

# FACULTY AND STAFF HONOR ROLL

## THANK You

In appreciation of your outstanding dedication to the success of Fresno State students

This spring, IRAP surveyed students who applied for graduation. We asked if there was anyone at Fresno State who positively influenced their success. If so, who was that person and how did they help? 444 students named 317 faculty and staff members. What did these people do that garnered student praise? They: "motivated me to work hard," "inspired me to be successful," "believed in me," "pushed me to do my best," "instilled confidence in me," "helped me stay on track," and "challenged me to learn." They "helped me when I struggled," "were always available when needed," "offered advice and encouragement," and were "warm and welcoming." They "mentored me," and "guided me." They "opened my eyes to the world," and "wanted to make sure we understood." They were "interesting and fun," "approachable," and showed "passion for teaching and their job." They are a "role model." They are "people who want you to succeed."

Here are Fresno State's student-appointed motivators, inspirers, and facilitators of student success. Congratulations!

*\*Those with an asterisk were mentioned by multiple students.*
