

You are invited to attend the beginning of the **Central California STEM Collaborative (CCSC)** on **October 30, 2013.**

The goals of this network are to:

- Increase STEM literacy and career pathways for K-16 students and teachers from Merced to Tulare to Kings Counties through community partnerships and metrics that matter.
- Build a robust local K-16 STEM learning, communication and collaboration network within and across districts, counties and public/private sectors.

This is the first of 4 meetings that will occur throughout the 2013-14 school year. Each meeting will consist of STEM sharing by a K-12 entity, University/ College and a business that is currently partnered with a school.

Click here to register to attend the October 30 meeting:

<http://statecenter.com/events/2013/10/30/central-california-stem-collaboration-day>

Please forward this invitation to other businesses that could benefit from partnering with local schools and districts.
