Re: Computer Policy

The Student Affairs Committee recommends that the computer policy read as follows. Updated language is underlined.

"At California State University, Fresno, computers and communications links to remote resources are recognized as being integral to the education and research experience. Every student is required to have his/her own computer or have other personal access to a workstation (including a modem and a printer) with all the recommended software. The minimum and recommended standards for the workstations, software and networking, which may vary by academic major, are updated periodically and are available from the University Help Desk <http://csufresno.edu/help>. In the curriculum and class assignments, students are presumed to have 24-hour access to a computer workstation and the necessary communication links to the University's information resources."
