and musical sources.

## 290. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
291. Readings in Music (1-3)

Prerequisite: permission of instructor. Readings in depth and discussions in individual conferences; subject to be selected by student and his adviser. May be preliminary research in connection with thesis topic. Approved for SP grading.

## 298. Project (3)

See Criteria for Thesis and Project. Completion of an approved project appropriate to the candidate's area of specialization. To be used in place of Music 299 for majors in performance, composition, and as an option for majors in music education. The graduate recital, for performance majors, will consist of an approved program containing at least one hour of music. May not be used by students majoring in musicology. Approved for SP grading.
299. Thesis (3)

Prerequisite: See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for SP grading.

## IN-SERVICE COURSES

(See Course Numbering System.)
Music (Music)

## 307. Musical Instrument

Repair (1; max total 3)
Maximum total credit 3 units, provided instrumental groups are not repeated. Criteria for selection; techniques for care and repair of music instruments. Instrumental grouping: brass and percussion; woodwind and strings; piano.

## 309T. Workshop: Vocational

 and Avocational Music Topics (1-3)Topics such as New State Music Textbooks, Elementary School Classroom Instruments, Folk Music and Dancing, Piano Teachers' Workshop, Brass Music, Creative Approaches to Classroom Music, Exploring Sound and Music.

## NATURAL SCIENCE Interdisciplinary Courses

School of Natural Sciences KIN-PING WONG, Dean Science Building, Room 101 (209) 278-3936

The School of Natural Sciences provides a number of natural science courses which include a variety of subjects. These courses help students gain an understanding of science in conjunction with their related disciplines.
The school requires that new faculty possess the appropriate terminal degree recognized in their discipline. The school has 110 permanent faculty with 100 percent holding the doctorate in their discipline granted by some of the most prestigious universities in the nation and abroad.

## COURSES

## Natural Science (N Sci)

1. The Art of Medicine ( $1 ; \max$ total 4 ) Primarily for prehealth care students. Delivery of health care today. Concepts of the art of medicine presented by community physicians and specialists.

## 4. Science and Nonsense:

## Facts, Fads, and Critical Thinking (3)

 Use of language, thought, and logic in science, distinguishing science fact from science fiction. Inductive and deductive methods, judgment, opinion, belief, and knowledge. A critical examination of contemporary pseudoscientific issues (creation "science," UFOs, astrology, etc.). General Education CORE, Critical Thinking.
## 15. Environmental Science:

An Integrative Course (3)
Concurrent enrollment in Biol 15, Geol 15 , and S Sci 15 required. Portion of Man/Woman and the Natural Environment Cluster. A study of the interrelationships among the anthropological, biological, and geological aspects of man/woman and the natural environment. Team taught. CR/NC grading only.
37. Math Confidence (2)
(Same as W S 37.) Concurrent enrollment in a math class commensurate with the student's math achievement level is recommended but not required. This course is designed to increase confidence in math-related problem solving situations and to increase the student's potential for participation in math-related courses and/or careers. $C R / N C$ grading only.

## 40T. Topics in Natural

Sciences (1-4; max total 12)
Prerequisite: permission of instructor. Interdisciplinary topics covering such subject matter areas as environmental studies and the impact of science on society.
100. Chemistry for Liberal Studies (3)

Not open to engineering students. Prerequisite: all General Education CORE courses. Emphasizes chemistry as a process rather than a collection of facts, laws, and theories. Designed especially for students planning careers as elementary school teachers.
101. Biology for Liberal Studies (3) Not open to engineering students. Prerequisite: all General Education CORE courses. Emphasizes biology as a process rather than a collection of facts, laws, and theories. Designed especially for students planning careers as elementary school teachers.
110. Practicum in Medicine (2)

Prerequisite: permission of instructor. Offered in association with the UC Medical Education Program. Premedical students assigned in one or more clinical settings in the community. Emphasis on in-depth association with health professionals for clinical observation and biomedical research experience. (Spring semester)

## 120. Physics and

Astronomy for Liberal Studies (3)
Not open to engineering students. Prerequisite: all General Education CORE courses. Introductory physics and astronomy with emphasis on hypothesis formation, analysis, and testing. Everyday observations and materials will be used to the extent possible to facilitate the transfer of concepts and techniques to the elementary classroom. (2 lecture, 2 lab hours)
140T. Topics in Natural
Sciences (1-6; max total 12)
Prerequisite: permission of instructor. Interdisciplinary topics covering such subject matter areas as medical technology and ecology. (May include lab hours)

## 240T. Topics in Natural

Sciences (1-4; max total 8)
Prerequisite: permission of instructor. Interdisciplinary topics in the natural sciences at the graduate level covering such subjects as advanced techniques. Sample topics are Radiation Techniques in Biology and the Physical Sciences and Recent Advances in Psychophysiology. (May include lab hours)

The process of nursing consists of systematic assessment, planning, implementation, and evaluation of care. Nursing assumes the primary responsibility for providing holistic care to the client by utilizing significant support systems, such as the family and community.
The department offers an undergraduate program which leads to the Bachelor of Science degree in Nursing, a postbaccalaureate Health Services Credential Program in School Nursing, with an option to pursue the master's degree in nursing, and a graduate program leading to a Master of Science degree in Nursing.

## Undergraduate Program

The program requires six semesters of nursing courses in addition to two semesters of prerequisite requirements. The basic General Education requirements are the same for all majors. Upon completion of the sixth semester clinical course sequence, the student is qualified to take the National Council Licensure Examination (NCLEX-RN) and apply for
the Public Health Nurse Certificate issued by the California Department of Health. CSU, Fresno's nursing program is accredited by the California Board of Registered Nursing and the National League for Nursing (NLN).

## Clinical Facilities

A wide variety of clinical resources is used, including Fresno Community Hospital and Medical Center, St. Agnes Medical Center, Valley Children's Hospital, Veteran's Administration Medical Center, Kings View Center, Valley Medical Center, Central Valley Indian Health, Associated Indian Services, Hope Manor, Armenian Home, and the health departments from Fresno, Madera, Kings, and Tulare counties.

## Advanced Placement in the Nursing Major

Students seeking advanced placement must seek advisement from the department. Students are expected to meet all prerequisites for admission and meet filing deadlines specified for undergraduate students.

School of Health and Social Work Department of Nursing PAULINE KLIEWER, Chair

(209) 278-2041

## B.S. in Nursing

School Nurse Health Services Credential M.S. in Nursing

Options:
Administration
Clinical Specialization
Education
Nurse Practitioner

Registered Nurses with an associate degree in nursing may articulate at the junior level in the major. Registered nurses from diploma programs may seek advanced placement through credit by examination (see Academic Placement Credit by Examination).
Registered nurses are in a separate admission pool from the generic nursing applicants.
Licensed Vocational Nurses are offered three options:

1. Generic Nursing Program
2. Transfer/Credit by Examination
3. Thirty-Unit Option (nondegree)

Health Related Personnel. Medical corpsmen, psychiatric technicians, and others are eligible for credit by examination under the university's policy as outlined in the current catalog.

## Policies and <br> Procedures for Admission

Admission to the generic program is a twostep process: 1) admission to the university and 2) admission to the nursing major. Approximately 65 generic and 20 advanced placement R.N. students are admitted both fall and spring semesters. A separate nursing major application must be submitted to the Office of Admissions where all applications to the major are screened. Applicants must meet all criteria for admission to the university and to the nursing major.
All prerequisites MUST be completed by the time of planned enrollment in the nursing major. No prerequisites can be taken concurrently with the nursing major.

1. Students applying to the university must do the following:
a. File an application for admission to CSU, Fresno with the application fee by the deadline.
b. Submit required transcripts by document deadline.
c. Transfer students with fewer than 56 transferable semester units must file ACT or SAT scores and a high school transcript by the document deadline.
2. Transfer students, as well as CSU, Fresno students, must submit a nursing major application by the application deadline. Applicants must have recorded grades for at least two natural science prerequisites by the document deadline.
3. A grade of $C$ or higher must be achieved in each prerequisite course with a maximum of one repeat per course. $C R / N C$. grades are not acceptable.
4. Specific health criteria must be met. Students with recurrent infections or physical limitations that preclude meeting clinical course objectives may be unable to satisfactorily complete the requirements for a B.S. in Nursing. Contact the Nursing Department regarding any questions.
5. Transfer students who meet the criteria are considered on the same basis as a CSU, Fresno student applying for admission to the major.

## University and Nursing <br> Applications and Document Deadlines for B.S. Degree

For an application form and further admissions information, write to the Office of Admissions, California State University, Fresno. For further information regarding curricula, write to the Department of Nursing, California State University, Fresno, 2342 East San Ramon, Fresno, CA 93740-0025.

Fall Admission. Application forms are available November 1.

- University Application Filing Deadline: May 1
- Nursing Major Application Deadline:

June 1.* (Applications are available from the Admissions Office.)

- Document Deadline (transcripts, scores, etc.): June $1^{* *}$
Spring Admission. Application forms are available August 1.
-University Application Filing Deadline: October 1
- Nursing Major Application Deadline: November 1.* (Applications are available from the Admissions Office.)
- Document Deadline (transcripts, scores, etc.): November $1^{* *}$

## Notes

* Applications may close early when enrollment quotas are reached.
** New transcripts must include all prior coursework including the previous spring and summer terms. Final transcripts must be submitted as soon as possible in January showing the completion of all remaining prerequisite courses.
Progression in the Major. Criteria for retention, progression, and graduation from the program include a minimum grade of $C$ in each required course and each nursing course offered for a grade, and credit in courses offered for CR/NC grading only. Nursing and required courses may be repeated only once to achieve a $C$ or credit grade. Any student who receives less than a $C$ grade (or no credit) in two nursing courses will not be permitted to continue in the major. Refer to the Student Handbook, Baccalaureate Degree Nursing Program, for complete progression and retention policies.

Expenses. Students must be prepared to incur any additional cost such as uniforms, malpractice insurance, health insurance, stethoscopes, course syllabi, lab fees, etc., and be responsible for transportation to clinical facilities. A current CPR certification is required.

## Bachelor of Science Degree Requirements

## Nursing Major <br> Units

Major requirements* ..................... 65
Select one program:
Generic students. $\qquad$
Nurs 10, 10L, 10S, 110, 110L, 110S, 112, 121, 121L, 123, 123L, 124, 131, 131L, 132, 132L, 133, 140, 140L, 141, 141L, 141S, 145, 150, 150L, 151, 180T (2 units)
RN students only $\qquad$
Nurs 112, 135, 136, 140, 140L, 141, 141L, 141S, 145, 150, 150L, 151; nursing electives; 30 transfer nursing units
Prerequisite requirrements .32
Courses which must be completed before entrance into the nursing major: Chem 3A; Phy 64 and 65; FScN 52 or 53; Micro 20 or 104; Engl 1; Psych 10; Anth 2 or Soc 1, 2, or 3; Spch 8 preferred (or Spch 3 or 7)
Addlitionall requuirements $\qquad$
Courses which are prerequisite to specific nursing courses: Critical Thinking course; CFS 38; Phil 120; 3 units of ethnic/ women's studies; Introduction to Statistics: H S 92 or Math 11 (recommended) - consult nursing course descriptions
Generall Education .51 (See Notes 1-2)
Minimumm Totall** ........................ 130

[^33]
## Advising Notes

1. Several prerequisite units also may be used to satisfy General Education requirements.
2. Most of the units in additional requirements may be used to satisfy General Education requirements, including Micro 20 or 104 that fulfills the Division 2 requirement only for nursing majors.
3. Students must complete the upperdivision writing skills requirement in order to graduate.
4. Optional $C R / N C$ grading is not permitted in the nursing major.
5. Students are strongly encouraged to seek academic advising every semester. Contact the department office for an appointment.
6. A $2 \frac{2}{3}$ or 3 unit transfer introduction to psychology class is accepted in lieu of Psychology 10. Also, 4 quarter-unit classes are accepted as equivalent to 3 semester-unit classes.
7. All practicum courses (with suffix " S " or " L ") require a minimum of three hours of clinical per unit of credit as a minimum to meet course objectives.

## Postbaccalaureate <br> Health Services Credential <br> Program - School Nursing

The Health Services Credential Program provides basic preparation for professional roles in school nursing. The program, approved by the California Commission on Teacher Credentialing, leads to the Professional Health Services Credential. The Department of Nursing, in conjunction with the School of Education and Human Development, recommends qualified candidates for credentialing as providers of health services in California public schools (preschool, K-12, adult).
The program of study consists of a minimum of 30 units. Courses taken in NLN accredited baccalaureate programs may be accepted for the credential at the discretion of the Department of Nursing.

Nurs 186 School Nurse
Practicum I (elementary)* ...
Nurs 187 School Nurse
Practicum II (secondary)* ...
*Courses only available through regular enrollment in the university following acceptance into the Credential Program.

Note: A minimum of 15 units in the credential program must be taken on the CSU, Fresno campus. The use of any comparable course is contingent upon departmental approval. Coursework taken more than 10 years ago is not acceptable to meet program requirements.
A maximum of 9 units is allowed through courses taken in Extended Education or concurrent enrollment.
Proof of current malpractice insurance and a health clearance are required prior to enrollment in Nurs 186 and 187. Health clearance is obtained through Student Health Services.
The student must hold either a Certificate of Clearance or a Preliminary Health Services Credential prior to enrollment in Nurs 186 and 187. Contact the credentials analyst,Ed/Psych Building, Room 120, (209) 278-3084, for application information.
All admission requirements (credential program application form, admission to the university, all documents, and prerequisites) must be completed prior to enrollment in any of the nursing courses.

## Admission Criteria

1. Baccalaureate degree in nursing from a NLN accredited program
2. Admission to the university at the postbaccalaureate level
3. Current California Registered Nurse License
4. California Public Health Nurse Certificate
5. Overall GPA of 2.5 and 3.0 in nursing
6. Three satisfactory letters of recommendation (at least one from a recent employer or nursing faculty)

## Admission Procedure

1. Complete application for admission to postbaccalaureate standing, Admissions Office, Joyal Building. Forward copy of application to Department of Nursing, health services coordinator.
2. Complete Credential Program application (available from the Department of Nursing).
3. Attach transcripts of previous academic work.
4. Attach photocopies of required documents (R.N. License, P.H.N. Certificate).
5. Submit three letters of reference/recommendation (forms available from Department of Nursing).
6. Complete locator card in School of Education and Human Development,

Credential Analyst's Office, Ed/Psych Building, Room 120.
7. Arrange appointment with coordinator, Health Services Credential Program, for program planning/advising.
Note: All candidates are required to sign a statement on the application form regarding conviction or plea of nolo contendere for any violation of law other than minor traffic offenses.
Candidates with conviction may be refused a Health Services Credential. For further information, contact the credentials analyst, Ed/Psych Building, Room 120, (209) 278-3084.
Time Restrictions. All requirements for a Professional Health Services Credential must be completed within five years of the date of issuance of the preliminary credential.

## Articulation with <br> Graduate Program

Students who wish to pursue a master's in nursing must consult the graduate curriculum coordinator. Articulation with options in clinical specialist/community health or primary care/pediatric nurse practitioner are available.

## Graduate Program

The department offers a NLN accredited program that leads to a Master of Science degree in Nursing. In addition to advanced practice in a clinical area, students elect a functional role as administrator, clinical specialist, educator, or practitioner.
The purpose of nursing education at the master's level is to help students apply advanced theory and practice with advanced skills in complex client and community systems. It further seeks to provide students with advanced skills in leadership and research in order to improve the health care of individuals, families, and communities. The program provides a foundation for doctoral study in nursing.
Facilities. The diverse facilities of the community provide a wide variety ofstimulating opportunities for individualized pursuit of student goals. Graduate and postbaccalaureate students have clinical placements which are consistent with their career goals.

## Admission Criteria

1. Admission to California State University, Fresno, Division of Graduate Studies and Research
2. Baccalaureate degree in nursing from an NLN accredited program
3. Registered nurse license in California (may be waived for nurses licensed in another country)
4. Overall GPA of 2.5 with 3.0 in nursing
5. GRE score of 450 (verbal) or 430 (quantitative)
6. Malpractice insurance
7. Three letters of reference (at least one from a recent employer, and if possible one from a recent nursing instructor)
8. A minimum of one year of clinical practice as a registered nurse
9. An introductory course in statistics*
10. An introductory course in research*
11. A physical assessment course that includes theory and practice; or validation of knowledge and skills for graduates of programs with integrated content

## Admission Procedures

1. Request and complete application for admission to graduate standing from Admissions Office, CSU, Fresno.
2. Request official transcripts of previous academic work to be forwarded to Admissions Office.
3. Arrange to take Graduate Record Examination. If in Fresno, contact CSU, Fresno's Division of Graduate Studies and Research.
4. Request and complete the application form for the Nursing Department.
5. Forward three letters of recommendation to:
Graduate Program Coordinator Department of Nursing California State University, Fresno 2342 East San Ramon
Fresno, California 93740-0025
Admission to the program is limited to the fall semester; students with deficiencies are encouraged to meet the requirements in the previous spring semester.
DEADLINE FOR APPLICATION FOR ADMISSION TO THE PROGRAM IS APRIL 15.
Courses. Under the direction of the graduate coordinator, each student prepares and submits an individually designed program based on the following:

Units
Core courses in nursing ....................... 17
Nurs 223, 224, 225, 226, 228, 229; Soc 174
Approved cognates** .3
Role specialization courses ................... 13 (see below)
Thesis (Nurs 299) or Project (Nurs 298) .. 3
Minimum Total 36

## Role Specialization (Options)

Nursing Administration
Nurs 240, 242, 243; Bus 214 or
GPA 210 (cognate)
Nursing Education
Nurs 230, 232, 234; COUN 203
(cognate)
Clinical Specialization
Nurs 250, 251; 7 units clinical cognates
Primary Care Nurse Practitioner
Family
Nurs 210, 265, 266, 267, 277, 278
Pediatric
Nurs 210, 265, 266, 269, 279, 280
Geriatric
Nurs 210, 265, 266, 271, 281, 282
Note: All practicum courses require a minimum of three hours of clinical work per unit of credit as a minimum to meet course objectives.
Nurs 224 must be completed prior to taking the Department Qualifying Examination.
Advancement to candidacy is contingent on passing the Department Qualifying Examination. The Department Qualifying Examination is also used to meet the university writing requirement.
Graduate students are responsible for policies and regulations of the Division of Graduate Studies and Research and those specified in the graduate nursing program brochure.

## Master of Science in Nursing

Registered Nurses with a Baccalaureate Degree in a Field Other Than Nursing
This program is open only to students eligible for admission to graduate standing at CSUF, who have completed a nursing program in an accredited school, are registered, or eligible for registration as nurses in the state of California and who hold a bachelor's degree in a related field from an accredited university.
For admission to the M.S.N. program, students are required to meet the following criteria in addition to the regular criteria set for admission to the M.S.N. program:

1. Submission of resume of all past educational and employment experience. Resume should emphasize experience in leadership, community health, research, and writing for publication.

[^34]2. Review of resume by the graduate coordinator of the Nursing Department who establishes nursing courses the student must complete to obtain a comparable background to students graduating with a B.S.N. at CSUF.
3. Satisfactory completion of the individualized program established by the coordinator before enrolling in the regular M.S.N. program.

## Nurse Administrator

The Nurse Administrator option prepares the graduate to assume leadership roles in nursing service organizations. The administration seminars and practicum focus on organization and management theories.
The purpose of the Nurse Administrator option is to prepare knowledgeable and responsible nursing leaders who assume the authority and accountability for the development of nursing service policies and who foster the participation of nursing staff in planning, implementing, and evaluating practice to ensure safe, efficient, and therapeutically effective care.

## Nurse Educator

The Nurse Educator option prepares the graduate to assume teaching roles within an academic or clinical setting. Students elect specific seminars in nursing education and curriculum instruction, as well as an area of clinical focus such as adult/child, community health nursing, or community mental health nursing. The student actualizes the role of the nursing educator in the practicum in nursing education.
The purpose of the Nurse Educator option is to prepare knowledgeable, visionary, and action-oriented nursing scholars committed to educating today's nurses for tomorrow's changing world and to generate an academic community concerned with the development and emergence of theoretical and scientific concepts related to nursing practice.

## Clinical Nurse Specialist

The Clinical Nurse Specialist option prepares the graduate to assume a leadership role with advanced skills, knowledge, and competence in a specific area of clinical nursing. Students in this option actualize the role of the clinical specialist in a clinical setting with a master's prepared nurse preceptor. The student is responsible for writing objectives for the experience prior to the clinical placement. Arrangement for clinical placement is made after consultation with the appropriate faculty.

The purpose of the Clinical Nurse Specialist option is to prepare nurses to prescribe and implement both direct and indirect nursing care and to articulate nursing therapies with other nursing personnel and other health providers.

## Nurse Practitioner

The Nurse Practitioner option prepares the graduate to provide primary health care to children, the elderly adult, and families. Classroom and clinical experiences focus on health assessment, health maintenance, and promotion, counseling, client education, and management of selected health problems. Practice in rural settings and with clients from diversified cultural backgrounds is emphasized.
Graduates meet the requirements for recognition as Pediatric, Geriatric, or Family Nurse Practitioners in California and may apply for ANA Certification.
The purpose of the Nurse Practitioner option is to prepare nurses as specialists in primary care and to improve the availability, accessibility, and quality of primary care services in the central San Joaquin Valley.

## COURSES

## Nursing (Nurs)

8T. Beginning Topics in Nursing
(1-3; max total 6 if no topic repeated)
Not available for credit in the nursing major. Selected topics in nursing for prenursing and/or beginning nursing students. Explores topics not covered in regular nursing courses.

## 10. Basic Concepts

## of Nursing Practice (4)

Prerequisite: admission to the major; Nurs 10L, 10S concurrently. Overview of theoretical and scientific foundations of nursing practice. Introduction to physiological, psychological, sociocultural, and developmental variables affecting individuals throughout the life span. Emphasis on basic concepts of pharmacotherapeutics and wellness promotion throughout the life span.

## 10L. Practicum in Basic

Concepts of Nursing Practice (2)
Prerequisite: admission to the major; Nurs $10,10 S$ concurrently. Utilization of concepts from Nurs 10 in selected health wellness settings. Supervised practice of health assessment, communication skills, and noninvasive nursing procedures. $C R /$ NC grading only. (6 clinical hours)

10S. Basic Skills in Nursing I (1)
Prerequisite: admission to the major, Nurs 10, 10L concurrently. Application of concepts from Nurs 10 in simulated client situations, emphasis on assessment and interventions required to assist individuals in meeting their common health needs. (3 lab hours)
50. Cooperative Education in Nursing (1-5; max total 12; 80 hours/unit)
Prerequisite: current CPR certification; health clearance; Nurs 10, 10L, 10S. Provides students enrolled in the nursing major an opportunity to obtain structured work-study experiences, under the supervision of registered nurses, in participating health care agencies. Opportunities for additional practice and development of confidence through application of previously learned knowledge and skills. $C R /$ NC grading only; not applicable toward degree requirements.
110. Basic Concepts in Nursing II (3)

Prerequisite: Nurs 10, 10L, 10S; CFS 38. Corequisite: Nurs 110L, 110S, 112. Application of basic pathophysiology, pharmacotherapeutics, and assessment of clients across life span with emphasis on primary and secondary interventions, utilization of nursing process in care of clients with common health deviations.

## 110L. Practicum in

Basic Concepts of Nursing II (2)
Corequisite: Nurs 110, 110S, 112. Application of nursing process to clients with common health deviations. Identification of risk factors associated with stressors and provision of nursing care directed toward primary and secondary interventions. (6 clinical hours)
110S. Basic Skills in Nursing II (2)
Corequisite: Nurs 110, 110L, 112. Integration of knowledge and skills necessary for application in specific nursing diagnostic areas; emphasis on understanding the principles underlying the techniques and procedures required by clients with common health deviations. (6 lab hours)
112. Nursing Therapeutics (2)

Prerequisite: Nurs 10, 10L, 10S. Corequisite: Nurs 110, 110L, 110S. Study of the inter, intra, and extrapersonal stressors leading to alterations in cardiac function, comfort, coping, elimination, immune response, metabolism, mobility, nutrition, respiration, and role performance and the implications for nursing practice. (First offering: Spring 1992)

## 121. Nursing Care of the

 Emotionally Disturbed Client (2)Prerequisite: Nurs 110, 110L, 110S, 111. Corequisite: Nurs 121L, 123, 123L, 124. Current theories and concepts in the care of clients with behavioral and emotional disturbances. (Former Nurs 104)
121L. Climical Practice in Nursing of the Emotionally Disturbed Client (3) Corequisite: Nurs 121. Application of the nursing process to clients demonstrating major behavioral and emotional disturbances. CR/NC grading only. (6 clinical, 3 lab hours) (Former Nurs 104L)

## 123. Concepts of

Acute Illness in Adults (2)
Prerequisite: Nurs 110, 110L, 110S, 112. Corequisite: Nurs 123L. Secondary prevention of the acutely ill adult client/ family with alterations in structure, energy, and resources due to intra, inter, and extrapersonal stressors upon flexible and normal lines of defense. Emphasis on the nursing process for reconstitution. (Former Nurs 102; Nurs 130)
123L. Clinical Practicum:
Acute Illiness in Adults (3)
Corequisite: Nurs 123. Application of nursing process in secondary prevention and care of acutely ill adults. $C R / N C$ grading only. (6 clinical, 3 lab hours) (Former Nurs 102; Nurs 130L)
124. Pharmacology in Nursing (2)

Prerequisite: Nurs 110, 110L, 110S, 112. Pharmacological theory required for effective nursing practice. Principles of pharmacokinetics and pharmacodynamics. (First offering: Spring 1992) (Former Nurs 180T section)

## 131. Nursing of the

 Childrearing Family (2)Prerequisite: Nurs 121, 121L, 123, 123L, 124. Corequisite: Nurs 131L, 132, 132L. Introduction to current theories and concepts in the care of the pediatric client/ family with emphasis on wellness and illness. (Former Nurs 100)

## 131L. Clinical Practice in

Nursing of the Childrearing Family (3) Corequisite: Nurs 131. Application of specific skills, theories, and concepts in the care of the pediatric client/family with emphasis on wellness and illness. CR/NC grading only. ( 6 clinical, 3 lab hours) (Former Nurs 100L)

## 132. Nursing the

Childbearing Family (3)
Prerequisite: Nurs 121, 121L, 123, 123L, 124. Corequisite: Nurs 131, 131L, 132. Theoretical base and clinical knowledge for application in primary and secondary prevention in the nursing of the childbearing family. Introduction to high risk perinatal nursing. (Former Nurs 101; Nurs 120)

## 132L. Clinical Practice in

Nursing of the Childbearing Family (2)
Corequisite: Nurs 132. Application of knowledge and technical skills in the nursing of the childbearing family during the intrapartum and postpartum periods with emphasis on the family as a unit. CR/ NC grading only. (6 clinical hours) (Former Nurs 101L; Nurs 120L)
133. Issues in Nursing (2)

Prerequisite: Nurs 110, 110L, 110S; Phil 120; Critical Thinking course. Clinical and professional issues relevant to the practice of professional nursing. Emphasis on ethical, legal, historical, economic, and sociopolitical issues. (First offering: Spring 1993)

## 135. Professional Transition (3)

Prerequisite: admission to the major with advanced standing. Introduction to theoretical and conceptual frameworks in nursing. Application to individual nursing practice. Opportunities for peer group support. Socialization into a B.S.N. program. (Former Nurs 180T section)
136. Health Appraisal (3)

Health appraisal integrates psychosocial and pathophysiological processes including techniques of history taking and health assessment in nursing practice and knowledge of normal findings as well as common deviations. (2 lecture, 2 lab hours)

## 137. Teaching Strategies

for the Health Care Client (2-3)
Prerequisite: upper-division status. Exploration of nurses' role as a teacher in health care setting. Principles of teaching and learning applied to teaching of individuals and groups. Opportunities for micro-teaching are provided. (Laboratory optional) (Former Nurs 220)
140. Concepts of

Complex Clinical Nursing (2)
Prerequisite: Nurs 131, 131L, 132, 132L, 133. Corequisite: Nurs 140L, 141, 141L, 141S, 145 . Theory and concepts relative to care of clients with complex health problems. Emphasis on synthesis of concepts and principles derived from nursing and other disciplines in implementation of
primary, secondary, and tertiary prevention for clients of all ages. (Former Nurs 103)

## 140L. Practicum in

Complex Clinical Nursing (2)
Corequisite: Nurs 140. Clinical application of concepts and nursing process in care of clients of all ages with complex health problems. (6 clinical hours) (Former Nurs 103L)

## 141. Concepts in

Community Health Nursing (2)
Prerequisite: General Education Division 9: Other Cultures; Pl Si 2 or 101; Nurs 131, 131L, 132, 132L, 133. Corequisite: Nurs 140, 140L, 141L, 141S, 145. Introduction to the philosophy, principles, and practice of community health nursing. Concepts and methods reflect a holistic perspective of man/woman and the environment; understanding of the nursing process as applied to the community. (Former Nurs 128A)

## 141L. Practicum in

Community Health Nursing (3)
Corequisite: Nurs 141, 141S, 145. Application of primary, secondary, and tertiary prevention in the community with individuals, families, and groups. (9 clinical hours) (Former Nurs 128AL)

## 141S. Activities in

Community Health Nursing (1)
Corequisite: Nurs 141, 141L, 145. Discussions and presentations of the implementation of primary, secondary, and tertiary nursing prevention in the community with individuals, families, and communities. (3 clinical hours)
145. Nursing Theories and Research (3) Prerequisite: statistics, Nurs 131, 131L, 132, 132L, 133. Corequisite: Nurs 140, 140L, 141, 141L, 141S. Application of nursing theories and the research process to nursing practice are explored. Focus includes historical evolution of contemporary theories in nursing, critique of current research, and computer applications to research. (Former Nurs 125)

## 150. Concepts of Leadership

 and Role Development (4)Prerequisite: Nurs 140, 140L, 141, 141L, 141S, 145. Corequisite: Nurs 150L, 151. Synthesis of concepts basic to development of a nurse generalist; emphasis on leadership and management skills; provides conceptual base for continuing professional development. (Former Nurs 106; Nurs 128B)

## 150L. Practicum in

Leadership and Role Development (4) Corequisite: Nurs 150, 151. Development of leadership/management skills and role development. Care of selected population of clients in a variety of care settings. (12 clinical hours) (Former Nurs 106L, 128BL)
151. Senior Project (2)

Prerequisite: Nurs 140, 140L, 141, 141L, 141S, 145. Corequisite: Nurs 150, 150L. Opportunity for students to build upon conceptual, theoretical, and research knowledge base. Students pursue in-depth study and practical application in areas of interest: management, conflict resolution, application of nursing theories, research, or community project.

## 180T. Topics in Nursing (1-3;

max total 12 if no topic repeated)
Selected topics such as aging, holistic nursing, transcultural nursing, assertiveness training for nurses, psychosocial aspects of nursing, etc. Some topics may have clinical component.
185. School Nurse Seminar (3)

Prerequisite: Nurs 136, Psych 168 or C D 114 or SPED 160 and SPED 160F; admission to HealthServices Credential Program. Role of nurse in school health program; school health practice within legal/administrative parameters and effective use of resources.
186. School Nurse Practicum I (3)

Prerequisite: Nurs 137; COUN 174 or COUN 200; audiometrist certificate; Nurs 185 prior to or concurrently. School health services in elementary school; direct supervision by credentialed nurse required; scheduled conferences with preceptor and faculty. (9 clinical hours)
187. School Nurse Practicum II (3)

Prerequisite: Nurs 137; COUN 174 or COUN 200, audiometrist certificate; Nurs 185 prior to or concurrently. Provide full range of school health services in secondary school; supervision by credentialed nurse required. Participate in special projects. Periodic conference with preceptor and faculty. (9 clinical hours)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading.

GRADUATE COURSES
(See Course Numbering System.)
Nursing (Nurs)
210. Primary Care Techniques (2)

Prerequisite: Nurs 136 or equivalent,
pathophysiology, admission to the Graduate Program in Nursing. Refinement of primary care techniques in interviewing, history taking, and physical assessment for nurses in expanded roles. Primary care laboratory techniques and interpretation of laboratory findings, health screening and selected secondary prevention strategies, and pharmacology. (1 lecture, 3 practicum hours)

## 223. Advanced Research

 Methodology in Nursing (3)Prerequisite: admission to Graduate Program in Nursing; H S 92 (statistics) or equivalent. In-depth study of research principles and techniques. A major requirement is the completion and submission of a research proposal.

## 224. Theories in Nursing (3)

Prerequisite: admission to Graduate Program in Nursing. Selected nursing theories are described and evaluated. Theory construction, theory critique with comparative analysis of extant nursing theories, the relationship between theory and research, and the utility of nursing theory for practice, education, and administration are explored.
225. Role Transitions in Nursing (2)

Emerging trends and universal aspects of advanced roles in nursing are examined. Appropriate theory, research and evaluation strategies are interpreted and applied to nursing practice, education, and administration. Concepts of collaboration, consultancy, teaching, leadership, and research are emphasized. (Former Nurs 261)
226. Analysis of Nursing Issues (2)

Prerequisite: admission to Graduate Program in Nursing. The evolution of major issues relevant to nursing are analyzed within the context of social, political, economic, and historical perspectives.

## 228. Seminar in

Advanced Clinical Nursing (3)
Prerequisite: Nurs 224. Conceptual models of family and community systems are analyzed in relation to health promotion, restoration, and maintenance. Neuman's Health Care Model is evaluated in conjunction with other theories. Epidemiological and ecological frameworks with implications for primary, secondary, and tertiary nursing interventions are addressed. (Former Nurs 201)

## 229. Practicum in <br> Advanced Clinical Nursing (3)

Prerequisite: Nurs 224, Nurs 210 (for nurse practitioner students); Nurs 228 prior to or
concurrently. Applications of individual, family, and community systems theories and health appraisal skills in clinical practice settings. Transcultural and intergenerational factors are addressed. Creative strategies to clientsystems problem solving are implemented through application of theoretical models across interdisciplinary practice settings.
230. Seminar in Nursing Education (3)

Prerequisite or corequisite: Nurs 224. Analysis of educational issues in nursing; theories and methods of teaching in classroom and clinical instruction. (Former Nurs 231)

## 232. Curriculum

Development in Nursing (3)
Prerequisite or corequisite: Nurs 224; COUN 203. Analysis of basic curricular concepts, theories, and philosophies in designing nursing curricula. Incorporation of Neuman's Health Care Model and other nursing theories with nursing curricula are examined. (Former Nurs 222)
234. Practicum in Nursing Education (4) Prerequisite: Nurs 224, 228, 229; COUN 203; Nurs 230 prior to or concurrently. Implementation of a philosophy of nursing education and teaching-learning strategies are required. Under the preceptorship of a master educator, the learner participates in all aspects of instructional design, planning, implementation, and evaluation. (Former Nurs 264)
240. Professional and Legal Aspects of Health Care for the Nurse Executive (2) Prerequisite: admission to Graduate Program in Nursing. Professional standards, quality assurance regulations, and legal concerns related to executive nursing management are examined. Emphasis is on assisting the student in developing strategies for nursing executive decision making and problem solving.

## 242. Seminar in

Nursing Administration (2)
Prerequisite or corequisite: Nurs 224. Principles and practices related to executive nursing management and marketing of health care organizations are identified. Human and financial resources management in health care organizational systems is examined. Advanced management concepts relevant to the nurse executive manager are analyzed.

## 243. Practicum in

Nursing Administration (3)
Prerequisite: Nurs 224, 228, 229; Nurs 242
and Bus 214 prior to or concurrently. Ap-
plication of principles related to nursing executive management and health care marketing. Human and financial resource management, knowledge of professional standards, quality assurance, and legal concerns related to executive nursing management are examined in a practicum setting. (Former Nurs 262)

## 250. Seminar in

Clinical Specialization (2)
Prerequisite: Nurs 224, 228, 229. Advanced concepts of individual, family, and community theory are analyzed in relation to the health promotion and reconstitution process of dysfunctional individuals, families, and communities.

## 251. Practicum in <br> Clinical Specialization (4)

Prerequisite: Nurs 224, 228, 229; Nurs 250 prior to or concurrently. Application of advanced concepts of family behavior and community development in clinical practice settings. Family and group process theories are applied to nursing, client, and staff groups. (Former Nurs 263)

## 265. Nurse Practitioner

Role in Primary Prevention (1)
Prerequisite: Nurs 210, 224; Nurs 228 prior to or concurrently. Corequisite: Nurs 229. Theoretical base for primary prevention: health maintenance, health promotion, health screening, health teaching, and anticipatory guidance for nurse practitioners. Case management techniques utilizing protocols/algorithms.

## 266. Nurse Practitioner

Role in Secondary Prevention (2)
Prerequisite:Nurs 228,229,265.Theoretical base of secondary prevention in primary care settings. Assessment and management of acute self-limiting conditions. Use and development of algorithms/protocols for secondary prevention. Intensive pharmacology for nurse practitioners.

## 267. Practicum in Secondary Prevention, Family Nurse Practitioner (4)

 Prerequisite: Nurs 228, 229, 265; Nurs 266 prior to or concurrently. Supervised clinical practice in a primary care setting with emphasis on secondary prevention for clients of all ages. Students work directly with preceptor and faculty member. Complete assessment and case management. (One hour clinical conference per week.)269. Practicum in Secondary Prevention, Pediatric Nurse Practitioner (4) Prerequisite: Nurs 228, 229, 265; Nurs 266 prior to or concurrently. Supervised clinical practice in a pediatric primary care
setting with emphasis on secondary prevention. Students work directly with a preceptor and faculty member. Complete assessment and case management. (One hour clinical conference per week.)
270. Practicum in Secondary Prevention, Geriatric Nurse Practitioner (4) Prerequisite: Nurs 228, 229, 265; Nurs 266 prior to or concurrently. Application of knowledge related to management of acute, self-limiting and stable chronic conditions/families.

## 277. Family Nurse Practitioner

Role in Tertiary Prevention (1)
Prerequisite: Nurs 266, 267. Theoretical base for tertiary prevention for families in primary care settings. Assessment and management of chronic conditions requiring reconstitution. Development of protocols/algorithms for tertiary prevention. Integration of knowledge related to primary, secondary, and tertiary prevention.
278. Practicum in Tertiary Prevention, Family Nurse Practitioner (3) Prerequisite: Nurs 266, 267; Nurs 277 prior to or concurrently. Supervised clinical practice in a primary care setting with emphasis on care of clients of all ages requiring tertiary prevention. Students work directly with a nurse practitioner and/or physician preceptor in a primary care setting. (One hour clinical conference per week.)
279. Pediatric Nurse Practitioner

Role in Tertiary Prevention (1)
Prerequisite: Nurs 266, 269. Theoretical base for tertiary prevention for children in primary care settings. Assessment and management of chronic conditions requiring reconstitution. Development of protocols/algorithms for tertiary prevention. Integration of knowledge related to primary, secondary, and tertiary prevention.
280. Practicum in Tertiary Prevention, Pediatric Nurse Practitioner (3) Prerequisite: Nurs 266, 269; Nurs 279 prior to or concurrently.Supervised clinical practice in a primary care setting with emphasis on care of children requiring tertiary prevention. Students work directly with a nurse practitioner and/or physician preceptor in a primary care setting. (One hour clinical conference per week.)
281. Geriatric Nurse Practitioner Role in Tertiary Prevention (1)
Prerequisite: Nurs 266, 271. Theoretical base for tertiary prevention for older adults
in primary care settings. Assessment and management of chronic conditions requiring reconstitution. Development of protocols/algorithms for tertiary prevention. Integration of knowledge related to primary, secondary, and tertiary prevention.
282. Practicum in Tertiary Pre-
vention, Geriatric Nurse Practitioner (3) Prerequisite: Nurs 266, 271; Nurs 281 prior to or concurrently. Supervised clinical practice in assessment and management of acute, self-limiting, and stable chronic conditions of individuals and families.
288T. Seminar Topics in Advanced
Clinical Nursing (1-3; max total 9)
Prerequisite: permission of instructor. Selected topics in specialized practice domains such as home health, cardiovascular, oncology, gerontologic, and rehabilitation nursing. Analysis and integration of research-based knowledge into the nursing process characterizing the specific practice domain are emphasized.
290. Independent Study
(1-3; max total 3)
See Academic Placement - Independent Study. Approved for SP grading.
298. Project (3)

See Criteria for Thesis and Project. A project is defined as a systematic development of a plan for, or critical evaluation of, a significant undertaking or a creative work in nursing such as modularized curriculum and clinical protocols. Abstract required. Approved for $\boldsymbol{S P}$ grading.
299. Thesis (3)

Prerequisite: Nurs 223. See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis, based on an approved proposal, for the master's degree. Approved for $\boldsymbol{S P}$ grading.

## IN-SERVICE COURSE

(See Course Numbering System.)

## Nursing (Nurs)

302T. Selected Topics in Nursing (1-6; repeatable with different topics) Selected topics related to recent developments and advances in the knowledge and techniques of nursing. The purpose is to offer nurses, health personnel, and others the opportunity to study in-depth the selected topics related to specific clinical areas of nursing.

# PEACE AND CONFLICT STUDIES Interdisciplinary Minor 

TThe overall purpose of the program in Peace and Conflict Studies (21unit minor) is to prepare students, including potential leaders, with peacemaking and conflict management skills they can apply to daily life situations, regardless of their academic disciplines or chosen professions. The program has been developed to provide an interdisciplinary perspective to the study of conflict, violence, war, and peace. Such an approach is essential in view of the highly complex, interconnected, interdependent world in which we live. This requires an understanding that allows people to respond creatively, rather than thoughtlessly, to conflict and violence at various levels. This interdisciplinary program is open to all students.

## Faculty

Sudarshan Kapoor, Coordinator
Melanie Bloom, Speech Communication Robert Fischer, Sociology
Richard Haas, Biology
Bernard E. McGoldrick, Political Science
Robert Mikell, Ethnic Studies
Ernest Moerk, Psychology
Robert Valett, Education
Lea Ybarra, Chicano and Latin American Studies

## Requirements for the Mimor

A total of 21 units, which will include:

1. 15 units from the Areas of Study. It is strongly recommended that 3 units be taken from each of the five Areas of Study. However, four out of the five areas must be covered.
2. Practicum or independent study in peace and conflict studies (3 units). See program adviser for more information.
3. IntD 180. Peace and Conflict (3) Provides an overview of causes and types of conflict, critical examination of issues related to war, peace, and justice; historical and contemporary perspectives and responses to conflict resolution; uses an eclectic and interdisciplinary approach. This is the program's only required course and provides an interdisciplinary foundation to the program. General Education CAPSTONE Interdisciplinary Course, Critical Thinking.

School of Arts and Humanities Department of Philosophy JACK A. PITT, Chair Peters Business Building (209) 278-2621
B.A. in Philosophy Options:
Prelaw
Religious Studies
Minor in Philosophy

Philosophy is one of the fundamental domains of human thought. It grows out of basic life questions, including questions of ethics, religion, politics, and science. The study of philosophy has had an historic role in the core of sound education, because it helps sharpen skills of careful, independent thinking and aids people of all ages in defining their most important values and beliefs. The examination of great philosophical ideas, and the emphasis on clear reasoning and personal development that are involved in philosophy serve as a strong foundation for life, regardless of one's career objectives.
The Department of Philosophy offers students the following opportunities for a rich and rewarding undergraduate experience: the traditional B.A. philosophy major, the prelaw option, the religious studies option, and the philosophy minor. The department provides an ample opportunity for individual attention and student participation in its activities, e.g. Philosophy Club, symposia, etc.

## Faculty and Facilities

The department has a diverse and well trained faculty with special interests ranging from logic and scientific method to existentialism and philosophy of religion. All members of the department share the conviction that the best way to teach philosophy is through an intense but sympathetic interchange between the teacher and the student. Our conference room is a pleasant and frequently used meeting place for students and faculty.

## Career Opportunities

The undergraduate major provides an excellent foundation for a variety of professional careers as well as for graduate study in philosophy. Law schools, seminaries, and various governmental and business training programs

emphasize the critical and communication skills required to complete a B.A. in philosophy. Thus, graduating majors are often in a competitive position for occupations that at first glance are not obviously related to the study of philosophy. In fact, people who have majors or minors in philosophy can be found in almost all areas of endeavor, from medicine, law, and the ministry, to teaching, social work, and fine arts.

## Faculty

Jack A. Pitt, Chair
Adviser: James W. Slinger
Prelaw Adviser: Karen R. Bell
Religious Studies Adviser: Ann E. Berliner
Pedro Amaral Warren L. Kessler
Donald N. Blakeley
Hague D. Foster
James M. Smith
Terry R. Winant

## Bachelor of Arts <br> Degree Requirrements

## Phillosophy Major

Students must select from the Philosophy Major, the Prelaw Option, or the Religious Studies Option.

Units

## Phillosophy Major

requirements 32
Phil 25, 45 or 145 $\qquad$
Phil 101 and 103 $\qquad$
Select 2: Phil 105, 146, 150,
156,157 or approved 159 T . (6)
Select 1: Phil 115, 118 or approved 119T $\qquad$(3)

Select at least 2: Phil 190 and/or 192
Phil 170T.
Approved philosophy electives $\qquad$

## Prelaw Option

requirements
The Prelaw Option emphasizes critical thinking and analytical skills, as well as ethics and issues related to law. It also includes a law-related intern experience. Law schools do not prefer any specific major, but emphasize critical thinking and general education. (See Preprofessional Preparation). Students with a strong interest in philosophy as well as law may find this option valuable. Depending upon the interests of the student, courses or minors in political science, business, criminology, and a variety of social sciences would be useful electives for the Prelaw Option.
Phil 25 or 45
Phil 101 or 103
Phil 115 or 118
Phil 120 or 122
Phil 121 or 127
Select two: Phil 146, 150,
156 or 157
Phil 170T
Phil 199
Electives: Anth 146; B A 108;
Crim 20, 21; Eth S 146;
Pl Si 70, 110, 111, 170, 171
or other courses approved
by the department $\qquad$
Religious Studies
Option requirrements
The department has prepared a special program for those who wish to engage in a combined study of philosophy and religion. This option emphasizes the comparative and ecumenical study of religion. Stu-
dents with a general interest in religion might consider this option. Those who wish to pursue a religious vocation or do graduate work in religious studies will find it especially valuable.
Phil 25,45 , or 145
Phil 130, 131
Phil 133W and/or 134 .........(3-7)
Phil 136, 137, 138
Phil 170T or 172T
Select one: Phil 101, 103,
105, 107 $\qquad$
Select one: Hist 103A, 103B, 116 , Anth 150 W or other approved courses outside the Philosophy Department ..
Phil 190, 192, or approved
philosophy electives ......... (3-4)
$\qquad$ .. 51
Gemerall Education .......... degree requirements. $\qquad$ 35-47* (see Degree Requirements); may be used toward a dual major or minor

## Total

 .124*This figure takes into consideration that two philosophy courses ( 6 units maximum) may also be applied to satisfy General Education requirements, as follows: CORE, Critical Thinking - Phil 25 or 45 ( 3 units); and BREADTH, Division 6 - Phil 1, 10, 120, or 131 (3 units). (See General Education.) Consult the department chair or faculty adviser for details.

## Advising Notes

1. No course used to satisfy General Education CAPSTONE requirements may be used to satisfy philosophy major or major option requirements.
2. $C R / N C$ grading is not permitted in courses used to fulfill the philosophy major requirements.
3. General Education and elective units may be used toward a dual major or minor (see Dual Major or departmental minor). Consult the appropriate department chair, program coordinator, or faculty adviser for further information.
4. Students intending to pursue graduate study in philosophy, law, or religious studies should seek a faculty adviser's help in planning adequate preparation.
5. Visit the Philosophy Department office or your faculty adviser for the list of approved $T$ classes for the major.

## Philosophy Minor

The Minor in Philosophy consists of 16 units in philosophy, of which at least 6 units must be upper division.

## COURSES

Philosophy (Phil)

1. Introduction to Philosophy (4)

Introduction to the basic issues, disputes, and methods of traditional and contemporary philosophy, including theory of knowledge, ethics, metaphysics, religion, and social theory. Development of skills in analysis, logical thinking, and self-expression. General Education BREADTH, Division 6. (CAN PHIL 2)
10. Self, Religion, and Society (3)

Conceptions of human nature; nature and varieties of religion; personal and social implications and values of religion. General Education BREADTH, Division 6.
25. Methods of Reasoning (4)

Principles and methods of valid inference. Typical topics: forms of deductive inference, basic types of inductive inference, common pitfalls in moral reasoning, problems in reasoning due to the nature of language, and common fallacies found in arguments in everyday life. General Education CORE, Critical Thinking.
26. Reasoning and Religion (4)

Not open to students who have had Phil 25 or 27. An introduction to principles and methods of critical thinking utilizing as source material the claims, arguments, and theories of major Western and non-Western religious traditions. General Education CORE, Critical Thinking.

## 27. Reasoning About Values (4)

Not open to students who have had Phil 25 or 26. An introduction to principles and methods of critical thinking, utilizing as source material claims and arguments concerning values, ethics, social, and political issues. General Education CORE, Critical Thinking.

## 45. Elementary Formal Logic (4)

Basic concepts and methods of logic; emphasis on deduction. Development of skills in utilizing the power and precision of formal techniques to evaluate the worth of reasons and evidence, viz., elementary symbolic logic for deduction; elementary probability theory for induction. General Education CORE, Critical Thinking. (CAN PHIL 6)
101. Ancient Philosophy (3)

Development of Western Philosophy from its beginning; the emergence of critical theory, doctrines, and schools of thought in Greek and Roman culture. Topics considered may include: "pre-Socratic" philosophy; the work of Plato and Aristotle; Epicurus and the Atomists; Stoicism. Gen-
eral Education CAPSTONE Cluster, Critical Thinking.

## 103. Bacon to Kant (3)

Development of early modern philosophy: the search for new scientific methods Bacon, Descartes, Spinoza, Newton, and Locke; empiricism and skepticism - Berkeley and Hume; rationalist metaphysics -Leibniz; influences on moral and political thought - the Enlightenment; Rousseau; Kant's critical philosophy. General Education CAPSTONE Cluster, Critical Thinking.
105. Twentieth Century Philosophy (3) Principal developments in philosophy after 1900. Figures and movements include: logical atomism, logical positivism, linguistic analysis, pragmatism, phenomenology, existentialism, G. E. Moore, Russell, Wittgenstein, Whitehead, Dewey, Santayana, Husserl, Heidegger, Sartre, Austin, Ryle, Strawson, Carnap, Ayer.
106T. Topics in History of Philosophy (1-3; max total 9 it no topic repeated) Consideration of special historical issues or individual philosophers.

## 107. Existentialism (3)

Examination of roots of existentialism in Kierkegaard and Nietzsche; study of such 20th century existentialists as Sartre, Heidegger, Jaspers, Buber. Typical problems examined: nature of mind, freedom, the self, ethics, existential psychoanalysis.
108. Roman Philosophy (3)

Study of major figures and schools of philosophy in the Roman world. Special emphasis upon Epicurean, Stoic, and Skeptic traditions, with consideration of other major contributions. General Education CAPSTONE Cluster, Critical Thinking.
115. Ethical Theory (3)

Introduction to the fundamental concepts and problems of moral theory. Examination of various ethical theories, including relativism, egoism, utilitarianism, intuitionism, and non-cognitivism; the meaning of ethical terms.

## 118. Social and Political Theory (3)

Examination of traditional and contemporary theories of society and government. Analysis of basic concepts such as the common good, social contract, authority, justice, and natural rights.

## 119T. Topics in Valuation

 and Obligation (1-3; max total 9 if no topic repeated) Investigations of selected topics in ethics, value theory, political and social philosophy, aesthetics.
## 120. Contemporary

Conflicts of Morals (3)
(Same as A Eth 100.) Introduction to ethical theory and its application to contemporary moral problems. Discussion to include: business ethics, medical ethics, sexual morality, abortion, mercy killing; pot, drugs, and alcohol; crime and punishment, civil disobedience, revolutionary violence, rights of women and minorities. General Education BREADTH, Division 6.
121. Ethics in Criminal Justice (3)

Philosophical issues concerning society's treatment of criminal behavior. Topics discussed include: morality and law; punishment or rehabilitation; safe vs. repressive society, and what types of deviant behavior should be regarded as criminal?

## 122. Introduction

to Professional Ethics (3)
(Same as A Eth 101.) Survey of ethical issues and standards facing a range of professionals in their careers, including engineering, law, medicine, the media, science, agriculture, education, and business. Introduction to basic ethical theories and methods of reasoning about moral dilemmas.
125. Issues in Political Philosophy (3)

Not open to students who take Phil 118. Examination of prominent political philosophies and contemporary issues of politics and public policy. Policy issues may include the scope and limits of government authority, the role of government in the economy, foreign policy, health care, education, agriculture, and the environment. General Education CAPSTONE Cluster, Critical Thinking.
127. Philosophy of Law (3)

Nature and functions of law; methods of justifying legal systems; logic of legal reasoning; analysis of fundamental legal concepts.
129. Marxism (3)

Examination of basic ideas of Marx inherent in his writings and a consideration of later developments now called "Marxist."

## 130. Philosophy of Religion (3)

The nature and function of religious faith, belief, and practice; relations between religion and morals; existence of God; problem of evil; nature and significance of religious experience. General Education CAPSTONE Cluster, Critical Thinking.

## 131. Comparative Religion (3)

Survey of the major religions of mankind, their history and teachings, with emphasis on Hinduism, Buddhism, Confucianism,

Taoism, Judaism, Christianity, and Islam. General Education BREADTH, Division 6.

## 133W. Literature of

the New Testament (3)
(Same as Engl 115W.) Prerequisite: Engl 1. Discussion and close written analyses of selected texts from the New Testament. Meets upper-division writing skills requirement for graduation.

## 134. Literature of

 the Old Testament (4)(Same as Engl 116.) Discussion and written analyses of selected texts from the Hebrew Bible. Special attention to the sources and styles of biblical literary techniques. General Education CAPSTONE Cluster.

## 136. Buddhism (3)

Introduction to Buddhism. Life and teachings of Gautama Siddhartha Buddha; development of Buddhism after death or mahanirvana of the Buddha.
137. Hinduism (3)

Introduction to the development and ideas of Hinduism.

## 138. Chinese Thought (3)

Classical religions, ethical and political thought, in ancient China; probable emphasis on Confucianism and Taoism.

## 139T. Topics in Religious Issues

## (1-3; max total 9 if no topic repeated)

Investigations of selected topics in philosophy of religion and comparative religion.
145. Symbolic Logic (3)
(Similar to Math 110; consult department.) Prerequisite: Phil 25 or 45 or permission of instructor. Theory of deductive inference; includes propositional logic, predicate logic, relations, identity, definite description, nature of axiom systems.
146. Philosophy of Language (3)

Nature and uses of language; theories of meaning; concepts of reference, predication, truth, name, ambiguity, vagueness, definition, metaphor; relationships between methodology in philosophy and theories of language.

## 150. Foundations of Knowledge (3)

Nature, sources, and limits of human knowledge; roles of perception, reason, memory, authority, and intuition in the justification of beliefs in all areas; for example: science, math, ethics, religion, the past, other minds. General Education CAPSTONE Cluster, Critical Thinking.
156. Philosophy of Mind (3)

Analysis of problems concerning the nature of mind and mental phenomena:
relation between mind and body, nature of the self and personal identity, free will, action and behavior, thinking machines, knowledge of other minds; concepts of mind, intention, desire, emotion.

## 157. Freedom, Fate, and Choice (3)

Nature of human action, free will and determinism, free will and moral responsibility; analysis of basic concepts; for example, will, action, freedom, determinism, fatalism, chance, choice, decision, intention, reason, desire, belief; implications for everyday life.

## 159T. Topics in Logic,

Epistemology, and Metaphysics
(1-3; max total 9 if no topic repeated)
Investigations of selected topics in logic, epistemology, and metaphysics.

## 165T. Special Topics

(1-3; max total 9 if no topic repeated)
Topics of current or interdisciplinary interest or requiring special background.
170T. Senior Seminar (1-4; max total 12 if no topic repeated) Prerequisite: senior standing or permission of instructor and at leastone upper-division philosophy course. Intensive investigation of selected problems, major figures, or a historical period in philosophy. Extensive writing and supervised research.

## 172T. Seminar in Religious Issues

(1-4; max total 12 if no topic repeated) Prerequisite: one upper-division philosophy course. Intensive investigation of problems in philosophical theology, comparative religion, and culture. Extensive writing and supervised research.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
192. Directed Reading (1-3; max total 6) Prerequisite: permission of instructor. Supervised readings in a selected philosopher or field of philosophy. Combined units of Phil 190 and 192 may not exceed 6 units.

## 199. Fieldwork in

Philosophy and Law (4-6)
Prerequisite: senior standing, permission of instructor. Practical community workstudy experience in legal or paralegal setting. Student works under sponsorship of law firm or law-related agency. Meets periodically with instructor, submits written report on relevant issues in ethics, jurisprudence or philosophy.

# Physical Education and Human Performance 

The Department of Physical Education and Human Performance has the unique opportunity to contribute to one's overall physical fitness by providing experiences that develop cardiovascular endurance, strength, flexibility, and relaxation. Concomitant contributions are in the areas of skill acquisition, scientific knowledge, and worthy use of leisure time.
The curriculum for the B.S. degree in physical education is designed to meet individual professional goals. The flexibility of the program provides for the preparation of: physical education teachers, coaches, professionals in various fields related to physical education, athletic trainers, and advanced study and research.
The emphasis in athletic training allows students to become involved in a growing and successful program. Upon completion of the program, the student is eligible for certification by the National Athletic Trainer's Association. The

program has high academic and performance standards that include a minimum of 1,800 hours of fieldwork in a two-year internship program. The internship includes working in one of the training rooms where service is provided for all 18 intercollegiate sports offered within the athletic program. Students interested in this program must consult the athletic trainer adviser.
The Master of Arts degree program in Physical Education is designed to provide advanced study for the purpose of extending competence in the areas of science, theory, leadership, and research techniques. Class size and format accommodates individual attention and student interaction with other students and faculty.

## Career Opportunities

Historically, a graduate with a degree in physical education was employed as a teacher and/or coach in a school setting. In recent years, however, a variety of career opportunities has emerged for the physical education major. With aquatics centers, racquet clubs, dance studios, wellness and fitness centers, sports medicine clinics, agencies for the handicapped, and rehabilitation centers are some examples. Fitness and movement instruction for preschool youngsters and the elderly are other possible career opportunities. Physical education majors with certification in athletic training have opportunities with professional teams and in private enterprise, in addition to the traditional educational setting.

School of Health and Social Work
Department of Physical Education
and Human Performance
JOANNE W. SCHROLL, Chair
South Gym, Room 111
(209) 278-2016

## B.S. in Physical Education

Options: Adapted, Allied Career, Athletic
Training, Exercise Science, Teaching
M.A. in Physical Education

Option: Exercise Science

## Minors

Coaching
Physical Education
Certificates
Aerobic Leadership
Athletic Trainer Certification
Adapted Physical Education Specialist Credential
Single Subject Teaching Credential in Physical Education

## Activity Classes

A broad variety of activities for differing ability levels is offered for students interested in physical activity. The program is developed to aid students interested in gaining physical skills and/ or fitness. Activity courses are offered in aquatics, recreational dance, individual activities, and team sports. Unique experiences are provided in areas such as backpacking, bicycling, fencing, karate, skiing, and yoga, as well as in the more traditional activities. Individualized instruction is available for all students including those with physical limitations.

## Facilities

The facilities for physical education include two gymnasiums, six racquetball/ handball courts, 12 tennis courts, a large matted area, a gymnastic apparatus area, a strength-training area, an all-weather track, multipurpose fields for softball, football, soccer and golf, an archery range, a swimming pool, dance room, exercise physiology lab, and athletic training room.

Totall 124-138*
*This figure takes into account that up to 15 units of major and additional requirements may also be used to satisfy the General Education CORE, Quantitative Reasoning (H S 92, Math 11, 71-72, or 75) and Critical Thinking (C Sci 1) requirements and BREADTH, Division 1 (Chem 1A or 3A or Phys 2A), Division 2 (Zool 1 or 10) and Division 4 (P E 31) requirements. Consult department chair or faculty adviser for details.

## Advising Notes

1. Mandatory advising is required of all students in this degree program. See the department chair for the name of your assigned adviser.
2. With the assistance of the departmental adviser students may choose a sequence of courses which will prepare them for working with specific age groups or special populations, coaching, athletic training, teaching physical education or allied careers.
3. Each student must pass a series of physical performance tests administered by the department in order to complete the major or to be admitted to the teaching credential program. Specific information regarding tests may be obtained from the department office, South Gym, Room 111.
4. Prerequisite skill tests are required for the following courses: PE 115D, 135H, 145A, 145B, 145C, 145D.
5. Students majoring in physical education may count a maximum of 12 units of activity courses (ATHL, PE AC, Dance) toward the 124 units required for a Bachelor's Degree in Physical Education and Human Performance.
6. $C R / N C$ grading is not permitted in courses for the physical education major, including "additional requirements."
7. General Education and elective units may be used toward a minor (see $d e$ partmental minor). Consult the appropriate department chair, program coordinator, or faculty adviser for further information.
8. Completion of the Bachelor of Science degree in the physical education teaching option meets the requirements of the Single Subject Waiver Program.
9. Students interested in the athletic training option should consult the department for the criteria for selection into this program.
10. See department adviser regarding senior major requirements.

Professional preparation courses

## Advising Notes

1. Students interested in obtaining a teaching credential are strongly advised to confer with the physical education and human performance department credential adviser at the beginning of the junior year.
2. Students must apply and be admitted to the School of Education and Human Development to begin education requirements. For prerequisites and other admission requirements, see the Single Subject Credential Program as listed under the Curriculum, Teaching, and Educational Technology Department.
3. To complete the major or to be admitted to the credential program, each student must pass a series of physical performance tests and all skill competency tests administered by the physical education and human performance department.
4. The required courses, or their approved equivalents, in the B.S. degree and credential programs must be completed by all single subject credential candidates.
5. Verification that the waiver program has been completed and a recommendation for admission into the professional preparation program are the responsibility of the department credential adviser. These may be granted only after the prescribed B.S. degree waiver program has been completed.

## Physical Education and Human <br> Performance Minor and Certificate Requirements

## Advising Notes

1. Students should consult with an adviser regarding any of the above programs.
2. CPR certification is required of all students completing a minor or certificate program.

## Master of Arts

## Degree Requirements

The Department of Physical Education and Human Performance offers advanced study designed to enhance professional competencies in teaching, administration, and research in physical education. Students may follow the current program designed for the teacher-practitioner or select options which lead to specialized degrees.
Requirrements. The Master of Arts degree requires 30 units of advanced coursework of which there is a common core of 9 units, 15-18 units of specific curricular requirements, and 3-6 units of electives. The culminating experience may be a thesis, a comprehensive exam, or an internship.
Under the direction of a graduate adviser, each student designs a coherent program within the following framework:

M.A. in Physicall Educcation Units

Core
.9

P E 230, 231, and 261

## Advising Notes

1. The Master of Arts degree program in Physical Education assumes undergraduate preparation equivalent to a CSU, Fresno major in physical education.
2. All students must take a departmental written screening examination before advancement to candidacy. The university writing skills requirement is included in the screening examination.
3. See also the general graduate requirements listed under the Division of Graduate Studies and Research.

## COURSES

Note: Activity courses may be repeated for credit, Students may apply a maximum of eight units to the total degree requirements.

## Aquatics (PE AC)

4. Swimming for Beginners (1)
(Former PE AC 104)
5. Water Aerobics (1)
(Former PE AC 80T section)
6. Advanced Lifesaving (2)

Prerequisite: 500 -yard swim in 10 minutes or less.
103. Swim for Fitness (1)

Prerequisite: intermediate swim ability: .....
107. Water Safety Instructor Course (2; not repeatable for credit)
Prerequisite: 500 -yard swim in 10 minutes or less; current advanced lifesaving certification.

## Recreational Dance (PE AC)

See Theatre Arts for additional dance classes.
11. Folk Dance (1)
(Former PE AC 111A)
12. Elementary Social Dance (1)
(Former PE AC 112A)
13. Square Dance (1)
(Former PE AC 113A)
14. Country Western (1)
(Former PE AC 80T section)
112. Intermediate Social Dance (1) Prerequisite: PE AC 12 or equivalent. (Former PE AC 112B)

## Individual Activities (PE AC)

15. Basic Massage (1)

Fundamental massage techniques; types of massage and their usage; physiological and psychological effects of massage, classical Swedish massage strokes and their sequence. (Former PE AC 80T section)
16. Adapted Physical Activity (1)

Individually designed activity for disabled students. (Former PE AC 116)
17. Elementary Archery (1)
(Former PE AC 117A)
18. Backpacking (2)

Limited to novice backpackers. (Estimated cost to student approximately $\$ 50$ for supplies, transportation.) (Former PE AC 118)
19. Elementary Badminton (1)
(Former PE AC 119A)
20. Elementary Bicycling (2)

Introduction to bicycling as a lifetime sport. Bicycle selection, care, and maintenance. Traffic laws and bicycle safety. Student must provide own 10 -speed bicycle. Two all-day rides on Saturday. Medical clearance required. (Former PE AC 120A)
21. Elementary Strength Training (1)
(Former PE AC 121A)
22. Elementary Bowling (1)
(Former PE AC 122A) (Approximate course fee, \$25)
24. Elementary Conditioning

Exercises and Aerobics (1)
(Former PE AC 124A)
27. Elementary Fencing (1)
(Former PE AC 127A)
30. Elementary Golf (1)
(Former PE AC 130A)
31. Elementary Gymnastics (1)
(Former PE AC 131A)
33. Fitness Walking (1)
(Former PE AC 80T section)
39. Jogging (1)
(Former PE AC 139)
40. Elementary Karate (1)

Japanese style of Shotokan Karate. (Former PE AC 140A)
41. Judo (1)
(Former PE AC 80T section)
42. Physical Training (2)

A wide variety of individual exercises and team competition utilizing a military model. (Former PE AC 142)
46. Elementary Racquetball (1)
(Former PE AC 146A)
50. Self-defense (1)
(Former PE AC 150)
51. Self-defense for Women (1) (Former PE AC 151)
52. Skiing (2)

Limited to novice skiers (Former PE AC 152) (Approximate course fee, $\$ 50$ )
54. Elementary Tennis (1)
(Former PE AC 154A)
60. Yoga (1)
(Former PE AC 160)
117. Intermediate Archery (1)

Prerequisite: PE AC 17 or equivalent. (Former PE AC 117B)
119A. Intermediate Badminton (1)
Prerequisite: PE AC 19 or equivalent. (Former PE AC 119B)
120. Cycling for Fitness (2)

Prerequisite: PE AC 20 or equivalent. (Former PE AC 120B)
121. Intermediate

Strength Training (2)
Prerequisite: PE AC 21 or equivalent. (Former PE AC 121B)
122. Intermediate Bowling (1)

Prerequisite: PE AC 22 or equivalent. (Approximate course fee, $\$ 25$ ) (Former PE AC 122B)
124. Intermediate Conditioning

Exercises and Aerobics (1)
Prerequisite: PE AC 24 or equivalent. (Former PE AC 124B)
127. Intermediate Fencing (1)

Prerequisite: PE AC 27 or equivalent. (Former PE AC 127B)
130. Intermediate Golf (2)

Prerequisite: PE AC 30 or equivalent. (Approximate course fee, $\$ 12$ ) (Former PE AC 130B)
131. Intermediate Gymnastics (1)

Prerequisite: PE AC 31 or equivalent. (Former PE AC 131B)
140. Intermediate Karate (1)

Prerequisite: PE AC 40 or equivalent. Japanese style of Shotokan Karate. (Former PE AC 140B)
146. Intermediate Racquetball (1)

Prerequisite: PE AC 46 or equivalent. (Former PE AC 146B)
154A. Intermediate Tennis (1)
Prerequisite: PE AC 54 or equivalent. (Former PE AC 154B)
154B. Advanced Tennis (1)
Prerequisite: PE AC 154A or equivalent. (Former PE AC 154C)
156. Triathlon (2)

Prerequisite: permission of instructor. (Former PE AC 80T section)

## Team Activities (PE AC)

65. Basketball (1)
(Former PE AC 165)
66. Soccer (1)
(Former PE AC 168)
67. Elementary Volleyball (1)
(Former PE AC 171A)
68. Softball (1)
(Former PE AC 173)

80T. Topics in Physical Education (1-2) Participation in and investigation of selected physical activities not in current curriculum. (Former PE AC 180T)
171A. Intermediate Volleyball (1)
Prerequisite: PE AC 71 or equivalent. (Former PE AC 171B)
171B. Advanced Volleyball (1)
Prerequisite: PE AC 171A or equivalent. U.S.V.B.A. rules will be followed. (Former PE AC 171C)

## Physical Education (PE)

30. History and Foundations of Physical Education (3)
History, foundations, and legal aspects of physical education programs; personal, social, and professional requirements; demands on the physical education teacher and athletic coach.
31. Concepts of Human Movement (3) Experiencing and studying concepts in selected aspects of human motor performance. Topics include fundamental movements, mechanical principles, perceptual theory, cultural effects, physiological factors, and learning theory as they affect human movement. General Education BREADTH, Division 4. (2 lecture, 2 lab hours)

## 105. Fundamental

Principles of Exercise (3)
Fundamental principles of anatomy, physiology, and biomechanics upon which to base the teaching and coaching of physical activities. (Note: Does not satisfy physical education major requirements.) (Fall only)
106A. Care and Prevention
of Athletic Injuries (3)
Designed for prospective coaches, trainers, health and physical educators; to aid in the recognition, evaluation, and care of athletic injuries. Techniques in taping, prevention, and rehabilitation of injuries.
106B. Advanced Care and Prevention of Athletic Injuries (3) Prerequisite: P E 106A, P E 156A, H S 48. Advanced study in athletic training including injury recognition, evaluation, and rehabilitation. (Spring only)
106C. Therapeutic Modalities
in Athletic Training (3)
Prerequisite: P E 106A; Phy 33 or Phy 64, 65 . The theory and application of various therapeutic modalities used in the treatment of athletic injuries. (Fall only)

106E. Therapeutic Exercise
in Athletic Training (3)
Prerequisite: PE 106C, 156A. The development and application of rehabilitation and therapeutic exercise programs for the injured athlete. (Spring only)
106F. Organization and
Administration in Athletic Training (3) Prerequisite: PE106A, 106B. Current issues in athletic training, organization, administration, and professional preparation. (Fall only)
107. Internship in Athletic

Training (1; max total 4)
Prerequisite: PE 106A, H S 48, Phy 33 or 64 and admission into Athletic Training Program. Practical experience in the field of athletic training.
108. Organization of Intramural Sports-Recreational Games (2)
Organization, administration, and promotion of intramural activities.
111. The Olympic Games (3)

History, development, significance, and future of the Olympic Games; Olympian as a microcosm of cross cultural and interpersonal understandings andrelationships. General Education CAPSTONE Cluster. (Former PE 180T section)
112C. Officiating Track and Field (1)
Analysis and interpretation of rules for track; procedures, mechanics, and practice in officiating. (1-2 hourlecture/lab) (Spring only)
114. Aerobic Exercise

Program Development (2)
A class designed to train the student in aerobic fitness class leadership and aerobic exercise program development. (1 lecture, 2 lab hours) (Spring only) (Former PE 180T section)
115D. Theory and
Analysis of Gymnastics (3)
Prerequisite: gymnastics skill tests. Analysis of skill performance, theory of progressions, class organization, spotting techniques, development of routines, legal aspects, and safety. (2 lecture, 2 lab hours)
115K. Theory and Analysis of Fitness and Conditioning (3)
Prerequisites: PE 156A, 156B. Study, practice, analysis, and development of fitness and weight control programs. (2 lecture, 2 lab hours)
125A. Coaching Football (3)
Principles underlying participation in competitive football. (Spring only)

125B. Coaching Basketball (3)
Principles underlying participation in competitive basketball. (Fall only)
125C. Coaching Track and Field (3)
Principles underlying participation in competitive track and field.
125D. Coaching Baseball (3)
Principles underlying participation in competitive baseball. (Fall only)
135B. Theory and Analysis of Wrestling and Combative Activities (3) Rules, philosophy, scoring, training, skill analysis, and progression in wrestling and other combative activities. Analysis and practice of skills. (2 lecture, 2 lab hours) (Spring only)
135E. Theory and Analysis of Basketball/Flag Football/Softball (3)
Prerequisite: skill tests in basketball, flag football, and softball. Analysis and performance of skills and strategies. Theory of skill progressions, class organization, officiating, and evaluation. (2 lecture, 2 lab hours)

135H. Theory and Analysis
of Soccer/Volleyball (3)
Prerequisite: volleyball skill test. Analysis and performance of skills and strategies. Theory of skill progressions, class organization, officiating, and evaluation. (2 lecture, 2 lab hours)
144. Instructional Laboratory (1)

Limited to major students. Designed to provide an opportunity to work in an instructional situation.
145A. Theory and
Analysis of Aquatics (3)
Prerequisite: aquatics skill test. Study and practice of varied levels of swim strokes; elements of diving; skills basic to lifesaving; skill progression; water polo, scuba diving, synchronized swimming, training for competition, basic elements of adapted aquatics. (2 lecture, 2 lab hours)
145B. Theory and Analysis
of Tennis/Badminton (3)
Prerequisite: tennis skill test. Study and practice of strokes and tactics; rules; history; skill progression for various levels. (2 lecture, 2 lab hours) (Fall only)
145C. Theory and
Analysis of Golf/Archery (3)
Prerequisite: golf skill test. Study and practice of values and fundamentals in golf and archery. Organization and conduct in physical education programs. (2 lecture, 2 lab hours)

145D. Theory and Analysis of Folk, Square, and Social Dance (3) Prerequisite: folk dance skill test. Analysis and practice of basic skills of folk, square, and social dance. Development of understanding and appreciation of these forms of dance in various cultures. Study and practice of leadership skills in recreational dance. (2 lecture, 2 lab hours)

## 146. Movement Education Clinic

 for Educationally Handicapped Children (3; max total 9; repeatable for credit)Clinical experience in diagnosis and evaluation of movement skills and needs of educationally handicapped children followed by individual prescriptive program development and instruction. Experience to include program planning, execution, and ongoing evaluation.
147. Physical Growth
and Development (3)
Prerequisite: Phy 33. Physical growth and development from prenatal period through old age with emphasis on motor development.
148. Biophysical Aspects of Aging (3) (Same as Geron 148.) Theories of aging, biological mechanisms of the aging process, and the role of physical activity in those physiological functions influenced by age. (Spring only)

## 150. Perceptual <br> Motor Development (3)

(Same as RLS 150.) Prerequisite: P E 147. The study of perceptual motor development, with consideration of the organization and integration of sensory information and motor response and the theoretical approaches to developmental programs.
152. Physical Education for Children (3) Theory, analysis, and study of movement experiences, skills and materials, appropriate for children. (2 lecture, 2 lab hours)

## 153. Principles of

Physical Education: Philosophical, Psychological, and Sociological (3) Prerequisites: P E 30, 31. Examination of personal and cultural experiences in creative and competitive sport, exercise and dance events from philosophical, psychological, and sociological perspectives.
156A. Kinesiology (3)
Prerequisite: Phy 33 or $64-65$, P E 31. Human movement: biological andmechanical bases, application of skeleto-muscular considerations and principles of mechanics to human movements.

156B. Physiology of Exercise (3)
Prerequisite: Phy 33 or $64-65$, P E 31, and FScN 54 or FScN 147. Physiologic bases of movement, work, and exercise; physiologic concepts related to such processes as respiration, circulation, muscle function, metabolism, heat regulation, and to their roles in physical activity.
157A. Adapted Physical Education (3) Prerequisite: P E 156A. The design, implementation, and evaluation of individually prescribed adapted physical education programs for the handicapped in school and special settings. (2 lecture, 2 lab hours)

## 157B. Prescriptive Teaching in

 Adapted Physical Education (2)Prerequisite: P E 157A, P E 159B. The design, implementation, and evaluation of individually prescribed adapted physical education programs for the handicapped in school and special settings. (1 lecture, 2 lab hours)

## 158A. Physical Education

 for the Severely Handicapped (2)The study of motor, behavioral, and learning characteristics of the severely handicapped and the development of appropriate movement and sports activities.

## 158B. Physical Education for the

Orthopedically Handicapped (2)
The study of motor, behavioral, and learning characteristics of the orthopedically handicapped and the development of appropriate movement and sports activities.
159A. Measurement and Evaluation in Physical Education (3) Prerequisite: PE 30. The study of the selection, construction, evaluation, and administration of both norm referenced and criterion referenced tests for use in judging various aspects of physical performance and knowledge. The application of electronic word processing, statistical methodology, and the interpretation of statistics.

159B. Sensory Motor Evaluation (2) Prerequisite: PE 150, PE 159A. The study of evaluation methods and tests used to appraise sensory-motor functioning, and the application or adaptation of these devices to fit specific populations.
162. Coaching Concepts (3)

Current problems of coaches in the school setting; techniques of motivation, organization, and public relations. (Spring only)

180T. Topics in Physical Education and Sport (1-3; max total 12)
Topics relating to analysis, performance, theory, current trends, and research in human movement specific to motor learning in programs of physical education and sport not available through current curricula offerings for the undergraduate or graduate student.

## 190. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
199. Supervised Work

Experience (1-2; max total 4)
Prerequisite: upper-division status, GPA 2.5 last 30 units, permission of department chair and instructor. $C R / N C$ grading only.

## GRADUATE COURSES

(See Course Numbering System.)

## Physical Education (P E)

220. Seminar in

Special Physical Education (3)
Seminar dealing with current topics in special physical education: physiological and psychological profiles of disabled individuals, federal and state legislation, assessment, and designing individualized exercise programs. Students will explore computerassisted and managed instruction as related to special physical education.

## 222. Analysis of

Athletic Performance (3)
Prerequisite: PE 156A and 156B. Consideration of the factors affecting performance in various sports. Application of laws of physics, principles of exercise, physiological and psychological considerations to human performance. Intensive research in the analysis of sports skills.

## 223. Scientific Basis

of Motor Learning (3)
Seminar in the study of human movement from a physio-psychological perspective. Emphasis on learning theories, motor educability, and kinesthetic awareness in human movement via sport, dance, and games.
230. Statistical Inference
in Physical Education (3)
Theory and nature of statistical inference; seminar in the study of statistical methodology relating to the selection of the most appropriate statistical method, the correct application of the statistical technique, and the interpretation of findings.

## 231. Research in Physical

## Education and Recreation (3)

Seminar in research methodology; identification of researchable problems in physical education and related areas; use of library resources, data gathering and analyses, critiquing of recorded research, writing of research reports.

## 233. Advanced Exercise <br> Physiology I: Metabolic and <br> Neuromuscular Physiology (3)

Prerequisite: PE 156A, 156B; Chem 3A, 3B. Detailed study of the biochemistry of energy metabolism, biophysical and functional concepts related to interaction of nerve and muscle, and response to training. Theoretical concepts supported by extensive practical experience in the human performance lab. (2 lecture, 3 lab hours)

## 234. Advanced Exercise <br> Physiology II: Cardiovascular <br> and Respiratory Physiology (3)

Prerequisite: PE 156A, 156B. In-depth study of cardiovascular and respiratory concepts related to exercise, training, health, disease, and aging. Theoretical concepts are supported by extensive practical experience in the human performance lab. (2 lecture, 3 lab hours)

## 240. Facilities and Equipment <br> in Physical Education (3)

Functional planning of indoor and outdoor facilities for schools and recreation centers. Design and layout of school physical education-athletic facilities. Evaluation of school plants in the Fresno and valley area. Budget considerations in planning for the purchase of equipment.

## 241. Administration in

Physical Education (3)
Examination of innovative ideas in the fields of education and physical education which relate to physical education administration. Emphasis on discovering ways to incorporate recent information to establish programs.

## 242. Program Development

in Physical Education (3)
Study of the current education scene to provide students with an understanding of the role that school physical education plays in today's education. Identification of sound procedure and practice in organizing and conducting relevant programs of physical education.
250T. Topics in Physical Education (3; max total 6 if no topic repeated)
Advanced studies in theoretical research in selected topics.
260. Historical Concepts
of Physical Education (3)
Interpretation of exercise and sport in western thought and practice, from 3000 B.C. to the present.
261. Philosophy/Issues in

Physical Education and Sport (3)
Critical examination of current issues; philosophical seminar focused on recent and classical literature in physical education and sport. Required of M.A. candidates; successful completion satisfies graduate qualifying examination requirement.
262. Social Implications of Sport (3)

Cultural and social factors related to play, games, and athletic contests; social parameters in the conduct and management of school athletic programs; emphasis on research studies.
263. Psychology of Sport (3)

An examination of the concepts in sports psychology, motivational variables, emotional states and personality variables; mental states, behavioral techniques and strategies; and issues in sports psychology.
285. Internship in Administration (3-6) Prerequisite: P E 230, 231, 241 and 261. Experience in critical and independent thinking in a mentored, administrative setting in an accredited physical education and/or athletic program within the university's service area. CR/NC grading only.

## 290. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
298. Project (3-6; max total 6)

Prerequisite: See Criteria for Thesis and Project. Preparation, completion, submission, and/or demonstration of an original project. Creativity shall be a prime factor. Abstract required, e.g., choreograph gymnastic performance, organize square/folk dance program, compose audio-visual representation of sport forms. Approved for $\boldsymbol{S P}$ grading.
299. Thesis (2-6)

Prerequisite: See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for $S P$ grading.

## IN-SERVICE COURSES

(See Course Numbering System.)

## Physical Education ( $\mathbb{P} \mathbb{E}$ )

310. Analysis of Team Activities
(1-3; max total 12 if no area repeated)
Prerequisite: teaching or coaching experience or by permission of instructor. An analysis of the techniques, methods, procedures, and theory of team sports.
311. Analysis of Individual Activities (1-3; max total 12 if no area repeated) Prerequisite: teaching or coaching experience or by permission of instructor. An analysis of the techniques, methods, procedures, and theory of individual activities.

## Physical Therapy

School of Health and Social Work Physical Therapy Program DARLENE L. STEWART, Coordinator McLane Hall, Room 188 (209) 278-2625
B.S. in Physical Therapy
hysical therapy is a health profession that is involved with restoration of function of persons who have suffered loss or disturbance of locomotion due to disease or injury to the neurological, musculoskeletal, cardiopulmonary, and integumentary systems. The physical therapist, through evaluation and treatment planning, utilizes physical agents, heat, light, electricity, ultrasound, and a variety of therapeutic exercise techniques to bring about physical restoration of function.
The Physical Therapy Program leads to a Bachelor of Science degree with a major in physical therapy and a Certificate of Internship in Physical Therapy. It is a four-year curriculum plus a postbaccalaureate clinical internship at the end of the last year. Completion of the degree and internship are required to sit for the state examination to be licensed.

## Faculty and Facilities

The Physical Therapy Program consists of seven faculty, each of whom has special expertise in major areas of physical therapy. The curriculum design is a regional integrated approach to patient management with special emphasis on problem solving. Clinical laboratory experience is conducted by physical therapists in local facilities. Internships are available in selected facilities throughout the state.
The program philosophy focuses on preparation of a physical therapist who functions effectively in a general acute care setting. It encourages self-discipline and individual self-assessment for planning for continued professional growth.
The Physical Therapy Program is a popular major and receives more applicants than can be accommodated. The pro-

gram accepts 32 students in the fall of each year. Class size is limited due to the clinical component of the program curriculum and by accreditation standards. Therefore, the program has supplemental criteria for selection into the major.
These criteria appear on the next page.

## Career Opportunities

Physical therapists work in a variety of settings. Some are: a hospital, rehabilitation center, private practice, extended care facility, home health agency, public and private schools for the handicapped, and sports medicine
clinics. Recent studies indicate that the current manpower shortage will continue and that there will continue to be a strong job market for physical therapists. The starting salaries are very good, as are opportunities for advancement.
General information about the Physical Therapy Program can be obtained from the Admissions Office, Physical Therapy Clerk, Joyal Administration Building, California State University, Fresno; Fresno, California 93740, (209) 278-2664.

## Bachellor of Science Degree Requirements Physical Therapy Major

Major requirements60

Ph Th 110, 115, 116, 120, 121, 122, 124, 130, 131, 132, 133, 134, 142, 143, 144, 151, 152, 153; Phy 160
Prerequisite requirements .......... 38* (prephysical therapy preparation) Courses which must be completed by the fall semester prior to applying to the program: Chem 3A* (see Note 1); Zool 10*; Psych 10* (see Note 2); Phy 64-65; Phys 2B; Ph Th 127
Courses which must be completed by the spring semester prior to entering the program: Phy 155; H S 92* (see Note 3); Psych 166 (normally these classes are taken at CSU, Fresno)
Generall Education .......................... 52
Physical therapy majors, see Note 4.
Total
Postlbaccallaureate Certification
(units are not applicable toward the B.S. degree) Ph Th 175
*Twelve units of the following prerequisite courses also may be used to satisfy General Education courses: H S 92 (CORE, Math substitute, as appropriate), Chem 3A (BREADTH, Division 1), Zool 10 (BREADTH, Division 2), Psych 10 (BREADTH, Division 3).
In effect, 12 of the 38 prerequisite units may be used to satisfy both General Education and prerequisite requirements concurrently. As a result, if courses are taken judiciously, the minimum unit requirement for the physical therapy major is 138 units.

## Advising Notes

1. Chem 3B (3 units) may be substituted for Chem 3A (4 units); Chem 1A-1B (10 units) may be substituted for Chem 3A/ 3B (3-4 units).
2. Many students take a 3 -unit class at another college that is the equivalent of Psych 10 (4 units) at CSU, Fresno. In this case, the remaining unit is automatically waived.
3. Students are expected to have completed intermediate algebra in high school which allows H S 92 to satisfy the General Education - CORE, Mathematical Concepts and Quantitative Reasoning requirement. (See General Education CORE.) All General Education requirements with the exception of CAPSTONE must be completed prior to entering the major.
4. Physical therapy majors are required to complete CAPSTONE. Select from IntD $\qquad$ Nex, IntD, or a cluster.
5. Some physical therapy courses may be offered $C R / N C$.
6. General Education prerequisite requirements and elective units also may be used toward a dual major or minor. (See Dual Major or departmental minor.) Consult the appropriate department chair, program coordinator, or faculty adviser for further information.

## Supplemental Criteria for <br> Selection into the Major

An application for admission to the university must be completed to determine the student's eligibility. A separate application must be submitted to the Admissions Office on or before February 1 of the year the student wishes to enter the program. All required prerequisites must be completed by the end of the spring semester prior to entering the major. A very limited number of students are admitted to the program each fall. Applications to the Physical Therapy Program will be screened during the spring semester.
The following admissions criteria are reviewed by the screening committee:

1. The student must apply to the university.
2. Completion of the prerequisite units as listed above.
3. A grade of $\boldsymbol{B}$ or better in each of the prerequisite courses. A required course may be repeated only once for admission consideration if a grade of $C$ or lower has been received.
4. Completion of General Education requirements except 3 units of CAPSTONE which may be taken during the major.
5. Evidence of knowledge of physical therapy through employment, volunteering, or observation in a physical therapy department for a minimum of 100 hours. Fifty hours must be in a general acute care setting; 50 hours may be in a special area of practice.
6. Participation in a personal interview.

Recommended foundation courses are high school chemistry, physics, algebra, geometry, and biology. Meeting the above criteria does not guarantee acceptance into the major.
Students transferring from community colleges and other colleges or universities who meet the above criteria are considered on the same basis as California State University, Fresno, students applying for admission to the major.
Criteria for retention and progression in the program include a grade of $C$ or better in each physical therapy course and completion of all courses in the major.
Students must carry malpractice insurance, must purchase an appropriate laboratory coat, and must provide their own transportation to hospitals and clinics for off-campus classes and clinical laboratories. Students must also provide for all expenses while taking the postbaccalaureate clinical internship at the end of the senior year. Expenses include tuition through summer school extension, housing, meals, and travel. For a supplemental application form, write to the Admissions Office, California State University, Fresno; Fresno, California 93740 and include a self-addressed legal size envelope for requested return information.

## COURSES

## Physical Therapy (Ph Th)

## 100. Career Options

in Health Care (2)
Recommended for health professions students, but open to all students. May be taken concurrently with Ph Th 105. An exploration of career opportunities in health care professions.

## 105. Medical Terminology

for Health Professionals (2)
Recommended for Physical Therapy majors, but open to all students. Study of word parts, definitions, spelling, analysis, synthesis, and use of medical vocabulary.

## 110. Patient Advocacy

## for Health Practitioners (3)

Prerequisite: Psych 10. May be taken concurrently with Psych 166. Recommended for health professions students, but open to all students. Exploration of psychosocial and cultural considerations and community resource management for persons with physical impairment. (Former HSW 101)

## 115. Applied Anatomy

and Kinesiology I (4)
Prerequisite: Phy 64, 65, 155. Structure and function of the neuromusculoskeletal systems with emphasis on concepts of movement, biomechanics, and surface anatomy. Includes dissection labs and prosected material. (3 lecture, 3 dissection lab hours)
116. Applied Anatomy
and Kinesiology II (4)
Prerequisite: Ph Th 115. Continuation of Applied Anatomy and Kinesiology I. (3 lecture, 3 dissection lab hours)
120. Professional Orientation (2)

An introduction to the professional practice of physical therapy, including roles and functions within the health care delivery system and professional responsibilities.
121. Patient Management Skills I (3) Selected theory and clinical application of therapeutic modalities and procedures in the treatment of physical disabilities, including physical agents, exercise, and massage. (1 lecture, 6 lab hours)
122. Patient Management Skills II (2) Prerequisite: Ph Th 121. Continuation of Patient Management Skills I. (1 lecture, 3 lab hours)
124. Research Methods
in Physical Therapy (3)
Prerequisite: H S 92 or Math 11. Study and application of research design and critical reading of research literature.
125. Advanced Human Anatomy of the Neuromusculoskeletal System (4) Prerequisite: Phy 64, 65. Recommended for health professions students, but open to all students. Advanced study of the structure and function of the neuromusculoskeletal systems with emphasis on surface, muscle anatomy and joint anatomy, nerve and blood supply. Includes dissection lab and prosected materials. (3 lecture, 3 dissection lab hours)
126. Applied Pathophysiology (4)

Prerequisite: Phy 64, 65. Recommended for health professions students, butopen to all
students. Advanced study of physiology of body systems and responses to normal aging, environmental influences and pathological dysfunction, including cardiovascular, pulmonary, endocrine, and integumentary systems. Includes dissection lab and prosected materials. (3 lecture, 3 dissection lab hours)
127. Neuromuscular Processes in Human Development and Aging (3) Recommended for health professions students, but open to all students. The study of human development from birth to senescence with focus on concepts of motor and neurological development processes integral to evaluation and treatment intervention in neurological disability. (2 lecture, 3 lab hours)

## 130. Evaluation and

## Clinical Management of

Musculoskeletal Conditions I (4)
A study of musculoskeletal disabilities with emphasis on evaluation techniques, methods of therapeutic intervention, and program planning. Includes selected lectures by medical practitioners in the medical-surgical management of orthopedic conditions. (3 lecture, 3 lab hours)
131. Evaluation and Clinical Management of Musculoskeletal Conditions II (4)
Prerequisite: Ph Th 130. A continuation of Evaluation and Clinical Management of Musculoskeletal Conditions I. (3 lecture, 3 lab hours)
132. Evaluation and

Clinical Management of Neurological Systems I (6)
Evaluation and therapeutic intervention in the clinical management of normal and pathological conditions of the neuromusculoskeletal systems. Includes normal growth and development and selected medical lectures. (4 lecture, 6 lab hours)

## 133. Evaluation and <br> Clinical Management of

Neurological Systems II (3)
Prerequisite: Ph Th 132. Continuation of Evaluation and Clinical Management of Neurological Systems I. (2 lecture, 3 lab hours)
134. Evaluation and Clinical Management of Selected Body Systems (4)
Evaluation and therapeutic intervention in the clinical management of normal and pathological conditions of the cardiopulmonary and other selected body systems. (3 lecture, 3 lab hours)

## 142. Humanistic Approaches

to Patient Management (3)
Prerequisite: permission of instructor. Investigation of theories and concepts which influence patient management effectiveness and compliance.
143. Organization and Administration of Physical Therapy Services (3) Principles of planning, organizing, and administering physical therapy services in a variety of health care settings, exploration of medical/legal and regulatory aspects in the practice of physical therapy including future trends and issues in practice.
144. Trends and Issues in Practice (3) An investigation of emerging trends in physical therapy practice and other health related professions. Subjects to be covered may vary.
151. Clinical Lab I (2)

Prerequisite: Ph Th 121, 130. The application of physical therapy skills and procedures in health care facilities. $C R / N C$ grading only.
152. Clinical Lab II (2)

Prerequisite: Ph Th 151. A continuation of Clinical Lab I. CR/NC grading only
153. Clinical Lab III (2)

Prerequisite: Ph Th 152. Continuation of Clinical Lab II. CR/NC grading only.

## 175. Postbaccalaureate

Clinical Internship (8)
Prerequisite: Ph Th 153. Summer offering only as final experience for majors. The internship is 18 weeks of clinical experience at selected facilities throughout the state. Certification of completion of internship is required before the graduate is eligible to take the state examination for licensure. CR/NC grading only.

## 180T. Topics in Physical Therapy

 (1-3; max total 12 if no topic repeated) Prerequisite: permission of instructor. Advanced techniques in physical therapy and new trends relating to the care of patients.190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## IN-SERVICE COURSE

(See Course Numbering System.)

## Physical Therapy (Ph Th)

302T. Selected Topics in Physical Therapy (1-6; repeatable with different topics) Selected topics in Physical Therapy for practicing clinician in the health fields.

TThe fascination of physics is that it is so fundamental: the continuing attempt to understand how things work! It combines observational and experimental grappling with nature to get the facts of behavior, with the creative synthesis of these facts into theories and laws of nature, often beautiful in their simplicity and universality.
Albert Einstein said, "They (the laws of theoretical physics) should form the basis from which a picture of all processes of nature can be derived by thoughtful deduction - and these include also the processes of life." He also said, "The deeper we search, the more we find there is to know, and as long as human life exists, I believe it will always be so."
More specifically, physics includes the study of the fundamental particles that make up nuclear particles, of electromagnetic, gravitational, atomic and nuclear forces, of energy, of light and heat, of electronics and the structure of materials, of the interiors of the earth and the stars.

## Faculty and Facilities

Our faculty came here to teach. In addition, some faculty have developed continuing research projects, usually involving students.

Classes are small; our upper-division and graduate classes run from 1 to 15 students. Physics majors get to know each other and our professors personally, often with friendships continuing after graduation.
We have a new medium-energy laser, which greatly increases our capabilities in modern optics, including nonlinear optics, and a new, very flexible X-ray facility that creates many new possibilities in X-ray fluorescence spectroscopy and opens several other fields to us. Our clean room has been improved. In addition, we have well-equipped laboratories for thin film studies, low temperature work, electronics and microcomputer applications, and atomic and nuclear spectroscopy. Further, we have easy access to both mainframe and microcomputers.

## Career Opportunities

Half of our bachelor's degree graduates have gone directly into various graduate schools, and the other half have gone to work in industry or government. Our record for admission to medical schools has been outstanding: every physics major who has applied has been accepted over at least the last decade. Four of our graduates are now practicing physicians, one is a dentist, and two more are in medical school.

School of Natural Sciences
Department of Physics
BRANDT KEHOE, Chair

B.S. in Physics
M.A. in Physics
M.S. in Physics

Minor in Physics
Minor in Physical Science
Single Subject Teaching Credential in Physical Science (Physics Option)

Now the outlook is even better, with the demand for industrial physicists increasing and a shortage developing for high school physics teachers, at the same time the image and pay of teachers is improving rapidly. Employment usually turns out to be not just a job, but an opportunity for interesting, educational, and exciting work - PHYSICS IS FUN!
Similarly, many of our master's degree graduates have gone on to doctoral studies elsewhere, and others have gone into industry, government, or teaching.
From these students, we hear of increasing levels of responsibility, work on the forefront of knowledge and some entry into management.

Gemerall Education 51
(see Note 3)

## Electives and remaiming

 degree requirements $\qquad$ 0-6* (see Degree Requirements); may include a minor (see Note 3)Totall 129-131
*This figure takes into consideration that one General Education CORE class and a BREADTH Division 1 class also may be applied to satisfy physics major additional requirements (see General Education). Under this provision, up to 6 units of courses required for the physics major also may be used to satisfy General Education requirements. Consult the physics department chair or your faculty adviser for additional details.

## Advising Notes

1. CR/NC grading is not permitted in the physics major with the exception of Phys 99 and 103. Additional requirements, however, may be taken $\mathbf{C R} / \mathbf{N C}$ (see Credit/No Credit Grading).
2. Courses outside the Department of Physics may be substituted for physics upper-division electives with prior approval of the department chair.
3. General Education and elective units may be used toward a minor (see departmental minor). Consult the appropriate department chair, program coordinator, or faculty adviser for further information.
4. Courses which satisfy additional requirements may also be used to satisfy requirements in General Education, a dual major, or a minor, as appropriate.
5. Students without a strong foundation in mathematics should consider substituting Math 71 and 72 for Math 75.

## Suggested Sequence of Courses

 for Bachelor of Science DegreeIn addition to the specific courses listed below, General Education requirements and electives should be included to bring the total to 15-17 units per semester. A total of 129 units must be completed for the Bachelor of Science degree. (See Degree Requirements.)
1st Year: Phys 5A, 99; Math 75, 76; Computer Programming; Chem 1A, 1B
2nd Year: Phys 5B, 102, 103, 104; Math 77, 81
3rd Year: Phys 105A, 105B, 110, 120A, 162, 170A plus upper-division electives
4th Year: Phys 107A, 115, 130, 140, 181 plus upper-division electives

## Physics Minor

A minor in physics for a bachelor's degree requires the following:

Units
Phys 5A, 5B ......................................... 10
Phys 102 ................................................ 3
Other upper-division physics ................ 6
Totall ............................................... 19

## Credential Program

The Physical Science Waiver Program is designed specifically for students planning to teach in California secondary schools. A total of 140 units will earn a B.A. in physics and a preliminary credential, with eligibility to begin teaching.
Units
Core .................................................. 36
Phys 5A, 5B, 102, 105A, 120A;
Geol 1; Chem 1A, 1B, 8
Breadth ................................................ 16
Phys 110; P Sci 106, 168; C Sci
20; Geog 111

## Graduate Programms

The Department of Physics offers graduate instruction and research leading to either the Master of Arts or the Master of Science degree. Each is explained below.
For general information, read Graduate Studies and Research in this catalog, and in particular, the sections on Admission to Graduate Standing, Advancement to Candidacy, and Program Requirements. The minimum entrance requirement is a GPA of 2.5 over the last 60 units and a score of at least 600 on the Quantitative or 1,000 on the Verbal plus Quantitative parts of the GRE General Examination which should be taken before applying for admission. In exceptional cases, it is possible to postpone the GRE until the first semester at CSUF.
It is important to achieve classified standing quickly, before completion of 10 units. The next step is advancement to candidacy, after completion of at least 9 units of graduate study with a minimum GPA of 3.0 and satisfaction of the writing proficiency requirement. For M.A. students, advancement requires passing a Departmental Qualifying Exam; for M.S. students, the requirement is a score of at least the 25 th percentile on the Subject (Advanced Physics) GRE.
Teaching assistantships may be available, as well as general financial aid. For some forms of financial aid, application must be complete before the end of February.
For specific questions, consult the chair of the department or the graduate adviser.

## Master off Science <br> Degree Requiremnents

The M.S. degree in Physics is designed to build a firm basis for later Ph.D. studies. The same curriculum has proved to be very valuable in many industrial jobs. About half of our M.S. graduates go into Ph.D. programs and half into industry.
Under the direction of the graduate adviser, a coherent program, directed toward the student's goal in graduate study and designed within the framework outlined below, is prepared and submitted to the department. There is a required core of 15 units of physics graduate courses (Phys 203A, 203B, 220A, 220B, and 222), which are the same as the standard first-year courses required in most Ph.D. curricula. Three further units of graduate physics are required, which can be either thesis or independent study (see Note below). The other 12 units for the degree may be upperdivision physics, graduate physics, or courses from some related field.
To summarize the required courses, 203A and 203B are advanced mechanics, (text, Classical Mechanics by Goldstein), 220A and 220B are advanced electricity and magnetism (text, Classical Electrodynamics by Jackson), 222 is advanced quantum mechanics (text, Quantum Mechanics by Schiff), 290 is independent study, and 299 is thesis, either experimental or theoretical. It is noteworthy that the texts are those standard across the country at major universities. For more exact descriptions, see the list of courses.
More than one-third of the program may be designed according to the specific interests of the student, in consultation with faculty. Our faculty is active in the fields of chaos theory, X-ray fluorescence, thin film studies, nuclear spectroscopy, Raman spectroscopy, and experimental and theoretical solid state physics. Recently improved laboratory facilities are available for student exploration of these and other fields, specifically including laser-based research in modern optics. Our computer facilities are excellent.
Undergraduate education equivalent to a physics major at CSU, Fresno is necessary for admission. Note the other requirements on the previous page under Graduate Programs.

Units
Physics graduate courses 18
Phys 203A, 203B, 220A, 220B, 222, and at least 3 units of Phys 290 or 299
Electives in physics
or related fields .12
Totall ................................................ 30
Note: Each student is required to complete as a culminating experience at least 3 units of Phys 290 (Independent Study) and a comprehensive written and oral examination, or at least 3 units of Phys 299 (Thesis).

## Master of Arts <br> Degree Requirements

The M.A. in Physics is a degree with a flexible curriculum, specifically intended for those who intend to become high school or junior college physics teachers, and for those who are already teaching in physics or some related field. Some teaching experience (either prior to or as part of the program) is required for the degree. The M.A. is also appropriate for many students intending to work in industry. It is not the optimum program for anyone intending to pursue a doctoral program in physics.
The M.A. curriculum offers an opportunity for students of diverse backgrounds to become competent in physics and to gain practical experience in teaching physics. There are several possibilities for the required teaching. Note the entrance requirements under Graduate Programs. It is understood that students who have not taken upper-division physics courses can expect to take longer to achieve the master's degree.
Under the direction of the graduate adviser, a coherent program, directed toward the student's goal in graduate study and designed within the framework outlined below is prepared and submitted to the department. There must be at least 15 units of 200-series physics courses, including the culminating experience (see Note, next column), which leaves room for 5 additional units of upper division or graduate physics and 10 additional units in physics or related fields. It is expected that a substantial portion of the courses taken will be 275 T (Topics courses), 290 (Independent Study), or 299 (Thesis).

Note: Each student is required to complete as a culminating experience either at least 3 units of Phys 290 (Independent Study) and a comprehensive written and oral examination, or at least 3 units of Phys 299 (Thesis).

## Physical Science

Some of the departments in the School of Natural Sciences offer courses in the physical science area. Some of these courses may be used to satisfy requirements for general education, credential programs, or professional development.

## Physical Science Minor

The Physical Science Minor offers an opportunity for both nonscience and science majors to diversify into important and interesting fields. It consists of 21 units of courses selected according to one of the patterns below:

Units
A. Chem $3 \mathrm{~A}, 3 \mathrm{~B}$ or $1 \mathrm{~A}, 1 \mathrm{~B}$..................... 7

Phys 2A, 2B or 5A, 5B ........................ 8
Upper-division electives ................... 6
B. Chem 1 ............................................. 3

Phys 2A, 2B or 5A, 5B ........................ 8
Geol 1 ............................................... 4
Upper-division electives ................... 6
C. Chem 3A, 3B or 1A, 1B ....................... 7

Phys 10 ............................................... 4
Geol 1 ................................................ 4
Upper-division electives ................... $\frac{6}{21}$
The upper-division electives may be any upper-division courses for which the student is qualified, from the three departments. Courses with very few prerequisites are Chem 139; Geol 105, 114, 151, 168, 169; Phys 145; P Sci 106, 168.
For chemistry, geology, or physics majors, all courses must be outside the major department. The revised program must be approved by the chair of the major department.

## Credential Program

See the coordinator for Education Curriculumn, Teaching, and Educational Technology or the chair for the Physics Department.

## COURSES <br> Physics (Phys)

## 2A. General Physics (4)

Prerequisite: intermediate algebra. Topics and concepts in mechanics, properties of matter, energy, heat, and sound. General Education BREADTH, Division 1. (3 lecture, 3 lab hours) (CAN PHYS 2)

## 2B. General Physics (4)

Prerequisite: Phys 2A. Topics and concepts in light, electricity, magnetism, atomic structure, relativity, quantum nature of light and matter, nuclear structure and radiation. General Education BREADTH, Division 1. (3 lecture, 3 lab hours) (CAN PHYS 4)
5A. Principles of Physics I (5)
Prerequisite: Math 76 (or concurrently). Topics and concepts in classical physics including statics, kinematics, Newton's laws, conservation laws, rigid body motion, simple harmonic motion, mechanics of solids and fluids, waves, sound, heat and thermodynamics. General Education BREADTH, Division 1. (4 lecture, 3 lab hours)
5B. Principles of Physics III (5)
Prerequisite: Phys 5A, Math 77 (or concurrently).Topics in classical physics including electrostatics, electric fields, currents, mag. netic fields, electromagnetic induction, Maxwell's equations, radiation, geometrical and physical optics. General Education BREADTH, Division 1. (4 lecture, 3 lab hours) (Note: Students who desire a survey of the entire scope of general physics should continue through Phys 102.)

## 10. Conceptual Physics (4)

Prerequisite: intermediate algebra. Basic ideas of physics and their relationship to the everyday environment. Observation and interpretation of physical phenomena, identification and elimination of misconceptions, proper terminology for physical quantities, scientific method, metric system. Memorable demonstrations in the lectures and household-related experiments in the lab. General Education BREADTH, Division 1. (3 lecture, 2 lab hours)
90. Directed Study (1-2; max total 3) Prerequisite: any university-level physics course. Individually arranged course of study in some limited area of physics, either to remove a deficiency or to investigate in more depth. (1-2 hours to be arranged)

## 99. Joy of Physics (1)

Great experiments of physics; amazing demonstrations; science vs. pseudo-science; critical thinking. Required of all new and transfer physics majors, preferably during the first semester at CSUF. CR/NC grading only.
102. Modern Physics (3)

Prerequisite: Phys 5B. Fundamental concepts of atomic and nuclear structure, transitions and radiation. Includes discussions of relativistic mechanics, quantum mechanics, solid statephysics. Special topics as they pertain to modern developments in physics, engineering, and chemistry.

## 103. Physics Machine

Shop Use and Safety (1)
Lecture, demonstrations, and practical experience in use of machine tools, as preparation for Phys 104, 181, 190, 290, 299. Emphasis on safety. CR/NC grading only.
104. Experimental Techniques
in Solid State Physics (3)
Prerequisite: Phys 5B, 103. Basic concepts in solid state physics. Measurements of conductivity, energy gap in semiconductors, drift mobility, Hall coefficients, photoconductivity, magnetic susceptibilities, exciton spectra, dielectric loss. Experience in X-ray diffraction, vacuum technology, thin-film deposition, and low temperature techniques. (1 lecture, 6 lab hours)
105A-B. Analytical Mechanics (3-3)
Prerequisite: Phys 5B. (A) Analytical and vector treatment of the fundamental principles of statics, kinematics, and dynamics. (B) Advanced dynamics; harmonic motion, central force fields, and Lagrange's equations.

## 107A-B. Intermediate

Electricity and Magnetism (3-3)
Prerequisite: Phys 105A, Math 81. (A) Mathematical analysis of electrostatics and magnetostatics, Gauss' law, solutions of Laplace's equation, images, theory of conduction, magnetic potentials. (B) Motion of ions in electric and magnetic fields, electromagnetic induction, Maxwell's equations and wave propagation, electron theory, and magnetic properties.

## 110. Physical Optics (3)

Prerequisite: Phys 5B, Math 81. Theory of optical phenomena; wave theory of light with applications to optical instruments; interference and diffraction phenomena, dispersion, polarization, coherence, and
laser phenomena. Practical experience in using lasers and optical instruments. (2 lecture, 3 lab hours)
115. Quantum Mechanics (3)

Prerequisite: Phys 102, 105A, 170A (or concurrently), Math 81. Historical background, postulates, meaning, and methods of quantum mechanics; applications to atomic phenomena.
116. Quantum Physics of Atoms (3) Prerequisite: Phys 115, or Chem 110B and permission of instructor, or Chem 215. Quantum mechanics applied to atomic and nuclear physics.
120A-B. Scientific Measurements and Instrumentation (3-3)
Prerequisite: Phys 5B. Electronic measurements and the physics of modern analog and digital circuits used in general scientific instrumentation. (2 lecture, 3 lab hours)
125. Laboratory Instrumentation (3)
(Same as Chem 125.) Not open to chemistry majors. Prerequisite: Chem 8 or 128A, Chem 105. Basic electricity, electronics, light and optical systems as applied to the design, use and limitations of instrumentation typical to the analytical and bioscience laboratory. (1 lecture, 6 lab hours)
130. Advanced Laboratory (2)

Prerequisite: Phys 102, 120A. Advanced experiments in atomic and nuclear physics. Radiation safety. Gamma-ray, X-ray, and particle detection and spectroscopy. X-ray fluorescence analysis, Mossbauer, coincidence, Compton scattering and radiation attenuation experiments. Statistics, error analysis. Projects. (6 lab hours)
136. Radiation Physics (3)

Prerequisite: Phys 102. The interaction of radiation with matter: photoelectric, Compton and pair production processes, neutron and charged particle interactions, linear energy transfer, quality factor, attenuation coefficients, shielding. Biological effects, RBE, internal dose, permissible exposures, beneficial application. Instrumentation.

## 140. Thermodynamics

and Kinetic Theory (3)
Prerequisite: Math 81. Fundamental concepts and laws of classical thermodynamics. Rudiments of kinetic theory and statistical thermodynamics with application to physical and chemical systems.
145. Geophysics (3)

Prerequisite: Phys 2A, 2B or 5A, Math 75. Basic principles of physics applied to the solution of geological problems, rotation
and figure of the earth, the gravity field, seismology and the earth's interior, geomagnetism, and the thermal history of the earth.

## 162. Solid State Physics (3)

Prerequisite: Phys 102, or Chem 110B and permission of instructor, or Chem 215. Classification of solids; crystallinestate and lattice vibrations; properties of metallic lattices and dielectrics; magnetic properties of solids; free electron theory and band theory of metals; semiconductors; imperfections.
170A-B. Mathematical Physics (3-3)
Prerequisite: Math 81. Application of mathematical methods to the solution of problems in physics.
175T. Topics in Contemporary
Physics (1-4; max total 12)
Designed to provide students with special work in such areas of physics as biophysics, modern optics, plasmas, high energy physics, solid state, chaos theory, nuclear structure, astrophysics, low temperature phenomena. Some topics may have labs.
180. Seminar in Physics (1; max total 3) Prerequisite: senior or graduate physics major or permission of department chair.

## 181. Senior Research Project (2)

Prerequisite: senior physics major. Individual project supervised by faculty member, to develop student's research skills. Student must report on project to Physics Seminar (Phys 180). Approved for SP grading.

## 190. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading.

## GRADUATE COURSES

(See Course Numbering System.)

## Physics (Phys)

203A-B. Theoretical Physics (3-3)
Advanced treatment of classical analytical mechanics including Lagrange's and Hamilton's formulation of the laws of motion, special relativity, small oscillation theory, hydrodynamics.
207. Radiotracer Methodology
in the Natural Sciences (3)
(Same as Biol 207 and Chem 207.) See Biol 207 for description. (2 lecture, 3 lab hours) (Former N Sci 207)

## 220A-B. Advanced

## Electricity and Magnetism (3-3)

Electromagnetic theory and its applications; electrostatics, boundary-value problems in electrostatics, dielectrics, multipoles, magnetostatics, Maxwell's equations, electromagnetic radiation, optical properties of materials, wave guides and resonant cavities.
221. Atomic and Nuclear Physics (3)

The nature of matter and radiation as deduced from the classical and quantum mechanical theories; atomic and nuclear structure; the nature of the nucleus as deduced from classical and quantum mechanical theories; models of nuclear structure.

## 222. Quantum Mechanics (3)

Non-relativisticquantum theory; quantum mechanical pictures and representations, angular momentum, perturbation theory, applications to central force problems, scattering, solid state and atomic systems.

## 275T. Topics in Contemporary

Physics (1-3; max total 6)
Advanced topics in such areas as modern optics, plasma physics, high energy physics, solid state physics, astrophysics, nuclear physics, biophysics, relativity. Some topics may have labs.
290. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
299. Thesis (2-6; max total 6)

Prerequisite:See Criteriafor Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for $\boldsymbol{S P}$ grading.

## PHYSICAL SCIENCE COURSES Physical Science (P Sci)

## ASTRONOMY

21. Elementary Astronomy (4)

Prerequisite: intermediate algebra. Basic concepts, theories, history, and laws of astronomy. Solar system, stellar evolution, quasars, pulsars, black holes, origin and development of the cosmos. Laboratory includes star and planet observation, lunar observation, physical principles particularly important for astronomy. General Education BREADTH, Division 1. (3 lecture, 2 lab hours)
22. Solar System Astronomy (3)

Prerequisite: Phys 2A. Astronomical coordinate systems; astronomical instrumentation; planetary motion and Kepler's Laws; the planets; comets, meteors, and meteorites; the sun; and the solar wind.
103. Extraterrestrial Life (3)

Contemporary astronomical theories of the evolution of galaxies, stars, and planetary systems with attention focused primarily on the question of whether or not life exists beyond the earth.

## OTHER

106. History of Physical Science (3)

The development of great ideas and discoveries in physical science from antiquity to the present; special emphasis upon early Greek scientific thought. General Education CAPSTONE Cluster.
168. Environmental Impact of Energy Demands by Society (3)
Analysis of energy crisis; introduction to various forms of energy, energy conversion processes and environmental effects; present energy supply and energy projections; future energy demands and ways of evaluating alternatives. General Education CAPSTONE Cluster, Critical Thinking.

## 180T. Topics in Physical

Science (1-3; max total 9)
Detailed discussion of special topics within the realm of physical science.

## IN-SERVICE COURSES

(See Course Numbering System.)

## Physical Science ( $\mathbb{P}$ Sci)

305. Physical Science
for Secondary School Teachers
(3, max total 6 in any one field)
Prerequisite: secondary credential and two years of teaching experience. Objectives, content, and instructional materials for the physical sciences; fundamental principles and recent developments. Emphasis may be on chemistry, geology, or physics.
306. Physical Science
for Elementary School Teachers
(3-6; max total 6 in any one field)
Maximum total credit 12 units; not more than 6 units in one field. Prerequisite: elementary credential. Selection of source materials and aids available for illustration of fundamental concepts and principles in physical science; laboratory work in construction, operation, and use of demonstrations and experiments in the elementary school.

## Political Science

## School of Social Sciences

 Department of Political Science PHILIP F. BEACH, Chair Social Science Building, Room 129 (209) 278-2988City and Regional Planning Program WAYNE V. MERCHEN, Coordinator Social Science Building, Room 120 (209) 278-3912
B.A. in Political Science
B.A. in Public Administration M.A. in International Relations Master of City and Regional Planning (M.C.R.P.)
Master of Public Administration (M.P.A.)

Minor in Political Science Minor in Public Administration Minor in Urban Studies

路ourses and programs offered by the Department of Political Science are intended to help all students become more effective participants in a democratic society, as makers of public policy, and as individuals affected by those policies. Our programs prepare political science and public administration majors for a wide variety of careers.

Students may elect to concentrate within political science on American government and politics, international politics, comparative government, or political theory. The Public Administration Program is designed to prepare students for administrative positions in public service agencies and includes instruction in such subjects as personnel administration, budget preparation, public relations, and techniques of management appropriate to the administration of public policy. For those who achieve a high measure of proficiency in their undergraduate programs, the department offers advanced work leading to the master's degree in international relations, public administration, and city and regional planning. A Minor in Political Science is chosen by students as a means of obtaining skills and knowledge important to their primary area of interest.
The Urban Studies Minor is designed to provide exposure to the analysis of urban and regional problems and to serve as an excellent supplement to other academic degree programs offered throughout the university. A special major in urban studies may be designed to meet the needs of students with an interest in this area.

## Internships

The department offers several programs through which students may gain practical experience while gaining academic credit. A political science internship involves working in the office of an elected official or, when possible, in an election campaign.

The comparable program in public administration and city and regional planning place students in positions, often paid, with local government offices and agencies where they may be involved with city planning and zoning issues, public relations efforts, special research topics or budget preparation, to mention several possibilities.

In addition, the department regularly sends selected students to the state capitol to participate in the Sacramento Semester Program under which they work with members of the Legislature, officers of the Executive, or with lobbyists. Finally, arrangements also may be made for better students to serve as staff to members of congress in Washington, D.C. for a semester.

## Career Opportunities

What do you do with a degree in political science or public administration? The skills gained through study on these subjects are highly valued in many areas, including business. Graduates have found positions with governmental agencies and officers, with companies or organizations that deal extensively with
government or as members of the print and electronic media as reporters. Careers with the state department and foreign service have proven rewarding to many with a special interest in international politics or comparative government. Those interested in a career in the law have found a solid grounding in political science valuable. The department has more prelaw students as majors than any other program at the university.

City and regional planning graduates find careers in a wide variety of fields. Historically, the largest group has been employed in public agencies such as local planning and development departments or in transportation, housing, natural resource management, and economic development agencies at the state and federal level. Graduates have also found employment in specialized planning areas such as social and health service agencies and education services. Some have pursued careers in public administration and politics.
In the private sector, there are opportunities for application of a wide variety of planning skills with planning consulting firms, environmental research groups, land development firms, building organizations, public utilities, real estate, architectural design firms, and in market analysis.

## Faculty

Philip F. Beach, Chair
Don R. Broyles Wayne V. Merchen
Marn J. Cha
Alfred B. Evans Jr.
Russell C. Fey
Harold H. Haak
Lyman H. Heine Jr.
Jean Kingston Bernard E. McGoldrick David H. Provost John A. Rotstan Harold Tokmakian Adewole A. Umoja Freeman J. Wright

Political Science Advisers: (Freshmen and Sophomores) Alfred B. Evans Jr. and Jean Kingston (Juniors and Seniors) Philip F. Beach
Public Administration Advisers: (Freshmen and Sophomores) Adewole A. Umoja (Juniors and Seniors) John A. Rotstan Prelaw Adviser: Don R. Broyles City and Regional Planning Program Coordinator: Wayne V. Merchen Graduate Advisers: Marn J. Cha, Adewole A. Umoja (M.P.A.), Russell J. Mardon, Freeman J. Wright (M.A.), Russell Fey, Wayne V. Merchen, and
Harold Tokmakian (M.C.R.P.)
In most instances, the faculty in the department have had experience practicing what they teach. All bring to their classes extensive backgrounds that permit them to combine the theories of political science, public administration, and planning with the practical applications of those theories. The faculty in planning are members of the American Planning Association and its professional arm, the American Institute of Certified Planners.
Most upper-division classes are small enough to allow extensive student-faculty interaction. The usual course involves a mixture of lecture and class discussion and encourages the expression of a variety of viewpoints about political issues. With smaller classes come greater opportunities for individualized instruction and assistance.

## Bachellor of Arts

 Degree Requirements Politicall Science Major UnitsMajor requirements .36
(see Notes 1 and 2)
Lower-division core: Pl Si 1, 90

[^36]
## United States

## Constitution Requirement

The United States Constitution (including California State Constitution and local government) requirement for graduation will be fulfilled by Pl Si 2 or 101. No other political science class fulfills the United States Constitution requirement.

## Credential Program

See Social Science Major for the Single Subject Waiver Program in social science.

## Master off Arts Degree in Intermationall Relations

The program leading to a Master of Arts degree in International Relations is designed chiefly, but not exclusively, for students preparing for careers involved with global and international politics (e.g., political aspects of: international business, agriculture, health services, education, U.S. foreign service, etc.). The interdisciplinary nature of the program is derived from: (1) the five seminars in political science each of which requires the student to master concepts and materials from other disciplines closely related to global politics, and from (2) the 9 -unit component of the program which students select from the approved list of ex-tra-departmental courses related to their career objectives.
The program's flexibility, however, also accommodates the needs of those students who plan to use the master's degree for teaching careers or to pursue a Ph.D. in political science, or both. After completion of 15 of the required 30 units of the program, each student is requested to submit to the graduate adviser a written statement of career objectives so that remaining requirements may be tailored to the needs and desires of the individual.

## Requirements for the Master of Arts in International Relations

Admission to the program is open to all graduates of a duly accredited college or university who meet the requirements for admission (see Admissions). Students with background deficiencies in political science usually may remedy these through a few upper-division political science courses selected by the program adviser. Any prerequisites required by extra-departmental courses must also be fulfilled unless waived by the department or program concerned.
All candidates for the Master of Arts degree in International Relations must complete the 15 units of graduate seminars specified as the core program, which consists of Pl Si 200, 210, 220, 240, and 250 . Nine units of approved electives from outside the department are also required along with an additional 6 units within the discipline of political science.
The additional 6 units of political science may be earned in one of the following four ways, depending on the interests and career objectives of the candidate:
A. For students declaring their intentions to pursue Ph.D. degrees, a master's thesis amounting to 6 units of credit is required.
B. Students declaring their intentions to teach political science at other than the university level may meet the 6 -unit requirement by:
-thesis or
${ }^{\circ}$ project equivalent to 6 units of thesis.
C. Students declaring their intentions to pursue careers in fields other than political science may meet this 6 -unit requirement by:

- thesis or
-approved project equivalent to 6 units of thesis or
${ }^{\bullet} 6$ units of additional coursework in political science and written comprehensive examination.
D. Students declaring their intentions to pursue careers in the U.S. Foreign Service or other governmental agencies and international organizations may meet this 6 -unit requirement by:
-thesis or
- approved project equivalent to 6 units of thesis or
-6 units of additional coursework in political science (courses must be in international relations and/or comparative politics) and written comprehensive examination.
A thesis or project must be primarily in the field of international relations and under the direction of the Political Science Department. One reader or assistant project adviser may be chosen from outside political science where the topic makes this appropriate.
Exclusive of the core courses and thesis or project, a maximum of 3 units may be gained through Independent Study. Basic competence in written translation from a foreign language into English is a prerequisite for the M.A. degree in International Relations. This language examination will be required before enrollment in the thesis or taking the written comprehensive examinations. Foreign students may offer English in fulfillment of this requirement.
Specific Requirements for M.A. in International Relations. One of the following plans is available to the student in consultation with the graduate adviser:

## Graduate Program in <br> Pulblic Administration

The Graduate Public Administration Program offers a multidiscipline Master of Public Administration (M.P.A.) degree. The M.P.A. Program is built on the belief that effective leadership of public agencies requires a basic set of abilities and public values irrespective of the particular characteristics of the agency. Consistent with this belief, all students in the pro-
gram complete a common core program of 18 units within the 36 units required for the M.P.A. The remaining 18 units the student will select, in consultation with his or her adviser, from graduate public administration courses and courses offered by other departments and programs. These 18 units can be used to further develop a general competence in public administration or to provide the student with a specialization suitable to public administration. To finish the program a student may elect to write a thesis or to take a comprehensive examination. The entire program can be completed by taking courses at night and on weekends.
The curriculum of the program follows the guidelines established by the National Association of Schools of Public Affairs and Administration (NASPAA) and was designed following consultation with over a dozen senior public administrators in the Fresno area. Consistent with the NASPAA guidelines, the program seeks to prepare administrative specialists who understand the place and role of public agencies and their staffs in the political, social, and economic systems of the United States; who have the analytic tools, both quantitative and qualitative, to diagnose problems and analyze alternative courses of public action; who have the leadership abilities to develop and make effective use of the talents and abilities of agency staffs; who have the abilities required to formulate, implement, and evaluate public policies which are responsible and effective; and who are able to manage an agency in such a way as to make responsible and efficient use of its resources now and in the future.

## Curriculum for the Master of Public Administration Degree Units <br> Core .18 <br> GPA 120G, 200, 210, 240, 241, 260 <br> Subcore 3-12

## GPA 289T

Thesis or comprehensive
examination
.0-3
Minnimnum Totall .............................. 36
All students must take 18 core units, and either six subcore units or three subcore units and three units of GPA 289T. The
remaining 12 units may be used to take additional subcore courses, additional GPA 289T, approved electives, or a combination of subcore, GPA 289T, and electives. Elective courses may be used to fulfill a specialization appropriate to public administration. The courses to be used for the specialization are to be chosen in consultation with the student's adviser and must be approved by the M.P.A. program director.
In considering specialization or elective courses the following regularly offered courses can be considered by appropriately prepared M.P.A. candidates: City and Regional Planning 200, 202, 204, 215; Criminology 203, 252, 255; Health Science 210, 213; Nursing 226, 240; Political Science 210, 240, 250; Social Work 200, 203, $240,244,246,247$; and Speech 268. Consult adviser for numerous other specialization and elective courses potentially suitable for M.P.A. candidates.
Admission. Applicants may qualify for admission to the program and thereby take program courses by achieving classified graduate standing. Classified standing requires:

1. An acceptable baccalaureate degree from an institution accredited by a regional accrediting association;
2. Good standing at the last college attended;
3. Submission to the university of transcripts of college work; scores from the Graduate Record Examination Aptitude Test (GRE) or the Graduate Management Admission Test (GMAT); a written statement indicating why the applicant wishes to pursue an M.P.A. degree; and, if any, evidence of work performance in a public or nonprofit agency (see 4 d next page);
4. Recommendation for admission by the Admissions Committee of the Graduate Public Administration Program. Candidates will be recommended on the basis of the promise they show for successfully completing the program and achieving a successful career in public management and administration. Candidates will be evaluated using a combination of:
a. grade point average (those with averages of less than 2.75 overall or 3.0 on the last 60 semester units attempted must have compensating strength in other areas);
b. aptitude for academic work (those with scores of less than 475 on either
part of the GRE or on the GMAT must have compensating strength in other areas);
c. professional goals of the applicant;
d. successful performance in public or nonprofit agency employment as demonstrated by the character of work accomplished, distinctions achieved, and letters of recommendation from persons who can knowingly and comparatively evaluate the on-the-job performance of the candidate over a period of time (this basis for evaluation may be waived for candidates showing great strength in (a) or (b) above). Applicants whose native language is not English must also achieve a minimum score of 550 on the Test of English as a Foreign Language.
5. Applicants, otherwise admissible to classified standing, who have not been employed full-time for at least six months in a public or nonprofit organization nor completed a supervised internship of at least 120 hours in such an agency, will be allowed to take courses for one semester as a conditionally classified student. Pl Si 186-187 (5 units) internship experience must be completed before enrollment in second semester courses.

## Graduate Program in City and Regiomall Plamning

The Master's Degree Program in City and Regional Planning (M.C.R.P.) is designed as preparation for a professional career in planning at a responsible level. Emphasis is on the development of a general theory and philosophy of planning applicable to a wide variety of public and private institutions. Undergraduate degree programs in fields related to planning, such as anthropology, geography, political science, public administration, economics, sociology, social welfare, architecture, landscape architecture, or engineering provide a suitable background for the M.C.R.P. degree program. Degrees in other fields also may be found acceptable following an evaluation of the candidate's records and career goals.

The central San Joaquin Valley provides a variety of settings for individual and class studies. The rich agricultural area with many small service communities, the multiple use areas of the Sierra Nevada, and the diverse neighborhoods and cul-
tural groups of the Fresno metropolitan area are representative of the varied environments in which graduates will work.

Two paths leading to a Master of City and Regional Planning degree are offered: a thesis program and a non-thesis program. The first is designed for students who wish to pursue significant independent research as a part of the graduate program; it also serves as preparation for additional graduate work at the doctoral level. The non-thesis program provides an opportunity for applied research and problem-solving at the city and regional scale as preparation for professional practice.
The 48 -semester unit program is composed of a planning core and related supportive electives. In the first year, students follow a sequence which builds a common body of knowledge in planning theory, research methods, design, management, and professional practice. Special opportunities for practical experience are provided through practicum projects involving clients from surrounding communities and required internships in a variety of planning related offices. Beginning with the second semester, and continuing into the second year, students are encouraged to develop an elective sequence which focuses on their area of interest.

## Curriculum for the Master of City and Regional Planning Degree

Each applicant for admission to the City and Regional Planning program is evaluated on the basis of academic record, educational and vocational background, performance on the Graduate Record Examination Aptitude Test, and commitment to planning as a profession. Prospective students must make arrangements for a personal interview with a faculty member as a part of the admission process. Students outside the central San Joaquin Valley should consult the department for alternative procedures. (Applicants must first meet the standards of the university and the Division of Graduate Studies and Research. See Division of Graduate Studies and Research, Admission to Graduate Standing, Advancement to Candidacy, Program Requirements, and Thesis and Thesis Alternatives.)
Under the supervision of a faculty adviser, each student submits an approved program within one of the following frameworks:
Plam A - Thesis Program ..... Units
Core curriculum ..... 31
(see specific requirements)
Elective sequence ..... 11
(see elective sequence)Thesis6
Totall ..... 48
Specific Requirements: C R P 200, 201A,201B, 202, 203A, 203B, 204, 215, 280T,299, and an approved course in manage-ment and budgeting.
Pllom B - Non-Thesis Programm Units
Core curricullum ..... 31
(see specific requirements) ..... 17
(see elective sequence)
Total ..... 48

Specific Requirements: C R P 200, 201A, 201B, 202, 203A, 203B, 204, 215, 280T, and an approved course in management and budgeting. Each candidate for the M.C.R.P. under Plan $\boldsymbol{B}$ must successfully complete a comprehensive examination covering both the central concepts and techniques of city and regional planning and the elective sequence.
Other Requirements and Limitations. Soc 25, ERF 153, or an equivalent course in statistical methods and C R P 109GT, Computers in Planning, or equivalent course or practical experience in personal computer applications must be completed with a mark of $C R$ or $C$ or better prior to or concurrently with enrollment in a required graduate research methods class. Such courses may not be utilized as electives in a planning program. Remedial writing classes required by the program and International Studies courses required of foreign students by the university may not be utilized as electives toward the M.C.R.P.
Elective Sequence. Each student, in consultation with a faculty adviser, develops an elective sequence of courses acceptable to the program which focuses on an area of interest. Suggested areas include community planning practice, environmental analysis/design, and public administration. Other focuses may be developed under the direction of a faculty adviser. A recommended program for a 12 -unit elective sequence in public administration is as follows: GPA 210, 240, 241, and 260 (GPA 120G and GPA 200 may be taken as a part of the City and Regional Planning core program.)

## COURSES

Political Science (Pl Si)

## 1. Modern Politics (3)

Anintroduction to modern politics through the study of subjects such as political interests, parties, and movements; democracy, communism, and nationalism; the individual and the state; power and government. General Education BREADTH, Division 8.
2. American Government and Institutions (3)
Meets the United States Constitution requirement and the federal, California state, and local government requirement. Not open to students with credit in Pl Si 101. The development and operation of government in the United States; study of how ideas, institutions, laws, and people have constructed and maintained a political order in America. General Education CORE. Not available for CR/NC grading. (CAN GOVT 2)
8. Human and Civil Rights (3)

Examination of the ethical, ideological, religious, and legal foundations of human and civil rights; development of human rights in the Western and non-Western world; the nature and manner of discrimination and oppression; protection and enforcement of civil and human rights. General Education BREADTH, Division 8.
10T. Contemporary Issues in Politics (1-3; max total 9 if no topic repeated)
Significant contemporary uses in political theory, world politics, comparative government, American government, local government, public administration, or public opinion.

## 70. Introduction to Law (3)

Examination of roles and functions of law; jurisprudence (theory of law); legal education and the court system - structure and rationale; criteria for selecting judges; factors influencing judicial decisions; resistance and compliance; changes and challenges to the judicial system.
90. Methods of Analysis
of Quantitative Political Data (3)
An introduction to hypothesis testing in political science, with applications to the analysis of quantitative political data; the formulation of research problems and hypotheses; accuracy and precision in measurements; problems of evidence and inference; basic techniques of statistical analysis. (2 lecture, 2 lab hours)
101. American Constitution, Institutions, and Idealls (3)
Meets the United States Constitution requirement. Not open to students below second semester sophomore or with credit in PISi 2. Executive, legislative, and judicial functions of our government under the constitution; federal, California state, and local governmental relationships. General Education CORE. Not available for $C R / N C$ grading.
102. Callifornia

## Government and Institutions (1)

Not open to students with credit in $\mathrm{Pl} \mathrm{Si} \mathrm{2}$, 101. Open only to students who have satisfied United States Constitution requirement but have not satisfied California state and local government requirement. Examination of legislative, executive, judicial, and local government problems in California. Not available for CR/NC grading.
103. California Politics (3)

Satisfies California state and local government requirement, if not used for political science major. Emphasis on the historical development of politics in California and the factors and institutions important to contemporary politics: characteristics of the electorate, voter registration, primaries and general elections, candidates and campaigning, party organizations and leaders, interest groups, and current issues. General Education CAPSTONE Cluster.

## Political Theory (Pl Si)

## 110. Seminar in History

of Political Thought to Machiavelli (3) Development of political thought from Plato to Machiavelli: law, justice, the state, authority, forms of government, and church-state relations in light of the philosophy of history.

## 111. Seminar in History of

Political Thought Since Machiavelli (3) Freedom and individual rights, democracy, majority rule, equality, law and authority, power, constitutionalism, property, social class and structure, and revolution traced through the writings of Hobbes, Locke, Rousseau, Hume, Burke, Bentham, Hegel, Tocqueville, and Mill.
112. Politics and Christianity (3)
(Same as A Eth 104.) Inquiry into major facets of Christianity as an integral part of the Western humanistic tradition of politics. Emphasis on Christian theories of man, the state, freedom, and democracy. Politics to be interpreted in the broadest sense of all human association in pursuit
of power, order, art, science, and culture. General Education CAPSTONE Cluster.

## 114. Seminar in

American Political Thought (3)
Analysis of democracy, majority rule and minority rights, constitutionalism, federalism, representation, pluralism, property, separation of powers, and judicial review based on the perspectives of representative early and contemporary American thinkers.

## 119T. Topics in

Political Theory (1-4; max total 8)
Possible topics include theories of democracy; the Marxian tradition; political thought of specific authors, historical periods and countries; peace and war; church-state relations; the nature of politics and of political science.

## International Relations (Pl Si)

120. International Politics (3)

Dynamics of political interactions of nations; nationalism, imperialism and interdependence; national power and diplomacy; types of conflict, including war; peaceful settlement of disputes; current issues involving competing foreign policies, national development, energy, and national liberation movements. General Education BREADTH, Division 8.
121. American Foreign Affairs (3)

Prerequisite: Pl Si 2. Formulation and execution of American foreign policy; constitutional framework; role of the president and the executive branch, Congress, pressure groups and public opinion; contemporary problems and policies.
125. Soviet Foreign Policy (3)

Sources of Soviet foreign policy, historical and ideological; continuity and change in methods, strategy and tactics; policy formulation and application in specific geographic and subject matter areas.

## 126. International Law

and Organization (3)
The sources and subjects of international law; state jurisdiction and responsibility; international agreements; the regulation of force and the peaceful settlement of disputes through international law and organization, including the League of $\mathrm{Na}-$ tions, the United Nations, and regional organizations.

128T. Topics in International Relations (1-4; max total 8 if no topic repeated) Politics of military power; arms limitation and control; peace theory; ecopolitics; regionalism and cooperation; shifts in balance of power; nationalism; imperialism; neutralism and nonalignment; foreign policies of specific nations.

## Comparative Government (Pl Si)

## 140. Approaches to

Comparative Politics (3)
Prerequisite: Pl Si 1. Exploration of theories, models, and conceptual frameworks for the comparative study of political systems and subsystems; methodological rather than an area emphasis.

## 141. Soviet Politics (3)

Government and politics of the Soviet Union. Soviet Marxist-Leninist ideology; the Communist Party in the Soviet political system; the structure and operation of governmental institutions; contemporary policies and policy problems. General Education CAPSTONE Cluster.
142T. Area Studies in Western Europe (1-4; max total 8 if no topic repeated) Government and politics of Western Europe (Britain, France, Germany, and Italy), Northern European Countries (Finland, Denmark, Norway, Sweden); or government and politics, of selected countries.
143T. Area Studies in Eastern Europe (1-4; max total 8 if no topic repeated) Government and politics of Eastern Europe; or government, politics, and institutions of selected countries.

## 144T. Area Studies in

Africa and Middle East
(1-4; max total 8 if no topic is repeated) Government and politics of Sub-Sahara Africa, Middle East; or government, politics, and institutions of selected countries.

## 145T. Area Studies in Asia

(1-4; max total 8 if no topic repeated)
Government and politics of selected countries in East and Southeast Asia.
146T. Area Studies in Latin America (1-4; max total 8 if no topic repeated) Possible topics include politics of South America; politics of Central America and Caribbean countries; roles of selected groups in Latin American politics.

## 149T. Seminar in

Comparative Government
(1-4; max total 8 if no topic repeated)
Parliamentary systems, problems and goals of developing nations, federal systems, comparative local government, parties and pressure groups, and multi-party systems.

## American Government (Pl Si)

150. Public Policy Making (3)

Examines the institutional and political processes by which public policy is formulated, adopted, and implemented. Individual instruction on student papers (students with fundamental writing deficiencies will be required to enroll in Engl 1L, 1 unit, concurrently). General Education CAPSTONE Cluster.
151. Political Participation and Political Parties (3)
Political parties; nature and extent of citizen political activity; election of public officials; political organization of government.
156T. Topics in Political Behavior (1-4; max total 8 if no topic repeated) Voting behavior, political alienation, leadership, political perceptions and knowledge, environmental effects on political participation, group processes, and political socialization.

## 157. Political Science

Internship Seminar (2)
Corequisite: Pl Si 158. Advanced analysis of citizen-government linkage from a theoretical perspective.

## 158. Internship in

Political Science (2-6; max total 6)
Corequisite: Pl Si 157 (may be waived if student has completed one or more upperdivision courses in American or California government), permission of instructor. Maximum credit toward the political science major, 3 units. Supervised work experience in legislative offices and/or political campaigns to provide student with an opportunity to fuse theory and practice. CR/NC grading only.

## 159T. Seminar in American

 Government and Politics (1-4; max total 8 if no topic repeated) Congressional committee operations, policy making by the courts, political implications of civil service, executive initiation of legislation, minority groups and politics, political implications of news reporting; jurisprudence and legal philosophy; legal institutions; conflict resolution.
## Local Government (IPl Si)

160. State and Local Governments (3)

The organization, structure, powers, and functions of state and local governments.
163. Municipal Government (3)

Organization, powers, and functions of city government; types of city charters, relationship between city and state government; police and fire protection, education, water supply, health and sanitation, city planning, debts and taxation, public utilities.
169T. Seminar in Metropolitan Government and Politics (1-4; max total 8 if no topic repeated) Regional and area intergovernmental relations, urban renewal, human relations agencies, and taxation methodologies.

## Public Law (Pl Si)

170. Constitutional Law, the Federal Structure (3)
Judicial Review, powers of the president, powers of Congress, federalism, and the contract clause and due process - economic rights through case studies of leading Supreme Court decisions.

## 171. Constitutional Law,

 Civil Liberties, and Civil Rights (3)Free speech and association, freedom of press, commercial free speech, obscenity, religion guarantees, fourth, fifth, sixth, and eighth amendment issues, and social and political equality through case studies of leading Supreme Court decisions.
174. Politics and the Court (3)

An introduction to the judicial process: jurisprudence, courts and social policy, instruments and limitations of judicial power, fact finding, precedents and legal reasoning, statutory and constitutional interpretation, and the search for standards. (Former Pl Si 179T section)
179T. Seminar in
Public Law (1-4; max total 8)
Administrative law, international law, judicial administration, jurisprudence, legal institutions.

## Public Administration (Pl Si)

181. Public Administration (3)

General analysis of the field of public administration; administrative theories; policy and administration; behavioralism; budgeting, planning, and legal framework.

## 182. Administrative Analysis:

Management and Organization (3)
Administrative organization; methods; systems and procedures; problem solving; systems analysis; reports and records; resources management.
183. Comparative Administration (3)

Theories of comparative public administration; cross-national comparisons of administrative processes; institutions, policy formation, and behavior with consideration of cultural, social, and economic environments.

## 186. Public Administration

Internship Seminar (2)
Prerequisite: Pl Si 181. Corequisite: Pl Si 187. Advanced analysis of public administration theory and administrative practices from a theoretical perspective.

## 187. Internship in Public

## Administration (2-6; max total 6)

Corequisite: Pl Si 186 (may be waived if student has completed one or more upperdivision courses in public administration or is concurrently enrolled in PI Si 181), permission of instructor. Maximum credit toward public administration major, 3 units. Supervised work experience in public agencies to provide the student with an opportunity to fuse theory and practice. CR/NC grading only.
188T. Topics in Public Administration (1-4; max total 9 if no topic repeated) Treatment of current topics and problems in fiscal administration, public personnel administration, and planning.
189T. Seminar in Public Administration (3; max total 6 if no topic repeated) The values and philosophy of administration; management and dynamics of change; public relations and communication problems in public administration; planning problems and techniques; systems approach to resource management.

## 190. Independent Study

## (1-3; max see reference)

See Academic Placement - Independent Study. Approved for SP grading.
191. Directed Readings (1)

Directed readings and supplemental and original source material for enrichment of regular offerings in the subdiscipline.

## Core Program for

Master of Arts Degree in International Relations, (Pl Si)
200. Seminar in Methods
and Political Systems (3)
Prerequisite: permission of instructor. Systematic analysis of major political cultures and economic systems. Emphasis upon the leading theoretical models of the contemporary international system, issues of political economy, and methods of crosscultural research.

## 210. International Relations

and Political Theory (3)
(Same as A Eth 201.) Prerequisite: permission of instructor. Inquiry into philosophies of international relations with particular emphasis on moral foundations of international law in light of Western political theory. Some contemporary problems selected for in-depth analysis and student research.

## 220. Seminar in

Politics and Conflict (3)
Prerequisite: permission of instructor. Analysis of sources of political conflict and methods of conflict resolution with application to selected topics, such as the foreign policy of major powers, the dynamics of political transformation, interaction in regional subsystems, or national defense and arms control.

## 240. Seminar in Politics

of Resources and Modernization (3)
Prerequisite: permission of instructor. Analysis of global interdependence and national examples in selected resource areas. Emphasis on approaches to modernization in developing nations and relations between rich nations and poor nations.

## 250. Seminar in

Politics and Policy (3)
Prerequisite: permission of instructor. Policy formulation, implementation, and evaluation from a comparative perspective. Examines substantive policy issues common to modern industrial and developing nations from the perspectives of policy analysis and decision-making; considers the role of bureaucracy, the welfare state, political economy, and competing ideologies.
290. Independent Study (3)

See Academic Placement - Independent Study. Approved for SP grading.
298. Project Equivalent to Thesis (6)

See Criteria for Thesis and Project. Significant undertaking of a pursuit appropriate
to international politics. Must demonstrate originality and independent thinking and be accompanied by written scholarly apparatus. Project examples: documentary film; extensive curricular design; computer design of military strategies. Approved for $S P$ grading.
299. Thesis (6)

See Criteria for Thesis and Project. Approved for $\boldsymbol{S P}$ grading.

## Graduate Public

## Administration (GPA)

120G. Quantitative Applications
for Public Administration (3)
The gathering, evaluation, and use of quantified information in the design and evaluation of programs and administrative activities. Data collection; measurement; sampling; data analysis, including regression, structural equation models, and linear programming; computer applications. (2 lecture, 2 lab hours) (Former GPA 220)

## 200. Administration and Society (3)

How administration acts and is acted upon by institutional forces and values; role of history, cultural, ethical, political, social, and economic values and institutions; an emphasis on: bureaucracy, economy and democracy, centralization vs. decentralization, professionalism and society; alternatives to bureaucracy.
210. Public Organization

Behavior and Dynamics (3)
A study of how human behavior, motivations, personality, interpersonal and group dynamics operate in complex organizations; an emphasis on management styles, planned change, organization development, conflict management, leadership and communication skills.

## 225. Accounting for

## Public Management (3)

Students contemplating additional courses in accounting should enroll in Bus 205. Concepts, principles, and practices of accounting applicable to the administration of public programs and agencies. Current practices in recording and valuation. Analysis and interpretation of financial statements. Budgeting, internal reporting, and management controls.
230. Public Revenue
and Expenditure Analysis (3)
Prerequisite: Econ 40 and 50 or permission of instructor. The use of economic analysis in the resolution of major problems in revenue collection and expenditure choices. Critical examination of: burdens
and effectiveness of taxation measures conflicts between efficiency and equity; users charges; cost calculations; and costbenefit analysis.

## 240. Public Management

Methods and Processes (3)
A survey of public management concepts, tools, and processes; policy planning and management; strategic thinking; interpersonal and problem solving skills; work design; performance monitoring; management control; information systems; program evaluation; and integrative as well as critical perspectives on management. (Former GPA 240A)
241. Resource Management (3).

Prerequisite: GPA 240. Administration of fiscal and human resources. Emphasis on resource acquisition, allocation, and development strategies; budgeting skills, debt, and financial management. Human asset management, labor relations, position classification and analysis, quality of work life and employment equity issues. (Former GPA 240B)

## 250. Ethics and

## Public Administration (3)

(Same as A Eth 202.) Prerequisite: GPA 210. The moral dimensions of public administrative decision-making. The nature of public and private morality; psychological and ethical egoism; relativism; utilitarianism and deontological theories; rights and goods in the public service context; sensitive applications of rules in public agencies.
260. Public Policy Administration (3) Prerequisite: GPA 120G, 200, 210, 240. A study of policy initiation, formulation, and implementation and a public manager's role in them; management processes and functions in the policy process; policy justification and advocacy, policy analysis, and implementation evaluation.
280T. Topics in Public Administration (3; max total 6 if no topic repeated)
Selected topics meeting student needs and interests that are not met in other university courses.
287. Internship in

Public Administration (3)
Concurrent enrollment in either GPA 200 or 210 . Supervised work experience for a realistic exposure to an organizational-bureaucratic environment for students in the M.P.A. Program who lack significant work experience in a public or not-for-profit organization. CR/NC grading only; not applicable for unit credit toward M.P.A. degree.

289T. Practitioner's Seminar
(1; max total 6 if no topic repeated)
Prerequisite: Some seminars may have course prerequisites. Selected topics in the administration of public programs and agencies examined from the prospective and experience of practitioners.
290. Independent Study
(1-4; max total 6)
See Academic Placement - Independent Study. Approved for $\mathbb{S P}$ grading.
299. Thesis (3)

Prerequisite: See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the Master's degree. Approved for SP grading.

## COURSES <br> City and Regional Planning ( $\mathcal{C} \boldsymbol{R} \mathbb{P}$ )

## 100. Introduction to

## Community Planning (3)

Prerequisite: junior standing. Introduction to and critical analysis of theory and practice of community planning; traditional and alternative roles of planning in contemporary society; perspectives on community problems; evaluation of concepts, literature, and history. General Education CAPSTONE Cluster, Critical Thinking. (Former U R P 100)
103. Introduction to Urban Design (3)

Suggested for graduate students emphasizing design. Prerequisite: junior standing. Introduction to physical design and environmental communication. Urban design principles and application; formulation of design programs and solutions; supervised studio projects. (Two 3-hour studios) (Former U R P 103)
110T. Topics in Urban
Planning Techniques (1-3; max total 6) Selected topics such as analytical techniques; means for management of urban development, including transportation, public facilities, and activities in the private sector; public policy concerning issues of local and regional significance. (Former U R P 110T)
111. Planning for Historic Preservation (3)
The implementation of planning policy, guided by the General Plan and its Historic Preservation element, utilizing the techniques of historic preservation to achieve the broad public goal of rehabilitation and conservation of older areas of a community. (Former U R P 111)
135. Environmental Law (3)

Contemporary environmental problems and their interrelationships. The conceptual, constitutional, and administrative framework for environmental protection and management. Legislation and case law for the protection and enhancement of the environment with emphasis on natural resources. General Education CAPSTONE Cluster, Critical Thinking. (Former U R P 135)

## 149T. Topics in

Environmental Design (3; max total 6)
Prerequisite: junior standing. Selected topics on factors that influence environmental design problems, including environmental crisis areas and impact of public policies; design framework formulation and problem solving needed to achieve a quality environment. (Former U R P 149T)

## 190. Independent Study

(1-3; max total see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Former U R P 190)
191. Directed Readings
(1-3; max total 6)
Supervised independent reading in a selected topic related to city and regional planning. (Former U R P 191)

## GRADUATE COURSES

(See Course Numbering System.)
City and Regional Planning ( $C$ R P )

## 109GT. Presentation

## Techniques in Urban and

Regional Planning (1; max total 3)
Concurrent enrollment in C R P 200 series courses. Topics in techniques and practice of oral, narrative, and graphic presentation as related to city and regional planning. (One 2-hour lab) (Former U R P 109GT)

## 200. Seminar in

Planning Theory and Process (3)
Prerequisite: permission of instructor. Pursuit and analysis of the essence of planning, study of traditional and contemporary theories of community development, the planning process. (Former U R P 200)
201A-B. Seminar in
Planning Research (3-3)
Prerequisite: permission of instructor. (A) Planning research methodology and technique including scientific method, statistical analysis of data sampling, regression analysis; application of computer technology; sources of data. (B) Applica-
tion of research methodology and technique to planning problems; special emphasis on the formulation of research designs. (Former U R P 201A-B)
202. Seminar in Urban Design (3)

Prerequisite: permission of instructor. Examination of urban design theory and principles, with attention to design philosophy and the underlying concepts that include man-environment relations, design communications, the design process; implementation techniques; case studies. (Former U R P 202)

## 203A-B. Practicum in

Community Planning (3-3)
Prerequisite: permission of instructor. (A) Studio and field project design and implementation methods; supervised projects; (B) Application of theories and principles to a team project. (Former U R P 203A-B)
204. Seminar in the Elements of Community Structure (3)
Prerequisite: permission of instructor. Analysis of the characteristics and interrelationships between selected elements of the physical structure of the community including land use, transportation, housing, and public facilities. (Former U R P 204)

## 212T. Seminar Topics in Urban

Development (3; max total 9)
Prerequisite: C R P 200. Selected topics in the application of public policy to the solution of urban problems, including the renewal of blighted areas, the conservation and preservation of historic areas, the development and financing of new communities. (Former U R P 212T)
215. Seminar in Land

Development Controls (3)
Prerequisite: C R P 200. The application of the police power - zoning, subdivision regulations, and other techniques - used to implement land development plans and policies; historical and contemporary case studies. (Former U R P 215)
220. Seminar: Planning for Housing (3) Prerequisite: C R P 200. Housing problems in America; the role of local, state, and federal government and private enterprise; planning for adequate housing, carrying out policies and programs. (Former U R P 220)

## 230. Seminar in

Planning for the Region (3)
Prerequisite: C R P 200. Regional planning -approaches and methods; goal and policy implications of resource development, utilization and conservation; strategies for planning; case studies. (Former U R P 230)

## 236. Seminar in

Environmental Impact Assessment (3)
Prerequisite: permission of instructor. Environmental impact assessment as a procedure to protect and enhance the quality of the environment; the legal framework; content and preparation of the EIS/EIR; long-range planning for environmental protection; case studies. (Former U R P 236)

## 239T. Seminar in

## Regional and Environmental

Planning (1-4; max total 12)
Prerequisite: permission of instructor. Selected topics in regional and environmental planning, including land, air, and water resources; consideration of federal, state, and local environmental laws and policies; case studies. (Former U R P 239T)

## 249T. Topics in

Environmental Design (1-3; max total 9) Prerequisite: C R P 202. Selected topics such as man-environment relations; site planning; the development of community form; physiographic and cultural influences on urban design; problems in policy making, implementation and controls; cognitive mapping; design of prototypical environments. (2 hours studio weekly per unit) (Former U R P 249T)

## 250. Seminar in

Transportation Planning (3)
Prerequisite: permission of instructor. A systems view of transportation; alternative modes; interrelationships with urban structure; models; policy implications. (Former U R P 250)

## 260T. Seminar: Topics in Urban

Development Process (1-3; max total 9) Prerequisite: permission of instructor. Selected topics such as theory of regional and urban spatial organization; theory of modeling and gaming simulation; application of modeling and simulation techniques to the urban development process; case studies, supervised projects. (Former U R P 260T)

## 280T. Professional

Planning Practice (2-4; max total 7)
Maximum total 7 units applicable toward the degree, provided that units in excess of 4 must be earned in topics taken concurrently with related elective seminar. Prerequisite: C R P 200, 201A, 203A. Individually supervised professional practice: preparation and implementation of comprehensive urban, regional, or special purpose plans; study of interrelationships and roles of government, public agencies, and private enterprise. Approved for SP grading. (Former U R P 280T)

## 281T. Seminar in

Planning Practice (1; max total 3 )
Prerequisite: concurrent enrollment in C R P 280T, permission of instructor. Seminar to explore characteristics and problems of professional planning practice; written evaluations of work experience. (Former U R P 281T)
282T. Field Study
of Selected Planning Topics
(1-6; max total 12 if no topic repeated)
Prerequisite: permission of instructor. Field study of urban and regional phenomena in relation to urbanization, urban systems, housing, and resource development. (Former U R P 282T)
290. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Former U R P 290)
291. Directed Readings in Urban and Regional Planning (1-3; max total 6) Supervised independent reading in a selected topic related to urban and regional planning. Approved for SP grading. (Former U R P 291)
299. Thesis (2-6; max total 6)

Prerequisite: See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for SP grading. (Former U R P 299)

## Psychology

School of Natural Sciences
Department of Psychology
ROBERT V. LEVINE, Chair
Ed/Psych Building, Room 234
(209) 278-2691
B.A. in Psychology
M.A. in Psychology
M.S. in Psychology

Minor in Psychology
Pupil Personnel Credential with a Specialization in School Psychology

Psychology is concerned with the scientific study of human behavior and consciousness, and the applications of these findings to the areas of home, school work, and social relations. It covers topics such as learning, cognition, motivation, personality, psychophysiology, sexuality, group processes, cultural factors, and abnormal behavior. Psychology is an area for students interested in learning about the behavior of humans and other organisms.

The Department of Psychology provides a variety of opportunities for students. We have an undergraduate major that can be tailored as a strong liberal education, a preprofessional degree or as preparation for graduate study in psychology. In addition, we have two advanced degrees providing professional training in psychology. Our program gives considerable emphasis to psychology as an empirical science, including research design, data analysis and interpretation, and computer skills.
Our undergraduate major is one of the strongest and most respected in the State University System as a preparation for graduate work in psychology. Our better students do well in the Ph.D. programs into which they are often accepted. As a liberal arts major, our undergraduate program provides a solid background for students choosing to enter business or other more specialized vocations immediately after graduation.

## Faculty and Facilities

All full-time and some part-time members of the department hold Ph.D. degrees in psychology and many are licensed as psychologists for private practice by the state of California. Our faculty represents a wide range of theoretical orientations and interests that include most of the major areas in American psychology.

A comprehensive test library is maintained for programs in the testing and clinical areas. Complete video facilities are available for preparing training materials and for research and instruction. Several university computer terminals are located in the department area and the department has several microcomputers of its own for instruction and research. A computerized Bio-lab is also available for training and research in biofeedback and psychophysiological studies. The department employs technicians who construct specialized equipment for research and teaching purposes.

## Career Opportunities

In addition to learning theoretical views and research methods, students often have the opportunity to apply psychological principles of counseling and testing in community settings. Many students who earn the M.A. or M.S. degree obtain certification as school psychologists or school counselors. There are openings in mental health, public schools, community colleges, and other agencies for these advanced students.
Current surveys show that about onethird of psychology graduates become employed in business and related vocations, one-third in education, and
one-third in clinical and counseling vocations.
The B.A. degree does not train a person to work as a professional psychologist. However, a number of jobs related to psychology can be entered without advanced education. Some examples are employment interviewers, personnel managers, market researchers, management trainees, probation officers, and mental health workers.

Our 30-unit M.A. degree provides a strong background for further graduate study toward the doctoral (Ph.D.) degree. In the 60 -unit M.S. degree, students learn many clinical skills (psychotherapy, psychological assessment, etc.) that lead to employment possibilities in the schools and mental health settings. The M.S. degree is also a strong preparation for further graduate study.
Professional psychologists are employed in colleges and universities as instructors, researchers, and counselors. State and federal governments utilize psychologists in a variety of agencies and settings (mental hospitals, rehabilitation centers, prisons, employment testing, and personnel work). Finally, some psychologists are in private practice as counselors and psychotherapists, or consulting psychologists.

## Advising Notes

1. No course used to satisfy General Education CAPSTONE requirements may be used to satisfy psychology major requirements.
2. $C R / N C$ grading is not permitted in the psychology major.
3. General Education and elective units may be used toward a dual major or minor (see Dual Major or departmental minor). Consult the appropriate depart-
ment chair, program coordinator, or faculty adviser for further information.

## Courses Suggested for

Particular Areas of Interest
Child Development
A. Applications: Psych 166, 175, 177
B. Basic Content: Psych 134 or 155, one other
C. Basic Processes: any except Psych 127
F. Electives: Psych 132, 167 or 168, 174; CLS 154 or 156

## Counseling

A. Applications: Psych 166 or 160T, 177
B. Basic Content: Psych 154, one other
C. Basic Processes: Psych 121, 122
F. Electives: Psych 132, 174, 175; CLS 180T (Chicano Psychology) or CLS 156

## Business

A. Applications: Psych 176, 177
B. Basic Content: Psych 134, 154
C. Basic Processes: Psych 121, 122
F. Electives: Psych 166 or 171, 174 or 175 Preparation for Graduate Work
A. Applications: Psych 166, or others of interest
B. Basic Content: Psych 154, 155
C. Basic Processes: Psych 121, 122
F. Electives: Psych 143, one course from Areas $\boldsymbol{B}$ or $\boldsymbol{C}$

## Preprofessional Preparation

A psychology major is often used as preparation for other professions. For preprofessional programs in law, dentistry, medicine, and the ministry, see the Preprofessional Preparation units section and consult an adviser in the psychology department.

## Credential Programs

The Department of Psychology offers the Pupil Personnel Services Credential with a specialization in School Psychology. The admission dates for this program are November 30 and April 30. (See Psychology Department for specific course requirements.)
Application forms and advising are available in the Psychology Department.

## Psychology Minor

A Psychology Minor must have prior approval of the psychology department. The minor consists of 22 units of psychology courses, 15 of which must be upper division. The specific courses may be selected to satisfy the needs of individual students but must be worked out in advance with an adviser from the department and be approved by the department.

## Graduate Programs

The Master of Arts and Master of Science degrees in Psychology are designed to provide students with a broad background in psychology while allowing them opportunities to pursue areas of special interest. Completion of the requirements for either master's degree prepares students for positions in community mental health service agencies, school settings, community college teaching, research, or entry into Ph.D. or Psy.D. programs in Psychology.
Admission to the Master of Arts and Master of Science programs in Psychology is based upon the satisfactory completion of prerequisite courses selected from the core courses required for the CSU, Fresno undergraduate major in psychology, or their equivalent. Admission to the School Psychology or Clinical Psychology areas may require additional, specific prerequisites. Classified standing requires an undergraduate average of $\boldsymbol{B}$ or better in psychology courses and a total GRE Aptitude Test score of 1,000 (Verbal plus Quantitative) or a total score on the GRE Subject Test in Psychology equivalent to the 60th percentile (ETS norms).
(See also Admission to Graduate Standing, Advancement to Candidacy, Program Requirements, and Criteria for Thesis and Project.)
Under the direction of a graduate adviser, a coherent program is prepared and submitted, directed toward the achievement of the student's goal in graduate study.

## Core Course Requirements for the Master of Arts and Master of Science Degrees

Units
Psych 244* 4
Psych 200T or 250 T or 255 T
(one course) .3-4
Psych 220T or 225T (one course) ........ 3-4
Psych 231*............................................. 2
Psych 299 (Thesis) .............................. 3-6
Totall 15-20

## Master of Arts

Degree Requirements
The Master of Arts degree program in Psychology may be arranged to include interest areas such as general experimental, developmental, and social psychology, as well as special Master of Arts programs for individuals. This 30 -unit degree program is intended primarily to prepare graduates for entry into doctoral programs in general experimental, developmental, social, or
clinical psychology, and may serve as preparation for community college teaching or professional employment requiring a master's degree.

## Units

Core requirements (see page 423) ... 15-20
Electives in psychology or related fields 10-15

## Totall

 .30See the department for other recommendations related to the general experimental, developmental, and social program interest areas.

## Master of Science Degree Requirements

The Master of Science degree in Psychology requires a minimum 60 units and includes a minimum of 540 hours of supervised practicum or supervised field experience.

Units
Core requirements (see page 423) ... 15-20
Electives (see below)
28-33
Supervised Fieldwork
or Practicum (Psych 267) .12
Totall ................................................ 60
Students with an interest in clinical psychology should include the following courses among their electives: Psych 280, 281, 282, 284, 285 or 286 (4 units), 283T (3-4 units).

Students with an interest in clinical psychology should complete their fieldwork in a clinical or counseling setting.
Students who wish to become eligible for the Pupil Personnel Credential with a specialization in School Psychology as granted by the California Commission on Teacher Credentialing should contact the department for application materials and additional information. The following electives, in addition to the core requirements, may be used to obtain a M.S. degree in Psychology:
Psych 277, 278, 279 (9 units); Psych 281, 282, 284, 285 (16 units); COUN 201, 240, 241, 280T (12 units)
Students with an interest in School Psychology should complete their practicum in a school setting. Contact the department for further details and other requirements.

[^38]Specific requirements for advancement to candidacy for all degrees and credentials include a score above the 60th percentile (ETS norms) on the GRE Subject Test in Psychology.

## COURSES

Psychology (Psych)
Note: All psychology courses are open to majors and nonmajors.

## 10. Introduction to Psychology (4)

Not open to students with more than 6 units in psychology. Introduction to psychology as an empirical science; biological and social bases of behavior; scientific principles of psychology in perception, learning, motivation, intelligence, and personality. General Education BREADTH, Division 3. (3 lecture, 2 lab hours) (CAN PSY 2)
36. Introduction to

Psychophysiology (3)
Functioning of the brain in learning, memory, language, motivation, and emotion; human physiological correlates of emotional states, pain, dreaming; control of brain waves and internal states, lateralization of brain functions. General Education BREADTH, Division 3.

## 42. Introductory Statistics (4)

Recommended: ELM Exam, two years high school algebra. Basic statistical methods for analysis of data; parametric tests of significance; linear regression and correlation; analysis of variance; introduction to non-parametric techniques. General Education CORE, Quantitative Reasoning. (May include lab hours) (Former Psych 142)
60T. Psychology as a
Behavioral Science (1-5;
max total 6 if no topic repeated)
Problems in approaching man as a social animal; sections in basic or applied processes in personality, interpersonal relations, social environment, and group participation. (Some sections may have lab hours)

## 61. Personal Adjustment (3)

Not open to students with credit in Psych 171. General adjustment behavior with regard to personal, academic, social, and mental health problems; application of principles of prevention of emotional problems. General Education BREADTH, Division 4.
101. Child Psychology (3)

Not open to students with credit in Psych 155. The dynamics of infant and child development and adjustment.
102. Adolescent Psychology (3)

Adjustment of youth to self and society. General Education CAPSTONE Cluster.
103. Maturity and Old Age (3)
(Same as Geron 103.) Psychological study of maturity and old age; physiological and sociological considerations.
112. History and Systems (4)

Prerequisite: 12 units in psychology. Historical, philosophical, and scientific background of psychology; current systems and theoretical issues.

120T. Topics in General Psychology
(2-5; max total 12 if no topic repeated) Empirical evidence and theoretical issues in learning, motivation, cognition, language, perception, sensory, and physiological processes. Sections may be limited to animal or human studies; research and reporting. (Usual sections include lab hours)
121. Learning and Memory (4)

Prerequisite: Psych 42. Combined survey of (1) principles from the human and animal laboratory with theoretical interpretations and applications; and (2) principles of operation of the human memory system with theoretical interpretations. (May include lab hours)

## 122. Motivation (4)

Prerequisite: Psych 42. Initiation and continuation of behavior, acquisition, and modification of motives. (May include lab hours)

## 124. Sensation and Perception (4)

Study of sensory and perceptual processes in vision, touch, and hearing. Emphasis is placed on how basic perceptual principles operate in everyday life as well as in lab settings.
125. Physiological Psychology (4)

Prerequisite: Psych 42 or permission of instructor. (Psych 36 recommended.) Nervous systems structures and physiological processes underlying behavior; anatomical and physiological bases of learning, motivation, emotions, and emotional disorders. (May include lab hours)
126. Psycholinguistics (4)

An introduction to theory and research in psycholinguistics: language as related to thought and culture; language acquisition; recognition, production, and comprehension of language; psychological applicability of modern linguistic theory; language as related to social processes.

## 127. Animal Behavior (4)

Causal factors for instigation, acquisition, and maintenance of behavior in animals. Genetic, ethological, ecological, and physiological approaches are considered. (May include lab hours and field trips)
128. Cognitive Psychology (3)

Prerequisite: Psych 42. An introduction to theory and research in human information processing. Topics include attention, mental representation, imagery, problem solving, reasoning, language, and other higher mental processes. (Former Psych 120 T section)

## 132. Psychology of Sexuality (3)

Prerequisite: upper- division standing. Psychological aspects of human sexual behavior: influence on personality, various behavioral manifestations and pathologies. General Education BREADTH, Division 4.

## 134. Social Psychology (3)

Not open to students with credit in Psych 156. Introduction to human interaction in different social environments. Major concepts, theories, and principles of social psychology, relevant findings and their applications to everyday life.

## 136. Human

## Learning and Behavior (3)

Not open to students with credit in Psych 121. Open to majors and nonmajors. Introduction to learning principles as they interact with perception, cognition, and motivation. Relevance of these principles in understanding human adaptation to school, home, and social environments. General Education CAPSTONE Cluster, Critical Thinking.
143. Intermediate Statistics (4)

Prerequisite: Psych 42. Intensive study of analysis of variance with research emphasis. Topics include single and multifactor designs both with and without repeated measures, planned and post hoc comparisons, trend analysis, analysis of covariance and introduction to university computational facilities. (May include lab hours)

## 144. Research Designs

and Experimental Methods (4)
Prerequisite: Psych 42. Basic course in experimental psychology: research design statistics; introduction to scientific procedures and methods in psychology; participation in research and report writing. (May include lab hours)
145. Computer Applications (4)

Prerequisite: Psych 42 (may be taken concurrently); IS 50 recommended. A comprehensive survey of computer applications in the behavioral sciences. Major emphases will be placed on theoretical and practical applications (simulations, artificial intelligence, computer control, and processing), SPSS and BMD statistical packages, and other specialized computer programs for psychology. (3 lecture, 3 lab hours)
149. Psychological Testing (4)

Prerequisite: Psych 42. Theories of psychological testing stressing the logic and limits of measurement. Emphasis on technical and individual tests. (3 lecture, 3 lab hours)
150T. Problems in Personality,
Developmental and Social Psychology
(2-5; max total 12 if no topic repeated)
Wholistic levels of analysis in psychology such as personality, social, individual differences, and developmental; conceptual and empirical issues. (Somesections include lab hours)

## 153. Developmental

Psychology for Counselors (3)
Not open to psychology majors or students with credit in Psych 155. Empirical and theoretical treatment of developmental issues and life events from infancy to old age and their effect upon individuals, couples, and family relationships. Included are psychological, psychotherapeutic, and health implications of specific individual and family life events including childbirth, child rearing, childhood, adolescence, adulthood, marriage, divorce, blended families, stepparenting, and geropsychology.
154. Personality (4)

Major contemporary theories of personality; techniques for research in personality. (May include lab hours)
155. Developmental Psychology (4)

Empirical and theoretical treatment of human development throughout the life span; genetic, physiological, and sociocultural influences upon development; physical, emotional, motivational, intel-lectual-cognitive, and social facets of development. (May include lab hours)

## 160T. Topics in Clinical Processes

(2-5; max total 12 if no topic repeated)
Prerequisite: permission of instructor. Examination of individual behavior and small-group processes; include such topics as clinical psychopathology, sensitivity
training, and intragroup dynamics, consciousness, dreams, and imagination.
166. Abnormal Psychology (3)

Study of the origins, symptoms, and treatments of behavioral and personality disturbances from childhood through senescence; application of current DSM.
167. Mental Retardation (3)

Psychological aspects of mental retardation; parent-child problems, etiology, nosology, school placement, institutionalization, treatment, and recognition of all types; parent and child counseling.
168. Exceptional Children (3)

The atypical child; etiology, symptomatology, nosology, recognition, and recommendations.
169. Psychological Aspects
of Physical Disability (3)
Psychological theory and research pertaining to physical disability and disabled persons. Attitudes regarding disability and the impact of disability on individual behavior. Primarily deals with blindness, deafness, orthopedic handicap, and epilepsy, and secondarily with cardiovascular disease, cancer, and diabetes.

## 170T. Topics in

Psychological Applications
(2-5; max total 12 if no topic repeated) Applications of psychology; human factors; clinical psychology, learning applications, clinical quantitative, learning, creativity, computer, and other applied topics. (Some sections may include labs)

## 171. Adjustment <br> and Mental Hygiene (3)

Not open to students with credit in the Psych 60T section or Psych 61. Basic processes in adjustment; mental health and social problems; applications of principles of emotional health, prevention of personal problems. General Education BREADTH, Division 4.

## 172. Psychology of Women (3)

(Same as W S 172.) Prerequisite: permission of instructor. Examination of sex differences and sex roles; biological, cognitive, social, and motivation.
173. Environmental Psychology (3-4) Man-environmental relations, psychological and behavioral effects of various ecological conditions including crowding, housing, urbanization, and space.

## 174. Introduction to Counseling (3) (See COUN 174.)

175. Famnily Counseling (3)

Theory and application of major counseling models. Family problems, relationships and systems. Application of child development principles, relevant communication theory and current research to therapy with couples, families, children, and groups.
176. Industrial Psychology (3)

Occupational assessment, training procedures, production efficiency, morale determinants, human engineering, decision processes, organization theory.

## 177. Behavioral and

Cognitive Change Techniques (4)
Introduction to learning principles and their applications to behavioral and cognitive change. Methods and techniques used for changing self, children, adolescents, and adults. (3 lecture hours, 1 practicum hour arranged)
178. Culture, Social Class, and Development (3-4)
An introduction to theory and research on race, prejudice, culture, and social class, and the results of these on the intellectual and social development of the child.
179. Supervised Field Experience (4) Open only to psychology majors. Prerequisite: permission of instructor. Supervised field experience in community settings. Placements mayinclude schools, hospitals, institutions for the aged, community service agencies, and legal settings, depending onstudent interests. Regular class meetings.

## 180T. Seminar in Psychology

(1-5; max total 12 if no topic repeated) Prerequisite: 9 units in psychology, permission of instructor. Undergraduate seminar in specialized areas, new developments and synthesis of psychological processes, thought, and theory.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
199. Senior Thesis (2-4)

Concentrated empirical or theoretical study of specific topic in psychology; emphasis on independent and creative activity. Copy of thesis required for Psychology Department file.

## GRADUATE COURSES

(See Course Numbering System.)

## Psychology (Psych)

## 200T. Seminar in

Developmental Psychology
(2-4; max total 15 if no topic repeated) May be repeated with different topics. Prerequisite: permission of instructor. Seminars in development and genetic psychology, special topics for particular age ranges and problem areas. (May include lab hours)

## 220T. Seminar in

## Learning and Related Problems

(2-4; max total 15 if no topic repeated)
Prerequisite: undergraduate core. Advanced current developments in learning, perception, language, memory, and cognitive psychology. (May include lab hours)

## 225T. Seminar in

Psychobiological Bases of Behavior (2-4; max total 15 if no topic repeated) Prerequisite: permission of instructor. Recent advances in psychophysiology, physiological psychology, psychopharmacology, behavior genetics, sensory processes and related topics. (May include lab hours)

## 231. Ethics in Psychology (2)

(Same as A Eth 200.) Prerequisite: permission of instructor. Study of ethical issues, values, and problems in psychological research and practice. Topics include
subject risk, confidentiality, court decisions, and licensing laws. Seminar format with student presentations.

240T. Seminar in Quantitative Methods for Behavioral Research (2-4; max total 15 if no topic repeated) Prerequisite: Psych 143. Methods for analysis of multivariate data; factor analysis; multiple regression; advanced analysis of variance procedures. Computer applications and use of computers for analysis of data. (May include lab hours)

## 244. Seminar in Research

Methods and Theoretical Issues (4)
Prerequisite: Psych 143 or permission of instructor. Examination of recent theories, advanced research methods, and statistical techniques in behavioral research. (May include lab hours)

## 250T. Seminar in

## Personality and Related Areas

(2-4; max total 12 if no topic repeated)
Prerequisite: undergraduate core in psychology. In-depth examination of the recent developments in personality and clinical psychology. (May includelabhours)

## 255T. Seminar in

Social Psychology and Related Areas (2-4; max total 15 if no topic repeated) Prerequisite: permission of instructor. Theories and research about individual functioning in society; also includes such

topics as environment psychology and the psychology of women. (May include lab hours)

## 267. Fieldwork in

Clinical Methods (3-18; max total 18)
Prerequisite: Psych 281, 282, 284; 285 or 286, and permission of instructor. Supervised field work in clinical assessment, intervention and case study techniques. Field placements will include hospitals, schools, and clinics, depending on student's needs. Regular conferences and critiques with supervising faculty.

## 270T. Seminar in

## Applied Behavioral Science

(1-6; max total 15 if no topic repeated) Prerequisite: permission of instructor. Topics in applied behavioral research; conflict management, group dynamics, organization development, sensitivity training, and related processes. For students in the fields of business, communications, education, psychology, and the social sciences. (May include lab hours)

## 272. Seminar in

Lab Teaching (1; max total 4)
Enrollment restricted to and required of graduate students teaching discussion sections in psychology laboratories. Class discussion of teaching techniques and procedures used to demonstrate principles in introductory psychology. Course may be repeated for a maximum of 4 units credit. (Former Psych 270T section)

## 277. Role and Function

of the School Psychologist (3)
Prerequisite: graduate standing. State and federal education codes and court decisions related to the practice of school psychology; types of community resources and referral services. Includes on-site observations of special education programs. (Former Psych 277A)

## 278. Intervention and

Prevention in School Psychology (3)
Prerequisite: Psych 277. Roles and responsibilities of the school psychologist including prevention, individual and group
techniques for early intervention, and strategies for modification of individual programs and educational environments. Includes travel for on-site observation.
279. Consultation and Supervision (3)

Prerequisite: Psych 277. Types of consultation services offered by school psychologists and variables which influence consultation effectiveness including organizational and systems issues. Emphasizes development of consultation and supervisory skills. Includes travel for on-site observation.

## 280. Seminar in

## Clinical Psychology (4)

Prerequisite: a course in abnormal or clinical psychology and permission of instructor. Historical backgrounds and current issues and developments in: training and professional preparation; issues of scientific and professional concerns in clinical assessment and intervention; psychotherapies; clinical research; other relevant topics.

## 281. Interviewing and

 Individual Psychotherapy (4)Prerequisite: a course in abnormal or clinical psychology and permission of instructor. Basic interviewing skills including intake and interviews for diagnostic and therapeutic purposes. Review of current models and theories of psychotherapy. Development of applications using video taping and supervised practicums.

## 282. Cognitive and

## Behavior Therapy (4)

Prerequisite: a course in learning or behavior modification and permission of instructor. Historical and current trends, research issues, and designs. Application of the behavior approach in a variety of settings. Includes supervised practicum experience.

## 283T. Topics in

## Clinical Intervention

(3-4; max total 12 if no topic repeated) Prerequisite: permission of instructor. Advanced study in specialized areas in psychotherapy. May include topics such as clinical hypnosis, health psychology, family therapy, group therapy, etc. Practicum training usually included. Topics may not be repeated.
284. Assessment of

Intellectual Abilities (4)
Prerequisites: a course in psychological testing and permission of instructor. Review of theories of intelligence. Administration, scoring, and interpretation of individual and group measures of intelligence and creativity for children and adults. Supervised practicum includes case studies of learning problems and the role of intelligence measures in assessment batteries.

## 285. Assessment of Learning

 and Developmental Problems (4)Prerequisite: Psych 284. Administration, scoring, and interpreting measures of learning disorders, physical-motor development, psychomotor abilities, social maturity, tests, school achievement, and vocational selection. Supervised practicum emphasizing proscriptive and rehabilitative recommendations in case studies.
286. Assessment of Personality and Neuropsychological Functioning (4)
Prerequisite: Psych 284. Review of personality theory and psychophysiology. Administration, scoring, and interpreting measures of child and adult group, and individual objective personality tests, children's scales, neuropsychological tests and batteries. Supervised practicum.

## 290. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
299. Thesis (3-6; max total 6)

Prerequisite:See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree in compliance with Psychology Department regulations. Approved for $\boldsymbol{S P}$ grading.

## Recreation Administration and Leisure Studies

School of Health and Social Work Recreation Administration and Leisure Studies Program MICHAEL B. HOFFMAN, Coordinator San Ramon 2, Room 23
(209) 278-2838

## B.S. in Recreation Administration

 Options:Commercial Recreation
Public and Nonprofit Recreation Therapeutic Recreation
Minor in Recreation Administration

The program offers a Bachelor of Science degree in Recreation Administration for individuals who are committed to the recreation and leisure services profession. While the General Education program provides students with a foundation in the liberal arts and sciences, the major in recreation administration allows students to acquire knowledge, understanding, ability, and skill necessary to successfully function in professional positions related to the major.
The faculty is committed to providing a quality professional preparation program in recreation and leisure services, founded on a competency based curriculum. Our graduates acquire specific competencies as identified by practitioners, faculty, and the National Recreation and Park Association. These competencies are related to leadership, program planning, recreation and leisure oriented activities, budgeting, evaluation of programs and personnel, history, professional ethics, philosophy, research techniques, public relations, communication skills, organizational systems, laws and legislation, facility design, administration and therapeutic techniques.
The program, accredited by the National Recreation and Park Association Council on Accreditation, offers a B.S. degree and a Minor in Recreation Administration. Preparation is provided within the major for three distinct degree options: commercial recreation, public and nonprofit recreation, and therapeutic recreation.

Students in the recreation administration major complete a core of courses. These courses are designed to assist students in acquiring competencies related to the content of courses in principles of recreation, leadership and group dynamics, legal and financial aspects of recreation

service, community recreation, program planning, organization and administration of leisure services, trends, current research, and professionalism.
Within the commercial recreation option, students develop specific competencies in the areas of accounting, finance, business management, marketing and decision sciences. Public and nonprofit recreation option students develop specific competencies related to the subject matter of courses in camp management, funding, and management of voluntary resources. Students in the therapeutic recreation option acquire specific competencies related to the subject matter of courses in physiology, foundations of therapeutic recreation service, methods in therapeutic recreation, abnormal psychology, and individual and small group counseling.
Under the guidance of a practitioner, students in recreation administration and leisure studies earn more than 1,000 hours of paid or voluntary hands-on experience in a variety of recreation, clinical, or leisure services agencies. In addition, they serve full-time internships with private or commercial recreation enterprises, public recreation agencies, nonprofit organizations, park oriented agencies, clinical organizations, and others.

## Career Opportunities

The recreation and leisure business comprises the second largest industry in the United States. Fresno graduates who are highly motivated, assertive, and have designed their academic and work experience to meet the needs of the marketplace have been very successful in securing professional positions.
The undergraduate curriculum is designed to prepare students for possible careers as: hospital recreation therapists; nursing home activity coordinators; recreation therapists in centers for the disabled; recreation directors in detention centers; city recreation leaders, supervisors - general or specialty; city and county recreation and park managers; state recreation specialists; state recreation consultants; managers or assistant managers of a resort area; managers or assistant managers of a membership club (racket, swim, golf, or fitness); hotel social directors; church recreation or youth directors; industrial recreation directors; school recreation directors; program or field directors in youth agencies; camp directors or assistant directors; armed forces recreation specialists; and others.

## Bachelor of Science <br> Degree Requirements

Recreation Administration Major
Units
Major requirements $\qquad$ 60-63
The following courses are required of all candidates for this degree. Additional required courses dependent upon the selected option are outlined following the core program requirements.
Core Program
RLS 55, 73, 73L, 151, 168, 179, 180 $\qquad$
Commercial Option
RLS 95, 169, 170, 173, 173L, 188
Recreation electives elect from: RLS 80, 159, 160
Select 14 units from: Acct 3, Art 30, 40, 60, 70, 80; В А 18, 189T; CSH 110; Drama 136, 137; Engl 160W; Fin 143, 146; FScN 50, 155, 156; HS 48; HRM 150; IS 50, 105W; Jour 106, 113; Mgt 104, $106,110,127,128 ;$ Music 9; OH 2; P E 105, 108, 114; Pl Si 181; RLS 80, 101, 140; Soc 130W $\qquad$
Students in the Commercial Option are advised to complete the general business minor. Business courses taken in the minor cannot be counted in the major option. See a recreation administration faculty adviser for suggested courses.
Public and Nomprofit Option
RLS 140, 159, 160, 172, $173,173 \mathrm{~L}$ and 185 or 186 $\qquad$ (28)

Students must complete 3 units of coursework in each of the following tracks:
A. Art 30, 60, 70, 115; I T 162
B. Music 9 (guitar, piano or voice) 153; Drama 136, 137, 138A
C. PE AC 11, 12, 13, 18, 24, 101, 107; P E 108, 152
D. CFS 38; H S 48; IS 105W; Mgt 104, 106; RLS 80, 95, 101, 165, 169
E. Select 3 additional units from A-D
Therapeutic Option $\qquad$
RLS 165, 166, 166L,
174, 187
P E 105 or Phy 33 .......(3-5)
H S 48
Students must com-
plete a minimum of
3 units from each of
the following:
A. Art 30, 60, 70
B. Drama 136; Music 153; PE 11, 12, and 13
C. HSW 101; Psych 166 or 167 or $169 \ldots$.... (3)
D. RLS 80, 101, 140, 159, 167, 169 $\qquad$
Additionally, for state and national certification, it is highly recommended that students take the following CAPSTONES:
Psych 102; Crim 120.
Generall Education .......................... 51
Electives and remaiming
degree requirements .............. 15-25*
Totall .128
*This figure takes into consideration that Public and Nonprofit Option majors may also apply RLS 80, 101, Art 60 or 70, and Music 9 to General Education BREADTH, Divisions 4 and 5 requirements. Commercial Recreation Option majors may also apply Music 9, RLS 80, 101, Art 30, 40, 60, or 70 to General Education BREADTH, Divisions 4 and 5 requirements. Therapeutic Option majors may also apply Art 30, 60, 70, RLS 80, 101 to General Education BREADTH, Division 4 requirement. See the recreation administration and leisure studies program chair or faculty adviser for details.

## Advising Notes

1. $C R / N C$ grading is not permitted in the recreation administration major with the exception of RLS 185, 186, 187, 188.
2. General Education and elective units may be used toward a minor (see departmental minor). Consult the appropriate department chair, program coordinator, or faculty adviser for further information.

## Recreation Administration Minor

The Minor in Recreation Administration for the Bachelor of Science degree consists of 24-26 units of which 6 must be upper division and permits, with guidance, a selection of courses to satisfy special interests and needs. The Recreation Administration Minor offers training in activities suitable for use in recreation programs of communities, schools, youth agencies, and clubs.

## Units

RLS 55, 73, 73L, 168, 173 and 173L, 174 or 175 14

## COURSES

## Recreation and Leisure Studies (RLS)

55. Introduction to

Recreation and Leisure Service (3)
Philosophical, theoretical, and historical basis for recreation service in contemporary American society; exploration of the various facets of recreation and leisure service including public, private, therapeutic, and commercial recreation. (Former Rec 55) (CAN REC 2)
73. Leadership
in Recreation Service (3)
Prerequisite: RLS 55. Theoretical and philosophical basis for leadership. Social dynamics of leading recreative activities. (Former Rec 73)

## 73L. Leadership in

Recreation Service Laboratory (1)
Concurrent with RLS 73. Practical leadership experience in supervised recreation settings. (Former Rec 73L)
80. Outdoor Recreation (3)

History, development, and trends of outdoor recreation resources, agencies, and activities. Integration of the individual with the outdoor recreation experience. Overview of the implications of outdoor
recreation experiences over the life span. General Education BREADTH, Division 4. (Students may incur minimal expenses related to field trips.) (Former Rec 80)
95. Recreation Services

Integrating Special Populations (3)
Prerequisite: RLS 55. Introduction to the recreation and leisure needs of special populations, and in the integration process in a community recreation setting. (Field trips may be required.) (Former Rec 95)
101. Leisure and Human Behavior (3)

Exploration of leisure as related to the individual and society. The forces and factors affecting its role on human behavior are examined within the context of current social issues. General Education BREADTH, Division 4. (Former Rec 101)
140. Foundations of Public and Nonprofit Leisure Services (3)
Prerequisite: RLS 55. Historical and philosophical foundations of public and nonprofit leisure service; review of selected service providers in areas including organization, service provision, legal base, funding, and current trends and issues. (Field trips may be required.) (Former Rec 192 T section)

## 150. Perceptual

Motor Development (3)
(See P E 150.) (Former Rec 150)
151. Community Recreation (3)

Prerequisite: RLS 55. Analysis of community agencies offering recreation services. Emphasis on assessing community recreation and leisure preferences. (Field trips may be required.) (Former Rec 171; Rec 151)

## 159. Developing and

Utilizing Voluntary Resources (3)
Analysis of the special needs and strategies of volunteer resource management. Innovative application of voluntary resource development within a changing society. A community based project is required. (Former Rec 159)

## 160. Camp Management (3)

Prerequisite: RLS 73, 73L. Organization, supervision, and management of various types of camps. (Course fee for field trips; approximately \$25) (Former Rec 160)

## 165. Foundations of

Therapeutic Recreation Service (3)
Prerequisite: RLS 55, P E 105. Historical review of therapeutic recreation; identification of special populations including the study of etiology, characteristics, terminology, and support systems; field trips to settings serving the mentally and physically handicapped, the developmentally disabled, the aged, the convalescent, and the socially deviant. (Former Rec 165)

## 166. Methods in <br> Therapeutic Recreation (3)

Prerequisite: RLS 165. Analysis and application of therapeutic recreation techniques, adaptive games, and activities for atypical populations; appliances, testing, charting, narrative writing, and leisure counseling. (Former Rec 166)

## 166L. Methods in

Therapeutic Recreation Laboratory (2) Prerequisite: RLS 165. Must be taken concurrently with RLS 166. Practical experiences in applying therapeutic recreation principles and processes. (Former Rec 166L)
168. Legal and Financial

Aspects of Recreation Service (3)
Prerequisite: completion of core math requirement and RLS 151. Legal and financial aspects of recreation service; budget analysis, legal terminology, and their role in recreation administration. (Field trips may be required.) (Former Rec 168)

## 169. Foundations of Commercial Recreation (3)

Prerequisite: RLS 55. Historical and philosophical foundations of the commercial recreation field. Identification of providers of commercial recreation goods and services. Analysis of current trends in leisure enterprises. (Field trips may be required.) (Former Rec 169)

170. Leisure: Prospects for Profit (3) Prerequisite: RLS 169. The establishment, financing, and marketing of commercial recreation enterprises. Conceptual, theoretical, and practical concepts of commercial leisure service management explored through the development of an investment memorandum. (Field trips may be required.) (Former Rec 170)

## 172. Developing Funding

 Resources for Leisure Services (3)Prerequisite: RLS 168. Method and techniques related to financing public and nonprofit community agencies including funding sources, proposal development, foundation, in-kind contributions, and donor strategies. (Former Rec 192T section)

## 173. Senior Project in

Public and Nonprofit Recreation (3)
Prerequisite: RLS 172. Advanced program planning for various age groups in public and nonprofit agencies. Recruitment, selection, supervision, and evaluation of program staff. A senior project is required. (Former Rec 173)

## 173L. Senior Project in Public and

 Nonprofit Recreation Laboratory (1) Corequisite: RLS 173. Programming experience in public or nonprofit agencies. (Former Rec 173L)
## 174. Senior Project in

Therapeutic Recreation (4)
Not open to students with credit in RLS 173. Prerequisite: RLS 166, 168. A culminating experience in the Therapeutic Recreation Option. Planning therapeutic programs for special populations. Practical program experiences with disability groups required. (3 lecture, 1 lab hour) (Former Rec 174)

## 175. Senior Project in <br> Commercial Recreation (4)

Prerequisite: RLS 170. Concepts and methods in the development and analysis of potential markets, estimation of expenses and revenues, site evaluation, and program planning and leadership in a commercial recreation enterprise. (Field trips are required, students may incur expense; hours arranged.) (Former Rec 192T section)

## 179. Organization and

Administration of Leisure Services (3)
Prerequisite: RLS 168 and may only be taken the semester prior to internship. Preparation for the role of administrator of recreation and leisure services; administrative practices, the provision of sites and facilities, and management of personnel. (Former Rec 179)

## 180. Senior Seminar (2)

May only be taken the semester prior to internship. Trends and issues, current research, professionalism, and internship search procedures in recreation administration. (Former Rec 180)

## 185. Internship in

Private Recreation (12)
Prerequisite: completion of all major, General Education, and university graduation requirements. Directed supervisory experience with a private recreation agency. Individual development in administration, supervision, program planning, and community and public relations; supervised, directed full-time experience in the field of private recreation; reports and conferences required. (It is recommended before internship registration that a student have the equivalent of 1,000 hours of recreation related experience, either paid or volunteer, in the field of recreation service.) $C R / N C$ grading only. (Former Rec 185)

## 186. Internship in

Public Recreation (12)
Prerequisite: completion of all major, General Education, and university graduation requirements. Directed supervisory experience with a public recreation agency. Individual development in administration, supervision, program planning, community and public relations; supervised, directed full-time experience in the field of public recreation; reports and conferences required. (It is recommended before internship registration that a student have the equivalent of 1,000 hours of recreation related experience, either paid or volunteer, in the field of recreation service.) CR/ NC grading only. (Former Rec 186)

## 187. Internship in

Therapeutic Recreation (12)
Prerequisite: completion of all major, General Education, and university graduation requirements. Supervised, directed fulltime experience in the field of therapeutic recreation; reports and conferences required. (It is recommended before internship registration that a student have the equivalent of 1,000 hours of recrea-
tion related experience, either paid or volunteer, in the field of recreation service.) CR/NC grading only. (Former Rec 187)
188. Internship in

Commercial Recreation (12)
Prerequisite: completion of all major, General Education, and university graduation requirements. Students must be interning in a commercial recreation agency in order to register in RLS 188. Supervised, directed full-time experience in the field of commercial recreation; reports and conferences required. (It is recommended before internship registration that a student have the equivalent of 1,000 hours of recreation related experience, either paid or volunteer, in the field of recreation service.) $C R /$ NC grading only. (Former Rec 188)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Former Rec 190)

## 192T. Topics in

Recreation Administration (1-3)
Prerequisite: permission of instructor. Investigation of selected topics related to: administration, supervision and leadership in public recreation; therapeutic recreation; camping; and workshops related to skills in leisure oriented activities. (Former Rec 192T)

## IN-SERVICE COURSES

(See Course Numbering System.)

## Recreation and Leisure Studies (RLS)

313. Recreation Activities (1-3;
max total 6, may be repeated for credit) Prerequisite: permission of instructor. Open to personnel working in recreation, students, and teachers. Design, application, and adaptation of activities and skills to various recreational settings. May be repeated for credit. (Former Rec 313)
330T. Topics in Recreation (1-3; max total 6, may be repeated for credit) Prerequisite: permission of instructor. Study and critical analysis of problems relating to organization, administration, supervision, and management of agencies engaged in recreational/leisure services. May be repeated for credit provided different fields are covered. (Former Rec 330T)

# Social Science Major 

School of Social Sciences
PETER J. KLASSEN, Dean
Social Science Building, Room 108 (209) 278-3013

Requirements for majors in the various departments are listed in the respective program descriptions. For the social science major, the
following requirements must be met.

## Bachellor of Arts

## Degree Requirements

## Sociall Science Major

The social science major consists of a minimum of 39 units of approved upper-division courses selected in such a way as to ensure a breadth of exposure to the social sciences.
Preparatory Work. Since the major is comprised of upper-division courses, some of which, in addition, have prerequisites, the student must have some exposure to introductory work in the social sciences. And, while no specific number of units are mandated, it is assumed that such preparation will encompass more than the minimal exposure guaranteed by the General Education requirements. Courses appropriate for this purpose include, but are not limited to: Anth 2, Econ 40, 50, Eth S 1, Geog 2, Hist 1, 2, Pl Si 1, and Soc 1.

Units
Major requirements 39
Approved upper-division electives (see list below and Note 2)
Addlitionall requirement 3-4
Statistics: Select from Geog 110,
Math 11, Pl Si 90, Psych 42, Soc 25
or Speech 106
Gemerall Education $\qquad$
Electives and remaiming degree requirements. 30-34*
(See Degree Requirements); may include a dual major or minor
Totall 124

[^39]
## Advising Notes

1. $C R / N C$ grading is not permitted in the social science major.
2. Social science major courses may not be used to fulfill General Education BREADTH or CAPSTONE requirements.
3. General Education and elective units may be used toward a dual major or minor (see Dual Major or departmental minor) or a secondary teaching credential (see Single Subject Credential Program). Consult the appropriate department chair, program coordinator, or faculty adviser for further information.
Approved Upper-Division Elective Courses. In satisfying the unit requirements listed below, students shall arrange their programs to ensure completion of a minimum of 6 units in at least four but no more than six disciplines, and no more than 18 units in any one. These disciplines include anthropology, criminology, economics, ethnic studies (African American studies, Chicano and Latin American studies, etc.), geography, history, political science, psychology, sociology, and city and regional planning.

## Units

## The Record of Human Societies

 Western Societies $\qquad$ . .6CLS 112, 114, 115; Econ 110, 111; Geog 161,166T, 172, 174T; Hist 111, $112,120,121 \mathrm{~A}, 122,125,126,130$, 132A, 133, 171A, 172A, 173, 174, 175A, 178, 186; Pl Si 142T, 143T, 146T
Non-Western Societies $\qquad$ . .6
Anth 121, 123, 124, 131; Econ 114; Geog 176, 177T, 179, 180, 181T; Hist 107, 110, 142, 143A, 157; Pl Si 141, 144T
Social Processes $\qquad$ .6
Anth 105, 142, 150W; Crim 109, 140, 141, 153; Econ 117, 131, 150, 161, 174, 178, 179, 180; Ethnic Studies: Af Am 144; CLS 116, 126, 128 , 152, 160; W S 152; Geog 127, 150, $160,162,164,165$; Pl Si 120, 150 , 151, 170, 174, 181; Psych 134, 154 , 166, 173; Soc 111, 122, 131, 143, $144,145,151,157,161,162,163$, 164, 165, 168; Spch 108, 160, 163; C R P 100
Social Theory . .6

Methods and/or Techmiques in the Social Sciences. .3
CLS 142; Crim 170; Hist 100W; Psych 144; Soc 175; Spch 166
Special Topic .12
The special topic shall consist of a program of upper-division social science courses, approved by a social science adviser, which, as a unit or in
conjunction with courses taken to satisfy the above requirements, explores a single topic of interest to the student. With the exception of those listed below, all upper-division courses offered in anthropology, economics, ethnicstudies (African American studies, Chicano and Latin American studies, etc.), geography, history, political science, psychology, sociology, speech communication, and city and regional planning may be employed to satisfy this requirement.
Courses that may not be applied to the social science major:
Anth 101, 161, 162, 163, 164, 169T, 181, 186, 190, 192, 199; Econ 185, 190; Ethnic Studies: As Am 150, 190; Af Am 190; CLS 100, 101, 106, 108, 190; AIS 190; Geog $100,102,104,105,106,111,112,114$, 117, 118, 120, 121, 190, 192; Hist 190; Pl Si 190, 191; Psych 42, 101, 102, 103, 120T, $124,125,132,143,149,150 \mathrm{~T}, 155,160 \mathrm{~T}$, $167,168,170 \mathrm{~T}, 171,174,175,176,180 \mathrm{~T}$, 190, 199; Soc 190; Spch 103, 114, 115, 140, 142, 165, 189, 190; C R P 190, 191

## Sociall Science Credential Single Sulbject Waiver Program Units Core

Lower-division survey courses ............ 21
Upper-division work in one teaching area 18
(e.g., history, geography, or political science)

## Breadth

Lower-division survey courses .............. 9
Upper-division work in a
second teaching area $\qquad$ 9
(e.g., history, geography, or political science)
The 57 -unit Single Subject Waiver Program may be completed while earning a bachelor's degree in any area of study. Undergraduate students beginning their waiver programs should be advised, however, that bachelor degrees in history, geography, or political science are recommended for those intending to teach secondary social studies because they most closely parallel the Social Science Credential Requirements.
A detailed description of the program outlined above is available from the social science credential adviser, Dr. Jeronima Echeverria, Department of History. Credential candidates should consult the adviser as early in their programs as possible. Students should be aware that without advisement, successful completion of this program is impossible.

The profession of social work is dedicated to meeting the diverse social service needs of special populations of individuals, families, groups, organizations, and communities. As a practice oriented profession, social work deals with social concerns that range from societal oppression to people's emotional/behavioral problems. The social work practitioner helps at risk populations which typically include the poor and homeless, abused/neglected children and adults, people of color, women, recent refugees, chronically mentally ill, developmentally disabled, physically ill or disabled, substance abusers, criminal offenders, and the aged.

In focusing on disadvantaged groups, social workers use a range of traditional and nontraditional methods to promote well-being, personal growth, and social justice, e.g., client and systems policy advocating, brokering, consulting individual, family, and group counseling/ psychotherapy, mediating, researching, supervising, and teaching.
While the discipline of social work is deeply rooted in a rich, 100-year history of service, what social workers "do" is no longer traditionally defined. The role of the social worker is constantly expanding into innovative service fields wherever a compassionate response to human need is indicated.
The Department of Social Work Education offers two degree programs to educate beginning and advanced social work practitioners who can meet complex client needs within a diversity of public
and private human service settings and who can perform in a variety of roles using multiple social work practice methodologies. The Bachelor of Arts degree program prepares students for beginning generalist social work practice as well as for graduate study in the human service field, including social work. The Master of Social Work prepares the learner for autonomous social work practice as an advanced generalist or advanced clinical practitioner as well as for doctoral study in social work and related human service arenas. Both the B.A. and the M.S.W. programs are accredited by the Council on Social Work Education.

## Faculty and Facilities

The faculty of the department represent a wide spectrum of theoretical orientations and approaches to professional social work practice. All have substantive practice experience and many have extensive research and social policy interests. In addition to the on-campus facilities of the university, the department uses the San Joaquin Valley's unique urban-rural configuration of people, agribusiness and social-political institutions and the accompanying host of social service needs as the setting for in-the-field learning. Numerous public and private social service agencies in our region make their facilities and professional social work staff available for the internship/ practicum element of the department's program. A representative sample of these settings include: Atascadero State Hospital; Big Brothers/Big Sisters of

## Social Work Education

B.A. in Social Work
M.S.W., Master of Social Work

Fresno; California State Department of Corrections, Human Resources Development, Social Services, Youth Authority; Fresno Community Hospital; St. Agnes Hospital; Valley Children's Hospital; Veterans Administration Hospital; Vietnam Outreach Center; and Area Agency on Aging. Internship/practicum experiences are also available in the mental health, probation, and social services departments in the counties of Fresno, Merced, Tulare, and Stanislaus.

## Career Opportunities

Graduates from the B.A. program typically find employment as social workers in county or state departments of social services; private agencies offering individual, group, or community services; poverty and mental health programs; social rehabilitation programs; human resources development programs for services to the handicapped, aged, and special population groups, medical and hospital programs, correctional programs, primary, secondary and higher education settings, and employee assistance programs in businesses and governmental agencies.
M.S.W. graduates can expect to hold additionally responsible but more advanced clinical, case management, training, administrative, program development or policy making/administrative positions in a broad spectrum of human service organizations.
The U.S. Department of Labor Occupational Outlook Handbook 1988-89 projects the employment of social workers to increase faster than the average for all occupations through the year 2000 in response to the needs of a growing and aging population, especially in the Central California region. Special mention must be made regarding increased job opportunities in child welfare, mental health, substance abuse programs, school systems, and services for the elderly.

## Advising Notes

1. Approved course listings are available in the department office. Consult your faculty adviser for assistance in selecting a pattern of courses to fit your particular interests and goals.
2. $C R / N C$ grading is not permitted in the social work major with the exception of S Wrk 181.
3. General Education, additional requirements, and elective units may be used toward a dual major or minor (see Dual Major or departmental minor). Consult the appropriate department chair, program coordinator, or faculty adviser for further information.
4. Senior year internships are arranged by the field coordinator. Applications must be filed, interviews with the field coordinator, and agency selection interviews completed the semester prior to entering the field.
5. Students who have prior knowledge of Spanish but lack fluency are encouraged to take additional coursework in Spanish.
6. A booklet describing the program more fully is available in the department office.
7. Students are encouraged to take $S$ Wrk 140 prior to S Wrk 141.

## Certificate in <br> Alcohol/Drug Studies

The Department of Social Work Education is participating in a certificate of special study awarded to those students who successfully complete a minimum of 12 units of interdisciplinary academic coursework in the area of alcohol and drug abuse. (For complete details, see Health andSocial Work, Interdisciplinary Courses, in this catalog.)

## Master of Sociall Work <br> Degree Requirements

In the 60 -unit program, all students are required to take the following foundation courses: S Wrk 200, 203, 214, 215, 220, $240,292 \mathrm{~A}, 292 \mathrm{~B}, 250$ and 251, in addition to completing an individual thesis (299) or project (298), for a total of 44 to 46 units. In consultation with their faculty advisers, students also enroll in graduate social work seminars ( 9 units) related to their professional career goals of clinical practice or generalist practice. In addition, students may elect to take an independent study (290), usually for 2 units, and 3-5 units of topics electives. Topics electives may be selected from S Wrk 271T, 272T, or from other departments, subject to approval.

## COURSES

## Social Work (S Wrk)

1R. College Planning Skills (2)
Seminar in skills, techniques, and strategies needed in order to make a successful academic and personal adjustment to collegelife.CR/NCgradingonly; not applicable toward baccalaureate degree requirements.
20. Introduction to Social Work (3)

Social, economic, political, historical, and philosophic components in development of social welfare and social work in western society.

## 122T. Topics in Social

Work (1-3; max total 15)
Topics in fields of social work practice, basic social work theories, and social work methods.

## 123. Seminar in Social

Welfare Policies and Programs (3)
Basic policies and major programs in contemporary social welfare; consumption, income supports, job provision, housing, health, civil rights, consumer advocacy, population control, environmental standards; principles of social security, administration of social services, roles of government and citizen participation.

## 125. Social Services

for the Aging (3)
(Same as Geron 125.) Students will be acquainted with the common bio-psychosocial needs of the aging in the United States and the social services available to meet those needs. Within the context of social work values and problem-solving methods, attention will be given to issues of ethnicity, gender, and gaps in services. (Former S Wrk 122T section)
128. Child Welfare (3)

History, development, and provision of child welfare services in the United States.

## 129. Treatment of

Chemical Dependency (3)
Intervention and treatment of the chemically dependent and of family members; community resources; laboratory skills development.
130. Seminar in

Social Work Processes (3)
Introduction to social work intervention.

## 135. Human Behavior

## and the Social Environment (3)

A general systems approach focused on the interaction of biological, psychological, and cultural phenomena with individuals, small groups, complex organizations, and communities.
136. Foundations for Social Work with Oppressed Groups (3)
Cultural, economic, ethnic, social, and psychological considerations for helping members of groups who suffer oppressed status in our heterogeneous society. (Former S Wrk 142)
140. Seminar in Micro Practice (4)

Cannot be taken concurrently with S Wrk 141. Seminar emphasizing integration of human behavior and social environment theories with principles of beginning social work counseling techniques with individuals, families, and small groups. (3 lecture, 2 lab hours)
141. Seminar in Macro Practice (4)

Cannot be taken concurrently with S Wrk 140. Analysis of and interventive strategies in large groups, organizations, and the community. (3 lecture, 2 lab hours)

## 175. Seminar in

Human Services Research (3)
Research design in human services; sampling, instruments for data collection.

## 176. Seminar in Data

Analysis and Presentation (3)
Introduction to statistical methods and computer utilization. Application of research methods to problems of program development and evaluation with a focus on analysis and interpretation of data.

## 180. Training in Public

Services (1-2; max total 5)
Planned and supervised experience or study in a field of occupational specialization.

## 181. Field Instruction

(5; max total 10)
Open only to senior social work majors or by permission of instructor. Five units to be taken in conjunction with S Wrk 140; 5 units in conjunction with S Wrk 141. Guided social work practice experience with individuals, groups, families, and organizations in the community. Students are required to carry liability insurance during internships. CR/NC grading only.
185. Senior Capstone Seminar (3)

Open only to social work majors. Prerequisite: senior standing, 5 units of S Wrk 181. Culminating senior seminar integrating theory and practice of social work, current trends in the profession.
190. Independent Study (1-3; max see reference)
See Academic Placement - Independent Study. Approved for $S P$ grading.

## GRADUATE COURSES <br> Social Work (S Wrk)

Note: Admission to the M.S.W. program is prerequisite to all graduate courses. Exceptions may be authorized by the department chair.
200. Social Welfare Policy I (3)

Analysis of major social welfare policies; includes consideration of legislativehistory, social, political, and economic factors, court decisions, and administrative implementation. Comparison of various policy analysis frameworks; the legislative process and involvement of social workers therein.
203. Social Welfare Policy II (3)

Prerequisite: S Wrk 200. Analysis of social agency policy. Board and administrative policy; internal and external influences on development; role of staff, particularly direct-service practitioners, in policy development and revision; impact of policy decisions on service delivery system.
214. Human Behavior and Social Environment: Individual Behavior (4) A bio-psycho-systems perspective of the transactional context for the adaptivemaladaptive continuum of individual behavior throughout the life span.

## 215. Human Behavior

 and Social Environment:Small Group, Organizational, and Community Behavior (4) Theories of small groups, organizational, and community behavior from a social systems perspective.

## 220. Seminar in Advanced

Social Work Practice - Micro (3)
Prerequisite: prior or concurrent enrollment in S Wrk 214 required. Seminar about the historical development of direct social work practice with an emphasis upon brief and short-term intervention with individuals, families, and small groups. (Former S Wrk 223)

## 224. Seminar in

Advanced Clinical Social Work
Practice - Individual Therapy (3)
Prerequisite: S Wrk 220 and concurrent enrollment in S Wrk 250. Advanced study of theories of psychotherapy and social work practice for intensive treatment. (Former S Wrk 228)

## 226. Seminar in

Advanced Clinical Social Work
Practice - Group Therapy (3)
Prerequisite: S Wrk 224 or permission of instructor. Analysis of the theories, practice, principles, and techniques of clinical social work practice with small groups.

## 227. Seminar in Advanced

Clinical Social Work Practice -
Marriage and Family Therapy (3)
Prerequisite: S Wrk 224 or permission of instructor. Analysis of theories, practice, principles, and techniques of clinical social work practice with couples and families.

## 229. Seminar in CSW

Alternate Methods (3)
Prerequisite: S Wrk 220 or by permission of instructor. Analysis of alternate methods affecting clinical social work practice.

## 240. Seminar in Advanced

Social Work Practice - Macro (3)
Historical development, knowledge, and skills of social work practice with large social systems (e.g., formal organizations and communities).

## 244. Seminar in Generalist Social

Work Practice with Small Groups (3)
Prerequisite: S Wrk 220 and 240 and concurrent enrollment in S Wrk 250. The theory and practice of social work with small groups, including task groups, natural groups, and treatment groups.

## 246. Seminar in Generalist

Social Work Practice with
Formal Organizations (3)
Prerequisite: S Wrk 220 and 240 and concurrent enrollment in S Wrk 251. Theory and practice of the administration of formal social service organizations.

## 247. Seminar in Generalist Social

Work Practice with Communities (3)
Prerequisite: S Wrk 220 and 240. Theory and practice of community development, social action, social planning, and program development at the community level.
250. Field Instructed

Practice (2-8; max total 8)
Concurrent enrollment in S Wrk 224 or 244 required. Advanced field instructed practice experience in work with individuals, groups, families, formal organizations, and communities; applying the theories and concepts of social work practice. Students are required to carry liability insurance during internships. Approved for SP grading. $C R / N C$ grading only.

## 251. Field Instructed

Practice (2-8; max total 8)
Prerequisite: S Wrk 250. Continued advanced field instructed practice experiences in work with individuals, groups and families, formal organizations, and communities; applying the theories and concepts of social work practice. Students are required to carry liability insurance during internships. Approved for $\boldsymbol{S P}$ grading. $C R / N C$ grading only.

## 271T. Seminar in Social Work

Specializations (1-3; max total 8)
In-depth study of specific treatment modalities or methods, e.g., community organization, community development, crisis intervention, personality adjustment.

## 272T. Seminar in Areas

of Social Work (1-3; max total 8)
Theories and developments in the areas of mental health, public health, administration of justice, child welfare, family welfare, income maintenance, schools, international social work, social gerontology, social rehabilitation.

## 273. Sex Therapy (3)

Emphasizes the recent developments in the understanding and identification of sexual disorders and, therefore, the appropriate means for therapeutic intervention. The focus is on commonly experienced sexual problems or disorders, treatment procedures, and evaluation of sexual therapy. (Former S Wrk 271T section)

## 290. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## 292A. Advanced Social

## Work Research: Problem

Formulation and Method (2)
Explores advanced topics in social work research including conceptualization, operationalization, design, and sampling strategies. It allows students to prepare a proposal for an independently pursued, empirically based research project.

## 292B. Advanced Social

## Work Research: Data

Collection and Analysis (2)
Prerequisite: S Wrk 292A. Examines advanced strategies for social work research data collection and analysis. Students are able to independently collect data, analyze it, and report findings from a research project.

## 298. Project (2-4; max total 4)

Prerequisite: S Wrk 292A-B. See Criteria for Thesis and Project. A project must evidence originality and independent thinking, appropriate form and organization, and a rationale. It must be described and summarized in a written abstract that includes the project's significance, objectives, methodology, and a conclusion or recommendation. Approved for $\boldsymbol{S P}$ grading.
299. Thesis (3-6; max total 6)

Prerequisite: S Wrk 292A-B. See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for $\boldsymbol{S P}$ grading.

## IN-SERVICE COURSE

(See Course Numbering System.)
Social Work (S Wrk)
301. Seminar in Social Work Topics (1-3)

Sociology is the study of social life and the social causes and consequences of human behavior. Sociology's subject matter ranges from the intimate family to the hostile mob, from crime to religion, from the divisions of race and social class to the shared beliefs of a common culture, from the sociology of work to the sociology of sport. In fact, few fields have such broad scope and relevance.
Training in sociology provides students with a special perspective on human development and social life which is an especially important part of a liberal education. Theory and research methods provide the foundation for study in sociology. On this foundation, different programs of electives can be built to meet the needs of students with different goals and interests.

## Faculty and Facilities

All full-time faculty hold Ph.D. degrees and share a commitment to excellence in teaching. Their areas of special interest are diverse, including social change, deviance, women in society, social stratification, social psychology, social theory, and research methods. Most of the faculty are actively involved in research, and the department encourages students to gain research experience.
Some students conduct their own research projects; others assist faculty members or work with the CSU, Fresno Social Research Laboratory (SRL). Recent faculty research included studies of the history of crime, intermarriage, family power, and discrimination in contemporary courtrooms.
The SRL conducts applied research on topics of local concern. Recent SRL studies examined health hazards near toxic waste dumps and population patterns in new neighborhoods. The opportunity to gain practical research experience while working closely with faculty members can add a special dimension to education in sociology at CSU, Fresno. Students can also apply their sociological training through internships with local counseling or social service agencies.

## Career Opportunities

Students trained in sociology at CSU, Fresno have entered a wide variety of occupations. Although only a few students plan to become professional sociologists, training in sociology provides a solid background for a variety of careers. The research emphasis of this department provides training in data gathering, analysis, and report writing which is valuable in many careers. In addition, an understanding of the relationships between individuals and groups can prove useful in work, as well as in everyday life.
A few of our students have become professional sociologists. After completing graduate school, they became university professors. While most professional sociologists teach, an increasing number hold research positions in a variety of organizations. Many more students have found sociology to be an excellent preparation for law school. Still, other

CSU, Fresno graduates have taken graduate training and entered other professions, including anthropology, library science, social work, counseling, criminology, rehabilitation counseling, and public administration. Those students who begin work after completing a bachelor's degree in sociology usually enter careers in business and management, in the administration of public and private social service agencies, or as human services workers or research analysts in a variety of organizations.

## Advising Notes

1. Soc 3 may be substituted for three up-per-division elective units in the major.
2. No course used to satisfy General Education CAPSTONE requirements may be used to satisfy sociology major requirements.
3. $C R / N C$ grading is not permitted in the sociology major, except for courses offered only under CR/NC grading.
4. General Education and elective units may be used toward a dual major or minor (see Dual Major or department minor). Consult the appropriate department chair, program coordinator, or faculty adviser for further information.

## Sociology Minor

The following minor requirements are in addition to General Education requirements.
Units
Soc 1, 25 ................................................ 6
Sociology upper-division electives
(Soc 3 may be substituted for 3 of
these units) ......................................... 15
Total .......................................................

A sociology course used to satisfy General Education CAPSTONE may be used as part of the Sociology Minor.

## COURSES

## Sociology (Soc)

1. Principles of Sociology (3)

Introduction to the principles and theoretical perspectives of sociology and their application to the fundamental problems of social life. Discussion of sociological methods and findings in such areas as family, race relations, deviance. General Education BREADTH, Division 8. (CAN SOC 2)
2. Social Problems (3)

Introduction to major sociological perspectives on social problems. Analysis of causes and possible solutions to such problems as poverty, discrimination, crime, delinquency, alcoholism, drug abuse, suicide, family disorganization, and pollution. General Education BREADTH, Division 8. (CAN SOC 4)
3. Analysis of Social Life (3)

Introduction to critical thinking and sociological analysis. Evaluation of popular and sociological interpretations of social phenomena. Analysis of computerized data sets. Topics covered and assignments vary with instructor. General Education CORE, Critical Thinking. (2 lecture, 2 lab hours)
25. Quantitative Methods
in the Social Sciences (3)
Introduction to quantitative methods as an aid to the understanding of research in the social sciences. Application of basic descriptive and inductive statistics to the social sciences. (2 lecture, 2 lab hours)

## 111. Sociology of

Minority Relations (3)
Dominant and minority group relations historically, cross-culturally, and in contemporary American society. Primarily, the bases examined are in terms of ethnicityrace, religion, nationality, country-oforigin, nativity, and language - and sec-
ondarily the bases are non-ethnic such as age and gender. General Education CAPSTONE Cluster.
112. Collective Behavior (3)

An examination of types of collective behavior: crowds, mobs, panics, publics, fashion, fad, social movements, and transient and anonymous relationships; their increasing importance in modern society where violence, conflict, and social unrest are common.

## 122. Social Movements (3)

Theory of nonviolent direct action in the pursuit of social justice and social change. Discussion of goals, ideology, norms, organizational structure, leadership, strategy, tactics, and social roots of social movements.
130W. Contemporary Social Issues (3) Prerequisite: Engl 1. A sociological perspective is used to examine currently debated public issues. Often, public issues involve present or proposed public policies; the impact of these policies on different segments of society is assessed. Meets the upper-division writing skills requirement for graduation.
131. Sociology of Sex Roles (3)
(Same as W S 131.) The roles of women and men in contemporary social life, socialization, and adult life - work roles, nuclear family, and other roles. General Education BREADTH, Division 9.
132. Women and Work (3)
(Same as W S 132.) An examination of women and work in contemporary society, including housework, labor force participation, employment in various occupations, and career planning.
142. Sociology of

Popular Culture (3)
Impact of popular media on modern society. Includes movies, television, fiction, and other forms of popular culture. The meaning, the creation and production, and the future of popular culture. General Education CAPSTONE Cluster, Critical Thinking.
143. Deviance and Control (3)

Rule-breaking behavior (such as crime, delinquency, mental illness) and responses to it. Examines deviance as a social phenomenon, its causes and consequences, and formal and informal social control activities. General Education CAPSTONE Cluster, Critical Thinking.
144. Social Policy Analysis (3)

Interdisciplinary social science methods for approaching local and national social problems. Analysis of selected public issues emphasizing evaluation of social costs and benefits of alternative policies.

## 145. Social Organization (3)

Prerequisite: Soc 1. Study of the nature of social organizations, their types and varieties, and the factors producing their different forms. Causes of the growth and decline of social organizations. Problems of centralization, authority, communication, and conflict in organizations.
146. Sociology of Work (3)

Work in modern industrial society, employment and unemployment, formal and informal characteristics of work, the relationship between work and leisure, and the investigation of work satisfaction and alienation.

## 147. Medical Sociology (3)

Political and economic organization of American medical health care system and cross-cultural comparisons. Analysis of social relations and interactions among members of the health professions affecting designations of persons as ill and their subsequent treatment.
148. Sociology of Education (3)

A sociological examination of education as an institution, including its social determinants, functions, and consequences.
149. Sociology of Business (3)

The social origins and development of business as an institution. Comparative studies of diverse impacts of business on society. Analysis of resulting ideological, political, and regulatory reactions to business. General Education CAPSTONE Cluster, Critical Thinking.

## 150T. Special Topics

Seminar (1-3; max total 9)
Prerequisite: permission of instructor. Topics include those areas of advanced theoretical and empirical studies that will orient the student to contemporary sociological endeavors.

## 151. Social Classes <br> and Inequality (3)

Prerequisite: Soc 1. Analysis of evaluational differentiation leading to social stratification. Criteria for differentiation, bases for evaluation, types of stratification, compo-
sition of strata and status systems, mobility, consequences of stratifications, and methods of studying stratification.

## 152. Classical <br> Sociological Theory (3)

Prerequisite: Soc 1. Evolution of classical sociological theories. Consideration of their origins in society and culture. Examination of such theorists as Marx, Weber, Durkheim, Comte, St. Simon, and Simmel.

## 153. Contemporary

Sociological Theory (3)
Prerequisite: Soc 1. Processes of theory construction. Major current sociological theories such as functionalist and conflict, interaction and interpretive, and behaviorist and exchange theories.
157. Social Change (3)

Analysis of directions, patterns, and processes of social and cultural change.
159. Social History of Crime (3)

Impact of social changes on crime and social control. Focus on United States and Western Europe. Topics include incidence and types of crime, rule-making and vindication, and organization of criminality. General Education CAPSTONE Cluster, Critical Thinking.
161. Population Analysis (3)

Population theories and history; demographic processes and variables in contemporary society. Analysis of census data.
162. Social Psychology (3)

Social factors affecting the development of social personality, attitudes and behavior. Basic social processes involved in interpersonal interaction. Demonstrations and student observations to increase an understanding of social processes in everyday life.

## 163. Urban Sociology (3)

The urban concept; form and development of urban areas; scientific study of urban places and populations; effect of urbanization on social institutions and social relations. General Education CAPSTONE Cluster, Critical Thinking.
164. Political Sociology (3)

The social causes and effects of political phenomena. The roles of social classes, movements, and institutions in shaping the political process; examination of political behavior and attitudes.
165. The Family (3)

The family in historic and contemporary society, theoretical frameworks for analyzing the family, family dynamics; changes in family functions, structures, and roles.
166. Social Gerontology (3)
(Same as Geron 166.) Aging and the aged with special emphasis on urban American society; demographic dynamics; problems of the aged; gerontological research methodology.
168. Interpersonal Relationships (3)

Exploration of the basic elements of interpersonal relationships including listening, disclosure, feedback, empathy. (Former Soc 150T section)

## 169. Sociology of Religion (3)

Major sects, denominations, and churches; integrative and disintegrative processes in the United States; contemporary religious phenomena.

## 170T. Research Topics (1-3; max 6)

Content of course will vary from semester to semester. Topics include an introduction to computer data analysis, a more in-depth discussion of computer data analysis, survey research, observational techniques, measurement, sampling.
174. Computer Data Analysis (1)

An introduction to the use of one of the most widely utilized computer packages in the social sciences - SPSS (Statistical Package for the Social Sciences). No prior knowledge of computers is necessary. CR/ $N C$ grading only. (Former Soc 170T section)

## 175. Sociological

## Research Methods (3)

Prerequisite: Soc 25 . The research process with special emphasis on measurement, sampling, data collection, data analysis, and report preparation. Basic assumptions and dilemmas of social science research.
181. Small Groups (3)

Small groups as basic social units. Description of the types of groups, how they operate, and the important variables affecting them. Observation and participation to increase understanding of the many small groups to which we all belong.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## Speech Communication

School of Arts and Humanities Department of Speech Communication JOHN A. CAGLE, Chair
Speech Arts Building, Room 15 (209) 278-2826
B.A. in Speech Communication M.A. in Speech Option: Speech Communication Minor in Speech Communication Single Subject Teaching Credential in English/Speech
Communication Skills for Professionals Certificate

ur aim is to prepare you to compete in, understand, and provide leadership in a world which is more and more a communication-oriented society. We offer a balance of humanistic and scientific instruction in communication skills people need to function effectively in teaching, business, law, the communication professions, public service and administration, the ministry, public relations, politics, and management. You have an opportunity to explore the full range of human communication.

Our major and minor are well grounded in interpersonal skills, in problem-solving and decision-making methods, and in group and organizational leadership. We study issues such as how we perceive events, express ourselves verbally and nonverbally, and how communication influences human behavior and social developments. We develop skills in oral and written communication, statistics and research methods (including using computers), and how to employ these skills in specific career areas.
A new Communication Skills for Professionals Certificate Program is designed to enable students to achieve recognition of development in such areas as presentational speaking, problem solving and decision making, leadership, and interpersonal communication.
Our program offers a variety of exciting activities to enrich your educational experience. We have a fine intercollegiate forensics program of debate and individual speaking. We host a national
communication conference each spring that brings scholars and students from around the country.
We offer you personalized advising. Our major builds on a sound core of foundation courses but is completed by courses selected to meet your needs and career objectives, often with a minor in an appropriate field. We think your choice of an adviser is an important decision, and we encourage our students to pick their own adviser. You'll find we're glad to talk with you.

## Career Opportunities

In the "Information Age" of the 1990s, a degree in speech communication can open a great number of career doors. Increasingly, we see a wide variety of job descriptions across professional disciplines which list skills in communication as the highest priority. An essential goal for us is to help you develop these very important communication skills. In addition, we try to provide an educational base for our majors and minors for specific careers requiring competencies in oral and written communication and in interpersonal and managerial communication.

Speech Communication graduates are employed as public relations consultants, personnel managers, political campaign directors, management analysts, teachers, counselors, lawyers, ministers, human resource specialists, and marketing representatives. We offer students a discipline widely suited to today's uncertain job market. National placement studies reveal that communication majors are finding jobs with reasonably high job satisfaction and above average pay rates, and that their rate of promotion is significantly faster.
The pursuit of a career is of great concern to students today, but it is important to recognize that the quality of your education will determine your success in life as well as how to make a living. More than half of college graduates do not enter fields directly tied to their majors.
As you begin your university education, and as you begin making decisions about your life and what you want to do with it, remember that we will be happy for you to join us in the most exciting and fundamental discipline of all - the study of human communication.

From left, John Cagle and George Diestel converse with Elie Wiesel,
Nobel Peace Prize Laureate at a university reception.

## Bachelor of Arts

Degree Requirrements

## Speech Communnication Major

The speech communication major is designed to develop broad-based competencies not only in oral and written communication, in critical analysis, and in statistics and research methods, but also emphasizes how to employ these skills in specific contexts such as business management, political persuasion, or public relations. With your program adviser, you may select a concentration track to fit your particular interests and professional aspirations.
The professional track is designed to prepare students for advanced study in communication, law and government, ministry, education (credential candidates should see section on Teaching Credential Program), and other professions.
The organizational/applied study track is designed to prepare students for careers and/ or advanced study in business, public service and administration, public relations, social services, and management.
The communication studies track is designed to provide the student with a broad range of human communication skills applicable to a wide range of career interests.

Electives and remaiming degree requirements. .. 28-34* (see Degree Requirements) may be used toward a dual major or minor
Totall
*Spch 3, 4, and 5 may be used to satisfy General Education requirements; thus the number of elective units may vary from 28-34.

## Advising Notes

1. No more than 3 units from Spch 15 and 115 can count toward fulfillment of the speech communication major.
2. $C R / N C$ grading is not permitted in the speech communication major with the exception of Spch 179 (Internship).
3. General Education and elective units may be used toward a dual major or minor (see Dual Major or departmental minor). Consult the appropriate department chair, program coordinator, or faculty adviser for further information.
4. No more than 6 units of Spch 179 (Internship) may be applied toward completion of the speech communication major.
5. Students are allowed only 3 units of Spch 190 and no more than 6 units toward the baccalaureate degree.

## Speech Communication Minor

Increasingly, oral and written communication, problem solving and decision making, leadership, and conflict resolution skills are being recognized as vital skills for professionals in all fields of work. The Speech Communication Minor is designed to develop these competencies in order to help students better meet their particular career goals. While a specific
minor is recommended, you may wish to consult with your department adviser about designing a minor to suit your special objectives.

Units

## Teaching Credential

Program - English/Speech
The following 52 -unit course of study, referred to as the English/Speech Single Subject Waiver Program, will be accepted by the department as a major in speech communication. Teacher education students will take the following courses:

General Education Prerequisites: Spch 3, 4; Drama 22

Credential Program: Engl 182, 189, 193T; Ling 100, 146; Spch 5, 7; either Engl 161, 163, or 164; either Engl 154 or 155; one from a selected list of literature courses in English; Spch 8, Spch 115, Spch 140; Spch 100 or 160 ; Spch 108 or 162 ; and either Spch 142, 146, or 148.
See School of Education for additional professional education requirements for a credential.
Students wishing to pursue a course of study leading to a teaching credential should see the departmental director of teacher education for advising early in their programs as state requirements change frequently.

## Communication Skills for <br> Professionals Certificate

Proficiency in communication skills is essential in virtually any professional career. The Speech Communication Program offers a structured sequence of courses leading to a certificate of special study recognizing the focused development of professional communication skills in such areas as presentational speaking, problem solving and decision making, leadership, and interpersonal communication. Upon completion of the certificate requirements, the department will award a certificate.
Certificate Prerequisites: upper-division standing and completion of the General Education basic speech requirement.

Certificate Requirements. Check with department prior to beginning certificate requirements regarding program status.
Units
Communication Theory: Spch $100 \ldots . . . . . .3$
Professional Writing Skills:
IS 105W, Engl 164, 166, Jour 126,
TCOM 120 ....................................3-4
Business and Professional Speaking:
Spch $170 \ldots . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . . ~$
Communication Training and
Development: Spch 176 ...................... 3
Elect 6 units from Spch 103, 108,
162, 167, 168, 169....................... 6

Totall 18-19
The new Communication Skills for Professionals Certificate Program is designed to enable students to achieve recognition of development in such areas as presentational speaking, problem solving and decision making, leadership, and interpersonal communication.

## Graduate Progiram

The Master of Arts degree program in Speech is designed to extend the competency of persons engaged in communication related professions.

## Master of Arts Degree Requirements Speech Communnication Option

The graduate program in speech communication is designed to extend the competencies of students in the study of human communication. Graduate assistantships in forensics and an Assistant Lecturer Program for teaching provide students with opportunities for financial assistance and additional educational experiences.
The graduate program in speech communication assumes undergraduate preparation equivalent to a CSU, Fresno major or minor in speech communication. The Speech Communication Department offers a 30-33 unit Master of Arts degree with courses of study in three primary interest areas:
A. Rhetoric and Public Address: Spch 215 (topic in rhetoric and public address), 241, 242M, 243, and 244;
B. Communication: Spch 215 (topic in communication), 262, 263, 264M, and 265; and
C. Applied Communication: Spch 215 (topic in applied communication), 214, 268, 270M, and 276.

Under the direction of a graduate adviser, each student prepares and submits a coherent program individually designed within the following framework:
Thesis or Project Units
Spch 200 ................................................ 3
Select two courses from each pri-
mary interest area ............................... 18
Spch $242 \mathrm{M}, 264 \mathrm{M}$, or 270 M ................... 3
Approved elective in department
other than Speech Communi-
cation .3
Spch 299 or 298: Thesis or Project ......3-6
Totall............................................ 30-33

## Comprehensive Examimation Units

Spch 200 ................................................ 3
Select two courses from each pri-
mary interest area18

Select one additional seminar
from Area A, B, or C
Spch $242 \mathrm{M}, 264 \mathrm{M}$, or 270 M .................. 3
Approved elective in department
other than Speech Communi-
cation .. 3
Totall ............................................... 30

## Advising Notes

1. The selection of one methodology course (M) does not preclude taking other methodology courses.
2. Spch 290 may be included in a student's graduate program with the approval of the student's graduate committee so long as the student has at least 18 units of graduate seminars on the course of study.

## COURSES

## Speech Communication (Spch)

AR. Study Skills Development (2)
Development of communication skills necessary for successful learning in a university, including reading, library research, control of anxiety, critical analysis, listening, oral and written reports. CR/ NC grading only; not applicable toward baccalaureate degree requirements.

## 3. Fundamentals of <br> Public Communication (3)

Theories of human communication and their function in contemporary public settings; experiences designed to enhance fundamental communication skills - research, organization, reasoning, listening, and problem solving - through a series of oral presentations. General Education CORE. (CAN SPCH 4)

## 4. Introduction to

Interpersonal Communication (3)
Introduction to various theories of interpersonal communication; participation in experiences designed to enhance competence in interpersonal relationships. General Education BREADTH, Division 4.
5. Argumentation (3)

Logical analysis, evidence, reasoning, and proof used in arriving at rational decisions as demonstrated through presentation of public speeches and debates. General Education CORE, Critical Thinking. (CAN SPCH 6)

## 7. Persuasion (3)

Analysis and practice of the use of persuasion as a social tool for resolving controversy and forming opinions from the perspectives of both the persuader and the persuaded. General Education CORE.

## 8. Group Discussion (3)

Communication in group thinking and problem solving through preparation and presentation of panels and symposia on public issues. General Education CORE.

## 10T. Topics in Speech

(1-3; max total 9)
Contemporary problems and issues in speech communication; sections include such topics as freedom of speech, parliamentary procedure, special communication skills, rhetoric of protest and response, and communication processes.

## 15. Forensics Laboratory

## (1-2; max total 4)

Experience in the presentation of debates, oral interpretation programs, persuasive and expository speaking. Intramural and intercollegiate competition in forensics.
100. Theories of

## Human Communication (3)

Survey of major theories of human communication, philosophical issues, and applications; theories include interpersonal, group, organizational, intercultural, linguistic, and persuasion.

## 103. Advanced Public Speaking (3)

Advanced principles of expository and persuasive speaking; development of skills through analysis, preparation, organization, and delivery of various types of speech.
105. Argumentation Theory (3)

Analysis of the theories and techniques of argumentation, including models of argument, relationships between persuasion and argumentation, and the effects of argumentative discourse.
106. Statistical Applications
in Communication (3)
Introduction to elementary statistical concepts, correlation analysis, parametric and nonparametric tests; emphasis on the application of statistical procedures to communication research.

## 108. Communication

and the Small Group (3)
Analysis of group communication theories and their application to small group behavior in specific variables such as leadership, power, conflict-resolution, conformity, cohesiveness, and related group processes.
114. Communication and

Learning (3) (Same as CTET 158.)
The nature of communication and its relationship to learning and instruction; management of oral communication strategies in the educational setting.

## 115. Advanced Forensics

Laboratory (1-2; max total 6)
Experience in the presentation of debates, oral interpretation programs, persuasive and expository speaking. Intramural and intercollegiate competition in forensics.
116. Communication and Humor (3)

Develop your sense of humor and learn to incorporate humor into your world by examining humor theories, social and personal functions of humor. Focuses on (1) stand-up comedy, writing, and presentation, or (2) application of techniques for management, sales, marketing, teaching, and health related fields. (Former Spch 188T section)

## 120. Female-Male

Communication (3)
Exploration of gender variables that affect human communication behaviors, focusing on behaviors that have some mythical or factual bases in sex similarities and differences. (Former Spch 188 T section)
140. Rhetorical Theory (3)

An examination and analysis of significant theories and theorists of rhetoric from the classical to the modern period. Emphasis on preparation of research papers reflecting rhetorical principles of communication.

## 142. Rhetorical Criticism (3)

An examination of classical and contemporary principles of rhetorical criticism. Preparation and presentation of written analyses utilizing these principles in analyzing and evaluating rhetorical events.

## 146. British Political

Communication (3)
A systems approach to the study of British institutions and communication. Study of government, press, broadcasting, education, and the criminal justice system to facilitate instruction in the evaluation of political messages. Emphasis given the 18th, 19th, and 20th centuries.
148. American Public Address (3)

An examination of significant American speakers and speeches set in an environment of social and political history. The course is designed to acquaint students with the role of public address within the forces of American history.
149. Freedom of Speech (3)

Examines the tradition of freedom of speech and expression in the American democracy. Focuses upon the First Amendment to the Constitution and major case laws which impact contemporary standards for public discourse, politics, broadcast, and journalism.
160. Meaning, Language,
and Communication (3)
A review and analysis of the various approaches to the study of human symbolic behavior, with focus on such theories as: General Semantics, Psycholinguistics, Sociolinguistics, Epistemology, and other philosophical and scientific enquiries into the nature of language and meaning.

## 162. Interpersonal

Communication (3)
Nature of the communication process; factors affecting the process and the individuals involved.

## 163. Social Influence

and Attitude Change (3)
Seminar on the nature and effects of social influence, with special emphasis on attitude formation and change, conformity, behavior, "brain washing," prejudice, and propaganda as functions of communication.

## 164. Intercultural

Communication (3)
Analysis of cultural variables and factors in the communication process and strategies for the resolution of intercultural problems; consideration of implications for education and programs necessarily involving intercultural communication.
165. Computer Applications in Communication (3)
Study and use of various computer systems available in the study of human communication: Fortran IV, Coursewriter III, LISP,

SNOBOL, General Enquirer, emphasis on processing verbal data.

## 166. Communication

Research Methods (3)
Application of behavioral research principles to problems in quantification, design, and analysis of data in communication research.

## 167. Leadership in

Groups and Organizations (3)
Theory and practice of selected leadership variables in groups and organizations; functions of leadership in formal and informal structures, understanding and analysis of role-playing techniques.

## 168. Communication

in Organizations (3)
Examination of organizational communication from a multiple discipline perspective. Through the study of theory and experiential learning in simulations, students develop skills necessary for planning, staffing, developing, decision-making, and problem-solving in organizations.
169. Communication and Conflict (3) Examination of the role of communication in conflict in interpersonal, small groups, organizational, and societal settings. Through experiential learning, case study analyses, and practice of intervention skills, students address conflict styles, strategies, tactics, third-party intervention, and mediation techniques.

## 170. Business and <br> Professional Speaking (3)

Development of communication skills necessary for success in business, government, and the professions. Includes theory and practice of interviewing, job instruction training, work group leadership, and proposal presentations. Class activities are adapted to students' career goals.

## 176. Communication

Consulting and Training (3)
Development of skills necessary for effective communication consulting in business, government, and the professions. Includes theory and practice of needs assessments, planning and conducting training activities, and evaluation of educational activities; topics relating to adult education and cli-ent-consultant relationships.
179. Internship (1-6; max total 12) Prerequisite: major in speech communication, at least 75 units completed and permission of instructor. Supervised work experience in government, business, social agencies, or non-profit organizations. CR/ NC grading only.

## 188T. Topics in Speech

(1-3; max total 9)
Selected topics in speech communication.
189. Projects in Speech
(1-3; max total 6)
Prerequisite: permission of instructor. Projects in speech communication. (4 hours activity)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## GRADUATE COURSES

(See Course Numbering System.)
Speech Communication (Spch)

## 200. Introduction to

Graduate Study (3)
Prerequisite: minor equivalent or permission of instructor. Seminar in research procedures and materials. Required of all majors during the first semester of graduate work.

## 214. Seminar in

Communication Education (3)
An examination of the relationships of learning theories to communication study and research. Research in instructional communication, teaching strategies in communication education, and techniques for applying these concepts in educational and training settings.

## 215. Seminar in

Speech Arts (3; max total 9)
Research and individually directed work within one area of specialization. Approved for $\boldsymbol{S P}$ grading.
241. Seminar in Rhetorical Theory (3) Prerequisite: Spch 140, equivalent, or permission of instructor. A seminar which deals with the development of specific principles by selected theorists.

## 242M. Seminar in

Contemporary Criticism (3)
Prerequisite: Spch 142, equivalent, or permission of instructor. The role of rhetorical criticism in contemporary society. (Former Spch 242)

## 243. Seminar in the History

of American Public Address (3)
Prerequisite: Spch 142, 146, 148, equivalent, or permission of instructor. A detailed study of selected men and women who have influenced political, religious, and social problems in American history.

## 244. Seminar in

Contemporary Public Address (3)
Prerequisite: Spch 142, 146, 148, equivalent, or permission of instructor. The study of contemporary figures in public address who have influenced political, religious, economic, and social problems in the 20th century.
262. Seminar in Communi-
cation Theory and Research (3)
Prerequisite: Spch 100, equivalent, or permission of instructor. An examination and evaluation of mathematical, philosophical, sociological, psychological, and rhetorical theories of human communication. Emphasis upon the assumptions and implications of various theories, models, and constructs.

## 263. Seminar in

Group Communication (3)
Prerequisite: Spch 108, equivalent, or permission of instructor. Acritical examination of the scientific research and theories in group communication including research variables and methodologies. Implications of research findings for contemporary communication problems.

264M. Seminar in Communi-
cation Research Methods (3)
Prerequisite: Spch 106, 166, equivalent, or permission of instructor. The nature, implications, and assumptions of methodologies in human communication research. Discussion of quantification, design, and statistical inference as they relate to experimental, quasi-experimental, descriptive, survey, and case study methodologies. (Former Spch 264)

## 265. Seminar in

Interpersonal Communication (3)
Prerequisite: Spch 162, equivalent, or permission of instructor. An examination of current quantitative and qualitative theory and research in interpersonal communication. Implications and applications to various kinds of human relationships and various aspects of those relationships, e.g., stages, relational communication, attraction, conflict, self-disclosing.

## 268. Seminar in

Organizational Communication (3)
Prerequisite: Spch 168, equivalent, or permission of instructor. Theory and application of organizational communication, including interpersonal and group communication in planning, staffing, development and decision making in complex organizations; organizational systems and environments; recognizing, diagnosing, and solving organizational problems.

## 270M. Seminar in Applied

Communication Research (3)
Prerequisite: Spch 106, 166, equivalent, or permission of instructor. Application of quantitative and qualitative assessment techniques in the analysis of communication in contemporary organizations including instrumentation, administration techniques, methods of analysis, report writing, and intervention strategies.

## 276. Seminar in Communication

Training and Development (3)
Prerequisite: Spch 176, equivalent, or permission of instructor. In-depth view and application of approaches to training in communication skills in organizations including needs assessment for training, workshop and seminar development, and evaluation of interventions.

## 290. Independent Study

(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
298. Project (2-6; max total 6)

Prerequisite: prior advancement to candidacy, appropriate methodological tools (Spch $242 \mathrm{M}, 264 \mathrm{M}$, or 270 M ), equivalent, or permission of student's committee. See Criteria for Thesis and Project. Preparation, design, conduct, and evaluation of project applying rhetorical and communication theories; e.g., communication campaign for public agency, communication audit of corporate organization, extensive consulting or training activities, etc. Requires scholarly report similar in format to thesis and final oral defense. Approved for $\boldsymbol{S P}$ grading.

## 299. Thesis (2-6; max total 6)

Prerequisite: appropriate methodological tools (Spch 242M, 264M, or 270M), equivalent, or permission of student's committee. See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for SP grading.

Note: Students must have earned at least a $C$ in all courses considered as meeting the prerequisite requirements.

## IN-SERVICE COURSE

(See Course Numbering System.)

## Speech Communication (Spch)

## 303. Topics in Speech

(1-3; repeatable with different topics)
Prerequisite: permission of instructor. Application of the theories in speech arts.

The Department of Telecommunications offers courses of study for those who seek careers in the media or in allied fields and for those who wish to pursue advanced study of mass communications. Students completing the degree are prepared to pursue careers in such fields as commercial or public radio or television, new media technologies, and the cable industry. The degree is based on study of the cultural, social, political, economic, educational, legal, and artistic significance of the media.

## Internships

The program typically places 16 to 20 interns in local radio and television stations each semester, another six to eight every summer. Internships provide the opportunity to spend about onequarter time in a facility working in capacities suitable to student background and interests just as if employed. Many small-market stations accept an internship as work experience.

## Facilities

KFSR-FM is a student-operated public radio station that serves as a training laboratory for aspiring radio broadcasters and as the voice of the university to the immediate community. A new student management team takes over each year and all students with an interest have the opportunity to work up through the ranks to vie for the top positions.
Bulldog Video, a co-curricular student organization, uses on-campus television facilities to provide a training laboratory for those who would be writers, performers, producers, or directors for the medium. Local cable television and the public broadcasting station provide live production opportunities and production experiences in program preparation and taping for later transmission.

## Special Scholarships

The Meredith Corporation, owners of KSEE-TV 24 in Fresno, provides one \$2,000 scholarship to a student preparing for a career in broadcasting, who is a member of a federally protected minority. Because the telecommunications faculty maintains an institutional membership in the Broadcast Education

Minor in Telecommunications

Association, all majors are eligible to compete for scholarships offered by the National Association of Broadcasters. These include:
a. The Harold E. Fellows Scholarship, four national awards of $\$ 1,250$ each to study in any area of broadcasting;
b. The James Lawrence Fly Scholarship, one national award of \$2,500 available to juniors, seniors, graduate students, and law students;
c. The Walter Patterson Scholarship, two national awards of $\$ 1,250$ each to support preparation for a career in radio;
d. The Broadcast Pioneers Scholarships, two national awards of $\$ 1,250$ to support juniors, seniors, and graduate students in any area of broadcasting;
e. The Shane Media Scholarship, one national award of \$3,000 to support preparation for a radio career; and
f. The Vincent T. Wasilewski Scholarship, one national award of $\$ 2,500$ to support juniors, seniors, and graduate students in any area of broadcasting.

## Career Opportunities

Departments of communications are growing on university campuses across the country. This reflects the perception of those who study job markets that communication is increasingly recognized as a primary factor in all forms of work. Graduates with a B.A. in Telecommunications work in radio and television stations. They also find ready opportunities in advertising agencies, independent production companies, public relations firms, and in businesses and agencies that use these kinds of services.

## Faculty

R. C. Adams, Chair

Rita A. Atwood Joel P. Fowler
Rebecca L. Hall
Philip J. Lane
William N. Monson
James R. Wilson

Russell A. Hart
Bulldog Video: Joel P. Fowler
KFSR-FM Faculty General Manager:
James R. Wilson
Mass Communications Graduate
Program Coordinator: Philip J. Lane
Scholarship Assistance: Rita A. Atwood Student Placement Liaison: James R. Wilson

The individual members of the faculty have developed expertise in areas of personal interest through graduate study and professional employment in the media. Their areas of special interest in radio, television production, media criticism, writing, management, regulation, and research are complementary, providing students access to competent thinkers and practitioners in these fields. Each member of the faculty is available to provide academic advising in the program; each student is expected to obtain faculty advice in program planning.

## Bachellor of Arts <br> Degree Requirrements

Tellecommmunications Miajor
The major in telecommunications is premised on a balance among courses taught to impart skills, courses about the telecommunications fields, and academic courses in theory, criticism, and research. It comprises upper-division work only and has two parts: 1) a core of common courses required of all students and 2) four options from which students choose to structure their major. The four options are: Creative, Management, News/Public Affairs, and Production.
The Creative Option is oriented to developing critical, writing, and performance skills. Prerequisites include courses in speech and drama and supplementary courses are recommended in literature and music.
The Management Option is oriented to developing the practical skills and the critical overview essential to moving into an administrative or managerial role in any media operation. A business course is included and students electing this option are encouraged to select other business courses to support the option.
The News/Public Affairs Option is oriented to developing skills and insights into those functions of the media that will facilitate entry into, and informed practice
in, roles suitable to this area of broadcast and cable operation. A journalism course is included and others are recommended along with courses in agriculture, business, criminology, political science, and the natural and social sciences to support the option.
The Production Option is oriented to developing skills and critical abilities supportive of careers in producing/directing in all the media. A drama course is prerequisite and other courses are recommended to support the option.
Select the option that coincides best with your career aspirations and consult with a member of the telecommunications faculty to select courses that will best assist you in reaching your career goals. Note which courses have General Education prerequisites that must be satisfied; these should be included in the selection of suitable General Education courses and preparation for entering the major.

## Degree Component <br> Units

Major requirements $\qquad$ 36-39 Required core: TCOM 10, 110 120, 140, 160, 195 $\qquad$
Option requirements and electives (19-22)

## Creative Option

Requirements:TCOM 108, 173, 180; Drama 22 Electives: 10 units selected from TCOM 103, 105, 115, 131, 151, 163, 171, 186, 190; Drama 131, 133
Management Option
Requirements: B A 120; TCOM 145, 185
Electives: 9 units selected from TCOM 103, 105, 115, 131, 148, 151, 165, 167T, 186, 190, 191
News/Public Affairs Option Requirements: Jour 128; TCOM 148, 153
Electives: 9 units selected from TCOM 103, 105, 107, 108, 115, 131, 145, 150, 151, 167T, 170, 175, 180, 186, 189, 190, 191; Jour 130, 183
Production Option Requirements:TCOM103, 105, 150; Drama 34
Electives: 10 units selected from TCOM 107, 115, 131, 151, 155, 165, 167T, 170, 173, 175, 186, 189, 190

General Education
(including Engl 1 and 20, Psych 10 , Soc 3 , or their equivalents, chosen with the advice of a faculty member)
Generall ellectives and remaining degree requirrements. . $34-37$
(See Degree Requirements; may
include a dual major or a minor)
Totall

## Advising Notes

1. TCOM majors should declare an option by their junior year. Consult with any member of the regular faculty for advice on options and careers.
2. TCOM 163 cannot be used to satisfy both the Creative Option elective units and a General Education Popular Culture CAPSTONE requirement.
3. TCOM majors are not permitted to enroll for $C R / N C$ grading in courses to be counted in the major, except where the grade is mandatory, e.g., TCOM 186.
4. General Education and general elective units may be used to develop a dual major or a minor (see Dual Major or departmental minor). Consult the appropriate department chair or program coordinator for further information.

## Additional Requirements

1. TCOM majors are required to complete Engl 1 and 20, Psych 10, Soc 3, and Spch 3 within their lower-division General Education Program. These courses are prerequisite to the major or to specific courses.
2. Majors in the Creative Option are also required to take Drama 22 and majors in the Production Option, Drama 34.
3. Basic production courses presume competency with the equipment used in instruction - see TCOM 103, 105, 107.

## Telecommunications Minor

## Units

Required core...................................... 12
TCOM 10, 120, 140, 160
Select one of the required courses from your preferred option and any other three units available to you in the option; no more than 2 units in practicum courses may be included in the minor . .6

[^42]
## Master of Arts Degree <br> in Mass Commmunications

The graduate program leading to the Master of Arts degree in Mass Communications is based on undergraduate work in telecommunications, journalism, or an equivalent academic background. For requirements, consult the coordinator of the Mass Communications Graduate Program or the chair of the Department of Telecommunications, identified earlier. For courses, see Special Programs. Information about graduate study in the university may be obtained from the Office of the Division of Graduate Studies and Research.

## COURSES

Telecommunications (TCOM)

## 3. Audio Equipment Lab (1)

Instruction in principles, techniques, and practices for proper and safe operation of audio equipment in studio and control room environments. (2 3-hour labs, 5 weeks)
5. Video Equipment Lab (1)

Instruction in principles, techniques, and practices for proper and safe operation of video equipment in studio and control room environments. (2 3-hour labs, 5 weeks)
7. Video Editing Lab (1)

Instruction in principles, techniques, and practices for proper and safe operation of field cameras and edit stations. (2 3-hour labs, 5 weeks)

## 10. Media and Society (3)

A survey of the social and institutional framework of contemporary media of communication based upon historical development of technologies, companies, and theoretical concepts. Emergence of regulation, identification of social influences, and contemporary standards of evaluation are also introduced. (Former R-TV 10)

## 103. Audio Production (3)

Not open to students with credit for TCOM 30. Prerequisite: demonstrated proficiency with audio equipment through documented prior experience, prior coursework, or TCOM 3. Lectures and laboratory experiences in the design and execution of audio-based programs, as used in the telecommunications industries. (2 lecture, 2 lab hours) (Former R-TV 30; TCOM 30)

## 105. Video Production (3)

Not open to students with credit for TCOM 50. Prerequisites: TCOM 103 and demonstrated proficiency with video equipment through documented experience, coursework, or TCOM 5. Lectures and laboratory experiences in the design and execution of video programs, as developed in studio environments. (2 lecture, 2 lab hours) (Former R-TV 50; TCOM 50)
107. Electronic Field Production (4)

Not open to students with credit for TCOM 70. Prerequisite: demonstrated proficiency with field and editing equipment through documented experience, coursework, or TCOM 7. Lecture and discussion of field production techniques as used in ENG/EFP; preproduction planning, production execution, and postproduction processes. Field assignments required. (4 hours lecture, discussion, demonstration; outside projects required) (Former R-TV 70; TCOM 70)
108. Media Performance (3)

Not open to students with credit for TCOM 80. Prerequisites: completion of Drama 22 and Spch 3 or equivalents. Basic theories and techniques of broadcast and film performance. Lectures and laboratory experiences in vocal and visual aspects of performance; media characteristics and requirements; analysis and preparation of material for media performance. (2 lecture, 2 lab hours) (Former R-TV 80; TCOM 80)
110. Media Problems and Practices (2)

Prerequisite: TCOM 10 or equivalent. This course is an introduction to the day-to-day concerns of media professionals as they appear in current industry periodicals such as Broadcasting magazine. Subscription(s) required. (Former R-TV 110)
115. Media Stereotypes (3)
(Same as Jour 115.) Prerequisite: upperdivision standing. Survey of dominant TV stereotypes involving ethnic minorities, women and men, aged, handicapped, and others. Analysis of economic, social, cultural, and political factors that shape, maintain, and change TV stereotypes. Effects of stereotypes examined.
120. Writing for the Media (3)

Prerequisites: TCOM 10 and Engl 1 and 20, or equivalents. Required of majors and taughtina computer lab, this course focuses on writing and evaluating continuity types such as public service and commercial announcements and news stories; adapting one's writing style to the aural/visual media. (2 lecture, 2 lab hours) (Former R-TV 120)

## 131. Radio Operations

Practicum (1; max total 2)
Prerequisites: TCOM 10 and 103 or equivalents; permission of instructor. Enrollees participate in the operation of the university FM radio station, on a scheduled basis, under instruction and supervision of department faculty. CR/NC grading only. (1 lab, 4 arranged hours) (Former R-TV 131)
140. Media Audiences and Effects (3) Prerequisite: TCOM 10, Psych 10, and Soc 3 or equivalents. Required of majors, this is a study of recent and contemporary research addressing audiences for media and programs; effects of programs on audiences; uses of programs by audiences. (Former R-TV 140)
145. Audience Measurement (4)

Study of survey research methods as employed in the broadcast ratings industry for stations, networks, and agencies; conduct of a local audience measurement project. (Former R-TV 145)
148. News/Public Affairs Analysis (4) Study of methods of content analysis as used to evaluate programs for emphasis, bias, style, comparison; conduct of an analysis of local news/public affairs programming. Project participation required. (Former R-TV 148)
150. Advanced Video Production (3) Prerequisites: Drama 34, TCOM 10, 105, and 107 or equivalents; $\boldsymbol{B}$ or better in production courses. Development of critical and creative skills; study of production theory and practice; participation in planning, organization, and production activities. (1 lecture, 4 lab hours) (Former R-TV 150)

## 151. Television Operations

Practicum (1; max total 2)
Prerequisites: TCOM 150 or equivalent; permission of instructor. Enrollees participate in television studio operations on campus and in the media community, on a scheduled basis, under instruction and supervision of department faculty. $C R / N C$ grading only. (1 lab, 4 arranged hours) (Former R-TV 151)

## 153. News/Public <br> Affairs Production (3)

(Same as Jour 153.) Prerequisites: Jour 128 and TCOM 120 or equivalents; permission of instructor. Characteristics of electronic news media; local and national broadcast news operations; news sources and resources; social influence; policy and control;
planning and producing news and public affairs programs. (2 lecture, 2 lab, arranged hours) (Former R-TV 153)

## 155. Television Directing (3)

Prerequisites: TCOM 150 or equivalent, with $\boldsymbol{B}$ or better; permission of instructor. Theories and practices in producing and directing television productions and programs; planning and production for the director's role. Laboratory goal to create airworthy products for closed-circuit, cable, or broadcast distribution. (1 lecture, 4 lab, arranged hours) (Former R-TV 155)
160. Broadcast Regulation (3)

Prerequisite: TCOM 10 or equivalent. Required of majors, the course examines philosophies and principles of mass communication control and their application to the electronic media, development of regulatory patterns in the U.S. media, and social responsibility of the broadcaster. (Former R-TV 160)
163. Radio/TV as Popular Culture (3) Prerequisite: must have completed 56 units. A consideration of the media as popular cultural arts through study of development of program forms, social influences. Programs are studied in script and recorded forms. Term paper required. General Education CAPSTONE Cluster, Critical Thinking. (Former R-TV 163)
165. Broadcast Programming (3)

Study of strategies and practices in programming radio and television stations and cable television operations. Lecture, discussion, and analysis/evaluation are primary course methods. Term project and paper required. (Former R-TV 165)

## 167T. Media and Social

Change (3; max total 6)
Prerequisite: TCOM 10 or equivalent, upper division standing. In-depth examination of national and international social changes associated with electronic media and new technologies. Topics include Media and Development in Third World; International Broadcasting; TV and Global Politics; New Communication Technologies.

## 170. Advanced Video

## Field Production (3)

Prerequisites: TCOM 105, 107, and 120 or equivalents; $\boldsymbol{B}$ or better in prerequisite courses. Advanced study of the planning, organization, and execution of video field-production techniques as used in corporate video and documentary program production; single-camera, film-style video techniques and postproduction. (2 lecture, 2 lab, arranged hours)
171. History and

Development of Motion Pictures (3)
Criteria for motion picture selection; use of reviews and judgments by critics and organizations; critical observation of films. Evaluations required. (Former R-TV 171)
173. Film/Television Criticism (3)

Study of traditional and new critical approaches to film and their application to television; analysis and interpretation of films and television programs through humanist critical methodology. (Former R-TV 173)
175. Documentary (3)

History and criticism of documentary in its various forms with emphasis on the analysis of techniques, methods, styles, purposes, and social significance in film and television. (Former R-TV 175)
180. Advanced Media Performance (3) Prerequisites: TCOM 108 or equivalent; permission of instructor. Theories and practices of performance in radio, television, film; refinement of professional skills and standards; laboratory goal is cable, closed-circuit, or broadcast performance. (2 lecture, 2 lab, arranged hours) (Former RTV 180)

## 185. Proseminar in

 Media Management (3)Prerequisites: B A 120 and TCOM 160 or equivalents; permission of instructor. Organization, operation, and administration of radio and television stations and cable television facilities; correlation of department functions; relationship to regulatory agencies and the marketplace. (Former R-TV 185)
186. Media Internship (3; max total 6) Prerequisite: 15 upper-division units in TCOM program; permission of instructor. Applied practice in an area media outlet or an allied agency. On-the-job and faculty supervision/instruction; conferences and reports required. CR/NC grading only. (Former R-TV 186)
189. Media Projects (3; max total 6)

Prerequisite: senior status in TCOM program; permission of instructor. Creative group projects in radio, television, film; public showing/airing or other distribution required. (6-8 arranged hours) (Former R-TV 189)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading. (Former R-TV 190)
191. Radio-management

Practicum (1; max total 2)
Prerequisite: credit for one semester TCOM 131 or permission of instructor. Enrollees participate in management of the university FM radio station with a specific, assigned responsibility for an operational element, under faculty supervision. (Former R-TV 191)
195. Proseminar in Media Issues (3)

Prerequisite: senior standing, eligible for graduation. This major capstone course examines current issues affecting all phases of the media industries through discussions with local media executives and middle-management personnel and readings in current industry periodicals such as Broadcasting magazine; normally taken in the spring semester the degree requirements are completed. Subscription(s) required. (Former R-TV 195)

## 200 Series

Graduate courses are listed under Special Programs - Mass Communication.

# THEATRE ARTS Drama and Dance 

The theatre arts major offers you the opportunity to develop your skills in acting, directing, dance performance, choreography, playwriting, management, children's theatre, technical production, scene design, costume design, lighting design, history, literature, and teaching. After completing our program, you will have the background that will enhance your ability to pursue either an advanced degree or a professional career.
Our professionally trained instructors will guide you through a program which is not only educational but fascinating. A major or minor in theatre or dance can be one of the more exciting times in your life because it will develop communication and performing skills that will aid you no matter what career you finally decide to pursue. If theatre is what you want, then the CSU, Fresno Theatre Arts Department is ready to serve you.
The Theatre Arts Department is an accredited institutional member of the National Association of Schools of Theatre (NAST) and is a member of the American Theatre in Higher Education, United States Institute of Theatre Technology, California Educational Theatre Association, and the Southern California Educational Theatre Association. The department regularly participates in the

American College Theatre Festival (ACTF) and the American College Dance Festival (ACDF). Students, faculty, and productions have been awarded many regional and national honors from both ACTF and ACDF.
CSU, Fresno's national and international award-winning Theatre Arts Department offers you educational preparation in all aspects of theatre and dance. Besides having the opportunity of being guided by an extensive curriculum and production schedule of more than 10 plays and several dance concerts, you will have the opportunity to study with guest professionals who participate in our program on a regular basis.
At CSU, Fresno you have a variety of production organizations, each providing a different kind of experience. University Theatre produces five major productions a year, cast and crewed by students. The Experimental Theatre Company (ETC) and the University Dance Theatre (UDT) are student organizations that produce their own plays and dance concerts. Playwrights Theatre is dedicated to the production of original plays. Theatre for Young Audiences, as its name implies, produces plays for young people, two of which tour throughout the Valley. You also have the opportunity to work with our resident dance company, The

School of Arts and Humanities Department of Theatre Arts RONALD D. JOHNSON, Chair Speech Arts Building, Room 33
(209) 278-3987
B.A. in Theatre Arts

Dance Option
Minor in Theatre Arts

Drama
Single Subject Teaching Credential English/Drama

Portable Dance Troupe. As you can see, there are many formats for you to develop and practice your arts at CSU, Fresno.

## Facilities

At CSU, Fresno you have the opportunity to study and practice your art with an outstanding faculty in well-equipped theatres and production facilities. Our newly renovated theatre complex consists of a 374 -seat proscenium theatre and a 192-seat arena theatre. We also have a 100 -seat lab theatre. You will work closely with 14 faculty members who are current in their craft and professionally active in acting, directing, dance, design, and technical production. Playwriting is a specialty of several of our faculty; all have published and two have been awarded Schubert Fellowships. As you might imagine, we encourage the production of original plays at CSU, Fresno.

## Career Opportunities

Professional theatre and dance are very competitive areas especially for performers. Nevertheless, CSU, Fresno graduates have more than held their own as actors and dancers in the professional world. As designers, production specialists, and managers, our students have readily found career opportunities. The rapid expansion in home video entertainment promises even more opportunity in the field.
Graduates have also found successful careers in related fields such as radio and television, journalism, rock performances, and touring productions. Many graduates teach in high schools, community colleges, and universities. Several former students have found their theatre training as an asset in such careers as law, theology, and politics.

## Faculty

Ronald D. Johnson, Chair
Howard H. Brewer Ruth H. Griffin

## Bachelor of Arts <br> Degiree Requirrments

## Theatre Arts Major and Minor

The theatre arts major, dance option, and minors are designed to provide competencies in the theatre arts for students who intend to pursue study beyond the Bachelor of Arts degree, who are preparing for careers in teaching or for the professional theatre. With the assistance of their advisers and with departmental approval, students follow a track of advanced courses specializing in the areas of Acting or Design/Technology, or students may opt for advanced courses covering a broad range of study by selecting the General track. Students may also pursue a teaching credential through the Single Subject Waiver Program in English/Drama. The Theatre Arts Program offers through the dance option intensive studies in dance performance, choreography, and theory. This option provides preparation for graduate studies or a professional career.

## Credential Program

Consult the theatre arts credential adviser concerning the required course of study for the Single Subject Waiver Program in English-Drama.

## COURSES

Theatre Arts (Drama)

## 10. The Art of Theatre (3)

Fundamental knowledge and skills required for study in the Theatre Arts Program which includes the literary basis, technique, visual impact, and presentation of drama.

## 15. Dramatic Arts

## Laboratory (1-2; max total 6)

(Same as Drama 115.) Group laboratory experience in presentation of major productions for public performance. Not available for $C R / N C$ grading.
22. Fundamentals of Interpretation (3) Discovering and communicating intellectual and emotional meaning of the printed page through preparation and presentation of selected readings from prose, poetry, and drama. General Education BREADTH, Division 4.

## 30. Voice and Speech

for Performance (3)
Open to theatre arts majors and minors only. Principles of voice and speech for stage performance including the International Phonetics Alphabet, breathing, relaxation, resonance, enunciation, articulation, pronunciation, projection, expressiveness, and vocal characterization.

## 31. Fundamentals of

Voice and Articulation (3)
Open to nonmajors only. Principles of voice and articulation with demonstration in various aspects of oral communication.

## 32. Introduction to Acting (3)

Not open to theatre arts majors. Fundamentals of improvisation, voice, movement, and acting. Development of stage presence, and an introduction to characterization and dramatic text.
33. Fundamentals of Acting (3)

Fundamental techniques and theories of acting; development of individual insight, skill, and discipline in the presentation of dramatic materials. (CAN DRAM 8)

## 34. Theatre Crafts (3)

Introduction to the crafts in technical theatre scene construction, scene painting, property selection, stage lighting, sound production; costume construction, and
make-up; laboratory experience in preparing major plays for public performance. General Education BREADTH, Division 4.

## 35. Intermediate Acting (3)

Prerequisite: Drama 33. Intermediate studies in acting including text analysis, expansion of the actor's character range and audition techniques.
62. Theatre Today (3)

Not open to theatre arts majors. Perspectives on contemporary theatre forms and productions. General Education BREADTH, Division 5.
83. Touring Theatre (1-3; max total 6) (Same as Drama 183.) Prerequisite: permission of instructor. Experience in touring major productions for public performance.

## 89. Projects in

Production (1-3; max total 9)
(Same as Drama 189.) Prerequisite: permission of instructor. Group projects in all phases of production in laboratory theatre.
110. Design for the Theatre (3)

Comprehensive study of design aesthetics and application of design to theatrical production, including scenery, costume, lighting, sound, and make-up. Laboratory application, material for major public performance.

## 115. Dramatic Arts

Laboratory (1-2; max total 9)
(See Drama 15.) Not available for $C R / N C$ grading.

## 131. Fundamentals of

Playwriting (3; max total 9)
Exercises in plotting, characterization, exposition, and stage business, critical analysis, and revision of manuscripts.
133A-B. Advanced Acting (3-3)
Prerequisite: Drama 35. (A) Advanced techniques of voice, movement, emotion, and characterization, developed through improvisation and scene study. (B) Period styles of acting.
134A-B. Advanced Theatre Craft (3-3)
Prerequisite: Drama 34. (A) Advanced training in scenic techniques and allied technology. Laboratory application to major public productions. (B) In-depth survey of each phase of the costume design and production process. Laboratory application to major public performances.

## 135. Make-up for

Theatre (3; max total 6)
Theory and practice of make-up for theatre; techniques for characterization, style, and technical processes. Emphasis on basic
techniques; introduction to prosthetics. Preparing plays for major public performances.
136. Puppetry (3)

Introduction to the art of puppetry: history, construction of various types of puppets and theatre, practice in manipulation, script writing, use of puppets in education and recreation.
137. Creative Dramatics
(3; max total 6)
(Same as CTET 137.) Basic techniques for the use of dramatization in elementary education; sociodrama, dramatization of school subjects, creative dramatic play; simplified staging techniques.

138A-B. Chilldren's Theatre
(A-3) (B-3; max total 6)
(A) Theory, practice, and applications of theatre for children and adolescents; children's plays are examined through reading, discussion, and scene study. (B) Prerequisite: permission of instructor. Theatre for Young Audiences Tour; experience touring children's theatre productions for public performance.
139. Fundamentals of Play Direction (3) Prerequisite: Drama 33. Fundamental techniques and theories of stage direction; function, responsibility, movement, analysis, style; practice in directing scenes.
140. Experimental

Techniques in Play Direction (3)
Experimental techniques of play direction: prerehearsal problems and procedures; structural analysis of plays, composition, picturization, pantomimic dramatization, movement, rhythm.
150. Theatre Management
and Promotion (3)
Principles of organization, operation, and administration of educational, community, and professional theatre; box office operation, accounting procedures, ticket manipulation, house management, fund raising, promotional media. Supervised practical experience in dramatic art area production.

## 151. Stage and

Production Management (3)
Principles and techniques of stage and production management as applied to professional, educational, and community theatre and applied media; production, audition, rehearsal process, and organization; technical and performance process and procedures; production personnel and cost management. (Former Drama 188T section)
155. Sound in the Theatre (3)

Theory, techniques, and procedure necessary to develop and integrate sound, music, and effects in theatre production; hearing, acoustics, environment, sources, transducers, control, systems, equipment; organization and planning. Laboratory experience in preparing plays for a major public performance.
157. Theatre Graphics (3; max total 6) Development of rendering technique and other graphic skills essential to design for the theatre.
160. Field Studies in Theatre
and Dance (1-6; max total 8)
Prerequisite: permission of instructor. Supervised off-campus study of the theatre arts and dance. Submission of project or term paper required.
163. Dramatic Literature (3)

Critical analysis of various types and styles of plays with respect to their form, meaning, and theatricality. General Education BREADTH, Division 5.
178. Oral Studies of Shakespeare (3) Prerequisite: Drama 22. Appreciation and communication of representative histories, comedies, and tragedies; problems of content and structure from the point of view of the oral interpreter.

## 179. Playwrights' Theatre

(1-2; max total 6)
Prerequisite: permission of instructor. Presentation and readings of original and classical plays.

## 180A-B. Scene Design for

Theatre (3-3; 180B max total 6)
Prerequisite: permission of instructor. (A) Styles, techniques, and methods of scene design; history. Laboratory application, material for major public performance. (B) Scenery design; design problems of a complicated play; experimental ideas; new materials. Laboratory application, material for major public performance.
181A. Costume History for Theatre (3) A survey of historical periods of dress from early Egyptian civilizations to present day with an emphasis on application to stage usage.
181B. Costume Design
for Theatre (3; max total 6)
Costume design for theatre and dance incorporating analysis of script, research of historical period, selection of fabric, preparation of budget, and rendering of plates. Emphasis on illustration and design elements.

## 182A-B. Stage and

Television Lighting (3-3)
Prerequisite: Drama 34 or 134A-B. (A) Instruments, control, color, electromechanical factors and simplified design and planning lighting leading to and resulting in a major public performance. (B) Lighting as an art, design concepts; lighting plots, projections, sequential cue relationships. Laboratory application, material for major public performance.
183. Touring Theatre (1-3; max total 6) (See Drama 83.)

## 185. History of the

Theatre and Drama I (3)
Prerequisite: Drama 163. History of European theatre and component arts from ancient Greece through the mid-19th century; analysis of representative examples. General Education CAPSTONE Cluster.

## 186. History of the

Theatre and Drama III (3)
Prerequisite: Drama 163. From Ibsen to the present; analysis of representative examples.

## 188T. Topics in

Theatre Arts (1-6; max total 9)
Prerequisite: permission of instructor. Selected topics may include acting, children's theatre, creative dramatics, play direction, technical theatre, theatre history, dramatic

literature, and theatre administration. (May include lab hours)
189. Projects in Production
(1-3; max total 9)
(See Drama 89.)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.
194. Shakespeare (4)
(See Engl 189.)

## IN-SERVICE COURSE

(See Course Numbering System.)

## Theatre Arts (Drama)

303. Topics in Theatre Arts (1-3)

In-service training in selected areas of drama/theatre arts.

## COURSES

## Dance (Dance)

A maximum of 12 units of dance technique courses $(116,117,118,155,158)$ may be credited toward the minimum B.A. graduation requirement of 124 units.
20. Movement/Space (3)

Fundamental theories and technique of movement for performance required for study in the Theatre Arts and Dance Option programs.
116. Introduction to Dance (1)

Basic technique, improvisation, and composition. Moving through space, energy, and time with focus on varying internal and external stimuli as impetus for movement. General Education BREADTH, Division 4.

117A. Modern Dance
Technique (1; max total 2)
Prerequisite: permission of instructor. Basic aspect of modern dance technique. Emphasis on importance of breath, body alignment, and rhythmic coordination; total movement awareness.

117B. Modern Dance
Technique (1; max total 2)
Prerequisite: permission of instructor. Beginning-intermediate level study of movement fundamentals, locomotor activities, and expressive qualities; development of balance, strength, breath coordination, and technical ability.
117C. Modern Dance
Technique (2; max total 6)
Prerequisite: permission of instructor. Intermediate level of modern dance technique; center practice and locomotor
movement, stress on increased movement awareness through individual technical development and personal expression.

## 117D. Modern Dance

Technique (2; max total 12)
Prerequisite: permission of instructor. Advanced level in modern dance technique; elements of alignment, flexibility, strength, rhythm, and energy flow. Exposure to techniques of Limon, Nikolais, Humphrey, Graham, and others.
118. Tap (1)

Combination of movement fundamentals and studies in rhythmic structures. Basic skills in tap dance and understanding rhythmic phrasing through percussive sounds of feet.
155A. Modern Jazz Dance (1)
Prerequisite: Dance 116 or 158A. Rhythmic and stylistic devices of jazz and rock movement using modern dance technique as a movement foundation.
155B. Modern Jazz Technique (1)
Prerequisite: permission of instructor. An in-depth study of jazz dance techniques and different jazz idioms; emphasis on individual style, freedom of expression.
158A. Ballet Technique ( $1 ; \max$ total 2 ) Beginning level of ballet technique. Basic principles of tournout, plier, etentre, relever, sauter, tomber, tourner, muscular control, and balance. Partial barre work, port de bras, adagio, centre barre, petit allegro, and grand allegro.
158B. Ballet Technique (1; max total 2) Prerequisite: permission of instructor. Be-ginning-intermediate level of ballet technique. Introduction to important theories of French, Russian, Italian, and Danish techniques. Extended practice of complete class; barre, port de bras, adagio, centre barre, and allegro.
158C. Ballet Technique
(2; max total 12)
Prerequisite: permission of instructor. In-termediate-advanced level of ballet technique. Concentrated study and practice of French, Russian, Italian, and Danish concepts and theories of technique.
158D. Ballet Technique
(2; max total 12)
Prerequisite: permission of instructor. Advanced level of ballet technique. Advanced practice and study of French, Russian, Italian, and Danish concepts and theories of technique.
"The quality of training in both the academic and performance aspects of the CSUF theatre program is very high and has proven invaluable in the pursuit of my goal to become - and remain - a professional actor."

Robert Westenberg Alumnus from New York Stage and Television Actor

## 158P. Ballet Pointe (1)

Prerequisite: permission of instructor. Advanced level of ballet technique and technical training for ballet pointe work. Advanced study of style and theory used for ballet pointe.
159. Music as Dance Accompaniment (3) Study of Western Classical Music Theory and History as it relates to dance exposure to world music. Rhythmic analysis and 20th century approaches to music composition and dance. Development of dancer's percussive and vocal abilities.
160. Creative Movement for Children (3) Introduction to the basic concepts, principles, and methodology needed to develop an awareness of the aesthetic experience through dance and creative movement. The aesthetic qualities of dance are stressed to develop the use of creative intelligence and imagination.
161. Musical Theatre (3)

Training of actors for musical auditions through fundamental voice and movement techniques, study of how music and lyrics combine to suggest character, and study of relationship of song, scene, and choreography in various styles. (Former Dance 174T section)
162. Physical Theatre (3)

Development of actor's physical instrument of flexibility, strength, and control. Geared to extraverted physical theatre forms, i.e., Commedia Dell'Arte, Melodrama, and Vaudeville. Scripts developed through ensemble improvisation. (Former Dance 174 T section)

## 163. Portable Dance Troupe

Company Class (2; max total 8)
Prerequisite: permission of instructor. By audition only, held in fall semester and meets for two semesters. A repertory class consisting of rehearsing, understudying, and performing roles. This laboratory experience leads toward performances and touring.

164A. Dance History: Classic (3)
European dance beginning in the 16th century and its sequel, the classical and contemporary ballet.
164B. Dance History: Contemporary (3) Modern dance, its growth and development.

## 166. Dance Choreography

(2; max total 16)
Prerequisite: permission of instructor. Choreography is approached through the exploration of resources, including improvisation, use, and development of ideas, knowledge of forms, and development of craft. Choreography will be presented in class and performed.
167. Dance in Education (3)

Prerequisite: permission of instructor. Unique potential found in movement for the development of creativity through the teaching of dance.
168. Effort/Shape (3)

Prerequisite: permission of instructor. An introduction to the Laban system of movement analysis. Designed to include movement and observation effort/shape analysis and the application of this work in the fields of education, performance, and therapy. (Former Dance 175A)
169. Body Image, Language,
and Nonverbal Expression (3)
An investigation into the nature of posture and gesture as configurations of expressive, nonverbal expression. (Former Dance 175B)

## 170. Centering and Alignment (3)

A course designed to introduce a spectrum of models and concepts used in somatic analysis and movement facilitation. Emphasized is the use of images and thought to acquire efficient and safe alignment for ease of expression through dance.

## 171. Philosophical Bases

## and Trends in Dance (3)

The elements and principles common to all arts and their relationship to dance. General Education BREADTH, Division 5.

## 173. Theories of Improvisational <br> Movement (3; max total 9)

Philosophical and physiological ideas in the possibilities of spontaneity as they relate to the actual process of human movement.
174T. Topics in Dance
(1-3; max total 12)
Selected topics may include philosophy, psychology, art, theatre, and music as related to dance.

## Women's Studies

School of Social Sciences
Women's Studies Program
SUSAN S. ARPAD, Coordinator
Social Science Building, Room 226
(209) 278-2858

Minor in Women's Studies

Women's Studies classes encourage students to develop critical and analytical thinking skills and the ability to communicate new ideas to a general public. Women's studies students frequently say that women's studies classes enhanced their self-esteem and enabled them to more clearly define their special skills and talents. Therefore, all fields open to most social sciences and humanities graduates are open to
Women's Studies graduates.

## Career Opportunities

Students with a strong academic background in information about women find a growing number of career opportunities such as women's service agencies: displaced homemaker centers, rape counseling service, battered women's shelters. Students majoring in fields like gerontology, mass communications, nursing, recreation, criminology, economics, health sciences and social work, say that their major defines the field in which they will work; women's studies defines their special interest within that field. Postgraduate education in business, law, medicine, social welfare, psychology, and education has provided many women's studies students with satisfying and challenging career opportunities.

## Program Faculty

Women's studies has its own full-time and part-time faculty, who come from a variety of disciplines: history, humanities, economics, sociology; and psychology. In addition to this core faculty, many individuals teach women's studies courses in their home departments: anthropology, art, Chicano and Latin American studies, criminology, drama, education, English, ethnic studies, health sciences, history, philosophy, psychology, recreation, and sociology. Saturday School faculty are most often chosen from the community-at-large on the basis of their particular area of expertise.

## Minor Requirements

An interdisciplinary minor is available to any CSUF student. Each student's minor program is individually planned by the student in consultation with the women's studies program coordinator.
The Minor in Women's Studies requires a minimum of 20 units, including W S 10 and W S 175. At least six units must be upper division. The other 14 units shall be selected from at least two different disciplines. In addition to the courses listed as regular offerings, electives may be chosen from special topics courses on women offered periodically by certain departments.

## Certificate of

## Alcohol/Drug Studies

The Women's Studies Program is participating in a certificate of special study awarded to those students who successfully complete a minimum of 12 units of interdisciplinary academic coursework in the area of alcohol and drug abuse. (For complete details, see Health and Social Work, Interdisciplinary Courses, in this catalog.)

## Victim Services Certificate

The Women's Studies Program is participating in a certificate of special study awarded to those students who successfully complete a minimum of 12 units of interdisciplinary academic coursework in the area of victim abuse. (For complete details, see Criminology Department or School of Education and Human Development.)

## COURSES

Women's Studies (W S)

## 10. Introduction to

Changing Women (3)
Introductory interdisciplinary course designed to provide a foundation for Women's Studies; focus on women in the areas of sociology, psychology, history, economics, politics, and the arts. General Education BREADTH, Division 9.

## 12. Critical Thinking

About Sex and Gender (3)
An introductory course for students who may not have had any formal coursework in either critical thinking or women's studies. Designed to teach critical thinking and communication skills, using topics of sex and gender as subject matter.
37. Math Confidence (2) (See N Sci 37.) CR/NC grading only.
50T. Studies in Literature (4)
(See Engl 50T section.) Women in Novels section.

## 55T. Topics in Women's

Studies (1-4; max total 12)
Topics of current interest in the Women's Movement, covering a wide variety of issues. (See Schedule of Courses for specific topics.)

## 101. Women in History (3)

(See Hist 101.) General Education BREADTH, Division 9.

## 102T. Topics in Women's History

(3; max total 6 if no topic repeated)
(Same as Hist 102T.) Prerequisite: W S 101 or permission of instructor. (See Schedule of Courses for specific topics.)

## 105. Education and

Sex Role Stereotypes (3)
Designed to meet the needs of parents, teachers, counselors, administrators. How sex role stereotypes affect the educational system, pre-K through higher education.
108. Rape (1)

An inquiry into the phenomenon of rape, myths about rape and rapists, treatment of rape victims, discussion of physical and psychological preparation for possibility of attack. Lecture, film, paper, speakers. An all-day workshop held on two consecutive Saturdays. CR/NC grading only.
109. Incest (1)

An exploration of the victim, the victimizer, and the family dynamics of incest, as well as the psychological and sociological implications of the family secret. An allday workshop held on two consecutive Saturdays. CR/NC grading only.
112. Assertive Training (1)

Women's special needs in becoming assertive; blocks preventing assertion and methods of getting around them. An allday workshop held on two consecutive Saturdays. $C R / N C$ grading only.
114. Women in Family Contexts (3) Prerequisite: W S 10 or W S 131 or permission of instructor. Women in diverse family settings; the gendered division of labor; domestic violence; female-headed households; power relations in families; diversity of race, class, and sexual orientation; and conflicting family ideologies in society.

## 116. Domestic Violence (1)

An historical and cultural overview of the battered and battering spouse syndromes; the marriage contract as a license to abuse; the status of remedial legislation; and, the effect of parental battering on children. An all-day workshop held on two consecutive Saturdays. CR/NC grading only.
118. Women and Aging (1)

An exploration into the myths and realities of the aging process, with a focus on women. Confronts the issues of aging in order to stimulate constructive change and positive alternatives for women. An all-day workshop held on two consecutive Saturdays. $C R / N C$ grading only.

## 120. Women of Color

in the United States (3)
The situation of racial ethnic women is examined and analyzed. Topics include: family, work, history, health, and literature, as well as the place of women of color in the Women's Movement and the development of distinct feminism(s) in racial ethnic communities.

## 124. Feminist Art (3; max total 6) (See Art 104.)

## 126. Women and Violence:

Public Policy and the Law (3)
(Same as Crim 126.) Historical and contemporary issues in public policy responses to violence against women. Gender bias in the legal system and policing violence against women. Theory and research on problems in government policy and enforcement of the law.
127. Female Sexuality (3)
(See H S 126.)
130. Women's Health (3)
(See H S 130.)
131. Sociology of Sex Roles (3)
(SeeSoc 131.) General Education BREADTH, Division 9.
132. Women and Work (3)
(See Soc 132.)
135. Women in Other Cultures (3)

Examines the religious, economic, and social roles of women in the world, including their current status in at least four of the following areas: China, Southeast Asia, India, Africa, Middle East, South America. General Education BREADTH, Division 9.
137. African American Women (3) (See Af Am 137.) General Education CAPSTONE Cluster.
148. Women and Religion (3)

Seminar to explore many facets of women's religious experience, including history of women in institutional churches, theologies of liberation and oppression, women's religious experience, and feminist spirituality.
150T. Topics in Women's Studies (1-4; max total 12)
Topics of current interest in the Women's Movement, covering a wide variety of issues. (See Schedule of Courses for specific topics.)
152. The Chicano Family (3)
(See CLS 152.) General Education CAPSTONE Cluster.
155. Career Life Planning (3)

An exploration of contemporary career planning models and their practical application in the work world. Identification of individual needs, values, and capabilities as they apply to making career choices and becoming upwardly mobile.

## 157. Social Construction of Motherhood (3)

Prerequisite: W S 10 or W S 131 or permission of instructor. Theories of social construction show how social meaning is applied to women's mothering, creating both "ideal" mothers and deviants. Examines contemporary problems in social construction of motherhood created by new technology.
160. Feminist Issues in Counseling (3)

Prerequisite: W S 10 or permission of instructor. Evaluates counseling theories; individual and group counseling techniques; examines ethical issues and power structure in therapeutic settings; surveys community resources; and explores innovative and feminist perspectives concerning the effective treatment of women.

161T. Peer Education (1; max total 4) Topics: sexual assault, sexual harassment, alcohol and drug abuse, or eating disorders. Students learn curriculum content, develop
teaching and group facilitation skills, and make presentations to campus peer groups. Permission of instructor. May be taken up to four times if no topic repeated. $C R / N C$ grading only.

## 162. Community Service (1-3)

Prerequisite: 9 hours of W S courses and permission of instructor and sponsoring agency. Individually planned experience which relates student's classroom studies to practical experience in a women's community service agency. CR/NC grading only. (Minimum of 3 field hours per unit.)
163. Consciousness Raising:

Group Leader (1; max total 2)
Prerequisite: W S 10 and permission of instructor. Students learn skills in facilitating group discussion and review content of W S 10 course; students lead a consciousness raising discussion group of students currently taking W S 10. CR/NC grading only. (2 lab hours)
165. Women and the Media (3)

Historical perspectives, contemporary issues, and future alternatives for women as mass media professionals and for consumers of sexist media messages.

## 168T. Women and Literature (4)

(See Engl 168T.)
170. Women: Culture and Biology (3)
(See Anth 170.) General Education CAPSTONE Cluster.
172. Psychology of Women (3)
(See Psych 172.)
175. Seminar in Women's Studies (3)

Primarily for women's studies minors. Prerequisite: 15 units in women's studies (including WS 10). A synthesis of objective and subjective experience in women's studies. In-depth research project required.
176T. Genre Film: Form and
Function (1-4; max total 8)
(See Engl 176T.)
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for $\boldsymbol{S P}$ grading.
194T. Seminar in Women and Literature (4; repeatable with different topics) (See Engl 194T.)
195. Race, Class, and Gender (3) (See CLS 195.)

## Special programs

## Special Programs

The American English Institute is designed to prepare international students for American university studies by offering instruction in English as a Second Language. Students receive up to 23 hours of instruction each week but do not earn academic credit. Qualified students earn a certificate of completion at the end of each session. During each session, up to 120 international students enroll at the institute. Students have come from more than 25 different countries.
Admission Requirements and Application Procedure. Applicants must meet the following requirements: be older than 16 years of age, be a secondary (high) school graduate, and have an intermediate or advanced level of proficiency in English. Applicants should be motivated to improve their speaking, listening, reading, and writing of English. They should be prepared to attend classes every day and to do homework regularly. Interested students should call or write to the institute
to obtain application forms. After completed application forms have been submitted along with an application fee, students can get I-20s. Since processing and mailing of the I-20s takes time, students should apply several weeks before the session begins. For further information, call or write to Dr. Ellen Lipp, Director, American English Institute, California State University, Fresno; 5240 N. Jackson Ave., Room 127, Fresno, CA 93740-0074. Phone: (209) 278-2097.

Calendar and Fees. The American English Institute has three sessions each year: spring, summer, and fall. The institute charges students registration, tuition, health, and student service fees. Interested students should contact the institute to get specific information on fees and session dates.

Instruction Offered. Instruction is available at several levels. There is no beginning level of instruction. Instruction covers the following topics: (l) listening and speaking, (2) grammar, (3) writing, (4) reading, (5) TOEFL preparation, (6) pronunciation, and (7) computer laboratory.

The Applied Ethics Program incorporates a wide range of courses addressing ethical issues and the application of moral values to problems students are likely to face in their professions, private lives, and responsibilities as citizens. Applied ethics courses are intended to enhance the students' appreciation of their own values throughout life.

While the program has neither a major nor minor, inclusion of several applied ethics courses in the students' curricula should be beneficial in a number of careers and in life itself. Several applied ethics courses count toward General Education requirements, as well as graduate seminars in certain departments. Prerequisites for advanced courses may be established by participating departments. For further information, consult the coordinator, Dr. Warren Kessler (Philosophy) and the Schedule of Courses.

## COURSES

## Applied Ethics (A Eth)

100. Contemporary

Conflicts of Morals (3)
(See Phil 120.) General Education BREADTH, Division 6.

## 101. Introduction to

Professional Ethics (3)
(See Phil 122.)
102A.* Economics,
Ethics, and Civilization (3)
(See B A 101.)

## 102B. Economics,

## Ethics, and Civilization (3)

Theories of ethics and their relevance to civilization; a study of the economic and social philosophy of Karl Marx, humanist, scientist, and revolutionary, as well as a comparison of the Marxism of the USSR with the philosophy of Mao Tsetung and the People's Republic of China.
104. Politics and Christianity (3)
(See Pl Si 112.) General Education CAPSTONE Cluster.
106T. Topics in Applied Ethics (1-3)
Selected topics involving applied ethics covering a range of career and life issues. Usually requires a previous course in applied ethics or special background.
190. Independent Study
(1-3; max see reference)
See Academic Placement - Independent Study. Approved for SP grading.

## 192. Directed Reading

(1-3; max total 6)
Prerequisite: permission of instructor. Supervised readings in a selected applied ethics field.
194. Seminar in Applied Ethics (3)

Prerequisite: one course in applied ethics or special background. Intensive investigation of issues in applied ethics, normally requiring substantial student participation and discussion.

## 200. Ethics in Psychology (2)

(See Psych 231.)
201. International Relations
and Political Theory (3)
(See Pl Si 210.)
202. Ethics and

Public Administration (3)
(See GPA 250.)
*A Eth 102A may be substituted for B A 101.

## Asian Studies

CSU, Fresno offers courses in many disciplines which are concerned with South, Southeast, and East Asia. Although there is no degree program in Asian Studies at this time, an interdisciplinary undergraduate minor is available for students who desire a knowledge of Asia as a complement to their chosen academic discipline or profession. For further information and for aid in planning such a course of study, consult the coordinator, Dr. Sudarshan Kapoor, (209) 278-2013, (209) 278-3992, or any member of the Asian Studies Committee.

## Asian Studies Minor

A Minor in Asian Studies consists of 21 units, including a minimum of 9 upperdivision units. Specific requirements:

1. Six to 9 units in one of the areas listed under Section I or II.
2. A total of four courses, two (at least 6 units) from Section I and two (at least 6 units) from Section II, but none in the area chosen in Requirement 1.
3. Up to 3 units of electives from Section I, II, or III.
Independent Study (190) courses in any department may be applied toward the minor as long as they cover some aspect of Asian Studies and are approved by the coordinator. Unspecified topics courses and seminar courses listed below must cover some aspect of Asia to be counted toward the minor.

The university offers an interdisciplinary major leading to the Bachelor of Science degree in Child Development. The major is appropriate for students interested in vocational opportunities based on children. It may lead to employment in the areas of preschool, child center, private nursery, early childhood and elementary teaching, special programs for disadvantaged children, special education, adult education programs, and other child-related vocations.
The program includes a behavioral science base from psychology, sociology, home
economics, and courses in communicative disorders and speech communications. Faculty advisers for the child development major are located in the Department of Child, Family, and Consumer Sciences.
The major consists of a core of 11 courses listed below, plus 15 units of approved electives. Note: CFS 39, Psych 10, and Soc 1 are prerequisites to some of these courses. See course descriptions in this catalog. Units

Totall 124

## Advising Notes

1. Students seeking teaching credentials should see a child development adviser for program planning before enrolling in any classes in the major.
2. Under the restrictions of the major, students may make approved adaptations in their programs to fulfill specific needs and career objectives in consultation with their faculty adviser.
3. CR/NC grading is not permitted in the major.
4. No course used to satisfy General Education CAPSTONE requirements may be used to satisfy child development major requirements.
5. Upper-division units (e.g., 100-level courses) may not be applied toward the 40 upper-division unit degree requirement until 45 units have been completed.

## Cooperative Education

CSU, Fresno's Cooperative Education program (Co-op) incorporates productive, major-related work experience into a student's academic studies. Cooperative education students are given the oppor-
tunity to combine classroom theory with "on-the-job training" to work with professionals in their particular field of study and to test their career choice.
In addition to augmenting their marketable knowledge, students receive competitive wages, develop maturity, and may earn academic credits from cooperating departments. The program is available to all academic majors upon completion of the freshman year. There are two options for participation:

1. Under the Alternating Plan, students work one semester on a full-time basis and then study one semester on a fulltime basis.
2. Under the Parallel Plan, part-time work is found that closely relates to a student's current classes and career interests.
Work, related to the student's academic and career choices, is identified through the combined efforts of the Cooperative Education Section of the Career Development Center and the various academic departments. Placement arrangements are negotiated with local cooperating employers in the San Joaquin Valley, as well as throughout California and the United States. Co-op students have been placed in city, state, and federal governmental agencies; agriculture; business; and all facets of private industry.
To be eligible for Co-op, you must be currently registered at CSU, Fresno, have at least a 2.0 grade point average, and be a sophomore, junior, senior, or graduate student. For further information, telephone Career Development and Employment Services at (209) 278-2703 or visit the center in Joyal Administration Building, Room 256.
The following courses offer field experiences that may qualify as cooperative education. Check with the academic department for enrollment requirements:
Ag Ec 194 Agribusiness Internship
A Sci 194 Agricultural Internship
C E 193 Internship in Civil Engineering
COUN 239 Field Practice in Professional Services Counseling
COUN 249A Field Practice in Elementary School Counseling
COUN 249B Field Practice in Middle or High School Counseling

SPED 160F Fieldwork in Special Education

## International Programs

The university offers two programs under this heading, a campus program and an overseas program. The campus program is designed for students whose native language is not English and for those whose education has been in a language other than English. All such students are required to participate in postadmission English language testing. As a result of such testing, any student may be required to register for certain courses.

## Campus Program

The International (Campus) Program provides courses to help international students gain adequate skill in the use of the English language and sufficient familiarity with American customs and tradition to obtain maximum benefit from their experience at an American university. The following program, taught through the Linguistics Department, is required of all entering international students, unless excused from part or all of it by the International Studies Courses (IS C) Petitions Committee on the advice of the persons concerned with the instruction and administration of the program. This decision is based on a consideration of test scores and other data supplied by the student with his or her application. (See International Student Services and Programs.) After arrival on campus, examinations and
an interview may lead to the student's being excused from certain courses.
First Semester Program. Most students are required to enroll in EF L 10 and I S C 93 in the first semester of residence. In addition, students with less skill in English may be required to take E F L 2R and/ or EFL 21. With permission of their international counselor, students may enroll in other regular courses.
Other Undergraduate Courses. E F L 110 W is often required of transfer students who have completed English 1 or its equivalent and 56 units of coursework.
Courses Taken in Graduate Standing. An entering graduate student whose previous education has been in a language other than English is held to the same standards of English proficiency as are undergraduate students and may be required to enroll in the following undergraduate courses when considered necessary by the student's advisers.

## COURSES

## English as a <br> Foreign Language (E $\boldsymbol{F}$ L)

## 2R. Grammar and

Reading Comprehension (3)
Review of intermediate and advanced grammatical patterns. Reading comprehension and vocabulary building. $C R / N C$ grading only; not applicable toward baccalaureate degree requirements.

## 10. English Composition

for Foreign Students (3)
Practice in writing paragraphs, short essays, and other types of writing. Brief review of certain grammar problems and punctuation.
10L. Writing Skills Lab (1)
Laboratory for students who need individualized writing assignments.
21. Advanced Oral Practice in American English (3)
Advanced work on stress, rhythm, and intonation. Practice in listening comprehension. Speech styles: formal vs. informal. Speech organization and delivery.

## 110W. Advanced Composition for Foreign Students (3)

Prerequisite: Engl 1. Review of selected points of English usage. Conventions of writing formal research reports. Writing of short essays. Practice in paraphrasing and summarizing. Writing complex sentences in concise form. Meets upper-division writing skills requirement for graduation.

110L. Writing Skills Lab (1)
Laboratory for students who need individualized writing assignments.

## International Studies Course (I S C)

93. Contemporary American Society (1) Introduction to contemporary American society to familiarize the student with political and social issues and ideological conflicts. (2 seminar hours)

## International <br> Programs (Overseas)

Now in its 27 th year of continuous operation, the California State University (CSU) International Programs offers students the opportunity to continue their studies overseas for a full academic year while they remain enrolled at their home CSU campus. The International Programs' primary purposes are to enable selected students to gain a firsthand understanding of other areas of the world and to advance their knowledge and skills within specific academic disciplines in pursuit of established degree objectives. Since its inception, the International Programs has enrolled nearly 10,000 CSU students.
A wide variety of academic majors may be accommodated by the 36 foreign universities cooperating with the International Programs in 16 countries around the globe. The affiliated institutions are: the University of Queensland (Australia); the University of Sao Paulo (Brazil); the universities of the Province of Quebec (Canada); the University of Copenhagen (through Denmark's International Student Committee's Study Division); the University of Provence (France); the universities of Heidelberg and Tübingen (Germany); the Hebrew University of Jerusalem (Israel); the University of Florence (Italy); Waseda University (Japan); the Iberoamericana University (Mexico); Massey University and Lincoln University College (New Zealand); National Chengchi University (Republic of China/Taiwan); the universities of Granada and Madrid (Spain); University of Uppsala (Sweden); Bradford, Bristol, Sheffield and Swansea universities, and Kingston Polytechnic (the United Kingdom); and the University of Zimbabwe (Zimbabwe). Obtain information on academic course offerings available at these locations in the International Programs Bulletin from the International Programs representative on campus.

Eligibility for application is limited to those students who will have upper-division or graduate standing at a CSU campus by the time of departure, who possess a cumulative grade point average of 2.75 or 3.0 , depending on the program, for all college level work completed at the time of application, and who have completed required language or other preparatory study where applicable. Selection is competitive and is based on home campus recommendations and the applicant's academic record. Final selection is made by the Office of International Programs in consultation with a statewide selection committee.
The International Programs supports all tuition and administrative costs overseas for each of its participants to the same extent that such funds would be expended to support similar costs in California. Students assume responsibility for all personal costs, such as transportation, room and board, and living expenses, as well as for home campus fees. Because they remain enrolled at their home CSU campus while studying overseas, International Programs students earn full resident credit for all academic work completed while abroad and remain eligible to receive any form of financial aid (other than work-study) for which they can individually qualify.
Obtain information and application materials from the International Student Services and Programs office, Joyal Administration, Room 211 or call (209) 278-2782. Or, write to:The California State University International Programs, 400 Golden Shore, Long Beach, CA 90802-4275. Applications for the 1992-93 academic year overseas must be submitted by February 1, 1992.

## COURSES

CSUF students under The California State University International Programs register concurrently on campus and at the host institution abroad, with credit assigned in terms of CSUF courses. Undergraduate students who find appropriate study opportunities at the host institution but no local counterpart course may use Independent Study 190, and International Studies Abroad 92 or 192. Graduate students may use Independent Study 290 and International Studies Abroad 292.

## International <br> Studies Abroad (II S A)

## 92. Projects in Study Abroad:

(Subject) (Units variable; max total 18) Open only to students in The California State University International Programs.

Study undertaken in a university abroad under the auspices of The California State University.

## 192. Projects in Study Abroad:

(Subject) (Units variable; max total 18)
Open only to students in The California State University International Programs. Study undertaken in a university abroad under the auspices of The California State University.
292. Projects in Study Abroad:
(Subject) (Units variable; max total 18) One- to three-unit registrations. Prerequisite: admission to master's degree program; written plan approved by the instructor, department chair, and dean of the Division of Graduate Studies and Research. May require one or more papers and oral or written examination on the student's return before the recording of the final grade.

## Mass Communication Graduate Program

The Master of Arts in Mass Communication is an interdisciplinary degree program jointly offered by the journalism and telecommunications faculties of the university. The program has been developed to prepare students for professional roles in the various mass communication industries, as teachers in the mass communication disciplines, or as candidates for advanced graduate study and research.

The Division of Graduate Studies and Research provides administrative coordination for graduate interdisciplinary programs and courses.
The program is supervised by a joint committee of representatives from the Department of Telecommunications and the Department of Journalism. For more information, contact the coordinator, Philip J. Lane, (209) 278-2628.

## Master of Arts <br> Degree Requirements

The Master of Arts in Mass Communication degree program assumes that the student has an undergraduate major in a directly related field, such as radio, television, film, journalism, etc.
(See also Admission to Graduate Standing, Advancement to Candidacy, Program Requirements, and Criteria for Thesis and Project.)

Under the direction of an advisory committee, each student prepares and submits an individually designed course of study within the following framework:

## Required core courses

M Com 200, 201, 202
Units
(1)

Selected courses in
major interest area .........................9-12
Approved electives in cognate
areas (e.g., psychology, political
science, sociology) 3-6
Thesis
.. 6
Totall (at least 21 units in 200-series) .. 30

## COURSES

The following graduate courses in mass communication may be used on master's degree programs.

## Mass Communication (M Com)

## 200. Historical and

Critical Research Methods (3)
(Core) A seminar in historical and critical research methods, including cultural studies and legal research, and their underlying philosophical bases. Papers required.

## 201. Quantitative

Research Methods (3)
(Core) A survey of philosophies of modern research and of quantitative-empirical research methods used in studies of mass communications phenomena, including experiment, field survey, and content analysis. Papers required.
202. Mass Communication Theories (3) (Core) A study of the nature and structure of theory and of theoretical literature in mass communications and related fields. Papers required.

## 204T. Seminar in Journalism <br> (3; max total 9)

Seminar in a print media topic: government information policy, news media and urban affairs, social responsibility in public relations, magazine influence in America.

## 205T. Seminar in

Radio-Television (3; max total 9)
Seminar in an electronic media topic: current regulatory issues, mass media and social influence, comparative and international broadcasting, film as social comment, issues in media management.
230. Criticism of

Broadcasting and Film (3)
Development of ethical, artistic, and critical standards for broadcast and motion picture evaluation. Principles of criticism
are traced from an historical to a contemporary context. Research papers and reports required.

## 290. Independent Study <br> (1-3; max total 6)

See Academic Placement - Independent Study. Approved for SP grading.
299. Thesis (6)

Prerequisite: See Criteria for Thesis and Project. Preparation, completion, and submission of an acceptable thesis for the master's degree. Approved for $\boldsymbol{S P}$ grading.

## National Student <br> Exchange Program

The National Student Exchange, a consortium of 99 state-supported colleges and universities, allows students to attend, for up to one academic year, an institution of higher learning in another area of the United States. In bringing together students from different parts of the country, the program encourages participants to broaden their academic, social, and cultural awareness. Through a simplified admissions process, students are able to enroll at their host institutions with the same financial benefits enjoyed by instate residents. Coursework completed will be treated as transfer coursework, but students will be allowed to retain catalog rights for CSU, Fresno degrees.

To qualify, a participant must: (1) be currently enrolled as a full-time undergraduate student at CSUF and in the term prior to exchange; (2) be a sophomore, junior and in some cases have senior status during the exchange; (3) have a minimum 2.5 GPA at the end of Fall 1991 semester and at the completion of the term prior to exchange; (4) be in good standing at CSUF. The program is closed to foreign students and postbaccalaureates.

For more information about this opportunity for educational travel and study in a new environment, contact Sabina A. Jacques, coordinator, or Shirlene Major, assistant coordinator, Office of the Vice President for Academic Affairs, Thomas Administration Building, Room 110. Phone: (209) 278-2636.

## Revising and Editing Skills

The following minicourses are designed to help students improve their writing skills. Each course offers intensive work in a specific area. Students may take one or all or any combination of these 1 -unit courses. These courses may be taken prior to, concurrently with, or after Engl 1 or A. Classes are taught by members of the English and Linguistics departments.

## Revising and Editing Skills ( $\mathbb{R} \mathbb{E}$ S)

4A. Spelling and Word Formation (1)
Developing awareness of the systematic nature of English spelling in relation to the sound system and rules for word formation in the language. Mastery of the system rather than word memorization is emphasized. (Former B W E 4A)
4B. Vocabulary Building (1)
Acquiring greater sensitivity to the literal and implied meanings of words, developing an awareness of the processes of word formation in English, and expanding the active vocabulary. (Former B W E 4B)
4C. Sentence Structure (1)
Developing skill in writing clear, mature sentences. Focus is on structure - that is, on the alternative ways of phrasing the same idea and the consequences of choosing one alternative and not another. Sentence and phrase expansion, reduction, combination, and rearrangement are emphasized, not traditional grammar. (Former B W E 4C)

## 4D. Punctuation (1)

Learning to use punctuation marks so readers readily understand the writer's ideas. Particular attention to the use of commas, semicolons, apostrophes, and dashes. A minimum number of unvarying rules are emphasized. (Former B W E 4D)

## 4E. Paragraph and

Essay Organization (1)
Developing skills in identifying the subtopics which make up the central idea of a paragraph or essay, in expanding and supporting ideas, and in arranging them so the writer's purpose is carried out as effectively as possible. (Former B W E 4E)

## Russian Area Studies

The interdisciplinary minor in Russian Area Studies complements a number of academic majors and will prove helpful
to students seeking employment with public or private organizations dealing extensively with the Soviet Union.

## Russian Area Studies Minor

The Russian Area Studies Minor consists of 20 units, of which at least 11 must be in the Russian language, and at least 6 from the departments of geography, history, and political science.
Students with a major in Russian language and literature are given credit for Russian 1A-B, and must take 3 additional units of Russian language and literature beyond the requirements for the Russian major, plus 9 units from the remaining four sections below (Russian and Soviet Culture, Russian and Soviet History, Soviet Geography, Soviet Politics), including at least 6 units selected from the departments of geography, history, and political science.
Likewise, students with a major in geography, history, or political science must choose their units within these areas so they are in addition to, and not duplicates of, the course requirements for their major.
Courses taken to meet the CAPSTONE requirement of General Education may also be used to fulfill the requirements for the Russian Area Studies minor.

## COURSES

## Russian Language

Russ 1A-B Elementary Russian (4-4)
Russ 2A-B Intermediate Russian (4-4)
Russ 101 Composition, Translation, and Applied Linguistics (3)
Russ 118A-B Twentieth Century Literature (3-3)
Russ 190 Independent Study (1-3)

## Russiam Literature

Russ 110 Landmarks in Russian Literature (3)
Russ 148 Masterpieces of Russian Literature (3)
Russ 190 Independent Study (1-3)

## Russian and Soviet Culturre

Russ 103T Topics in Russian Culture (3)
Russ 127T Soviet Russian Topics (3)
Russiam and Soviet History
Hist 142 Tsarist Russia (3)
Hist 143A The Soviet Union (3)
Soviet Geography
Geog 176 Geography of the U.S.S.R. (3)

## Soviet Politics

Pl Si 125 Soviet Foreign Policy (3)
Pl Si 141 Soviet Politics (3)

## Special Major <br> Master's Degree

The special major for the Master of Arts degree is available to qualified graduate students when there is a need for advanced study in subject matter that is interdisciplinary and that is not available through existing graduate programs. In such instances, proposals for a special major that may combine cohesive, interrelated coursework from two or more departments, must be submitted for the approval of the dean, Division of Graduate Studies and Research. Proposals that could be accommodated by an existing master's degree or option at CSU, Fresno are not approved.

## General Eligilioility

The student must demonstrate a superior undergraduate preparation for advanced studies and research appropriate to the departments involved in the proposed special major. The student must meet the minimum criteria for admission to conditionally classified standing in the departments concerned.

## Degree Requirements

The basic requirements for the special major are the same as for all other master's degrees. At least 50 percent of the program must be in courses designated for graduate study, that is, in graduate-level 200-series courses. The proposed program must truly reflect the requirements of scholarly creativity and research appropriate to the graduate level and must exhibit overall coherence in a particular, recognized field of study. The proposed program must lead to the mastery of specific knowledge or skills in an area of advanced studies for which adequate faculty, library, and laboratory resources are present.
Although the special major provides an opportunity for exceptional students to engage in a program outside the framework of existing majors, all normal graduation requirements and standards will be applied. Students pursuing a special major master's degree are required to write a thesis to fulfill the requirement for a culminating experience. For more detailed information concerning the application process, the procedures for constituting a committee, and program for the special major, consult the Office of the Division of Graduate Studies and Research.

## Division of GRADUATE STUDIES AND RESEARCH

## Graduate Studies and Research

Division of Graduate<br>Studies and Research<br>Thomas Administration<br>Building, Room 132<br>(209) 278-2448<br>Vivian A. Vidoli, Dean<br>David A. Ross, Associate Dean

The Division of Graduate Studies and Research embraces all graduate programs and activities in the university, including programs leading to the Master of Arts degree in 20 fields, the Master of Science degree in 18 fields, the Master of Business Administration, the Master of City and Regional Planning, the Master of Public Administration, and the Master of Social Work.

Graduate degree curricula are designed both as the first graduate degree for students contemplating doctoral study and as terminal degrees for persons engaged in business administration, public school teaching including community college, social work, employment in government agencies and other fields in which the master's degree is ordinarily the highest degree earned.
The master's degree program at CSU, Fresno is administered through the Division of Graduate Studies and Research and is under the general supervision of the dean, Division of Graduate Studies and Research, who is guided by the policy recommendations of the University Graduate Committee.

## Graduate Degrees Offered and Authorized Options

Accountancy, M.S.*
Financial Accounting, Taxation
Agricultural Business, M.S.
Agriculture, M.S.*
Agricultural Chemistry, Animal Science, Food Science and Nutrition
Art, M.A.
Biology, M.A.
Business, M.S.
Business Administration, M.B.A.
Chemistry, M.S.
City and Regional Planning, M.C.R.P.
Civil Engineering, M.S.
Communicative Disorders, M.A.*
Audiology, Education of the Deaf, Speech Pathology
Computer Science, M.S.
Counseling, M.S.*
Marriage, Family and Child Counseling,
Career Development Counseling
Criminology, M.S.
Corrections, Law Enforcement
Education, M.A.*
Administration and Supervision,
Curriculum and Instruction, Early
Childhood Education, Reading,
Counseling, and Student Services
Educational Leadership, Ed.D.
English, M.A.
Composition
Creative Writing
Literature
Geography, M.A.
Geology, M.S.

Health Science, M.S.*
Environmental Health, Health Education, Health Services Administration
History, M.A.
Home Economics, M.S.*
Home Economics Education
Industrial Arts, M.A.
International Relations, M.A.
Linguistics, M.A.
English as a Second Language, French, German
Marine Sciences, M.S.
Mass Communication, M.A.*
Mathematics, M.A., M.S.
Music, M.A.*
Music Education, Music History,
Performance, Theory and Composition
Nursing, M.S.*
Clinical Specialization, Nursing
Administration, Nursing Education,
Primary Care/Nurse Practitioner
Physical Education, M.A.
Exercise Science
Physics, M.A., M.S.
Plant Science, M.S.*
Crop Science, Plant Protection,
Soils/Irrigation
Psychology, M.A., M.S.
Public Administration, M.P.A.
Rehabilitation Counseling, M.S.
Social Work, M.S.W.
Spanish, M.A.
Special Education, M.A.
Special Major, M.A.
Speech, M.A.*
Speech Communication

[^43]
## Types of Graduate Curricula

Master of Arts degree (M.A.) curricula are offered in art, biology, communicative disorders, education, English, geography, history, industrial arts, international relations, linguistics, mass communication, mathematics, music, physical education, physics, psychology, Spanish, special education, special major, and speech. These curricula are designed to improve professional competence in educational service; to develop ability for continued formal or self-directed study in a field of specialization; and to afford an opportunity to broaden cultural background, develop personal and social responsibility, and prepare for community leadership.
Master of Science degree (M.S.) curricula are offered in accountancy, agricultural business, agriculture, business, chemistry, civil engineering, computer science, counseling, criminology, geology, health science, home economics, marine sciences, mathematics, nursing, physics, plant science, and psychology. These curricula are designed to improve competence in occupational fields.
Professional Master's Degree Curricula. The Master of Business Administration, the Master of Public Administration, the Master of Science in Rehabilitation Counseling, the Master of Social Work, and the Master of City and Regional Planning are professional two-year degrees designed to provide a high level of competence and preparation for leadership in these respective fields.
Doctorate in Educational Leadership. The School of Education and Human Development received final approval of an interdisciplinary doctoral degree in Educational Leadership in partnership with the University of California (Division of Education, Davis) to begin fall 1991. The program will be conducted jointly by CSU, Fresno and a consortium of UC faculty with the program based on the CSU, Fresno campus.
Second Master's Degrees. Students planning to engage in study toward a second master's degree must obtain prior approval from the graduate dean. Students may not earn a second master's degree in the same field.

## Financial Aid

Opportunities for financial assistance, loans, fellowships, and scholarships are included under Financial Aid in this catalog.

## Teaching and

## Graduate Assistantships

A number of teaching and graduate assistantships are available to graduate students who are enrolled in a master's degree program and whose previous records show outstanding achievement in academic work, outstanding subject matter competence in the major field, and the special qualities necessary to the duties assigned.
An assistant works under the direction of a regular faculty member, assists in such functions as the supervision of laboratories or other small groups, the evaluation of student work, the preparation of course materials, or the conduct of authorized research. An assistant receives a stipend ranging from $\$ 1,560$ to $\$ 10,180$ for the academic year. For information, write to the chair of your major department.

## Definition of Full-Time Student

Depending on the use of the term, there are several definitions of full time. For the purposes of reporting enrollments, students taking 12 or more units are considered full time and students taking less than 12 units are considered part time.
For purposes of financial aid (loans, veterans assistance, etc.), a full-time student takes 12 "equivalent units" wherein each graduate unit (200-level) attempted by a graduate student is considered as 1.5 units and each undergraduate unit ( 100 -level or below) counts at face value. For example, a student enrolled for eight 200 -level units would be considered a full-time student. Threequarter time and half-time are defined to be 9 to $11 \frac{1}{2}$ and 6 to $8 \frac{1}{2}$ "equivalent units" respectively.
Under certain circumstances, a student enrolled in Graduate Continuation (zero units) to complete requirements for the master's degree (including Thesis 299, Project 298, and the Comprehensive Examination) may qualify for full-time status or a fraction thereof. The Graduate Office will verify the student's appropriate status in such cases through his or her major adviser upon request from the student.

## Maximum Study Load

Graduate courses require substantially more concentrated study than do undergraduate courses. A normal load is from 9 to 12 units and the maximum allowable load is 16 units for full-time master's degree students when one or more courses in the 200 series are included. Requests for exceptions to this policy must be addressed to the Grad-
uate Division on a petition for academic overload. Students employed full time may take a maximum of 6 units. For maximum units during the summer session see the Summer Session Catalog.

## Graduate and Postbaccalaureate General Admission Requirements

 Admission Requirements. Graduate and postbaccalaureate applicants may apply for a degree objective, a credential or certificate objective, or may have no program objective. Depending on the objective, the CSU will consider an application for admission as follows:- General Requirements

The general requirements for admission to graduate and postbaccalaureate studies at a California State University campus are in accordance with university regulations as well as Title 5, chapter 1, subchapter 3 of the California Code of Regulations. Specifically, a student shall: (1) have completed a four-year college course of study and hold an acceptable baccalaureate degree from an institution accredited by a regional accrediting association, or shall have completed equivalent academic preparation as determined by appropriate campus authorities; (2) be in good academic standing at the last college or university attended; (3) have attained a grade point average of at least $2.5(\mathrm{~A}=4.0)$ in the last 60 semester ( 90 quarter) units attempted; and (4) satisfactorily meet the professional, personal, scholastic, and other standards for graduate study, including qualifying examinations, as appropriate campus authorities may prescribe. In unusual circumstances, a campus may make exceptions to these criteria.
If you meet the general requirements for graduate and postbaccalaureate studies, you will be considered for admission in one of the four following categories:

- Postbaccalaureate Unclassified

To enroll in courses for professional or personal growth, you must be admitted as a postbaccalaureate unclassified student. By meeting the general requirements, you are eligible for admission as a postbaccalaureate unclassified student. Some departments may restrict enrollment of unclassified students due to heavy enrollment pressure. Admission in this status does not constitute admission to, or assurance of, consideration for admission to any other graduate degree or credential program; or

## - Postbaccalaureate Classified

If you wish to enroll in a credential or certificate program, you will be required to satisfy additional professional, personal, scholastic, and other standards - including qualifying examinations prescribed by the campus; or

- Graduate Conditionally Classified You may be admitted to a graduate degree program in this category if, in the opinion of appropriate campus authority, you can remedy deficiencies by additional preparation; or
- Graduate Classified

To pursue a graduate degree, you will be required to fulfill all of the professional, personal, scholastic, and other standards - including qualifying examinations prescribed by the campus.
Applications for Admission to Postbaccalaureate and Graduate Studies may be obtained in the Office of Admissions. All new and continuing students (students who desire to pursue studies after having received a baccalaureate degree), are required to file this application.
All students who meet the admission requirements for postbaccalaureate studies receive a notice of unclassified standing from the Office of Admissions. Admission to classified standing involves the additional step of an evaluation of the student's record and other documents in accordance with the admission criteria of the program in question. Admission to classified graduate standing is the responsibility of the Office of the Division of Graduate Studies and Research. Admission to classified postbaccalaureate standing in credential programs is the responsibility of the School of Education and Human Development.
Admission to a state university or college with postbaccalaureate unclassified standing does not constitute admission to graduate degree or credential curricula.
Postbaccalaureate students interested in pursuing a second bachelor's degree or a second undergraduate major should contact the appropriate academic department or the Division of Graduate Studies and Research.
A graduate of a nonaccredited college may be granted admission with unvalidated unclassified postbaccalaureate standing, upon the filing of the application and two copies of official transcripts of all college work. Such a student may be eligible for placement in regular postbaccalaureate or
graduate standing when he or she has cleared all undergraduate deficiencies and has maintained, in residence at CSU, Fresno, a grade point average of 3.0 on 12 units of approved upper-division work or an average of 2.5 on 24 units of approved upper-division work. (Prospective applicants to master's degree programs, see also Master's Degrees - Grade Requirements.) When a student with unvalidated postbaccalaureate standing has met the above requirements, it is his or her responsibility to request a new statement of standing from the Admissions Office.

## International <br> Graduate Student Admission

TOEFL Requirement. All graduate and postbaccalaureate applicants, regardless of citizenship, whose preparatory education was principally in a language other than English must demonstrate competence in English. Those who do not possess a bachelor's degree from a postsecondary institution where English is the principal language of instruction must receive a minimum score of 550 on the Test of English as a Foreign Language (TOEFL). Some campuses may require a higher score. Applicants to the English program mustattain a score of 600 .

The TOEFL scores, Graduate Record Examination Aptitude Test scores, application, and official academic documents should reach the university Admissions Office at least six months before the semester for which admission is desired. Applicants to the Accountancy and MBA programs must submit Graduate Management Admissions Test scores; applicants to the MPA and Agricultural Business programs may submit either GMAT or GRE scores.
The TOEFL is administered at various centers throughout the world. For further information about the TOEFL, write or phone the educational attache at the nearest U.S. embassy or consulate office or write to the Testing Services Office, California State University, Fresno; 1700 E. Bullard, Suite 101, Fresno, CA 93740, U.S.A.
The Office of the Dean of Graduate Studies and Research will forward inquiries to the appropriate department.
Requests for applications for international admission should be directed to International Admissions, California State University, Fresno; 5241 N. Maple Ave., Fresno, CA 93740, U.S.A.
Note: The university's Division of Graduate Studies and Research accepts graduate
students from abroad with strong academic preparation. During the first semester at CSU, Fresno, foreign graduate students whose native language is not English and who are studying in this country for the first time must enroll in special courses in American language and civilization through the International Study program. These required courses are assigned according to the results of on-campus testing and are designed to speed adaptation to the new environment and to provide the greatest possibility of success in graduate studies.

## Admission to Master's Degree Programs - Graduate Standing

 Applications for admission to graduate studies are returned to the Office of Admissions. Simultaneously, the applicant must ensure that official transcripts of all previous college or university level work also are sent to the Office of Admissions by the registrar of institutions previously attended. In addition, GRE or GMAT scores as required by the department to which you apply also must be forwarded to the university. Check with the department to ascertain whether an additional departmental application and letters of recommendation are required. In order to ensure adequate consideration for admission, applicants are advised to submit all complete official documentation by established deadlines.Applicants to all master's degree programs gain admission in either classified or conditionally classified graduate standing. Many programs impose additional requirements beyond the criteria stated here and the student is invited to consult departmental descriptions elsewhere in this catalog. To be eligible to receive the master's degree at CSU, Fresno, students must be advanced to candidacy and complete all other requirements specified in this catalog by the Division of Graduate Studies and Research and the specific program. Furthermore, candidates for the master's degree must demonstrate a command of the field of specialization and a competence in independent investigation, analysis, and synthesis beyond the scope of individual courses. Students wishing to change their major must contact the Division of Graduate Studies and Research and apply for the change formally. Students are not admitted to master's degree programs unless they have received an admission notice from the Division of Graduate Studies and Research.

## Graduate Standing - <br> Conditionally Classified

A student eligible for admission to a California State University campus under the unclassified postbaccalaureate standard above, but who has deficiencies in prerequisite preparation which in the opinion of the appropriate campus authority can be met by specified additional preparation, including qualifying examinations, may be admitted to an authorized graduate degree curriculum with conditionally classified standing.
A student who indicates on the application for admission that he or she wishes to pursue a master's degree objective is considered for classified graduate standing. Applicants who do not meet all the specified criteria for admission to a master's degree program with full classified standing may be recommended for conditionally classified standing by the graduate committee of the program in question. Such a recommendation is accompanied by a statement of the additional requirements (i.e., appropriate baccalaureate preparation including prerequisites) which must be met before full classified standing is granted. This information is communicated to the student by the Office of the Division of Graduate Studies and Research. It is the student's responsibility to request a change in classification status as soon as the specified conditions have been met. Forms for this purpose may be obtained in the Office of the Division of Graduate Studies and Research or from your graduate adviser.
Note: Students who have been granted conditional admission to a graduate program are required to complete all conditions for achieving classified status (full admission) to the program by the semester in which a maximum of 10 units to be used toward the master's degree is completed. In programs of 60 units, except counseling, classification must occur prior to the completion of 30 units. Failure to attain classified standing in a timely manner as outlined above may result in the loss of units to be applied toward the degree since excess units may not be listed on the Petition for Advancement to Candidacy.

## Graduate Standing - Classified

A student eligible for admission to a California State University campus in unclassified or conditionally classified standing may be admitted to an authorized graduate degree curriculum of the campus
as a classified graduate student if he or she satisfactorily meets the professional, personal, scholastic, or other standards for admission to the graduate degree curriculum including qualifying examinations, as the appropriate campus authority may prescribe.
Only those applicants who show promise of success and fitness will be admitted to master's degree curricula, and only those who continue to demonstrate a satisfactory level of scholastic competence and fitness shall be eligible to proceed in such curricula. (See also, Grade Requirements.)
Admission to classified graduate standing in a master's degree program at CSU, Fresno requires satisfactory scores on the Graduate Record Examination (GRE) Aptitude Test, or for accountancy and business students, the Graduate Management Admission Test (GMAT). Applicants for admission to the agricultural business and MPA programs may submit either GRE or GMAT scores. Check with the master's program to which you wish to apply to determine the minimum score required for you to achieve. Although some programs require a passing score in either the verbal or the quantitative portions of the GRE, students must complete all portions, including the analytical portion, of the examination. These tests, plus the advanced test, are part of a nationally standardized group of examinations prepared and scored by the Educational Testing Service and are given several times a year in various parts of the world; students taking the test at any of the testing centers may request that their scores be sent to the CSU, Fresno Testing Office. The Testing Office administers the tests on the Fresno campus. Information about dates, fees, and application procedures may be obtained from the Testing Office or the Office of the Division of Graduate Studies and Research.
GRE Aptitude Test or GMAT score reports must be on file in the CSU, Fresno Graduate Office in time for consideration along with the application for admission to graduate standing. It is necessary therefore that the appropriate test be taken well in advance of the first semester of graduate study. While the GRE Aptitude Test is a general requirement, in the absence of satisfactory test scores, departments have the option of recommending other types of diagnostic tests or substituting other measures of aptitude for those students whose records otherwise indicate probable success in graduate study.

Note: A student normally attains classified standing at admission. However, if prerequisites were assigned under conditional classification, classified standing must be attained nolater than the semester in which a student completes 10 units, including transfer and postbaccalaureate credit, to be used toward the master's degree. In 60 unit programs, counseling excepted, a limitation of 30 units is applicable. A student is expected to attain classified standing either at admission or during the first semester of studies. Candidates for classification are expected to possess a 3.0 or better grade point average in coursework undertaken for use toward the master's degree.

## Advancement to Candidacy

Classified graduate standing gives a student permission to work toward qualifying for candidacy. Advancement to candidacy gives a student permission to proceed toward qualifying for the degree and must have been attained prior to enrollment in the culminating experience (i.e., 299 thesis, 298 project, comprehensive examination). Requirements for advancement to candidacy include the following:

1. Classified graduate standing. If a student is not classified by the semester in which a maximum of 10 units to be used toward the master's degree is completed, then not more than 10 units (including transfer and postbaccalaureate credit) completed before achieving full classified standing at CSU, Fresno, may be listed on the Petition for Advancement to Candidacy. Work taken during the semester of classification is considered to be completed in classified standing and may be listed on the Petition for Advancementto Candidacy. Exception: In 60-unit programs, except counseling, the above limitation applies only to the last 30 units.
2. Completion of any additional prerequisites which the adviser specifies in writing.
3. If required, satisfactory completion of the Graduate Record Examination Advanced Test or departmental qualifying examination. The Graduate Record Examination Advanced Test in the major subject field is required of students working toward the Master of Arts degree in biology, international relations (government), psychology, and the Master of Science degrees in geology, marine sciences, mathematics, and physics. A departmental qualifying ex-
amination is required in agricultural business, art, criminology, geography, mass communication, nursing, physical education, physics (M.A.), rehabilitation counseling, speech, and city and regional planning.
4. A minimum grade point average of 3.0 (both overall and at CSU, Fresno) on all upper-division and graduate coursework from the date of embarking on the first course of the proposed master's degree program. (See also, Grade Requirements.) Those enrolling in coursework not related to the graduate degree are encouraged to request $C R / N C$ grading.
5. Satisfactory completion of the foreign language requirement for those programs having such a requirement. (See Foreign Language Requirement.)
6. Departmental recommendation for advancement to candidacy on a petition form available in the Office of the Division of Graduate Studies and Research. In making this recommendation, the department takes into account professional and personal standards as well as scholastic achievement as revealed by grades and performance on examinations. The student is responsible for ensuring that the adviser has sufficient information other than grades and scores on which to make this recommendation. On this petition form the student, in consultation with his or her adviser, lists the coherent set of courses which, when approved, will constitute his or her degree program.
7. Completion in graduate standing at CSUF of at least 9 units of the proposed program with a 3.0 average on all completed work appearing on the program.
8. Submission to the Office of the Dean, Division of Graduate Studies and Research, of the properly signed petition for advancement to candidacy. Advancement to candidacy must be attained no later than the semester (or summer) preceding the semester (or summer) in which the student applies for, and is granted, the master's degree. The student is responsible for adhering to deadlines established by the Graduate Division for the submission of Advancement forms. Approximate deadlines are October 1 (fall) and March 1 (spring). Forms received after these deadlines are considered late and will be processed as time allows. Students may not expect to be advanced to candidacy and to graduate in the same semester.
9. In keeping with the university's gradu-ate-level writing proficiency requirement, all graduate students must demonstrate their competence with regard to writing skills prior to advancement to candidacy. The department will note on the Petition for Advancement to Candidacy form the means by which the student has met the writing skills requirement. (See also University Writing Skills Requirement.) Credit earned on the undergraduate university examination assigned solely to meet this requirement may not be used on a graduate student's approved program. Certain 200 -series courses with significant assignments indicative of a successful graduate level writing proficiency may be used to meet the writing requirement. These courses, if approved, may be included on a student's program for the master's degree. For a list of courses approved for this purpose, consult either the graduate dean or the program adviser. The written departmental qualifying examination may be used to meet this requirement.

## Foreign Language Requirement

Foreign language is not a general requirement for admission to or completion of the master's degree program at California State University, Fresno.
However, for advancement to candidacy, demonstration of competence, usually equivalent to that achieved through two years of collegiate study of one foreign language, is required in specified majors in which upper-division and graduate courses demand such competence. Consult your graduate adviser or the chair of the Foreign Languages and Literatures Department for information about placement tests.
Competence in the use of a foreign language is required for advancement to candidacy for the Master of Arts degree in English, music (vocal performance and music history only). The foreign language requirement for the M.A. in International Relations is a prerequisite for graduation rather than Advancement to Candidacy. Ordinarily, the requirement calls for demonstration of the ability to read materials of the major in one appropriate foreign language. Geology and history, however, specify that a student doing a thesis involving a foreign country must have a reading knowledge of the language of that country. Curricula not specified above do not require a foreign language.

## Program Requirements

The program requirements for the Master of Arts and Master of Science degrees assume substantial undergraduate preparation in the field. See school and departmental statements in this catalog for particulars. A student lacking this preparation will find it necessary to exceed the minimum requirements indicated below.
The approved degree program for the master's degree is a coherent pattern of (1) specific requirements for the program and (2) additional courses selected to meet the student's particular needs. It consists of at least 30 units completed after the bachelor's degree and five years just preceding the granting of the master's degree. Only graduate courses ( 200 series) and such upper-division courses ( 100 series) as are recommended by the schools or departments and approved by the University Graduate Committee are acceptable on the unit requirement. Other courses are counted in calculating the student's study load, but cannot be counted toward the unit requirement for the master's degree. The approved program must be consistent with the following policies:

1. At least 21 units of the program must be CSU, Fresno, residence credit, and all units used toward the degree, must be completed within 5 years. Courses that were used to satisfy the requirements of a previous degree may not be used on the program.
a. Transfer credit may be used toward a master's degree only if the institution offering the work is accredited (A-rated) and would use it on a comparable master's degree program, and if it is judged by appropriate university authorities to be particularly relevant to the individual student's program. The student must present appropriate documentation, including official transcripts of work completed and xerographic copies from the catalog of the institution where the transfer work was taken, as follows: the relevant course description(s), evidence that the course(s) may be used toward a master's degree at that institution, the course numbering and grading systems. Extension and concurrent credit are not regularly used on master's degree programs. Concurrent enrollment is restricted to nondegree-seeking professionals and may not be used to bypass the
university fee structure. In the event that the extension course is offered under conditions similar to those for a course normally usable on a master's program, a student may request special permission to use such an extension course on his or her program. Two-hundred series courses taken through Extension count as upper-division courses when used toward the master's degree. If approved, a maximum of 9 transfer (including CSUF Extension) units may be used on a 30-unit program. Student teaching credit is not ordinarily used on master's degree programs. In unusual circumstances, if student teaching is demonstrably appropriate to a program, up to 3 units of such work may be approved by the Graduate Council.
b. Credit by Examination may be used to fulfill prerequisites, but may not apply toward the 30 units.
c. Saturday-School courses may not be used on a student's program for the master's degree.
d. Neither CAPSTONE nor undergraduate writing "W" courses may be used in fulfillment of the program requirements of the master's degree.
e. Credit for coursework earned through $C R / N C$ may not be applied toward the master's degree unless the course was designated as available for $C R / N C$ only in the Schedule of Courses when taken. A maximum of 6 units of $C R / N C$ only credit may be applied to a 30 -unit master's degree program and a maximum of 12 units of $C R / N C$ only credit may be applied to a 60-unit program. Exception: M.S.W. students may use 16 units of such credit.
f. With approval of the departmental graduate adviser, postbaccalaureate credit allowed for work taken in the semester or summer in which the baccalaureate degree is granted may be applied toward a master's degree, if it meets master's degree criteria in all respects. However, the amount of postbaccalaureate credit used toward the master's degree may not exceed one-third of the student's entire approved program.
g. Courses may not be included on the advancement to candidacy form if they do not fall within the 5-year limit. See Postbaccalaureate Credit.
h. Refer to catalog section concerning Independent Study.
2. A minimum of one-half of the courses in a student's program for the master's degree must be graduate level courses numbered in the 200 series. Most programs require more than the minimum 15 units in a 30 -unit program, or more than 30 units in a 60-unit program.
3. Normally, substitutions for regular departmental requirements must be accompanied by an adequate written justification appended to the advancement form.
4. A culminating experience is required for each master's degree. Acceptable culminating experiences include thesis, project, or comprehensive examination. Individual departments permit one or more culminating experiences described below.
a. A thesis is the written product of the systematic study of a significant problem. It clearly identifies the problem, states the major assumptions, explains the significance of the undertaking, sets forth the sources for and methods of gathering information, analyzes the data, and offers a conclusion or recommendation. The finished product must evidence originality, critical and independent thinking, appropriate organization and format, clarity of purpose, and
accurate and thorough documentation. Normally, an oral defense of the thesis will be required.
b. A project is a significant undertaking of a pursuit appropriate to the fine and applied arts or to professional fields. It must evidence originality and independent thinking, appropriate form and organization, and a rationale. It must be described and summarized in a written abstract that includes the project's significance, objectives, methodology, and a conclusion or recommendation. An oral defense of the project may be required.
c. A comprehensive examination is an assessment of the student's ability to integrate the knowledge of the area, show critical and independent thinking, and demonstrate mastery of the subject matter. The results of the examination must evidence independent thinking, appropriate organization, critical analysis, and accuracy of documentation. A record of the examination questions and responses shall be maintained.
5. It is the student's responsibility to complete the specific courses listed on his or her approved program and to assure that the Degree Clearance form has been forwarded to the Graduate Division from the department. Once a

program has been approved by the University Graduate Committee, it may be changed only on the written request of the student and his or her department or school adviser and with the approval of the dean, Division of Graduate Studies and Research. Forms for requesting such program adjustment are available in the Office of the Division of Graduate Studies and Research.

## Criteria for Thesis and Project

No academic distinction is made between a thesis and a project. Either one is equally acceptable as a means of fulfilling the requirements for the master's degree. Specific departmental instructions or requirements should, however, be ascertained by the candidate before enrollment in Course 299.
Whether a student is preparing a thesis or a project, it should be noted that quality of work accomplished is a major consideration in judging acceptability. The finished project must evidence originality, appropriate organization, clarity of purpose, critical analysis, and accuracy and completeness of documentation where needed.

Critical and independent thinking should characterize every project. Mere description, cataloging, compilation, and other superficial procedures are not adequate.
The quality of writing, format, and documentation must meet standards appropriate for publication in the scholarly journals of the field, or be consistent with the dictates of an authorized stylebook.

1. To be eligible to enroll for thesis or project, a student must have:
a. been advanced to candidacy for the master's degree
b. maintained a $\boldsymbol{B}(3.0)$ average on his or her approved program
c. completed at least 9 units of his or her approved program on the Fresno campus
d. completed any course in research techniques required by his or her major department
e. secured a thesis committee, consisting of a chair and at least two other members; for project committee requirements, the student should check with his or her department
f. secured approval of his or her thesis plan from the division or department graduate committee and filed in the Office of the Division of Graduate

Studies and Research an official thesis committee assignment form.
2. Enrollment in Thesis units may be processed during either the regular or late registration periods of any semester after the requirements (listed in " a " through " f " above) have been met or special permission for exceptions has been granted. If, however, a student fails to enroll within one semester (excluding summer sessions) after his or her official acceptance by a thesis committee, the committee chair has the option of dissolving the committee, in which case a new committee must be appointed and new forms filed before registration can be processed. A student planning to register for thesis after a break in regular session attendance must be readmitted to the university. Parallel rules apply to Project enrollment.
3. A student whose thesis work is planned to extend over more than the semester in which he or she first enrolls may select one of the following options (with the approval of his or her graduate adviser): (a) register in 299 each term the student is working on the thesis with the number of units for each registration reduced so that the total number of units accumulated in 299 does not exceed the limit set by the department; (b) register for the total number of units of 299 in one semester and complete work in subsequent semesters under Graduate Studies Continuation, a zero-unit course required for enrollment purposes; (c) option " a " supplemented by GS Continuation when the maximum number of units is attained with the thesis still incomplete. (See Continuous Enrollment.) Parallel rules apply to Project students.
4. If work in 299 is not completed at the end of the term of registration, but is progressing satisfactorily, an $\mathbb{S P}$ (Satisfactory Progress) grade is recorded. If the $S P$ grade is not replaced within two years by a letter grade, the department may require the student to re-register for the course.
5. The student and the thesis chair should set a deadline for the completion of the semifinal draft. It should be no later than seven weeks before the last day of scheduled final examinations. This date should be early enough so that the chair and the other members of the committee can clear the draft before the student must meet the thesis submission dead-
line established by the dean of the Division of Graduate Studies and Research. The latter deadlines are approximately November 1 (fall), April 1 (spring), and June 1 (summer).
6. Before a thesis is officially accepted by the Graduate Division, it must meet Graduate Division criteria on matters of format, documentation, and quality of writing. The semifinal draft, signed by the thesis committee members as acceptable and ready for final typing should be submitted to the Office of the Division of Graduate Studies and Research at least six weeks before the last day of scheduled final examinations.
This deadline has been set as late as possible in the semester to accommodate the student; late manuscripts will be accepted, but the student runs the risk of a delay in the granting of the degree and may be requested to reapply for the degree to be granted in a subsequent semester (or summer). Students are urged to follow meticulously Guidelines for Thesis Preparation; copies are available in the Kennel Bookstore.
7. The final thesis (an original for microfilming and two photocopies) signed by the thesis committee and ready for binding, together with the school or departmental clearance and a receipt for the binding and microfilming fee (payable in the California State University, Fresno Association office) must be submitted to the Office of the Division of Graduate Studies and Research, before the last day assigned by the thesis consultant. The original copy will be bound with the other copies if so desired, with payment of the required fee.

## Continuous Enrollment

It is the policy of the Division of Graduate Studies and Research that a graduate student must be enrolled at the university if university faculty, library, or laboratory resources are used while completing a grade of $S P$ in either thesis or project, an $S P$ or $I$ in any other course, or while preparing to take a comprehensive examination. This policy does not apply when the student is enrolled in any regular session course for a letter grade. To otherwise maintain enrollment as required, a student enrolls in Graduate Studies Continuation through Extended Education or in GS 299 through regular (university) enrollment. In either case, the student may obtain further information from the Graduate Division. A student who must suspend work for more
than one semester on the thesis or other courses in which the grade was given should apply for a planned educational leave of absence. The continuous enrollment policy applies during three terms: fall, spring, and summer. Students must accomplish such enrollment prior to the end of the second week of the term. (See also Other Graduate Curricula - Graduate Studies and Planned Educational Leave of Absence.)

## Time Limitations and Validation

A period of five years is allowed for the completion of all requirements for the master's degree. This time limit is indicated for each student on the approved advancement to candidacy form. A student whose program has been interrupted by military service should consult the dean of the Division of Graduate Studies and Research about provisions for military extensions. Outdated coursework will not be approved for inclusion on the Petition for Advancement to Candidacy at the time formal approval is granted to the petition. Those courses completed more than five years before the date for completion of all requirements for the master's degree cannot be used to meet total unit requirements except through validation as follows:
Out of date coursework may only be validated if such work has been previously approved on this Petition for Advancement to Candidacy. A maximum of one-third of required degree units may thus be validated by such means as are recommended by the department and approved by the graduate dean.

## Grade Requirements

All graduate students will be held to the scholarship standards listed under Academic Regulations. The following provisions also apply to master's degree programs.
A student admitted to a master's degree program in conditional classified or classified standing is required to maintain a minimum grade point average of $\boldsymbol{B}$ on all work taken subsequent to admission to the program.

No course with a grade below $C$ may apply on an approved program for the master's degree.
To be eligible for advancement to candidacy, a student must have earned at least a $B$ average (both overall and at CSU, Fresno) on all coursework completed after the date of embarking on the first course to be included in the master's degree program.
To be eligible for enrollment in the thesis or project, a student must have been advanced to candidacy and must have maintained a minimum grade point average of $B$ on his or her approved program.
To be eligible for the granting of the master's degree, a student must have maintained a $\mathbb{B}$ average on his or her complete approved program as well as on all courses after and including the first semester's work on the program. Any grade earned in a course on the approved program continues to figure in the grade point average, even if that course is for any reason later dropped from the program.
To be eligible to receive the master's degree with distinction, a student must have earned at least a 3.9 grade point average on all coursework taken from the first semester of the approved master's degree program. A minimum GPA of 3.9 must also be attained on the approved program to qualify.

## Appeals and Petitions

Graduate (master's degree) students wishing torequest substitutions or modifications in a department's degree requirements should initiate their request through the department'sgraduatecommittee. Requests for exceptions to established university policies governing graduate study may be addressed to the dean, Division of Graduate Studies and Research and also to the University Graduate Committee. Grade protests must be submitted to the Student Academic Petitions Committee through the director of advising services according to university policy. Information concerning grade protest procedures is available in the Office of the Vice President and Dean of Student Affairs.

## Request That Master's Degree Be Granted

A request that the master's degree be granted (which includes the graduation fee payable in the Business Office) must be filed in the first two weeks of the semester in which the work is to be completed. In addition, applicants must be enrolled (See Continuous Enrollment). During the summer, the request should be filed before the end of the first week of the first session. (See Academic Calendar and Fees and Expenses in this catalog, and the Schedule of Courses.) Application forms are available in the Student Records and Evaluations Office. Prior to filing a request for the master's degree to be granted, the student should check with the graduate committee chair of the master's program concerned in order to ensure that all program requirements have been, or will soon be, completed. Diplomas for those completing degree requirements during summer sessions and at midyear will be awarded approximately four to six months after the end of the term.
Failure to complete requirements for the degree during the semester (or summer) of the application necessitates the filing of a new application, including a reapplication fee, for the semester of actual completion. Such reapplication is subject to the same time schedule as the original application.

## COURSE

Graduate Studies (G S)

## 300T. Topics in Graduate

## Studies and Research (1-3)

Topics related to the nature of graduate education, to the purpose and background of research and scholarly activity in the graduate enterprise, including participation in aspects of ongoing research conducted by faculty.

## Privacy Rights of Students in Education Records

The Federal Family Educational Rights and Privacy Act of 1974 (20 U.S.C. 1232g) and regulations adopted thereunder (34 C.F.R. 99) and California Education Code Section 67100 etseq., set outrequirements designed to protect the privacy of students concerning their education records maintained by the campus.
Specifically, the statute and regulations govern access to student records maintained by the campus and the release of such records. In brief, the law provides that the campus must provide students access to records directly related to the student and an opportunity for a hearing to challenge such records on the grounds that they are inaccurate, misleading, or otherwise inappropriate. The right to a hearing under the law does not include any right to challenge the appropriateness of a grade as determined by the instructor. The law generally requires that written consent of the student be received before releasing personally identifiable data about the student from records to other than a specified list of exceptions. The institution has adopted a set of policies and procedures concerning implementation of the statutes and the regulations on the campus. Copies of these policies and procedures may be obtained at the Office of the Vice President and Dean of Student Affairs.
Among the types of information included in the campus statement of policies and procedures are: 1) the types of student records and the information contained therein; 2) the official responsible for the maintenance of each type of record; 3) the location of access lists that indicate persons requesting or receiving information from the record; 4) policies for reviewing and expunging records; 5) the access rights of students; 6) the procedures for challenging the content of student records; 7) the cost that is charged for reproducing copies of records; and 8) the right of the student to file a complaint with the Department of Education.
An office and review board have been established by the department to investigate and adjudicate violations and complaints. The office designated for this purpose is: The Family Educational Rights and Privacy Act Office (FERPA), U.S. Department of Education, 330 C Street, Room 4511, Washington, D.C. 20202.

The campus is authorized under the Act to release public "directory information" concerning students. "Directory information" includes the student's name, address, telephone listing, date and place of birth, major field of study, participation in officially recognized activities and sports, weight and height of members of athletic teams, dates of attendance, degrees and awards received, and the most recent previous educational agency or institution attended by the student.
The above designated information is subject to release by the campus at any time unless the campus has received prior written objection from the student specifying information that the student request not be released. Written objections should be sent to the Office of Admissions.
The campus is authorized to provide access to student records to campus officials and employees who have legitimate educational interests in such access. These persons have responsibilities in connection with the campus' academic, administrative or service functions and who have reason for using student records connected with their campus or other related academic responsibilities. Disclosure may also be made to other persons or organizations under certain conditions (e.g., as part of accreditation or program evaluation; in response to a court order or subpoena; in connection with financial aid; to other institutions to which the student is transferring.
Use of Social Security Number. Applicants are required to include their Social Security number in designated places on applications for admission pursuant to the authority contained in Title 5, California Code of Regulations, Section 41201. The Social Security number is used as a means of identifying records pertaining to the student as well as identifying the student for purposes of financial aid eligibility and disbursement and the repayment of financial aid and other debts payable to the institution.

## Research on Human Subjects

CSU, Fresno has adopted provisions for the conduct of research that employs or influences humans. All research at the university must comply with these provisions. Students must familiarize themselves with the provisions by inquiring in the departmental offices or the office of the dean of their school.

## Measles and Rubella Immunizations Health Screening Provisions

The campus shall notify certain students, born after January 1, 1957, of the CSU requirement to present proof of measles and rubella immunizations by the beginning of the next term of enrollment. This is not an admissions requirement but shall be required of students at the beginning of their second term of enrollment. Proof of measles and rubella immunizations shall also be required for certain groups of enrolled students who have increased exposure to these diseases. Those so notified who have not presented acceptable proof of the immunizations shall be notified further of the need to comply before receiving registration materials to enroll for the succeeding term.
Persons subject to these health screening provisions include: new students enrolling fall 1987 and later; readmitted students reenrolling fall 1987 and later; students who reside in campus residence halls; students who obtained their primary and secondary schooling outside the United States; students enrolled in dietetics, medical technology, nursing, physical therapy, and any practicum, student teaching, or fieldworkinvolving preschool-age children, school-age children, or taking place in a hospital or health care setting. The Student Health Center provides immunizations without cost to those students unable to obtain acceptable proof of immunizations.

## Nondiscrimination Policy

Sex. The California State University does not discriminate on the basis of sex in the educational programs or activities it conducts. Title IX of the Education Amendments of 1972, as amended, and the administrative regulations adopted thereunder prohibit discrimination on the basis of sex in education programs and activities operated by CSU, Fresno. Such programs and activities include admission of students and employment. Inquiries concerning the application of Title IX to programs and activities of CSU, Fresno may be referred to the affirmative action coordinator (employmentmatters) or the Office of the Vice President and Dean of Student Affairs (student matters), the campus officer(s) assigned the administrative responsibility of reviewing such matters or to the Regional Director of the Office of Civil Rights, Region 9, 221 Main Street, 10th Floor, San Francisco, California 94105.

Sexual Harassment. Discrimination on the basis of sex is prohibited by Title VII
of the Civil Rights Act as well as Title IX of the Education Act. Sexual harassment is a violation of Section 703 of Title VII. Sexual harassment refers to the unwanted imposition of sexual attention usually in the context of a relationship of unequal power, rank, or status, as well as the use of one's position of authority in the university to bestow benefits or impose deprivations on another. This applies equally to all students, staff, faculty, and administrators at CSU, Fresno. Harassment includes verbal, nonverbal, and/or physical conduct that has the intent or effect of unreasonable interference with individuals' or groups ${ }^{\prime}$ education or work performance. This may also include actions that create an intimidating, hostile, or offensive working or learning environment. Both men and women canbethevictims ofsexual harassment.
Students who believe they are a victim of sexual harassment should contact Carol Munshower, the individual designated by the university president to review student complaints. She can explain the informal and/or formal complaint procedures available to students on our campus. Should you have concerns related to sexual harassment, please contact Carol Munshower, Joyal Administration Building, Room 211, phone (209) 278-2782.
Handicap. The California State University does not discriminate on the basis of handicap in admission or access to, or treatment or employment in, its programs and activities. Section 504 of the Rehabilitation Act of 1973, as amended, and the regulations adopted thereunder prohibit such discrimination. The director of institutional research has been designated to coordinate the efforts of CSU, Fresno to comply with the act and its implementing regulations. Inquiries concerning compliance may be addressed to Dr. Harold L. Best, Thomas Administration Building, Room 105, phone (209) 278-3906.
Race, Color, or National Origin. The California State University complies with the requirements of Title VI of the Civil Rights Act of 1964 and the regulations adopted thereunder. No person shall, on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program of The California State University.
Age, Marital Status, Religion, or Sexual Preference. The California State University does not discriminate on the basis of age, marital status, religion, or sexual preference.

## Student Discipline

Inappropriate conduct by students or by applicants for admission is subject to discipline as provided in Sections 41301 through 41304 of Title 5, California Code of Regulations. These sections are:
Article 1.1, Title 5, California Code of Regulations
41301. Expulsion, Suspension, and Probation of Students. Following procedures consonant with due process established pursuant to Section 41304, any student of a campus may be expelled, suspended, placed on probation, or given a lesser sanction for one or more of the following causes which must be campus related:
a. Cheating or plagiarism in connection with an academic program at a campus
b. Forgery, alteration, or misuse of campus documents, records, or identification or knowingly furnishing false information to a campus
c. Misrepresentation of oneself or of an organization to be an agent of a campus
d. Obstruction or disruption, on or off campus property, of the campus educational process, administrative process or other campus function
e. Physical abuse on or off campus property of the person or property of any member of the campus community or of members of his or her family or the threat of such physical abuse
f. Theft of, or nonaccidental damage to, campus property or property in the possession of, or owned by, a member of the campus community
g. Unauthorized entry into, unauthorized use of or misuse of campus property
h. On campus property, the sale or knowing possession of dangerous drugs, restricted dangerous drugs or narcotics as those terms are used in California statutes, except when lawfully prescribed pursuant to medical or dental care, or when lawfully permitted for the purpose of research, instruction, or analysis
i. Knowing possession or use of explosives, dangerous chemicals or deadly weapons on campus property or at a campus function without prior authorization of the campus president
j. Engaging in lewd, indecent, or obscene behavior on campus property or at a campus function
k. Abusive behavior directed toward, or hazing of, a member of the campus community

1. Violation of any order of a campus president, notice of which had been given
prior to such violation and during the academic term in which the violation occurs, either by publication in the campus newspaper, or by posting on an official bulletin board designated for this purpose, and which order is not inconsistent with any of the other provisions of this Section.
m . Soliciting or assisting another to do any act which would subject a student to expulsion, suspension, or probation pursuant to this Section.
n. For purposes of this Article, the following terms are defined:
2. The term "member of the campus community" is defined as meaning California State University trustees, academic, nonacademic, and administrative personnel, students, and other persons while such other persons are on campus property or at a campus function.
3. The term "campus property" includes:
A. real or personal property in the possession of, or under the control of, the Board of Trustees of the California State University, and
B. all campus feeding, retail, or residence facilities whether operated by a campus or by a campus auxiliary organization.
4. The term "deadly weapons" includes any instrument or weapon of the kind commonly known as a blackjack, slingshot, billy, sandclub, sandbag, metal knuckles, any dirk, dagger, switchblade knife, pistol, revolver, or any other firearm, any knife having a blade longer than five inches, any razor with an unguarded blade, and any metal pipe or bar used or intended to be used as a club.
5. The term "behavior" includes conduct and expression.
6. The term "hazing" means any method of initiation into a student organization or any pastime or amusement engaged in with regard to such an organization which causes, or is likely to cause, bodily danger, or physical or emotional harm, to any member of the campus community; but the term "hazing" does not include customary athletic events or other similar contests or competitions.
o. This Section is not adopted pursuant to Education Code Section 89031.
p. Notwithstanding any amendment or repeal pursuant to the resolution by which any provision of this Article is amended, all acts and omissions occurring prior to that effective date shall be subject to the provisions of this Article as in effect immediately prior to such effective date.
7. Disposition of Fees: Interim Suspension; Campus Emergency. The president of the campus may place on probation, suspend, or expel a student for one or more of the causes enumerated in Section 41301 . No fees or tuition paid by or for such student for the semester, quarter, or summer session in which he or she is suspended or expelled shall be refunded. If the student is readmitted before the close of the semester, quarter, or summer session in which he or she is suspended, no additional tuition or fees shall be required of the student on account of the suspension.
The president may immediately impose an interim suspension in all cases in which there is reasonable cause to believe that such an immediate suspension is required in order to protect lives or property and to ensure the maintenance of order. A student so placed on interim suspension shall be given prompt notice of charges and the opportunity for a hearing within 10 days of the imposition of interim suspension. During the period of interim suspension, the student shall not, without prior written permission of the president or designated representative, enter any campus of the California State University other than to attend the hearing. Violation of any condition of interim suspension shall be grounds for expulsion.
During periods of campus emergency, as determined by the president of the individual campus, the president may, after consultation with the chancellor, place into immediate effect any emergency regulations, procedures, and other measures deemed necessary or appropriate to meet the emergency, safeguard persons and property, and maintain educational activities.
8. Conduct by Applicants for Admission. Notwithstanding any provision in this Chapter 1 to the contrary, admission or readmission may be qualified or denied to any person who, while not enrolled as a student, commits acts which, were he or she enrolled as a student, would be the basis for disciplinary proceedings pursuant to Sections 41301 or 41302 . Admission or readmission may be qualified or denied to any person who, while a student,
commits acts which are subject to disciplinary action pursuant to Section 41301 or Section 41302. Qualified admission or denial of admission in such cases shall be determined under procedures adopted pursuant to Section 41304.
9. Student Disciplinary Procedures for the California State University. The chancellor shall prescribe, and may from time to time revise, a code of student disciplinary procedures for the California State University. Subject to other applicable law, this code shall provide for determinations of fact and sanctions to be applied for conduct which is a ground of discipline under Sections 41301 or 41302 , and for qualified admission or denial of admission under Section 41303; the authority of the campus president in such matters conduct related determinations on financial aid eligibility and termination; alternative kinds of proceedings, including proceedings conducted by a Hearing Officer; time limitations; notice; conduct of hearings, including provisions governing evidence, a record and review; and such other related matters as may be appropriate. The chancellor shall report to the Board actions taken under this section.

## Cheating and Plagiarism

Cheating. Cheating is the practice of fraudulent or deceptive acts for the purpose of improving a grade or obtaining course credit. Typically, such acts occur in relation to examinations. It is the intent of this definition that the term cheating not be limited to examinations situations only, but that it include any and all actions by a student that are intended to gain an unearned academic advantage by fraudulent or deceptive means.
Plagiarism. Plagiarism is a specific form of cheating that consists of the misuse of the published and/or unpublished works of another by representing the material so used, as one's own work.

## Career Placement Policy

The Career Development and Employment Services Office may furnish, upon request, information about the employment of students who graduate from programs or courses of study preparing students for a particular career field. This information includes data concerning the average starting salary and the percentage of previously enrolled students who obtained employment. The information may include data collected from either graduates of the campus or graduates of all campuses in The California State University.

Moses E. "Maurice" Cohen CSU, Fresno's Outstanding Professor for 1991

## FACULTY AND ADMINISTRATION INDEX

# Faculty and Administration 1990-91 

Note: Numbers in parentheses indicate year of appointment at California State University, Fresno.

HAAK, HAROLD H., President (1980)
Professor, Department of Political Science B.A., M.A., University of Wisconsin; Ph.D., Princeton University.

ABHOLD, RAYMOND H. (1989)
Associate Professor, Department of Biology B.S., University of Washington; M.S., Ph.D., Rutgers University, New Brunswick.

ABRAMSON, SHAREEN (1981)
Professor, Department of Literacy and Early Education
B.A., University of California, Los Angeles;
M.A., Antioch University;

Ph.D., Vanderbilt University.
ADAMS, CORA M. (1986)
Professor, Department of Social Work Education; Field Coordinator B.A., California State University, Sacramento; M.S.W., D.S.W., University of Utah.
ADAMS, KATHERINE L. (1983)
Associate Professor,
Department of Speech Communication
B.S., M.A., University of Wyoming;

Ph.D., University of Utah.
ADAMS, PAUL D. (1987)
Associate Professor, Chair,
Department of Journalism
B.A., University of Oklahoma, Norman;
M.A., Ph.D., University of Texas at Austin.

ADAMS, R. C. (1965)
Professor, Chair,
Department of Telecommunications B.A., Idaho State College; M.A., Ph.D., University of Oregon.

ADRIAN, MERLE S. (1973)
Professor, Department of Industrial Technology
B.S., M.A., California State University, Fresno; Ed.D., University of Southern California.

AGUILAR-GAXIOLA, SERGIO (1990)
Associate Professor, Department of Psychology M.D., University of Guadalajara (Mexico); M.S., Ph.D., Vanderbilt University; Licensed Psychologist.
AIIKEN, JOYCE B.
(1956-58; Spring 1962)
Professor, Department of Art
B.A., M.A., California State University, Fresno.

ALAMELDIN, TAREK K. (1990)
Lecturer, Department of Computer Science
B.S., Ain Shams University, Cairo, (Egypt); M.S., Columbia University.

ALDREDGE, JAMES E. (1990) Associate Professor,
Department of Social Work Education B.S., M.P.A., California State University, Fresno; Ph.D., University of Southern California.
ALDRICH, KENNETH R. (1988)
Lecturer, Department of Physical Education and Human Performance B.A., California State University, San Bernardino; M.A., University of Oregon.
ALDRICH, LESLIE L. (1955)
Professor, Department of
Industrial Technology
B.A., Willamette University;
M.A., Oregon State College.

ALFORD LYNN C. (1988)
Assistant Professor, Department of
Counseling and Special Education
B.A., M.A.T., Rockford College;

Ed.D., University of Northern Colorado.
ALI, MIR K. (1968)
Professor, Department of Mathematics B.S., M.A., Osmania University; M.S., Montana State University; Ph.D., Washington State University.
ALLEN, KATHLEEN R. (1981)
Lecturer, Department of Information
Systems and Decision Sciences
B.A., California State University, Fresno;
M.A., University of California, Los Angeles.

ALLENDER, JUDITH A. (1987)
Lecturer, Department of Nursing B.S., State University of New York at Plattsburgh; M.Ed., Xavier University; M.S.N., Wright State University.

ALLISON, ROBERT J. (1967)
Professor, Department of Economics B.A., M.S., Ph.D., University of Colorado.

ALVARADO, ANDREW J. (1978)
Professor, Department of
Social Work Education
B.S., M.S.W., California State University, Fresno; Ed.D., University of California, Los Angeles.

AMARAL, JACINTA (1988)
Associate Professor, Department of Foreign Languages and Literatures
B.A., Wells College; M.A., New York

University; Ph.D., Yale University.
AMARAL, PEDRO (1987)
Associate Professor, Department of Philosophy B.A., Ph.D., University of Pittsburgh.

ANDERSON, AUDREY SPRINGS (1987)
Dean, Division of Extended Education;
Professor, Department of Child,
Family, and Consumer Sciences
B.S., M.S., Ed.D., Northern Illinois University.
ANDERSON, DAVID C. (1966)
Professor, Department of Management B.S., M.S., West Virginia University; D.B.A., Georgia State University.

ANDERSON, LAWRENCE L. (1971)
Professor, Department of Art
B.A., M.A., San Jose State College.

ANDERSON, R. GENE (1970)
Professor, Department of
Speech Communication
B.A., M.A., Baylor University;

Ph.D., University of Colorado.
ANDERSON, RANDY J. (1982)
Professor, Department of Information Systems and Decision Sciences
B.S., M.A., Arizona State University;

Ph.D., North Texas State University.
ANDERSON, TIMOTHY R. (1983)
Professor, Department of Physical
Education and Human Performance
B.A., M.S., Ed.D., University of Kentucky.

ANDERSON, WILLIAM K. (1985)
Lecturer, Department of Civil
and Surveying Engineering
B.S., California State University, Fresno.

ARCE, GINA (1957)
Professor, Department of Biology
B.A., M.A., George Peabody College;

Ph.D., Vanderbilt University.
ARNDT, J. RICHARD (1973)
Director, Advising and Testing Services B.S., Wheaton College; M.S., Ed.M., Oregon State University; Ph.D., Michigan State University.
ARNOLD, ROBERT F. (1968)
Professor, Chair, Department of Mathematics
B.S., M.A., California State University,

Fresno; Ph.D., University of California, Berkeley.

ARPAD, SUSAN S. (1986)
Professor, Coordinator,
Women's Studies Program
B.A., Tulane University;
M.A., Ph.D., University of Delaware.

ASAHINA, ROBERTA REESE (1984)
Professor, Department of Journalism B.A., M.A., University of Utah; Ph.D., Tufts University.
ATWOOD, RITA ANN (1987) Professor, Department of Telecommunications B.A., M.A., California State University, Fresno; Ph.D., University of Washington, Seattle.
AU, TONY M. (1985)
Professor, Department of Industrial Technology B.S., National Taiwan Normal University; M.S., University of Wisconsin, Stout; Ph.D., University of Minnesota.
AUERNHEIMER, BRENT J.
(Spring 1986)
Associate Professor,
Department of Computer Science B.A., M.S., Ph.D., University of California, Santa Barbara.

AVENT, CAROL L. (1966)
Professor, Department of Nursing
B.A., Boston University;
M.S., University of Colorado.

AVENT, JON C. (1965)
Professor, Department of Geology
B.S., University of Colorado;
M.S., Ph.D., University of Washington.

AYCOCK, LINNEA M. (1983)
Associate Professor, Department of English B.A., M.A., California State University, Fresno; Ph.D., University of Iowa.
AYER, SALLY L. (1971)
Professor, Department of Physical Education and Human Performance B.A., Colorado State College; M.A., Northern Arizona University; Ed.D., University of Utah.

BACA, MARIO L. M. (1983)
Associate Professor, Department of Curriculum, Teaching, and Educational Technology
B.S.Ed., University of New Mexico; M.A., University of Washington; Ph.D., University of New Mexico.

BACKER, RICHARD L. (1989)
Director, Admission, Records, Evaluations B.S., Slippery Rock State College;
M.S., Long Island University;

Ph.D., Kent State University.
BACON, CONSTANCE C. (1983)
Associate Professor,
Department of Speech Communication B.S., Georgia State University; M.A., Auburn University; Ph.D., University of Oklahoma.

BADR, SYED A. (1970)
Professor, Department of Plant
Science and Mechanized Agriculture
B.S., Ain-Shams University (Egypt); M.S.,

Ph.D., University of California, Davis.
BAKER, DENNIS M. (1984)
Professor, Chair, Department of Accountancy
B.S., California State University, Fresno;

Ph.D., University of California,
Los Angeles; C.P.A.
BALDIS, BETTE J. (1971)
Associate Professor,
Department of Communicative Disorders
B.Ed., M.S., Illinois State University.

BALDWIN, TRACEY J. (1990)
Lecturer, Department of
Communicative Disorders
B.A., University of Tennessee; M.A., Memphis State University.
BALLARD, O. DUANE, JR. (1968)
Professor, Department of Physical Education and Human Performance B.S., M.S., Brigham Young University; R.P.T., Stanford University.

## BALTRA, ARMANDO (1987)

Associate Professor, Department of Linguistics B.A., University of Chile; M.S., Edinburgh University; Ph.D., Catholic University of Sao Paulo (Brazil).

BANAZAK, JOHN D. (1990)
Director, Computer Integrated
Manufacturing Institute
B.A., Purdue University; M.A., Governors State University (Illinois).
BARABAS, ARTHUR H. (1983)
Professor, Department of Geology
A.B., Princeton University;
M.Phil., Ph.D., Yale University.

BARNES, THEA N. (Spring 1991)
Lecturer, Department of Theatre Arts
B.F.A., Julliard School.

BARTA, JOHN M. (1968)
Professor, Department of Foreign
Languages and Literatures
B.A., M.A., Ph.D., University of California, Los Angeles.

BASDEN, BARBARA H. (1973)
Professor, Department of Psychology B.A., College of Idaho; Ph.D., University of California, Santa Barbara.

BASDEN, DAVID R. (1969)
Professor, Department of Psychology B.A., College of Idaho; Ph.D., University of California, Santa Barbara.
BASS DE MARTINEZ, BERNICE (1987)
Professor, Chair, Department of Curriculum, Teaching, and Educational Technology B.A., M.A., University of Northern Colorado; Ph.D., University of Florida.

BATHURST, LEONARD H., JR. (1954)
Professor, Department of Curriculum,
Teaching, and Educational Technology
B.A., M.Ed., Ed.D., Pennsylvania State

University.
BATISTA, JUAN C. (1986)
Associate Professor,
Department of Agricultural Economics
B.A., California State University,

Humboldt; M.S., Ph.D., Cornell
University.
BATTENBURG, JOSEPH R. (1981)
Professor, Department of Mechanical and Industrial Engineering
B.S., Andrews University; B.S.E., University of Michigan, Ann Arbor; M.S.E., University of Southern California; Ph.D., University of Wisconsin, Madison.
BEACH, PHILIIP F. (1964)
Professor, Chair,
Department of Political Science
B.A., University of Washington;
M.A., Ph.D., Northwestern University.

BEAMAN, M. TERESA (1986)
Associate Professor, Department of Music B.A., Yale College; M.M., Yale University School of Music; D.M.A., State University of New York at Stony Brook.
BEDARD, MARCIA (1987)
Associate Professor, Women's Studies Program
B.A., Saint Mary's College of California;
M.A., University of San Francisco;

Ph.D., The Fielding Institute.
BELL, KAREN R. (1987)
Associate Professor, Department of Philosophy A.B., Boston University; M.A., M.Phil., Ph.D., University of Kansas.
BENAVIDES, OTTO (1990)
Associate Professor,
Department of Curriculum, Teaching, and Educational Technology
B.A., Universidad La Gran Columbia;
M.Ed., Ed.S., Northeast Louisiana

University.
BENKO, STEPHEN A. (1969)
Professor, Department of History
B.D., Theological Academy, Budapest;

Ph.D., University of Basel (Switzerland).
BENNETT, BOB G. (1969)
Head Baseball Coach,
Department of Athletics
A.B., M.A., California State University, Fresno.

BENNINGA, JACQUES S. (1983)
Professor, Chair,
Department of Literacy and Early Education
B.A., University of North Carolina;
M.A., Ph.D., George Peabody College
for Teachers.

BENTZ, MARGRETHA M. (1990)
Lecturer, Department of Mathematics
B.A., Wartburg College;
M.A., Cornell University.

BERGMANN, RALPH H. (1979)
Professor, Department of Management B.A., Cornell University; Ph.D., Massachusetts Institute of Technology.
BERINGSON, DONALD L. (1983)
Professor, Department of Information Systems and Decision Sciences B.S., M.S., Ph.D., University of North Dakota.

BERLINER, ANN E. (1984)
Associate Professor, Department of Philosophy B.A., Goddard College; M.A., California State University, Sonoma; Ph.D., Graduate Theological Union.
BERNTHAL, CRAIG A. (1988)
Assistant Professor, Department of English B.S., B.A., Michigan State University; J.D., University of Washington; Ph.D., Michigan State University.
BERRETT, RICHARD D. (1969)
Professor, Department of Child, Family, and Consumer Sciences B.S., M.S., Brigham Young University; Ph.D., Florida State University.

BEST, HAROLD L. (1970)
Director of Institutional Research; Professor, Department of Management B.A., M.A., Ph.D., George Washington University; Licensed Psychologist.

BEST, JOEL (1970)
Professor, Department of Sociology B.A., M.A., University of Minnesota; M.A., Ph.D., University of California, Berkeley.

BETANCOURT, RAUL (1972)
Professor, Department of Psychology B.A., California State College, Hayward; M.A., Ph.D., University of California, Berkeley.

BETTS, CHRIS (1980)
Professor, Department of Management B.A., M.B.A., University of New Mexico; Ph.D., University of Houston.

BEZAYIFF, DAVID A. (1986)
Director, Developmental
Learning Resource Center
B.A., California State University, Fresno;
M.A., University of Washington.

BHANGOO, MAHENDRA S. (1976)
Professor, Department of Plant
Science and Mechanized Agriculture
B.S., Agra University (India);
M.S., University of California, Los Angeles; Ph.D., Kansas State University.

BIACINDO KATHRYN J. (1989)
Assistant Professor,
Department of Educational Research, Administration, and Foundations B.A., M.Ed., Ed.D., Rutgers University.

BIECHLER, MICHAEL J. (1970)
Associate Vice President for Academic Affairs - Academic Personnel; Professor, Department of Geography B.S., Eau Claire State University; M.A., Ph.D., Michigan State University.

BILDERBACK, D. LOY (1962)
Professor, Department of History
B.A., M.A., University of Kansas;

Ph.D., University of Washington.
BIRCH, BARBARA (1990)
Assistant Professor, Department of Linguistics B.A., M.A., Ph.D., University of WisconsinMadison.

## BIRELINE, ARLENE (1985)

Director, Reentry Program
B.A., California State College, Stanislaus; M.A., Chapman College.

BISSONNETTE, PAUL E. (1972)
Assistant Vice President of Administration and External Relations; Director of Physical Development and Planning
B.A., San Diego State University; M.P.A., University of San Francisco.

BITONTI, CHRISTINE M. (1990)
Assistant Professor,
Department of Social Work Education B.A., California State University, Long Beach; M.S.W., West Virginia University; Ph.D., University of Denver.
BJERK, ROGER C. (1969)
Professor, Department of History B.A., Pacific Lutheran University; M.A., Ph.D., Washington State University.

BLACK, KELLY J. (1978)
Professor, Department of Information Systems and Decision Sciences B.A., Brigham Young University; M.A., Ph.D., University of Southern California.

BLACKERBY, BRUCE A. (1963)
Professor, Department of Geology B.A., University of California, Riverside; Ph.D., University of California, Los Angeles.
BLAKELEY, DONALD N. (1989)
Associate Professor, Department of Philosophy B.A., California State University, Fresno; M.A., Ph.D., University of Hawaii.

BLANTON, RONALD L. (1965)
Professor, Department of
Industrial Technology
B.A., M.A., California State University, Fresno.

BLIELE, NANCY (1987)
Physician, Student Health Center
B.A., University of California, San Diego;
M.P.H., University of California, Berkeley;
M.D., University of Ca1ifornia,

San Francisco.
BLOMGREN, GLEN H. (1962)
Professor, Department of
Industrial Technology
B.A., M.A., California State University, Fresno; Ed.D., University of California, Los Angeles.

BLOOM, MELANIE M. (1985)
Assistant Professor,
Department of Speech Communication B.A., Wayne State University; M.A., Ph.D., Ohio University.
BLOOM, VINCENT L. (1970)
Professor, Department of
Speech Communication
B.A., Bethel College; M.A., Colorado State College; Ph.D., Ohio University.
BLUEM, JOHN R. (1984)
Head Soccer Coach, Department of Athletics
B.A. (History), Hartwick College;
B.S. (Sec. Education), Ohio State

University; M.A., University of Akron.
BLUESTEIN, GENE (1963)
Professor, Department of English
B.A., Brooklyn College;
M.A., Ph.D., University of Minnesota.

BLUESTONE, SYDNEY (1963)
Professor, Department of Chemistry
B.S., Brooklyn College;

Ph.D., Rutgers University.
BOCHIN, HAL W. (1969)
Professor, Department of
Speech Communication
B.S., John Carroll University;
M.A., University of Wisconsin;

Ph.D., Indiana University.
BOCHIN, JANET S. (Spring 1973)
Associate Librarian, Acquisitions Department
B.M., M.L.S., University of Texas at Austin; M.A., California State University, Fresno.

BOHLIN, ROY M. (1990)
Assistant Professor,
Department of Curriculum, Teaching, and Educational Technology
B.S., M.Ed., Ph.D., Kent State University.

BOHNSTEDT, JOHN W. (1956)
Professor, Department of History
B.A., Michigan State University;
M.A., Ph.D., University of Minnesota.

BONHAM, CLIFFORD V. (1964)
Professor, Department of
Social Work Education
B.A., M.S.W., University of California, Berkeley.

BOTTINI, DAVID M. (1983)
Lecturer, Department of Art
B.A., M.A., California State University, San Jose.
BOTWIN, MICHAEL D. (1990) Assistant Professor, Department of Psychology B.A., Oakland University (Michigan);

Ph.D., University of Michigan, Ann Arbor.
BOWDEN, SHIRLEY J. (1968)
Professor, Department of Enology, Food Science, and Nutrition
B.S., University of California, Los Angeles; Dietetic Internship, Johns Hopkins Hospital; M.S., California State University, Fresno; Ph.D., Oregon State University; Registered Dietitian.
BOWEN, THOMAS G. (1969)
Professor, Department of Anthropology
B.A., Grinnell College;
M.A., Ph.D., University of Colorado.

BOWEN, WAYNE S. (1964)
Professor, Department of Foreign
Languages and Literatures
B.A., Ohio State University;
M.A., Emory University, Georgia;

Ph.D., Ohio State University.
BOWERMAN, EARL H. (1979)
Professor, Department of Plant Science and Mechanized Agriculture B.S.A., M.S., University of Arkansas; Ph.D., Rutgers University, New Brunswick.
BOWERMAN, KAREN D. (1979)
Professor, Department of Management
B.A., Wichita State University;
M.A., Kansas University;

Ph.D., Texas A \& M University.
BOYLE, THOMAS P. (1972)
Associate Dean of Student Affairs
B.A., M.A., University of California, Santa Barbara; Ed.D., Brigham Young University.
BRADY, ROLAND H. (Spring 1986)
Associate Professor, Department of Geology
B.S., Sonoma State University; Ph.D., University of California, Davis.
BRAHMA, CHANDRA S. (1980)
Professor, Department of Civil and Surveying Engineering
B.S., Calcutta University; M.S., Michigan State University;

Ph.D., Ohio State University; Registered Professional Engineer.
BREEN, THOMAS E. (1966)
Professor, Department of Psychology B.S., University of Illinois; M.A., Ph.D., Louisiana State University.

BREMEL, DAVID H. (Spring 1985)
Professor, Department of Animal Sciences and Agricultural Education B.S., University of Minnesota of Minneapolis-Saint Paul; M.S., Ph.D., University of Kentucky.
BRENGELMAN, FREDERICK H. (1957)
Professor, Department of Linguistics
B.A., Dana College;
M.A., University of Nebraska;

Ph.D., University of Washington.
BRETT, ALAN J. (1990)
Lecturer, Department of Music
L.T.C.L., F.T.C.C., Trinity College of Music, London.
BREWER, HOWARD H. (1978)
Professor, Department of Theatre Arts
B.A., Ohio State University;
M.F.A., University of Hawaii.

BREWER, RAY E. (1965)
Professor, Department of
Counseling and Special Education B.S., Kansas State University; M.A., New Mexico State University; Ed.D., University of Arizona; Licensed Educational Psychologist.
BRIAN, NANCY K. (1987)
Associate Professor,
Department of Industrial Technology B.F.A., M.F.A., University of Georgia.

BROOKS, WAYNE A. (1956)
Professor, Department of
Finance and Business Law
B.A., St. Ambrose College; J.D., University of Iowa; L.L.M., Stanford University; J.S.D., University of California, Berkeley; Member, Iowa Bar, California Bar.
BROUWER, JAMES M. (1964)
Associate Professor, Department of History B.A., M.A., Yale University.

BROWN, L. CHARLENE (Spring 1988)
Lecturer, Department of Management B.A., M.B.A., California State University, Fresno.
BROWN, RICHARD S. (1976)
Professor, Department of Educational Research, Administration, and Foundations B.A., North Texas State University; M.A., Incarnate Word College; Ed.D., University of Houston.
BROWN, SANFORD M. (1976)
Associate Dean,
School of Health and Social Work; Professor, Department of Health Science B.S., Ursinus College; M.P.H., University of Michigan; Ph.D., University of Kansas; Registered Sanitarian.

BROWN, SHELDON J. (1956)
Professor, Department of Physics
B.A., Ph.D., University of California, Los Angeles.
BROWNELL, JAMES R. (1969)
Professor, Department of Plant
Science and Mechanized Agriculture
B.S., Pennsylvania State University;
M.S., University of Minnesota;

Ph.D., University of California, Davis.
BROYLES, DON R. (1968)
Professor, Department of Political Science
B.A., Sacramento State College;
M.A., Ph.D., Claremont Graduate School.

BRYAN, GERALD 0. (1973)
Professor, Department of
Marketing and Logistics
A.B., M.A., University of Northern

Colorado; D.B.A., Arizona State University.
BRYANT, BARRETT L. (1987)
Lecturer, Department of Information
Systems and Decision Sciences
B.S., California State University, Fresno;
M.B.A., California State University, Long

Beach.
BRYON, JEANETTE P. (1956)
Professor, Department of Theatre Arts
B.A., University of Maine;
M.A., University of North Carolina.

BUCHER, MANFRED (1982)
Professor, Department of Physics
Diplom-Physiker, Dr. Phil. Nat., Goethe University (West Germany).
BUKOFZER, DANIEL C. (1989) Associate Professor, Department of Electrical and Computer Engineering B.S., California State University, Los Angeles; M.S., University of California, Los Angeles; Ph.D., University of California, Davis.
BUMPASS, L. KATHRYN (1985)
Associate Professor, Department of Music B.A., Austin College, M.A., Columbia University; Ph.D., University of Illinois, Urbana-Champaign.
BUNSTER, XIMENA (Spring 1990)
Lecturer, Women's Studies Program Profesora de Estado, Universidad de Chile; M.A., Ph.D., Columbia University.

BURCH, BARBARA G. (1989)
Dean, School of Education and Human
Development; Director of Teacher Education; Professor, Department of Curriculum, Teaching, and Educational Technology B.A., Western Kentucky State University; M.S., Ed.D., Indiana University.

BURDICK, DONALD J. (1960)
Professor, Department of Biology B.A., San Jose State College;

Ph.D., University of California, Berkeley.
BURGE, JOHN H. (1984)
Associate Professor,
Department of Criminology
B.S., M.S., California State University,

Fresno; Ed.D., University of the Pacific.
BURNS, FELTON (1969)
Counselor, Student Counseling Center B.A., M.A., California State University, Fresno; Ed.D., University of Southern California.

BURTNER, DALE C. (1958)
Professor, Department of Chemistry
B.A., Reed College; M.S., Ph.D., University of Washington.
BURTON, GENE E. (1979)
Professor, Department of Management B.B.A., M.B.A., University of Texas at Arlington; Ph.D., North Texas State University.
BUSH, PAUL D. (1961)
Professor, Department of Economics
B.A., M.A., University of Denver; Ph.D., Claremont Graduate School.
BUTTON, ALAN D. (1961)
Professor, Department of Psychology
B.S., M.A., University of Oregon; Ph.D., Stanford University.
CAGLE, JOHN A. (1970)
Professor, Chair,
Department of Speech Communication
B.A., M.A., San Fernando Valley State College; Ph.D., University of Iowa.
CAID, N. JOANNE (1967)
Professor, Chair, Department of Enology, Food Science, and Nutrition B.S., Rochester Institute of Technology; M.S., Michigan State University; Registered Dietitian.

CAILLIET, GREG M. (1974)
Professor, Department of
Biology at Moss Landing
B.A., Ph.D., University of California, Santa Barbara.
CALINGO, LUIS Ma. R. (1983)
Associate Dean, School of Business and Administrative Sciences; Professor, Department of Management B.S.I.E., M.U.R.P., University of the Philippines; M.B.A., Ph.D., University of Pittsburgh.
CAMPBELL, ROSS A. (1990)
Assistant Professor, Department of Military Science B.A., M.A., Arizona State University.

CAREY, KAREN T. (1989)
Assistant Professor, Department of Psychology B.S., San Diego State University;
M.S., University of Nevada, Las Vegas;

Ph.D., University of Cincinnati.
CARMICHAEL, CARL W. (1988)
Professor, Department of
Speech Communication
B.A., Westminister College;
M.A., Louisiana State University; Ph.D., University of Iowa.
CARRION, DANIEL E. (Spring 1985)
Assistant Professor,
Department of Theatre Arts
B.A., M.A., California State University, Fresno.

CARTER, CHRISTINA E. (1989)
Assistant Librarian, Reference Department B.S., University of California, Davis;
M.A., San Diego State University;
M.L.S., University of Arizona.

CASTILLO, RAYMOND (1990)
Director, Career Development
and Employment Services
B.A., M.A., Arizona State University.

CAVAZOS, CYNTHIA A. (1990)
Lecturer, Department of
Communicative Disorders
B.A., M.A., California State University, Fresno.
CHA, MARN J. (1969)
Professor, Department of Political Science B.A., M.P.A., Ph.D., University of Southern California.
CHADWICK, VIRGINIA F. (1984)
Associate Professor, Department of Physical
Education and Human Performance
B.S., Northern Arizona University; M.S., Arizona State University; Ph.D., Oregon State University.

CHAFFE-STENGEL, PRISCILLA M. (1984)

Professor, Department of Information Systems and Decision Sciences B.A., University of California, San Diego; M.A., California State University, Fresno; Ph.D., Stanford University.

CHAN, KENNETH W. (1982) Associate Professor, Department of Chemistry B.S., University of Illinois, Urbana; Ph.D., University of Arizona.
CHANG, SHYHMING (1976)
Professor, Department of Mechanical and Industrial Engineering
B.S.M.E., National Taiwan University;
M.S., University of Alabama;

Ph.D., University of Oklahoma.

CHANG, SIDNEY H. (1966)
Professor, Department of History B.A., National Taiwan University; M.A., University of Missouri; M.S., Florida State University; Ph.D., University of Wisconsin.
CHAPIN, WAYNE (1981)
Professor, Department of Accountancy B.B.A., M.B.A., University of Texas; D.B.A., University of Southern California; C.P.A.
CHAVEZ, JANICE A. (1984)
Professor, Department of
Counseling and Special Education
B.A., M.A., Ph.D., University of New Mexico.
CHEN, KUANG C. (1988)
Professor, Department of
Finance and Business Law
B.A., National Taiwan University; M.B.A., Ph.D., Ohio State University.

CHEN, ROSITA (1980)
Professor, Department of Accountancy
B.A., National Taiwan University; M.A.S., State University of New York; Ph.D., University of Illinois.
CHESEMORE, DAVID L. (1972)
Professor, Department of Biology
B.S., Wisconsin State University; M.S., University of Alaska; Ph.D., Oklahoma State University.

## CHEUK, S. FAI (1970)

Professor, Department of Biology
B.Sc., M.Sc., University of Manitoba;

Ph.D., McGill University.
CHILDERS, FREDERICK (1981)
Professor, Department of
Social Work Education
B.A., California State University, Long Beach; M.S.W., D.S.W., University of Southern California.
CHOW, BALANCE T. P. (1990)
Lecturer, Department of English
B.A., M.Phil., Chinese University of Hong Kong.
CHRISTENSEN, ELWYN L. (1968)
Professor, Department of Accountancy
B.A., Andrews University; M. Acct., D.B.A., University of Southern California; C.P.A.
CHRISTISON, CHESTER E. (1970)
Professor, Department of
Industrial Technology
B.S., Mankato State College;
M.S., Colorado State College;

Ed.D., University of Northern Colorado.
CHUA, CHENG LOK (1986)
Professor, Department of English
B.A., DePauw University;
M.A., Ph.D., University of Connecticut.

CIULA, RICHARD P. (Spring 1961)
Professor, Department of Chemistry B.A., Bowling Green State University; M.S., University of California, Berkeley; Ph.D., University of Washington.
CLAASSEN, ALFRED J. (1969)
Professor, Department of Sociology A.B., University of California, Berkeley; Ph.D., University of Colorado.
CLARK, A. ZANE (1968)
Librarian, Reference Department B.S., Utah State University; M.A., University of Denver.
CLARK, WAYNE N. (1973) Professor, Department of Health Science B.S., M.S., Ph.D., Utah State University; M.P.H., University of Hawaii; Registered Sanitarian.
CLENDENIN, W. RITCHIE, JR. (1973)
Professor, Department of Music
B.Mus., University of Colorado;
M.Mus., Yale University;
D.M.A., University of Colorado.

CLIFTON, MICHAEL E. (1987)
Lecturer, Department of English
B.A., Indiana University;
M.A., California State University, Fresno;

Ph.D., Indiana University.
COE, WILLIAM C. (1966)
Professor, Department of Psychology
B.S., University of California, Davis; Ph.D., University of California, Berkeley; Licensed Psychologist.
COFFEY, JACK (1968)
Professor, Department of Information Systems and Decision Sciences B.A., Nebraska State College; M.A., Ph.D., University of Northern Colorado.
COHEN, MOSES E. (1969)
Professor, Department of Mathematics B.S., Sir John Cass College, London University; Ph.D., University of Wales.
COLEMAN, DONALD G. (1988) Professor, Department of Educational Research, Administration, and Foundations B.S., Indiana University; M.S., St. Frances College; Ed.D., Ball State University.
COLLIN, WILLIAM K. (1975)
Professor, Department of Biology
B.A., Ph.D., University of California, Los Angeles.
COLSON, GARY W. (1990)
Head Men's Basketball Coach, Department of Athletics B.A., David Lipscomb University; M.A., Vanderbilt University.

COMELLI, ANGEL D. (1991)
Physician, Student Health Center
B.A., University of California, Los Angeles;
M.D., University of California, San

Francisco.
CONTRERAS, CARLOS A. (1968)
Professor, Department of History B.A., Brigham Young University; M.A., Ph.D., University of California, Los Angeles.
COOPER, ARNOLD M. (1957)
Professor, Department of Psychology
B.A., San Francisco State College;
M.A., Ph.D., Claremont Graduate School; Licensed Psychologist.
CORCORAN, WILLIAM H. (1971)
Vice President and Dean of Student Affairs
B.A., M.A., San Fernando Valley State College.
CORDEIRO, JOHN F. (1990)
Lecturer, Department of Animal Sciences and Agricultural Education B.S., M.S., California Polytechnic State University, San Luis Obispo.
CORDS, DOUGLAS A. (1969)
Professor, Department of
Marketing and Logistics
B.S., M.B.A., California State University, Fresno; Ph.D., University of California, Los Angeles.
COSENZA, ROBERT M. (1990)
Professor, Department of
Marketing and Logistics
B.S., St. Peters College;
M.B.A., City University of New York; D.B.A., University of Kentucky.

COSTA, LUIS F. (1990)
Dean, School of Arts and Humanities;
Professor, Department of Foreign
Languages and Literatures
B.A., University of California, Berkeley;
M.A. (Mathematics), M.A. (Spanish),

California State University, Fresno; Ph.D., University of California, Los Angeles.
COSTIS, HARRY G. (1967)
Professor, Chair, Department of Information Systems and Decision Sciences
B.S., The Graduate School of Commerce and Economics, Athens; M.S., University of Georgia; Ph.D., University of Texas.
COTHERN, JAMES H. (Spring 1989)
Professor, Department of
Agricultural Economics
B.S., University of Idaho;
M.S., Michigan State University;

Ph.D., Montana State University.

COTTEN, CARROLL (Spring 1973)
Assistant Director, Admissions, Records,
Evaluations; Admissions Officer
B.A., Chapman College;
B.D., Pacific School of Religion;
M.A., Claremont Graduate School;

Ph.D., Stanford University.
COTTLE, SANDRA L. (1990)
Lecturer, Department of Physical
Education and Human Performance
B.S., Chapman College; M.S., California

State University, Fullerton.
COWLING, WILLIAM H. (1967)
Professor, Department of English
B.A., Loyola University;
M.A., Ph.D., Indiana University.

CRANE, MAUREEN T. (1989)
Lecturer, Department of Accountancy
B.S., California State University,

Northridge; C.P.A.
CROSBY, JOHN A. (1956)
Professor, Department of Geography B.S., University of Chicago; M.A., Ph.D., University of Washington.

CROSSFIELD, JAMES K. (1984)
Professor, Department of Civil
and Surveying Engineering
B.S., Chem., B.S.C.E., M.S., Ph.D.,

University of Wisconsin, Madison.
CSERNA, EUGENE G. (Spring 1959)
Professor, Department of Geology
Ph.D., University of Sciences (Hungary);
M.A., Ph.D., Columbia University.

CUELLAR, ALFREDO (1990)
Associate Professor,
Department of Educational Research, Administration, and Foundations B.S., M.A., Ph.D., University of Alabama.

## CUELLAR, BENJAMIN (1978)

Professor, Chair,
Department of Social Work Education
B.A., California State University, San Jose;
M.S.W., University of California, Berkeley;
D.S.W., Columbia University.

CULLEN, CLIFT C. (1969-70; 1971)
Professor, Department of
Industrial Technology
B.A., M.A., California State University, Fresno.
CUNNINGHAM, GARY (1986)
Director of Athletics, Chair,
Department of Athletics
B.S., M.S., Ed.D., University of California, Los Angeles.
CUSICK, LARRY W. (1983)
Professor, Department of Mathematics
B.A., California State University, Fresno;

Ph.D., University of California, San Diego.

CYPHER, JAMES M. (1967)
Professor, Department of Economics B.A., M.A., University of California, Santa Barbara; Ph.D., University of California, Riverside.

CZAJKIEWICZ, ZBIGNIEW J. (1989)
Professor, Department of Mechanical and Industrial Engineering
M.S., Ph.D., Technical University of Wroclaw (Poland).
DACKAWICH, S. JOHN (1970)
Professor, Department of Sociology
B.A., University of Maryland;

Ph.D., University of Colorado.
DAUGHTRY, JOLYNE S. (1985)
Associate Professor,
Department of Educational Research, Administration, and Foundations B.S., Virginia Commonwealth University; M.A., College of William and Mary; Ed.D., University of Virginia.
DAVIS, MARTHA A. (1960)
Professor, Department of Nursing
B.S., St. Louis University;
M.A., Teachers College, Columbia

University; Registered Nurse.
DEB, ASHOKE (1990)
Lecturer, Department of Computer Science
B.Sc., Jadavpur University (India); B.Tech., M.Tech., University of Calcutta (India); Ph.D., University of Iowa.
DEHN, MARLENE (1984)
Associate Professor, Department of Nursing B.S.N., University of California, San Francisco; M.P.H., University of California, Berkeley; Ph.D., University of Oregon.
DELANEY, RICHARD W. (1965)
Professor, Department of Art
B.A., M.A., San Francisco State College.

DeLIDDO, DENNIS A. (1982)
Head Wrestling Coach,
Department of Athletics
B.A., California State University, Fresno; M.A., University of San Francisco.

DER MUGRDECHIIAN, BARLOW (1986)
Lecturer, Department of Foreign
Languages and Literatures
B.A., California State University, Fresno;
M.A., University of California, Los Angeles.
DEWS, JON R. (1965)
Professor, Department of Physics
B.S., California State University, Fresno; Ph.D., University of California, Berkeley.
DIAZ, JOSE A. (1982)
Associate Professor, Department of Music B.M., M.M., D.M.A., University of Texas at Austin.

DIAZ, RAUL (1979)
Director of University Migrant Services
B.A., University of California, Santa Cruz; M.S., California State University, Sacramento.

DICKERSON, DIANNE K. (1985)
Associate Professor, Department of Child,
Family, and Consumer Sciences
B.S., Andrews University;
M.A., Loma Linda University;

Ph.D., Texas Woman's University.
DIESTEL, GEORGE E. (1969)
Professor, Department of
Speech Communication
B.A., St. Mary's College;
M.A., California State University, Fresno;

Ph.D., University of Southern California.
DILBECK, NINA J. (1971)
Associate Professor, Chair, Department of Child, Family and Consumer Sciences B.S., Oklahoma College of Liberal Arts; M.S., Kansas State University.

DINKIN, ROBERT J. (1968)
Professor, Department of History
B.A., Brooklyn College;
M.A., Ph.D., Columbia University.

DMITRIEW, HELEN L. (1967)
Professor, Department of Foreign
Languages and Literatures
M.A., University of Iowa.

DOLARIAN, ARA H. (1968)
Professor, Department of Art
B.A., M.A., San Francisco State College.

DOMINICK, WAYNE P. (1964)
Professor, Department of Civil and Surveying Engineering B.S.C.E., Ohio Northern University; M.S.C.E., D.Sc., New Mexico State University; Registered Professional Engineer.

DONALDSON, JOHN R. (1956)
Professor, Chair, Department of Physics
B.S., M.A., Rice University;
M.S., Ph.D., Yale University.

DONOHUE, DONALD J. (1965)
Professor, Department of Mathematics
B.S., California State University, Fresno; M.S., Ph.D., University of Oregon.

DOYEL, TOM (1970)
Professor, Department of
Finance and Business Law
B.S., California State University, Fresno; M.B.A., Ph.D., University of California, Los Angeles.
DOYLE, GLEN C. (1987)
Professor, Director of Gerontology,
Department of Nursing
B.S.N., M.S.N., California State University, Fresno; Ed.D., University of California, San Francisco.

DOYLE, JACQUELINE (1986)
Associate Professor, Department of English B.A., Brown University, M.A., Ph.D., Cornell University.

DOYLE, J. ANDREW (1990)
Lecturer, Department of Physical Education and Human Performance
B.S., Clemson University;
M.S., Georgia State University.

DRAKE, MARY C. (1985)
Associate Professor,
Department of Theatre Arts
B.F.A., Auburn University;
M.F.A., University of Southern Mississippi.

DULL, R. THOMAS (1986)
Associate Professor,
Department of Criminology
B.S., San Jose State University;
M.S., Michigan State University; Ph.D., Sam Houston State University.
DUNCAN, DELLA C. (1989)
Assistant Professor,
Department of Mathematics
B.A., B.A.Ed., M.A., Ph.D., Arizona State University.

DUNFORD, MARIE G. (1989) Assistant Professor, Department of Enology, Food Science, and Nutrition B.S., California State University, Long Beach; M.S., California State University, Fresno; Ph.D., University of Southern California.

DUNKLE, SONDRA (1976)
Professor, Physical Therapy Program
B.S., R.P.T., University of California, San Francisco; M.S., University of Florida.
DUTTARER, JANET K. (Spring 1984)
Professor, Physical Therapy Program
B.S., University of California, Los Angeles;
M.A., University of Southern California;

Ph.D., Louisiana State University Medical Center.
DUTTON, BONNIE L. (1985)
Associate Professor, Department of Literacy and Early Education
B.A., California State University, Los Angeles; M.E., Louisiana State University; Ph.D., University of Toledo

DWORKIN, SARI H. (1985)
Associate Professor, Department of
Counseling and Special Education
B.A., M.S., City University of New York, Lehman College; Ph.D., University of Nebraska, Lincoln; Licensed Marriage, Family, and Child Counselor.

DYER, PENELOPE A. (1984)
Associate Professor, Department of Literacy and Early Education B.A., M.A., California State University, Chico; Ph.D., University of California, Berkeley.
EAGLE, SHARON A. (1986)
Lecturer, Department of Nursing B.S.N., M.S.N., University of Kentucky.

EASTERBROOK, JOHN (1986)
Senior Associate Athletic Director,
Department of Athletics
B.S., University of Illinois,

Urbana-Champaign.
EBERT, THOMAS J. (1970)
Associate Librarian, Reference Department B.A., M.A., M.L.S., State University of New York at Albany.
ECHEVERRIA, JERONIMA L. (1988)
Assistant Professor, Department of History B.A., University of California, Irvine; M.A., Ph.D., University of North Texas.

EHIGIATOR, LUCKY O. (1990)
Associate Professor,
Department of Health Science
B.A., University of California, San Diego; M.B.A., National University, San Diego; M.P.H., D.P.H., University of California, Berkeley.
ELGORRIAGA, JOSE A. (1962)
Professor, Department of Foreign Languages and Literatures;
Head Soccer Coach, Department of Athletics
B.A., California State University, Fresno; M.A., Ph.D., University of California, Los Angeles.
ELHAG-ALI, MOSTAFA (1970)
Professor, Department of Information Systems and Decision Sciences
B.S., Ein-Shams University (Egypt); M.B.A., Ph.D., University of Texas.
ELISE, SHARON (1989)
Assistant Professor, Women's Studies Program B.A., University of California, San Diego; M.S., Ph.D., University of Oregon.

ELLERTSON, ROLAND V. (1985)
Associate Professor,
Department of Educational Research, Administration, and Foundations
B.A., University of Northern Iowa;
M.A., Ed.D., University of Minnesota.

ELLIS, DAVID L. (1966)
Professor, Department of
Social Work Education
B.A., University of Oklahoma; M.S.W.,

University of California, Los Angeles.

EMANUEL, EDWARD F. (1969)
Professor, Department of Theatre Arts
B.A., M.A., San Jose State College;

Ph.D., University of Minnesota.
ENGLE, DAVID G. (1988)
Assistant Professor, Department of Foreign Lansuages and Literatures B.A., M.A., Ph.D., University of California, Los Angeles.
EPELBAUM, MICHAEL (1990)
Lecturer, Department of Sociology B.A., M.Sc., Hebrew University (Israel); Ph.D., University of Colorado at Boulder.
ERON, MARY B. (1990)
Lecturer, Department of Mathematics B.A., LeMoyne College;
M.A., Ph.D., University of Rochester.

ERVIN, STEPHEN H. (1974)
Professor, Department of Biology
B.A., M.A., Ph.D., University of California, Santa Barbara.
ESCOBEDO, MINERVA (1969)
Assistant Director,
Admission/Records/Evaluations; Registrar B.S., University of San Francisco.

ESTES, GENE L. (1964)
Head Cross Country/Track Coach, Department of Athletics
B.S., M.S., University of Oregon; D.Ed., Colorado State College.

EVANS, ALFRED B., JR. (1971) Professor, Department of Political Science B.A., M.A., University of Texas; Ph.D., University of Wisconsin.
EVANS, RONALD L. (1963)
Professor, Chair, Department of Biology
B.A., M.A., University of Toronto;

Ph.D., Stanford University.
EVERWINE, PETER P. (1962)
Professor, Department of English B.S., Northwestern University; Ph.D., State University of Iowa.
FADERMAN, LILLIAN (1967)
Professor, Department of English
B.A., University of California; M.A., Ph.D., University of California, Los Angeles.
FAGNANI, AUDREY M. (1973)
Professor, Recreation Administration and Leisure Studies Program A.B., M.S., San Francisco State College; Re.D., Indiana University.
FAHRENBACH, BRYAN W. (1988)
Lecturer, Department of Physical Education and Human Performance B.S., University of Wisconsin; M.A., California State University, Fresno.

FASSE, WILLIAM R. (1985)
Associate Professor, Department of
Child, Family, and Consumer Sciences
B.A., Washburn University; M.S., Kansas

State University; Ph.D., University of
Missouri, Columbia.
FAVORS, MARCUS W. (1990)
Lecturer, Department of Mechanical and Industrial Engineering
B.A., University of Washington.

FERREIRA, EDWARD L. (1979)
Athletic Trainer, Department of Athletics B.A., San Jose State University; M.A., California State University, Hayward.
FEY, RUSSEL C. (1969)
Professor, City and
Regional Planning Program
A.B., Hiram College; M.C.P., University of California, Berkeley; M.A., University of California, Riverside.

FIGUEROA-UNDA, MANUEL (1981)
Professor, Department of Chicano and Latin American Studies
B.A., Catholic University of Chile; M.A., Ph.D., Stanford University.

FINE, LAWRENCE J. (1990)
Lecturer, Recreation Administration and Leisure Studies Program
B.S., University of New Hampshire; M.S., Southern Connecticut State University; Ph.D., Southern Illinois University at Carbondale.
FIORELLO, JOAN (1980)
Professor, Department of Nursing B.S., Hunter College; M.S., Adelphi University; Ph.D., New York University.
FISCHER, ROBERT D. (1972)
Professor, Department of Sociology
B.S., Portland State University;
M.A., University of Michigan;

Ph.D., Michigan State University.
FLEMING, PAULETTE S. (1988)
Associate Professor, Department of Art B.A., Hampton Institute; M.F.A., Brandeis University; Ph.D., Ohio State University.
FLORES, FILOMENA C. (1985)
Professor, Department of Nursing B.S.N., Philippine Women's University; M.A./Education, University of San Carlos, Philippines; M.S.N., University of the Philippines; Ph.D., University of San Carlos, Philippines.
FLORES, WILLIAM V. (1988) Associate Professor, Chair, Department of Chicano and Latin American Studies B.A., University of California, Los Angeles; M.A., Ph.D., Stanford University.

FLYNN, GEORGE A. (1985)
Associate Professor, Department of Journalism B.A., University of Miami; M.A., Florida Atlantic University; Ph.D., North Texas State University.

FONG, PATTEY L. (1989)
Assistant Professor, Department of Psychology
B.A., Stanford University;
M.S., Ph.D., Rutgers University.

FORD, BARBARA E. (1989)
Lecturer, Department of Curriculum,
Teaching, and Educational Technology
B.A., M.A., University of California,

Los Angeles.
FORD, RICHARD D. (1972)
Dean, School of Health and Social Work; Professor, Department of Social Work Education
B.A., Miles College; B.D., Johnson C.

Smith, Theological Seminary; M.S.W., State University of New York at Buffalo.
FORSYTHE, LYNN M. (1980)
Professor, Department of
Finance and Business Law
B.A., Pennsylvania State University; J.D.,

University of Pittsburgh School of Law.
FORTNER, JACK R. (1970)
Professor, Chair, Department of Music
B.Mus., Aquinas College; M.Mus.,
A.Mus.D., University of Michigan.

FOSTER, HAGUE D. (1966)
Professor, Department of Philosophy
B.A., Ph.D., University of Chicago.

FOSTON, ARTHUR L. (1968)
Professor, Department of
Industrial Technology
B.S., B.S.E.E., M.S., Prairie View A \& M

College; M.A.T., Colorado State University.
FOWLER, JOEL P. (1989)
Associate Professor,
Department of Telecommunications B.F.A., University of Texas at Austin; M.A., University of Nebraska-Lincoln.

FOX, HERBERT S. (1969)
Librarian, Reference Department
B.A., Dip. Theol., Concordia Seminary; B.L.S., University of British Columbia.

FRAIR, KAREN L. (1984)
Associate Dean, School of Engineering;
Professor, Department of Mechanical and Industrial Engineering
B.S., University of Tulsa;
M.S., Ph.D., University of Oklahoma.

FRAIR, LESTER C. (1984)
Professor, Department of Mechanical and Industrial Engineering
B.S., University of Tulsa;
M.E.A., University of Utah;

Ph.D., University of Oklahoma.
FRALEIGH, DOUGLAS M. (1990)
Assistant Professor,
Department of Speech Communication B.A., California State University, Sacramento; J.D., University of California, Berkeley.
FRANCIS, RICHARD W. (1965)
Professor, Department of Physical
Education and Human Performance
B.A., San Jose State College; M.A., California State University, Fresno; Ed.D., University of Northern Colorado.
FRANCO-SANCHEZ, ERNESTO (1982)
Professor, Department of Mathematics
B.S., University of Puerto Rico; M.A., Ph.D., University of California, Berkeley.
FRANCOIS, RICHARD K. (1982)
Director of Development and
Community Relations
B.A., Kalamazoo College.

FRANK, DAVID L. (1970)
Professor, Department of Chemistry B.A., Alfred University; Ph.D., University of Rochester.

FRANKLIN, SAMUEL S. (1969)
Professor, Department of Psychology
B.A., University of California, Los Angeles;
M.A., University of California, Santa

Barbara; Ph.D., University of Kansas.
FRANZ, JOHN B. (1985)
Director, Employee Assistance Program
B.S., University of Oregon;
M.S.W., University of Kansas;

Ph.D., University of Southern California.
FREEMAN, G. RONALD (1969)
Professor, Department of Foreign
Languages and Literatures
B.A., University of Utah; M.A., Ph.D., University of Washington.

FREY, JAMES E. (1969)
Professor, Department of English
B.A., Jamestown College;
M.A., Columbia University, Ph.D., University of California, Berkeley.
FROM, BENDT A. (Spring 1968)
Professor, Department of Plant
Science and Mechanized Agriculture
B.A., M.Ed., University of California, Davis.
FROST, WILLIAM E. (1986)
Director, San Joaquin Experimental Range
B.S., M.S., University of California, Davis; Ph.D., University of Arizona, Tucson.

FRY, CAROL J. (1990)
Assistant Professor,
Department of Curriculum, Teaching,
and Educational Technology
B.A., University of North Carolina, Chapel

Hill; M.H.D.L., University of North
Carolina, Charlotte; Ph.D., Ohio State University.
FU, JOHN (1984)
Counselor, International
Student Services and Programs
B.A., University of Taiwan;
M.A., University of Illinois;

Ed.D., University of San Francisco.
FUTRELL, MAX D. (1970)
Professor, Chair, Department of Criminology B.S., M.S., California State University, Fresno; Ed.D., University of Southern California.

GADE, CHRISTY V. (1970)
Librarian, Catalogue Department
B.A., University of California, Santa

Barbara; M.L.S., University of California, Los Angeles.

GADE, WARREN E. (1966)
Professor, Department of History
B.S., University of San Francisco;
M.A., Ph.D., Stanford University.

GAINES, CHARLES F. (1968)
Professor, Department of Art
B.A., Jersey City State College;
M.F.A., Rochester Institute of Technology.

GAISER, EDWARD A. (1969)
Associate Professor,
Department of Industrial Technology B.S., M.S., State University New York at Buffalo.

GANDLER, JOSEPH R. (1981)
Professor, Department of Chemistry
B.S., Brooklyn College; Ph.D., University of California, Santa Cruz.
GANNAWAY, LINDA (1982)
Associate Director, Student Counseling Center B.A., Hendrix College; M.Ed., Ed.D., University of Arkansas.

GARCÍA, JUAN C. (1987)
Associate Professor, Department of Counseling and Special Education
B.A., University of California, Santa Cruz; M.A., Stanford University; M.S., San Jose State University; Ph.D., Stanford University.
GARZA, HISAURO A. (1989)
Assistant Professor, Department of Chicano and Latin American Studies B.A., University of California, Santa Cruz; M.A., Ph.D., University of California, Berkeley.

GAYNARD, MADELEINE M. (1981)
Lecturer, Department of Theatre Arts
B.A., Jersey City State College; M.F.A., New York University School of Arts.

GECHTER, GENA (1984)
Counselor, Student Counseling Center
B.A., M.A., Humboldt State University;

Ph.D., California School of Professional
Psychology; Licensed Clinical
Psychologist.
GENDRON, MAURICE C. (1969)
Professor, Chair, Department of Foreign
Languages and Literatures
B.A., M.A., Ph.D., University of California, Los Angeles.
GIANNETTA, TEREA A. (1984)
Lecturer, Department of Nursing B.S.N., California State University, Sacramento; M.S.N., California State University, Fresno.
GIGLIOTTI, HELEN J. (1966)
Associate Vice President for Academic Affairs - Budget and Instructional Resources; Professor, Department of Chemistry B.A., Vassar College; Ph.D., University of Michigan.
GILBERT, STEVEN E. (1970)
Professor, Department of Music B.A., City University of New York; Mus.M., M.Phil., Ph.D., Yale University.
GILBERTSON, DIANA L. (1988)
Associate Professor, Department of Management B.S.Ed., M.S.Ed., Northern Illinois University; M.B.A., North Texas State University; Ph.D., University of North Texas.
GILEWICZ, MAGDALENA (1990) Assistant Professor, Department of English M.A., University of Wroclaw (Poland); Ph.D., State University of New York at Stony Brook.
GILLL, JUNE M. (1971)
Professor, Department of Foreign Languages and Literatures
B.A., M.A., Ph.D., University of California, Berkeley.
GISH, PEGGY J. (1988)
Lecturer, Department of Health Science B.A., M.S., California State University, Fresno.
GNANASEKARAN, RANGASAMY (1988)
Associate Professor, Department of Electrical and Computer Engineering B.S., Madras University (India); M.S., Indian Institute of Science (India); Ph.D., University of California, Santa Barbara.

GOISHII, FRANK H. (1966-67; 1970)
Professor, Department of
Industrial Technology
B.A., M.A., California State University,

Fresno; Ed.D., University of Missouri.
GOLDBLOOM, DAVID E. (1968)
Professor, Department of Enology,
Food Science, and Nutrition
B.A., M.A., Cambridge University (England); Ph.D., University of California, Berkeley.
GONZALES, LUZ (1989)
Lecturer, Department of Chicano
and Latin American Studies
B.A., M.A., California State University, Fresno.
GONZALES, PAUL (1990)
Assistant Professor,
Department of Military Science
B.S., California Polytechnic State

University, San Luis Obispo.
GONZALEZ, ALEXANDER (1979)
Assistant to the President,
Professor, Department of Psychology
B.A., Pomona College; M.S., Ph.D., University of California, Santa Cruz.
GONZALEZ, BERTA (1985)
Professor, Department of Curriculum, Teaching, and Educational Technology B.A., California State University, Fresno; M.A., California State University, Chico;

Ed.D., University of the Pacific.
GONZALEZ, JUDITH T. (1988)
Associate Professor, Women's Studies Program B.A., University of Texas; M.A., Ph.D., Stanford University.

GOODMAN, SUSAN L. (1989)
Assistant Professor, Department of English B.A., M.Ed., M.A., Ph.D., University of New Hampshire.
GOODWIN, H. MARSHALL, JR. (1964)
Professor, Department of History
B.A., M.A., San Diego State College; Ph.D., University of Ca1ifornia, Los Angeles.
GOPINATH, K. R. (1987)
Associate Professor, Department of Electrical and Computer Engineering B.Sc., Madras University (India); B.E., Indian Institute of Science (India); M.S., Ph.D., Case Western Reserve University.
GORMAN, MICHAEL (1988)
Dean of Library Services
Ealing School of Librarianship (England);
Fellow, British Library Association.
GOTHE, A. GERALD (Spring 1965)
Librarian, Periodicals Department
B.A., University of Ca1ifornia, Santa Barbara; M.L.S., University of California, Berkeley.

GOTHE, SANDRA L. (1967)
Associate Dean of Library
Services, Administration
B.A., M.A., Indiana University.

GRACI, JOSEPH P.
(1989-90; Spring 1991)
Lecturer, Department of Foreign
Languages and Literatures
B.A., M.A., Arizona State University;

Ed.M., Harvard University.
GRAHAM GAYLORD 0. (1957)
Director of Auxiliary Services;
Professor, Department of Theatre Arts
B.A., M.A., State University of Iowa.

GRANNIS, GARY E. (1968)
Professor, Chair,
Department of Industrial Technology
B.S.E., M.A., Northeast Missouri State

Teachers College; Ed.D., Texas A \& M
University.
GRAZIANI, RONALD (1989)
Lecturer, Department of Art
B.A., University of California, Los Angeles; M.A., State University of New York, Stony Brook.
GRENTZ, DIETMAR J. (1990)
Physician, Student Health Center
B.S., Andrews University;
M.D., Loma Linda University.

GRIFFIN, RUTH H. (1977)
Professor, Department of Theatre Arts B.A., M.A., Case Western Reserve University.
GRUBBS, DAVIID E. (1973)
Professor, Department of Biology B.A., University of Ca1ifornia, Santa Barbara; Ph.D., University of California, Irvine.
GRUEN, BETTY TRUE (1980)
Admissions Coordinator, International Student Services and Programs B.A., M.A., California State University, Fresno.
GUELKER-CONE, LESLIE K. (1985)
Lecturer, Department of Music
B.A., California State University,

Stanislaus; M.A., San Jose State University.
GUEVARA, STEPHANIE A. (Spring1988)
Lecturer, Department of Management
B.A., California State University, Fullerton; M.S., California State University, Long Beach.
GULLICKSON, NORMAN A. (1971)
Professor, Department of
Industrial Technology
B.S., M.S., University of Wisconsin, Stout; Ed.D., University of Northern Colorado.

GUMP, BARRY H. (1967)
Professor, Department of Chemistry B.S., Ohio State University; Ph.D., University of California, Los Angeles.
GUNN, THOMAS I. (1967)
Professor, Department of Agricultural Economics B.S., Brigham Young University;
M.S., Utah State University; Ph.D., Cornell University.
GYSLER, R. LOUIS (1966-71; 1973)
Professor, Department of
Industrial Technology
B.S., M.A., Kent State University;

Ph.D., Ohio State University;
J.D., San Joaquin College of Law.

HAAS, RICHARD (1969)
Professor, Department of Biology
B.A., M.A., Ph.D., University of California,

Los Angeles.
HAFFNER, SUSANNE A. (1965)
Librarian, Catalogue Department
B.A., University of Oregon;
M.L., University of Washington.

HAGEN, JOHN W. (Spring 1969)
Professor, Department of
Agricultural Economics
B.S., M.S., North Dakota State College;

Ph.D., Washington State University.
HAGGBLADE, BERLE (1963)
Professor, Department of Information Systems and Decision Sciences
B.A., University of Northern Iowa; M.A., University of Northern Colorado; Ed.D., University of California, Los Angeles.
HAIRABEDIAN, ARA (1953)
Professor, Department of Physical Education and Human Performance B.S., University of Southern California; M.Ed., Pennsylvania State College; Ed.D., Stanford University.
HALES, CORRINNE (1986)
Assistant Professor, Department of English
B.A., M.A., University of Utah; Ph.D., State University of New York at Binghamton.
HALES, JOHN R. (1985)
Associate Professor, Department of English B.A., M.A., University of Utah;

Ph.D., State University of New York, Binghamton.
HALFHILL, DAVID S. (1982)
Professor, Department of
Marketing and Logistics
B.E.E., Georgia Institute of Technology; M.B.A., Ph.D., Georgia State University.

HALFHILL, SUSAN M. (1982)
Associate Professor,
Department of Management
B.S., University of Wisconsin; M.B.A, Rider

College; Ph.D., University of Bradford.
HALL, REBECCA (1990)
Lecturer, Department of Telecommunications B.S., California Polytechnic State University, San Luis Obispo; M.A., California State University, Fresno.
HALLER, ROBERT F. (1990)
Lecturer, Department of Information
Systems and Decision Sciences
B.A., California State University, Fresno; M.S., Utah State University.

HAMILTON, TERRI A. (1981)
Professor, Department of Health Science
B.A., M.A., California State University, Fresno; Ed.D., University of San Francisco.
HANNA, MARK G. (1989)
Associate Professor,
Department of Social Work Education
B.A., M.Ed., University of Maryland;
M.S.W., D.S.W., Columbia University.

HANSON, VICTOR D. (1985)
Professor, Department of
Foreign Languages and Literatures
B.A., University of California, Santa Cruz; Ph.D., Stanford University.
HANZLICEK, CHARLES G. (1966)
Professor, Department of English
B.A., University of Minnesota;
M.F.A., University of Iowa.

HARBERTSON, NOAL C. (1971)
Professor, Department of Mathematics
B.S., University of Utah; M.S., Ph.D.,

North Carolina State University.
HARDGRAVE, JOHN G. (1971)
Professor, Department of Health Science
B.A., M.A., M.S., California State University, Fresno; Certified Medical Representative; Ed.D., University of Southern California.
HARDING, ETHELYNDA E. (1977)
Professor, Department of Biology
B.S., New Mexico Institute of Mining and Technology; M.S., Ph.D., New Mexico State University.
HARKINS, FRANCES H. (Spring 1967)
Professor, Department of Child,
Family, and Consumer Sciences
B.S., Indiana University of Pennsylvania; M.S., Oklahoma State University.

HARLAN, RONALD J. (1956)
Librarian, Music Library
B.A., California State University, Fresno; M.L.S., University of California, Berkeley.

HARMON, WALLACE M. (1965)
Professor, Department of Biology
B.S., Colorado College; M.S., Syracuse

University; Ph.D., University of California,
Los Angeles.
HARMSEN, FREDERIKA J. M. (1985)
Professor, Department of Geology
B.Sci., Ph.D., Victoria University
(Wellington, New Zealand).
HARPER, ROBERT M. (Spring 1990)
Professor, Department of Accountancy
B.S., M.B.A., D.B.A., Florida State University.
HARRIS, DIANE J. (1985)
Associate Professor,
Department of Educational Research, Administration, and Foundations B.A., University of California, Santa Barbara; M.A., Ed.S., Ph.D., University of Michigan, Ann Arbor.
HARRIS, HARRY G. (1980)
Professor, Department of Management A.B., M.A., University of California, Berkeley; M.P.A., Ph.D., Harvard University.
HARRIS, IRENE (1989)
Women's Tennis Coach,
Department of Athletics
B.A., M.A., California State University, Fresno.
HARRIS, SUSAN B. (1987)
Associate Professor,
Department of Curriculum, Teaching, and Educational Technology
B.A., M.A., Stanford University;

Ed.D., Texas A \& M University.
HART, FRANCIS A. (1965)
Professor, Chair, Department of English
B.A., Harvard University;
M.A., Ph.D., University of Utah.

HART, RUSS ALLEN (1984)
Professor, Department of Telecommunications; Director, Instructional Telecommunication Center
B.A., Texas Tech University;
M.A., University of Arizona;

Ph.D., University of Wyoming.
HARTUNG, ELIZABETH (1987)
Associate Professor, Department of Sociology B.S., M.A., Kansas State University; Ph.D., University of Nebraska, Lincoln.
HASLAM HAROLD B. (1970)
Professor, Department of Computer Science B.S., California State University, Fresno; M.A., Ph.D., University of California, Irvine.

## HATCHER, MYRON (1982)

Professor, Department of Information Systems and Decision Sciences
B.S.I.E., M.E., University of Toledo; M.S.E., University of Michigan; M.P.H., D.S., Johns Hopkins University.

HATMAKER, ROBERT L. (1969)
Professor, Department of
Social Work Education
B.A., Wheaton College;
M.S.W., University of Michigan;

Ph.D., University of Southern California.
HAUSMAN, WILLIAM F. (1989) Professor, Chair,
Department of Military Science
B.S., United States Military Academy;
M.S., Stanford University.

HAYWARD, PEGGY F. (1981)
Acting Director, Orientation
and Transition Services
B.S., Douglass College;
M.S., Indiana University;

Ed.D., University of Southern California.
HEAD, WILLIAM (1975)
Counselor, Career Development
and Employment Services
B.Ed., M.A., California State University, Fresno.
HEANEY, ALBERT (1981)
Professor, Department of Electrical and Computer Engineering
B.E.E., M.S.E.E., Polytechnic Institute of New York; Ph.D., Worcester Polytechnic Institute.
HECHT, ROBERT W. (1988)
Associate Professor, Department of Electrical and Computer Engineering B.S., M.S., Ph.D., University of Illinois.

HEGDE, MAHABALAGIRI N. (1980)
Professor, Department of
Communicative Disorders
M.A., D.M.S.P., University of Bangalore; Ph.D., Southern Illinois University.
HEINE, LYMAN H., JR. (1968)
Professor, Department of Political Science
B.A., Johns Hopkins University; M.A., Ph.D., University of Nebraska.

HEINLEN, WILLIAM F. (1970)
Librarian, Reference Department
B.A., Kenyon College; M.A., University of Michigan; M.S.L.S., Case Western Reserve University.
HELMERS, MERRILEE K. (1972)
Professor, Department of Mathematics B.S., University of Washington; M.S., Ph.D., Michigan State University.

HEMINK, LYNN D. (1985)
Vice President for Administration and External Relations
B.S., State University of New York, Cortland; M.S., State University of New York, Albany; Ph.D., Michigan State University.
HENDERSON, JOAN C. (1983)
Lecturer, Department of Educational
Research, Administration, and Foundations B.A., Auburn University;
M.S., California State University, Hayward;

Ph.D., University of the Pacific.
HENDRIX, LAUREL L. (1990)
Assistant Professor, Department of English
B.A., Eastern Illinois University; M.A.,

Ph.D., University of California, Riverside.
HENNINGS, L. RALPH (1969)
Professor, Department of Speech Communication
A.B., M.A., San Diego State College; Ph.D., University of Oregon.
HENNINGS-SMITH, PATRICIA L. (1970)
Professor, Department of
Industrial Technology
B.A., University of California, Santa Barbara; M.S., University of Wyoming.
HENSON, CHRISTI L. (1984)
Associate Professor, Department of English
B.A., Washburn University of Topeka;
M.A., Ph.D., University of Kansas.

HEREERA, JUAN F. (1990)
Assistant Professor, Department of Chicano and Latin American Studies B.A., University of California, Los Angeles; M.F.A., University of Iowa; M.A., Ph.D., Stanford University.
HERNANDEZ, ROBERT P. (1971)
Director of Educational Opportunity
Program, Retention Services
B.A., M.S., California State University, Fresno.
HERNANDEZ, SANTOS H. (1987) Associate Professor,
Department of Social Work Education B.A., M.S.W., Our Lady of the Lake University at San Antonio; Ph.D., University of Denver.
HERRELL, ADRIENNE L. (1989)
Assistant Professor, Department of Literacy and Early Education B.Ed., University of Miami; M.A., University of Central Florida; Ph.D., Florida State University.
HESS, BRET C. (1990)
Assistant Professor, Department of Physics
B.S., Brigham Young University; Ph.D., Iowa State University.

HEUSTON, JOSEPH W., JR. (1974)
Director of Financial Aid
B.S., M.A., Northeastern University, Boston.
HEWITT, ALLAN (1968)
Professor, Chair, Department of Plant
Science and Mechanized Agriculture
B.S., M.S., University of California, Davis;

Ph.D., University of Maryland.
HIATT, ARTHUR A. (1974)
Professor, Department of Mathematics B.A., M.A., San Jose State College; Ph.D., University of California, Berkeley.

## HIATT, CHARLOTTE J. (1984)

Professor, Department of Information Systems and Decision Sciences
B.S., M.A., California Polytechnic State University, San Luis Obispo; Ed.D., Brigham Young University.
HICKEY, DENNIS V. (1990)
Lecturer, Department of Political Science B.A., University of Texas at Austin; M.A., Southwest Texas State University; Ph.D., University of Texas at Austin.
HICKEY, ERIC W. (1990)
Associate Professor,
Department of Criminology
B.S., Brigham Young University;
M.A., University of Alberta;

Ph.D., Brigham Young University.
HIEBERT, THOMAS NELS (1987)
Assistant Professor, Department of Music
B.A., Bethel College; M.M., Eastman

School of Music; D.M.A., University of Wisconsin, Madison.
HIGHSMITH, JAMES M. (1978)
Professor, Chair, Department of
Finance and Business Law
B.B.A., Ohio University;
J.D., Ohio State University.

HIKEL, MARY LYN (1990)
Assistant Professor, Department of
Foreign Languages and Literatures
B.A. (Drama), B.A. (Italian), M.A., Ph.D.,

University of Washington.
HILDRETH, SONYA (1979)
Counselor, International
Student Services and Programs
B.S., M.A., Kansas State University;

National Counselor Certification.
HILE, MAHLON M. S. (1977)
Professor, Department of Plant
Science and Mechanized Agriculture
B.A., Chico State College;
M.S., California State University, Chico;

Ph.D., Oregon State University.

## HILLMAN, STEPHANIE (1958)

Associate Dean of Library Services
B.A., University of California, Los Angeles; M.L.S., University of California, Berkeley.

HITCHCOX, KATHRYN L. (1990)
Lecturer, Department of English
B.A., California Luthern College;
M.A., Ph.D., Rice University.

HOFF, ANDREW (1987)
Assistant Professor, Recreation Administration and Leisure Studies Program B.A., M.A., California State University, Fresno; Ph.D., University of Utah.

HOFFMAN, MICHAEL B. (1981)
Professor, Coordinator, Recreation
Administration and Leisure Studies Program
B.S., M.Ed., Brigham Young University; Ph.D., University of Utah.
HOLMES, DONALD E. (1971)
Professor, Department of Physics
B.S., University of Oklahoma; M.S., San

Diego State College; Ph.D., University of California, Los Angeles.
HOLT, JOHN D. (1983)
Professor, Department of Computer Science
B.Sc., B.Ed., University of Western Australia; M.S., Ph.D., Oregon State University, Corvallis.
HOPSON-WALKER, STEVEN D. (1988)
Associate Professor,
Department of Criminology B.A., Washburn University; M.Div., Central Baptist Seminary; Ph.D., California School of Professional Psychology, Fresno.
HORWITZ, CARYN B. (1986)
Assistant Professor,
Department of Criminology
B.A., University of Pennsylvania; M.A.,

State University of New York at Albany; M.Phil., University of Cambridge (England); Ph.D., University of Delaware.
HOUGEN, MARTHA (1989)
Lecturer, Department of Counseling and Special Education B.S., University of Wisconsin, Madison; M.A., American University; Ph.D., University of Texas, Austin.
HOWARD, KATSUYO (1981)
Counselor, International
Student Services and Programs
B.A., Chiba University, Japan;
M.A., California State University, Fresno;

Licensed Marriage, Family, and Child Counselor.

HOWARD, JOHN P. (1973)
Assistant Director for Technical Services, Center for Information Processing B.S., M.S., California State University, Fresno.

HSU, MARILYN M. (1971)
Associate Librarian, Catalogue Department B.A., National Taiwan University; M.A.L.S., Immaculate Heart College.

HUDSON, DAVID C. (1968)
Professor, Department of History
B.A., University of Notre Dame;
M.A., Ph.D., Columbia University.

HUFF, DELORES J. (1985)
Associate Professor, Ethnic Studies Program B.A., M.A., Tufts University; Ed.D., Harvard University.
HUNT, KATHERINE D. (1989)
Lecturer, Department of Linguistics B.A., M.A., University of Canterbury (New Zealand).
HUNT, NANCY P. (1988)
Assistant Professor,
Department of Curriculum, Teaching, and Educational Technology B.S., Columbus College; M.A.T., Emory University; Ed.D., Auburn University.
HUSSAIN, MUSHTAQ (1978)
Professor, Department of Civil and Surveying Engineering B.S., Punjab University (Pakistan); M.S.C.E., Ph.D., University of Washington; Registered Professional Engineer, Registered Civil Engineer.

IBRAHIM, MEDHAT A. (1980)
Professor, Department of Electrical and Computer Engineering
B.S., Cairo University; M.S., M.A., Ph.D., University of Michigan.
IRVIN, MELVA E. (1973)
Professor, Department of Physical Education and Human Performance
B.A., University of Northern Colorado; M.S., Pennsylvania State University; Ph.D., University of Utah.
IRWIN, PHYLLIS A. (1963)
Professor, Department of Music B.S., M.Ed., University of Houston; Ed.D., Columbia University.
ISHIGAKI, MILES M. (1987)
Associate Professor, Department of Music B.M., University of Northern Colorado; M.M., Colorado State University; D.M.A., University of Oklahoma, Norman.

IVAN, MARY RUTH (1985)
Professor, Department of Nursing A.B., Simmons College; M.S., University of Hawaii; Ph.D., University of Utah.
IVERSON, LANDA J. (1989) Associate Professor, Department of Counseling and Special Education Ph.B., M.Ed., Ph.D., University of North Dakota.

JACKSON, B. CAROLYN (1983)
Professor, Department of Child, Family, and Consumer Sciences B.S., University of Arkansas; M.Ed., Rollins College; Ph.D., University of the Pacific.
JACKSON, JEROME E. (1990)
Lecturer, Department of Criminology
B.A., Southern University;
M.P.A., Texas Southern University.

JACOBS, JOHN A. (1981)
Professor, Department of Animal Sciences and Agricultural Education B.S., M.S., University of Kentucky; Ph.D., University of Wyoming.
JACOBSSON, M. LYNN (1989)
Lecturer, Department of
Social Work Education
B.A., Lawrence University;
M.S.W., University of Connecticut.

JARRETT, McRAE (1957)
Professor, Department of Mechanical and Industrial Engineering
B.S.E.E., M.S., University of Tennessee;

Registered Professional Industrial
Engineer.
JASSIM, AMIR A. (1985)
Professor, Department of
Finance and Business Law
B.B.A., Baghdad University (Iraq);
M.B.A., Indiana University; Ph.D., University of Georgia.
JASUTIS, CORDELIA (1959)
Professor, Department of Foreign
Languages and Literatures
Lic-es-Let, University of Paris; M.A., Ph.D., State University of Iowa.

JEN, SHIEN-MIN (1970)
Professor, Department of Anthropology
B.A., National Taiwan University;
M.A., New York University;

Ph.D., University of Wisconsin.
JENKINS, RUTH Y. (1988)
Assistant Professor, Department of English B.S., M.A., Miami University; Ph.D., State University of New York at Stony Brook.
JENNE, RICHARD S. (1969)
Professor, Department of Industrial Technology
B.P.A., Art Center School;
M.A., Chico State College.

JENSEN, KAREN M. (1970)
Professor, Department of Communicative Disorders
B.S., Northern Illinois University; M.Ed., Smith College.

JENSEN, KARIN L. (1990)
Lecturer, Department of Theatre Arts B.A., University of California, Irvine.

## JIN, LAN (1989)

Lecturer, Department of Computer Science B.S.E.E., Tsinghua University (China); Ph.D., Moscow Electrical Engineering Institute.
JOHNSON, DEWEY E. (1977)
Professor, Department of Management B.A., St. Olaf College; M.B.A., University of Michigan; Ph.D., University of Minnesota.
JOHNSON, GORDON F. (1966)
Professor, Department of
Counseling and Special Education
B.S., M.S., Oregon College of Education; Ed.S., Stanford University;
D.Ed., University of Oregon.

JOHNSON, HOMER M. (1979)
Professor, Department of Educational Research, Administration, and Foundations B.A., B.Ed., University of Puget Sound; M.A., Ed.D., University of Northern Colorado.
JOHNSON, JAMES L. (1989) Associate Professor, Department of English B.A., University of California, Santa Barbara; M.A., California State University, Fresno; M.A., D.A., Ph.D., University of Oregon.
JOHNSON, RONALD D. (1968)
Professor, Chair, Department of Theatre Arts B.A., University of California, Santa Barbara; M.A., San Francisco State College.
JOHNSON, SHARON (1990) Lecturer, Department of Nursing B.S., M.S., California State University, Fresno.
JOHNSON, WILLIAM E. (1988)
Lecturer, Department of Physical Education and Human Performance B.S., California Polytechnic State University, San Luis Obispo; M.A., Stanford University.
JOHNSTON, GERALD L. (1971)
Associate Professor,
Department of Accountancy B.S., Arizona State University; M.B.A., Kent State University; C.P.A.

JOHNSTON, JOHN (1989)
Lecturer, Department of Civil and Surveying Engineering B.S., M.S., Stanford University.

JONES, DAVID N. (1970)
Professor, Department of History A.B., M.A., Ph.D., University of North Carolina.
JONES, GERALD L. (1979)
Professor, Chair, Department of Management B.S., University of Oklahoma, Norman; M.S., Purdue University; D.B.A., University of Colorado.

JONES, IDA M. (1987)
Professor, Department of Finance and Business Law
B.A., Creighton University; J.D., New York University.

JORDAN, G. MICHAEL (1990)
Lecturer, Department of Curriculum, Teaching, and Educational Technology B.M.Ed., Troy State University; M.A., California State University, Fresno.

JOSEPH-WEIL, HELENE (1987)
Associate Professor, Department of Music
B.M., Oberlin College;
M.A., San Jose State University.

JUDD, FLOYD L. (1967)
Professor, Department of Physics
B.S., Carroll College;
M.S., Ph.D., Iowa State University.

JUDD, ROBERT F. (1989)
Assistant Professor, Department of Music B.M., Kent State University; M.M., Rice University; D.Phil., University of Oxford.

## KALFAYAN, GARO (1987)

Professor, Department of Accountancy B.S., University of California, Berkeley; J.D., University of California, Los Angeles; L.L.M., University of Florida; C.P.A.

KALLENBURG, RUTH (1988)
Librarian, Acquisitions/
Periodicals Department
B.A., Whitman College;
M.A., Indiana University.

KAO, JOSEPH (1981)
Professor, Department of Civil and Surveying Engineering
B.S., Cheng-Kung University; M.S., Ph.D., Northwestern University.

KAPOOR, SUDARSHAN (1967)
Professor, Department of
Social Work Education
B.A., DAV College (India);
M.A., Delhi School of Social Work; M.S.W., Ph.D., Florida State University.

KARLE, HARRY P. (1962) Associate Dean, Agricultural Operations, School of Agricultural Sciences and Technology; Professor, Department of Plant Science and Mechanized Agriculture B.S., California State University, Fresno; M.S., Ph.D., University of California, Davis.
KATKANANT, VANVILAI (1987)
Professor, Department of Physics B.Ed., Chulalongkorn University (Thailand); M.S., East Texas State University; M.S., Ph.D., University of Nebraska, Lincoln.

KAUFFMAN, GEORGE B. (1956)
Professor, Department of Chemistry
B.A., University of Pennsylvania;

Ph.D., University of Florida.
KEHOE, BRANDT (1972)
Professor, Department of Physics;
Chair, Department of Computer Science B.A., Cornell University;
M.S., Ph.D., University of Wisconsin.

KELLY, BEN R. (1979)
Professor, Department of
Communicative Disorders
B.S., University of Florida;
M.S., Florida State University;

Ph.D., Case Western Reserve University.
KELLY, MARGARET G. (1986)
Associate Professor,
Department of Curriculum, Teaching, and Educational Technology
B.A., M.A., San Diego State University; Ed.D., Utah State University.
KEMP, DEBORAH J. (Spring 1990)
Professor, Department of
Finance and Business Law
B.A., J.D., University of Florida.

KENDALL, JOHN C. (1968)
Professor, Chair, Department of History B.A., M.A., Carleton University (Canada); Ph.D., McGill University (Canada).
KENSEL, W. HUDSON (1965)
Professor, Department of History
B.A., University of Washington; B.A., M.Ed., Central Washington State College; Ph.D., Washington State University.
KEOUGH, JUDITH S. (1986)
Associate Professor, Department of Nursing B.S.N., Keuka College; M.S., Ed.D., State University of New York at Buffalo.
KEPPLER, MARK J. (1987)
Professor, Department of Management B.S., State University of New York at Oswego; M.S., J.D., University of Wisconsin.
KESSLER, WARREN L. (1968)
Professor, Department of Philosophy
B.A., Rutgers University;
M.A., Ph.D., University of Wisconsin.

KILNER, MICHELE M. (1970)
Professor, Department of Child,
Family, and Consumer Sciences
B.S., M.S., University of Arizona.

KIM, JOO I. (1970)
Professor, Department of Plant
Science and Mechanized Agriculture
B.Sc., Seoul National University (Korea);
M.Sc., Israel Institute of Technology;

Ph.D., University of British Columbia.

KINGSTON, MARTHA J. (1987)
Assistant Professor,
Department of Political Science
B.A., M.P.A., Ph.D., University of Georgia.

KINZEL, PAUL F. (1963)
Professor, Department of Foreign
Languages and Literatures
B.A., California State University, Fresno;
M.A., Columbia University;

Ph.D., University of Washington.
KIPPS, THOMAS C. (1956)
Professor, Department of Mathematics B.A., M.A., Ph.D., University of California, Berkeley.

KISSELL, PATRICIA D. (1979)
Professor, Department of Nursing B.S.N., M.N.Ed., University of Pittsburg; Ph.D., New York University.

KISSICK, ELENA F. (1966)
Professor, Department of Enology,
Food Science, and Nutrition
B.S., University of California, Davis;
M.A., San Jose State College.

KITTREDGE, ROBERT E. (1969)
Counselor, Student Counseling Center
B.A., State University of New York;
M.A., Ph.D., Michigan State University;

Licensed Marriage Counselor.
KIYUNA, RONALD S. (1990)
Assistant Professor, Department of Counseling and Special Education B.A., California State University, Dominguez Hills; M.A., California State University, Fresno; Ed.D., University of the Pacific; Licensed Marriage, Family, and Child Counselor.

KLASSEN, PETER J. (1966)
Dean, School of Social Sciences; Professor, Department of History B.A., University of British Columbia; M.A., Ph.D., University of Southern California.
KLIEWER, PAULINE (1987)
Professor, Chair, Department of Nursing B.S.N., University of British Columbia; M.A., Ph.D., University of Washington.

KNUDSEN, ROBERT G. (1964)
Director of Athletic Academic and Support Services
B.S., M.S., Utah State University; Ed.D., Brigham Young University.
KOCH, GARY M. (1970)
Professor, Department of Plant
Science and Mechanized Agriculture
B.S., M.S., Ph.D., Pennsylvania State University.

KOLASA, BLAIR J. (1986)
Professor, Department of
Finance and Business Law
B.S., Allegheny College;
M.S., Ph.D., University of Pittsburgh;
J.D., Duquesne University.

KOLLER, E. FRANK (1969)
Professor, Department of Geography
B.A., University of Utah; M.A., Brigham

Young University; Ph.D., Pennsylvania State University.
KOPRIVA, REBECCA J. (1989)
Assistant Professor,
Department of Educational Research, Administration, and Foundations
B.A., University of California, Irvine;
M.S., Colorado State University;

Ph.D., University of Northern Colorado.
KOUYMIIAN, DICKRAN K. (1977)
Professor, Department of
Foreign Languages and Literatures;
Coordinator, Armenian Studies
B.S., University of Wisconsin;
M.A., American University of Beirut;

Ph.D., Columbia University.
KOVACS, SHIRLEY A. H. (1986)
Professor, Department of Biology
B.A., University of California, Santa Barbara; M.S., Ph.D., Oregon State University.
KRAUTER, CHARLES F. (1979)
Professor, Department of Plant Science and Mechanized Agriculture B.S., Ph.D., University of California, Davis.

KREBS, EUGENE W. (1981)
Professor, Department of Child,
Family, and Consumer Sciences
B.S., M.S., Ph.D., Southern Illinois

University.
KRELL, FRED C. (1963)
Associate Professor, Department of Nursing
B.S.N., State University of Iowa;
M.S., Boston University; Registered Nurse.

KRENZ, VICKIE D. (1990)
Associate Professor,
Department of Health Science
B.A., L.I.F.E. Bible College;
M.A., Azusa Pacific College;
M.S., Ph.D., University of Utah.

KUEHN, PHYLLIS A. (1990)
Assistant Professor,
Department of Educational Research, Administration, and Foundations
B.S., University of California, Davis;
M.A., American University (Egypt);

Ph.D., Georgia State University.

KUHN, ROSE MARIE (1988)
Assistant Professor, Department of Foreign Languages and Literatures B.A., Facultes Universitaires Saint-Louis Brussels (Belgium); M.A., Universite de Louvain (Belgium); M.A., Ph.D., Catholic University of America.
KUIPERS, JUDITH L. (1984)
Vice President for Academic Affairs;
Professor, Department of Child,
Family, and Consumer Sciences
B.A., Michigan State University;
M.A., Central Michigan University;

Ph.D., Michigan State University.
KUNIMITSU, DONALD K. (1967)
Professor, Department of Chemistry
B.A., Ph.D., University of Hawaii.

KUNIMITSU, VIVIAN Y. (1971)
Professor, Department of Child,
Family, and Consumer Sciences
B.S., University of Hawaii;
M.S., California State University, Fresno; Ph.D., University of Hawaii.
KUS, JAMES S. (1970)
Professor, Department of Geography
B.A., Case Western Reserve University;
M.A., Michigan State University; Ph.D.,

University of California, Los Angeles.
KUZMA, DENNIS C. (1982)
Professor, Department of Mechanical and Industrial Engineering
B.S.M.E., M.S., Ph.D., Michigan State University.
LABARRE, ANTHONY E., JR. (1961)
Professor, Department of Mathematics B.E., M.S., Tulane University; Ph.D., University of Oklahoma.
LACKS, BERNICE (1989)
Associate Librarian, Reference Department B.A., State University of New York College at Potsdam; Rutgers University.
LACY, RICHARD C. (1981)
Professor, Department of Information
Systems and Decision Sciences
B.A., University of Northern Iowa;
M.Ed., Ed.D., University of Missouri.

LAISS, BARRY P. (1990)
Lecturer, Department of
Finance and Business Law
B.Com., M.A., University of Alberta
(Canada).
LaJEUNESSE, ROGER M. (1974)
Professor, Department of Anthropology
B.A., California State University, Fresno;
M.A., San Francisco State College;

Ph.D., Washington State University.

LALEHZARIAN, HAMO (1987)
Associate Professor, Department of Mechanical and Industrial Engineering B.S.I.E., M.S.I.E., Ph.D., University of Texas at Arlington.
LANE, ERIC F. (1988)
Associate Professor, Department of Information Systems and Decision Sciences
B.S., Georgia Institute of Technology;
M.B.A., University of Chicago;

Ph.D., Arizona State University.
LANE, PHILIIP J. (1969)
Professor, Department of Telecommunications
B.A., University of Portland;
M.A., University of Kansas;

Ph.D., Northwestern University.
LANGE, PAUL M. (1968)
Professor, Department of
Finance and Business Law
B.S.B.A., Northwestern University;
M.A., Mankato State University;
J.D., University of Minnesota; Member, Minnesota State Bar.
LANGFORD, LARRY L. (1988)
Lecturer, Department of English
B.A., University of Texas at Austin;
M.A., Ph.D., Rice University.

LARK, ALEXANDER H. (1968)
Professor, Department of Curriculum,
Teaching, and Educational Technology
B.A., Goshen College;
M.A., Roosevelt University;

Ph.D., University of Southern California.
LaROSA, PATRICIA A. (1988)
Associate Professor, Department of Information Systems and Decision Sciences B.S., M.A., Eastern Kentucky University; Ph.D., Arizona State University.
LASLOVICH, JOANNE M. (1983) Assistant Professor, Physical Therapy Program B.A., California State University, Sacramento; B.S., M.A., California State University, Fresno.
LATIMER, HOWARD L. (1958)
Professor, Department of Biology B.S., M.S., State College of Washington; Ph.D., Claremont College.
LAURY, FRANK B. (1959)
Professor, Chair, Department of Art B.A., University of Northern Iowa; M.A., Stanford University.

LEAVITT, GEORGE S. (1955)
Professor, Department of Psychology
B.A., Macalester College; M.A., Ph.D., University of California, Berkeley.
LEE, ROBERT E. (1964)
Professor, Department of Geography B.A., M.A., San Jose State College; Ph.D., University of California, Los Angeles.

LEET, DON R. (1969-71; 1972)
Acting Chair, Department of Geography;
Professor, Department of Economics
B.A., University of Pittsburgh;
M.A., Ph.D., University of Pennsylvania.

LENTELL, GARY LEE (1984)
Associate Professor, Physical Therapy Program B.S., California State University, Fresno; M.S., Massachusetts General Hospital Institute of Health Professions.
LeSOURD, SANDRA J. (1986)
Associate Professor,
Department of Curriculum, Teaching, and Educational Technology
B.A., Southern Illinois University;
M.A., Ed.S., Ed.D., University of Georgia.

LEUE, DAVID E. (1984)
Associate Professor,
Department of Industrial Technology
B.A., University of California, Berkeley;
B.A., Armed Forces Staff College;
M.A., California State University, Fresno.

LEUNG, CHI KIN (1989)
Lecturer, Department of Geography
M.T.C.P, The University of Sydney; B.S.Sc., The Chinese University of Hong Kong.
LEVINE, PHILIP (1958)
Professor, Department of English
A.B., A.M., Wayne University;
M.F.A., State University of Iowa.

LEVINE, ROBERT V. (1973)
Professor, Chair (Spring),
Department of Psychology
A.B., University of California, Berkeley;
M.S., Florida State University;

Ph.D., New York University.
LEWIS, DAVID G. (1980)
Professor, Department of Journalism
B.A., M.A., California State University, Northridge.
LEWIS, JOIA A. (1990)
Lecturer, Department of Philosophy
B.A., University of Massachusetts, Amherst; M.A., Ph.D., Indiana University.
LIAO, SAMUEL Y. (1965)
Professor, Department of Electrical and Computer Engineering
B.S., University of Chicago;
M.S.E.E., University of Idaho.

LINDAE, DETLEV (1971)
Professor, Department of Mathematics
B.A., M.A., Ph.D., University of California, Berkeley.
LINWOOD, DAVID A. (1988)
Lecturer, Department of Mathematics
B.A., University of Chicago;
M.S., Ph.D., New York University.

LIPP, ELLEN (1985)
Associate Professor, Department of Linguistics
B.A., Connecticut College;
M.A., Ph.D., American University.

LISKEY, NATHAN E. (1965)
Professor, Department of Health Science
B.A., La Verne College;
M.S., H.S.D., Indiana University.

LIU, CHUNG K. (1982)
Professor, Department of Electrical and Computer Engineering
B.S.E., National Cheng Kung University
(Taiwan); M.S.E.E., University of Minnesota; Ph.D., Catholic University of
America; Registered Professional Engineer.
LIU, WALLACE C. (1979)
Professor, Department of Information
Systems and Decision Sciences
B.C., National Chengchi University
(Taiwan); M.B.A., M.S., Western Illinois
University; Ph.D., University of Alabama.
LOCKHART, LEE (1989)
Director, University Business Center B.S., M.B.A., California State University, Fresno.
LOCKWOOD, NORMAN H. (1968)
Professor, Department of Art
B.A., University of Washington;
M.F.A., Mills College.

LOGAN, BARRY L. (1961)
Professor, Department of English
B.A., M.A., Syracuse University;

Ph.D., Yale University.
LONGLEY, KARL E. (Spring 1982)
Acting Associate Dean, School of Engineering;
Professor, Chair, Department of Civil and Surveying Engineering
B.S., University of New Mexico, Albuquerque; M.S., Sc.D., Johns Hopkins University; Registered Professional Engineer.
LOPEZ, DAVID P. (1981)
Professor, Department of Curriculum, Teaching, and Educational Technology B.S., University of New Mexico; M.A., New Mexico Highlands University; Ed.D., New Mexico State University.
LOPEZ-URRUTIA, M. MARGARITA (1973)

Professor, Department of Foreign Languages and Literatures
B.A., M.A., University of Texas at El Paso; Ph.D., University of Arizona.
LORENZ, PHILIIP M. (1969)
Professor, Department of Music.
LORING, JANET (1957)
Professor, Department of Theatre Arts
B.S., Northwestern University;
M.A., University of Missouri;

Ph.D., State University of Iowa.

## LOSCUTOFF, WALTER V. (1987)

Professor, Chair, Department of Mechanical and Industrial Engineering B.S., M.S., Ph.D., University of California, Berkeley.

LOVING, CATHLEEN C. (1990)
Associate Professor, Department of Curriculum, Teaching, and Educational Technology and Department of Biology B.S., Pennsylvania State University; M.A.T., Duke University;

Ph.D., University of Texas at Austin.
LOVING, JEROME M. (1990)
Lecturer, Department of Foreign
Languages and Literatures
B.A., Pennsylvania State University;
M.A., Duquesne University;

Ph.D., Duke University.
LOYA, OSCAR (1989)
Lecturer, Department of Literacy and Early Education B.A., California State University, Bakersfield;
M.A., California State University, Fresno;
M.A., Chapman College;

Ed.D., University of Southern California.
LUDWIG, MARY A. (1977)
Professor, Chair, Department of Anthropology B.A., M.A., San Francisco State University; Ph.D., University of Toronto.

LUNA, JESUS (1976)
Professor, Department of History
B.A., Pan American University; M.A., East Texas State University; Ph.D., North Texas State University.
LUND, EDWARD O., JR. (1966)
Professor, Department of Art
B.S., University of Wisconsin;
M.F.A., Indiana University.

LUNDAL, ROBERT E. (1968)
Assistant Dean of Student Affairs
B.S., M.S., Indiana University.

LYON, ROSE M. (1973)
Professor, Department of Physical Education and Human Performance B.A., Pasadena College; M.S., Ph.D., University of Southern California.

MACK, SEYMOUR (1957)
Professor, Department of Geology B.S., College of the City of New York; M.S., Ph.D., Syracuse University.

MADDEN, HARRISON E. (1956) Professor, Department of Psychology B.S., M.A., Ph.D., University of Kansas; Licensed Psychologist.

MAHAJAN, PRAKASH T. (1982)
Professor, Department of Mechanical and Industrial Engineering
B.Tech.M.E., Indian Institute of Technology; M.S.I.E., University of Arkansas, Fayetteville; Ph.D., University of Texas at Arlington.
MAHANTY, SATYA DIWAKAR (1978)
Professor, Department of Mechanical and Industrial Engineering
B.E., Andhra University (India); M.Tech., Indian Institute of Technology, Kharagpur (India); M.S., Ph.D., University of California, Santa Barbara.

MAHONEY, RONALD J. (1968) Librarian, Special Collections Department B.A., University of the Americas (Mexico City College); M.L.S., University of California, Berkeley.

MAJORS, DIANE L. (1968) Associate Librarian, Reference Department B.A., California State University, Fresno; M.L.S., University of California, Los Angeles.

MAJORS, KERN T. (1969)
Associate Librarian, Government Publications Department
B.S., M.L.S., University of California, Berkeley.
MAKAREM, SELWA (1984)
Associate Professor, Department of Nursing B.S.N., American University of Beirut; M.S.N., Boston University; M.A.Ed., Ed.D., Teacher's College, Columbia University.
MALLIOS, WILLIAM S. (1982)
Professor, Department of Information Systems and Decision Sciences B.S., Purdue University; M.S., Ph.D., North Carolina State University.
MALLORY, THOMAS E. (1968)
Professor, Department of Biology B.S., University of Redlands; M.S., Ph.D., University of California, Davis.
MANGAN, JERROME (1970)
Professor, Department of Biology B.A., M.S., University of Cincinnati; Ph.D., Brown University.
MANNERS, MAJOR D. (1987)
Assistant Professor, Department of Aerospace Studies B.S., M.S., University of Southern Mississippi.
MANSURI, MASUD (1989)
Lecturer, Department of Mechanical and Industrial Engineering B.S., Arya-Mehr University of Technology (Tehran); M.S., Texas A \& M University; Ph.D., North Carolina State University.

## MARDON, RUSSELL J. (1988)

Assistant Professor,
Department of Political Science
B.A., M.P.A., Ph.D., Michigan State University.
MARGETTS, DAVID R. (1981)
Professor, Department of Music
B.A., University of Utah; M.A., University of California, Los Angeles; M.A., California State College, Los Angeles; D.M.A., University of Southern California.
MARHENKE, RONALD LEE (1970)
Professor, Department of Chemistry B.S., Valparaiso University; Ph.D., Purdue University.
MARKERT, LOUIS F. (1983)
Professor, Department of Counseling and Special Education
B.A., University of California, Los Angeles;
M.A., California State University, Dominquez Hills; Ph.D., University of California, Los Angeles; N.B.C.C. Board Certified Counselor.
MARSHALL, JAMES E., II (1990)
Assistant Professor,
Department of Curriculum, Teaching, and Educational Technology
B.S., University of Florida;
M.A., Ph.D., University of South Florida.

MARTIN, GERALD D. (1980)
Professor, Department of
Finance and Business Law
B.S., Clemson University;
M.B.A., Ph.D., Arizona State University.

MARTIN, HOWARD J. (1965)
Professor, Department of Plant
Science and Mechanized Agriculture
B.S.A.E., California State Polytechnic College, San Luis Obispo; M.A., California State University, Fresno.
MARTIN, ROBERT K. (1986)
Professor, Physical Therapy Program
B.S., M.S., Brigham Young University; Ph.D., University of Iowa.

MARTINEZ, ERNESTO A. (1971)
Professor, Department of Chicano and Latin American Studies
B.A., M.A., California State University, Fresno; M.A., California State University, Northridge.

MARTLAND, DAVID (1990)
Lecturer, Department of Computer Science B.Sc., University of East Anglia, Norwich; M.Sc., Oriel College, Oxford; Ph.D., Brunel University, Uxbridge (England).

MASON, HERBERT 0. (1983)
Professor, Department of Agricultural Economics
B.A., Stanford University;

Ph.D., University of California, Davis.
MASTER, PETER A. (1987)
Assistant Professor, Department of Linguistics B.A., University of California, Santa Barbara; M.A., San Francisco State University; Ph.D., University of California, Los Angeles.
MASTERS, RUTH (1972)
Professor, Department of Criminology B.A., University of California, Berkeley; M.S., California State University, Fresno; Ed.D., University of Southern California.
MATA, SUSANA C. (1990)
Assistant Professor,
Department of Curriculum, Teaching, and Educational Technology
B.S., California State University, Fresno;
M.A., Ph.D., Stanford University.

MATHAI, MARIAMMA K. (1982)
Professor, Department of Nursing
B.S.N., Kerala University (India); M.Ed., Ed.D., Columbia University Teachers College.
MATHIESEN, MARJEAN J. (1979)
Lecturer, Department of Nursing B.S.N., M.S.N., Loma Linda University.

MATLOSZ, DONALD L. (1982)
Professor, Department of Health Science B.S., University of Houston; M.S., North Texas State University; Dr.P.H., University of Texas.
MATLOSZ, IRIS (1981)
Director, Budget Planning and Administration B.S., California State University, Fresno.

MAUGHELLI, MARY L. (1962)
Professor, Department of Art
B.A., M.A., University of California, Berkeley.
MAYER, BARBARA J. (1983) Professor, Department of Chemistry B.S., University of Puget Sound; Ph.D., Dartmouth College.
MAYSE, MARK A. (1983)
Professor, Department of Plant Science and Mechanized Agriculture B.S., M.S., Ph.D., University of Illinois, Urbana.

McALISTER, BRUCE (1988)
Counselor, Student Counseling Center B.A., M.S.W., California State University, Fresno; Licensed Clinical Social Worker.
McBRIDE, M. SCOTT (1984) Associate Professor, Department of Music B.M., M.M., Kent State University; Ph.D., University of Oklahoma.

McCALISTER, DWAYNE A. (1983)
Lecturer, Department of Electrical and Computer Engineering B.S.E.E., Long Beach State College; M.S.E.E., Sacramento State College.

McCLINTIC, J. ROBERT (1954)
Professor, Department of Biology
B.A., San Diego State College;

Ph.D., University of California, Berkeley.
McCOY, ROSALIND (1990)
Lecturer, Department of
Finance and Business Law
B.A., M.B.A., California State University, Fresno.
McCURRY, GARY K. (1985)
Professor, Department of
Industrial Technology
B.A., M.S., California State University, Fresno.
McDERMOTT, JOHN J. (1969)
Professor, Department of English
B.A., University of Notre Dame;
M.A., Columbia University;

Ph.D., University of California, Los Angeles.
McDONALD, MAXINE (1982)
Assistant Director,
Educational Opportunity Program B.S., Southern University Agricultural and Mechanical College; M.A., California State University, Fresno.
McDOUGALL, THOMAS (1966)
Professor, Department of Art
B.A., San Jose State College;
M.A., San Fernando Valley State College.

McFERRIN, WILLIAM D. (1970)
Professor, Department of Accountancy B.S., Northwestern State College; M.B.A., Louisiana State University; Ph.D., United States International University.
McGOLDRICK, BERNARD E. (1969)
Professor, Department of Political Science
B.A., M.A., Fordham University;
B.D., Woodstock College;
M.A., Ph.D., Georgetown University.

McKEEVER, TERI (1987)
Head Swim Coach, Department of Athletics B.S., University of Southern California.

McKINLEY, KATHLEEN S. (1983) Associate Professor, Department of Theatre Arts
B.A., California State University, Fresno; M.F.A., University of California, Davis.

McKNIGHT, H. RAY (1965)
Professor, Department of English B.A., Harvard College;
M.A., Ph.D., University of North Carolina.

McLEOD, ALBERT I. (1968)
Professor, Department of Sociology
B.A., Evangel College; M.A., University of Omaha; Ph.D., University of Nebraska.
McMAIN, ROBERT K. (1981)
Professor, Department of
Social Work Education B.A., M.S.W., Wayne State University; Ph.D., University of New Mexico.
McMENAMIN, GERALD R. (1980)
Professor, Department of Linguistics B.A., University of California, Irvine; M.A., California State University, Fresno; Ph.D., El Colegio de Mexico.
MERCHEN, WAYNE V. (1969)
Professor, Coordinator, City and Regional Planning Program
B.A., California State University, Fresno; M.U.P., University of Washington.

MERRILL, ROBERT D. (1970)
Professor, Chair, Department of Geology B.A., University of California, Riverside; M.S., University of Massachusetts; Ph.D., University of Texas at Austin.

MEYER, WILLIAM C. (1989)
Lecturer, Department of
Literacy and Early Education
B.A., Tarkio College; M.A., California State University, Fullerton; Ph.D., Ball State University.
MIKELL, ROBERT S. (1972)
Professor, Ethnic Studies Program B.S., M.B.A., California State University, Fresno; Ed.D., University of Southern California.

## MILICH, TOM (1989)

Water Polo Coach, Department of Athletics B.S., California State University, Long Beach.
MILLER, CHARLES L. (1979)
Assistant Director of Housing
B.S., M.Ed., CAGS, Springfield College.

MILLER, JAMES B. (1971)
Director of Public Affairs
B.S., M.A., California State University, Fresno.
MILLER, TERRY C. (1969)
Professor, Department of Theatre Arts A.B., University of California, Berkeley; M.A., Northwestern University; M.F.A., Ohio University.

MILUTINOVICH, DIANE (1980)
Associate Athletic Director
B.A., California State University, Fresno.

MINICK, ROBERT A. (1962)
Professor, Department of Economics
B.S., M.S., North Texas State College; Ph.D., University of Texas.

MINSCHEW, WILLIAM E., JR.
(Spring 1963)
Professor, Department of Art B.S., Atlantic Christian College; M.F.A., University of North Carolina.

MISTRY, KAREN E. (1989)
Lecturer, Department of Linguistics
B.A., University of California, Berkeley;
M.A., University of California, Los Angeles.

MISTRY, P.J. (1969)
Professor, Department of Linguistics B.A., M.A., Elphinstone College (Bombay); M.A., University of Pennsylvania; Ph.D., University of California, Los Angeles.
MITCHELL, C. DEAN (1975)
Professor, Department of Chemistry
B.A., Monmouth College;

Ph.D., University of Illinois.
MITCHELL, COLLEEN A. (1968)
Associate Librarian, Acquisitions Department B.A., College of the Holy Names;
M.A., Washington University; M.L.S., University of California, Berkeley.

MITCHELL, T. RUSSELL
(1967-Fall 1973; 1980)
Counselor, International
Student Services and Programs
B.A., M.A., California State University, Fresno; Ed.D., University of Southern California.
MIZUNO, WALTER K. (1979)
Lecturer, Department of Mechanical and Industrial Engineering
B.S.M.E., M.S.M.E., University of

California, Berkeley.
MOERK, ERNST (1967)
Professor, Department of Psychology M.A., Ph.D., University of Innsbruck.

MOFFITT, KATHLEEN E. (1989) Associate Professor, Department of Information Systems and Decision Sciences
B.A., University of Colorado;
M.A., University of Arizona;

Ph.D., Arizona State University.
MOGHADDAM, JAHANGUIR M. (1979)
Professor, Department of Management
B.A., Iranian Institute of Advanced Accounting (Iran); M.B.A., Saint Mary's University; Ph.D., North Texas State University.
MOLEN, DAYLE H. (1965)
Professor, Department of Journalism
B.A., University of Idaho;
M.S., University of Oregon.

MOLINA, ANTHONY J. (1984)
Physician, Student Health Center
B.S., University of Notre Dame;
M.D., University of California, San Francisco; Board Certified, Family Practice.
MONKE, ROBERT H. (1969)
Associate Dean, School of Education and Human Development;
Professor, Department of Counseling and Special Education
B.S., M.S., Illinois State University; Ph.D., Arizona State University; N.B.C.C. Board Certified Counselor.

MONSON, WILLIAM N. (1968)
Professor, Department of Telecommunications B.A., Knox College;
M.A., San Fernando Valley State College; Ph.D., University of Oregon.

MORALES, JACOBO O. (1990) Assistant Professor, Department of Physical Education And Human Performance B.A., University of Puerto Rico; M.A., Ph.D., University of Maryland.

MORALES, RICHARD E. (1988)
Lecturer, Department of Curriculum, Teaching, and Educational Technology B.A., M.A., California State University, Northridge.
MORGAN, DONALD L. (Spring 1972)
Professor, Department of Geography B.A., M.A., University of California, Los Angeles; M.S., Stanford University; Ph.D., University of California, Davis.
MORI, NOBUO (1967)
Professor, Department of
Social Work Education
B.S., M.S.W., University of Utah.

MORIN, KIM V. (1987)
Assistant Professor,
Department of Theatre Arts
B.A., Florida State University;
B.S., University of Alabama;
M.F.A., Arizona State University.

MORTENSEN, STEVEN (1987)
Director, University Student
Union and Student Activities
B.S., California State University, Fresno; M.S., California State University, Sacramento.

MORTIMER, DELL L. (1968)
Professor, Department of Accountancy B.A., Chico State College;
M.B.A., University of California, Berkeley; D.B.A., University of Colorado.

MORTIMER, GRETA S. (1984)
Lecturer, Department of Accountancy
A.B., Chico State College;
M.B.A., University of California, Berkeley.

MOSES, JOHN W. (1989)
Lecturer, Department of English
A.B., Albright College; M.A., Kutztown State College; Ph.D., Miami University.
MOSHIER, KENNETH D. (1973)
Professor, Department of
Industrial Technology
B.A., M.A., California State University, Fresno; Ed.D., Utah State University.

MOTAMENI, REZA (1989)
Associate Professor, Department of
Marketing and Logistics
B.S., College of Mass Communication, Tehran (Iran); M.S., West Coast University; Ph.D., University of Georgia.
MOTT, MARY L. (1969)
Professor, Department of Physical Education and Human Performance B.A., University of California, Santa Barbara; M.A., Stanford University; Ed.D., Louisiana State University.
MOTZ, ARLENE A. (1986)
Professor, Department of Information Systems and Decision Sciences B.S.Ed., M.Ed., Ohio University; Ph.D., University of Colorado, Boulder.
MULJADI, EDUARD (1988)
Lecturer, Department of Electrical and Computer Engineering Ir., Surabaya Institute of Technology (Indonesia); M.Sc., Ph.D., University of Wisconsin.
MULLENNIX, GRADY L. (1958)
Professor, Department of Economics
B.S., M.S., North Texas State College;

Ph.D., University of Texas.
MULLER, CARLOS J. (1978)
Professor, Department of Enology,
Food Science, and Nutrition
B.S., M.S., Ph.D., University of California, Davis.
MUNJY, RIADH A. HALIM (1982)
Professor, Department of Civil and Surveying Engineering
B.S.C.E., University of Baghdad (Iraq);
M.S.C.E., M.S.-Applied Math, Ph.D., University of Washington; Registered Civil Engineer.
MUNSHOWER, CAROL B. (1968)
Director of International
Student Services and Programs
B.A., M.A., California State University, Fresno.
MYERS, BRADLEY J. (1984)
Associate Professor,
Department of Theatre Arts
B.A., University of Wisconsin - Eau Claire; M.F.A., University of Arizona.

NADANER, DANIEL G. (1988)
Associate Professor, Department of Art A.B., Harvard University; M.F.A., University of California, Berkeley; Ph.D., Stanford University.
NADER, FAREED W. (1975)
Professor, Department of Civil
and Surveying Engineering
B.S., University of Arizona; M.S., Arizona State University; Ph.D., Purdue University; Licensed Land Surveyor.
NAJAR, RUDOLPH M. (1990)
Professor, Department of Mathematics B.S., St. Mary's College;
M.A., University of California, Berkeley;
M.S., Ph.D., University of Notre Dame.

NASSE, GEORGE N. (1965)
Professor, Department of Geography
B.A., Clark University;
M.A., Ph.D., University of Michigan.

NATHARIUS, DAVID T. (1966)
Professor, Department of Speech Communication
B.A., Los Angeles State College;
M.A., Bradley University;

Ph.D., University of Southern California.
NEAL, JUDITH C. (1988)
Assistant Professor, Department of
Literacy and Early Education
B.A., La Verne College;
M.A., California State University, Fresno;

Ed.D., University of the Pacific.
NEF, DENNIS L. (1983)
Professor, Chair,
Department of Agricultural Economics
B.S., Brigham Young University;
M.S., Utah State University;

Ph.D., Iowa State University.
NELSON, DARREN M. (1968)
Professor, Department of Animal Sciences and Agricultural Education B.S., University of Nebraska;

Ph.D., University of Illinois.
NELSON, EDWARD E. (1973)
Professor, Department of Sociology B.A., M.A., Ph.D., University of California, Los Angeles.
NELSON, ELIZABETH N. (1973)
Professor, Chair, Department of Sociology
B.A., Washington State University; M.A., Ph.D., University of California, Los Angeles.
NELSON, W. WARD (1971)
Assistant Director-Records and Registration Services, Admissions/Records/Evaluations B.S., M.B.A., University of Southern California.

NEVIS, JOEL A. (1990)
Lecturer, Department of Linguistics
B.A., University of Florida; M.A., Ph.D., Ohio State University.

NEWELL, TERRY G. (1969)
Professor, Chair (Fall),
Department of Psychology
B.A., Ph.D., University of Minnesota.

NG, FRANKLIN CHEW LUN (1975)
Professor, Department of Anthropology
B.A., Johns Hopkins University;
M.A., Harvard University;
M.A., Ph.D., University of Chicago.

NG, KIN CHIU (1983)
Associate Professor, Department of Chemistry B.S., Northern Arizona University;
M.S., Murray State University;

Ph.D., University of Cincinnati.
NGUYEN, YEN H. (1981)
Physician, Student Health Center
M.D., Saigon University (Vietnam);

Board Certified, Family Practice.
NIXON, ARNE J. (1961)
Professor, Department of Curriculum,
Teaching, and Educational Technology B.S., Ellendale State Teachers College (North Dakota); Ed.M., Western
Washington College of Education; Ed.D.,
Teachers College, Columbia University.
NORDSTROM, RICHARD (1981)
Professor, Chair, Department of
Marketing and Logistics
B.S., University of Kansas;
M.B.A., Wichita State University;

Ph.D., University of Arkansas.
NORSWORTHY, STANLEY F. (1966)
Professor, Department of Geography
B.A., University of California, Los Angeles;
M.A., Miami University; Ph.D., University
of California, Los Angeles.
NUR, HUSSAIN SAYID (1967)
Professor, Department of Mathematics B.S., University of Baghdad (Iraq); M.A., Ph.D., University of California, Berkeley.
NURY, FRED S. (1969)
Professor, Department of Enology,
Food Science, and Nutrition
B.S., University of California, Berkeley;
M.S., American University;

Ph.D., Utah State University.
NUTTALL, PATRICIA R. (1990)
Associate Professor, Department of Nursing B.S., M.S., California State University, Fresno; Ph.D., University of Utah.
O'BRIEN, JOHN C. (1965)
Professor, Applied Ethics Program
B.Com., University of London (England);
M.A., Ph.D., University of Notre Dame.

OGDEN, PAUL W. (1979)
Professor, Department of
Communicative Disorders
B.A., Antioch College; M.A., Ph.D.,

University of Illinois at Urbana.
OKAMOTO, SHIGEKO (1986)
Assistant Professor, Department of Linguistics B.A., Kyoto Prefectural University (Japan); M.A., California State University, Fresno;

Ph.D., University of California, Berkeley.
OLGIN, MANUEL J. (Spring 1974)
Coordinator, Student Services, Visalia Center B.A., M.S.W., California State University, Fresno.
OLNEY, ARTHUR J. (1969)
Professor, Department of Plant
Science and Mechanized Agriculture
B.S., University of Rhode Island;
M.S., Ph.D., Michigan State University.

O'NEIL, ROBERT M. (1957)
Professor, Department of English
B.A., M.A., Montana State University; Ph.D., University of Washington.
ONG, BENG SOO (1990)
Lecturer, Department of
Marketing and Logistics
B.S., M.B.A., Central Missouri State

University.
ONO, HOWARD K. (1972)
Professor, Department of Chemistry
B.S., California Institute of Technology;

Ph.D., University of California, Berkeley.
OROZCO, CECILIO (1975)
Professor, Department of
Literacy and Early Education
B.S., M.A., Northern Arizona University;

Ph.D., University of New Mexico.
OSBORN, JOHN P. (1979)
Professor, Department of Accountancy B.S., M.B.A., Arizona State University; Ph.D., University of Georgia.
OSTERBERG, RICHARD F.
(Spring 1971)
Professor, Department of
Literacy and Early Education
B.A., M.A., California State University, Fresno; Ed.D., University of Southern California.
OVERSTREET, LEILANI (1970)
Professor, Department of Physical
Education and Human Performance
B.A., M.A., San Fernando Valley State College.
OWEN, BARBARA A. (Spring 1990)
Associate Professor,
Department of Criminology
B.A., University of California, Davis;
M.A., San Francisco State;

Ph.D., University of California, Berkeley.

OWENS, LARRY DEAN (1985)
Professor, Department of Electrical and Computer Engineering
B.S., California Polytechnic State University, San Luis Obispo; M.S., New York University; Ph.D., University of Pennsylvania.
OWENS, LAWRENCE P. (1990)
Lecturer, Department of Civil
and Surveying Engineering
B.S., M.S., California State University, Fresno.
PAGANI, TOM J. (1983)
Women's Track/Cross Country Coach, Department of Athletics
B.S., California Polytechnic State University, San Luis Obispo.
PAGLIERANI, GARY B. (1970)
Professor, Department of
Industrial Technology
B.A., M.A., San Jose State College.

PALACIO, ROBERT S. (1980-81; 1987)
Assistant Professor, Department of Sociology
B.A., California State University, Fresno;
M.A., Ph.D., University of California, Berkeley.

PALOMINO, ERNEST (1970)
Associate Professor, Department of Art B.A., California State University, Fresno; M.A., San Francisco State College.

PAN, SHENG-DER (1980)
Professor, Department of Accountancy B.A., National Taiwan University; M.A., National Chengchi University; M.A.S., Ph.D., University of Illinois.

PANICO, VICTOR G. (1970)
Professor, Department of Management B.S., M.S., Siena College; Ed.D., Arizona State University.
PAPA-LEWIS, ROSEMARY (1986)
Professor, Department of Educational Research, Administration, and Foundations B.A., California State University, Los Angeles; M.A., California State University, Northridge; Ed.D., University of Nebraska, Lincoln.
PARHAM, ARTHUR A. (1985)
Associate Professor, Department of Animal Sciences and Agricultural Education B.S., California State University, Fresno; M.S., Ph.D., University of Wyoming.

PARIS, JACK F. (Spring 1989) Lecturer, Department of Geography B.S. (Atmospheric Sciences), University of Washington; B.S. (Physics), Ph.D., Texas A \& M University.
PARKER, ROBERTO (Spring 1984)
Strength and Conditioning Coach B.S., South Dakota State University.

PARKER, RON M. (1982)
Professor, Department of
Communicative Disorders
B.S., Andhra University (India); M.S., India Institute of Speech and Hearing; Ph.D., Wichita State University.

## PASCAL, KENNETH C. (1981)

Associate Dean,
Division of Extended Education
B.A., Yale University; M.Ed., University of Massachusetts Amherst Campus; Ph.D., University of California, Los Angeles.
PATTERSON, KATHLEEN (1980)
Lecturer, Department of Nursing
B.S.N., St. Anselm College;
M.S., University of Massachusetts at Amherst.
PAUL, MARTIN T. (1967)
Professor, Department of English
B.A., College of the Holy Cross; M.A., Ph.D., University of Wisconsin.

PAULL, ROBERT (1986) Director, Student Health Services B.A., M.D., University of Louisville; M.P.H., University of California, Berkeley.

PENA, FRANCES A. (1979)
Director, University Outreach Services B.S., M.S.W., California State University, Fresno.

PENA, MANUEL ( 1981 )
Professor, Department of Foreign Languages and Literatures B.A., M.A., California State University, Fresno; Ph.D., University of Texas at Austin.
PENBERA, JOSEPH JOHN (1985)
Dean, School of Business and Administrative Sciences;
Professor, Department of Management B.A., Rutgers The State University of New Jersey New Brunswick Campus; M.P.A., City University of New York Bernard Baruch College; Ph.D., American University.

PENG, WILLIAM (Spring 1984)
Professor, Department of Mechanical and Industrial Engineering
B.S.M.E., National Taiwan University; M.S., Ph.D., Stanford University.

PERCY, WELDON W. (1976)
Coordinator, Disabled Students Services
B.A., California State University, Fresno.

PEREZ, MANUEL (1971)
Associate Dean of Student Affairs
B.A., M.S.W., California State University, Fresno.

PEREZ, ROBERT F. (1972-82; 1989)
Associate Professor,
Department of Criminology
B.A., Chico State College; J.D., University of the Pacific, McGeorge School of Law.
PEREZ, THERESA R. (1971)
Professor, Department of Curriculum, Teaching, and Educational Technology B.A., M.A., California State University, Fresno; Ph.D., Stanford University.
PERRY, LAURIE L. (1969)
Counselor, Student Counseling Center B.A., Lewis and Clark College; M.A., University of Hawaii; M.A., California State University, Fresno; Licensed Marriage, Family, and Child Counselor.
PERRY, RANDY C. (1990)
Associate Professor, Department of Animal
Science and Agricultural Education
B.S., California Polytechnic State University, San Luis Obispo; M.S., Ph.D., Kansas State University.

PERRY, W. RONALD (1969)
Counselor, Student Counseling Center B.A., M.A., California State University, Fresno; Licensed Marriage, Family, and Child Counselor.
PETERSON, BETTY J. (1973)
Librarian, Curriculum and
Juvenile Collections
A.B., University of the Pacific; M.L.S., University of California, Berkeley.

PETRUCCI, VINCENT E. (1948)
Director, Viticulture and Enology Research Center; Professor, Department of Plant Science and Mechanized Agriculture B.S., M.S., University of California, Davis.

PEYVANDI, ALI (1979)
Professor, Department of Accountancy
B.S., College of Accounting (Iran);
M.A., Ball State University;

Ph.D., University of Missouri, Columbia.
PHAM, KIEN TRUNG (1990)
Assistant Professor,
Department of Curriculum, Teaching, and Educational Technology
B.S., M.Ed., University of Texas at El Paso; Ph.D., University of Texas at Austin.
PHERSON, CARL L. (1972)
Associate Dean, Academic Affairs,
School of Agricultural Sciences and
Technology; Professor, Department of Agricultural Economics
B.S., M.A., Ph.D., University of Minnesota.

PICANCO, JOSEPH (1987)
Instructor, Department of Military Science

PICKEL, DONNA RAE (1967)
Professor, Department of Physical Education and Human Performance B.S., Oklahoma Baptist University; M.S., Smith College; Ph.D., University of Oregon.
PICKERING, JEAN E. (1970)
Professor, Department of English
B.A., University College (London University); M.A., San Francisco State College; Ph.D., Stanford University.
PICKFORD, PATRICIA R. (Spring 1957)
Professor, Department of
Social Work Education
B.A., California State University, Fresno; M.S.W., University of California, Los Angeles.
PIERCE, WALTER J. (1972)
Assistant Director, Advising, and Testing B.S., Grambling State University; M.P.A., CSU Consortium.

PINCU, LESTER P. (1970)
Professor, Department of Criminology B.S., Tufts University; M.A., D.Crim., University of California, Berkeley.
PINKERTON, RICHARD L. (1986)

## Professor, Department of

Marketing and Logistics
B.A., University of Michigan - Ann Arbor;
M.B.A., Case Western Reserve University;

Ph.D., University of Wisconsin -
Madison.
PIRES, MARK (1990)
Assistant Professor,
Department of Military Science B.S., United States Military Academy.

PISCIOTTOLI, LOUIS F. (1967)
Professor, Department of Economics
B.A., Boston College;

Ph.D., Duke University.
PITT, JACK A. (1957)
Professor, Chair, Department of Philosophy B.S., Sir George Williams College (Canada); B.A., M.A., McGill University (Canada); Ph.D., Yale University.
PLUNKETT, JOSEPH (1977)
Professor, Chair, Department of Electrical and Computer Engineering B.S., Middle Tennessee State University; B.S.E.E., University of Tennessee; M.S.E.E., Georgia Institute of Technology; Ph.D., Texas A \& M University; Registered Professional Engineer.
POSS, STANLEY H. (1956)
Professor, Department of English
B.A., University of Redlands;
M.A., Claremont Graduate School;

Ph.D., University of Washington.

POSTON, BILLIE L. (1966)
Professor, Department of Physical
Education and Human Performance
B.S., M.S., University of Tennessee;

Ph.D., University of Utah.
POWELL, FRANK V. (1955)
Professor, Department of Psychology
B.A., University of Redlands;
M.S., Ph.D., University of Wisconsin;

Licensed Psychologist.
POWELL, ROBERT G. (1990)
Associate Professor, Department
of Speech Communication
B.A., California State University, Fresno; M.A., Miami University; Ph.D., University of Nebraska.
PRIEBE, PAUL M. (1976)
Associate Librarian, Reference Department B.A., California State College, Sonoma; M.A., Ph.D., University of Denver; M.L.S., University of California, Berkeley.

PRITCHARD, ROBERT H. (1987)
Associate Professor, Department of Literacy and Early Education B.A., Susquehanna University; M.S., California State University, Hayward; Ph.D., Indiana University, Bloomington.
PRONIN, ALEXANDER (1965)
Professor, Department of Foreign
Languages and Literatures
B.A., University of California, Berkeley;

Ph.D., Georgetown University.
PROVOST, DAVID H. (1958)
Professor, Department of Political Science
B.A., Pomona College; Ph.D., University of Queensland (Australia).
PRYOR, JOHN H. (1990)
Lecturer, Department of Anthropology
B.A., University of California, Santa Cruz; M.A., Ph.D., State University of New York, Binghamton.
QUADRO, DAVID F. (1970)
Executive Assistant to the
Vice President for Academic Affairs;
Director, Instructional Media Services;
Professor, Department of
Speech Communication
B.A., University of the Pacific; M.A., San Fernando Valley State College; Ph.D.,
University of California, Los Angeles.
QUINN, JOHN R. (1969)
Professor, Department of Criminology
B.A., Aquinas College;
M.A., Michigan State University.

QUINN, JOYCE A. (1985)
Associate Professor, Department of Geography B.A., M.A., University of Colorado; Ph.D., Arizona State University.

RAHMATIAN, SASAN (1985)
Professor, Department of Information Systems and Decision Sciences
B.A., LaSalle College;
M.A., Temple University;

Ph.D., University of Pennsylvania.
RANDALL, CHARLES H. (1962)
Professor, Department of Theatre Arts B.A., Central Washington College of Education; M.F.A., Yale University.
RANEY, GEORGE W. (1969)
Professor, Department of Linguistics B.A., Loyola University; M.A., Ph.D., University of Southern California.
RANGEL, JOSEPHINE (1987)
Counselor, Student Counseling Center B.S., M.S.W., California State University, Fresno; Licensed Clinical Social Worker.
RAY, D. N. (1959-62; Spring 1969)
Professor, Department of Criminology B.A., Yankton College;
M.A., Washington State University.

RAYMOND, JEANNINE M. S. (1983)
Assistant Director of Institutional Research; Professor, Department of Health Science B.A., M.A., University of California, Riverside; Ph.D., University of Southern California.

## READ, WALTER (1969)

Professor, Department of Computer Science B.A., Pennsylvania State University; Ph.D., University of Rochester.
RECTOR, CHERIE L. (1988)
Lecturer, Department of Nursing B.S., California State University, Long Beach; M.S., California State University, Fresno.
REGIER, ROBERT D. (1981)
Professor, Department of Electrical and Computer Engineering
B.S., California State University, Fresno;
M.S. (Operations Research), Stanford University; M.S. (Electrical Engineering), Ph.D., University of California, Santa Barbara.
REHART, B. SCHYLER, JR.
(Spring 1963)
Professor, Department of Journalism
B.A., M.A., California State University, Fresno.
REICHERT, RAPHAEL X. (1971)
Professor, Department of Art
B.A., San Diego State College; M.A., Ph.D., University of California, Los Angeles.
REITZEL, J. DAVID (1981)
Professor, Department of
Finance and Business Law
B.S., M.S., Purdue University; J.D., Indiana University.

RENSHAW, STEVEN L. (1989)
Assistant Professor,
Department of Speech Communication B.A., MA., North Texas State University; Ph.D., University of Oklahoma.
RICE, WILLIAM C. (1970)
Professor, Department of Child,
Family and Consumer Sciences
M.S., Pennsylvania State University;
B.S., Ph.D., Brigham Young University.

RICE, WILLIAM E. (1983)
Professor, Department of
Marketing and Logistics
B.S., M.S., California State University, Northridge;
D.B.A., University of Colorado.

RICHTER, BERTINA (1967)
Librarian, Catalogue Department
B.A., Sacramento State College;
M.L.S., University of California, Berkeley; M.A., California State University, Fresno.

RIES, JOACHIM S. (1964)
Professor, Department of English
B.A., Syracuse University;
M.A., Ph.D., University of Washington.

RIGSBY, ENRIQUE D. (1990)
Assistant Professor,
Department of Speech Communication B.A., M.A., California State University, Chico; Ph.D., University of Oregon.
RIMAWI, WALID H. (Spring 1982)
Professor, Department of Civil and Surveying Engineering B.S., University of Michigan; M.S., Ph.D., Northwestern University.

RITENOUR, GARY L. (1969)
Professor, Chair, Department of Plant
Science and Mechanized Agriculture
B.S., Purdue University; M.S., Ph.D., University of California, Davis.
RITTER, JEAN M. (1990)
Assistant Professor, Department of Psychology B.A., Hendrix College;

Ph.D., University of Texas at Austin.
ROBERSON, CLIFFORD E. (1984)
Professor, Department of Criminology
B.A., University of Missouri;
J.D., American University;
L.L.M., George Washington University;

Ph.D., United States International University.
ROBERTSON, JANINE (1972)
Physician, Student Health Center
B.A., Hunter College;
M.D., New York Medical College.

ROBISON, DELBERT E. (1977)
Professor, Department of Mechanical and Industrial Engineering B.S.M.E., University of Idaho; M.S., Ph.D., Purdue University.

RODEMEYER, STEPHEN A. (1967)
Professor, Department of Chemistry B.S., St. Thomas College;

Ph.D., University of California, Berkeley.
RODIEK, ANNE V. (Spring 1984)
Professor, Department of Animal
Sciences and Agricultural Education
B.S., M.S., Ph.D., University of Illinois at Urbana-Champaign.
ROGERS, JAMES H. (1981)
Professor, Ethnic Studies Program
B.S., University of Missouri; M.F.A., Ph.D., University of Iowa.

ROGERS, RICHARD A. (1978)
Professor, Department of Animal
Sciences and Agricultural Education
B.S., California State University, Fresno;
M.S., California Polytechnic State University, San Luis Obispo; Ph.D., Iowa State University.
ROSE, ROBERT S. (1989)
Lecturer, Department of Sociology B.A., California State University, Long Beach; M.S. Sc., Ph.D., University of Stockholm, Sweden.
ROSENTHAL, JUDITH A. (1971)
Professor, Department of English B.A., Harpur College; M.A., Ph.D., University of Pittsburgh.

ROSENTHAL, MATTHIAS J. (1989)
Assistant Professor, Department of
Foreign Languages and Literatures Abitur, Alexander-von-HomboldtGymnasium, Schweinfurt; Testamur, University of Exeter, England; Staatsexamen, Universitat Wurzburg; Ph.D., University of California, Santa Barbara.

ROSS, DAVID A. (1968)
Associate Dean, Division of Graduate Studies and Research;
Professor, Department of Foreign
Languages and Literatures
B.A., M.A., Ph.D., University of California, Los Angeles.
ROTH, LESTER J. (1956)
Professor, Department of Educational Research, Administration, and Foundations B.S., Kent State University;
M.A., Case Western Reserve University; Ed.D., Stanford University.

ROTSTAN, JOHN A. (1967)
Professor, Department of Political Science
B.A., M.Ed., Whittier College;
M.A., Ph.D., Claremont Graduate School.

ROWE, IVAN H. (1969)
Professor, Department of Curriculum, Teaching, and Educational Technology B.A., Dip.Ed., M.A., University of Auckland; M.A., California State University, Fresno; Ed.D., University of Southern California.

ROWLAND, WALTER F. (1967)
Professor, Department of Civil
and Surveying Engineering
B.S., M.S., University of Illinois;

Ph.D., Stanford University;
Registered Civil Engineer.
RUHL, ERVING C. (1967)
Professor, Department of
Social Work Education
B.A., Monmouth College;
M.A., University of Chicago;
D.S.W., University of Southern California.

RUSSELL, KENNETH H. (1963)
Professor, Department of Chemistry B.S., Portland State College; Ph.D., Washington State University.
RUSSLER, MICHAEL F. (1984)
Professor, Department of Nursing B.S.N., M.S.N., California State University, Fresno; Ed.D., University of San Francisco.
SALAZAR, J. LEONARD (1981)
Associate Vice President for Academic
Affairs - Instructional Program
Planning and Development;
Professor, Department of Educational Research, Administration, and Foundations
B.A., M.Ed., University of Utah;
D.Ed., Pennsylvania State University.

SALSGIVER, RICHARD 0. (1989)
Lecturer, Department of
Social Work Education
B.S., M.A., Indiana University of Pennsylvania; D.A., Carnegie-Mellon University; M.S.W., University of Pittsburgh.
SAMIIAN, VIDA (1984)
Associate Professor, Chair,
Department of Linguistics
B.A., M.A., Ph.D., University of California, Los Angeles.

SANCHEZ, REUBEN MARQUEZ (1988)
Assistant Professor, Department of English
B.A., University of New Mexico;
M.A., Ph.D., Cornell University.

SANCHEZ, VIRGINIA G. (1988)
Lecturer, Department of
Social Work Education
B.A., M.S.W., California State University, Fresno.
SANTESTEBAN, IGNACIO B. (1971)
Professor, Department of Foreign
Languages and Literatures
B.A., Zaragoza Philosophy College;
M.A., California State University, Fresno;

Ph.D., University of California, Riverside.
SAUER, KEITH ( 1971)
Professor, Department of Foreign
Languages and Literatures
B.A., M.A., University of California, Berkeley; Ph.D., University of Washington.
SCHECHTER, PAUL M. (1973)
Athletic Trainer, Department of Athletics
B.S., California State Polytechnic

University, Pomona;
M.S., Azusa Pacific CoIlege.

SCHICK, STEVEN E. (1983)
Professor, Department of Music
B.M., M.M., University of Iowa; Solistenprufung, State Academy of Music (West Germany).
SCHILLIING, DEANNA E. (1978)
Professor, Department of
Counseling and Special Education
B.A., University of Maryland; M.A.,

Ph.D., University of California, Davis.
SCHILLING, LEE H. (1976)
Physician, Student Health Center
B.A., San Diego State College;
M.D., University of Maryland;

Board Certified, Gynecology.
SCHLINDWEIN, CHARLES W. (1989)
Lecturer, Department of Mathematics B.S., California Institute of Technology.

SCHREIBER, FRED E. (1973)
Professor, Department of Biology B.S., M.S., Northern Illinois University; Ph.D., Ohio State University.
SCHROLL, JOANNE W. (1963)
Professor, Chair, Department of Physical Education and Human Performance B.A., M.A., California State University, Fresno.
SCHULTZ, RONALD C. (1972)
Professor, Chair,
Department of Health Science
B.A., M.S., California State University, Fresno; Registered Sanitarian; Ph.D., Oregon State University.
SEEVERS, JOHN ALTMAN (1990)
Lecturer, Department of Mechanical and Industrial Engineering
B.S., M.S., Ph.D., University of California, Davis.

SEGURA, ROBERTO D. (1980)
Professor, Department of Educational Research, Administration, and Foundations B.A., M.A., New Mexico Highlands University; Ed.D., Washington State University.
SEIGEL, ROBERT J. (1989)
Professor, Chair,
Department of Aerospace Studies
B.A., Ohio State University; M.B.A., National University.

SEKI, SHIGEKO (1984)
Professor, Department of Computer Science B.S., M.S., Ph.D., Kyoto University (Japan).

SELLS, PAMELA J. (1989)
Lecturer, Department of
Literacy and Early Education
B.S., M.A., California State University, Fresno.
SENA, ESTEBAN STEVE (1983)
Director of Student Counseling Center B.S., University of New Mexico;
M.A., New Mexico Highlands University;

Ed.D., Washington State University.
SEPEHRI, RON M. (1990)
Lecturer, Department of Mechanical and Industrial Engineering B.S., Arya-Mehr University (Iran); M.S., Ph.D., Stanford University.

SERRANO, JUAN (1985)
Professor, Department of Music
Honorary Doctor of Humane Letters,
Fairfield University.

## SERSLAND, CLAUDIA (1986)

Associate Professor,
Department of Agricultural Economics
B.S., M.S., Washington State University; Ph.D., Oklahoma State University.
SHAFFER, LINDA J. (1984)
Professor, Chair, Department of Economics
B.A., University of Rochester;
M.A., Ph.D., Northwestern University.

SHAHROKHI, MANUCHEHR (1986)
Director, Graduate Business Programs
Professor, Department of
Finance and Business Law;
B.B.A., Tehran Business School (Iran);
M.B.A., George Washington University;

Ph.D., Ohio State University.
SHANKEL, PETER W. (1990)
Lecturer, Department of
Marketing and Logistics
B.S., M.B.A., California State University, Fresno.
SHANIKS, SUSAN J. (1970)
Professor, Department of
Communicative Disorders
B.Ed., University of Toledo;
M.A., Bowling Green State University;

Ph.D., Louisiana State University.

## SHANNON, DOUGLAS (1984)

Associate Professor,
Department of Criminology
B.S., University of Wisconsin, Madison;
M.A., Ph.D., Sam Houston State University, Huntsville.
SHARPS, MATTHEW J. (1990) Assistant Professor, Department of Psychology B.A., University of Colorado, Boulder; M.A. (Clinical Psychology), University of California, Los Angeles;
M.A. (Developmental Psychology), Ph.D., University of Colorado, Boulder.
SHAVER, JON D. (1980)
Associate Dean, California Agricultural Technology Institute, School of Agricultural Sciences and Technology; Professor, Depart-
ment of Social Work Education
B.A., M.S., SUNY College, Brockport;

Ed.D., University of California,
Los Angeles.
SHAW, ELDEN K. (1985)
Dean, School of Engineering;
Professor, Department of Electrical
and Computer Engineering
B.S., Utah State University;
M.S., Ph.D., Stanford University.

SHAW, JOHN A., JR. (1965)
Professor, Department of Economics
B.A., San Diego State College;
M.S., Ph.D., Purdue University.

SHELTON, ERNEST (1971)
Director, Veterans Services
B.A., California State University, Stanislaus.
SHELTON, MARILYN R. (1987)
Assistant Professor, Department of
Literacy and Early Education
B.S., M.A., Western Oregon State College;

Ph.D., Ohio State University.
SHERWOOD, CHARLES (1980)
Professor, Department of
Marketing and Logistics
B.A., Dennison University;
M.B.A., University of Michigan;

Ph.D., University of Arkansas.
SHIELDS, JOHN R. (1978)
Professor, Department of Agricultural Economics
B.A., San Francisco State University;
M.A., Ph.D., Michigan State University.

SHIPLEY, KENNETH G. (1980)
Professor, Chair, Department of
Communicative Disorders
B.A., M.A., California State University, Los

Angeles; Ph.D., Wichita State University.
SIMBA, MALIK (1989)
Associate Professor, Ethnic Studies Program
B.A., University of Southern Colorado;
M.A., Ph.D., University of Minnesota.

SIMIS, PETER (1970-74; 1977)
Professor, Department of Information Systems and Decision Sciences; Director, Bureau of Business Research and Service
B.S., M.B.A., California State University, Fresno; D.B.A., Arizona State University.
SIMMONS, ANDREW M. (1970)
Professor, Department of English B.A., M.A., Ph.D., University of Missouri.

SIMPSON, DOUGLAS B. (1971)
Professor, Department of Management B.C., University of British Columbia; M.B.A., University of California, Berkeley; Ph.D., University of Washington.

SLANICEANU, ADRIANA N. (1969)
Professor, Department of Foreign
Languages and Literatures
B.A., University of Alberta;
M.A., University of Washington;

Ph.D., University of Michigan.
SLINGER, JAMES W. (1969)
Professor, Department of Philosophy B.S., Ph.D., University of Wisconsin.

SMALL, LILY B. (1972)
Professor, Coordinator, Ethnic Studies Program B.A., M.A., California State University, Fresno; Ed.D., University of the Pacific.
SMALLEY, R. GAYLE (1963)
Professor, Department of Art
B.F.A., Rochester Institute of Technology; M.F.A., Indiana University.

SMALLWOOD, CHARLES M. (1978)
Dean, School of Agricultural Sciences and Technology; Professor, Department of Animal Sciences and Agricultural Education B.S., Oklahoma State University; M.S., Ph.D., Texas A \& M University

SMETHERMAN, ROBERT M. (1967)
Professor, Department of History
B.A., Claremont Men's College;
M.A., Los Angeles State College; Ph.D., Claremont Graduate School.
SMITH, CHARLENE K. (1960)
Professor, Department of
Literacy and Early Education
B.A., Western College (Ohio); M.S., Butler University; Ed.D., Colorado State College.
SMITH, CHARLES R. (1980)
Professor, Department of
Finance and Business Law B.S., M.S., Kansas State University, Manhattan; Ph.D., Pennsylvania State University.

## SMITH, DAVID K. (1984)

Professor, Department of
Agricultural Economics
B.S., California State Polytechnic University, Pomona; M.S., Ph.D., University of California, Davis.

SMITH, DORIS O. (1979)
Professor, Department of
Literacy and Early Education
B.S., Adelphi University; M.A., Pacific Oaks College; Ed.D., University of the Pacific.
SMITH, EPHRAIM K., JR. (1966)
Professor, Department of History
B.A., Hillsdale College;
M.A., University of Nebraska; Ph.D., Johns Hopkins University.
SMITH, H. DAN (1978)
Professor, Chair, Department of Counseling and Special Education B.S., M.Ed., University of Texas at El Paso; Ed.D., University of Northern Colorado; Licensed Marriage, Family, and Child Counselor.
SMITH, JAMES MARVIN
(1959-66; 1969)
Professor, Department of Philosophy
B.A., University of Southern California; M.A., Ph.D., Brown University.

SMITH, JAMES MITCHELL (1965)
Associate Professor, Department of Psychology B.A., Ph.D., University of California, Los Angeles.
SMITH, LAWRENCE E. (1967)
Professor, Department of
Industrial Technology
B.S., M.S., Stout State University; Ed.D., University of Southern California.
SMITH, VINCENT J., JR. (1971)
Librarian, Catalogue Department
B.A., Sacramento State College; M.L.S., University of California, Berkeley.

SNIDER, JAMES G. (1976)
Professor, Department of
Counseling and Special Education B.S., M.S., University of Idaho; Ph.D., Stanford University.
SOBOLIK, GAYLE A. (1969)
Professor, Department of Information Systems and Decision Sciences B.A., Concordia College; M.A., Ph.D., University of North Dakota.

SOLIS, RAFAEL (1985)
Professor, Department of Information Systems and Decision Sciences
B.Sc., National Autonomous University of Mexico; M.Sc., College of Postgraduate Studies, National School of Agriculture, Chapingo, Mexico; Ph.D., University of Waterloo (Canada).

SOLOMON, KENNETH H. (1986)
Director, Center for Irrigation Technology B.S., Harvey Mudd College;
M.A., Claremont Graduate School;
M.S., Ph.D., Utah State University.

SORENSEN, GAIL A. (1985)
Associate Professor,
Department of Speech Communication
B.A., Michigan State University;
M.S., Illinois State University;

Ed.D., West Virginia University.
SOTO-MEDINA, EDWARD F. (1989)
Lecturer, Department of Music
B.A., M.M., California State University, Fullerton.

SOWBY, SHERMAN K. (1977)
Professor, Department of Health Science B.S., M.H.Ed., Brigham Young University; Ph.D., University of Utah.

SPENCER, ROBERT LEE (1981)
Women's Head Basketball Coach, Department of Athletics
B.A., Parsons College;
M.A., Northern Colorado University.

SPETH, KATHLEEN WALSH (1990)
Athletic Trainer, Department of Athletics
B.S., Oregon State University;
M.S., Illinois State University.

SPIELER, RICHARD A. (1968)
Professor, Department of Biology B.A., Ph.D., University of Chicago.

SPRING, C. DENNIS (1987) Associate Professor,
Department of Industrial Technology B.S., M.B.A., Louisiana State University.

SPRY, JONATHAN T. (1983)
Associate Professor,
Physical Therapy Program
B.S., University of California, Berkeley; M.S., Boston University.

STEGALL, DONALD P. (1986)
Professor, Department of
Finance and Business Law
B.S., M.S., University of Colorado, Boulder;
D.B.A., Indiana University, Bloomington.

STENGEL, DONALD N. (1983)
Professor, Department of Information
Systems and Decision Sciences
B.A., Lehigh University;
M.S., Ph.D., Stanford University.

STEWART, DARLENE L. (1980)
Professor, Coordinator,
Physical Therapy Program
B.S., University of Kansas;
M.S., California State University, Fresno.

STEWART, WILLLIAM (1976)
Counselor, Extended Outreach Service
B.S., Allen University.

STINE, BRAD (1987)
Men's Head Tennis Coach,
Department of Athletics
B.A., M.A., California State University, Fresno.

## STITTICH, ELLEANOR M. (1964)

Professor, Department of Nursing
B.S.N.E., M.Litt., University of Pittsburgh;

Registered Nurse.
STOCK, WILLIIAM P. (1971)
Test Officer
B.S., University of California, Berkeley;
M.Ed., University of California, Santa

Barbara; Ph.D., University of Southern
California.
STONE, BERNICE A. (1980)
Professor, Department of
Curriculum, Teaching, and
Educational Technology
B.A., University of California, Berkeley;
M.A., California State University, Fresno;

Ed.D., University of Southern California.
STORY, SYDNEY R. (1963)
Professor, Department of Anthropology B.A., M.A., Ph.D., University of California, Los Angeles.

## STRATON, JOHN C. (1990)

Lecturer, Department of Physics
B.F.A., M.S., Ph.D., University of Oregon.

## STREIGLER, R. KEITH (1990)

Research Scientist,
Viticulture and Enology Research Center B.S.A., M.S., University of Arkansas; Ph.D., Michigan State University.
STRUMWASSER, GINA (1971)
Professor, Department of Art
B.A., University of California, Berkeley;
M.A., California State College, Los Angeles; Ph.D., University of California, Los Angeles.
STUDE, EVERETT W. "Bud" (1971)
Professor, Department of
Counseling and Special Education
B.A., Pasadena College;
M.S., California State College, Los Angeles;

Ed.D., University of Southern California.
STUTZMAN, CARL R. (1969)
Professor, Department of Educational Research, Administration, and Foundations A.B., M.A., Ed.D., University of the Pacific.

SUEN, CHII-YEUNG JOHN (1990)
Professor, Department of Geology
B.Sc., McGill University (Canada); Sc.D., Massachusetts Institute of Technology.
SULLIVAN, MARGARET (1987)
Lecturer, Department of
Social Work Education
B.S., University of Massachusetts; M.S.W., California State University, Fresno.

SUN, CHENG (1985)
Professor, Department of Electrical and Computer Engineering
B.S., National Taiwan University;
M.S., Ph.D., Cornell University.

SUPERSAD, JANKIE N. (1970)
Professor, Department of Civil and Surveying Engineering
B.Sc., Glasgow University (Scotland);
M.S., Northwestern University;

Ph.D., Arizona State University.
SUTHERLAND, LAWRENCE R. (1969)
Professor, Department of Music
B.Mus.Ed., University of Tulsa; M.A.,

University of Missouri; D.M.A. (in
Conducting), University of Arizona.
SWALM, RICKY L. (1990)
Associate Professor, Department of Physical Education and Human Performance
B.S., Pennsylvania State University; M.S., Washington State University; Ph.D., Temple University.
SWEENEY, JAMES (1976; 12/1979)
Head Football Coach, Department of Athletics B.A., University of Portland.

SWEET, TERRECIA W. (1988)
Assistant Professor, Department of Counseling and Special Education B.A., Tougaloo College;
M.S., Ed.D., Mississippi State University.

## SY, JOSE (1985)

Professor, Department of Chemistry
B.S., Adamson University (Philippines);

Ph.D., Duke University.
TABBERT, WYNN C. (1970)
Professor, Department of
Social Work Education
B.A., University of Minnesota; M.S.W., D.S.W., University of Southern California.

TAI, BENJAMIN (1985)
Professor, Department of Accountancy
B.A., M.S., Illinois State University; Ph.D., University of Missouri; C.P.A., C.M.A.
TANIGUCHI, IZUMI (1963)
Professor, Department of Economics
B.B.A., M.B.A., University of Houston;

Ph.D., University of Texas.
TANLAMAI, UTHAI (1983)
Associate Professor, Department of
Information Systems and Decision Sciences B.A., Chulalongkorn University (Thailand); M.S., Ph.D., University of Illinois Urbana Campus.
TANNENBAUM, PETER (1983)
Professor, Department of Mathematics B.A., M.A., Ph.D., University of California, Santa Barbara.

TANNER, DAVID E. (1985)
Professor, Chair, Department of Educational Research, Administration, and Foundations B.A., M.A., Brigham Young University; Ph.D., Texas A \& M University.
TATE, MICHAEL G. (1970)
Professor, Department of English
A.B., University of California, Berkeley;
M.A., Ph.D., Indiana University.

TELLIER, RICHARD D. (1973)
Assistant Dean, School of Business and Administrative Sciences; Professor, Department of Management B.S.E.E., Drexel University; M.B.A., D.B.A., Florida State University.

TENNANT, CHRISTOPHER J. (1986)
Associate Professor,
Department of Health Science
B.Sc., Plymouth Polytechnic (England);

Ph.D., The University of Aston in
Birmingham (England).
TERRY, EDWIN F. (1969)
Professor, Department of Economics B.S., University of Oklahoma;
M.A., University of Kansas;

Ph.D., Iowa State University.
THACKREY, MICHAEL J. (1989)
Associate Professor, Department of Psychology
B.A., M.A., California State University,

Long Beach; Ph.D., Vanderbilt University;
Licensed Psychologist; Diplomate,
American Board of Professional
Psychology.
THAKUR, MANAB N. (1988)
Professor, Department of Management
M.A., M.Ph., University of London;

Ph.D., Brunel University (England).
THOMAS, MICHAEL W. (1985)
Professor, Department of Animal
Sciences and Agricultural Education
B.S., Brigham Young University;
D.V.M. Washington State University.

THOMPSON, J. GUNNAR (1987)
Lecturer, Department of
Counseling and Special Education B.A., University of Illinois, UrbanaChampaign; M.A. (Anthro.), M.A. (Voc. Rehab.), Ph.D., University of Wisconsin, Madison.
THOMSEN, C. TORBEN (1982)
Professor, Department of Accountancy B.S., Andrews University; M.B.A., Ph.D.,

Michigan State University; C.P.A., C.M.A.
THOMSON, PATRICIA L. (1967)
Professor, Department of Physical
Education and Human Performance
B.A., University of Washington;
M.S., University of California, Los Angeles;

Ph.D., University of Southern California.

THORBURN, MARGARET C. (1971)
Professor, Department of Nursing B.S., University of California, San Francisco; M.S., California State University, Fresno; Registered Nurse.

## THORNTON, BRUCE (1985)

Assistant Professor, Department of
Foreign Languages and Literatures;
Coordinator, Humanities
B.A., University of California, Los Angeles; M.A., California State University, Fresno;

Ph.D., University of California,
Los Angeles.
THURGOOD, GRAHAM W. (1979)
Professor, Department of Linguistics
B.A., M.A., San Jose State University;

Ph.D., University of California, Berkeley.
TINKER, JOHN N. (1969)
Professor, Department of Sociology
B.A., California State University, Fresno;
M.A., Ph.D., University of California, Los Angeles.
TITUS, CHARLES B. (1963)
Professor, Department of Accountancy
B.S., M.A., University of Oklahoma;

Ph.D., University of Texas.
TOCCHIO, OCTAVIO J. (1959)
Professor, Department of Criminology
B.A., Suffolk University;
M.A., Ph.D., American University.

TOKMAKIAN, HAROLD H.
(Spring 1968)
Professor, City and
Regional Planning Program
B.A., M.A., Stanford University;
M.R.P., Cornell University.

TOMPKINS, GAIL E. (1989)
Associate Professor, Department of Literacy and Early Education B.S., University of Nebraska, Lincoln; M.A., Ed.D., Virginia Polytechnic Institute and State University.
TONEY, JOE D. (1969)
Professor, Department of Chemistry B.S., Agricultural, Mechanical and Normal College; M.S., Ph.D., University of Illinois.
TOWLE, JERRY C. (1971)
Professor, Department of Geography
B.A., Valparaiso University;
M.A., Southern Illinois University

Ph.D., University of Oregon.
TRACZ, SUSAN M. (1984)
Associate Professor,
Department of Educational Research, Administration, and Foundations
B.A., DePaul University; M.A., Ph.D., Southern Illinois University at Carbondale.

TRIBBEY, BERT A. (1965)
Professor, Department of Biology
B.A., University of California, Santa

Barbara; Ph.D., University of Texas.
TROSTLE, LOIS M. (1970)
Professor, Department of Theatre Arts
B.S., Manchester College; M.A., University of California, Los Angeles.

TSENG, KUO-CHENG (1984)
Professor, Department of
Finance and Business Law
B.A., National Taiwan University;
M.A., Clark University;

Ph.D., Pennsylvania State University.
TUCKER, JAMES B. (1968)
Professor, Chair, Department of Journalism B.A., M.A., University of Iowa.

TYNER, TONI M. (1988)
Lecturer, Physical Therapy Program
B.S., California State University, Fresno;
M.H.L., University of San Francisco.

ULLMANN, W. RICHARD (1968)
Professor, Department of
Speech Communication
B.A., California State University, Fresno;
M.A., Colorado State University;

Ph.D., University of Southern California
UMOJA, ADEWOLE A. (1988)
Assistant Professor,
Department of Political Science B.A., California State University, Northridge; M.P.A., California State University, Dominguez Hills;
Ph.D., University of Georgia.
UNRUH, GARY L. (1984)
Professor, Department of Music
B.A., M.A., Occidental College;
D.M.A., University of Illinois,

Urbana-Champaign.
UTTERBACK, DAVID F. (1983-86; 1988)
Associate Professor,
Department of Health Science
B.S., Northeast Missouri State University; M.S.P.H., Ph.D., University of North Carolina at Chapel Hill.
VALENCIA, ATILANO A. (1982)
Professor, Department of Educational Research, Administration, and Foundations; Coordinator, Single Subjects Program B.A., M.A., New Mexico Highlands University; Ed.D., Stanford University.
VALETT, ROBERT E. (Spring 1970)
Professor, Department of Counseling and Special Education
B. S., George Williams College; M.A., University of Chicago; Ed.D., University of California, Los Angeles; Licensed Psychologist; Diplomate, American Board of Professional Psychology.
van der ELST, DIRK H. (1969)
Professor, Department of Anthropology
B.A., M.A., University of Utah;
M.A., Ph.D., Northwestern University.

VANDER MEER, PAUL (1971)
Professor, Department of Geography
B.A., Hope College;
M.A., Ph.D., University of Michigan.

VAN GALDER, ROBERT B.
(Spring 1963)
Professor, Department of Physical
Education and Human Performance
B.A., M.A., California State University,

Fresno; Ed.D., University of Northern
Colorado.
VARLEY, BARBARA K. (1965)
Professor, Department of
Social Work Education
B.S., M.S.W., University of Utah; D.S.W., Case Western Reserve University.

VAUGHN, PAMELA L. (1988)
Assistant Professor, Department of
Foreign Languages and Literatures
B.A., Saint Olaf College; M.A., Ph.D.,

University of California, Berkeley.
VAVOULIS, ALEXANDER (1963)
Professor, Department of Chemistry
B.A., M.A., Brooklyn College;

Ed.D., University of the Pacific.
VIDOLI, VIVIAN A. (1970)
Dean, Division of Graduate
Studies and Research;
Professor, Department of Biology
B.S., Southern Connecticut State College;
M.S., Ph.D., Arizona State University.

VILLANUEVA, HENRY E. (1984)
Director, CSUF/COS Center at Visalia
B.A., California State University, Northridge; M.S., University of Wisconsin, Whitewater.

VISWESWARAN, GANESHA (1969)
Professor, Department of
Social Work Education;
Chair, Academic Senate
B.S., University of Madras (India); D.S.S.A., Madras School of Social Work;
M.S.W., University of Illinois.

VOLPP, LOUIS D. (1976)
Professor, Department of
Marketing and Logistics
B.S., Iowa State University;
M.A., Ph.D., State University of Iowa.

WADSWORTH, STEVEN D. (1968)
Professor, Department of
Communicative Disorders
B.S., M.S., Utah State University;

Ed.D., Brigham Young University.

WAGONER, RONALD L. (1969)
Professor, Department of Mathematics B.A., M.A., California State University, Fresno; Ph.D., University of Oregon.
WAITE, MICHAEL J. (1989)
Lecturer, Department of Health Science B.A., M.A., California State University, Fresno.
WALKER, PHILLIP N. (1950)
Professor, Department of Theatre Arts B.A., M.A., University of Washington; Ph.D., University of Southern California.
WALL, CLARE-MARIE (1988)
Assistant Professor, Department of English B.A., M.A., Ph.D., University of Colorado.

WALTON, JAMES E. (1990)
Professor, Department of English
B.S., Kent State University;
M.A., Ph.D., University of Akron.

WAMPLER, MARVIN B. (1969)
Professor, Department of Educational
Research, Administration, and Foundations B.A., College of Idaho;
M.A., Ed.D., Stanford University.

WANG, JIA (Spring 1991)
Lecturer, Department of Management Diploma, FuDan University (Shanghai); M.B.A., California State University, Fresno.

WARE, ROBERT G. (1978)
Associate Dean,
School of Arts and Humanities;
Professor, Department of Theatre Arts
A.B., Amherst College; M.A., University of Nevada, Reno; Ph.D., Stanford University.
WASHBURNE, CHANDLER (1968)
Professor, Department of Sociology
B.A., M.A., Ph.D., Michigan State

University.
WATERS, ALAN R. (1986)
Professor, Department of
Finance and Business Law
B.S., M.A., University of North Carolina at Chapel Hill; Ph.D., Rice University.
WATNEY, L. MICHAEL (1980)
Head Golf Coach, Department of Athletics B.S., California State University, Fresno.

WAYNE, WILLIAM C. (1954)
Professor, Department of Accountancy
B.S., M.A., Ball State Teachers College;
M.S., Indiana University;

Ed.D., University of Southern California.
WEBER, RALPH W. (1980)
Lecturer, Recreation Administration and Leisure Studies Program B.S., M.A., California State University, Fresno; Ed.D., University of Utah.

WEI, GRACE C. N. (1976)
Professor, Department of Computer Science B.A., M.A., University of Oregon; Ph.D., Kansas State University.
WEISER, JOHN W. (1988)
Assistant Professor,
Department of Aerospace Studies
B.S., University of Illinois; M.S., Air Force Institute of Technology, Ohio.
WEITZMAN, RAYMOND S. (1968)
Professor, Department of Linguistics B.A., University of California, Los Angeles; M.A., Ph.D., University of Southern California.
WERZ, ANDREAS (1987)
Assistant Professor, Department of Music "Staatliche Musiklehrerpruefung,"
"Kuenstlerische Reifepruefung," Music Conservatory of Cologne (West Germany); "Solistenpruefung," Music Conservatory of Freiburg (West Germany).

## WEST, MERRY (1972)

Professor, Department of Psychology
B.A., University of Iowa;
M.S., Ph.D., Iowa State University.

WESTON, LISA M. C. (1985)
Assistant Professor, Department of English B.A., M.A., Ph.D., University of California, Los Angeles.
WETMORE, CHARLES H. (1970)
Professor, Department of Management
B.A., Pomona College;
M.S.B.A., D.B.A., Arizona State University.

WETZEL, JOHN C. (1973)
Director of Housing
B.A., M.A., California State University,

Fresno; Ed.D., University of La Verne.
WHALEY, JULIAN W. (1970)
Professor, Department of Plant Science and Mechanized Agriculture B.S., West Liberty State College;
M.S., West Virginia University;

Ph.D., University of Arizona.
WHITTAKER, ROBERT E. (1988)
Lecturer, Department of
Social Work Education
B.A., San Diego State University;
M.S.W., Florida State University.

WIELICKI, TOMASZ R. (1984)
Professor, Department of Information
Systems and Decision Sciences
M.B.A., Ph.D., Technical University of Wroclaw (Poland).
WILCOX, R. JACK (1968)
Professor, Department of Physical Education and Human Performance B.A., M.A., California State University, Fresno; Ph.D., University of Utah.

WILEY, LORRAINE (1972)
Professor, Department of Biology
B.A., Sacramento State College; M.S.,

Ph.D., University of California, Davis.
WILKERSON, ELIZABETH H. (1986)
Professor, Department of Nursing B.S.N., California State University, Fiesno; Ph.D., University of Alabama in Birmingham.
WILKIIN, BRUCE M. (1967)
Professor, Department of Educational Research, Administration, and Foundations B.A., University of Redlands; M.A., University of California, Berkeley; Ed.D., Colorado State College.
WILLIAMS, DOUGLAS R. (1981)
Professor, Department of
Agricultural Economics
B.S., Utah State University; M.S., New

Mexico State University; Ph.D., Louisiana
State University, Baton Rouge.
WILLIAMSON, HUGH A. (1967)
Professor, Department of Physics
B.A., North Texas State College; Ph.D., University of Texas.
WILLIAMSON, SCOTT A. (1985)
Associate Professor, Chair, Department of Animal Sciences and Agricultural Education B.S., Purdue University;
M.S., Ph.D., University of Illinois at Urbana-Champaign.
WILSON, JAMES R. (1983)
Associate Professor,
Department of Telecommunications
B.A., M.A., California State University,

Fresno.
WILSON, JOSEPH W. (1982)
Professor, Department of
Finance and Business Law
B.S.B.A., Cameron University; M.B.A.,

Alabama Agricultural and Mechanical
University; Ph.D., University of Arkansas.
WINANT, TERRY R. (1990)
Associate Professor, Department of Philosophy B.A., Reed College;

Ph.D., Claremont Graduate School.
WINEGAR, GARY H. (1969)
Professor, Department of
Industrial Technology
B.S., Brigham Young University;
M.Ed., D.Ed., Texas A \& M University.

WINT, ARTHUR V. N. (1986)
Director, Affirmative Action Services; Assistant to the President
B.A., Washington State University; J.D., University of Washington.

Faculty and Administration 1990-91

WISSLER, TERRY (1985)
Counselor, Student Counseling Center
B.S., M.S., Psy.D., University of Illinois at Urbana-Champaign.
WONG, KIN-PING (1983)
Dean, School of Natural Sciences;
Professor, Department of Chemistry
B.S., University of California, Berkeley;

Ph.D., Purdue University.
WOO, NORMAN T. (1968)
Professor, Department of Mathematics

## B.A., Wabash College;

M.S., Southern Methodist University;

Ph.D., Washington State University.
WOODWICK, KEITH H. (1955)
Professor, Department of Biology
B.S., Jamestown College;
M.S., University of Washington;

Ph.D., University of Southern California.
WRIGHT, FREEMAN J. (1969)
Professor, Department of Political Science B.S., M.S., Montana State University; Ph.D., Johns Hopkins University.
WRIGHT, MARJORIE (1985)
Head Softball Coach; Department of Athletics B.S., Illinois State University.

WRIGHT, SARAH E. (1990)
Assistant Professor, Department of Educational Research, Administration, and Foundations
B.A., M.S., California State University, Hayward; Ed.D., Columbia University.
WULIGER, GREGORY T. (1982)
Associate Professor, Department of Journalism B.A., M.A., New York University; M.S.J., Northwestern University; Ph.D., University of Illinois at Urbana-Champaign.
YARBROUGH, J. STEVE (1988) Assistant Professor, Department of English B.A., M.A., University of Mississippi; M.F.A., University of Arkansas.

YARBROUGH, THOMAS W. (1983)
Lecturer, Department of Mechanical and Industrial Engineering B.S.M.E., California State University, Fresno; M.A., CSU Consortium, California State University, Fresno.

YAZDIPOUR, RASSOUL (1987)
Associate Professor, Department of
Finance and Business Law
B.B.A., Tehran Business School (Iran);
M.B.A., Indiana University,

Bloomington;
Ph.D., Ohio State University.
YBARRA, LEA (1972)
Professor, Department of Chicano and Latin American Studies
B.A., M.A., Ph.D., University of California, Berkeley.
YEN, MATTHEW M. (Spring 1989)
Professor, Department of
Industrial Technology
B.A., National Taiwan University;
M.S., University of Idaho;

Ph.D., Purdue University.
YERKES, DIANE M. (1990)
Associate Professor,
Department of Educational Research, Administration, and Foundations
B.A., University of Kentucky; M.A., San Diego State University; Ed.D., United States International University.
YEUNG, HENDERSON C. (1971)
Professor, Chair,
Department of Computer Science
B.S., University of Illinois;

Ph.D., Kansas State University.
YOU, IN-SOON ( 1989)
Associate Professor, Department of Biology
B.A., Hyosung Women's University (Korea); M.S., Seoul National University (Korea); Ph.D., Rutgers University.
YOUNG, DEBORAH R. (1989)
Lecturer, Department of Management B.S., University of Arizona;
M.B.A., Pittsburgh State University.

YOUSEF, LENORE W. (1983)
Professor, Department of Biology
B.A., Mt. Holyoke College; Ph.D., University of California, Berkeley.
YOUSEF, MOHAMAD A. (1978)
Professor, Department of Civil and Surveying Engineering B.S.C.E., Ein-Shams University (Egypt); M.S.C.E., Ph.D., University of California, Berkeley; Registered Civil Engineer.
YU, GROVER K. H. (1986) Assistant Professor, Department of Linguistics B.A., M.A., National Taiwan Normal University; M.S., Syracuse University; Ph.D., University of New Mexico.

ZANE, BURKE (1962)
Professor, Department of Mathematics B.A., California State University, Fresno; M.A., Ph.D., University of Oregon.

ZARAGOZA, COSME (1984)
Associate Professor, Department of Foreign Languages and Literatures
B.A., Universidad de Guanajuato (Mexico);
M.A., Ph.D., University of Arizona.

ZELDIS, JACK B. (1969)
Professor, Department of Linguistics B.A., Ph.D., University of Pennsylvania.

ZELEZNY, JOHN D. (1987)
Assistant Professor, Department of Journalism B.A., Humboldt State; J.D., McGeorge

School of Law, University of the Pacific.
ZELLMER, DAVID L. (1969)
Professor, Chair, Department of Chemistry
B.S., University of Michigan;
M.S., Ph.D., University of Illinois.

ZENDER, MICHAEL J. (1966)
Professor, Department of Physics
B.A., St. John's University;

Ph.D., Vanderbilt University.
ZIEGLER, STANLEY M. (1968)
Associate Dean, School of Natural Sciences; Professor, Department of Chemistry B.A., University of California, Riverside; Ph.D., University of California, Los Angeles.
ZITTERKOPF, MARILYN R. (1969)
Associate Librarian, Catalogue Department B.A., Eastern Washington State College; M.L.S., University of Hawaii.

ZULU, ITIBARI M. (Spring 1990)
Senior Assistant Librarian, Reference Department
B.A., California State University, Hayward; M.L.S., San Jose State University.

ZUMWALT, EUGENE E. (1959)
Professor, Department of English
B.A., M.A., University of Oregon;

Ph.D., University of California, Berkeley.

## Adjunct and Visiting Professors 1990-91

## Adjunct and Visiting Professors 1990-91

BAVIN, TERRY K. (1990)
Adjunct Assistant Professor,
Department of Nursing
B.S., California State University, Fresno; M.N., University of California, Los Angeles.
BOHANNAN, PAUL (1988)
Adjunct Professor, Department of Anthropology
B.A., University of Arizona; B.S., D.Phil., Oxford University.

CHERN, WEI S. (1990)
Adjunct Assistant Professor, Department of Industrial Technology/CIM Institute B.S., Cheng-Kung University (Taiwan); M.S., New Mexico State University; Ph.D., University of Florida.
CLAY, CORINNE (Sister) (1990)
Adjunct Professor, School of Natural Sciences B.S., Mt. Angel College; M.S., Ph.D., Oregon State University.

EAMES, EDWIN (1988) Adjunct Professor, Department of Sociology B.S.S., City College of New York; Ph.D., Cornell University.
EAMES, TONI ANN (1988)
Adjunct Assistant Professor,
Department of Sociology
B.A., Adelphi University;
M.S., City University of New York.

ECHOLS, JAMES $P$.
Adjunct Professor, Department of Economics B.A., College of Idaho;
M.A., University of California, Berkeley; Ph.D., Stanford University.

FRYE, PAUL F. (1979)
Adjunct Faculty Team Physician, Department of Athletics B.S., San Francisco State University; M.D., Medical College of Wisconsin.

FUGELSANG, KENNETH C. (1986)
Adjunct Assistant Professor, Department of Enology, Food Science, and Nutrition
M.A., California State University, Fresno.

GAMEZ, ELIZABETH (1990)
Adjunct Assistant Professor, Department of Curriculum, Teaching, and Educational Technology B.A., California State University, Fresno.

HUNTER, MARCY ANN (1990)
Adjunct Assistant Professor, Department of Curriculum, Teaching, and Educational Technology B.A., Humbolt State University.

JAMNER, LARRY D. (1990)
Adjunct Professor, Department of Psychology B.A., M.A., Ph.D., State University of New York at Stony Brook.
KEISLER, ERIC (1990)
Adjunct Assistant Professor,
Department of Art
B.A., M.A., California State University, Fresno.
LOMELI, JOSE (1990)
Adjunct Assistant Professor, Department of Curriculum, Teaching, and Educational Technology B.A., California State University, Fresno; M.A., Fresno Pacific College.

LOPEZ, MARY R. (1990)
Adjunct Assistant Professor, Department of Nursing B.S., California State University, Fresno.

Mc QUILLAN, JANET (1990)
Adjunct Assistant Professor, Department of Nursing B.S., California State University, Chico.

MOELLER, ELSA C. (1990)
Adjunct Assistant Professor, Department of Nursing B.S.N., Washington University;
M.N., University of Washington.

NITTA, DIANE (1990)
Adjunct Associate Professor, Department of Nursing
B.A., M.A., University of Redlands.

PECK, MARTHA (1990)
Adjunct Assistant Professor,
Department of Nursing
B.S.N., M.S N., University of California, San Francisco.
THAXTER, THOMAS H. (1977)
Adjunct Faculty Team Physician, Department of Athletics M.D., University of California, Los Angeles.
WATKINS, CHRISTINE (1990)
Adjunct Assistant Professor,
Department of English
B.A., California State University, San Francisco.
WOODS, BARBARA A. (1989)
Adjunct Assistant Professor, Department of Social Work Education B.A., M.S.W., California State University, Fresno.

YAMADA, AARON T. (1990)
Adjunct Assistant Professor,
Department of Curriculum, Teaching, and Educational Technology
B.A., Loma Linda University; M.A., California State University, Sacramento.

## EMERITI 1990-91

Note: Numbers in parentheses indicate years of service at CSU, Fresno.
ABOU-GHORRA, IBRAHIIM M. (1956-89)
Professor Emeritus of Psychology
B.A., Cairo University;

Diploma, Ein-Shams University (Egypt); Diploma, Cairo Institute of Higher Studies; M.A., Ohio State University;

Ph.D., University of Southern California; Licensed Psychologist.

AGNEW, ALLEN M. (1965-86)
Professor Emeritus of Information Management
B.A., M.A., San Jose State College; Ed.D., University of California, Los Angeles.
ALBRIGHT, W. DONALD (1958-82) Coordinator Emeritus, Services to Older Adults B.S., Northeast Missouri State Teachers College; M.Ed., University of Missouri; Ed.D., Teachers College, Columbia University.
ALDEN, H. LEE (1960-90)
Associate Professor Emeritus of
Telecommunications
B.A., University of Virginia.

ALLEN, DERYLE K. (1961-87)
Counselor Emeritus
B.A., Southwestern State College (Oklahoma); M.Ed., Ed.D., University of Oklahoma.

ANDERSON, MYRON M. (1937-73)
Professor Emeritus of Physical Education B.A., California State University, Fresno; M.A., University of Southern California.

AUSTIN, ELLIS T. (1958-86)
Professor Emeritus of Finance
B.A., University of Washington;

Ph.D., Michigan State University.
AVERY, GEORGE E. (1959-90)
Professor Emeritus of Education B.S., Colorado State University; Ed.D., University of Maryland.
BAKKEGARD, BENJAMIN M. (1958-80)
Professor Emeritus of Music
B.S., University of North Dakota;
M.Ed., University of Minnesota;

Ed.D., Teachers College, Columbia University.
BALL, WILBUR P. (1958-83)
Professor Emeritus of International Agriculture and Education B.S., M.Ed., Colorado State University: Ph.D., Iowa State University.

BALLOU, STEPHEN V. (1953-78)
Professor Emeritus of Education B.Ed., Duluth State Teachers College; M.A., Ed.D., University of Colorado.

BASSETT, EARLE L. (1948-87)
Director Emeritus of Auxiliary Services
B.A., California State University, Fresno.

BEARD, C. NOBLE (1937-Spring 1970)
Professor Emeritus of Geology B.A., M.A., Indiana University; Ph.D., University of Illinois.
BEDROSIAN, SARAH G.
(1959-60; 1962-89)
Professor Emerita of Information
Systems and Decision Sciences
B.A., M.A., Fresno State College;
D.B.A., University of Southern California.

BEIDEN, J. PETER (1948-69)
Associate Professor Emeritus of Physical Education
B.A., University of Redlands.

BELL, JESSE T. (Spring 1948-83)
Professor Emeritus of Animal Science
B.S., Texas College of Arts and Industries; M.A., Sul Ross State College.

BENNETT, BOB L. (1955-86)
Professor Emeritus of Music
B.A., California State University, Fresno;
M.S., Juilliard School of Music;
D.M.A., Stanford University.

BERGEY, JOHN (1961-83)
Professor Emeritus of Nursing B.S., Yankton College; M.A., University of Pittsburgh; Registered Nurse.
BERRY, SARA C. (1957-73)
Senior Assistant Librarian Emerita B.A., Occidental College.

BEVANS, BONNIE JO (1970-88)
Professor Emerita of Physical Education and Human Performance B.A., University of California, Santa Barbara; M.A., California State University, Fresno.
BEVILL, VINCENT D. (1957-80) Professor Emeritus of Mechanical Engineering B.S., California State University, Fresno; M.S., University of California at Davis; Registered Mechanical Engineer.
BIEHLER, WAYNE E. (1951-89)
Professor Emeritus of Agronomy
B.S., Fort Hays Kansas State College; M.S., University of California, Davis.

BIGELOW, MARION E. (1932-65)
Professor Emerita of Physical Education B.S., M.S., University of Wisconsin.

BIGGE, MORRIS L. (1950-76)
Professor Emeritus of Education Foundations
B.A., Washburn Municipal University;
M.S., University of Michigan;

Ph.D., University of Kansas.
BIGGERSTAFF, WARREN R. (1948-81)
Professor Emeritus of Chemistry
B.A., Willamette University;
M.S., Oregon State College;

Ph.D., University of Wisconsin.
BILLINGS, ROBERT S. (1957-89)
Professor Emeritus of English
B.A., University of New Hampshire;
M.A., Boston University;

Ph.D., State University of Iowa.
BLISS, WILLIAM H. (1950-76)
Professor Emeritus of Industrial Arts and Technology
B.S., Central Missouri State College; M.A., University of Northern Colorado; Ed.D., Bradley University.
BOARD, ROBERT P. (1964-87)
Registrar Emeritus
B.S., University of Santa Clara.

BODGER, W. KENNETH (1968-84)
Professor Emeritus of Mechanical and Industrial Engineering
B.S., M.S., Massachusetts Institute of Technology.
BOOLSEN, FRANK M. (1948-73)
Professor Emeritus of Criminology
B.A., M.A., University of California, Berkeley.
BRADLEY, BEATRICE E. (1969-82)
Professor Emerita of Education
B.S., M.S., Ed.D., University of Pennsylvania.
BREMNER, RAYMOND W. (1947-73)
Professor Emeritus of Chemistry
B.S., M.S., Ph.D., University of Washington.
BRENNER, ROBERT D. (1968-89)
Professor Emeritus of Education
B.A., Ottawa University; M.A., Ed.D., Northern Colorado University.
BRENNINGER, RALPH A. (1946-75)
Professor Emeritus of Foreign Languages B.S., Lafayette College; A.M., Columbia University; Ph.D., University of California.

BRIGHAM, THOMAS M. (1953-88) Professor Emeritus of Social Work Education B.A., San Francisco State College; M.S.W., University of California, Berkeley; Registered Social Worker.
BURGESS, ROBERT C. (1948-80)
Professor Emeritus of Physical Education A.B., California State University, Fresno; M.S., University of Southern California.

BURRISS, MERLYN D.
(1948-51; 1953-87)
Professor Emeritus of Communication Arts and Sciences B.A., California State University, Fresno; M.A., University of California, Los Angeles.
CADY, DOROTHY A. (1954-76)
Laboratory School Teacher Emerita B.S., University of Minnesota; B.A., M.A., California State University, Fresno; Registered Nurse.
CAMPBELL, HOWARD J. (1946-79)
Professor Emeritus of Speech Communication B.S., North Texas State Teachers College; M.A., Stanford University; Ed.D., University of California, Berkeley.
CANALES, JOSE C. (1946-80) Professor Emeritus of History
B.A., Manhattan College; M.A., Ph.D., University of California, Berkeley.
CARR, ROBERT A. (1952-56; 1957-82)
Professor Emeritus of International Business and Finance
B.A., M.A., San Francisco State College; Ph.D., University of Southern California.
CHITTICK, ROGER D. (1956-88)
Professor Emeritus of English
B.A., Butler University; M.A., Washington State College; Ph.D., Stanford University.
CHRISTENSEN, JACK D. (1968-88)
Professor Emeritus of History
B.A., University of California, Berkeley;
M.A., California State University, Fresno; Ph.D., Stanford University.
CLARK, DAVID E. (1950-51; 1953-90)
Professor Emeritus of Chemistry
B.A., University of Redlands; M.S., Ph.D., Stanford University.

CLAY, CORINNE (Sister) (1972-88)
Professor Emerita of Biology
B.S., Mt. Angel College;
M.S., Ph.D., Oregon State University.

CLOUGH, CARMEN P. (1963-83)
Professor Emerita of Foreign Languages
M.A., University of Michigan;

Dr.Ped., University de la Habana.
COBB, GWENDOLIN B. (1953-71)
Professor Emerita of History
B.A., M.A., Ph.D., University of California, Berkeley.
COLE, CHESTER F. (1947-85)
Professor Emeritus of Geography
B.A., Eastern Washington College of Education; M.A., University of Washington; Ph.D., University of Nebraska.

COMEGYS, ROBERT G. (1955-80)
Professor Emeritus of History
B.A., M.A., University of Washington; Ph.D., Stanford University.
CORUM, FREDERICK M. (1973-85)
Associate Librarian Emeritus A.B., University of Pennsylvania; Th.B., Th.M., Princeton Seminary; M.S.L.S., Syracuse University.

DANDOY, MAXIMA A.
(Spring 1956-82)
Professor Emerita of Education
B.S.E., National Teachers College (Philippines); M.A., Arellano University (Philippines); Ed.D., Stanford University.
DARGAHI, GHOLAM H. (1967-68; 1970-88)
Professor Emeritus of Political Science
B.A., University of Tehran (Iran);
M.A., University of Denver;

Ph.D., University of Utah.
DAUBS, EDWIN H. (1963-75)
Professor Emeritus of Biology
B.S., M.S., Ph.D., University of Illinois.

DAVIS, IRVING F. (1960-83)
Professor Emeritus of Finance and Industry B.S., University of California, Berkeley; M.S., University of Illinois;

Ph.D., University of California, Berkeley.
DIENSTEIN, WILLIAM (1946-74)
Professor Emeritus of Sociology and Criminology
B.A., Stanford University; M.A., University of California; Ph.D., Stanford University.
DODDS, J. PARRY (1964-85)
Professor Emeritus of Finance B.S., M.S., Ph.D., Iowa State University.

DOWLER, LLOYD (1948-78)
Dean Emeritus of Agriculture and
Professor Emeritus of Agricultural Education B.S., M.S., University of Wyoming.

DOYLE, KATHERINE E.
(1937-64; 1965-70)
Professor Emerita of Physical Education B.A., Stanford University; M.S., Wellesley College.
DUKE, JOHN H. (1946-73)
Professor Emeritus of Journalism
B.J., University of Texas; M.A., Ph.D., University of Southern California.
ECHOLS, JAMES P. (1964-86)
Professor Emeritus of Education
B.A., College of Idaho;
M.A., University of California, Berkeley; Ph.D., Stanford University.
ECKHARDT, WYMOND W. (1970-90)
Professor Emeritus, Instructional Media Center B.A., George Pepperdine College; M.S., Ed.D., University of Southern California.

EMERSON, JOHN T. (1959-88)
Professor Emeritus of Finance
and Business Law
B.A., J.D., University of Chicago; Member, Illinois State Bar; Member, Korea Bar.
EMMAL, MARIE A. (1964-86)
Professor Emerita of Social Work B.A., University of California, Los Angeles;

Mental Health Certificate, University of London.
ENSSLIN, WALTER (1959-80)
Professor Emeritus of Foreign Languages
Ph.D., University of Berlin.
ERB, CHARLOTTE M. (1970-87)
Professor Emerita of Human
Resource Management
B.A., MacMurray College;

Ph.D., University of Wisconsin; S.P.H.R.
EUDY, PHYLLIS W. (1945-75)
Dean Emerita School of Graduate Studies;
Professor Emerita of English
B.A., Santa Barbara State College;
M.A., Claremont College;

Ed.D., Stanford University.
EWY, DANIEL J. (1951-52; 1956-87)
Professor Emeritus of Mathematics
B.A., University of California, Berkeley;
M.S., Stanford University.

FALK, DORIS F. (1956-Spring 1972)
Professor Emerita of Biology
B.A., M.A., Ph.D., University of California, Berkeley.
FAST, PETER G. (1957-87)
Professor Emeritus of Education
B.A., Goshen College;
M.A., Ball State Teachers College;

Ed.D., Indiana University.
FEUCHES, CONRAD (1946-73)
Professor Emeritus of
Industrial Arts and Technology
B.A., California State University, Fresno;
M.S., Oregon State College.

FIKES, JAMES A. (1955-88)
Dean Emeritus of Extended Education and Professor Emeritus of Health Science
B.S., Central State University;
M.P.H., Ph.D., University of Oklahoma;

Registered Sanitarian.
FISHER, M. BRUCE (1941-75)
Professor Emeritus of Psychology B.A., University of California; Ph.D., Yale University; Licensed Psychologist.
FLAM, ROBERT A. (1969-82)
Associate Professor Emeritus of Information Management
B.S., Valley City State College;
M.E., University of North Dakota;

Ed.D., University of Wyoming.

FRICKER, HENRY F. (1952-84)
Professor Emeritus of Health Science and Education B.A., Marshall College;
M.A., Ed.D., Stanford University.

GAMMON, EDWARD R. (1966-87)
Professor Emeritus of Linguistics
B.A., Reed College; M.A., University of Oregon; Ph.D., Stanford University.
GARCIA, MANUEL R. (1969-88)
Professor Emeritus of Industrial Technology B.A., M.A., California State University, Fresno.
GARDNER, FANNIE L. (1959-76)
Professor Emerita of Nursing
B.S., M.Ed., University of Houston; Registered Nurse.
GILLIS, ALBERT C. (1969-86)
Professor Emeritus of Music B.M., Mus.M., Yale University.

GLEASON, KENNETH C. (1946-76) Professor Emeritus of Physical Education B.A., California State University, Fresno; M.S., University of Southern California.

GLIM, ROBERT J. (1948-78)
Professor Emeritus of Agricultural Economics B.S., M.Ed., University of California, Davis.

GREGORY, EDDIE J. (1969-89)
Professor Emeritus of Physical
Education and Human Performance
B.S., Pepperdine College;
M.S., University of Southern California.

GRIFFITHS, I. ACE (1959-83)
Professor Emeritus of Education
B.S., University of Idaho; M.S., University of Arizona; Ed.D., Northern Colorado University; Licensed Psychologist.
GRONEMAN, CHRIS H. (1968-73)
Professor Emeritus of
Industrial Arts and Technology B.S., M.S., Kansas State College of Pittsburg; Ed.D., Pennsylvania State University.
GROSSMAN, JOEL S. (1965-89)
Professor Emeritus of Psychology
B.A., University of Michigan;
M.S., Ph.D., Case Western Reserve University.
GURLEY, RALPH R. (1947-60)
Professor Emeritus of Engineering
B.S., United States Naval Academy;
M.S., Columbia University;

Registered Mechanical Engineer.
HADDAD, MARIE N. (1964-83)
Professor Emerita of Nursing
B.S., St. Louis University;
M.N., University of Washington.

HAIMBACH, DAVID (1959-86)
Professor Emeritus of Teacher Education B.S.Ed., Ed.M., Temple University; Ed.D., University of Florida.
HAIRE, PAUL L. (1969-88)
Professor Emeritus of Social Work Education A.B., Boston College;
M.S.W., Simmons College.

HAMPTON, ROBERT E. (1956-88)
Professor Emeritus of Marketing B.B.A., Golden Gate College; M.A., Chico State College; Ed.D., Stanford University.
HANNA, GEORGE P., JR. (1979-89)
Professor Emeritus of Civil Engineering
B.S., Illinois Institute of Technology; M.C.E., New York University; Ph.D., University of Cincinnati; Registered Civil Engineer.
HENDERSON, BETTY A. (1941-61)
Professor Emerita of Home Economics
B.A., California State University, Fresno;
M.A., University of California, Los Angeles.
HENFLING, PHYLLIS B.
(1940-45; 1952-75)
Professor Emerita of Education B.A., M.A., California State University, Fresno.
HIGGINS, FRANCIS V. (1958-76)
Professor Emeritus of Engineering B.S., M.S., Indiana State Teachers College; M.S., University of Michigan; M.S., Case Institute of Technology; Registered Civil Engineer.
HIGHLANDER, JOHN P. (1966-83)
Professor Emeritus of Radio-Television B.A., M.A., University of Iowa; Ph.D., University of Wisconsin.

HIXSON, FLOYD M. (1951-80)
Professor Emeritus of Animal Science B.S., Oklahoma A \& M College; M.S., Ph.D., Kansas State University.

HOLDER, WAYNE B. (1955-89)
Professor Emeritus of Psychology
B.A., M.A., New Mexico State University, Ph.D., University of Missouri.
HOPKINS, JERRY D. (1964-79)
Professor Emeritus of Linguistics
B.A., Indiana University.

HOPSON, CATHERINE (1968-88)
Professor Emerita of Social Work Education B.A., University of Manchester (England); Mental Health Certificate, University of London (England).
HOWLAND, RUSSELL S. (1948-75)
Professor Emeritus of Music B.M., M.Mus., University of Illinois.

HUFF, ARTHUR E. (1964-88)
Professor Emeritus of Music
B.A., M.A., San Jose State College;
D.M.A., University of Arizona.

HUGGINS, JOYCE M. (Spring 1970-85)
Professor Emerita of Teacher Education
B.A., Colgate Rochester Divinity School;
M.A., New York University;

Ed.D., Arizona State University.
HULL, F. LEE (1968-89)
Professor Emeritus of Finance and Business Law
B.S., M.S., University of Illinois; Ph.D., University of Illinois at Urbana.
HURST, ROLLAND WOOD (1968-84)
Professor Emeritus of Music
B.A., Grinnell College; M.M., Eastman School of Music; Ed.D., Columbia University.

JAMES, HELEN G. (1973-86)
Professor Emerita of Physical Therapy
B.S., East Stroudsburg State College; M.S., Stanford University;
R.P.T., University of Pennsylvania.

JOHNSON, BIRGER L. (1955-83)
Professor Emeritus of Physical Education B.A., North Dakota State Teachers College; M.S., University of Oregon;

Ph.D., University of Southern California.
JONES, HAROLD D. (1957-83)
Director Emeritus Career
Planning and Placement
B.S., Northern State Teachers College, South Dakota; M.Ed., University of Colorado; Ed.D., University of Denver.
JOYAL, ARNOLD E. (1948-64)
President Emeritus
B.A., M.A., Ph.D., University of California; L.H.D., California College of Medicine.

KALLO, ROBERT M. (1950-87)
Professor Emeritus of Chemistry
B.S., Ph.D., University of California, Berkeley.
KARIKKA, KATHERINE (1967-80)
Professor Emerita of Home Economics
B.S., Utah State University;
M.S., Cornell University.

KARR, HAROLD S. (1966-85)
Professor Emeritus of English
B.A., United College (Winnipeg);
M.A., Ph.D., University of Minnesota.

KINDELL, DOLORES J. (1970-85)
Associate Professor Emerita of Nursing B.S.N., University of Rochester;
M.S.N., Marquette University.

KREMEN, BENJAMIN G. (1950-76)
Professor Emeritus of Education B.S., Johns Hopkins University; M.A., University of Maryland; Ph.D., Michigan State College.

KULHAN, EDWARD F. (1956-78)
Professor Emeritus of Engineering B.S., University of Nevada; M.S., Pennsylvania State University; Registered Land Surveyor.
KUSEL, HEINZ N. (1965-84)
Professor Emeritus of Art
B.S., Skidmore College;
M.A., California State University, Fresno.

KUTSCHER, ROBERT I. (1970-87)
Professor Emeritus of Management A.B., Cornell University; M.A., Stanford University; J.D., Harvard Law School.

KYLBERG, BESSIE N. (1947-62)
Librarian III Emerita
B.A., University of California.

LANDRUM, ELIZABETH A. (1932-71) Librarian IV Emerita
B.A., California State University, Fresno; M.A., University of California,

LARRABEE, CARLTON H.
(1947-Spring 1969)
Professor Emeritus of English
B.A., Clark University; M.A., Harvard University; Ed.D., New York University.
LEAVENWORTH, RUSSELL E.
(1955-71; 1973-78)
Professor Emeritus of English
A.B., Hanover College;
A.M., Ph.D., University of Colorado.

LEAVITT, JEROME E. (1969-81)
Professor Emeritus of Teacher Education
B.S., Newark State College;
M.A., New York University; Ed.D., Northwestern University.

LESLIE, GLENN F. (1958-77)
Professor Emeritus of Education
B.S., Central Missouri State College;
M.Ed., Ed.D., University of Missouri.

LEVIN, CARL (1942-80)
Director Emeritus of Business Affairs B.A., California State University, Fresno.

LEWIS, KENNETH E. (1956-70)
Director Emeritus of Financial Aids B.A., M.A., California State University, Fresno.
LEWIS, LETA J. (1963-89)
Professor Emerita of German
B.A., University of Washington; Ph.D., University of California, Los Angeles.

LINDBERG, JOHN E. (1969-82)
Professor Emeritus of Social Work Education B.S., M.S.W., University of California, Berkeley.

LINDQUIST, STANLEY E. (1953-88)
Professor Emeritus of Psychology
B.A., California State University, Fresno; Ph.D., University of Chicago; Licensed Psychologist.
LIST, EDGAR A. (1961-80)
Professor Emeritus of Foreign Languages B.A., Carroll College;
M.A., Ph.D., Yale University.

LIVINGSTON, WILLIAM H. (1966-86)
Professor Emeritus of Industrial Technology B.S.M.E., University of California, Berkeley; Registered Electrical Engineer, Licensed General Building Contractor.
LYON, EARL D. (1938-73)
Professor Emeritus of English
B.A., University of California, Los Angeles; M.A., Ph.D., University of California, Berkeley.
MacMILLAN, MARGARET W.
(Spring 1970-83)
Professor Emerita of Information Management
B.S., M.Ed., University of Pittsburgh; Ed.D., University of California, Los Angeles.
MACH, LELAND E. (1958-85)
Professor Emeritus of Advanced Studies
B.A., Colorado State College of Education;
M.A., Northwestern University;

Ed.D., College of the Pacific; Licensed Psychologist.
MARGOSIAN, ARTHUR H. (1956-59; 1961-86)
Professor Emeritus of Journalism B.A., M.A., California State University, Fresno; Ed.D., University of Southern California.

MARKHAM, CHARLES G. (1967-80)
Professor Emeritus of Geography
B.A., University of California, Los Angeles; M.A., Colorado State College; Ph.D., University of California, Berkeley.
MARTIN, JOHN H. (1962-85)
Professor Emeritus of Music B.S., M.A., Ohio State University; Ed.D., University of Arizona.
MASON, R. ELAINE (1956-79)
Professor Emerita of Physical Education B.A., California State University, Fresno; M.A., Stanford University.

MATTHEW, VIRGIL L., JR. (1948-80)
Professor Emeritus of History
B.A., California State University, Fresno;
M.A., Ph.D., University of California,

Los Angeles.
MILLER, WILLIAM M. (1956-79)
Professor Emeritus of Chemistry
B.S., University of Illinois;
M.S., Ph.D., State University of Iowa.

MINICH, MARSHALL E. (1966-82)
Associate Professor Emeritus of International Business and Finance
B.S., Lafayette College;
M.B.A., Harvard Business School.

MOORE, HEYWARD, JR. (1965-88)
Professor Emeritus of Political Science
B.A., University of North Carolina;
M.A., University of Florida;

Ph.D., University of North Carolina.
MUSSELMAN, DARWIN B. (1953-78)
Professor Emeritus of
Industrial Arts and Technology
B.A., California State University, Fresno;
M.F.A., California College of Arts and Crafts; M.A., University of California, Berkeley.
NAGY, ELEMER J. (1962-83)
Professor Emeritus of Foreign Languages M.A., Ph.D., P. Pazmany University (Budapest).
NELSEN, CLAIR E. (1950-53; 1955-79)
Professor Emeritus of History
B.A., California State University, Fresno;
M.A., Ph.D., Stanford University.

NELSON, MYRTHEL S. (1965-83)
Professor Emerita of Nursing
B.A., College of Great Falls;
M.A., Gallaudet College;
M.A., Columbia University;
M.N., Yale University; Registered Nurse.

NESS, FREDERIC W.
(1964-November 1969)
President Emeritus
B.A., Dickinson College; M.A., University of Cincinnati; Ph.D., Yale University.
NISHIO, KAREN T.
(1959-Fall 1962; 1963-88)
Professor Emerita of Nursing
B.S., University of Dayton;
M.S., University of California, Los Angeles;
D.Ed., University of the Pacific; Registered

Nurse.
OGDEN, LOWELL K. (1958-77)
Associate Professor Emeritus of Education B.S., Arkansas State Teachers College;
M.A., University of Wyoming;

Ed.D., University of Southern California.

OPPER, S. MICHAEL (1965-88)
Professor Emeritus of Art
B.S., Southern Connecticut State College;
M.A., Columbia University;

Ph.D., Institute of Asian Studies.
OWENSBY, LOLA B.
(Spring 1963;1970-84)
Professor Emerita of Physical Education
B.A., California State University, Fresno; M.S., University of Wisconsin.

PAPE, LAURENCE A. (1951-85)
Professor Emeritus of Physical
Education and Recreation
B.A., M.A., Ohio State University;

Ed.D., Columbia University.
PARKER, LILLIE S. (1951-88)
University Librarian Emerita B.A., B.L.S., University of California, Berkeley.

PARKER, WILLIAM M. (1950-77)
Professor Emeritus of Accounting B.S., M.B.A., University of California; Ph.D., University of Southern California; Certified Public Accountant.
PFLUEGER, CLAYTON C. (1957-80)
Professor Emeritus of Dairy Industry
B.S., South Dakota State College;
M.S., State College of Washington.

PIERSOL, ROBERT J. (1968-81)
Professor Emeritus of Management
B.S.M.E., University of Illinois;
M.B.A., Stanford University;
D.B.A., Harvard University.

PORCH, LOUISE W. (1942-68)
Professor Emerita of Home Economics
B.S., Rockford College; M.A., Columbia

University; Ed.D., Stanford University.
POYTHRESS, RANSOM H.
(Spring 1962-82)
Associate Professor Emeritus of Foreign Languages
B.A., Stanford University;
M.A., California State University, Fresno.

QUIBELL, CHARLES H. (1927-62)
Professor Emeritus of Botany
B.A., Pomona College;

Ph.D., University of Chicago.
RABAGO, EMPERATRIZ N. (1971-88)
Professor Emerita of Nursing
R.N., P.G.H., School of Nursing, University of the Philippines; B.S.E., University of Saint Thomas (Philippines); M.A., Northwestern University; M.S., Ed.D., Indiana University.
REA, RALPH C. (1954-78)
Professor Emeritus of Music
B.M., Eastman School of Music; M.A., Ph.D., State University of Iowa.

REA, THELMA M. (1958-79)
Professor Emerita of Education
B.S., M.S., University of Idaho; Ed.D., Stanford University.
RENZI, DOROTHY (Spring 1968-84)
Professor Emerita of Music
A.B., Mills College.

RICH, WALLACE N. (1963-75)
Professor Emeritus of Social Work
B.A., California State University, Fresno; M.S.W., Florida State University.

RIPPEY, ANDREW D. (1946-74)
Professor Emeritus of Education
B.S., M.A., University of Florida;

Ph.D., Ohio State University.
ROHRER, HELEN F. (1933-69)
Professor Emerita of Office Administration and Business Education
B.A., M.A., Stanford University.

ROJAS, CARLOS A. (1928-66)
Professor Emeritus of Foreign Languages
B.A., M.A., Pomona College;

Ph.D., University of Washington.
ROTH, HOWARD C. (1967-80)
Professor Emeritus of Foreign Languages A.B., California State University, Fresno; M.A., University of California, Berkeley; Ph.D., University of Washington.
ROUSEK, EDWIN J. (1948-84)
Professor Emeritus of Animal Science
B.S., University of Nebraska;
M.S., Cornell University.

SANTIGIAN, M. MARTY
(Spring 1970-86)
Professor Emeritus of Teacher Education
B.A., Occidental College; M.A., California State University, Fresno; Ed.D., University of California, Los Angeles.

## SCHINEIDER, NORMA COCHRAN

 (1969-82)Professor Emerita of Education B.S., M.S., Ed.D., University of Nebraska.

SCHRAM, DWAYNE G. (1967-90)
Professor Emeritus of Information Systems and Decision Sciences
B.A., University of Northern Iowa; M.A., University of Northern Colorado; Ph.D., University of California, Los Angeles.
SCHROETER, FRANK E. (1949-87)
Professor Emeritus of Industrial Technology B.S., M.S., Stout Institute.

SHACKLETT, ROBERT L. (1955-79)
Professor Emeritus of Physics
A.B., California State University, Fresno; Ph.D., California Institute of Technology, Pasadena.

SHOCKLEY, JAMES T. (1956-89)
Professor Emeritus of Physics
B.A., M.A., California State University, Fresno; Ph.D, University of Southern California.

SIA, MING BE (1964-78)
Professor Emerita of Nursing
B.A., Hwa Nan College (China); M.A., Teachers College, Columbia University.
SLOAN, FORREST E. (1954-83)
Professor Emeritus of Education
B.S., Illinois State University; M.A., Ed.D., Northern Colorado University.
SMARDAN, LAURENCE E. (1966-83)
Professor Emeritus of Child,
Family, and Consumer Sciences
B.A., M.S., University of Southern California; Ph.D., Cornell University.

SMITH, PHILIP N. (1958-77)
Professor Emeritus of Biology
B.A., Ph.D., University of California, Berkeley.

SPARKS, RICHARD K. (1961-84)
Professor Emeritus of Education B.A., University of Washington; B.A., Central Washington College of Education; M.A., Ed.D., University of California, Berkeley.
SPENCER, EDWARD M. (1950-71)
Dean Emeritus of Educational Services and Summer Sessions B.S., Iowa State College; M.A., Ph.D., University of Iowa.

STAEBLER, ARTHUR E. (1955-80)
Professor Emeritus of Biology
B.S., M.S., Ph.D., University of Michigan.

STANLEY, GEORGE M.
(1948-Spring 1967)
Professor Emeritus of Geology
B.S., M.A., Ph.D., University of Michigan.

STOCK, EDITH H. (1969-88)
Professor Emerita of Foreign Languages
A.B., Case Western Reserve University; M.A., University of Arizona;

Ph.D., University of Kansas.
STRONG, WINSTON C. (1940-74)
Professor Emeritus of Irrigation B.A., Stanford University; M.A., Ed.D., University of California, Berkeley.
STUART, WALTER H. (1967-88)
Professor Emeritus of English
B.A., Harvard University;
M.A., Ph.D., University of Wisconsin.

SVENSON, KARL A. (1954-90)
Professor Emeritus of Political Science
B.A., University of Wyoming;
M.A., Indiana University;

Ph.D., State University of Iowa.

SWANSON, CHARLES E. (1968-80)
Professor Emeritus of Marketing
B.A., San Diego State College;
M.A., Ph.D., State University of Iowa.

SWINEFORD, EDWIN J. (1964-76)
Professor Emeritus of Secondary Education B.A., California State University, Fresno; M.A., University of California, Berkeley; Ed.D., University of Virginia.

TATARIAN, H. ROGER (1972-87) Professor Emeritus of Journalism B.A., California State University, Fresno; L.L.D. (Honorary), Windham College.

THOMPSON, SHIRLEY M. (1953-80)
Associate Professor Emerita of Physical Education
B.S., M.S., University of Wisconsin.

TIDYMAN, CLAYTON R. (1957-79)
Chairman Emeritus of Accounting and Quantitative Studies;
Professor Emeritus of Accounting B.S., M.B.A., Ph.D., University of Southern California; C.P.A.
TUELLER, DALLAS A. (1946-73)
Academic Vice President Emeritus;
Professor Emeritus of Political Science
B.A., San Jose State College;

Ph.D., Stanford University.
TURNER, LOUISE P. (1970-81)
Professor Emerita of Home Economics B.S., M.A., Ph.D., Texas Woman's University.
UPHOLD, WILLIAM B. (1954-78)
Professor Emeritus of Philosophy and English B.A., Th.B., Taylor University;
B.D., Drew University;

Ph.D., University of Southern California.

WARDLE, ORRIN D. (1957-77)
Professor Emeritus of Education B.S., M.S., Utah State College; Ed.D., University of California, Berkeley.
WARMERDAM, CORNELIUS A. (1947-80)
Professor Emeritus of Physical Education A.B., California State University, Fresno; M.A., Stanford University.

WEILER, JOHN H. (1962-89)
Professor Emeritus of Ornamental Horticulture B.S., University of Nebraska; Ph.D., University of California, Berkeley.
WEINSTOCK, IRWIN (1971-89)
Professor Emeritus of
Management and Marketing
B.A., University of Washington; M.B.A., Ph.D., Louisiana State University.

WEST, VIRGIINIA C. (1941-68)
Librarian V Emerita
B.A., University of California; B.S., M.S., University of Southern California.

WHEATON, HERBERT H. (1922-66)
Dean Emeritus of Arts and Sciences B.S., University of Wisconsin; M.S., C.E., University of California; Registered Civil Engineer.
WIGHT, WILMA F. (1940-73)
Professor Emerita of Office Administration B.A., M.A., Stanford University.

WILCOX, ORLEY W. (1959-76)
Professor Emeritus of Education B.S., Southwestern College (Kansas); M.S., Kansas State Teachers College; Ed.D., University of Colorado.
WILD, ERNEST S. (1948-76)
Professor Emeritus of Physical Education B.S., M.S., Kansas State College.

WILEEY, FRANCIS A. (1946-75)
Professor Emeritus of History
B.A., Emory and Henry College;
M.A., Duke University;

Ph.D., University of California, Berkeley.
WILLIIAMS, WESLEY M. (1961-87)
Professor Emeritus of Industrial Technology B.A., M.A., University of California, Berkeley; Ed.D., Stanford University.
WIISON, DONALD M. (1956-80)
Professor Emeritus of
Communicative Disorders
B.A., Western Washington College of Education; M.A., Ph.D., University of Southern California.
WINTER, JAMES H. (1947-87)
Professor Emeritus of Music
B.A., Carleton College;
M.Mus., Northwestern University;

Ph.D., State University of Iowa.
YEARY, PATRICIA C. (1980-87)
Professor Emerita of Family
Studies and Home Economics
B.S., University of California, Los Angeles; M.S., California State University, Fresno.

YORK, WILLIAM L. (1968-82)
Professor Emeritus of Sociology
B.S., East Texas Baptist College;
M.A., Stephen F. Austin State College;

Ed.D., University of the Pacific.
YOUNG, ETHEL ROBINSON
(1946; 1950-70)
Professor Emerita of Mathematics
B.A., M.A., Stanford University.

## Changes in Rules and Policies

Although every effort has been made to assure the accuracy of the information in this catalog, students and others who use this catalog should note that laws, rules, and policies change from time to time and that these changes may alter the information contained in this publication. Changes may come in the form of statutes enacted by the legislature, rules and policies adopted by the Board of Trustees of The California State University, by the chancellor or designee of The California State University, or by the president or designee of the institution.

Further, it is not possible in a publication of this size to include all of the rules, policies, and other information that pertain to the student, the institution, and The California State University. More current or complete information may be obtained from the appropriate department, school, or administrative office.
Nothing in this catalog shall be construed, operate as, or have the effect of an abridgment or a limitation of any rights, powers, or privileges of the Board of Trustees of The California State University, the chancellor of The California State University, or the president of the campus.

The trustees, the chancellor, and the president are authorized by law to adopt, amend, or repeal rules and policies that apply to students. This catalog does not constitute a contract or the terms and conditions of a contract between the student and the institution or The California State University. The relationship of the student to the institution is one governed by statute, rules, and policy adopted by the legislature, the trustees, the chancellor, the president, and their duly authorized designees.

[^0]:    Vol. LXXXII No. 3 May 1991
    One of a series of administrative catalogs published four times a year in January, March, May, and September by California State University, Fresno: 5241 N. Maple Ave., Fresno, California 93740-0054. Second class postage paid at Fresno, California (USPS 210240).
    Postmaster: Send address changes to Office of Admissions, California
    State University, Fresno: 5150 N. Maple Ave., Fresno, CA 93740-0057.

[^2]:    The University Student Union is located in the "heart" of the campus. Since its opening in November 1968, the USU has been serving many campus community needs.

[^3]:    * Even though the March 2 deadline does not apply to the Pell or Stafford Student Loan Programs, students should be aware that Pell and Stafford applications submitted after May 30, 1991, cannot be assured of receiving funds at the beginning of the fall semester.
    ** Graduate Equity Fellowship and Patricia Roberts Harris Fellowship application deadlines may vary.

[^4]:    * A student may not begin "continuous attendance" while still enrolled in high school.

[^5]:    ${ }^{1}$ Master's degree candidates are reminded that a $\boldsymbol{B}(3.0)$ average is required in the master's degree program and for all courses (related and unrelated; lower division, upper division, and graduate) taken concurrent with the master's degree program.
    ${ }^{2}$ Undergraduate students are reminded that a $C(2.0)$ average is required for all college coursework completed, all courses taken at CSU, Fresno, and all courses in the major in order to graduate with a baccalaureate degree. Some majors are subject to more stringent grading requirements.
    ${ }^{3}$ Master's degree candidates are reminded that a $D$ is not accepted toward any master's degree program.
    ${ }^{4} \mathrm{~A} \boldsymbol{U}$ is assigned only for courses graded $A$ through $\boldsymbol{F}$. The course can be repeated and the new grade may be substituted for the $\boldsymbol{U}$ by petition, except for master's degree students. (See Repeating Courses.)

[^6]:    *Man/Woman and the Natural Environment (MNE) is an 18 -unit interdisciplinary thematic cluster offered through the School of Natural Sciences. For more information about this program, see School of Natural Sciences, page 118.

[^7]:    *Man/Woman and the Natural Environment (MNE) is an 18 -unit interdisciplinary thematic cluster offered through the School of Natural Sciences. For more information about this program, see School of Natural Sciences, page 118.

[^8]:    Units
    Generall Education .51 CORE
    Category 3: Math 70 (required)

[^9]:    *This figure takes into consideration that a maximum of two General Education BREADTH courses may also be applied to satisfy art major requirements (see General Education). These can be selected from Art H 10, 11; Art 1, 13, $20,30,40,50,60$, and 70 . Consult the department chair or faculty for additional details.

[^10]:    * Prerequisite for Athletics 100: must be enrolled in a varsity team sport (Athletics 176-199).

[^11]:    * Nine units of General Education requirements are satisfied to the following extent by major and additional requirements: CORE, Category 3 by Math 70, 72, or 75; Psych 42; BREADTH, Division 1 by Chem 3A, Division 2 by Bot 1 or Zool 1. Consult your major academic adviser for details.

[^12]:    * Late afternoon, Saturday and/or overnight field trips may be required.

[^13]:    *Late afternoon, Saturday and/or overnight field trips may be required.

[^14]:    * Late afternoon, Saturday and/or overnight field trips may be required.

[^15]:    *Late afternoon, Saturday and/or overnight field trips may be required.

[^16]:    * Late afternoon, Saturday and/or overnight field trips may be required.

[^17]:    *Not more than 6 units of credit in typewriting/ keyboarding will be allowed toward any degree.

[^18]:    *A maximum of 9 approved units of upperdivision undergraduate work may be counted toward the 18 elective units. A maximum of 6 units of work may be taken outside the School of Business and Administrative Sciences.

[^19]:    *For safety reasons, "soft" contact lenses may not be worn in chemistry labs. In all lab courses, the wearing of approved safety glasses is mandatory.

[^20]:    *For safety reasons, "soft" contact lenses may not be worn in chemistry labs. In all lab courses, the wearing of approved safety glasses is mandatory.

[^21]:    *See requirements for the Student Teaching Multiple Subject Credential - School of Education and Human Development.

[^22]:    *See requirements for the Student Teaching Multiple Subject Credential - School of Education and Human Development.

[^23]:    *C Sci 154 and 172 have a mathematics prerequisite. (Note that these are only suggested combinations. While attention must be given to prerequisites, many combinations are available to interested students.)

[^24]:    Students in Block A take all of their classes at a school site and spend part of each day in public school classrooms integrating their coursework with field experience.

[^25]:    *Anticipated for approval 1991-92.

[^26]:    *The student's program of study is to be determined in consultation with a curriculum and instruction faculty adviser and approved by the program coordinator.

[^27]:    * (Fees subject to change upon approval.)

[^28]:    *H S 92 may also be applied to satisfy the General Education CORE mathematics requirement if intermediate algebra was completed in high school.

[^29]:    *This figure takes into consideration that a maximum of two General Education BREADTH courses may also be applied to satisfy history major requirements (see General Education). These courses may be selected from Hist 1, 2, and 101. Consult the history department chair or faculty adviser for additional details.

[^30]:    * (Maximum total for History 290 and 292 combined is 9 units if no area repeated.)

[^31]:    *This figure takes into consideration that Ling 10 may be applied to satisfy a linguistics major requirement as well as toward General Education BREADTH, Division 7 (see General Education). Consult Linguistics Department chair or faculty adviser for details.

[^32]:    *This figure takes into account that 3 units of Math 75 may also be applied to satisfy the General Education CORE mathematics requirement (see General Education). Consult department chair or faculty adviser for details.

[^33]:    *See the Nursing Department for course descriptions not found in this catalog and for advising.
    ** This figure takes into account that prerequisite units and additional requirements may be used to satisfy General Education requirements.

[^34]:    * Course must be taken within five years. Outdated courses may be validated by examinations administered by the department or through enrollment in a course.
    ** See graduate coordinator for cognates.

[^35]:    *This figure takes into consideration that PE 31 or H S 90 may also be used to satisfy the General Education BREADTH, Division 4 requirement and that Psych 102 may be used toward partial fulfillment of the General Education CAPSTONE, Juveniles and Adolescence cluster requirement. Consult department chair or faculty adviser for details.

[^36]:    *Students with a course equivalent to one in this category, taken in their major, may, with the approval of a program adviser, substitute additional units from the electives below for the units required here.

[^37]:    * This figure takes into consideration that one General Education CORE and a maximum of two BREADTH courses also may be applied to satisfy Psychology major requirements (see General Education). Courses may be selected from Psych 10, 36, 42 (CORE), 61, 132, 171. Consult the psychology department chair or department advising office for additional details.

[^38]:    *Grades of $\boldsymbol{A}$ or $\boldsymbol{B}$ must be earned in Psych 231 and Psych 244 for graduation credit in these courses.

[^39]:    *This figure takes into consideration that Math 11 or Psych 42 also may be applied to fulfill the General Education CORE, Math requirement if Algebra II was completed in high school (see General Education). Consult the social science major adviser in the History Department for additional details.

[^40]:    *This figure takes into consideration that, with proper selection, 15 units of additional requirements for the social work major also may be applied toward fulfilling General Education requirements (see General Education). Consult the social work department chair or your faculty adviser for details.

[^41]:    *This figure takes into consideration the fact that a General Education CORE, Critical Thinking course (Soc 3) and a maximum of two BREADTH courses (Soc 1 and 131) may be applied to satisfy the sociology major requirements (see General Education). Consult the sociology department chair or faculty adviser for additional details.

[^42]:    Total. 18

[^43]:    * In these programs, a student may not earn a degree without also declaring an option.
