**Request to Elevate Bachelor of Arts in Music, Instrumental Performance
Option, to a Full Degree Program
California State University, Fresno
November 6, 2017**

1. Program Type

Option Elevation

2. Program Identification

- a. California State University, Fresno
- b. Bachelor of Music, Instrumental Performance (Currently a BA in Music, Instrumental Performance option)
- c. Intended implementation in Fall, 2019
- d. Total number of units required for graduation: 122-124
- e. Department of Music, College of Arts & Humanities
- f. This proposal has been drafted by the following Department of Music faculty:
 - Dr. Matthew Darling, Professor, Department Chair
 - Dr. Kenneth Froelich, Professor (Composition) and Chair, Dept. Curriculum Committee
- g. This program is not subject to WASC substantive change review, since it has no substantive changes in its content.
- h. Proposed Classification of Instructional Program code: 50.0903
- i. Teach-out Policy language: Students who choose to stay in their current Instrumental Performance option will be able to complete their degree without disruption. None of the courses they require for graduation will be discontinued from the program and all of the courses will continue to be offered at the same frequency as in previous semesters.
- j. Once the elevation is approved, the current Instrumental Performance option will no longer be offered to entering students (new or transfer). This option will be discontinued in all future catalogs. All students currently enrolled in the Instrumental Performance Option will be given the choice to (1) remain in the Instrumental Performance option per their General Catalog, or (2) change to the new BM, Instrumental Performance degree and complete the requirements per the General Catalog in their graduate semester. Once all existing students exit the program, the current Instrumental Performance option will be discontinued.

3. Program Overview and Rationale

- a. Provide a rationale for option or concentration elevation to a full degree program:

The goals of the Department of Music's Mission Statement "Advancing the musical arts through education, community engagement, artistic creation and performance" have been furthered by many successes in recent years, including placing numerous graduates in prestigious advanced degree programs as well as seeing some of our former students get jobs at colleges and universities around the country. The Bachelor of Music Instrumental Performance degree will enable the Department to be more competitive statewide and regionally with students seeking a professional instrumental or vocal performance degree. Within the CSU we lose music students to programs that offer the BM degree throughout California, including CSU Stanislaus, San Jose State, CSU Sacramento, CSU Long Beach,

CSU Fullerton, CSU Northridge, CSU San Bernardino, and UOP. It will also make it easier for our graduates to move on to an institution that offers the Master of Music Performance degree, as the equivalent Bachelor's degree is the Bachelor of Music, not the Bachelor of Arts. Our Department has always prided itself on the accomplishments of graduates from its performance options. The Bachelor of Music degree will more accurately reflect the amount of work and dedication the students and professors devote to their craft. The Bachelor of Music in Performance degree would replace the existing Bachelor of Arts in Music, performance option. The degree will include an Entrepreneurship course from outside the Department.

VII. Closing the Loop

The Department of Music has an Assessment Committee whose sole responsibility is to develop the Department's SOAP, review Assessments, and make recommendations regarding improvement of curriculum on the basis of Assessments. Assessments are generally reviewed at the end of the spring semester and curriculum improvements are recommended at the beginning of the following fall semester. The Department Curriculum Committee is responsible for recommending curricular adjustments to the faculty and for following these adjustments through the University process, as needed. If necessary adjustments require "simple" adjustments in classroom instruction, the Assessment Committee will share Assessment results with the affected faculty who will determine what

kind of changes will bring about the desired result. Faculty are integral to the Assessment process and are always free to review Assessment results and make changes on their own without involvement with the formal process.

Given the nature of an academic year, decisions made regarding curricular changes will generally be made during the AY following completion of the assessments.
