

January 20, 2020

To the sitting members of the 2019-2020 California State University, Fresno Academic Senate,

It is with earnest conviction that the student signers listed below present this document respectfully urging you to establish a Bachelor of Music degree at California State University, Fresno. We affirm our acknowledgement of the increased academic requirements that will be asked of us upon instatement of this degree, and argue that the additional units and corresponding work load are well worth our temporal and financial investments. The results of establishing a Bachelor of Music degree would benefit both students and the university at large, creating a degree option that is more valued by graduate schools and potential employers.

We ask that you support this investment in our university and, ultimately, our academic futures by establishing a Bachelor of Music degree at California State University, Fresno.

Sincerely,
